### 1. DESCRIPTION OF BUSINESS

Olympia Asset Management, Ltd. (the "Company") is a registered securities broker-dealer located in New York, New York. The company became a member of the National Association of Securities Dealers ("NASD") on September 9, 2003, and commenced operations on that date as a securities broker-dealer. Operations consist primarily of the execution of securities trades for customers on an agency and riskless principal basis. The Company was incorporated under the laws of the State of New York on December 4, 2002 and changed its name from Murphy Financial Group, Inc. on March 24, 2003.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The Company records securities transactions and related revenue and expenses on a trade date basis.

Depreciation of furniture and equipment is provided on a straight-line basis and MACRS method of depreciation.

For purposes of the Statement of Cash Flows, the Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported revenues and expenses. Actual results could vary from the estimates that were used.

The stockholder of the Company has elected to be taxed as an "S" corporation for federal and New York State tax purposes. Under "S" status, the Company is not subject to federal and NYS corporate income taxes on its taxable income. Instead, the stockholder is individually liable for income taxes on corporate taxable income. Accordingly, the accompanying financial statements only provide for corporation income taxes imposed by New York City.

### 3. DUE FROM CLEARING FIRM

The Company has a clearing agreement with Penson Financial Services, Inc. The clearing broker has custody of the Company securities and cash balances. These securities and/or cash positions serve as collateral for any amounts due to the clearing broker and as collateral for potential defaults of the Company's customers, which are carried, on the books and records of the clearing broker.

The Company executes, as principal and agent, securities transactions on behalf of its customers. If either the customer or counter-party fail to perform, the Company may be required to discharge the obligations of the non-performing party. In such circumstances, the Company may sustain a loss if the market value of the security is different from the contract value of the transaction.

The Company is engaged in trading and brokerage activities with customers, broker-dealers and other counterparties. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL**  
**REQUIRED BY SEC RULE 17a-5**

To the Board of Directors and Stockholders of

**OLYMPIA ASSET MANAGEMENT, LTD.**

In planning and performing our audit of the financial statements and supplementary schedules of Olympia Asset Management, LTD. (the "Company") for the year ended December 31, 2008, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(l) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts verifications, and comparisons.
2. Recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management and required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affect the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008, to meet the SEC's objectives.

This report recognized that it is not practicable in an organization the size of the Company to achieve all the divisions of duties and cross-checks generally included in a system internal accounting control, and that, alternatively, greater reliance must be placed on surveillance by management.

This report is intended solely for the information and use of management, the SEC, the Financial Industry Regulation Authority, Inc. and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
