INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders
Clayton, Williams & Sherwood Investments

We have audited the accompanying statement of financial condition of Clayton, Williams & Sherwood Investments (the "Company") as of July 31, 2009, and the related statements of operations, stockholders' equity, and cash flows for the year then ended that the Company is filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company was not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that were appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of July 31, 2009, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required

NOTES TO FINANCIAL STATEMENTS
July 31, 2009

1. ORGANIZATION

Business

Clayton, Williams & Sherwood Investments (the "Company") is a California corporation organized on September 30, 1988. The Company was organized to sell interests in limited partnerships that invest in real estate activities. The Company received approval from the National Association of Securities Dealers ("NASD") to operate as a broker/dealer as of June 12, 1989. The Company generally operates as an introducing broker and does not hold funds or securities for or owe any money or securities to customers and does not carry accounts of or for customers. The Company currently has no revenues and relies on its stockholders to provide operating capital. The accompanying financial statements have been prepared assuming the Company will continue in its current form. If the owners do not continue to provide sufficient capital, it may adversely affect the future operations of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies presented below is designed to assist in understanding the Company's financial statements. Such financial statements and accompanying notes are the representations of the Company's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America ("GAAP") in all material respects, and have been consistently applied in preparing the accompanying financial statements.

Cash and Cash Equivalents

The Company considers all highly liquid short-term investments with original maturities of three months or less when purchased to be cash equivalents. Cash primarily consists of interest-bearing and noninterest-bearing demand deposit accounts. As of July 31, 2009, the Company did not have any cash equivalents.

Concentration of Credit Risk

The Company currently maintains substantially all of its operating cash with a major financial institution. At times, cash balances may be in excess of the amounts insured by the Federal Deposit Insurance Corporation. Cash balances were not in excess of the federally insured amount as of July 31, 2009.

CLAYTON, WILLIAMS & SHERWOOD INVESTMENTS
NOTES TO FINANCIAL STATEMENTS

July 31, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

Common Control

Because the Company and certain related parties have commonality and are under common management control, reported operating results and/or financial position of the Company could significantly differ from what would have been obtained if such entities were not under common control.

Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, *Accounting for Income Taxes*. This statement requires the recognition of deferred tax liabilities and assets for the future consequences of events that have been recognized in the Company's financial statements or tax returns. Measurement of the deferred items is based on enacted tax laws. In the event the future consequences of differences between financial reporting basis and tax basis of the Company's assets and liabilities result in a deferred tax asset, SFAS No. 109 requires an evaluation of the probability of being able to realize the future benefits indicated by such asset. A valuation allowance related to a deferred tax asset is recorded when it is more likely than not that some portion or all of the deferred tax asset will not be realized.

Estimated Fair Value of Financial Instruments and Certain Other Assets/Liabilities

The Company's financial instruments include cash, accounts payable and accrued liabilities. Management believes that the fair value of these financial instruments approximates their carrying amounts due to the short maturity of these instruments. Management has concluded that it is not practical to estimate the fair value of amounts due to and from related parties.

The Company does not have any assets or liabilities that are measured at fair value on a recurring basis and, during the year ended July 31, 2009, did not have any assets or liabilities that were measured at fair value on a nonrecurring basis. The measurements cited in the preceding sentence refer to those set forth in SFAS No. 157 (*Fair Value Measurements*), as amended.

CLAYTON, WILLIAMS & SHERWOOD INVESTMENTS
NOTES TO FINANCIAL STATEMENTS
July 31, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

Management has evaluated subsequent events through September 22, 2009, which is the date the financial statements were issued.

3. INCOME TAXES

During the year ended July 31, 2009, the Company accrued \$800 for California franchise taxes. Such amount is included in expenses as franchise tax in the accompanying statement of operations.

As of July 31, 2009, the Company had a deferred tax asset of approximately \$73,000 related to net operating loss carryforwards, which has been entirely offset by a valuation allowance.

As of July 31, 2009, the Company has net operating loss carryforwards of approximately \$259,000 and \$183,000 for federal and California income tax purposes, respectively, which may be used to offset future taxable income. These loss carryforwards expire at various times through 2029.

The Company's income tax returns may be subject to examination by federal and state taxing authorities. Because application of tax laws and regulations to many types of transactions is susceptible to varying interpretations, amounts reported in the accompanying financial statements could be changed at a later date upon final determination by taxing authorities. No such examinations by taxing authorities are presently in process.

4. REGULATORY REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, not to exceed 15-to-1 (the rules of regulatory agencies and various exchanges also provide that equity capital may not be withdrawn or cash dividends paid if the resulting ratio of aggregate indebtedness to capital would exceed 10-to-1). As of July 31, 2009, the Company had net capital of \$36,130, which was \$31,130 in excess of its required minimum net capital of \$5,000. The Company's aggregate indebtedness to net capital ratio as of July 31, 2009 was 0.49-to-1.

CLAYTON, WILLIAMS & SHERWOOD INVESTMENTS
NOTES TO FINANCIAL STATEMENTS
July 31, 2009

4. REGULATORY REQUIREMENTS (continued)

The Company is exempt from the provisions of Rule 15c3-3, pursuant to paragraph k(2)(i) under the Securities and Exchange Act of 1934, as the Company is a broker and dealer that does not carry customer accounts or hold funds or securities of customers. Because of such exemption, the Company is not required to prepare a determination of reserve requirement for brokers and dealers and also is not subject to the possession and control statement.

5. STOCKHOLDERS' EQUITY

The Company is authorized to issue 1,000 shares of common stock with no par value. At inception, two principal officers of the Company each purchased 400 shares of common stock for \$4,000 each. From inception through the year ended July 31, 2009, these stockholders have contributed an aggregate of \$348,007 to additional paid-in capital.

**INDEPENDENT AUDITORS' REPORT ON
INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5
FOR BROKER-DEALERS CLAIMING AN EXEMPTION
FROM SEC RULE 15c3-3**

To the Board of Directors and Stockholders
Clayton, Williams & Sherwood Investments

In planning and performing our audit of the financial statements of Clayton, Williams & Sherwood Investments (the "Company"), as of and for the year ended July 31, 2009 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting ("internal control") as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in the following:

1. Making the quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices

SQUAR, MILNER, PETERSON, MIRANDA & WILLIAMSON, LLP
Certified Public Accountants & Financial Advisors, Serving Clients Since 1951

4100 Newport Place Drive, Third Floor | Newport Beach, CA 92660 Tel: 949-222-2999 | Fax: 949-222-2989

Newport Beach

San Diego

Cayman Islands

and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the Company's financial reporting. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at July 31, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
