INDEPENDENT AUDITORS' REPORT

**BOARD OF DIRECTORS
IBS HOLDING CORPORATION
SANTA MONICA, CALIFORNIA**

We have audited the accompanying statement of financial condition of **IBS HOLDING CORPORATION, doing business as I-BANKERS SECURITIES, INC.**, as of December 31, 2009, and the related statements of income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **IBS HOLDING CORPORATION, doing business as I-BANKERS SECURITIES, INC.**, as of December 31, 2009, and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2009

A. COMPANY:

IBS HOLDING CORPORATION was incorporated on June 6, 1996 in Texas. The Company operates as a broker-dealer in securities. All customers' securities, funds and accounts are processed and carried by a correspondent broker-dealer.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

- 1. Customers' Securities and Commodities** - Transactions are recorded on a settlement date basis with related commission income and expenses recorded on a trade date basis. Securities and commodities transactions of the Company are recorded on a trade date basis.
- 2. Cash** - The Company considers all short-term investments with an original maturity of three months or less to be cash equivalents.
- 3. Marketable Securities** - Marketable securities are valued using level one inputs to calculate fair value. The resulting difference between cost and fair value is included in income.
- 4. Equipment** - Equipment is stated at cost less accumulated depreciation, which is provided by charges to income over estimated useful lives using accelerated methods.
- 5. Income Taxes** - Deferred federal income taxes arise from timing differences due to the method of reporting depreciation provisions. The straight-line method to record depreciation provisions is used for financial reporting, and accelerated methods for federal income tax purposes are used.
- 6. Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2009

C. FAIR VALUES OF FINANCIAL INSTRUMENTS:

Fair Value Measurement - FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the assets or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level one inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level two inputs are inputs (other than quoted prices included within level one) that are observable for the asset or liability, either directly or indirectly.

Level three inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The carrying amounts of assets and liabilities in the balance sheet approximate fair value.

D. CONCENTRATION OF CREDIT RISKS:

At December 31, 2009, the Company had approximately \$1,175,000 on deposit with financial institutions located in Europe.

IBS HOLDING CORPORATION

DBA I-BANKERS SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2009

D. CONCENTRATION OF CREDIT RISKS (Cont'd)

The Company regularly has amounts on deposit with a financial institution located in north Texas that exceed insurance limits. The Company has not experienced any losses related to these deposits. At December 31, 2009, there was approximately \$295,000 on deposit at the Texas financial institution in excess of insured amounts.

E. NET CAPITAL REQUIREMENTS:

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2009, the Company had net capital of \$1,432,040, which was \$1,332,040 in excess of its required net capital of \$100,000. The Company's net capital ratio was .51 to 1.

F. MAJOR SOURCES OF REVENUES:

For the year ended December 2009, approximately 95% of revenues were from sources located in Europe.

G. LEASING ARRANGEMENTS:

For the year ended December 31, 2009, rental payments on operating leases for office facilities totaled \$58,834. At December 31, 2009, the Company had no lease commitments extending beyond one year.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

STRUCTURE REQUIRED BY SEC RULE 17a-5

**BOARD OF DIRECTORS
IBS HOLDING CORPORATION
SANTA MONICA, CALIFORNIA**

In planning and performing our audit of the financial statements and supplemental schedules of **IBS HOLDING CORPORATION, DBA I-BANKERS SECURITIES, INC.** for the year ended December 31, 2009, we considered its internal control, including control procedures for safe-guarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we had made a study of the practice and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.
3. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customer as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
STRUCTURE REQUIRED BY SEC RULE 17a-5**

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2009, to meet the Commission's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority (FINRA), the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers and is not intended to be used by anyone other than these specific parties.
