Rule 802 Legend

This exchange offer or business combination is made for the securities of a foreign company. The offer is subject to disclosure requirements of a foreign country that are different from those of the United States. Financial statements included in the document, if any, have been prepared in accordance with foreign accounting standards that may not be comparable to the financial statements of United States companies.

It may be difficult for you to enforce your rights and any claim you may have arising under the federal securities laws, since the issuer is located in a foreign country, and some or all of its officers and directors may be residents of a foreign country. You may not be able to sue a foreign company or its officers or directors in a foreign court for violations of the U.S. securities laws. It may be difficult to compel a foreign company and its affiliates to subject themselves to a U.S. court's judgments.

You should be aware that the issuer may purchase securities otherwise than under the exchange offer, such as in open market or privately negotiated purchases.

3. Purposes of the Meeting

Matters to be Resolved:

Proposal No. 1: Incorporation of a Wholly-Owning Parent Company by way of Stock Transfer

- ◎ If you attend the meeting, please submit the enclosed Voting Form at the reception of the meeting.
- ◎ If it is necessary to revise the reference materials for the Extraordinary General Meeting of Shareholders, the business report, the financial statements or the consolidated financial statements, the Company will post such revisions on the Company's website (<http://www.tis.co.jp/>).

Guideline for Exercising Your Voting Rights, etc.

1. Exercising Your Voting Rights by Proxy

If you are unable to attend the General Meeting of Shareholders, you may have another shareholder with voting rights attend the General Meeting of Shareholders on your behalf. However, please note that a document certifying the proxy is necessary to vote by proxy.

2. Treatment of Redundant Submission of Votes in Writing and via Internet

If the voting rights are exercised redundantly in writing and via Internet, the content of the vote submitted via Internet will be treated as the valid exercise of the voting rights.

3. Treatment of Redundant Submission of Votes via Internet

If the voting rights are exercised multiple times via Internet, the content of the vote in the last submission will be treated as the valid exercise of the voting rights. If the votes are submitted redundantly via Internet and via mobile phone, the content of the vote in the last submission will be treated as the valid exercise of the voting rights.

4. Guideline for Exercising Your Voting Rights via Internet

If you are exercising your voting rights via Internet, please review the following before you place your vote.

If you are attending the meeting, you need not proceed with voting in writing (Voting Form) or via Internet.

(1) Voting Website

- (a) To place your vote via Internet, you may vote only by accessing the Voting Website designated by our company (<http://www.evotc.jp/>) from your computer or mobile phone (i-mode, EZweb or Yahoo! Mobile)* (You may not vote during the hours between 2:00am and 5:00am everyday).

PROPOSALS AND REFERENCE INFORMATION

Proposal No.1 Incorporation of a Wholly-Owning Parent Company by way of Stock Transfer

1. Reasons for the implementation of the Stock Transfer

With the solid economy, IT service industry is expected to gradually and continuously grow because of the stable IT investment particularly in the financial and manufacturing sectors. On the other hand, customers today have become increasingly conscious about the cost-effectiveness of IT investment, and their requirements are getting more advanced as a result of the IT technological innovation and the improvement of network infrastructure. In addition, the business environment of the IT service industry may not necessarily be optimistic because the competition is intensifying due to the increased off-shore development in China, India etc., the customer lock-in through the M&As by major IT players and the emergence of new competitors. Given such business environments, it is essential to deliver more additional value to the customers and maintain the growth as one of the top IT service companies by expanding the customer base as the stable resource of revenue and reinforcing the areas of strength.

The Company and INTEC Holdings Ltd. (hereinafter "INTEC HD") have each grown as independent IT service companies. To accomplish further growth, we now determined that it is the best choice to implement business integration between the Company and INTEC HD, and share and utilize our management resources, customer base, and technological expertise in order to significantly improve corporate values. In particular, considerable synergies can be found in the sectors of banking and insurance, in which INTEC HD excels, and in the sectors of credit card, manufacturing and chemicals, in which the Company has expertise.

Upon the integration, both companies will provide the customers with maximized additional value and further contribute to the society by fully utilizing the strengths of each company while respecting the corporate history and culture of each other. In order to maximize the corporate values and to establish the leading position in the IT services, the Company and INTEC HD will strive to achieve the management

integration and innovation and the generation of synergies at an earliest possible time.

The effects and basic strategies of this business integration are as follows:

- (1) Increase Profit-Earning Opportunities by Improving Basic Strengths
 - Aggressively pursue large transactions, capital investments, R&D investments and M&A opportunities by expanding the stable earning base
 - Establish a sustainable and effective service delivery system by improving resource mobilizing capability and diversifying human resources
 - Strengthen capabilities to provide solutions and improve profitability by sharing technologies and know-how
- (2) Establish Differentiated Areas of Strengths to Accelerate the Growth
 - Establish a competitive advantage by utilizing the rich domain expertise in the credit card, banking, insurance and chemical industries
 - Significantly increase the profit by synergetic effects in the areas such as retail industry
 - Increase additional values in the outsourcing business, in which both companies have strong backgrounds, and further seek customer demand

For the above purposes, this proposal asks for your approval to establish a wholly-owning parent company "IT Holdings Corporation" through stock transfer (hereinafter the "Stock Transfer") executed under the stock transfer plan jointly created by the Company and INTEC HD (hereinafter the "Plan"), and for the Company and INTEC HD to become wholly owned subsidiary companies of IT Holdings Corporation. If this proposal is approved and "IT Holdings Corporation" is established, the Company and INTEC HD, under "IT Holdings Corporation", will endeavor to increase the corporate value of the group, undertake the social responsibilities of a corporation, and contribute to the realization of a better IT society as a leading company in the information service industry.

We sincerely ask for your approval of these proposals.

2. Details of the stock transfer plan

Details of the Plan are as set forth in the "Stock Transfer Plan (Copy)" as provided from page 33 to page 41 herein.

3. Matters concerning the appropriateness of determinations concerning stipulations set forth in Article 773, Paragraph 1, Items 5 and 6 of the Companies Act

With respect to appropriateness of determinations concerning stipulations in Article 773, Paragraph 1, Items 5 and 6 of the Companies Act, upon the incorporation of IT Holdings Corporation as a wholly-owning parent company by way of stock transfer as a result of the Stock Transfer in accordance with the Plan jointly prepared by the Company and INTEC HD, the Company has made following determination:

- (1) Matters concerning shares to be delivered by IT Holdings Corporation to the shareholders of the Company and INTEC HD upon the Stock Transfer to replace said shares held, and the appropriateness of determinations concerning provisions on the number of shares of IT Holdings Corporation or the rules concerning the calculation method of such shares and their allotment

Upon consultation with INTEC HD, the Company established the following allotment ratio of shares to be allotted to replace the shares of the Company and INTEC HD (hereinafter the "Stock Transfer Ratio") by IT Holdings Corporation at the time of the Stock Transfer (hereinafter the "Stock Transfer Ratio"), and we determined the Stock Transfer Ratio to be appropriate.

- (i) Appointment of third-party institutions for the calculation of the stock transfer ratio

In order to ensure the fairness of the Stock Transfer Ratio to be used in the Stock Transfer, Nomura Securities Co., Ltd. (hereinafter "Nomura Securities") and Mitsubishi UFJ Securities Co., Ltd. (hereinafter "Mitsubishi UFJ Securities") were each appointed as financial adviser by the Company and INTEC HD, respectively, for the management integration, and commissioned to make the calculation of the Stock Transfer Ratio.

- (ii) Calculation method and basis of calculation for the Stock Transfer Ratio by the third-party institutions

The Company obtained a report containing the following calculation results from Nomura Securities prior to the meeting of the board of directors to approve the conclusion of the basic agreement

concerning the management integration. Since there are market share prices for shares of both companies, Nomura Securities made calculations for both companies by using the market price method in addition to the DCF (discounted cash flow) Method and the comparable peer company method. The valuation results based on each method are as follows. The following valuation ranges of the Stock Transfer Ratio show the valuation ranges of the shares of common stock of the INTEC HD per one share of common stock of the Company.

	Method Used	Range of Stock Transfer Ratio
1	Market Share Price Analysis	0.69 to 0.75
2	Comparable Companies Analysis	0.38 to 0.97
3	DCF Analysis	0.78 to 0.92

With regard to the average market price method, the closing share price on the calculation record date of December 7, 2007 and the average of the closing share prices for the one (1) month period preceding and until the calculation record date were adopted.

For the calculation of the Stock Transfer Ratio, Nomura Securities has used the information as provided by both companies, publicly available information, and other relevant information, and on the assumption that all such materials and information are accurate and complete, has not made any independent verification of their accuracy and completeness. Furthermore, Nomura Securities has not made any independent evaluation, appraisal or assessment of the assets or liabilities (including contingent liabilities) of either company or their affiliates, including analysis and assessment of each individual asset and liability, or has not appointed any third-party institution for appraisal or assessment. In addition, it is assumed that the information on the financial projections and expected synergistic effect reported by both companies have been rationally prepared on the basis of the best possible estimates and judgment currently available from the management of each company. The calculation of the Stock Transfer Ratio made by Nomura Securities has taken into account information and economic conditions as of December 7, 2007.

INTEC HD obtained a report containing the following calculation results from Mitsubishi UFJ Securities prior to the meeting of the board of directors to approve the conclusion of the basic agreement concerning the management

integration. Mitsubishi UFJ Securities calculated the Stock Transfer Ratio by using the market price method, DCF (discounted cash flow) Method, and comparable peer company method, to analyze the market share prices, future profitability and other factors of both companies from various perspectives. The calculation results based on each method are as follows. The following valuation ranges of the Stock Transfer Ratio show the valuation ranges of the shares of common stock of the INTEC HD per one share of common stock of the Company.

	Method Used	Range of Stock Transfer Ratio
1	Market Share Price Analysis	0.68 to 0.86
2	DCF Analysis	0.56 to 0.88
3	Comparable Companies Analysis	0.39 to 0.64

With regard to the market price method, in order to take into consideration the effects of the most recent disclosures on material facts made by both companies, Mitsubishi UFJ Securities calculated the valuation ranges of the Stock Transfer Ratio on the basis of the closing stock prices during the following three periods, with December 7, 2007 as the record date: (i) November 16 to December 7, 2007 (the period commencing on the first business day after the announcement of the interim financial results for the fiscal year ending March 2008 of INTEC HD); (ii) November 8 to December 7, 2007 (the one month period immediately preceding the record date); and (iii) October 29 to December 7, 2007 (the period commencing on the first business day after the announcement of the amended earnings forecast of the Company for the fiscal year ending March 2008).

For the calculation of the Stock Transfer Ratio, Mitsubishi UFJ Securities has used the information as provided by both companies, publicly available information, and other relevant information, and on the assumption that all such materials and information are accurate and complete, has not made any independent verification of their accuracy and completeness. Furthermore, Mitsubishi UFJ Securities has not made any independent evaluation, appraisal or assessment of the assets or liabilities (including contingent liabilities) of either company or their affiliates, including analysis and assessment of each individual asset and liability. In addition, it is assumed that the financial projections of both companies have been rationally prepared on the basis of the best possible estimates and judgment currently available from the management of each company. The calculation of the Stock Transfer Ratio made by

Mitsubishi UFJ Securities has taken into account all aforementioned information provided as of December 7, 2007.

(iii) Deliberation of the Stock Transfer Ratio

The Company, on the basis of the calculation results of the Stock Transfer Ratio by Nomura Securities, and INTEC HD, on the basis of the calculation results of the Stock Transfer Ratio by Mitsubishi UFJ Securities, made comprehensive consideration of the financial and assets conditions and future outlook and other relevant factors of both companies, and upon careful deliberation on the Stock Transfer Ratio between them, on December 13, 2007, arrived at the judgment that the following Stock Transfer Ratio is appropriate.

Company	the Company	INTEC HD
Stock Transfer Ratio	1.00	0.79

(Note) Upon the Stock Transfer, one share of common stock of IT Holdings Corporation will be allotted and delivered for each common stock of the Company, and 0.79 shares of common stock of IT Holdings Corporation will be allotted and delivered for each share of common stock of INTEC HD.

(iv) Preparation of the Plan

The Company subsequently confirmed that as of January 28, 2008, no material changes had been made to the conditions which were the basis of the aforementioned Stock Transfer Ratio. Upon such confirmation, the Company and INTEC HD, at respective board of directors' meetings held on January 28, 2008, approved the Plan that sets forth the aforementioned Stock Transfer Ratio, following which the Plan was prepared jointly with INTEC HD.

Furthermore, the Company, prior to the aforementioned meeting of the board of directors, obtained an opinion from Nomura Securities as its financial advisor to the effect that, from the financial point of view, the Stock Transfer Ratio set forth in the Plan is fair to the shareholders of the Company as of January 28, 2008. In addition, INTEC HD obtained an opinion from Mitsubishi UFJ Securities as its financial advisor to the effect that, from the financial point of view, the Stock Transfer Ratio set forth in the Plan is fair to the shareholders of INTEC HD as of January 25, 2008.

- (2) Matters concerning the appropriateness of the provisions concerning the amounts of stated capital and capital reserves for IT Holdings Corporation

Considering comprehensively the capital policies, etc., of IT Holdings Corporation after its incorporation, the Company, upon consultation with INTEC HD and pursuant to Article 83 of the Corporate Accounting Rules, decided to set the amount of stated capital to be ¥10 billion, the capital reserve to be ¥2.5 billion, and the earned reserve to be ¥0, and determined that such amounts are appropriate.

4. Matters concerning the appropriateness of determinations on stipulations set forth in Article 773, Paragraph 1, Items 9 and 10 of the Companies Act in relation to the stock acquisition rights as provided for in Article 808, Paragraph 3, Item 3 of the Companies Act

In establishing IT Holdings Corporation as a wholly-owning parent company by stock transfer through the Stock Transfer executed under the Plan jointly created by the Company and INTEC HD, the Company decided on the basis of mutual consultation and taking into consideration the details of the stock acquisition rights (1) to (4) that have been issued by both companies and the Stock Transfer Ratio, with the aim of affording equal protection for the rights of shareholders and all stock acquisition rights holders, to allocate, according to the content and ratios set forth in (1) to (4) below, stock acquisition rights of INTEC Holdings Ltd. to replace the stock acquisition rights held by such stock acquisition rights holders, and determined that these were appropriate.

- (1) With respect to the holders of the Second Series of Stock Acquisition Rights (the details of which are as set forth in Exhibit 2 of the Plan) of the Company, one unit of the First Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 3 of the Plan will be allotted to replace one unit of said stock acquisition rights held.
- (2) With respect to the holders of the Third Series of Stock Acquisition Rights (the details of which are as set forth in Exhibit 4 of the Plan) of the Company, one unit of the Second Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 5 of the Plan will be allotted to replace one unit of said stock acquisition rights held.
- (3) With respect to the holders of the Fourth Series of Stock Acquisition Rights (the details of which are as set forth in Exhibit 6 of the Plan) of the Company, one unit of the Third Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 7 of the Plan will be allotted to replace one unit of said stock acquisition rights held.

- (4) With respect to the holders of the First Series of Stock Acquisition Rights of INTEC Holdings Ltd. (the details of which are as set forth in Exhibit 8 of the Plan), one unit of the Fourth Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 9 of the Plan will be allotted to replace one unit of said stock acquisition rights held.
5. Matters concerning INTEC Holdings Ltd.
- (1) Details of financial statements and other documents for the final fiscal year (ended March 2007)
The details of financial statements, etc. of INTEC HD for the fiscal year ended March 2007 are as set forth in the "Reference Materials for the General Meeting of Shareholders (Supplement) Attachment for Proposal No. 1(Financial statements, etc. of INTEC HD Ltd. for the fiscal year ended March 2007)".
- (2) Details of events which occurred after the last day of the final fiscal year which may cause material effects to the status of the company assets
Not applicable
6. Details of the events which occurred to the Company after the last day of the final fiscal year (ended March 2007) and which may cause material effects to the status of the company assets
Not applicable

remuneration for Directors and Corporate Auditors shall be no more than 25 and 7 million yen per month, respectively. Furthermore, in order to promote the linking of remuneration of executive officers excluding the Outside Directors and Corporate Auditors with corporate performance, we will not use an executive bonus or executive retirement compensation system, and plan instead to use a system of performance-linked compensation. "IT Holdings Corporation" is scheduled to initially have eight Directors, and four Corporate Auditors. The above remuneration for directors does not include salaries as employees for the Directors who are also employees.

Proposal No.2 Partial Amendment to the Articles of Incorporation

1. Reason for amendment

The record date for the Ordinary General Meeting of Shareholders is set in Paragraph 1 of Article 12 (Record Date) of the existing Articles of Incorporation to smoothly execute the procedures for calling the General Meeting of Shareholders pursuant to the provisions of Paragraph 3 of Article 124 of the Companies Act. However, if “Proposal No.1 Establishment of a Wholly-Owning Parent Company by way of Stock Transfer” is approved, on the date of incorporation of the wholly-owning parent company by way of stock transfer, the Company’s sole shareholder will become IT Holdings Corporation, the wholly-owning parent company by way of stock transfer, and accordingly, the system of the record date of the general meeting of shareholders shall be terminated; furthermore, since Paragraph 2 of Article 12 merely states what is provided in Paragraph 1 and 3 (main clause) Article 124, and Paragraph 5 of the Companies Act, Article 12 of the existing Articles of Incorporation shall be expunged, and the provisions of Article 13 and each article thereafter of the existing Articles of Incorporation shall be moved up by one.

This amendment to the Articles of Incorporation shall become effective on March 31, 2008, subject to the conditions that Proposal No.1 is approved, the Plan as approved in Proposal No.1 has not lost force by the day preceding March 31, 2008, and the Stock Transfer has not been cancelled.

**Descriptions of the Second Series of Stock Acquisition Rights of
TIS Inc.**

1. Name of Stock Acquisition Rights

The Second Series of Stock Acquisition Rights of TIS Inc.

2. Class and Number of Shares subject to Stock Acquisition Rights

327,500 shares of common stock of TIS Inc. (hereinafter referred to as the "Company")

In cases where the Company conducts a stock split or stock consolidation, the number of shares subject to the Stock Acquisition Rights shall be adjusted according to the following formula; provided, however, that such adjustment shall be made only with respect to the shares subject to stock acquisition rights which have not been exercised or cancelled at the time of the stock split or stock consolidation. Fractions of less than one share resulting from the adjustment shall be rounded down.

$$\begin{array}{rcccl} \text{Number of Shares after} & & \text{Number of Shares} & & \text{Split (or Consolidation)} \\ \text{Adjustment} & = & \text{before Adjustment} & \times & \text{Ratio} \end{array}$$

Additionally, in the event that the Company merges with another company, where the Company becomes a wholly-owning parent company by way of share exchange, or where the Company conducts a company split, if determined to be necessary by the Company, the Company may adjust the number of shares subject to stock acquisition rights. In such case, the aforementioned provisional statement shall be applied.

3. Amount to be Paid upon the Exercise of Stock Acquisition Rights

The amount to be paid in per share subject to each stock acquisition right (hereinafter referred to as the "Paid-in Amount") is ¥2,750.

In cases where the Company, after issuance of stock acquisition rights, conducts a stock split or stock consolidation, the Paid-in Amount shall be adjusted according to the following formula, and any fractions less than one yen shall be rounded up.

$$\text{Paid-in Amount after Adjustment} = \text{Paid-in Amount before Adjustment} \times \frac{1}{\text{Split/Consolidation Ratio}}$$

Additionally, after issuance of stock acquisition rights, in the event that the Company merges with another company, where the Company conducts a share exchange with another company and becomes a wholly-owning parent company, or where the Company conducts a company split, if determined to be necessary by the Company, the Company may adjust the Paid-in Amount. In such case, any fractions less than one yen shall be rounded up.

4. Exercise Period of Stock Acquisition Rights

From July 1, 2005 to December 31, 2008

5. Conditions for Exercising Stock Acquisition Rights

(1) A person, who is allotted stock acquisition rights (hereinafter referred to as the "Stock Acquisition Rights Holder"), may exercise the allotted shares in part or in whole in each and every period provided below, provided, however, that in cases where the number of exercisable shares is less than the number of one share unit or its number integrally multiplied, any fractions less than one unit shall be rounded up, and rights with respect to the number of shares integrally multiplied by the share unit may be exercised.

- (i) Right to 1/4 of the shares subject to the allotted stock acquisition rights may be exercised from July 1, 2005 to December 31, 2005
- (ii) Right to 1/2 of the shares subject to the allotted stock acquisition rights may be exercised from January 1, 2006 to December 31, 2006
- (iii) Right to 3/4 of the shares subject to the allotted stock acquisition rights may be exercised from January 1, 2007 to December 31, 2007
- (iv) Right to all shares subject to the allotted stock acquisition rights may be exercised from January 1, 2008 to December 31, 2008

(2) A Stock Acquisition Rights Holder must be, at the time of exercising the Stock Acquisition Rights, either a director or employee of the Company, or a director, operating officer or employee of the Company's subsidiary; provided, however, that if after July 1, 2005, the Stock Acquisition Rights Holder loses its position as director, operating officer or employee due to any of the reasons provided in each item below, the Stock Acquisition Rights Holder may exercise the Stock

Acquisition Rights within the extent of the provisions set forth in the above 4 and each item below.

- (i) In cases where the Stock Acquisition Rights Holder who is a director or operating officer loses his/her position as a director or operating officer due to resignation or expiration of the term or where he/she loses his/her position as an operating officer or employee following the loss of his/her position as director, notwithstanding the aforementioned 5 (1), the Stock Acquisition Rights Holder may exercise all of the allotted stock acquisition rights for a maximum of two years from the date of losing such position.
 - (ii) In cases where the Stock Acquisition Rights Holder who is an employee retires due to secondment, notwithstanding the aforementioned 5 (1), the Stock Acquisition Rights Holder may exercise all of the allotted stock acquisition rights for a maximum of two years from the date of retirement.
 - (iii) In cases where the Stock Acquisition Rights Holder who is an employee loses his/her position as employee in accordance with Article 42 of the Rules of Employment of the Company (Mandatory Retirement) or Article 44 of the Rules of Employment of the Company's subsidiary (Mandatory Retirement), the Stock Acquisition Rights Holder may exercise the allotted stock acquisition rights, limited to the number of shares which were exercisable at the time of retirement, for a maximum of one year from the date of losing such position.
- (3) In cases where the Stock Acquisition Rights Holder who is an employee is absent from work, or where he/she is on administrative leave under the provisions of Article 38, Paragraph 1, Items 2 through 4 or Article 38, Paragraphs 2 and 3 of the Rules of Employment of the Company or under the provisions of Article 40, Paragraph 1, Items 2 through 4 or Article 40, Paragraphs 2 and 3 of the Rules of Employment of the Company's subsidiary (hereinafter referred to as the "Leave"), each of the following items must be applied.
- (i) In cases where the Stock Acquisition Rights Holder who is an employee is absent or on the Leave, the Stock Acquisition Rights Holder may not exercise his/her Stock Acquisition Rights during that period.
 - (ii) In cases where the Stock Acquisition Rights Holder who is an employee is absent or on the Leave over 12 months consecutively from the date of issuance of stock acquisition rights to the date of the exercise of the

rights (including the cases where the sum of the consecutive absence and Leave exceeds 12 months), the Stock Acquisition Rights Holder may not exercise the Stock Acquisition Rights notwithstanding the preceding provisions.

- (4) After July 1, 2005, in cases where the Stock Acquisition Rights Holder retires due to death, an heir of the Stock Acquisition Rights Holder may exercise the Stock Acquisition Rights, limited to the number of shares which were exercisable at the time of the commencement of inheritance, for a maximum of one year after the commencement of inheritance.
- (5) In cases where the Company adjusts the number of shares subject to the Stock Acquisition Rights or the Paid-in Amount, and the Company determines it necessary, the Company may restrict the exercise of the Stock Acquisition Rights to the extent reasonable and necessary.
- (6) In cases where the Company merges with another company, the unexercised stock acquisition rights shall be treated according to applicable agreements in relation to the merger.

6. Reasons the Company may Acquire Stock Acquisition Rights and Conditions of Acquisition

- (1) In cases where the merger agreement, under which the Company becomes a dissolving company, is approved, or where the proposals on the share exchange agreement and the share transfer plan, under which the Company becomes a wholly-owned subsidiary, are approved at the General Meeting of Shareholders, the stock acquisition rights may be acquired without contribution.
- (2) If a Stock Acquisition Rights Holder, prior to the exercise of stock acquisition rights no longer fulfills the conditions for exercising stock acquisition rights (except for the cases in above 5.(1)), the Company may acquire such unexercised stock acquisition rights without contribution.

7. Matters concerning Transfer of Stock Acquisition Rights

In the event that the Stock Acquisition Rights Holder transfers the Stock Acquisition Rights, it shall require the approval of the Board of Directors.

8. Issuance of Stock Acquisition Rights Certificates
The stock acquisition rights certificates shall be issued only if a request is made by the Stock Acquisition Rights Holder.

9. Amount of the Issue Price of Shares which are not Incorporated into the Stated Capital in the event of Issuance of Shares due to Exercise of Stock Acquisition Rights
The amount of the issue price of shares which are not incorporated into the stated capital in the event of issuance of shares due to exercise of the Stock Acquisition Rights shall be the amount deducting the amount to be incorporated into the stated capital from the issue price (provided, however, that if an adjustment is made to the issue price, the issue price after the adjustment). The amount to be incorporated into the stated capital shall be the amount obtained by multiplying the issue price (provided, however, that if an adjustment is made, the issue price after adjustment) by 0.5, and in the event that the amount includes fractions of less than one yen as a result of the calculation, the fractions shall be rounded up.

10. Determination of Detailed Matters
Other detailed matters concerning terms for and methods of exercising stock acquisition rights shall be provided in the Agreement on Allotment of Stock Acquisition Rights to be entered into with the Stock Acquisition Rights Holders.

- (iii) Right to all shares subject to the allotted Stock Acquisition Rights may be exercised from January 1, 2010 to December 31, 2010

- (2) The Stock Acquisition Rights Holder must be, at the time of exercising the Stock Acquisition Rights, either a director or employee of the Company, or a director, operating officer or employee of the Company's subsidiary; provided, however, that if the Stock Acquisition Rights Holder loses his/her position as director, operating officer or employee due to any of the reasons provided in each item below, the Stock Acquisition Rights Holder may exercise the Stock Acquisition Rights within the extent of the provisions set forth in the above 4 and each item below.
- (i) In cases where the Stock Acquisition Rights Holder who is a director or operating officer loses his/her position as a director or operating officer due to resignation or expiration of the term or where he/she loses his/her position as an operating officer or employee following the loss of his/her position as a director, notwithstanding the aforementioned 5 (1), the Stock Acquisition Rights Holder may exercise all of the allotted Stock Acquisition Rights for a maximum of two years from the date of losing such position.
 - (ii) In cases where the Stock Acquisition Rights Holder who is an employee retires due to secondment, notwithstanding the aforementioned 5 (1), the Stock Acquisition Rights Holder may exercise all of the allotted Stock Acquisition Rights for a maximum of two years from the date of retirement.
 - (iii) In cases where the Stock Acquisition Rights Holder who is an employee loses his/her position due to mandatory retirement, the Stock Acquisition Rights Holder may exercise the allotted Stock Acquisition Rights, limited to the number of shares which were exercisable at the time of retirement, for a maximum of one year from the date of losing such position.
- (3) In cases where the Stock Acquisition Rights Holder who is an employee is absent from work, or on administrative leave, each of the following items must be applied.
- (i) In cases where the Stock Acquisition Rights Holder who is an employee is absent or on administrative leave, the Share Option Holder shall not exercise his/her Share Options during that period.
 - (ii) In cases where the Share Option Holder who is an employee is absent or on administrative leave over 12 months consecutively from the date of issuance of the Stock Acquisition Rights to the date of the exercise of the rights (including the cases where the sum of the consecutive absence

and administrative leave exceeds 12 months), the Stock Acquisition Rights Holder may not exercise the Stock Acquisition Rights notwithstanding the preceding provisions.

- (4) In cases where the Stock Acquisition Rights Holder retires due to death, an heir of the Stock Acquisition Rights Holder may exercise the Stock Acquisition Rights, limited to the number of shares which were exercisable at the time of the commencement of inheritance for a maximum of one year after the commencement of inheritance.
 - (5) In cases where the Company adjusts the number of shares subject to the Stock Acquisition Rights or the Paid-in Amount, and the Company determines it necessary, the Company may restrict the exercise of the Stock Acquisition Rights to the extent reasonable and necessary.
 - (6) In cases where the Company merges with another company, the unexercised Stock Acquisition Rights shall be treated according to applicable agreements in relation to the merger.
6. Matters regarding Increase in Stated Capital and Capital Reserves when Issuing Shares due to Exercise of Stock Acquisition Rights
 - (1) The amount of stated capital that is to be increased when shares are issued upon exercise of the Stock Acquisition Rights shall be half (1/2) of the maximum amount of increase of stated capital, etc. calculated according to Paragraph 1 of Article 40 of the Corporate Accounting Rules (*kaisha keisan kisoku*), and any fractions less than one yen shall be rounded up.
 - (2) The amount of capital reserves that is to be increased when shares are issued upon exercise of the Stock Acquisition Rights shall be the maximum amount of increase of stated capital, etc. described in (1) above, less the amount of the increase of the stated capital provided in (1) above.
7. Reasons the Company may Acquire Stock Acquisition Rights and Conditions of Acquisition
 - (1) In cases where the merger agreement, under which the Company becomes a dissolving company, is approved or where the share exchange agreement or share transfer plan, under which the Company becomes a wholly-owned subsidiary, is approved, the Company may acquire the Stock Acquisition Rights without contribution.

- (2) In cases where the Stock Acquisition Rights Holder, prior to the exercise of the Stock Acquisition Rights, no longer fulfills the conditions for exercising the Stock Acquisition Rights (except for the cases in above 5.(1)), the Company may acquire the Stock Acquisition Rights without contribution.
8. **Restrictions on Acquisition of Stock Acquisition Rights by way of Transfer**
In the event that the Stock Acquisition Rights Holder transfers the Stock Acquisition Rights, it shall require the approval of the Board of Directors.
9. **Rule on Fractions Less than One Share Resulting from Exercise of the Stock Acquisition Rights**
Fractions less than one share in the number of shares to be delivered to the Stock Acquisition Rights Holder who has exercised the Stock Acquisition Rights, if any, shall be rounded down.
10. **Determination of Detailed Matters**
Methods of exercising the Stock Acquisition Rights and other detailed matters shall be provided in the Agreement on Allotment of Stock Acquisition Rights to be entered into with the Stock Acquisition Rights Holder.

**Descriptions of the First Series of Stock Acquisition Rights of
INTEC Holdings, Ltd.**

1. Class and Number of Shares subject to Stock Acquisition Rights

The class of shares subject to the First Series of stock acquisition rights of INTEC Holdings, Ltd. (hereinafter referred to as the "Stock Acquisition Rights") shall be common stock of INTEC Holdings, Ltd. (hereinafter referred to as the "Company"). The number of shares subject to each of the Stock Acquisition Rights (hereinafter referred to as the "Number of Target Shares") shall be one thousand (1,000).

In cases where the Company conducts a stock split or stock consolidation with respect to the shares of common stock of the Company, the Number of Target Shares shall be adjusted according to the following formula.

Number of Shares after Adjustment =
Number of Shares before Adjustment x Split/Consolidation Ratio

In addition, if the Company conducts a merger, company split, share exchange or share transfer (hereinafter collectively referred to as the "Merger, etc."), or allotment of shares without contribution, or if any adjustment of the Number of Target Shares is necessary, the Number of Target Shares may be adjusted to the extent reasonable, in consideration of the conditions of the Merger, etc. or the conditions of the allotment of shares without contribution or any other relevant factors.

However, any fraction less than one share resulting from the adjustment shall be rounded down.

2. Amount of Assets Invested upon the Exercise of Each Stock Acquisition Right

Upon the exercise of each Stock Acquisition Right, an investment shall be made in cash, and it shall be the amount calculated by multiplying the amount of ¥1,176 per share which should be paid in upon exercising each Stock Acquisition Right (hereinafter referred to as the "Exercise Price") by the Number of Target Shares.

If, after issuance of the Stock Acquisition Rights, the Company conducts a stock split (including allotment of common stock without contribution; hereinafter the same shall apply) or stock consolidation of the common stock of the Company, the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up.

Exercise Price after Adjustment =
Exercise Price before Adjustment x $\frac{1}{\text{Split/Consolidation Ratio}}$

In addition, if the Company issues common stock of the Company or disposes treasury shares at a price lower than the market price (excluding those resulting from the exercise of stock acquisition rights (including those accompanying bonds) entitling holders to request the Company to issue common stock), the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up. The term "Number of Issued

Shares” in the following formula shall be the total number of issued common stock of the Company minus the number of treasury shares relating to common stock held by the Company. In addition, in the event of disposition of treasury shares, the term “Number of Newly-issued Shares” shall be read as the term “Number of Treasury Shares to be Disposed”.

Exercise Price after Adjustment =

$$\text{Exercise Price before Adjustment} \times \frac{\text{Number of Issued Shares} + \frac{\text{Number of Newly-issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price before Issue of New Shares}}}{\text{Number of Issued Shares} + \text{Number of Newly-issued Shares}}$$

3. Exercise Period of Stock Acquisition Rights

From November 1, 2006 to March 31, 2011. However, if the last date of the exercise period is a non-business day of the Company, the last date of the exercise period shall be the preceding business day.

4. Matters regarding Increase in Stated Capital and Capital Reserves when Issuing Shares due to Exercise of Stock Acquisition Rights

(1) The amount of stated capital that is to be increased when shares of common stock of the Company are issued upon exercise of the Stock Acquisition Rights shall be half (1/2) of the maximum amount of increase of stated capital, etc. calculated according to Paragraph 1 of Article 40 of the Corporate Accounting Rules (*kaisha keisan kisoku*), and any fraction less than one (1) yen resulting from the calculation, shall be rounded up.

(2) The amount of capital reserves that is to be increased when shares are issued upon exercise of the Stock Acquisition Rights shall be the maximum amount of increase of stated capital, etc. described in (1) above, less the amount of the increase of the stated capital provided in (1) above.

5. Restriction on Acquisition of Stock Acquisition Rights by way of Transfer

Approval by the resolution of the Board of Directors of the Company shall be required to acquire the Stock Acquisition Rights by way of transfer.

6. Reasons the Company may Acquire Stock Acquisition Rights

If an absorption merger agreement or consolidation merger agreement by which the Company becomes a dissolving company, an absorption split agreement or plan for split through establishment of a new company by which the Company becomes a split company, or a share exchange agreement or share transfer plan by which the Company becomes a wholly-owned subsidiary, is approved at a general meeting of shareholders of the Company or at a meeting of the Board of Directors of

the Company, and if a date of acquisition is designated by the Company, the Company may acquire all the Stock Acquisition Rights without contribution, when such designated date comes.

7. Conditions for the Exercise of Stock Acquisition Rights
 - (1) Holders of the Stock Acquisition Rights (hereinafter referred to as the "Stock Acquisition Rights Holders") shall be required to hold a position as a director or employee of the Company or a subsidiary of the Company at the time of the exercise of the Stock Acquisition Rights as well, except for the case where such holder retires from the position of a director of the Company or a subsidiary of the Company due to an expiration of the term of office, retires at the age of mandatory retirement, or transfers to an affiliate of the Company, or otherwise the Company deems that there is any reasonable ground other than the above.
 - (2) In the event of death of the Stock Acquisition Rights Holder, no successor may exercise the Stock Acquisition Rights.
 - (3) The details of any other matters shall be subject to the Agreement on Allotment of Stock Acquisition Rights, which is to be entered into by and between the Company and the Stock Acquisition Rights Holders based on resolution of the Board of Directors of the Company.
8. Fractions less than one share of the shares to be delivered to the Stock Acquisition Rights Holders, who have exercised the Stock Acquisition Rights, if any, shall be rounded down.

**Descriptions of the Fourth Series of Stock Acquisition Rights of
IT Holdings Corporation**

1. Name of Stock Acquisition Rights

The Fourth Series of Stock Acquisition Rights of IT Holdings Corporation (hereinafter referred to as the "Stock Acquisition Rights")

2. Class and Number of Shares subject to Stock Acquisition Rights

The class of shares subject to each of the Stock Acquisition Rights shall be common stock of IT Holdings Corporation (hereinafter referred to as the "Company"). The number of shares subject to each of the Stock Acquisition Rights (hereinafter referred to as the "Number of Target Shares") shall be 790 shares.

In cases where the Company conducts a stock split or stock consolidation with respect to the shares of common stock of the Company, the Number of Target Shares shall be adjusted according to the following formula.

$$\begin{array}{ccccccc} \text{Number of Shares after} & & & & \text{Number of Shares} & & \text{Split/Consolidation} \\ \text{Adjustment} & = & & \times & \text{before Adjustment} & & \text{Ratio} \end{array}$$

In addition, if the Company conducts a merger, company split, share exchange or share transfer (hereinafter collectively referred to as the "Merger, etc."), or allotment of shares without contribution, or if any adjustment of the Number of Target Shares is necessary, the Number of Target Shares may be adjusted to the extent reasonable, in consideration of the conditions of the Merger, etc. or the conditions of the allotment of shares without contribution or any other relevant factors.

However, any fraction less than one share resulting from the adjustment shall be rounded down.

3. Amount of Assets Invested upon the Exercise of Each Stock Acquisition Right

Upon the exercise of each Stock Acquisition Right, an investment shall be made in cash, and it shall be the amount calculated by multiplying the amount of ¥1,489 per

share which should be paid in upon exercising each Stock Acquisition Right (hereinafter referred to as the "Exercise Price") by the Number of Target Shares. If, after issuance of the Stock Acquisition Rights, the Company conducts a stock split (including allotment of common stock without contribution; hereinafter the same shall apply) or stock consolidation of the common stock of the Company, the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up.

$$\text{Exercise Price after Adjustment} = \frac{\text{Exercise Price before Adjustment}}{\text{Split/Consolidation Ratio}} \times 1$$

In addition, if the Company issues common stock of the Company or disposes treasury shares at a price lower than the market price (excluding those resulting from the exercise of stock acquisition rights (including those accompanying bonds) entitling holders to request the Company to issue common stock), the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up. The term "Number of Issued Shares" in the following formula shall be the total number of issued common stock of the Company minus the number of treasury shares relating to common stock held by the Company. In addition, in the event of disposition of treasury shares, the term "Number of Newly-issued Shares" shall be read as the term "Number of Treasury Shares to be Disposed".

$$\text{Exercise Price after Adjustment} = \frac{\text{Exercise Price before Adjustment} \times \left(\frac{\text{Number of Issued Shares} + \frac{\text{Number of Newly-issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price before Issue of New Shares}}}{\text{Number of Issued Shares} + \text{Number of Newly-issued Shares}} \right)}{1}$$

4. Exercise Period of Stock Acquisition Rights

From April 1, 2008 to March 31, 2011. However, if the last date of the exercise period is a non-business day of the Company, the last date of the exercise period shall be the preceding business day.

5. Matters regarding Increase in Stated Capital and Capital Reserves when Issuing

Shares due to Exercise of Stock Acquisition Rights

- (1) The amount of stated capital that is to be increased when shares of common stock of the Company are issued upon exercise of the Stock Acquisition Rights shall be half (1/2) of the maximum amount of increase of stated capital, etc. calculated according to Paragraph 1 of Article 40 of the Corporate Accounting Rules (*kaisha keisan kisoku*), and any fraction less than one (1) yen resulting from the calculation, shall be rounded up.
- (2) The amount of capital reserves that is to be increased when shares are issued upon exercise of the Stock Acquisition Rights shall be the maximum amount of increase of stated capital, etc. described in (1) above, less the amount of the increase of the stated capital provided in (1) above.

6. **Restriction on Acquisition of Stock Acquisition Rights by way of Transfer**
Approval by the resolution of the Board of Directors of the Company shall be required to acquire the Stock Acquisition Rights by way of transfer.

7. **Reasons the Company may Acquire Stock Acquisition Rights and Conditions of Acquisition**

If an absorption merger agreement or consolidation merger agreement by which the Company becomes a dissolving company, an absorption split agreement or plan for split through establishment of a new company by which the Company becomes a split company, or a share exchange agreement or share transfer plan by which the Company becomes a wholly-owned subsidiary, is approved at a general meeting of shareholders of the Company or at a meeting of the Board of Directors of the Company, and if a date of acquisition is designated by the Company, the Company may acquire all the Stock Acquisition Rights without contribution, when such designated date comes.

BUSINESS REPORT

(From October 2, 2006 to March 31, 2007)

Note: Although our first fiscal year is from October 2, 2006 to March 31, 2007, this consolidated fiscal year is from April 1, 2006 to March 31, 2007.

1. Current Status of the Corporate Group

(1) Status of business of this consolidated fiscal year

i. Business Progress and Performance

(i) Overview of whole operations of this consolidated fiscal year

The Japanese economy recovered steadily during this consolidated fiscal year, with increased private capital investment and further improvement in the job market, thanks to increased corporate revenues.

With solid growth in IT investment by the private sector, including financial, distribution, service, and manufacturing, the information and telecommunications industries showed steady growth.

Although in equipment leasing, the main product line of IT equipment showed a trend of decrease in the number of units and value, favorable results in office equipment continued, resulting in no significant net change in the lease market overall.

Based on increased demand due to growth in the economy, real estate leasing and management continued on the road to recovery as far as the vacancy rate for metropolitan areas is concerned. Rents, however, have remained unchanged or are down slightly in areas other than the downtown core of Tokyo.

To further increase the corporate value of the INTEC Group (i.e., our company and its consolidated subsidiaries; the same applies hereinafter), we established INTEC Holdings, Ltd. as a pure holding company as of October 2, 2006.

Actively pursuing a growth strategy under our new holding structure, our group is expanding: we acquired shares of FLEX Inc. in October, of Keyport Solutions Inc. in December, and of Chuo System Corporation in March, as part of the growth plan of our information and telecommunications business, adding them to the portfolio of our direct subsidiaries. In November, we also acquired our most recent subsidiary, MITEC Inc., which manufactures electronic parts.

Under such conditions, our business results for the current consolidated fiscal year (April 1, 2006, to March 31, 2007) were 115,483 million yen in sales (5.1% higher than the March 2006 consolidated results for INTEC Inc.), an operating income of 9,588 million yen (+9.7%), income before extraordinary items of 8,391 million yen (+15.9%), with the current net earnings increasing significantly from the net loss of 1,211 million yen of March 2006 results of INTEC Inc. to 4,960 million yen.

(ii) Overview of Business Segments

[Information and Telecommunications Business]

In the information and telecommunications business, the core of all our activities, we act as an IT partner to our clients, seeking to strengthen their competitiveness by building strategic information systems to facilitate their management. We also provide auxiliary services to optimize their utilization of IT. In this area we planned and worked aggressively to increase our business.

Our software business grew steadily, with orders coming in from financial institutions for large development projects for integrated systems, as well as for core operating systems from the manufacturing, distribution, and service industries. We increased our development resources for financial institutions to enable us to respond to the demand for secondary development projects that we anticipated, following mergers among large banks. Our participation in projects with regional banks for information system sharing is ongoing.

In the manufacturing sector we delivered a number of reconfigured core operating systems to large clients and also succeeded in the development and

delivery of many production and sales systems to small and medium-sized manufacturers.

For customers in the distribution and service sectors we developed and delivered business and information systems.

With an increasing number of proposals on the table for large software system development, we expanded the developmental capacity of Hokuriku Software Factory to increase our competitive strength and revenue. In addition, INTEC Information Technology (Wuhan) Co., Ltd., our major overseas operation, started to contribute fully to our development efforts.

As part of our efforts to further improve quality and increase productivity, we developed IP3 (Intec Process for Best Performance and High Productivity) through systematic compilation and standardization of all business processes throughout our company. It was officially adopted and implemented as the uniform enterprise standard. In addition, we made the status of each project visible through the support of, and audit by, the PMO (Project Management Office) and the introduction of EPM (Enterprise Project Management) that tracks progress and cost estimates. Sophisticated management of projects was thus made possible.

In system integration, inquiries kept streaming in from large regional banks regarding the financial institution-oriented information system called "F3" (F-Cube), and our marketing efforts are ongoing.

We expanded in the area of outsourcing by initiating the core partner strategic program in collaboration with major computer manufacturers and software vendors. We succeeded in stimulating new demand, which led to orders for system management and operations from a number of companies.

In the area of networks, we were actively involved in the joint verification and formulation of standard specifications under the Standardization Project for Next-Generation B-to-B Electronic Interchange (EDI) by the Ministry of Economy, Trade and Industry, with "B-ixServ" utilized as the communications server of the messaging standard for the distribution sector by large retailers and wholesalers. Having formed a business alliance with UL Systems Inc. in

the area of next-generation EDI service for the distribution industry last December, we built full capability to offer comprehensive services ranging from consulting to outsourcing.

In the area of biotechnology, we experienced steady growth in development contracts from universities, research institutions, and companies involved in pharmaceuticals, food, and biotechnology. One of our main products, "EXpath II", a system for pathological and cytological tests, was very well received by the market, and we were successful in sales of the new version to both existing users and new customers.

Meanwhile, there was a steady increase in the number of people using "My Kitokito Diary," a system for preventing lifestyle-related diseases, which was put into full operation in August 2006. We plan to enhance the features of the system and market it nationwide. In the search and analysis services using biomarkers, we made progress in our joint research with pharmaceutical and food product manufacturers and university research laboratories.

[Leasing Business]

In order to strengthen our cost competitiveness, we continued our efforts to reduce financing costs. At the same time, we actively pursued a variety of business alliances to hedge against the risk of rising interest rates. Our corporate assets were reviewed and restructured to improve our financial strength, and interest-bearing debt was reduced to counter the risk of higher interest rates.

[Real Estate Leasing and Management]

In addition to actively recruiting tenants with the goal of maintaining and increasing the occupancy rate of our properties, we performed repairs and maintenance of buildings to increase the level of satisfaction of our tenants.

To increase efficiency, INTEC Kosan Inc., a real estate-related subsidiary, was merged with My City Inc. (The surviving corporation, INTEC Kosan Inc., changed its name to INTEC Amenity Inc.)

Our segmental sales and operating income of the current consolidated fiscal year are as follows:

(Millions of yen)

2. Through our acquisition of shares of Keyport Solutions, Inc., on December 4, 2006, it and its subsidiaries ODK Information System Co., Ltd. and es Crew, Inc. became consolidated subsidiaries of INTEC Holdings.
3. INTEC Kosan Inc. was merged with My City Inc. The surviving corporation, INTEC Kosan Inc., changed its name to INTEC Amenity Inc.
4. Through additional acquisition of shares on May 25, 2006, HOKKOKU INTEC SERVICE was converted from our equity method affiliate to our consolidated subsidiary.

(4) Management Awareness of Problems

The goal in our core business, information and telecommunications services, is to contribute to the growth of clients through IT, and on the basis of our customers' trust, we will grow our company through technology and intellectual capital. We also seek to expand our businesses of software development, system integration, outsourcing, and network services.

As an IT corporate group that handles important customer information, we regard information security as our most important challenge. We deeply regret the incident of July 2006, in which data, including personal information, was inadvertently released onto the Internet in a system development project for which INTEC Inc. was commissioned. In addition to strengthening our security controls, the group stepped up training and education initiatives for all our employees and for those of our affiliates to prevent any reoccurrence of such an

incident. As part of these efforts, we have established an Information Security Committee that is attended by all group members. We have not only implemented specific measures for information security but also constantly watch out for risks and threats so that we can swiftly take proactive measures. We have been and continue to be active in certification for information security and to date have obtained the Privacy Mark for personal information security, ISMS (Information Security Management System), and ISO9001, an international model standard for quality control and quality assurance, created by the International Organization for Standardization. In the future, we will continue to take the utmost precautions to safeguard information security, complying with laws and corporate ethics, and act as a good corporate citizen in the community.

Meanwhile, as we face the need to respond to large-scale development projects, developing human resources has become more and more important. As part of our efforts to improve the skills of our employees, the group established INTEC College, where we provide employees with technical training based on our own systems. To further improve technical skills, we have developed the Skills Management System as a means to conduct fair skill assessments and appropriate allocation of human resources.

We are actively engaged in the Ubiquitous Solutions business, which is the area emerging as the cutting-edge IT trend, and B2B-ix, the next generation of business-to-business transactions on the Internet. B2B-ix is expected to become the next-generation VAN infrastructure for business-to-business transactions. We will promote it to the sectors we are familiar with and introduce it to new industries as well.

In our lease business, we are taking the appropriate measures to ensure fair lease rates, reduce the burden of interest-bearing debt, and deal with the risk of rising interest rates.

In our real estate leasing and management business, we are experiencing difficulties attracting tenants due to corporate restructuring of operations. In addition to increasing the level of satisfaction among our tenants in rental buildings, including residential properties, and maintaining and improving the current high occupancy rate, we will develop the high-value-added business of comprehensive property management, including such related services as building

construction.

On April 1, 2007, we reorganized the INTEC Group by moving the domestic subsidiaries of INTEC Inc. in the information and telecommunications sector to the direct ownership of INTEC Holdings, Ltd.

Under this holding company structure, we are strengthening the management efficiency of the group, including corporate strategy, business resource management, and compliance. We will increase our capacity for growth and thereby the corporate value of our entire group, enabling us to offer more to the community as a corporate citizen.

(5) Major businesses (as of March 31, 2007)

We are mainly involved in the information and telecommunications business, and are developing the businesses of outsourcing, software, system integration, network, IT consulting, bio-infomatics, etc. We also provide services regarding associated operations including leasing business, real estate leasing and management, personnel-service business, and advertising.

(4) Status of Accounting Auditor

- Name of Accounting Auditor: Ernst & Young ShinNihon
- Amount of Fees for Accounting Auditors for this Fiscal Year

(millions of yen)	
Classification	Amount paid
Amount of Fees for Accounting Auditors for this Fiscal Year	4 (note 1)
Total amount of monies and other financial benefits to be paid by the Company and the Company's subsidiary	41

Notes:

- This amount is for the Company's first fiscal year, from October 2, 2006 to March 31, 2007.

2. The accounting documents of the following subsidiaries of the Company are audited by Ernst & Young ShinNihon:
INTEC INC., INTEC Web and Genome Informatics Corporation, INTEC LEASING INC., My City Inc.
My City Inc. was merged with INTEC Kosan Inc. (presently INTEC Amenity Inc.) on January 1, 2007.
3. The accounting documents of the following subsidiaries of the Company are audited by an accounting firm other than the Company's accounting auditor:
IUK INC., INTEC Solution Power Inc., INTEC Amenity Inc., Keyport Solutions, Inc.
4. The amount of fees for this fiscal year above is the sum of the fees for auditing under the Companies Act and the fees for auditing under the Securities Exchange Act because there is no clear division between the two under the audit agreement between the Company and the accounting auditor, nor is division between the two possible in practice.
- iii. Policy on Determining Dismissal or No Reappointment of Accounting Auditor
In addition to dismissal of the accounting auditor by the board of corporate auditors under Article 340 of the Companies Act, if it is recognized as difficult for the accounting auditor to properly perform duties, a proposal for dismissal or no reappointment of the accounting auditor shall be put to a shareholders' meeting, subject to approval of or request by the board of corporate auditors.

(5) Structure to Ensure Appropriateness of Business Operations

- i. Structure to ensure the compliance of directors' execution of duties with laws and regulations and the Articles of Incorporation
Directors shall execute their duties properly according to the rules of the board of directors, the rules of corporate structure, the rules of administrative authority, and the rules of compliance. In order to reinforce the stewardship function of the board of directors, we have outside directors.
- ii. Structure regarding preservation and administration of information regarding directors' execution of duties
Information regarding directors' execution of duties (minutes of the board meetings, minutes of the management committees, approval documents, etc.) shall be preserved and administrated according to the rules of documents.
- iii. Rules and other structures regarding loss risk control
We prevent loss by improving the structure to handle various loss risks according to the risk management regulations, and conducting internal audits.

For protection of private information in accordance with the management system described in JIS Q 15001 regarding protection of private information, we set associated regulations and improve the structure to implement and comply with them.

iv. Structure to ensure efficiency of directors' execution of duties

Directors shall manage the board of directors properly according to the rules of the board of directors. By having outside directors, we reinforce the stewardship function of the board of directors. We promote business efficiency and quickness by convening a management committee from time to time as a means to discuss important issues regarding operations, in addition to board meetings.

v. Structure to ensure the compliance of employees' execution of duties with laws and regulations and the Articles of Incorporation

Employees shall execute their duties properly according to the rules of corporate structure, the rules of segregation of duties and the rules of administrative authority. Important execution of duties shall be discussed at the management committee and reported to the board of directors. We have the Compliance Department to ensure the compliance of employees' execution of duties with laws and regulations and the Articles of Incorporation. The Compliance Department conducts internal audits on entire operations including compliance, and familiarizes all employees with compliance by holding compliance workshops.

vi. Structure to ensure appropriateness of business operations of corporate group consisting of the Company and its parent company and subsidiaries

According to the Group Operation Regulation, we set clear business goals for each group company and conduct performance monitoring which evaluates their completion and achievement quantitatively and qualitatively. Issues which may have a material impact on a company or the entire INTEC group shall be discussed and determined on a multidimensional basis at a meeting of the company or companies concerned. In order to enhance the governance of the entire group, the Compliance Department conducts internal audits on whole operations including compliance over each group company.

vii. Concerning Employee(s) assigned to assist the corporate auditors upon request of corporate auditors

Some members of the department of general affairs of the Group will be assigned as staff members to the board of corporate auditors and assist the corporate auditors.

viii. Independence from the directors of employee(s) to assist the corporate auditors
Personnel matters concerning employee(s) to assist the corporate auditors shall be subject to prior consultation with the corporate auditors.

ix. System for reporting to the corporate auditors by directors and employees and the system for other reporting to the corporate auditors

The directors shall, without delay, report to the corporate auditors on matters discussed or reported at the management committee. The directors shall report information regarding whistle-blowing to the corporate auditors according to the rules of compliance. In the event any incident or accident occurs, the director or the department head in charge shall report to the corporate auditors without delay.

x. Other systems to ensure efficiency of the corporate auditors' audit

The departments involved in internal audit or accounting shall assist the corporate auditors.

(6) Policy for Determining Distribution of Surplus Funds, etc.

There is no provision in the Articles of Incorporation concerning determination of the distribution of surplus funds, etc. by the board of directors.

(7) Basic Policy on the Control of the Company

Notes to Consolidated Financial Statements

[Notes to important issues to form the basis of preparation of consolidated financial statements]

1. Scope of consolidation

- (1) Number of consolidated subsidiaries and names of major consolidated subsidiaries

Number of consolidated subsidiaries: 15

Names of major consolidated subsidiaries:

Names of major consolidated subsidiaries are listed in "Business Report, 1. Current Status of the Corporate Group, (3) Status of Important Parent Company and Subsidiaries, ii Status of Important Subsidiaries".

HOKKOKU INTEC SERVICE was converted from our equity method affiliate to our consolidated subsidiary through additional acquisition of its shares. Keyport Solutions, Inc. and its subsidiaries ODK Information System Co., Ltd. and es Crew, Inc. became consolidated subsidiaries through acquisition of shares of Keyport Solutions, Inc. INTEC Kosan Inc. was merged with My City Inc., and changed its name to INTEC Amenity Inc.

- (2) Names of major non-consolidated subsidiaries, etc.

Names of major non-consolidated subsidiaries:

MITEC Inc., FLEX Co., Ltd., CHUOSYSTEM CORPORATION, etc.

Reason for non-consolidation:

Because every non-consolidated subsidiary is small in scale and the percentages of the total assets, sales, net income/loss or surplus funds of the Company and its consolidated subsidiaries are all minute, and therefore they are excluded from the scope of consolidation due to lack of significance.

2. Application of equity method

- (1) Number of non-consolidated subsidiaries and affiliates to which the equity method applies and names of major equity method companies

Number of non-consolidated subsidiaries to which the equity method applies: 2

Names of major equity method subsidiaries: MITEC Inc., FLEX Co., Ltd.

Number of affiliates to which the equity method applies: 2

Names of major equity method affiliates: PLANET, INC., e-solutions, inc.

- (2) Names of non-consolidated subsidiaries and affiliates to which the equity method does not apply

Names of major companies:

Non-consolidated subsidiary: INTEC IT Capital, Inc., etc.

Affiliate: Niikawa Information Center INC.

Reason for non-application of the equity method:

Because the impact of each on consolidated net income and consolidated surplus funds is small and they are insignificant overall, they are excluded from the application of the equity method.

- (3) Comments to be noted regarding the procedure of application of the equity method

Regarding companies for which the equity method is applied, for companies which have different accounting closing dates from the consolidated closing date, the financial statements of their most recent fiscal year are used.

3. Closing dates of consolidated subsidiaries

The accounting closing dates of the consolidated subsidiaries are the same as the consolidated closing date, except for IUK INC., HOKKAIDO INTEC Co., INTEC LEASING INC., INTEC Amenity Inc., SKY INTEC INC., Huma(n) Corporation (December 31). Regarding the companies which have different closing dates from the consolidated closing date, necessary adjustments for major transactions during the term between the closing date and the consolidated closing date are made on consolidation.

INTEC Web and Genome Informatics Corporation, INTEC Solution Power Inc., KOUSHI INTEC Inc., and WITHINTEC INC. changed their accounting closing dates from December 31 to March 31 during this fiscal year.

4. Accounting policy

- (1) Standards and methods of valuation of assets

- i. Investment securities

Held-to-maturity securities are assessed at amortized cost.

Marketable securities classified as available-for-sale securities are assessed at fair value with changes in unrealized holding gain or loss, net of the applicable income taxes, included directly in net assets.

Non-marketable securities classified as available-for-sale securities are assessed based on the cost determined by the moving average method.

Regarding investment to investment limited liability partnership or similar partnership (which are deemed as investment security under Section 2 of Article 2 of Securities Exchange Act), valuation is based on the available financial statements which are the most recent under the financial report dates provided in the partnership agreement, by the method of incorporating the amount equivalent to shares owned.

ii. Derivatives

Derivatives are stated at fair value.

iii. Inventories

Inventories are stated at cost on the basis of the specific identification method.

(2) Method of depreciation of fixed assets

i. Property, machinery and equipment

Depreciation is computed by the straight-line method over the estimated useful lives of the assets.

Leased assets are amortized by the straight-line method over the lease period.

ii. Intangible fixed assets

Software for sale is amortized by the greater of either (a) the amortization cost based on estimated sales volume or (b) the evenly amortized amount over the expected useful life of 3 years. Software for in-house use is amortized by the straight-line method, assuming in-house useful life of 5 years.

Other intangible fixed assets are amortized by the straight-line method.

(3) Standards of provision of allowance

i. Allowance for doubtful receivables

Allowance for doubtful receivables is accounted for through individual determination of collectability for specific uncollectible receivables and for normal receivables, through the loan loss ratio.

ii. Allowance for employees' bonuses

Allowance for employees' bonuses is accounted for at an amount based on the estimated bonuses to be paid to employees for services rendered for the fiscal year.

iii. Allowance for directors' and corporate auditors' bonuses

Allowance for directors' and corporate auditors' bonuses is accounted for at an amount based on the estimated bonuses to be paid to directors and corporate auditors for services in the fiscal year.

iv. Allowance for loss on development contracts

Provision is made for development contracts with future losses in an amount that can be reasonably estimated.

v. Employees' retirement benefits

Employees' retirement benefits have been provided at an amount calculated based on the retirement benefit obligation and the fair value of the pension plan assets, as adjusted for unrecognized actual gain or loss and unrecognized prior service cost.

Prior service cost is being amortized over a period of 5 years. Actual gain or loss is being mainly amortized by the straight-line method over a period of 13 years.

vi. Directors' and corporate auditors' retirement benefits

Directors' and corporate auditors' retirement benefits are provided at the amount the Companies would be required to pay, based on internal rules, if all eligible directors and corporate auditors were to retire at the fiscal year end.

(4) Other important issues to form the basis of preparation of consolidated financial statements

i. Deferred assets

All founding expenses were recorded as expenses at the time of disbursement.

ii. Lease transactions

Finance leases, other than those which are deemed to transfer the ownership of the leased assets to lessees, are accounted for as operating leases.

iii. Hedge accounting

(i) Hedge accounting method

Deferred hedge accounting is principally applied. For foreign exchange contracts, the applicable forward foreign exchange rates are applied if certain conditions are met. For interest-rate swaps, hedging instruments are recognized over the term of each swap agreement as an adjustment to the interest expense of the underlying hedged items if certain conditions are met.

(ii) Hedging instruments and hedged items

Hedging instruments	Hedged items
Foreign exchange contracts	Foreign currency trade notes and accounts receivable
Interest rate swap agreements	Borrowings

(iii) Hedging policy

The Company uses forward foreign exchange contracts to reduce its exposure to the loss arising from foreign currency trade notes and accounts receivable. It uses interest-rate swap transactions to reduce its exposure to the interest rate fluctuations.

(iv) Assessment of hedging activity effectiveness

Hedge effectiveness is assessed through comparison of the cumulative changes of cash flows in the hedging instruments to the cumulative changes of those in the hedged items. For interest-rate swaps meeting the criteria for special treatment, however, assessment is omitted.

iv. Consumption tax, etc.

Taxes are excluded.

5. Valuation of assets and liabilities of consolidated subsidiaries

All of assets and liabilities of consolidated subsidiaries are valued at fair value.

6. Depreciation of goodwill and negative goodwill

Goodwill at the date of acquisition—including negative goodwill and the difference between the acquisition cost and the fair value of the net equity of companies accounted for under the equity method—is amortized, by the straight-line method over the estimated useful lives (less than 20 years) as determined by information received from the respective companies acquired, unless the amount is unimportant.

Designated Partner, Engagement Partner
Certified Public Accountant Daizo Zoushima (seal)

Under Section 4 of Article 444 of the Companies Act, we have audited the consolidated financial statements of INTEC Holdings, Ltd. (the "Company"), namely, the consolidated balance sheet, the consolidated profit and loss statement, the consolidated statement of changes in net assets, and the notes to the consolidated financial statements for the year from April 1, 2006 to March 31, 2007. Responsibility as to the preparation of such consolidated financial statements lies with the Company's management. Our responsibility is to express our opinion on the consolidated financial statements from an independent position.

We conducted our audits in accordance with auditing standards generally accepted as fair and valid in Japan. Those auditing standards require that we obtain reasonable assurance that the financial statements are free of material misstatement. An audit is conducted on a test basis, and includes the examination of representations in the consolidated financial statements as a whole, including the examination of the accounting principles adopted by the management and the method of application thereof, and the evaluation of the estimate by the management. We have determined that, as a result of the audit, we have obtained a reasonable basis for giving an opinion.

In our opinion, the financial statements referred to above fairly represent, in all material respects, the status of assets and earnings of the corporate group comprised of the Company and its consolidated subsidiaries for the period, for which the consolidated financial statements were prepared, in conformity with the accounting principles generally accepted as fair and valid in Japan.

There is no special interest to be noted under the Certified Public Accountants Act between the Company and our firm or our accountant in charge.

Audit Report by the Board of Corporate Auditors regarding the Consolidated Financial Statements

Audit Report regarding the Consolidated Financial Statements

Regarding the consolidated financial statements (namely, the consolidated balance sheet, the consolidated profit and loss statement, the consolidated statement of changes in net assets, and the notes to the consolidated financial statements) for the consolidated fiscal year from April 1, 2006 to March 31, 2007, we have prepared this audit report upon deliberation based on the audit reports prepared by each corporate auditor, and hereby report as follows:

1. Method and results of audit by each corporate auditor and the board of corporate auditors

The board of corporate auditors determined the policy of audit and the division of roles, etc.; received reports from each corporate auditor regarding the status and results of audits; received reports from the directors, etc. and the accounting auditor regarding the status of their execution of duties; and requested explanations as necessary.

Each corporate auditor, according to the policy of audit and the division of roles, etc. determined by the board of corporate auditors, received reports from the directors and employees, etc. regarding the consolidated financial statements and requested explanations as necessary. Each corporate auditor monitored and examined whether the accounting auditor maintained its independent position and conducted proper audits, obtained reports from the accounting auditor regarding the status of its execution of duties, and requested explanations as necessary. Each corporate auditor was notified that "the structure to ensure appropriateness of business operations" (items listed in each paragraph of Article 159 of the Corporate Accounting Rules) was established according to "the quality control standard regarding audit" (by the Business Accounting Council, October 28, 2005), etc., and requested explanations as necessary. In accordance with the aforementioned methods, we have examined the consolidated financial statements for this fiscal year.

2. Results of audit

In our opinion, the methods and results of audits by the accounting auditor, Ernst & Young ShinNihon, are appropriate.

Notes to Financial Statements

[Notes concerning significant accounting policy]

(1) Standards and method of valuation of assets

i. Investment securities

Shares of subsidiaries and affiliates are assessed based on the cost determined by the moving average method.

Marketable securities classified as available-for-sale securities are assessed at fair value with changes in unrealized holding gain or loss, net of the applicable income taxes, included directly in net assets.

Non-marketable securities classified as available-for-sale securities are assessed based on the cost determined by the moving average method.

ii. Inventories

Inventories are stated at cost on the basis of the "first in, first out" method.

(2) Other important issues to form the basis of preparation of financial statements

i. Deferred assets

All founding expenses was recorded as expenses at the time of disbursement.

ii. Lease transactions

Under Paragraph 1 of Section 2 of Article 436 of the Companies Act, we have audited the financial statements of INTEC Holdings, Ltd. (the "Company"), namely, the balance sheet, the profit and loss statement, the statement of changes in net assets, the notes thereof, and the supplementary schedules thereof for the first fiscal year from October 2, 2006 to March 31, 2007. Responsibility as to the preparation of such financial statements and the supplementary schedules thereof lies with the Company's management. Our responsibility is to express our opinion on these financial statements and the supplementary schedules thereof from an independent position.

We conducted our audits in accordance with auditing standards generally accepted as fair and valid in Japan. Those auditing standards require that we obtain reasonable assurance that the financial statements and the supplementary schedules thereof are free of material misstatement. An audit is conducted on a test basis, and includes the examination of representations in the financial statements and the supplementary schedules thereof as a whole, including the examination of the accounting principles adopted by the management and the method of application thereof, and the evaluation of the estimate by the management. We have determined that, as a result of the audit, we have obtained a reasonable basis for giving an opinion.

In our opinion, the financial statements and the supplementary schedules thereof referred to above fairly represent, in all material respects, the status of assets and earnings of the Company for the period for which the financial statements were prepared, in conformity with the accounting principles generally accepted as fair and valid in Japan.

There is no special interest to be noted under the Certified Public Accountants Act between the Company and our firm or our accountant in charge.

Audit Report by the Board of Corporate Auditors

Audit Report regarding the Consolidated Financial Statements

Regarding directors' execution of duties during the first fiscal year from October 2, 2006 to March 31, 2007, we have prepared this audit report upon deliberation based on the audit reports prepared by each corporate auditor, and hereby report as follows:

1. Method and details of audit by each corporate auditor and the board of corporate auditors

The board of corporate auditors determined the policy of audit and the division of roles, etc., received the report from each corporate auditor regarding the status and results of audits, and received the report from the directors, etc. and the accounting auditor regarding the status of their execution of duties, and requested explanations as necessary.

Each corporate auditor, in compliance with the standards of audit by corporate auditors determined by the board of corporate auditors, and according to the policy of audit and the division of roles, etc. determined by the board of corporate auditors, communicated with the directors, the department of internal audit and other employees, etc., made efforts to gather information and enhance the audit environment, and meanwhile, attended meetings of the board of directors and other important meetings, obtained reports from directors and employees, etc. regarding their execution of duties, requested explanations as necessary, reviewed documents that record approval of material matters, etc., and conducted investigations regarding the status of business operations and assets of the head office and other major offices. Additionally, as necessary for ensuring the system to ensure conformity of execution of duties by the Directors with laws and regulations, and the Articles of Incorporation, and the properness of the other business of the joint stock company, the contents of resolutions of Board of Directors meetings concerning the preparation of systems as prescribed in Article 100, Paragraph 1 and Paragraph 3 of the Enforcement Ordinance of the Companies Act and the status of the system (the internal control system) established by such resolutions were overseen and inspected. Regarding the subsidiaries, each corporate auditor communicated with and shared information with the directors and corporate auditors, etc. of the subsidiaries, and obtained reports from the subsidiaries regarding their operations as necessary. Through the methods above, we have examined the business report and the supplementary schedules thereof for this fiscal year.

Furthermore, each corporate auditor monitored and examined whether the

accounting auditor maintained its independent position and conducted proper audits, and obtained reports from the accounting auditor regarding the status of its execution of duties, and requested explanations as necessary. Each corporate auditor was notified that “the structure to ensure appropriateness of business operations” (items listed in each paragraph of Article 159 of the Corporate Accounting Rules) was established according to “the quality control standard regarding audit” (by the Business Accounting Council, October 28, 2005) ,etc., and requested explanations as necessary. In accordance with the aforementioned methods, we have examined the financial statements (the balance sheet, the profit and loss statement, the statement of changes in net assets, and the notes thereof) and the supplementary schedules thereof for this fiscal year.

2 Results of audit

(1) Results of audit over the business report, etc.

- i. The business report and the supplementary schedules thereof fairly represent the status of the Company in conformity with laws and regulations and the Articles of Incorporation.
- ii. Regarding directors’ execution of duties, there is no misconduct or fact in violation of laws and regulations or the Articles of Incorporation.
- iii. The resolutions by the board of directors regarding the internal control system is appropriate. There is nothing to be noted relating to directors’ execution of duties regarding the internal control system.

(2) Results of audit over the financial statements and the supplementary schedules thereof

The methods and results of audits by the accounting auditor, Ernst & Young ShinNihon, are appropriate.

Reference Materials for General Meeting of Shareholders

Proposal No. 1: Incorporation of a Wholly-Owning Parent Company by way of Stock Transfer

1. Reasons for the implementation of the Stock Transfer

With the solid economy, IT service industry is expected to gradually and continuously grow because of the stable IT investment particularly in the finance industry and manufacturing sectors. On the other hand, customers today have become increasingly conscious about the cost-effectiveness of IT investment, and their requirements are getting more advanced as a result of IT technological innovation and the improvement of network infrastructure. In addition, the business environment of the IT service industry may not necessarily be optimistic because the competition is intensifying due to the increased offshore development in China, India, etc., the customer lock-in through the M&As by major players and the emergence of new competitors. Given such a business environment, it is essential to deliver more additional value to the customers and maintain the growth as one of the top IT service companies by expanding the customer base as the stable resource of revenue and reinforcing the areas of strength.

The Company and TIS Inc. (hereinafter "TIS") have each grown as independent IT service companies. To accomplish future growth, we now determined that it is the best choice to implement business integration between the Company and TIS, and share and utilize our management resources, customer base, and technological expertise to significantly improve corporate values. In particular, considerable synergies can be found in the sectors of banking and insurance, in which the Company excels, and in the sectors of credit card, manufacturing and chemicals, in which TIS has expertise.

Upon the integration, both companies will provide the customers with maximized additional value and further contribute to the society by fully utilizing the strengths of each company while respecting the corporate history and culture of each other. In order to maximize the corporate values and to establish the leading position in the IT services, the Company and TIS will strive to achieve the management integration and innovation and the generation of synergies at an earliest possible time.

The effects and basic strategies of this business integration are as follows:

- (1) Increase Profit-Earning Opportunities by Improving Basic Strengths
 - Aggressively pursue large transactions, capital investments, R&D investments and M&A opportunities by expanding the stable earning base
 - Establish a sustainable and effective service delivery system by improving resource mobilizing capability and diversifying human resources
 - Strengthen capabilities to provide solutions and improve profitability by sharing technologies and know-how
- (2) Establish Differentiated Areas of Strengths to Accelerate the Growth
 - Establish a competitive advantage by utilizing the rich domain expertise in the credit card, banking, insurance and chemical

industries

- Significantly increase the profit by synergetic effects in the areas such as retail industry
- Increase additional values in the outsourcing business, in which both companies have strong backgrounds, and further seek customer demand

For the above purposes, this proposal asks for your approval to establish a wholly-owning parent company "IT Holdings Corporation" through stock transfer executed under the stock transfer plan jointly created by the Company and TIS, and for the Company and TIS to become wholly owned subsidiary companies of IT Holdings Corporation. If we are able to obtain your approval as shareholders, the Company and TIS will establish "IT Holdings Corporation" on April 1, 2008. After the establishment, both companies, under "IT Holdings Corporation", will endeavor to increase the corporate value of the group, undertake the social responsibilities of a corporation, and contribute to the realization of a better IT society as a leading company in the information service industry.

We sincerely ask for your approval of these proposals.

2. Details of the stock transfer plan

Details of the stock transfer plan are as set forth in the "Stock Transfer Plan (Copy)" as provided from page 18 to page 26 herein.

3. Matters concerning the appropriateness of determinations concerning stipulations set forth in Article 773, Paragraph 1, Items 5 and 6 of the Companies Act

With respect to appropriateness of determinations concerning stipulations in Article 773, Paragraph 1, Items 5 and 6 of the Companies Act, upon the incorporation of IT Holdings Corporation as a wholly-owning parent company by way of stock transfer as a result of the stock transfer (hereinafter the "Stock Transfer") in accordance with the stock transfer plan (hereinafter the "Plan") jointly prepared by the Company and TIS Inc. (hereinafter "TIS"), the Company has made following determination:

- (1) Matters concerning shares to be delivered by IT Holdings Corporation to the shareholders of the Company and TIS upon the Stock Transfer to replace said shares held, and the appropriateness of determinations concerning provisions on the number of shares of IT Holdings Corporation or the rules concerning the calculation method of such shares and their allotment

Upon consultation with TIS, the Company established the following allotment ratio of shares to be allotted to replace the shares of the Company and TIS (hereinafter the "Stock Transfer Ratio") by IT Holdings Corporation at the time of the Stock Transfer, and we determined the Stock Transfer Ratio to be appropriate.

- (i) Appointment of third-party institutions for the calculation of the stock transfer ratio

In order to ensure the fairness of the Stock Transfer Ratio to be used in the Stock Transfer, Mitsubishi UFJ Securities Co., Ltd. (hereinafter "Mitsubishi UFJ Securities") and Nomura Securities Co., Ltd. (hereinafter "Nomura Securities") were each appointed as financial adviser by the Company and TIS, respectively, for the management integration, and commissioned to make the calculation of the Stock Transfer Ratio.

- (ii) Calculation method and basis of calculation for the Stock Transfer Ratio by the third-party institutions

The Company obtained a report containing the following calculation results from Mitsubishi UFJ Securities prior to the meeting of the board of directors to approve the conclusion of the basic agreement concerning the management integration. Mitsubishi UFJ Securities calculated the Stock Transfer Ratio by using the market price method, DCF (discounted cash flow) Method, and comparable peer company method, to analyze the market share prices, future profitability and other factors of both companies from various perspectives. The calculation results based on each method are as follows. The following valuation ranges of the Stock Transfer Ratio show the valuation ranges of the shares of common stock of the Company per one share of common stock of TIS.

	Method	Evaluation Range of Stock Transfer Ratio
(i)	Market Price Method	0.68-0.86
(ii)	DCF Method	0.56-0.88
(iii)	Comparable Peer Company Method	0.39-0.64

With regard to the market price method, in order to take into consideration the effects of the most recent disclosures on material facts made by both companies, Mitsubishi UFJ Securities calculated the valuation ranges of the Stock Transfer Ratio on the basis of the closing stock prices during the following three periods, with December 7, 2007 as the record date: (i) November 16 to December 7, 2007 (the period commencing on the first business day after the announcement of the interim financial results for the fiscal year ending March 2008 of the Company); (ii) November 8 to December 7, 2007 (the one month period immediately preceding the record date); and (iii) October 29 to December 7, 2007 (the period commencing on the first business day after the announcement of the amended earnings forecast of TIS for the fiscal year ending March 2008).

For the calculation of the Stock Transfer Ratio, Mitsubishi UFJ Securities has used the information as provided by both companies, publicly available information, and other

relevant information, and on the assumption that all such materials and information are accurate and complete, has not made any independent verification of their accuracy and completeness. Furthermore, Mitsubishi UFJ Securities has not made any independent evaluation, appraisal or assessment of the assets or liabilities (including contingent liabilities) of either company or their affiliates, including analysis and assessment of each individual asset and liability. In addition, it is assumed that the financial projections of both companies have been rationally prepared on the basis of the best possible estimates and judgment currently available from the management of each company. The calculation of the Stock Transfer Ratio made by Mitsubishi UFJ Securities has taken into account all aforementioned information provided as of December 7, 2007.

TIS obtained a report containing the following calculation results from Nomura Securities prior to the meeting of the board of directors to approve the conclusion of the basic agreement concerning the management integration.

Since there are market share prices for shares of both companies, Nomura Securities made calculations for both companies by using the market price method in addition to the DCF (discounted cash flow) Method and the comparable peer company method. The calculation results based on each method are as follows. The following valuation ranges of the Stock Transfer Ratio show the valuation ranges of the shares of common stock of the Company per one share of common stock of TIS.

	Method	Evaluation Range of Stock Transfer Ratio
(i)	Average Market Price Method	0.69-0.75
(ii)	Comparable Peer Company Method	0.38-0.97
(iii)	DCF Method	0.78-0.92

With regard to the average market price method, the closing share price on the calculation record date of December 7, 2007 and the average of the closing share prices for the one (1) month period preceding and until the calculation record date were adopted.

For the calculation of the Stock Transfer Ratio, Nomura Securities has used the information as provided by both companies, publicly available information, and other relevant information, and on the assumption that all such materials and information are accurate and complete, has not made any independent verification of their accuracy and completeness. Furthermore, Nomura Securities has not made any independent evaluation, appraisal or assessment of the assets or liabilities (including contingent liabilities) of either company or their affiliates, including analysis and assessment of each individual asset and liability, or has not appointed any third-party institution for appraisal or assessment. In addition, it is assumed that the information on the financial projections and expected synergistic effect reported by both companies have

been rationally prepared on the basis of the best possible estimates and judgment currently available from the management of each company. The calculation of the Stock Transfer Ratio made by Nomura Securities has taken into account information and economic conditions as of December 7, 2007.

(iii) Deliberation of the Stock Transfer Ratio

The Company, on the basis of the calculation results of the Stock Transfer Ratio by Mitsubishi UFJ Securities, and TIS, on the basis of the calculation results of the Stock Transfer Ratio by Nomura Securities, made comprehensive consideration of the financial and assets conditions and future outlook and other relevant factors of both companies, and upon careful deliberation on the Stock Transfer Ratio between them, on December 13, 2007, arrived at the judgment that the following Stock Transfer Ratio is appropriate.

Company Name	TIS	the Company
Stock Transfer Ratio	1.00	0.79

(Note) Upon the Stock Transfer, 0.79 shares of common stock of IT Holdings Corporation will be allotted and delivered for each share of common stock of the Company, and one share of common stock of IT Holdings Corporation will be allotted and delivered for each share of common stock of TIS.

(iv) Preparation of the Plan

The Company subsequently confirmed that as of January 28, 2008, no material changes had been made to the conditions which were the basis of the aforementioned Stock Transfer Ratio. Upon such confirmation, the Company and TIS, at respective board of directors' meetings held on January 28, 2008, approved the Plan that sets forth the aforementioned Stock Transfer Ratio, following which the Plan was prepared jointly with TIS.

Furthermore, the Company, prior to the aforementioned meeting of the board of directors, obtained an opinion from Mitsubishi UFJ Securities as its financial advisor to the effect that, from the financial point of view, the Stock Transfer Ratio set forth in the Plan is fair to the shareholders of the Company as of January 25, 2008. In addition, TIS obtained an opinion from Nomura Securities as its financial advisor to the effect that, from the financial point of view, the Stock Transfer Ratio set forth in the Plan is fair to the shareholders of TIS as of January 28, 2008.

- (2) Matters concerning the appropriateness of the provisions concerning the amounts of stated capital and capital reserves for IT Holdings Corporation

Considering comprehensively the capital policies, etc., of IT Holdings Corporation after its incorporation, the Company, upon consultation with TIS and pursuant to Article 83 of the Corporate Accounting Rules, decided to set the amount of stated capital to be ¥10 billion, the capital reserve to be ¥2.5 billion, and the earned reserve to be ¥0, and determined that such amounts are appropriate.

4. Matters concerning the appropriateness of determinations on stipulations set forth in Article 773, Paragraph 1, Items 9 and 10 of the Companies Act in relation to the stock acquisition rights as provided for in Article 808, Paragraph 3, Item 3 of the Companies Act

In establishing IT Holdings Corporation as a wholly owning parent company by stock transfer through the Stock Transfer executed under the Stock Transfer Plan jointly created by the Company and TIS Inc. (hereinafter the "Plan"), the Company decided on the basis of mutual consultation and taking into consideration the details of the stock acquisition rights (1) to (4) that have been issued by the both companies and the Stock Transfer Ratio, with the aim of affording equal protection for the rights of shareholders and all stock acquisition rights holders, to allocate, according to the content and ratios set forth in (1) to (4) below, stock acquisition rights of IT Holdings Corporation to replace the stock acquisition rights held by such stock acquisition rights holders, and determined that these were appropriate.

- (1) With respect to the holders of the Second Series of Stock Acquisition Rights (the details of which are as set forth in Exhibit 2 of the Plan) of TIS Inc., one unit of the First Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 3 of the Plan will be allotted to replace one unit of said stock acquisition rights held.
- (2) With respect to the holders of the Third Series of Stock Acquisition Rights (the details of which are as set forth in Exhibit 4 of the Plan) of TIS Inc., one unit of the Second Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 5 of the Plan will be allotted to replace one unit of said stock acquisition rights held.
- (3) With respect to the holders of the Fourth Series of Stock Acquisition Rights (the details of which are as set forth in Exhibit 6 of the Plan) of TIS Inc., one unit of the Third Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 7 of the Plan will be allotted to replace one unit of said stock acquisition rights held.
- (4) With respect to the holders of the First Series of Stock Acquisition Rights of INTEC Holdings Ltd. (the details of which are as set forth in Exhibit 8 of the Plan), one unit of the Fourth Series of Stock Acquisition Rights of IT Holdings Corporation as set forth in Exhibit 9 of the Plan will be allotted to replace one unit of said stock acquisition rights held.

The total amount of remuneration, etc. for Directors does not include any salaries payable to Directors who concurrently hold positions of employees for the execution of duties as employees.

Proposal No. 2: Partial Amendment to the Articles of Incorporation

1. Reason for amendment

Should "Proposal No. 1: Incorporation of a Wholly-owning Parent Company by way of Stock Transfer" be approved, on the date of incorporation of the wholly-owning parent company by way of stock transfer, the Company's sole shareholder will become IT Holdings Corporation, the wholly-owning parent company by way of stock transfer, and thus the provisions stipulating the record date of the ordinary general meeting of shareholders, etc. will become irrelevant. Accordingly, the system of the record date of the ordinary general meeting of shareholders, etc. shall be terminated, Article 13 (Record Date) of the existing Articles of Incorporation shall be expunged, and the provisions of Article 14 and each article thereafter of the existing Articles of Incorporation shall be moved up by one.

The amendment to the Articles of Incorporation shall become effective subject to the conditions that Proposal No. 1 is approved, the Stock Transfer Plan scheduled to be approved under Proposal No. 1 has not lost force by the day immediately preceding March 31, 2008, and the Stock Transfer has not been cancelled.

Furthermore, this amendment to the Articles of Incorporation shall come into effect on March 31, 2008.

2. Details of the amendment

The details of the amendment are as follows:

**Descriptions of the Second Series of Stock Acquisition Rights of
TIS Inc.**

1. Name of Stock Acquisition Rights

The Second Series of Stock Acquisition Rights of TIS Inc.

2. Class and Number of Shares subject to Stock Acquisition Rights

327,500 shares of common stock of TIS Inc. (hereinafter referred to as the "Company")

In cases where the Company conducts a stock split or stock consolidation, the number of shares subject to the Stock Acquisition Rights shall be adjusted according to the following formula; provided, however, that such adjustment shall be made only with respect to the shares subject to stock acquisition rights which have not been exercised or cancelled at the time of the stock split or stock consolidation. Fractions of less than one share resulting from the adjustment shall be rounded down.

$$\begin{array}{rcccl} \text{Number of Shares after} & & & & \\ \text{Adjustment} & = & \text{Number of Shares} & \times & \text{Split (or Consolidation)} \\ & & \text{before Adjustment} & & \text{Ratio} \end{array}$$

Additionally, in the event that the Company merges with another company, where the Company becomes a wholly-owning parent company by way of share exchange, or where the Company conducts a company split, if determined to be necessary by the Company, the Company may adjust the number of shares subject to stock acquisition rights. In such case, the aforementioned provisional statement shall be applied.

3. Amount to be Paid upon the Exercise of Stock Acquisition Rights

The amount to be paid in per share subject to each stock acquisition right (hereinafter referred to as the "Paid-in Amount") is ¥2,750.

In cases where the Company, after issuance of stock acquisition rights, conducts a stock split or stock consolidation, the Paid-in Amount shall be adjusted according to the following formula, and any fractions less than one yen shall be rounded up.

$$\text{Paid-in Amount after Adjustment} = \text{Paid-in Amount before Adjustment} \times \frac{1}{\text{Split/Consolidation Ratio}}$$

Additionally, after issuance of stock acquisition rights, in the event that the Company merges with another company, where the Company conducts a share exchange with another company and becomes a wholly-owning parent company, or where the Company conducts a company split, if determined to be necessary by the Company, the Company may adjust the Paid-in Amount. In such case, any fractions less than one yen shall be rounded up.

4. Exercise Period of Stock Acquisition Rights

From July 1, 2005 to December 31, 2008

5. Conditions for Exercising Stock Acquisition Rights

(1) A person, who is allotted stock acquisition rights (hereinafter referred to as the "Stock Acquisition Rights Holder"), may exercise the allotted shares in part or in whole in each and every period provided below, provided, however, that in cases where the number of exercisable shares is less than the number of one share unit or its number integrally multiplied, any fractions less than one unit shall be rounded up, and rights with respect to the number of shares integrally multiplied by the share unit may be exercised.

- (i) Right to 1/4 of the shares subject to the allotted stock acquisition rights may be exercised from July 1, 2005 to December 31, 2005
- (ii) Right to 1/2 of the shares subject to the allotted stock acquisition rights may be exercised from January 1, 2006 to December 31, 2006
- (iii) Right to 3/4 of the shares subject to the allotted stock acquisition rights may be exercised from January 1, 2007 to December 31, 2007
- (iv) Right to all shares subject to the allotted stock acquisition rights may be exercised from January 1, 2008 to December 31, 2008

(2) A Stock Acquisition Rights Holder must be, at the time of exercising the Stock Acquisition Rights, either a director or employee of the Company, or a director, operating officer or employee of the Company's subsidiary; provided, however, that if after July 1, 2005, the Stock Acquisition Rights Holder loses its position as director, operating officer or employee due to any of the reasons provided in each item below, the Stock Acquisition Rights Holder may exercise the Stock

Acquisition Rights within the extent of the provisions set forth in the above 4 and each item below.

as director, operating officer or employee due to any of the reasons provided in each item below, the Stock Acquisition Rights Holder may exercise the Stock Acquisition Rights within the extent of the provisions set forth in the above 4 and each item below.

- (i) In cases where the Stock Acquisition Rights Holder who is a director or operating officer loses his/her position as a director or operating officer due to resignation or expiration of the term or where he/she loses his/her position as an operating officer or employee following the loss of his/her position as director, notwithstanding the aforementioned 5 (1), the Stock Acquisition Rights Holder may exercise all of the allotted stock acquisition rights for a maximum of two years from the date of losing such position.
 - (ii) In cases where the Stock Acquisition Rights Holder who is an employee retires due to secondment, notwithstanding the aforementioned 5 (1), the Stock Acquisition Rights Holder may exercise all of the allotted stock acquisition rights for a maximum of two years from the date of retirement.
 - (iii) In cases where the Stock Acquisition Rights Holder who is an employee loses his/her position as employee due to mandatory retirement, the Stock Acquisition Rights Holder may exercise the allotted stock acquisition rights, limited to the number of shares which were exercisable at the time of retirement, for a maximum of one year from the date of losing such position.
- (3) In cases where the Stock Acquisition Rights Holder who is an employee is absent from work or on administrative leave, each of the following items must be applied.
- (i) In cases where the Stock Acquisition Rights Holder who is an employee is absent or on administrative leave, the Stock Acquisition Rights Holder may not exercise his/her Stock Acquisition Rights during that period.
 - (ii) In cases where the Stock Acquisition Rights Holder who is an employee is absent or on administrative leave over 12 months consecutively from date of issuance of stock acquisition rights to the date of the exercise of the rights (including the cases where the sum of the consecutive absence and administrative leave exceeds 12 months), the Stock Acquisition Rights Holder may not exercise the Stock Acquisition Rights notwithstanding the preceding provisions.

- (4) After July 1, 2007, in cases where the Stock Acquisition Rights Holder retires due to death, an heir of the Stock Acquisition Rights Holder may exercise the Stock Acquisition Rights, limited to the number of shares which were exercisable at the time of the commencement of inheritance, for a maximum of one year after the commencement of inheritance.
- (5) In cases where the Company adjusts the number of shares subject to the Stock Acquisition Rights or the Paid-in Amount, and the Company determines it necessary, the Company may restrict the exercise of the Stock Acquisition Rights to the extent reasonable and necessary.
- (6) In cases where the Company merges with another company, the unexercised stock acquisition rights shall be treated according to the applicable agreements in relation to the merger.

6. Reasons the Company may Acquire Stock Acquisition Rights and Conditions of Acquisition

- (1) In cases where the merger agreement, under which the Company becomes a dissolving company, is approved, or where proposals on the share exchange agreement and the share transfer plan, under which the Company becomes a wholly-owned subsidiary, are approved at the General Meeting of Shareholders, the stock acquisition rights may be acquired without contribution.
- (2) If a Stock Acquisition Rights Holder, prior to the exercise of stock acquisition rights no longer fulfills the conditions for exercising stock acquisition rights (except for the cases in above 5.(1)), the Company may acquire such unexercised stock acquisition rights without contribution.

7. Matters concerning Transfer of Stock Acquisition Rights

In the event that the Stock Acquisition Rights Holder transfers the Stock Acquisition Rights, it shall require the approval of the Board of Directors.

8. Issuance of Stock Acquisition Rights Certificates

The stock acquisition rights certificates shall be issued only if a request is made by the Stock Acquisition Rights Holder.

9. Amount of the Issue Price of Shares which are not Incorporated into the Stated Capital in the event of Issuance of Shares due to Exercise of Stock Acquisition Rights

The amount of the issue price of shares which are not incorporated into the stated capital in the event of issuance of shares due to exercise of the Stock Acquisition Rights shall be the amount deducting the amount to be incorporated into the stated capital from the issue price (provided, however, that if an adjustment is made to the issue price, the issue price after the adjustment). The amount to be incorporated into the stated capital shall be the amount obtained by multiplying the issue price (provided, however, that if an adjustment is made, the issue price after adjustment) by 0.5, and in the event that the amount includes fractions of less than one yen as a result of the calculation, the fractions shall be rounded up.

10. Determination of Detailed Matters

Other detailed matters concerning terms for and methods of exercising stock acquisition rights shall be provided in the Agreement on Allotment of Stock Acquisition Rights to be entered into with Stock Acquisition Rights Holders.

**Descriptions of the First Series of Stock Acquisition Rights of
INTEC Holdings, Ltd.**

1. Class and Number of Shares subject to Stock Acquisition Rights

The class of shares subject to the First Series of stock acquisition rights of INTEC Holdings, Ltd. (hereinafter referred to as the "Stock Acquisition Rights") shall be common stock of INTEC Holdings, Ltd. (hereinafter referred to as the "Company"). The number of shares subject to each of the Stock Acquisition Rights (hereinafter referred to as the "Number of Target Shares") shall be one thousand (1,000).

In cases where the Company conducts a stock split or stock consolidation with respect to the shares of common stock of the Company, the Number of Target Shares shall be adjusted according to the following formula.

$$\text{Number of Shares after Adjustment} = \text{Number of Shares before Adjustment} \times \text{Split/Consolidation Ratio}$$

In addition, if the Company conducts a merger, company split, share exchange or share transfer (hereinafter collectively referred to as the "Merger, etc."), or allotment of shares without contribution, or if any adjustment of the Number of Target Shares is necessary, the Number of Target Shares may be adjusted to the extent reasonable, in consideration of the conditions of the Merger, etc. or the conditions of the allotment of shares without contribution or any other relevant factors.

However, any fraction less than one share resulting from the adjustment shall be rounded down.

2. Amount of Assets Invested upon the Exercise of Each Stock Acquisition Right

Upon the exercise of each Stock Acquisition Right, an investment shall be made in cash, and it shall be the amount calculated by multiplying the amount of ¥1,176 per share which should be paid in upon exercising each Stock Acquisition Right (hereinafter referred to as the "Exercise Price") by the Number of Target Shares.

If, after issuance of the Stock Acquisition Rights, the Company conducts a stock split (including allotment of common stock without contribution; hereinafter the same shall apply) or stock consolidation of the common stock of the Company, the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up.

$$\text{Exercise Price after Adjustment} = \text{Exercise Price before Adjustment} \times \frac{1}{\text{Split/Consolidation Ratio}}$$

In addition, if the Company issues common stock of the Company or disposes treasury shares at a price lower than the market price (excluding those resulting from the exercise of stock acquisition rights (including those accompanying bonds) entitling holders to request the Company to issue common stock), the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up. The term "Number of Issued

Shares” in the following formula shall be the total number of issued common stock of the Company minus the number of treasury shares relating to common stock held by the Company. In addition, in the event of disposition of treasury shares, the term “Number of Newly-issued Shares” shall be read as the term “Number of Treasury Shares to be Disposed”.

Exercise Price after Adjustment =

$$\text{Exercise Price before Adjustment} \times \frac{\text{Number of Issued Shares} + \frac{\text{Number of Newly-issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price before Issue of New Shares}}}{\text{Number of Issued Shares} + \text{Number of Newly-issued Shares}}$$

3. Exercise Period of Stock Acquisition Rights

From November 1, 2006 to March 31, 2011. However, if the last date of the exercise period is a non-business day of the Company, the last date of the exercise period shall be the preceding business day.

4. Matters regarding Increase in Stated Capital and Capital Reserves when Issuing Shares due to Exercise of Stock Acquisition Rights

(1) The amount of stated capital that is to be increased when shares of common stock of the Company are issued upon exercise of the Stock Acquisition Rights shall be half (1/2) of the maximum amount of increase of stated capital, etc. calculated according to Paragraph 1 of Article 40 of the Corporate Accounting Rules (*kaisha keisan kisoku*), and any fraction less than one (1) yen resulting from the calculation, shall be rounded up.

(2) The amount of capital reserves that is to be increased when shares are issued upon exercise of the Stock Acquisition Rights shall be the maximum amount of increase of stated capital, etc. described in (1) above, less the amount of the increase of the stated capital provided in (1) above.

5. Restriction on Acquisition of Stock Acquisition Rights by way of Transfer

Approval by the resolution of the Board of Directors of the Company shall be required to acquire the Stock Acquisition Rights by way of transfer.

6. Reasons the Company may Acquire Stock Acquisition Rights

If an absorption merger agreement or consolidation merger agreement by which the Company becomes a dissolving company, an absorption split agreement or plan for split through establishment of a new company by which the Company becomes a split company, or a share exchange agreement or share transfer plan by which the Company becomes a wholly-owned subsidiary, is approved at a general meeting of shareholders of the Company or at a meeting of the Board of Directors of

the Company, and if a date of acquisition is designated by the Company, the Company may acquire all the Stock Acquisition Rights without contribution, when such designated date comes.

7. Conditions for the Exercise of Stock Acquisition Rights
 - (1) Holders of the Stock Acquisition Rights (hereinafter referred to as the “Stock Acquisition Rights Holders”) shall be required to hold a position as a director or employee of the Company or a subsidiary of the Company at the time of the exercise of the Stock Acquisition Rights as well, except for the case where such holder retires from the position of a director of the Company or a subsidiary of the Company due to an expiration of the term of office, retires at the age of mandatory retirement, or transfers to an affiliate of the Company, or otherwise the Company deems that there is any reasonable ground other than the above.
 - (2) In the event of death of the Stock Acquisition Rights Holder, no successor may exercise the Stock Acquisition Rights.
 - (3) The details of any other matters shall be subject to the Agreement on Allotment of Stock Acquisition Rights, which is to be entered into by and between the Company and the Stock Acquisition Rights Holders based on resolution of the Board of Directors of the Company.
8. Fractions less than one share of the shares to be delivered to the Stock Acquisition Rights Holders, who have exercised the Stock Acquisition Rights, if any, shall be rounded down.

**Descriptions of the Fourth Series of Stock Acquisition Rights of
IT Holdings Corporation**

1. Name of Stock Acquisition Rights

The Fourth Series of Stock Acquisition Rights of IT Holdings Corporation (hereinafter referred to as the "Stock Acquisition Rights")

2. Class and Number of Shares subject to Stock Acquisition Rights

The class of shares subject to each of the Stock Acquisition Rights shall be common stock of IT Holdings Corporation (hereinafter referred to as the "Company"). The number of shares subject to each of the Stock Acquisition Rights (hereinafter referred to as the "Number of Target Shares") shall be 790 shares.

In cases where the Company conducts a stock split or stock consolidation with respect to the shares of common stock of the Company, the Number of Target Shares shall be adjusted according to the following formula.

$$\begin{array}{rcccl} \text{Number of Shares after} & & \text{Number of Shares} & & \text{Split/Consolidation} \\ \text{Adjustment} & = & \text{before Adjustment} & \times & \text{Ratio} \end{array}$$

In addition, if the Company conducts a merger, company split, share exchange or share transfer (hereinafter collectively referred to as the "Merger, etc."), or allotment of shares without contribution, or if any adjustment of the Number of Target Shares is necessary, the Number of Target Shares may be adjusted to the extent reasonable, in consideration of the conditions of the Merger, etc. or the conditions of the allotment of shares without contribution or any other relevant factors.

However, any fraction less than one share resulting from the adjustment shall be rounded down.

3. Amount of Assets Invested upon the Exercise of Each Stock Acquisition Right

Upon the exercise of each Stock Acquisition Right, an investment shall be made in cash, and it shall be the amount calculated by multiplying the amount of ¥1,489 per

share which should be paid in upon exercising each Stock Acquisition Right (hereinafter referred to as the "Exercise Price") by the Number of Target Shares. If, after issuance of the Stock Acquisition Rights, the Company conducts a stock split (including allotment of common stock without contribution; hereinafter the same shall apply) or stock consolidation of the common stock of the Company, the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up.

$$\text{Exercise Price after Adjustment} = \text{Exercise Price before Adjustment} \times \frac{1}{\text{Split/Consolidation Ratio}}$$

In addition, if the Company issues common stock of the Company or disposes treasury shares at a price lower than the market price (excluding those resulting from the exercise of stock acquisition rights (including those accompanying bonds) entitling holders to request the Company to issue common stock), the Exercise Price shall be adjusted according to the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up. The term "Number of Issued Shares" in the following formula shall be the total number of issued common stock of the Company minus the number of treasury shares relating to common stock held by the Company. In addition, in the event of disposition of treasury shares, the term "Number of Newly-issued Shares" shall be read as the term "Number of Treasury Shares to be Disposed".

$$\text{Exercise Price after Adjustment} = \text{Exercise Price before Adjustment} \times \frac{\text{Number of Issued Shares} + \frac{\text{Number of Newly-issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price before Issue of New Shares}}}{\text{Number of Issued Shares} + \text{Number of Newly-issued Shares}}$$

4. Exercise Period of Stock Acquisition Rights

From April 1, 2008 to March 31, 2011. However, if the last date of the exercise period is a non-business day of the Company, the last date of the exercise period shall be the preceding business day.

5. Matters regarding Increase in Stated Capital and Capital Reserves when Issuing

Shares due to Exercise of Stock Acquisition Rights

- (1) The amount of stated capital that is to be increased when shares of common stock of the Company are issued upon exercise of the Stock Acquisition Rights shall be half (1/2) of the maximum amount of increase of stated capital, etc. calculated according to Paragraph 1 of Article 40 of the Corporate Accounting Rules (*kaisha keisan kisoku*), and any fraction less than one (1) yen resulting from the calculation, shall be rounded up.
- (2) The amount of capital reserves that is to be increased when shares are issued upon exercise of the Stock Acquisition Rights shall be the maximum amount of increase of stated capital, etc. described in (1) above, less the amount of the increase of the stated capital provided in (1) above.

6. **Restriction on Acquisition of Stock Acquisition Rights by way of Transfer**
Approval by the resolution of the Board of Directors of the Company shall be required to acquire the Stock Acquisition Rights by way of transfer.

7. **Reasons the Company may Acquire Stock Acquisition Rights and Conditions of Acquisition**
If an absorption merger agreement or consolidation merger agreement by which the Company becomes a dissolving company, an absorption split agreement or plan for split through establishment of a new company by which the Company becomes a split company, or a share exchange agreement or share transfer plan by which the Company becomes a wholly-owned subsidiary, is approved at a general meeting of shareholders of the Company or at a meeting of the Board of Directors of the Company, and if a date of acquisition is designated by the Company, the Company may acquire all the Stock Acquisition Rights without contribution, when such designated date comes.

BUSINESS REPORT
(April 1, 2006 – March 31, 2007)

1. Current Status of the Company

(1) Business Progress and Result of the Group

According to the Bank of Japan's quarterly survey of business sentiment of March 2007, the volume of software investment in the fiscal year 2006 was record-high led by financial institutions including banks, insurance companies and securities firms. It is thought that steady corporate earnings supported Japanese companies' high demand for software investment.

As for the information service industry, the industry as a whole is recovering more solidly along with the recovery of the IT investment. On the other hand, the costs for outsourced engineers are increasing due to long working hours. Therefore, we continuously endeavor to increase our productivity.

The business performance of our Group for the current term is as follows.

Since the development for large projects have peaked already, the earnings for the current term remained relatively unchanged at JPY 211,581 million (0.8% increase from the last term).

The expenses for the current term and the coming term have increased and are expected to increase significantly comparing to the initial estimate because significantly more personnel than the planned number of personnel was placed in the large projects to properly execute the large transactions that are currently in progress. During this term, we also made allocation to the reserve for the additional expenses to be incurred after the next term. As a result, the ordinary income became JPY 1,216 million (89.9% decrease from the last term). Additionally, the net loss for the current term is JPY 818 million because the loss on disposal of fixed assets in the amount of JPY 1,422 million was recorded as extraordinary losses.

The summary of each sector is as follows.

(a) Outsourcing Service Sector

The gross sales were JPY 75,553 million (3.7% increase from the last term).

The sales increased comparing to the last term due to the increase in the sales related to comprehensive outsourcing services provided to the major clients by TIS Inc. and AJS Inc.

(b) Software Development Sector

The gross sales were JPY 102,944 million (3.5% decrease from the last term).

The sales decreased comparing to the last term because the development for a credit company, which was one of the large projects, has peaked during the first semester.

(c) Solution Service Sector (sales of IT device and software)

The gross sales were JPY 28,028 million (17.1% increase from the last term).

Due to the generally favorable environments for IT investment, the sales increased comparing to the last term.

(2) Capital Expenditures of the Group

The total capital expenditures for the current term were JPY 7,933 million. The major expenditures are as follows.

The facilities that have been completed during this term:

TIS Inc. Osaka Center	Earthquake resistant renovation
Ufit Co., Ltd. Shikatsu Office	Renovation for better building strength

(3) Business Transfer, Absorption-Type Split or Incorporation-Type Split

Agrex Inc., the consolidated subsidiary company, acquired all outstanding shares of Open Techno Co., Ltd. as of September 11, 2006 and all outstanding shares of Fines Co., Ltd. as of December 19, 2006, both of which became wholly owned subsidiary companies of Agrex Inc.

Open Techno Co., Ltd. and Fines Co., Ltd. have merged as of April 1, 2007 and became Agrex Fine Techno Inc.

(4) Assets and Profit and Loss Over the Past Three Fiscal Years

(Asset and Profit and Loss of the Group)

- Note:
1. Starting with this consolidated fiscal year, "Accounting Standard for Presentation of Net Assets in the Balance Sheet" (Accounting Standard No. 5 December 9, 2005) and "Guidance on Accounting Standard" (Implementation Guidance No. 8, December 9, 2005) have been applied.
 2. Sales and income increased in the 33rd Term because the earnings of two companies, Agrex Inc. and TIS Consulting Co., Ltd. (merged with our company on April 1, 2006), increased a hundred fold and because the major service sectors of our company were prosperous.
 3. In the 34th Term, the consolidation with Ufit Co., Ltd. greatly contributed to increased sales and income, as well as general success in the major service sectors such as

outsourcing and software development sectors.

4. In the 35th term, the entry by AJS Inc. contributed to increased sales. There were some transactions at our company and at some subsidiary companies, in which reverse and additional works were necessitated due to specification changes in excess of the expected workload. Therefore, the income for the 35th term decreased.
5. Please see the above-mentioned “1. Current Status of the Company (1) Business Progress and Result of the Company” for the 36th term.

(5) Tasks to Be Dealt by the Group

Through the implementation of the midterm business plan “exceed '08” commencing in the fiscal year 2006 for 3 years, TIS Group endeavors to establish itself as a leading brand in the fiscal year 2008. The Group realizes that further growth of each business sector through implementation of measures to strengthen the production base, which in turn will improve both the technical capability and quality as the best in the business, is crucial. To achieve this objective, the following measures are implemented and enforced during this term: (a) prevention of unprofitable transactions in advance; (b)

improvement of technical capability and quality; (c) reinforcement of marketing capability; and (d) improvement of profitability.

(a) Prevention of Unprofitable Transactions in Advance

For the past few years, we could not achieve sufficient performance due to unprofitable transactions. We have been making efforts to prevent reoccurrence by intensively analyzing the causes of such unprofitable transactions. After the following reinforcement measures were implemented, there have been no new unprofitable transactions during this term.

Specifically, we plan to reinforce the systems for evaluation of proposals and for risk management for each project. As part of the reinforcement measures, we have established a system under which the initially expected profit is reexamined at an earlier phase to ascertain the feasibility. The systems allow us to precisely understand the clients' needs and risks such as technical difficulties, based on which we are able to implement effective measures.

(b) Improvement of Technical Capability and Quality

To strengthen the system development base, we have introduced the concept of CMMI¹ and defined the standard process for developments applicable to all Group companies. As a result, we became able to proceed with the projects that are less likely to fail, and the foundation for the continuous improvement of the productivity and quality has been laid out.

(c) Reinforcement of Marketing Capability

To reinforce the marketing capability of the solution service sector, we have established the Marketing Promotion Department in October 2006. We will adopt solutions that will be implemented throughout the Group. The marketing division of each department cooperates with the Marketing Promotion Department to offer wide-ranged recommendation-type marketing.

(d) Measures for Improvement of Profitability

(i) Promotion of Deployment-Type Development Model

¹ CMMI (Capability Maturity Model Integration): It is a model for process maturity level developed by Software Engineering Institute of Carnegie Mellon University. It evaluates organizational ability in software development. It is an international guideline widely accepted in the world.

With an emphasis on “Deployment,” which is a key pillar of the midterm business plan, we plan to improve the productivity of orders received. The Deployment is a method to establish a system for improvement of productivity and quality by decomposing the software that have been developed thus far into parts and components, as opposed to developing software from the beginning, and by utilizing the reference models, designing methods and operations know-how. We are maintaining the technical base and expanding the applicability of the Deployment.

(ii) Expansion of Consulting Capability

For the past few years, the relationship between clients and system integrators has changed drastically. As a system integrator we are now dealing directly with the end users of client companies and thus are increasingly required to have consulting capability and specialized operational knowledge. In addition to training consultants specifically for internal controls and insurance business in compliance with the Japanese SOX Act², we established BM Consultants Inc. in April 2007 as an organization specializing in consulting. The entire Group is in preparation towards the upgrading of our businesses.

We sincerely regret to report to the shareholders, investors and all other involved people that our performance has deteriorated this term. However, it is our belief that the performance fluctuation risks surrounding our company have been improved by response measures such as making allocations for large transactions. For the fiscal year 2007, we endeavor to promote aggressively measures for further growth and improve the corporate value of the Group.

We would appreciate your further advice and support.

(6) Primary Businesses of the Group

The Group consists of our company, 24 consolidated subsidiary companies and 11 equity method affiliate companies. The primary businesses are outsourcing services, software development and solution services related to informatization investment as

² Japanese SOX Act: The Japanese regulations that call for an effective accounting and audit system and strong internal controls under the Financial Instruments and Exchange Act.

well as leasing and market evaluation businesses related to the above businesses.

Beginning with this term, Open Techno Inc. and Finesse Co., Ltd. have become the consolidated subsidiary companies, and BeBest International Co., Ltd. has become an equity method affiliate company.

The businesses of the Group are as follows.

Category	Description of the Business
Outsourcing Service	System operations service, system housing service and consigned operations service are offered at the Group's centers. In addition, network service is provided by the Group companies.
Software Development	We offer system integration services which provide comprehensive services including proposal of information system and establishment of such system. We also offer consigned software development including ERP installation support, database and Internet environment establishment.
Solution Service	We propose and provide support for installation of the most suitable system for clients by combining hardware such as server, storage and client equipment and software such as package software.

(4) Other Important Information Regarding the Directors or Corporate Auditors
Not applicable

(5) Information Regarding Outside Executive Officers

(a) Other Outside Executive Offices Concurrently Held

Corporate Auditor Mr. Jun Ito holds concurrent offices as the outside Corporate Auditor for Medikit Co., Ltd. and Chiba Flour Milling Co., Ltd.

We are not in any special relationship with the above two companies.

(b) Primary Activities During the Fiscal Year

(i) Board of Directors' Meetings

During this fiscal year, we held 23 Board of Directors' Meetings in total. Mr. Nobuyuki Yonezawa attended all of 23 meetings, and Mr. Jun Ito attended 22 meetings out of 23 meetings. They asked questions and presented their opinions accordingly and performed their functions as Corporate Auditors to the full extent.

(ii) Board of Corporate Auditors' Meeting

During this fiscal year, we held 22 Board of Corporate Auditors' Meetings in total. Mr. Nobuyuki Yonezawa and Mr. Jun Ito attended all of 22 meetings. Pursuant to the auditing policies and work responsibilities as determined by the Board of Corporate Auditors' Meeting, they attended the Board of Directors' Meetings and other important meetings, inspected material documents, audited the principal offices and other primary offices, investigated subsidiaries and reported to the Board of Corporate Auditors.

(c) Summary of Limited Liability Agreements

Pursuant to Article 423 (1) of the Companies Act, we have set forth Article 39 of the Articles of Incorporation providing that we may conclude limited liability agreements. However, at present we have not concluded any limited liability agreements.

(1) Name of Accounting Auditor

Misuzu Audit Corporation (temporary accounting auditor)

(2) Remuneration for Accounting Auditor

(a) The total remuneration payable to the accounting auditor by our company and our subsidiary companies:

JPY 117,000,000

(b) Out of the above (a) amount, the total remuneration payable to the accounting auditor by our company and our subsidiary companies in consideration for audit certification services, defined under Article 2 (1) of the Certified Accountants Law (Act No. 103 of 1948):

JPY 113,000,000

(c) Out of the above (b) amount, the total remuneration payable to the accounting auditor by our company:

JPY 48,000,000

Note: 1. The remuneration in (c) is the sum of the fees for auditing under the Companies Act and the fees for auditing under the Securities Exchange Act because there is no clear division between the two under the audit agreement between the Company and the accounting auditor, nor is division between the two possible in practice.

2. Our company and some of our subsidiary companies have paid remuneration to the accounting auditor for services of financial evaluation and assessment of listing status which do not fall under Article 2 (1) of the Certified Accountants Law.

(3) Policy on Determination of Dismissal or Rejection of Reappointment

The Board of Directors may, with the agreement of the Board of Corporate Auditors or upon the request of the Board of Corporate Auditors, propose to dismiss the accounting auditor or reject reappointment of the accounting auditor at the General Meeting of

Shareholders if the Board of Directors determines it to be necessary, such as in cases where there are obstacles to the performance of duties of the accounting auditor.

If the status of the accounting auditor falls under any item defined in Article 340 (1) of the Companies Act, the Board of Corporate Auditors may dismiss the accounting auditor upon the agreement of all members of the Board of the Corporate Auditors. If the accounting auditor is dismissed, the Corporate Auditor appointed by the Board of Corporate Auditors will report the dismissal and a reason for such dismissal at the first General Meeting of Shareholders held after the dismissal.

6. Summary of Resolutions regarding Development of Systems to Assure Proper Operations
 - (1) System to Assure that the Execution of the Directors' Duties are in Compliance with the laws and regulations and the Articles of Incorporation
 - (a) We will establish corporate social responsibility rules ("CSR Rules"). By having the representative director – president repeatedly communicating the philosophy of the CSR Rules to the directors, Corporate Auditors and employees, we will ensure that compliance with the laws and regulations and public ethics is the premise of any corporate activity.
 - (b) By appointing a director who is responsible for compliance and leads the Compliance Department, we endeavor to develop a comprehensive compliance system throughout the entire Group and understand issues with compliance. We will establish the Compliance Committee for which a representative director will be appointed as chairman, and the Compliance Office will be the administrative office. The committee will discuss material issues in respect of compliance and report the results to the Board of Directors.
 - (c) We will establish a system that allows any director or employee who discovers an issue with compliance to report to the Compliance Department. In addition, we will establish an internal alert system under which employees may report directly to the outside Corporate Auditor. If the outside Corporate Auditor is informed or alerted of any issue with compliance, the outside Corporate Auditor will investigate such issue and discuss and determine preventative measures at the Compliance Committee. The Compliance Department will enforce such preventative measures.

- (d) If there is any violation of the laws and regulations or the Articles of Incorporation by any director, the Compliance Committee will advise specific disciplinary actions to the Board of Directors.
- (2) System for Storage and Maintenance of Information Related to Execution of the Directors' Duties
- (a) Pursuant to the document management rules, any of the following documents related to the execution of the directors' duties (including electronic records, applicable hereafter) or any other important information will be properly stored and maintained by the chief of the responsible department.
 - (i) Minutes of the General Meetings of Shareholders and related materials
 - (ii) Minutes of the Board of Directors' Meetings and related materials
 - (iii) Records or instruction at other important meetings held by the Board of Directors and related materials
 - (iv) Any other important document related to execution of the directors' duties
 - (b) The documents provided in the above (a) must be stored for at least 10 years and must be available for inspection as necessary.
- (3) Other Systems Related to Management of Risk of Loss
- (a) We will establish rules for risk management which shall systematically governs the risk management of the entire Group. We will appoint a director who will be responsible for compliance and lead the Compliance Department as a general manager of the Compliance Department.
 - (b) Pursuant to the risk management rules, each department will analyze and categorize its specific and potential risks in advance and implement response measures.
 - (c) Each department will periodically report project risks, response measures and status on the implementation of such measures to the Board of Managing Directors. If there is any project risk that requires evaluation at the system development meetings or other meetings, the response measures will be implemented according to the instruction or advice given at such meetings.
 - (d) Any department of the principal offices will periodically report their response measures to risks and the status of implementation of such measures to the Board of Managing Directors.
 - (e) The Compliance Department will periodically report on the matters regarding risk

management of the entire Group (such as policies, system status and suitability of the risk management of the entire Group) to the Compliance Committee and the Board of Corporate Auditors. The Compliance Department will report any especially important matter regarding risk management to the Board of Managing Directors or the Board of Directors. In addition, the Compliance Department will provide necessary support and advice to each department.

- (f) A Group company may consult with or report to the Compliance Department about the risks involving the entire Group and about response measures for such risks. The Compliance Department may report such information to the Compliance Committee as necessary.
 - (g) The Internal Audit Division of the Compliance Department will audit the status of the risk management of each division and periodically report the audit results to the Compliance Committee and to the representative director – president.
- (4) System to Secure Efficiency of Execution of the Directors' Duties
- (a) The Board of Directors will make decisions as to management policies, other matters required by law and other matters important to the operations and will supervise corporate operations.

(3) Standards for Accounting Procedures

(a) Valuation Standards and Methods of Assets

(i) Valuation Standards and Methods of Securities

Securities held until maturity: Amortized cost method
(straight-line method)

Other securities

Securities with market value: Market value method based on the quoted market price as of the fiscal year end

(Differences in valuation are included directly in net assets, and costs of securities sold are calculated by the moving-average method.)

Securities without market value: Primarily stated at cost basis determined by the moving-average method.

(ii) Valuation Standards and Methods of Derivatives

Market value method

(iii) Inventories

Merchandise: Primarily stated at cost basis determined by

first-in-first-out method

Work in progress: Stated at cost determined by specific identification method

(b) Depreciation Method for Fixed Assets

(i) Tangible Fixed Assets

Buildings, structures and automotive equipment: Primarily by the straight-line method

Machinery, equipment and fixtures: Primarily by the declining-balance method

Leased assets: Straight-line method based on the assumption that the lease period is the durable years

(ii) Intangible Fixed Assets

Straight-line method

However, the software for sale is amortized based on the greater amount of: the multiplication of the balance of the software and the ratio of the estimated sales to the total sales for the fiscal year; or the straight-line method over the expected effective period of 3 years. And, the software for internal use is amortized by the straight-line method based on its estimated useful life which ranges principally from 3 to 5 years.

(c) Accounting Standards for Allowances and Reserves

(i) Allowance for Doubtful Accounts

To provide for losses from uncollectible accounts, the estimated amount of uncollectible accounts is accounted for based on a rated determined by taking into account a solvency assessment on a case-by-case basis with regard to potentially unrecoverable loans and the historical loan loss ratio with regard to other loans.

(ii) Reserve for Bonuses

The reserve for bonuses to the directors and to employees of certain consolidated subsidiary companies is provided for the expected amount of bonuses required to be paid during the current fiscal year.

(iii) Reserve for Order Loss

In respect of development projects concerning software service agreements, in which losses are expected to incur as of the end of the current fiscal year, and such losses may reasonably be projected, losses expected to incur after

the following fiscal year are provided.

(iv) Reserve for Retirement Benefits (Prepaid Pension Expenses)

The reserve for the employees' retirement benefits is provided for the payment of retirement benefits to employees, in the amount deemed accrued at the fiscal year-end, based on the projected retirement benefit obligation and the plan assets. Mathematical differences are treated as expenses in the following fiscal year based on the straight-line method over a certain period (10 years) within the average remaining service years of the employee determined upon the occurrence. The past service liability are included upon its incurrence.

In calculating the retirement benefit obligation of certain consolidated subsidiary companies, the simplified method is adopted.

(v) Reserve for Directors' and Corporate Auditors' Retirement Benefits

The reserves for directors' and corporate auditors' retirement benefits is provided based on the internal rules and calculated at the amount that would be payable at the end of the fiscal year.

(d) Other Significant Items that are Fundamental to Preparation of the Consolidated Financial Statements

(i) Conversion Standards of Assets and Liabilities in Foreign Currencies into Japanese Currency

Assets and liabilities in foreign currencies are converted into Japanese Yen based on the spot exchange rate as of the end of the consolidated fiscal year. The exchange differences are treated as profit or loss. Conversion at the subsidiary companies, etc. abroad into Japanese Yen are carried out based on the spot exchange rate as of the end of the consolidated fiscal year. The exchange differences are included in the exchange conversion adjustment account of the "Net Asset" section.

(ii) Treatment of Lease Transactions

Finance lease transactions other than those recognized to transfer the ownership of the leased property to the lessees are accounted or based on the accounting method in relation to ordinary lease transactions.

(iii) Treatment of Hedge Accounting
Method of Hedge Accounting

The interest swap transactions of certain consolidated companies satisfy the special accounting requirements; therefore, the special accounting is applied.

Method and Subject of Hedge

Hedge Method: Interest swap

Subject of Hedge: Loans

Hedging Policy

It is our policy to commit to the derivative trading only when there are assets or liabilities that may be subject to hedging presently or in the future. We do not commit to the derivative trading for the purpose of speculation or gaining profit from short-term trading.

Valuation of Effectiveness of Hedges

As for the interest swap, it satisfies all requirements for special accounting. The valuation of its effectiveness is substituted with its satisfaction of the requirements.

- (iv) **Accounting Treatment of Consumption and Other Taxes**
Consumption and local consumption taxes are excluded.

- (4) **Valuation of Assets and Liabilities of the Consolidated Subsidiary Companies**
The market value valuation method is used to comprehensively evaluate the assets and liabilities of the consolidated subsidiary companies

- (5) **Amortization of Goodwill**
The equal amortization of 5 years is used for goodwill.

- (6) **Significant Changes in the Basis of Preparation of the Consolidated Financial Statements**

- (a) **Accounting Standards on Presentation of Net Assets Section on the Balance Sheet**
Since the current fiscal year, "Accounting Standards on Presentation of Net Asset Section on Balance Sheet" (Corporate Accounting Standards No. 5, December 9, 2005) and "Application Guideline for Accounting Standards, etc. of Net Assets Section on Balance Sheet" (Corporate Accounting Standards Application Guideline No. 8, December 9, 2005) have been adopted.

The amount, equivalent to the total amount of the conventional asset section on the balance sheet is ¥ 80,218 million.

- (b) **Accounting Standards on Directors' Bonuses**

Since the current fiscal year, “Accounting Standards on Directors’ Bonuses” (Corporate Accounting Standard No. 4, November 29, 2005) has been adopted.

As a result, the operating loss has increased by ¥ 34 million. The ordinary income and the net income before taxes have decreased by ¥ 34 million.

(c) Accounting Standards Concerning Business Combinations

Since the current fiscal year, “Accounting Standards Concerning Business Combinations” (“Opinion in relation to the Establishment of Accounting Standards concerning Business Combinations” (Corporate Accounting Council, October 31, 2003)) and “Application Guideline for Accounting Standards of Business Combinations and Accounting Standards of Business Separations, etc.” (Corporate Accounting Standards Application Guideline No. 10, December 27, 2005) have been adopted.

(d) Amortization of Goodwill

The amortization of consolidated account adjustment in the “Asset” section and the amortization of consolidated account adjustment in the “Liabilities” section are used to be indicated to set off each other. However, they are now included in the total amount of the “Selling, general and administrative expenses” and in the non-operating income starting this fiscal year pursuant to the amendment of the rules for terms of consolidated finance statements.

As a result, the operating loss has increased by ¥ 775 million. There is no impact on the ordinary income and the net income before taxes.

2. Notes to the Consolidated Balance Sheet

the Acquisition Price of the Tangible Fixed Assets

Buildings and structures:

¥ 76 million

(4) Guarantee Liabilities

We guarantee the debts provided by Agrex Inc. and Qualica to their employees.

¥ 2 million

(5) Revaluation of Land

Pursuant to "Act on Revaluation of Land" (Act No.34 enacted on March 31, 1998), the commercial lands were revaluated, and the amount, equivalent to the taxes imposed on the net gain (or loss) on the revaluation, is accounted for in the liabilities section as the "deferred tax liabilities due to revaluation," and the amount upon deduction of such deferred tax liabilities is accounted for in the net assets section as the "net gain (or loss) on revaluation of land."

Revaluation Method

Land value is calculated upon making reasonable adjustments to the amount calculated based on the method provided and publicly disclosed by the Commissioner of the National Tax Agency in order to calculate land value which can be a basis of calculation of land value tax to be imposed, as set forth in Article 16 of the Landholding Act (Act No.69 of 1991) , provided in Article 2 (iv) of the Act for Enforcement of the Act on Revaluation of Land (Act No.119 enacted on March 31, 1998).

Date of revaluation: March 31, 2002

Difference between the market value of the revaluated land as of the end of fiscal year and the book value after the revaluation:

¥ 78 million

(6) Goodwill and Negative Goodwill

The difference from setting off the goodwill and the negative goodwill is indicated as the negative goodwill in the fixed liabilities. The amounts of the goodwill and the negative goodwill before the set-off are as follows.

Goodwill: ¥ 705 million

Negative Goodwill: ¥ 2,048 million

Difference: ¥ 1,342 million

(7) Treatment of Matured Notes as of the End of Fiscal Year

Matured notes as of the end of fiscal year are redeemed as of the date of bank clearing.

Since the end of the current fiscal year was a holiday for financial institutions, matured notes as of the end of the following fiscal year are included in the balance.

NOTES TO NON-CONSOLIDATED FINANCIAL STATEMENTS

1. Notes on Significant Accounting Policies

(1) Valuation Standards and Methods of Assets

(a) Valuation Standards and Methods for Securities

Shares of subsidiary and affiliate companies are stated at cost determined by the moving-average method

Other securities

Securities with Market Value: Market value method based on the quoted market price as of the fiscal year end

(Differences in valuation are included directly in net assets, and costs of securities sold are calculated by the moving average method.)

Securities without Market Value: Stated at cost determined by the moving-average method.

(b) Valuation Standards and Methods of Derivatives

Market value method

(c) Evaluation Standards and Methods of Inventories

Merchandise: Stated at cost determined by first-in-first-out method

Work in progress: Stated at cost determined by specific identification method

(2) Depreciation Method for Fixed Assets

(a) Fixed Assets

Buildings, structures and automotive equipment: Straight-line method

Machinery, equipment and fixtures: Declining-balance method

(b) Software

Software for sale: Amortized based on the greater amount of: the multiplication of the balance of the software and the ratio of the estimated sales to the total sales for the fiscal year; or the straight-line method over the expected effective period of 3 years.

Software for internal use: Amortized by the straight-line method based on the internally designated, usable period of 3 to 5 years.

(3) Accounting Standards for Allowances and Reserves

(a) Allowance for Doubtful Accounts

In preparation for losses from uncollectible accounts, the estimated amount of uncollectible accounts is stated by taking into account a solvency assessment on a case-by-case basis with regard to potentially unrecoverable loans and the historical loan loss ratio with regard to other loans.

(b) Allowance for Retirement Benefit (Prepaid Pension Expenses)

To provide for the employees' retirement benefit, allowance for retirement benefit is recorded as the amount required as of the end of the fiscal year, based on the projected retirement benefit obligation and the estimated plan asset amount. Unrecognized net actuarial differences are amortized under the straight line method over a certain period (10 years) within the average remaining service period of the employee from the next fiscal year of incurrence.

(c) Reserve for Directors' and Auditors' Retirement Allowance

To provide retirement benefits to the directors and auditors, the amount, required to be paid at the end of the fiscal year under the internal rules, is recorded.

(d) Reserve for Order Loss

For development projects under software service agreements, which are expected to incur future losses at the end of this fiscal year, and of which losses may reasonably be projected, the projected losses to be incurred after the following fiscal year are recorded.

(e) Reserve for Directors' Bonuses

To provide bonuses to the directors, the expected amount of bonuses for this fiscal year is recorded.

(4) Other Significant Items that are Fundamental to Preparation of the Financial Statements

(a) Treatment of Lease Transaction

Finance lease transactions that do not involve transfer of ownership to lessees, are treated according to the accounting method involving ordinary leases.

CERTIFIED COPY OF AUDIT REPORT OF THE BOARD OF CORPORATE AUDITORS

AUDIT REPORT

Regarding the execution of the directors' duties in the 36th fiscal year starting on April 1, 2006 and ending on March 31, 2007, the Board of Corporate Auditors, upon deliberating the audit report created by each corporate auditor, hereby produces this audit report and reports as follows.

1. Method and results of audit of the Corporate Auditors and the Board of Corporate Auditors

The Board of Corporate Auditors have established audit policies and assignment of duties, etc., received reports from each corporate auditor regarding the status and results of audits, and received reports from the directors and the temporary accounting auditor regarding the status of their execution of duties, and requested explanations as necessary.

Pursuant to the audit standards of corporate auditors established by the Board of Corporate Auditors and in accordance with the audit policies and assignment of duties, etc, each corporate auditor has communicated with the directors, Internal Audit Division, and other employees; endeavored to collect information and develop environments for auditing; attended the Board of Directors' Meetings and other important meetings; received reports on the status of execution of their duties from the directors and other employees; sought explanation as necessary; inspected important decisive documents; and investigated the status of operation and assets of the principal offices and primary locations. In addition, each corporate auditor observed and examined the details of the resolutions of the Board of Directors regarding the development of systems to assure the directors' compliance with the laws and the Articles of Incorporation in executing their duties and other systems necessary to assure fair operation of the company provided under Article 100 (1) and (3) of the Enforcement Rules of the Companies Act as well as the status of the systems (internal control system) that are developed pursuant to such resolutions. As for the subsidiary companies, each corporate auditor has communicated and exchanged information with the directors and corporate auditors of the subsidiary companies and received reports on the business operation of the subsidiary companies as necessary. In accordance with the aforementioned methods, the Board of Corporate Auditors examined the business report and its supplementary schedules for this fiscal year.

Moreover, the Board of Corporate Auditors observed and examined to assure that the temporary accounting auditor maintained independency and conducted a fair audit; received reports on the status of execution of the temporary accounting auditor's duties; and sought explanation as necessary. It also received a notice from the temporary accounting auditor confirming its compliance with the "System to Assure Fair Execution of the Duties" (Each item in Article 159 of the Company Accounting Rules) and "Quality Management Standards of Audit" (Corporate Accounting Council, October 28, 2005) and sought explanation as necessary. In accordance with the aforementioned methods, the Board of Corporate Auditors examined the financial statements (balance sheet, profit and loss statement, statement of changes in shareholders' equity, and individual notes) and their

supplementary schedules and the consolidated financial statements (consolidated balance sheet, consolidated profit and loss statement, consolidated statement of changes in shareholders' equity, and consolidated notes).

2. Results of Audit

(1) Audit Results of the Business Reports, etc.

- (a) The Board of Corporate Auditors found that the business report and its supplementary schedules are in compliance with the laws and regulations and the Articles of Incorporation and fairly represents the status of the company.
- (b) The Board of Corporate Auditors found no misconduct or material violation of the laws and regulations or the Articles of Incorporation by the directors in execution of their duties.
- (c) The Board of Corporate Auditors found that the resolutions of the Board of Directors concerning the internal control system are reasonable. Regarding the operation of the internal control system, the Board of Corporate Auditors determined that reinforcement of the risk management was necessary, thus it asked the Board of Directors to address the matter.

(2) Audit Results of the Financial Statements and Annexed Detailed Statements

The Board of Corporate Auditors found that the audit methods and results of the temporary accounting auditor, Misuzu Audit Corporation, are reasonable.

(3) Audit Results of the Consolidated Financial Statements

The Board of Corporate Auditors found that the audit methods and results of the temporary accounting auditor, Misuzu Audit Corporation, are reasonable.

Operating income	8	18	40
Operating profit margin	4.0%	5.5%	10.0%
Return on equity ⁽²⁾	4.1%	7.4%	15.0%

Notes:

(1) Expected combined amounts for fiscal 2007 are simple totals of respective consolidated forecasts given in the fiscal 2007 interim reports of each company.

(2) Fiscal 2007 ROE calculations are based on respective net assets, as of September 30, 2007, and anticipated fiscal 2007 net income.

(3) The pooling-of-interests method will be used in the business integration, and goodwill is not expected to be generated.

Medium- to long-term targets: Early achievement of ¥500 billion in net sales, ¥50 billion in operating income, and ROE of 20%.

Features of IT Holdings Corporation:

- Dominant coverage of the finance industry
- Comprehensive capabilities giving clients one-stop access to services, from consulting through to system development and operation and maintenance
- Independent system integrator with highly agile decision-making capability

Integration Schedule: Seeking to Create Early-Stage Business Synergies

Merits of Integration: Higher Net Sales Underpinned by Cross-Selling

INTEC Holdings

- Extensive client base of about 5,000 companies covering large to mid-sized corporations.
- Revenue from top 10 clients: ¥34.6 billion (30%)

TIS

- Client base highlights specific major companies.
- Revenue from top 10 clients: ¥97.3 billion (46%)

INTEC Holdings' strength is in repeatable solution-based approach for targeting a large number of customers.

Net sales per client

Clients

TIS' strength is in proposal-based marketing approach as well as a full range of services tailored to the needs of specific clients.

Net sales per client

Clients

Using TIS' high-value-added outsourcing services and proposal-style marketing

Deepen client base and encourage lateral development through joint account plan

Using INTEC Holdings' network and platform-based services, and solutions, such as F³ (F-Cube).

Net sales will expand as synergies deliver results.

Net sales per client

Clients

Merits of Integration: Higher Net Sales Underpinned by Cross-Selling

Pursuit of Synergies through Cross-Selling

Vehicles to Speed Pursuit

- To date, INTEC Holdings has emphasized solutions, such as EDI, MCFrame and F³, in a specific forte field among its client base of some 5,000 companies.
 - ▶ The potential for enhanced profitability is huge if INTEC Holdings can successfully capitalize on TIS' integrated solution development capability.
- Similarly, TIS can raise the value-added quality of its services by extending the network-related technology and know-how of INTEC Holdings to its own clients.
- The chemical industry will be fully served through TIS' SAP expertise for major corporations and INTEC Holdings' MCFrame expertise for second-tier and mid-sized companies. Efforts will be made to expand interest in general solutions and supply chain management solutions using EDI.
- The distribution industry will benefit from services combining INTEC Holdings' network services and TIS' settlement and client relationship management solutions. The goal is to create the defacto standard in the industry.

Merits of Integration: Stronger Client Base through Fusion of Services

Provision of total solutions for the finance industry that is moving towards larger business scale and comprehensive operations

Anticipated Short-term Benefits

- Will be able to acquire application know-how pursuant to wider range of systems used in executing financial services.
- Will be able to offer total solutions to financial institutions, including those under the Mitsubishi UFJ Financial Group umbrella, that provide universal financial services.
- Will be able to secure more orders for large projects from insurers and credit card companies.

Anticipated Medium- to Long-term Benefits

- Will jointly refine proprietary products, like CreditCube and F3 with the potential to become defacto industry standards by sharing business know-how and then market these products through cross-selling access to an expanded client base.
- Will be able to expand net sales by utilizing Hokuriku Software Factory to reinforce the service delivery capability, and can expect added value within the group and an improvement in profitability.

Merits of Integration: Synergy in Outsourcing Services

Direction in Outsourcing

Concrete Synergy Area

- Promote TIS' high-value-added system operation and maintenance services to INTEC Holdings' clients.
 - ➔ INTEC Holdings will quickly achieve higher profits on outsourcing business.
- Promote INTEC Holdings' network and platform technologies to TIS' clients.
 - ➔ The goal is to promote these technologies laterally within the industry to establish them as defacto standards.
- Enhance efficiency by consolidating networks.
- Raise efficiency on investment in next-generation data centers and R&D.
- Develop high-value-added business models, using shared technologies and know-how.
 - ➔ The focus will be on network-based services, business process outsourcing (BPO) and Software as a Service (SaaS).

Accelerated Sales/Profit Growth

Merits of Integration ~ Cost Reductions

Cost Reduction Targets

- Streamline and amalgamate redundant and peripheral operations, such as the leasing business.
- Promote shared services to cut administrative and personnel costs on a groupwide basis.
- Undertake centralized purchasing.
- Make efficient use of internal funds.

Anticipated Early-Stage Results

1. Results of integration of redundant and peripheral businesses, such as leasing and group service companies
 - Annual selling, general and administrative expenses at targeted companies is currently ¥1.5 billion but savings of **about ¥800 million** through cost reduction due to consolidation is planned.
2. Results of integration of back office operations at principal companies, namely TIS and INTEC Holdings, and enhanced services
 - Through elimination of overlapping operations, a cost reduction of **about ¥500 million** is anticipated.
3. Results of centralized purchasing and greater capital efficiency
 - Cost reduction of **about ¥200 million** is anticipated.

The total of all of the above cost reduction efforts is about ¥1.5 billion.

Assumed Areas of Synergy and New Corporate Value

Area of Synergy

- Increase Business Opportunities with Next Gen. Data Centers
- Expand and Create New Services and Solutions
- Enhance the Service Delivery Power by Improving Resource Mobilizing Capability
- Increase Sales by Cross-selling
- Increase Additional Value by Strengthened Consulting Capability and Ability to Demonstrate High-Quality Proposals
- Enhance Profitability by Improving the Productivity of Software Development
- Control Investment by Sharing Data Centers
- Improve Efficiency by Integrating Duplication/ Peripheral Business
- Increase C/F by Reducing Administrative Expenses and Improved Efficiency of the Capital Operation
