Interim Management Statement

30 October 2009

Interim Management Statement

Elementis plc, a global specialty chemicals company, today issues its Interim Management Statement for the period since 1 July 2009 in relation to the Company and its subsidiaries ('the Group').

Trading in the period has continued to be in line with our expectations, with volumes having stabilised at higher levels than those experienced during the first six months of the year and contribution margins remaining steady. Customer ordering patterns have improved, but still remain cautious with no evidence of any material restocking at present. Cost reductions announced at the beginning of the year are benefiting operating profit as planned.

In Specialty Products sales volumes in the third quarter were 10 per cent higher than for the second quarter, although still 17 per cent lower than the same period last year, excluding acquisitions. Volumes improved in all key markets and geographies and, in particular, business in China has continued to be robust.

In Chromium sales volumes in the third quarter improved by 28 per cent compared to the second quarter, albeit from a low base, and volumes remain over 40 per cent down on the same period last year. The closure of the UK facility, announced at the end of April, is progressing as planned with costs and cash flow in line with expectations.

The Group's balance sheet remains strong and existing bank facilities, which were put in place in 2006, are not due for renewal until 2011.
