Report of Independent Certified Public
Accountants on Internal Accounting Control

Board of Directors
MKG Financial Group, Inc.

We have audited the financial statements of MKG Financial Group, Inc. for the year ended December 31, 2008, and have issued our report thereon dated February 11, 2009. As part of our audit, we made a study and evaluation of the Company's system of internal accounting control (which includes the procedures for safeguarding securities) to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rules 15c3-3. No facts came to our attention that such conditions for exemption from rule 15c3-3 had not been complied with during the year. We did not review the practices and procedures followed by the Company in making the quarterly securities examination, counts, verifications and comparisons and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of the Company taken as a whole. However, our study and evaluation disclosed the following condition that we believe results in more than a relatively low risk that errors or irregularities in amounts that would be material in relation to the financial statements of MKG Financial Group, Inc. may occur and not be detected within a timely period. We noted that the Company maintains a limited number of accounting personnel, thereby resulting in a condition which precludes adequate segregation of accounting duties, thus causing inadequate controls over accounting transactions. It is the belief of management that, in addition to the impracticability of adding to the staff, management's involvement in the day-to-day business affairs offsets the lack of internal controls created by an insufficient number of personnel. This condition was considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the 2008, financial statements and this report does not affect our report on these financial statements dated February 11, 2009.

We understand that practices and procedures that accomplish the objective referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objective in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study and evaluation, we believe that the Company's practices and procedures at December 31, 2008, except for the matter described in the preceding paragraph, meet the Commission's objectives.

This report is intended solely for the use of management and the Securities and Exchange Commission and the National Association of Securities Dealers, Inc. and should not be used for any other purpose.
