Where Ideas Meet Implementation

REPORT OF INDEPENDENT AUDITOR

To the Member of
Alderman & Company Capital, LLC

We have audited the accompanying statements of financial condition of Alderman & Company Capital, LLC as of December 31, 2009 and 2008 and the related statements of income and changes in member's equity and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities and Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Alderman & Company Capital, LLC as of December 31, 2009 and 2008, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I and II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rules 15(c)3-1 and 17a-5(d)(4) under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(See Report of Independent Auditor)

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Alderman & Company Capital, LLC (the “Company”) is a registered broker-dealer with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority, Inc. (FINRA). The Company provides investment banking expertise to issuers in the aerospace and defense industries. The Company received its FINRA approval for membership on January 27, 2006. The Company’s sole member is William H. Alderman. The Company is exempt from Rule 15c3-3 of the SEC under paragraph (k)(2)(i) of that rule.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The Company maintains its books and records on the accrual basis of accounting for financial reporting purposes, which is in accordance with U.S. generally accepted accounting principles and is required by the SEC and FINRA.

Cash and equivalents – For the purposes of the statement of cash flows, the Company considers cash in banks and all highly liquid debt instruments with maturity of three months or less to be cash equivalents. The Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash.

Revenue recognition – Revenues from investment banking services are recognized when the transaction closes. Non-refundable retainers are recognized as revenue in accordance with the terms of the contract and are applied against transaction fees upon closing.

Use of accounting estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to the estimated amounts are recognized in the year in which such adjustments are determined.

Accounts receivable - Accounts receivable are carried at cost. No allowance for uncollectable accounts is required at December 31, 2009.

Property and equipment - Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Asset lives are three years.

Advertising – The Company policy is to expense advertising as incurred.

Income taxes – The Company is a limited liability company treated as a disregarded entity. Accordingly, in lieu of Federal and state income taxes, the member is taxed on their proportionate share of the Company’s taxable income. Therefore, no provision or liability for Federal or state taxes has been included in these financial statements. Management does not believe it has any uncertain tax positions.

NOTE 3 – RELATED PARTY TRANSACTIONS

During 2008, the Company engaged the services of an attorney who is related to the Company’s owner. The Company incurred \$3,608 in fees paid to this attorney. There were no such payments for the year ended 2009.

Alderman & Company Capital, LLC
Notes to Financial Statements
December 31, 2009
(See Report of Independent Auditor)

NOTE 4 – PENSION PLAN TERMINATION

In January 1, 2007, the Company adopted a defined benefit pension plan for the benefit of the employees. In the initial year of adoption of a pension plan the Company has a statutory opt out provision that allows it not to fund the plan and to effectively terminate it without regulatory approval. In September 2008, the Company elected not to fund the plan and effectively terminate the plan. The accrued pension cost, net of other comprehensive income of \$84,152 was reversed and included directly in current year's member's equity.

NOTE 5 – CONCENTRATIONS

The Company has several contracts with clients that generate more than 10% of total annual revenues.

The Company operates in the aerospace and defense industry.

NOTE 6 – NET CAPITAL REQUIREMENT

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital; ratio would exceed 10 to 1. At December 31, 2009, the Company had net capital of \$15,751, which was \$10,751 in excess of its required net capital of \$5,000. The Company's ratio of indebtedness to net capital was 117 to 1.

NOTE 7 – SUBSEQUENT EVENTS

In accordance with FASB Accounting Standards Codification 855, Subsequent Events, the Company has evaluated subsequent events to the statement of financial position date of December 31, 2009 through February 10, 2010, which is the date the financial statements were issued. Management has determined that there are no subsequent events that require disclosure.

Alderman & Company Capital, LLC

Where Ideas Meet Implementation

To the Member of
Alderman & Company Capital, LLC

In planning and performing our audit of the financial statements of Alderman & Company Capital, LLC (the Company), as of and for the year ended December 31, 2009 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from

unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
