INDEPENDENT AUDITORS' REPORT

To the Stockholder
Scully Capital Securities Corporation
Washington, DC 20005

We have audited the accompanying statements of financial condition of Scully Capital Securities Corporation as of June 30, 2009 and 2008, and the related statements of operations, changes in stockholder's equity and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Scully Capital Securities Corporation as of June 30, 2009 and 2008, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information presented in Schedules I, II, III and IV for 2009 is presented for the purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING
CONTROL REQUIRED BY SEC RULE 17a-5

To the Stockholder
Scully Capital Securities Corporation
Washington, DC 20005

In planning and performing our audits of the financial statements of Scully Capital Securities Corporation, for the years ended June 30, 2009 and 2008, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the Company's internal control.

Also, as required by Rule 17a-5 (g) (1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized acquisition, use, or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5 (g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal control or of such practices and procedures to future periods are subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with the practices or procedures may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the Company's internal control would not necessarily disclose all matters in the Company's internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that the misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the Company's internal control and its operation, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at June 30, 2009 and 2008, to meet the SEC's objectives.

This report is intended solely for the use of the shareholder and management of the Company, the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5 (g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

SCULLY CAPITAL SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Scully Capital Securities Corporation, a Delaware corporation (the Company or the Securities Company), was incorporated in March 1987 and maintains its office in the District of Columbia. The Company was organized to provide advice and execute municipal securities transactions for clients. Prior to July 2007, the Company was a member of and was regulated by the National Association of Securities Dealers (NASD). In July 2007, the Financial Industry Regulatory Authority (FINRA) was formed through the consolidation of the NASD and the member regulation, enforcement and arbitration functions of the New York Stock Exchange. Since July 2007, the Company is subject to regulation by FINRA. The Company is a wholly owned subsidiary of Scully Capital Services, Inc. The Company does not act as a clearing broker nor does it hold securities for the accounts of others. In March 2001, the Company was granted permission by the NASD to expand its business to include the selling of corporate debt securities, to act as an underwriting or selling group participant in private placement, "best efforts" offerings only, of both debt and equity securities and to conduct investment banking activities in connection with both municipal and non-municipal securities.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be "cash equivalents." The Company maintains its cash in a checking account which is federally insured and at various times in brokerage deposit accounts with an unaffiliated broker-dealer which maintains SIPC insurance. There were no amounts in excess of federally insured limits at June 30, 2009. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Concentrations

The Company grants credit to its customers during the normal course of business and generally requires no collateral. Amounts due from four customers at June 30, 2009 totaled \$104,243 or approximately 95% of total accounts receivable. Five customers represent approximately 82% of contract revenue for 2009.

There were similar concentrations at June 30, 2008.

An allowance for doubtful accounts receivable has not been recorded as all amounts are deemed collectible at June 30, 2009 and 2008.

Income Taxes

Scully Capital Securities Corporation files income taxes on a consolidated basis with its parent company. The provision for income taxes is made on a separate company basis with the amount of taxes due recorded as due to the parent company. For years prior to 2008, the Company filed its own return in the District of Columbia.

SCULLY CAPITAL SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008
(CONTINUED)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

Income Taxes (Continued)

The Company accounts for income taxes under SFAS 109, which requires accounting under the asset and liability method. The objective of the asset and liability method is to establish deferred taxes at current tax rates for timing differences between the financial reporting and tax basis of the Company's assets and liabilities. Through June 30, 2009 the only material difference between the financial and income tax reporting is the cash basis of accounting which is used for income tax purposes. Deferred taxes, calculated in accordance with SFAS 109 are reported as due to/from the Parent Company.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income

For the two years ended in 2009, the company had no material items of comprehensive income.

NOTE 2 - RELATED PARTY TRANSACTIONS

The Company provides advice and other securities related services to a limited number of unrelated entities and Scully Capital Services, Inc. in connection with financings structured by the Parent Company involving municipal securities. There were no fees charged to the Parent Company by the Securities Company for such services for the two years ended June 30, 2009.

The Parent Company also provides services to the Securities Company. The Parent Company charged and \$397,156 and \$908,861 in 2009 and 2008, respectively, for services provided to the Securities Company. At June 30, 2009, invoices for \$53,000 of such services remained payable to the Parent Company.

NOTE 3 - SECURITIES AND EXCHANGE COMMISSION

The Company, as a registered broker and dealer in securities, is subject to the Securities and Exchange Commission's Net Capital Rule, Reg 240.15c3-1, which requires each broker or dealer to maintain a minimum specified amount of net capital at all times. Net capital is calculated by discounting the value of certain types of securities as provided in the Rules. The Company is required to maintain minimum net capital of not less than \$5,000 under its agreement with the FINRA. The Company must notify the FINRA if net capital goes below \$6,000 in net capital. It is also prohibited from having its aggregate indebtedness exceed 1500 percent of its net capital.

SCULLY CAPITAL SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2009 AND 2008
(CONTINUED)

NOTE 3 - SECURITIES AND EXCHANGE COMMISSION (CONTINUED)

At June 30, 2009, the Company's ratio of aggregate indebtedness (see Rule 15c3-1(c)(x)) to net capital was .90 to 1 (or 90 percent of its net capital). The Company's net capital was \$102,850 which exceeded the Company's minimum net capital requirements by \$97,850.

Withdrawals of equity capital through redemption or repurchase of shares, dividend payments or other distributions and any unsecured advances or loans to stockholders or affiliates require advance notice to the Securities and Exchange Commission. In no event may such a withdrawal or distribution be made if it would reduce net capital to less than 120% of the Company's required minimum net capital. Dividend distributions, withdrawals of capital, and loans to affiliates exceeding a specified percentage of a broker dealer's net capital may require approval of the Securities and Exchange Commission.

The Company does not conduct a retail business as broker or dealer and does not maintain possession or control of securities for customers. As such, the Company is not subject to the requirements of Rule 15c3-3.

NOTE 4 - INCOME TAXES

Deferred tax assets arising from the Parent Company's use of the Company's operating losses have been offset by deferred tax liabilities related to the difference between financial accounting and the cash basis accounting used for tax purposes.

* * * * *

As required by the Securities and Exchange Commission the Company's statements of financial condition as of June 30, 2009 filed pursuant to Rule 17a-5 are available for examination at the Company's principal office and at the regional office of the Commission in Washington, D.C.
