## **Report of Independent Registered Public Accounting Firm**

The Compensation Committee of the  
Technitrol, Inc. Board of Directors:

We have audited the accompanying statements of net assets available for plan benefits of the Technitrol, Inc. 401(k) Retirement Savings Plan (the "Plan") as of December 31, 2007 and 2006, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements and the schedule referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for plan benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# TECHNITROL, INC. 401(k) RETIREMENT SAVINGS PLAN

## Notes to Financial Statements

December 31, 2007 and 2006

### **(1) Description of Plan**

The following description of the Technitrol, Inc. (the Company) 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

#### *General*

The Plan is a defined contribution plan covering certain domestic full-time and part-time employees of the Company, except for those employees covered by certain collective bargaining agreements and leased employees. Employees are eligible to participate in the Plan on the first day of the month following their date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

#### *Contributions*

Participants may contribute up to the lesser of \$15,500 and \$15,000 in 2007 and 2006, respectively, or 60 percent (60%) of their annual wages excluding stock option income, restricted stock income and related payments, employee stock purchase plan income, sick pay, severance, reimbursements or other expense allowances, fringe benefits, moving expenses, and deferred compensation and welfare benefits and including salary reduction contributions made to the Company sponsored cafeteria plan. This contribution is subject to the limit provided by Section 402 (g) (5) of the Internal Revenue Code. The Company contributes a matching amount equal to 100 percent (100%) of an employee's contribution up to a maximum of four percent (4%) of the participant's qualified annual wages. The participants must direct how their contributions are to be invested.

#### *Participant Accounts*

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company contribution, (b) the appreciation or depreciation in the fair market value of investments, (c) the income or losses on investments, and (d) administrative expenses for the third party record keeper. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's accounts. At December 31, 2007 and 2006, there were no participant accounts for which participants have been terminated but have not received requested payout.

#### *Vesting*

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Effective September 1, 1999, the Company matching contributions made to the Plan on or after that date are immediately and fully vested. Vesting of Company matching contributions made to the Plan prior to September 1, 1999, are based on years of service. After completing two years of service, participants are 20 percent (20%) vested and receive 20 percent (20%) for each year of service thereafter. Participants are 100 percent (100%) vested after six years of credited service. In the event a plan participant terminates employment prior to fully vesting in employer contributions, any forfeited amounts may be utilized to offset future company matching contributions. Forfeited amounts utilized to offset Company matching contributions were \$11,735 and \$10,948 in the Plan years ended December 31, 2007 and 2006, respectively.

### Notes to Financial Statements, continued

#### *Participant Notes Receivable*

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent (50%) of a participant's account balance, reduced by the participant's highest outstanding loan balance during the prior twelve-month period. Loan terms range from one through five years or up to ten years for the purchase of a primary residence. Interest rates are determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid at least quarterly by payroll deductions. A participant may have one only loan outstanding at a time.

#### *Distributions Due to Death*

The full amount of a participant's account balance will be payable to their beneficiary upon death. If the participant is married the spouse will automatically be named the beneficiary unless the surviving spouse consents to naming a non-spouse beneficiary. If the participant has no surviving spouse and did not name another beneficiary, the account balance will be paid to the participant's estate.

#### *Distributions Due to Disability*

If disabled, participants are eligible to receive the full amount of their account balance, only if they are employed by the Company on the date they become disabled. Participants are considered eligible for distributions should they meet all requirements under the Federal Social Security Act.

#### *Distributions Due to Retirement*

Participants may receive the full amount of their account balance upon retirement. Normal retirement under the Plan occurs when age 65 is attained. Should participants continue to work beyond 65, they may continue participating in the Plan. However, participants must receive their entire account balance by April 1 following the year in which they attain age 70 ½, even if the participant is still working.

#### *Distributions Due to Termination*

Upon termination of service for any reason other than retirement, disability, or death, participants will receive a lump sum distribution of their vested account balance. Should a participant's account balance exceed \$5,000, the participant may elect a lump sum distribution or have the account balance remain in the Plan.

#### *Plan Administration*

All third party record keeping fees incurred by the Plan are paid by participants. All other administrative costs of the Plan are paid by the Company.

### **(2) Summary of Accounting Policies**

#### *Basis of Accounting*

The accompanying financial statements have been prepared on the accrual basis and present net assets available for plan benefits and changes in those net assets.

TECHNITROL, INC. 401(k) RETIREMENT SAVINGS PLAN

Notes to Financial Statements, continued

*Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

*Investment Valuation*

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The Company stock is valued at its quoted market price. Participant notes receivable are valued at cost which approximates fair value.

Purchase and sale of securities are on a trade-date basis. Dividends are recorded on the ex-dividend date.

*New Accounting Pronouncement*

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurement*. This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Plan management is currently evaluating the effect that the provision of SFAS No. 157 will have on the Plan's financial statements.

*Payment of Benefits*

Benefits are recorded when paid.

### **(7) Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.
