**CONSOLIDATED FINANCIAL STATEMENTS AND
REPORT OF INDEPENDENT ACCOUNTANTS**

DECEMBER 31, 2009 AND 2008

22

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Evergreen Marine Corporation

We have audited the accompanying consolidated balance sheets of Evergreen Marine Corporation (the "Company") as of December 31, 2009 and 2008, and the related consolidated statements of income, of changes in stockholders' equity , and of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We didn't audit all the affiliated companies included in the consolidated financial statements of Peony Investment S. A., a subsidiary of the Company, which statements reflect total assets of 42,213,345 and 53,341,089 thousand New Taiwan Dollars, constituting 36.96% and 39.99% of the consolidated total assets as of December 31, 2009 and 2008, and net operating revenues of 27,471,247 and 42,091,169 thousand New Taiwan Dollars, constituting 33.53% and 32.63% of the consolidated net operating revenues for the years then ended. In addition, we didn't review the financial statements of all the investee companies accounted for under the equity method. Those statements were audited by other auditors whose reports thereon have been furnished to us, and our report expressed herein, insofar as it relates to the amounts included for those investee companies accounted for under the equity method and information disclosed in Note 11 relating to these long-term equity investments, is based solely on the reports of other auditors. Long-term investments in these companies amounted to 14,601,631 and 17,194,932 thousand New Taiwan Dollars, constituting 12.78% and 12.89% of the consolidated total assets as of December 31, 2009 and 2008, and the related investment loss was 5,337,885 and 544,945 thousand New Taiwan Dollars for years then ended.

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

We conducted our audits in accordance with the "Rules Governing the Examination of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining evidence which is supporting the amounts and disclosures in the financial statements in sampling way. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Evergreen Marine Corporation and its affiliated as of December 31, 2009 and 2008, and the results of its operations and its cash flows for the years then ended in conformity with the "Rules Governing Preparation of Financial Statements by Securities Issuers" and generally accepted accounting principles in the Republic of China.

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements of the Group are prepared in conformity with the "Rules Governing Preparation of Financial Statements by Securities Issuers" and accounting principles generally accepted in the Republic of China. The Group's significant accounting policies are summarized below:

(1) Basis for preparation of consolidated financial statements

All majority-owned subsidiaries and controlled entities are included in the consolidated financial statements. Effective January 1, 2008, the Company prepares consolidated financial statements on a quarterly basis. Any entity acquired is consolidated starting the acquisition date; once the Company loses its controlling power over an entity, the entity is excluded from the consolidation, and any effect is not retrospective. Significant inter-company transactions and assets and liabilities arising from inter-company transactions are eliminated.

(2) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- a) Assets arising from operating activities that are expected to be realized or consumed, or are intended to be sold within the normal operating cycle;
- b) Assets held mainly for trading purposes;
- c) Assets that are expected to be realized within twelve months from the balance sheet date;
- d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- a) Liabilities arising from operating activities that are expected to be paid off within the normal operating cycle;
- b) Liabilities arising mainly from trading activities;
- c) Liabilities that are to be paid off within twelve months from the balance sheet date;
- d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date.

(3) Foreign currency transactions

- A. The Company and its subsidiaries maintains its accounts in New Taiwan Dollars and functional currencies, respectively. Transactions denominated in foreign currencies are translated into New Taiwan Dollars at the spot exchange rates prevailing at the transaction dates. Exchange gains or losses due to the difference between the exchange rate on the transaction date and the exchange rate on the date of actual receipt and payment are recognized in current year's profit or loss.
- B. Monetary assets and liabilities denominated in foreign currencies are translated at the spot exchange rates prevailing at the balance sheet date. Exchange gains or losses are recognized in profit or loss.
- C. When a gain or loss on a non-monetary item is recognized directly in equity, any exchange component of that gain or loss shall be recognized directly in equity. Conversely, when a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss shall be recognized in profit or loss. However, non-monetary items that are measured on a historical cost basis are translated using the exchange rate at the date of the transaction.

(4) Translation of financial statements of foreign subsidiaries

Assets and liabilities of foreign subsidiaries are translated into New Taiwan Dollars using the exchange rates at the balance sheet date. Equity accounts are translated at historical rates except for beginning retained earnings, which are carried forward from prior year's balance. Dividends are translated at the rates prevailing at the date of declaration. Profit and loss accounts are translated at weighted-average rates of the year. The resulting translation differences are included in "cumulative translation adjustments" under stockholders' equity.

(5) Cash and cash equivalents

Cash equivalents refer to other short-term highly liquid investments which are readily convertible to known amount of cash and which are subject to insignificant risk of changes in value resulting from fluctuations in interest rates. The consolidated statements of cash flows were prepared on the basis of cash and cash equivalents.

(6) Financial assets and financial liabilities at fair value through profit or loss

- A. Equity financial instruments are recognized and derecognized using trade date accounting; whereas debt, beneficiary certificate, and derivative financial instruments are recognized and derecognized using settlement date accounting. These instruments are initially recognized at their fair values.
- B. These financial instruments are subsequently remeasured and stated at fair value, and the gain or loss is recognized in profit or loss. The fair value of listed stocks and OTC stocks and

closed-end mutual funds is based on latest quoted fair prices of the accounting period. The fair value of open-end and balanced mutual funds is based on the net asset value at the balance sheet date.

- C. When a derivative is an ineffective hedging instrument, it is initially recognized at fair value on the date a derivative contract is entered into and is subsequently remeasured at its fair value. If a derivative is a non-option derivative, the fair value initially recognized is zero.
- D. For call options, put options and conversion rights without character of equity, which are embedded in corporate bonds payable, please refer to Note 2 (16).
- E. Financial assets and financial liabilities designated as at fair value through profit or loss at inception are those that conform to one of the following conditions :
 - a)Hybrid products.
 - b)As a result of the designation, measurement and recognition inconsistency could be decreased significantly or eliminated.
 - c)The financial products are managed under the method of risk management and investment strategy management established by the Company and performance of the product is assessed by fair value.

(7)Available-for-sale financial assets

- A. Equity financial instruments are recognized and derecognized using trade date accounting. These instruments are initially recognized at their fair values plus transaction costs that are directly attributable to the acquisition.
- B. The financial assets are remeasured and stated at fair value, and the gain or loss is recognized in equity, until the financial asset is derecognized, at which time the cumulative gain or loss previously recognized in equity shall be recognized in profit or loss. The fair value of listed stocks and OTC stocks and closed-end mutual funds are based on latest quoted fair prices of the accounting period. The fair value of open-end and balanced mutual funds is based on the net asset value at the balance sheet date.
- C. If there is any objective evidence that the financial asset is impaired, the cumulative loss that has been recognized directly in equity shall be transferred from equity to profit or loss. When the fair value of an equity instrument subsequently increases, impairment losses recognized previously in profit or loss shall not be reversed. When the fair value of a debt instrument subsequently increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss recognized in profit or loss.

(8)Held-to-maturity financial assets

- A. Held-to-maturity financial asset is recognized or derecognized using trade date accounting and is stated initially, at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. The financial assets are carried at amortized cost.
- C. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. If the fair value of the financial asset subsequently increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss previously recognized in profit or loss.

(9)Financial assets and financial liabilities carried at cost

- A. Financial assets and financial liabilities carried at cost are recognized or derecognized using trade date accounting and are stated initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. Such impairment loss shall not be reversed when the fair value of the asset subsequently increases.

(10)Allowance for doubtful accounts

Allowance for doubtful accounts is provided according to the evaluation of the collectibility of notes and accounts receivable and other receivables, taking into account the bad debts incurred in prior years and the aging analysis of the receivables.

(11)Inventories

Inventories refer to fuel inventories and steel inventories. Fuel inventories are physically measured by the crew of each ship and reported back to the Head Office through telegraph for recording purposes at balance sheet date. Valuation of inventories is based on the exchange rate prevailing at balance sheet date. The perpetual inventory system is adopted for steel inventory recognition. Steel inventories are stated at cost. The cost is determined using the weighted-average method. At balance sheet date, inventories are evaluated at the lower of aggregate cost or market value. The market value is based on the replacement cost for raw materials and supplies and net realizable value for work in process, finished goods and merchandise.

(12)Long-term equity investments accounted for under the equity method

- A. Long-term equity investments in which the Group holds more than 20% of the investee company's voting shares or has the ability to exercise significant influence on the investee's operational decisions are accounted for under the equity method. The excess of the initial

investment cost over the acquired net asset value of the investee attributable to goodwill is no longer amortized, effective January 1, 2006. Retrospective adjustment of the amount of goodwill amortized in previous year is not required. The excess of acquired net asset value of investee over the initial investment cost is allocated proportionately and applied as a reduction to the book values of identifiable non-current assets, and any remaining amount of such excess after this allocation is credited to extraordinary gains.

- B. Exchange differences arising from translation of financial statements of overseas investee companies accounted for under the equity method are recorded as “cumulative translation adjustments” under stockholders’ equity.

(13)Property, plant and equipment

- A. Property, plant and equipment are stated at cost. Interests incurred on the loans used to bring the assets to the condition and location necessary for their intended uses are capitalized.
- B. Depreciation is calculated on a straight-line basis according to the respective assets’ useful lives regulated by the Ministry of Finance plus one year of salvage value. Salvage value of the fully depreciated assets, that are still in use, is depreciated based on one year of useful lives in the year the asset is fully depreciated and in the subsequent year, to the extent that the salvage value falls below \$3,000 dollars. When impairment loss is recognized, property, plant and equipment shall be depreciated over their remaining useful lives based on their carrying values adjusted for the impairment loss.
- C. Major improvements and renewals are capitalized and depreciated accordingly. Maintenance and repairs are expensed as incurred.
- D. Rents paid on capital leases are capitalized and depreciated accordingly. Lease assets whose ownerships are transferred at the end of the lease term or which contain a bargain purchase option are depreciated over the estimated useful lives; lease assets other than these are depreciated over the lease term.

(14)Deferred expenses

Deferred expenses refer to the expenses incurred for renovation, computer software and cable installation. The expenses incurred for renovation are amortized on a straight-line basis over five years, and the remaining are amortized over 2-3 years.

(15)Impairment of non-financial assets

The Group recognizes impairment loss when there is an indication that the recoverable amount of an asset is less than its carrying amount. The recoverable amount is the higher of the fair value less costs to sell and value in use. When the impairment no longer exists, the impairment loss recognized in prior years shall be recovered.

(16) Corporate bonds payable

The difference between the issue price and face value of corporate bonds is accounted for as premium or discount which is required to be amortized over the period from the date of issuance to maturity date using the interest method and is recorded as “interest expense”.

A. For the bonds payable issued after January 1, 2006, in which call option, put option and conversion rights are embedded, the issuer of a financial instrument shall classify the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument. These bonds are accounted for as follows:

- a) The difference between the issue price and face value of corporate bonds is accounted for as premium or discount which is required to be amortized over the period from the date of issuance to maturity date using the interest method and is recorded as “interest expense”.
- b) The value of any derivative features (such as a call option and put option) embedded in the compound financial instrument is recognized as “financial assets or financial liabilities at fair value through profit or loss”. These derivative features are subsequently remeasured and stated at fair value on each balance sheet date, and the gain or loss is recognized in “gain or loss on valuation of financial assets or financial liabilities”. At the expiration date, if the fair value of common stock exceeds the exercise price of put option, the fair value of the put option is recognized as “paid-in capital”; however, if the fair value of common stock is lower than the exercise price, the fair value of the put option is recognized as “gain or loss”.
- c) A conversion option embedded in the bonds issued by the Company, which is convertible to an equity instrument, is recognized in “capital reserve from stock warrants”. When a bondholder exercises his/her conversion rights, the liability component of the bonds (including corporate bonds and embedded derivatives) shall be revalued at fair value on the conversion date, and the resulting difference shall be recognized as “gain or loss” in the current period. The book value of the common stock issued due to the conversion shall be based on the adjusted book value of the above-mentioned liability component plus the book value of the stock warrants.
- d) Costs incurred on issuance of convertible bonds are proportionally charged to the liabilities and equities of the underlying instruments based on initial recognition costs.

B. Bonds payable issued before December 31, 2005 are accounted for as follows:

- a) Convertible bonds are stated at their issuance price. The excess of the redemption price over the face value of the convertible bonds is amortized using the interest method over the redemption period.
- b) When bonds are converted, the par value of the bonds is credited to common stock and any excess is credited to capital reserve. No gain or loss is recognized on bond conversion.
- c) Expenditures incurred on issuance of convertible bonds are classified as deferred assets and amortized over the life of the bonds. In cases where the bonds are converted or redeemed before the maturity date, the issuance expenditures are expensed in proportion to the amount of bonds converted or redeemed.
- d) Where bonds are not redeemed during the redemption period, the interest on redemption is amortized under the interest method over the remaining life of the bonds. If the fair value of the underlying shares at the expiry date of the redemption option exceeds the redemption price, the interest on redemption is reclassified to capital reserve.

C. If the bondholders have the right, within one year, to exercise the put option embedded in bonds, the Company should classify the bond under current liability. After the right expires, the corporate bonds unconverted or not exchanged should be reclassified under non-current liability.

(17) Pensions

Under the defined benefit pension plan, which is adopted by the Company and TTSC, net periodic pension costs are recognized in accordance with the actuarial calculations. Net periodic pension costs include service cost, interest cost, expected return on plan assets, and amortization of unrecognized net transition obligation and gains or losses on plan assets. Unrecognized net transition obligation is amortized on a straight-line basis over 15 years. Under the defined contribution pension plan, net periodic pension costs are recognized as incurred.

(18) Income taxes

- A. Inter-period and intra-period income tax allocation methods are employed. Over or under provision of prior years' income tax liabilities is included in current year's income tax. After an amendment of the tax law, in the year of its promulgation, deferred income tax assets and liabilities are to be recomputed. Net changes in deferred income tax assets and liabilities, resulting from the recomputation, are to be recognized in the income tax expense (benefit) of continuing operations.
- B. Investment tax credits arising from expenditures incurred on acquisitions of equipment or technology, research and development, employees' training, and equity investments are recognized in the year the related expenditures are incurred.

C. A 10% surtax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year when the stockholders resolve to retain the earnings.

(19)Employees' bonuses and directors' and supervisors' remuneration

Effective January 1, 2008, pursuant to EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007, "Accounting for Employees' Bonuses and Directors' and Supervisors' Remuneration", the costs of employees' bonuses and directors' and supervisors' remuneration are accounted for as expenses and liabilities, provided that such a recognition is required under legal or constructive obligation and those amounts can be estimated reasonably. However, if the accrued amounts for employees' bonuses and directors' and supervisors' remuneration are significantly different from the actual distributed amounts resolved by the stockholders at their annual stockholders' meeting subsequently, the differences shall be recognized as gain or loss in the following year. In addition, according to EITF97-127 of the Accounting Research and Development Foundation, R.O.C., dated March 31, 2008, "Criteria for Listed Companies in Calculating the Number of Shares of Employees' Stock Bonus", the Company calculates the number of shares of employees' stock bonus based on the closing price of their common stock at the previous day of the stockholders' meeting held in the year following the financial reporting year, and after taking into account the effects of ex-rights and ex-dividends.

(20)Revenue, cost and expense recognition

Revenues is recognized when the earning process is substantially completed and are realized or realizable. Costs and expenses are recognized as incurred.

(21)Use of estimates

A. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those assumptions and estimates.

B. Accrued expenses are recorded at the amounts stated in the original supporting documents. Foreign port charges without supporting documents are estimated based on past records and period-end sailing schedules. Differences between the expenses actually incurred in the following year and the estimated accrued expenses are credited or charged to operating costs or expenses in the following year.

3.CHANGES IN ACCOUNTING PRINCIPLES

(1)Inventories

Effective January 1, 2009, the Group adopted the amendments to R.O.C. SFAS No. 10, "Accounting for Inventories". Such change in accounting principle had no effect on the consolidated net income or consolidated earnings per share as of and for the year ended December 31, 2009.

(2)Employees' bonuses and directors' and supervisors' remuneration

Effective January 1, 2008, the Group adopted EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007. Such change in accounting principle had no effect on consolidated net income and consolidated earnings per share for the year ended December 31, 2008.

A. On July 23, 2009, the Company issued its first domestic secured exchangeable bonds (referred herein as the "Exchangeable Bonds") at face value, totaling \$2.5 billion. The major terms of the issuance are set forth below:

- a) Period: 3 years (July 23, 2009 to July 23, 2012)
- b) Coupon rate: 0% per annum
- c) Principal repayment and interest payment

Unless the Exchangeable Bonds are redeemed, exchanged or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Exchangeable Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Bonds.

d) Collaterals

- (a) The redemption of the Exchangeable Bonds is guaranteed by Bank Sinopac and Credit Agricole Corporate and Investment Bank, referred herein as the "Guarantors". The guarantee period is from the issuance date of the Exchangeable Bonds to the date all the debts are paid off. And the portion the Guarantors insure includes principal plus accrued interest and debt ancillary to main liability.
- (b) If the bondholders make a claim to the Guarantors to redeem the Exchangeable Bonds, the Guarantors should pay in 14 days after informed of the claim.
- (c) During the guarantee period, if the Company is unable to repay principal and interest on bonds on schedule, violates the consignment contract with consigned bank or guaranty contract with the Guarantors, or violates events approved by official authority, to a certain extent that trespass on the bondholders' rights, all the Exchangeable Bonds are deemed to be at maturity immediately.

e) Object exchanged

Common stock of Evergreen International Storage and Transport Corporation (EITC) which belongs to the Company. (Related information is stated in Note 4 (10))

f) Redemption at the Company's option

(a) During the period from one month after the Exchangeable Bonds are issued to 40 days before the maturity of the Exchangeable Bonds, if the closing price of common stock of Evergreen International Storage and Transport Corporation at the block trade market is equal to or more than 30% of the exchange price for a period of 30 consecutive trading days, the Company may redeem the outstanding bonds in cash at the face value of the Exchangeable Bonds within 30 trading days after the abovementioned 30 consecutive trading days.

(b) During the period from one month after the Exchangeable Bonds are issued to 40 days before the maturity of the Exchangeable Bonds, if the total amount of the Exchangeable Bonds outstanding is less than 10% of the total issued amount, the Company may redeem the outstanding bonds in cash at the face value of the Exchangeable Bonds any time.

(c) When the Company issues its redemption notice, if the bondholders do not reply in written form before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the exchange price in effect at the expiration of the notice period.

g) Terms of exchange

(a) Exchange period

The bondholders may exchange the Exchangeable Bonds into the common stock of Evergreen International Storage and Transport Corporation during the period from one month after the Exchangeable Bonds are issued to 10 days before the maturity of the Exchangeable Bonds.

The bondholders are prohibited from exercising their exchange right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

(b) Exchange price

The base day for setting exchange price is July 15, 2009. The exchange price can be any of the three average closing prices of the common stock of Evergreen International Storage and Transport Corporation during the 1, 3 and 5 trading days before the base day multiplied by the number ranging from 101.00% to 110.00%. If any cash or stock dividends are distributed before the base day, the closing price used in the computation of the exchange price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the exchange price is set to the date on which the

Exchangeable Bonds are issued, the exchange price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The exchange price at the issuance of the Exchangeable Bonds was set at \$30.31(in dollars).

h) Entitlement to cash dividends

The bondholders who request to exchange the Exchangeable Bonds during the period from January 1 of the current year to any date which is more than 3 trading days before the announcement of cash or stock dividends are entitled to the cash or stock dividends resolved by the stockholders in the current year. Exchange of the Exchangeable Bonds is prohibited during the period from 3 trading days before the announcement of cash or stock dividends to the ex-dividend date.

The bondholders who request to exchange the Exchangeable Bonds during the period from the date following the ex-dividend date to December 31 of the current year are not entitled to the cash or stock dividends resolved by the stockholders in the current year, but are entitled to the cash or stock dividends resolved by the stockholders in the following year.

i) Others

The Company did not repurchase the Exchangeable Bonds and the bondholders did not exercise the exchange right before December 31, 2009.

B. On August 7, 2009, the Company issued its third domestic unsecured registered convertible bonds (referred herein as the "Third Bonds") at face value, totaling \$2.5 billion. The major terms of the issuance are set forth below:

a) Period: 5 years (August 7, 2009 to August 7, 2014)

b) Coupon rate: 0% per annum

c) Principal repayment and interest payment

Unless the Third Bonds are redeemed, repurchased, resold, converted or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Third Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Bonds.

d) Collaterals

The Third Bonds are unsecured. However, if the Company subsequently issues other convertible bonds secured with collaterals, the rights of the holders of the Third Bonds to claim their credits and the collaterals are set at the same rank as the holders of the convertible bonds issued subsequently.

e) Redemption at the Company's option

(a) During the period from one month after the issuance of the Third Bonds to 40 days before the maturity of the Third Bonds, if the closing price of the Company's

common stock at the Taiwan Stock Exchange is equal to or more than 30% of the conversion price for a period of 30 consecutive trading days, the Company may redeem the outstanding bonds in cash at the face value of the Third Bonds within 30 trading days after the abovementioned 30 consecutive trading days.

(b) During the period from one month after the Third Bonds are issued to 40 days before the maturity of the Third Bonds, if the total amount of the Third Bonds outstanding after the conversion by the bondholders is less than \$250 million (10% of the total issued amount), the Company may redeem the outstanding bonds at their face value any time during the 40 days before the maturity of the Third Bonds.

(c) When the Company issues its redemption notice, if the bondholders do not reply before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the conversion price in effect at the expiration of the notice period.

f) Redemption at the bondholders' option

During the period from 30 days before the 2-year maturity of the Third Bonds to the date of maturity, or from 30 days before the 3-year maturity of the Third Bonds to the date of maturity, the bondholders may require the Company to redeem their bonds in cash at the face value plus interest compensation. (The redemption price for the former is 101.00% of the face value with a yield rate of 0.50% per annum, and 101.51% of the face value with a yield rate of 0.50% for the latter.)

g) Terms of conversion

(a) Conversion period

The bondholders may convert the Third Bonds into the Company's common stock during the period from one month after the Third Bonds are issued to 10 days before the maturity of the Third Bonds.

The bondholders are prohibited from exercising their conversion right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

(b) Conversion price

The base day for setting conversion price is July 30, 2009. The conversion price can be any of the three average closing prices of the Company's common stock during the 1, 3 and 5 trading days before the base day multiplied by 101.00%. If any cash or stock dividends are distributed before the base day, the closing price used in the computation of the conversion price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the

date on which the conversion price is set to the date on which the Third Bonds are issued, the conversion price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The conversion price at the issuance of the Third Bonds was set at \$20.04 (in dollars).

h) Entitlement to cash dividends

The bondholders who request to convert the Third Bonds during the period from January 1 of the current year to any date which is more than 3 trading days before the announcement of cash or stock dividends are entitled to the cash or stock dividends resolved by the stockholders in the current year. Conversion of the Third Bonds is prohibited during the period from 3 trading days before the announcement of cash or stock dividends to the ex-dividend date.

The bondholders who request to convert the Third Bonds during the period from the date following the ex-dividend date to December 31 of the current year are not entitled to the cash or stock dividends resolved by the stockholders in the current year, but are entitled to the cash or stock dividends resolved by the stockholders in the following year.

i) Others

The Company did not repurchase the Third Bonds and the bondholders did not exercise the conversion right before December 31, 2009.

C. The conversion rights and debt component of the Third Bonds, abovementioned, are recognized separately in accordance with R.O.C. SFAS NO. 36.

The issuance cost of the Third Bonds is allocated to debt and equity component by amount initially recognized, accordingly the account of "Capital reserve from stock warrants" on book amounts to \$256,205.

The net value of the rights of repurchase and resold embedded in bonds payable was separated from bonds payable, and was recognized in "Financial liabilities at fair value through profit or loss" in accordance with R.O.C. SFAS No. 34.

	<u>For the years ended December 31,</u>	
	<u>2009</u>	<u>2008</u>
Service cost	\$ 54,161	\$ 58,442
Interest cost	35,481	46,757
Expected return on plan assets	(13,229)	(18,412)
Deferred amortization		
Unrecognized net transaction obligation	25,901	25,901
Prior service cost	1,607	1,607
Unrecognized loss on plan assets	<u>31,269</u>	<u>29,823</u>
Net pension costs	<u>\$ 135,190</u>	<u>\$ 144,118</u>

C. Effective July 1, 2005, the Company and its subsidiary-TTSC established a funded defined contribution pension plan (the "New Plan") under the Labor Pension Act ("the Act"). Employees have the option to be covered under the New Plan. Under the New Plan, the Company and its subsidiary-TTSC contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits are to be paid monthly or in lump sum upon termination of employment.

D. The pension costs under the defined benefit plan and the defined contribution plan for the years ended December 31, 2009 and 2008 were \$162,664 and \$170,974, respectively.

(19) Capital stock

- A. As of December 31, 2009, the Company's authorized capital was \$36,000,000, and the paid-in capital was \$30,625,992, divided into 3,062,599 thousand shares of common stocks with a par value of \$10 (in dollars) per share.
- B. Details of the common stock converted from the unsecured domestic convertible bonds issued by the Company for the years ended December 31, 2009 and 2008 are set forth below:

	For the years ended December 31,			
	2009		2008	
	No. of Shares (in 000's)	Amount	No. of Shares (in 000's)	Amount
First unsecured convertible bonds	-	\$ -	19,647	\$ 196,475
Second unsecured convertible bonds	1,660	16,602	7,422	74,220
Total	1,660	\$ 16,602	27,069	\$ 270,695

(20) Capital reserve

- A. The Securities and Exchange Act requires that capital reserve shall be exclusively used to cover accumulated deficits or to increase capital and shall not be used for any other purpose. However, capital reserve arising from paid-in capital in excess of par value on issuance of common stock and donations can be capitalized once a year, provided that the Company has no accumulated deficits and the amount to be capitalized does not exceed 10% of the paid-in capital.
- B. Information related to "capital reserve from stock warrants" is stated in Note 4(16).

(21) Appropriation of retained earnings and dividend policy

- A. According to the Company's Articles of Incorporation, if there is any profit for a fiscal year, the Company shall first make provision for income tax, and cover prior years' losses, then appropriate 10% of the residual amount as legal reserve. Dividends shall be proposed by the Board of Directors and resolved by the stockholders. Bonuses paid to employees shall be at least 0.5% of the total distributed amount and the remuneration paid to the directors and supervisors shall not exceed 5% of the total distributed amount. The Company is currently at the stable growth stage. In order to facilitate future expansion plans, dividends to stockholders are distributed mutually in the form of both cash and stocks with the basic principle that the ratio of cash dividends to total stock dividends shall not be lower than 10%.
- B. Legal reserve
- Pursuant to the Company Law, the Company is required to set aside 10% of its annual after-tax net income as legal reserve until the balance of such reserve equals the Company's

paid-in capital. Utilization of the legal reserve is limited to offsetting deficits and capital increase. Capitalization of the legal reserve is permitted, provided that the balance of the reserve exceeds 50% of the Company's paid-in capital and the amount capitalized does not exceed 50% of the balance of the reserve.

C. Special reserve

If there is any negative stockholders' equity item recognized by the Company, such as unrealized loss on financial product, cumulative translation adjustments and unrecognized pension cost, the Company is required to set aside an amount equal to the amount of the negative stockholders' equity item as special reserve from the after-tax net income. And the amount set aside could be offset by unrealized gain if unrealized gain exists. If the negative stockholders' equity items are subsequently reversed, an amount not exceeding the reversed amount can be appropriated from the special reserve.

D. Appropriation of the 2008 and 2007 earnings as resolved by the stockholders on June 19, 2009 and June 18, 2008, respectively, are set forth below:

	For the years ended December 31,			
	2008		2007	
	Total Amount	Dividend per share (in dollars)	Total Amount	Dividend per share (in dollars)
Legal Reserve	\$ 63,927		\$ 1,038,170	
Cash dividends	-	\$ -	5,201,453	\$ 1.7
Remuneration to directors and supervisors	-		45,600	
Cash bonus to employees	-		36,000	
	<u>\$ 63,927</u>		<u>\$ 6,321,223</u>	

Appropriation of 2008 earnings, abovementioned, is the same as the proposition made by the Board of Directors on April 21, 2009. As of April 28, 2010, the appropriation of 2009 earnings had not been resolved by the Board of Directors. Information on the appropriation of the Company's earnings as resolved by the Board of Directors and approved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

E. Appropriation of the 2007 earnings was calculated by the following formula. After distributing the bonus to employees and the remuneration to directors and supervisors, the after-tax basic earning per share for 2007 decreased from \$3.53 (in dollars) to \$3.50 (in dollars).

Formula :
$$\frac{\text{Net income, after-tax} - \text{Cash bonus to employees} - \text{Remuneration to directors and supervisors}}{\text{Weighted-average number of outstanding shares (after retroactive adjustment)}}$$

(\$10,381,702 – \$36,000–\$45,600)/ 2,943,402 thousand shares=\$3.50 (in dollars)

F. Under the resolution of the Company's stockholders on 2009, the 2008 earnings is neither to be distributed to employees nor paid to the directors and supervisors. And there is no estimation of bonus to employees or remuneration to the directors and supervisors in 2008 financial statement, as a result, no difference between 2009 and 2008 exists.

(22) Operating revenue

As of December 31, 2009, 8,320,152 units were redeemed and 187,012 units were outstanding, representing 1,870,179 shares of the Company's common stock.

- D. In 1999, due to the conflicts from the contract to import and export goods, a lawsuit was filed against Shenzhen Greentrans Transportation Co., Ltd. (SGTC) by another company. SGTC had authorized the agent lawyer to litigate, requesting an indemnity of RMB10, 527 plus the interest, by December 31, 2009. In this case, the company received a favorable decision from the Shenzhen Intermediate People's Court as the winning party of this lawsuit. However, the plaintiff appealed the case to a higher court, the Gung Dong High People's Court, which in 2001 had decided against the company and had secured part of the transportation equipment. (As of December 31, 2009, the book value of the fixed asset was RMB3, 988.) However, the company contested the results and requested for a retrial. The case is still pending. As such, no provisions have been reflected in the financial statement.
- E. The following summarizes the methods and assumptions used in estimating the fair value of financial instruments:

- A. The fair values of short-term financial instruments were determined using their carrying value because of the short maturities of these instruments. This method applies to cash and cash equivalents, notes and accounts receivable/payable, other financial assets, refundable deposits, restricted assets, short-term debts, short-term bills payable and guarantee deposits received.

- B. For financial assets at fair value through profit or loss and available-for-sale financial assets with quoted market price available in an active market, the fair value is determined using the quoted market price. When there is no quoted market price for reference, a substitute valuation technique is used to measure the fair value which incorporates all factors that market participants would consider in making estimations and assumptions for setting a price and wherein such information is available to the Group.
- C. Held-to-maturity financial assets are those with fixed or determinable payments and a fixed time-to-maturity which the Group has positive intent and ability to hold. Upon measurement, held-to-maturity financial assets are carried at amortized cost. Any profits or losses incurred due to changes in fair value should be recognized in the income statement when the financial asset is derecognized, impaired or amortized.
- D. Financial assets carried at the cost, consists of unlisted stocks or those not actively traded in an active market. Their fair value could not be measured reliably; hence, such instruments are measured at cost in compliance with applicable accounting standards. For bond investments with no active market, the carrying value is used to estimate its fair value when there is no market price for reference.
- E. Fair values of long-term loans are estimated based on the present values of future cash flows. For bank loans associated with floating interest rate, the carrying value represents its fair value.
- F. Fair values of corporate bonds payable are determined as the quoted market prices when available. When the quoted market prices are not available, fair values are estimated based on financial information or other information.
- G. The fair values of derivative financial instruments are determined based on the estimated amounts to be received or paid if the Group terminates the contract on the balance sheet date. Unrealized gains or losses arising from unsettled contracts are generally included. Ask price from counterparties are available for reference in setting fair values for the Group's derivative financial instruments.

(3) Information on significant gain/loss and equity items on financial instruments

- A. For the years ended December 31, 2009 and 2008, total interest income from financial assets and liabilities at fair value through profit or loss amounted to \$3,879,139 and \$3,331,735.
- B. For the years ended December 31, 2009 and 2008, total interest income for financial assets or financial liabilities that are not at fair value through profit or loss amounted to \$301,208 and 751,472, whereas the total interest expense amounted to \$399,737 and \$467,426, respectively.
- C. For the years ended December 31, 2009 and 2008, the adjustment of shareholders' equity resulting from available-for-sale financial assets was debit \$299,724 and \$353,561; whereas the total loss or gain deducted from the adjustment of shareholders' equity resulting from available-for-sale financial assets was \$0 and \$23,599, respectively.

(4) Information on interest rate risk positions

As of December 31, 2009 and 2008, the financial assets with fair value risk due to the change of interest rate amounted to \$663 and \$5,340; whereas the financial liabilities with fair value risk

due to the change of interest rate amounted to \$255,732 and \$358,070, respectively. The financial assets with cash flow risk due to the change of interest rate amounted to \$2,756,793 and \$4,431,512; whereas the financial liabilities with cash flow risk due to the change of interest rate amounted to \$33,051,442 and 33,220,218, respectively.

(5) Risk policy and hedging strategy

The financial instruments held by the Group, other than derivative instruments, are composed of cash and cash equivalents, stocks, funds, bank loan, and corporate bonds. Such financial instruments are held for maintaining adequate operating capital. The Group also held other financial assets and liabilities, such as accounts receivable and payable generated from operating activities.

The transactions associated with derivative instruments mainly include interest rate swap and oil swap. The primary objective is to avoid the interest rate risk and fuel price variation arising from operating and financing activities.

The primary risks of financial instruments are cash flow risk associated with interest rate fluctuations, exchange rate risk, credit risk, and liquidity risk. The risk management policies are set forth below:

Cash flow risk associated with interest rate fluctuations

The Group's major exposure to cash flow risk associated with interest rate variations come primarily from long-term financing with floating interest. The Group adopts a combination of fixed and floating interest rate loans to manage such interest rate risks. In addition, the Group also engages in interest rate swaps to minimize cost of borrowings.

As of December 31, 2009, the carrying values of the Group's financial instruments exposed to interest rate are summarized in the order of maturity as follows:

A. Fixed interest rate

	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-3 years</u>	<u>over 3 years</u>	<u>Total</u>
Cash and cash equivalents	\$ 7,077,499	\$ -	\$ -	\$ -	\$ 7,077,499
Bank loan	(2,162,157)	-	-	-	(2,162,157)
Short-term notes and bills payable	(99,959)	-	-	-	(99,959)

B. Floating interest rate

	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-3 years</u>	<u>over 3 years</u>	<u>Total</u>
Cash and cash equivalents	\$ 2,756,793	\$ -	\$ -	\$ -	\$ 2,756,793
Bank loan	(4,408,080)	(9,121,908)	(4,796,289)	(14,725,165)	(33,051,442)

The interest of financial instruments associated with the floating interest rates is remeasured within 1 year period and the interest for financial instruments associated with the fixed interest rate is fixed to maturity. The financial instruments not included in the preceding table are not subject to interest payments and thus, do not have inherent interest rate risk.

Exchange rate risk

Although the Group is exposed to exchange rate risk, the Group has stable cash inflows denominated in foreign currencies for meeting cash outflows denominated in foreign currency due to the fact that the Group operates in international transportation industry. In order to minimize exchange rate risk, the Group also engages in activities, such as borrowing of US Dollar loans, etc.

Credit risk

The Group only deals with third parties with good credit standings. In compliance with the Group's policies, strict credit assessment is to be performed by the Group prior to providing credit to customers. The occurrence of bad debts is also minimized by the Group's practices in continuously monitoring and assessing collections on notes and accounts receivables and making adjustments to the credit terms granted for each customer based on the conclusion drawn from such assessment. Moreover, the Group is restricted from engaging in credit trading with other business units operating under other functional currencies unless permission from the highest instruction unit has been received.

Other financial instruments held by the Group are subject to credit risk arising from the failure of counterparty to settle their contractual obligations as and when they fall due. Since the Group only deals with third parties with qualifying credit standings, no collateral is required by the Group which also represents that the maximum credit exposure amount equals to the relative carrying value. The maximum credit exposure amount for various financial assets held by the Group is analyzed as follows:

Financial instruments	December 31, 2009	
	Book value	Maximum credit exposure amount
Financial assets at fair value through profit or loss		
Trading financial assets	\$ 4,083,195	\$ 4,083,195
Financial assets designated as at fair value through profit or loss	100,000	100,000
Held-to-maturity financial assets		
Financial bonds	360,000	360,000
Corporate bonds	1,980,866	1,980,866
Available-for-sale financial assets		
Equity security	692,312	692,312
Financial assets carried at cost		
Equity security	5,009,094	5,009,094
	December 31, 2008	
Financial instruments	Book value	Maximum credit exposure amount
Financial assets at fair value through profit or loss		
Trading financial assets	\$ 628,630	\$ 628,630
Available-for-sale financial assets		
Equity security	392,588	392,588
Financial assets carried at cost		
Equity security	5,089,567	5,089,567

Credit risk refers to the risk of counterparty's failure to settle contractual obligations as and when they fall due. The credit risk presented in the preceding table is the positive net amount of all contracts with positive fair values at the balance sheet date. The credit risk amount presented is the loss that may be incurred by the Group in the case of counterparty's default. Since the counterparties of the Group are business enterprises or financial institutions with good credit rating, the potential credit risk event is remote. In addition, since the Group is not concentrated in transactions with one individual or counterparty, no concentration of credit risk is evident.

Liquidity risk

The Group achieves the objectives of effective use of capital and stabilization of capital by adjusting capital through the use of cash and cash equivalents, financial instruments held for trading, bank loans and corporate bonds, etc. The operating capital of the Group is sufficient in meeting capital on demand; therefore, no significant liquidity risk is expected.

(6) Hedging activity

Cash flow hedge

The Company holds interest rate swap contracts to avoid the risk resulting from variation between floating and fixed rate. The effectiveness of hedging was within a range of 80% to 125%.

Note 1: Nature of loans extended

"1" denotes the loans extended to the companies which have transactions with the Company or its subsidiaries.

"2" denotes the loans extended to the companies which require short-term financing.

Note 2: The reason that the loan was granted and the usage of the loan should be stated, if the nature of the loan is "2".

Note 3: The explanation of the equation of the limits and amounts is required and set forth as follows:

1. According to the Company's credit policy, the total amount of loans granted to a single company should not exceed 20% of the net worth stated in the latest financial statements.

The calculation is as follows:

The Company: $\text{NTD}56,821,670 * 20\% = \text{NTD}11,364,334$

2. According to the Company's credit policy, the total amount of loans granted by the Company or its subsidiaries should not exceed 40% of the net worth stated in the latest financial statements.

The calculation is as follows:

$\text{NTD}56,821,670 * 40\% = \text{NTD}22,728,668$

12. SEGMENT INFORMATION

(1) Financial information by industries

The Group is engaged in only one single industry, i.e. international marine transportation and shipping agency. Therefore, no disclosure is required.

(2) Financial information by geographical areas

The Group is engaged in international marine transportation; however, its foreign-port formalities regarding arrival and departure of ships, cargo stevedoring and forwarding, collection of freight, and payment of expenses incurred in foreign ports are handled by overseas shipping agents. Therefore, no disclosure is required.

(3) Export information

As the Group is engaged in international marine transportation, every vessel sails between the major harbors in the world. Therefore, no export sales are reported.

(4) Information on major customers

The Group provides services to customers all over the world. No single customer of the Company accounts for more than 10% of the Company's operating revenues.

**FINANCIAL STATEMENTS AND AUDIT REPORT OF
INDEPENDENT ACCOUNTANTS**

DECEMBER 31, 2009 AND 2008

08

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Evergreen Marine Corporation

We have audited the accompanying balance sheets of Evergreen Marine Corporation (the "Company") as of December 31, 2009 and 2008, and the related statements of income, of changes in stockholders' equity , and of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. The financial statements of certain investee companies accounted for under the equity method as of and for the years ended December 31, 2009 and 2008 were audited by other auditors, whose reports have been furnished to us. Our opinion, insofar as it relates to the amounts included in the financial statements and information disclosed in Note 11 relating to these long-term equity investments, is based solely on the reports of the other auditors. Long-term equity investments in these investee companies amounted to 21,440,012 and 26,296,891 thousand New Taiwan Dollars, constituting 26.62% and 27.91% of the total assets as of December 31, 2009 and 2008, and the related investment loss was 7,598,963 and investment income was 270,232 thousand New Taiwan Dollars, respectively.

We conducted our audits in accordance with the "Rules Governing the Examination of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining evidence which is supporting the amounts and disclosures in the financial statements in sampling way. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Evergreen Marine Corporation as of December 31, 2009 and 2008, and the results of its operations and its cash flows for the years then ended in conformity with the “Rules Governing Preparation of Financial Statements by Securities Issuers”, “Business Entity Accounting Law”, “Regulations on Business Entity Accounting Handling” and generally accepted accounting principles in the Republic of China.

We have also audited the consolidated financial statements of Evergreen Marine Corporation and its subsidiaries as of and for the years ended December 31, 2009 and 2008, on which we have issued an unqualified opinion with explanatory paragraph thereon.

EVERGREEN MARINE CORP. (TAIWAN) LTD.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS/FOREIGN CURRENCY, EXCEPT AS OTHERWISE INDICATED)

1. HISTORY AND ORGANIZATION

Established on September 25, 1968, Evergreen Marine Corporation (the "Company") is mainly engaged in domestic and international marine transportation, shipping agency services, and the distribution of containers. The Company was approved by the Securities and Futures Commission (SFC), Ministry of Finance (MOF) (currently known as the Securities and Futures Bureau (SFB), Financial Supervisory Commission, Executive Yuan, R.O.C.) to be a public company on November 2, 1982 and was further approved by the SFC to be a listed company on July 6, 1987. The Company's shares have been publicly traded on the Taiwan Stock Exchange since September 21, 1987. The Company had 1,179 employees as of December 31, 2009.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements are prepared in conformity with the "Rules Governing Preparation of Financial Statements by Securities Issuers", "Business Entity Accounting Law", "Regulations on Business Entity Accounting Handling", and accounting principles generally accepted in the Republic of China. The Company's significant accounting policies are summarized below:

(1) Classification of current and non-current assets and liabilities

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- a) Assets arising from operating activities that are expected to be realized or consumed, or are intended to be sold within the normal operating cycle;
 - b) Assets held mainly for trading purposes;
 - c) Assets that are expected to be realized within twelve months from the balance sheet date;
 - d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- a) Liabilities arising from operating activities that are expected to be paid off within the normal operating cycle;
 - b) Liabilities arising mainly from trading activities;

- c) Liabilities that are to be paid off within twelve months from the balance sheet date;
- d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date.

(2) Translation of financial statements of foreign subsidiaries

Assets and liabilities of foreign subsidiaries are translated into New Taiwan Dollars using the exchange rates at the balance sheet date. Equity accounts are translated at historical rates except for beginning retained earnings, which are carried forward from prior year's balance. Dividends are translated at the rates prevailing at the date of declaration. Profit and loss accounts are translated at weighted-average rates of the year. The resulting translation differences are included in "cumulative translation adjustments" under stockholders' equity.

(3) Foreign currency transactions

- A. The Company maintains its accounts in New Taiwan Dollars. Transactions denominated in foreign currencies are translated into New Taiwan Dollars at the spot exchange rates prevailing at the transaction dates. Exchange gains or losses due to the difference between the exchange rate on the transaction date and the exchange rate on the date of actual receipt and payment are recognized in current year's profit or loss.
- B. Monetary assets and liabilities denominated in foreign currencies are translated at the spot exchange rates prevailing at the balance sheet date. Exchange gains or losses are recognized in profit or loss.
- C. When a gain or loss on a non-monetary item is recognized directly in equity, any exchange component of that gain or loss shall be recognized directly in equity. Conversely, when a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss shall be recognized in profit or loss. However, non-monetary items that are measured on a historical cost basis are translated using the exchange rate at the date of the transaction.

(4) Cash and cash equivalents

Cash and cash equivalents include cash on hand and in banks and other short-term highly liquid investments which are readily convertible to known amount of cash and which are subject to insignificant risk of changes in value resulting from fluctuations in interest rates.

The Company's statement of cash flow is prepared on the basis of cash and cash equivalent.

(5) Financial assets and financial liabilities at fair value through profit or loss

- A. Equity financial instruments are recognized and derecognized using trade date accounting; whereas debt, beneficiary certificate, and derivative financial instruments are recognized and derecognized using settlement date accounting. These instruments are initially recognized at their fair values.

- B. These financial instruments are subsequently remeasured and stated at fair value, and the gain or loss is recognized in profit or loss. The fair value of listed stocks and OTC stocks and closed-end mutual funds is based on latest quoted fair prices of the accounting period. The fair value of open-end and balanced mutual funds is based on the net asset value at the balance sheet date.
- C. When a derivative is an ineffective hedging instrument, it is initially recognized at fair value on the date a derivative contract is entered into and is subsequently remeasured at its fair value. If a derivative is a non-option derivative, the fair value initially recognized is zero.
- D. For call options, put options and conversion rights without character of equity, which are embedded in corporate bonds payable, please refer to Note 2 (14).
- E. Financial assets and financial liabilities designated as at fair value through profit or loss at inception are those that conform to one of the following conditions :
 - a)Hybrid products.
 - b)As a result of the designation, measurement and recognition inconsistency could be decreased significantly or eliminated.
 - c)The financial products are managed under the method of risk management and investment strategy management established by the Company and performance of the product is assessed by fair value.

(6)Available-for-sale financial assets

- A. Equity financial instruments are recognized and derecognized using trade date accounting. These instruments are initially recognized at their fair values plus transaction costs that are directly attributable to the acquisition.
- B. The financial assets are remeasured and stated at fair value, and the gain or loss is recognized in equity, until the financial asset is derecognized, at which time the cumulative gain or loss previously recognized in equity shall be recognized in profit or loss. The fair value of listed stocks and OTC stocks and closed-end mutual funds are based on latest quoted fair prices of the accounting period. The fair values of open-end and balanced mutual funds are based on the net asset value at the balance sheet date.
- C. If there is any objective evidence that the financial asset is impaired, the cumulative loss that has been recognized directly in equity shall be transferred from equity to profit or loss. When the fair value of an equity instrument subsequently increases, impairment losses recognized previously in profit or loss shall not be reversed. When the fair value of a debt instrument subsequently increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss recognized in profit or loss.

(7)Held-to-maturity financial assets

- A. Held-to-maturity financial asset is recognized or derecognized using trade date accounting and is stated initially, at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. The financial assets are carried at amortized cost.
- C. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. If the fair value of the financial asset subsequently increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed to the extent of the loss previously recognized in profit or loss. The book value after reversion should not exceed the amortized cost without recognition of impairment.

(8)Financial assets and financial liabilities carried at cost

- A. Financial assets and financial liabilities carried at cost are recognized or derecognized using trade date accounting and are stated initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.
- B. If there is any objective evidence that the financial asset is impaired, the impairment loss is recognized in profit or loss. Such impairment loss shall not be reversed when the fair value of the asset subsequently increases.

(9)Ship fuel

Ship fuel is physically measured by the crew of each ship and reported back to the Head Office through telegraph for recording purposes at balance sheet date. Valuation of ship fuel is based on the exchange rate prevailing at the balance sheet date.

(10)Long-term equity investments accounted for under the equity method

- A. Long-term equity investments in which the Company holds more than 20% of the investee company's voting shares or has significant influence on the investee's operational decisions are accounted for under the equity method. The excess of the initial investment cost over the acquired net asset value of the investee attributable to goodwill is no longer amortized, effective January 1, 2006. Retrospective adjustment of the amount of goodwill amortized in previous year is not required. The excess of acquired net asset value of investee over the initial investment cost is allocated proportionately and applied as a reduction to the book values of identifiable non-current assets, and any remaining amount of such excess after this allocation is credited to extraordinary gains. Negative goodwill, created before December 31, 2005, should be amortized still. Investee companies of which the Company holds more than 50% voting shares of an investee or the Company holds less than 50% voting shares of an investee, but has effective control over the investee are included in the consolidated financial

statements.

- B. Exchange differences arising from translation of financial statements of overseas investee companies accounted for under the equity method are recorded as “cumulative translation adjustments” under stockholders’ equity.

(11)Property, plant and equipment

- A. Property, plant and equipment are stated at cost. Interests incurred on the loans used to bring the assets to the condition and location necessary for their intended uses are capitalized.
- B. Major improvements and renewals are capitalized and depreciated accordingly. Maintenance and repairs are expensed as incurred.
- C. Depreciation is calculated on a straight-line basis according to the respective assets’ useful lives regulated by the Ministry of Finance plus one year for salvage value. Salvage value of the fully depreciated assets, that are still in use, is depreciated based on one year of useful lives in the year the asset is fully depreciated and in the subsequent year, to the extent that the salvage value falls below \$3,000 dollars. When impairment loss is recognized, property, plant and equipment shall be depreciated over their remaining useful lives based on their carrying values adjusted for the impairment loss.

(12)Deferred expenses

Deferred expenses refer to the expenses incurred for decoration, computer software and cable installation. The expenses incurred for decoration are amortized on a straight-line basis over five years, and the remaining are amortized over 2-3 years.

(13)Impairment of non-financial assets

The Company recognizes impairment loss when there is indication that the recoverable amount of an asset is less than its carrying amount. The recoverable amount is the higher of the fair value less costs to sell and value in use. When the impairment no longer exists, the impairment loss recognized in prior years shall be recovered.

(14)Corporate bonds payable

The difference between the issue price and face value of corporate bonds is accounted for as premium or discount which is required to be amortized over the period from the date of issuance to maturity date using the interest method and is recorded as “interest expense”.

- A. For the bonds payable issued after January 1, 2006, in which call option, put option and conversion rights are embedded, the issuer of a financial instrument shall classify the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument. These bonds are accounted for as follows:

- a) The difference between the issue price and face value of corporate bonds is accounted for as premium or discount which is required to be amortized over the period from the date of issuance to maturity date using the interest method and is recorded as “interest expense”.
 - b) The value of any derivative features (such as a call option and put option) embedded in the compound financial instrument is recognized as “financial assets or financial liabilities at fair value through profit or loss”. These derivative features are subsequently remeasured and stated at fair value on each balance sheet date, and the gain or loss is recognized in “gain or loss on valuation of financial assets or financial liabilities”. At the expiration date, if the fair value of common stock exceeds the exercise price of put option, the fair value of the put option is recognized as “paid-in capital”; however, if the fair value of common stock is lower than the exercise price, the fair value of the put option is recognized as “gain or loss”.
 - c) A conversion option embedded in the bonds issued by the Company, which is convertible to an equity instrument, is recognized in “capital reserve from stock warrants”. When a bondholder exercises his/her conversion rights, the liability component of the bonds (including corporate bonds and embedded derivatives) shall be revalued at fair value on the conversion date, and the resulting difference shall be recognized as “gain or loss” in the current period. The book value of the common stock issued due to the conversion shall be based on the adjusted book value of the above-mentioned liability component plus the book value of the stock warrants.
 - d) Costs incurred on issuance of convertible bonds are proportionally charged to the liabilities and equities of the underlying instruments based on initial recognition costs.
- B. Bonds payable issued before December 31, 2005 is accounted for as follows:
- a) Convertible bonds are stated at their issuance price. The excess of the redemption price over the face value of the convertible bonds is amortized using the interest method over the redemption period.
 - b) When bonds are converted, the par value of the bonds is credited to common stock and any excess is credited to capital reserve. No gain or loss is recognized on bond conversion.
 - c) Expenditures incurred on issuance of convertible bonds are classified as deferred assets and amortized over the life of the bonds. In cases where the bonds are converted or redeemed before the maturity date, the issuance expenditures are expensed in proportion to the amount of bonds converted or redeemed.
 - d) Where bonds are not redeemed during the redemption period, the interest on redemption is amortized under the interest method over the remaining life of the bonds. If the fair value

of the underlying shares at the expiry date of the redemption option exceeds the redemption price, the interest on redemption is reclassified to capital reserve.

- C. If the bondholders have the right, within one year, to exercise the put option embedded in bonds, the Company should classify the bond under current liability. After the right expires, the corporate bonds unconverted or not exchanged should be reclassified under non-current liability.

(15) Pension

Under the defined benefit pension plan, net periodic pension costs are recognized in accordance with the actuarial calculations. Net periodic pension costs include service cost, interest cost, and expected return on plan assets, amortization of unrecognized net transition obligation and gains or losses on plan assets. Unrecognized net transition obligation is amortized on a straight-line basis over 15 years. Under the defined contribution pension plan, net periodic pension costs are recognized as incurred.

(16) Income tax

- A. Inter-period and intra-period income tax allocation methods are employed. Over or under provision of prior years' income tax liabilities is included in current year's income tax. After an amendment of the tax law, in the year of its promulgation, deferred income tax assets and liabilities are to be recomputed. Net changes in deferred income tax assets and liabilities, resulting from the recompilation, are to be recognized in the income tax expense (benefit) of continuing operations.
- B. Investment tax credits arising from expenditures incurred on acquisitions of equipment or technology, research and development, employees' training, and equity investments are recognized in the year the related expenditures are incurred.
- C. An additional 10% tax is levied on the inappropriate retained earnings and is recorded as income tax expense in the year the stockholders resolve to distribute the earnings.

(17) Employees' bonuses and directors' and supervisors' remuneration

Effective January 1, 2008, pursuant to EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007, "Accounting for Employees' Bonuses and Directors' and Supervisors' Remuneration", the costs of employees' bonuses and directors' and supervisors' remuneration are accounted for as expenses and liabilities, provided that such a recognition is required under legal obligation or constructive obligation and those amounts can be estimated reasonably. However, if the accrued amounts for employees' bonuses and directors' and supervisors' remuneration are significantly different from the actual distributed amounts resolved by the stockholders at their annual stockholders' meeting subsequently, the differences shall be recognized as gain or loss in the following year. In addition, according to EITF97-127 of

the Accounting Research and Development Foundation, R.O.C., dated March 31, 2008, “Criteria for Listed Companies in Calculating the Number of Shares of Employees’ Stock Bonus”, the Company calculates the number of shares of employees’ stock bonus based on the closing price of the Company’s common stock at the previous day of the stockholders’ meeting held in the year following the financial reporting year, and after taking into account the effects of ex-rights and ex-dividends.

(18)Revenue, cost and expense recognition

Revenues are recognized when the earning process is substantially completed and are realized or realizable. Costs and expenses are recognized as incurred.

(19)Use of estimates

A. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those assumptions and estimates.

B. Accrued expenses are recorded at the amounts stated in the original supporting documents. Foreign port charges without supporting documents are estimated based on past records and period-end sailing schedules. Differences between the expenses actually incurred in the following year and the estimated accrued expenses are credited or charged to operating costs or expenses in the following year.

3.CHANGES IN ACCOUNTING PRINCIPLES

(1)Inventories

Effective January 1, 2009, the Company adopted the amendments to R.O.C. SFAS No. 10, “Accounting for Inventories”. Such change in accounting principle had no effect on net income or earning per share as of and for the year ended December 31, 2009.

(2)Employees' bonuses and directors' and supervisors' remuneration

Effective January 1, 2008, the Company adopted EITF96-052 of the Accounting Research and Development Foundation, R.O.C., dated March 16, 2007. Such change in accounting principle had no effect on net income or EPS as of and for the year ended December 31, 2008.

A. On July 23, 2009, the Company issued its first domestic secured exchangeable bonds (referred herein as the “Exchangeable Bonds”) at face value, totaling \$2.5 billion. The major terms of the issuance are set forth below:

a)Period: 3 years (July 23, 2009 to July 23, 2012)

b)Coupon rate: 0% per annum

c)Principal repayment and interest payment

Unless the Exchangeable Bonds are redeemed, exchanged or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Exchangeable Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Bonds.

d)Collaterals

(a)The redemption of the Exchangeable Bonds are guaranteed by Bank Sinopec and Credit Agricola Corporate and Investment Bank, referred herein as the “Guarantors”. The guarantee period is from the issuance date of the Exchangeable Bonds to the date all the debts are paid off. And the portion the Guarantors insure includes principal plus accrued interest and debt ancillary to main liability.

(b)If the bondholders make a claim to the Guarantors to redeem the Exchangeable Bonds, the Guarantors should pay in 14 days after informed of the claim.

(c)During the guarantee period, if the Company is unable to repay principal and interest on bonds on schedule, violates the consignment contract with consigned bank or guaranty contract with the Guarantors, or violates events approved by official authority, to a certain extent that trespass on the bondholders’ rights, all the Exchangeable Bonds are deemed to be at maturity immediately.

e)object exchanged

Common stock of Evergreen International Storage and Transport Corporation (EITC) which belongs to the Company. (related information is stated in Note 4 (9))

f)Redemption at the Company’s option

(a)During the period from one month after the Exchangeable Bonds are issued to 40 days before the maturity of the Exchangeable Bonds, if the closing price of common stock of Evergreen International Storage and Transport Corporation at the block trade market is equal to or more than 30% of the exchange price for a period of 30 consecutive trading days, the Company may redeem the outstanding bonds in cash at the face value of the Exchangeable Bonds within 30 trading days after the abovementioned 30 consecutive trading days.

(b)During the period from one month after the Exchangeable Bonds are issued to 40 days before the maturity of the Exchangeable Bonds, if the total amount of the Exchangeable Bonds outstanding is less than 10% of the total issued amount, the Company may redeem the outstanding bonds in cash at the face value of the Exchangeable Bonds any time.

(c) When the Company issues its redemption notice, if the bondholders do not reply in written form before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the exchange price in effect at the expiration of the notice period.

g) Terms of exchange

(a) exchange period

The bondholders may exchange the Exchangeable Bonds into the common stock of Evergreen International Storage and Transport Corporation during the period from one month after the Exchangeable Bonds are issued to 10 days before the maturity of the Exchangeable Bonds.

The bondholders are prohibited from exercising their exchange right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

(b) exchange price

The base day for setting exchange price is July 15, 2009. The exchange price can be any of the three average closing prices of the common stock of Evergreen International Storage and Transport Corporation during the 1, 3 and 5 trading days before the base day multiplied by the number ranging from 101.00% to 110.00%. If any cash or stock dividends are distributed before the base day, the closing price used in the computation of the exchange price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the exchange price is set to the date on which the Exchangeable Bonds are issued, the exchange price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The exchange price at the issuance of the Exchangeable Bonds was set at \$30.31 (in dollars).

h) Entitlement to cash dividends

The bondholders who request to exchange the Exchangeable Bonds during the period from January 1 of the current year to any date which is more than 3 trading days before the announcement of cash or stock dividends are entitled to the cash or stock dividends resolved by the stockholders in the current year. Exchange of the Exchangeable Bonds is prohibited during the period from 3 trading days before the announcement of cash or stock dividends to the ex-dividend date.

The bondholders who request to exchange the Exchangeable Bonds during the period from the date following the ex-dividend date to December 31 of the current year are not entitled to the cash or stock dividends resolved by the stockholders in the current year, but are entitled to the cash or stock dividends resolved by the stockholders in the following year.

i)Others

The Company did not repurchase the Exchangeable Bonds and the bondholders did not exercise the exchange right before December 31, 2009.

- B. On August 7, 2009, the Company issued its third domestic unsecured registered convertible bonds (referred herein as the "Third Bonds") at face value, totaling \$2.5 billion. The major terms of the issuance are set forth below:

a)Period: 5 years (August 7, 2009 to August 7, 2014)

b)Coupon rate: 0% per annum

c)Principal repayment and interest payment

Unless the Third Bonds are redeemed, repurchased, resold, converted or deregistered before maturity, or other events occur due to regulatory reasons, the principal of the Third Bonds shall be repaid in lump sum by cash at maturity based on the face value of the Bonds.

d)Collaterals

The Third Bonds are unsecured. However, if the Company subsequently issues other convertible bonds secured with collaterals, the rights of the holders of the Third Bonds to claim their credits and the collaterals are set at the same rank as the holders of the convertible bonds issued subsequently.

e)Redemption at the Company's option

(a) During the period from one month after the issuance of the Third Bonds to 40 days before the maturity of the Third Bonds, if the closing price of the Company's common stock at the Taiwan Stock Exchange is equal to or more than 30% of the conversion price for a period of 30 consecutive trading days, the Company may redeem the outstanding bonds in cash at the face value of the Third Bonds within 30 trading days after the abovementioned 30 consecutive trading days.

(b) During the period from one month after the Third Bonds are issued to 40 days before the maturity of the Third Bonds, if the total amount of the Third Bonds outstanding after the conversion by the bondholders is less than \$250 million (10% of the total issued amount), the Company may redeem the outstanding bonds at their face value any time during the 40 days before the maturity of the Third Bonds.

(c) When the Company issues its redemption notice, if the bondholders do not reply before the effective redemption date, the Company may convert the bonds held by those bondholders into common stock at the conversion price in effect at the expiration of the notice period.

f) Redemption at the bondholders' option

During the period from 30 days before the 2-year maturity of the Third Bonds to the date of maturity, or from 30 days before the 3-year maturity of the Third Bonds to the date of maturity, the bondholders may require the Company to redeem their bonds in cash at the face value plus interest compensation. (The redemption price for the former is 101.00% of the face value with a yield rate of 0.50% per annum, and 101.51% of the face value with a yield rate of 0.50% for the latter.).

g) Terms of conversion

(a) Conversion period

The bondholders may convert the Third Bonds into the Company's common stock during the period from one month after the Third Bonds are issued to 10 days before the maturity of the Third Bonds.

The bondholders are prohibited from exercising their conversion right during the period from 3 trading days before the announcement of cash or stock dividends to the date of distribution of the cash or stock dividends.

(b) Conversion price

The base day for setting conversion price is July 30, 2009. The conversion price can be any of the three average closing prices of the Company's common stock during the 1, 3 and 5 trading days before the base day multiplied by 101.00%. If any cash or stock dividends are distributed before the base day, the closing price used in the computation of the conversion price must be adjusted for the effect of the dividend distribution. If any cash or stock dividends are distributed during the period from the date on which the conversion price is set to the date on which the Third Bonds are issued, the conversion price is required to be adjusted in accordance with the adjusting formula specified in the bond agreement. The conversion price at the issuance of the Third Bonds was set at \$20.04 (in dollars).

h)Entitlement to cash dividends

The bondholders who request to convert the Third Bonds during the period from January 1 of the current year to any date which is more than 3 trading days before the announcement of cash or stock dividends are entitled to the cash or stock dividends resolved by the stockholders in the current year. Conversion of the Third Bonds is prohibited during the period from 3 trading days before the announcement of cash or stock dividends to the ex-dividend date.

The bondholders who request to convert the Third Bonds during the period from the date following the ex-dividend date to December 31 of the current year are not entitled to the cash or stock dividends resolved by the stockholders in the current year, but are entitled to the cash or stock dividends resolved by the stockholders in the following year.

i)Others

The Company did not repurchase the Third Bonds and the bondholders did not exercise the conversion right before December 31, 2009.

- C The conversion rights and debt component of the Third Bonds, abovementioned, are recognized separately in accordance with R.O.C. SFAS No.36.

The issuance cost of the Third Bonds is allocated to debt and equity component by amount initially recognized, accordingly the account of "Capital reserve from stock warrants" on book amounts to \$256,205.

The net value of the rights of repurchase and resold embedded in bonds payable was separated from bonds payable, and was recognized in "Financial liabilities at fair value through profit or loss" in accordance with R.O.C. SFAS No. 34.

(17)Pension

A. In accordance with the Labor Pension Act (“the Act”), effective July 1, 2005, which adopted a defined contribution scheme, employees of the Company may choose to be subject to either the Act, maintaining their seniority before the enforcement of the Act, or the pension mechanism of the Labor Standard Law. Under the defined benefit plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 9.6% of the employees’ monthly salaries and wages to the retirement fund deposited with Department of Trust of Bank of Taiwan under the name of Labor Pension Fund Supervisory Committee.

C. Effective July 1, 2005, the Company established a funded defined contribution plan (the "New Plan") under the Labor Pension Act ("the Act"). Employees have the option to be covered under the New Plan. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits are to be paid monthly or in lump sum upon termination of employment.

D. The pension costs under the defined benefit plan and the defined contribution plan for the years ended December 31, 2009 and 2008 were \$134,698 and \$135,903, respectively.

(18) Capital stock

- A. As of December 31, 2009, the Company's authorized capital was \$36,000,000, and the paid-in capital was \$30,625,992, divided into 3,062,599 thousand shares of common stocks, with a par value of \$10 per share.
- B. Details of the common stock converted from the unsecured domestic convertible bonds issued by the Company for the years ended December 31, 2009 and 2008 are set forth below:

	For the years ended December 31,			
	2009		2008	
	No. of Shares (in 000's)	Amount	No. of Shares (in 000's)	Amount
First unsecured convertible bonds	-	\$ -	19,647	\$ 196,475
Second unsecured convertible bonds	1,660	16,602	7,422	74,220
Total	1,660	\$ 16,602	27,069	\$ 270,695

(19) Capital surplus

- A. The Securities and Exchange Act requires that capital reserve shall be exclusively used to cover accumulated deficits or to increase capital and shall not be used for any other purpose. However, capital reserve arising from paid-in capital in excess of par value on issuance of common stock and donations can be capitalized once a year, provided that the Company has no accumulated deficits and the amount to be capitalized does not exceed 10% of the paid-in capital.
- B. Information related to "capital reserve from stock warrants" is stated in Note 4(15).

(20) Appropriation of retained earnings and dividend policy

- A. According to the Company's Articles of Incorporation, if there is any profit for a fiscal year, the Company shall first make provision for income tax, and cover prior years' losses, then appropriate 10% of the residual amount as legal reserve. Dividends shall be proposed by the Board of Directors and resolved by the stockholders. Bonuses paid to employees shall be at least 0.5% of the total distributed amount and the remuneration paid to the directors and supervisors shall not exceed 5% of the total distributed amount. The Company is currently at the stable growth stage. In order to facilitate future expansion plans, dividends to stockholders are distributed mutually in the form of both cash and stocks with the basic principle that the ratio of cash dividends to total stock dividends shall not be lower than 10%.

B. Legal reserve

Pursuant to the Company Law, the Company is required to set aside 10% of its annual after-tax net income as legal reserve until the balance of such reserve equals the Company's paid-in capital. Utilization of the legal reserve is limited to offsetting deficits and capital increase. Capitalization of the legal reserve is permitted, provided that the balance of the reserve exceeds 50% of the Company's paid-in capital and the amount capitalized does not exceed 50% of the balance of the reserve.

C. Special reserve

If there is any negative stockholders' equity item recognized by the Company, such as unrealized loss on financial product, cumulative translation adjustments and unrecognized pension cost, the Company is required to set aside an amount equal to the amount of the negative stockholders' equity item as special reserve from the after-tax net income. And the amount set aside could be offset by unrealized gain if unrealized gain exists. If the negative stockholders' equity items are subsequently reversed, an amount not exceeding the reversed amount can be appropriated from the special reserve.

D. Appropriation of the 2008 and 2007 earnings as resolved by the stockholders on June 19, 2009 and June 18, 2008, respectively, are set forth below:

	For the years ended December 31,			
	2008		2007	
	Total Amount	Dividend per share (in dollars)	Total Amount	Dividend per share (in dollars)
Legal Reserve	\$ 63,927		\$ 1,038,170	
Cash dividends	-	\$ -	5,201,453	\$ 1.7
Remuneration to directors and supervisors	-		45,600	
Cash bonus to employees	-		36,000	
	<u>\$ 63,927</u>		<u>\$ 6,321,223</u>	

Appropriation of 2008 earnings, abovementioned, is the same as the proposition made by the Board of Directors on April 21, 2009. As of April 28, 2010, the appropriation of 2009 earnings had not been resolved by the Board of Directors. Information on the appropriation of the Company's earnings as resolved by the Board of Directors and approved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

E. Appropriation of the 2007 earnings was calculated by the following formula. After distributing the bonus to employees and the remuneration to directors and supervisors, the after-tax basic earning per share for 2007 decreased from \$3.53 to \$3.50.

Net income, after-tax – Cash bonus to employees – Remuneration to directors and supervisors
 Formula :
$$\frac{\text{Net income, after-tax – Cash bonus to employees – Remuneration to directors and supervisors}}{\text{Weighted-average number of outstanding shares (after retroactive adjustment)}}$$

$$= (\$10,381,702 - \$36,000 - \$45,600) / 2,943,402 \text{ thousand shares} = \$3.50$$

F. Under the resolution of the Company's stockholders on 2009, the 2008 earnings is neither to be distributed to employees nor paid to the directors and supervisors. And there is no estimation of bonus to employees or remuneration to the directors and supervisors in 2008 financial statement, as a result, no difference between 2009 and 2008 exists.

The methods and assumptions used to estimate the fair values of the above financial instruments are summarized below:

- A. The fair values of short-term financial instruments were determined using their carrying value because of the short maturities of these instruments. This method applies to cash and cash equivalents, notes and accounts receivable/payable, other financial assets, refundable deposits, restricted assets, short-term debts, short-term bills payable and guarantee deposits received.

- B. For financial assets at fair value through profit or loss and available-for-sale financial assets with quoted market price available in an active market, the fair value is determined using the quoted market price. When there is no quoted market price for reference, a substitute valuation technique is used to measure the fair value which incorporates all factors that market participants would consider in making estimations and assumptions for setting a price and wherein such information is available to the Company.
- C. Held-to-maturity financial assets are those with fixed or determinable payments and a fixed time-to-maturity which the Company has positive intent and ability to hold. Upon measurement, held-to-maturity financial assets are carried at amortized cost. Any profits or losses incurred due to changes in fair value should be recognized in the income statement when the financial asset is derecognized, impaired or amortized.
- D. Financial assets carried at the cost, consists of unlisted stocks or those not actively traded in an active market. Their fair value could not be measured reliably; hence, such instruments are measured at cost in compliance with applicable accounting standards. For bond investments with no active market, the carrying value is used to estimate its fair value when there is no market price for reference.
- E. Fair values of long-term loans are estimated based on the present values of future cash flows. For bank loans associated with floating interest rate, the carrying value represents its fair value.
- F. Fair values of corporate bonds payable are determined as the quoted market prices when available. When the quoted market prices are not available, fair values are estimated based on financial information or other information.
- G. The fair values of derivative financial instruments are determined based on the estimated amounts to be received or paid upon termination of contracts on the balance sheet date. Unrealized gains or losses arising from unsettled contracts are generally included. Quotation prices from counterparties are available for reference in setting fair values of the Company's derivative financial instruments.

(3) Information on significant gain/loss on financial instruments and equity items

- A. For the years ended December 31, 2009 and 2008, total interest income from financial assets and liabilities at fair value through profit or loss amounted to \$3,643,965 and \$3,227,686.
- B. For the years ended December 31, 2009 and 2008, total interest income for financial assets or financial liabilities that are not at fair value through profit or loss amounted to \$57,182 and 110,362, whereas the total interest expense amounted to \$266,153 and \$228,469, respectively.
- C. For the years ended December 31, 2009 and 2008, the adjustment of shareholders' equity resulting from available-for-sale financial assets was debit \$299,724 and \$353,561; whereas the total loss or gain deducted from the adjustment of shareholders' equity resulting from available-for-sale financial assets was \$0 and \$23,599, respectively.

(4) Information on interest rate risk positions

As of December 31, 2009 and 2008, the financial assets with fair value risk due to the change of interest rate amounted to \$0 and \$4,991; whereas the financial liabilities with fair value risk due to the change of interest rate amounted to \$0 and \$3,818, respectively. The financial assets with cash flow risk due to the change of interest rate amounted to \$573,332 and \$447,041; whereas the financial liabilities with cash flow risk due to the change of interest rate amounted to \$14,003,310 and 16,337,390, respectively.

(5) Risk policy and hedging strategy

The financial instruments held by the Company, other than derivative instruments, are composed of cash and cash equivalents, stocks, funds, bank loan, and corporate bonds. Such financial instruments are held for maintaining adequate operating capital. The Company also held other financial assets and liabilities, such as accounts receivable and payable generated from operating activity.

The transactions associated with derivative instruments mainly include interest rate swap and oil swap. The primary objective is to avoid the interest rate risk and fuel price variation arising from operating and financing activities.

The primary risks of financial instruments are cash flow risk associated with interest rate fluctuations, exchange rate risk, credit risk, and liquidity risk. The risk management policies are set forth below:

Cash flow risk associated with interest rate fluctuations

The Company's major exposure to cash flow risk associated with interest rate variations comes primarily from long-term financing with floating interest. The Company adopts a combination of fixed and floating interest rates methods upon issuance of loans to manage such interest rate risks. In addition, the Company also engages in interest rate swaps to minimize cost of borrowings.

As of December 31, 2009, the carrying values of the Company's financial instruments exposed to interest rate are summarized in the order of maturity as follows:

a) Fixed interest rate

	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-3 years</u>	<u>over 3 years</u>	<u>Total</u>
Cash and cash equivalents	\$ 1,497,777	\$ -	\$ -	\$ -	\$ 1,497,777
Bank loan	(2,162,157)	-	-	-	(2,162,157)
Short-term notes and bills payable	(99,959)	-	-	-	(99,959)

b) Floating interest rate

	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-3 years</u>	<u>over 3 years</u>	<u>Total</u>
Cash and cash equivalents	\$ 573,332	\$ -	\$ -	\$ -	\$ 573,332
Bank loan	(1,368,176)	(6,525,141)	(2,647,493)	(3,462,500)	(14,003,310)

The interest of financial instruments associated with the floating interest rates is remeasured within 1 year period and the interest for financial instruments associated with the fixed interest rate is fixed to maturity. The financial instruments not included in the above table are not subject to interest payments and thus, do not have inherent interest rate risk.

Exchange rate risk

Although the Company is exposed to exchange rate risk, the Company has stable cash inflows denominated in foreign currencies for meeting cash outflows denominated in foreign currency due to the fact that the Company operates in international transportation industry. In order to minimize exchange rate risk, the Company also engages in activities, such as borrowing of US dollar loans, etc.

Credit risk

The Company only deals with third parties with good credit standings. In compliance with the Company's policies, strict credit assessment is to be performed by the Company prior to providing credit to customers. The occurrence of bad debts is also minimized by the Company's practices in continuously monitoring and assessing collections on notes and accounts receivables and making adjustments to the credit terms granted for each customer based on the conclusion drawn from such assessment. Moreover, the Company is restricted from engaging in credit trading with other business units operating under other functional currencies unless permission from the highest instruction unit has been received.

Other financial instruments held by the Company are subject to credit risk arising from the failure of counterparty to settle their contractual obligations as and when they fall due. Since the Company only deals with third parties with qualifying credit standings, no collateral is required by the Company which also represents that the maximum credit exposure amount equals to the relative carrying value. The maximum credit exposure amount for various financial assets held by the Company is analyzed as below:

Financial instruments	December 31, 2009	
	Book value	Maximum credit exposure amount
Financial assets at fair value through profit or loss		
Trading financial assets	\$ 4,058,762	\$ 4,058,762
Financial assets designated as at fair value through profit or loss	100,000	100,000
Held-to-maturity financial assets		
Corporate bonds	360,000	360,000
Available-for-sale financial assets		
Equity security	692,312	692,312
Financial assets carried at cost		
Stock	1,534,441	1,534,441
	December 31, 2008	
Financial instruments	Book value	Maximum credit exposure amount
Financial assets at fair value through profit or loss		
Trading financial assets	\$ 589,115	\$ 589,115
Available-for-sale financial assets- non-current		
Equity security	392,588	392,588
Financial assets carried at cost- non-current		
Stock	1,534,441	1,534,441

Credit risk refers to the risk of counterparty's failure to settle contractual obligations as and when they fall due. The credit risk presented in the above table is the positive net amount of all contracts with positive fair values at the balance sheet date. The credit risk amount presented is the loss that may be incurred by the Company in the case of counterparty's default. Since the counterparties of the Company are business enterprises or financial institutions with good credit rating, the potential credit risk event is remote. In addition, since the Company is not concentrated in transactions with one individual or counterparty, no concentration of credit risk is evident.

Liquidity risk

The Company achieves the objectives of effective use of capital and stabilization of capital by adjusting capital through the use of cash and cash equivalents, financial instruments held for trading, bank loans and corporate bonds, etc. The operating capital of the Company is sufficient in meeting capital on demand; therefore, no significant liquidity risk is expected.

(6) Hedging activity

Cash flow hedge

The Company holds interest rate swap contracts for avoiding the risk resulting from variation between floating and fixed rate, the effectiveness of hedging was within a range from 80% to 125%.

Note 1: Nature of loans extended

"1" denotes the loans extended to the companies which have transactions with the Company or its subsidiaries.

"2" denotes the loans extended to the companies which require short-term financing.

Note 2: The reason that the loan was granted and the usage of the loan should be stated, if the nature of the loan is "2".

Note 3: The explanation of the equation of the limits and amounts is required and set forth as follows:

1. According to the Company's credit policy, the total amount of loans granted to a single company should not exceed 20% of the net worth stated in the latest financial statements.

The calculation is as follows:

The Company: $\text{NTD}56,821,670 * 20\% = \text{NTD}11,364,334$

2. According to the Company's credit policy, the total amount of loans granted by the Company or its subsidiaries should not exceed 40% of the net worth stated in the latest financial statements.

The calculation is as follows:

$\text{NTD}56,821,670 * 40\% = \text{NTD}22,728,668$
