INDEPENDENT AUDITORS REPORT

To The Board of Director and Stockholder of
Mid Florida Equities, Inc.

We have audited the accompanying statement of financial condition of Mid Florida Equities, Inc. as of December 31, 2009 and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion of these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit, the financial statement referred to above presents fairly, in all material respects, the Financial Condition of the Company as of December 31, 2009, and the results of its operations and its cash flows for the year ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules 1,2 and 3 is presented for purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and , in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Board of Directors
Mid Florida Equities, Inc.

In planning and performing our of audit the financial statements of Mid Florida Equities, Inc. (the "Company") for the year ended December 31, 2009 we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We also make a study of the practices and procedures followed by the Company in marketing the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rule 15c-3. We did not review the practices and procedures followed by the Company in marketing the quarterly securities examinations counts verifications and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payments for securities under section 8 of regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers of perform custodial functions relating to customer securities.

The management of the company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related cost of internal control structure policies and procedures and of the practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of internal control structure and the practices and provide management and reasonable, but not absolute, assurance that asset for which the Company has responsibility are safeguarded against loss from unauthorized use of disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles.

Because of inherent limitations in any internal control structure of the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subjects to the risk that they become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standard established by the American Institute of Certified Public Accountants. A material weaknesses is a conditions in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors of irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance 3 with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate al December 31, 2009.

This report intended solely for the use of management, the Securities and Exchange Commission and the Financial Industry Regulatory Authority, and other regulatory agencies which rely on Rule 17a-5 under the Securities Exchange Act of 1934 and should not be used for any other purposes.
