Current report no. 25/2009 – correction of the current report no. 3/2009

October 15, 2009

Subject: Correction of forecast EBITDA financial results of Orbis Hotel Group disclosed in the current report no. 3/2009

“Orbis” S.A. with its registered address at 16 Bracka street, 00-028 Warsaw, registered in the District Court for the Capital City of Warsaw XII Commercial Division, National Court Register [KRS], Register of Business Operators 0000022622, share capital of PLN 92,154,016 (paid-up in full), tax identification number NIP 526-025-04-69, pursuant to § 31 in connection with § 5 section 1 point 25 of the Regulation of the Minister of Finance of February 19, 2009, on current and periodic information to be published by issuers of securities and terms and conditions for equivalence of information required by virtue of the law of the state which is not a member state (Official Journal “Dz. U.” of 28 February 2009, as further amended), hereby informs that as a consequence of monitoring of viability of achieving the forecasted financial results, a cyclical analysis of the achieved financial results has been carried out on the basis of systemically obtained information and the feasibility of attainment of the financial result (EBITDA) of the Orbis Hotel Group forecasted at PLN 220 million for the year 2009 has been assessed.

Therefore, the Management Board of Orbis S.A. forecasts that the EBITDA financial result of Orbis Hotel Group, net of profits from transactions of sale of real properties in 2009, will amount to PLN 180 million for 2009, as compared to the preceding EBITDA forecast of PLN 220 million, published in point 1 of the current report no. 3/2009.

The basic reason behind the decision to reduce the forecast of PLN 220 million, published in the current report no. 3/2009, by PLN 40 million, and to issue a correction of the said report lies in lower than planned revenues of the ORBIS Hotel Group for three quarters of 2009 caused by a reduction in the number of roomnights sold, particularly in the business and foreign guests' segments. An additional factor that justifies the correction of this forecast is the absence of rational grounds to expect a reversal of this adverse trend in the fourth quarter of 2009.

The remaining information contained in the current report no. 3/2009 remains valid, with due consideration for the above-mentioned information.
