INDEPENDENT AUDITORS' REPORT

To the Members' of
NewOak Capital Markets LLC
(f/k/a J. Giordano Securities LLC)

We have audited the accompanying statement of financial condition of NewOak Capital Markets LLC (f/k/a J. Giordano Securities LLC) (the "Company") as of December 31, 2009. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of NewOak Capital Markets LLC (f/k/a J. Giordano Securities LLC) as of December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

NEWOAK CAPITAL MARKETS LLC (f/k/a J. GIORDANO SECURITIES LLC)

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies

Nature of Business

NewOak Capital Markets LLC (f/k/a J. Giordano Securities LLC) (the "Company") is a limited liability corporation organized under the laws of the state of Delaware on December 30, 1999. The Company is a registered broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company's operations primarily engage in principal transactions and providing investment advisory services.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

These financial statements were approved by management and available for issuance on February 22, 2010. Subsequent events have been evaluated through this date.

Accounts receivable

The Company carries its accounts receivable and when applicable, establishes an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit conditions. There was no allowance at December 31, 2009.

Securities Owned

Securities owned are valued at market and unrealized gains and losses are reflected in the statement of operations. Other securities traded in the over-the-counter markets and listed securities for which no sale was reported on that date are valued at their last reported "bid" price if held long, and last reported "asked" price if sold short.

Fair Value - Definition and Hierarchy

In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

NEWOAK CAPITAL MARKETS LLC (f/k/a J. GIORDANO SECURITIES LLC)

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies (continued)

Fair Value - Definition and Hierarchy (continued)

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including, the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls, is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Revenue and Expense Recognition from Securities Transactions

Securities transactions and the related revenues and expenses are recorded on the trade-date basis and unrealized gains and losses are reflected in revenues.

Investment Advisory Income

Investment advisory fees are recorded in accordance with the terms of the respective engagement letters and in some instances are received quarterly but recognized as earned on a pro rata basis over the term of the contract.

NEWOAK CAPITAL MARKETS LLC (f/k/a J. GIORDANO SECURITIES LLC)

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies (continued)

Income Taxes

The Company is a limited liability company and, therefore, does not record a provision for federal and state income taxes. The Company is subject to New York City unincorporated business tax ("UBT").

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax asset and liabilities are computed for difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

In accordance with GAAP, the Company is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Company files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. state and local jurisdictions. Generally the Company is no longer subject to income tax examinations by major taxing authorities for years before 2006. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Company recording a tax liability that reduces net assets. This policy has been applied to all existing tax positions upon the Company's initial adoption for the period ended December 31, 2009. Based on its analysis, the Company has determined that the adoption of this policy did not have a material impact on the Company's financial statements upon adoption. However, the Company's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof. The Company recognizes interest accrued related to unrecognized tax benefits and penalties related to unrecognized tax benefits in income tax fees payable, if assessed. No interest expense or penalties have been recognized as of and for the period ended December 31, 2009.

At December 31, 2009, the Company has New York City net operating loss carryforwards ("NOLs") of approximately \$486,000 which expire in 2024. The deferred tax asset from the Company's NOLs is approximately \$19,000. A valuation allowance for the full amount of the deferred tax asset has been established.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

2. Fair value measurements

The Company's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy as described in the Company's significant accounting policies in Note 1.

**NEWOAK CAPITAL MARKETS LLC
(f/k/a J. GIORDANO SECURITIES LLC)**

NOTES TO FINANCIAL STATEMENTS

2. Fair value measurements (continued)

The following table presents information about the Company's assets and liabilities measured at fair value as of December 31, 2009:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2009
Assets				
Securities owned,				
preferred stock	\$ 3,200	\$ -	\$ -	\$ 3,200

3. Net capital requirement

The Company, as a member of FINRA, is subject to the SEC Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2009, the Company's net capital was approximately \$477,000, which was approximately \$377,000 in excess of its minimum requirement of \$100,000.

4. Off-balance sheet risk

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to a clearing broker on a fully-disclosed basis. All of the customers' money balances and long and short security positions are carried on the books of the clearing broker. In accordance with the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing brokers may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the customers' accounts.

In addition, the receivables from the clearing broker are pursuant to this clearance agreement and include a clearing deposit of \$500,000 held at the clearing broker.

5. Change in ownership

On July 7, 2009 NewOak Securities Holdings LLC ("NOSH") entered into a Membership Interest Purchase and Redemption Agreement ("the Agreement"), with the sole member of J. Giordano Securities LLC. NOSH acquired 24% of the equity of the Company. The remaining 76% will be acquired upon the approval by FINRA of the change in ownership.

NEWOAK CAPITAL MARKETS LLC (f/k/a J. GIORDANO SECURITIES LLC)

NOTES TO FINANCIAL STATEMENTS

6. Commitments and contingencies

Employment Agreement

In connection with the Agreement, the Company signed an employment agreement with an officer that calls for monthly compensation of \$2,000. For all placement agent agreements and investment advisory agreements that were in place before the change in ownership (discussed in Note 5), the Company will pay the employee 100% of all fees generated less out-of-pocket expenses. For any engagements entered into after the closing, for which the employee is responsible, the Company will pay 90% of the fees generated less out-of-pocket expenses.

Litigation

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. In the opinion of management, after consultation with legal counsel, the amount of any ultimate liability with respect to these actions will not materially affect the Company's financial statements or results of operations.

7. Concentrations of credit risk

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

The Company maintains its cash balances in various financial institutions. These balances are insured by the Federal Deposit Insurance Corporation up to \$250,000 per institution.

During the year ended December 31, 2009, approximately 41% of the Company's revenues were from one customer. Amounts due from this customer of \$38,567 as of December 31, 2009 are included in accounts receivable on the accompanying statement of financial condition.

8. Exemption from Rule 15c3-3

The Company is exempt from the SEC Rule 15c3-3 pursuant to the exemptive provisions of sub-paragraph (k)(2)(ii) as it clears all customer transactions through another broker-dealer on a fully disclosed basis.

9. Related party transactions

Pursuant to a lease agreement, the Company paid rent for office space to a company controlled by the majority member. Rent expense under this agreement for the year ended December 31, 2009 was approximately \$87,000. This space was abandoned during 2009 when the operations moved to New York City.

The Company has an expense sharing agreement in place with NewOak Holdings LLC, a member of the company, whereby a monthly fee of \$3,160 is paid to NewOak Holdings LLC for expenses such as rent and administrative expenses. Due from member is approximately \$3,400 at December 31, 2009.
