Report of Independent Registered Public Accounting Firm

Plan Administrator and Participants
Roper Employee Voluntary Stock Ownership Plan:

We have audited the accompanying Statements of Net Assets Available for Plan Benefits of the Roper Employee Voluntary Stock Ownership Plan (the "Plan") as of December 31, 2008 and 2007, and the related Statements of Changes in Net Assets Available for Plan Benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Roper Employee Voluntary Stock Ownership Plan as of December 31, 2008 and 2007, and the changes in net assets available for plan benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule H, line 4i – schedule of assets (held at end year) as of December 31, 2008 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ROPER EMPLOYEE VOLUNTARY STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2008 and 2007

(1) Description of Plan

The Roper Employee Voluntary Stock Ownership Plan (the "Plan") is a defined contribution plan sponsored by the Roper Corporation (the "Company"), whose ultimate parent is the General Electric Company ("GE"), for all employees who have worked for 60 consecutive days following their employment commencement date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

MG Trust Company, L.L.C. ("MG Trust") is the Plan's custodian and Ascensus, Inc. is the record-keeper.

The following description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the Roper Employee Voluntary Stock Ownership Plan document (the "Plan Document"). Additional Plan information including benefits, investment options, vesting provisions and effects of plan termination is included in Plan handbooks and other material distributed to participants.

Participant Contributions and Investment Options

Participants are permitted to allocate their account balances in increments of 1% to one or more of the following investment options:

- (a) GE Common Stock Fund – This fund primarily invests in shares of GE Common Stock, with a small portion of the fund held in cash or other short term investments to provide liquidity.
- (b) GE Money Market Fund – This fund seeks to achieve a high level of current income consistent with the preservation of capital and maintenance of liquidity through investment in short-term, U.S. dollar- denominated money market instruments.
- (c) GE Institutional Strategic Investment Fund - This fund seeks to maximize total return by following an asset allocation strategy contemplating shifts among a range of investments including U.S. and foreign stocks, bonds, money market instruments, and other debt securities.
- (d) American Funds Growth Fund of America – This fund seeks growth of capital by investing in companies with a history of rapidly growing earnings and generally higher price-to-earnings ratios.
- (e) Royce Premier Fund – This fund seeks long-term growth of capital by investing in a limited number of equity securities issued by small companies with stock market capitalization between \$500 million and \$2.5 billion.
- (f) Artio International Equity Fund – This investment seeks long-term growth of capital. It invests up to 35% of total assets in emerging-market securities and 80% of assets in international equities. On July 15, 2008, the Artio International Equity Fund replaced the Julius Baer International Equity Fund, Class A.
- (g) First Eagle Global Fund – This fund seeks long-term growth of capital by investing in a wide range of asset classes from markets in the United States and around the world.
- (h) PIMCO Total Return Fund – This fund seeks maximum total return, consistent with preservation of capital and prudent investment management by investing primarily in a diversified portfolio of fixed income instruments of varying maturities.

ROPER EMPLOYEE VOLUNTARY STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2008 and 2007

Audited financial statements and prospectuses or other disclosure documents of the registered investment companies ("mutual funds") are distributed annually to participants.

A participant's pre-tax contributions, when combined with all other contributions made to the Plan by or on behalf of the participant for the year may not exceed the lesser of 100% of compensation or \$40,000 as may be adjusted periodically. Participants may also contribute amounts as "rollover" provisions representing distributions from other qualified defined benefit or defined contribution plans of a former employer. A participant may elect to contribute to the Plan as an after-tax contribution any whole percentage of not less than 1% of his compensation during any pay period.

All eligible employees who are projected to attain age 50 before the end of the year will be eligible to make catch-up contributions in accordance with certain regulations.

The Internal Revenue Code limits participant pre-tax contributions. The limits for participants under age 50 were generally \$15,500 in both 2008 and 2007. For other participants, the 2008 and 2007 limits were generally \$20,500.

Employer Contributions

The Company matches employee pre-tax contributions at a rate of 150% of the first 2% and 100% of the next 5%. Company contributions are made on a biweekly basis.

The Board of Directors may elect each year, at its discretion, to allocate a profit sharing contribution. The contribution would be allocated to participants based on years of service in order to determine the base amount. There were no discretionary contributions from the Company in 2008 and 2007.

Vesting

Participants are immediately fully vested in their contributions as well as the Company's contributions to the Plan and earnings thereon.

Forfeitures

As of December 31, 2008 and 2007, forfeited non-vested amounts (including unrealized appreciation) totaled \$23,849 and \$22,900, respectively. During 2008 and 2007, no forfeitures were utilized to pay Plan expenses or to reduce Company contributions. Gains on earnings of forfeiture balances were \$303 and \$1,105 during 2008 and 2007. Additions to forfeiture balances were \$646 and \$940 during 2008 and 2007.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of (a) employer matching contributions and (b) earnings. The benefit to which a participant is entitled is the value of the participant's vested account.

Loans to Participants

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 minus their highest outstanding balance of loans from the Company and GE and its subsidiaries (Affiliated Plans) during the past 12 months or 50% of their vested account balance. There is a \$50 charge for each loan.

The period of repayment of any loan is up to 4 years from the effective date of the loan unless the loan is used to acquire a principal residence for which a term of up to 9 years may be permissible. Loans are secured by

ROPER EMPLOYEE VOLUNTARY STOCK OWNERSHIP PLAN

Notes to Financial Statements

the remaining balance in the participant's account. Repayment, with interest, is made through payroll deductions.

In the event of a loan default, the entire unpaid balance of the loan will become immediately due and payable without further notice on demand.

Loans to participants at December 31, 2008 and 2007 were \$3,203,299 and \$3,804,672, respectively. Interest from loans to participants for the years ended December 31, 2008 and 2007 were \$239,043 and \$246,074, respectively

Payment of Benefits

Subject to certain limitations, a participant (or designated beneficiary) may withdraw all or a portion of his or her after-tax contributions, including earnings thereon. Generally, before-tax contributions and rollovers may not be withdrawn while employed by the Company prior to age 59 ½. Company contributions may be withdrawn while a participant is employed by the Company prior to age 70 ½. In the case of a hardship, a participant may elect to withdraw, as applicable, all or a portion of qualifying contributions including earnings credited thereon. In order to make a hardship withdrawal, a participant must first withdraw the maximum after-tax contributions and nontaxable loans. A participant who makes a hardship withdrawal will be suspended from the Plan for 6 months after the hardship distribution.

On termination of service due to death, disability, or retirement, a participant (or designated beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, or if he or she qualifies, as a direct rollover.

Administrative and Investment Advisor Costs

Expenses related to the administration of the Plan, including record-keeping expenses and Trustee's fees, are liabilities of the Plan and at the Company's election, may be paid by the Plan. For the registered investment companies, investment advisers are reimbursed for cost incurred or receive a management fee for providing investment advisory services. These reimbursed costs and management fees are reflected in the net appreciation (depreciation) in the fair value of investments on the Statement of Changes in Net Assets Available for Plan Benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared using the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management of the Plan to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Investments

Plan investments are reported at fair value. See notes 3 and 4 for additional information.

ROPER EMPLOYEE VOLUNTARY STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2008 and 2007

Investment transactions are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

(d) Loans to Participants

Loans to participants equal the outstanding principal balance plus accrued interest, which approximates fair value.

(e) Payment of Benefits

Benefit payments are recorded when paid to participants.

(f) Expenses

Substantially all expenses related to administration of the Plan are paid by the Company with the exception of the Plan's loan expenses, which are paid by the Plan's trustee out of the respective participant's investment fund's assets.

(g) Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

(4) Fair Value Measurements

Effective January 1, 2008, the Plan adopted Financial Accounting Standards Board Statement of Financial Accounting Standards 157, *Fair Value Measurements* (“SFAS 157”), for all financial instruments accounted for at fair value on a recurring basis. SFAS 157 establishes a new framework for measuring fair value and expands related disclosures. Broadly, the SFAS 157 framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. SFAS 157 establishes a three-level valuation hierarchy based upon observable and unobservable inputs.

For financial assets and liabilities, fair value is the price we would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

We maintain policies and procedures to value investments using the best and most relevant data available. The following section describes the valuation methodologies we use to measure investments at fair value.

When available, we use quoted market prices to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include the GE Common Stock component of the GE Common Stock Fund and mutual funds.

ROPER EMPLOYEE VOLUNTARY STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2008 and 2007

The following table presents our investments measured at fair value on a recurring basis at December 31, 2008:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
	(in thousands)			
GE Common Stock Fund				
Cash and cash equivalents	\$ 557	\$ —	\$ —	\$ 557
GE Common Stock	35,906	—	—	35,906
Mutual funds	15,678	—	—	15,678
Total Investments, at fair value	<u>\$ 52,141</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 52,141</u>

Transfers in and out of Level 3 are considered to occur at the beginning of the period. There were no transfers during the period.

(4) Risk and Uncertainties

The Plan offers a number of investment options including GE Common Stock Fund and a variety of investments in mutual funds. The mutual funds invest in U.S. equities, international equities, and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur (including in the near term) and that such changes could materially affect participant account balances and amounts reported in the Statements of Net Assets Available for Plan Benefits.

The Plan's exposure to a concentration of credit risk is limited by the opportunity to diversify investments across eight participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of GE Common Stock Fund, which primarily invests in a single security.

(5) Related Party Transactions (Parties in Interest)

The record-keeping functions for the underlying investments held by the Plan are performed by Ascensus, Inc. Certain investments of the Plan are shares of mutual funds that are advised by GE Asset Management Incorporated ("GEAM") and distributed by GE Investment Distributors, Inc., affiliates of the Company. GEAM provides investment advisory services for certain investments in the Plan. Another investment in the Plan is an investment fund comprised of shares of common stock issued by GE, the ultimate parent of the Company.

Certain fees paid to related parties for services to the Plan were paid by the Plan or an Affiliated Plan. Mutual fund and collective trust fund operating expenses, which include expenses paid to GEAM and Ascensus, Inc., come out of the fund's assets and are reflected in the fund's share/unit price and dividends.

ROPER EMPLOYEE VOLUNTARY STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2008 and 2007

(6) Income Tax Status

The Internal Revenue Service has notified the Company by a letter dated August 6, 2002, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Plan has been amended since that letter was issued. However, Plan management and legal counsel for the Plan have no reason to believe that those amendments have adversely affected the validity of the determination letter.

The portion of a participant's compensation contributed to the Plan as a pre-tax contribution and the Company's matching contribution are not subject to Federal income tax when such contributions are credited to participant accounts, subject to certain limitations. These amounts and any investment earnings may be included in the participant's gross taxable income for the year in which such amounts are withdrawn from the Plan.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, to the extent permitted by law, to discontinue contributions and to terminate the Plan in accordance with the provisions of ERISA. If the Plan is terminated or has a partial termination, net assets will be distributed to participants and beneficiaries in proportion to their respective account balances.

(8) Reconciliation of Financial Statements to Form 5500

Loans to participants are classified as investments per the Form 5500. The following is a reconciliation of total investments per the financial statements at December 31, 2008 and 2007 to the annual report filed on Form 5500, Schedule H as required by the Department of Labor:
