INDEPENDENT AUDITOR'S REPORT

Board of Directors
New Investor World Incorporated

We have audited the accompanying statement of financial condition of New Investor World Incorporated as of December 31, 2008, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Investor World Incorporated as of December 31, 2008, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NEW INVESTOR WORLD INCORPORATED
Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

New Investor World Incorporated (the Company) was organized in September 2000 as a Texas corporation. The Company is a wholly owned subsidiary of NIW Holdings, Inc. (Parent). The Company is a broker/dealer in securities registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company markets wholesale insurance products to other broker/dealers using various strategies. The Company's customers are broker/dealers located throughout the United States.

The Company operates pursuant to section (k)(1) exemptive provisions of Rule 15c3-3 of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Company does not hold customer funds or securities, but as an introducing broker or dealer, will limit its securities business to the distribution of mutual funds and/or variable life insurance or annuities. Under these exemptive provisions, the Computation for Determination of Reserve Requirements and Information Relating to the Possession and Control Requirements are not required.

The Company had no revenues or cash flows for the year ended December 31, 2008.

Significant Accounting Policies:

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Insurance Commissions

Insurance commissions are recorded when earned by the Company.

Note 2 - Net Capital Requirements

The Company is subject to the SEC uniform net capital rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2008, the Company had net capital and net capital requirements of \$24,439 and \$5,000, respectively. The Company's net capital ratio was zero to 1.

NEW INVESTOR WORLD INCORPORATED
Notes to Financial Statements

Note 3 - Income Taxes

The Company is not included in the federal income tax return of the Parent and files its income tax return on a separate company basis using the cash basis method of accounting. The Company's current year taxable income was fully offset by prior years net operating loss carryforward. As of December 31, 2008, the Company has a federal net operating loss carry forward of approximately \$105,000 available to offset future taxable income, which begins expiring in 2020. The federal net operating loss carry forward creates a deferred tax asset of approximately \$15,000; however, the entire amount has been offset by valuation allowance, therefore, there is no deferred tax asset recognized in the accompanying statement of financial condition.

Note 4 - Related Party Transactions

The Company is under the control of its Parent and the existence of that control creates operating results and financial position significantly different than if the Companies were autonomous.

Under a Services Agreement effective January 1, 2002 and amended July 12, 2003, the Parent will incur certain obligations related to the combined business of the Company and the Parent, and provide certain services to the Company. For such obligations incurred and services performed, the Company will pay to the Parent all revenues received related to the combined business of the Company and the Parent. The Agreement allows the Company to waive any such portion of the fees in order for the Company to remain in compliance with its minimum net capital requirements (See Note 2). Since the Company had no revenues during the year, no fees were incurred for the year ended December 31, 2008 under this Agreement. The Agreement was not consummated on terms equivalent to arms length transactions.

Schedule I

NEW INVESTOR WORLD INCORPORATED Computation of Net Capital and Aggregate Indebtedness Pursuant to Rule 15c3-1 December 31, 2008

Total stockholder's equity qualified for net capital	\$ 24,439
Deductions and/or charges	<u>-</u>
Net Capital	<u>\$ 24,439</u>
Aggregate indebtedness	<u>\$ -</u>
Computation of basic net capital requirement	
Minimum net capital required (greater of \$5,000 or 6 2/3% of aggregate indebtedness)	<u>\$ 5,000</u>
Net capital in excess of minimum requirement	<u>\$ 19,439</u>
Ratio of aggregate indebtedness to net capital	<u>Zero to 1</u>

Note: The above computation does not differ from the computation of net capital under Rule 15c3-1 as of December 31, 2008 as filed by New Investor World Incorporated on Form X-17A-5. Accordingly, no reconciliation is deemed necessary.

PHILLIP V. GEORGE, PLLC
CERTIFIED PUBLIC ACCOUNTANT

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL REQUIRED BY
SEC RULE 17A-5(G)(1)**

Board of Directors
New Investor World Incorporated

In planning and performing our audit of the financial statements of New Investor World Incorporated (the Company), as of and for the year ended December 31, 2008 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2008, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
