Proposal regarding a performance-related employee stock option plan item (14)

The AGM 2007 resolved on the introduction of a performance-related employee stock option package intended to offer key employees of the group the opportunity of future shareholding in the company, and therefore to realise increased interest in, and commitment to, the company's operations. The package, approved in 2007, was the first part of a three-year package intended to cover the years 2007-2009. Accordingly, the Board is proposing a performance-related employee stock option plan also for 2009. For 2007, allotment of employee stock options has been effected. For 2008, no allotment is planned.

To be able to consummate the proposed scheme, the Board of Directors proposes that the AGM resolves as stated in items a)-d) below.

For validity, resolutions pursuant to item b) below require representation by shareholders with at least two-thirds, and resolutions pursuant to items c)-d) below require representation by shareholders with at least nine-tenths of the votes cast and shares represented at the Meeting.

Item 14 a) Introduction of a performance-related employee stock option plan 2009

The Board of Directors proposes that the AGM approves the scope and basic principles of the performance-related employee stock option plan for 2009 of class B shares of the company pursuant to the following:

Allotment

The Board of Directors shall have the right to decide on the allotment of employee stock options that may provide approximately 45 key employees of the group with the opportunity to acquire a maximum total of 250,000 class B shares in the company.

Allotment is dependent on the progress of the group in 2009 against the Board of Directors' determined and weighted target figures for the value factors operative cash flow return on capital employed,

volume growth and earnings per share. If the target figure for a growth factor determined by the Board of Directors is exceeded by 10 per cent, the allotment will be 100 per cent of the maximum number of shares attributable to this growth factor, within the scope of the determined weighting, while no allotment of a value factor occurs if the determined target figure of the value factor is more than 10 per cent lower than determined, and in the intervening interval a *pro rata* allotment will be effected.

Allotment of employee stock options is subject to the following maximum numbers per person in the various key groups:

- category 1 - Chief Executive Officer — 25,000 employee stock options
- category 2 - other senior executives (approx. 15) — 9,000 employee stock options
- category 3 - key employees (approx. 30) — 3,000 employee stock options

The Board of Directors will decide on the individuals in the aforementioned groups based on authority, qualification and individual performance. The apportionment of employee stock options will be effected in March 2010 and thereafter. The Board of Directors shall have the right to introduce an alternative incentive scheme for key employees in those countries where apportionment of employee stock options is not appropriate. As far as practically possible, such alternative incentive scheme will be designed on the corresponding terms as the employee stock option plan. Employee stock options are not transferable and necessitate continued employment and also that the option-holder has not been made redundant, nor terminated his/her employment.

The maturity and exercise periods of employee stock options

The maximum maturity of employee stock options will be four years from the time of allotment.

Stock options will be exercisable to acquire shares as follows:

- 50% at the earliest two years after allotment
- all, at the earliest three years after allotment.

Alternatively, if the holder so requires, the stock options will be redeemable for cash, whereupon the holder receives an amount corresponding to the difference between the share price upon exercise and the exercise price.

Exercise price and restatement

The exercise price will be determined at an amount corresponding to 120% of the average volume-weighted price paid of class B shares on NASDAQ OMX Stockholm during a period of 10 trading days immediately after the AGM. If the AGM were to make resolutions including an increase or reduction of the number of outstanding shares, or dividends exceeding the company's dividend policy, restatement may be conducted during the term of the employee stock options to retain the value of employee stock options. Any decisions on restatement shall be taken by the company's Board of Directors.

Delivery of shares and costs

The employee stock options confer a right to acquire existing shares. To ensure the delivery of shares and as a hedge against potential cash flow effects of social security costs resulting from the employee stock option plan, the Board of Directors intends to undertake hedging through equity swaps with third parties and/or under the condition that pursuant to AGM resolution on items b)-c) below, acquisitions of treasury shares that can be transferred to employees under the auspices of the performance-related employee stock option plans.

Item 14 b) Acquisitions of class B treasury shares

The Board of Directors proposes that for the period until the next AGM, the Board of Directors is authorised to decide on the acquisition of class B treasury shares on NASDAQ OMX Stockholm. The re-purchase may be conducted so that the holding of treasury shares amounts to a maximum of 1/10 of all shares of the company. The purpose of the proposed re-purchase option is to give the company the opportunity to transfer shares to employees, pursuant to

the above, and hedge the aggregate costs of the performance-related employee stock option plan.

Item 14 c) Transfer of class B treasury shares due to the employee stock option plan 2009

The Board of Directors proposes the transfer of a maximum of 330,000 treasury shares to employees pursuant to the performance-related employee stock option plan stated in item 14 a). Additionally, in the period before the next AGM, the company shall have the right to transfer the requisite number of shares if participants demand cash redemption, and a maximum of 80,000 shares of the holding of 330,000 shares with the aim of covering specified expenditure, mainly social security costs.

Item 14 d) Transfer of treasury shares due to the employee stock option plan 2007

Due to the company's performance-related employee stock option plan 2007, the company shall have the right to transfer the requisite number of shares in the period before the next AGM if participants demand cash redemption, and a maximum of 38,420 shares of the holding of 150,000 shares with the aim of covering specified expenditure, mainly social security expenses.

Proposal regarding conditional amendment of the Articles of Association (item 15)

The Board of Directors proposes that the AGM resolves that § 11 of the Articles of Association shall have the following amended wording.

Notice of a General Meeting as well as other notices to the shareholders shall be made by advertisement in the Swedish Official Gazette (Sw. Post- och Inrikes Tidningar) and on the company's website. At the time of the notice, an announcement with information that the notice has been issued shall be published in Svenska Dagbladet.

Further, the Board of Directors proposes that the resolution on amendment of the Articles of Association shall be conditional upon that an amendment regarding the manner for convening a General Meeting in the Swedish Companies Act (2005:551) has entered into force, entailing that the proposed wording of § 11 will be in accordance with the Companies Act.

A resolution according to this item 15 requires representation by shareholders with at least two-thirds of both the votes cast and the shares represented at the AGM in order to be valid.

Documentation, etc.
