*Annual* **PPLSIK** *2008*  
**ANNUAL REPORT 2008**

## To Our Shareholders:

2008 was a difficult time for our nation. The stock market began to decline, banks, pillars of industry, began to fail, and many companies were forced to close their doors. As a result, hundreds of thousands of hard-working people lost their jobs across the nation. For Pre-Paid Legal Associates, these difficult times have been a call to action because our product, and our opportunity are something people urgently need right now.

This April will mark the 10 year anniversary of a very important initiative at Pre-Paid Legal Services, Inc. - our share repurchase program. We believe this dramatically enhances the per share intrinsic value of our business. The best return for our shareholders is investing in commission advances for our sales force to grow our membership base and membership revenues. After commission advances, share repurchases have been and we expect will continue to be our next best use of capital.

In the last 10 years we have generated \$3.3 billion in membership revenues from which we've paid \$1.2 billion to our sales force, \$1.1 billion in membership benefits, more than \$385 million in G&A, more than \$200 million in income taxes and spent more than \$420 million to buyback more than 55% of our shares outstanding. We've done this without leveraging our balance sheet as our debt and cash and investments are roughly equal in amount.

Membership revenue per share, one of the best measures of our economic progress, has grown nearly 17% per year over the last 10 years.

Our company was founded with the belief that every person has the right to equal justice under the law, and in a faltering economy legal issues abound. While 2008 saw numerous difficulties for our nation, the demand for our product increased. While many began to cancel expenses like dental or vision insurance, many were signing up for Pre-Paid Legal. While many struggled to locate, obtain, and pay for an attorney, Pre-Paid Legal Provider Attorneys were ready and available to assist Members on a wide range of issues beginning the very day they signed up.

2008 coined a new philosophy in our company. Our service is a "Now Benefit". I can think of few better examples than this of our "Now Benefit." On Christmas morning, 2008, while most were opening presents with their family, we received calls into our Legal Shield line with emergencies requiring urgent legal assistance and these calls were immediately put through to attorneys. While other law firms are open 8-5, Pre-Paid Legal Provider Law Firms are immediately available in an emergency: nights, weekends, and even holidays. This is the driving force that makes our service a benefit people need now: Access to attorneys starting the day they sign up, and 24/7 emergency access.

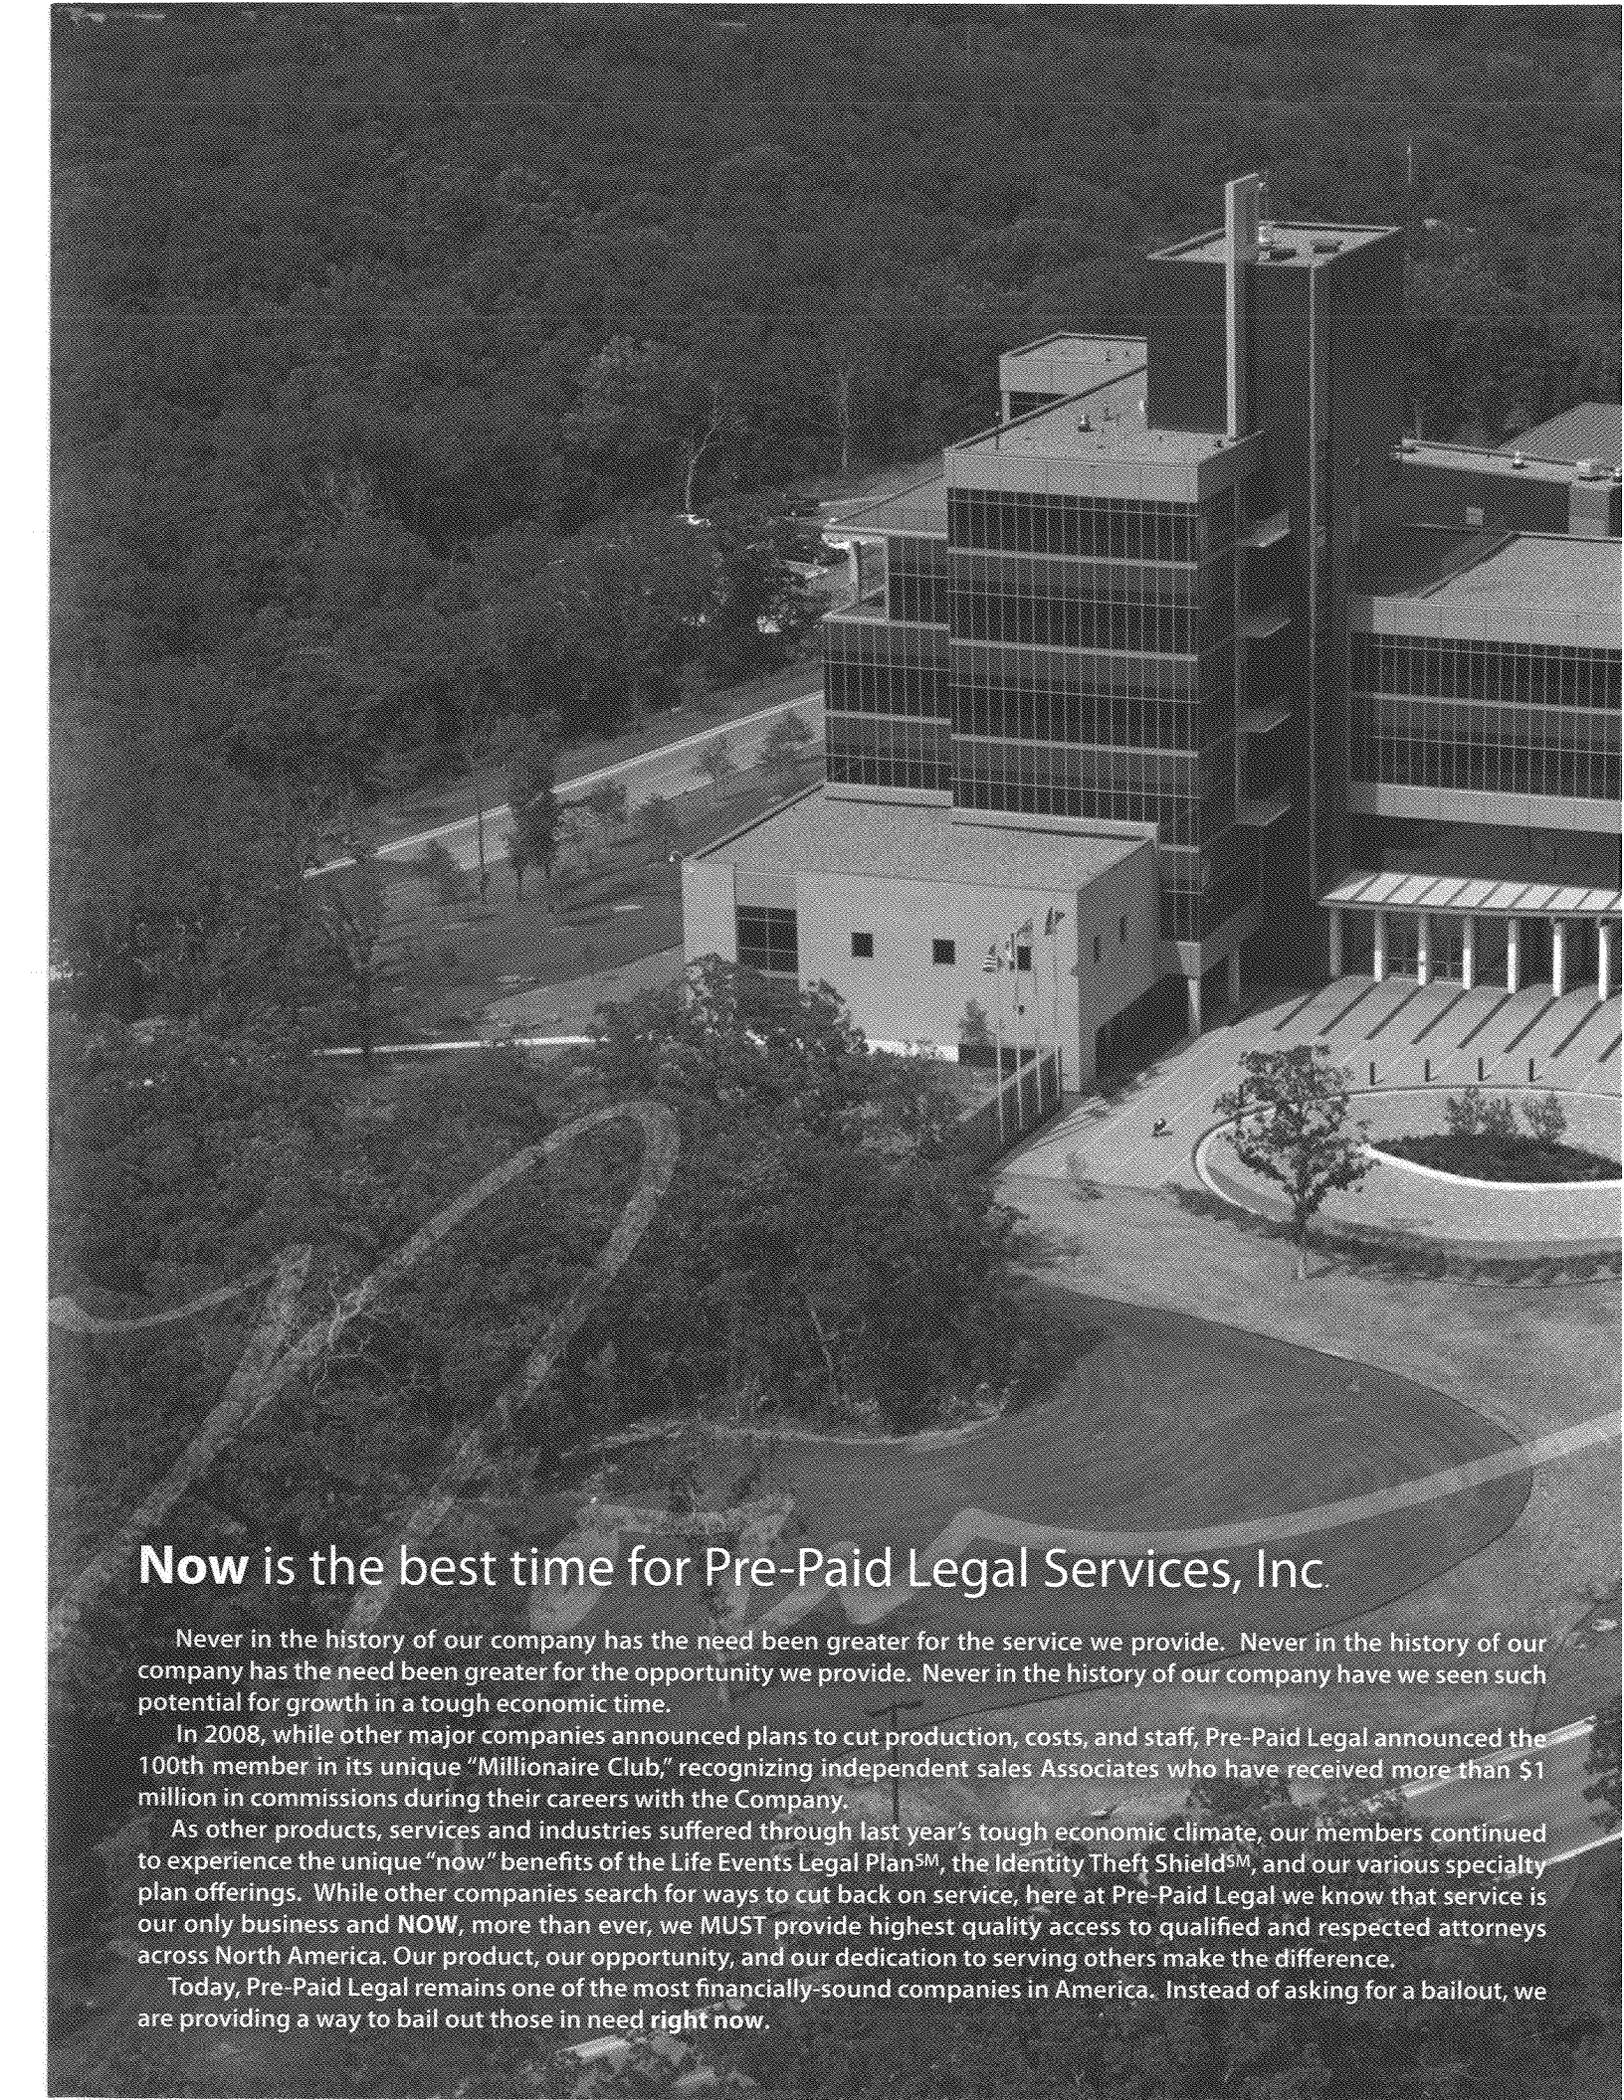

For Independent Associates, like Rob Vest, these tough times are a time to take action. While people are passing on other benefits, they are embracing Pre-Paid Legal, right now. Associates like Rob Vest are signing up members at a rate of 80 and 90 percent! I'm pleased to feature Rob this year as a shining example of what is possible in Pre-Paid Legal DURING an economic downturn. Rob is one of many who has achieved great success in the face of this economy. However, despite so many hard working Associates, there are still not enough sales people to meet the demand. What an exciting opportunity this is for those that want to work hard at a job that makes a difference.

For Pre-Paid Legal, the Provider Law Firms, and Independent Associates, now is the time to look toward to the future with determination: Determination to do our absolute best to help as many people as we can in 2009. While so many companies are seeking a bail-out from the government, Pre-Paid Legal is offering its own bailout: A national recruiting opportunity, reaching out to any in need of a solution to their own personal financial crisis. 2008 is behind us and what was once an incredible passion is now that AND a social responsibility - we will continue to help as many as we can achieve financial freedom and peace of mind in 2009.

Sincerely,

Harland C. Stonecipher  
Founder, Chairman, CEO & President  
Pre-Paid Legal Services, Inc.

## Now is the best time for Pre-Paid Legal Services, Inc.

Never in the history of our company has the need been greater for the service we provide. Never in the history of our company has the need been greater for the opportunity we provide. Never in the history of our company have we seen such potential for growth in a tough economic time.

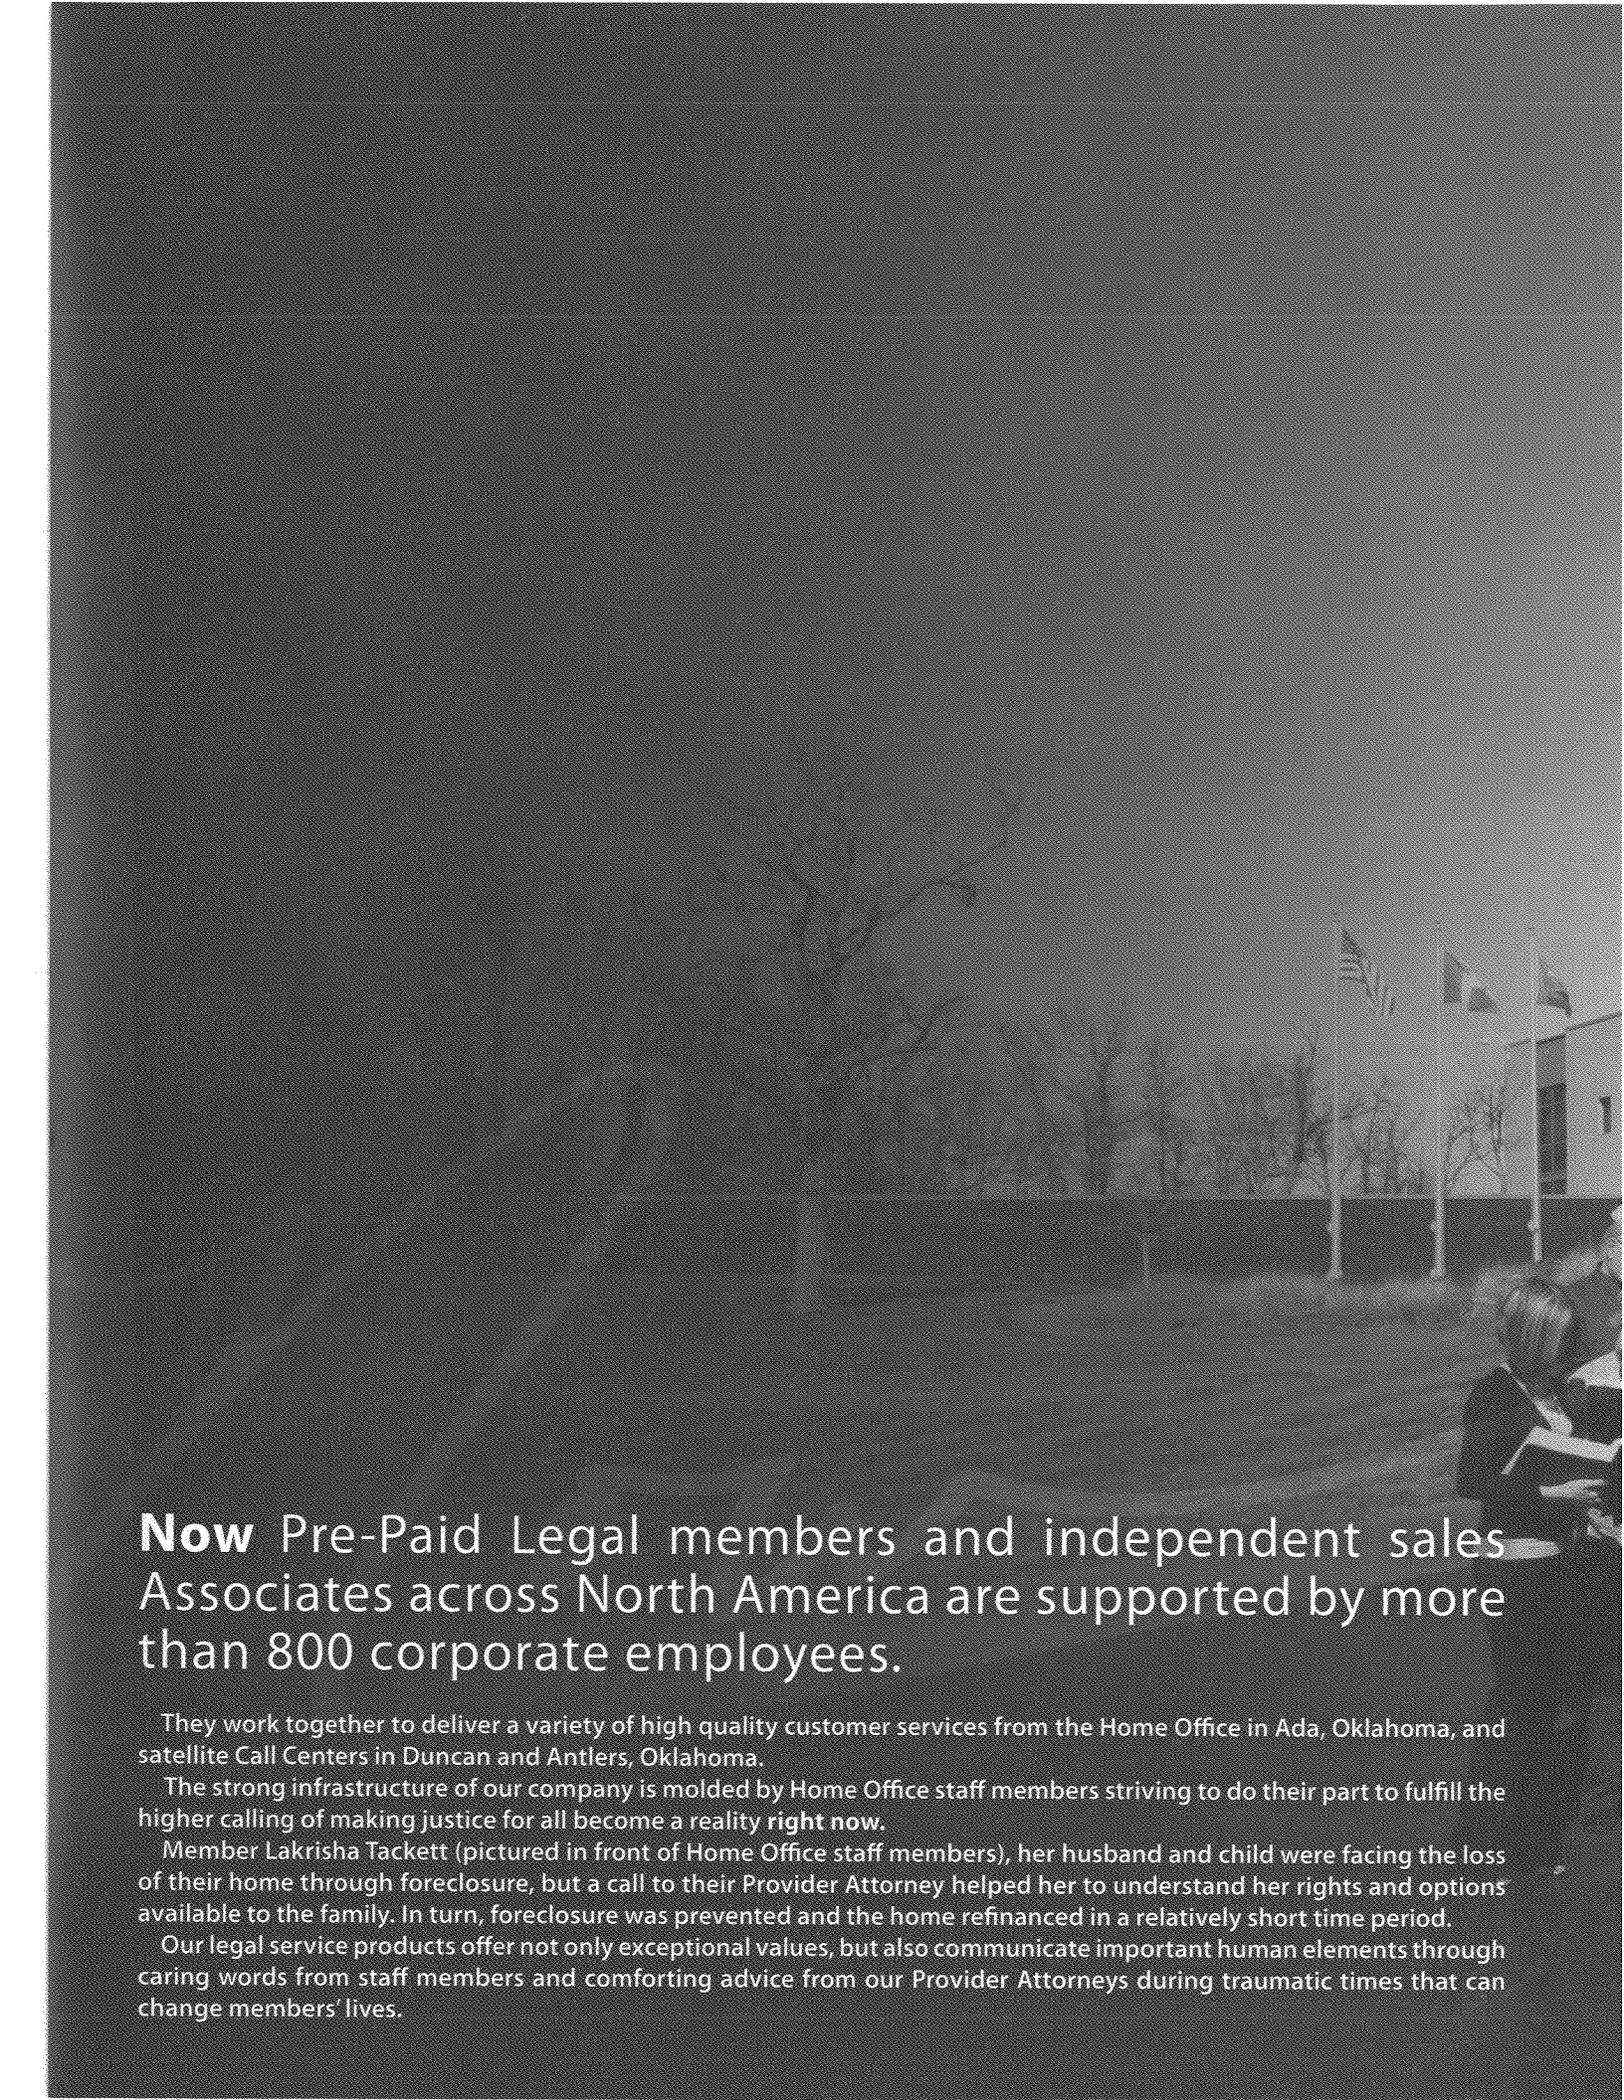

In 2008, while other major companies announced plans to cut production, costs, and staff, Pre-Paid Legal announced the 100th member in its unique "Millionaire Club," recognizing independent sales Associates who have received more than \$1 million in commissions during their careers with the Company.

As other products, services and industries suffered through last year's tough economic climate, our members continued to experience the unique "now" benefits of the Life Events Legal Plan<sup>SM</sup>, the Identity Theft Shield<sup>SM</sup>, and our various specialty plan offerings. While other companies search for ways to cut back on service, here at Pre-Paid Legal we know that service is our only business and **NOW**, more than ever, we **MUST** provide highest quality access to qualified and respected attorneys across North America. Our product, our opportunity, and our dedication to serving others make the difference.

Today, Pre-Paid Legal remains one of the most financially-sound companies in America. Instead of asking for a bailout, we are providing a way to bail out those in need **right now**.

Pre-Paid Legal Corporate Headquarters, Ada, Oklahoma

**Now** Pre-Paid Legal members and independent sales Associates across North America are supported by more than 800 corporate employees.

They work together to deliver a variety of high quality customer services from the Home Office in Ada, Oklahoma, and satellite Call Centers in Duncan and Antlers, Oklahoma.

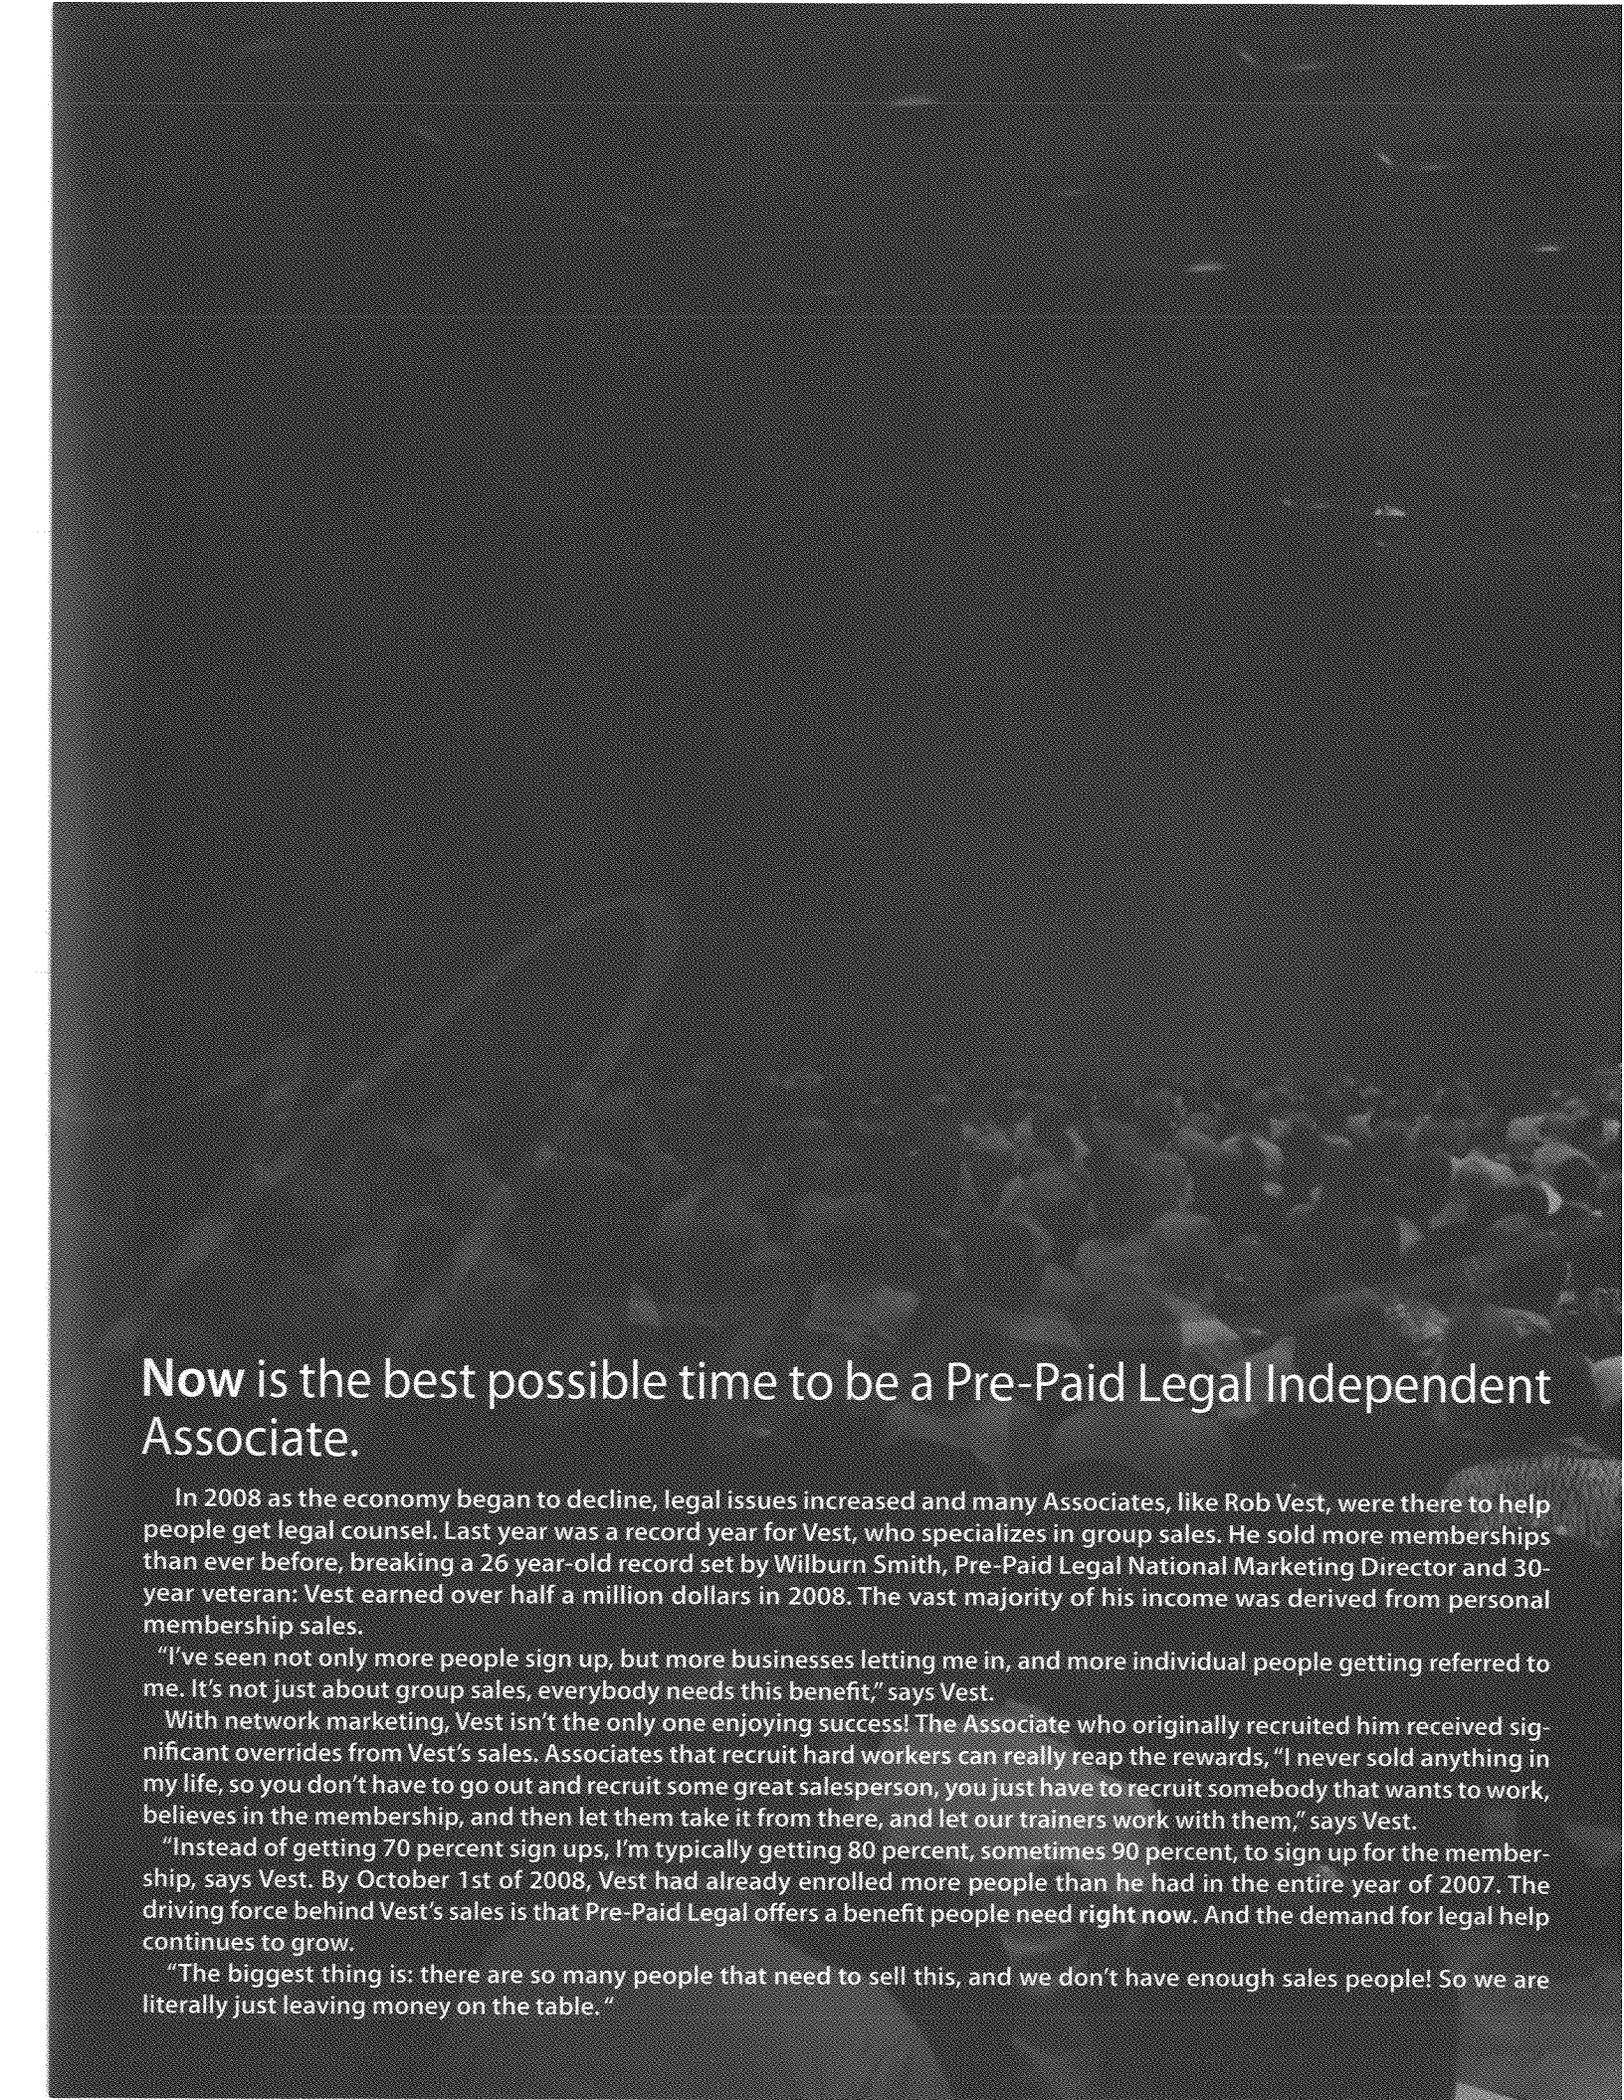

The strong infrastructure of our company is molded by Home Office staff members striving to do their part to fulfill the higher calling of making justice for all become a reality **right now**.

Member Lakrisha Tackett (pictured in front of Home Office staff members), her husband and child were facing the loss of their home through foreclosure, but a call to their Provider Attorney helped her to understand her rights and options available to the family. In turn, foreclosure was prevented and the home refinanced in a relatively short time period.

Our legal service products offer not only exceptional values, but also communicate important human elements through caring words from staff members and comforting advice from our Provider Attorneys during traumatic times that can change members' lives.

Lakrisha Tackett, PPL Member

## Now is the best possible time to be a Pre-Paid Legal Independent Associate.

In 2008 as the economy began to decline, legal issues increased and many Associates, like Rob Vest, were there to help people get legal counsel. Last year was a record year for Vest, who specializes in group sales. He sold more memberships than ever before, breaking a 26 year-old record set by Wilburn Smith, Pre-Paid Legal National Marketing Director and 30-year veteran: Vest earned over half a million dollars in 2008. The vast majority of his income was derived from personal membership sales.

"I've seen not only more people sign up, but more businesses letting me in, and more individual people getting referred to me. It's not just about group sales, everybody needs this benefit," says Vest.

With network marketing, Vest isn't the only one enjoying success! The Associate who originally recruited him received significant overrides from Vest's sales. Associates that recruit hard workers can really reap the rewards, "I never sold anything in my life, so you don't have to go out and recruit some great salesperson, you just have to recruit somebody that wants to work, believes in the membership, and then let them take it from there, and let our trainers work with them," says Vest.

"Instead of getting 70 percent sign ups, I'm typically getting 80 percent, sometimes 90 percent, to sign up for the membership, says Vest. By October 1st of 2008, Vest had already enrolled more people than he had in the entire year of 2007. The driving force behind Vest's sales is that Pre-Paid Legal offers a benefit people need right now. And the demand for legal help continues to grow.

"The biggest thing is: there are so many people that need to sell this, and we don't have enough sales people! So we are literally just leaving money on the table."

**Rob Vest**, Independent Associate

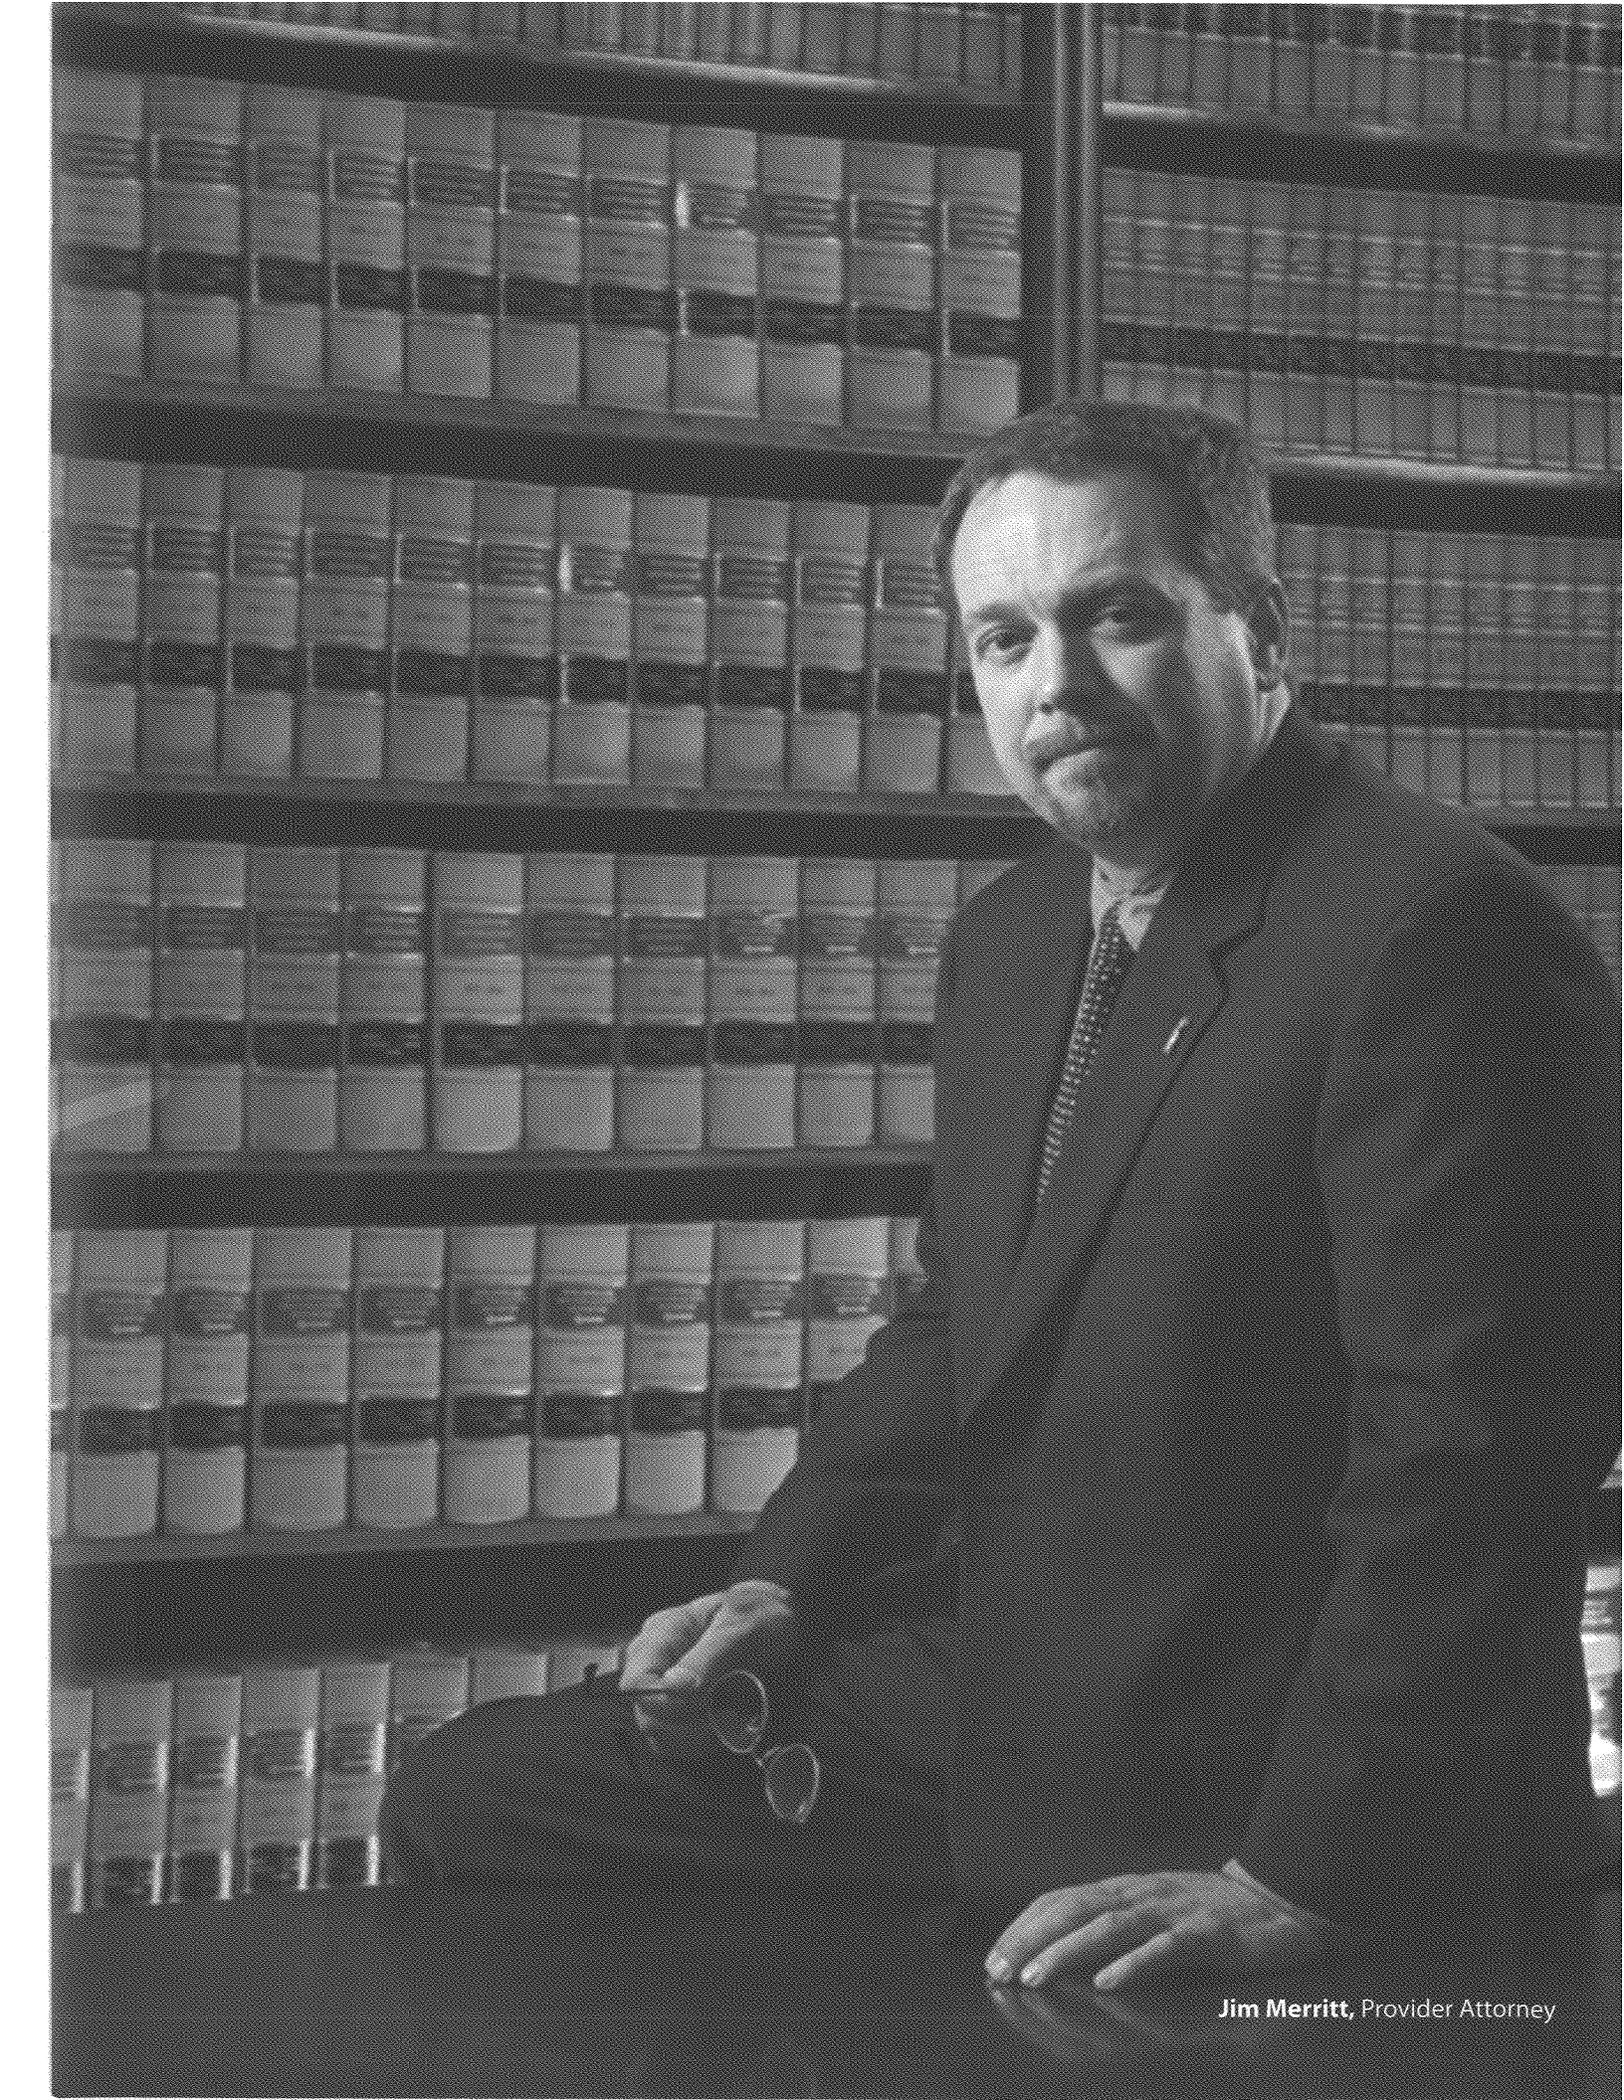

## Now, Pre-Paid Legal Services, Inc. has virtually the largest direct toll-free access law firm in the world.

This is achieved by a network of Provider Law Firms that span across the United States and Canada. In this tough economy, Provider Law Firms continue to work hard for Members, taking calls from a person the very day they sign up and assisting on a wide range of issues, like questions about severance packages, collection issues, home foreclosures, tax problems, and liens – all of the legal troubles that erupt in a bad economy, as well as many other issues. Pre-Paid Legal Members typically comprise the largest client base of the Provider Law Firms.

Many of our Provider Law Firms have been with us for several years. Jim Merritt (of Merritt, Flebotte, Wilson, Webb and Caruso, PLLC) has been a provider lawyer since 1999. His first Pre-Paid Legal case reminded Merritt why he had become an attorney, "It occurred to me that Pre-Paid was all about balancing the scales of justice. Two months later I took over the management of my firm's Pre-Paid business. I have never looked back." Merritt continued, "Being a trial attorney can 'thin out' your soul. Since I have been with Pre-Paid, on every level- from professional to personal, from faith in my profession to faith in my God – I could not be happier."

### **2008 Provider Law Firm Stats:**

- Provider Law Firms in the US and Canada representing 51 States and Provinces
- 2,483 lawyers and support staff in our Law Firms
- The average tenure of all provider law firms is in excess of 10 years
- More than \$150,000,000 was paid to provide member benefits

**Jim Merritt**, Provider Attorney

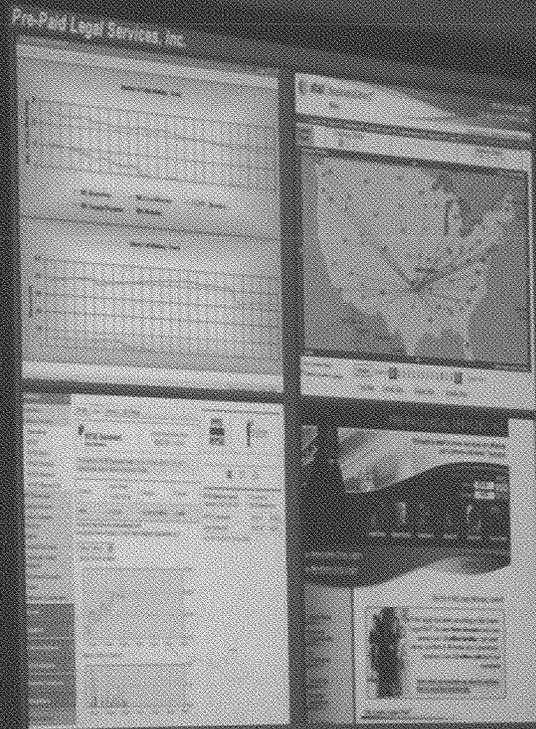

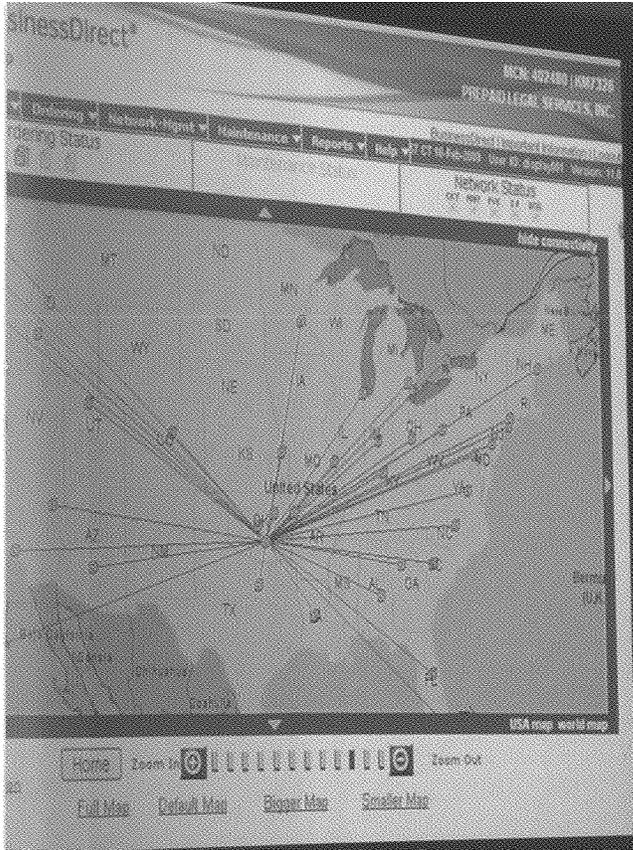

## NOW Pre-Paid Legal has the strongest infrastructure in its history.

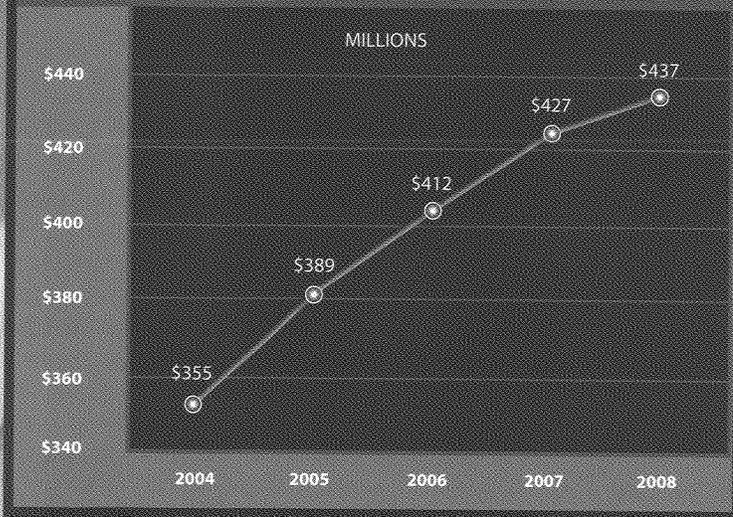

Today, Pre-Paid Legal's Home Office sits on 87 wooded acres on the outskirts of Ada and as of December 31, 2008 employs 801. The state-of-the-art facility was built to stand the test of time with a concrete infrastructure and huge drill piers that go 6-12 ft below ground into solid rock, enabling the building to withstand the often turbulent Oklahoma weather.

An integral part of Pre-Paid Legal's infrastructure, the Network Operations Center (NOC) provides technical support to the home office, sales associates, provider law firms, and remote sites. The NOC features a state of the art Crestron System used for integration and control of audio, video, computer, and internet. NOC monitors network connectivity, and devices, call center traffic, and data circuits to provider law firm locations. NOC constantly monitors both local and national weather reports for all of Pre-Paid Legal's locations including the Provider Law Firms. Pre-Paid Legal's systems are equipped to run even in a power outage.

Pre-Paid Legal has two additional Customer Care facilities within 100 miles of the corporate office. Our 17,000 square foot Distribution Center is located roughly two miles from the home office. We also maintain over 58,600 square feet of office space and infrastructure outside of our existing locations as business continuity sites, or if necessary, disaster recovery sites. Pre-Paid Legal's solid infrastructure was built to maintain our high standards for many decades to come.

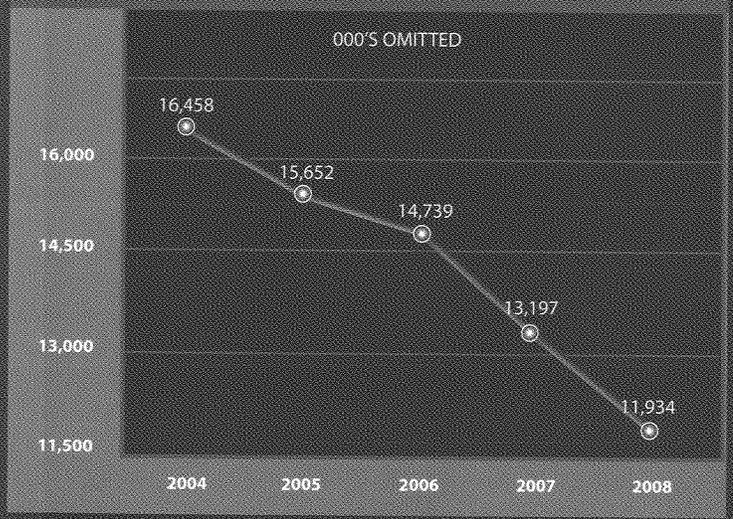

## MEMBERSHIP REVENUES

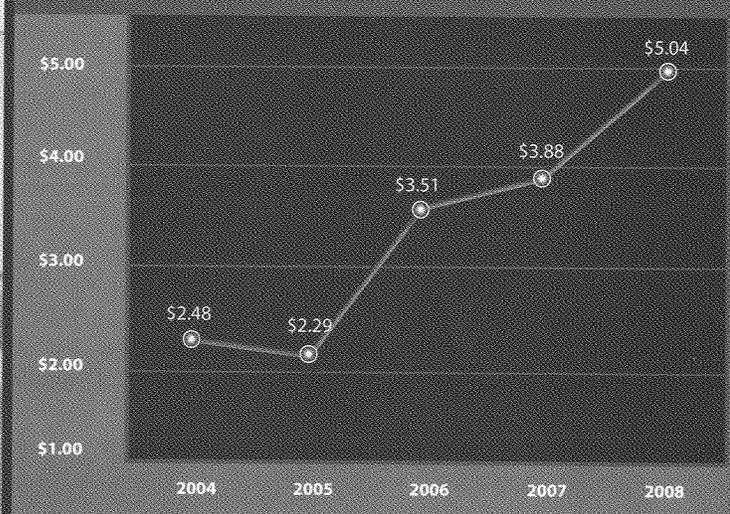

## CASH FLOW FROM OPERATIONS AND NET INCOME

## WEIGHTED AVERAGE DILUTED SHARES OUTSTANDING

## DILUTED EARNINGS PER SHARE

### Membership Revenues:

We have grown our membership revenues for 16 consecutive years. During 2008 membership fees increased 2%.

### Cash Flow From Operations And Net Income:

Our business model allows for growth of top-line membership fees while generating significant cash flow. As shown in the accompanying chart, cash flow from operations has grown significantly since year 2004. Cash flow has been in excess of our reported net income consistently over the last ten years which highlights the quality of our reported earnings.

### Weighted Average Diluted Shares Outstanding:

Our free cash flow continues to be utilized to reduce the number of shares outstanding. Due to the share repurchase program which began in April of 1999, the number of shares outstanding has been reduced by 52% to 11.4 million as of December 31, 2008.

### Diluted Earnings Per Share:

The growth in diluted earnings per share over the past five years was achieved by increasing our net income and reducing the number of shares outstanding through our share repurchase program that began ten years ago.

**PRE-PAID LEGAL SERVICES, INC.  
FORM 10-K**

**FOR THE YEAR ENDED DECEMBER 31, 2008**

**PART I**

**ITEM 1. BUSINESS.**

**General**

We were one of the first companies in the United States organized solely to design, underwrite and market legal expense plans. Our predecessor commenced business in 1972 and began offering legal expense reimbursement services as a "motor service club" under Oklahoma law. In 1976, we were formed and acquired our predecessor in a stock exchange. We began offering Memberships independent of the motor service club product by adding a legal consultation and advice service, and in 1979 we implemented a legal expense benefit that provided for partial payment of legal fees in connection with the defense of certain civil and criminal actions. Our life events legal plans (referred to as "Memberships") currently provide for a variety of legal services. In most states and provinces, standard plan benefits include preventive legal services, motor vehicle legal defense services, trial defense services, IRS audit services and a 25% discount off legal services not specifically covered by the Membership for an average monthly Membership fee of approximately \$21. Additionally, in approximately 44 states, the Legal Shield rider can be added to the standard plan for only \$1 per month and provides members with 24-hour access to a toll-free number for attorney assistance if the member is arrested or detained. We also offer our Identity Theft Shield ("IDT") to new and existing members at \$9.95 per month if added to a legal service Membership ("add-on IDT") or IDT may be purchased separately for \$12.95 per month ("stand-alone IDT"). The identity theft related benefits include a credit report and related instructional guide, a credit score and related instructional guide, credit report monitoring with daily online and monthly offline notification of any changes in credit information and comprehensive identity theft restoration services.

Life events legal plan benefits are generally provided through a network of independent provider law firms, typically one firm per state or province and IDT plan benefits are provided by Kroll Background America, Inc., a subsidiary of Kroll Inc. ("Kroll"). Members have direct, toll-free access to Kroll or their provider law firm rather than having to call for a referral. At December 31, 2008, we had 1,559,154 Memberships in force with members in all 50 states, the District of Columbia and the Canadian provinces of Ontario, British Columbia, Alberta and Manitoba. Approximately 90% of such Memberships were in 29 states and provinces.

**Industry Overview**

Legal service plans, while used in Europe for more than one hundred years and representing more than a \$4 billion European industry, were first developed in the United States in the late 1960s. Since that time, there has been substantial growth in the number of Americans entitled to receive various forms of legal services through legal service plans. The National Resource Center for Consumers of Legal Services ("NRC") previously provided market information for different types of legal service plans and estimates of number of users. However, the NRC is no longer in existence and we are unaware of any current comparable information sources. In the last NRC report in 2002, the NRC estimated there were 164 million Americans without any type of legal service plan. We believe the legal service plan industry continues to evolve and market acceptance of legal service plans, as indicated by the continuing growth in the number of individuals covered by plans, is increasing.

"Public Perceptions of Lawyers: Consumer Research Findings, April 2002" prepared on behalf of the American Bar Association concluded that nearly seven in ten households had some occasion during the past year that might have led them to hire a lawyer. This report further suggested that *"for the consumer, legal services are among the most difficult services to buy. The prospect of doing so is rife with uncertainty and potential risk."* And

further concluded that *“the challenge (and opportunity) for the legal profession is to make lawyers more accessible and less threatening to consumers who might need them.”*

The American Bar Association’s web site also reflects the legal profession’s support of the legal service plan concept by saying “The ABA has long supported prepaid legal services plans as a way to increase access to the justice system for low- and middle-income Americans. These plans allow individuals and families to address legal issues before they become significant problems, reducing demands on already overburdened court systems and instilling confidence in our justice system. The ABA web site points out that:

- Group legal plans are important to maintaining confidence in our justice system and the rule of law.
- Group legal plans efficiently and inexpensively provide preventative legal services to low and middle income Americans.
- Group legal services help ease the burden on overtaxed government programs.
- Group legal plans enhance productivity by allowing employees to focus on their jobs, not their legal troubles.

Legal service plans are offered through various organizations and marketing methods and contain a wide variety of benefits. Free plans include those sponsored by labor unions, elder hotlines, the American Association of Retired Persons and the National Education Association and employee assistance plans that are also automatic enrollment plans without direct cost to participants designed to provide limited telephonic access to attorneys for members of employee groups. There are also employer paid plans pursuant to which more comprehensive benefits are offered by the employer as a fringe benefit. Finally, there are individual enrollment plans, other employment based plans, including voluntary payroll deduction plans, and miscellaneous plans. These plans typically have more comprehensive benefits, higher utilization, involve higher costs to participants, and are offered on an individual enrollment or voluntary basis. This is the market segment in which we compete.

According to the latest estimates of the census bureaus of the United States and Canada, the two geographic areas in which we operate, the number of households in the combined area exceeds 138 million. Since we have always disclosed our members in terms of Memberships and individuals covered by the Membership include the individual who purchases the Membership together with his or her spouse and never married children living at home up to age 21 or up to age 23 if the children are full time college students, we believe that our market share should be viewed as a percentage of households. Historically, our primary market focus has been the “middle” eighty percent of such households rather than the upper and lower ten percent segments based on our belief that the upper ten percent may already have a relationship with an attorney or law firm and the lower ten percent may not be able to afford the cost of a legal service plan. As a percentage of this defined “middle” market of approximately 110 million households, we currently have an approximate 1.5% share of the estimated market based on our existing 1.6 million active Memberships and, over the last 30 years, an additional 6% of households have previously purchased, but no longer own, Memberships. We routinely remarket to previous members and reinstated approximately 82,000, 83,000 and 76,000 Memberships during 2008, 2007 and 2006, respectively.

### **Description of Memberships**

The Memberships we sell generally allow members to access legal services through a network of independent law firms (“provider law firms”) under contract with us. Provider law firms are paid a monthly fixed fee on a capitated basis to render services to plan members residing within the state or province in which the provider law firm attorneys are licensed to practice. Because the fixed fee payments by us to provider law firms do not vary based on the type and amount of benefits utilized by the member, this capitated arrangement provides significant advantages to us in managing claims risk. At December 31, 2008, Memberships subject to the capitated provider law firm arrangement comprised more than 99% of our active Memberships. The remaining Memberships, less than 1%, were primarily sold prior to 1987 and allow members to locate their own lawyer

("open panel") to provide legal services available under the Membership with the member's lawyer being reimbursed for services rendered based on usual, reasonable and customary fees, or are in states where there is no provider law firm in place and our referral attorney network described below is utilized.

#### *Family Legal Plan*

The Family Legal Plan we currently market in most jurisdictions consists of five basic benefit groups that provide coverage for a broad range of preventive and litigation-related legal expenses. The Family Legal Plan accounted for approximately 91% of our Membership fees (including the add-on identity theft shield benefit, 75% and 76%, respectively, excluding such add-ons) in 2008 and 2007. In addition to the Family Legal Plan, we market other specialized legal services products specifically related to employment in certain professions described below.

In 12 states, certain of our plans are available in the Spanish language. For the Spanish language plans, the provider law firms have both bilingual staff and lawyers and we have bilingual staff for customer service, attorney resources and marketing service functions. We will continue to evaluate making our plans available in additional languages in markets where there is both sufficient demand and qualified staff and attorneys available.

In exchange for a fixed monthly, semi-annual or annual payment, members are entitled to specified legal services. Those individuals covered by the Membership include the individual who purchases the Membership along with his or her spouse and never married children living at home up to age 21 or up to age 23 if the children are full time college students. Also included are children up to age 18 for whom the member is legal guardian and any dependent child, regardless of age, who is mentally or physically disabled. Each Membership, other than the Business Owners' Legal Solutions Plan, is guaranteed renewable, except in the case of fraud or nonpayment of Membership fees. Historically, we have not raised rates to existing members. If new benefits become available, existing members may choose the newer, more comprehensive plan at a higher rate or keep their existing Memberships. Memberships are automatically renewed at the end of each Membership period unless the member cancels prior to the renewal date or fails to make payment on a timely basis.

The basic legal service plan Membership is sold as a package consisting of five separate benefit groups. Memberships range in cost from \$14.95 to \$25.00 per month depending in part on the schedule of benefits, which may vary from state or province in compliance with regulatory requirements. Benefits for domestic matters, bankruptcy and drug and alcohol related matters are limited in most Memberships.

*Preventive Legal Services.* These benefits generally offer unlimited toll-free access to a member's provider law firm for advice and consultation on any legal matter. These benefits also include letters and phone calls on the member's behalf, review of personal contracts and documents, each up to 10 pages in length, last will and testament preparation for the member and annual will reviews at no additional cost. Additional wills for spouse and other covered members may be prepared at a cost of \$20.

*Motor Vehicle Legal Protection.* These benefits offer legal assistance for matters resulting from the operation of a licensed motor vehicle. Members have assistance available to them at no additional cost for: (a) defense in the court of original jurisdiction of moving traffic violations deemed meritorious, (b) defense in the court of original jurisdiction of any charge of manslaughter, involuntary manslaughter, vehicular homicide or negligent homicide as the result of a licensed motor vehicle accident, (c) up to 2.5 hours of assistance per incident for collection of minor property damages (up to \$2,000) sustained by the member's licensed motor vehicle in an accident, (d) up to 2.5 hours of assistance per incident for collection of personal injury damages (up to \$2,000) sustained by the member or covered family member while driving, riding or being struck as a pedestrian by a motor vehicle, and (e) up to 2.5 hours of assistance per incident in connection with an action, including an appeal, for the maintenance or reinstatement of a member's driver's license which has been canceled, suspended, or revoked. No coverage under this benefit of the basic legal service plan is offered to members for pre-existing conditions, drug or alcohol related matters, or for commercial vehicles over two axles or operation without a valid license.

*Trial Defense.* These benefits offer assistance to the member and the member's spouse through an increasing schedule of benefits based on Membership year. Up to 60 hours are available for the defense of civil or job-related criminal charges by the provider law firm in the first Membership year. The criminal action must be within the scope and responsibility of employment activities of the member or spouse. Up to 2.5 hours of assistance are available prior to trial, and the balance is available for actual trial services. The schedule of benefits under this benefit area increases by 60 hours each Membership year to: 120 hours in the second Membership year, 3 hours of which are available for pre-trial services; 180 hours in the third Membership year, 3.5 hours of which are available for pre-trial services; 240 hours in the fourth Membership year, 4 hours of which are available for pre-trial services, to the maximum limit of 300 hours in the fifth Membership year, 4.5 hours of which are available for pre-trial services. This benefit excludes domestic matters, bankruptcy, deliberate criminal acts, alcohol or drug-related matters, business matters, and pre-existing conditions.

In addition to the pre-trial benefits of the basic legal plan described above, there are additional pre-trial hours available as an option, or add-on, to the basic plan. These optional benefits cost \$9.00 per month and add 15 hours of pre-trial services during the first year of the Membership increasing 5 additional hours each Membership year to the maximum limit of 35 hours in the fifth Membership year and increases total pre-trial and trial defense hours available pursuant to the expanded Membership to 75 hours during the first Membership year to 335 hours in the fifth Membership year. These pre-trial hours are in addition to those hours already provided by the basic plan so that the member, in the first year of the Membership, has a combined total of 17.5 pre-trial hours available escalating to a combined total of 39.5 pre-trial hours in the fifth Membership year. There were approximately 487,000 subscribers of this benefit at December 31, 2008 compared to 530,000 at December 31, 2007.

*IRS Audit Protection Services.* This benefit offers up to 50 hours of legal assistance per year in the event the member, spouse or dependent children receive written notification of an Internal Revenue Service ("IRS") audit or are summoned in writing to appear before the IRS concerning a tax return. The 50 hours of assistance are available in the following circumstances: (a) up to 1 hour for initial consultation, (b) up to 2.5 hours for representation in connection with the audit if settlement with the IRS is not reached within 30 days, and (c) the remaining 46.5 hours of actual trial time if settlement is not achieved prior to litigation. Coverage is limited to audit notification received regarding the tax return for years during which the Membership is effective. Representation for charges of fraud or income tax evasion, business and corporate tax returns and certain other matters are excluded from this benefit.

With pre-trial benefits limited to 2.5 hours to 4.5 hours based on the Membership year for trial defense (without the pre-trial option described) and 3.5 hours for the IRS audit benefit, these benefits do not ensure complete pre-trial coverage. In order to receive additional pre-trial IRS audit or trial defense benefits, a matter must actually proceed to trial. The costs of pre-trial preparation that exceed the benefits under the Membership are the responsibility of the member. Provider law firms under the closed panel Membership have agreed to provide to members any additional pre-trial services beyond those stipulated in the Membership at a 25% discount from the provider law firm's customary and usual hourly rate. Retainer fees for these additional services may be required.

*Preferred Member Discount for All Other Services.* Provider law firms have agreed to provide to members any legal services beyond those stipulated in the Membership at a fee discounted 25% from the provider law firm's customary and usual hourly rate. This "customary and usual hourly rate" is a fixed single hourly rate for each provider firm that is generally an average of the firm's various hourly rates for its attorneys which typically vary based on experience and expertise.

#### *Legal Shield Benefit*

In 45 states and four Canadian provinces, the Legal Shield plan can be added to the standard or expanded Family Legal Plan for \$1 per month and provides members with 24-hour access to a toll-free number for provider law firm assistance if the member is arrested or detained. The Legal Shield member, if detained, can present their Legal Shield card to the officer that has detained them to make it clear that they have access to legal

representation and that they are requesting to contact a lawyer immediately. The benefits of the Legal Shield plan are subject to conditions imposed by the detaining authority, which may not allow for the provider law firm to communicate with the member on an immediate basis. The Legal Shield benefit was introduced in 1999. There were approximately 1,091,000 Legal Shield subscribers at December 31, 2008 compared to approximately 1,080,000 at December 31, 2007.

#### *Identity Theft Shield Benefit*

Through a joint marketing agreement with Kroll Background America Inc., a subsidiary of Kroll Inc., our independent sales associates market Kroll's identity theft benefits in 50 states and four Canadian provinces. By adding the Identity Theft Shield to their existing family Membership, members have toll free access to the identity theft specialists at Kroll. This benefit can be added to a legal service Membership for \$9.95 per month or purchased separately for \$12.95 per month. The identity theft related benefits include a credit report and related instructional guide, a credit score and related instructional guide, credit report monitoring with daily online and monthly offline notification of any changes in credit information and comprehensive identity theft restoration services. Beginning in the first quarter of 2009, our Identity Theft membership will be offered as an on-line service where new members can authenticate their membership by logging on to the Internet and get an immediate credit report delivered via the web making the method of requesting and receiving the credit report more streamlined and efficient. There were approximately 771,000 and 715,000 subscribers at December 31, 2008 and 2007, respectively, comprised of 681,000 and 632,000 subscribers at \$9.95 per month and 90,000 and 83,000 subscribers at \$12.95 per month.

#### *Canadian Family Plan*

The Family Legal Plan is currently marketed in the Canadian provinces of Ontario, British Columbia, Alberta and Manitoba. We began operations in Ontario and British Columbia during 1999 and Alberta and Manitoba in 2001. Benefits of the Canadian plan include expanded preventive benefits including assistance with Canadian Government agencies, warranty assistance and small claims court assistance as well as the preferred member discount. Canadian Membership fees collected during 2008 were approximately \$8.2 million (including foreign currency translation adjustments) in U.S. dollars compared to \$7.6 million collected in 2007 and \$6.8 million collected in 2006.

### **Specialty Legal Service Plans**

In addition to the Family Legal Plan described above, we also offer other specialty or niche legal service plans. These specialty plans usually contain many of the Family Legal Plan benefits adjusted as necessary to meet specific industry or prospective member requirements. In addition to those specialty plans described below, we will continue to evaluate and develop other such plans as the need and market allow.

#### *Business Owners' Legal Solutions Plan*

The Business Owners' Legal Solutions plan was developed during 1995 and provides business oriented legal service benefits for small businesses with 99 or fewer employees. This plan was developed and test marketed in selected geographical areas and more widely marketed beginning in 1996 at a monthly rate of \$69.00. This plan provides for-profit small businesses with legal consultation and correspondence benefits, contract and document reviews, debt collection assistance and reduced rates for any non-covered areas. During 1997, the coverage offered pursuant to this plan was expanded to include trial defense benefits and Membership in GoSmallBiz.com, an unrelated Internet based service provider. Through GoSmallBiz.com, members may receive unlimited business consultations from business consultants and have access to timely small business articles, educational software, Internet tools and more. This expanded plan is currently marketed at a monthly rate ranging from \$69 to \$150 (\$175 in Canada) depending on the number of employees and provides business oriented legal service benefits for any for-profit business with 99 or fewer employees. This plan is available in 44 states and three Canadian provinces and represented approximately 5.4%, 5.3% and 5.1% of our Membership fees during 2008, 2007 and 2006, respectively.

#### *Commercial Driver Legal Plan*

The Commercial Driver Legal Plan is designed specifically for the professional truck driver and offers a variety of driving-related benefits, including coverage for moving and non-moving violations. This plan provides coverage by a provider law firm for persons who drive a commercial vehicle. This legal service plan is currently offered in 45 states. In certain states, the Commercial Driver Legal Plan is underwritten by the Road America Motor Club, an unrelated motor service club. During 2008 this plan accounted for approximately .8% of Membership fees compared to approximately .9% of Membership fees during 2007 and 2006. The Plan underwritten by the Road America Motor Club is available at the monthly rate of \$35.95 or at a group rate of \$32.95. Plans underwritten by us are available at the monthly rate of \$32.95 or at a group rate of \$29.95. Benefits include the motor vehicle related benefits described above, defense of Department of Transportation violations and the 25% discounted rate for services beyond plan scope, such as defense of non-moving violations. The Road America Motor Club underwritten plan includes bail and arrest bonds and services for family vehicles.

#### *Home-Based Business Rider*

The Home-Based Business plan was designed to provide small business owners access to commonly needed legal services. It can be added to the Expanded Family Legal Plan in approved states. To qualify, the business and residence address must be the same with three or fewer employees and be a for-profit business that is not publicly traded. Benefits under this plan include unlimited business telephone consultation, review of three business contracts per month, three business and debt collection letters per month and discounted trial defense rates. This plan also includes Membership in GoSmallBiz.com. This plan is available in 39 states and two Canadian provinces and represented approximately 1.9% of our Membership fees during 2008 compared to approximately 1.8% during 2007 and 2006.

#### *Comprehensive Group Legal Services Plan*

In late 1999 we introduced the Comprehensive Group plan, designed for the large group employee benefit market. This plan, available in 36 states, provides all the benefits of the Family Legal Plan as well as mortgage document preparation, assistance with uncontested legal situations such as adoptions, name changes, separations and divorces. Additional benefits include the preparation of health care power of attorney and living wills or directives to physicians. Although sales of this plan during the last three years (2,599 Memberships, 2,735 Memberships and 5,892 Memberships during 2008, 2007 and 2006, respectively) are not significant compared to our total Membership sales, we still believe this plan improves our competitive position in the large group market. We continue to emphasize group marketing to employee groups of less than 50 rather than larger groups where there is more competition, price negotiation and typically a longer sales cycle.

Other than additional benefits such as the Legal Shield and Identity Theft Shield benefits described above, the basic structure and design of the Membership benefits has not significantly changed over the last several years. The consistency in plan design and delivery provides us consistent, accurate data about plan utilization which enables us to manage our benefit costs through the capitated payment structure to provider firms. We frequently evaluate and consider other plan benefits that may include other services complimentary to the basic legal service plan.

#### **Provider Law Firms**

Our Memberships generally allow members to access legal services through a network of independent provider law firms under contract with us generally referred to as "provider law firms." Provider law firms are paid a fixed fee on a per capita basis to render services to plan members residing within the state or province as provided by the contract. Because the fixed fee payments by us to provider law firms in connection with the Memberships do not vary based on the type and amount of benefits utilized by the member, this arrangement provides significant advantages to us in managing our cost of benefits. Pursuant to these provider law firm arrangements and due to the volume of revenue directed to these firms, we have the ability to more effectively monitor the customer service aspects of the legal services provided, the financial leverage to help ensure a customer friendly emphasis by the provider law firms and access to larger, more diversified law firms. Through our members, we are typically the largest client base of our provider law firms.

Provider law firms are selected to serve members based on a number of factors, including recommendations from provider law firms and other lawyers in the area in which the candidate provider law firm is located and in neighboring states, our investigation of bar association standing and client references, evaluation of the education, experience and areas of practice of lawyers within the firm, on-site evaluations by our management, and interviews with lawyers in the firm who would be responsible for providing services. Most importantly, these candidate law firms are evaluated on the firm's customer service philosophy.

Approximately 96% of provider law firms, representing more than 99% of our legal service members, are connected to us via high-speed digital links to our management information systems, thereby providing real-time monitoring capability. This online connection offers the provider law firm access to specially designed software developed by us for administration of legal services by the firm. These systems provide statistical reports of each law firm's activity and performance and allow virtually all of the members served by provider law firms to be monitored on a near real-time basis. The few provider law firms that are not online with us typically have a small Membership base and must provide various weekly reports to us to assist in monitoring the firm's service level. The combination of the online statistical reporting and weekly service reports for smaller provider law firms allows quality control monitoring of over 15 separate service delivery benchmarks. In addition, we regularly conduct extensive random surveys of members who have used the legal services of a provider law firm. We survey members in each state every 60 days, compile the results of such surveys and provide the provider law firms with copies of each survey and the overall summary of the results. If a member indicates on a survey the service did not meet their expectation, the member is contacted as soon as possible to resolve the issue.

Each month, provider law firms are presented with a comprehensive report of ratings related to our online monitoring, member assistance requests, member survey evaluations, telephone reports and other information developed in connection with member service monitoring. If a problem is detected, we recommend immediate remedial actions to the provider law firms to eliminate service deficiencies. In the event the deficiencies of a provider law firm are not eliminated through discussions and additional training with us, such deficiencies may result in the termination of the provider law firm. We are in constant communication with our provider law firms and meet with them frequently for additional training, to encourage increased communications with us and to share suggestions relating to the timely and effective delivery of services to our members.

Each attorney member of the provider law firm rendering services must have at least two years of experience as a lawyer, unless we waive this requirement due to special circumstances such as instances when the lawyer demonstrates significant legal experience acquired in an academic, judicial or similar capacity other than as a lawyer. We provide customer service training to the provider law firms and their support staff through on-site training that allows us to observe the individual lawyers of provider law firms as they directly assist the members. Additionally, we provide initial orientation and training for new staff and new attorneys joining the firm via weekly conference calls.

Agreements with provider law firms: (a) generally permit termination of the agreement by either party upon 60 days prior written notice, (b) permit us to terminate the Agreement for cause immediately upon written notice, (c) require the firm to maintain a minimum amount of malpractice insurance on each of its attorneys, in an amount not less than \$100,000, (d) preclude us from interference with the lawyer-client relationship, (e) provide for periodic review of services provided, (f) provide for protection of our proprietary information and (g) require the firm to indemnify us against liabilities resulting from legal services rendered by the firm. We are precluded from contracting with other law firms to provide the same service in the same geographic area, except in situations where the designated law firm has a conflict of interest, we enroll a group of 500 or more members, or when the agreement is terminated by either party. Provider law firms are precluded from contracting with other prepaid legal service companies without our approval. Provider law firms receive a fixed monthly payment for each member who are residents in the service area and are responsible for providing the Membership benefits without additional remuneration. If a provider law firm delivers legal services to an open panel member, the law firm is reimbursed for services rendered according to the open panel Membership. As of December 31, 2008, provider law firms averaged approximately 48 employees each and on average are relatively evenly split between support staff and lawyers.

We have had occasional disputes with provider law firms, some of which have resulted in litigation. The toll-free telephone lines utilized and paid for by the provider law firms are owned by us so that in the event of a termination, the members' calls can be rerouted very quickly. Nonetheless, we believe that our relations with provider law firms are generally very good. At the end of 2008, we had provider law firms representing 47 states and four provinces, the same as we had at the end of 2007. During the last three calendar years, our relationships with a total of six provider law firms were terminated by us or the provider law firm. As of December 31, 2008, 36 provider law firms have been under contract with us for more than eight years with the average tenure of all provider law firms being in excess of 10 years.

There are occasions when members need to be referred by the provider law firm or PPL to an attorney outside the provider law firm. These instances are for geographic reasons, expertise reasons or if the matter is a conflict of interest for the provider law firm. We have an extensive database of referral lawyers developed for PPL and the provider law firms to access when members need services to be coordinated outside the provider law firm. Lawyers with whom members have experienced verified service problems, or are otherwise inappropriate for the referral system, are removed from our database of referral lawyers.

### **Identity Theft Shield Benefits Provider**

Kroll is one of the world's leading risk consulting companies. For more than 30 years, Kroll has helped companies, government agencies and individuals reduce their exposure to risk and capitalize on business opportunities. Kroll is an operating unit of Marsh & McLennan Companies, Inc., the global professional services firm. With offices in more than 65 cities in the U.S. and abroad, Kroll can scrutinize accounting practices and financial documents; gather and filter electronic evidence for attorneys; recover lost or damaged data from computers and servers; conduct in-depth investigations; screen domestic and foreign-born job candidates; protect individuals, and enhance security systems and procedures. Kroll's clients include many of the world's largest and most prestigious corporations, law firms, academic institutions, non-profit organizations, sovereign governments, government agencies, and high net-worth individuals, entertainers and celebrities. Kroll's seasoned professionals were handpicked and recruited from leading management consulting companies, top law firms, international auditing companies, multinational corporations, special operations forces, law enforcement and intelligence agencies. Kroll also maintains a network of highly trained specialists in cities throughout the world who can respond to global needs 24 hours a day, seven days a week. Over the last four years, Kroll has developed a unique solution for victims of identity theft and this service is now available to our members through the Identity Theft Shield benefit. Similar to the provider law firms, Kroll is paid a fixed fee on a monthly per capita basis to render services to IDT members.

### **Marketing**

#### *Multi-Level Marketing*

We market Memberships through a multi-level marketing program that encourages individuals to sell Memberships and allows individuals to recruit and develop their own sales organizations. Commissions are paid only when a Membership is sold. No commissions are paid based solely on recruitment. When a Membership is sold, commissions are paid to the associate making the sale, and to other associates (on average, eight others at December 31, 2008 and December 31, 2007 and nine others at December 31, 2006) who are in the line of associates who directly or indirectly recruited the selling associate. We provide training materials, organize area-training meetings and designate personnel at the home office specially trained to answer questions and inquiries from associates. We offer various communication avenues to our sales associates to keep such associates informed of any changes in the marketing of our Memberships. The primary communication vehicles we utilize to keep our sales associates informed include extensive use of conference calls and e-mail, an interactive voice-mail service, *The Connection* monthly magazine, an interactive voice response system and our website, [prepaidlegal.com](http://prepaidlegal.com).

Multi-level marketing is primarily used for marketing based on personal sales since it encourages individual or group face-to-face meetings with prospective members and has the potential of attracting a large number of sales personnel within a short period of time. Our marketing efforts towards individuals typically target the middle income family or individual and seek to educate potential members concerning the benefits of having ready access to legal counsel for a variety of everyday legal problems. Memberships with individuals or families sold by the multi-level sales force constituted 74% of our Memberships in force at December 31, 2008, compared to 75% at December 31, 2007 and 76% at December 31, 2006. Although other means of payment are available, approximately 73% of fees on Memberships purchased by individuals or families are paid on a monthly basis by means of automatic bank draft or credit card.

#### *Group marketing*

Our marketing efforts towards employee groups, principally on a payroll deduction payment basis, are designed to permit our sales associates to reach more potential members with each sales presentation and strive to capitalize on, among other things, what we perceive to be a growing interest among employers in the value of providing legal and identity theft service plans to their employees. Memberships sold through employee groups constituted approximately 26% of total Memberships in force at December 31, 2008, compared to 25% and 24% at December 31, 2007 and 2006, respectively. Most employee group Memberships are sold to school systems, governmental entities and businesses. We emphasize group marketing to employee groups of less than 50 rather than larger groups where there is more competition, price negotiation and typically a longer sales cycle. No group accounted for more than 1% of our consolidated revenues from Memberships during 2008, 2007 or 2006. Substantially all group Memberships are paid on a monthly basis. We are active in legislative lobbying efforts to enhance our ability to market to public employee groups and to encourage Congress to reenact legislation to permit legal service plans to qualify for pre-tax payments under tax qualified employee cafeteria plans.

#### *Affirmative Defense Response System*

We developed the Affirmative Defense Response System ("ADRS") to provide businesses and their employees a way to minimize their risk in regard to identity theft by encouraging businesses to take proactive measures to protect non-public information. Once our sales associates have been through the required training, they can begin to offer businesses the forms they will need and the education their employees will require to take reasonable and affirmative steps to reduce the harm and risk of having a breach of non-public information. We encourage businesses to host mandatory employee meetings and training sessions on identity theft and privacy compliance. At such meetings, our associates will provide the employees of the business an opportunity to purchase our legal service and identity theft plans. Since our Identity Theft Shield provides identity restoration benefits and our legal plans provide help on related issues, we believe the majority of the time in restoring an employee's identity is covered by our plan and therefore is not done on company time or at company expense. We believe our suite of services including our legal plan, the Legal Shield and the Identity Theft Shield provide employees assistance in every phase of identity theft – before, during and after the crime occurs. The ADRS was developed to enhance our group marketing efforts and we intend to continue to utilize this program in 2009.

#### *General*

Sales associates are generally engaged as independent contractors, are provided with training materials and are given the opportunity to participate in our training programs. Sales associates are required to complete a specified training program prior to marketing our Memberships to employee groups. All advertising and solicitation materials used by sales associates must be approved by us prior to use. At December 31, 2008, we had 425,018 "vested" sales associates compared to 442,361 and 444,499 "vested" sales associates at December 31, 2007 and 2006, respectively. A sales associate is considered to be "vested" if he or she has personally sold at least three new Memberships per quarter or if he or she retains a personal Membership. A vested associate is entitled to continue to receive commissions on prior sales after all previous commission advances have been recovered. However, a substantial number of vested associates do not continue to market the Membership, as they are not required to do so in order to continue to be vested. During 2008, we had 81,731 sales associates who personally sold at least one Membership, of which 43,674 (53%) made first time sales. During 2007 and 2006 we had 90,123 and 90,206 sales associates producing at least one Membership sale, respectively, of which 49,117 (55%) and 49,955 (55%), respectively, made first time sales. During 2008, we had 6,996 sales associates who personally sold

more than ten Memberships compared to 9,047 and 8,858 in 2007 and 2006, respectively. A substantial number of our sales associates market our Memberships on a part-time basis only. For the year 2008, new sales associates enrolled decreased 18% to 122,255 with an average enrollment fee of \$72 from the 148,802 enrolled in 2007 with an average enrollment fee of \$57.

We derive revenues from our multi-level marketing sales force, including one-time enrollment fee from each new sales associate for which we provide initial marketing supplies and enrollment services to the associate. Amounts collected from sales associates are intended primarily to offset our costs incurred in recruiting and training and providing materials to sales associates and are not intended to generate profits from such activities. Other revenues from sales associates represent the sale of marketing supplies and promotional materials and include fees related to our *eService* program for associates. The *eService* program provides subscribers Internet based back office support such as reports, on-line documents, tools, a personal e-mail account and multiple personalized web sites with "flash" movie presentations.

We continually review our compensation plan for the multi-level marketing force to assure that the various financial incentives in the plan encourage our desired goals. We offer various incentive programs from time to time and frequently adjust the program to maintain appropriate incentives and to improve Membership production and retention.

We hold our International Convention once a year, typically in the spring, and a Leadership Summit, typically in the fall, and routinely host more than 10,000 of our sales associates at these events. These events are intended to provide additional training, corporate updates, new announcements, motivation and associate recognition. Additionally, we offer the *Player's Club* incentive program providing additional incentives to our associates as a reward for consistent, quality business. Associates can earn the right to attend an annual incentive trip by meeting certain qualification requirements and maintaining certain personal retention rates. Associates can also earn the right to receive additional monthly bonuses by meeting the monthly qualification requirements for twelve consecutive months and maintaining certain personal retention rates for the Memberships sold during that twelve month period.

#### *Regional Vice Presidents*

Prior to January 1, 2007, we had a group of approximately 115 employees that served as Regional Vice Presidents ("RVPs") and were responsible for associate activity in given geographic regions and had the ability to appoint independent contractors as Area Coordinators within the RVP's region. Effective January 1, 2007, we dramatically revamped this program by reducing the number of RVPs from approximately 115 to 15; eliminated the employee relationship of the RVPs so that all are independent contractors; significantly increased both the size of their regions and the commission override percentages that can be earned by the RVPs; put in place additional bonus compensation available based on growth in their assigned regions; replaced the previous large number of Area Coordinators with substantially fewer Regional Managers appointed by the RVPs; created commission overrides that can be earned by the Regional Managers in their regions and created a new class of appointees, Certified Meeting Coordinators that are appointed by the Regional Managers. Additionally, we have significantly increased the frequency of communications between us and the RVPs and the frequency and the amount of reporting both from and to, the RVPs. At December 31, 2008, we had 28 RVPs assigned.

The RVP/Regional Manager/Certified Meeting Coordinator program provides a basis to effectively monitor current sales activity, further educate and motivate the sales force and otherwise enhance the relationships between the associates and us. New products, incentives and initiatives will be channeled through the RVPs.

#### *Pre-Paid Legal Benefits Association*

The PPL Benefits Association ("PPLBA") was founded in 1999 with the intent of providing sales associates the opportunity to have access, at their own expense, to health insurance and life insurance benefits. Membership in the Association allows a sales associate to become eligible to enroll in numerous benefit programs, as well as take advantage of attractive affinity agreements. Membership in this Association is open to sales associates that

reach a certain level within our marketing programs who also maintain an active personal legal services Membership. The PPLBA is a separate association not owned or controlled by us and is governed by an 8 member Board of Directors, including four officer positions. None of the officers or directors of the PPLBA serve in any such capacity with us. The PPLBA employs a Director of Associate Benefits paid by the Association. Affinity programs available to members of the PPLBA include credit cards, long-distance, wireless services, vehicle purchasing services, safety trip plan, mortgage and real estate assistance and a travel club. As determined by its Board of Directors, some of the revenue generated by the PPLBA through commissions from vendors of the benefits and affinity programs or contributed to the Association by us may be used to make open-market purchases of our stock for use in stock bonus awards to Association members based on criteria established from time to time by the Board of Directors of the PPLBA. Since inception and through December 31, 2008, approximately 45,900 shares were purchased by the PPLBA for awards to its members. The PPLBA awarded approximately 1,900, 2,075 and 3,000 shares of stock to Association members representing the 2008, 2007 and 2006 stock bonus awards, respectively.

#### *Cooperative Marketing*

We have in the past, and may in the future, develop marketing strategies pursuant to which we seek arrangements with insurance and service companies that have established sales forces. Under such arrangements, the agents or sales force of the cooperative marketing partner market our Memberships along with the products already marketed by the partner's agents or sales force. Such arrangements allow the cooperative marketing partner to enhance its existing customer relationships and distribution channels by adding our product to the marketing partner's existing range of products and services, while we are able to gain broader Membership distribution and access to established customer bases.

We have a cooperative marketing agreement with Atlanta-based Primerica Financial Services ("PFS"), a subsidiary of Citigroup, Inc. PFS is one of the largest financial services marketing organizations in North America with more than 100,000 personal financial analysts across the U.S. and Canada. Although these Memberships were sold by PFS representatives, we have a direct billing and service relationship with the members. The PFS cooperative marketing agreement resulted in approximately 24,000 new Membership sales during 2008 compared to 25,000 and 26,000, respectively for 2007 and 2006.

We have had limited success with cooperative marketing arrangements in the past and are unable to predict with certainty what success we will achieve, if any, under our existing or future cooperative marketing arrangements.

#### **Operations**

Our corporate operations involve Membership application processing, member-related customer service, and various associate-related services including commission payments, receipt of Membership fees, related general ledger accounting, human resources, internal audit and managing and monitoring the provider law firm relationships.

We utilize a management information system to control operations costs and monitor benefit utilization. Among other functions, the system evaluates benefit claims, monitors member use of benefits and monitors marketing/sales data and financial reporting records. Our dominant concerns in the architecture of private networks and web systems include security, scalability, and capacity to accommodate peak traffic and business continuity in the event of a disaster. We believe our management information system has substantial capacity to accommodate increases in business data before substantial upgrades will be required. We believe this excess capacity will enable us to experience a significant increase in the number of members serviced with less than a commensurate increase of administrative costs.

We have built a strong Internet presence to strengthen the services provided to both members and associates. Our Internet site, at [www.prepaidlegal.com](http://www.prepaidlegal.com), welcomes the multifaceted needs of our members, sales

force, investors and prospects. It has also reduced costs associated with communicating critical information to the associate sales force.

Our operations also include departments specifically responsible for marketing support and regulatory and licensing compliance. We have an internal production staff that is responsible for the development of new audio and video sales materials.

### **Quality Control**

In addition to our quality control efforts for provider law firms described above, we also closely monitor the performance of our home office personnel, especially those who have telephone contact with members or sales associates. We record home office employee telephone calls with our members and sales associates to assure that our policies are being followed and to gather data about recurring problems that may be avoided through modifications in policies. We also use such recorded calls for training and recognition purposes.

### **Competition**

We compete in a variety of market segments in the legal service plan industry, including, among others, individual enrollment plans, employee benefit plans and certain specialty segments. Our competitors with a national presence would include Hyatt Legal Plans (a MetLife company), ARAG North America and Legal Services Plan of America (a GE Money company, formerly the Signature Group). Most of these concentrate their marketing to larger employer groups and offer open panel plans.

There are many entities offering some level of benefits related to identity theft, credit monitoring, etc. Most of the credit repositories offer some type of fee based services to the public as well as many financial institutions and independent companies such as LifeLock. Most of these entities are focused on credit monitoring rather than identity theft restoration. We believe our identity theft restoration product is unique due to the combination of our identity theft restoration partner (Kroll) and our provider law firms.

If a greater number of companies seek to enter the legal service plan market or offer more comprehensive identity theft solutions, we will experience increased competition in the marketing of our Memberships. However, we believe our competitive position is enhanced by our actuarial database, the combination of our existing network of provider attorney law firms and Kroll and our ability to tailor products to suit various types of distribution channels or target markets. We believe that no other competitor has the ability to monitor the customer service aspect of the delivery of legal services to the same extent we do. Finally, we have intentionally concentrated our group marketing to small employer groups. Serious competition is most likely from companies with significant financial resources and advanced marketing techniques.

### **Regulation**

We are regulated by or required to file with or obtain approval of State Insurance Departments, Secretaries of State, State Bar Associations and State Attorney General Offices depending on individual state opinions of regulatory responsibility for legal expense plans. We are also required to file with similar government agencies in Canada. While some states or provinces regulate legal expense plans as insurance or specialized legal expense products, others regulate them as services.

As of December 31, 2008, we or one of our subsidiaries were marketing new Memberships in 37 jurisdictions that require no special licensing. Our subsidiaries serve as operating companies in 17 jurisdictions that regulate Memberships as insurance or specialized legal expense products. The most significant of these wholly owned subsidiaries are Pre-Paid Legal Casualty, Inc. ("PPLCI"), Pre-Paid Legal Services, Inc. of Florida ("PPLSIF") and Legal Service Plans of Virginia, Inc. ("LSPV"). Of our total Memberships in force as of December 31, 2008, 38% were written in jurisdictions that subject us or one of our subsidiaries to insurance or specialized legal expense plan regulation (27% written through our subsidiaries). We are actively working with regulators in the

various states in which our subsidiaries are regulated as insurance to explore other regulatory alternatives to eliminate some of the agent licensing or financial and marketing regulation that is prevalent in the insurance industry.

We sell Memberships in the Canadian provinces of Ontario, British Columbia, Alberta and Manitoba. The Memberships we currently market in such provinces do not constitute an insurance product and therefore are exempt from insurance regulation.

In states with no special licensing or regulatory requirements, we commence operations only when advised by the appropriate regulatory authority that proposed operations do not constitute conduct of the business of insurance. There is no assurance that Memberships will be exempt from insurance regulation even in states or provinces with no specific regulations. In these situations, we or one of our subsidiaries would be required to qualify as an insurance company in order to conduct business.

PPLCI serves as the operating company in most states where Memberships are determined to be an insurance product. PPLCI is organized as a casualty insurance company under Oklahoma law and as such is subject to regulation and oversight by various state insurance agencies where it conducts business. These agencies regulate PPLCI's forms, rates, trade practices, allowable investments and licensing of agents and sales associates. These agencies also prescribe various reports, require regular evaluations by regulatory authorities, and set forth minimum capital and reserve requirements. Our insurance subsidiaries are routinely evaluated and examined by representatives from the various regulatory authorities in the normal course of business. Such examinations have not and are not expected to adversely impact our operations or financial condition in any material way. We believe that all of our subsidiaries meet any required capital and reserve requirements. Dividends paid by PPLCI are restricted under Oklahoma law to available surplus funds derived from realized net profits.

We are required to register and file reports with the Oklahoma Insurance Commissioner as a member of a holding company system under the Oklahoma Insurance Holding Company System Regulatory Act. Transactions between PPLCI and us or any other subsidiary must be at arm's-length with consideration for the adequacy of PPLCI's surplus, and may require prior approval of the Oklahoma Insurance Commissioner. Payment of any extraordinary dividend by PPLCI to us requires approval of the Oklahoma Insurance Commissioner. The payment of dividends by PPLCI is restricted under the Oklahoma Insurance Code to available surplus funds derived from realized net profits and requires the approval of the Oklahoma Insurance Commissioner for any dividend representing more than the greater of 10% of such accumulated available surplus or the previous years' net profits. During 2008, PPLCI declared and after obtaining all necessary regulatory approvals, paid extraordinary dividends to us of \$14.9 million compared to the \$7.4 million and \$13.4 million paid to us during 2007 and 2006, respectively. Any change in our control, defined as acquisition by any method of more than 10% of our outstanding voting stock, including rights to acquire such stock by conversion of preferred stock, exercise of warrants or otherwise, requires approval of the Oklahoma Insurance Commissioner. Holding company laws in some states in which PPLCI operates provide for comparable registration and regulation of us.

Certain states have enacted special licensing or regulatory requirements designed to apply only to companies offering legal service products. These states most often follow regulations similar to those regulating casualty insurance providers. Thus, the operating company may be expected to comply with specific minimum capitalization and unimpaired surplus requirements; seek approval of forms, Memberships and marketing materials; adhere to required levels of claims reserves, and seek approval of premium rates and agent licensing. These laws may also restrict the amount of dividends paid to us by such subsidiaries. PPLSIF is subject to restrictions of this type under the laws of the State of Florida, including restrictions with respect to payment of dividends to us. At January 1, 2009, none of PPLCI, PPLSIF or LSPV had funds available for payment of substantial dividends without the prior approval of the insurance commissioner. LSPV declared and paid us a \$4.1 million dividend during 2008 compared to \$1.6 million during 2007 and \$3.7 million during 2006.

As the legal plan industry continues to mature, additional legislation may be enacted that would affect us and our subsidiaries. We cannot predict with any accuracy if such legislation would be adopted or its ultimate effect on operations, but expect to continue to work closely with regulatory authorities to minimize any undesirable impact and, as noted above, to reduce regulatory cost and burden where possible.

Our operations are further impacted by the American Bar Association Model Rules of Professional Conduct ("Model Rules") and the American Bar Association Code of Professional Responsibility ("ABA Code") as adopted by various states. Arrangements for payments to a lawyer by an entity providing legal services to its members are permissible under both the Model Rules and the ABA Code, so long as the arrangement prohibits the entity from regulating or influencing the lawyer's professional judgment. The ABA Code prohibits lawyer participation in closed panel legal service programs in certain circumstances. Our agreements with provider law firms comply with both the Model Rules and the ABA Code. We rely on the lawyers serving as the designated provider law firms for the closed panel benefits to determine whether their participation would violate any ethical guidelines applicable to them. We and our subsidiaries comply with filing requirements of state bar associations or other applicable regulatory authorities.

We are also required to comply with state, provincial and federal laws governing our multi-level marketing approach. These laws generally relate to unfair or deceptive trade practices, lotteries, business opportunities and securities. The U.S. Federal Trade Commission has proposed business opportunity regulations which may have an effect upon our method of operating in the United States, but such regulations are in the early stages of development and it is not possible to gauge the potential impact or the effective date at this time. We have experienced no material problems with marketing compliance. In jurisdictions that require associates to be licensed, we receive all applications for licenses from the associates and forward them to the appropriate regulatory authority. We maintain records of all associates licensed, including effective and expiration dates of licenses and all states in which an associate is licensed. We do not accept new Membership sale applications from any unlicensed associate in such jurisdictions.

### **Employees**

At December 31, 2008, we employed 801 individuals on a full-time basis, exclusive of independent agents and sales associates who are not employees. None of our employees are represented by a union. We consider our employee relations generally to be very good.

### **Foreign Operations**

We have operations in the Canadian provinces of Ontario, British Columbia, Alberta and Manitoba and derived aggregate revenues, including Membership fees and revenues from associate services, from Canada of \$8.7 million in U.S. dollars during 2008 compared to \$7.9 million and \$7.1 million in 2007 and 2006, respectively. In addition, we incur expenses in Canada in relation to these revenues. As reflected in the attached Consolidated Statements of Comprehensive Income, we have recorded negative foreign currency translation adjustments of \$2.0 million during 2008 and have a cumulative negative foreign currency translation adjustment balance of \$425,000 at December 31, 2008. These amounts are subject to dramatic change in conjunction with the relative values of the Canadian and U.S. dollars.

### **Availability of Information**

We file periodic reports and proxy statements with the Securities and Exchange Commission ("SEC"). The public may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, N. E., Washington, D.C. 20549. The public may obtain information about the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. We file our reports with the SEC electronically. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of this site is <http://www.sec.gov>.

Our Internet address is [www.prepaidlegal.com](http://www.prepaidlegal.com). We make available on our website free of charge copies of our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) of the Exchange Act as soon as reasonably possible after we electronically file such material with, or furnish it to, the SEC.

## **ITEM 1A. RISK FACTORS**

Our financial position, results of operations and cash flows are subject to various risks, many of which are not exclusively within our control that may cause actual performance to differ materially from historical or projected future performance. Information contained within this Form 10-K should be carefully considered by investors in light of the risk factors described below. In addition to factors discussed elsewhere in this report, the following are some of the important factors that could affect our financial condition or results of operations:

*Our future results may be adversely affected if Membership persistency or renewal rates are lower than our historical experience.*

We have over 25 years of actual historical experience to measure the expected retention of new members. These retention rates could be adversely affected by the quality of services delivered by provider law firms, the existence of competitive products or services, our ability to provide administrative services to members or other factors. If our Membership persistency or renewal rates are less than we have historically experienced, our cash flow, earnings and growth rates could be adversely affected.

*We may not be able to grow Memberships and revenues at the same rate as we have historically experienced and have recently experienced declines in new Membership sales and associate recruitment.*

Our year end active Memberships decreased 1.1% from December 31, 2007 to December 31, 2008, increased 2.4% during 2007 and remained virtually unchanged during 2006. Changes in net income for the same three years were 18%, (1%) and 45%, respectively. In years prior to 2004, we were able to grow Memberships more significantly. Our ability to grow Memberships and revenues is substantially dependent upon our ability to expand or enhance the productivity of our sales force, develop additional legal expense products, develop alternative marketing methods or expand geographically. There is no assurance that we will be able to achieve increases in Membership and revenue growth comparable to our historical growth rates.

*We are dependent upon the continued active participation of our principal executive officer.*

Our success depends substantially on the continued active participation of our principal executive officer, Harland C. Stonecipher. Although our management includes other individuals with significant experience in our business, the loss of the services of Mr. Stonecipher could have a material adverse effect on our financial condition and results of operations.

*There is litigation pending that may have a material adverse effect on us if adversely determined.*

See "Item 3. Legal Proceedings."

*We may have compromises of our information security.*

We collect and store certain personal information that our members and sales associates provide to purchase products or services, enroll in certain programs, register on our web site, or otherwise communicate and interact with us. We also gather and retain information about our employees, members and sales associates in the normal course of business. We may share information about such persons with vendors that assist with certain aspects of our business. We rely on encryption and authentication technology licensed from third parties to provide the security and authentication necessary to effect secure transmission of confidential information such as member and sales associate credit card numbers. We cannot provide assurance that advances in computer capabilities, new discoveries in the field of cryptography or other events or developments will not result in a compromise or breach of the algorithms or systems that we use to protect customer transaction data. Despite these instituted safeguards for the protection of such information, we cannot be certain that all of our systems are entirely free from vulnerability to attack. A breach of our security system resulting in member, sales associate or

employee personal information being obtained by unauthorized persons could adversely affect our reputation, disrupt our operations and expose us to claims from employees, members, sales associates, financial institutions, payment card associations and other persons, which could have a material adverse effect on our business, financial condition and results of operations. We may not comply with requirements placed on us by payment card associations or other financial processors. In addition, our online operations at [www.prepaidlegal.com](http://www.prepaidlegal.com) depend upon the secure transmission of confidential information over public networks, including information permitting cashless payments.

*During a downturn in the economy, consumer purchases of discretionary items may be affected, which could materially harm our sales, retention rates, profitability and financial condition.*

Although we believe our products and services can greatly assist our members during these challenging economic times, consumer spending is generally affected by a number of factors, including general economic conditions, inflation, interest rates, energy costs, gasoline prices and consumer confidence generally, all of which are beyond our control. Consumer purchases of discretionary items tend to decline during recessionary periods, when disposable income is lower, and such decline may impact sales and retention of our products should potential members have less money for discretionary purchases as a result of job losses, foreclosures, bankruptcies, reduced access to credit and sharply falling home prices, among other things.

*We are in a regulated industry and regulations could have an adverse effect on our ability to conduct our business.*

We are regulated by or required to file with or obtain approval of State Insurance Departments, State Bar Associations and State Attorney General's Offices, depending on individual state positions regarding regulatory responsibility for legal service plans. Regulation of our activities is inconsistent among the various states in which we do business with some states regulating legal service plans as insurance or specialized legal service products and others regulating such plans as services. Such disparate regulation requires us to structure our Memberships and operations differently in certain states in accordance with the applicable laws and regulations. Our multi-level marketing strategy is also subject to U.S. federal, Canadian provincial and U.S. state regulation under laws relating to consumer protection, pyramid sales, business opportunity, lotteries and multi-level marketing. The U.S. Federal Trade Commission has proposed business opportunity regulations which may have an effect upon our method of operating in the United States, but such regulations are in the early stages of development and it is not possible to gauge the potential impact or the effective date at this time. Changes in the regulatory environment for our business could increase the compliance costs we incur in order to conduct our business or limit the jurisdictions in which we are able to conduct business.

*The business in which we operate is competitive.*

There are a number of existing and potential competitors that have the ability to offer competing products that could adversely affect our ability to grow. In addition, we may face competition from a growing number of Internet based legal sites with the potential to offer legal and related services at competitive prices. Increased competition could have a material adverse effect on our financial condition and results of operations. See "Description of Business – Competition."

*We are dependent upon the success of our marketing force.*

Our principal method of product distribution is through multi-level marketing. The success of a multi-level marketing force is highly dependent upon our ability to offer a commission and organizational structure and sales training and incentive program that enable sales associates to recruit and develop other sales associates to create an organization. There are a number of other products and services that use multi-level marketing as a distribution method and we must compete with these organizations to recruit, maintain and grow our multi-level marketing force. In order to do so, we may be required to increase our marketing costs through increases in commissions, sales incentives or other features, all of which could adversely affect our future earnings. In addition, the level of confidence of the sales associates in our ability to perform is an important factor in maintaining and growing a multi-level marketing force. Adverse financial developments concerning us, including negative publicity or common stock price declines, could adversely affect our ability to maintain the confidence of our sales force.

*Our stock price may be affected by short sellers of our stock.*

As of January 31, 2009, the New York Stock Exchange reported that approximately 1.5 million shares of our stock were sold short, which constitutes approximately 14% of our outstanding shares and 20% of our public float. During 2008, the number of shares sold short was as high as 1.9 million and represented one of the largest short interest positions of any New York Stock Exchange listed company in terms of the number of average trading days it would take to cover the short positions. Short sellers expect to make a profit if our shares decline in value. We have been the subject of a negative publicity campaign from several known sources of information who support short sellers. The existence of this short interest position may contribute to volatility in our stock price and may adversely affect the ability of our stock price to rise if market conditions or our performance would otherwise justify a price increase.

*We have not been able to significantly increase our employee group Membership sales.*

Our success in growing Membership sales is dependent in part on our ability to market to employee groups. At December 31, 2008, group memberships represented 26% of total Memberships compared to 25% at December 31, 2007 and 24% at December 31, 2006. Adverse publicity about us may affect our ability to market successfully to employee groups, particularly larger groups. There is no assurance that we will be able to increase our group business.

#### **ITEM 1B. UNRESOLVED STAFF COMMENTS.**

None.

#### **ITEM 2. PROPERTIES.**

Our executive and administrative offices and our subsidiaries are located at One Pre-Paid Way, Ada, Oklahoma. The office complex, owned by us, contains approximately 170,000 square feet of office space and was constructed on approximately 87 acres contributed to us by the City of Ada in 2001 as part of an economic development incentive package. Construction was completed in 2004 at a cost of approximately \$34.1 million, including \$706,000 in capitalized interest costs, and was funded from existing resources and proceeds from a \$20 million line of credit.

Our headquarters contains two long bars of open office area designed to serve as podiums, which stretch east from the northern and southern edges of the tower. Two and three stories high respectively, the podiums house the call centers and Information Technology departments. Only 60 feet across, they are designed to ensure that employees are never more than thirty feet from a source of daylight. Shared corporate services -- including a 650-seat auditorium, dining hall, exercise facility, and a connecting corridor containing a company history gallery -- are located at the east end of the bars, creating a central courtyard. The courtyard features a reflecting pool and a 12-foot bronze sculpture of our logo, the Lady of Justice, a universal symbol of justice. The building's main entrance welcomes our frequent visitors, celebrates our history, and is designed to convey the tradition of civic judicial buildings. Although we substantially occupy our current facility, the building is designed to expand over time without negatively impacting the site layout or the building concept and we emphasized the use of modular furnishings to provide enhanced flexibility. We placed importance on the goal of providing each employee with an excellent work environment.

Additionally, we fully utilize another distribution facility located about two miles from our new offices and containing approximately 17,000 square feet of office and warehouse and shipping space. Our previous headquarters of approximately 40,000 square feet and two other buildings containing approximately 18,600 combined square feet located adjacent to the distribution facility are now primarily used as disaster recovery, or business continuity, sites as well as storage locations.

During January 2006, we acquired an additional 40,000 square foot building in Duncan, Oklahoma for \$1 million. We completely refurbished the space at an additional cost of \$3.4 million, resulting in total capitalized cost of \$4.4 million, which was funded from existing resources. We moved from space previously leased to the completely refurbished and redesigned space with redundant infrastructure components in July 2006 and currently have approximately 130 customer service representatives in the facility but have the capacity to accommodate 350 employees.

In addition to the property described above that we own, we opened an additional Customer Care facility in Antlers, Oklahoma during March 2000, in building space provided by the City of Antlers. In conjunction with a rural economic development program coordinated by the City of Antlers, a new facility was built at no cost to us that can accommodate approximately 100 customer service representatives. We leased the facilities from the City of Antlers upon completion of the construction in November 2002 and currently have approximately 60 customer service representatives in the facility.

**ITEM 3. LEGAL PROCEEDINGS.**

Discussion of legal matters is incorporated by reference from Part II, Item 8, Note 13, "Commitments and Contingencies," of this document, and should be considered an integral part of Part I, Item 3, "Legal Proceedings."

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.**

We did not submit any matters to a vote of our stockholders during the fourth quarter of 2008.

**PART II**

**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.**

**Market Price of and Dividends on the Common Stock**

At February 19, 2009, there were 1,461 holders of record (including brokerage firms and other nominees) of our common stock, which is listed on the New York Stock Exchange under the symbol "PPD." The following table sets forth, for the periods indicated, the range of high and low sales prices for the common stock, as reported by the New York Stock Exchange.

	<u>High</u>	<u>Low</u>
<b>2009:</b>		
1 <sup>st</sup> Quarter (through February 19) .....	\$ 38.06	\$ 30.65
<b>2008:</b>		
4 <sup>th</sup> Quarter.....	\$ 41.58	\$ 30.01
3 <sup>rd</sup> Quarter .....	45.59	39.25
2 <sup>nd</sup> Quarter .....	48.65	39.45
1 <sup>st</sup> Quarter .....	57.50	42.34
<b>2007:</b>		
4 <sup>th</sup> Quarter.....	\$ 62.39	\$ 48.88
3 <sup>rd</sup> Quarter .....	71.49	39.50
2 <sup>nd</sup> Quarter .....	66.34	48.89
1 <sup>st</sup> Quarter .....	60.66	37.68

No dividends were declared in 2008, 2007 or 2006. It is anticipated that earnings generated from our operations will be used to finance our growth, to continue to purchase shares of our stock, to retire existing debt and possibly pay cash dividends. Our ability to pay dividends is dependent in part on our ability to derive dividends from our subsidiaries. The payment of dividends by PPLCI is restricted under the Oklahoma Insurance Code to available surplus funds derived from realized net profits and requires the approval of the Oklahoma Insurance Commissioner for any dividend representing more than the greater of 10% of such accumulated available surplus or the previous years' net profits. PPLSIF and LSPV are similarly restricted pursuant to their respective insurance laws. The following table reflects subsidiary dividends during the last three years:

Regulated Subsidiary	Dividends Paid			Expected Dividends
	2008	2007	2006	1/1/2009
Pre-Paid Legal Casualty, Inc.	\$ 14.9 million	\$ 7.4 million	\$ 13.4 million	\$ -
Legal Service Plans of Virginia	4.1 million	1.6 million	-	-

At December 31, 2008 the amount of restricted net assets of consolidated subsidiaries was \$24.2 million, representing amounts that may not be paid to us as dividends either under the applicable regulations or without regulatory approval.

#### Recent Sales of Unregistered Securities

None.

#### Issuer Purchases of Equity Securities

The following table provides information about our purchases of stock in the open market during the fourth quarter of 2008.

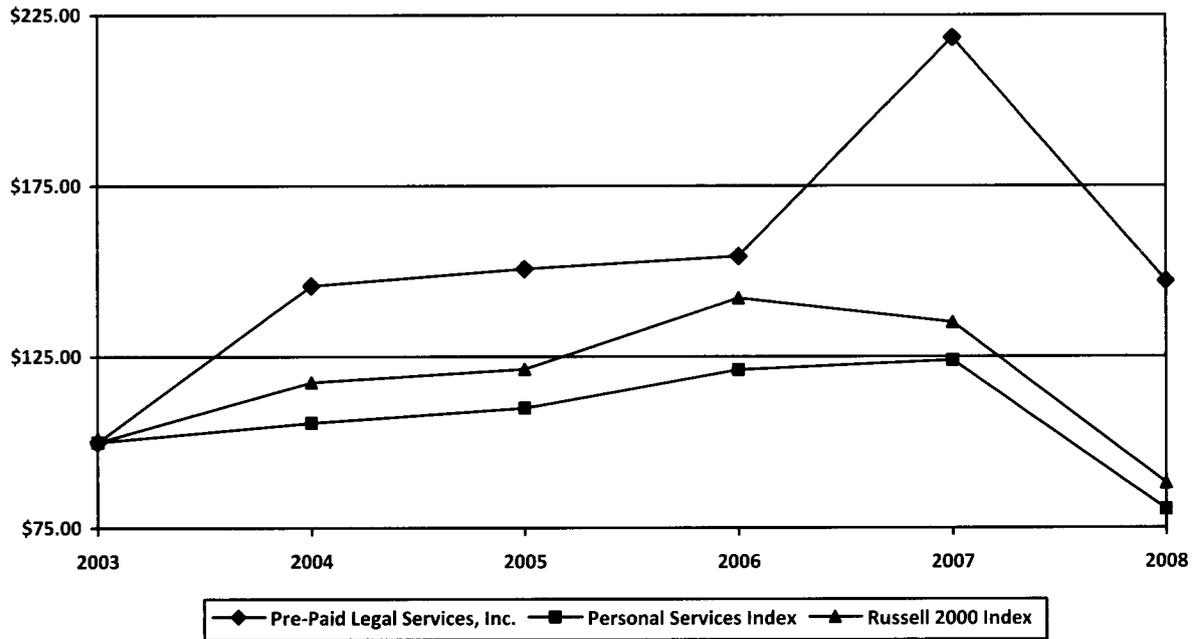

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
October 2008.....	12,287	\$ 36.20	12,287	462,739
November 2008.....	55,201	35.13	55,201	407,538
December 2008.....	153,278	35.16	153,278	254,260
Total.....	220,766	\$ 35.21	220,766	

- (1) We announced on April 6, 1999, a treasury stock purchase program authorizing management to acquire up to 500,000 shares of our common stock in the open market. The Board of Directors has subsequently from time to time increased such authorization from 500,000 shares to 15 million shares. The most recent authorization was for 1 million additional shares on February 18, 2009 which is not reflected in the year-end table above. There has been no time limit set for completion of the repurchase program.

### Shareholder Return Performance Graph

The following graph compares the cumulative total shareholder returns of our Common Stock during the five years ended December 31, 2008 with the cumulative total shareholder returns of the Russell 2000 Index and the Hemscott, Inc. Personal Services industry index. The comparison assumes an investment of \$100 on January 1, 2004 in each of our Common Stock, the Russell 2000 Index and Hemscott's Personal Services industry index and that any dividends were reinvested.

**Comparison of Cumulative Total Return of Our Stock,  
Industry Index and Russell 2000 Index**

	<u>12/31/2003</u>	<u>12/31/2004</u>	<u>12/31/2005</u>	<u>12/31/2006</u>	<u>12/31/2007</u>	<u>12/31/2008</u>
Pre-Paid Legal Services, Inc.	100.00	145.71	150.74	154.37	218.35	147.11
Personal Services	100.00	105.62	109.98	121.22	123.97	80.32
Russell 2000 Index	100.00	117.49	121.40	142.12	135.10	88.09

**ITEM 6. SELECTED FINANCIAL DATA.**

The following table sets forth selected financial and statistical data for us as of the dates and for the periods indicated. This information is not necessarily indicative of our future performance. The following information should be read in conjunction with our Consolidated Financial Statements and Notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operation included elsewhere herein.

	Year Ended December 31,

Interest expense .....	4,221	6,678	5,726	2,682	1,990

(1) The Membership benefits ratio, the commissions ratio and the general and administrative expense ratio represent those costs as a percentage of Membership fees. These ratios do not measure total profitability because they do not take into account all revenues and expenses.

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

**Overview of the Our Financial Model**

We are in one line of business - the marketing of legal expense and other complimentary plans through a multi-level marketing force to individuals and a direct sales force to employee groups. Our principal revenues are derived from Membership fees, and to a much lesser extent, revenues from marketing associates. Our principal expenses are commissions, Membership benefits, associate services and direct marketing costs and general and administrative expense. The following table reflects the changes in these categories of revenues and expenses in the last three years (dollar amounts in 000's):

	2008	% of Total Revenue	% Change from Prior Year	2007	% of Total Revenue	% Change from Prior Year	2006	% of Total Revenue	% Change from Prior Year
<b>Revenues:</b>									
Membership fees .....	\$ 436,778	94.0	2.2	\$ 427,428	93.5	3.7	\$ 412,200	92.8	5.9
Associate services .....	23,534	5.1	(6.3)	25,112	5.5	(6.5)	26,857	6.1	(7.3)
Other .....	4,177	0.9	(8.2)	4,549	1.0	(8.4)	4,967	1.1	(3.8)

<b><u>Average Membership fee in force:</u></b>					
Average Annual Membership fee .....	\$300.80	1.1	\$297.62	1.6	\$293.00

The number of active Memberships in force and the average monthly fee will directly determine Membership fees and their impact on total revenues during any period. The two most important variables impacting the number of active Memberships during a period are the number of new Memberships written during the period combined with the retention characteristics of both new and existing Memberships. See “Measures of Member Retention” below for a discussion of our Membership retention. Associate services revenues are a function of the number of new sales associates enrolled and the price of entry during the period, the number of associates subscribing to our *eService* offering and the amount of sales tools purchased by the sales force.

Membership benefits expense is primarily determined by the number of active Memberships and the per capita contractual rate that exists between us and our benefits providers. During the last five years has been and is expected to continue to be a relatively consistent percentage of Membership revenues of approximately 34%-35%. Commissions paid to associates are primarily dependent on the number and price of new Memberships sold during a period and any special incentives that may be in place during the period. We expense advance commissions ratably over the first month of the related Membership. The level of commission expense in relation to Membership revenues varies depending on the level of new Memberships written and is expected to be higher when we experience increases in new Membership sales. During the last five years this percentage has ranged from approximately 29% to 36% of Membership revenues. Associate services and direct marketing expenses are directly impacted by the number of new associates enrolled during a period due to the cost of materials provided to such new associates, the number of associates subscribing to our *eService* offering, the amount of sales tools purchased by the sales force as well as the number of those associates who successfully meet the incentive award program qualifications. General and administrative expenses are expected to trend up in terms of dollars, but remain relatively constant as a percent of Membership fees. During the past five years, general and administrative expenses have ranged from 12% to 13% of Membership fees.

The primary benchmarks monitored by us throughout the various periods include the number of active Memberships and their related retention characteristics, the number of new Memberships written and the number of new associates enrolled.

Although we have grown our Membership fees in each of the past 16 years, the rate of growth has not been one we find acceptable. We believe however, that our current product design, pricing parameters and business model are generally appropriate and we have no immediate plans to change these fundamental sectors. Our focus during 2009 will continue to be on improved training of our associates, enhancing the quality of sales tools provided to new and existing associates, providing incentives for associates to write consistent, quality business and continued emphasis on improving the basic retention characteristics of our Memberships.

### **Critical Accounting Policies**

Our financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions are affected by management’s application of accounting policies. If these estimates or assumptions are incorrect, there could be a material change in our financial condition or operating results. Many of these “critical accounting policies” are common in the insurance and financial services industries; others are specific to our business and operations. Our critical accounting policies include estimates relating to revenue recognition related to Membership and associate fees, deferral of Membership and associate related costs, expense recognition related to commissions to associates, accrual of incentive awards payable and accounting for legal contingencies.

#### *Revenue recognition - Membership and Associate Fees*

Our principal revenues are derived from Membership fees, most of which are collected on a monthly basis. Memberships are generally guaranteed renewable and non-cancelable except for fraud, non-payment of Membership fees or upon written request. Membership fees are recognized in income ratably over the related service period in accordance with Membership terms, which generally require the holder of the Membership to

remit fees on an annual, semi-annual or monthly basis. Approximately 95% of members remit their Membership fees on a monthly basis. The majority of our Memberships that pay us via credit card or automatic bank draft pay us in advance. At December 31, 2008, approximately 69% of our legal service Memberships and our IDT Memberships were paid in advance and, therefore, those payments are deferred and recognized over their respective periods. At December 31, 2008 the deferred revenue associated with the Membership fees was \$21.1 million which is classified as a current liability.

We also charge new members, who are not part of an employee group, a \$10 enrollment fee. This enrollment fee and related incremental direct and origination costs are deferred and recognized in income over the estimated life of a Membership in accordance with SEC Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements," ("SAB 101") as revised by SEC Staff Accounting Bulletin No. 104. At December 31, 2008 the deferred revenue associated with the Membership enrollment fees was \$4.8 million, of which \$2.0 million was classified as a current liability. We compute the expected Membership life using more than 25 years of actuarial data as explained in more detail in "Measures of Membership Retention" below. At December 31, 2008, management computed the expected Membership life to be approximately three years, which is unchanged from year end 2007. If the expected Membership life were to change significantly, which management does not expect in the short term, the deferred Membership enrollment fee and related costs would be recognized over a longer or shorter period.

We derive revenues from services provided to our marketing sales force including a one-time non-refundable enrollment fee from each new sales associate for which we provide initial sales and marketing supplies and enrollment services to the associate. Average enrollment fees paid by new sales associates were \$72, \$57 and \$50 for 2008, 2007 and 2006, respectively. Revenue from, and costs of, the initial sales and marketing supplies (approximately \$13) are recognized when the materials are delivered to the associates. The remaining revenues and related incremental direct and origination costs are deferred and recognized over the estimated average active service period of associates which at December 31, 2008 is estimated to be approximately five months, which is unchanged from year end 2007. At December 31, 2008, the deferred revenue associated with sales associate enrollment fees was \$764,000, which is classified as a current liability. Management estimates the active service period of an associate periodically based on the average number of months an associate produces new Memberships including those associates that fail to write any Memberships. If the active service period of associates changes significantly, which management does not expect in the short term, the deferred revenue and related costs would be recognized over the new estimated active service period.

#### *Member and Associate Costs*

Deferred costs represent the incremental direct and origination costs we incur in enrolling new Members and new associates related to the deferred revenue discussed above, and that portion of payments made to provider law firms (\$7.0 million deferred at December 31, 2008 which is classified as a current asset) and associates related to deferred Membership revenue. Deferred costs for enrolling new members include the cost of the Membership kit and salary and benefit costs for employees who process Membership enrollments, and were \$4.8 million at December 31, 2008, of which \$2.0 million is classified in current assets. Deferred costs for enrolling new associates include training and success bonuses paid to individuals involved in recruiting the associate and salary and benefit costs of employees who process associate enrollments, and were \$699,000 at December 31, 2008, and are classified as a current asset. Such costs are deferred to the extent of the lesser of actual costs incurred or the amount of the related fee charged for such services. Deferred costs are amortized to expense over the same period as the related deferred revenue as discussed above. Deferred costs that will be recognized within one year of the balance sheet date are classified as current and all remaining deferred costs are considered noncurrent. Associate related costs are reflected as associate services and direct marketing, and are expensed as incurred if not related to the deferred revenue discussed above. These costs include providing materials and services to associates, associate introduction kits, associate incentive programs, group marketing and marketing services departments (including costs of related travel, marketing events, leadership summits and international sales convention).

### *Commissions to Associates*

Prior to March 1, 1995, our commission program provided for advance commission payments to associates of approximately 70% of first year Membership fees on new Membership sales and commissions were earned by the associate at a rate of approximately 16% in all subsequent years. Beginning with new Memberships written after March 1, 1995, we implemented a level commission schedule of approximately 27% per annum with up to a three-year advance commission payment. Effective March 1, 2002, and in order to offer additional incentives for increased Membership retention rates, we returned to a differential commission structure with rates of approximately 80% of first year Membership fees on new Memberships written and variable renewal commission rates ranging from five to 25% per annum based on the first 12 month Membership retention rate of the associate's personal sales and those of his organization. Beginning in August 2003, we allowed the associate to choose between the level commission structure and up to a three year commission advance or the differential commission structure with a one year commission advance.

Prior to January 1997 we advanced commissions at the time of sale of all new Memberships. In January 1997, we implemented a policy whereby the associate received only earned commissions on the first three sales unless the associate met specified criteria. For all sales beginning with the fourth Membership or all sales made by an associate who met the specified criteria, advance commission payments were made at the time of sale of a new Membership. Beginning April 1, 2007, we began advancing commissions at the time of sale of all new Memberships. The amount of cash potentially advanced upon the sale of a new Membership, prior to the recoupment of any charge-backs (described below), represents an amount equal to up to one-year commission earnings. Although the average number of marketing associates receiving an advance commission payment on a new Membership is nine, the overall initial advance may be paid to approximately 30 different individuals, each at a different level within the overall commission structure. The commission advance immediately increases an associate's unearned advance commission balance to us.

Although prior to March 1, 2002, we advanced our sales associates up to three years commission when a Membership was sold and subsequent to March 1, 2002, up to one year commission, the average commission advance paid to our sales associates as a group is actually less than the maximum amount possible because some associates choose to receive less than a full advance and we pay less than a full advance on some of our specialty products. In addition, we may from time to time place associates on a less than full advance basis if there are problems with the quality of the business being submitted or other performance problems with an associate. Additionally, we do not advance commissions on certain categories of group business which have historically demonstrated below average retention characteristics. Also, any residual commissions due an associate (defined as commission on an individual Membership after the advance has been earned) are retained to reduce any remaining unearned commission advance balances prior to being paid to that sales associate. For those associates that have made at least 10 personal sales, opened at least one group and personally write 15% or more of their organizational business, 15% of their commissions are set aside in individual reserve balance accounts, further reducing the amount of advance commissions. The average commission advance paid as a percentage of the maximum advance possible pursuant to our commission structures was approximately 88%, 82% and 78% during 2008, 2007 and 2006, respectively. The commission cost per new Membership sold has increased over the prior year by 8%, 3% and 2% for 2008, 2007 and 2006, respectively, and varies depending on the compensation structure that is in place at the time a new Membership is sold, the monthly Membership fee of the Membership sold and the amount of any charge-backs (recoupment of previous commission advances) that are deducted from amounts that would otherwise be paid to the various sales associates that are compensated for the Membership sale. Should we add additional products, such as the Identity Theft Shield described above or add additional commissions to our compensation plan or reduce the amount of chargebacks collected from our associates, the commission cost per new Membership will increase accordingly.

We expense advance commissions ratably over the first month of the related Membership. At December 31, 2008, advance commissions deferred were \$5.3 million and included as a current asset. As a result of this accounting policy, our commission expenses are all recognized over the first month of a Membership and there is no commission expense recognized for the same Membership during the remainder of the advance period. We track our unearned advance commission balances outstanding in order to ensure the advance commissions are

recovered before any renewal commissions are paid and for internal purposes of analyzing our commission advance program. While not recorded as an asset, unearned advance commission balances from associates for the following years ended December 31 were:

	<b>2008</b>	<b>2007</b>	<b>2006</b>
	(Amounts in 000's)		
Beginning unearned advance commission balances (1).....	\$ 184,531	\$ 188,647	\$ 195,792
Advance commissions, net of chargebacks and other .....	120,908	126,880	121,737
Earned commissions applied .....	(127,496)	(126,836)	(124,983)
Advance commission write-offs .....	(3,572)	(4,160)	(3,899)
Ending unearned advance commission balances before estimated unrecoverable balances (1) .....	174,371	184,531	188,647
Estimated unrecoverable advance commission balances (1).....	(44,526)	(42,850)	(40,091)
Ending unearned advance commission balances, net (1) .....	<u>\$ 129,845</u>	<u>\$ 141,681</u>	<u>\$ 148,556</u>

(1) These amounts do not represent fair value, as they do not take into consideration timing of estimated recoveries.

The ending unearned advance commission balances, net, above includes net unearned advance commission balances of non-vested associates of \$62 million, \$56 million and \$49 million at December 31, 2008, 2007 and 2006, respectively. As such, at December 31, 2008 future commissions and related expense will be reduced as unearned advance commission balances of \$68 million are recovered. Commissions are earned by the associate as Membership fees are earned by us, usually on a monthly basis. We reduce unearned advance commission balances or remit payments to associates, as appropriate, when commissions are earned. Should a Membership lapse before the advances have been recovered for each commission level, we, except as described below, generate an immediate "charge-back" to the applicable sales associate to recapture up to 50% of any unearned advance on Memberships written prior to March 1, 2002, and 100% on any Memberships written thereafter. Beginning in August 2003, we allowed the associate to choose between the level commission structure and up to three year commission advance and up to 50% chargebacks or the differential commission structure with a one year commission advance and up to 100% chargebacks. This charge-back is deducted from any future advances that would otherwise be payable to the associate for additional new Memberships. In order to encourage additional Membership sales, we waived chargebacks for associates that met certain criteria in December 2002 and March 2003, which effectively increased our commission expense. Any remaining unearned advance commission balance may be recovered by withholding future residual earned commissions due to an active associate on active Memberships. Additionally, even though a commission advance may have been fully recovered on a particular Membership, no additional commission earnings from any Membership are paid to an associate until all previous advances on all Memberships, both active and lapsed, have been recovered. We also have reduced chargebacks from 100% to 50% for certain senior marketing associates who have demonstrated the ability to maintain certain levels of sales over specified periods and maintain certain Membership retention levels. We may adjust chargebacks from time to time in the future in order to encourage certain production incentives.

We have the contractual right to require associates to repay unearned advance commission balances from sources other than earned commissions including cash (a) from all associates either (i) upon termination of the associate relationship, which includes but is not limited to when an associate becomes non-vested or (ii) when it is ascertained that earned commissions are insufficient to repay the unearned advance commission payments and (b) upon demand, from agencies or associates who are parties to the associate agreements signed between October 1989 and July 1992 or July 1992 to August 1998, respectively. The sources, other than earned commissions, that may be available to recover associate unearned advance commission balances are potentially subject to limitation based on applicable state laws relating to creditors' rights generally. Historically, we have not demanded repayments of the unearned advance commission balances from associates, including terminated associates, because collection efforts would likely increase costs and have the potential to disrupt our relationships with our sales associates. This business decision by us has a significant effect on our cash flow by electing to defer collection of advance payments of which approximately \$44.5 million were not expected to be collected from future commissions at December 31, 2008. However, we regularly review the unearned advance commission

balance status of associates and will exercise our right to require associates to repay advances when management believes that such action is appropriate.

Non-vested associates are those that are no longer “vested” because they fail to meet our established vesting requirements by selling at least three new Memberships per quarter or retaining a personal Membership. Non-vested associates lose their right to any further commissions earned on Memberships previously sold at the time they become non-vested. As a result we have no continuing obligation to individually account to these associates as we do to active associates and are entitled to retain all commission earnings that would be otherwise payable to these terminated associates. We do continue to reduce the unearned advance commission balances for commissions earned on active Memberships previously sold by those associates. Substantially all individual non-vested associate unearned advance commission balances were less than \$1,000 and the average balance was \$392 at December 31, 2008.

Although the advance commissions are expensed ratably over the first month of the related Membership, we assess, at the end of each quarter, on an associate-by-associate basis, the recoverability of each associate’s unearned advanced commission balance by estimating the associate’s future commissions to be earned on active Memberships. Each active Membership is assumed to lapse in accordance with our estimated future lapse rate, which is based on our actual historical Membership retention experience as applied to each active Membership’s year of origin. The lapse rate is based on our more than 25-year history of Membership retention rates, which is updated quarterly to reflect actual experience. We also closely review current data for any trends that would affect the historical lapse rate. The sum of all expected future commissions to be earned for each associate is then compared to that associate’s unearned advance commission balance. We estimate unrecoverable advance commission balances when expected future commissions to be earned on active Memberships (aggregated on an associate-by-associate basis) are less than the unearned advance commission balance. If an associate with an outstanding unearned advance commission balance has no active Memberships, the unearned advance commission balance is written off but has no financial statement impact as advance commissions are expensed ratably over the first month of the related Memberships. Refer to “Measures of Member Retention – *Expected Membership Life, Expected Remaining Membership Life*” for a description of the method used by us to estimate future commission earnings.

Further, our analysis of the recoverability of unearned advance commission balances is also based on the assumption that the associate does not write any new Memberships. We believe that this assessment methodology is highly conservative since our actual experience is that many associates do continue to sell new Memberships and we, through our chargeback rights, gain an additional source to recover unearned advance commission balances.

Changes in our estimates with respect to recoverability of unearned commissions could occur if the underlying Membership persistency changes from historical levels. Should Membership persistency decrease, the unearned commissions would be recovered over a longer period and the amount not recovered would most likely increase, although any increase in uncollectible unearned commissions would not have any immediate expense impact since the commission advances are expensed in the month they are incurred. Holding all other factors constant, the decline in persistency would also lead to lower Membership fees, less net income and less cash flow from operations. Conversely, should persistency increase, the unearned commissions would be recovered more quickly, the amount unrecovered would decrease and, holding all other factors constant, we would enjoy higher Membership fees, more net income and more cash flow from operations.

#### *Incentive awards payable*

Associates can earn the right to attend an annual incentive trip by meeting monthly qualification requirements for the entire calendar year and maintaining certain personal retention rates for the Memberships sold during the calendar year. Associates can also earn the right to receive additional monthly bonuses by meeting the monthly qualification requirements for twelve consecutive months and maintaining certain personal retention rates for the Memberships sold during that twelve month period. The incentive awards payable at any date is estimated based on an evaluation of the existing associates that have met the monthly qualifications, any changes

to the monthly qualification requirements, the estimated cost for each incentive earned and the number of associates that have historically met the personal retention rates. At December 31, 2008, the accrued amount payable was \$3.1 million. Changes to any of these assumptions would directly affect the amount accrued but we do not expect any of the significant trends impacting this account to change significantly in the near term.

#### *Legal Contingencies*

We are subject to various legal proceedings and claims, the outcomes of which are subject to significant uncertainty. Given the inherent unpredictability of litigation, it is difficult to estimate the impact of litigation on our financial condition or results of operation. SFAS 5, *Accounting for Contingencies*, requires that an estimated loss from a loss contingency be accrued by a charge to income if it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. Disclosure of a contingency is required if there is at least a reasonable possibility that a loss has been incurred. We evaluate, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. We have established an accrued liability we believe will be sufficient to cover estimated damages in connection with various cases, which at December 31, 2008 was \$500,000. This process requires subjective judgment about the likely outcomes of litigation. Liabilities related to most of our lawsuits are especially difficult to estimate due to the nature of the claims, limitation of available data and uncertainty concerning the numerous variables used to determine likely outcomes or the amounts recorded. Litigation expenses are recorded as incurred and we do not accrue for future legal fees. It is possible that an adverse outcome in certain cases or increased litigation costs could have an adverse effect upon our financial condition, operating results or cash flows in particular quarterly or annual periods. See "Legal Proceedings."

#### **Other General Matters**

##### *Operating Ratios*

Three principal operating measures monitored by us in addition to measures of Membership retention are the Membership benefits ratio, commission ratio and the general and administrative expense ratio. The Membership benefits ratio, the commissions ratio and the general and administrative expense ratio represent those costs as a percentage of Membership fees. We strive to maintain these ratios as low as possible while at the same time providing adequate incentive compensation to our sales associates and provider law firms. These ratios do not measure total profitability because they do not take into account all revenues and expenses.

##### *Cash Flow Considerations Relating to Sales of Memberships*

We generally advance significant commissions at the time a Membership is sold. Since approximately 95% of Membership fees are collected on a monthly basis, a significant cash flow deficit is created at the time a Membership is sold. This deficit is reduced as monthly Membership fees are remitted and no additional commissions are paid on the Membership until all previous unearned advance commission balances have been fully recovered. Since the cash advanced at the time of sale of a new Membership may be recovered over a multi-year period, cash flow from operations may be adversely affected depending on the number of new Memberships written in relation to the existing active base of Memberships and the composition of new or existing sales associates producing such Memberships.

##### *Investment Policy*

Our investment policy is to some degree controlled by certain insurance regulations, which, coupled with management's own investment philosophy, results in a conservative investment portfolio that is not risk oriented. Our investment purchases consist of investment grade bonds primarily issued by corporations, the United States Treasury, and state and municipal tax-exempt bonds, certificates of deposit, auction rate securities and EURO deposits. We are required to pledge investments to various state insurance departments as a condition to obtaining authority to do business in certain states.

### *Recently Issued Accounting Pronouncements*

Information regarding recently issued accounting pronouncements is included in Note 1 to the Consolidated Financial Statements.

### **Measures of Member Retention**

One of the major factors affecting our profitability and cash flow is our ability to retain a Membership, and therefore continue to receive fees, once it has been sold. We monitor our overall *Membership persistency rate*, as well as the *retention rates* with respect to Memberships sold by individual associates and agents and retention rates with respect to Memberships by year of issue, geographic region, utilization characteristics and payment method, and other sub groupings.

### **Terminology**

The following terms are used in describing the various measures of retention:

- *Membership life* is a period that commences on the day of initial enrollment of a member and continues until the individual's Membership eventually terminates or lapses (the terms *terminate* or *lapse* may be used interchangeably here).
- *Membership age* means the time since the Membership has been in effect.
- *Lapse rate* means the percentage of Memberships of a specified group of Memberships that *lapse* in a specified time period.
- *Retention rate* is the complement of a *lapse rate*, and means the percentage of Memberships of a specified group that remain in force at the end of a specified time period.
- *Persistency* and *retention* are used in a general context to mean the tendency for Memberships to continue to remain in force, while the term *persistency rate* is a specific measure that is defined below.
- *Lapse rates, retention rates, persistency rates, and expected Membership life* may be referred to as measures of *Membership retention*.
- *Expected Membership life* means the average number of years a new Membership is expected to remain in force.
- *Blended rate* when used in reference to any measure of member retention means a rate computed across a mix of Memberships of various *Membership ages*.
- *Expected remaining Membership life* means the number of additional years that an existing member is expected to continue to renew from a specific point in time based on the *Membership life*.

### *Variations in Membership Retention by Sub-Groups, Impact on Aggregate Numbers*

Companywide measures of Membership retention include data relating to members who can potentially be further sorted by identifiable sub-groupings. For example, Memberships may be subdivided into those owned by members who are or are not sales associates, to those who are or are not members of group plans, etc.

Measures of Membership retention of different sub-groups may vary. For example, our experience indicates that first year retention rate of Memberships owned by members who have accessed the services of the provider law firms historically have higher retention rates than those who have not. They also likely have a better

understanding and appreciation of the benefits of the Membership, which may have contributed in fact to their decision to keep their Membership active.

All aggregate measures of Membership retention or expected life may be impacted by shifts in the underlying enrollment mix of sub-groups that have different retention rates. A shift in mix alone could, over time, cause an increase in reported aggregate retention measures and expected member life, even if the retention rates within each sub-group do not change. It is important to note that all blended rates discussed here may reflect the impact of such shifts in enrollment mixes. At December 31, 2008, 417,008 of the active 1,559,154 Memberships were also vested associates which represent 27% of the total active Memberships compared to 25% at December 31, 2007 and 26% at December 31, 2006. The following table shows total new Memberships sold during each year and the number and percentage of Memberships sold to persons who are associates.

Year	Total New Memberships	Associate Memberships	Ratio
2003	624,525	89,230	14.3%
2004	700,727	220,290	31.4%
2006	612,726	134,789	22.0%
2007	612,096	114,024	18.6%
2008	552,327	95,327	17.3%

*Variations in Retention over Life of a Membership, Impact on Aggregate Measures*

Measures of member retention also vary significantly by the Membership age. Historically, we have observed that Memberships in their first year have a significantly higher lapse rate than Memberships in their second year, and so on. The following chart shows the historical observed lapse rates and corresponding yearly retention rates as a function of Membership age. For example, 49.3% of all new Memberships lapse during the first year, leaving 50.7% still in force at the end of the first year. More tenured Memberships have significantly lower lapse rates. For example, by year seven lapse rates are under 10% and annual retention exceeds 90%. The following table shows as of December 31, 2008 and 2007 our blended retention rate and lapse rates based on our historical experience for the last 25 years.

As of December 31, 2008				As of December 31, 2007		
Yearly Lapse Rate	Yearly Retention	End of Year Memberships	Membership Year	Yearly Lapse Rate	Yearly Retention	End of Year Memberships
		100.0	0			100.0
49.3%	50.7%	50.7	1	49.4%	50.6%	50.6
32.2%	67.8%	34.4	2	32.0%	68.0%	34.4
23.7%	76.3%	26.2	3	23.0%	77.0%	26.5
18.1%	81.9%	21.5	4	18.5%	81.5%	21.6
15.0%	85.0%	18.3	5	14.8%	85.2%	18.4
12.5%	87.5%	16.0	6	10.3%	89.7%	16.5
8.5%	91.5%	14.6	7	7.9%	92.1%	15.2

*Membership Persistency*

Our *Membership persistency rate* is a specific computation that measures the number of Memberships in force at the end of a year as a percentage of the total of (i) Memberships in force at the beginning of such year, plus (ii) new Memberships sold during such year. From 1981 through the year ended December 31, 2008, our annual *Membership persistency rates*, using the foregoing method, have averaged approximately 72.0%.

Year	Beginning Memberships	New Memberships	Total	Ending Memberships	Persistency
2003	1,418,997	624,525	2,043,522	1,451,700	71.0%
2004	1,451,700	700,727	2,152,427	1,542,789	71.7%
2006	1,542,789	612,726	2,155,515	1,538,740	71.4%
2007	1,538,740	612,096	2,150,836	1,575,802	73.3%
2008	1,575,802	552,327	2,128,129	1,559,154	73.3%

Our overall *Membership persistency rate* varies based on, among other factors, the relative age of total Memberships in force, and shifts in the mix of members enrolled. Our overall *Membership persistency rate* could become lower when the Memberships in force include a higher proportion of newer Memberships, as will happen following periods of rapid growth. Our overall *Membership persistency rate* could also become lower when the new enrollments include a higher proportion of non-associate members.

Unless offset by other factors, these factors could result in a decline in our overall *Membership persistency rate* as determined by the formula described above, but does not necessarily indicate that the new Memberships written are less persistent.

#### *Expected Membership Life*

Using historical data through 2008 for all past Members enrolled, the *expected Membership life* can be computed to be approximately three years. This number represents the average number of years a new Membership can be expected to remain in force. Although about half of all new Memberships may lapse in the first year, the expected Membership life is much longer due to the contribution of higher annual retention rates in subsequent years.

Since our experience is that the retention rate of a given generation of new Memberships improves with Membership age, the *expected remaining Membership life* of a Membership also increases with Membership age. For example, while a new Membership may have an *expected Membership life* of three years, the *expected remaining Membership life* of a Membership that reaches its first year anniversary is approximately 4.8 years.

Since the actual population of Memberships in force at any time is a distribution of ages from zero to more than 25 years, the *expected remaining Membership life* of the entire population at large greatly exceeds four years per Membership. As of December 31, 2008, based on the historical data described above, the current *expected remaining Membership life* of the actual population is approximately 8.9 years per Membership. This measure is used by us to estimate the future revenues expected from Memberships currently in place.

*Expected Membership life* measures are based on more than 25 years of historical Membership retention data, unlike the *Membership persistency rate* described above which is computed from, and determined by, the most recent one-year period only. Both of these measures however include data from Memberships of all Membership ages and hence are referred to as “blended” measures.

#### *Actions that May Impact Retention in the Future*

The potential impact on our future profitability and cash flow due to future changes in Membership retention can be significant. While blended retention rates have not changed dramatically over the past five years, we have implemented several initiatives aimed at improving the retention rate of both new and existing Memberships. Such initiatives include an optional revised compensation structure featuring variable renewal commission rates ranging from five to 25% per annum based on the 12 month Membership retention rate of the associate’s personal sales and those of his organization and implementation of a “non-taken” administrative fee to sales associates of \$35 for any Membership application that is processed but for which a payment is never received. We have designed and implemented an enhanced member “life cycle” communication process aimed at

both increasing the overall amount of communication from us to the members as well as more specific target messaging to members based on the length of their Membership as well as utilization characteristics.

During 2006, we began providing an additional service focused on Membership retention, Member Advantage Services, to our associates for a one-time fee of \$5.95 per Membership. This service consists of several out-bound calls, emails and letters by our employees during the first year of the Membership as well as out-bound calls to the member any time the Membership moves into pre-cancel status throughout the life of the Membership. We verify the Membership data in our files on the very first call and make any necessary changes immediately as well as fully explain the Membership benefits and answer any questions the member may have, essentially reselling the Membership. We provide Provider law firm contact information and make sure the member understands how to contact their Provider. We encourage our members to immediately begin the process of having their will prepared and also help the member begin the credit monitoring process for Identity Theft Shield members. We believe that such efforts may ultimately increase the utilization by members and therefore lead to higher retention rates. We intend to continue to develop programs and initiatives designed to improve retention. At December 31, 2008 approximately 612,000 Memberships were part of our Member Advantage Services.

## **Results of Operations**

### ***Comparison of 2008 to 2007***

Net income for 2008 increased 18% to \$60.2 million from \$51.2 million for 2007. Diluted earnings per share for 2008 increased 30% to \$5.04 per share from \$3.88 per share for the prior year due to increased net income of 18% and an approximate 10% decrease in the weighted average number of outstanding shares.

Membership fees and their impact on total revenues in any period are determined directly by the number of active Memberships in force during any such period and the average annual fee. The active Memberships in force are determined by both the number of new Memberships sold in any period together with the renewal rate of existing Memberships. New Membership sales decreased 10% during 2008 to 552,327 from 612,096 during 2007. At December 31, 2008, there were 1,559,154 active Memberships in force compared to 1,575,802 at December 31, 2007, a decrease of 1%. However, the average annual fee per Membership has increased from \$298 for all Memberships in force at December 31, 2007 to \$301 for all Memberships in force at December 31, 2008, a 1% increase, primarily as a result of an increase in the percentage of members with our Identity Theft Shield Membership. These changes resulted in a 2% increase in Membership fees for 2008 to \$436.8 million from \$427.4 million for 2007 marking the sixteenth consecutive year of increased Membership revenue.

Associate services revenue decreased 6% from \$25.1 million for 2007 to \$23.5 million during 2008 primarily as a result of fewer associates recruited. The *eService* fees totaled \$12.1 million during 2008 compared to \$12.4 million for 2007, a decrease of 2%. We recognized revenue from associate fees of approximately \$9.2 million during 2008 compared to \$9.8 million during 2007, a decrease of 6%. New associates typically pay a fee ranging from \$49 to \$249, depending on special promotions we implement from time to time. Although the new enrollments of sales associates decreased 18% during 2008 to 122,255 from 148,802 for 2007, the average associate fee paid during 2008 was \$72 compared to \$57 for 2007, an increase of 26% due to higher average enrollment fees charged to new associates. Future revenues from associate services will depend primarily on the number of new associates enrolled, the price charged for new associates and the number who choose to participate in our *eService* program, but we expect that such revenues will continue to be largely offset by the direct and indirect cost to us of training, providing associate services and other direct marketing expenses.

Other revenue decreased 8%, from \$4.5 million to \$4.2 million primarily due to the decrease in revenue recognized from Membership enrollment fees.

Primarily as a result of the increase in Membership fees, total revenues increased to \$464.5 million for 2008 from \$457.1 million during 2007, an increase of 2%.

Membership benefits, which primarily represent payments to provider law firms and Kroll, totaled \$150.3 million for 2008 compared to \$148.8 million for 2007 and represented 34% and 35% of Membership fees, respectively. This Membership benefit ratio (Membership benefits as a percentage of Membership fees) should be slightly reduced going forward as substantially all active Memberships provide for a capitated cost and we have reduced the capitated cost of the Identity Theft plan benefits effective April 1, 2007 with additional reductions effective beginning January 1, 2008, 2009 and 2010.

Commissions to associates decreased 3% from \$130.6 million for 2007 to \$126.8 million for 2008, and represented 31% and 29% of Membership fees, respectively. Commissions to associates are primarily dependent on the number of new Memberships sold during a period and the average fee of those Memberships. New Memberships sold during 2008 totaled 552,327, a 10% decrease from the 612,096 sold during 2007, and the "add-on" IDT Membership sales which are not included in these totals decreased 10% to 344,869 for 2008 from 381,419 for 2007. Although our new Membership fees written during 2008 decreased 10%, commissions to associates declined only 3% due to a change effective April 1, 2007 when we began advancing commissions on the first Membership sale and in June 2008 when we added additional levels (Expansion Bonuses) to our compensation plan.

Associate services and direct marketing expenses decreased \$5.3 million to \$23.6 million for 2008 from \$28.9 million for 2007. We had a \$3.0 million decrease in direct marketing and marketing services costs and a \$789,000 decrease in training fees and bonuses and a \$949,000 decrease in *Player's Club* costs. Training fees and bonuses are affected by the number of new sales associates that successfully meet the qualification criteria established by us, i.e. more training bonuses will be paid when a higher number of new sales associates meet such criteria. These expenses include the costs of providing associate services and marketing expenses as discussed under *Member and Associate Costs*.

General and administrative expenses during 2008 and 2007 were \$53.0 million and \$50.5 million, respectively, and represented 12% of Membership fees for such years. The \$2.5 million increase in general and administrative expenses was due to increases in advertising, consultant fees, employee expenses, and legal fees. We had decreases in our bank service charges and telecommunication costs during 2008.

Other expenses, net, which includes depreciation and amortization, litigation accruals, premium taxes and interest expense reduced by interest income, decreased 3% to \$13.4 million for 2008 from \$13.8 million for 2007. Depreciation and amortization increased to \$8.8 million for 2008 from \$8.5 million for 2007. Litigation expense was \$906,000 for 2008 compared to \$15,000 during 2007. Premium taxes decreased from \$1.9 million for 2007 to \$1.8 million for 2008. Interest expense decreased to \$4.2 million for 2008 compared to \$6.7 million for the prior year. Interest income decreased to \$2.2 million for 2008 from \$3.3 million for 2007.

The provision for income taxes increased during 2008 to \$37.2 million compared to \$33.3 million for 2007, representing 38.2% and 39.4%, respectively, of income before income taxes. The 2007 provision included a \$2.0 million charge, representing 2.4% of income before income taxes, relating to income taxes for years 2007 and prior. This charge resulted from a clerical error, which we discovered and corrected, in the amount of net operating loss reported in a 2003 state income tax return which resulted in nonpayment of income taxes in that state for several years. The 2008 and 2007 provisions include state income taxes of \$3.8 million and \$3.2 million, respectively, net of federal benefits, representing 4.0% and 3.8%, respectively, of income before income taxes.

### **Comparison of 2007 to 2006**

Net income for 2007 decreased 1% to \$51.2 million from \$51.8 million for 2006. Diluted earnings per share for 2007 increased 11% to \$3.88 per share from \$3.51 per share for the prior year due to decreased net income of 1% and an approximate 10% decrease in the weighted average number of outstanding shares. Membership revenues for 2007 were up 4% to \$427.4 million from \$412.2 million for the prior year marking the fifteenth consecutive year of increased Membership revenue.

Membership fees and their impact on total revenues in any period are determined directly by the number of active Memberships in force during any such period and the average annual fee. The active Memberships in force are determined by both the number of new Memberships sold in any period together with the renewal rate of existing Memberships. New Membership sales decreased less than 1% during 2007 to 612,096 from 612,726 during 2006. At December 31, 2007, there were 1,575,802 active Memberships in force compared to 1,538,740 at December 31, 2006, an increase of 2%. Additionally, the average annual fee per Membership has increased from \$293 for all Memberships in force at December 31, 2006 to \$298 for all Memberships in force at December 31, 2007, a 2% increase, primarily as a result of an increase in the percentage of members with our Identity Theft Shield Membership. These changes resulted in a 4% increase in Membership fees for 2007 to \$427.4 million from \$412.2 million for 2006.

Associate services revenue decreased 7% from \$26.9 million for 2006 to \$25.1 million during 2007 primarily as a result of fewer associates recruited. The eService fees totaled \$12.4 million during 2007 compared to \$12.8 million for 2006, a decrease of 3%. We recognized revenue from associate fees of approximately \$9.8 million during 2007 compared to \$10.6 million during 2006, a decrease of 8%. New associates typically pay a fee ranging from \$49 to \$249, depending on special promotions we implement from time to time. Although the new enrollments of sales associates decreased 14% during 2007 to 148,802 from 172,999 for 2006, the average associate fee paid during 2007 was \$56.75 compared to \$49.69 for 2006, an increase of 14% due to higher average enrollment fees charged to new associates.

Other revenue decreased 10%, from \$5.0 million to \$4.5 million primarily due to the decrease in revenue recognized from Membership enrollment fees.

Primarily as a result of the increase in Membership fees, total revenues increased to \$457.1 million for 2007 from \$444.0 million during 2006, an increase of 3%.

Membership benefits, which primarily represent payments to provider law firms and Kroll, totaled \$148.8 million for 2007 compared to \$145.8 million for 2006 and represented 35% of Membership fees for both years.

Commissions to associates increased 3% from \$126.8 million for 2006 to \$130.6 million for 2007, and represented 31% of Membership fees for both years. Commissions to associates are primarily dependent on the number of new Memberships sold during a period and the average fee of those Memberships. New Memberships sold during 2007 totaled 612,096, virtually unchanged from the 612,726 sold during 2006, and the "add-on" IDT Membership sales which are not included in these totals decreased 2% to 381,419 for 2007 from 389,157 for 2006. Although our new Membership fees written during 2007 decreased 2%, the 3% increase in commissions to associates resulted due to a change effective April 1, 2007 when we began advancing commissions on the first Membership sale.

Associate services and direct marketing expenses decreased \$600,000 to \$28.9 million for 2007 from \$29.5 million for 2006. We had a \$500,000 decrease in direct marketing and marketing services costs and a \$1.1 million decrease in training fees and bonuses partially offset by a \$900,000 increase in *Player's Club* costs. Training fees and bonuses are affected by the number of new sales associates that successfully meet the qualification criteria established by us, i.e. more training bonuses will be paid when a higher number of new sales associates meet such criteria. These expenses include the costs of providing associate services and marketing expenses as discussed under Member and Associate Costs.

General and administrative expenses during 2007 and 2006 were \$50.5 million and \$50.1 million, respectively, and represented 12% of Membership fees for such years. Decreases in the 2007 period were attributable primarily to reclassification of \$3.8 million of state income taxes to the provision for income taxes. For 2006 we recorded state income taxes of \$2.7 million. This \$2.7 million reduction in state income taxes recorded in general and administrative expenses was offset by increases in advertising, consultant fees, employee expenses, telecommunications and legal fees resulting in a \$400,000 increase in general and administrative expenses.

Other expenses, net, which includes depreciation and amortization, litigation accruals, premium taxes and interest expense reduced by interest income, increased 13% to \$13.8 million for 2007 from \$12.2 million for 2006. Depreciation and amortization increased to \$8.5 million for 2007 from \$8.3 million for 2006. Litigation expense was \$15,000 for 2007 compared to a negative \$710,000 during 2006. Premium taxes increased from \$1.8 million for 2006 to \$1.9 million for 2007. Interest expense increased to \$6.7 million for 2007 compared to \$5.7 million for the prior year. Interest income increased to \$3.3 million for 2007 from \$2.9 million for 2006.

The provision for income taxes increased during 2007 to \$33.3 million compared to \$27.9 million for 2006, representing 39.4% and 35.0%, respectively, of income before income taxes. The 2007 provision included a \$2.0 million charge, representing 2.4% of income before income taxes, relating to income taxes for years 2006 and prior. This charge resulted from a clerical error, which we discovered and corrected, in the amount of net operating loss reported in a 2003 state income tax return which resulted in nonpayment of income taxes in that state for several years. The 2007 provision also includes year 2007 state income taxes of \$3.2 million, net of federal benefits as discussed above, representing 3.8% of income before income taxes.

### **Liquidity and Capital Resources**

The number of active Memberships in force and the average monthly fee will directly determine Membership fees collected and their contribution to cash flow from operations during any period. Cash receipts from associate services are directly impacted by the number of new sales associates enrolled and the price of entry during the period, the number of associates subscribing to our *eService* offering and the amount of sales tools purchased by the sales force.

The cash outlay related to Membership benefits is directly impacted by the number of active Memberships and the contractual rate that exists between us and our benefits providers. Commissions paid to associates are primarily dependent on the number and price of new Memberships sold during a period and any special incentives that may be in place during the period. Cash requirements related to associate services and direct marketing activities are directly impacted by the number of new associates enrolled during a period due to the cost of materials provided to such new associates, the number of associates subscribing to our *eService* offering, the amount of sales tools purchased by the sales force as well as the number of those associates who successfully meet the incentive award program qualifications.

Membership revenues are more than sufficient to fund the cash requirements for membership benefits (at approximately 34%-35% of Membership revenues), commissions (ranging from 29% to 36% of Membership revenues) and general and administrative expense (at approximately 12% to 13% of Membership revenues). We have generated significant cash flow from operations of approximately \$64 million, \$67 million and \$54 million in 2008, 2007 and 2006, respectively, which has been used to provide for future growth in Memberships, to repay our debt and make necessary capital expenditures and as discussed below, we have used a significant portion of our cash flow to repurchase shares of our stock in the open market. Cash flow from operations could be reduced if we experienced significant growth in new members because of the negative cash flow characteristics of our commission advance policies discussed above.

As a result of our ability to generate cash flow from operations, including in periods of Membership growth, we have not historically been dependent on, and do not expect to need in the future, external sources of financing from the sale of securities or from bank borrowings to fund our basic business operations. However, as described below, during the last three years, we incurred debt for limited and specific purposes to permit us to

construct a new corporate headquarters, purchase equipment and to accelerate our treasury stock purchase program.

#### *General*

Consolidated net cash provided by operating activities was \$64.3 million, \$67.2 million and \$54.4 million for 2008, 2007 and 2006, respectively. Net cash provided by operating activities decreased approximately \$2.9 million primarily due to a \$7.0 million increase in cash received from our members and a \$4.3 million decrease in commission payments to our associates which was reduced by a \$1.6 million increase in payments to our membership benefit providers and an \$11.2 million increase in income tax payments.

Net cash (used in) provided by investing activities was \$(4.4) million, \$30.1 million and \$(52.6) million for 2008, 2007 and 2006, respectively. Capital expenditures were \$5.3 million, \$5.9 million and \$9.0 million during 2008, 2007 and 2006, respectively. Sales and maturities of available-for-sale investments exceeded the purchases of such investments by \$843,000 and \$35.9 million during 2008 and 2007, respectively, while purchases exceeded the sales and maturities of such investments by \$43.7 million in 2006.

Net cash used in financing activities was \$58.3 million, \$84.3 million and \$23.7 million for 2008, 2007 and 2006, respectively. This \$26.0 million change during 2008 was primarily comprised of a \$21.7 million decrease in purchases of treasury stock and a \$3.7 million decrease in repayment of debt.

We had a consolidated working capital deficit of \$2.3 million at December 31, 2008, a decrease of \$700,000 compared to a consolidated working capital deficit of \$3.0 million at December 31, 2007. The decrease was primarily due to the \$5.6 million decrease in income taxes payable and the \$1.6 million increase in cash and cash equivalents partially offset by the \$4.2 million increase in the current portion of notes payable, a \$1.6 million decrease in refundable income taxes and an \$800,000 decrease in deferred member and associate service costs. The \$2.3 million working capital deficit at December 31, 2008 would have been \$8.5 million in excess working capital excluding the \$10.8 million of current portion of deferred revenue and fees in excess of the current portion of deferred member and associate service costs. These amounts will be eliminated by the passage of time without the utilization of other current assets or us incurring other current liabilities. Additionally, at the current rate of cash flow provided by operations (\$64.3 million during 2008), we do not expect any difficulty in meeting our financial obligations in the short term or the long term.

We generally advance significant commissions to associates at the time a Membership is sold. We expense these advances ratably over the first month of the related Membership. During 2008, we paid advance commissions to associates of \$120.9 million on new Membership sales compared to \$126.9 million for 2007. Since approximately 95% of Membership fees are collected on a monthly basis, a significant cash flow deficit is created on a per Membership basis at the time a Membership is sold. Since there are no further commissions paid on a Membership during the advance period, we typically derive significant positive cash flow from the Membership over its remaining life. See *Commissions to Associates* above for additional information on advance commissions.

We announced on April 6, 1999, a treasury stock purchase program authorizing management to acquire up to 500,000 shares of our common stock. The Board of Directors has increased such authorization from 500,000 shares to 15 million shares during subsequent board meetings. The most recent authorization was for 1 million additional shares on February 18, 2009. At December 31, 2008, we had purchased 13.7 million treasury shares under these authorizations for \$407.1 million, an average price of \$29.62 per share, including \$44.7 million of purchases in 2008. Treasury stock purchases will be made at prices that are considered attractive by management and at such times that management believes will not unduly impact our liquidity, however, due to restrictions contained in our debt agreements with lenders, we are limited in our treasury stock purchases. At December 31, 2008, we had approximately \$17 million of availability under existing bank covenant restrictions to purchase additional treasury shares. No time limit has been set for completion of the treasury stock purchase program. Given the current interest rate environment, the nature of other investments available and our expected cash flows, management believes that purchasing treasury shares enhances shareholder value. We expect to continue

our treasury stock program. From time to time, we evaluate alternative sources of financing to continue or accelerate this program.

We believe that we have significant ability to finance expected future growth in Membership sales based on our existing amount of cash and cash equivalents and unpledged investments at December 31, 2008 of \$60.0 million. We expect to maintain cash and cash equivalents and investment balances on an on-going basis of approximately \$20 million to \$30 million in order to meet expected working capital needs and regulatory capital requirements. Balances in excess of this amount would be used for discretionary purposes such as treasury stock purchases, dividends, and advance repayment of debt subject to the restrictions contained in our debt agreements.

#### *Notes Payable*

Information regarding Notes Payable is included in Note 6 to the Consolidated Financial Statements.

#### *Parent Company Funding and Dividends*

Although we are the operating entity in many jurisdictions, our subsidiaries serve as operating companies in various states that regulate Memberships as insurance or specialized legal expense products. The most significant of these wholly owned subsidiaries are PPLCI, PPLSIF and LSPV. The ability of these subsidiaries to provide funds to us is subject to a number of restrictions under various insurance laws in the jurisdictions in which they conduct business, including limitations on the amount of dividends and management fees that may be paid and requirements to maintain specified levels of capital and reserves. In addition PPLCI will be required to maintain its stockholders' equity at levels sufficient to satisfy various state or provincial regulatory requirements, the most restrictive of which is currently \$3 million. Additional capital requirements of PPLCI, PPLSIF or LSPV, or any of our regulated subsidiaries, will be funded by us in the form of capital contributions or surplus debentures. At January 1, 2009, none of PPLCI, PPLSIF or LSV had funds available for payment of substantial dividends without the prior approval of the insurance commissioner. At December 31, 2008 the amount of restricted net assets of consolidated subsidiaries was \$24.2 million, representing amounts that may not be paid to us as dividends either under the applicable regulations or without regulatory approval.

#### *Contractual Obligations*

The following table reflects our contractual obligations as of December 31, 2008.

Contractual Obligations	Payments Due by Period (In Thousands)				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt .....	\$ 59,659	\$ 22,408	\$ 31,756	\$ 1,912	\$ 3,583
Purchase obligations (1) .....	9,417	4,049	4,155	1,213	-
Capital leases .....	934	24	80	96	734
Deferred compensation plan .....	7,898	-	-	-	7,898

- (1) Includes contractual commitments pursuant to executory contracts for products and services such as voice and data services and contractual obligations related to future Company events such as hotel room blocks, meeting space and food and beverage guarantees. We expect to receive proceeds from such future events and reimbursement from provider law firms for certain voice and data services that will partially offset these obligations.
- (2) Does not include commitments for attorney provider payments, commissions, etc. which are expected to remain in existence for several years but as to which our obligations vary directly either based on Membership revenues or new Memberships sold and are not readily estimable.

## Forward-Looking Statements

All statements in this report other than purely historical information, including but not limited to, statements relating to our future plans and objectives, expected operating results and the assumptions on which such forward-looking statements are based, constitute "Forward-Looking Statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on our historical operating trends and financial condition as of December 31, 2008 and other information currently available to management. We caution that the Forward-Looking Statements are subject to all the risks and uncertainties incident to our business, including but not limited to risks described herein. Moreover, we may make acquisitions or dispositions of assets or businesses, enter into new marketing arrangements or enter into financing transactions. None of these can be predicted with certainty and, accordingly, are not taken into consideration in any of the Forward-Looking Statements made herein. For all of the foregoing reasons, actual results may vary materially from the Forward-Looking Statements. We assume no obligation to update the Forward-Looking Statements to reflect events or circumstances occurring after the date of the statement.

## **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

### *Disclosures About Market Risk*

Our consolidated balance sheets include a certain amount of assets and liabilities whose fair values are subject to market risk. Due to our significant investment in fixed-maturity investments, interest rate risk represents the largest market risk factor affecting our consolidated financial position. Increases and decreases in prevailing interest rates generally translate into decreases and increases in fair values of those instruments. Additionally, fair values of interest rate sensitive instruments may be affected by the creditworthiness of the issuer, prepayment options, relative values of alternative investments, liquidity of the instrument and other general market conditions.

As of December 31, 2008, our investments consisted of the following:

Description	Fair Value
Obligations of state and political subdivisions.....	\$ 30,777
Certificates of deposit.....	5,753
Auction Rate Securities.....	375
U. S. Government obligations.....	233
Corporate obligations.....	350
Total investments.....	<u>\$ 37,488</u>

We do not hold any investments classified as trading account assets or derivative financial instruments.

The table below summarizes the estimated effects of hypothetical increases and decreases in interest rates on our fixed-maturity investment portfolio. It is assumed that the changes occur immediately and uniformly, with no effect given to any steps that management might take to counteract that change.

The hypothetical changes in market interest rates reflect what could be deemed best and worst case scenarios. The fair values shown in the following table are based on contractual maturities. Significant variations in market interest rates could produce changes in the timing of repayments due to prepayment options available. The fair value of such instruments could be affected and, therefore, actual results might differ from those reflected in the following table:

	Fair value	Hypothetical change in interest rate (bp = basis points)	Estimated fair value after hypothetical change in interest rate
		(Dollars in thousands)	
Fixed-maturity investments at December 31, 2008 (1) .....	\$ 31,360	100 bp increase	\$ 29,831
		200 bp increase	28,457
		50 bp decrease	32,134
		100 bp decrease	32,907
Fixed-maturity investments at December 31, 2007 (1) .....	\$ 33,692	100 bp increase	\$ 32,307
		200 bp increase	31,019
		50 bp decrease	34,310
		100 bp decrease	34,928

(1) Excluding short-term investments in certificates of deposit and auction rate certificates with a fair value of \$6.1 million at December 31, 2008 and short-term investments in certificates of deposit with a fair value of \$4.6 million at December 31, 2007.

The table above illustrates, for example, that an instantaneous 200 basis point increase in market interest rates at December 31, 2008 would reduce the estimated fair value of our fixed-maturity investments by approximately \$2.9 million at that date. At December 31, 2007, and based on the fair value of fixed-maturity investments of \$33.7 million, an instantaneous 200 basis point increase in market interest rates would have reduced the estimated fair value of our fixed-maturity investments by approximately \$2.7 million at that date. The definitive extent of the interest rate risk is not quantifiable or predictable due to the variability of future interest rates, but we do not believe such risk is material.

We primarily manage our exposure to interest rate risk by purchasing investments that can be readily liquidated should the interest rate environment begin to significantly change.

#### *Interest Rate Risk*

We are exposed to market risk related to changes in interest rates. As of December 31, 2008, we had \$59.7 million in notes payable outstanding at interest rates indexed to the 30 day LIBOR rate that exposes us to the risk of increased interest costs if interest rates rise. Assuming a 100 basis point increase in interest rates on the floating rate debt, annual interest expense would increase by approximately \$597,000. As of December 31, 2008, we had not entered into any interest rate swap agreements with respect to the term loans or the variable rate municipal bonds.

#### *Foreign Currency Exchange Rate Risk*

Although we are exposed to foreign currency exchange rate risk inherent in revenues, net income and assets and liabilities denominated in Canadian dollars, the potential change in foreign currency exchange rates is not a substantial risk, as less than 2% of our revenues are derived outside of the United States. As reflected in the attached Consolidated Statements of Comprehensive Income, we have recorded negative foreign currency translation adjustments of \$2.0 million during 2008 and have a cumulative negative foreign currency translation adjustment balance of \$425,000 at December 31, 2008. These amounts are subject to change dynamically in conjunction with the relative values of the Canadian and U.S. dollars.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders  
Pre-Paid Legal Services, Inc.

We have audited Pre-Paid Legal Services, Inc.'s (an Oklahoma corporation) internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Pre-Paid Legal Services, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying "Management's Annual Report on Internal Control Over Financial Reporting". Our responsibility is to express an opinion on Pre-Paid Legal Services, Inc.'s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Pre-Paid Legal Services, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control—Integrated Framework* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets as of December 31, 2008 and 2007, and the related consolidated statements of income, cash flows and changes in stockholders' equity for each of the three years in the period ended December 31, 2008 and our report dated February 27, 2009 expressed an unqualified opinion.

/s/ GRANT THORNTON LLP

Oklahoma City, Oklahoma  
February 27, 2009

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders  
Pre-Paid Legal Services, Inc.

We have audited the accompanying consolidated balance sheets of Pre-Paid Legal Services, Inc. (an Oklahoma corporation) and subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of income, cash flows and changes in stockholders' equity for each of the three years in the period ended December 31, 2008. Our audits of the basic financial statements included Schedule I as of December 31, 2008 and 2007 and for each of the three years in the period ended December 31, 2008. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Pre-Paid Legal Services, Inc. and subsidiaries as of December 31, 2008 and 2007, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2008 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Pre-Paid Legal Services, Inc.'s internal control over financial reporting as of December 31, 2008, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 27, 2009 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

/s/ GRANT THORNTON LLP

Oklahoma City, Oklahoma  
February 27, 2009

## MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. In order to evaluate the effectiveness of internal control over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act, our management has conducted an assessment, including testing, using the criteria in *Internal Control–Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Our system of internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on the assessment, our management has concluded that we maintained effective internal control over financial reporting as of December 31, 2008, based on criteria in *Internal Control–Integrated Framework* issued by COSO. The effectiveness of our internal control over financial reporting as of December 31, 2008, has been audited by Grant Thornton LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

**PRE-PAID LEGAL SERVICES, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Except for per share amounts, dollar amounts in tables are in thousands unless otherwise indicated)**

**Note 1 - Nature of Operations and Summary of Significant Accounting Policies**

*Nature of Operations*

Pre-Paid Legal Services, Inc. (the "Parent") and subsidiaries (collectively, the "Company") develop and market legal service plans (referred to as "Memberships"). The Memberships sold by us allow members to access legal services through a network of independent law firms ("provider law firms") under contract with us. We offer our Identity Theft Shield to new and existing members at \$9.95 per month if added to a legal service Membership or it may be purchased separately for \$12.95 per month. The nationwide provider of the Identity Theft Shield benefits and the Provider law firms are paid a fixed fee on a capitated basis to render services to plan members residing within the state or province in which the provider law firm is licensed to practice. Because the fixed fee payments by us to benefit providers do not vary based on the type and amount of benefits utilized by the member, this capitated arrangement provides significant advantages to us in managing claims risk. At December 31, 2008, Memberships subject to the capitated benefit provider arrangement comprised approximately 99% of our active Memberships. The remaining Memberships, less than 1%, were primarily sold prior to 1987 and allow members to locate their own lawyer to provide legal services available under the Membership with the member's lawyer being reimbursed for services rendered based on usual, reasonable and customary fees. Memberships are generally guaranteed renewable and Membership fees are principally collected on a monthly basis, although approximately 5% of Members have elected to pay their fees in advance on an annual or semi-annual basis. At December 31, 2008, we had 1,559,154 Memberships in force with members in all 50 states, the District of Columbia and the Canadian provinces of Ontario, British Columbia, Alberta and Manitoba. Approximately 90% of the Memberships were in 29 states and provinces. The Memberships are marketed by an independent sales force referred to as "associates."

*Basis of Presentation*

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles") which vary in some respects from statutory accounting principles used when reporting to state insurance regulatory authorities.

*Principles of Consolidation*

The consolidated financial statements include our accounts and our wholly owned subsidiaries. Our primary subsidiaries include Pre-Paid Legal Casualty, Inc. ("PPLCI"), Legal Service Plans of Virginia ("LSPV") and Pre-Paid Legal Services, Inc. of Florida ("PPLSIF"). All significant intercompany accounts and transactions have been eliminated.

*Foreign Currency Translation*

The financial results of our Canadian operations are measured in local currency and then translated into U.S. dollars. All balance sheet accounts have been translated using the current rate of exchange at the balance sheet date. Results of operations have been translated using the average rates prevailing throughout the year.

*Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Fair Value of Financial Instruments*

Our financial instruments consist primarily of cash, certificates of deposit, short-term investments, debt and equity securities, Membership fees receivable, Membership benefits payable, notes payable and accounts payable and accrued expenses. Fair value estimates have been determined by us, using available market

information and appropriate valuation methodologies. Fair values of actively traded debt securities are based on quoted market prices. Fair values of inactively traded debt securities are based on quoted market prices of identical or similar securities or based on observable inputs like interest rates. The carrying value of cash, certificates of deposit, Membership fees receivable, Membership benefits payable and accounts payable and accrued expenses are considered to be representative of their respective fair value, due to the short term nature of these instruments. The carrying value of notes payable is considered to be representative of their respective fair values, due to the variable interest rate feature of such notes. The fair value disclosures relating to debt and equity securities are presented in Note 2.

#### *Cash and Cash Equivalents*

We consider all highly liquid unpledged investments with maturities of three months or less at time of acquisition to be cash equivalents. We place our temporary cash investments with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit. We have not experienced any losses in such accounts and believe we are not exposed to any significant credit risk on cash and cash equivalents.

#### *Investments*

We classify our investments held as available-for-sale and account for them at fair value with unrealized gains and losses, net of taxes, excluded from earnings and reported as other comprehensive income. We classify available-for-sale securities as current if we expect to sell the securities within one year, or if we intend to utilize the securities for current operations. All other available-for-sale securities are classified as non-current.

All investment securities are adjusted for amortization of premiums and accretion of discounts. Amortization of premiums and accretion of discounts are recorded to income over the contractual maturity or estimated life of the individual investment on the level yield method. Gain or loss on sale of investments is based upon the specific identification method. Income earned on our investments in certain state and political subdivision debt instruments is not generally taxable for federal income tax purposes.

#### *Membership fees receivable*

Our Membership fees receivable consists of amounts due from members for services provided pursuant to their Membership contract. Membership fees are principally collected on a monthly basis. Membership fees receivable is a result of a portion of members, mostly group members, who pay their Membership fees in arrears and are recorded at amounts due under the terms of the Membership agreement. An allowance for doubtful accounts is not necessary as the recorded amount is adjusted to net realizable value at period-end based on our historical experience and the short period of time after period-end in which the accounts will be collected.

#### *Inventories*

Inventories include the cost of materials and packaging and are stated at the lower of cost or market.

#### *Property and Equipment*

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation of property and equipment is computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the estimated useful lives of the related assets or the period of the lease, whichever is shorter. Maintenance and repairs are expensed as incurred and renewals and betterments are capitalized. Interest cost incurred during the construction period of major facilities is capitalized. The capitalized interest is recognized as part of the asset to which it relates and is amortized over the asset's estimated useful life.

#### *Revenue recognition - Membership and Associate Fees*

Our principal revenues are derived from Membership fees, most of which are collected on a monthly basis. Memberships are generally guaranteed renewable and non-cancelable except for fraud, non-payment of Membership fees or upon written request. Membership fees are recognized in income ratably over the related service period in accordance with Membership terms, which generally require the holder of the Membership to

remit fees on an annual, semi-annual or monthly basis. Approximately 95% of members remit their Membership fees on a monthly basis. Approximately 69% of our Membership fees are paid in advance and, therefore, are deferred and recognized over their respective periods.

We also charge new members, who are not part of an employee group, a \$10 enrollment fee. This enrollment fee and related incremental direct and origination costs of \$10 for 2008 are deferred and recognized in income over the estimated life of a Membership in accordance with SEC Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements," ("SAB 101"). We compute the expected Membership life using more than 25 years of actuarial data. At December 31, 2008, we computed the expected Membership life to be approximately three years. If the expected Membership life were to change significantly, which management does not expect in the short term, the deferred Membership enrollment fee and related costs would be recognized over a longer or shorter period.

We derive revenues from services provided to our marketing sales force primarily from a one-time non-refundable enrollment fee from each new sales associate for which we provide initial sales and marketing supplies and enrollment services to the associate. Average enrollment fees paid by new sales associates were \$72, \$57 and \$50 for 2008, 2007 and 2006, respectively. Revenue from, and costs of, the initial sales and marketing supplies (approximately \$13) are recognized when the materials are delivered to the associates. The remaining revenues and related incremental direct and origination costs are deferred and recognized over the estimated average active service period of associates which at December 31, 2008 is estimated to be approximately five months, unchanged from year end 2007. Management estimates the active service period of an associate periodically based on the average number of months an associate produces new Memberships including those associates that fail to write any Memberships. If the active service period of associates changes significantly, which management does not expect in the short term, the deferred revenue and related costs would be recognized over the new estimated active service period.

Associate services revenue also includes revenue recognized on the sale of marketing supplies and promotional material to associates and includes fees related to our *eService* program for associates. The *eService* program provides subscribers Internet based back office support such as reports, on-line documents, tools, a personal e-mail account and multiple personalized web sites with "flash" movie presentations.

#### *Member and Associate Costs*

Deferred costs represent the incremental direct and origination costs we incur in enrolling new members and new associates and that portion of payments made to provider law firms and associate commissions related to the deferred revenue discussed above. Deferred costs for enrolling new members include the cost of the Membership kit and salary and benefit costs for employees who process Membership enrollments. Deferred costs for enrolling new associates include training and success bonuses paid to individuals involved in recruiting the associate and salary and benefit costs of employees who process associate enrollments. Such costs are deferred to the extent of the lesser of actual costs incurred or the amount of the related fee charged for such services. Deferred costs are amortized to expense over the same period as the related deferred revenue. Deferred costs that will be recognized within one year of the balance sheet date are classified as current and all remaining deferred costs are considered noncurrent. Associate related costs are reflected as associate services and direct marketing, and are expensed as incurred if not related to the deferred revenue discussed above. These costs include providing materials and services to associates, associate introduction kits, the associate incentive program, group marketing and marketing services departments (including costs of related travel, marketing events, leadership summits and international sales convention). Shipping and handling costs of \$1.7 million, \$1.9 million and \$2.2 million in 2008, 2007 and 2006, respectively, are primarily included in Associate services and direct marketing costs.

#### *Membership Benefits Liability*

The Membership benefits liability represents per capita amounts due the provider of Identity Theft Shield benefits and provider law firms on approximately 99% of the Memberships and claims reported but not paid and actuarially estimated claims incurred but not reported on the remaining non-provider Memberships which

represent less than 1%. We calculate the benefit liability on the non-provider Memberships based on completion factors that consider historical claims experience based on the dates that claims are incurred, reported to us and subsequently paid. Processing costs related to these claims are accrued based on an estimate of expenses to process such claims.

#### *Income Taxes*

We account for income taxes using the asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that are recognized in different periods in our financial statements and tax returns. In estimating future tax consequences, we generally consider all future events other than future changes in the tax law or rates that have not been enacted.

Deferred income taxes are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. We record deferred tax assets related to the recognition of future tax benefits of temporary differences and net operating loss and tax credit carryforwards. To the extent that realization of such benefits is not considered more likely than not, we establish a valuation allowance to reduce such assets to the estimated realizable amount.

We and our subsidiaries are subject to U.S. Federal income tax, Canadian income tax, as well as income tax of multiple state and local jurisdictions. Our 2004 – 2008 U.S. federal income tax returns remain open to examination by the Internal Revenue Service (IRS). Our state and local income tax returns for years 2000 through 2008 remain open to examination by the state and local taxing authorities. Canadian income tax returns for 1999 through 2002 are currently under examination and years 1999 – 2008 are open to examination. The IRS examined our U.S. federal income tax return for 2004 resulting in no recommended adjustments to the tax return.

We recognize interest and/or penalties related to income tax matters in general and administrative expenses.

#### *Commissions to Associates*

Prior to March 1, 2002, we had a level Membership commission schedule of approximately 27% of Membership fees and advanced the equivalent of up to three years of commissions on new Membership sales. Effective March 1, 2002, and in order to offer additional incentives for increased Membership retention rates, we returned to a differential commission structure with rates of approximately 80% of first year Membership fees on new Memberships written and variable renewal commission rates ranging from five to 25% per annum based on the 12 month Membership retention rate of the associate's sales organization. Beginning in August 2003, we allowed the associate to choose between the level commission structure and up to three year commission advance or the differential commission structure with a one year commission advance.

We expense advance commissions ratably over the first month of the related Membership. As a result of this accounting policy, our advance commission expenses are recorded in the first month of a Membership and there is no commission expense recognized for the same Membership during the remainder of the advance period. Associates must qualify for advance commissions by writing at least three Memberships.

#### *Long-Lived Assets*

We review long-lived assets to be held and used in operations when events or changes in circumstances indicate that the assets might be impaired. The carrying value of long-lived assets is considered impaired when the identifiable undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair values are reduced by disposal costs.

### *Stock-Based Compensation*

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123R, Share-Based Payment ("SFAS No. 123R" or the "Statement"). This Statement is a revision of SFAS No. 123, Accounting for Stock-Based Compensation ("SFAS 123"), and supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ("APB No. 25") and its related implementation guidance. On January 1, 2006, we adopted the provisions of SFAS No. 123R using the modified prospective method. SFAS No. 123R focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. The Statement requires entities to recognize compensation expense for awards of equity instruments to employees based on the grant-date fair value of those awards (with limited exceptions). SFAS No. 123R also requires the benefits of tax deductions in excess of recognized compensation expense to be reported as financing cash flows, rather than as an operating cash flow as prescribed under the prior accounting rules. This requirement reduces net operating cash flows and increases net financing cash flows in periods after adoption. Total cash flow remains unchanged from what would have been reported under prior accounting rules.

Prior to the adoption of SFAS No. 123R, we followed the intrinsic value method in accordance with APB No. 25 to account for our equity instruments to employees. Accordingly, no compensation expense was recognized in connection with the issuance of equity instruments to employees under any of our stock option plans for periods ended prior to January 1, 2006. The adoption of SFAS No. 123R primarily resulted in a change in our method of recognizing the fair value of share-based compensation. Our adoption of SFAS No. 123R did not result in our recording compensation expense for equity instruments issued to employees, since all options had vested, no modifications were made to existing options and no new options were granted.

We did not grant any additional equity instruments to employees or modify any existing options and therefore did not recognize any share-based payments' expense from the issuance of equity instruments to employees in 2008, 2007 or 2006. The options outstanding at December 31, 2005 did not affect 2006 consolidated results of operations and financial position since all option-holders were fully vested in such options at December 31, 2005.

### *Incentive awards payable*

Associates can earn the right to attend an annual incentive trip by meeting monthly qualification requirements for the entire calendar year and maintaining certain personal retention rates for the Memberships sold during the calendar year. Associates can also earn the right to receive additional monthly bonuses by meeting the monthly qualification requirements for twelve consecutive months and maintaining certain personal retention rates for the Memberships sold during that twelve month period. The incentive awards payable at any date is estimated based on an evaluation of the existing associates that have met the monthly qualifications, any changes to the monthly qualification requirements, the estimated cost for each incentive earned and the number of associates that have historically met the personal retention rates. Changes to any of these assumptions would directly affect the amount accrued but we do not expect any of the significant trends impacting this account to change significantly in the near term.

### *Legal Contingencies*

We account for legal contingencies in accordance with SFAS 5, *Accounting for Contingencies*, which requires that a loss contingency should be accrued by a charge to income if it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. Disclosure of a contingency is required if there is at least a reasonable possibility that a loss has been incurred. We evaluate, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. This process requires subjective judgment about the likely outcomes of litigation. Liabilities related to most of our lawsuits are especially difficult to estimate due to the nature of the claims, limitation of available data and uncertainty concerning the numerous variables used to determine likely outcomes or the amounts recorded. Litigation expenses are recorded as incurred and we do not accrue for future legal fees. It is possible that an adverse outcome in certain cases or increased litigation costs could have an adverse effect upon our financial condition, operating results or cash flows in particular quarterly or annual periods.

#### *Treasury Stock*

We immediately retire all our treasury stock purchases at cost. We retired, at cost, 1,053,614, 1,318,721, and 1,959,487 shares of common stock during 2008, 2007 and 2006, respectively.

#### *Segment Information*

Operating segments are defined as components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker(s) in deciding how to allocate resources and in assessing performance. Disclosures about products and services and geographic areas are presented in Note 17.

#### *Recently Issued Accounting Pronouncements*

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. We adopted SFAS 157 on January 1, 2008, as required for our financial assets and financial liabilities. However, the FASB deferred the effective date of SFAS 157 for one year as it relates to fair value measurement requirements for nonfinancial assets and nonfinancial liabilities that are not recognized or disclosed at fair value on a recurring basis. The adoption of SFAS 157 for our financial assets and financial liabilities did not have a material impact on our consolidated financial statements. The adoption of SFAS 157 for our nonfinancial assets and nonfinancial liabilities will have no impact on our consolidated financial statements. See Note 18 below.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". SFAS No. 159 permits an entity to choose, at specified election dates, to measure eligible financial instruments and certain other items at fair value that are not currently required to be measured at fair value. An entity reports unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. Upfront costs and fees related to items for which the fair value option is elected are recognized in earnings as incurred and not deferred. SFAS 159 also established presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 was effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At the effective date, an entity could elect the fair value option for eligible items that existed at that date. As such, the adoption of SFAS 159 did not have any impact on our consolidated financial position, results of operations or cash flows. We did not elect the fair value option for eligible items that existed as of January 1, 2008.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations ("SFAS 141R"). SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 141R also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. This statement is effective for us beginning January 1, 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin No. 51 ("SFAS 160"). SFAS 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. SFAS 160 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. This statement is effective for us beginning January 1, 2009. The adoption of SFAS 160 will have no impact on our consolidated financial position, results of operations or cash flows.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" (SFAS 162). This statement identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in

accordance with GAAP. With the issuance of this statement, the FASB concluded that the GAAP hierarchy should be directed toward the entity and not its auditor, and reside in the accounting literature established by the FASB as opposed to the American Institute of Certified Public Accountants (AICPA) Statement on Auditing Standards No. 69, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles." This statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles." We have evaluated the new statement and have determined that it will not have a significant impact on the determination or reporting of our financial results.

In October 2008, the FASB issued FASB Staff Position FAS 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active" ("FSP 157-3"). FSP 157-3 clarified the application of FAS 157. FSP 157-3 demonstrated how the fair value of a financial asset is determined when the market for that financial asset is inactive. FSP 157-3 was effective upon issuance, including prior periods for which financial statements had not been issued. The implementation of this standard did not have an impact on our consolidated financial position, results of operations or cash flows.

In January 2009, the FASB issued FASB Staff Position No. Emerging Issues Task Force 99-20-1, "Amendments to the Impairment Guidance of EITF Issue No. 99-20" (FSP No. EITF 99-20-1). This FSP provided additional guidance with respect to how entities determine whether an "other-than-temporary impairment" (OTTI) exists for certain beneficial interests in a securitized transaction, such as asset-backed securities and mortgage-backed securities, that (1) do not have a high quality rating or (2) can be contractually prepaid or otherwise settled such that the holder would not recover substantially all of its investment. FSP No. EITF 99-20-1 amended EITF Issue No. 99-20 to more closely align its OTTI guidance with that of SFAS No. 115, "Accounting for Certain Investment in Debt and Equity Securities." This FSP was effective for us prospectively beginning October 1, 2008. We considered this FSP's additional interpretation of EITF Issue No. 99-20 when classifying respective additional impairments as "temporary" or "other-than-temporary" beginning with the fourth quarter of 2008. This FSP had no impact on such classifications on our consolidated financial position, results of operations or cash flows.

## Note 2 - Investments

A summary of the amortized cost, unrealized gains and losses and fair values of our investments at December 31, 2008 and 2007 follows:

	December 31, 2008			
	Amortized Cost	Gross Unrealized Gains	Losses	Fair Value
<u>Available-for-Sale</u>				
U.S. Government obligations.....	\$ 217	\$ 16	\$ -	\$ 233
Corporate obligations.....	350	-	-	350
Obligations of state and political subdivisions.....	30,385	938	(546)	30,777
Auction Rate Certificates.....	375	-	-	375
Certificates of deposit.....	5,753	-	-	5,753
Total.....	<u>\$ 37,080</u>	<u>\$ 954</u>	<u>\$ (546)</u>	<u>\$ 37,488</u>
	December 31, 2007			
	Amortized Cost	Gross Unrealized Gains	Losses	Fair Value
<u>Available-for-Sale</u>				
U.S. Government obligations.....	\$ 1,513	\$ 22	\$ (8)	\$ 1,527
Corporate obligations.....	837	-	(53)	784
Obligations of state and political subdivisions.....	31,007	389	(14)	31,382
Certificates of deposit.....	4,591	-	-	4,591
Total.....	<u>\$ 37,948</u>	<u>\$ 411</u>	<u>\$ (75)</u>	<u>\$ 38,284</u>

In determining whether declines in the fair value of available-for-sale securities below their cost are other than temporary, management considers the financial condition of the issuer, causes for the decline in fair value (i.e., interest rate fluctuations or declines in creditworthiness) and severity and duration of the decline, among other things. At December 31, 2008 we had eight out of 331 securities (primarily municipal securities) with unrealized losses in four consecutive quarters with combined market losses of \$409,000. These losses were determined to be temporary since these securities were rated A2 or better and we have the ability to hold these to maturity.

The contractual maturities of our available-for-sale investments in debt securities and certificates of deposit at December 31, 2008 by maturity date follows:

	Amortized Cost	Fair Value
One year or less .....	\$ 6,167	\$ 6,169
Two years through five years .....	5,722	5,898
Six years through ten years .....	14,068	14,550
More than ten years .....	11,123	10,871
Total .....	<u>\$ 37,080</u>	<u>\$ 37,488</u>

Our investment securities are included in the accompanying consolidated balance sheets at December 31, 2008 and 2007 as follows:

	December 31,	
	2008	2007
Available-for-sale investments (current) .....	\$ 12,812	\$ 13,177
Available-for-sale investments (non-current) .....	20,637	20,766
Investments pledged .....	4,039	4,341
Total .....	<u>\$ 37,488</u>	<u>\$ 38,284</u>

We are required to pledge investments to various state insurance departments as a condition to obtaining authority to do business in certain states. The fair value of investments pledged to state regulatory agencies is as follows:

	December 31,	
	2008	2007
Certificates of deposit .....	\$ 1,917	\$ 2,292
Obligations of state and political subdivisions .....	1,889	1,203
U. S. Government obligations .....	233	846
Total .....	<u>\$ 4,039</u>	<u>\$ 4,341</u>

Proceeds from sales of investments during 2008, 2007 and 2006 were \$14.4 million, \$14.2 million and \$135.8 million, respectively, and resulted in gross realized gains of \$109,000, \$248,000 and \$43,000 and gross realized losses of \$72,000, \$13,000 and \$82,000, respectively.

### Note 3 - Property and Equipment

Property and equipment is comprised of the following:

	Estimated Useful Life	December 31,	
		2008	2007
Equipment, furniture and fixtures .....	3-10 years	\$ 44,967	\$ 41,289
Computer software .....	3 years	16,660	15,226
Buildings.....	20-40 years	39,420	39,367
Automotive and aviation equipment.....	3-10 years	14,152	14,152
Land.....	N/A	445	445
		<u>115,644</u>	<u>110,479</u>
Accumulated depreciation .....		(62,199)	(53,516)
Property and equipment, net .....		<u>\$ 53,445</u>	<u>\$ 56,963</u>

As of December 31, 2008 and 2007, capitalized interest of \$706,000 was included in the cost of the building. No interest was capitalized during 2008, 2007 or 2006.

### Note 4 – Other Assets, Current

Other Assets, current, are comprised of the following:

	December 31,	
	2008	2007
Prepaid Canadian income taxes .....	\$ 3,161	\$ 4,293
Other prepaid expenses, current portion .....	1,969	1,542
Accrued interest receivable .....	489	487
Other .....	581	471
Total .....	<u>\$ 6,200</u>	<u>\$ 6,793</u>

### Note 5 – Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses are comprised of the following:

	December 31,	
	2008	2007
Accounts payable .....	\$ 4,003	\$ 5,679
Marketing bonuses payable.....	3,399	2,392
Incentive awards payable .....	3,080	3,337
Litigation accrual .....	500	75
Other .....	5,345	4,408
Total .....	<u>\$ 16,327</u>	<u>\$ 15,891</u>

### Note 6 – Notes Payable

During 2006, we received \$80 million of senior, secured financing (the "Senior Loan") from Wells Fargo Foothill, Inc. ("Wells Fargo") consisting of a \$75 million five year term loan facility (the "Term Facility") and a \$5 million five year revolving credit facility (the "Revolving Facility"). At December 31, 2008, we had the full Revolving Facility available to us. After payment of an origination fee of 1%, lender costs and retirement of \$15.3 million of existing bank indebtedness, the net proceeds of the Term Facility we received were \$58.8 million and were used to purchase treasury stock.

The Term Facility provides for a five-year maturity and amortizes in monthly installments of \$1.25 million commencing August 1, 2006, with interest on the outstanding balances under the Term Facility and the Revolving Facility payable, at our option, at a rate equal to Wells Fargo base rate or at the 30 day LIBOR rate plus 150 basis points. The interest rate at December 31, 2008 was 2.93%, but decreased to 1.95% effective January 1, 2009. We are also obligated to make additional quarterly payments equal to 50% of our "excess cash flow" (as defined in the Senior Loan agreement) if our Leverage Ratio is greater than or equal to 1 to 1 at the end of a quarter. Our Leverage Ratio was 0.55 to 1 at December 31, 2008. We expect to be able to repay the facilities with cash flow from operations. We have the right to prepay the Term Facility in whole or in part without penalty.

The Senior Loan is guaranteed by our non-regulated wholly owned subsidiaries and is secured by all of our tangible and intangible personal property (other than aircraft), including stock in all of our direct subsidiaries, and a mortgage on a building we recently acquired in Duncan, Oklahoma and remodeled to relocate and expand our existing customer service facility in Duncan.

In addition to customary covenants for loans of a similar type, the principal covenants for the Senior Loan are:

- ◆ a limitation on incurring any indebtedness in excess of the remaining existing bank indebtedness outstanding and \$2.3 million in permitted capitalized leases or purchase money debt;
- ◆ a limitation on our ability to pay dividends or make stock purchases, other than with the net proceeds of the Term Loan, unless we meet certain cash flow tests;
- ◆ a prohibition on prepayment of other debt;
- ◆ a requirement to maintain consolidated EBITDA (Earnings before Interest, Taxes, Depreciation and Amortization) for the twelve month period ending December 31, 2006 and each quarter thereafter of at least \$80 million (\$75 million for us and our top tier direct subsidiaries);
- ◆ a requirement to maintain a quarterly fixed charge coverage ratio (EBITDA (with certain adjustments) divided by the sum of interest expense, income taxes and scheduled principal payments) of at least 1.1 to 1;
- ◆ a requirement to maintain at least 1.3 million members;
- ◆ a requirement to maintain a Leverage Ratio (funded indebtedness as of the end of each quarter divided by EBITDA for the trailing twelve months) of no more than 1.5 to 1;
- ◆ we must have availability (unused portion of the Revolving Facility) plus Qualified Cash (the amount of unrestricted cash and cash equivalents) greater than or equal to \$12,500,000; and
- ◆ an event of default occurs if Harland Stonecipher ceases to be our Chairman and Chief Executive Officer for a period of 120 days unless replaced with a person approved by Wells Fargo.

We were in compliance with these covenants at December 31, 2008.

Our \$20 million real estate loan was fully funded in 2002 to finance our new headquarters building in Ada, Oklahoma and has a final maturity of August 2011. This loan, with interest at the 30 day LIBOR rate plus 150 basis points adjusted monthly, is secured by a mortgage on our headquarters. The interest rate at December 31, 2008 was 3.41%, but decreased to 1.94% effective January 1, 2009, with monthly principal payments of \$191,000 plus interest with the balance of approximately \$2.3 million due at maturity. The real estate loan's financial covenants conform to those of the Senior Loan.

During 2007, we entered into a term loan agreement with Wells Fargo Equipment Finance, Inc. to refinance \$9.6 million indebtedness related to our aircraft. This loan, with interest at the 30 day LIBOR rate plus 89 basis points adjusted monthly, is secured by a mortgage on the aircraft and engines. The interest rate at December 31, 2008 was 2.79%, but decreased to 1.33% effective January 1, 2009, with monthly principal payments of \$80,000 plus interest.

During June 2008 we received additional financing from Bank of Oklahoma for \$10 million on an unsecured basis repayable in 12 equal monthly payments beginning June 30, 2008, together with interest at LIBOR

plus 162.5 basis points. The interest rate at December 31, 2008 was 3.54%, but decreased to 2.06% effective January 1, 2009, with monthly principal payments of \$833,000 plus interest.

A schedule of outstanding balances as of December 31, 2008 is as follows:

Senior loan .....	\$ 38,750
Real estate loan .....	8,381
Aircraft loan .....	8,361
Unsecured stock repurchase loan .....	4,167
Total notes payable .....	59,659
Less: Current portion of notes payable .....	(22,408)
Long term portion.....	<u>\$ 37,251</u>

A schedule of future maturities as of December 31, 2008 is as follows:

Repayment Schedule commencing	
January 2009:	
Year 1 .....	\$ 22,408
Year 2 .....	18,241
Year 3 .....	13,515
Year 4 .....	956
Year 5 .....	956
Thereafter .....	3,583
Total notes payable .....	<u>\$ 59,659</u>

#### Note 7 - Income Taxes

The provision for income taxes consists of the following:

	Year Ended December 31,		
	2008	2007	2006
Current .....	\$ 36,840	\$ 33,864	\$ 27,116
Deferred .....	385	(552)	774
Total provision for income taxes.....	<u>\$ 37,225</u>	<u>\$ 33,312</u>	<u>\$ 27,890</u>

A reconciliation of the statutory Federal income tax rate to the effective income tax rate is as follows:

	Year Ended December 31,		
	2008	2007	2006
Statutory Federal income tax rate .....	35.0%	35.0%	35.0%
Tax exempt interest .....	(.6)	(1.0)	(.7)
Wage tax credits .....	(.3)	(.4)	(.3)
Prior years, state income taxes, net.....	—	2.4	—
State income tax expense, net.....	4.0	3.8	—
Other .....	.1	(.4)	1.0
Effective income tax rate .....	<u>38.2%</u>	<u>39.4%</u>	<u>35.0%</u>

The prior year's state income taxes reflected above is due to a fourth quarter 2007 charge. During the 2007 fourth quarter we discovered and corrected a clerical error in the amount of net operating loss reported in a 2003 state income tax return which resulted in nonpayment of income taxes in that state for several years. This 2.4% represents the \$2.0 million charge pertaining to 2006 and prior years. See Note 16 - Selected Quarterly

Financial Data (Unaudited) for additional information related to this charge. The state income tax expense, 4.0% and 3.8% net, represents current year state income taxes, net of federal tax benefit for 2008 and 2007, respectively. No state income taxes were recorded in the provision for income taxes for 2006. \$2.7 million of state income tax expense was included in general and administrative expenses for 2006.

Deferred tax liabilities and assets at December 31, 2008 and 2007 are comprised of the following:

	December 31,	
	2008	2007
Deferred tax liabilities relating to:		
Deferred member and associate service costs .....	\$ 6,919	\$ 7,367
Property and equipment .....	8,693	7,829
Unrealized investment gains .....	159	131
Total deferred tax liabilities .....	<u>15,771</u>	<u>15,327</u>
Deferred tax assets relating to:		
Expenses not yet deducted for tax purposes .....	4,028	3,552
Deferred revenue and fees .....	11,138	11,564
Other .....	110	101
Total deferred tax assets .....	<u>15,276</u>	<u>15,217</u>
Net deferred tax liability .....	<u>\$ (495)</u>	<u>\$ (110)</u>

Our deferred tax assets and liabilities are included in the accompanying consolidated balance sheets at December 31, 2008 and 2007 as follows.

	December 31,	
	2008	2007
Deferred income taxes (current asset) .....	\$ 5,151	\$ 5,163
Deferred income taxes (non-current liability) .....	(5,646)	(5,273)
Net deferred tax liability .....	<u>\$ (495)</u>	<u>\$ (110)</u>

A significant portion of the deferred tax assets recognized relate to deferred revenue and fees. A valuation allowance was not recorded since we believe that there is sufficient positive evidence to support our conclusion not to record a valuation allowance. We believe that we will realize the tax benefit of these deferred tax assets in the future because of our history of pre-tax income. However, there can be no assurance that we will generate taxable income or that all of our deferred tax assets will be utilized.

#### **Note 8 - Stockholders' Equity**

We announced on April 6, 1999, a treasury stock purchase program authorizing management to acquire up to 500,000 shares of our common stock. The Board of Directors has increased such authorization from 500,000 shares to 14 million shares during subsequent board meetings. At December 31, 2008, we had purchased 13.7 million treasury shares under these authorizations for a total consideration of \$407.1 million, an average price of \$29.62 per share. We purchased and formally retired 1,053,614 shares of our common stock during 2008 for \$44.7 million, or an average price of \$42.44 per share, reducing our common stock by \$10.5 million and our retained earnings by \$44.7 million. At December 31, 2008 and 2007, we had 11.4 million and 12.4 million common shares outstanding, respectively, net of treasury shares. Given the current interest rate environment, the nature of other investments available and our expected cash flows, we believe that purchasing treasury shares enhances shareholder value and may seek alternative sources of financing to continue or accelerate the program. Any additional treasury stock purchases will be made at prices that we consider attractive and at such times that we believe will not unduly impact our liquidity.

Our ability to pay dividends is dependent in part on our ability to derive dividends from our subsidiaries. The payment of dividends by PPLCI is restricted under the Oklahoma Insurance Code to available surplus funds derived from realized net profits and requires the approval of the Oklahoma Insurance Commissioner for any dividend representing more than the greater of 10% of such accumulated available surplus or the previous years' net profits. PPLSIF is similarly restricted pursuant to the insurance laws of Florida. During 2008, PPLCI declared and, after obtaining all necessary regulatory approvals, paid extraordinary dividends to us of \$14.9 million compared to the \$7.4 million dividend paid to us during 2007. During 2008, LSPV paid us an ordinary dividend of \$4.1 million compared to \$1.6 million during 2007. At December 31, 2008 the amount of restricted net assets of consolidated subsidiaries was \$24.2 million, representing amounts that may not be paid to us as dividends either under the applicable regulations or without regulatory approval.

**Note 9 – Other Expenses, net**

The components of other expenses, net are as follows:

	Year Ended December 31,		
	2008	2007	2006
Depreciation and amortization .....	\$ 8,756	\$ 8,532	\$ 8,260
Premium taxes .....	1,776	1,956	1,840
Interest expense .....	4,221	6,678	5,726
Litigation expense .....	906	15	(710)
Interest income .....	(2,246)	(3,340)	(2,884)
Total Other expenses, net .....	<u>\$ 13,413</u>	<u>\$ 13,841</u>	<u>\$ 12,232</u>

**Note 10 - Comprehensive Income**

Comprehensive income is comprised of two subsets - net income and other comprehensive income. Included in other comprehensive income for us are foreign currency translation adjustments and unrealized gains on investments. These items are accumulated within the Statements of Changes in Stockholders' Equity under the caption "Accumulated Other Comprehensive Income." As of December 31, accumulated other comprehensive income, as reflected in the Consolidated Statements of Changes in Stockholders' Equity, was comprised of the following:

	2008	2007
Foreign currency translation adjustments .....	\$ (425)	\$ 1,603
Unrealized losses on investments, net of income taxes of \$159 and \$131 .....	265	218
Accumulated other comprehensive income .....	<u>\$ (160)</u>	<u>\$ 1,821</u>

**Note 11 - Related Party Transactions**

John W. Hail, one of our directors, served as our Executive Vice President, Director and Agency Director from July 1986 through May 1988 and also served as Chairman of the Board of Directors of TVC Marketing, Inc., which was our exclusive marketing agent from April 1984 through September 1985. Pursuant to agreements between Mr. Hail and us entered into during the period in which Mr. Hail was one of our executive officers, Mr. Hail receives override commissions from renewals of certain Memberships initially sold by us during such period. During 2008, 2007 and 2006, such override commissions on renewals together with new commission advances totaled \$117,000, \$68,000 and \$71,000, respectively. Mr. Hail also owns interests ranging from 12% to 100% in corporations not currently affiliated with us, including TVC Marketing, Inc., but which were engaged in the marketing of our legal service Memberships and which earn renewal commissions from Memberships previously sold. These entities earned renewal commissions of \$491,000, \$515,000 and \$519,000 during 2008, 2007 and

2006, respectively, of which \$257,000, \$274,000 and \$273,000, respectively, was passed through as commissions to their sales agents.

**Note 12 – Leases**

At December 31, 2008, we were committed under noncancelable operating and capital leases, principally for buildings and equipment. Aggregate rental expense under all operating leases was \$122,000, \$111,000 and \$143,000 in 2008, 2007 and 2006, respectively.

Future commitments commencing January 2009 related to noncancelable operating leases are as follows:

Year Ended December 31,	
2009 .....	\$ 119
2010 .....	117
2011 .....	101
2012 .....	63
2013 .....	40
Thereafter .....	224
Total operating lease commitments .....	<u>\$ 664</u>

Future minimum lease payments commencing in January 2009 related to capital leases are as follows:

Year Ended December 31,	
2009 .....	\$ 81
2010 .....	81
2011 .....	81
2012 .....	81
2013 .....	81
Thereafter .....	1,325
Total minimum lease payments .....	<u>1,730</u>
Less: Imputed interest .....	<u>(796)</u>
Present value of net minimum lease payments .....	934
Less: Current portion .....	<u>(24)</u>
Noncurrent portion of capital leases payable .....	<u>\$ 910</u>

We have entered into capital leases to acquire equipment and buildings which expire at various dates through 2033. The capital lease assets are included in property and equipment as follows at December 31, 2008 and December 31, 2007.

	December 31,	
	2008	2007
Equipment, furniture and fixtures .....	\$ 729	\$ 729
Buildings and improvements .....	314	314
	<u>1,043</u>	<u>1,043</u>
Less: accumulated amortization .....	<u>(225)</u>	<u>(185)</u>
Net capital lease assets .....	<u>\$ 818</u>	<u>\$ 858</u>

### **Note 13 - Commitments and Contingencies**

On March 27, 2006 we received a complaint filed by Blackburn & McCune PLLC, a former provider attorney law firm, in the Second Circuit Court of Davidson County, Tennessee seeking compensatory and punitive damages on the basis of allegations of breach of contract. On May 15, 2006 the trial court dismissed plaintiff's complaint in its entirety. Plaintiff filed a notice of appeal on June 13, 2006, and on August 24, 2007 the Court of Appeals reversed the ruling of the trial court and remanded the suit to the trial court for further proceedings. This matter is currently set for trial in May 2009. The ultimate outcome of this matter is not determinable.

On March 23, 2007 we received a Civil Investigative Demand from the Federal Trade Commission requesting information relating to our Identity Theft Shield and ADRS Program. We are working with the Federal Trade Commission to resolve the matter and responded to all requests. The ultimate outcome of the matter is not determinable.

We are a defendant in various other legal proceedings that are routine and incidental to our business. We will vigorously defend our interests in all proceedings in which we are named as a defendant. We also receive periodic complaints or requests for information from various state and federal agencies relating to our business or the activities of our marketing force. We promptly respond to any such matters and provide any information requested. While the ultimate outcome of these proceedings is not determinable, we do not currently anticipate that these contingencies will result in any material adverse effect to our financial condition or results of operation, unless an unexpected result occurs in one of the cases. The costs of the defense of these various matters are reflected as a part of general and administrative expense, or Membership benefits if fees relate to Membership issues, in the consolidated statements of income. We have established an accrued liability, we believe will be sufficient to cover estimated damages in connection with various cases (exclusive of ongoing defense costs which are expensed as incurred), which at December 31, 2008 was \$500,000. We believe that we have meritorious defenses in all pending cases and will vigorously defend against the claims. However, it is possible that an adverse outcome in certain cases or increased litigation costs could have an adverse effect upon our financial condition, operating results or cash flows in particular quarterly or annual periods.

Canadian taxing authorities are challenging portions of our commission and general and administrative deductions for tax years 1999 - 2002 and have tax assessments which aggregate \$5.7 million. The Canadian taxing authorities contend commission deductions should be matched with the membership revenue as received, we contend these commissions are deductible when paid. Under Canadian tax laws, our commission payments are treated as a prepaid expense. We base our deduction of commission on the fact that all the services (the sale of the membership) have been performed by the sales associate at the time of sale therefore this prepaid expense (the commission payments) is deductible when paid. Also, the commission payment is taxable to the sales associate when paid and each year we issue a T4 (Canadian 1099 equivalent) to sales associates for the total commission payments made during that year. In addition, Canadian taxing authorities challenged our allocation of general and administrative expenses to Canadian operations. We contended the allocation of general and administrative expenses, based on the percentage of Canadian new memberships written and the Canadian percentage memberships in force, was reasonable. During July 2007 we received and later accepted a settlement offer from the Canadian taxing authorities regarding the general and administrative deductions which would allow us to claim a deduction on the Canadian tax return for over 70% of these items. This settlement offer allowed us to amend our U.S. federal tax returns and deduct the remaining 30% of these items. The Canadian taxing authorities amended Canadian tax returns to reflect the changes in our general and administrative expense and issued credits for the associated taxes, penalty and interest. We did not prevail on the commission issue on our appeal to the Canadian taxing authorities and on December 19, 2008 filed our Notice of Appeal with the Tax Court of Canada. We have paid the tax, penalty and interest relating to the commission issue and at December 31, 2008 have \$3.3 million recorded in Other Assets, Current. We have established an accrued liability we believe will be sufficient to cover the estimated tax assessment in connection with these items, which at December 31, 2008 was \$511,000. As stated above, we believe that we have reasonable basis for our tax position relative to these items, however, it is possible that an adverse outcome could have an adverse effect upon our financial condition, operating results or cash flows in particular quarterly or annual periods.

## Note 14 - Stock Options, Stock Ownership Plan and Benefit Plan

We have a stock option plan (the "Plan") under which the Board of Directors (the "Board") or our Stock Option Committee (the "Committee") may grant options to purchase shares of our common stock. The Plan permits the granting of options to our directors, officers and employees to purchase our common stock at not less than the fair value at the time the options are granted. The Plan provides for option grants to acquire up to 3,000,000 shares and permits the granting of incentive stock options as defined under Section 422 of the Internal Revenue Code at an exercise price for each option equal to the market price of our common stock on the date of the grant and a maximum term of 10 years. Options not qualifying as incentive stock options under the Plan have a maximum term of 15 years. The Board or Committee determines vesting of options granted under the Plan. No options may be granted under the Plan after December 12, 2012. We have not granted options under the Plan since March 2004.

The Plan previously provided for automatic grants of options to our non-employee directors. Under the Plan, each incumbent non-employee director and any new non-employee director received options to purchase 10,000 shares of common stock on March 1 of each year. The options granted each year were immediately exercisable as to 2,500 shares and vested in additional increments of 2,500 shares on the following June 1st, September 1st, and December 1st in the year of grant, subject to continued service by the non-employee director during such periods. Options granted to non-employee directors under the Plan have an exercise price equal to the closing price of the common stock on the date of grant. These automatic grants of options to non-employee directors were eliminated effective January 1, 2005, and therefore no further grants to non-employee directors have been made.

Also included below are stock options that were issued to our Regional Vice Presidents ("RVPs") in order to encourage stock ownership by our RVPs and to increase the proprietary interest of such persons in our growth and financial success. These options have been granted periodically to RVPs since 1996. Options were granted at fair market value at the date of the grant and were generally immediately exercisable for a period of three years or within 90 days of termination, whichever occurs first. There were no options granted to RVPs during 2008, 2007 or 2006.

A summary of the status of our total stock option activity as of December 31, 2008, 2007 and 2006, and for the years ended on those dates is presented below:

	2008		2007		2006	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding at beginning of year .....	58,500	\$ 20.08	273,040	\$ 23.26	507,167	\$ 20.94
Granted.....	-	-	-	-	-	-
Exercised.....	(16,000)	21.09	(208,943)	24.17	(226,719)	18.07
Terminated .....	-	-	(5,597)	22.87	(7,408)	23.29
Outstanding at end of year.....	<u>42,500</u>	<u>\$ 19.70</u>	<u>58,500</u>	<u>\$ 20.08</u>	<u>273,040</u>	<u>\$ 23.26</u>
Options exercisable at year end .....	<u>42,500</u>	<u>\$ 19.70</u>	<u>58,500</u>	<u>\$ 20.08</u>	<u>273,040</u>	<u>\$ 23.26</u>
Aggregate intrinsic value of outstanding options.....	<u>\$ 748</u>		<u>\$ 2,063</u>		<u>\$ 4,332</u>	
Intrinsic value of options exercised .....	<u>\$ 398</u>		<u>\$ 6,821</u>		<u>\$ 3,357</u>	
Fair value of options vested during period .....	<u>\$ -</u>		<u>\$ -</u>		<u>\$ -</u>	
Weighted average grant date fair value per share .....	<u>N/A</u>		<u>N/A</u>		<u>N/A</u>	

The following table summarizes information about stock options outstanding and exercisable at December 31, 2008:

Range of Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price
\$19.20	38,000	2.16	\$ 19.20
\$23.93	4,500	.16	23.93
	42,500	1.95	\$ 19.70

During 1988, we adopted an employee stock ownership plan. Under the plan, employees may elect to defer a portion of their compensation by making contributions to the plan. Prior to December 31, 2006, up to seventy-five percent of the contributions made by employees were used to purchase Company common stock with the remaining twenty-five percent allocated to other investment options within the plan. For plan years beginning after December 31, 2006, the plan allows participants to move any portion of their account that is invested in our stock from that investment into other investment alternatives under the plan. At our option, we may make matching contributions to the plan in cash, and recorded expense of \$544,000, \$486,000 and \$459,000 for 2008, 2007 and 2006 respectively.

In November 2002, we adopted a deferred compensation plan, which permits executive officers and key employees to defer receipt of a portion of their compensation. Deferred amounts accrue hypothetical returns based upon investment options selected by the participant. We have amended the deferred compensation plan, effective January 1, 2009, to comply with new provisions of Section 409A of the Internal Revenue Code. Deferred amounts are paid in cash based on the value of the investment option and are generally payable following termination of employment in a lump sum or in installments as elected by the participant, but the plan provides for financial hardship distributions, distributions in the event of total disability or death and distributions upon a change in control. The plan also provides for a death benefit of \$500,000 for each participant. Although the plan is unfunded and represents an unsecured liability of ours to the participants, we have purchased variable life insurance policies owned by us to insure the lives of the group of participants and to finance our obligations under the plan. As of December 31, 2008 and 2007, we had an aggregate deferred compensation liability of \$7.9 million and \$6.5 million, respectively, which is included in other non-current liabilities. At December 31, 2008 and 2007, the cash value of the underlying insurance policies owned by us was \$6.5 million and \$5.7 million, respectively, and was included in other assets.

#### Note 15 - Earnings Per Share

Basic earnings per common share are computed by dividing net income by the weighted average number of shares of common stock outstanding during the year.

Diluted earnings per common share are computed by dividing net income by the weighted average number of shares of common stock and dilutive potential common shares outstanding during the year. The weighted average number of common shares is also increased by the number of dilutive potential common shares issuable on the exercise of options less the number of common shares assumed to have been purchased with the proceeds from the exercise of the options pursuant to the treasury stock method; those purchases are assumed to have been made at the average price of the common stock during the respective period.

Basic Earnings Per Share:	Year Ended December 31,		
	2008	2007	2006
<u>Earnings:</u>			
Income .....	\$ 60,172	\$ 51,202	\$ 51,798
<u>Shares:</u>			
Weighted average shares outstanding .....	11,916	13,151	14,642

**Diluted Earnings Per Share:**Earnings:

Income after assumed conversions .....	<u>\$ 60,172</u>	<u>\$ 51,202</u>	<u>\$ 51,798</u>
--	------------------	------------------	------------------

Shares:

Weighted average shares outstanding .....	11,916	13,151	14,642
Assumed exercise of options .....	<u>18</u>	<u>46</u>	<u>97</u>
Weighted average number of shares, as adjusted .....	<u>11,934</u>	<u>13,197</u>	<u>14,739</u>

Options to purchase shares of common stock are excluded from the calculation of diluted earnings per share when their inclusion would have an anti-dilutive effect on the calculation. Options to purchase 218,000 shares with an average exercise price of \$32.05 were excluded from the calculation of diluted earnings per share for the year ended December 31, 2006. No options were excluded from the diluted earnings per share calculation for the years ended December 31, 2008 and 2007.

**Note 16 - Selected Quarterly Financial Data (Unaudited)**

Following is a summary of the unaudited interim results of operations for the years ended December 31, 2008 and 2007.

Selected Quarterly Financial Data  
(In thousands, except per share amounts)

<b>2008</b>	1 <sup>st</sup> Quarter	2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	4 <sup>th</sup> Quarter
Revenues.....	\$ 116,203	\$ 116,855	\$ 116,523	\$ 114,908
Net income.....	15,942	15,056	14,442	14,732
Basic income per common share (1):				
Net Income.....	\$ 1.29	\$ 1.25	\$ 1.23	\$ 1.28
Diluted income per common share (1):				
Net Income.....	\$ 1.29	\$ 1.25	\$ 1.23	\$ 1.27
<b>2007</b>				
Revenues.....	\$ 112,084	\$ 114,060	\$ 114,877	\$ 116,068
Net income.....	14,728	13,179	11,573	11,722
Basic income per common share (1):				
Net Income.....	\$ 1.09	\$ .99	\$ .89	\$ .92
Diluted income per common share (1):				
Net Income.....	\$ 1.08	\$ .99	\$ .88	\$ .92

(1) The sum of EPS for the four quarters may differ from the annual EPS due to rounding and the required method of computing weighted average number of shares in the respective periods.

In the 2007 fourth quarter, we discovered and corrected a clerical error in the amount of net operating loss reported in a 2003 state income tax return which resulted in nonpayment of income taxes in that state for several years. The \$2.9 million charge was comprised of \$2.0 million pertaining to 2006 and prior years and \$900,000 pertaining to the first 3 quarters of 2007, approximately \$300,000 for each quarter. This charge was not individually material to the 2007 prior quarters or 2006 or prior years.

## Note 17 - Segment Information

We operate a consistent business model, marketing Memberships to our customers in the United States and four Canadian provinces. We maintain regional geographic management to facilitate local execution of our marketing strategies. However, the most significant performance evaluations and resource allocations made by our chief operating decision makers are made on a global basis. As such, we have concluded that we maintain one operating and reportable segment. Substantially all of our business is currently conducted in the United States. Revenues from our Canadian operations for 2008, 2007 and 2006 were \$8.7 million, \$7.9 million and \$7.1 million, respectively. We have no significant long-lived assets located in Canada.

## Note 18 – Fair Value Measurement

On January 1, 2008, we adopted SFAS No. 157, "Fair Value Measurements," for our financial assets and liabilities. SFAS 157 established the following fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1: Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, listed equities and U.S. government treasury securities.

Level 2: Pricing inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Instruments in this category include non-exchange-traded derivatives such as over the counter forwards, options and repurchase agreements.

Level 3: Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value. At each balance sheet date, we perform an analysis of all instruments subject to SFAS No. 157 and include in Level 3 all of those whose fair value is based on significant unobservable inputs.

The following table presents our financial assets and liabilities that were accounted for at fair value on a recurring basis as of December 31, 2008 by level within the fair value hierarchy (in thousands):

	Fair Value Measurements Using		
	Level 1	Level 2	Level 3
Available for sale investments.....	\$ -	\$ 37,488	\$ -
Liabilities.....	\$ -	\$ -	\$ -

For securities without a readily ascertainable market value (Level 2), we utilize pricing services and broker quotes. Such estimated fair values do not necessarily represent the values for which these securities could have been sold at the dates of the balance sheets.

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.**

Not applicable.

**ITEM 9A. CONTROLS AND PROCEDURES.**

**Controls and Procedures**

Our principal executive officer (Chairman, Chief Executive Officer and President) and principal financial officer (Chief Financial Officer) have evaluated our disclosure controls and procedures as of December 31, 2008, and have concluded that these controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 (15 U.S.C. § 78a et seq) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. These disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit is accumulated and communicated to management, including the principal executive officer and the principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

**Changes in Internal Control Over Financial Reporting**

During the fourth quarter of 2008, no change occurred in our internal control over financial reporting that materially affected, or is likely to materially affect, our internal control over financial reporting.

**Management's Annual Report on Internal Control over Financial Reporting**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our internal control over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our internal control over financial reporting was effective as of December 31, 2008 as reflected in our report included in Item 8 above.

Grant Thornton LLP, our independent registered public accounting firm, audited the effectiveness of internal control over financial reporting and, based on that audit, issued the report set forth in Item 8 above.

## **Certifications**

Our Chief Executive and Chief Financial Officers have completed the certifications required to be filed as an Exhibit to this Report (See Exhibits 31.1 and 31.2) relating to the design of our disclosure controls and procedures and the design of our internal control over financial reporting.

## **ITEM 9B. OTHER INFORMATION.**

None.

## **PART III**

In accordance with the provisions of General Instruction G (3), information required by Items 10 through 14 of Form 10-K are incorporated herein by reference to our Proxy Statement for the Annual Meeting of Shareholders to be filed prior to April 30, 2009.

## **PART IV**

## **ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.**

(a) The following documents are filed as part of this report:

- (1) Financial Statements: See Index to Consolidated Financial Statements and Consolidated Financial Statement Schedule set forth on page 40 of this report.
- (2) Exhibits: For a list of the documents filed as exhibits to this report, see the Exhibit Index following the signatures to this report.

**SIGNATURES**

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**PRE-PAID LEGAL SERVICES, INC.**

Date: February 27, 2009

**PRE-PAID LEGAL SERVICES, INC. (Parent Company)**  
**CONDENSED FINANCIAL INFORMATION OF THE REGISTRANT**  
**Notes to Condensed Financial Statements**

*Basis of Presentation*

In the parent-company-only financial statements, Pre-Paid Legal Services, Inc.'s ("Parent Company") investment in subsidiaries is stated at cost plus equity in undistributed earnings of subsidiaries since the date of acquisition. The parent-company-only financial statements should be read in conjunction with the Parent Company's consolidated financial statements.

Notes 6 and 13 to the consolidated financial statements of Pre-Paid Legal Services, Inc. relate to the Parent Company and therefore have not been repeated in these notes to condensed financial statements.

*Expense Advances and Reimbursements*

Pursuant to management agreements with certain subsidiaries, which have been approved by insurance regulators, commission advances are paid and expensed by the Parent Company and the Parent Company is compensated for a portion of its general and administrative expenses determined in accordance with the agreements.

*Dividends from Subsidiaries*

Dividends paid to the Parent Company from its subsidiaries are accounted for by the equity method. During 2008, PPLCI declared and, after obtaining all necessary regulatory approvals, paid extraordinary dividends to us of \$14.9 million compared to the \$7.4 million and \$13.4 million dividends paid to us during 2007 and 2006, respectively. During 2008, LSPV paid us an ordinary dividend of \$4.1 million compared to \$1.6 million during 2007 and none during 2006.

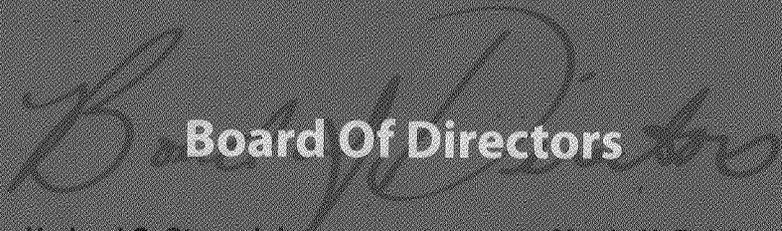

## INDEX TO EXHIBITS

<u>Exhibit No.</u>	<u>Description</u>
3.1	Amended and Restated Certificate of Incorporation of the Company, as amended (Incorporated by reference to Exhibit 3.1 of the Company's Report on Form 8-K dated June 27, 2005)
