INDEPENDENT AUDITORS' REPORT

Board of Directors
Oakbrook Investment Brokers, Inc.

We have audited the accompanying statement of financial condition of Oakbrook Investment Brokers, Inc. as of December 31, 2008 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to attain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Oakbrook Investment Brokers, Inc. as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated in the state of Illinois on January 30, 1987. The Company is registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA). The Company's principal business activity is the sale of securities.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis.

Long Securities - Marketable securities are valued at market value and securities not readily marketable are valued at fair value as determined by the Board of Directors. The resulting difference between cost and market value (or fair value) is included in income.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with a maturity date at the time of acquisition of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Concentration of Risk - The Company's cash is on deposit at one financial institution and the balance at times may exceed the federally insured limit. Due to the strong credit rating of this financial institution, the Company believes it is not exposed to any significant credit risk to cash.

Furniture and Equipment - Depreciation is provided on a straight-line basis using an estimated useful life of five years.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 5 - CLEARING AGREEMENT WITH OFF-BALANCE-SHEET RISK

Customers of the Company may enter into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include exchange traded options. In addition, the Company's customers may sell securities that they do not currently own and will therefore be obligated to purchase such securities at a future date. Since the Company enters into the foregoing transactions involving derivatives and other off-balance sheet financial instruments solely for the benefit of its customers, the Company does not bear any of the credit or market risk of those customers, with the exception of the risk to the Company should its customers fail to honor their obligations related to the foregoing derivatives and other off-balance sheet financial instruments, as mentioned below.

In order to facilitate securities transactions, including the aforementioned transactions, on March 18, 2004, the Company entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby that Clearing Broker/dealer will execute and clear securities transactions for the Company on a fully disclosed basis. The processing and, if applicable, any financing pertaining to the introduced transactions are performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/Dealer. The Company has deposited \$25,000 with the Clearing Broker/dealer to assure the Company's performance under the agreement and this amount is included in "Receivable from broker/dealers" on the statement of financial condition. The agreement also states that the Company may not have any similar agreements with other broker/dealers without prior written approval from the Clearing Broker/dealer. The agreement has an initial term of 36 months and will automatically renew for additional 36 month periods unless terminated by either party with prior written notification. The Company will be subject to a termination fee equal to \$3,000 per month for each of the remaining months in the initial or renewal term. The Company is also required to produce monthly minimum revenues of \$3,000

with the Clearing Broker/dealer and maintain fidelity bond coverage of at least \$30,000. Additional provisions of the agreement state that the Company is to be held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

NOTE 6 - S CORPORATION ELECTION

The Company has elected S Corporation status for federal income tax purposes. Income taxes are therefore the responsibility of the individual shareholder of the Company.
