INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Striker Securities, Inc.

We have audited the accompanying statement of financial condition of Striker Securities, Inc. (the "Company"), as of December 31, 2008 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Striker Securities, Inc. as of December 31, 2008 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for the purpose of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5(d) under the Securities Exchange Act of 1934 and Regulation 1.10 under the Commodity Exchange Act. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

STRIKER SECURITIES, INC.

**NOTES TO STATEMENT OF FINANCIAL CONDITION
December 31, 2008**

1. Organization and Business

Striker Securities, Inc. (the "Company") was incorporated in the State of Illinois on December 11, 1991 and is a subsidiary (91% ownership) of Striker Holding Corporation. The Company is a registered securities broker-dealer with the Securities and Exchange Commission (the "SEC") and is a member of the Financial Industry Regulatory Authority. The Company is also registered with the Commodity Futures Trading Commission (the "CFTC") as a non-guaranteed Introducing Broker and is a member of the National Futures Association. The Company solicits and accepts orders to buy or sell securities, futures contracts or options on futures while not accepting or holding customer margin deposits.

2. Summary of Significant Accounting Policies

Revenue Recognition

Commission revenue and related expenses on futures contracts are recorded on a "half-turn" basis, which is the date when the futures contract positions are opened or closed. Commission revenue and related expenses on options contracts are also recorded on a "half-turn" basis, which is the date when the positions are initially purchased or sold.

Income Taxes

The Company provides for taxes in accordance with the Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes", which requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are recognized based on the difference between the financial statement and tax basis of liabilities and assets using enacted tax rates.

Cash Equivalents

Cash equivalents consist of money market deposits with maturities of less than three months.

Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

3. Benefit Plan

The Company has established a simplified employee pension plan for qualified employees.

4. Credit Concentration

At December 31, 2008, a significant credit concentration consisted of \$65,754, which represents approximately 49% of the Company's equity. This amount represents the total fair value of the Company's brokerage account with Terra Nova Financial. Management believes that the Company is not exposed to any significant credit risk on this asset.

5. Off-Balance-Sheet Risk

Customer transactions are introduced to and cleared through the Company's broker on a fully disclosed basis. Under the terms of its clearing agreements, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines, customers may be required to deposit additional collateral, or reduce positions, where necessary.

6. Lease Commitment

The Company conducts its operations in leased office facilities and annual rentals are charged to current operations.

The minimum annual rental commitments under a non-cancelable operating lease are approximately as follows as of December 31, 2008:

<u>Year Ending</u> <u>December 31</u>	<u>Amount</u>
2009	44,000
2010	45,000
2011	<u>30,000</u>
Total	<u>\$ 119,000</u>

7. Fair Value Disclosure

The Company adopted Statement of Financial Accounting Standards No. 157 ("SFAS No. 157"), which requires, among other things, enhanced disclosures about investments that are measured and reported at fair value. SFAS No. 157 establishes a hierarchy that prioritizes inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of principal market, the most advantageous market. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs - quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs - other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs - unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

At December 31, 2008, the Company had corporate equity securities totaling \$65,459, which were level 1. The Company did not have any level 2 or level 3 investments.

8. Minimum Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule 15(c)3-1 and CFTC Regulation 1.17. Under this rule, the Company is required to maintain "net capital" equal to the greater of \$45,000 or 6 and 2/3 % of "aggregate indebtedness", as defined.

At December 31, 2008, the Company had net capital and net capital requirements of \$109,834 and 45,000, respectively.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Board of Directors of
Striker Securities, Inc.

In planning and performing our audit of the statement of financial condition of Striker Securities, Inc. (the "Company") as of December 31, 2008, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

Also, as required by Regulation 1.16 of the Commodity Futures Trading Commission (the "CFTC"), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Regulation 1.16 in making the periodic computations of minimum financial requirements pursuant to Regulation 1.17. We did not perform any testwork on the daily computations of the segregation requirements of section 4d(2) of the CFTC and the regulations thereunder, and the segregation of funds based on such computations or the daily computations of the foreign futures and foreign options secured amount requirements pursuant to Regulation 30.7 of the CFTC since the Company did not handle any customer cash or securities during the year ended December 31, 2008.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's and the CFTC's 'above-mentioned objectives.

Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the financial statement in accordance with generally accepted accounting principles. Rule 17a-5(g) and Regulation 1.16(d)(2) list additional objectives of the practices and procedures listed in the preceding paragraphs.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statement that is more than inconsequential will be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statement will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first, second and third paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities and certain regulated commodity customer and firm assets that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC and the CFTC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and the Commodity Exchange Act and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008 to meet the SEC's and the CFTC's objectives.

This report is intended solely for the information and use of management, the SEC and the CFTC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and/or Regulation 1.16 of the CFTC in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
