**Note 1 - Organization and Nature of Operations**

Cadaret, Grant & Co., Inc. (the Company) is a registered broker/dealer with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority. The Company is a wholly-owned subsidiary of a financial services holding company. The Company's principal offices are located in Syracuse, New York and Mount Arlington, New Jersey. The Company has registered representatives located throughout the United States. Major sources of revenues are commissions from sales of mutual funds and insurance products and investment advisory fees. Other sources of revenues are commissions from sales of corporate stocks, municipal bonds and other securities.

**Note 2 - Significant Accounting Policies**

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

**Cash Equivalents**

Cash equivalents consist of highly liquid investments with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

**Securities Transactions**

Proprietary securities transactions are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers' securities transactions are reported on a settlement date basis with related commission revenues and expenses reported on a trade date basis.

**Commissions and Other Receivables**

Commissions and other receivables are stated at outstanding balances. The Company considers accounts receivable to be fully collectible. If collection becomes doubtful, an allowance for doubtful accounts will be established, or the accounts will be charged to income when that determination is made by management. Unpaid balances remaining after the stated payment terms are considered past due. Recoveries of previously charged off accounts are recorded when received.

**Investment Advisory Fees**

Investment advisory fees are computed and recorded quarterly using the fair value of investments in customer's accounts at the end of each calendar quarter multiplied by each account's contractual rate.

**Note 2 - Significant Accounting Policies (Continued)**

**Fixed Assets**

Fixed assets are stated at cost and are depreciated based on their estimated useful lives using accelerated methods. Useful lives range from 3 to 7 years.

**Income Taxes**

The Company files a consolidated federal income tax return with its parent. Consolidated federal income tax expense is allocated between the group members on a separate return basis. State income tax returns are filed on a separate return basis. Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred income taxes related primarily to temporary differences between the financial reporting and income tax basis of investment securities, fixed assets and certain accrued expenses. The deferred tax assets and liabilities represent the future tax return consequences of the temporary differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets and liabilities are reflected at income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. Deferred tax liabilities, net are included in accrued expenses.

**New Accounting Pronouncements**

In June 2009, the Financial Accounting Standards Board (FASB) established the FASB Accounting Standards Codification (Codification) as the sole source of authoritative accounting principles generally accepted in the United States of America. As a result, all references to accounting literature will conform to the appropriate reference within the Codification. The adoption of the Codification, which became effective during September 2009, did not have any impact on the Company's financial statements

The Company adopted FASB guidance on subsequent events as of December 31, 2009. This guidance establishes general standards of accounting for and disclosure of events that occur after the statement of financial condition date but before financial statements are issued or are available to be issued. The adoption did not have any effect on the Company's financial statement. The Company evaluated subsequent events for recognition or disclosure through February 25, 2010, the date the financial statement was available to be issued.

The Company adopted FASB guidance on accounting for uncertainty in income taxes effective January 1, 2009. A tax position is recognized as a benefit at the largest amount that is more-likely-than not to be sustained in a tax examination based solely on its merits. An uncertain tax position will not be recognized if it has less than a 50% likelihood of being sustained. Under the threshold guidelines, the Company believes no significant uncertain tax positions exist, either individually or in the aggregate, that would result in recognition of a liability as of January 1, 2009 and December 31, 2009.

**Note 3 - Concentrations of Credit Risk**

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealer and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash accounts in financial institutions which periodically exceed federally insured limits. At December 31, 2009, the amount of cash accounts exceeding federally insured limits was approximately \$5,500,000.

**Note 4 - Cash and Securities Segregated Under Federal and Other Regulations**

At December 31, 2009, cash of \$2,714,352 has been segregated in special reserve bank accounts for the benefit of customers under Rule 15c3-3 of the Securities and Exchange Commission.

**Note 5 - Deposit with Clearing Broker**

The Company clears certain of its proprietary and customer transactions through another broker-dealer on a fully disclosed basis. The deposit is required by the Company's clearing broker to secure amounts receivable from the Company and bears interest at current market rates.

**Note 6 - Investment Securities**

Investment securities consist of equity positions in corporate stocks recorded at fair value through earnings.

**Note 7 - Fixed Assets**

Fixed assets at December 31, 2009 consist of the following:

Leasehold improvements	\$ 325,904
Furniture and fixtures	118,084
Equipment	3,390,853
Automobiles	<u>150,932</u>
	3,985,773
Accumulated depreciation	<u>(2,818,017)</u>
	<u>\$1,167,756</u>

# ***Cadaret, Grant & Co., Inc.***

## **Notes to Statement of Financial Condition**

December 31, 2009

### **Note 8 - Net Capital Requirements**

Pursuant to the Uniform Net Capital Rule (rule 15c3-1) of the Securities and Exchange Commission, the Company is required to maintain minimum net capital, as defined. Further, the rule requires that the ratio of aggregate indebtedness, as defined, to net capital shall not exceed 15 to 1.

At December 31, 2009, the Company had net capital of \$5,979,602, which was \$5,487,390 in excess of its required net capital of \$492,212. The Company's net capital ratio was 1.23 to 1.

### **Note 9 - Profit Sharing Plan**

The Company has a qualified profit sharing retirement plan with a 401(k) deferred compensation provision covering all eligible employees. The Company may make matching and/or discretionary contributions to the plan which are determined annually by management.

### **Note 10 - Income Taxes**

Deferred tax assets and liabilities at December 31, 2009 are as follows:

Deferred tax assets	\$ 36,000
Deferred tax liabilities	<u>(191,000)</u>
<b>Net Deferred Tax Liabilities</b>	<b><u><u>\$(155,000)</u></u></b>

The Company is subject to federal income tax and state income tax in various states. At December 31, 2009, the Company is no longer subject to examination by federal and state taxing authorities for years before 2006.

### **Note 11 - Commitments**

The Company has entered into operating leases for its office facilities. At December 31, 2009, future minimum rental commitments under operating leases are as follows:

2010	\$ 629,974
2011	637,161
2012	645,780
2013	640,725
2014	659,044
Thereafter	<u>1,869,716</u>
	<b><u><u>\$5,082,400</u></u></b>

**Note 12 – Fair Value Measurements**

A fair value hierarchy that prioritizes the inputs to valuation methods is used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

*Level 1:* Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

*Level 2:* Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.

*Level 3:* Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).

An asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

For assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at December 31, 2009 is as follows:

<u>Description</u>	<u>December 31, 2009</u>	<u>(Level 1) Quoted Prices in Active Markets for Identical Assets</u>	<u>(Level 2) Significant Other Observable Inputs</u>	<u>(Level 3) Significant Unobservable Inputs</u>
