RISK FACTORS

THE SHARES OFFERED HEREBY ARE HIGHLY SPECULATIVE. EACH PROSPECTIVE INVESTOR SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS AS WELL AS THE OTHER INFORMATION SET FORTH ELSEWHERE IN THIS OFFERING CIRCULAR PRIOR TO PURCHASING THE SHARES OFFERED HEREBY.

(1) **Startup Business; No Operating History.** The Company was organized in 1999 and has never commenced operations. As a result, the Company has no operating history and therefore investors have no operating data or results on which to base an evaluation of the Company's business and prospects. The Company's prospects must be considered in light of the risks, problems, uncertainties, delays and expenses encountered by any business in its development stage, some of which are beyond the Company's control. The Company's failure to successfully address these risks and uncertainties could have a material adverse effect on the Company's financial conditions and results of operations.

(2) **Reliance on Strategic Alliance.** Upon completion of this offering, the Company will enter into a strategic alliance with its affiliate in Germany, inForm, GmbH. Failure to establish and capitalize on such strategic alliance would have an adverse effect on the Company's business. The Company's future success depends almost exclusively upon the success of such alliance. It is possible that an agreement with one strategic partner may prohibit the Company from entering into similar arrangements with competitors of such strategic partner. Such exclusivity provisions may limit the Company's ability to enter into favorable arrangements with complementary businesses and thereby limit the Company's growth. There can be no assurances that the Company will achieve the strategic objectives of these alliances, nor that inForm, GmbH will perform its obligations as agreed upon or that such agreements will be specifically enforceable by the Company.

(3) **Purchasers Will Suffer Dilution in Net Tangible Book Value.** This Offering reflects only those preferred shares which have been authorized by the Company to be offered at this time. This Offering does not reflect shares which may be issued in the future. If all shares of preferred stock authorized in the Articles of Incorporation (26,250,000) were issued, the value of the preferred shares in this offering would be adversely affected. (See "Principal Stockholders"). Moreover, because the currently outstanding shares were issued primarily as promotional shares for no or nominal monetary consideration, subscribers of this Offering will suffer an immediate and *severe* dilution of the value of their shares based upon the current *negative* book value of the Company of zero (\$0.00). The dilution amount is calculated by adding the net offering proceeds to the current book value of the Company and dividing that total by the *sum* of the outstanding preferred shares and the preferred shares to be sold in this Offering. For instance, if 100% of the Offering is sold, the net Offering proceeds of \$4,968,000 (see "Use of Proceeds") are added to the net book value of zero, resulting in a *projected* net book value of \$4,968,000. The projected net book value is then divided by the number of the outstanding preferred shares (5,840,000 *plus* the 500,000 newly issued preferred shares for a sum of 6,340,000 shares), resulting in a diluted per share value of \$0.78 per share or a dollar *dilution* of \$9.22 per share. The following table illustrates both the percentage amount of the dilution and the per share dilution amounts assuming, alternatively, that 25%, 50%, 75% or 100% of the offering is sold:

<u>Offering Percentage Sold</u>	<u>Overall % Dilution</u>	<u>Per/Share Dilution</u>
25% (125,000 shares)	97.9%	\$9.79
50% (250,000 shares)	95.9%	\$9.59
75% (375,000 shares)	94.1%	\$9.41
100% (500,000 shares)	9.22%	\$9.22

(4) **Dependence on Key Personnel.** The success of the Company will be largely, if not entirely, dependent upon the management and operational skills and efforts of its principal officers and directors, Dr. Detlef Hilbig, Stefan Baier, Friedemann Braune and Henrik Bauer. These officers have formulated the overall business objectives and corporate strategy for the Company. The loss of the services of any of these persons for any reason could have an adverse effect on the Company's business prospects. The valuation of their experience is, however, purely subjective. The Company does not maintain key person life insurance on any of its officers or directors. The loss of the services of any of its officers, directors, or key consultants or advisors, may adversely affect the Company's business.

(5) **Volatility of Targeted Market Sectors.** The Company intends to provide engineering, design, consulting and related technical services to major manufacturers of automobiles, aircraft and alternative energy systems within the United States. These market segments have a demonstrated recent history of volatility due to uncertain and volatile costs of energy, distressed financial markets and other factors. The Company may encounter such volatility even with well-established counterparties, which could be manifested by the curtailment and/or non-renewal of significant contracts, reduced cash flow, insolvency of vendees, or other financial difficulties. The potential adverse factors in each market sector are described as follows:

a) **Automobile Industry.** Although the automobile industry has suffered from the economic downturn of the past two years, the American auto manufacturers have been most severely affected, as evidenced by the U.S. government "bailout" subsidies for General Motors and Chrysler. While Japanese and European automakers have also experienced a downturn in worldwide sales during the same time period, their broader market base and manufacturing technologies appear thus far to have ameliorated the potentially dire impact of the global recession. Because the Company anticipates building upon the longstanding relationships of its sister company, inForm GmbH, with established European automakers such as BMW, Audi, Volkswagen and others in furthering its business prospects in the United States, it hopes to avoid much of the economic turbulence that has affected the U.S. automakers and their vendors. There can be no assurance, however, that the Company will succeed in its business objectives within the U.S, nor that the European automakers will continue to avoid the consequences of the global economic crisis. Consequently, the desire and/or ability of European auto and auto component manufacturers to further expand into the U.S. market.

b) **Aircraft Industry.** Although perhaps not as dramatically as the auto industry, aircraft manufacturers have likewise suffered during the current economic downturn. Reduced passenger loads among airlines, including reduced business and leisure travel demand, and increased fuel and labor costs have in turn forced airlines to cut back on orders for new aircraft. The ultimate severity and duration of this downturn cannot be accurately assessed or predicted and the Company's prospects could be adversely affected or completely frustrated as a result of such factors.

c) **Alternative Energy.** In recent years alternative energy technology has attracted increasingly serious interest from the private, non-profit and governmental sectors of the global economy as a means of reducing pollution and counteracting the uncertain, volatile and environmentally suspect supplies of traditional resources. Although the combination of such factors would seem to be favorable to the Company's goals and objectives in the alternative energy industry, many of the new technologies have thus far proven to be prohibitively expensive or otherwise impractical. Further, the current rapid pace of innovation evidences that there can be no assurance that promising technologies will not be eclipsed by even newer concepts or inventions. Thus, the Company may fail to successfully exploit technologies that initially seem assured of success.

(6) **No Market for Shares.** There is no public market for the Shares to be issued and there can be no assurance that such a market will develop in the future, if at all. The Company has not agreed to purchase or otherwise acquire any of the Shares or assume the responsibility for locating prospective purchasers for Shares held by Investors. Investors may not, therefore, be able to liquidate their investments when they wish to do so or on acceptable terms.

(7) **Payment of Dividends.** The Company has not paid any cash dividends on its Preferred Stock and the Company intends to follow a policy of retaining earnings, if any, to finance the development and expansion of its business. **There can be no assurance that dividends will ever be declared on the Shares. Investors who anticipate the need for dividends from their investment in the Company should not purchase the Shares offered hereby.**

(8) **"Safe Harbor" Statement Under the Private Securities Litigation Reform Act of 1995.** Forward-looking statements in this Memorandum, including, without limitation, statements relating to the adequacy of the Company's resources and expansion plans are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are advised that such forward-looking statements involve risks and uncertainties, including without limitation, competition, risks associated with expansion, the Company's reliance on key personnel, risks associated with geographic concentration, government regulation, and other risks and uncertainties, many of which are beyond the control of the Company.

(9) **Non-voting Shares.** Prospective shareholders will be purchasing non-voting shares and thus will have no ability to influence the discretion of the Board of Directors or officers of the Company through shareholder vote.

(10) **Nominal or Insufficient Offering Amount.** The Company believes that \$1,250,000.00 is the minimum dollar amount of the Shares required to be sold in order to carry out its business. (See section 4(a) and "Use of Proceeds." Since offering proceeds will *not* be deposited into an escrow account, if the proceeds of this offering are less than such amount, the Company may fail to meet its business objectives in part or at all. In such an event, the investors in this offering would likely sustain the loss of all or substantially all of their investment.

(11) **Bankruptcy of Affiliate.** In August, 2005, the Company's affiliate, inform GmbH, filed for insolvency relief (generally analogous to a bankruptcy reorganization) in a German court. The German company emerged from the insolvency proceeding in July, 2006. The German company has been profitable since the internal restructuring implemented during the insolvency proceeding. However, the fact that the German affiliate was forced to seek insolvency relief may have created a negative impression in the view of

prospective customers and vendors, and such negative impression could adversely affect the business and prospects of the Company.

FOR ALL OF THE FOREGOING REASONS AND OTHERS SET FORTH IN THIS OFFERING CIRCULAR, THE SHARES OFFERED HEREBY INVOLVE A HIGH DEGREE OF RISK. ANY PERSON CONSIDERING AN INVESTMENT IN THE SHARES OFFERED HEREBY SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH HEREIN. THESE SHARES SHOULD BE PURCHASED ONLY BY PERSONS WHO CAN AFFORD A TOTAL LOSS OF THEIR INVESTMENT IN THE COMPANY.

BUSINESS AND PROPERTIES

3. With respect to the business of the Company and its properties:

(a) Describe in detail *what* business the Company does and proposes to do, including what product or goods are or will be produced or services that are or will be rendered.

Over the past several years, a number of European automobile manufacturers have established, or announced plans to establish, manufacturing operations in the United States, primarily in the southeast. For instance, BMW has a manufacturing facility in South Carolina. Daimler AG has a plant in Alabama. Volkswagen AG manufactures in Mexico and has plans to build a factory in the U.S. In addition, Toyota, Nissan and other Asian automakers also manufacture in the southeast U.S. The Company proposes to establish within the United States and elsewhere in North America a broad-based technical and manufacturing design firm based on the tested business model established in Europe by its sister company inForm, GmbH (www.inform-chemnitz.de), which will service not only automobile manufacturers, but the aircraft and energy industries as well. Over the long term, the Company will utilize its experienced executive personnel and their industry resources to implement multiple operating divisions in various locations, primarily in the southeastern United States, to service the following lines of business:

Automotive manufacturing design, planning of entire factories, manufacturing of doors and hatchbacks, design for exterior and interior assemblies and single parts for all types of vehicles; manufacturing of carbon parts; routings, FE (finite element) simulation, NC (numerical control) programming, tool and diemaking, moldmaking and hydroforming.

Mechanical and equipment design, building of production equipment, planning and simulation.

Design and diemaking for aircraft parts and components made of fiber-reinforced plastics; aluminum machining for structural parts.

Design of power generation plants, gearbox housings for wind turbines,

component manufacturing for tidal power stations.

Research and development for hybrid and fuel cell automotive technologies, solar technologies.

However, in the event that less than the maximum offering amount is sold in this offering, the Company intends to focus its initial efforts and expenditures of offering proceeds on a more narrow business objective based on Management's recent market observations. The Company will target a unique market niche for customized carbon fiber components and accessories. These products will include components for racing car bodies, private jets, boats and yachts, etc. In support of its engineering and design efforts, the Company will also seek to establish one or more small-batch production facilities over the next five years. (See 3(b) and (c)).

(b) Describe *how* these products or services are to be produced or rendered and how and when the Company intends to carry out its activities. If the Company plans to offer a new product(s), state the present stage of development, including whether or not a working prototype(s) is in existence. Indicate if completion of development of the product would require a material amount of the resources of the Company, and the estimated amount. If the Company is or is expected to be dependent upon one or a limited number of suppliers for essential raw materials, energy or other items, describe. Describe any major existing supply contracts.

The design services are primarily computer-based and will utilize both commercial and proprietary software to meet the customer's requirements. No services have begun and no services will begin until the Company has identified the specific customers and their projects, which is a primary task for the initial phase of development. Therefore no working prototypes exist at this time. Products, if any, will consist of dies, molds and manufacturing components to be designed by the Company and produced by subcontractors since the Company does not intend to establish U.S. tooling or production facilities initially. It is anticipated that some existing customers of the Company's sister company, inForm, GmbH, will become customers of the Company. However the Company has not entered into any agreements or understandings with any customers. The Company does not expect to be dependent upon a limited number of suppliers, as technology hardware, software and design engineering equipment is readily available. The Company believes that there is an adequate pool of qualified computer engineers and technicians available in the United States and/or via foreign outsourcing to staff the initial development phase of the Company. No major supply contracts exist.

(c) Describe the industry in which the Company is selling or expects to sell its products or services and, where applicable, any recognized trends within that industry. Describe that part of the industry and the geographic area in which the business competes or will compete. **See Table below.**

<u>Business segment</u>	<u>Key targeted customers</u>
Customized carbon fiber components, accessories and layouts for race cars, private jets and yachts	High-end consumers and recreational businesses
Vehicle manufacturing design; Automotive supply industry	AUDI, BMW Group, Daimler AG, AMG, Ford General Motors, Porsche, Toyota

Machine and equipment Manufacture	BMW Group, Daimler AG, Kittel, Porsche, RUAG, Volkswagen AG
Aviation-and space industries	Airbus, Eurocopter/American Orbit, RUAG
Innovative power generation	Babcock Noell Nuclear, Siemens Power Generation

Indicate whether competition is or is expected to be by price, service, or other basis. Indicate (by attached table if appropriate) the current or anticipated prices or price ranges for the Company's products or services, or the formula for determining prices, and how these prices compare with those of competitors' products or services, including a description of any variations in product or service features. Name the principal competitors that the Company has or expects to have in its area of competition. Indicate the relative size and financial and market strengths of the Company's competitors in the area of competition in which the Company is or will be operating. State why the Company believes it can effectively compete with these and other companies in its area of competition.

Although a few European automotive design companies such as VST Keller GmbH have established modest operations in the United States or elsewhere in North America, the Company believes there are currently no direct competitors in its initial planned line of business capable of servicing the targeted high-end, exclusive customer base. Further, the experience and customer relationships developed by the Company's management in their European businesses would be difficult for other start-up companies to simulate.

Note: Because this Offering Circular focuses primarily on details concerning the Company rather than the industry in which the Company operates or will operate, potential investors may wish to conduct their own separate investigation of the Company's industry to obtain broader insight in assessing the Company's prospects.

(d) Describe specifically the marketing strategies the Company is employing or will employ in penetrating its market or in developing a new market. Set forth in response to Question 4 below the timing and size of the results of this effort which will be necessary in order for the Company to be profitable. Indicate how and by whom its products or services are or will be marketed (such as by advertising, personal contact by sales representatives, etc.), how its marketing structure operates or will operate and the basis of its marketing approach, including any market studies. Name any customers that account for, or based upon existing orders will account for a major portion (20% or more) of the Company's sales. Describe any major existing sales contracts.

The Company has no existing sales contracts. The development of new markets in the United States will rely primarily on the experience and existing business relationships of the Company's management team which has successfully identified and developed multiple viable markets in Europe and elsewhere throughout the world. One member of the management team is a qualified market researcher with international experience who has specialized in the development of marketing strategies for product design and market launch. She has key business and governmental contacts in the United States and Europe. The Company's preliminary market analysis concludes that a global market niche exists in the upper-price segment for exclusive design parts for race cars, private jets and yachts. A somewhat broader market includes high-end residential and hotel furnishings. Management believes that this targeted customer base is not only financially solvent and willing to pay for exclusive styling, but seeks to express individualism through customization of luxury and recreational items.

The Company intends to utilize the experience, resources and contacts of its management team to identify and market, by personal contact, to the targeted customer base. The customer base will include wealthy individuals, business entities and organizations catering to upscale consumer and/or recreational products. Within the next five years, the Company

hopes to progress to owning a small-batch part production for race cars and car customization, install a colorization facility for entire car bodies and components and establish one or more showrooms to highlight its products and capabilities.

(e) State the backlog of written firm orders for products and/or services as of a recent date (within the last 90 days) and compare it with the backlog of a year ago from that date.

Not applicable.

(f) State the number of the Company's present employees and the number of employees it anticipates it will have within the next 12 months. Also, indicate the number by type of employee (i.e., clerical, operations, administrative, etc.) the Company will use, whether or not any of them are subject to collective bargaining agreements, and the expiration date(s) of any collective bargaining agreement(s). If the Company's employees are on strike, or have been in the past three years, or are threatening to strike, describe the dispute. Indicate any supplemental benefits or incentive arrangements the Company has or will have with its employees.

The Company currently has no employees. It anticipates hiring a manager, 2 salaried operations employees and 1 clerical/administrative personnel during the next 12 months. The Company believes that none of the anticipated employees will be subject to collective bargaining agreements. It is anticipated that the manager will have monitored "business-only" use of a company vehicle.

(g) Describe generally the principal properties (such as real estate, plant and equipment, patents, etc.) that the Company owns, indicating also what properties it leases and a summary of the terms under those leases, including the amount of payments, expiration dates and the terms of any renewal options. Indicate what properties the Company intends to acquire in the immediate future, the cost of such acquisitions and the sources of financing it expects to use in obtaining these properties, whether by purchase, lease or otherwise.

The Company does not own or lease any properties. The Company has not identified any properties to be acquired in the immediate future. However, any such future properties will be leased rather than purchased.

(h) Indicate the extent to which the Company's operations depend or are expected to depend upon patents, copyrights, trade secrets, know-how or other proprietary information and the steps undertaken to secure and protect this intellectual property, including any use of confidentiality agreements, covenants-not-to-compete and the like. Summarize the principal terms and expiration dates of any significant license agreements. Indicate the amounts expended by the Company for research and development during the last fiscal year, the amount expected to be spent this year and what percentage of revenues research and development expenditures were for the last fiscal year.

The know-how, proprietary information and other intellectual property to be utilized by the Company will be provided by its affiliate, inForm, GmbH, and its principals. Confidentiality agreements and other protective arrangements will be executed as necessary.

The Company has not entered into any license agreements.

The Company made no research and development expenditures during the last fiscal year. Since the primary business of the Company is research and development, such expenditures are paid by the customers as part of each project cost. Therefore, the Company does not anticipate any independent expenditure for research and development during the 2009 fiscal year.

(i) If the Company's business, products, or properties are subject to material regulation (including environmental regulation) by federal, state, or local governmental agencies, indicate the nature and extent of regulation and its effects or potential effects upon the Company.

It is the Company's manufacturing customers, rather than the Company itself, that are subject to material regulation, including environmental regulation, by federal, state and local agencies. Such regulations will be addressed in the project specifications required of the Company by the customers.

(j) State the names of any subsidiaries of the Company, their business purposes and ownership, and indicate which are included in the Financial Statements attached hereto. If not included, or if included but not consolidated, please explain.

The Company has no subsidiaries.

(k) Summarize the material events in the development of the Company (including any material mergers or acquisitions) during the past five years, or for whatever lesser period the Company has been in existence. Discuss any pending or anticipated mergers, acquisitions, spin-offs or recapitalizations. If the Company has recently undergone a stock split, stock dividend or recapitalization in anticipation of this offering, describe (and adjust historical per share figures elsewhere in this Offering Circular accordingly).

Not applicable.

4. (a) If the Company was not profitable during its last fiscal year, list below in chronological order the events which in management's opinion must or should occur or the milestones which in management's opinion the Company must or should reach in order for the Company to become profitable, and indicate the expected manner of occurrence or the expected method by which the Company will achieve the milestones.

Event or Milestone	Expected manner of occurrence or method of achievement	Date or number of months after receipt of proceeds when should be accomplished
(1) Identify and contract with targeted high-end automotive customers; establish office facility in southeast U.S.	Personal contacts by management	Six months
(2) Hire staff and procure production equipment, tools	Supervision and equipment acquisition by on-site manager	Nine months
(3) Product development, finalization and delivery	In-house development with officer/director oversight	Twelve months
(4) Expansion of services to aircraft and boating customers	In-house marketing with officer/director oversight	Eighteen months

The Company anticipates that the minimum funding required to achieve each of the above milestones is as follows:

(1) (1st six months):

Office deposit and rent	\$35,000
Tenant improvements	\$15,000
Furnishings and equipment	\$100,000
Personnel	\$25,000
Vehicle expense	\$12,000
Telephones and Utilities	\$13,000
Business registration, licenses	\$5,000
Accounting/legal	\$5,000
TOTAL	\$210,000

(2) (months 7-9)

Machinery, devices, tools	\$30,000
Warehouse rent and tenant improvements	\$25,000
Compressor, autoclave, color mixer	\$70,000

Miscellaneous operating costs	\$30,000
Accounting/legal	\$10,000
Reserve for contingencies	\$100,000
TOTAL	\$420,000
GRAND TOTAL (months 1-18)	\$1,100,000

- (b) State the probable consequences to the Company of delays in achieving each of the events or milestones within the above time schedule, and particularly the effect of any delays upon the Company's liquidity in view of the Company's then anticipated level of operating costs. (See Question Nos. 11 and 12)

Since the initial activities will consist of identifying and contracting with targeted automotive manufacturers, a delay in that process will not have a significant effect on the Company's liquidity because operating costs will be relatively minimal at that stage. Once contracts with customers have been signed, however, a delay in establishing workplace facilities or product delivery will have a significant effect on liquidity since contract revenues would be delayed while a significant portion of the offering proceeds will have been expended.

Note: After reviewing the nature and timing of each event or milestone, potential investors should reflect upon whether achievement of each within the estimated time frame is realistic and should assess the consequences of delays or failure of achievement in making an investment decision.

OFFERING PRICE FACTORS

If the securities offered are common stock, or are exercisable for or convertible into common stock, the following factors may be relevant to the price at which the securities are being offered. **Not applicable.**

5. What were net, after-tax earnings for the last fiscal year?

The Company had no earnings for the last fiscal year.

6. If the Company had profits, show offering price as a multiple of earnings. Adjust to reflect for any stock splits or recapitalizations, and use conversion or exercise price in lieu of offering price, if applicable.

Not applicable.

Offering Price Per Share Net After-Tax Earnings Last Year Per Share (price/earnings multiple)

7. (a) What is the net tangible book value of the Company? (If deficit, show in parenthesis.) For this purpose, net tangible book value means total assets (exclusive of copyrights, patents, goodwill, research and development costs and similar intangible items) minus total liabilities.

(\$0.00) (\$0.00 per share) Because the Company has no assets or liabilities as

defined in 7(a), the net tangible book value is zero.

If the net tangible book value per share is substantially less than this offering (or exercise or conversion) price per share, explain the reasons for the variation.

The Company has never commenced operations and is in the initial stage of development. The Company believes that the offering price per share is justified based upon its business prospects and the stated par value of the Shares in its organizational documents.

(b) State the dates on which the Company sold or otherwise issued securities during the last 12 months, the amount of such securities sold, the number of persons to whom they were sold, and relationship of such persons to the Company at the time of sale, the price at which they were sold and, if not sold for cash, a concise description of the consideration. (Exclude bank debt.) **Not applicable.**

8. (a) What percentage of the outstanding shares of the Company will the investors in this offering have? Assume exercise of outstanding options, warrants or rights and conversion of convertible securities, if the respective exercise or conversion prices are at or less than the offering price. Also assume exercise of any options, warrants or rights and conversions of any convertible securities offered in this offering.)

If the maximum is sold: **7.9% (of then outstanding 6,340,000 preferred shares-5,840,000 preferred shares are currently outstanding.)**

If the minimum is sold: No minimum.

If preferred shares become convertible and the maximum offering is sold and 100% of the preferred shares elect to convert to common shares, investors in this offering will own 1.9% of the then outstanding 26,750,000 common shares.

(b) What post-offering value is management implicitly attributing to the entire Company by establishing the price per security set forth on the cover page (or exercise or conversion price if common stock is not offered)? (Total outstanding shares after offering times offering price, or exercise or conversion price if common stock is not offered.)

Not applicable. The Company is not offering any shares of common stock nor any conversion rights to common stock.

If the maximum is sold: _____ * **Not applicable.**

If the minimum is sold: _____ * **No minimum.**

* These values assume that the Company's capital structure would be changed to reflect any conversions of outstanding convertible securities and any use of outstanding securities as payment in the exercise of outstanding options, warrants or rights included in the calculation. The type and amount of convertible or other securities thus eliminated would be: **not applicable.** These values also assume an increase in cash in the Company by the amount of any cash payments that would be made upon cash exercise of options, warrants or rights included in the calculations. The amount of such cash would be: **not applicable.**

(For above purposes, assume outstanding options are exercised in determining "shares" if the exercise prices are at or less than the offering price. All convertible securities, including outstanding convertible securities, shall be assumed converted and any options, warrants or rights in this offering shall be assumed exercised.)

Note: After reviewing the above, potential investors should consider whether or not the offering price (or exercise or conversion price, if applicable) for the securities is appropriate at the present stage of the Company's development.

8. (a) The following table sets forth the use of the proceeds from this offering:

	If Maximum Amount Sold

<u>Net Proceeds from Offering</u>	<u>\$4,968,000 (99.4%)</u>

Recruiting and Training	\$100,000 (2%)
Purchase of Technical Equipment²	\$1,800,000 (36%)
Design and Production Expense³	\$1,300,000 (26%)
General and Administrative Employee Compensation⁴	\$300,000 (6%) \$324,000 (6.5%)
Not Allocated to Above Categories	\$42,000 (0.84%)
<u>Total Use of Net Proceeds</u>	<u>\$4,968,000 (100%)</u>

THE FOREGOING STATEMENT OF PROJECTED USES OF PROCEEDS REPRESENTS THE COMPANY'S ESTIMATED ALLOCATION OF OFFERING PROCEEDS BASED UPON INFORMATION AVAILABLE AT THE DATE OF THIS OFFERING. IF LESS THAN THE MAXIMUM AMOUNT OF OFFERING PROCEEDS IS RAISED, THE COMPANY WILL BE FORCED TO EITHER REVISE ITS BUSINESS PLAN (SEE SECTION 3(A)) OR SEEK ADDITIONAL CAPITAL FROM OTHER SOURCES. THERE CAN BE NO ASSURANCE THAT THE COMPANY WOULD BE ABLE TO SUCCESSFULLY REVISE ITS BUSINESS PLAN OR RAISE ADDITIONAL CAPITAL. IF THE COMPANY SHOULD FAIL TO ACCOMPLISH EITHER ALTERNATIVE, INVESTORS COULD LOSE THEIR ENTIRE INVESTMENT IN THE COMPANY. AS DESCRIBED MORE FULLY IN SECTION 3(A), THE COMPANY BELIEVES THAT IT CAN PURSUE A LESS EXPANSIVE, MORE FOCUSED BUSINESS MODEL FOR

¹ Projected cost of leasing two (2) production facilities in southeastern United States, tenant improvements, communication and administrative equipment, office furnishings, property and liability insurance, licenses and permits, legal and accounting fees.

² Includes specialized computer equipment for prototype designs, tool design, robotic engineering, machine tooling, milling machine for synchronized 5-axis processing, CNC routing machines, etc. Total expenditure dependent on business volume.

³ Includes consultant and labor expense for research, design, engineering and prototyping of automotive and aircraft components.

⁴ Assumes 12-month payroll expense for two (2) on-site managers to oversee initial establishment of production facilities.

APPROXIMATELY 25% OF THE TOTAL OFFERING AMOUNT. IF MORE THAN 25% BUT LESS THAN 100% OF THE OFFERING IS SOLD, THE COMPANY WILL USE ITS BEST JUDGMENT IN ALLOCATING THE OFFERING PROCEEDS BASED UPON THEN-CURRENT BUSINESS CONDITIONS AND OPPORTUNITIES.

- (b) If there is no minimum amount of proceeds that must be raised before the Company may use the proceeds of the offering, describe the order of priority in which the proceeds set forth above in the column "If Maximum Sold" will be used.

The order of priority in which the offering proceeds will be used is the order in which the uses of proceeds are listed in section 4(a).

Note: After reviewing the portion of the offering allocated to the payment of offering expenses, and to the immediate payment to management and promoters of any fees, reimbursements, past salaries or similar payments, a potential investor should consider whether the remaining portion of his investment, which would be that part available for future development of the Company's business and operations, would be adequate.

10. (a) If material amounts of funds from sources other than this offering are to be used in conjunction with the proceeds from this offering, state the amounts and sources of such other funds, and whether funds are firm or contingent. If contingent, explain.

No material amounts of funds from sources other than this offering are to be used in conjunction with the proceeds from this offering.

- (b) If any material part of the proceeds is to be used to discharge indebtedness, describe the terms of such indebtedness, including interest rates. If the indebtedness to be discharged was incurred within the current or previous fiscal year, describe the use of proceeds of such indebtedness.

No material part of the proceeds of this offering will be used to discharge indebtedness.

- (c) If any material amount of proceeds is to be used to acquire assets, other than in the ordinary course of business, briefly describe and state the cost of the assets and other material terms of the acquisitions. If the assets are to be acquired from officers, directors, employees or principal stockholders of the Company or their associates, give the names of the persons from whom the assets are to be acquired and set forth the cost to the Company, the method followed in determining the cost, and any profit to such persons.

The Company estimates the cost of acquiring technical equipment for operations to be \$1,800,000, including design engineering computer hardware and software, production of various dye and mold-making machines and related equipment. All such acquisitions will be made from third-party vendors at arms' length.

- (d) If any amount of the proceeds is to be used to reimburse any officer, director, employee or stockholder for services already rendered, assets previously transferred, or monies loaned or advanced, or otherwise, explain:

No amount of the proceeds of this offering will be used to reimburse any officer, director, employee, or stockholder for services already rendered, assets previously transferred, or monies loaned or advanced, or otherwise.

11. Indicate whether the Company is having or anticipates having within the next 12 months any cash flow or liquidity problems and whether or not it is in default or in breach of any note, loan, lease or other indebtedness or financing arrangement requiring the Company to make payments. Indicate if a significant amount of the Company's trade payables have not been paid within the stated trade term. State whether the Company is subject to any unsatisfied judgments, liens or settlement obligations and the amounts thereof. Indicate the Company's plans to resolve any such problems.

Assuming that this offering is successful in raising at least 25% of the maximum offering amount, the Company does not presently anticipate having within the next twelve months any cash flow or liquidity problems. See Risk Factor 10 and section 4(a). The Company is not in default or in breach of any note, loan, lease, or other indebtedness or financing arrangement requiring the Company to make payments. The Company's has no trade payables. The Company is not subject to any unsatisfied judgments, liens, or settlement obligations. See "Use of Proceeds".

12. Indicate whether proceeds from this offering will satisfy the Company's cash requirements for the next 12 months, and whether it will be necessary to raise additional funds. State the source of additional funds, if known.

The Company's cash requirements will be dependent, in part, on the timing of customer development efforts in the southeastern United States. The use of offering proceeds may be accelerated or slowed depending upon initial customer demand and requirements. The Company does not anticipate the need for additional funds beyond the maximum offering amount. For a more detailed discussion of the Company's intended response if less than the maximum offering amount is sold, see sections 3(a), 3(b), 4(a) "Business and Properties" and 8(a), "Use of Proceeds".

CAPITALIZATION

13. Indicate the capitalization of the Company as of the most recent balance sheet date (adjusted to reflect any subsequent stock splits, stock dividends, recapitalizations or refinancings) and as adjusted to reflect the sale of the minimum and maximum amount of securities in this offering and the use of the net proceeds therefrom:

Please see business experience for Chief Executive Officer, Chief Operating Officer and Chief Financial Officer at 29, 20, and 31 above respectively.

(d) If any of the Company's key personnel are not employees but are consultants or other independent contractors, state the details of their engagement by the Company.

Not applicable.

(e) If the Company has key man life insurance policies on any of its Officers, Directors or key personnel, explain, including the names of the persons insured, the amount of insurance, whether the insurance proceeds are payable to the Company and whether there are arrangements that require the proceeds to be used to redeem securities or pay benefits to the estate of the insured person or a surviving spouse.

The Company does not have any key man life insurance policies on any of its Officers, Directors or key personnel.

36. If a petition under the Bankruptcy Act or any State insolvency law was filed by or against the Company or its Officers, Directors or other key personnel, or a receiver, fiscal agent or similar officer was appointed by a court for the business or property of any such persons, or any partnership in which any of such persons was a general partner at or within the past five years, or any corporation or business association of which any such person was an executive officer at or within the past five years, set forth below the name of such persons, and the nature and date of such actions.

Beginning in 2003, the prototype die market in Europe experienced a significant downturn. As a result, inFORM GmbH, an affiliate of the Company operating in the prototype die project business in Chemnitz, Germany, was faced with an economically strained situation in 2004 and 2005. On 9 August 2005, the company filed an application with the German court for insolvency proceedings upon its assets. At the same time, the company presented an insolvency plan prepared by the managing director, Dr. Detlef Hilbig. The company also filed an application for self-administration, a concept similar to "debtor in possession" under U.S. law. The debt settlement plan included financial restructuring and new financing in order to maintain the business operations. The insolvency proceedings were opened and self-administration was ordered by the Court on 30 September 2005. The interim insolvency administrator, Dr. Dirk Herzig, attorney, was appointed as solicitor by the Schulze and Braun law firm as attorneys for the insolvency court. Dr. Hilbig was confirmed as business manager with all management authority for the period of the insolvency proceeding. In the creditors' meeting dated 29 March 2006, all of the five creditor groups agreed to the insolvency plan, which was thereafter confirmed by the insolvency court. In July 2006, inForm GmbH emerged from the official insolvency proceeding pursuant to the approved plan. The former solicitor, Dr. Herzig, who then acted as debtor plan supervisor, was charged with overseeing payments to the creditors according to schedule. Since the insolvency proceedings were concluded, inForm, GmbH, has realized healthy profits attributable to the internal restructuring measures

undertaken as part of the insolvency plan. InForm, GmbH increased operational efficiencies and established network structures, including successful acquisition of new customers from the non-automotive segment. As a result the company was able to fulfill all of its obligations under the insolvency plan 2 years ahead of schedule. The plan monitoring and the supervising activities by Schulze and Braun in connection with this plan were ended promptly. For the fiscal year ending December 31, 2007, inForm, GmbH had gross revenues of €3,420,000 (USD\$4,912,000) and net earnings of €561,258 (USD\$806,247) before taxes.

Note: After reviewing the information concerning the background of the Company's Officers, Directors and other key personnel, potential investors should consider whether or not these persons have adequate background and experience to develop and operate this Company and to make it successful. In this regard, the experience and ability of management are often considered the most significant factors in the success of a business.

Not applicable.

47. Describe any trends in the Company's historical operating results. The Company has no historical operating results. Management believes that several recent developments in the underlying economics of the targeted lines of business will have a favorable impact on the Company's business prospects. These are: 1) increased environmental regulation in the United States that demands innovative engineering solutions in automotive, aircraft and energy production; 2) the current volatility in oil and fuel costs requires enhanced and/or new technologies in the automotive, aircraft and energy markets, which Management believes the Company can develop; and 3) the current positive trend of the Euro currency versus the U.S. dollar will continue to attract European manufacturers of automobiles, aircraft and energy systems to establish operations in the United States.

At the same time, the current turbulence in the world economic markets could result in a significant downturn in business prospects. However, the probable extent of the impact of any of the foregoing factors cannot be determined.

48. If the Company sells a product or products and has had significant sales during its last fiscal year, state the existing gross margin (net sales less cost of such sales as presented in accordance with generally accepted accounting principles) as a percentage of sales for the last fiscal year: ____%. Notes to Financial Statements

1. Nature and Continuance of Operations

Inform, Inc. (the "Company") is a broad-based technical and manufacturing design firm company focused on servicing automobile manufacturers as well as the aircraft and energy industries. The Company services the following lines of business: vehicle manufacturing design; automotive and car supply; machine and equipment manufacture; aviation and space industry manufacture; and innovative power generation and energy transformation. The Company was incorporated on December 28, 1999 under the laws of the State of Oregon as World Credit Institute, Inc. On June 21, 2005 the stockholders of the Company approved an amendment to the articles of the Company changing its name to Inform, Inc.

The Company is currently a development stage company as defined under Statement of Financial Accounting Standards ("FAS") No. 7. As required for development stage enterprises, the statement of operations include a total of all expenditures from the Date of Commencement of the Development Stage (December 28, 1999) to December 31, 2007. All losses accumulated since the inception of business have been considered as part of the Company's development stage activities.

The accompanying financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes the realization of assets and the satisfaction of liabilities in the normal course of business. Since inception, the Company has been engaged in pre-operational activities. No revenue has been generated and the Company has incurred accumulated losses of \$28,700 as of December 31, 2007. Continuation of the Company's existence is dependant on the ability of the Company to raise additional capital and achieve sustained profitable operations. The uncertainty related to these conditions raises substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

2. Summary of significant accounting policies

Use of Estimates - The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Restatement of financial statements

The financial statements of Inform, Inc. have been restated to reflect the organization costs expensed as incurred.

4. Explanation of issuance of common and preferred shares at less than par value.

Some of the principal stockholders of the Company received both common and preferred shares as promotional shares in compensation for their efforts in organizing and planning for the Company's future business operations. Therefore, with the exception of organizational and maintenance expenses, no cash consideration has been paid for the Company's shares, nor has any value been assigned to the efforts of the promoters.

ATTACHMENT TO ARTICLE 7 OF
ARTICLES OF INCORPORATION
OF
INFORM, INC.

SECTION I
CAPITAL STOCK

Section 1. Total Number of Shares, Classes, Par Value. The corporation is authorized to issue two classes of shares. The Corporation has authority to issue 26,250,000 shares of Common Stock with a par value of ten dollars (\$10.00) per share and 26,250,000 shares of Preferred Stock with a par value of ten dollars (\$10.00) per share. Shares of stock may be issued from time to time for such consideration as shall be determined by the board of directors. The value of any property received in full or partial payment for the respective shares shall be as conclusively determined by the board of directors.

Section 2. Rights and Restrictions of the Classes of Stock. The powers preferences and rights and the qualifications, limitations and restrictions of the classes of stock are as follows:

(a) Dividends. The holders of Preferred Stock shall be entitled to receive dividends, as declared by the board of directors, from any corporate assets at the time legally available for this purpose, payable in cash quarterly or at such intervals and on such dates as the board of directors may from time to time decide. Dividends on the Preferred Stock shall (i) accrue from the date of issuance of the shares, whether or not earned or declared, (ii) be payable before any dividends before any dividends on Common Stock are paid, declared or set apart, and (iii) be cumulative, so that if dividends required to be paid under this clause on outstanding shares of Preferred Stock have not been paid or set apart, the amount of any such deficiency shall be paid or set apart for payment, but without interest, before any distribution, by dividend or otherwise, is declared, paid on, or set apart for the Common Stock. In addition to the cumulative preferential dividend set forth above, at the same time any distribution shall be paid on, or declared and set apart for Common Stock, a distribution shall be paid on, declared and set apart for the Preferred Stock on the basis that each share of Preferred Stock shall receive a distribution equal to the distribution on each share of Common Stock. In case the Corporation shall at any time subdivide the outstanding shares of Common Stock, or shall issue a stock dividend on its outstanding Common Stock, the dividend rights of a share of Preferred Stock under this section in effect immediately prior to such subdivision or the issuance of such dividend shall be proportionately increased, and in case the corporation shall at any time combine the outstanding shares of Common Stock, the dividend rights of a share of Preferred Stock in effect immediately prior to such combination shall be proportionately decreased, effective at the close of business on the date of such subdivision, dividend or combination, as the case may be. For purposes of this Subsection (a), unless

the context otherwise requires, "distribution" shall mean the transfer of cash or property without consideration, whether by way of dividend or otherwise, or the purchase or redemption of shares of this corporation for cash or property.

(b) Participation in Assets on Dissolution. In the event of any voluntary or involuntary liquidation, dissolution, or winding up of the Corporation, the holders of shares of the Preferred Stock then outstanding shall be entitled to be paid, out of the assets of the corporation available for distribution to its stockholders, whether from capital, surplus or earnings, before any payment shall be made in respect of the corporation's Common Stock, an amount equal to ten dollars (\$10.00) per share, plus all declared and unpaid dividends thereon to the date fixed for distribution. After setting apart or paying in full the preferential amounts due the holders of the Preferred Stock, the remaining assets of the Corporation available for distribution to stockholders, if any, shall be distributed to the holders of Common Stock, each such issued and outstanding share of Common Stock entitling the holder thereof to receive an equal proportion of said remaining assets. If upon liquidation, dissolution, or winding up of the Corporation, the assets of the Corporation available for distribution to its shareholders shall be insufficient to pay the holders of the Preferred Stock the full amounts to which they are respectively entitled, the holders of the Preferred Stock shall share ratably in any distribution of assets according to the respective amounts which would be payable in respect of the shares held by them upon such distribution if all amounts payable on or with respect to said shares were paid in full. The merger or consolidation of the corporation into or with another corporation in which this Corporation shall not survive and the shareholders of this corporation shall own less than 50 percent of the voting securities of the surviving corporation or the sale, transfer or lease (but not including a transfer or lease by pledge or mortgage to a bona fide lender) of all or substantially all of the assets of the corporation shall be deemed to be a liquidation, dissolution or winding up of the corporation as those terms are used in this Subsection (b).

(c) Voting Rights. Except as otherwise provided by these Articles of Incorporation, or as required by law, the holders of shares of Common Stock shall have exclusive voting rights and powers. Each share of Common Stock shall have one vote on all matters on which shareholders are entitled to vote under the law and under these Articles of Incorporation. There is no right to cumulate votes for directors by either the holders of Common Stock or as hereafter provided, in certain circumstances by the holders of shares of Preferred Stock. If at any time dividends on the Preferred Stock shall be in arrears for eight or more quarterly periods, whether or not consecutive, then the holders of the Preferred Stock, voting separately as a class, and to the exclusion of the holders of shares of Common Stock, shall be entitled at any annual meeting of the stockholders or any special meeting at which directors are to be elected to elect a majority of the board of directors. Each holder of Preferred Stock shall have one vote for each share of stock so held. These rights to elect directors shall continue until all dividends accrued on the Preferred Stock have been paid or set apart, at which time the right of the holders of Preferred Stock to elect directors shall cease, and exclusive voting rights and powers shall revert to the holders of the Common Stock unless there is a further default in payment of dividends on the Preferred Stock in which event the special voting rights of the Preferred Stock set out above shall resume.

727542-87

SECTION II
ASSESSMENT OF STOCK

A purchaser of shares of Capital Stock from the corporation is not liable to the corporation or its creditors with respect to the shares except to pay the consideration for which the shares were authorized to be issued as provided in Section I, above. The determination by the board of directors is conclusive and when the corporation receives the consideration for which the board of directors authorized the issuance of shares, the shares issued for the consideration are fully paid and nonassessable. A shareholder is not personally liable for the acts or debts of the corporation, except shareholders that accept an unlawful distribution knowing it was made in violation of the law, may be required to return such distribution.

ARTICLE 1

OFFICES

1.01. Principal Executive Office.

The principal executive office of the corporation is located at:

391 N.W. 179th Avenue, Aloha, Oregon 97006

1.02. Other Offices.

The corporation may also have offices at any other places, within or without the State of Incorporation, where the corporation is qualified to do business, as the Board of Directors may from time to time designate or the business of the corporation may require.

ARTICLE 2

DIRECTORS

2.01. Definitions.

(a) As used in these Bylaws, the word "Board" means the Board of Directors of the corporation.

(b) "Directors," as used in these bylaws in relation to any power or duty requiring collective action, means the Board of Directors of the corporation.

2.02. Responsibility of Board.

Subject to the provisions of the general corporation law and to any limitations in the Articles of Incorporation relating to action required to be approved by the shareholders, or by the outstanding shares, business and affairs of the corporation shall be managed and all corporate powers shall be exercised by or under the direction of the Board of Directors. The Board may delegate the management of the day-to-day operation of the business of the corporation to a management company or other person provided that the business and affairs of the corporation shall be managed and all corporate powers shall be exercised under the ultimate direction of the Board.

2.03. Number of Directors.

The number of directors of the corporation shall be determined by shareholders vote, but no less than one director for each shareholder for up to three shareholders.

2.04. Election and Term of Office.

Directors shall be elected at each annual meeting of shareholders to hold office until the next annual meeting. Each director, including a director elected to fill a vacancy (see Paragraph 2.07 of these Bylaws), shall hold office until the expiration of the term for which he or she was elected and until a successor has been elected and qualified.

2.05. Resignation.

Any director may resign effective on giving written notice to the Board Chairperson, the President, the Secretary, or the Board of Directors of the corporation, unless the notice specifies a later time for the effectiveness of the resignation. If the resignation is effective at a future time, a successor may be elected to take office when the resignation becomes effective.

2.06. Vacancy.

(a) A vacancy on the Board occurs when any authorized position of director is not filled by a duly elected director, whether caused by death, resignation, removal, change in the authorized number of directors (by the Board or the shareholders), or otherwise.

If a corporation has not issued shares and all the directors resign, die, or become incompetent, the court of competent jurisdiction for the State of Incorporation may appoint directors of the corporation on application by any party in interest.

(b) Declaration of Vacancy. The Board may declare vacant the office of a director who has been declared of unsound mind by an order of court or convicted of a felony.

(c) Removal of Director by Shareholders. Any or all of the directors may be removed without cause if removal is approved by the outstanding shares, subject to the following:

(1) No director may be removed (unless the entire Board is removed) when the votes cast against removal, or not consenting in writing to that removal, would be sufficient to elect that director if voted cumulatively at an election at which the same total number of votes were cast (or, if action is taken by written consent, all shares entitled to vote were voted) and the entire number of directors authorized at the time of the director's most recent election were then being elected; and

(2) When by the provisions of the Articles the holders of the shares of any class or series, voting as a class or series, are entitled to elect one or more directors, any director so

selected may be removed only by the applicable vote of the holders of the shares of that class or series.

(d) **Reduction of Authorized Number of Directors.** Any reduction of the authorized number of directors does not remove any director prior to the expiration of the director's term of office.

(e) **Provisions Exclusive.** Except as provided in subparagraphs (a) through (d) of this Paragraph 2.06, no director may be removed from office prior to the expiration of the director's term of office.

2.07. Vacancies.

(a) **Filling Vacancies by Board.** Except as otherwise provided in the Articles or in these Bylaws, and except for a vacancy created by the removal of a director as provided in Paragraph 2.06, vacancies on the Board may be filled by approval of the Board or, if the number of directors then in office is less than a quorum, by (1) the unanimous written consent of the directors then in office; (2) the affirmative vote of a majority of the directors then in office at a meeting held pursuant to notice or waivers of notice complying with general corporations law; or (3) a sole remaining director.

(b) **Filling Vacancies by Shareholders.** Unless the Articles or a bylaw adopted by the shareholders provide that vacancies occurring in the Board by reason of the removal of directors may be filled by the Board, those vacancies may be filled only by approval of the shareholders. Moreover, the shareholders may elect a director at any time to fill any vacancy not filled by the directors. Any election of directors by written consent shall require the consent of a majority of the outstanding shares entitled to vote; provided, however, that no director shall be elected by written consent to fill a vacancy created by removal of any director except by the unanimous written consent of all shares entitled to vote for the election of directors.

(c) **By Special Meeting.** If, after the filling of any vacancy by the directors, the directors then in office who have been elected by the shareholders shall constitute less than a majority of the directors then in office, any holder or holders of an aggregate of 5 percent or more of the total number of shares at the time outstanding having the right to vote for the directors may call a special meeting of the shareholders, or apply to a court of competent jurisdiction for the State of Incorporation, for an order that a special meeting be held to elect the entire Board. The term of office of any director not elected by the shareholders shall terminate on a successor election

2.08. Call of Meetings.

Meetings of the Board may be called by the Board Chairperson, or the President, or any Vice President, or the Secretary, or any two directors of the corporation.

2.09. Place of Meetings.

Meetings of the Board may be held at any place within or without the State of Incorporation that has been designated in the notice of the meeting or, if not stated in the notice

or if there is no notice, designated by resolution of the Board, and if not so designated, then at the principal executive office of the corporation.

Meetings of the Board may be held in other locations as may be determined from time to time by the Board, but in no event shall any Board meeting be held outside of the territorial limits of the United States of America or its possessions. This restriction is to ensure strict compliance with United States securities regulations, applicable federal and state tax laws, and other applicable state and federal laws.

2.10. Time of Regular Meetings.

Regular meetings of the Board of Directors shall be held on the fifteenth day of the second calendar month of each calendar quarter, commencing at the hour of 2 p.m.

2.11. Notice of Meetings.

Regular meetings of the Board may be held without notice. Special meetings shall be held on four days' notice by first-class mail, postage prepaid, or 48 hours' notice delivered personally or by telephone, including a voice messaging system or other system or technology designed to record and communicate messages, telegraph, facsimile, electronic mail, or other electronic means. The notice need not specify the purpose of the meeting.

2.12. Waiver of Notice.

Notice of any meeting need not be given to any director who signs a waiver of notice, or a consent to holding the meeting or an approval of the minutes of the meeting, whether before or after the meeting, or who attends the meeting without protesting, prior to the meeting or at its commencement, the lack of notice to the director. Any waiver of notice need not specify the purpose of the meeting. All waivers, consents, and approvals of minutes shall be filed with the corporate records or made a part of the minutes of the meeting to which they pertain.

2.13. Quorum.

A majority of the authorized number of directors constitutes a quorum of the Board for the transaction of business. The directors must be present at the meeting to constitute a quorum.

2.14. Transactions of Board.

Except as otherwise provided in the Articles of Incorporation or in these Bylaws, every act or decision done or made by a majority of the directors present at a meeting duly held at which a quorum is present is the act of the Board, subject to the provisions of Paragraphs 2.23 and 2.28 of these Bylaws.

2.15. Withdrawal of Quorum.

Any meeting at which a quorum is initially present may continue to transact business notwithstanding the withdrawal of directors, if any action taken is approved by at least a majority of the required quorum for the meeting.

2.16. Adjournment.

A majority of the directors present, whether or not a quorum is present, may adjourn any meeting to another time and place.

2.17. Notice of Adjournment.

If the meeting is adjourned for more than 24 hours, however, notice of the adjournment to another time or place must be given prior to the time of the adjourned meeting to the directors who were not present at the time of the adjournment.

2.18. Conduct of Meetings.

At every meeting of the Board, the Board Chairperson or, in the Chairperson's absence, the President of the corporation or, in the President's absence, the Vice President designated by the President, or, in the absence of a designation, a chairperson chosen by a majority of the directors present shall preside. The Secretary of the corporation shall act as Secretary of the Board. In the event the Secretary is absent from any meeting, the Chairperson may appoint any person to act as secretary of the meeting.

2.19. Telephone Participation.

Members of the Board may participate in any meeting through use of conference telephone, electronic video screen communication, or other communications equipment, whenever the board authorizes this type of participation by adopting a resolution. The resolution must require that the corporation (1) verify the identity of any director communicating by telephone, electronic video screen, or other communication equipment and that director's right to participate in the board meeting, and (2) verify that all statements, questions, actions, and votes made by telephone, electronic video screen, or other communications equipment were made by that director and not by someone not permitted to participate as a director.

Participation in a meeting pursuant to this Paragraph constitutes presence in person at the meeting if all the following are true:

(1) Each board member participating in the meeting can communicate with all of the other members concurrently.

(2) Each member is provided the means of participating in all matters before the board, including the capacity to propose, or interpose an objection, to a specific action to be taken by the corporation.

(3) The board adopts a resolution pursuant to this Paragraph.

2.20. Action without Meeting.

Any action required or permitted to be taken by the Board may be taken without a meeting, if all members of the Board individually or collectively consent in writing to the action. The written consent or consents must be filed with the minutes of the proceedings of the Board. Action by written consent has the same force and effect as a unanimous vote of the directors.

2.21. Duties of Directors.

(a) Each director shall perform the duties of a director, including duties as a member of any committee of the Board on which the director may serve, in good faith, in a manner the director believes to be in the best interests of the corporation and with the care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

(b) In performing his or her duties each director shall be entitled, so long as he or she acts in good faith after reasonable inquiry when the need for it is indicated by the circumstances and without knowledge that would cause the reliance to be unwarranted, to rely on information, opinions, reports, or statements, including financial statements and other financial data, in each case prepared or presented by:

(1) One or more officers or employees of the corporation whom the director believes to be reliable and competent in the matters presented.

(2) Counsel, independent accountants, or other persons regarding matters that the director believes to be within the person's professional or expert competence.

(3) A committee of the Board on which the director does not serve, regarding matters within its designated authority, which committee the director believes to merits confidence.

(c) A person who performs the duties of director in accordance with subparagraphs (a) and (b) of this Paragraph 2.21 will have no liability based on any alleged failure to discharge the person's obligation as a director.

2.22. Compensation.

Directors shall receive the compensation for their services and reimbursement for their expenses as shall be determined from time to time by resolution of the Board. Any director may

serve the corporation in any other capacity as an officer, agent, employee, or otherwise and receive compensation for that service.

2.23. Transactions with Corporation.

(a) No contract or other transaction between the corporation and one or more of its directors, or between the corporation and any corporation, firm, or association in which one or more of the directors of this corporation has a material financial interest, is either void or voidable because the director or directors or the other corporation, firm, or association are parties or because the director or directors are present at the meeting of the Board or Board committee that authorizes, approves, or ratifies the contract or transaction, if:

(1) The material facts regarding the transaction and regarding the director's interest are fully disclosed or known to the shareholders and the contract or transaction is approved by the shareholders, in good faith, and the shares owned by the interested director or directors are prohibited from voting on the contract or transaction.

(2) The material facts regarding the transaction and regarding the director's interest are fully disclosed or known to the Board or Board committee, and the Board or Board committee authorizes, approves, or ratifies the contract or transaction in good faith by a vote sufficient without counting the vote of the interested director or directors and the contract or transaction is just and reasonable as to the corporation at the time it is authorized, approved, or ratified.

(3) Regarding contracts or transactions not approved as provided in clauses (1) and (2), above, of this subparagraph (a), the person asserting the validity of the contract or transaction sustains the burden of proving that the contract or transaction was just and reasonable with regard to the corporation at the time it was authorized, approved, or ratified.

A mere common directorship does not constitute a material financial interest within the meaning of the above provisions. Nor is a director interested within the meaning of the above provisions in a resolution fixing the compensation of another director as a director, officer, or employee of the corporation, notwithstanding the fact that the first director is also receiving compensation from the corporation.

(b) No contract or other transaction between the corporation and any corporation or association of which one or more of the directors of this corporation are directors is either void or voidable because the director or directors are present at the Board or Board committee meeting that authorizes, approves, or ratifies the contract or transaction, if:

(1) The material facts regarding the transaction and regarding the director's other directorship are fully disclosed or known to the Board or Board committee, and the Board or Board committee authorizes, approves, or ratifies the contract or transaction in good faith by a vote sufficient without counting the vote of the common director or directors.

(2) As to contracts or transactions not approved as provided in clause (1) of this subparagraph (b), the contract or transaction is just and reasonable as to the corporation at the time it is authorized, approved, or ratified.

(c) Interested or common directors may be counted in determining the presence of a quorum at a meeting of the Board or Board committee that authorizes, approves, or ratifies a contract or transaction.

2.24. Liability of Directors.

(a) Subject to the provisions of Paragraph 2.21 of these Bylaws, directors who approve any of the following corporate actions will be jointly and severally liable to the corporation for the benefit of all of the creditors or shareholders entitled to institute an action.

(1) The making of any distribution to its shareholders.

(2) The distribution of assets to shareholders after institution of dissolution proceedings of the corporation, if any, without paying or adequately providing for all known liabilities of the corporation, excluding any claims not filed by creditors within the time limit set in the notice given to creditors.

(3) The making of any loan or guaranty.

(b) A director who is present at a meeting of the Board, or any Board committee, at which action specified in subparagraph (a) of this Paragraph 2.24 is taken and who abstains from voting will be considered to have approved the action.

(c) Directors liable under this Paragraph of these Bylaws shall be entitled to be subrogated to the rights of the corporation:

(1) With regard to clause (1) of subparagraph (a) of this Paragraph 2.24, against shareholders who received the distribution.

(2) With regard to clause (2) of subparagraph (a) of this Paragraph 2.24, against shareholders who received the distribution of assets.

(3) With regard to clause (3) of subparagraph (a) of this Paragraph 2.24, against the person who received the loan or guaranty.

2.25. Power to Indemnify.

(a) The corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any proceeding (other than an action by or in the right of the corporation to procure a judgment in its favor) by reason of the fact that that person is or was an agent of the corporation, against expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with that proceeding if the person acted in good

faith and in a manner the person reasonably believed to be in the best interests of the corporation and, in the case of a criminal proceeding, had no reasonable cause to believe the conduct of that person was unlawful. The termination of any proceeding by judgment, order, settlement, conviction, or on a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner that the person reasonably believed to be in the best interests of the corporation or that the person had reasonable cause to believe was unlawful.

(b) The corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was an agent of the corporation, against expenses actually and reasonably incurred by the person in connection with the defense or settlement of that action if that person acted in good faith, in a manner the person believed to be in the best interests of the corporation and its shareholders. No indemnification shall be made for any of the following:

(1) Any claim, issue, or matter for which any person has been adjudged liable to the corporation in the performance of that person's duty to the corporation and its shareholders, unless and only to the extent that the court where the proceeding was or is pending determines on application that, in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for expenses, and then only to the extent that the court determines;

(2) Amounts paid in settling or otherwise disposing of a threatened or pending action, with or without court approval; or

(3) Expenses incurred in defending a threatened or pending action that is settled or otherwise disposed of without court approval.

2.26. Expenses of Successful Agent.

To the extent that an agent of this corporation has been successful on the merits in the defense of any proceeding referred to in Paragraph 2.25 or in defense of any claim, issue, or matter specified in that paragraph, the agent will be indemnified against expenses actually and reasonably incurred by the agent in connection with the matter.

2.27. Determination That Indemnification Is Proper.

Except as provided in Paragraph 2.26, any indemnification under these Bylaws will be made by the corporation only if authorized in the specific case, on a determination that indemnification of the agent is proper in the circumstances because the agent has met the applicable standard of conduct set forth in Paragraph 2.21 by:

(a) A majority vote of a quorum consisting of directors who are not parties to that proceeding;

(b) If a quorum of directors is not obtainable, by independent legal counsel in a written opinion;

(c) Approval of the shareholders, and the shares owned by the person to be indemnified are not entitled to vote on the matter; or

(d) The court where that proceeding is or was pending on application made by the corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not the application by the agent, attorney, or other person is opposed by the corporation.

2.28. Advance of Expenses.

Expenses incurred in defending any proceeding may be advanced by the corporation before the final disposition of that proceeding on receipt of an undertaking by or on behalf of the agent to repay that amount if it is determined ultimately that the agent is not entitled to be indemnified as authorized in these Bylaws. An advancement of expenses under this Paragraph does not violate the prohibition against corporate loans to officers or result in any liability to any director approving the advancement under Paragraph 2.24.

2.29. Nonexclusive Provisions.

The indemnification authorized by these Bylaws shall not be deemed exclusive of any additional rights to indemnification for breach of duty to the corporation and its shareholders while acting in the capacity of a director or officer of the corporation to the extent the additional rights to indemnification are authorized in an article provision adopted. The indemnification provided by these Bylaws for acts, omissions, or transactions while acting in the capacity of, or while serving as, a director or officer of the corporation but not involving breach of duty to the corporation and its shareholders shall not be deemed exclusive of any other rights to which those seeking indemnification may be entitled under any bylaw, agreement, vote of shareholders or disinterested directors, or otherwise, to the extent the additional rights to indemnification are authorized in the Articles. The rights to indemnity shall continue for a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. Nothing contained in this Paragraph shall affect any right to indemnification to which persons other than the directors and officers may be entitled by contract or otherwise.

2.30. Limitation on Indemnification.

No indemnification or advance shall be made under these Bylaws, except as provided in Paragraph 2.27 in any circumstance in which it appears:

(a) That it would be inconsistent with a provision of the Articles, these Bylaws, a resolution of the shareholders, or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid, that prohibits or otherwise limits indemnification; or

(b) That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

2.31. Insurance.

The corporation shall have power to purchase and maintain insurance on behalf of any agent against any liability asserted against or incurred by the agent in that capacity or arising out of the agent's status as an agent, whether or not the corporation would have power to indemnify the agent against that liability under the provisions of these Bylaws.

The fact that the corporation owns all or a portion of the shares of the company issuing a policy of insurance shall not affect the corporation's power to purchase and maintain that insurance in the following circumstances: (1) if authorized in the corporation's articles, any policy issued is limited to the extent provided by law; or (2) the company issuing the policy is organized, licensed, and operated in a manner that complies with the insurance laws and regulations applicable to its jurisdiction of organization; that company provides procedures for processing claims that do not permit it to be subject to the direct control of the corporation that purchased the policy; and the policy provides for some manner of risk sharing between the issuer and purchaser of the policy, and some unaffiliated person or persons. Risk sharing may be undertaken by providing for more than one unaffiliated owner of the company issuing the policy, or by providing that a portion of the coverage furnished will be obtained from some unaffiliated insurer or reinsurer.

2.32. Board Committees.

(a) Authority to Appoint. The Board may, by resolution adopted by a majority of the authorized number of directors, designate one or more committees, each consisting of two or more directors, to serve at the pleasure of the Board. The Board may designate one or more directors as alternate members of any committee, who may replace any absent member at any meeting of the committee. The appointment of members or alternate members of a committee shall require the vote of a majority of the authorized number of directors.

(b) Authority of Committee. Any committee referred to in subparagraph (a) of this Paragraph 2.32, to the extent provided in the Board resolution or in these Bylaws, shall have all the authority of the Board, except with regard to:

- (1) The approval of any action for which the general corporation law also requires shareholders' approval.
- (2) The filling of vacancies on the Board or in any committee.
- (3) The fixing of compensation of the Directors for serving on the Board or on any committee.
- (4) The amendment or repeal of these Bylaws or the adoption of new bylaws.
- (5) The amendment or repeal of any resolution of the Board that, by its express terms, is not so amendable or repealable.

(6) A distribution to the shareholders of the corporation except at a rate or in a periodic amount or within a price range determined by the Board.

(7) The appointment of other committees of the Board or the members of the Board.

(c) Applicability of Other Paragraphs. The provisions of Paragraphs 2.08-2.17, inclusive, and of Paragraphs 2.19 and 2.20 of this Article II apply to the committees.

2.33. Decisions and Policy Making.

In order to ensure strict compliance with United States securities law and regulations, federal and state tax laws, as well as general corporation law, the formative process leading to the ultimate decision making for the corporation must originate from within the territorial limits and under the jurisdiction of the United States of America or its possessions. The formative process shall include formative and creative planning by top company management, on the board or committee level, with respect to corporate goals, project planning, business tactics, venture strategy, concept development, as well as other major decisions affecting the direction and execution of corporate policy.

ARTICLE 3

DETERMINING SHAREHOLDERS OF RECORD

3.01. Record Date.

(a) Record Date Fixed by Board. In order that the corporation may determine the shareholders entitled to notice of any meeting or to vote, or entitled to receive payment of any dividend or other distribution or allotment of any rights, or entitled to exercise any rights regarding any other lawful action, the Board may fix, in advance, a record date, which shall not be more than 60 nor less than 10 days before the date of the meeting nor more than 60 days before any of the other aforementioned actions.

(b) Record Date Not Fixed. If no record date is fixed:

(1) The record date for determining shareholders entitled to notice of or to vote at a meeting of shareholders shall be the close of business on the business day next preceding the day on which notice is given or, if notice is waived, at the close of business on the business day next preceding the day on which the meeting is held.

(2) The record date for determining shareholders entitled to give consent to corporate action in writing without a meeting (see Paragraph 4.16), when no prior action by the Board has been taken, shall be the day on which the first written consent is given.

(3) The record date for determining shareholders for any other purpose shall be the close of business on the day on which the Board adopts the resolution relating to the record date, or the sixtieth day before the date of the other action, whichever is later.

(c) Record Date for Adjourned Meeting. A determination of shareholders of record entitled to notice of or to vote at a meeting of shareholders shall apply to any adjournment of the meeting unless the Board fixes a new record date for the adjourned meeting. The Board must, however, fix a new record date if the meeting is adjourned for more than 45 days from the date set for the original meeting.

(d) Rights of Shareholders of Record. Shareholders at the close of business on the record date are entitled to notice and to vote or to receive the dividend, distribution, or allotment of rights, or to exercise the rights, as the case may be, notwithstanding any transfer of any shares on the books of the corporation after the record date, except as otherwise provided in the Articles or by agreement or in the general corporation law.

ARTICLE 4

SHAREHOLDERS' MEETINGS

4.01. Place of Meetings.

Meetings of shareholders shall be held at any place within or without the State of Incorporation designated in the notice of the meeting or by resolution of the Board of Directors. In the absence of any designation or resolution, shareholders' meetings shall be held at the principal executive office of the corporation.

Meetings of Shareholders may be held in other locations as may be determined from time to time by the Board.

4.02. Annual Meeting.

(a) Time of Meeting; Business Transacted. The annual meeting of shareholders shall be held on the first Tuesday of February of each year, at the hour of 10:00 a.m., provided, however, that if the day falls on a legal holiday, the meeting shall be held at the same time on the next day that is not a legal holiday. At the meetings directors shall be elected, reports on the affairs of the corporation shall be considered, and any other proper matter may be presented and business transacted that is within the power of the shareholders.

(b) Failure to Hold. If there is a failure to hold the annual meeting for a period of 60 days after the date designated for the meeting as provided in subparagraph (a) of this Paragraph 4.02, any shareholder may apply to a court of the county in which the corporation's principal executive office is located for an order compelling the corporation to hold the meeting. The shares represented at the meeting so held, either in person or by proxy, and entitled to vote at the meeting shall constitute a quorum for the purpose of the meeting, despite any provision of the Articles, these Bylaws, or the general corporation law to the contrary.

4.03. Notice of Meetings.

(a) Notice of Meetings. Whenever shareholders are required or permitted to take any action at a meeting, a written notice of the meeting shall be given to each shareholder entitled to vote at the meeting, subject to the provisions of subparagraph (f) of this Paragraph 4.03.

(b) Method of Giving Notice of Meeting. Notice of a shareholders' meeting shall be given either personally or by mail, postage prepaid, or other means of written communication, addressed to the shareholder at the address of the shareholder appearing on the books of the corporation or given by the shareholder to the corporation for the purpose of notice; or if no address appears or is given, at the place where the principal executive office of the corporation is located or by publication at least once in a newspaper of general circulation in the county in which the principal executive office is located. The notice shall be deemed to have been given at the time when delivered personally or deposited in the mail or sent by other means of written communication.

If any notice addressed to the shareholder at the address of the shareholder appearing on the books of the corporation is returned to the corporation by the United States Postal Service marked to indicate that the United States Postal Service is unable to deliver it to the shareholder at the address, all future notices shall be deemed to have been duly given without further mailing if the notices are available to the shareholder on written demand of the shareholder at the principal executive office of the corporation for a period of one year from the date of the giving of the notice to all other shareholders.

(c) Time of Notice. Notice of any meeting of the shareholders will be sent by first-class mail to each shareholder entitled to the notice not less than 10 nor more than 60 days before the date of the meeting; provided, however, that at any time that this corporation has outstanding shares held of record by 500 or more persons on the record date for the shareholders' meeting, notice may be sent by third-class mail if sent not less than 30 days before the date of the meeting.

(d) Contents of Notice. The notice of any meeting of the shareholders shall state the place, date, and hour of the meeting and: (1) in the case of a special meeting, the general nature of the business to be transacted, and no other business may be transacted; or (2) in the case of the annual meeting, those matters that the Board, at the time of the mailing of the notice, intends to present for action by the shareholders, but any proper matter may be presented at the meeting for the action, provided, however, that any shareholder approval at a meeting, other than unanimous approval by those entitled to vote, shall be valid only if the general nature of the proposal so approved was stated in the notice of meeting or in any written waiver of notice. The notice of any meeting at which directors are to be elected must include the names of nominees intended at the time of the notice to be presented by management for election.

(e) Notice of Adjourned Meeting. When a shareholders' meeting is adjourned to another time or place, notice need not be given of the adjourned meeting if the time and place of the adjourned meeting are announced at the meeting at which the adjournment is taken, provided, however, that if the adjournment is for more than 45 days or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting must be given

to each shareholder of record entitled to vote at the meeting. At the adjourned meeting the corporation may transact any business that might have been transacted at the original meeting.

(f) Waiver of Notice and Other Defects. The transactions of any meeting of shareholders, however called and noticed and wherever held, are as valid as though made at a meeting duly held after regular call and notice, if a quorum (see Paragraph 4.05 of these Bylaws) is present either in person or by proxy and if, either before or after the meeting, each of the persons entitled to vote, not present in person or by proxy, signs a written waiver of notice, or a consent to the holding of the meeting, or an approval of the minutes of the meeting. All waivers, consents, and approvals must be filed with the corporate records or made a part of the minutes of the meeting. Except as provided in subparagraph (d) of this Paragraph 4.03 and unless otherwise provided in the Articles, neither the business to be transacted nor the purpose of any regular or special meeting of shareholders need be specified in any written waiver of notice, consent to the holding of the meeting, or approval of the minutes of the meeting.

Attendance by a person at any meeting also constitutes a waiver of notice to that person if he or she fails to object at the beginning of the meeting to the transaction of business because the meeting was not lawfully called or convened, but attendance does not constitute a waiver of the right to object to the consideration of matters required to be included in the notice but not so included if the objection is expressly made at the meeting.

4.04. Special Meetings.

(a) Calling of Special Meetings. On request in writing to the Board Chairperson, or the President, or a Vice President, or the Secretary of the corporation by any person (other than the Board) entitled to call a special meeting of shareholders, the officer immediately must cause notice to be given to the shareholders entitled to vote that a meeting will be held at a time requested by the person or persons calling the meeting, not less than 35 nor more than 60 days after receipt of the request. If the notice is not given within 20 days after receipt of the request, the persons entitled to call the meeting may give the notice or they may apply to an appropriate court of the county in which the principal executive office of the corporation is located or an order, after notice to the corporation giving it an opportunity to be heard, summarily ordering the giving of the notice.

(b) Persons Entitled to Call Special Meetings. Special meetings of the shareholders may be called by the Board of Directors, the Board Chairperson, the President, or the holders of shares entitled to cast not less than 10 percent of the votes at the meeting.

4.05. Quorum of Shareholders.

(a) Quorum of Shareholders. A majority of the shares entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders, provided, however, that whenever shares are disqualified from voting on any matter, they shall not be considered outstanding for the determination of a quorum at any meeting to act on that matter under any other provision of corporate law of the State of Incorporation Articles or these Bylaws.

(b) Loss of Quorum. The shareholders present at a duly called or held meeting at which a quorum is present may continue to transact business until adjournment despite the withdrawal of enough shareholders to leave less than a quorum, if any action taken (other than adjournment) is approved by at least a majority of the shares required to constitute a quorum.

(c) Adjournment for Lack of Quorum. In the absence of a quorum, any meeting of shareholders may be adjourned from time to time by the vote of a majority of the shares represented either in person or by proxy, but no other business may be transacted, except as provided in subparagraph (b) of this Paragraph 4.05.

4.06. Effect of Vote.

If a quorum is present, the affirmative vote of the majority of the shares represented at the meeting and entitled to vote on any matter shall be the act of the shareholders, unless the vote of a greater number or voting by classes is required by corporate law of the State of Incorporation or the Articles, and except as provided in subparagraph (a) of Paragraph 4.05 of these Bylaws, provided, however, that whenever shares are disqualified from voting on any matter, they shall not be considered outstanding for the determination of the required vote to approve action on that matter under any other provision of the general corporation law or the Articles or these Bylaws.

4.07. Election of Directors.

Elections for directors need not be by ballot unless a shareholder demands election by ballot at the meeting and before the voting begins. In any election of directors, the candidates receiving the highest number of votes of the shares entitled to be voted for them up to the number of directors to be elected by the shares are elected.

4.08. Votes Per Share- Voting of Fractional Shares.

Except as provided in Paragraph 4.09 and except as may otherwise be provided in the Articles, each outstanding share or fraction of a share shall be entitled to one vote on each matter submitted to a vote of shareholders.

4.09. Voting Multiple Shares.

Any holder of shares entitled to vote on any matter may vote part of the shares in favor of the proposal and refrain from voting the remaining shares or vote them against the proposal, other than elections to office, but, if the shareholder fails to specify the number of shares being voted affirmatively, it will be conclusively presumed that the shareholder's approving vote is with respect to all shares the shareholder is entitled to vote.

4.10. Cumulative Voting.

Every shareholder entitled to vote at any election of directors may cumulate votes and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of votes to which the shareholder's shares are entitled, or distribute them on the same

principle among as many candidates as the shareholder thinks fit. But no shareholder shall be entitled to cumulate votes (i.e., cast for any one or more candidates a number of votes greater than the number of the shareholder's shares) unless the candidate's or candidates' names have been placed in nomination before the voting and the shareholder has given notice at the meeting before the voting of the shareholder's intention to cumulate votes. If any one shareholder has given the notice, all shareholders may cumulate their votes for candidates in nomination.

4.11. Voting of Shares by Fiduciaries.

(a) Voting of Shares by Fiduciaries. The rights of the persons and entities specified in this section to vote shares are governed by the provisions of this Paragraph of the Bylaws.

(b) Personal Representative. Except as provided in subparagraph (i) of this Paragraph 4.11, shares held by an administrator, executor, guardian, conservator, or custodian may be voted by the holder either in person or by proxy, without a transfer of the shares into the holder's name.

(c) Trustee. Shares standing in the name of a trustee may be voted by the trustee, either in person or by proxy, but no trustee shall be entitled to vote shares so held without a transfer of them into the trustee's name.

(d) Receiver. Shares standing in the name of a receiver may be voted by the receiver. Shares held by or under the control of a receiver may be voted by the receiver without the shares being transferred into the receiver's name if authority to vote them is contained in the court order appointing the receiver.

(e) Pledgee. Subject to the provisions of Paragraph 4.12 of these Bylaws and except where otherwise agreed in writing between the parties, a shareholder whose shares are pledged shall be entitled to vote the shares until they have been transferred into the name of the pledgee, thereafter the pledgee shall be entitled to vote the shares so transferred.

(f) Minor. Shares standing in the name of a minor may be voted and the corporation may treat all rights incident to the shares as exercisable by the minor, in person or by proxy, whether or not the corporation has notice, actual or constructive, of the minority, unless a guardian of the minor's property has been appointed and written notice of the appointment given to the corporation.

(g) Corporation. Shares standing in the name of another corporation, domestic or foreign, may be voted by the officer, agent, or proxyholder as the bylaws of the other corporation may prescribe or, in the absence of a provision, as the board of directors of the other corporation may determine or, in the absence of a determination, by the board chairperson, president, or any vice president of the other corporation, or by any other person authorized to do so by the board chairperson, president, or any vice president of the other corporation. Shares that are purported to be voted or any proxy purported to be executed in the name of a corporation (whether or not any title of the person signing is indicated) shall be presumed to be voted or the proxy executed in accordance with the foregoing provisions, unless the contrary is shown.

(h) Subsidiary. Shares of the corporation owned by any subsidiary of the corporation shall not be entitled to vote on any matter.

(i) Corporate Fiduciary. Shares held by the corporation in a fiduciary capacity, and shares of the corporation held in a fiduciary capacity by its subsidiary, if any, shall not be entitled to vote on any matter, except to the extent that the settlor or beneficial owner possesses and exercises a right to vote or to give the corporation binding instructions as to how to vote the shares.

(j) Shares in Names of Two or More Persons. If shares stand of record in the names of two or more persons, whether fiduciaries, members of a partnership, joint tenants, tenants in common, husband and wife as community property, tenants by the entirety, voting trustees, [persons entitled to vote under a shareholder voting agreement,] or otherwise, or if two or more persons (including proxyholders) have the same fiduciary relationship respecting the same shares, unless the Secretary of the corporation is given written notice to the contrary and is furnished with a copy of the instrument or order appointing them or creating the relationship where it is so provided, their acts with respect to voting shall have the following effect:

(1) If only one votes, the act binds all.

(2) If more than one vote, the act of the majority so voting binds all.

(3) If more than one vote, but the vote is evenly split on any particular matter, each faction may vote the securities in question proportionately.

If the instrument so filed or the registration of the shares shows that any tenancy is held in unequal interests, a majority or even split for the purpose of the above shall be a majority or even split in interest.

4.12. Proxies.

(a) Authorization. Every person entitled to vote shares may authorize another person or persons to act by proxy with respect to the shares. Except as otherwise provided by written agreement between the parties, the recordholder of shares that a person holds as pledgee or otherwise as security or that belong to another must issue to the pledgor or to the owner of the shares, on demand and payment of necessary expenses, a proxy to vote or take other action on the shares.

(b) Presumptive Validity. Any proxy purporting to be executed in accordance with this Paragraph 4.12 shall be presumptively valid.

(c) Duration of Proxy. No proxy shall be valid after the expiration of 11 months from the date of the proxy unless otherwise provided in the proxy. Every proxy continues in full force and effect until revoked by the person executing it before the vote for which the proxy was issued, except as provided in subparagraphs (f) and (g) of this Paragraph 4.12. The dates contained on

the forms of proxy presumptively determine the order of execution, regardless of the postmark dates on the envelopes in which they are mailed.

(d) Death or Incapacity of Maker. A proxy is not revoked by the death or incapacity of the maker, unless (except as provided in subparagraph (f) of this Paragraph 4.12), before the vote is counted, written notice of the death or incapacity is received by the corporation.

(e) Revocation of Proxy. Revocation of a proxy is effected by a writing delivered to the corporation stating that the proxy is revoked or by a subsequent proxy executed by, or as to any meeting by attendance at the meeting and voting in person by, the person executing the proxy.

(f) Proxy Providing for Irrevocability. A proxy that states that it is irrevocable is irrevocable for the period specified in the proxy (notwithstanding subparagraph (d) of this Paragraph 4.12) when it is held by any of the following or a nominee of any of the following:

(1) A pledgee.

(2) A person who has purchased or agreed to purchase or holds an option to purchase the shares or a person who has sold a portion of the person's shares in the corporation to the maker of the proxy.

(3) A creditor or creditors of the corporation or the shareholder who extended or continued credit to the corporation or the shareholder in consideration of the proxy if the proxy states that it was given in consideration of the extension or continuation of credit and the name of the person extending or continuing credit.

(4) A person who has contracted to perform services as an employee of the corporation, if a proxy is required by the contract of employment and if the proxy states that it was given in consideration of the contract of employment, the name of the employee, and the period of employment contracted for.

(5) A beneficiary of a trust with regard to shares held by the trust.

(6) A person designated by or under an agreement relating to a voting agreement between shareholders (see subparagraph (a) of Paragraph 4.13 of these Bylaws).

In addition, a proxy may be made irrevocable (notwithstanding subparagraph (d) of this Paragraph 4.12) if it is given to secure the performance of a duty or to protect a title, either legal or equitable, until the happening of events that, by its terms, discharge the obligations secured by it.

(g) When Irrevocable Proxy Is Revocable. Notwithstanding the period of irrevocability specified in the proxy as provided in subparagraph (f) of this Paragraph 4.12, the proxy becomes revocable when the pledge is redeemed, the option or agreement to purchase is terminated, or the seller no longer owns any shares of the corporation or dies, the debt of the corporation or the shareholder is paid, the period of employment provided for in the contract of employment has

terminated or the person ceases to be a beneficiary of the trust or the agreement has terminated. A proxy may be revoked, notwithstanding a provision making it irrevocable, by a transferee of shares without knowledge of the existence of the provision unless the existence of the proxy and its irrevocability appears on the certificate representing the shares.

(h) Form of Proxy or Written Consent. Any form of proxy or written consent (see Paragraph 4.16 of these Bylaws) distributed to 10 or more shareholders must, if the outstanding shares are held of record by 100 or more persons afford an opportunity on the proxy or form of written consent to specify a choice between approval and disapproval of each matter or group of related matters intended to be acted on at the meeting for which the proxy is solicited or by the written consent, other than elections to office, and must provide, subject to reasonable specified conditions, that where the person solicited specifies a choice with regard to any matter the shares will be voted in accordance with the specification.

In any election of directors, any form of proxy in which the directors to be voted on are named in the proxy as candidates and that is marked by a shareholder "withhold" or otherwise marked in a manner indicating that the authority to vote for the election of directors is withheld shall not be voted either for or against the election of a director.

Failure to comply with this subparagraph (h) does not invalidate any corporate action taken, but may be the basis for challenging any proxy at a meeting and any shareholder may sue in the superior court to compel compliance with the proxy instructions.

(i) Directors' Determination of Execution and Use of Proxies. The Board of Directors may, in advance of any annual or special meeting of the shareholders, prescribe additional regulations concerning the manner of execution and filing of proxies and the validation of the same, which are intended to be voted at any meeting.

4.13. Voting Trust.

(a) Voting Trust. Shares may be transferred by written agreement to trustees in order to confer on them the right to vote and otherwise represent the shares for the period of time, not exceeding 10 years, as may be specified in the agreement. At any time within two years before the time of expiration of any voting trust agreement as originally fixed or as last extended as provided in this paragraph, one or more beneficiaries under the voting trust agreement may, by written agreement and with the written consent of the voting trustee or trustees, extend the duration of the voting trust agreement with regard to their shares for an additional period not exceeding 10 years from the expiration date of the trust as originally fixed or as last extended as provided in this paragraph. A duplicate of the voting trust agreement and any extension of the agreement must be filed with the Secretary of the corporation and must be open to inspection by a shareholder, a holder of a voting trust certificate, or the agent of either, on the same terms as the record of shareholders of the corporation is open to inspection. These agreements shall be subject to any other restrictions provided by the laws of the State of Incorporation.

(b) Effect of Paragraph. This section of the Bylaws is not intended to invalidate any voting or other agreement among shareholders or any irrevocable proxy meeting the requirements of subparagraph (f) of Paragraph 4.12 of these Bylaws.

4.14. Inspectors of Election.

(a) Appointment. In advance of any meeting of shareholders the Board may appoint inspectors of election to act at the meeting and any adjournment of the meeting. If inspectors of election are not so appointed, or if any persons so appointed fail to appear or refuse to act, the chairperson of any meeting of shareholders may, and on the request of any shareholder or a shareholder's proxy must, appoint inspectors of election (or persons to replace those who so fail or refuse) at the meeting.

(b) Number. The number of inspectors must be either one or three. If the inspector or inspectors are appointed at a meeting on the request of one or more shareholders' or proxies, the majority of shares represented in person or by proxy will determine whether one or three inspectors are to be appointed.

(c) Duties. The inspector or inspectors of election shall:

- (1) Determine the number of shares outstanding and the voting power of each, the shares represented at the meeting, the existence of a quorum, and the authenticity, validity, and effect of proxies.
- (2) Receive votes, ballots, or consents.
- (3) Hear and determine all challenges and questions in any way arising in connection with the right to vote.
- (4) Count and tabulate all votes or consents.
- (5) Determine when the polls shall close.
- (6) Determine the result of the election.
- (7) Do acts as may be proper to conduct the election or vote with fairness to all shareholders.
- (8) Perform his, her, or their duties impartially, in good faith, to the best of his, her, or their ability and as expeditiously as is practical.

(d) Decision, Act, or Certificate. If there are three inspectors of election, the decision, act, or certificate of a majority is effective in all respects as the decision, act, or certificate of all. Any report or certificate made by the inspectors of election is prima facie evidence of the facts stated in it.

4.15. Conduct of Meetings.

At every meeting of the shareholders, the President of the corporation, or in the President's absence the Vice President designated by the President, or in the absence of a

designation a chairperson (who shall be one of the Vice Presidents, if any is present) chosen by a majority in interest of the shareholders of the corporation present in person or by proxy and entitled to vote, shall act as chairperson. The Secretary of the corporation, or in the Secretary's absence an Assistant Secretary, if any, shall act as Secretary of all meetings of the shareholders. The chairperson may appoint another person to act as secretary for any share-holders' meeting only in the absence of the Secretary and all Assistant Secretaries.

4.16. Action Without a Meeting.

(a) When Authorized. Unless otherwise provided in the Articles, any action that may be taken at any annual or special meeting of shareholders may be taken without a meeting and without prior notice, if a consent in writing, setting forth the action taken, is signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take the action at a meeting where all shares entitled to vote on the matter were present and voted, provided, however, that directors may not be elected by written consent except by the unanimous written consent of all shares entitled to vote for the election of directors.

(b) Notice of Shareholder Approval. Unless the consents of all shareholders entitled to vote have been solicited in writing, notice to those shareholders entitled to vote who have not consented in writing must be given as follows:

(1) Notice of any shareholder approval pursuant relating to contract or transaction between corporation and its director or legal entity in which one or more of its directors has a material financial interest relating to indemnification by corporation of its director, officer, employee, or agent arising out of court, administrative, or investigative proceeding relating to reorganizations, or relating to plan of distribution on dissolution without a meeting by less than unanimous written consent must be given at least 10 days before the consummation of the action authorized by the approval; and

(2) Prompt notice must be given of the taking of any other corporate action approved by shareholders without a meeting by less than unanimous written consent.

(c) Revocation of Consent. Any shareholder giving a written consent, or the shareholder's proxyholders, or a transferee of the shares, or a personal representative of the shareholder, or their respective proxyholders, may revoke the consent by a writing received by the corporation before the time that written consents of the number of shares required to authorize the proposed action have been filed with the Secretary of the corporation, but may not do so after the consents have been filed. The revocation is effective on its receipt by the Secretary of the corporation.

Neither promissory notes of the purchaser (unless adequately secured by collateral other than the shares acquired) nor future services shall constitute payment or part payment of shares of the corporation.

When shares are issued for any consideration other than money, the Board must state by resolution its determination of the fair value of the consideration to the corporation in monetary terms.

In the absence of fraud in the transaction, the judgment of the directors as to the value of the consideration for shares shall be conclusive.

(d) Share Dividend; Reclassification of Shares. Shares may also be issued as a share dividend or on a stock split, reverse stock split, reclassification of outstanding shares into shares of another class, conversion of outstanding shares into shares of another class, exchange of outstanding shares for shares of another class, or other change affecting outstanding shares.

(e) Compliance With Corporate Securities Law. The corporation shall not offer to sell or sell any security issued by it, whether or not through underwriters, until the offer or sale has been complied with the security laws for the State of Incorporation governing such offers or sales, unless the security or transaction is exempted from the such states applicable statutes and rules and regulations.

(f) Payment for Shares. Every subscriber to shares and every person to whom shares are originally issued is liable to the corporation for the full consideration agreed to be paid for the shares. The full agreed consideration shall be paid prior to or concurrently with the issuance of the shares, unless the shares are issued as partly paid pursuant to Paragraph 7.03 of this Article, in which case the consideration shall be paid in accordance with the agreement of subscription or purchase.

(g) Shares as Deemed Fully Paid. Except as provided in Paragraph 7.03 of this Article, shares issued as provided in subparagraphs (c) and (d) of this Paragraph shall be declared and taken to be fully paid stock and not liable to any further call, nor shall the holder of the shares be liable for any further payments under the provisions of the General Law of the State of Incorporation.

7.02. Fractional Shares.

(a) Issuance of Fractional Shares. The corporation may, if the Board so determines, issue fractions of a share originally or on transfer.

(b) Failure to Issue. If the corporation does not issue fractions of a share, it shall, in connection with any original issuance of shares:

(1) Arrange for the disposition of fractional interests by those entitled to them;

(2) Pay in cash the fair value of fractions of a share as of the time when those entitled to receive the fractions are determined (provided, however, that the corporation may not pay cash for fractional shares if that action would result in the cancellation of more than 10 percent of the outstanding shares of any class); or

(3) Issue scrip or warrants in registered form, as certificated or uncertificated securities, or in bearer form as certificated securities, that shall entitle the holder to receive a

certificate for a full share on the surrender of the scrip or warrants aggregating a full share. Scrip or warrants shall not, however, unless they provide otherwise, entitle the holder to exercise voting rights, to receive dividends on them, or to participate in any of the assets of the corporation in the event of liquidation.

7.03. Partly Paid Shares.

The corporation may, if the Board so determines, issue the whole or any part of its shares as partly paid and subject to call for the remainder of the consideration to be paid for them. If shares are so issued, the corporation shall, on the declaration of any dividend on fully paid shares, declare a dividend on partly paid shares of the same class, but only on the basis of the percentage of the consideration actually paid on them.

A subscriber to partly paid shares is liable to the corporation as provided in Paragraph 7.01(f) of this Article, but a person holding shares as a pledgee, executor, administrator, guardian, conservator, trustee, receiver, or in any representative or fiduciary capacity is not personally liable for any unpaid balance, although the estate and funds in the hands of the fiduciary or representative are liable for any unpaid balance of the subscription price and the shares are subject to sale for the unpaid balance.

7.04. Options.

Either in connection with the issue, subscription, or sale of any of its shares, bonds, debentures, notes, or other securities, or independently of the foregoing, the corporation may, if so determined by the Board, grant options to purchase or subscribe for shares of any class or series on any terms and conditions that the Board may deem expedient. Option rights may be transferable or nontransferable and separable or inseparable from other securities of the corporation, as determined by the Board.

7.05. No Preemptive Rights.

Unless the Articles provide otherwise, the Board may issue shares, options, or securities having conversion or option rights without first offering them to shareholders of any class.

7.06. Classes of Stock.

The corporation is authorized to issue two classes of shares. The corporation has authority to issue 26,250,000 of Common Stock with a par value of ten dollars (\$10) per share and 26,250,000 shares of Preferred Stock with a par value of ten dollars (\$10) per share. Shares of stock may be issued from time to time for such consideration as shall be determined by the board of directors. The value of any property received in full or partial payment for the respective shares shall be as conclusively determined by the board of directors.

The rights for the preferred stock shall be as follows:

(i) Voting Rights. Except as otherwise expressly provided in these bylaws, or as otherwise provided by law, the holders of common stock shall have and possess the exclusive right to notice of the shareholders meetings and the exclusive voting rights and powers. The holders of preferred stock shall not be entitled to notice of any shareholders' meeting or to vote on the election of directors or on any other matter.

(ii) Conversion Rights. If, after the date of issuance of any shares of preferred stock, no dividend is paid on such preferred shares of stock for eight (8) consecutive calendar quarters, the holders of such shares shall have the option, on written ninety (90) days notice to the Secretary of the corporation, to convert their preferred stock to common stock of the corporation. Such conversion shall be based on conversion of the par value of the preferred stock, to the fair market value or the par value of the common shares, whichever is greater. The holders of the preferred stock that have given written notice of their intent to exercise their option to convert to common stock, shall be notified by the Stock Transfer Agent of the corporation to return their shares to be exchanged for shares of common stock.

(iii) Liquidation Rights. In the event of any voluntary or involuntary liquidation, dissolution, or winding up of the corporation, the holders of the preferred stock of each series shall be entitled to received from the assets of the corporation, such preferential amount, in cash, as may be fixed for the series in redemption of those shares and, a further preferential amount in cash equal to all accrued and unpaid dividends on those shares to and including the date that the payment is made available to the holders of preferred stock. Those preferential amounts shall be paid or set apart for payment before the payment or setting apart for payment of any amount for, or the distribution of any assets of the corporation to, the holders of common stock in connection with the liquidation, dissolution, or winding up.

(iv) Dividends. The holders of the preferred stock shall be entitled to receive, when and as declared by the board of directors, out of any assets at the time legally available, dividends in cash at the respective rate fixed for that series by the board of directors, and no more. Those dividends shall be payable annually in each year to holders of preferred stock of record on a date not fewer than 10 days preceding each respective payment date, as specified by the board of directors. Any dividend not declared by the board of directors shall accrue and be cumulative from the date of issuance.

Dividends on preferred stock shall accrue at the respective rates fixed by the board of directors for that stock, whether or not those dividends are earned. Payments of all accrued and cumulative dividends for preferred stock, shall be paid before any dividends are declared for common stock of the corporation.

(v) Redemption. Any or all of the preferred stock may be redeemed at the option of the corporation, by resolution of the board of directors adopted at that time, at a price or prices per share fixed for that series of preferred stock, plus any an amount equal to all accrued and unpaid dividends on that stock to and including the date fixed for redemption. That sum referred to in this paragraph as the redemption price.

The corporation shall give notice of any redemption as provided in this subparagraph (c). The notice of redemption shall set forth the series of Preferred shares or the part of any series of Preferred shares to be redeemed, the date fixed for redemption, the redemption price, and, if the shares are certificated securities, the place or places at which the shareholders may obtain payment of the redemption price on surrender of their share certificates.

The corporation shall mail the notice of redemption, postage prepaid, to each holder of record of shares to be redeemed as of the date of mailing or as of a record date lawfully fixed, addressed to the holder at the holder's address appearing on the books of the corporation or given to the corporation for the purpose of notice, or if no such address appears or is given, at the place where the principal executive office of the corporation is located, not earlier than sixty (60) days nor later than twenty (20) days before the date fixed for redemption. Failure to comply with this paragraph shall not invalidate the redemption of shares.

On or after the date fixed for redemption and stated in the notice, each holder of Preferred shares called for redemption shall, if the shares are certificated, surrender the certificate evidencing those shares to the corporation at the place designated in the notice and shall then be entitled to receive payment of the redemption price. If less than all shares represented by any surrendered certificate are redeemed, a new certificate shall be issued representing the unredeemed shares. If the notice of redemption shall have been duly given, and if on the date fixed for redemption funds necessary for the redemption shall be available, then, notwithstanding that the certificates evidencing any Preferred shares so called for redemption shall not have been surrendered, the dividends with respect to the shares so called for redemption shall cease to accrue after the date fixed for redemption and all rights with respect to the shares so called for redemption shall after that date cease and terminate, excepting only the right of the holders to receive the redemption price without interest on surrender of their certificates, if the Preferred shares are certificated.

7.07. Employee Plans.

(a) Authority to Adopt. The corporation may, as determined by the Board, and subject to the approval of the shareholders, adopt and carry out a stock purchase plan or agreement, or stock option plan or agreement providing for the issue and sale for any consideration that may be fixed of its unissued shares or of issued shares acquired or to be acquired, to one or more of the employees or directors of the corporation or of any subsidiary or parent of the corporation or to a trustee on their behalf and for the payment of those shares in installments or at one time, and may provide for aiding those persons in paying for those shares by compensation for services rendered, promissory notes, or otherwise.

(b) Includable Features. The plan or agreement may include, among other features, as determined by the Board, the fixing of eligibility for participating in it; the class and price of shares to be issued or sold under the plan or agreement; the number of shares that may be subscribed for; the method of payment for the shares; the reservation of title until full payment has been made; the effect of the termination of employment; an option or obligation on the part of the corporation to repurchase the shares on termination of employment, restrictions on transfer of the shares; and the time limits of and termination of the plan.

7.08. Certificates of Determination.

(a) Execution of Officers' Certificate. Before the corporation issues any share of any class or series of which the rights, preferences, privileges, and restrictions, or any of them, or the number of shares constituting any series or the designation of the series, are not set forth in the Articles but are fixed in a resolution adopted by the Board pursuant to authority given in its articles, an officers' certificate, setting forth a copy of the resolution and the number of shares of the class or series, and stating that none of the shares of the class or series has been issued, shall be executed and filed with any agency required by the laws of the State of Incorporation.

(b) Change in Rights. After any certificate of determination as provided in Subparagraph (a) of this section has been appropriately filed, but before the corporation has issued any shares of the class or series covered by it, the Board may alter or revoke any right, preference, privilege, or restriction fixed or determined by the resolution set forth in the certificate by the adoption of another resolution appropriate for that purpose and the execution and filing of an officers' certificate setting forth a copy of the resolution and stating that none of the shares of the class or the series affected has been issued.

When the Board effects a change in rights, the provision of the original certificate of determination being amended must be identified in the amendment.

(c) Changing Number of Shares of Series. After any certificate of determination has been executed and appropriately filed, the Board may increase or decrease the number of shares constituting any series by the adoption of another resolution appropriate for that purpose setting forth a copy of the resolution, the number of shares of the series then outstanding, and the increase or decrease in the number of shares constituting that series, and filed in compliance with the laws of the State of Incorporation.

7.09. Shareholder's Right to Share Certificate.

(a) Shareholder's Right to Share Certificate. Every holder of shares in the corporation shall be entitled to have a certificate signed in the name of the corporation by the Board Chairperson [or Vice Chairperson], if any, or the President or a Vice President and by the Chief Financial Officer or an Assistant Treasurer, or the Secretary or any Assistant Secretary of the corporation, certifying the number of shares and the class or series of shares owned by the shareholder. Any or all of the signatures on the certificate may be facsimile. In case any officer, transfer agent, or registrar who has signed or whose facsimile signature has been placed on a certificate shall have ceased to be an officer, transfer agent, or registrar before that certificate is issued, the certificate may be issued by the corporation with the same effect as if that person were an officer, transfer agent, or registrar at the date of issue.

(b) Partly Paid Shares. If the corporation issues partly paid shares, it shall issue certificates for those shares as provided in subparagraph (a) of this section.

7.10. Contents of Certificate .

(a) The certificates shall contain the matter specified in Paragraph 7.08(a) of this Article. In addition, if the shares of the corporation are classified or if any class of shares has two or more series, there shall appear on the certificate one of the following:

- (1) A statement of the rights, preferences, privileges, and restrictions granted to or imposed on each class or series of shares authorized to be issued and on the holders of the shares.
- (2) A summary of the rights, preferences, privileges, and restrictions with reference to the provisions of the Articles of Incorporation and any certificates of determination establishing those rights and restrictions.
- (3) A statement setting forth the office or agency of the corporation from which shareholders may obtain, on request and without charge, a copy of the statement referred to in clause (1) of this paragraph.

(b) There shall also appear on the certificate (unless stated or summarized under clause (1) or clause (2) of subparagraph (a) of this section the statements required by all of the following clauses to the extent applicable:

- (1) The fact that the shares are subject to restrictions on transfer.
- (2) If the shares are assessable or are not fully paid, a statement that they are assessable or a statement of the total amount of consideration to be paid and the amount paid, as required.
- (3) The fact that the shares are subject to a voting agreement or an irrevocable proxy or restrictions on voting rights contractually imposed by the corporation.
- (4) The fact that the shares are redeemable.
- (5) The fact that the shares are convertible and the period for conversion.

7.11. Exchange of Certificates.

(a) On Amendment of Articles or Otherwise. If the Articles are amended in any way affecting the statements contained in the certificates for outstanding shares, or it becomes desirable for any reason, in the discretion of the Board of Directors, to cancel any outstanding certificate for shares and issue a new certificate for the shares conforming to the rights of the

holder, the Board may order any holders of outstanding certificates for shares to surrender and exchange them for new certificates within a reasonable time to be fixed by the Board.

(b) Contents of Order. The order may provide that a holder of any certificates so ordered to be surrendered is not entitled to vote or to receive dividends or exercise any of the other rights of shareholders until the holder has complied with the order, but the order operates to suspend those rights only after notice and until compliance. The duty of surrender of any outstanding certificates may also be enforced by the corporation by civil action.

7.12. Lost, Stolen, or Destroyed Certificate.

(a) Issuance of New Certificate. The corporation may issue a new share certificate or a new certificate for any other security in the place of any certificate previously issued by it, that is alleged to have been lost, stolen, or destroyed. The corporation may require the owner of the lost, stolen, or destroyed certificate, or the owner's legal representative, to give the corporation a bond (or other adequate security) sufficient to indemnify it against any claim that may be made against it (including any expense or liability) on account of the alleged loss, theft, or destruction of any certificate or the issuance of a new certificate.

(b) Purchase by Protected Purchaser. If after a new security has been issued for a lost, destroyed, or stolen security, a protected purchaser of the original security presents it for registration or transfer, the corporation must register the transfer unless registration would result in overissue, in which event the corporation's liability is that set forth in the last paragraph of Paragraph 8.03 of Article VIII of these Bylaws. In addition to any rights on the indemnity bond, the corporation may recover the new security from the person to whom it was issued or any person taking under him or her except a protected purchaser.

7.13. Alternative System in Lieu of Certificates.

Notwithstanding the provisions of subparagraph (a), Paragraph 7.08, of this Article VII, the corporation may adopt a system of issuance, recordation, and transfer of its shares by electronic or other means not involving any issuance of certificates, including provisions for notice to purchasers in substitution for the required statements on the certificates under subparagraphs (a) and (b) of Paragraph 7.10 of this Article VII, which system has been approved by the United States Securities and Exchange Commission, or that is authorized in any statute of the United States, or is in accordance with the laws of the state of incorporation.

ARTICLE 8

TRANSFER OF SHARES

8.01. Duty of Corporation.

When a security in registered form is presented to the corporation with a request to register transfer, the corporation is under a duty to register the transfer as required if:

(a) Under the terms of the security, the person seeking registration of transfer is eligible to have the security registered in its name; (b) The security is endorsed by the appropriate person, or by an agent who has actual authority to act for the appropriate person; (c) Reasonable assurance is given that those endorsements are genuine and effective; (d) Any applicable law relating to the collection of taxes has been complied with; (e) The transfer does not violate any restriction on transfer imposed by the corporation; (f) A demand that the corporation not register the transfer is not in effect, and no legal process or indemnity bond is obtained by the person demanding that the transfer not be registered; and (g) The transfer is in fact rightful, or is to a protected purchaser.

8.02 Nonliability of Corporation.

(a) Registration of Transfer. Except as otherwise provided in any law relating to the collection of taxes, the corporation is not liable to the owner or any other person suffering loss as a result of the registration of a transfer of a security if:

- (1) Registration was made pursuant to an effective endorsement;
- (2) The corporation received no demand that the corporation not register the transfer, such a demand was received but did not take effect, or the corporation complied with its notification obligations under appropriate state or federal laws;
- (3) The corporation registered the transfer before receipt of, and reasonable opportunity to act on, legal process enjoining the corporation from registering the transfer; and
- (4) The corporation was not acting in collusion with the wrongdoer.

(b) Failure to Notify Corporation of Lost, Destroyed, or Stolen Security. Where a security has been lost, apparently destroyed, or wrongfully taken and the owner fails to notify the corporation of that fact within a reasonable time after he or she has notice of it and the corporation registers a transfer of the security before receiving the notification, the owner is precluded from asserting against the corporation any claim for registering the transfer or any claim to a new security.

8.03. Liability of Corporation.

Where the corporation has registered a transfer of a security to a person not entitled to it, the corporation on demand must deliver a like security to the true owner unless:

- (a) The registration was pursuant to subparagraph (a) of Paragraph 8.02 of this Article;
- (b) The owner is precluded from asserting any claim for registering the transfer as provided in subparagraph (c) of Paragraph 8.02 of this Article; or
- (c) The delivery would result in overissue.

In this last case, if an identical security that does not constitute an overissue is reasonably available for purchase, the person entitled to the issue may compel the corporation to purchase and deliver it to him or her against surrender of the security, if any, that he or she holds; or if the security is not reasonably available for purchase, the person entitled to the issue may recover from the corporation the purchase price the person or the last purchaser for value paid for it with interest from the date of demand.

8.04. Liability on Transfer of Partly Paid Shares.

(a) Good Faith Purchaser. A transferee of shares for which the full agreed consideration has not been paid to the corporation, who acquired them in good faith, without knowledge that they were not paid in full or to the extent stated on the certificate representing them, is liable only for the amount shown by the certificate to be unpaid on the shares represented by the certificate, until the transferee transfers the shares to one who becomes liable for the amount. The liability of any holder of the shares who derives title through a transferee and who is not a party to any fraud affecting the issue of the shares is the same as that of the transferee through whom title was derived.

(b) Purchase With Knowledge. Every transferee of partly paid shares who acquired them under a certificate showing the fact of part payment, and every transferee of the shares (other than a transferee who derives title through a holder in good faith without knowledge and who is not a party to any fraud affecting the issue of the shares) who acquired them with actual knowledge that the full agreed consideration had not been paid to the extent stated on the certificate for the shares, is personally liable to the corporation for installments of the amount unpaid becoming due until the shares are transferred to one who becomes liable for the unpaid amount.

(c) Transferor. In either case mentioned in subparagraph (a) or (b) of this Paragraph 8.04, the transferor shall remain personally liable for the unpaid consideration if so provided in the certificate or agreed on in writing.

Re: **inForm, Inc./Regulation A Offering Statement**

Dear Sirs:

In connection with the submittal of a Third Amended Offering Statement by inForm, Inc., an Oregon corporation, pursuant to Regulation A, I have examined such corporate records, certificates and other documents and such questions of law as I have considered necessary or appropriate for purposes of this opinion.

Upon the basis of such examination, I am of the opinion that:

1. The Company has been duly incorporated and is an existing corporation in good standing under the laws of the State of Oregon;
2. A sufficient number of Preferred Shares of the Company has been authorized in conformity with the Articles of Incorporation, as amended, so as not to violate any applicable law or agreement or instrument currently binding on the Company;
3. When such Preferred Shares have been issued pursuant to the terms of the Offering Statement, such preferred shares will be duly and validly issued, fully paid and non-assessable.

This opinion letter is governed by, and shall be interpreted in accordance with, the Legal Opinion Accord ("the Accord") of the ABA Section of Business Law (1991), as amended. As a consequence, it is subject to a number of qualifications, exceptions, limitations on coverage, and other limitations, all as are more particularly described in the Accord, and this opinion letter should be read in conjunction therewith.

Rights and Restrictions of the Classes of Stock. The powers preferences and rights and the qualifications, limitations and restrictions of the classes of stock are as follows:

(a) **Dividends.** The holders of Preferred Stock shall be entitled to receive dividends, as declared by the board of directors, from any corporate assets at the time legally available for this purpose, payable in cash quarterly or at such intervals and on such dates as the board of directors may from time to time decide. Dividends on the Preferred Stock shall (i) accrue from the date of issuance of the shares, whether or not earned or declared, (ii) be payable before any dividends on Common Stock are paid, declared or set apart, and (iii) be cumulative, so that if dividends required to be paid under this clause on outstanding shares of Preferred have not been paid or set apart, the amount of any such deficiency shall be paid or set apart for payment, but without interest, before any distribution, by dividend or otherwise, is declared, paid on, or set apart for the Common Stock. In addition to the cumulative preferential dividend set forth above, at the same time any distribution shall be paid on, or declared and set apart for Common Stock, a distribution shall be paid on, declared and set apart for the Preferred Stock on the basis that each share of Preferred Stock shall receive a distribution equal to the distribution on each share of Common Stock. In case the Corporation shall at any time subdivide the outstanding shares of Common Stock, or shall issue a stock dividend on its outstanding Common Stock, the dividend rights of a share of Preferred Stock under this section in effect immediately prior to such subdivision or the issuance of such dividend shall be proportionately increased, and in case the corporation shall at any time combine the outstanding shares of Common Stock, the dividend rights of a share of Preferred Stock in effect immediately prior to such combination, as the case may be. For purposes of this Subsection (a), unless the context otherwise requires, "distribution" shall mean the transfer of cash or property without consideration, whether by way of dividend or otherwise, or the purchase or redemption of shares of this corporation for cash or property.

(b) **Participation in Assets on Dissolution.** In the event of any voluntary or involuntary liquidation, dissolution, or winding up of the Corporation, the holders of shares of the Preferred Stock then outstanding shall be entitled to be paid, out of the assets of the corporation available for distribution to its stockholders, whether from capital, surplus or earnings, before any payment shall be made in respect of the corporation's Common Stock, an amount equal to ten dollars (\$10.00) per share, plus all declared and unpaid dividends thereon to the date fixed for distribution. After setting apart or paying in full the preferential amounts due the holders of the Preferred Stock, the remaining assets of the Corporation available for distribution to stockholders, if any, shall be distributed to the holders of Common Stock, each such issued and outstanding share of Common Stock entitling the holders thereof to receive an equal proportion of said remaining assets. If upon liquidation, dissolution, or winding up of the Corporation, the assets of the Corporation available for distribution to its shareholders shall be insufficient to pay the holders of the Preferred Stock the full amounts to which they are respectively entitled, the holders of the Preferred Stock shall share ratably in any distribution of assets according to the respective amounts which would be payable in respect of the shares held by them upon such distribution if all amounts payable on or with respect to said shares were paid in full. The merger or consolidation of the corporation into or with another corporation in which this Corporation shall not survive and the shareholders of this corporation shall own less than 50 percent of the voting securities of the surviving corporation or the sale, transfer or lease (but not including a transfer of lease by pledge or mortgage to a bona fide lender) of all or substantially all of the assets of the corporation shall be deemed to be a liquidation, dissolution or winding up of the corporation as those terms are used in this Subsection (b).

(c) **Voting Rights.** Except as otherwise provided by these Articles of Incorporation, or as required by law, the holders of shares of Common Stock shall have exclusive voting rights and powers. Each share of Common Stock shall have one vote on all matters on which shareholders are entitled to vote under the law and under these Articles of Incorporation. There is no right to cumulate votes for directors by either the holders of Common Stock or as hereafter provided, in certain circumstances by the holders of shares of Preferred Stock. If at any time dividends on the Preferred Stock shall be in arrears for eight or more quarterly periods, whether or not consecutive, then the holders of the Preferred Stock, voting separately as a class, and to the exclusion of the holders of shares of Common Stock, shall be entitled at any annual meeting of the stockholders or any special meeting at which directors are to be elected to elect a majority of the board of directors. Each holder of Preferred Stock shall have one vote for each share of stock so held. These rights to elect directors shall continue until all dividends accrued on the Preferred Stock have been paid or set apart, at which time the right of the holders of Preferred Stock to elect directors shall cease, and exclusive voting rights and powers shall revert to the holders of the Common Stock unless there is a further default in payment of dividends on the Preferred Stock in which event the special voting rights of the Preferred Stock set out above shall resume.
