INDEPENDENT AUDITOR'S REPORT

Board of Directors
Select Capital Corporation
Costa Mesa, California

I have audited the accompanying statement of financial condition of Select Capital Corporation, (the Company) as of December 31, 2008 and related statements of operations, cash flows, and changes in shareholders' equity for the year then ended. These financial statements are being filed pursuant to Rule 17a-5 of the Securities Exchange Act of 1934 and include the supplemental schedule of the net capital computation required by rule 15c3-1. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, such financial statements referred to above present fairly, in all material respects, the financial condition of the Company as of December 31, 2008 and the results of its operations, cash flows and shareholders' equity for the year then ended in conformity with accounting principles generally accepted in the United States.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplemental information on page 9 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Page 10 includes supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

STATEMENT OF INTERNAL CONTROL

DECEMBER 31, 2008

**3832 SHANNON ROAD
LOS ANGELES, CALIFORNIA 90027
323/669-0545 – Fax 323/669-0575**

**Independent Auditor's Report
on Internal Accounting Control Required by SEC Rule 17a-5**

Board of Directors
Select Capital Corporation
Costa Mesa, California

In planning and performing my audit of the financial statements and supplemental schedules of Select Capital Corporation (the Company) for the year ended December 31, 2008, I considered its internal control, including control activities for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that I considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-5(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide

Board of Directors

management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving internal control, including control activities for safeguarding securities that I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate on December 31, 2008 to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used for anyone other than these specified parties.
