## Independent Auditor's Report

To the Stockholder  
Liberum Capital Inc.

We have audited the accompanying statement of financial condition of Liberum Capital Inc. (a wholly owned subsidiary of Liberum Capital Limited) as of December 31, 2009 and the related statement of operations, changes in stockholder's equity, and cash flow for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provided a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Liberum Capital Inc. at December 31, 2009, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by Rule 17a-5 of the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2009**

***Note 1 - Organization and Nature of Operations***

Liberum Capital Inc. (the "Company"), a New York corporation organized in February 2008, is a wholly owned subsidiary of Liberum Capital Limited (the "Parent"). The Company is a registered broker-dealer with the Securities and Exchange Commission ("SEC") and a member of the Financial Industry Regulatory Authority ("FINRA"), which it received its FINRA approval for membership on January 23, 2009. The Company engages in a general securities business with institutional investors.

***Note 2 - Summary of Significant Accounting Policies***

***Revenue Recognition and Commissions Receivable*** - Commissions and related clearing expenses are recorded on a trade date basis as security transactions occur.

Commissions are also earned on research that is provided by the Parent Company, which the Company presents to its customers.

***Clearing Transactions*** - The Company transmits all transactions through a clearing broker who maintains the customers' accounts.

***Property and Equipment*** - Property and equipment are carried at cost. When assets are sold or retired, the cost and related accumulated depreciation are eliminated from the accounts, and any resulting gain or loss is reflected in income for the period. The cost of maintenance and repairs is charged to expense as incurred.

Depreciation is computed on the straight-line basis over the assets' useful lives.

***Advertising*** - The Company expenses the cost of advertising and promotions as incurred.

***Income Taxes and Deferred Taxes*** - The Company has elected to be taxed as a C-corporation pursuant to the Internal Revenue Code and applicable state laws.

The Company accounts for income taxes under generally accepted accounting principles. As such, the Company's provision for income taxes is based on the asset and liability method of accounting whereby deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

*Note 2 - Summary of Significant Accounting Policies (continued)*

**Foreign Currency Translation** - Assets and liabilities that are translated use exchange rates in effect at the balance sheet date and revenues and expenses that have occurred throughout the current fiscal year are converted at a weighted-average rate of exchange for the entire year. Resulting translation adjustments are recorded directly in accumulated other comprehensive income which is a separate component of stockholder's equity.

**Use of Estimates** - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Note 3 - Property and Equipment*

**INFORMATION RELATING TO POSSESSION OR CONTROL REQUIREMENTS UNDER  
RULE 15C3-3 OF THE SECURITIES AND EXCHANGE COMMISSION  
DECEMBER 31, 2009**

The Company is exempt from the requirements

**Independent Auditor's Supplementary Report on  
Internal Control Required by SEC Rule 17a-5**

To the Stockholder  
Liberum Capital Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Liberum Capital Inc. (a wholly owned subsidiary of Liberum Capital Limited) as of and for the year ended December 31, 2009 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC) we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons and recordation of difference required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projections of any evaluation of them to future periods are subject to the risk that may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2009, to meet the SEC's objectives.
