Organization and Nature of Operations

Collins & Company, LLC (Company) was formed on July 7, 1999. The Company received permission from the New York Stock Exchange to conduct business as Collins & Company, LLC on October 8, 1999. Prior to that date, the Company operated under the name of Collins & Co. (predecessor company) as it has since 1969. Effective March 7, 2006, the Company ceased operating as a New York Stock Exchange member organization because the New York Stock Exchange Group acquired the Company's membership.

The Company is registered as a broker/dealer in securities under the Securities and Exchange Act of 1934. In addition, as an introducing member, it forwards retail customer transactions to a clearing member on a fully disclosed basis. The Company also conducts an investment advisory service and an investment management service for its customers. The Company is a registered investment advisor in accordance with the Investment Advisors Act of 1940.

Investment securities are carried at market value.

Depreciation of furniture and equipment is provided on straight-line and accelerated bases over estimated useful lives of three to seven years. Depreciation of leasehold improvements is provided on a straight-line basis over the remaining life of the lease.

(5) Concentration of Credit Risk for Cash Held in Bank

The Company maintains a demand deposit with a commercial bank. During 2008 this account was insured from January 1, 2008 to October 2, 2008 by the Federal Deposit Insurance Corporation (FDIC) on amounts up to \$100,000. On October 3, 2008 and through December 31, 2008 the FDIC coverage increased to \$250,000. On January 1, 2010, the standard coverage limit will return to \$100,000. At December 31, 2008, the Company had no uninsured demand deposit balance.

The Company also maintains a money market account with a clearing firm who is a member of the New York Stock Exchange. The money market account is considered to be a security and as such is insured for losses due to theft or fraud by the Securities Investor Protection Corporation for balances up to \$500,000. The clearing firm carries supplemental insurance, which results in coverage necessary to cover the remaining net asset value of the account in the event of losses due to theft or fraud. At December 31, 2008, the Company had no uninsured money market account balance.

(6) Financial Instruments

The Company's financial instruments, none of which are for trading purposes, include cash, accounts receivable, investment securities, accounts payable and income taxes payable. The Company estimates that the fair value of all financial instruments at December 31, 2008, does not materially differ from the aggregate carrying values in the statement of financial condition. The estimated fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value, and accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market exchange.
