INTERCAM SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008

NOTE 1. NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BUSINESS AND ORGANIZATION

Intercam Securities, Inc. (“Company”) is a registered broker-dealer in securities under the provisions of the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (“FINRA”).

The Company was organized as a Corporation in the state of Florida on September 19, 2007. The Company is headquartered in Miami, Florida and began operations in April 2007.

The Company entered into an agreement (“Agreement”) in January 2009 with a clearing broker (“Broker”) to clear securities transactions, carry customers’ accounts on a fully disclosed basis and perform certain recordkeeping functions. However, the Company operated under the exemptive provisions of the Securities and Exchange Commission (“SEC”) Rule 15c3-3(k)(2)(ii) as if it had retained a clearing broker throughout the year.

SECURITIES TRANSACTIONS

Securities transactions and related commission revenues and expenses are recorded on a trade date basis. Securities listed on a national exchange are valued at the last sales price on the date of valuation. Securities not listed on a national exchange are valued at the last sales price on the date of valuation or, if such price is not available, at the bid price for securities owned and the ask price for securities sold but not yet purchased at the close of business.

INCOME TAXES

The income tax benefit is computed on the pretax loss based on the current tax law. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

INTERCAM SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008

NOTE 1. NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid debt instruments and other short-term investments with an initial maturity of three months or less to be cash equivalents.

The Company maintains cash and cash equivalent balances at financial institutions, which are insured by the Federal Deposit Insurance Corporation or Securities Investor Protection Corporation up to \$250,000. The Company had \$248,035 in excess of the federally insured limits at December 31, 2008.

OTHER RECEIVABLE

Other receivable represents an amount due from an overpayment made during the year. It is anticipated the amount will be received within the current year.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The costs of maintenance and repairs are charged to income as incurred; significant renewals and betterments are capitalized. Deduction is made for retirements resulting from renewals or betterment.

NOTE 2. CLEARING AGREEMENT

In accordance with the proposed Agreement, all of the Company's property held by the Broker including, but not limited to, securities, deposits, monies and receivables will be used as collateral to secure the Company's liabilities and obligations to the Broker.

The Company will maintain, as collateral against losses due to potential nonperformance by its customers, deposits to cover its inventory and outstanding customer positions.

INTERCAM SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 3. REGULATORY NET CAPITAL REQUIREMENTS

The Company is subject to the SEC's Uniform Net Capital Rule, which requires the maintenance of minimum regulatory net capital and requires that the ratio of aggregate indebtedness to regulatory net capital, both as defined, shall not exceed 15 to 1. The Company was not in compliance with the SEC's Uniform Net capital Rule as of December 31, 2008. This noncompliance was cured on January 20, 2009 (See Note 9).

Under the provisions of Rule 15c3-3, the Company is not required to segregate funds in a special reserve account for the exclusive benefit of customers and is not subject to certain other requirements of the Customer Protection Rule.

NOTE 4. COMMITMENTS

Customer Transactions

In the normal course of business, the Company will execute, as agent, securities transactions on behalf of its customers. If the agency transactions do not settle because of failure to perform by either the customer or the counterparty, the Company may be obligated to discharge the obligation of the nonperforming party and, as a result, is subject to market risk if the market value of the securities is different from the contract amount of the transactions.

The Company does not anticipate nonperformance by customers or counter parties in the above situations. The Company's policy is to monitor its market exposure and counter party risk. In addition, the Company has a policy of reviewing, as considered necessary, the credit standing of each counter party and customer with which it conducts business.

REPORT ON INTERNAL CONTROL

Intercam Securities, Inc.
Miami, Florida

In planning and performing our audit of the financial statements of Intercam Securities, Inc., as of and for the year ended December 31, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2008, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5 (g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
