## **Report of Independent Registered Public Accounting Firm**

The Board of Directors and Stockholder  
IFC Holdings, Inc.:

We have audited the accompanying consolidated statement of financial condition of IFC Holdings, Inc. and subsidiary (an indirect, wholly owned subsidiary of Prudential Plc) as of December 31, 2009 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This consolidated financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this consolidated financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit of a consolidated statement of financial condition also includes examining, on a test basis, evidence supporting the amounts and disclosures in that consolidated statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated statement of financial condition presentation. We believe our audit of the consolidated statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the consolidated statement of financial condition referred to above presents fairly, in all material respects, the financial position of IFC Holdings, Inc. and subsidiary as of December 31, 2009, in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Statement of Financial Condition

December 31, 2009

**(1) Organization**

IFC Holdings, Inc. and subsidiary (the Company) is a wholly owned subsidiary of National Planning Holdings, Inc. (NPH), which in turn is an indirect, wholly owned subsidiary of Prudential Plc. The Company is a registered broker-dealer and investment advisor with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority. The Company offers financial products (primarily mutual funds and insurance products) through its registered representatives to customers located throughout the United States.

The Company has evaluated events occurring after the balance sheet date (subsequent events) through February 23, 2010, the date the consolidated statement of financial condition was issued, to determine whether any subsequent events necessitated adjustment to or disclosure in the consolidated statement of financial condition. No such events were identified.

**(2) Significant Accounting Policies**

The consolidated financial statements include the accounts of the wholly owned subsidiary, Investment Centers of America, Inc. (ICA). These companies are collectively referred to as the Company. All significant intercompany transactions have been eliminated in the consolidation process.

**(a) Cash and Cash Equivalents**

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents include \$18,632,640 in money market funds and accounts. Cash held in banks periodically exceeds the Federal Deposit Insurance Corporation's (FDIC) insurance coverage of \$250,000, and as a result, there is a concentration of credit risk related to amounts in excess of FDIC insurance coverage.

**(b) Marketable Securities**

Securities are carried at fair value based on quoted market prices and are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, and interest is recorded on the accrual basis.

**(c) Drafts Payable**

Drafts payable represents amounts drawn by the Company pursuant to a sweep agreement with a bank. Under this agreement, the bank does not advance cash to the Company.

**(d) Fixed Assets**

Fixed assets are carried at cost, less accumulated depreciation and amortization. Depreciation is computed on a straight-line basis using the estimated useful lives of the assets. Fixed assets consist primarily of computer hardware and software, leasehold improvements, office equipment, and furniture and fixtures, which are depreciated over three to seven years. Leasehold improvements are depreciated over the shorter of the estimated useful life or the lease term.

(SEC Identification No. 8-27691)  
(An Indirect, Wholly Owned Subsidiary of Prudential Plc)  
Notes to Consolidated Statement of Financial Condition  
December 31, 2009

**(e) Goodwill**

Goodwill represents the excess of the aggregate purchase price over the fair value of the net assets acquired in a purchase businesses combination. Goodwill is reviewed for impairment at least annually. The goodwill impairment test is a two-step test. Under the first step, the fair value of the enterprise is compared with its carrying value (including goodwill). If the fair value of the enterprise is less than its carrying value, an indication of goodwill impairment exists and the enterprise must perform step two of the impairment test. Under step two, an impairment loss is recognized for any excess of the carrying amount of the enterprise's goodwill over the fair value of that goodwill. The fair value of goodwill is determined by allocating the fair value of the enterprise in a manner similar to a purchase price allocation. The residual fair value after this allocation is the implied fair value of the enterprise's goodwill.

During 2009, the Company performed its annual impairment review of goodwill and concluded that there was no impairment.

**(f) Income Taxes**

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

The Company is included in a consolidated federal income tax return with Brooke Holdco1 Inc. (BH1), an indirect, wholly owned subsidiary of Prudential Plc. The Company's tax-sharing agreement with BH1 is based on the separate return method and any intercompany taxes are settled on a monthly basis. The Company files combined state tax returns in Alaska, California, Massachusetts, Michigan, Texas, Vermont, West Virginia, and Wisconsin; and separate state income tax returns for other states that the Company is required to file income tax returns. Beginning with the first taxable year ended December 31, 2006, the Company does not have a right to reimbursement for the utilization of its losses in the federal consolidated tax return.

**(g) Receivable from Registered Representatives**

Receivable from registered representatives relates to outstanding balances from representatives and forgivable notes offered to registered representatives who have not achieved a predetermined percentage of the agreed-upon gross dealer concessions and must pay down a portion of the note. When it has been determined that a note will be repaid by a representative, the amount to be repaid is

reclassified from forgivable notes receivable to receivable from registered representative. Upon reclassification, the receivable accrues interest at a stated rate of the note. The Company has not and does not intend to sell these receivables.

The allowance for doubtful accounts is the Company's best estimate of the amount of credit losses in the Company's existing receivable from registered representatives. The allowance is determined on an individual receivable basis upon review of the probability that a registered representative will not repay all principal and interest contractually due. A receivable is impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due, including contractual interest payments. The Company does not accrue interest when a receivable is considered impaired. When ultimate collectibility of the principal balance of the impaired receivable is in doubt, all cash receipts on impaired receivables are applied to reduce the principal amount of such receivables until principal has been recovered and are recognized as interest income thereafter. Impairment losses are charged against the allowance. Receivables are written off against the allowance when all possible means of collection have been exhausted and the potential for recovery is considered remote.

**(h) Use of Estimates**

The preparation of the accompanying consolidated statement of financial condition in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and the accompanying notes. Such estimates include the valuation of commissions receivable, goodwill, long-lived assets, deferred tax assets, forgivable notes receivable, receivable from registered representatives, and assumptions used in the calculation of income taxes and income tax uncertainties. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions when facts and circumstances dictate. Illiquid credit markets, volatile equity, foreign currency, energy markets, and declines in consumer spending have combined to increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the consolidated statement of financial condition in future periods.

**(i) Fair Value Measurements**

The financial instruments of the Company are reported in the consolidated statement of financial condition at fair values, or at carrying amounts that approximate fair values because of the short maturity of the instruments. The Company has determined the fair value of money market funds, marketable securities, and investments held in the nonqualified deferred compensation plan using the market approach as these financial instruments trade in an active market.

**IFC HOLDINGS, INC. AND SUBSIDIARY**  
 (SEC Identification No. 8-27691)  
 (An Indirect, Wholly Owned Subsidiary of Prudential Plc)

Notes to Consolidated Statement of Financial Condition

December 31, 2009

**(3) Income Taxes**

The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets and liabilities are as follows:

Deferred tax assets:	
Forgivable loans	\$ 2,177,882
Allowance for doubtful accounts	230,777
Depreciation	161,420
Deferred compensation	8,291,766
Accrued vacation	132,961
Accrued commissions	90,313
Accrued rent	325,469
State NOL	183,550
Other	82,275
Total deferred tax assets	<u>11,676,413</u>
Deferred tax liabilities:	
Accrued bonus	(79,048)
Prepays	(291,294)
Intangible amortization	(2,723,869)
Unrealized gain on marketable securities	(4,315)
Total deferred tax liabilities	<u>(3,098,526)</u>
Net deferred tax assets	<u>\$ 8,577,887</u>

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Based upon the projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Company will realize the benefits of these deductible differences.

The Company generated a Michigan net operating loss of approximately \$42,584. A valuation allowance has been placed against the state net operating loss deferred asset as of December 31, 2009 due to the uncertainty of its ultimate realization.

**IFC HOLDINGS, INC. AND SUBSIDIARY**  
 (SEC Identification No. 8-27691)  
 (An Indirect, Wholly Owned Subsidiary of Prudential Plc)

Notes to Consolidated Statement of Financial Condition

December 31, 2009

For tax purposes as of December 31, 2009, the Company had a state net operating loss (NOL) of \$4,950,304, which can be carried forward and will expire according to the following table:

Number of years to utilize	Amount of loss expiring
0 – 5 years	\$ 764,940
6 – 7 years	61,615
8 – 10 years	481,093
11 – 12 years	1,638,326
13 – 15 years	8,727
16 – 20 years	1,995,603
	\$ 4,950,304

The Company has a state tax receivable of \$239,929 and a federal income tax payable of \$299,796, which have been reduced by \$184,352 related to unrecognized tax benefits. The total unrecognized tax benefits would affect the effective tax rate if recognized. These amounts are included in income taxes receivable in the accompanying consolidated statement of financial condition as of December 31, 2009.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

Balance as of December 31, 2008	\$ 151,879
Reduction to prior year tax positions	32,473
Balance as of December 31, 2009	\$ 184,352

The Company's federal income tax returns are under examination by the Internal Revenue Service for tax years 2005 and 2006. The federal income tax returns for 2007 and 2008 remain open to examination. The Company does not believe it is probable that a significant change will occur within the coming year to its unrecognized tax benefits.

**(4) Fair Value Measurements**

Effective January 1, 2008, the Company's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820-10, *Fair Value Measurements*.

Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

ASC 820-10 established a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The hierarchy level assigned to each security in the Company is based on the assessment of the

(SEC Identification No. 8-27691)  
(An Indirect, Wholly Owned Subsidiary of Prudential Plc)  
Notes to Consolidated Statement of Financial Condition

transparency and reliability of the inputs used in the valuation of such security at the measurement date. The three hierarchy levels are defined as follows:

- Level 1 – Valuations based on unadjusted quoted market prices in active markets for identical securities
- Level 2 – Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment

The Company has evaluated its investments in money market funds (\$18,632,640 included in cash and cash equivalents), marketable securities, and investments held in the nonqualified deferred compensation plan, and determined that based on the unadjusted quoted market prices in active markets used to determine fair value that these are classified as Level 1 investments.

**(5) Clearing Agreement**

The Company is an introducing broker and clears transactions with and for customers on a fully disclosed basis with National Financial Services Corporation (NFSC) and Pershing LLC, a Bank of New York Mellon Company. The Company promptly transmits all customer funds and securities to NFSC and Pershing LLC. In connection with these arrangements, the Company is contingently liable for its customers' transactions.

**(6) Net Capital Requirements**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1 (Rule 15c3-1) and is required to maintain minimum "net capital" equivalent to \$250,000 or 2% of "aggregate debit items," whichever is greater, as these terms are defined. As of December 31, 2009, the Company had net capital of \$6,505,770, which was \$6,255,770 in excess of its requirement.

**(7) Forgivable Notes Receivable**

The Company holds forgivable notes from certain registered representatives. Under the terms of the forgivable notes, the principal is forgiven over a certain period of time, generally five to seven years. The forgiveness of the notes is contingent upon the continued affiliation of the representative and the representative achieving agreed-upon production levels, measured in terms of gross dealer concessions.

The Company records amortization of the principal balance of the notes monthly on a straight-line basis over the term of the note. In circumstances when the representative does not achieve the minimum gross dealer concessions but does achieve a predetermined percentage of the agreed-upon production levels, the term of the forgivable notes may be extended for one additional year. Under such circumstances, the unamortized balance of the note is amortized over the remaining term. If the representative achieves an amount lower than the predetermined percentage of the agreed-upon production levels, the representative must pay down a portion of the note, and the remaining balance is amortized over the remaining term. In

some instances, when it has been determined that a note will be repaid by a representative; the amount to be repaid is reclassified from forgivable notes receivable to receivable from registered representatives.

The activity in the forgivable notes receivable comprises the following:

Balance as of December 31, 2008	\$	12,044,397
Granted		12,410,395
Amended notes		(1,574,657)
Amortization		<u>(3,118,684)</u>
Balance as of December 31, 2009	\$	<u><u>19,761,451</u></u>

During 2009, forgivable notes receivable totaling \$2,100,103 became fully amortized and were forgiven by the Company.

**(8) Receivable from Registered Representative and Allowance for Doubtful Accounts**

Receivable from registered representatives with interest rates ranging from 3.16% to 5.25%. The receivables mature from January 1, 2010 to December 20, 2011

	\$	190,990
Other receivables		<u>379,269</u>
Receivables from registered representatives	\$	<u><u>570,259</u></u>

The activity in the allowance for doubtful accounts for impaired receivable from registered representatives for the year ended December 31, 2009 comprises the following:

Allowance for doubtful accounts at beginning of year	\$	804,577
Additions charged to bad debt expense		287,561
Write-downs charged against the allowance		<u>(533,475)</u>
Allowance for doubtful accounts at end of year	\$	<u><u>558,663</u></u>

**(9) Fixed Assets**

The major classifications of fixed assets are as follows:

Leasehold improvements	\$	1,670,097
Office equipment, furniture, and fixtures		1,314,069
Computer hardware and software		1,241,585
		4,225,751
Total fixed assets		4,225,751
Less accumulated depreciation		(3,164,203)
		1,061,548
Fixed assets, net	\$	1,061,548

**(10) Defined Contribution Plans**

The Company has defined contribution retirement plans covering all eligible full-time employees. The Company's annual contributions are based on a percentage of covered compensation paid to participating employees during each year.

**(11) Employee Deferred Compensation Plan**

The Company has a nonqualified deferred compensation plan for certain employees. Effective December 28, 2006, this plan is no longer accepting new contributions. All plan assets are included as an asset in prepaid expenses and other assets with a corresponding liability in accounts payable and other accrued expenses. The asset and liability are each \$142,458 as of December 31, 2009 and are included in the accompanying consolidated statement of financial condition.

**(12) Related-Party Transactions**

The Company participates in the allocation of costs in which NPH and the other wholly owned subsidiaries of NPH allocate a portion of their operating expenses to the Company, and the Company allocates a portion of its operating expenses to the other subsidiaries of NPH. Jackson allocates the shared services expense based on a percentage of time spent on the activity.

Pursuant to the tax-sharing agreement, the Company paid \$2,904,000 for federal income taxes for the year ended December 31, 2009.

**(13) Representative Deferred Compensation Program**

The Company has a nonqualified deferred compensation plan for certain independent contractors of the Company. Effective April 1, 2004, all plan assets were frozen and are included as an asset in prepaid expenses and other assets with a corresponding liability in accounts payable and other accrued expenses. The asset and liability are each \$4,023,875 as of December 31, 2009 in the accompanying consolidated statement of financial condition.

All contributions made after April 1, 2004 are transferred to Jackson for the purpose of facilitating administration of the plan. The Company's annual contributions are based on commission revenue production of participating independent contractors during the year.

**(14) Commitments and Contingencies**

*Leases*

The Company leases its primary premises under an operating lease, which expires November 30, 2013. The lease agreement provides for rental escalations over the term of the operating lease. The Company recognizes the rental increases over the term of the lease on a straight-line basis. The following is a schedule by years of the minimum rental commitments for the premises under this noncancelable lease as of December 31, 2009:

2010	\$	760,857
2011		783,290
2012		806,417
2013		760,892
	\$	<u>3,111,456</u>

*Litigation*

The Company is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's financial position or liquidity.

**Report of Independent Registered Public Accounting Firm on Internal Control Required by  
Rule 17a-5 of the Securities Exchange Act of 1934**

The Board of Directors and Stockholder  
IFC Holdings, Inc.:

In planning and performing our audit of the consolidated financial statements of IFC Holdings, Inc. and Subsidiary (the Company) (an indirect, wholly owned subsidiary of Prudential Plc) as of and for the year ended December 31, 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate debits and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e)
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate as of December 31, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered broker-dealers, and is not intended to be and should not be used by anyone other than these specified parties.
