Independent Auditor's Statement on Material Inadequacies

To the President
Integrated Financial Planning Services
Karlstrasse 20
Heidelberg, Germany 69117

I have audited the accompanying financial statements of Integrated Financial Planning Services (IFPS) as of December 31, 2008, and the related statements of income, changes in ownership equity and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934, and have issued my report thereon dated February 10, 2009. I conducted my audit in accordance with accounting standards generally accepted in the United States of America.

In planning and performing my audit, I considered IFPS' internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be significant deficiencies. Under standards issued by the American Institute of Certified Public Accountants, significant deficiencies are deficiencies in internal control, of a combination of deficiencies, that adversely affect IFPS' ability to initiate, authorize, record, process or report financial data reliably and in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement of the financial statements being audited that is more than inconsequential will not be prevented or detected. Material weaknesses are significant deficiencies, or a combination of significant deficiencies, that result in a more than remote likelihood that material misstatements in relation to the financial statements being audited will not be prevented or detected.

I found and noted no matters involving the internal control over financial reporting and its operation that I considered to be material inadequacies.

Independent Auditor's Report on Internal Accounting Control

To the President
Integrated Financial Planning Services
Karlstrasse 20
Heidelberg, Germany 69117

I have audited the accompanying financial statements of Integrated Financial Planning Services (IFPS) as of December 31, 2008, and the related statements of income, changes in ownership equity and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934, and have issued my report thereon dated February 10, 2009. I conducted my audit in accordance with accounting standards generally accepted in the United States of America.

In planning and performing my audit, I considered IFPS' internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be significant deficiencies. Under standards issued by the American Institute of Certified Public Accountants, significant deficiencies are deficiencies in internal control, of a combination of deficiencies, that adversely affect IFPS' ability to initiate, authorize, record, process or report financial data reliably and in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement of the financial statements being audited that is more than inconsequential will not be prevented or detected. Material weaknesses are significant deficiencies, or a combination of significant deficiencies, that result in a more than remote likelihood that material misstatements in relation to the financial statements being audited will not be prevented or detected. I noted no matters involving the internal control over financial reporting and its operation that I considered to be material weaknesses.

As part of obtaining reasonable assurance about whether IFPS' financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, I do not express such an opinion.

This report is intended solely for the information and use of the management of Integrated Financial Planning Services and the U.S. Security and Exchange Commission and is not intended to be and should not be used by anyone other than these specific parties.
