Auditor's Report

**To the Board of Directors and Shareholder of
FirstEnergy Capital (USA) Corp.**

We have audited the statement of financial position of **FirstEnergy Capital (USA) Corp.** as at August 31, 2009. This statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the statement of financial position based on our audit.

We conducted our audit in accordance with United States of America generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the statement of financial position is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position. An audit also includes assessing the accounting principles used and significant estimates made by management, and evaluating the overall statement of financial position presentation.

In our opinion, this statement presents fairly, in all material respects, the financial position of the Company as at August 31, 2009 in accordance with United States of America generally accepted accounting principles.

1. Organization

FirstEnergy Capital (USA) Corp. (the "Company") is a wholly-owned subsidiary of FirstEnergy Capital Holding Corp., a parent company of FirstEnergy Capital Corp., a broker-dealer operating in Canada. It is registered with the Securities and Exchange Commission as a broker-dealer in the United States, pursuant to Section 15(b) of the Securities Exchange Act of 1934. The Company is registered with the Financial Industry Regulatory Association ("FINRA"). The Company's principal business is securities brokerage and trading in Canadian equity securities with institutional investors in the United States.

2. Basis of presentation and Significant Accounting Policies

The accompanying financial statements are prepared in accordance with the US generally accepted accounting principles.

Securities Transactions

Transactions executed as agents for customers are not reflected in the statement of financial position unless the transaction fails to settle on the contracted settlement date. Commission income and related expenses for executing securities transactions are recorded on a trade date basis.

Marketable securities are valued at market value.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Related Party

Under an agreement dated August 1, 2006, which amends agreements dated February 23, 2004 and October 11, 1995, FirstEnergy Capital Corp. provides securities trading, clearing and settlement and other administrative services to the Company and charges for these on a monthly basis. These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the parties. The subordinated loan of \$812,000 is owed to FirstEnergy Capital Corp.

4. Subordinated Loan

The subordinated loan of \$812,000 is unsecured and bears interest at \$2,000 per month. It may only be repaid with the approval of FINRA, subject to the adequacy of the net capital of the Company, in any case not before October 31, 2013. As a result of the effective interest rate on the subordinated loan approximating current market rates, the carrying value of the subordinated loan is considered to approximate fair value.

5. Share Capital

The authorized share capital of the Company consists of an unlimited number of common shares without par value.

The issued share capital of the Company consists of 178,125 fully paid Common shares.

6. Net Capital

At August 31, 2009, the Company had net capital of \$1,518,480, pursuant to SEC Rule 15c3-1. Its minimum capital requirement was \$250,000, leaving excess net capital of \$1,268,480.

7. Financial Instruments with Off Balance Sheet Risk and Concentration of Credit Risk

The Company's transactions are collateralized and executed primarily on behalf of financial institutions including banks, other brokers and dealers, commercial insurance companies, pension plans and investment companies. If either a customer or a counterparty fails to perform, the Company may be required to discharge the obligations of the non-performing party and, in such circumstances, the Company may sustain a loss. The Company does not anticipate nonperformance by customers and counterparties. The Company monitors clearance and settlement of all customer transactions on a daily basis and has a policy of reviewing, as considered necessary, the credit standing of each counterparty and customer with which it conducts business.
