Independent Auditor's Report

Members

Frontegra Strategies, LLC
Northbrook, Illinois

We have audited the accompanying statement of financial condition of **Frontegra Strategies, LLC** as of December 31, 2008, and the related statements of loss and members' equity and cash flows for the year then ended that the Company is filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Frontegra Strategies, LLC** as of December 31, 2008, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

Year Ended December 31, 2008

Note 1 - Industry Operations

Frontegra Strategies, LLC (formerly known as Frontegra Alternative Strategies, LLC) (the Company) was formed on March 15, 2005 as a Delaware limited liability company. The Company is a registered securities broker-dealer that provides investment banking and financial advisory services to institutional money managers, who privately place nonregistered securities.

Note 2 - Summary of Significant Accounting Policies

Aspects of the Limited Liability Company

As a limited liability company, each member's liability is limited to the capital invested. Under the operating agreement, the Company has one class of member interest, and each member's interest is proportional to the number of equity units acquired by the member to the total number of units issued by the Company. Allocation of profits, losses and distributions is in accordance with the terms as defined in the operating agreement. The Company shall remain in perpetuity unless sooner terminated, as provided in the operating agreement.

The Company is treated as a partnership for federal income tax purposes. Consequently, federal income taxes are not payable by, or provided for, the Company. Members are taxed individually on their share of the Company's earnings. Accordingly, the financial statements do not reflect a provision for income taxes.

Cash

The Company maintains its cash in a bank account, which at times may exceed federally insured limits. The Company has not experienced any losses in such account and believes it is not exposed to any significant credit risk on cash.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Revenue is realized from fees for services provided, or as a percentage of the amount of securities raised. These fees are recognized as earned when the related deal is consummated.

Frontegra Strategies, LLC
Notes to Financial Statements
Year Ended December 31, 2008

Note 2 - Summary of Significant Accounting Policies (Continued)

Fair Value Measurements

Effective January 1, 2008, the Company partially adopted Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (FAS 157). FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 does not require any new fair value measurements but may require some entities to change their measurement practices.

In February 2008, the Financial Accounting Standards Board (FASB) deferred the effective date of FAS 157 for one year for certain nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company will complete its adoption of FAS 157 for these assets and liabilities in 2009.

The Company's partial adoption of FAS 157 in 2008 did not have a significant effect on the Company's financial position, results of operations or disclosures.

Note 3 - Uniform Net Capital Rule

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). Per this rule, the Company, as a broker-dealer, is required to maintain "net capital" of 6 2/3% of "aggregate indebtedness" or \$25,000, whichever is greater, as these terms are defined.

Net capital and net capital requirements change from day to day but, as of December 31, 2008, the Company had net capital and net capital requirements of approximately \$96,000 and \$25,000, respectively. The net capital rule may effectively restrict the payment of dividends.

Note 4 - Major Customer

In 2008, revenues from one customer amounted to 100% of the Company's fee revenue. The amount of fee revenue from this customer was approximately \$59,000.

Independent Auditor's Report on Internal Control

Members

Frontegra Strategies, LLC
Northbrook, Illinois

In planning and performing our audit of the financial statements of **Frontegra Strategies, LLC** as of and for the year ended December 31, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment of securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the second preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate as of December 31, 2008, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the NASD and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
