## 1.3 Underwriting

The Entitlement Offer and Shortfall Offer are not underwritten.

## 1.4 Entitlement Offer is Non-Renounceable

The Entitlement Offer is non-renounceable and Eligible Shareholders may not transfer, dispose of or otherwise deal with any part of their Entitlement that they do not take up. There will be no trading of Entitlements on ASX.

## 1.5 Shortfall Offer

The Shortfall Offer is independent from the Entitlement Offer. The Shortfall Offer commences on the same date as the Entitlement Offer and will remain open until the Closing Date of the Entitlement Offer. Allocation of New Shares under the Shortfall Offer will be subject to there being a Shortfall under the Entitlement Offer and will otherwise take place at the sole discretion of the Directors of Cue Energy Resources.

## **1.6 Allotment**

Under the current timetable, the New Shares issued under the Entitlement Offer are expected to be issued on 23 July 2009. The New Shares issued under the Shortfall Offer are also expected to be issued on 23 July 2009.

It is the responsibility of Applicants to confirm the number of New Shares allotted to them prior to trading in the securities. Applicants who sell New Shares before they receive notification of the number of securities allocated to them do so at their own risk.

## **1.7 ASX Listing**

Within 7 days of the date of this Offer Document, Cue Energy Resources will apply to ASX for the New Shares to be admitted to quotation.

## **1.8 Overseas Shareholders**

The Entitlement Offer and the Shortfall Offer are being made to Eligible Shareholders only. Eligible Shareholders are holders of Shares registered at 7.00pm on the Record Date with a registered address in Australia, New Zealand, Papua New Guinea or Singapore.

In accordance with the Listing Rules of the ASX, Cue Energy Resources has decided that it would be unreasonable to extend the Entitlement Offer and the Shortfall Offer to shareholders with registered addresses in countries other than Australia, New Zealand, Papua New Guinea or Singapore, having regard to:

- the number of shareholders resident in those countries;
- the number and value of New Shares that would be offered under the Entitlement Offer and the Shortfall Offer to shareholders resident in those countries; and
- the cost of complying with the legal requirements, and the requirements of regulatory authorities, in those countries.

Shareholders with registered addresses in Australia, New Zealand, Papua New Guinea or Singapore holding Shares on behalf of persons who are resident in other countries are responsible for ensuring that taking up their Entitlement does not breach the laws of the relevant country. The return of a duly completed Entitlement and Acceptance Form, or a payment via BPAY<sup>®</sup>, will constitute a representation by the applicant that there has been no breach of any such laws.

Where this Offer Document has been sent to shareholders with registered addresses outside Australia, New Zealand, Papua New Guinea or Singapore who are not entitled to participate in the Entitlement Offer or the Shortfall Offer, it is sent to them for information purposes only.

## **1.9 CHES and Issuer Sponsored Holdings**

Cue Energy Resources participates in the security transfer system known as CHES (Clearing House Electronic Subregistry System). ASX Settlement and Transfer Corporation Pty Limited ("ASTC"), a wholly owned subsidiary of ASX, operates CHES in accordance with the ASX Listing Rules and the ASTC Settlement Rules. Under CHES, Eligible Shareholders will not receive a share certificate but will be issued a holding statement of Shares.

If you are broker sponsored, and you take up all or part of your Entitlement, ASTC will send you a CHES holding statement. The CHES holding statement will set out the number of New Shares issued to you under this Offer Document and provide details of your holder identification number and the participant identification number of the sponsor. If you are registered on the issuer sponsored sub-register, and you take up all or part of your Entitlement, your statement will be dispatched by Cue Energy Resources' share

registrar and will contain the number of New Shares issued to you under this Offer Document and a security holder reference number.

#### **1.10 Taxation Implications**

Eligible Shareholders should be aware that there may be taxation liabilities arising from the subscription for New Shares and the sale of those New Shares. For this reason, it is very important that Eligible Shareholders consult their own taxation or other advisers in relation to the taxation laws and regulations applicable to their personal circumstances.

## **2. ACTION REQUIRED BY ELIGIBLE SHAREHOLDERS**

### **2.1 If you wish to take up your Entitlement in full or in part, and potentially apply for New Shares under the Shortfall Offer**

If you wish to take up your Entitlement in full (or part of your Entitlement and allow the balance to lapse), and, if you take up all of your Entitlement, if you wish to apply for New Shares in excess of your Entitlement under the Shortfall Offer, you have two options.

#### Option 1: Submit your completed Entitlement and Acceptance Form together with a cheque for payment

You should complete the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on the form, indicating the number of New Shares you wish to apply for in respect of your Entitlement (and, if you wish, the number of additional New Shares you wish to apply for in excess of your Entitlement under the Shortfall Offer).

Send your completed Entitlement and Acceptance Form (together with your cheque for the application monies applicable to the number of New Shares you wish to apply for under the Entitlement Offer and the Shortfall Offer) to reach the share registrar, Computershare Investor Services, at:

#### **Postal:**

Computershare Investor Services Pty Ltd  
GPO Box 505  
Melbourne VIC 8060

by no later than 5.00pm (AEST) on 16 July 2009.

Cheques for application monies under the Entitlement Offer and, if applied for, the Shortfall Offer should be made payable to "Cue Energy Resources Limited" and crossed "Not Negotiable". Receipts for payments will not be issued.

#### Option 2: Pay via BPAY®

You should pay for the total number of New Shares you wish to apply for in respect of your Entitlement and, if you wish to take up additional New Shares in excess of your Entitlement, under the Shortfall Offer via BPAY®.

For payment by BPAY®, please follow the instructions on the personalised Entitlement and Acceptance Form (which includes the Biller Code and your unique Reference Number). You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- you do not need to submit the personalised Entitlement and Acceptance Form but are taken to have made the declarations on that personalised Entitlement and Acceptance Form; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your BPAY® payment.

Please make sure to use the specific Biller Code and unique Reference Number on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form, please only use the Reference Number specific to the Entitlement on that Form.

If you inadvertently use the same Reference Number for more than one of your Entitlements and/or pay for more than the Entitlement to which that Reference Number applies, you will be deemed to have applied for as many New Shares under the Shortfall Offer as that excess amount will pay for in full.

Your payment via BPAY<sup>®</sup> will not be accepted after the Closing Date, being 5.00pm (AEST) on Thursday, 16 July 2009, and no New Shares will be issued to you in respect of that Application.

You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment.

## **2.2 If you do not wish to take up any of your Entitlement**

If you decide not to take up any of your Entitlement, you are not required to take any action and your Entitlement will automatically lapse on the closing date of the Entitlement Offer.

## **2.3 General**

All payments are to be made in Australian currency by way of a cheque drawn on and payable at any Australian bank or any bank operating in Australia, or via BPAY<sup>®</sup>.

Application monies will be held in trust in a subscription account until allotment. The subscription account will be established and kept by Cue Energy Resources on behalf of the Applicants until allotment of the New Shares to the Applicants.

If you apply for New Shares under the Shortfall Offer, there is no assurance that you will be issued any of those New Shares. The number, if any, of New Shares you will be issued under the Shortfall Offer will depend on demand for New Shares from other Eligible Shareholders. In the event that an Applicant is not issued with New Shares in full satisfaction of the application monies provided, the relevant application monies not applied towards the issue of New Shares will be refunded without interest.

If an Entitlement and Acceptance Form is not completed correctly, received late, or if the accompanying payment of the application monies is for the wrong amount, it may still be treated as a valid Application. The Directors' decision whether to treat the Application as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final. However, an Applicant will not be treated as having applied for more New Shares than is indicated by the sum of the application monies received by cheque or BPAY<sup>®</sup>.

## **3. PURPOSE OF THE ENTITLEMENT OFFER AND SHORTFALL OFFER**

The funds raised by the Entitlement Offer and the Shortfall Offer will be applied, with existing funds and after payment of the costs of the Entitlement Offer, to augment working capital and, in particular, to assist in the development of the Wortel gas field in Indonesia, appraisal of the Manaia oil discovery in New Zealand and ongoing exploration.

The Entitlement Offer and Shortfall Offer will raise up to approximately \$18,847,170 (on the basis of full acceptances) before costs. It is currently expected that the funds raised will be applied as follows:

	Effect of the Entitlement Offer
<b>Activity</b>	<b>Allocated Funds</b>
Working capital	\$18,787,170
Anticipated expenses of the Entitlement Offer	\$60,000
Gross funds to be raised	\$18,847,170

The intended use of funds above assumes full subscription by shareholders under the Entitlement Offer and the Shortfall Offer.

Cue Energy Resources' actual allocation of funds may change depending on the circumstances in which its business develops and operates. Cue Energy Resources will provide details of its actual expenditure in its periodic reports and as otherwise required by the ASX Listing Rules.

#### **4. EFFECT OF THE ENTITLEMENT OFFER AND SHORTFALL OFFER**

##### **4.1 Financial effect**

Upon completion of the Entitlement Offer and the Shortfall Offer, Cue Energy Resources' cash reserves will increase by the amount raised, being up to \$18,787,170 (\$18,847,170 less costs which are estimated at \$60,000). This will increase the funds available to Cue Energy Resources to be applied towards the activities described in Section 3. This increase in Cue Energy Resources' cash reserves will result in the Cash and Cash Equivalents item in Cue Energy Resources' balance sheet increasing by the net amount raised under the Entitlement Offer and the Shortfall Offer and it will have the same effect on the balance sheet items representing Total Current Assets and Total Assets. The balance sheet items representing Issued Capital and Total Equity will also increase by the gross funds raised under the Entitlement Offer and the Shortfall Offer.

##### **4.2 Capital Structure**

Issued capital assuming full subscription under the Entitlement Offer

In the event the Entitlement Offer is fully subscribed, Cue Energy Resources' Shares on issue will change in the manner set out below (subject to rounding down of Entitlements):

<b>Issued capital</b>	<b>Shares</b>
Issued capital as at the date of this Offer Document	628,239,007
Maximum securities to be issued under the Entitlement Offer	125,647,801
<b>Total securities on issue following the Entitlement Offer and the Shortfall Offer<sup>1</sup></b>	<b>753,886,808</b>

##### **4.3 Options**

Cue Energy Resources also has 6,800,000 unlisted options on issue which are exercisable as follows:

<b>Total Number</b>	<b>Exercise Price</b>	<b>Expiry</b>
1,000,000	35¢	01/06/2010
1,700,000	15¢	19/04/2012
1,033,336	20¢	19/04/2012
1,366,666	22.5¢	19/04/2012
1,366,665	25¢	19/04/2012
333,333	35¢	19/04/2012

These options are not expected to be impacted by the Entitlement Offer.

##### **4.4 Possible Effect on the Control of Cue Energy Resources**

Todd Petroleum Mining Company Limited ("Todd") owns approximately 25.1% of the Shares currently on issue. In addition, Richard Tweedie, Chairman of Cue Energy Resources, is Managing Director of Todd. Should it eventuate that Todd takes up its full Entitlement under the Entitlement Offer but other Eligible Shareholders do not take up any of the New Shares being offered under the Entitlement Offer and the

<sup>1</sup> This assumes 100% take up of New Shares under the Entitlement Offer and the Shortfall Offer.

Shortfall Offer, Todd would hold approximately 28.7% of the expanded share capital of Cue Energy Resources following the completion of the Entitlement Offer and the Shortfall Offer. However, other Eligible Shareholders taking up New Shares under the Entitlement Offer and the Shortfall Offer would result in a correspondingly smaller increase in Todd's percentage holding of Shares. Cue Energy Resources does not consider that any increase in Todd's percentage holding of Shares is likely to have a material effect on the Company.

Todd is New Zealand's largest locally owned producer of oil and gas. It has a predominant focus in oil and gas production and exploration. It has significant interests in electricity generation and gas/lpg distribution and retail in New Zealand.

- there may be material changes in oil and gas prices;
- there may be material changes in the value of the Australian dollar against all currencies;
- the level of interest rates may change;
- the performance of the New Zealand, Australian, Papua New Guinea and Indonesian economies may change;
- there may be changes to government policy, taxation or regulation in Australia, New Zealand, Papua New Guinea and Indonesia, particularly in relation to oil and gas exploration and production;
- there may be disruption to Cue Energy Resources' oil and gas operations;
- acts of terrorism may occur;
- there may be political or trade disputes in the regions where the Company operates;
- competition, market conditions, oil prices and the depletion of oil reserves may affect the ongoing profitability of Cue Energy Resources' business;
- there may be a lack of liquidity in the market for Shares;
- there may be cost increases in relation to projects that Cue Energy Resources is or may be a participant in;
- the share market may develop a negative perception of Cue Energy Resources and/or the oil and gas industry;
- there may be mergers, joint ventures or acquisitions made by Cue Energy Resources which may adversely impact on the position or perception of Cue Energy Resources in the share market;
- there may be blowouts, fires and other disasters in hydrocarbon exploration and production in which Cue Energy Resources is participating; and

**This is not an exhaustive list of risks, as many risks may not be foreseeable. You are advised to seek independent advice and consider your own position carefully before you invest.**

**Re: Cue Energy Resources Limited**  
**Notice under section 708AA(2)(f) of the Corporations Act 2001 (Cth)**

On 11 June 2009, Cue Energy Resources Limited (ABN 45 066 383 971) (***Cue Energy***) announced a non-renounceable entitlement offer of 1 fully paid Cue Energy ordinary share (***New Share***) for every 5 Cue Energy ordinary shares held as at 7.00pm (AEST) on 19 June 2009 (the ***Entitlement Offer***) by eligible shareholders with a registered address in Australia, New Zealand, Papua New Guinea and Singapore. Eligible Shareholders (other than Todd Petroleum Mining Company Limited and its associates) will also be entitled to subscribe for additional New Shares attributable to entitlements which are not taken up by shareholders under the Entitlement Offer (***Shortfall Offer***).

This notice is given by Cue Energy under section 708AA(2)(f) of the Corporations Act 2001 (Cth) (***Act***) as modified by Australian Securities and Investments Commission Class Order 08/35 (***CO 08/35***).

Cue Energy advises that:

- (a) the New Shares will be offered for issue without disclosure under Part 6D.2 of the Act as modified by CO 08/35;
- (b) this notice is being given under section 708AA(2)(f) of the Act as modified by CO 08/35;
- (c) as at the date of this notice, Cue Energy has complied with:
  - (i) the provisions of Chapter 2M of the Act as they apply to Cue Energy; and
  - (ii) section 674 of the Act;
- (d) as at the date of this notice, there is no excluded information of the type referred to in sections 708AA(8) and 708AA(9) of the Act as modified by CO 08/95; and

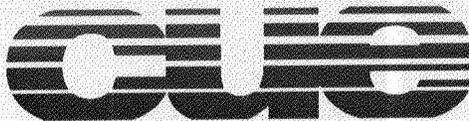

- (e) except as disclosed in this notice, the issue of New Shares pursuant to the Entitlement Offer is not expected to have any material effect or consequence on the control of Cue Energy Resources.

Todd Petroleum Mining Company Limited (**Todd**) owns approximately 25.1% of the Cue Energy ordinary shares currently on issue. Should it eventuate that Todd takes up its full entitlement under the Entitlement Offer but other eligible shareholders do not take up any of the New Shares being offered under the Entitlement Offer and the Shortfall Offer, Todd would hold approximately 28.7% of the expanded share capital of Cue Energy following the completion of the Entitlement Offer and the Shortfall Offer. However, other eligible shareholders taking up New Shares under the Entitlement Offer and the Shortfall Offer would result in a correspondingly smaller increase in Todd's percentage holding of Cue Energy ordinary shares. Cue Energy does not consider that any increase in Todd's percentage holding of ordinary shares in the company is likely to have a material effect on the company.

Yours faithfully
