INDEPENDENT AUDITORS' REPORT

Board of Directors  
Carr Securities Corporation

We have audited the accompanying statement of financial condition of Carr Securities Corporation as of August 31, 2008. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose for expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Carr Securities Corporation as of August 31, 2008 in conformity with accounting principles accepted in the United States of America.

The representation of financial statements in conformity with generally accepted accounting principles requires management to make estimates, such as the valuation of securities owned. These estimates, by their nature, are based on judgment and available information. As such, actual results could differ from these estimates.
