**Independent Auditor's Report
and Consolidated Statement
of Financial Condition**

December 31, 2007 and 2006

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Seattle-Northwest Securities Corporation

We have audited the accompanying consolidated statement of financial condition of Seattle-Northwest Securities Corporation and subsidiaries as of December 31, 2007 and 2006. This consolidated statement of financial condition is the responsibility of the management of Seattle-Northwest Securities Corporation. Our responsibility is to express an opinion on the consolidated statement of financial condition based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the 2007 and 2006 consolidated statement of financial condition referred to above presents fairly, in all material respects, the financial position of Seattle-Northwest Securities Corporation and subsidiaries as of December 31, 2007 and 2006, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 8 to the consolidated statement of financial condition, the Company's disclosure of its net capital and aggregated indebtedness previously reported as \$8,001,110 should have been \$6,922,550. This discovery was made subsequent to the issuance of the consolidated statement of financial condition. Note 8 to the consolidated statement of financial condition has been restated to reflect these corrections.

Moss Adams LLP

Seattle, Washington
February 27, 2008

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006**

Note 1 - Organization and Summary of Significant Accounting Policies

Organization - Seattle-Northwest Securities Corporation (the Company) is a registered broker-dealer with the Securities and Exchange Commission (S.E.C.). The Company operates primarily in the Northwest, however it also serves institutional and broker-dealer clients throughout the United States. The Company is also engaged in investment management services through two wholly-owned subsidiaries - SNW Asset Management and SNW Fund Management. The Company completed a business combination during the year, adding a wholly-owned subsidiary Regional Financial Advisors, Inc. The consolidated statement of financial condition includes the amounts of the Company and its wholly-owned subsidiaries. All material intercompany balances and transactions are eliminated in consolidation. The Company is wholly-owned by its employees either directly or through an Employee Stock Ownership Plan (ESOP). As of December 31, 2007, the ESOP owned approximately 90% of Seattle-Northwest Securities Corporation outstanding common stock.

Receivables From and Payables to Brokers and Dealers - Such amounts principally represent the contract value of securities that have not been delivered or received by settlement date.

Receivables From and Payables to Customers and Non-Customers - Such amounts principally represent amounts due on cash and margin transactions. Securities owned by customers and non-customers are held as collateral for receivables. Such collateral is not reflected in the Company's financial statements.

Other Receivables - Such amounts principally represent amounts invoiced for financial advisory work performed.

Securities Purchased Under Agreements to Resell and Securities Sold Under Agreements to Repurchase - Securities purchased under agreements to resell and securities sold under agreements to repurchase are financing transactions that are collateralized by negotiable securities, in amounts equaling 100% of the agreements, and are carried at the amounts at which the securities will be subsequently repurchased or resold, as specified in the respective agreements, including accrued interest. The Company's policy is to take possession of securities purchased under agreements to resell. Securities sold under agreements to repurchase are held by nationally recognized dealers or clearing houses. The Company monitors daily the market value of the securities acquired or sold as compared to the amounts due or owed under the resell or repurchase agreements, including accrued interest. The Company enters into new resell or repurchase agreements if any material deficiencies exist. The Company offsets certain resell and repurchase agreements that are executed with the same counterparty and meet criteria for the right of offset.

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES**
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Securities Owned - Securities inventory, which includes securities owned and securities sold short, is carried at fair value based on quoted market prices and includes accrued interest. Securities sold short represent obligations to deliver specified securities at predetermined prices and, thereby, create a liability to purchase the securities in the market at prevailing prices. Accordingly, these transactions result in off-balance sheet risk as the Company's ultimate obligation to satisfy the sale of securities sold short may exceed the amount reflected in the statement of financial condition.

Office Furniture, Equipment and Leasehold Improvements - Office furniture and equipment are carried at cost and are principally depreciated over their estimated useful lives according to accelerated methods of depreciation for both book and tax purposes. Leasehold improvements are also carried at cost and are amortized on an accelerated basis over the shorter of the term of the office lease or their estimated useful lives.

Intangible Asset Associated with Customer Relationships - In August 2007 and in August 2002, the Company entered into a business combination and asset purchase transaction, respectively, to purchase customer relationships served by independent advisors for a purchase price of \$250,000 each. The assets acquired by the Company primarily involve contracts with customers that will continue to be served by the Company. The resulting intangible assets are being amortized on a straight-line basis over a period of ten years. Amortization expense recognized on the assets was \$37,500 for the year ended December 31, 2007, and is expected to be \$50,000 on an annual basis. The Company performs impairment analyses annually. An asset is deemed impaired if the sum of the expected future cash flows is less than the carrying amount of the asset. If impaired, an impairment loss is recognized to reduce the carrying value of the assets to fair value. No impairment was recorded during 2007 or 2006.

Income Taxes - The Company has been recognized by the Internal Revenue Service as a Subchapter S Corporation, which is a non-taxable entity. As the Company became a non-taxable entity effective July 1, 2003, the Company may be subject to taxes on any built-in gains if certain assets are sold prior to July 1, 2013.

Financial Instruments - The Company's financial instruments consist of cash, accounts receivable, securities purchased under agreements to resell, securities owned, deposits with clearing organizations, bank loans, securities sold under agreements to repurchase, corporate and municipal securities sold short, payables to brokers and dealers, accounts payable, accrued liabilities and subordinated claims of general creditors. The fair values of these financial instruments approximate their carrying values.

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES**
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Derivatives - Derivatives used for economic hedging purposes include futures. The Company does not apply hedge accounting as defined in FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended, as all financial instruments are marked to market with changes in fair values reflected in earnings. Therefore, the disclosures required in paragraphs 44 and 45 of the Statement are generally not applicable with respect to these financial instruments.

Fair values of forwards, swaps, and options contracts are recorded in securities owned or securities sold short, as appropriate. Open equity in futures transactions are recorded as receivables from and payables to broker-dealers and clearing organizations or customers, as applicable.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk - The Company is engaged in various trading and brokerage activities whose counterparties primarily include broker-dealers, banks, and other financial institutions. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Note 2 - Bank Loans

In the normal course of business, the Company borrows from banks on a demand basis. Borrowings are secured by receivables from brokers, dealers and customers and unsold municipal securities, in amounts equaling 110% of outstanding borrowings, pledged as collateral. The Company had outstanding borrowings from banks of \$13,100,000 as of December 31, 2007. At December 31, 2007, the stated interest rate on these borrowings was 4.88%.

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES**
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006

Note 3 - Securities Owned

Securities owned at December 31 consist of:

	<u>2007</u>	<u>2006</u>
U.S. Government and Federal Agency Securities	\$ 66,470,843	\$ 219,382,922
State and Municipal Bonds	2,846,498	18,422,998
Corporate Bonds	<u>1,267,519</u>	<u>795,636</u>
	<u>\$ 70,584,860</u>	<u>\$ 238,601,556</u>

Note 4 - Related Parties

Certain related-party transactions, which are principally the execution of security trades and shareholder loans, occur between the Company, its principal shareholders and its related ESOP. Security trades are consummated under terms and conditions that are considered to be comparable to other customers. At December 31, 2007 and 2006, the amount of non-forgivable shareholder loans included in other receivables was \$104,794 and \$39,666, respectively.

Note 5 - Commitments and Contingencies

In the normal course of business, the Company enters into when-issued and underwriting commitments. The price of the underlying securities and date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. The market value of such is identified in the Company's portfolio of investments. Losses may arise due to changes in the market value of the securities or from the inability of counterparties to meet the terms of the contract. In connection with such purchases, the Company is required to hold liquid assets as collateral with the custodian sufficient to cover the purchase price. At December 31, 2007 \$414,311 was held as collateral. Open commitments at December 31, 2007, which were subsequently settled, had no material effect on the financial condition of the Company.

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES**
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006

Note 5 - Commitments and Contingencies (Continued)

The aggregate annual non-cancelable rental commitments at December 31, 2007 under all office leases, subject to certain escalation charges, are as follows:

2008	\$ 679,197
2009	496,604
2010	510,272
2011	519,384
2012	519,384
Thereafter	<u>879,308</u>
	<u>\$ 3,604,149</u>

Note 6 - ESOP

The Company's ESOP covers all of the Company's eligible employees. An employee is eligible to participate in the ESOP on either July 1 or January 1 following their date of hire. Plan contributions are based on a percentage of an employee's elective deferrals as well as Company profitability. Employees vest in plan contributions over a three-year period. The amount of the annual Company contribution under the ESOP is determined based on the return on shareholders equity achieved during the Company's fiscal year as well as the amount of total compensation an employee defers.

Note 7 - Buy-Sell Agreement

The Company has an agreement for the purchase and sale of stock that limits ownership and transferability of its shares amongst its employees and its ESOP. The agreement specifies the Company can redeem and cancel its shares at the fair market value of those shares in the event of death, disability or retirement of a shareholder/employee or under other circumstances with payment being made, if the Company so desires, in the form of a note which may be subordinated. Repayment of principal is made in four annual installments bearing interest at variable rates and is available as equity in computing net capital under the S.E.C.'s uniform net capital rule. As of December 31, 2007 and 2006, the Company has subordinated notes outstanding totaling \$1,670,707 and \$1,876,713, respectively.

The agreement limits the amount that can be redeemed at any time to a level consistent with and adequate for the Company's business operations being conducted prior to the redemption. It also limits the redemption price to the Fair Market Value of the stock as determined by an independent appraiser and approved by the Board of Directors.

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006**

Note 7 - Buy-Sell Agreement (Continued)

The aggregate amount of maturities of subordinated debt is as follows:

2008	\$ 589,689
2009	540,508
2010	<u>540,510</u>
	<u>\$ 1,670,707</u>

Note 8 - Capital and Customer Reserve Requirements (Restated)

The Company is subject to S.E.C. rules regarding the maintenance of minimum net capital and customer reserve requirements.

During June 2008, the Company was subject to a regulatory audit by the Financial Industry Regulatory Authority (FINRA). FINRA determined the Company had not complied with certain provisions of S.E.C. Rules 15c3-1 and 15c3-3 in its computations of net capital and customer reserve requirements based on the Company's classification of certain non-customer related assets.

As a result, on July 29, 2008, the Company filed amended Financial and Operational Combined Uniform Single Reports for each of the six months from November 2007 through April 2008. In each of these months, the amended net capital exceeded the Company's minimum net capital requirement of \$250,000.

The Company's calculations of net capital under S.E.C. Rule 15c3-1 as reported in the Financial Schedule I at December 31, 2007 are as follows:

<u>Originally Filed</u>	<u>Restated</u>
\$8,001,110	\$6,922,550

The Company's ratio of aggregate indebtedness to net capital may not exceed 15 to 1. At December 31, 2007, the Company's ratio of aggregate indebtedness to net capital was 0.37 (restated from .33) to 1.

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES**
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006

Note 8 - Capital and Customer Reserve Requirements (Restated) (Continued)

The Company is required to maintain a reserve account for the exclusive benefit of its customers, with a required balance determined by the provisions of S.E.C. Rule 15c3-3. In response to FINRA's findings, the Company amended its calculation of the reserve requirement as of December 31, 2007 from \$35,811 to \$295,482. This resulted in a violation of Rule 15c3-3 as the revised requirement exceeded the actual reserve account deposits of \$105,500. Similar shortfalls were calculated for January and February 2008. The Company increased the balance of the reserve account by \$1,000,000 on March 20, 2008.

In the opinion of management, the disposition and resolution of FINRA's findings is not expected to have a material adverse effect on the financial condition of the Company.

Note 9 - Common Stock Purchase Loans

The Company has issued common stock to shareholders in exchange for common stock purchase loans. The loans have ten-year maturities, bear interest at 1.25% to 1.50% above the broker call rate, are adjusted on a monthly basis, and are secured by the common stock purchased by the shareholders.

Note 10 - Mandatory Redeemable Shares

FASB Statement No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity* (SFAS 150) establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). A financial instrument issued in the form of shares is mandatorily redeemable and, therefore, within the scope of SFAS 150 if it "embodies an unconditional obligation requiring the issuer to redeem the instrument by transferring its assets at a specified or determinable date (or dates) or upon an event certain to occur."

**SEATTLE-NORTHWEST SECURITIES CORPORATION
AND SUBSIDIARIES
NOTES TO CONSOLIDATED STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2007 AND 2006**

Note 10 - Mandatory Redeemable Shares (Continued)

SFAS 150 became effective for the mandatorily redeemable financial instruments of nonpublic broker-dealers for the first fiscal period beginning after December 15, 2003. From that date to March 27, 2006, the Company's shares held by shareholders, other than the ESOP, were mandatorily redeemable equity securities which were required to be reflected as liabilities in accordance with SFAS 150 because those shares are required to be redeemed upon the death of the holder. On March 27, 2006, the Company amended its agreement governing the purchase and sale of stock to remove the mandatory redemption provision. Concurrently, the Company reclassified shares with a fair value of \$2.9 million from presentation as a mandatory redemption liability to the respective components of shareholders' equity. For purposes of this adjustment, the Company determined fair value using a third-party valuation of its stock value as of December 31, 2005.

END
