INDEPENDENT AUDITORS' REPORT

To the Members of
IBS SECURITIES, L.L.C.

We have audited the accompanying statement of financial condition of IBS SECURITIES, L.L.C. as of December 31, 2008, and the related statements of operations, changes in members' equity, changes in liabilities subordinated to claims of general creditors and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of IBS SECURITIES, L.L.C. as of December 31, 2008, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

IBS SECURITIES, L.L.C.

NOTES TO FINANCIAL STATEMENTS for the year ended December 31, 2008

1. Organization and Business

IBS Securities L.L.C. (the Company) is a registered broker-dealer in securities under the Securities Exchange Act of 1934 and a member of The Financial Industry Regulatory Authority (FINRA). As of March 15, 2000, the merger of IBS Securities Incorporated and IBS Securities L.L.C formed the Company. The Company assumed all obligations and received all assets and registrations of IBS Securities Incorporated.

The Company acts as a correspondent broker on a fully disclosed basis. Revenue is derived from proprietary trading of securities and commodity futures contracts and commissions from processing orders for securities transactions on behalf of its customers.

In August 2007, the Company made application for membership in the National Securities Clearing Corporation ("NSCC") and the Depository Trust & Clearing Corporation ("DTCC") to become a Self-Clearing Securities Firm. Management anticipates that this application will be approved in 2009. The Company is subject to the Recordkeeping, Risk Assessment and Reporting Requirements of SEC Rules 17h-1T and 17h-2T concerning its affiliate, Integrated Brokerage Services, LLC which under these regulations is considered to be a Material Associated Person ("MAP") of IBS Securities, LLC.

2. Summary of Significant Accounting Policies

Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the members.

Securities and Commodities Owned

Proprietary securities and commodities transactions are recorded on the transaction date; positions are marked to market with related gains and losses recognized currently in income. Gains and losses on open commodity futures and options on futures contracts, if any, which are marked to market, are recognized currently in income.

Securities Valuation

Investments in securities are stated at fair value. Fair value is the estimated amount for which an investment could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Cost is used as fair value for investments that are not traded on a national exchange and have no indication of value impairment.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

IBS SECURITIES, L.L.C.

**NOTES TO FINANCIAL STATEMENTS
for the year ended December 31, 2008**

3. Net Capital Requirements

The Company is a broker-dealer subject to the Securities and Exchange Commission's Uniform Net Capital Rule (15c3-1).

At December 31, 2008, the Company had net capital and net capital requirements of approximately \$787,896 and \$100,000, respectively.

4. Off Balance Sheet Risk and Concentration of Credit Risk

In the normal course of business, securities transactions of customers of the Company are introduced and cleared through MF Global Inc.

Pursuant to agreements between the Company and MF Global Securities Inc., MF Global Securities Inc. has the right to charge the Company for unsecured losses that result from a customer's failure to complete such transactions. The Company does not anticipate nonperformance by customers. The Company has a policy of reviewing, as considered necessary, the credit standing of each customer with which it conducts business.

At December 31, 2008, a significant credit concentration consisted of cash deposited in two banks. The balances exceeded federally insured limits by \$230,324 which represents 22.4% of the Company's equity. The Company has not experienced any losses in such accounts. Management believes that the Company is not exposed to any significant credit risk on cash.

5. Due From Affiliates

Net amounts due from entities with common ownership at December 31, 2008 amounted to \$130,698.

6. Derivative Financial Instruments

The Company enters into transactions of derivative financial instruments, which include commodity futures contracts, for trading purposes.

7. Computer Software Developed for Internal Use

The Company has adopted the American Institute of Certified Public Accountants Statement of Position 98-1 "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use." Accordingly, during the preliminary project and post implementation/operation, costs are expensed in the period they are incurred. During the application development costs incurred are capitalized. The amount of application development costs capitalized at December 31, 2008 amounted to \$21,406.

IBS SECURITIES, L.L.C.

NOTES TO FINANCIAL STATEMENTS
for the year ended December 31, 2008

8. Fair Value Disclosure

The Company adopted Statement of Financial Accounting Standards No. 157 ("SFAS No. 157") as of January 1, 2008, which requires, among other things, enhanced disclosures about investments that are measured and reported at fair value. SFAS No. 157 establishes a hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs - quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs - other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs - unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2008:

	<u>Level 1</u> <u>Assets</u>
	<u>Securities</u> <u>Owned</u>
Stocks	\$ <u>74,130</u>

At December 31, 2008, the Company did not have any level 2 or level 3 investments.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Members of
IBS SECURITIES, L.L.C.

In planning and performing our audit of the financial statements of IBS SECURITIES, L.L.C. (the "Company") for the year ended December 31, 2008, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exceptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, The Financial Industry Regulatory Authority (FINRA), and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
