Report of Independent Registered Public Accounting Firm

The Board of Directors
Van Eck Securities Corporation:

We have audited the accompanying statement of financial condition of Van Eck Securities Corporation (the Company), a wholly owned subsidiary of Van Eck Associates Corporation, as of December 31, 2009, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above present fairly, in all material respects, the financial position of Van Eck Securities Corporation as of December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

VAN ECK SECURITIES CORPORATION

(A Wholly Owned Subsidiary of
Van Eck Associates Corporation)

Notes to Statement of Financial Condition

December 31, 2009

(1) Nature of Business

Van Eck Securities Corporation (the Company) is a wholly owned subsidiary of Van Eck Associates Corporation (the Parent or Parent Company) and a registered broker-dealer under the Securities and Exchange Act of 1934, as amended. Its business is limited to acting as general distributor of the Van Eck Family of Funds (the Funds), which are open-end investment companies registered under the Investment Company Act of 1940. The Company does not hold funds or securities for, or owe money or securities to, customers.

(2) Summary of Significant Accounting Policies

(a) Use of Estimates

The preparation of statement of financial condition in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

(b) Cash and Cash Equivalents

The Company considers all cash held with financial institutions and highly liquid investments with a maturity of three months or less when purchased to be cash and cash equivalents in the statement of financial condition. No such highly liquid investments were held by the Company as of December 31, 2009.

(c) Investments in Marketable Securities

Marketable securities, which consist principally of mutual fund investments in the Funds and other money market accounts, are recorded at fair value based on quoted market prices. All securities transactions are recorded on a trade-date basis.

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management discloses financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels: quoted market prices in active markets for identical assets and liabilities (Level 1), inputs other than quoted market prices that are observable for the asset or liability, either directly or indirectly (Level 2), and unobservable inputs for the asset or liability (Level 3). The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety.

VAN ECK SECURITIES CORPORATION
(A Wholly Owned Subsidiary of
Van Eck Associates Corporation)

Notes to Statement of Financial Condition

December 31, 2009

The Company values its investments in marketable securities based on net asset values, which quoted prices in active markets for identical assets (Level 1). As of December 31, 2009, the Company did not directly hold any instruments that are based on significant other observable inputs (Level 2) or unobservable inputs through the application of management's assumptions and internal valuation pricing models (Level 3).

	Total at December 31, 2009	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Marketable securities	\$ 1,862,444	1,862,444	—	—

The Company did not own any investments classified as Level 3 investments during the year ended December 31, 2009.

(d) Furniture and Equipment

Furniture and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets (5-10 years).

(e) New Accounting Pronouncements

On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, also known as FASB Accounting Standards Codification ("ASC") 105-10, "Generally Accepted Accounting Principles" ("ASC 105-10") (the "Codification"). ASC 105-10 established the exclusive authoritative reference for U.S. GAAP for use in financial statements except for SEC rules and interpretive releases, which are also authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards. Codification became the single source of authoritative accounting principles generally accepted in the United States and applies to all financial statements issued after September 15, 2009.

The Company adopted the provisions of ASC 740-30, Accounting for Uncertainty in Income Taxes – an Interpretation of ASC 740-20, as of January 1, 2009. ASC 740-30 requires recognition and measurement of a tax position taken or expected to be taken in a tax return and provides guidance on de-recognition, classification, interest and penalties, and disclosure. The adoption of ASC 740-30 did not have a material impact on the Company's consolidated financial position.

VAN ECK SECURITIES CORPORATION
(A Wholly Owned Subsidiary of
Van Eck Associates Corporation)

Notes to Statement of Financial Condition

December 31, 2009

(3) Affiliated Parties

The Company's primary purpose is acting as the general distributor of the Van Eck Family of Funds and providing sales and marketing services to Van Eck Absolute Return Advisers Corp. (VEARA), a wholly owned subsidiary of the Parent.

Payroll, rent and certain other operating expenses are allocated by the Parent to its subsidiaries, including the Company. Expenses allocated to the Company are based on provisions of an expense sharing agreement. The Company further provides sales and marketing services to VEARA. Prior to June 30, 2009, marketing expenses for the services provided to VEARA were reimbursed by the Parent. Effective June 30, 2009, VEARA reimburses the Company for marketing expenses directly. Effective August 31, 2009, the expense sharing agreement between the Parent and the Company was amended to include allocation of certain sales expenses. All of these allocated sales expenses relate to services provided by the Company to VEARA, which fully reimburses the Company for these services. The receivable from affiliate balance related to the above services was \$2,280,625.

Effective September 1, 2009, any intercompany payable due from the Company to the Parent is forgiven each month, with a corresponding increase in the additional paid-in capital.

(4) Income Taxes

The Company files its federal, New York State and New York City income tax returns on a consolidated basis with its Parent and other related companies. The members of the consolidated group have elected to allocate income taxes among the members of the group under a method by which the Parent makes payments to the Company or the Company makes payments to the Parent for the income tax reductions or increases resulting from the Company's inclusion in the consolidated returns.

Deferred taxes are provided on the asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The Company did not have any unrecognized tax benefits related to uncertain tax positions at the beginning or end of the year ended December 31, 2009.

VAN ECK SECURITIES CORPORATION

(A Wholly Owned Subsidiary of
Van Eck Associates Corporation)

Notes to Statement of Financial Condition

December 31, 2009

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Management believes that it is more likely than not that the net deferred tax asset will be realized and therefore no valuation allowance has been recorded. Significant components of the Company's deferred tax assets and deferred tax liabilities as of December 31, 2009 are as follows:

Deferred tax assets:		
Unrealized loss on marketable securities	\$	16,251
Accrued expenses		21,708
Total deferred tax assets		<u>37,959</u>
Deferred tax liabilities:		
Furniture and equipment		<u>14,754</u>
Total deferred tax liabilities		<u>14,754</u>
Net deferred tax asset	\$	<u>23,205</u>

(5) Off-Balance-Sheet Risk and Credit Risk

As discussed in Note 1, the Company acts as general distributor of the Van Eck Family of Funds. Receipts and payments for mutual fund shares sold or redeemed are made directly to, or by, the issuers or their agents. Off-balance-sheet risk with respect to these transactions exists due to the possibility that customers may be unable to fulfill their contractual commitments. As a result, the Company may be charged for any losses incurred by the mutual funds for the canceled transaction. The Company seeks to minimize this risk through procedures designed to monitor the proper execution of transactions by the issuers or their agents.

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

(6) Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2009, the Company had net capital and net capital requirements of \$1,200,173 and \$42,555, respectively. The Company's net capital ratio of aggregate indebtedness was 0.531 to 1.

VAN ECK SECURITIES CORPORATION
(A Wholly Owned Subsidiary of
Van Eck Associates Corporation)

Notes to Statement of Financial Condition

December 31, 2009

The Company has experienced operating losses in recent years. The Company has been supported by the Parent on an as-need basis. The Parent has confirmed to the Company that it will provide support sufficient for the Company to satisfy its obligations arising from operations incurred in the ordinary course as they come due until at least January 1, 2011, and will satisfy, on a timely basis all liabilities and obligations arising from operations incurred in the ordinary course of the Company that the Company is unable to satisfy when due through and including January 1, 2011.

(7) Subsequent Event

The Company has evaluated the need for disclosures and/or adjustments resulting from subsequent events through February 26, 2010, the date the statement of financial condition was available to be issued. This evaluation did not result in any subsequent events that necessitated disclosures and/or adjustments in the statement of financial condition.

**SUPPLEMENTARY REPORT OF INDEPENDENT REGISTERED PUBLIC
ACCOUNTING FIRM**

KPMG LLP
345 Park Avenue
New York, NY 10154-0102

**Report of Independent Registered Public Accounting Firm on Internal Control
Required by SEC Rule 17a-5**

The Board of Directors
Van Eck Securities Corporation:

In planning and performing our audit of the financial statements and supplementary schedules of Van Eck Securities Corporation (the Company), a wholly owned subsidiary of Van Eck Associates Corporation, as of and for the year ended December 31, 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements and supplementary schedules, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
