LAMPOST CAPITAL, L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2008

1. ORGANIZATION

Lampost Capital, L.C. (the "Company") was organized as a limited liability company on July 16, 1997, in the state of Florida. The Company is a registered broker-dealer with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Company operates an office in Boca Raton, Florida. The Company's sources of revenue are derived from unsolicited brokerage transactions, market making, proprietary trading and fees for other services rendered. The Company is an introducing broker-dealer and clears its trades through Penson Financial Services, Inc. (the "Clearing Broker"). Although the Company's Clearing Broker maintains the accounts of all customers, the Company remains contingently liable for customers who do not fulfill their obligations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash equivalents - Cash equivalents are short-term, liquid investments with an original maturity of three months or less and are carried at cost, which approximates market value.

Due from clearing broker and others - Due from clearing broker and others represents commissions and other monies due the Company from the Clearing Broker and some miscellaneous receivables. An allowance for doubtful accounts is not recorded since the Clearing Broker adjusts accounts monthly to actual results.

Securities purchased, not yet sold - Securities purchased, which are readily marketable are recorded at market value with unrealized gains and losses reflected in income per FASB Statement No. 157 and are considered Level 1 inputs.

Furniture and equipment - Furniture and equipment are recorded at cost. Repair and maintenance costs are charged to operations as incurred. When assets are retired or disposed of, the cost and accumulated depreciation thereon are removed from the accounts, and any gains or losses are included in operations. Depreciation on furniture and equipment is provided utilizing the straight line method over the estimated useful lives of the related assets, which is estimated at three to five years.

Securities transactions - Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customer securities are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

Marketable securities are valued at market value.

Fair value of financial instruments - Financial instruments are recorded at fair value in accordance with FASB Statement No. 157.

LAMPOST CAPITAL, L.C.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2008

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Commission – Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Income taxes - The Company, with the consent of its members, elected to be taxed as a partnership under the Internal Revenue Code. All taxable income or loss flows through to the members. Accordingly, no income tax expense or liability is recorded in the accompanying financial statements.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

4. RELATED PARTY TRANSACTIONS

The Company shares office space and other related administrative costs with an affiliated company, which is 50% owned by the majority member. This entity executes transactions on behalf of its clients through the Company and its clearing broker, and the Company receives commissions on the trades and other income derived from the balances in the accounts of those clients.

The Company has a minority member who owns two percent (2%) of the Company. The Company has an agreement with the minority member to pay the member a disproportionate share of the profits generated from the trades the member directs to the Company. For the year ended December 31, 2008, the member's distribution was approximately \$5,208 of which \$865 was payable at December 31, 2008.

The Company's customers' securities transactions are introduced on a fully disclosed basis to its Clearing Broker. The Clearing Broker is responsible for collection of and payment of funds and receipt and delivery of securities for customer transactions. Off-balance sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments and the Clearing Broker may charge any losses to the Company. The Company seeks to minimize the risk through procedures designed to monitor creditworthiness of the customers and proper execution of transactions by the Clearing Broker.

**REPORT ON INTERNAL CONTROL STRUCTURE REQUIRED
BY SEC RULE 17a-5
FOR A BROKER-DEALER CLAIMING EXEMPTION FROM
SEC RULE 15c3-3**

Members

Lampost Capital, L.C.

In planning and performing our audit of the financial statements of Lampost Capital, L.C. (the "Company") for the year ended December 31, 2008, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company, including tests of such practices that we considered relevant to the objectives stated in Rule 17a-5(g)(1) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's

authorization and recorded properly to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and the practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008, to meet the SEC's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.
