Report of Independent Registered Public Accounting Firm

The Board of Directors
Financial Research Company, Inc.

We have audited the accompanying balance sheet of Financial Research Company, Inc. (a Georgia corporation), as of December 31, 2009, and the related statements of operations, shareholder's equity, and cash flows for the year then ended. These financial statements are the responsibility of Financial Research Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as, evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Financial Research Company, Inc. as of December 31, 2009, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our examination was made for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in Schedules I, II, III, and IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FINANCIAL RESEARCH COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009

1. Summary of Significant Accounting Policies

Revenues are earned from commissions received by the Company under a clearing agreement with Northeast Securities Inc. The Company forwards instructions for buying and selling common and preferred stocks, bonds and options for its customer's accounts for execution.

Commissions are paid monthly when received from Northeast Securities, Inc. The Company's primary commission agent owns all of the outstanding shares of the Company. Services are performed under a commission agreement with the Company which has been in effect since 1980. The Company is responsible for occupancy, regulatory and other expenses.

2. Changes in Liabilities Subordinated to Claims of General Creditors

No liabilities were subordinated to claims of general creditors at December 31, 2009, therefore, no changes are reportable herein.

3. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the Company considers all highly liquid investments purchased with a maturity of six months or less, when purchased, to be cash equivalents.

4. Income Taxes

The Company has elected Subchapter S status for Federal Income Tax reporting. Under Subchapter S, the income or loss of the Company is taxed to the Company's sole shareholder. Therefore, no income tax provision or benefit and accrued or deferred income taxes has been included in the attached financial statements.

Report of Independent Registered Public Accounting

Firm on the Internal Control

The Board of Directors
Financial Research Company, Inc.:

We have examined the financial statements of Financial Research Company, Inc. as of December 31, 2009, and have issued our report thereon dated January 9, 2010. As part of our examination, we have made a study and evaluation of the Company's system of internal accounting control to the extent we considered necessary to evaluate the system as required by the standards of the Public Company Accounting Oversight Board (United States). The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the consolidated financial statements.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Financial Research Company, Inc. that we considered relevant to the objectives stated in rule 17-a5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e).

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and the transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of Financial Research Company, Inc. taken as a whole. However, our study and evaluation disclosed no condition that our believed to be a material weakness.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2009 to meet the Commission's objectives.

This report is intended solely for the use of management and the Securities and Exchange Commission and the National Association of Securities Dealers and should not be used for any other purpose.
