Independent Auditor's Report

To the Member's of
Cresta Capital Strategies, LLC
New York, NY

I have audited the accompanying statement of financial condition of Cresta Capital Strategies, LLC, (the Company) as of June 30, 2009, and the related statements of income, changes in member's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Cresta Capital Strategies, LLC, as of June 30, 2009, and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I and II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2009

NOTE 1- SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Business

The Company was organized on December 15, 2004 as a New York limited liability company to conduct business as a registered broker-dealer under the Securities Exchange Act of 1934. As a limited liability company the members' liability is limited to their investment.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Compensated Absences

Employees of the Company are entitled to paid vacations, paid sick days, and personal days off, depending on the job classification, length of service, and other factors. The accrual cannot be reasonably estimated, and accordingly, no liability has been recorded in the financial statements. The Company's policy is to recognize the costs of compensated absences when actually paid to employees.

Securities Transactions

Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management. These securities include investment securities (a) for which there is not a market on a securities exchange or no independent publicly quoted market, (b) that cannot be publicly offered or sold unless registration has been effected under the Securities Act of 1933, or (c) that cannot be offered or sold because of other arrangements, restrictions, or conditions applicable to the securities or to the Company.

NOTE 2- NET CAPITAL

As a broker dealer, the Company is subject to the Securities and Exchange Commission's regulations and operating guidelines, which require the Company to maintain a specified amount of net capital as defined, and a ratio of aggregate indebtedness to net capital as derived, not exceeding 15 to 1. The Company's net capital as computed under Rule 15c3-1, was \$18,417 at June 30, 2009, which exceeded required net capital of \$5,000 by \$13,417. The ratio of aggregate indebtedness to net capital at June 30, 2009 was 89.2%.

Independent Auditor's Report on Internal Control Structure Required by SEC Rule 17a-5

Member's of
Cresta Capital Strategies, LLC

In planning and performing my audit of the financial statements and supplemental schedules of Cresta Capital Strategies, LLC, (the Company), for the year ended June 30, 2009, I considered its internal control, including control activities for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that I considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to

future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, my study and evaluation disclosed that a lack of segregation of function exists. Although this condition may be considered to be a material weakness in internal control, it is a common condition in entities of this size. This condition was considered in determining the nature, timing, and extent of the procedures to be performed in my audit of the financial statements of Cresta Capital Strategies, LLC for the year ended June 30, 2009 and this report does not affect my report thereon dated August 21, 2009.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at June 30, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Member, management, the Securities and Exchange Commission, the National Association of Securities Dealers Regulation, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
