## Media Release

Clariant International Ltd

### *Clariant Appoints Mathias Lütgendorf Member of the Executive Committee*

**Muttenz, March 19, 2009** – Clariant, a world leader in specialty chemicals, has appointed Mathias Lütgendorf as a member of its Executive Committee, effective April 1, 2009. He will assume responsibility for the Textile, Leather and Paper Businesses as well as for the company's Asian region. Peter Brandenburg, currently head of the Textile, Leather and Paper Chemicals (TLP) Division will retire after a highly successful career with Clariant spanning 38 years including 14 years as a member of the Executive Committee.

At the same time the decision has been made to operationally separate the Textile, Leather and Paper Business Units from each other by the end of 2009. This move will enable each business to be managed as a stand alone unit, providing the operational and strategic flexibility required to improve their profitability. The three Business Unit heads as well as the heads of Controlling and Production and Technology of the current structure will report directly to Mathias Lütgendorf.

Mathias Lütgendorf was member of the Executive Committee of privately held textile dyes and chemicals producer DyStar until the end of 2008, where he was responsible for Global Operations. Prior to this he had held several management positions within DyStar and Hoechst. He holds a PhD in chemistry from the Rheinisch-Westfälische Technische Hochschule Aachen, Germany.

“I am very pleased with the appointment of Mathias Lütgendorf. He is a senior executive from the chemical industry. His skills and experience will ensure we navigate our Textile, Leather and Paper Businesses through difficult times while at the same time increasing our footprint in Asia”, commented Clariant's CEO, Hariolf Kottmann. “In particular I want to thank Peter Brandenburg for his dedication and commitment throughout his lifelong career with our company. He successfully assumed many different management functions in four continents and leaves a strong impression in our company. Under his leadership the TLP Division has made significant progress in increasing its competitiveness.”

### Clariant - Exactly your chemistry.

Clariant is a global leader in the field of specialty chemicals. Strong business relationships, commitment to outstanding service and wide-ranging application know-how make Clariant a preferred partner for its customers.

Clariant, which is represented on five continents with over 100 group companies, employs around 20,000 people. Headquartered in Muttenz near Basel, Switzerland, it generated sales of CHF 8.1 billion in 2008. Clariant's businesses are organized in four divisions: Textile, Leather & Paper Chemicals, Pigments & Additives, Masterbatches and Functional Chemicals.

Clariant is committed to sustainable growth springing from its own innovative strength. Clariant's innovative products play a key role in its customers' manufacturing and treatment processes or else add value to their end products. The company's success is based on the know-how of its people and their ability to identify new customer needs at an early stage and to work together with customers to develop innovative, efficient solutions.
