INDEPENDENT AUDITORS' REPORT  
Washington, DC  
121

To the Board of Directors  
Offutt Securities, Inc.

We have audited the accompanying statement of financial condition of Offutt Securities, Inc. as of June 30, 2009 and related statements of operations, changes in stockholders' equity and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Offutt Securities, Inc., as of June 30, 2009 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in supplementary schedule I, II, III and IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS  
For year ended June 30, 2009

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Offutt Securities, Inc. is a broker dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is principally engaged in providing securities brokerage to individuals and institutions. The Company's profitability is sensitive to a variety of factors including the volatility and general level of market prices and the volume of trading in securities and the Company's research ability to generate opportunities for their clients.

The financial statements are prepared in accordance with generally accepted accounting principles which require management to make assumptions and estimates that affect the amounts and the disclosures presented. Actual amounts could differ from their estimates.

The Company considers only cash balances in bank and brokerage accounts as cash and cash equivalents for financial reporting purposes. Cash held as deposits in brokerage accounts are listed separately as deposits.

Receivable from broker and dealer reflect net commissions due to the Company. Occasionally JP Morgan Clearing Corp will advance money to the Company based on commissions earned. This activity will generate a payable to broker and dealer at month end. Commissions are paid the month after they are earned. The Company does not establish an allowance for doubtful accounts due to the nature of the receivables.

Commission revenue and related expenses are recorded on a settlement-date basis. Transactions relating to owned securities are recorded on a settlement date basis. Marketable securities which consist of Corporate stocks are valued at market value and the resulting difference between cost and market is included in income.

Equipment and vehicle are recorded at cost, \$21,879. Depreciation expense for the year was \$1,775. Depreciation of office equipment and the vehicle was determined by using the straight line method over the estimated useful life of the assets.

Since the only employee is the owner of the Company, no compensated absences have been accrued.

The Company has elected to be treated as a "Subchapter S Corporation" for Federal income tax purposes. Under the terms of that election, the Company will not pay Federal and State income taxes on its earnings as such amounts are paid to the stockholders.

NOTE F – FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET CREDIT RISKS

In the normal course of business, the Company's securities activities through its correspondent broker involve execution, settlement and financing of various securities transactions for customers. These activities may expose the Company to risk in the event customers, other brokers and dealers, banks, depositories or clearing organizations are unable to fulfill contractual obligations.

In accordance with industry practice, the Company records securities transactions executed on behalf of its customers on settlement date which is generally three business days after trade date. The risk of loss on the trade date transactions is identical to the risk inherent in settlement date transactions and relates to the customer's or broker's and dealer's inability to meet the terms of their contracts.

The Company has not experienced any material nonperformance by counter parties in the aforementioned situations.

Independent Auditors' Report on Internal Accounting Control  
Required by SEC Rule 17a-5(g)(1) for a Broker-Dealer  
Claiming an Exemption from SEC Rule 15c3-3

To The Board of Directors  
Offutt Securities, Inc.

In planning and performing our audit of the financial statements of Offutt Securities, Inc., as of and for the year ended June 30, 2009 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study includes tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customers securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance
