Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class

Name of Each Exchange on Which Registered

Common Stock, \$0.001 par value

The NASDAQ Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirement for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part IV of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting common stock held by non-affiliates of the registrant as of June 30, 2010 (the last business day of the registrant's most recently completed second fiscal quarter) was approximately \$40.1 million (computed by reference to the last reported sale price on The Nasdaq National Market on that date). The registrant does not have any non-voting common stock outstanding.

As of February 22, 2011, there were 22,678,485 shares of Common Stock of the Registrant outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive proxy statement for the 2011 Annual Meeting of Stockholders, to be filed not later than April 30, 2011, are incorporated by reference into Items 10, 11, 12, 13 and 14 of Part III of this Form 10-K.

FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, without limitation, statements regarding future financial results and performance, potential sales revenue, legal contingencies and tax benefits, and the existence of adverse litigation and other risks, uncertainties and factors set forth under Item 1A., entitled “Risk Factors”, of this Annual Report on Form 10-K and in our reports and documents filed with the Securities and Exchange Commission (“SEC”). You can identify these forward-looking statements by the use of words such as “outlook”, “believes”, “expects”, “potential”, “continues”, “may”, “will”, “should”, “seeks”, “approximately”, “predicts”, “intends”, “plans”, “estimates”, “anticipates” or the negative version of these words or other comparable words. These statements are subject to various risks, and uncertainties, many of which are outside our control, including the level of market demand for our services, competitive pressure, the ability to achieve reductions in operating costs and to continue to integrate club acquisitions, environmental initiatives, the application of Federal and state tax laws and regulations, and other specific factors discussed herein and in other SEC filings by us. We believe that all forward-looking statements are based on reasonable assumptions when made; however, we caution that it is impossible to predict actual results or outcomes or the effects of risks, uncertainties or other factors on anticipated results or outcomes and that, accordingly, one should not place undue reliance on these statements. Forward-looking statements speak only as of the date they were made, and we undertake no obligation to update these statements in light of subsequent events or developments. Actual results may differ materially from anticipated results or outcomes discussed in any forward-looking statement.

PART I

Item 1. *Business*

In this Annual Report, unless otherwise stated or the context otherwise indicates, references to “TSI Holdings”, “Town Sports”, “TSP”, “the Company”, “we”, “our” and similar references refer to Town Sports International Holdings, Inc. and its subsidiaries and references to “TSI, LLC” refer to Town Sports International, LLC, our wholly-owned operating subsidiary.

General

We are the largest owner and operator of fitness clubs in the Northeast and Mid-Atlantic regions of the United States and the fourth largest fitness club owner and operator in the United States, in each case based on the number of clubs. As of December 31, 2010, the Company, through its subsidiaries, operated 160 fitness clubs under our four key regional brand names; “New York Sports Clubs” (NYSC), “Boston Sports Clubs” (BSC), “Philadelphia Sports Clubs” (PSC) and “Washington Sports Clubs” (WSC). These clubs collectively served approximately 493,000 members, including 17,000 members under our new student membership as of December 31, 2010. We owned and operated a total of 108 clubs under the “New York Sports Clubs” brand name within a 120-mile radius of New York City as of December 31, 2010, including 38 locations in Manhattan where we are the largest fitness club owner and operator (more than twice as many as our nearest competitor). We owned and operated 25 clubs in the Boston region under our “Boston Sports Clubs” brand name, 18 clubs (two of which are partly-owned) in the Washington, D.C. region under our “Washington Sports Clubs” brand name and six clubs in the Philadelphia region under our “Philadelphia Sports Clubs” brand name as of December 31, 2010. In addition, we owned and operated three clubs in Switzerland as of December 31, 2010. We employ localized brand names for our clubs to create an image and atmosphere consistent with the local community and to foster recognition as a local network of quality fitness clubs rather than a national chain.

We have developed and refined our fitness club model through our clustering strategy, offering fitness clubs close to our members’ workplaces and homes. We target all individuals within each of our regions who aspire to a healthy lifestyle. We believe that the majority of our members have household income levels between \$50,000 and \$150,000. We believe this is not only the broadest sector of the market, but also provides the greatest growth opportunities. Our goal is to be the most recognized health club network in each of the four major metropolitan regions we serve. We believe that our strategy of clustering clubs provides significant benefits to our members and allows us to achieve strategic operating advantages. In each of our markets, we have developed clusters by initially

opening or acquiring clubs located in the more central urban markets of the region and then expanding our market coverage from these urban centers to suburbs and neighboring communities.

We currently offer two principal types of memberships in our clubs: "Passport" and "Core". There are two types of Passport memberships. The first type allows access to all clubs in all four regions at any time. The second type, the Regional Passport membership, is available in all regions other than the NYSC region and allows a member access to all of our clubs within a single region. We had 215,000 Passport members as of December 31, 2010. The Core membership, consisting of 15,000 members as of December 31, 2010, allows unlimited access to a designated home club. Core members may pay a per visit fee of \$7.50 to use non-home clubs at any hour. Members can elect to commit to a predetermined minimum contract period of one year in order to benefit from reduced dues and joining fees. Alternatively, our memberships are available on a month-to-month basis. Prior to November 1, 2010, we also offered a Gold membership which allows unlimited access to a designated or "home" club at all times and access to all of our other clubs during off-peak hours. Members who held a Gold membership as of November 1, 2010 are permitted to continue in this membership category. Gold members may pay a per visit fee of \$7.50 to use non-home clubs during peak hours. We had 246,000 Gold members as of December 31, 2010.

As part of our efforts to drive member sales, in April 2010, we began offering a new, favorably-priced, restricted-use membership available to students only. In prior years, we offered a three-month summer membership targeted at students generally priced at \$199.00 for the entire summer. The new membership is a month-to-month membership with dues of \$20.00 per month and \$119.00 for joining fees at the time of enrollment. As of December 31, 2010, we had approximately 17,000 student members.

Over our 37-year history, we have developed and refined our club formats, which allows us to cost-effectively construct and efficiently operate our fitness clubs in the different real estate environments in which we operate. Our fitness-only clubs average approximately 20,000 square feet, while our multi-recreational clubs average 40,000 square feet. The aggregate average size of our clubs is approximately 26,000 square feet. Our clubs typically have an open fitness area to accommodate cardiovascular and strength-training equipment, as well as special purpose rooms for group fitness classes and other exercise programs. We seek to provide a broad array of high-quality exercise programs and equipment that are popular and effective, promoting the quality exercise experience for our members. When developing clubs, we carefully examine the potential membership base and the likely demand for supplemental offerings such as swimming, basketball, children's programs, tennis or squash and, provided suitable real estate is available, we will add one or more of these offerings to our fitness-only format. For example, a multi-recreational club in a family market may include Sports Clubs for Kids programs, which can include swim lessons and sports camps for children.

The U.S. and global economic recession in 2009 and the continuing challenging economic environment in 2010 resulted in significant pressures and declines in consumer confidence and economic growth and high levels of unemployment. These economic conditions have led to reduced consumer spending and have contributed to an increase in member cancellations, a decrease in new memberships and reductions in revenue from ancillary services and marketing. While further signs of economic recovery are appearing, negative economic conditions could continue to adversely affect our business and results of operations.

Industry Overview

Total United States fitness club industry revenues increased at a compound annual growth rate of 5.9% from \$11.6 billion in 2000 to \$19.5 billion in 2009, according to the most recent information released by the International Health, Racquet and Sportsclub Association ("IHRSA"). Total U.S. fitness club memberships increased at a compound annual growth rate of 3.7% from 32.8 million in 2000 to 45.3 million in 2009, and total number of fitness clubs increased at a compound annual growth rate of 6.4% from 16,983 in 2000 to 29,750 in 2009, according to IHRSA.

In 2009, health club members visited clubs at an all-time high of 102 days on average, with approximately 42% visiting their clubs at least 100 times during the year, according to IHRSA. From 2008 to 2009, the number of people attending a club at least six times per year decreased 2.5%; however, in the last ten years the number has increased nearly 60% from 24.1 million to 38.3 million.

Obesity continues to be a growing problem in the United States, including the continued prevalence of childhood obesity. Consumers under age 18 increased in 2009 to 10% of total fitness club membership. The Center

for Disease Control and Prevention found that 68% of U.S. adults were considered overweight or obese in 2007-2008, an increase from 64.5% in 1999-2000. As healthcare costs rise in the United States, some of the focus in combating obesity and other diseases is being directed at prevention. Both government and medical research has shown that exercise and other physical activity plays a critical role in preventing obesity and other health conditions, thereby reducing healthcare costs.

Demographic trends have helped drive the growth experienced by the fitness industry over the past decade. The industry has benefited from the aging “baby boomer” and “Eisenhower” generations as they place greater emphasis on their health, including a focus on fitness. Members over the age of 55 increased from 8.0 million in 2005 to 10.3 million in 2009.

As the focus on exercise and overall healthy lifestyles continue to impact the health club industry, we believe that we are well positioned to benefit from these dynamics as a large operator with recognized brand names, leading regional market shares and an established operating history.

Competitive Strengths

We believe the following competitive strengths are instrumental to our success:

Strong market position with leading brands. Based on number of clubs, we are the fourth largest fitness club owner and operator in the United States and the largest fitness club owner and operator in the Northeast and Mid-Atlantic regions of the United States. We are the largest fitness club owner and operator in the New York, Boston and Washington, D.C. regions, and the fifth largest owner and operator in the Philadelphia region. We attribute our positions in these markets in part to the strength of our localized owner and operator brand names, which foster recognition as a local network of quality fitness clubs.

Regional clustering strategy provides significant benefits to members and corporations. By operating a network of clubs in a concentrated geographic area, the value of our memberships is enhanced by our ability to offer members access to any of our clubs, which provides the convenience of having fitness clubs near a member’s workplace and home. This is also a benefit to our corporate members, as many corporations have employees that will take advantage of multiple gym locations. Approximately 215,000 of our members have a Passport Membership and because these memberships offer enhanced privileges and greater convenience, they generate higher monthly dues than Core or Gold Memberships in each respective region. Regional clustering also allows us to provide special facilities to all of our members within a local area, such as swimming pools and squash, tennis and basketball courts, without offering them at every location. In the year ended December 31, 2010, 37% of all club usage was by members visiting clubs other than their home clubs.

Regional clustering strategy designed to enhance revenues and achieve economies of scale. We believe our regional clustering strategy allows us to enhance revenue and earnings growth by providing high-quality, conveniently located fitness facilities on a cost-effective basis. Regional clustering is attractive to corporations seeking to promote a healthy lifestyle by providing discounted group memberships to their employees. We also partner with many groups that serve our communities, including the New York City Police and Fire Departments in our New York Sports Clubs region, the Southeastern Pennsylvania Transportation Authority (SEPTA) in our Philadelphia Sports Clubs region, and the District of Columbia Government, including all city agencies, in our Washington Sports Clubs region. We believe that potential new entrants would need to establish or acquire a large number of clubs in a market to compete effectively with us. Our clustering strategy also enables us to achieve economies of scale with regard to sales, marketing, purchasing, general operations and corporate administrative expenses and reduces our capital spending needs. Regional clustering also provides the opportunity for members who relocate within a region to remain members of our clubs, thus aiding in member retention.

Expertise in site selection and development process. We believe that our expertise in site selection and development provides an advantage over our competitors given the complex real estate markets in the metropolitan areas in which we operate and the relative scarcity of suitable sites. Before opening or acquiring a new club, we undertake a rigorous process involving demographic and competitive analysis, financial modeling, site selection and negotiation of lease and acquisition terms to ensure that a potential location meets our criteria for a model club. We believe our flexible club formats are well suited to the challenging real estate environments in our markets.

Business Strategy

In the long-term, we seek to maximize our net member growth, revenues, earnings and cash flows using the following strategies:

Retain members by focusing on the member experience. Our company's mission is "Improving Lives Through Exercise." We enact our mission through our "Engage and Inspire" operational excellence platform which is designed to inspire members to embrace regular exercise and achieve their fitness goals by securing their loyalty through customer service and providing state-of-the-art facilities, programs and services. We tailor the hours of each club to the needs of the specific member demographic utilizing each club; offer a variety of ancillary services, including personal training, group classes, small group training, Sports Clubs for Kids programs, and the XpressLine program (a high-intensity, efficient workout program). We offer a variety of different sports facilities in each regional cluster of clubs; offer modern, varied and well-maintained exercise and fitness equipment; and offer an assortment of additional amenities including access to babysitting, sports massage and pro-shops. Through hiring, developing and training a qualified and diverse team that is passionate about fitness and health; maintaining and enhancing our programs and services; and continually increasing our attention to individual member needs, we expect to demonstrate our commitment to increase the quality of the member experience, and thereby increase net membership.

To further ensure the member experience remains at a high quality, we provide member surveys to help analyze the areas we can improve upon as well as the areas in which the members are satisfied overall. We also utilize a mystery shopping program that studies each club in areas such as cleanliness and customer service. The scores from this program are used to measure management rewards and bonus payments for certain club employees.

Drive comparable club revenue and profitability growth by implementing our business strategy. Our near-term financial performance will depend largely on the growth of revenue at clubs that we have operated for more than 12 months. We define comparable club revenue as revenue at those clubs that were operated by us for over 12 months and comparable club revenue growth as revenue for the 13th month and thereafter as compared to the same period in the prior year. Historically, comparable club revenue growth has been a contributing factor in our revenue growth, with comparable club revenue growth for each of the three years from 2006 to 2008, ranging between 2.2% to 7.9%. For the years ended December 31, 2010 and December 31, 2009, however, our comparable club revenue declined 4.3% and 5.6%, respectively. Although comparable club revenue continued to decline throughout the year ended December 31, 2010 compared with the prior year, we began to see signs of recovery. In 2009, in part as a result of the state of the economy and the impact on consumer spending, we experienced higher member attrition and, therefore, a lower member base for most reporting periods in the year ended December 31, 2010. The lower beginning member counts in 2010 resulted in decreased revenue recognized throughout the year. In the fourth quarter of 2010, we experienced a comparable club revenue decrease of 1.7% compared to a decrease of 7.1% in the fourth quarter of 2009. In 2011, we expect modest improvement and to have slight comparable club revenue increases in the second half of the year when compared to the same periods in 2010.

Provide state-of-the-art fitness equipment and services. To help members develop and maintain a healthy lifestyle, train for athletic events or lose weight, each of our clubs has a large array of cardiovascular machines and resistance training equipment and free weights. Exercise equipment is positioned to allow for easy movement from machine to machine, facilitating a convenient and efficient workout. Equipment in these areas is arranged in long parallel rows that are clearly labeled by muscle group, which allows members to conveniently customize their exercise programs and reduce downtime during their workouts. We have technicians who service and maintain our equipment on a timely basis. In addition, we have personal viewing television screens on most pieces of cardiovascular equipment. Most clubs have between one and three studios used for exercise classes, including at least one large studio used for most group exercise classes, a cycling studio and a mind and body studio used for yoga and Pilates classes. We offer a large variety of group fitness classes at each club and these classes generally are at no additional cost to our members. The volume and variety of activities at each club allow each member to enjoy the club, whether customizing their own workout or participating in group activities and classes.

Grow ancillary and other non-membership revenues. We intend to grow our ancillary and other non-membership revenues through a continued focus on increasing the additional value-added services that we provide to our members as well as capitalizing on the opportunities for other non-membership revenues such as in-club advertising and retail sales. Non-membership revenues have increased from \$77.3 million, or 17.9% of revenues for

the year ended December 31, 2006, to \$92.0 million, or 19.9% of revenues for the year ended December 31, 2010. We intend to continue to enhance and expand the current range of programs and quality of value-added services that we offer to our members, such as personal and small group training. These sources of ancillary and other non-membership revenues generate incremental profits with minimal capital investment and assist in attracting and retaining members.

Realize benefits from maturation of recently opened clubs. From January 1, 2009 to December 31, 2010, we opened four clubs. Based on our experience, a new club tends to achieve significant increases in revenues during its first three years of operation as the number of members grows. Because there is relatively little incremental cost associated with such increasing revenues, there is a greater proportionate increase in profitability. We believe that the revenues and profitability of this group of four clubs will improve as the clubs reach maturity.

Marketing

Our marketing campaign, which we believe has increased awareness of our brand names, is directed by our marketing department, which directly reports to the Chief Executive Officer. This team develops advertising strategies to convey each of our regionally branded networks as the premier network of fitness clubs in its region. Our marketing team's goal is to focus on growing our membership base and achieving broad awareness of our regional brand names and be "top of mind". We are organized to enable close collaboration between our marketing, sales, fitness and operations staff, which helps to align efforts around operational objectives and new product development while ensuring a primary focus on the member experience.

Brand awareness and preference is aided by a number of factors, including visibility of multiple retail locations and associated signage across each region, our membership base of 493,000 as of December 31, 2010, which generates word-of-mouth and referrals, a 37-year operating history and continual advertising investment. All of these factors provide a strong foundation for our ongoing marketing and advertising efforts.

Our regional concentration and clustering strategy creates economies of scale in our marketing and advertising investments which increase their overall efficiency and effectiveness. Clustering enables broader reach and higher frequency for regional advertising campaigns that typically include a mix of traditional media including radio, newspapers, magazines, out-of-home (especially transit-based) and some television and geo-targeted and behaviorally targeted digital media, such as paid search, email blasts, online banners and video, as well as other emerging new media vehicles. These broader market efforts are bolstered by local marketing plans and tactics, which include direct mail, local sponsorships and co-promotions, community relations and outreach and street-level lead generation activities. Optimization of marketing mix through measurement and modeling of the effectiveness of various media investments and formats continues to be a priority.

Our advertising and marketing message is designed to build our brand while creating an approachable personality that is attractive to prospective members. In contrast to most health club advertising, we generally forego depicting images of hard bodies, facilities and gym equipment. Advertisements generally feature creative slogans that use current events to communicate the serious approach we take toward fitness in a provocative and/or humorous tone. We believe this approach is easily communicated and understood and makes our product more approachable for all consumers regardless of their health club experience.

Promotional marketing campaigns will typically feature opportunities to participate in a variety of value-added services such as personal training, small group training and youth centered sports activities. We also may offer reduced joining fees to encourage enrollment. Additionally, we frequently sponsor member referral incentive programs and other types of member appreciation, acquisition activities and internal promotions to enhance loyalty and to encourage more members to take advantage of our ancillary services.

We also engage in public relations, sponsorships and special events to promote our brand image across our network, regionally and in our local communities. We have created custom programming garnering media interest, such as the Jersey Core workout, Trivia Training and the Burlesque workout, among others. We have been featured in national broadcast television shows, such as Fox & Friends, Access Hollywood, CNN, MSNBC and the CBS Early Show; major newspapers, such as The New York Times, USA Today, Washington Post, Washington Times, Boston Globe, and The Wall Street Journal, and seen in magazines, such as: Fitness, Self, Shape, New York and People Magazines.

In addition, we participate in and sponsor events in each of our regions. We are a six-time sponsor of the JPMorgan Chase Corporate Challenge Series running event in both the New York and Boston metropolitan regions. In 2010, this popular annual event attracted nearly 40,000 participants in New York and 14,000 in Boston. Boston Sports Clubs is also a four-time sponsor of the Tufts Health Plan 10K for Women, an event that attracted 7,400 competitors in 2010. New York Sports Clubs' sponsorship of the annual TD Bank Five Boro Bike Tour helped to turn out a TSI team of 475 members and employees, all riding in logo jerseys, for the 42-mile ride along with 37,000 other cyclists.

Our association with professional sports teams also enhances our brands and their status in the communities in which we operate. Boston Sports Clubs is the official health club of the Boston Red Sox and Boston Celtics. New York Sports Clubs shares the same designation with the New York Jets Flight Crew, including programming in our clubs with appearances by the Flight Crew, as well as signage in New Meadowlands Stadium.

Our philosophy of giving back to our communities includes sponsoring company-wide and local charitable efforts. Developed in 2009 and launched in early January 2010, we partnered with the City of New York and the Fire Department of New York (FDNY) to develop and deliver easier access to cardiopulmonary resuscitation ("CPR") training. Called "CPR to Go", the graduates of this 40 minute class headed by FDNY EMS trainers, will become certified and therefore will be able to assist in providing CPR. Our club management teams and staff are also encouraged to organize and engage in charitable activities. Some recent events benefited organizations such as the Michael J. Fox Foundation for Parkinson's Research, Tower of Hope, MS Society, Family Research Foundation, American Cancer Society, the Muscular Dystrophy Association, Susan G. Komen Race for the Cure, Avon Walk for Breast Cancer, NYCares, Toys for Tots, as well as many smaller local and specific charities.

Our principal web site is www.mysportsclubs.com. In 2009, we improved the site to facilitate its navigation, functionality and usability and to enhance the member experience. In 2010, we focused on developing new template pages that would allow for more flexibility and efficiency in disseminating content. We also continued to improve upon site navigation, functionality and usability to enhance the member experience. The site provides information about club locations, program offerings, exercise class schedules and sales promotions. The web site also allows our members to give us direct feedback about our service levels and enables prospective members to sign-up for our popular 30 days for 30 dollars web trial membership launched in April 2010. This has increased traffic in the clubs and led to many of these trial members joining as full-time members. Prospective members can also initiate their full membership enrollment process through our web site. In addition, job seekers can begin the employment application process through the site and investors can access financial information and resources.

Sales

We sell our memberships primarily through three channels; at the club level; through our corporate and group sales division; and through our outbound call center. In September 2010, we introduced our outbound call center in order to reach out to former members. We are currently reviewing other opportunities to sell memberships through the call center. We also sell memberships online through our web site. We employ approximately 390 "in-club" membership consultants who are responsible for new membership sales in and around their designated club locations. Each club generally has either two or three consultants. These consultants report directly to the club general manager, who, in turn, reports to a district manager. We provide additional incentive-based compensation in the form of commissions and bonuses, contingent upon individual, club and company-wide enrollment goals. Membership consultants must successfully complete an in-house training program through which they learn our sales strategy. The training program consists of three days of in-classroom training followed by three weeks of in-club training. In making a sales presentation, membership consultants attempt to match the needs to each prospective member by emphasizing all the aspects of our clubs' selection of equipment, classes and multi-recreational offerings, if available, and the quality of our staff.

In mid-December 2008, we launched the selling of individual memberships online for our standard membership types. This sales channel links directly to our principal web site and an existing web site, which is tailored to selling memberships for pre-established corporate and group programs. The online sales channel offers a high degree of convenience for customers who know and trust our brand and do not require up-front interaction with a membership consultant to make their decision. In addition, selling online significantly reduces our cost of sale. Members who joined online accounted for approximately 3.3% of memberships sold in 2010. In April 2010, we launched a 30 days for 30 dollars web trial membership for prospective members.

Our corporate and group sales division consists of approximately 20 full-time employees located throughout our markets, who concentrate on building long-term relationships with local and regional companies and large groups. Corporate and group members accounted for approximately 16% of our total membership base as of December 31, 2010. We offer numerous programs to meet our corporate and group clients' needs including an online enrollment program as well as a fully operational call center for enrollment. We believe this focus on relationship building, providing the corporate customer with options for enrollment and our clustering strategy will continue to lead to new group participation in the future. Corporate and group sales are typically sold at a discount to our standard rates. Corporations frequently subsidize the costs of memberships provided to their employees.

We believe that clustering clubs allows us to sell memberships based upon the opportunity for members to utilize multiple club locations near their workplace and their home. As of December 31, 2010, our existing members were enrolled under three types of memberships:

- The Passport Membership is our higher priced membership and entitles members to use any of our clubs in any region at any time, or any of our clubs within one region, other than the NYSC region. These membership plans provide the convenience of having fitness clubs near a member's workplace and home. The current list price of an individual commit Passport Membership ranges from \$69 per month to \$89 per month, excluding students and corporate and group members. Our student memberships are offered as restricted-use Passport Memberships and averaged approximately \$20 per month for those sold in the year ended December 31, 2010. Our corporate and group memberships are sold as Passport Memberships and averaged approximately \$60 per month for those sold in the year ended December 31, 2010. The Passport Membership, including our student members and our corporate and group members, was held by approximately 47% of our total members as of December 31, 2010. In addition, we have a Passport Premium Membership at two select clubs, which includes a greater array of member services and facilities, at prices ranging from \$105 to \$115 per month.
- The Core Membership was introduced on November 1, 2010 and enables members to use a specific club at any time. The current list price of a commit Core membership ranges from \$39 to \$79 per month based on club specific facilities and services, the market area of enrollment and length of the membership contract. Core members can also elect to pay a per visit fee of \$7.50 to use non-home clubs. This membership was held by approximately 3% of our members as of December 31, 2010.
- The Gold Membership enables members to use a specific club at any time and any of our clubs during off-peak times. Gold members can also elect to pay a per visit fee of \$7.50 to use non-home clubs during peak hours. This membership was held by approximately 50% of our members as of December 31, 2010. This membership is no longer offered to new members as of November 1, 2010.

In 2010, we simplified our membership offerings by moving away from many membership offerings to two principal memberships. We still offer some promotional memberships to key segments of our consumer and member base; however, these are not permanent offerings and are only offered periodically on a promotional basis. Examples of such specialized memberships are those designed for the aging population, TSI alumni, gym switchers or couples memberships. We periodically emphasize these specialized membership packages to support with our marketing and sales strategic plan.

We offer both "month-to-month" and "commit" membership payment plans. A member may cancel a month-to-month membership at any time with 30-days notice. Under the commit model, new members commit to a one-year membership. These memberships are priced at a moderate discount to the month-to-month membership. In 2010 and 2009, 74% and 85% of our newly enrolled members opted for a commit membership, respectively. We decreased the price gap between the commit membership and the month-to-month membership in 2009, as we saw the month-to-month membership gain popularity due to its flexibility in a time of decreased consumer confidence. As of December 31, 2010, approximately 17% of our members had originated under a month-to-month non-commit membership and 83% had originated under a commit membership. When the members' commit period is over, they retain membership as a month-to-month member until they choose to cancel. As of December 31, 2010, approximately 70% of our total members were on a month-to-month basis. We believe that members prefer to have the flexibility to choose between committing for one year or to join under the month-to-month non-commit membership.

In joining a club, a new member signs a membership agreement that typically obligates the member to pay one-time joining fees, if applicable, and monthly dues on an ongoing basis. The one-time joining fees consist of initiation fees and processing fees. In the third quarter of 2008, we had combined these fees. We promoted new memberships by discounting these fees in 2008 and further discounting these fees in 2009, resulting in a low average joining fee per member of \$20 in that year. In June 2010, we re-introduced the one-time processing fee of between \$19 and \$29 per sale. Joining fees collected for new monthly electronic funds transfer, or EFT, members averaged approximately \$30 per member for the year ended December 31, 2010. Monthly EFT of individual membership dues on a per-member basis including the effect of promotions and memberships with reduced dues averaged approximately \$62 and \$64 per month for the years ended December 31, 2010 and 2009, respectively. Throughout 2010, we ran various sales promotions for new members to receive free months of membership and in April 2010 we began our student membership with dues of \$20 per month. Due to the popularity of the student membership, our average per member dues decreased. Throughout 2009, we had also offered various sales promotions for new members to receive free months of membership and also sold discounted membership types, including our alumni and friends and family memberships. We collect approximately 96.0% of all monthly membership dues through EFT and EFT membership revenue constituted approximately 75.5% of consolidated revenue for the year ended December 31, 2010. Substantially all other membership dues are paid in full in advance. Our membership agreements call for monthly dues to be collected by EFT based on credit card or bank account debit authorization contained in the agreement. During the first week of each month, we receive the EFT dues for that month after the payments are initiated by a third-party EFT processor. Discrepancies and insufficient funds incidents are researched and resolved by our in-house account services department. We typically increase our existing member dues annually by between 1% and 3% on average, in line with increases in the cost of living. In 2010, the total membership dues increase was applied to approximately 50.0% of our membership base resulting in an overall dues increase of approximately 1.5%.

Usage

Our suburban clubs are generally open 5:00 AM to 10:00 PM on weekdays and 7:00 AM to 8:00 PM on weekends, while our urban clubs are generally open 5:00 AM to 11:00 PM on weekdays and 8:00 AM to 9:00 PM on weekends. Where member demand is high, some clubs remain open for 24 hours. We generally consider our peak usage times to be between 6:00 AM and 8:30 AM and 4:00 PM and 8:30 PM on weekdays. Our hours of business are based on usage patterns at each individual club. Our total club usage was 30.0 million and 30.3 million member visits for the years ended December 31, 2010 and 2009, respectively, representing a 1.2% decrease in total club usage on a year-over-year basis. Usage per member has increased approximately 1.9% in the year ended December 31, 2010 compared to 2009. In the year-ended December 31, 2010, approximately 37% of total usage or club visits was to members' non-home clubs, indicating that our members take advantage of our network of clubs.

Non-Membership Revenue

Over the past five years, we have expanded the range of ancillary club services provided to our members. Non-membership club revenue has increased by 19.0% from 2006 to 2010 and has increased as a percentage of total revenue from 17.9% in 2006 to 19.9% in 2010. Personal training revenue, in particular, increased 23.0% over this five-year period and increased as a percentage of total revenue from 11.4% in 2006 to 13.2% in 2010. In addition, we offer Sports Clubs for Kids and Small Group Training, both for an additional fee, at select clubs. Consumer confidence and consumer spending deteriorated in the second half of 2008 and throughout 2009, resulting in a non-membership revenue decrease in these periods. In 2010, consumer confidence and consumer spending began to recover. Also in 2010, we recognized \$2.7 million of personal training revenue related to unused and expired sessions in three of our jurisdictions, of which \$570,000 related to expired sessions that would have been recognized in the year ended December 31, 2010. See "Management's Discussion and Analysis" for further information.

The table below presents non-membership revenue components as a percentage of total revenue for the years ended December 31, 2006 through 2010.

	For The Years Ended December 31, (In thousands)									
	2010	%	2009	%	2008	%	2007	%	2006	%
Total revenue	\$462,387	100.0%	\$485,392	100.0%	\$506,709	100.0%	\$472,915	100.0%	\$433,080	100.0%
Non-Membership Revenue:										
Personal training revenue	60,875	13.2%	56,971	11.7%	61,752	12.2%	56,106	11.9%	49,511	11.4%
Other ancillary club revenue	26,355	5.7%	24,589	5.1%	24,329	4.8%	24,247	5.1%	22,863	5.3%
Fees and Other revenue	4,761	1.0%	4,661	1.0%	6,031	1.2%	5,616	1.2%	4,942	1.2%
Total non-membership revenue	<u>\$ 91,991</u>	<u>19.9%</u>	<u>\$ 86,221</u>	<u>17.8%</u>	<u>\$ 92,112</u>	<u>18.2%</u>	<u>\$ 85,969</u>	<u>18.2%</u>	<u>\$ 77,316</u>	<u>17.9%</u>

Club Format and Locations

Our clubs are generally located in middle- or upper-income residential, commercial, urban and suburban neighborhoods within major metropolitan areas that are capable of supporting the development of a cluster of clubs. Our clubs typically have high visibility and are easily accessible. In the New York metropolitan, Boston, Washington, D.C. and Philadelphia markets, we have created clusters of clubs in urban areas and their commuter suburban areas aligned with our operating strategy of offering our target members the convenience of multiple locations close to where they live and work, reciprocal use privileges, and standardized facilities and services.

Approximately 68% of our clubs are fitness-only clubs and the remaining clubs are multi-recreational. Our fitness-only clubs generally range in size from 15,000 to 25,000 square feet and average approximately 20,000 square feet. Our multi-recreational clubs generally range in size from 25,000 square feet to 65,000 square feet, with one club being 200,000 square feet. The average multi-recreational club size is approximately 40,000 square feet. Membership for each club generally ranges from 2,000 to 4,500 members at maturity.

We have experienced overall growth over the past five years primarily through developing and opening new club locations that we have constructed, despite the reduction in club openings in 2009 and 2010. In addition, we have acquired existing, privately owned single and multi-club businesses. From January 1, 2006 to December 31, 2010, we acquired two existing clubs, constructed 37 new clubs and closed or relocated 20 clubs to increase our total clubs under operation from 141 to 160. In the year ended December 31, 2010, we did not open any new clubs and closed one club, decreasing our total clubs under operation from 161 to 160. In 2010, we upgraded certain existing clubs and plan to continue to do so in 2011. We currently plan to open two clubs in the second half of 2011.

To identify potential target areas for additional clubs, we engage in detailed site analyses and selection processes. Target areas are identified based upon population demographics, psychographics, traffic and commuting patterns, availability of sites and competitive market information. We currently have two lease commitments and have identified over 170 target areas in which we may add clubs under our New York Sports Clubs, Boston Sports Clubs, Washington Sports Clubs or Philadelphia Sports Clubs brand names. In addition, we have identified further growth opportunities in secondary markets located near our existing markets. In the future, we may explore expansion opportunities in other markets in the United States that share similar demographic characteristics to those in which we currently operate.

Our facilities include a mix of state-of-the-art cardiovascular equipment, including AMT ellipticals, E Spinners & Arc Trainers along with bikes, steppers, treadmills and elliptical motion machines; free weight and strength equipment, including Cybex, Nautilus, Techno Gym, Strive, Precor, Star Trac and Hammer Strength equipment; group exercise and cycling studios; the entertainment system network; locker rooms, including shower facilities, towel service and other amenities, such as saunas, babysitting, and a pro-shop. Each of our clubs is equipped with automated external defibrillators (AEDs) for use in cardiac arrest emergencies. Personal training services are offered at all locations for an additional charge. At certain locations, additional facilities are also

offered, including swimming pools and racquet and basketball courts. Also, we have fee-based programming at many of our clubs, including Small Group Training, children's programs, and other programs targeting adult members.

We also offer our Xpressline strength workout at all of our clubs. Xpressline is an eight-station total-body circuit workout designed to be used in 22 minutes and to accommodate all fitness levels. This service is provided for free to our members.

We have approximately 8,100 personal entertainment units installed in our clubs. The units are typically mounted on or near individual pieces of cardiovascular equipment and are equipped with a flat-panel color screen for television viewing. We believe our members prefer the flexibility to view and listen to the programs of their choice during their cardiovascular workout. The entertainment system network also broadcasts our own personalized music video channel that provides us with a direct means of advertising products and services to our membership base.

In 2010, we began to roll-out an expansion of features of the personal viewing screens on our cardio equipment at select clubs using a new entertainment system network. These additional features include on-demand television and music, iPod/iPhone compatibility and a club information channel. We installed this new system in 12 of our Manhattan clubs in 2010 and have plans to further expand the features of the screens in our remaining Manhattan clubs in the first half 2011.

Club Services and Operations

Our clubs are structured to provide an enhanced member experience through effective execution of our operating plan. Our club and support team members are the key to delivering a valued member experience and our operations are organized to maximize their overall effectiveness. Our club operations include:

Management. We believe that our success is largely dependent on the selection and development of our team members. Our management structure is designed to strike the right balance between consistent execution of operational excellence and nurturing a leader's capacity for entrepreneurial decision making. Our learning and development system allows for all club positions to receive training on the key elements of their role as well as development training for growth. We believe a critical component to our growth is our ability to leverage internally-developed management talent.

Our business is divided into regional operating lines with each reporting to a regional vice president. Reporting to the regional vice presidents are regionally-based functional support teams as well as district managers who are responsible for executing the Company's operating plan within a group of clubs. Reporting to the district managers are the individual club general managers who are responsible for the day-to-day management of each club. At each level of responsibility, compensation is structured to incent driving the member experience and profitability.

Functional Support. Functional teams provide technical expertise and support designed to drive the member experience and revenue growth in specific areas of our clubs' services, including sales and marketing, fitness and ancillary programming, learning and development as well as facility management and member service.

Driving excellence in fitness and ancillary programming is critical to our success. All of our fitness clubs offer one-on-one personal training, which is sold in both single session and multi-session packages. Our fitness teams are trained to provide superior fitness solutions to address member needs. We believe the qualifications of the personal training staff help to ensure that members receive a consistent level of quality service throughout our clubs and that our personal training programs provide valuable guidance to our members as well as a significant source of incremental revenue for us. Our personal trainers are grouped by professional certification and advanced specialty education. Trainer compensation is based on professional designation and the number of training sessions they perform. We believe that members who participate in personal training programs typically have a longer membership life.

Our commitment to providing a quality exercise experience to our members extends beyond just personal training and includes group exercise programming. Our instructors teach a variety of classes including: aerobics, cycling, strength conditioning, boxing, yoga, Pilates and step aerobics classes. Instructors report through local club management and are further supported by regional directors responsible for ensuring consistency in class content, scheduling, training and instruction. We also provide small group training offerings to our members, which are fee-

based programs that have smaller groups and provide more focused and typically more advanced classes. Some examples of these offerings include Pilates, TRX, Kettlebell training, boxing camps and cycling camps.

In addition to group exercise, we offer a variety of ancillary programming for children under our Sports Clubs for Kids brand. As of December 31, 2010, Sports Clubs for Kids was being offered in 31 locations throughout our New York Sports Clubs, Boston Sports Clubs and Philadelphia Sports Clubs regions. Our Sports Clubs for Kids programming positions our multi-recreational clubs as family clubs, which we believe provides us with a competitive advantage. Depending upon the facilities available at a location, Sports Clubs for Kids programming can include traditional youth offerings such as day camps, sports camps, swim lessons, hockey and soccer leagues, gymnastics, dance and birthday parties. It also can include non-competitive "learn-to-play" sports programs.

Functional and leadership skill development plays a critical role in enabling our success. Team member development occurs at both the club level and in the classroom. Managers play a vital role in the development of their teams and partner closely with our learning and development team to advance team member skill for future growth. Our learning programs are consistently designed and focused on building strong functional and leadership skills across the organization. This also includes specialized fitness and group exercise training curriculum.

Our facilities and equipment management teams are dedicated to ensuring our clubs and fitness equipment are operating at the highest standard of performance for our members. Local teams are deployed to provide on-site support to clubs as needed.

Our club support and member services groups act as a coordinating point for all departments, supporting excellence in program execution and ensuring consistency of policies and procedures across the entire organization that support the member experience.

Employee Compensation and Benefits

We provide performance-based incentives to our management. Senior management compensation, for example, is tied to our overall performance. Departmental directors, district managers and general managers can achieve bonuses tied to financial and member retention targets. We offer our employees various benefits including health, dental and disability insurance; pre-tax healthcare, commuting and dependent care accounts; and a 401(k) plan. We believe the availability of employee benefits provides us with a strategic advantage in attracting and retaining quality managers, program instructors and professional personal trainers and that this strategic advantage in turn translates into a more consistent and higher-quality workout experience for those members who utilize such services.

Centralized Information Systems

We use an integrated information system to sell memberships, bill our members, track and analyze sales and membership statistics, the frequency and timing of member workouts, cross-club utilization, member life, value-added services and demographic profiles by member, which enables us to develop targeted direct marketing programs and to modify our broadcast and print advertising to improve consumer response. This system also assists us in evaluating staffing needs and program offerings. In addition, we rely on certain data gathered through our information systems to assist in the identification of new markets for clubs and site selection within those markets.

Information Systems

We recognize the value of enhancing and extending the uses of information technology in virtually every area of our business. Our information technology strategy is aligned to best support our business strategy and operating plans. We maintain an ongoing comprehensive multi-year program to replace or upgrade key systems and to optimize their performance.

We currently utilize a club management system that incorporates functionality for member services, contract management, electronic billing, point of sale, scheduling personal training resources and reservations. This club management system extends support for new business functionalities and new club models and integrates with other applications. We have an application utilizing business intelligence tools and data warehousing capabilities enabling enhanced managerial and analytical reporting of sales and operations. We originally implemented this system in 2003, and we plan to replace it within the next two to three years to take advantage of updated technology.

Recently we upgraded the hardware capacity of the club management system to improve performance at club locations.

In 2007, we replaced our legacy general ledger and accounts payable and fixed asset accounting systems with Oracle systems that include a fully integrated suite of accounting applications as well as lease management and cash management capabilities. Migration of our current construction accounting system to the Oracle systems and expanded on-line procurement was completed in 2008.

In 2007, we implemented a human resources management system and merged it with an existing timekeeping system which was integrated with payroll and relevant financial applications for comprehensive automation of compensation processing and management for all employees. This system has the capability of expanding our talent management, recruiting and performance management processes and will be leveraged as we align it with our new learning and development strategy to train our club team members. The human resources management system allows us to effectively and efficiently serve our team members by providing meaningful information to support their individual growth and development.

Our web site utilizes new architectures that allow for flexibility in product offerings, online corporate and group sales, promotion and contest presentations, member self-service, surveying and enhanced member options. The internet capabilities were recently expanded to include more member-focused features. In 2008, we launched additional web capabilities for selling our suite of memberships for all clubs. We have built an intranet to provide a portal for the various browser-based applications that we utilize internally. Our intranet features support corporate communications, human resources programs and training. In 2009, we launched a re-design of our web site, making it easier for our members to navigate through the features. In 2010, we added new templates allowing for more flexibility and efficiency of the site.

In 2011, we plan to move our data center from our current Manhattan location to a co-location facility. This will provide for better network speed and reliability, realize cost savings on real estate facilities, increase server security and improve internet bandwidth availability. Other benefits include increased growth scalability, power redundancy, enhanced physical security controls, cooling redundancy and fire suppression. Our employees will manage the daily operations remotely.

We continuously implement infrastructure changes to accommodate growth, provide network redundancy, better manage telecommunications and data costs, increase efficiencies in operations and improve management of all components of our technical architecture, including disaster recovery. The disaster recovery facility utilizes replication tools to provide fail-over capabilities for supporting our critical club operations and company communications. Since 2007, we have used advanced tools for enhanced management and monitoring of our infrastructure for compliance and improved security.

Intellectual Property

We have registered various trademarks and service marks with the U.S. Patent and Trademark Office, including, **NEW YORK SPORTS CLUBS** and **NYSC**, **WASHINGTON SPORTS CLUBS** and **WSC**, **BOSTON SPORTS CLUBS** and **BSC**, **PHILADELPHIA SPORTS CLUBS** and **PSC**, **COMPANIESGETFIT.COM**, **SPORTS CLUBS FOR KIDS**, “**___ BETTER.**”, and **TOWN SPORTS INTERNATIONAL**. We continue to register other trademarks and service marks. We believe that our rights to these properties are adequately protected.

Competition

The fitness club industry is highly competitive and continues to become more competitive. The number of health clubs in the U.S. has increased from 29,069 in 2005 to 29,750 in 2009, based on the most recent information available. In each of the markets in which we operate, we compete with other fitness clubs, physical fitness and recreational facilities.

We consider the following groups to be our primary competitors in the health and fitness industry:

- commercial, multi-recreational and fitness-only chains, including, among others, Equinox Holdings, Inc., Lifetime Fitness, Inc., Crunch, New York Health and Racquet, LA Fitness International LLC, 24 Hour Fitness Worldwide, Inc., Bally Total Fitness Holding Corporation, Gold's Gym International, Inc., Retro Fitness, Snap Fitness, Anytime Fitness and Planet Fitness;

- the YMCA and similar non-profit organizations;
- physical fitness and recreational facilities established by local governments, hospitals and businesses;
- exercise and small fitness clubs; racquet, tennis and other athletic clubs;
- private studios offering cycling, yoga or Pilates;
- amenity gyms in apartments and condominiums;
- weight-reducing salons;
- country clubs; and
- the home-use fitness equipment industry.

The principal methods of competition include pricing and ease of payment, required level of members' contractual commitment, level and quality of services, training and quality of supervisory staff, size and layout of facility and convenience of location with respect to access to transportation and pedestrian traffic.

We consider our service offerings to be in the mid-tier of the value/service proposition and designed to appeal to a large portion of the population who utilize fitness facilities. The number of competitor clubs that offer lower pricing and a lower level of service recently have continued to grow in our markets. These clubs have attracted, and may continue to attract, members away from both our fitness-only clubs and our multi-recreational clubs, particularly in this challenging consumer environment.

We also face competition from club operators offering comparable or higher pricing with higher levels of service. The trend to larger outer-suburban family fitness centers, in areas where suitable real estate is more likely to be available, could also compete effectively against our suburban formats.

Competitive Position Measured by Number of Clubs

<u>Market</u>	<u>Number of Clubs</u>	<u>Position</u>
Boston metropolitan	25	Leading owner and operator
New York metropolitan	108	Leading owner and operator
Philadelphia metropolitan	6	# 5 owner and operator, tied for #1 in urban center
Washington, D.C. metropolitan . . .	18	# 2 owner and operator, leader in urban center
Switzerland.	3	Local owner and operator only

We also compete with other entertainment and retail businesses for the discretionary income in our target demographics. There can be no assurance that we will be able to compete effectively in the future in the markets in which we operate. Competitors, who may include companies that are larger and have greater resources than us, may enter these markets to our detriment. These competitive conditions may limit our ability to increase dues without a material loss in membership, attract new members and attract and retain qualified personnel. Additionally, consolidation in the fitness club industry could result in increased competition among participants, particularly large multi-facility operators that are able to compete for attractive acquisition candidates and/or newly constructed club locations. This increased competition could increase our costs associated with expansion through both acquisitions and for real estate availability for newly constructed club locations.

We believe that our market leadership, experience and operating efficiencies enable us to provide the consumer with a superior product in terms of convenience, quality service and affordability. We believe that there are barriers to entry in our metropolitan areas, including restrictive zoning laws, lengthy permit processes and a shortage of appropriate real estate, which could discourage any large competitor from attempting to open a chain of clubs in these markets. However, such a competitor could enter these markets more easily through one, or a series of, acquisitions. These barriers of entry are significant in our four metropolitan regions, however they are not as challenging in our surrounding suburban locations.

Government Regulation

Our operations and business practices are subject to Federal, state and local government regulation in the various jurisdictions in which our clubs are located, including (1) general rules and regulations of the Federal Trade

Commission, state and local consumer protection agencies and state statutes that prescribe certain forms and provisions of membership contracts and that govern the advertising, sale, financing and collection of such memberships and (2) state and local health regulations.

Statutes and regulations affecting the fitness industry have been enacted in jurisdictions in which we conduct business and other states into which we may expand in the future have adopted or may adopt similar legislation. Typically, these statutes and regulations prescribe certain forms and provisions of membership contracts, afford members the right to cancel the contract within a specified time period after signing or in certain circumstances, such as for medical reasons or relocation to a certain distance from the nearest club, require an escrow of funds received from pre-opening sales or the posting of a bond or proof of financial responsibility and may establish maximum prices for membership contracts and limitations on the term of contracts. The specific procedures and reasons for cancellation vary due to differing laws in the respective jurisdictions, but in each instance, the canceling member is entitled to a refund of unused prepaid amounts. Most recently, several states have proposed legislation that would prohibit the automatic rollover of membership once a member's commitment period expires. In addition, we are subject to numerous other types of federal and state regulations governing the sale of memberships. These laws and regulations are subject to varying interpretations by a number of state and federal enforcement agencies and courts. We maintain internal review procedures to comply with these requirements and believe that our activities are in substantial compliance with all applicable statutes, rules and decisions.

The tax treatment of membership dues varies by state. In recent years, some states in which we operate have passed legislation to require sales tax to be collected on membership dues and personal training sessions. These taxes have the effect of increasing the payments by our members, which could impede our ability to attract new members or induce members to cancel their membership.

Changes in any statutes, rules or regulations could have a material adverse effect on our financial condition and results of operations.

Employees

At December 31, 2010, we had approximately 8,100 employees, of whom approximately 2,200 were employed full-time. Approximately 360 of those employees were corporate and other club support personnel. We are not a party to any collective bargaining agreement with our employees. We have never experienced any significant labor shortages or had any difficulty in obtaining adequate replacements for departing employees. We consider our relations with our employees to be good.

Available Information

We make available through our web site at www.mysportsclubs.com in the "Investor Relations — SEC Filings" section, free of charge, all reports and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Occasionally, we may use our web site as a channel of distribution of material company information. Financial and other material information regarding the Company is routinely posted on and accessible at <http://investor.mysportsclubs.com>. In addition, you may automatically receive email alerts and other information about us by enrolling your email by visiting the "E-mail Alerts" section at <http://investor.mysportsclubs.com/>.

The foregoing information regarding our website and its content is for convenience only. The content of our website is not deemed to be incorporated by reference into this report nor should it be deemed to have been filed with the SEC.

Item 1A. Risk Factors

Investors should carefully consider the risks described below and all other information in this Annual Report on Form 10-K. The risks and uncertainties described below are not the only ones that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business and operations. If any of the following risks actually occur, our business, financial condition, cash flows or results of operations could be materially adversely affected.

Risks Related to Our Business

We may be unable to attract and retain members, which could have a negative effect on our business.

The performance of our clubs is highly dependent on our ability to attract and retain members, and we may not be successful in these efforts. Most of our members can cancel their club membership at any time under certain circumstances. In addition, there are numerous factors that have in the past and could in the future lead to a decline in membership levels at established clubs or that could prevent us from increasing our membership at newer clubs, including a decline in our ability to deliver quality service at a competitive cost, the presence of direct and indirect competition in the areas in which the clubs are located, the public's interest in sports and fitness clubs and general economic conditions.

Recent negative economic conditions, including increased unemployment levels and decreased consumer confidence, have resulted in significant pressures and declines in economic growth. These conditions have and in the future could lead to reduced consumer spending. In a depressed economic and consumer environment, consumers and businesses may postpone spending in response to tighter credit, negative financial news and/or declines in income or asset values, which could have a material negative effect on the demand for our services and products and such decline in demand may continue as the economy continues to struggle and disposable income declines. Other factors that could influence demand include increases in fuel and other energy costs, conditions in the residential real estate and mortgage markets, labor and healthcare costs, access to credit, consumer confidence and other macroeconomic factors affecting consumer spending behavior. The recent challenges in the global economy may materially adversely affect our business and our revenues and profits. As a result of these factors, membership levels might not be adequate to maintain our operations at current levels or permit the expansion of our operations.

In addition, to the extent our corporate clients are adversely affected by negative economic conditions, they may decide, as part of expense reduction strategies, to curtail or cancel club membership benefits provided to their respective employees. Any reductions in corporate memberships may lead to membership cancellations as we cannot assure that employees of corporate customers will choose to continue their memberships without employer subsidies. A decline in membership levels may have a material adverse effect on our business, financial condition, results of operations and cash flows. We ended 2009 with 24,000 less net members compared to 2008, a decline that we attribute, in large part, to negative economic conditions during 2009. In 2010, we began to see some signs of recovery and ended 2010 with 7,000 more members compared to the end of 2009 but at an overall lower average monthly dues rate.

Low consumer confidence levels, increased competition and decreased spending could negatively impact our financial position and result in club closures and fixed asset and goodwill impairments.

In the years ended December 31, 2010 and 2009, we closed one club and nine clubs, respectively, and recognized \$3.3 million and \$6.7 million of fixed asset impairments, respectively. While there were no goodwill impairments in 2010 and 2009, we have in the past experienced goodwill impairments due to decreased membership. Some of these closures and impairments were due, in large part, to the current economic, consumer environment, and increased competition in areas in which our clubs operate. If the economic and consumer environment were to deteriorate further or if we are unable to improve the overall competitive position of our clubs, our operating performance may continue to decline and we may need to recognize additional impairments of our long-lived assets and goodwill and may be compelled to close additional clubs. In addition, we cannot assure you that we will be able to replace any of the revenue lost from these closed clubs from our other clubs.

Our geographic concentration heightens our exposure to adverse regional developments.

As of December 31, 2010, we operated 108 fitness clubs in the New York metropolitan market, 25 fitness clubs in the Boston market, 18 fitness clubs in the Washington, D.C. market, six fitness clubs in the Philadelphia market and three fitness clubs in Switzerland. Our geographic concentration in the Northeast and Mid-Atlantic regions and, in particular, the New York area, heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions. Our geographic concentration might result in a material adverse effect on our business, financial condition, cash flows and results of operations in the future.

The level of competition in the fitness club industry could negatively impact our revenue growth and profitability.

The fitness club industry is highly competitive and continues to become more competitive. In each of the markets in which we operate, we compete with other fitness clubs, physical fitness and recreational facilities established by local governments, hospitals and businesses for their employees, amenity and condominium clubs, the YMCA and similar organizations and, to a certain extent, with racquet and tennis and other athletic clubs, country clubs, weight reducing salons and the home-use fitness equipment industry. We also compete with other entertainment and retail businesses for the discretionary income in our target demographics. We might not be able to compete effectively in the future in the markets in which we operate. Competitors include companies that are larger and have greater resources than us and they may enter these markets to our detriment. These competitive conditions may limit our ability to increase dues without a material loss in membership, attract new members and attract and retain qualified personnel. Additionally, consolidation in the fitness club industry could result in increased competition among participants, particularly large multi-facility operators that are able to compete for attractive acquisition candidates or newly constructed club locations, thereby increasing costs associated with expansion through both acquisitions and lease negotiation and real estate availability for newly constructed club locations.

The number of competitor clubs that offer lower pricing and a lower level of service continue to grow in our markets. These clubs have attracted, and may continue to attract, members away from both our fitness-only clubs and our multi-recreational clubs, particularly in the current consumer environment. Furthermore, smaller and less expensive weight loss facilities present a competitive alternative for consumers.

We also face competition from competitors offering comparable or higher pricing with higher levels of service. The trend to larger outer-suburban, multi-recreational family fitness centers, in areas where suitable real estate is more likely to be available, also compete against our suburban, fitness-only models.

In addition, large competitors could enter the urban markets in which we operate to open a chain of clubs in these markets through one, or a series of, acquisitions.

Our trademarks and trade names may be infringed, misappropriated or challenged by others.

We believe our brand names and related intellectual property are important to our continued success. We seek to protect our trademarks, trade names and other intellectual property by exercising our rights under applicable trademark and copyright laws. If we were to fail to successfully protect our intellectual property rights for any reason, it could have an adverse effect on our business, results of operations and financial condition. Any damage to our reputation could cause membership levels to decline and make it more difficult to attract new members.

If we are unable to identify and acquire suitable sites for new clubs, our revenue growth rate and profits may be negatively impacted.

To successfully expand our business over the long term, we must identify and acquire sites that meet the site selection criteria we have established. In addition to finding sites with the right geographical, demographic and other measures we employ in our selection process, we also need to evaluate the penetration of our competitors in the market. We face competition from other health and fitness center operators for sites that meet our criteria and as a result, we may lose those sites, our competitors could copy our format or we could be forced to pay higher prices for those sites. If we are unable to identify and acquire sites for new clubs on attractive terms, our revenue growth rate and profits may be negatively impacted. Additionally, if our analysis of the suitability of a site is incorrect, we may not be able to recover our capital investment in developing and building the new club.

We may experience prolonged periods of losses in our recently opened clubs.

Upon opening a club, we typically experience an initial period of club operating losses. Enrollment from pre-sold memberships typically generates insufficient revenue for the club to initially generate positive cash flow. As a result, a new club typically generates an operating loss in its first full year of operations and substantially lower margins in its second full year of operations than a club opened for more than 24 months. These operating losses and lower margins will negatively impact our future results of operations. This negative impact will be increased by the initial expensing of pre-opening costs, which include legal and other costs associated with lease negotiations and permitting and zoning requirements, as well as depreciation and amortization expenses, which will further negatively impact net income. We may, at our discretion, accelerate or expand our plans to open new clubs, which may temporarily adversely affect results from operations. We have opened a total of four new club locations in the 24-month period ended December 31, 2010.

We could be subject to claims related to health or safety risks at our clubs.

Use of our clubs poses some potential health or safety risks to members or guests through physical exertion and use of our services and facilities, including exercise equipment. Claims might be asserted against us for injury suffered by, or death of members or guests while exercising at a club. We might not be able to successfully defend such claims. As a result, we might not be able to maintain our general liability insurance on acceptable terms in the future or maintain a level of insurance that would provide adequate coverage against potential claims.

Depending upon the outcome, these matters may have a material effect on our consolidated financial position, results of operations and cash flows.

Security and privacy breaches may expose us to liability and cause us to lose customers.

Federal and state law requires us to safeguard our customers' financial information, including credit card information. Although we have established security procedures and protocol, including credit card industry compliance procedures, to protect against identity theft and the theft of our customers' financial information, our security and testing measures may not prevent security breaches and breaches of our customers' privacy may occur, which could harm our business. For example, a significant number of our users provide us with credit card and other confidential information and authorize us to bill their credit card accounts directly for our products and services. Typically, we rely on encryption and authentication technology licensed from third parties to enhance transmission security of confidential information. Advances in computer capabilities, new discoveries in the field of cryptography, inadequate facility security or other developments may result in a compromise or breach of the technology used by us to protect customer data. Any compromise of our security could harm our reputation or financial condition and, therefore, our business. In addition, a party who is able to circumvent our security measures or exploit inadequacies in our security measures, could, among other effects, misappropriate proprietary information, cause interruptions in our operations or expose customers to computer viruses or other disruptions. Actual or perceived vulnerabilities may lead to claims against us. To the extent the measures we have taken prove to be insufficient or inadequate, we may become subject to litigation or administrative sanctions, which could result in significant fines, penalties or damages and harm to our reputation.

Loss of key personnel and/or failure to attract and retain highly qualified personnel could make it more difficult for us to develop our business and enhance our financial performance.

We are dependent on the continued services of our senior management team, particularly Robert Giardina, Chief Executive Officer; Daniel Gallagher, Chief Financial Officer; and Martin Annese, Chief Operating Officer. We believe the loss of such key personnel could have a material adverse effect on us and our financial performance. Currently, we do not have any long-term employment agreements with our executive officers, and we may not be able to attract and retain sufficient qualified personnel to meet our business needs.

Terrorism and the uncertainty of armed conflicts may have a material adverse effect on clubs and our operating results.

Terrorist attacks, such as the attacks that occurred in New York City and Washington, D.C. on September 11, 2001, and other acts of violence or war may affect the markets in which we operate, our operating results or the market on which our common stock trades. Our geographic concentration in the major cities in the Northeast and

Mid-Atlantic regions and, in particular, the New York City and Washington, D.C. areas, heightens our exposure to any such future terrorist attacks, which may adversely affect our clubs and result in a decrease in our revenues. The potential near-term and long-term effect these attacks may have for our members, the markets for our services and the market for our common stock are uncertain; however, their occurrence can be expected to further negatively affect the United States economy generally and specifically the regional markets in which we operate. The consequences of any terrorist attacks or any armed conflicts are unpredictable; and we may not be able to foresee events that could have an adverse effect on our business.

Disruptions and failures involving our information systems could cause customer dissatisfaction and adversely affect our billing and other administrative functions.

The continuing and uninterrupted performance of our information systems is critical to our success. We use a fully-integrated information system to sell memberships, bill our members, track and analyze sales and membership statistics, the frequency and timing of member workouts, cross-club utilization, member life, value-added services and demographic profiles by member. This system also assists us in evaluating staffing needs and program offerings. We believe that, without investing in enhancements, this system is approaching the end of its life cycle. We expect to use our existing enterprise management enterprise system for a period of one to two years while we explore other options. Correcting any disruptions or failures that affected our proprietary system could be difficult, time-consuming and expensive because we would need to use contracted consultants familiar with our system.

Any failure of our current system could also cause us to lose members and adversely affect our business and results of operations. Our members may become dissatisfied by any systems disruption or failure that interrupts our ability to provide our services to them. Disruptions or failures that affect our billing and other administrative functions could have an adverse affect on our operating results.

We are in the process of moving our data center to a third party co-location site. This move, together with other infrastructure changes are being undertaken to accommodate our growth, provide network redundancy, better manage telecommunications and data costs, increase efficiencies in operations and improve management of all components of our technical architecture. Fire, floods, earthquakes, power loss, telecommunications failures, break-ins, acts of terrorism and similar events could damage our systems. In addition, computer viruses, electronic break-ins or other similar disruptive problems could also adversely affect our sites. Any system disruption or failure, security breach or other damage that interrupts or delays our operations could cause us to lose members, damage our reputation, and adversely affect our business and results of operations.

The opening of new clubs by us in existing locations may negatively impact our comparable club revenue increases and our operating margins.

We currently operate clubs throughout the Northeast and Mid-Atlantic regions of the United States. We currently have two clubs for which we have signed lease commitments in existing markets, with planned openings of these clubs in the second half of 2011. In the case of existing markets, our experience has been that opening new clubs may attract some memberships away from other clubs already operated by us in those markets and diminish their revenues. In addition, as a result of new club openings in existing markets and because older clubs will represent an increasing proportion of our club base over time, our mature club revenue increases may be lower in future periods than in the past.

Another result of opening new clubs is that our club operating margins may be lower than they have been historically while the clubs build a membership base. We expect both the addition of pre-opening expenses and the lower revenue volumes characteristic of newly opened clubs to affect our club operating margins at these new clubs.

Our growth could place strains on our management, employees, information systems and internal controls, which may adversely impact our business.

Over the past five years, we have experienced growth in our business activities and operations, including an increase in the number of our clubs. Future expansion will place increased demands on our administrative, operational, financial and other resources. Any failure to manage growth effectively could seriously harm our business. To be successful, we will need to continue to improve management information systems and our operating, administrative, financial and accounting systems and controls. We will also need to train new employees and maintain close coordination among our executive, accounting, finance, marketing, sales and operations

functions. These processes are time-consuming and expensive, increase management responsibilities and divert management attention.

Our cash and cash equivalents are concentrated in a small number of banks.

Our cash and cash equivalents are held, primarily, in a small number of commercial banks. These deposits are not collateralized. In the event these banks become insolvent, we would be unable to recover most of our cash and cash equivalents deposited at the banks. Cash and cash equivalents held in a small number of commercial banks as of December 31, 2010 totaled \$22.1 million. During 2010, in any one month, this amount has been as high as \$30.0 million.

Because of the capital-intensive nature of our business, we may have to incur additional indebtedness or issue new equity securities and, if we are not able to obtain additional capital, our ability to operate or expand our business may be impaired and our results of operations could be adversely affected.

Our business requires significant levels of capital to finance the development of additional sites for new clubs and the construction of our clubs. If cash from available sources is insufficient or unavailable due to restrictive credit markets, or if cash is used for unanticipated needs, we may require additional capital sooner than anticipated. In the event that we are required or choose to raise additional funds, we may be unable to do so on favorable terms or at all. Furthermore, the cost of debt financing could significantly increase, making it cost-prohibitive to borrow, which could force us to issue new equity securities. If we issue new equity securities, existing shareholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of common stock. If we cannot raise funds on acceptable terms, we may not be able to execute our current growth plans, take advantage of future opportunities or respond to competitive pressures. Any inability to raise additional capital when required could have an adverse effect on our business plans and operating results.

We may incur rising costs related to construction of new clubs and maintaining our existing clubs. If we are not able to pass these cost increases through to our members, our returns may be adversely affected.

Our clubs require significant upfront investment. If our investment is higher than we had planned, we may need to outperform our operational plan to achieve our targeted return. Over the longer term, we believe that we can offset cost increases by increasing our membership dues and other fees and improving profitability through cost efficiencies; however, higher costs in certain regions where we are opening new clubs during any period of time may be difficult to offset in the short-term.

We may be required to remit unclaimed property to states for unused, expired personal training sessions.

We recognize revenue from personal training sessions as the services are performed (i.e., when the session is trained). Unused personal training sessions expire after a set, disclosed period of time after purchase and are not refundable or redeemable by the member for cash. The State of New York has informed us that it is considering whether we are required to remit the amount received by us for unused, expired personal training sessions to the State of New York as unclaimed property. As of December 31, 2010, we had approximately \$11.7 million of unused and expired personal training sessions that had not been recognized as revenue and recorded as deferred revenue. We do not believe that these amounts are subject to the escheatment or abandoned property laws of any jurisdiction, including the State of New York. However, it is possible that one of these jurisdictions may not agree with our position and may claim that we must remit all or a portion of these amounts to such jurisdiction. For three of our jurisdictions, we concluded, based on opinions from outside counsel, that monies held by a company for unused and expired personal training sessions are not escheatable. As a result, the Company has removed approximately \$2.7 million from deferred revenue, of which approximately \$570,000 related to expired sessions that would have been recognized the year ended December 31, 2010, and recorded such amount as personal training revenue in the fourth quarter of 2010.

Our growth and profitability could be negatively impacted if we are unable to renew or replace our current club leases on favorable terms, or at all, and we cannot find suitable alternate locations.

We currently lease substantially all of our fitness club locations pursuant to long-term leases (generally 15 to 25 years, including option periods). During the next five years, or the period from January 1, 2011 through December 31, 2015, we have leases for six club locations that are due to expire without any renewal options and 39

club locations that are due to expire with renewal options. For leases with renewal options, several of them provide for our unilateral option to renew for additional rental periods at specific rental rates (for example, based on the consumer price index or stated renewal terms already set in the leases) or based on the fair market rate at the location. Our ability to negotiate favorable terms on an expiring lease or to negotiate favorable terms on leases with renewal options, or conversely for a suitable alternate location, could depend on conditions in the real estate market, competition for desirable properties and our relationships with current and prospective landlords or may depend on other factors that are not within our control. Any or all of these factors and conditions could negatively impact our growth and profitability.

Risks Related to Our Leverage and Our Indebtedness

On February 27, 2007, the Company entered into a \$260.0 million senior secured credit facility (the “2007 Senior Credit Facility”). The 2007 Senior Credit Facility consists of a \$185.0 million term loan facility (the “Term Loan Facility”) and originally consisted of a \$75.0 million revolving credit facility (the “Revolving Loan Facility”). On July 15, 2009, the total amount of borrowings under the Revolving Loan Facility was reduced by 15% from \$75.0 million to \$63.8 million.

We may be negatively affected by economic conditions in the United States and key international markets.

We must maintain liquidity to fund our working capital, service our outstanding indebtedness and finance investment opportunities. Without sufficient liquidity, we could be forced to curtail our operations or we may not be able to pursue new business opportunities. If our current resources do not satisfy our liquidity requirements, we may have to seek additional financing. The principal sources of our liquidity are funds generated from operating activities, available cash and cash equivalents and borrowings under our \$63.8 million Revolving Loan Facility, as amended.

The capital and credit markets have been experiencing volatility and disruption in the recent past. As a result, one or more of our current lenders could experience financial difficulty, and as a result fail to provide the required lending amounts under our 2007 Credit Agreement. If this should occur, we may need to seek additional financing from other sources. The availability of financing will depend on a variety of factors, such as economic and market conditions, the availability of credit and our credit ratings, as well as the possibility that lenders could develop a negative perception of the prospects of our company or the fitness industry in general. We may not be able to successfully obtain any necessary additional financing on favorable terms, or financing altogether.

Economic conditions, both domestic and foreign, may affect our financial performance. Prevailing economic conditions, including unemployment levels, inflation, availability of credit, energy costs and other macro-economic factors, as well as uncertainty about future economic conditions, adversely affect consumer spending and, consequently, our business and results of operations.

Our leverage may impair our financial condition, and we may incur significant additional debt.

We currently have a substantial amount of debt. As of December 31, 2010, our total consolidated debt was \$316.5 million. Our substantial debt could have important consequences, including:

- making it more difficult for us to satisfy our obligations with respect to our outstanding indebtedness;
- increasing our vulnerability to general adverse economic and industry conditions;
- limiting our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions of clubs and other general corporate requirements;
- requiring a substantial portion of our cash flow from operations for the payment of interest on our debt, which is variable on our 2007 Senior Credit Facility and our Revolving Loan Facility, and/or principal pursuant to excess cash flow requirements and reducing our ability to use our cash flow to fund working capital, capital expenditures and acquisitions of new clubs and general corporate requirements;
- limiting our ability to refinance our existing indebtedness on favorable terms, or at all; and
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate.

These limitations and consequences may place us at a competitive disadvantage to other less-leveraged competitors.

The indenture governing our 11% Senior Discount Notes due in 2014 (“Senior Discount Notes”) will permit us and our subsidiaries to incur substantial additional debt, subject to compliance with provisions of the Indenture. In addition, as of December 31, 2010, we had \$53.1 million of unutilized borrowings under our senior secured revolving credit facility. If new debt is added to our and our subsidiaries’ current debt levels, the related risks that we and they currently face could intensify.

We may not be able to re-finance our debt at current levels and interest rates.

Our Term Loan Facility matures on the earlier of February 27, 2014, or August 1, 2013 if the Senior Discount Notes are still outstanding as of that date. In addition, our Revolving Loan Facility will mature in February 2012. Our Senior Discount Notes will mature in 2014. We expect to refinance our outstanding indebtedness under these arrangements with new indebtedness prior to their maturity dates. The availability of refinancing will depend on a variety of factors, such as economic and market conditions, business operations and financial performance, our leverage, the availability of credit and our credit ratings, as well as the lenders’ perception of the prospects of our company or our industry generally. We may not be able to successfully obtain any necessary refinancing on favorable terms, including interest rates and financial and other covenants, or at all. In that event, our business and financial condition may be materially adversely affected.

We may not have access to the cash flow and other assets of our subsidiaries that may be needed to make payments on our outstanding Indebtedness.

Our operations are conducted through our subsidiaries and our ability to make payments on our outstanding Senior Discount Notes is dependent on the earnings and the distribution of funds from our subsidiaries. However, none of our subsidiaries are obligated to make funds available to us for payment on our outstanding Senior Discount Notes. In addition, the terms of the 2007 Credit Agreement governing the 2007 Senior Credit Facility significantly restrict TSI, LLC and its subsidiaries from paying dividends and otherwise transferring assets to us. Furthermore, our subsidiaries are permitted under the terms of the 2007 Credit Agreement and the indenture governing our Senior Discount Notes to incur additional indebtedness that may severely restrict or prohibit the making of distributions, the payment of dividends or the making of loans by such subsidiaries to us.

We cannot assure that the agreements governing the current and future indebtedness of our subsidiaries will permit our subsidiaries to provide TSI, LLC with sufficient dividends, distributions or loans to fund scheduled interest and principal payments on the 2007 Credit Agreement when due.

Covenant restrictions under our indebtedness may limit our ability to operate our business and, in such an event, we may not have sufficient assets to settle our indebtedness.

The indenture governing our Senior Discount Notes, the 2007 Credit Agreement and certain of our other agreements regarding our indebtedness contain, among other things, covenants that may restrict our ability to finance future operations or capital needs or to engage in other business activities and that may impact our ability and the ability of our restricted subsidiaries to:

- borrow money;
- pay dividends or make distributions;
- purchase or redeem stock;
- make investments and extend credit;
- engage in transactions with affiliates;
- engage in sale-leaseback transactions;
- consummate certain asset sales;
- effect a consolidation or merger or sell, transfer, lease or otherwise dispose of all or substantially all of our assets; and
- create liens on our assets.

In addition, the 2007 Credit Agreement requires the Company, on a consolidated basis, to maintain a specified financial ratio and satisfy certain financial condition tests that may require us to take action to reduce our debt or to act in a manner contrary to our business objectives. The 2007 Credit Agreement requires the Company, on a consolidated basis, to maintain a maximum total leverage ratio not greater than 4.25:1.00 of consolidated indebtedness to consolidated EBITDA, as defined in the 2007 Credit Agreement. As of December 31, 2010, we were in compliance with such ratio test, with a ratio of 2.63:1.00.

Events beyond our control, including changes in general economic and business conditions, may affect our ability to meet certain financial ratios and financial condition tests. We may be unable to meet those tests and the lenders may decide not to waive any failure to meet those tests. A breach of any of these covenants would result in a default under the indenture governing our Senior Discount Notes and the 2007 Credit Agreement. If an event of default under the 2007 Credit Agreement occurs, the lenders could elect to declare all amounts outstanding thereunder, together with accrued interest, to be immediately due and payable. In the event of default under the indenture governing our Senior Discount Notes, the note holders could elect to declare due all amounts outstanding thereunder, together with accrued interest. If any such event should occur, we might not have sufficient assets to pay our indebtedness and meet our other obligations.

Item 1B. Unresolved Staff Comments

None

Item 2. Properties

We own our 151 East 86th Street location, which houses a fitness club and a retail tenant that generated approximately \$2.0 million of rental income for us for the year ended December 31, 2010. We lease the remainder of our fitness clubs pursuant to long-term leases (generally 15 to 25 years, including options). In the next five years, or the period from January 1, 2011 through December 31, 2015, we have leases for six club locations that are due to expire without any renewal options and 39 club locations that are due to expire with renewal options. Renewal options include terms for rental increases based on the consumer price index, fair market rates or stated renewal terms already set in the lease agreements. We plan to close one of the clubs without renewal options but endeavor to extend the leases or relocate the clubs or its membership base if appropriate for the remaining clubs.

We lease approximately 36,400 square feet of office space in New York City and have smaller regional offices in Fairfax, VA and Boston, MA, for administrative and general corporate purposes. We plan to close one of our corporate locations in Manhattan of approximately 10,000 square feet in March 2011 at the end of the lease term and relocate those employees to an existing Manhattan location. We also lease warehouse and commercial space in Brooklyn, NY for storage purposes.

We lease approximately 82,000 square feet in Elmsford, NY for the operation of a centralized laundry facility for New York Sports Clubs offering towel service, and for construction and equipment storage. This space replaced a laundry facility of 14,000 square feet in Queens, NY in 2009. This space also serves as corporate office space and replaced approximately 10,800 square feet of corporate office space in Manhattan. Total square footage related to the laundry facility is 42,000 and total square footage related to the corporate office and warehouse space is 40,000.

The following table provides information regarding our club locations:

Location	Address	Date Opened or Management Assumed
New York Sports Clubs:		
Manhattan	151 East 86th Street	January 1977
Manhattan	61 West 62nd Street	July 1983
Manhattan	614 Second Avenue	July 1986
Manhattan	151 Reade Street	January 1990
Manhattan	1601 Broadway	September 1991
Manhattan	349 East 76th Street	April 1994
Manhattan	248 West 80th Street	May 1994
Manhattan	502 Park Avenue	February 1995
Manhattan	117 Seventh Avenue South	March 1995

Location	Address	Date Opened or Management Assumed
Manhattan	303 Park Avenue South	December 1995
Manhattan	30 Wall Street	May 1996
Manhattan	1635 Third Avenue	October 1996
Manhattan	575 Lexington Avenue	November 1996
Manhattan	278 Eighth Avenue	December 1996
Manhattan	200 Madison Avenue	February 1997
Manhattan	2162 Broadway	November 1997
Manhattan	633 Third Avenue	April 1998
Manhattan	1657 Broadway	July 1998
Manhattan	217 Broadway	March 1999
Manhattan	23 West 73rd Street	April 1999
Manhattan	34 West 14th Street	July 1999
Manhattan	503-511 Broadway	July 1999
Manhattan	1372 Broadway	October 1999
Manhattan	300 West 125th Street	May 2000
Manhattan	19 West 44th Street	August 2000

Item 3. *Legal Proceedings*

On or about March 1, 2005, in an action styled *Sarah Cruz, et al v. Town Sports International, d/b/a New York Sports Club*, plaintiffs commenced a purported class action against the Company in the Supreme Court, New York County, seeking unpaid wages and alleging that TSI, LLC violated various overtime provisions of the New York State Labor Law with respect to the payment of wages to certain trainers and assistant fitness managers. On or about June 18, 2007, the same plaintiffs commenced a second purported class action against the Company in the Supreme Court of the State of New York, New York County, seeking unpaid wages and alleging that TSI, LLC violated various wage payment and overtime provisions of the New York State Labor Law with respect to the payment of wages to all New York purported hourly employees. On September 17, 2010, the Company made motions to dismiss the class action allegations of both lawsuits for plaintiffs' failure to timely file motions to certify the class actions. Oral argument on the motions occurred on November 10, 2010. While we are unable at this time to estimate the likelihood of an unfavorable outcome or the potential loss to the Company in the event of such an outcome, we intend to contest these cases vigorously. Depending upon the ultimate outcome, these matters may have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

On September 14, 2009, the Staff of the SEC advised the Company that a formal order of private investigation had been issued with respect to the Company. Since May 2008, the Company had been providing documents and testimony on a voluntary basis in response to an informal inquiry by the Staff of the SEC, which primarily related to the deferral of certain payroll costs incurred in connection with the sale of memberships in the Company's health

and fitness clubs and the time period utilized by the Company for the amortization of (i) such deferred costs into expense and (ii) initiation fees into revenue. On November 29, 2010, the Company received a letter from the Staff of the SEC stating that it has completed the investigation of the above-referenced accounting matters and that the Staff does not intend to recommend any enforcement action by the SEC against the Company.

On September 22, 2009, in an action styled *Town Sports International, LLC v. Ajilon Solutions*, a division of Ajilon Professional Staffing LLC (Supreme Court of the State of New York, New York County, 602911-09), TSI, LLC brought an action in the Supreme Court of the State of New York, New York County, against Ajilon for breach of contract, conversion and replevin, seeking, among other things, money damages against Ajilon for breaching its agreement to design and deliver to TSI, LLC a new sports club enterprise management system known as GIMS, including failing to provide copies of the computer source code written for GIMS, related documentation, properly identified requirements documents and other property owned and licensed by TSI, LLC. Subsequently, on October 14, 2009, Ajilon brought a counterclaim against TSI, LLC alleging breach of contract, alleging, among other things, failure to pay outstanding invoices in the amount of \$2.9 million. The litigation is currently in the discovery phase. We believe at this time the likelihood of an unfavorable outcome is not probable. The Company intends to prosecute vigorously its claims against Ajilon and defend against Ajilon's counterclaim.

On February 7, 2007, in an action styled *White Plains Plaza Realty, LLC v. TSI, LLC et al.*, the landlord of one of TSI, LLC's former health and fitness clubs filed a lawsuit in state court against it and two of its health club subsidiaries alleging, among other things, breach of lease in connection with the decision to close the club located in a building owned by the plaintiff and leased to a subsidiary of TSI, LLC, and take additional space in the nearby facility leased by another subsidiary of TSI, LLC. The trial court granted the landlord damages against its tenant in the amount of approximately \$700,000, including interest and costs ("Initial Award"). The landlord subsequently appealed the trial court's award of damages, and on December 21, 2010, the appellate court reversed, in part, the trial court's decision and ordered the case remanded to the trial court for an assessment of additional damages, of approximately \$750,000 plus interest and costs (the "Additional Award"). On February 7, 2011, the landlord moved for re-argument of the appellate court's decision, seeking additional damages plus attorneys' fees. The Additional Award has not yet been entered as a judgment. We do not believe it is probable that TSI, LLC or any of its subsidiaries will be held liable to pay for any amount of the Additional Award.

Separately, TSI, LLC is party to an agreement with a third-party developer, which by its terms provides indemnification for the full amount of any liability of any nature arising out of the lease described above, including attorneys' fees incurred to enforce the indemnity. In connection with the Initial Award (and in furtherance of the indemnification agreement), TSI, LLC and the developer have entered into an agreement pursuant to which the developer has agreed to pay the amount of the Initial Award in installments over time. The indemnification agreement will cover the Additional Award as and if entered by the court. If the third-party developer fails to honor its indemnity obligation with respect to the Additional Award (or any amount awarded on further appeal), TSI, LLC's liability to the landlord may have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

In addition to the litigation discussed above, we are involved in various other lawsuits, claims and proceedings incidental to the ordinary course of business, including personal injury and employee relations claims. See Note 13 — Contingencies to the consolidated financial statements in this Annual Report on Form 10-K. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. The results of these other lawsuits, claims and proceedings cannot be predicted with certainty.

Item 4. (Removed and Reserved)

PART II

Item 5. *Market for Registrant's Common Equity and Related Stockholder Matters and Issuer Purchases of Equity Securities*

Price Range of Common Stock

Our common stock currently trades on The NASDAQ Global Market, under the symbol CLUB. The following table sets forth, for each quarterly period in the last two fiscal years, the high and low sales prices (in dollars per share) of our common stock as quoted or reported on The NASDAQ Global Market:

	<u>High</u>	<u>Low</u>
Year ended December 31, 2010:		
First Quarter	\$4.20	\$2.19
Second Quarter	\$4.24	\$2.21
Third Quarter	\$2.94	\$1.89
Fourth Quarter	\$4.35	\$2.65
Year ended December 31, 2009:		
First Quarter	\$3.40	\$1.40
Second Quarter	\$4.99	\$1.97
Third Quarter	\$4.46	\$2.36
Fourth Quarter	\$3.97	\$1.99

Holders

As of February 22, 2011, there were approximately 90 holders of record of our common stock. There are additional holders who are not "holders of record" but who beneficially own stock through nominee holders such as brokers and benefit plan trustees.

Dividend Policy

We intend to retain future earnings, if any, to finance the operation and expansion of our business and do not anticipate paying any cash dividends in the foreseeable future. Consequently, stockholders will need to sell shares of our common stock to realize a return on their investment, if any. No dividends were paid by the Company in the fiscal years ended December 31, 2010 and 2009.

The terms of the indenture governing our Senior Discount Notes and the 2007 Senior Credit Facility significantly restrict the payment of dividends by us. Our subsidiaries are permitted under the terms of the 2007 Senior Credit Facility (and under the indenture governing our Senior Discount Notes) to incur additional indebtedness that may severely restrict or prohibit the payment of dividends by such subsidiaries to us. Our substantial leverage may impair our financial condition and we may incur significant additional debt (see "Item 1A. Risk Factors").

Issuer Purchases of Equity Securities

We did not purchase any equity securities during the fourth quarter ended December 31, 2010.

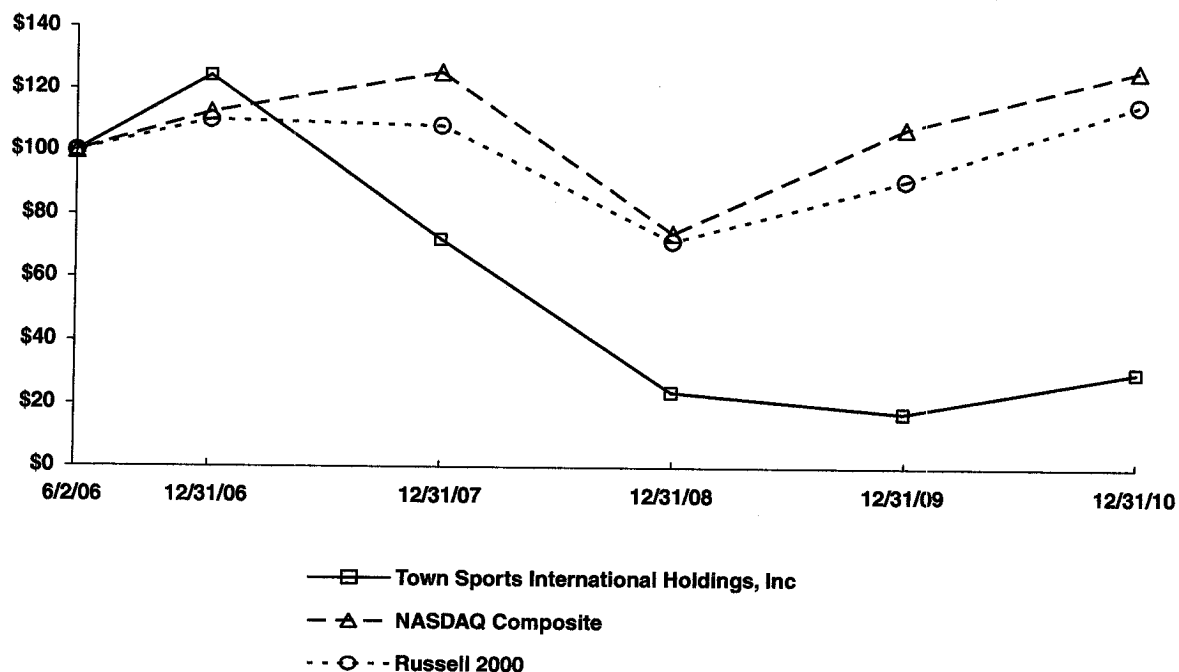

Recent Sales of Unregistered Securities

We did not sell any securities during the year ended December 31, 2010 that were not registered under the Securities Act of 1933, as amended.

Stock Performance Graph

The graph depicted below compares the annual percentage change in our cumulative total stockholder return with the cumulative total return of the Russell 2000 and the NASDAQ composite indices.

COMPARISON OF 54 MONTH CUMULATIVE TOTAL RETURN*
Among Town Sports International Holdings, Inc, The NASDAQ Composite Index
And The Russell 2000 Index

* \$100 invested on 6/2/06 in stock or 5/31/06 in index, including reinvestment of dividends. Fiscal year ending December 31.

	December 31,					
	June 2, 2006	2006	2007	2008	2009	2010
Town Sports International Holdings, Inc	100.00	124.38	72.15	24.08	17.58	30.64
NASDAQ Composite.	100.00	112.55	125.57	74.31	107.90	126.84
Russell 2000.	100.00	110.09	108.36	71.75	91.24	115.75

Notes:

- (1) The graph covers the period from June 2, 2006, the first trading day of our common stock following our Initial Public Offering, to December 31, 2010.
- (2) The graph assumes that \$100 was invested at the market close on June 2, 2006 in our common stock, in the Russell 2000 and in the NASDAQ composite indexes and that all dividends were reinvested.
- (3) No cash dividends have been declared on our common stock in the period covered.
- (4) Stockholder returns over the indicated period should not be considered indicative of future stockholder returns.
- (5) We include a comparison against the Russell 2000 because there is no published industry or line-of-business index for our industry and we do not have a readily definable peer group that is publicly traded.

Notwithstanding anything to the contrary set forth in any of our previous or future filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate by reference this Annual Report on Form 10-K or future filings made by the Company under those statutes, the Stock Performance Graph is not deemed filed with the Securities and Exchange Commission, is not deemed soliciting material and shall not be deemed incorporated by reference into any of those prior filings or into any future filings

made by the Company under those statutes, except to the extent that the Company specifically incorporates such information by reference into a previous or future filing, or specifically requests that such information be treated as soliciting material, in each case under those statutes.

Item 6. Selected Financial Data

SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA
(In thousands, except share, per share, club and membership data)

The selected consolidated balance sheet data as of December 31, 2010 and 2009 and the selected consolidated statement of operations and cash flow data for the years ended December 31, 2010, 2009 and 2008 have been derived from our audited consolidated financial statements included elsewhere herein. The selected consolidated balance sheet data as of December 31, 2008, 2007 and 2006 and the selected consolidated statement of operations and cash flow data for the years ended December 31, 2007 and 2006 have been derived from our audited consolidated financial statements not included herein. Other data and club and membership data for all periods presented have been derived from our unaudited books and records. Our historical results are not necessarily indicative of results for any future period. You should read these selected consolidated financial and other data, together with the accompanying notes, in conjunction with the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of this Annual Report and our consolidated financial statements and the related notes appearing at the end of this Annual Report.

Average joining fees collected per member(9)	\$ 37	\$ 19	\$ 45	\$ 69	\$ 63
Annual attrition(10)	41.9%	45.2%	40.2%	38.2%	36.1%

- (1) In the year ended December 31, 2009, Payroll and related includes a correction of an accounting error of \$751 related to deferred membership costs. See Note 2 — “Correction of Accounting Errors” to the Company’s consolidated financial statements in this Annual Report for further details.
- (2) Goodwill impairment testing requires a comparison between the carrying value and fair value of each reporting unit. If the carrying value exceeds the fair value, goodwill is considered impaired. The amount of the impairment loss is measured as the difference between the carrying value and the implied fair value of goodwill, which is determined based on purchase price allocation.

- (a) The Company performed an interim impairment test as of December 31, 2008. As a result of the test, it was determined that all of the goodwill in our Boston Sports Clubs region, amounting to \$15,766, and goodwill of \$1,843 at two of our outlier clubs that did not benefit from being part of a regional cluster was impaired. A deferred tax benefit of \$1,755 was recorded in connection with these impairment charges.
- (3) The \$16,113 loss on extinguishment of debt for the year ended December 31, 2006 consists of the following two transactions:
- (a) On June 8, 2006, the Company paid \$93,001 to redeem \$85,001 of the outstanding principal of the Company's previously outstanding 9 5/8% Senior Notes ("2003 Senior Notes"), together with \$6,796 of early termination fees and \$1,204 of accrued interest. Deferred financing costs totaling \$1,601 were written off and fees totaling \$222 were incurred in connection with this early extinguishment.
- (b) On July 7, 2006, the Company paid \$62,875 to redeem 35% of the Senior Discount Notes. The aggregate accreted value of the Senior Discount Notes on the redemption date totaled \$56,644 and early termination fees totaled \$6,231. Deferred financing costs totaling \$1,239 were written off and fees totaling \$24 were incurred in connection with this early extinguishment.
- The \$12,521 loss on extinguishment of debt recorded for the year ended December 31, 2007 resulted from the repayment of the \$169,999 remaining outstanding principal of the 2003 Senior Notes with the proceeds from the 2007 Senior Credit Facility obtained on February 27, 2007. We incurred \$8,759 of tender premium and \$215 of call premium together with \$335 of fees and expenses related to the tender of the 2003 Senior Notes. Net deferred financing costs related to the Company's previous senior secured revolving credit facility entered into in 2003 (the "2003 Senior Credit Facility") and the 2003 Senior Notes totaling approximately \$3,212 were expensed in the first quarter of 2007.
- (4) Includes wholly-owned and partly-owned clubs. In addition, during 2008, 2009 and 2010 we managed four university fitness clubs in which we did not have an equity interest. During 2006 and 2007 we managed five university fitness clubs in which we did not have an equity interest.
- (5) Represents members at wholly-owned and partly-owned clubs.
- (6) Total revenue for a club is included in comparable club revenue increase beginning on the first day of the thirteenth full calendar month of the club's operation.
- (7) Revenue per weighted average club is calculated as total revenue divided by the product of the total number of clubs and their weighted average months in operation as a percentage of the period.
- (8) Average revenue per member is total revenue from wholly-owned clubs for the period divided by the average number of memberships from wholly-owned clubs for the period, including new student, summer student and summer pool memberships, where average number of memberships for the period is derived by dividing the sum of the total memberships at the end of each month during the period by the total number of months in the period.
- (9) Average joining fees per member is calculated as total initiation and processing fees divided by the number of new members, excluding pre-sold, summer student and summer pool memberships and including the new student memberships during each respective year.
- (10) Annual attrition is calculated as total member losses for the year divided by the average monthly member count over the year excluding pre-sold, summer student and summer pool memberships and including new student memberships during each respective year.

Item 7. Management's Discussion and Analysis of Financial Condition & Results of Operations

You should read the following discussion and analysis of our financial condition and consolidated results of operations in conjunction with the "Selected Consolidated Financial and Other Data" section of this Annual Report and our consolidated financial statements and the related notes appearing at the end of this Annual Report. In addition to historical information, this discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions (see "FORWARD-LOOKING STATEMENTS" discussion). Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, but not limited to, those set forth in "Item 1A. Risk Factors" of this Annual Report.

Overview

We are the largest owner and operator of fitness clubs in the Northeast and Mid-Atlantic regions of the United States. As of December 31, 2010, we owned and operated 160 clubs that collectively served approximately 493,000 members. We develop clusters of clubs to serve densely populated major metropolitan regions and we service such populations by clustering clubs near the highest concentrations of our target customers' areas of both employment and residence. Our clubs are located for maximum convenience to our members in urban or suburban areas, close to transportation hubs or office or retail centers. The majority of our members is between the ages of 21 and 60 and has an annual income of between \$50,000 and \$150,000. We believe that this "mid-value" segment of the market is not only the broadest but also the segment with the greatest growth opportunities.

Our goal is to be the most recognized health club network in each of the four major metropolitan regions that we serve. We believe that our strategy of clustering clubs provides significant benefits to our members and allows us to achieve strategic operating advantages. In each of our markets, we have developed clusters by initially opening or acquiring clubs located in the more central urban markets of the region and then branching out from these urban centers to suburbs and neighboring communities. Capitalizing on this clustering of clubs, as of December 31, 2010, approximately 47% of our members participated in our Passport membership which allows unlimited access to all of our clubs in our clusters within one, or all of, our regions, respectively, for higher monthly membership dues. Approximately 50% of our members participate in our previously offered Gold membership which allows unlimited access to a designated club and access to all other clubs during off-peak hours and 3% of our members participate in our newly offered Core membership, which allows unlimited access to the member's home club.

We have executed our clustering strategy successfully in the New York region through the network of fitness clubs we operate under our New York Sports Clubs brand name. We are the largest fitness club operator in Manhattan with 38 locations (more than twice as many as our nearest competitor) and operated a total of 108 clubs under the New York Sports Clubs brand name within a 120-mile radius of New York City as of December 31, 2010. We operated 25 clubs in the Boston region under our Boston Sports Clubs brand name, 18 clubs (two of which are partly-owned) in the Washington, D.C. region under our Washington Sports Clubs brand name and six clubs in the Philadelphia region under our Philadelphia Sports Clubs brand name as of December 31, 2010. In addition, we operated three clubs in Switzerland as of December 31, 2010. We employ localized brand names for our clubs to create an image and atmosphere consistent with the local community and to foster recognition as a local network of quality fitness clubs rather than a national chain.

The results for the year ended December 31, 2010 include the correction of an accounting error that resulted in a decrease in benefit for corporate income taxes and a related decrease in deferred tax assets in our consolidated statement of operations and consolidated balance sheet, respectively. In the fourth quarter of 2010, we identified un-reconciled temporary deductible differences, mainly related to fixed assets, which gave rise to deferred tax assets of \$357,000. These un-reconciled temporary differences principally relate to periods prior to 2008. As we were unable to identify a specific transaction that created this un-reconciled difference, such as the disposal of a certain asset, a current deduction could not be taken on our 2010 tax return. Accordingly, we wrote-off the deferred tax asset. This write-off resulted in the recognition of an out-of-period income tax expense in 2010 of \$352,000. We do not believe that this error correction is material to the current or prior reporting periods.

The results for the year ended December 31, 2009 include the correction of an accounting error that resulted in a cumulative pre-tax charge of \$751,000 to payroll and related expense and a related decrease in deferred membership costs on our consolidated statement of operations and consolidated balance sheet, respectively. Historically, we applied an accounting policy of capitalizing and then amortizing membership consultants'

commissions, bonuses and a portion of their base salaries, and related taxes and benefits, as direct costs of obtaining new members. Company policy limited the costs that could be capitalized to the amount of initiation fee revenue deferred for new memberships. The application of this policy required us to make certain estimates. In connection with a review of the accounting treatment for membership consultant salaries, including the application of the accounting policy and appropriateness of its estimate methodology, we determined that our previous estimates were incorrect. We concluded that it was not clear whether any portion of the consultants' base salaries and the taxes and benefits related to those base salaries should have been capitalized. While we are no longer deferring a portion of membership consultants' salaries and related taxes and benefits, we will continue to defer membership consultants' commissions and bonuses and portions of taxes and benefits related to those commissions and bonuses. See Note 2 — "Correction of Accounting Errors" to the consolidated financial statements for further details.

We are in the process of executing a number of key initiatives identified in an environmental sustainability master plan in the areas of energy efficiency, water consumption, recycling and greenhouse gas reduction. While many of the programs are still in the planning stage, we have already begun implementing recycling and lighting retro-fit projects and are preparing for a more aggressive roll-out in the months ahead. We believe these initiatives are helpful to enhancing the member and employee experience while reducing our environmental impacts and certain operating expenses.

Revenue and operating expenses

We have two principal sources of revenue:

- *Membership revenue:* Our largest sources of revenue are dues and joining fees paid by our members. These dues and fees comprised 80.1% of our total revenue for the year ended December 31, 2010. We recognize revenue from membership dues in the month when the services are rendered. Approximately 96% of our members pay their monthly dues by Electronic Funds Transfer, or EFT, while the balance is paid annually in advance. We recognize revenue from joining fees over the expected average life of the membership.
- *Ancillary club revenue:* For the year ended December 31, 2010, we generated 13.2% of our revenue from personal training and 5.7% of our revenue from other ancillary programs and services consisting of programming for children, group fitness training and other member activities, as well as sales of miscellaneous sports products.

We also receive revenue (approximately 1.0% of our total revenue for the year ended December 31, 2010) from the rental of space in our facilities to operators who offer wellness-related offerings, such as physical therapy and juice bars. In addition, we sell in-club advertising and sponsorships and generate management fees from certain club facilities that we do not wholly own. We refer to this revenue as Fees and Other revenue.

Our performance is dependent on our ability to continually attract and retain members at our clubs. We experience attrition at our clubs and must attract new members in order to maintain our membership and revenue levels. In the years ended December 31 2010 and 2009, our attrition rate was 41.9% and 45.2%, respectively. In 2009, our attrition levels increased partially as a result of the recessionary economy. In 2010, attrition moved closer to 2008 levels due to an improved member experience, a more stabilized economy and increased retention programs. We expect attrition levels to show modest improvement in 2011.

Our operating and selling expenses are comprised of both fixed and variable costs. Fixed costs include club and supervisory and other salary and related expenses, occupancy costs, including most elements of rent, utilities, housekeeping and contracted maintenance expenses, as well as depreciation. Variable costs are primarily related to payroll associated with ancillary club revenue, membership sales compensation, advertising, certain facility repairs and club supplies.

General and administrative expenses include costs relating to our centralized support functions, such as accounting, insurance, information and communication systems, purchasing, member relations, legal and consulting fees and real estate development expenses. Payroll and related expenses are included in a separate line item on the consolidated statement of operations and are not included in general and administrative expenses.

As clubs mature and increase their membership base, fixed costs are typically spread over an increasing revenue base and operating margins tend to improve. Conversely, when our membership base declines our operating

margins are negatively impacted. During 2010, membership at our clubs opened over 24 months increased approximately 1.5%. These membership increases have increased our operating margins in 2010 compared to 2009.

Our primary capital expenditures relate to the construction or acquisition of new club facilities and upgrading and expanding our existing clubs. The construction and equipment costs vary based on the costs of construction labor, as well as the planned service offerings and size and configuration of the facility. We perform routine improvements at our clubs and partial replacement of the fitness equipment each year for which we are currently budgeting approximately 3.0% to 5.0% of projected annual revenue. Expansions of certain facilities are also performed from time to time, when incremental space becomes available on acceptable terms and utilization and demand for the facility dictate. In this regard, facility remodeling is also considered where appropriate.

From 2009 to 2010, operating income increased 141.8% and from 2008 to 2009 operating income decreased 76.8%. In 2009, we experienced an overall decrease of earnings and experienced considerable impairment charges related to our internal-use software project and on fixed assets at nine of our clubs. In 2010, we did not incur impairment charges of this magnitude.

	Year Ended December 31,		
	2010	2009	2008
	(In thousands)		
Operating income	\$18,440	\$ 7,625	\$32,817
Increase (decrease) over prior period	141.8%	(76.8)%	(43.3)%
Net (loss) income	\$ (290)	\$ (5,668)	\$ 2,337
Increase (decrease) over prior period	94.9%	(342.5)%	(82.9)%
Cash flows provided by operating activities	\$51,238	\$76,241	\$95,622
(Decrease) increase over prior period	(32.8)%	(20.3)%	15.6%

Historically, we have focused on building or acquiring clubs in areas where we believe the market is underserved or where new clubs are intended to replace existing clubs at their lease expiration. Based on our experience, a new club tends to experience a significant increase in revenues during its first three years of operation as it reaches maturity. Because there is relatively little incremental cost associated with such increasing revenue, there is a greater proportionate increase in profitability. We believe that the revenues and operating income of our immature clubs will increase as they mature. In contrast, operating income margins may be negatively impacted in the near term by our new club openings. In 2010, we closed one club with collectively marginal to no operating cash flow. In most cases, we are able to transfer many of the members of closed clubs to other clubs thereby enhancing overall profitability. We currently expect to close one club in 2011. We will continue to opportunistically pursue closing underperforming clubs.

As of December 31, 2010, 158 of the existing fitness clubs were wholly-owned by us and our consolidated financial statements include the operating results of all such clubs. Two locations in Washington, D.C. were partly-owned and operated by us, with our profit sharing percentages approximating 20% (after priority distributions) and 45%, respectively, and are treated as unconsolidated affiliates for which we apply the equity method of accounting. In addition, we provide management services at four fitness clubs located in colleges and universities in which we have no equity interest.

Comparable Club Revenue

We define comparable club revenue as revenue at those clubs that were operated by us for over 12 months and comparable club revenue increase (decrease) as revenue for the 13th month and thereafter as applicable as compared to the same period of the prior year.

	Comparable Club Revenue Increase (Decrease)	
	Quarter	Full-Year
2008		
First Quarter	4.5%	
Second Quarter	3.2%	
Third Quarter	2.2%	
Fourth Quarter	(1.4)%	2.2%
2009		
First Quarter	(2.1)%	
Second Quarter	(6.3)%	
Third Quarter	(7.0)%	
Fourth Quarter	(7.1)%	(5.6)%
2010		
First Quarter	(6.0)%	
Second Quarter	(4.2)%	
Third Quarter	(5.0)%	
Fourth Quarter	(1.7)%	(4.3)%

Key determinants of comparable club revenue increases (decreases) are new memberships, member retention rates, pricing and ancillary revenue increases (decreases).

Comparable club revenue had generally been trending downward since the first quarter of 2007; however, beginning in the first quarter of 2010, the decreases began to improve modestly. In the year ended December 31, 2009, membership at our comparable clubs decreased 5.2% as compared to 2008 and in 2010 membership increased 1.4% as compared to 2009. Further increases in membership coupled with an expected increase in personal training revenue will be contributing factors to the expected improvement in comparable club revenue and therefore operating margins in 2011. In 2011, we expect modest improvement and to have slight comparable club revenue increases in the second half of the year when compared to the same periods in 2010.

Historical Club Count

	Year Ended December 31,		
	2010	2009	2008
Wholly-owned clubs operated at beginning of period	159	164	159
New clubs opened	—	4	9
Clubs closed or relocated	(1)	(9)	(4)
Wholly-owned clubs operated at end of period	158	159	164
Partly-owned clubs operated at end of period	2	2	2
Total clubs operated at end of period(1)	<u>160</u>	<u>161</u>	<u>166</u>

(1) Includes wholly-owned and partly-owned clubs. In addition, during these periods, we managed four university fitness clubs in which we did not have an equity interest.

Results of Operations

The following table sets forth certain operating data as a percentage of revenue for the periods indicated:

	Year Ended December 31,		
	2010	2009	2008
Revenues	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>
Operating expenses:			
Payroll and related	40.1	39.9	38.2
Club operating	37.7	36.9	34.0
General and administrative	6.2	6.5	6.7
Depreciation and amortization	11.3	11.7	10.4
Impairment of fixed assets	0.7	1.4	0.8
Impairment of internal-use software	—	2.1	—
Impairment of goodwill	—	—	<u>3.5</u>
Operating income	4.0	1.5	6.4
Interest expense	4.6	4.3	4.7
Interest income	(0.0)	(0.0)	(0.1)
Equity in the earnings of investees and rental income	<u>(0.5)</u>	<u>(0.4)</u>	<u>(0.5)</u>

Net (loss) income	<u>(0.1)%</u>	<u>(1.2)%</u>	<u>0.5%</u>

Year ended December 31, 2010 compared to year ended December 31, 2009

Revenue

Revenue (in thousands) was comprised of the following for the periods indicated:

	Year Ended December 31,				
	2010		2009		% Variance
	Revenue	% Revenue	Revenue	% Revenue	
Membership dues	\$363,429	78.6%	\$387,123	79.7%	(6.1)%
Joining fees	<u>6,967</u>	<u>1.5%</u>	<u>12,048</u>	<u>2.5%</u>	(42.2)%
Membership revenue	<u>370,396</u>	<u>80.1%</u>	<u>399,171</u>	<u>82.2%</u>	(7.2)%
Personal training revenue	60,875	13.2%	56,971	11.7%	6.9%
Other ancillary club revenue	<u>26,355</u>	<u>5.7%</u>	<u>24,589</u>	<u>5.1%</u>	7.2%
Ancillary club revenue	87,230	18.9%	81,560	16.8%	7.0%
Fees and other revenue	<u>4,761</u>	<u>1.0%</u>	<u>4,661</u>	<u>1.0%</u>	2.1%
Total revenue	<u>\$462,387</u>	<u>100.0%</u>	<u>\$485,392</u>	<u>100.0%</u>	(4.7)%

Revenue decreased 4.7% in the year ended December 31, 2010 compared to the year ended December 31, 2009. For the year ended December 31, 2010, revenues increased \$2.4 million as compared to the year ended December 31, 2009 at the four clubs opened or acquired subsequent to December 31, 2008. For the year ended December 31, 2010, revenue decreased 4.6% or \$21.7 million at our clubs opened or acquired prior to December 31, 2008 and \$6.1 million at the ten clubs that were closed subsequent to December 31, 2008.

Personal training revenue in the year ended December 31, 2010 includes \$2.7 million related to unused and expired personal training sessions. We recognize revenue from personal training sessions as the services are performed (i.e., when the session is trained). Unused personal training sessions expire after a set, disclosed period of time after purchase and are not refundable or redeemable by the member for cash. The State of New York has

informed us that it is considering whether we are required to remit the amount received by us for unused, expired personal training sessions to the State of New York as unclaimed property. As of December 31, 2010, we had approximately \$11.7 million of unused and expired personal training sessions at our six remaining jurisdictions that have not been recognized as revenue and recorded as deferred revenue. We do not believe that these amounts are subject to the escheatment or abandoned property laws of any jurisdiction, including the State of New York. However, it is possible that one of these jurisdictions may not agree with our position and may claim that we must remit all or a portion of these amounts to such jurisdiction. For three of our jurisdictions in which we operate, we concluded, based on opinions from outside counsel, that monies held by a company for unused and expired personal training sessions are not escheatable. As a result, the Company has removed approximately \$2.7 million from deferred revenue, of which approximately \$570,000 related to expired sessions that would have been recognized the year ended December 31, 2010, and recorded such amount as personal training revenue in the fourth quarter of 2010.

This 4.7% decrease in total revenue was driven primarily by a decline in membership revenue resulting from the decrease in membership trends. We began the years ended December 31, 2010 and 2009 with 486,000 and 510,000 members, respectively. While over the course of 2009 we lost a net of 24,000 members and in 2010 we gained a net of 7,000 members, we averaged more members throughout 2009 compared to 2010, resulting in the decrease in revenue in the year ended December 31, 2010 compared to the year ended December 31, 2009. Average EFT of individual membership dues on a per-member basis, including the effect of promotions and memberships with reduced dues, decreased from \$64 per month in 2009 to \$62 per month in 2010.

Joining fees collected in the year ended December 31, 2010 were \$7.9 million compared to \$4.0 million in the same period in 2009. However, because joining fees are recognized over estimated average member life, joining fee revenue decreased due to the decline in joining fees collected in 2009 relative to fees collected in prior periods.

Effective April 1, 2010, the estimated average membership life changed from 28 months to 25 months and effective July 1, 2010 it changed to 27 months. These changes resulted in a net increase of \$462,000 in joining fee revenue recognized in the year ended December 31, 2010.

Comparable club revenue decreased 4.3% for the year ended December 31, 2010 compared to the year ended December 31, 2009. Of this 4.3% decrease, 1.7% was due to a decrease in membership, 2.4% was due to a decrease in price and 0.2% was due to a collective decrease in ancillary club revenue, initiation fees and other revenue.

Operating Expenses

Operating expenses (in thousands) were comprised of the following for the periods indicated:

	Year Ended December 31,		\$ Variance	% Variance
	2010	2009		
Payroll and related	\$185,583	\$193,891	\$ (8,308)	(4.3)%
Club operating	174,135	178,854	(4,719)	(2.6)%
General and administrative	28,773	31,587	(2,814)	(8.9)%
Depreciation and amortization	52,202	56,533	(4,331)	(7.7)%
Impairment of fixed assets	3,254	6,708	(3,454)	(51.5)%
Impairment of internally developed software	—	10,194	(10,194)	(100.0)%
Operating expenses	<u>\$443,947</u>	<u>\$477,767</u>	<u>\$(33,820)</u>	<u>(7.1)%</u>

Operating expenses for the year ended December 31, 2010 were impacted by a 3.5% decrease in the total months of club operation from 1,970 to 1,902, the effects of which are included in the additional descriptions of changes in operating expenses below.

Payroll and related. This change was primarily impacted by the following factors:

- Payroll related to our membership consultants decreased \$9.1 million. The amount of membership consultant commissions deferred over the prior two years had been declining with our decline in joining fees collected. We limit the amount of payroll costs that we defer to the amount of joining fees collected. This resulted in a decrease in membership consultant commissions expensed in the year ended December 31, 2010 relating to deferrals established in prior years of \$6.4 million. Also contributing to this decrease was the

increase in the amount of payroll costs deferred in the year ended December 31, 2010 compared to the year ended December 31, 2009 of \$1.6 million as joining fees collected increased in 2010. The aforementioned decrease in payroll is net of a \$411,000 charge reflecting the changes in the estimated average membership life from 28 months to 25 months effective April 1, 2010 and to 27 months effective July 1, 2010.

- Payroll related to club staffing, excluding membership consultants, decreased \$1.7 million from staffing efficiencies realized in the year ended December 31, 2010 compared to 2009.
- Payroll related to our management incentive bonuses was \$1.6 million higher in the year ended December 31, 2010 compared to 2009. We recorded our management incentive bonus payout at 100% of target for the year ended December 31, 2010 compared to 50% in the same period in 2009 due to meeting our bonus targets for 2010.
- Personal training payroll increased \$2.1 million due to the increase in personal training revenue as well as an increase in payroll related to personal training promotions geared at attracting additional personal training clientele.

As a percentage of total revenue, payroll and related expenses increased to 40.1% in the year ended December 31, 2010 from 39.9% in the year ended December 31, 2009.

Club operating. This change was primarily impacted by the following factors:

- Operating expenses relating to laundry and towels decreased approximately \$1.2 million primarily related to the opening of our laundry facility in Elmsford, NY in January 2009.
- Utilities decreased \$1.1 million in the year ended December 31, 2010 compared with 2009.
- Rent and occupancy expenses decreased \$285,000. Rent and occupancy expenses decreased \$1.7 million at our clubs that were closed after January 1, 2009. In addition, we recorded early lease termination costs of \$1.3 million in the year ended December 31, 2009 at five clubs that were closed prior to the lease expiration dates. We also recorded \$700,000 in damages in June 2009 paid to a landlord of one of TSI LLC's former health clubs. Offsetting these decreases was an increase \$3.1 million at our clubs that opened prior to January 1, 2009 and \$322,000 at clubs that opened after January 1, 2009.

As a percentage of total revenue, club operating expenses increased to 37.7% in the year ended December 31, 2010 from 36.9% in the year ended December 31, 2009.

General and administrative. The decrease in general and administrative expenses for the year ended December 31, 2010 when compared to the year ended December 31, 2009 was principally attributable to a decrease in general liability insurance expense due to a reduction in claims activity and therefore a reduction of claims reserves. In addition, during the year ended December 31, 2010, we benefited from our cost reduction efforts within various general and administrative expense accounts including information and communication costs. Partially offsetting these decreases were increases in legal and related fees for various litigations as well as costs related to our leadership conference in March 2010.

As a percentage of total revenue, general and administrative expenses decreased to 6.2% in the year ended December 31, 2010 from 6.5% in the year ended December 31, 2009.

Depreciation and amortization. In the year ended December 31, 2010 compared to the year ended December 31, 2009, depreciation and amortization decreased due to the accelerated depreciation related to clubs closed prior to lease expiration dates in the year ended December 31, 2009 and the closing of five clubs subsequent to December 31, 2009. In addition, in the year ended December 31, 2009 and the year ended December 31, 2010, we recorded fixed asset impairment charges, decreasing the balance of fixed assets to be depreciated.

As a percentage of total revenue, depreciation and amortization expenses decreased to 11.3% in the year ended December 31, 2010 from 11.7% in year ended December 31, 2009.

Impairment of fixed assets. In the year ended December 31, 2010, we recorded fixed asset impairment charges totaling \$3.3 million, representing \$1.6 million of fixed assets at three underperforming clubs and \$1.7 million related to the planned closure of one club prior to the lease expiration date. In the year ended December 31, 2009, we recorded fixed asset impairment charges totaling \$6.7 million, which represented the write-off of fixed assets at nine underperforming clubs.

Impairment of internal-use software. In the year ended December 31, 2009, we recorded impairment charges of \$10.2 million related to an internal-use software project. Although the software project was not yet completed, we determined that it is not probable that we will continue in the development of this project due to pending litigation. See Note 5 — Fixed Assets and Note 13 — Contingencies to the Company's consolidated financial statements in this Annual Report for further details. There were no such impairment charges in the year ended December 31, 2010.

Benefit for Corporate Income Taxes

We recorded a benefit for corporate income taxes of \$144,000 for the year ended December 31, 2010 compared to a benefit of \$5.8 million for the year ended December 31, 2009. Our effective tax rate benefit was 33% in the year ended December 31, 2010 compared to 51% in the year ended December 31, 2009. The expected benefits from our Captive Insurance arrangement increased our effective tax rate benefit on our pre-tax loss in the year ended December 31, 2010 and increased the benefit on the pre-tax loss in the year ended December 31, 2009.

As of December 31, 2010, we have net deferred tax assets of \$41.9 million. Quarterly, we assess the weight of all positive and negative evidence to determine whether the net deferred tax asset is realizable. In 2010 and 2009, we incurred losses and expect to be profitable in 2011. We have historically been a taxpayer and projects that it will be in a three year cumulative income position, excluding non-recurring items, as of December 31, 2011. In addition, we, based on recent trends, projects improved performance and future income sufficient to realize the deferred tax assets during the periods when the temporary tax deductible differences reverse. We have state net operating loss carry-forwards which we believe will be realized within the available carry-forward period, except for a small state operating loss carryforward in Rhode Island due to the short carryforward period in that state. Accordingly, we concluded that it is more likely than not that the deferred tax assets will be realized. If actual results do not meet our forecasts and we incur losses in 2011, a valuation allowance against the deferred tax assets may be required in the future. In addition, with exception of the deductions related to our captive insurance for state taxes, taxable income has been and is projected to be the same as Federal. Because the captive insurance company will be discontinued, the assessment of realizability of the state deferred tax assets is consistent with the Federal tax analysis above with the exception of the aforementioned Rhode Island loss carryforward.

Year ended December 31, 2009 compared to year ended December 31, 2008

Revenue

Revenue (in thousands) was comprised of the following for the periods indicated:

	Year Ended December 31,				% Variance
	2009		2008		
	Revenue	% Revenue	Revenue	% Revenue	
Membership dues	\$387,123	79.7%	\$400,874	79.1%	(3.4)%
Joining fees	12,048	2.5%	13,723	2.7%	(12.2)%
Membership revenue	399,171	82.2%	414,597	81.8%	(3.7)%
Personal training revenue	56,971	11.7%	61,752	12.2%	(7.7)%
Other ancillary club revenue	24,589	5.1%	24,329	4.8%	1.1%
Ancillary club revenue	81,560	16.8%	86,081	17.0%	(5.2)%
Fees and other revenue	4,661	1.0%	6,031	1.2%	(22.7)%
Total revenue	<u>\$485,392</u>	<u>100.0%</u>	<u>\$506,709</u>	<u>100.0%</u>	(4.2)%

Revenue decreased 4.2% in the year ended December 31, 2009 compared to the year ended December 31, 2008. This decrease in revenue was driven primarily by a decline in membership revenue and ancillary club revenue. For the year ended December 31, 2009, revenues increased \$19.6 million as compared to the year ended December 31, 2008 at the 13 clubs opened or acquired subsequent to December 31, 2007. For the year ended

December 31, 2009, revenue decreased 6.8% or \$32.7 million at our clubs opened or acquired prior to December 31, 2007 and \$8.2 million at the 13 clubs that were closed subsequent to December 31, 2007.

Comparable club revenue decreased 5.6% for the year ended December 31, 2009 compared to the year ended December 31, 2008. Of this 5.6% decrease, 2.5% was due to a decrease in membership, 1.2% was due to a decrease in price and 1.9% was due to a decrease in ancillary club revenue and fees and other revenue.

Our one-time member initiation fees and a portion of related direct expenses, up to the amount of those initiation fees, are deferred and recognized on a straight-line basis in operations over the estimated membership life. See Note 3 — Summary of Significant Accounting Policies to the consolidated financial statements in this Annual Report. Effective April 1, 2009, we changed the estimated life of our memberships from 30 months to 28 months. The change in estimated membership life was principally due to an unfavorable trend in membership retention rates, and it has the effect of increasing initiation fees revenue recognized in the current period because a shorter amortization period is being applied resulting in an \$800,000 increase in initiation fee revenue recognized in the year ended December 31, 2009 when compared to the prior year.

Personal training revenue decreased 7.7% for the year ended December 31, 2009 compared to the prior year. We attribute this decrease primarily to reduced consumer spending.

Fees and other revenue decreased 22.7% in the year ended December 31, 2009 compared to the prior year primarily due to a decrease in marketing revenue generated by our in-club advertising programs.

Operating Expenses

Operating expenses (in thousands) were comprised of the following for the periods indicated:

	Year Ended December 31,		\$ Variance	% Variance
	2009	2008		
Payroll and related	\$193,891	\$193,580	\$ 311	0.2%
Club operating	178,854	172,409	6,445	3.7%
General and administrative	31,587	33,952	(2,365)	(7.0)%
Depreciation and amortization	56,533	52,475	4,058	7.7%
Impairment of fixed assets	6,708	3,867	2,841	73.5%
Impairment of internally developed software	10,194	—	10,194	NA
Impairment of goodwill	—	17,609	(17,609)	(100.0)%
Operating expenses	<u>\$477,767</u>	<u>\$473,892</u>	<u>\$ 3,875</u>	0.8%

Operating expenses for the year ended December 31, 2009 were impacted by an 8.2% increase in total club usage year over year and a 1.8% increase in the total months of club operation from 1,935 to 1,970, the effects of which are included in the additional descriptions of changes in operating expenses below.

Payroll and related. This change was primarily impacted by the following factors:

- In 2008, we began discounting our member initiation fees in an effort to drive membership sales. Our payroll costs related to new membership contracts that we defer are limited to the amount of these initiation fees, thus causing an increase of approximately \$1.8 million in current payroll expense, net of club commissions and bonuses, in the year ended December 31, 2009. See Note 3 — Summary of Significant Accounting Policies to the consolidated financial statements in this Annual Report.
- In December 2009, we made an adjustment to correct an accounting error related to deferred membership costs. The correction of the error, which increased payroll expense by \$751,000 in the three month-period ended December 31, 2009, represented the net cumulative adjustment for the years ended December 31, 2005 through December 31, 2009. See Note 2 — Correction of Accounting Errors to our consolidated financial statements in this Annual Report for further details.
- Effective April 1, 2009, we changed the estimated membership life from 30 months to 28 months. This change resulted in an increase in payroll expense of \$753,000 when compared to 2008.
- Severance charges increased \$781,000 principally related to a reduction in force in January 2009.

These increases were partially offset by a decrease in ancillary club payroll of \$2.9 million directly related to the decrease in ancillary club revenue.

As a percentage of total revenue, payroll and related expenses increased to 39.9% in the year ended December 31, 2009 from 38.2% in the prior year.

Club operating. This change was primarily impacted by the following factors:

- Rent and occupancy expenses increased \$7.8 million. Rent and occupancy costs increased \$4.9 million at clubs that opened after December 31, 2007, \$3.3 million at our clubs that opened prior to December 31, 2007 and \$441,000 at our laundry facility in Elmsford, NY. In addition, in the year ended December 31, 2009 we recorded early lease termination costs of \$1.3 million at five clubs which were closed prior to their lease expiration dates. Rent and occupancy expenses decreased \$2.5 million, excluding rent penalties, at our clubs that were closed after December 31, 2007.
- Operating expenses relating to laundry and towels decreased \$1.2 million primarily related to the opening of our laundry facility in Elmsford, NY in January 2009.

As a percentage of total revenue, club operating expenses increased to 36.9% in the year ended December 31, 2009 from 34.0% in the prior year.

General and administrative. This decrease was principally attributable to a \$2.0 million decrease in general liability insurance expense. Our claims experience activity has been decreasing as a percentage of our revenue, resulting in a decreased loss trend rate, and reductions in related claims reserves requirements. In addition, we reduced our insurance reserves because we have lower claims exposure as a result of a decrease in the number of memberships. The remainder of the expense decrease was due to cost reduction efforts realized within various general and administrative expense accounts, including data and phone lines, office supplies and travel.

As a percentage of total revenue, general and administrative expenses decreased slightly to 6.5% in 2009 from 6.7% in the prior year.

Depreciation and amortization. The increase in depreciation and amortization expenses was principally due to the acceleration of depreciation related to clubs closed prior to their lease expiration dates in 2009 and to the 13 clubs that opened in the two year period ended December 31, 2009. We also began depreciating the new laundry facility and corporate office in Elmsford, NY, which opened in January 2009.

Impairment of fixed assets. In the year ended December 31, 2009, we recorded fixed asset impairment charges totaling \$6.7 million, which represented the write-offs of fixed assets at nine underperforming clubs. During the year ended December 31, 2008, we recorded an impairment loss of \$755,000 on fixed assets of a remote club that did not benefit from being part of a regional cluster and did not sustain profitable membership levels given the competition in its market and \$1.2 million related to the planned closures of two clubs prior to their lease expiration dates.

Impairment of internal-use software. In the year ended December 31, 2009, we recorded impairment charges of \$10.2 million related to an internal-use software project. Although the software project was not yet completed, we determined that it is not probable that we will continue in the development of this project due to pending litigation. See Note 5 — Fixed Assets and Note 13 — Contingencies to the Company's consolidated financial statements in this Annual Report for further details.

Interest Expense

Interest expense decreased \$2.9 million or 12.3%, from \$23.9 million to \$21.0 million for the year ended December 31, 2009 compared to the same period in the prior year. This decrease is a result of the lower variable rate of interest on our Term Loan Facility during the year ended December 31, 2009 period. For the year ended December 31, 2008, the average variable interest rate on the Term Loan Facility was approximately 4.9%, while the average variable interest rate for the year ended December 31, 2009 was approximately 2.2%.

Provision (Benefit) for Corporate Income Taxes

We recorded a benefit for corporate income taxes of \$5.8 million for the year ended December 31, 2009 compared to a provision of \$9.2 million for the year ended December 31, 2008, calculated using the Company's effective tax rate. For the year ended December 31, 2009 we recognized a \$637,000 charge for the undistributed

earnings of our non-U.S. subsidiaries since we may choose to reinvest those earnings in the U.S. Also in 2009, we recognized state tax benefits of \$1.2 million related to self-insurance.

Liquidity and Capital Resources

Historically, we have satisfied our liquidity needs through cash generated from operations and various borrowing arrangements. Principal liquidity needs have included the acquisition and development of new clubs, debt service requirements and other capital expenditures necessary to upgrade, expand and renovate existing clubs.

Operating Activities. Net cash provided by operating activities for the year ended December 31, 2010 was \$51.2 million compared to \$76.2 million for the year ended December 31, 2009, a decrease of 32.8%. This decrease was related to the decrease in earnings, excluding depreciation and amortization and impairments of \$12.6 million. Total cash paid for interest increased \$7.4 million to \$20.2 million. On February 1, 2009, our Senior Discount Notes became fully accreted with an outstanding balance of \$138.5 million. Semi-annual cash interest payments of \$7.6 million commenced on August 1, 2009. In the year ended December 31, 2009, the August 1, 2009 interest payment of \$7.6 million represented a single semi-annual payment. In the year ended December 31, 2010, there were two semi-annual payments totaling \$15.2 million, resulting in an increase in cash paid for interest of \$7.6 million on our Senior Discount Notes. In addition, our landlord contributions decreased \$4.7 million in 2010 when compared with that of 2009 and prepaid rent increased approximately \$5.0 million; both reducing our 2010 operating cash flows compared to 2009. The effect of the change in deferred revenue and deferred membership costs increased cash \$1.8 million in the aggregate in the year ended December 31, 2010 offsetting the decrease in cash.

Net cash provided by operating activities decreased 20.3% for the year ended December 31, 2009 compared to the year ended December 31, 2008. This decrease was primarily related to the decrease in overall earnings. Also contributing to the decrease were the effects of an increase in cash paid for interest and reductions in deferred revenue. Total cash paid for interest increased \$2.8 million to \$12.8 million. Deferred revenue decreased \$8.2 million in the year ended December 31, 2009 and \$4.2 million in the prior year. Offsetting these decreases, in 2009 we had tax refunds, net of tax payments, of \$3.9 million while in 2008 we had tax payments, net of refunds, of \$15.9 million for an increase in cash of \$19.8 million.

Investing Activities. Investing activities in the year ended December 31, 2010 consisted primarily of remodeling existing clubs and the purchase of new fitness equipment. Net cash used in investing activities decreased 55.3% to \$22.0 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. During the year ended December 31, 2010, we spent \$15.9 million to upgrade existing clubs, \$4.9 million related to major renovations at clubs with recent lease renewals and upgrading our in-club entertainment system network and \$660,000 to enhance our management information systems. The remainder of our 2010 capital expenditures was committed to building or expanding clubs. These expenditures were funded by cash flow provided by operations, available cash on hand and, to the extent needed, borrowings from the \$63.8 million Revolving Loan Facility.

For the year ending December 31, 2011, we currently plan to invest \$29.0 million to \$32.0 million in capital expenditures. This is an increase from \$22.0 million of capital expenditures in 2010. This amount includes approximately \$7.5 million to \$8.5 million related to the two planned club openings in the second half of 2011, approximately \$15.5 million to continue to upgrade existing clubs and \$4.3 million principally related to major renovations at clubs with recent lease renewals and upgrading our in-club entertainment system network. We also expect to invest \$2.0 million to \$3.0 million to enhance our management information systems. These expenditures will be funded by cash flow provided by operations, available cash on hand and, to the extent needed, borrowings from the \$63.8 million Revolving Loan Facility.

Investing activities in the year ended December 31, 2009 consisted primarily of expanding and remodeling existing clubs and the purchase of new fitness equipment. Net cash used in investing activities decreased 48.2% or \$45.8 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. During the year ended December 31, 2009, we spent \$23.4 million to upgrade existing clubs, \$16.6 million for growth capital expenditures primarily related to clubs added in 2008 and 2009, \$4.6 million to enhance our management information systems and \$4.7 million for the construction of corporate offices and the completion of our new regional laundry facility in our New York Sports Clubs market. During the year ended December 31, 2008, we spent

\$23.6 million on upgrading existing clubs, \$9.1 million to enhance our management information systems, \$5.7 million for the construction of a new regional laundry facility in our New York Sports Clubs market and the remaining \$57.8 million for the building of new clubs or the expansion of existing clubs. We also received \$1.1 million in insurance proceeds during the year ended December 31, 2008.

Financing Activities. Net cash used in financing activities decreased \$25.0 million for the year ended December 31, 2010 compared to the year ended December 31, 2009. In the year ended December 31, 2009, we paid \$5.4 million related to repurchases of 2.1 million shares of our common stock and had net repayments on the Revolving Loan Facility of \$19.0 million. There were no common stock repurchases or Revolving Loan Facility repayments in the year ended December 31, 2010. Additionally, in July 2009, the Company incurred an aggregate of approximately \$615,000 in fees and expenses related to an amendment to the 2007 Senior Credit Facility. In both years ended December 31, 2010 and 2009, we made principal payments of \$1.9 million on our outstanding Term Loan Facility.

Net cash related to financing activities decreased \$31.0 million for the year ended December 31, 2009 compared to the year ended December 31, 2008 primarily related to the repayment of outstanding borrowings under our Revolving Credit Facility of \$19.0 million in the year ended December 31, 2009 compared to net borrowings in the year ended December 31, 2008 of \$10.0 million and the \$5.4 million payment related to repurchases of 2.1 million shares of our common stock compared to \$4.6 million for the year ended December 31, 2008. Proceeds related to the exercise of stock options decreased \$1.2 million in 2009 compared to 2008. In both years ended December 31, 2009 and 2008, we made \$1.9 million of principal payments on our outstanding Term Loans.

Senior Discount Notes

On February 4, 2004, TSI Holdings completed an offering of the Senior Discount Notes that will mature in February 2014. The Senior Discount Notes are publicly traded. No cash interest was required to be paid prior to August 2009. The accreted value of each discount note increased from the date of issuance until February 1, 2009, at a rate of 11.0% per annum compounded semi-annually and is currently at the fully accreted principal value. Since February 1, 2009, interest on the Senior Discount Notes is being accrued and is payable semi-annually in arrears February 1 and August 1 of each year, and commenced August 1, 2009. The discount notes are structurally subordinated and effectively rank junior to all indebtedness of TSI, LLC. The debt of TSI Holdings is not guaranteed by TSI, LLC and TSI Holdings relies on the cash flows of TSI, LLC, subject to restrictions contained in the indenture governing the Senior Discount Notes, to service its debt.

The indenture governing our Senior Discount Notes contains, among other things, covenants that may restrict our ability to finance future operations or capital needs or to engage in other business activities. The indenture governing our Senior Discount Notes restricts, among other things, our ability and the ability of our restricted subsidiaries to: incur additional indebtedness; pay dividends or make distributions; purchase or redeem stock; make investments and extend credit; engage in transactions with affiliates; engage in sale-leaseback transactions; consummate certain asset sales; effect consolidation or merger or sell, transfer, lease or otherwise dispose of all or substantially all of our assets; and create liens on our assets.

The covenant contained in the indenture limiting the incurrence of additional indebtedness allows the Company to incur such indebtedness provided that the Company will continue to be in compliance with a "fixed charge coverage ratio" of greater than 2.00 to 1.00. The indenture does, however, allow the Company and its subsidiaries to incur certain "permitted indebtedness" without regard to the fixed charge coverage ratio. The fixed charge coverage ratio is defined as the ratio of consolidated earnings before interest, taxes, and depreciation and amortization to consolidated interest expense with certain adjustments to these items as specified in the indenture. Reference should be made to the indenture for the detailed definitions of the defined terms used for purposes of the fixed charge coverage ratio (see Exhibit 4.1 to this Report). At December 31, 2010, our fixed charge coverage ratio, as calculated for purposes of the indenture, was 3.46 to 1.00.

2007 Senior Credit Facility

On February 27, 2007, TSI, LLC entered into the \$260.0 million 2007 Senior Credit Facility. The 2007 Senior Credit Facility consists of a Term Loan Facility, the \$75.0 million Revolving Loan Facility and an incremental term loan commitment facility in the maximum amount of \$100.0 million, under which borrowing is subject to compliance with certain conditions precedent by TSI, LLC and agreement upon certain terms and conditions

thereof between the participating lenders and TSI, LLC. The Revolving Loan Facility replaced the previously existing revolving credit facility of \$75.0 million that was to mature on April 15, 2008.

As a result of an amendment to the 2007 Senior Credit Facility on July 15, 2009 (the "Amendment"), the total amount of borrowings under the Revolving Loan Facility was reduced by 15% from \$75.0 million to \$63.8 million. Additionally, the Company incurred an aggregate of approximately \$615,000 in fees and expenses related to the Amendment. See Note 8 — Long-Term Debt to the Company's consolidated financial statements in this Annual Report for further details.

As of December 31, 2010, TSI, LLC had \$178.1 million outstanding under the Term Loan Facility. Borrowings under the Term Loan Facility, at TSI, LLC's option, bear interest at either the administrative agent's base rate plus 0.75% or its Eurodollar rate plus 1.75%, each as defined in the 2007 Senior Credit Facility. As of December 31, 2010, TSI, LLC had elected the Eurodollar rate option, equal to 2.1% as of December 31, 2010. Interest calculated under the base rate option would have equaled 4.0% as of December 31, 2010, if TSI, LLC had elected this option. The Term Loan Facility matures on the earlier of (a) February 27, 2014 or (b) August 1, 2013 if the Senior Discount Notes are still outstanding. TSI, LLC is required to repay 0.25% of principal, or \$462,500, per quarter. Quarterly principal payments began on June 30, 2007 and \$6.9 million has been paid as of December 31, 2010.

The Revolving Loan Facility expires on February 27, 2012 and borrowings under the facility currently, at TSI, LLC's option, bear interest at either the administrative agent's base rate plus 1.25% or its Eurodollar rate plus 2.25%, each as defined in the 2007 Senior Credit Facility. TSI, LLC's applicable base rate and Eurodollar rate margins, and commitment commission percentage, vary with our consolidated secured leverage ratio, as defined in the 2007 Senior Credit Facility. TSI, LLC is required to pay a commitment fee of 0.50% per annum on the daily unutilized amount.

TSI, LLC's applicable base rate and Eurodollar rate margins and commitment commission percentage vary with the Company's consolidated secured leverage ratio. The following table summarizes the interest rate margins and commitment commission percentages applicable at three separate secured leverage ratio levels as follows:

Level	Secured Leverage Ratio	Revolving Loans		Applicable Commitment Commission Percentage
		Base Rate Margin	Eurodollar Margin	
3	Greater than 1.50 to 1.00	1.25%	2.25%	0.50%
2	Greater than 1.00 to 1.00 but equal to or less than 1.50 to 1.00 . . .	1.00%	2.00%	0.50%
1	Equal to or less than 1.00 to 1.00	0.75%	1.75%	0.375%

The Company has been within the Level 3 range since entering into the Revolving Loan Facility in 2007 and expects to be in this range throughout 2011.

The 2007 Credit Agreement contains a covenant that requires us to comply with a "total leverage ratio" of not greater than 4:25 to 1:00 during any period in which borrowings or letters of credit are outstanding under the Revolving Loan Facility. The total leverage ratio is defined as the ratio of consolidated indebtedness (excluding the Senior Discount Notes and certain contingent obligations) to consolidated earnings before interest, taxes, and depreciation and amortization (with adjustments for transaction expenses relating to certain other debt, non-cash deferred compensation expense relating to issuance or repurchase of stock options and other equity interests, and deferred rent expense in addition to certain other items). Reference should be made to the 2007 Credit Agreement for the detailed definitions of the defined terms used for purposes of the total leverage ratio (see Exhibit 10.1 to this Annual Report). At December 31, 2010, our total leverage ratio, as calculated for purposes of the 2007 Credit Agreement, was 2.63:1.00.

There were no borrowings outstanding under the Revolving Loan Facility during the year ended December 31, 2010. The applicable interest rate on outstanding Term Loan Facility borrowings at December 31, 2010 was 2.1%, and outstanding letters of credit issued totaled \$10.7 million. The unutilized portion of the Revolving Loan Facility as of December 31, 2010 was \$53.1 million.

In addition, our operations are conducted through our subsidiaries and our ability to make payments on our outstanding Senior Discount Notes is dependent on the earnings and distribution of funds from our subsidiaries; however, our subsidiaries are not obligated to make funds available to us for payment on the outstanding Senior

Discount Notes. The terms of the indenture governing our Senior Discount Notes and the 2007 Senior Credit Facility significantly restrict the payment of dividends by us. Our subsidiaries are permitted under the terms of the 2007 Senior Credit Facility and the indenture governing our Senior Discount Notes to incur additional indebtedness that may severely restrict or prohibit the payment of dividends by such subsidiaries to us. Our substantial leverage may impair our financial condition and we may incur significant additional debt (see "Item 1A. Risk Factors").

The 2007 Credit Agreement contains covenants including, among others, limitations on the Company's and each of its subsidiaries' ability to: create, incur, assume or be liable for indebtedness (other than certain types of permitted indebtedness); dispose of assets outside the ordinary course (subject to certain exceptions); acquire, merge or consolidate with or into another person or entity (other than certain types of permitted acquisitions); create, incur or allow any lien on any of its property (except for certain permitted liens); make investments (other than certain types of investments); or pay dividends or make distributions (each subject to certain limitations). In addition, the 2007 Credit Agreement provides for certain events of default such as nonpayment of principal and interest when due thereunder, breaches of representations and warranties, noncompliance with covenants, acts of insolvency, default on indebtedness held by third parties and the occurrence of a change of control.

As of December 31, 2010, we were in compliance with our debt covenants in the 2007 Credit Agreement and given our operating plans and expected performance for 2011, we expect we will continue to be in compliance during 2011. These covenants may limit TSI, LLC's ability to incur additional debt. As of December 31, 2010, permitted borrowing capacity of \$63.8 million was not restricted by the covenants.

As of December 31, 2010, we had \$138.5 million of Senior Discount Notes outstanding.

As of December 31, 2010, we had \$38.8 million of cash and cash equivalents. Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents. Although we deposit our cash with more than one financial institution, as of December 31, 2010, \$22.0 million was held at one financial institution. We have not experienced any losses on cash and cash equivalent accounts to date and we do not believe that, based on the credit ratings of the aforementioned institutions, we are exposed to any significant credit risk related to cash at this time.

The 2007 Senior Credit Facility contains provisions that require Excess Cash Flow payments, as defined, to be applied against outstanding Term Loan Facility balances. The Applicable Excess Cash Flow Repayment Percentage is applied to the Excess Cash Flow when determining the Excess Cash Flow payment. The Applicable Excess Cash Flow Repayment Percentage is 50% when the Senior Secured Leverage Ratio, as defined, exceeds 2.00 to 1.00. Our total leverage ratio, as calculated for purposes of the 2007 Credit Agreement, was 2.63:1.00 as of December 31, 2010. Our earnings, changes in working capital and capital expenditure levels all impact the determination of any excess cash flows. The calculation was performed as of December 31, 2010 and resulted in a payment of \$12.7 million to be made with cash on hand on March 31, 2011 and is recorded as current portion of long-term debt on the December 31, 2010 consolidated balance sheet. We had not been required to pay any amount in respect of this requirement in the past.

Consolidated Debt

As of December 31, 2010, our total consolidated debt was \$316.5 million. This substantial amount of debt could have significant consequences, including:

- making it more difficult to satisfy our obligations;
- increasing our vulnerability to general adverse economic conditions;
- limiting our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions of new clubs and other general corporate requirements;
- requiring cash flow from operations for the payment of interest on our credit facility and our Senior Discount Notes and the payment of principal pursuant to excess cash flow requirements and reducing our ability to use our cash flow to fund working capital, capital expenditures, acquisitions of new clubs and general corporate requirements; and
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate.

These limitations and consequences may place us at a competitive disadvantage to other less-leveraged competitors.

We believe that we have, or will be able to, obtain or generate sufficient funds to finance our current operating and growth plans through the end of 2011. Any material acceleration or expansion of our plans through newly constructed clubs or acquisitions (to the extent such acquisitions include cash payments) may require us to pursue additional sources of financing prior to the end of 2011. There can be no assurance that such financing will be available, or that it will be available on acceptable terms.

Contractual Obligations and Commitments

The aggregate long-term debt and operating lease obligations as of December 31, 2010 were as follows:

<u>Contractual Obligations</u>	<u>Payments Due by Period (In thousands)</u>				
	<u>Total</u>	<u>Less than 1 Year</u>	<u>1-3 Years</u>	<u>4-5 Years</u>	<u>After 5 Years</u>
Long-term debt	\$ 316,513	\$ 14,550	\$163,513	\$138,450	\$ —
Interest payments on long-term debt(1) . .	56,199	18,727	36,203	1,269	—
Operating lease obligations(2)	<u>774,130</u>	<u>81,564</u>	<u>155,790</u>	<u>143,194</u>	<u>393,582</u>
Total contractual cash obligations	<u>\$1,146,842</u>	<u>\$114,841</u>	<u>\$355,506</u>	<u>\$282,913</u>	<u>\$393,582</u>

Notes:

- (1) Includes 11% annual interest on the Senior Discount Notes and variable interest on the 2007 Term Loan Facility using the rate as of December 31, 2010 of 2.1%.
- (2) Operating lease obligations include base rent only. Certain leases provide for additional rent based on real estate taxes, common area maintenance and defined amounts based on the operating results of the lessee.

The following long-term liabilities included on the consolidated balance sheet are excluded from the table above: income taxes (including uncertain tax positions), insurance accruals and other accruals. The Company is unable to estimate the timing of payments for these items.

Recent negative economic conditions have resulted in a tightening of the credit markets, including lending by financial institutions, which are the source of credit for our borrowing and a source of our liquidity. It is difficult to predict how long the current economic and capital and credit market conditions will continue; however, if current levels of economic and capital and credit market volatility continue or worsen, there can be no assurance that we will not experience further adverse impact, which may be material to our business and therefore our results of operations and liquidity, including our ability to borrow under the Revolving Loan Facility. Although we have made no request for funding under the Revolving Credit Facility, it is uncertain whether any of the lenders party thereto will participate in any future requests for funding or whether another lender might assume its commitments. Consequently, our ability to borrow under the Revolving Loan Facility may be adversely impacted. Based on information available to us, we do not expect that any of the financial institutions that are a party to our facility would be unable to fulfill their obligations thereunder as of the filing date of this Annual Report.

Our Term Loan Facility matures on the earlier of February 27, 2014 (or August 1, 2013 if the Senior Discount Notes are still outstanding) as of that date and the Revolving Loan matures in 2012. Our Senior Discount Notes will mature in 2014. We expect to refinance our outstanding indebtedness under these arrangements with new indebtedness prior to their maturity dates. The availability of refinancing will depend on a variety of factors, such as economic and market conditions, business performance, the availability of credit and our credit ratings, as well as the lenders' perception of the prospects of our company or our industry generally. We may not be able to successfully obtain any necessary refinancing on favorable terms, including interest rates and financial and other covenants, or at all. In that event, our business and financial condition may be materially adversely affected.

In recent years, we have typically operated with a working capital deficit. We had a working capital deficit of \$22.9 million at December 31, 2010, as compared with \$46.6 million at December 31, 2009. Major components of our working capital deficit on the current liability side are deferred revenues, accrued expenses (including, among others, accrued construction in progress and equipment, payroll and occupancy costs) and the current portion of long-term debt. These current liabilities more than offset the main current assets, which consist of cash and cash

equivalents, accounts receivable, and prepaid expenses and other current assets. Payments underlying the current liability for deferred revenue are generally not held as cash and cash equivalents, but rather are used for the Company's business needs, including financing and investing commitments, which use contributes to the working capital deficit. The deferred revenue liability relates to dues and services paid-in-full in advance and joining fees paid at the time of enrollment and totaled \$35.1 million and \$35.3 million at December 31, 2010 and December 31, 2009, respectively. Joining fees received are deferred and amortized over a 27-month period, which represents the estimated membership life of a club member. Prepaid dues are generally realized over a period of up to twelve months, while fees for prepaid services normally are realized over a period of one to nine months. In periods when we increase the number of clubs open and consequently increase the level of payments received in advance, we anticipate that we will continue to have deferred revenue balances at levels similar to or greater than those currently maintained. By contrast, any decrease in demand for our services or reductions in initiation fees collected would have the effect of reducing deferred revenue balances, which would likely require us to rely more heavily on other sources of funding. The decrease in number of clubs and joining fees and the increase of our cash balance has decreased the working capital deficit. In either case, a significant portion of the deferred revenue is not expected to constitute a liability that must be funded with cash. At the time a member joins our club, we incur enrollment costs, a portion of which are deferred over 27 months. These costs are recorded as a long-term asset and as such, do not offset the working capital deficit. We expect to record a working capital deficit in future periods and, as in the past, will fund such deficit using cash flows from operations and borrowings under our 2007 Senior Credit Facility or other credit facilities, which resources we believe will be sufficient to cover such deficit.

Recent Changes in or Recently Issued Accounting Standards

For details of applicable new accounting standards, please, see Note 4 — Recent Accounting Pronouncements to our consolidated financial statements in this Annual Report.

Use of Estimates and Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Our most significant assumptions and estimates relate to estimated membership life, the allocation and fair value ascribed to fixed and intangible assets, the useful lives of long-term assets, recoverability and impairment of fixed and intangible assets, valuation of and expense incurred in connection with stock options, legal contingencies, estimated self-insurance reserves, and valuation of deferred income taxes.

Estimated membership life. Our one-time member joining fees and a portion of related direct expenses, up to the amount of deferred joining fees, are deferred and recognized on a straight-line basis in operations over the estimated membership life of 27 months. This membership life estimate was the result of decreases in actual membership retention experienced by us and was adjusted from 28 months to 24 months in April 2010 and from 24 months to 27 months in July 2010. This estimated life could increase or decrease in future periods. Consequently, deferred initiation fees and direct expenses would increase or decrease accordingly.

Fixed and intangible assets. Fixed assets are recorded at cost and depreciated on a straight-line basis over the estimated useful lives of the assets, which are 30 years for building and improvements, five years for club equipment, furniture, fixtures, flooring and computer equipment and three to five years for computer software. Leasehold improvements are amortized over the shorter of their estimated useful lives or the remaining period of the lease. Expenditures for maintenance and repairs are charged to operations as incurred. The cost and related accumulated depreciation, or amortization of assets retired or sold, are removed from the respective accounts and any gain or loss is recognized in operations. The costs related to developing web applications, developing web pages and installing developed applications on the web servers are capitalized and classified as computer software. Web site hosting fees and maintenance costs are expensed as incurred.

Long-lived assets, such as fixed assets and intangible assets are reviewed for impairment when events or circumstances indicate that the carrying value may not be recoverable. Estimated undiscounted expected future cash flows are used to determine if an asset group is impaired, in which case the asset's carrying value would be

reduced to its fair value, calculated using discounted cash flows. Projected cash flows are based on internal budgets and forecasts through the end of each respective lease. The most significant assumptions in those budgets and forecasts relate to estimated membership and ancillary revenue, attrition rates, and maintenance capital expenditures, which are estimated at approximately 3% of total revenues. Actual cash flows realized could differ from those estimated and could result in asset impairments in the future. During the year ended December 31, 2010, we recorded impairment charges of \$1.6 million at three underperforming clubs out of a total of 13 clubs tested. The leasehold improvements at these clubs were written down to their fair values of zero due to negative projected cash flows. A change in the discount rate would not have had a significant impact on the impairment charge. The 10 clubs tested that did not have impairment charges had an aggregate of \$11.0 million of net leasehold improvements remaining as of December 31, 2010. Two of these clubs, with total net leasehold improvements and furniture and fixtures of \$3.0 million as of December 31, 2010, had estimated future undiscounted net cash flows attributable to the assets approximately 10% greater than the carrying amounts; accordingly, a small change in our expectations for these clubs could cause the assets to be impaired. We will monitor the results and changes in expectations of these clubs closely in the year ending December 31, 2011 to determine if fixed asset impairment is necessary. In the year ended December 31, 2010, we also recorded fixed asset impairment charges of \$1.7 million related to the planned closure of a club prior to its lease expiration date for total fixed asset impairments in 2010 of \$3.3 million. In the year ended December 31, 2009, we recorded a \$10.2 million impairment of construction in progress related the development costs of an internal-use software project. It was determined that it was not probable that we would continue with the project as of December 31, 2009. During the year ended December 31, 2009, we recorded impairment charges of \$6.7 million at nine underperforming clubs. See Note 5 — Fixed Assets to our consolidated financial statements in this Annual Report.

Goodwill has been allocated to reporting units that closely reflect the regions served by our four trade names: New York Sports Clubs (“NYSC”), Boston Sports Clubs (“BSC”), Washington Sports Clubs (“WSC”) and Philadelphia Sports Clubs (“PSC”), with certain more remote clubs that do not benefit from a regional cluster being considered single reporting units (“Outlier Clubs”) and our three clubs located in Switzerland (“SSC”). The Company has one Outlier Club with goodwill. The BSC, WSC and PSC regions do not have any goodwill as of December 31, 2010. The carrying value of goodwill was allocated to the Company’s reporting units pursuant to FASB guidance.

In each of the quarters ended March 31, 2010 and 2009, the Company performed its annual impairment test of goodwill. The March 31, 2010 and 2009 impairment tests supported the recorded goodwill balances and as such no impairment of goodwill was required. The valuation of intangible assets requires assumptions and estimates of many critical factors, including revenue and market growth, operating cash flows and discount rates. The Company may decide to complete an interim evaluation of the goodwill by reporting unit due to the existence of a triggering event. The determination as to whether a triggering event exists that would warrant an interim review of goodwill and whether a write-down of goodwill is necessary involves significant judgment based on short-term and long-term projections of the Company. Solely for purposes of establishing inputs for the fair value calculations described above related to goodwill impairment testing, the Company made the following assumptions. The Company developed long-range financial forecasts (five years or longer) for all reporting units. The Company used discount rates ranging between 12.1% and 18.2%, compounded annual revenue growth ranging from (0.7%) to 5.4% and terminal growth rates ranging between 1% and 3%. These assumptions are calculated separately for each reporting unit. Due to the significant decrease in market capitalization and a decline in the Company’s business outlook primarily due to the macroeconomic environment, the Company performed an interim impairment test as of December 31, 2008 and recorded \$17.6 million of impairment at the BSC reporting unit and one outlier club as a result. For a detailed description of the impairment test as well as the assumptions used, please see Note 6 — Goodwill and Intangible Assets to our consolidated financial statements in this Annual Report. We believe our recent financial results combined with our current business outlook do not indicate a need to perform interim impairment testing. The March 31, 2010 impairment tests supported the recorded goodwill balances and as such no impairment of goodwill was required. As of March 31, 2010, the implied fair value of NYSC was 30% greater than book value and the estimated fair value of SSC was 73% greater than book value.

Valuation of and expense incurred in connection with stock options. We recognize all share-based payments to employees in the financial statements based on their fair values using an option-pricing model at the date of grant. We use a Black-Scholes option-pricing model to calculate the fair value of options. This model requires various

judgmental assumptions including volatility, forfeiture rate and expected option life. If any of the assumptions used in the model change significantly, share-based compensation may differ materially in the future from that recorded in the current period.

Legal contingencies. In accordance with FASB guidance, we determine whether to disclose and accrue for loss contingencies based on an assessment of whether the risk of loss is remote, reasonably possible or probable. Our assessment is developed in consultation with our outside counsel and other advisors and is based on an analysis of possible outcomes under various strategies. Loss contingency assumptions involve judgments that are inherently subjective and can involve matters that are in litigation, which, by its nature is unpredictable. We believe that our assessment of the probability of loss contingencies is reasonable, but because of the subjectivity involved and the unpredictable nature of the subject matter at issue, our assessment may prove ultimately to be incorrect, which could materially impact the consolidated financial statements.

Self-insurance reserves. We limit our exposure to casualty losses on insurance claims by maintaining liability coverage subject to specific and aggregate liability deductibles. Self-insurance losses for claims filed and claims incurred but not reported are accrued based upon a number of factors including sales estimates for each insurance year, claim amounts, claim settlements and number of claims, our historical loss experience and valuations provided by independent third-party consultants. To the extent that estimated self-insurance losses differ from actual losses realized, our insurance reserves could differ significantly and may result in either higher or lower insurance expense in future periods. In the past year, our actual loss experience has been better than expected overall.

Deferred income taxes. As of December 31, 2010, our net deferred tax assets totaled \$41.9 million. These net assets represent cumulative net “temporary differences” that will result in tax deductions in future years. Quarterly, the Company assesses the weight of all positive and negative evidence to determine whether the net deferred tax asset is realizable. In 2010 and 2009, the Company incurred losses and expects to be profitable in 2011. The Company has historically been a taxpayer and projects that it will be in a three year cumulative income position, excluding non-recurring items, as of December 31, 2011. In addition, the Company, based on recent trends, projects improved performance and future income sufficient to realize the deferred tax assets during the periods when the temporary tax deductible differences reverse. The Company has some small net operating loss carry-forwards which the Company believes will be realized within the available carry-forward period, except for a small state operating loss carryforward in Rhode Island due to the short carryforward period in that state. Accordingly, the Company concluded that it is more likely than not that the deferred tax assets will be realized. If actual results do not meet the Company’s forecasts and the Company incurs losses in 2011, a valuation allowance against the deferred tax assets may be required in the future. In addition, with exception of the deductions related to the Company’s captive insurance for state taxes, taxable income has been and is projected to be the same as Federal. Because the captive insurance company will be discontinued, the assessment of realizability of the state deferred tax assets is consistent with the Federal tax analysis above.

FASB guidance effective on January 1, 2007 prescribes a recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company recognizes interest and penalties accrued related to unrecognized tax benefits in income tax expense.

Inflation

Although we cannot accurately anticipate the effect of inflation on our operations, we believe that inflation has not had, and is not likely in the foreseeable future to have, a material impact on our results of operations or financial condition.

Seasonality of Business

Seasonal trends have a limited effect on our overall business. Generally, we experience greater membership growth at the beginning of each year and experience an increased rate of membership attrition during the summer months. In addition, during the summer months, we experience a slight increase in operating expenses due to our outdoor pool and summer camp operations, generally matched by seasonal revenue recognition from season pool memberships and camp revenue.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Our debt consists of both fixed and variable rate debt facilities. As of December 31, 2010 a total of \$178.1 million of our debt consisted of the Term Loan Facility for which borrowings are subject to variable interest rates. Borrowings under this Term Loan Facility are for periods of one, two, three or six months in the case of Eurodollar borrowings and no minimum period in the case of base rate borrowings and upon each continuation of an interest period related to a Eurodollar borrowing the interest rate is reset and each interest rate would be considered variable. If short-term interest rates had increased by 100 basis points for the year ended December 31, 2010, our interest expense would have increased by approximately \$1.8 million. This amount is determined by considering the impact of the hypothetical interest rates on our debt balance during this period.

As of December 31, 2010 a total of \$138.5 million of our debt consisted of the fixed rate Senior Discount Notes. A 100 basis point increase in interest rates for the year ended December 31, 2010 would have resulted in a decrease in the fair values of the Senior Discount Notes of approximately \$1.4 million.

For additional information concerning the terms of our debt, see Note 8 — Long-Term Debt to our consolidated financial statements in this Annual Report.

Item 8. Financial Statements and Supplementary Data

Our Financial Statements appear following the signature page hereto, are incorporated herein by reference and are listed in the index appearing under Item 15.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures: We maintain disclosure controls and procedures that are designed to ensure that the information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired controls.

As of December 31, 2010, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of December 31, 2010, our disclosure controls and procedures were effective at the reasonable assurance level.

Management's Annual Report on Internal Control Over Financial Reporting: Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we assessed the effectiveness of our internal control over financial reporting as of December 31, 2010. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control — Integrated Framework*. Based on our management's assessment using those criteria, our management concluded that, as of December 31, 2010, we maintained effective internal control over financial reporting.

Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PricewaterhouseCoopers LLP, our independent registered public accounting firm that audited the financial statements included in this Annual Report on Form 10-K, has issued its written attestation report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2010, as stated in their report included following the signature page hereto, which is incorporated herein by reference.

Changes in Internal Control Over Financial Reporting: There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended December 31, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. *Other Information*

None

PART III

COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS AND RELATED INFORMATION

Item 10. *Directors, Executive Officers and Corporate Governance*

The information with respect to directors, executive officers and corporate governance of the Company is incorporated herein by reference to the following sections of the Company’s definitive Proxy Statement relating to the Company’s 2011 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the Company’s fiscal year ended December 31, 2010 (the “Proxy Statement”): “Matters to be Considered at Annual Meeting — Proposal One — Election of Directors,” “Corporate Governance and Board Matters — Corporate Governance Documents,” “Corporate Governance and Board Matters — Committee Membership — Audit Committee,” “Section 16(A) Beneficial Ownership Reporting Compliance,” and “Deadline for Receipt of Stockholder Proposals.”

The following are the members of our Board of Directors and our Executive Officers:

Board of Directors:

Robert Giardina	Chief Executive Officer and President, Town Sports International Holdings, Inc.
Keith E. Alessi	Chief Executive Officer and President, Westmoreland Coal Company
Paul N. Arnold	Chairman of the Board and Chief Executive Officer, Cort Business Services, Inc.
Bruce C. Bruckmann	Managing Director, Bruckmann, Rosser, Sherrill & Co., LP
J. Rice Edmonds	Managing Director, Edmonds Capital, LLC
Thomas J. Galligan III.	Executive Chairman, Papa Gino’s Holdings Corp.
Kevin McCall	Chief Executive Officer and President, Paradigm Properties, LLC

Executive Officers:

Robert Giardina	Chief Executive Officer and President
Martin Annese	Chief Operations Officer
Paul Barron	Chief Information Officer
Daniel Gallagher	Chief Financial Officer
David M. Kastin	Senior Vice President —General Counsel and Corporate Secretary
Scott Milford	Senior Vice President — Human Resources

Item 11. *Executive Compensation*

The information with respect to executive compensation is incorporated herein by reference to the following sections of the Proxy Statement: “Executive Compensation” and “Corporate Governance and Board Matters — Compensation Committee Interlocks and Insider Participation.”

The information with respect to compensation of directors is incorporated herein by reference to the following section of the Proxy Statement.: “Corporate Governance and Board Matters — Directors’ Compensation for the 2010 Fiscal Year.”

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Securities Authorized for Issuance Under Equity Compensation Plans

The following table provides information with respect to compensation plans (including individual compensation arrangements) under which our equity securities are authorized for issuance to employees as of December 31, 2010:

<u>Plan Category</u>	<u>Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights</u> (a)	<u>Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights</u> (b)	<u>Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column(a))</u> (c)
Equity compensation plans approved by security holders	2,240,257	\$5.20	257,348
Equity compensation plans not approved by security holders	<u>—</u>	<u>—</u>	<u>—</u>
Total	<u>2,240,257</u>	<u>\$5.20</u>	<u>257,348</u>

The information with respect to security ownership of certain beneficial owners and management is incorporated herein by reference to the following section of the Proxy Statement: "Ownership of Securities".

Item 13. Certain Relationships and Related Transactions, and Director Independence

On January 8, 2010, we received a notice from several entities owned or controlled, directly or indirectly, by Farallon Partners, L.L.C., demanding that the Company register for resale, pursuant to a February 2004 registration rights agreement, as amended, its shares of the Company's Common Stock. On December 7, 2010, the Company filed a prospectus registering for resale an aggregate 4,060,082 shares of the Company's Common Stock.

The information with respect to certain relationships and related transactions and director independence is incorporated herein by reference to the following sections of the Proxy Statement: "Certain Relationships and Related Transactions" and "Corporate Governance and Board Matters — Director Independence."

Item 14. Principal Accountant Fees and Services

The information with respect to principal accountant fees and services is incorporated herein by reference to the following section of the Proxy Statement: "Matters to be Considered at Annual Meeting — Proposal Two — Ratification of Independent Registered Public Accounting Firm."

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Town Sports International Holdings, Inc:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows present fairly, in all material respects, the financial position of Town Sports International Holdings, Inc. and its subsidiaries (the "Company") at December 31, 2010 and 2009, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2010, 2009 and 2008

(In thousands except share and per share data)

1. Basis of Presentation

As of December 31, 2010, Town Sports International Holdings, Inc. (the "Company" or "TSI Holdings"), through its wholly-owned subsidiary, Town Sports International, LLC ("TSI, LLC"), operated 160 fitness clubs ("clubs") comprised of 108 clubs in the New York metropolitan market under the "New York Sports Clubs" brand name, 25 clubs in the Boston market under the "Boston Sports Clubs" brand name, 18 clubs (two of which are partly-owned) in the Washington, D.C. market under the "Washington Sports Clubs" brand name, six clubs in the Philadelphia market under the "Philadelphia Sports Clubs" brand name and three clubs in Switzerland. The Company's operating segments are New York Sports Clubs, Boston Sports Clubs, Philadelphia Sports Clubs, Washington Sports Clubs and Swiss Sports Clubs. The Company has determined that our operating segments have similar economic characteristics and meet the criteria which permit them to be aggregated into one reportable segment.

Certain reclassifications were made to the reported amounts as of December 31, 2009 to conform to the presentation as of December 31, 2010 and to the reported amounts for the year ended December 31, 2009 to conform to the presentation for the year ended December 31, 2010.

2. Correction of Accounting Errors

Error Correction in 2010

The results for the year ended December 31, 2010 include the correction of an accounting error that resulted in a decrease in benefit for corporate income taxes and a related decrease in deferred tax assets in the Company's consolidated statement of operations and consolidated balance sheet, respectively. In the fourth quarter of 2010, the Company identified un-reconciled temporary deductible differences, mainly related to fixed assets, which gave rise to deferred tax assets of \$357. These un-reconciled temporary differences principally relate to periods prior to 2008. As the Company was unable to identify a specific transaction that created this un-reconciled difference, such as the disposal of a certain asset, a current deduction could not be taken on the Company's 2010 tax return. Accordingly, the Company wrote-off the deferred tax asset. This write-off resulted in the recognition of an out-of-period income tax expense in 2010 of \$352. The Company does not believe that this error correction is material to the current or prior reporting periods.

Error Correction in 2009

The results for the year ended December 31, 2009 include the correction of an accounting error that resulted in a cumulative charge to payroll and related expense and a related decrease in deferred membership costs on the Company's consolidated statement of operations and consolidated balance sheet, respectively. Historically, the Company has applied an accounting policy of capitalizing and then amortizing membership consultants' commissions, bonuses and a portion of their base salaries, and related taxes and benefits, as direct costs of obtaining new members. Company policy limited the costs that could be capitalized to the amount of initiation fee revenue deferred for new memberships. The application of this policy required the Company to make certain estimates. Specifically, the Company capitalized a percentage of the membership consultants' base salaries, and related taxes and benefits, based on estimates of the percentage of the membership consultants' time that was spent on obtaining new members.

The Company has undertaken a review of the accounting treatment for membership consultant salaries, including the application of the accounting policy and appropriateness of its estimate methodology. In connection with that review, the Company determined that its previous estimates were incorrect. The Company also concluded that it was not clear whether any portion of the consultants' base salaries and the taxes and benefits related to those base salaries should have been capitalized.

Although the Company believes that its accounting policy for deferred membership costs was not unreasonable, the errors in its estimates combined with its review of the policy have led the Company to conclude that the

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

capitalization of any portion of membership consultant salaries and related taxes and benefits should be regarded as an accounting error. As a result, there are errors in the Company's previously reported consolidated financial statements. The error caused payroll and related expense for the years ended December 31, 2009 and 2008 to be overstated by \$1,183 and \$1,014, respectively. If the error had been corrected for all periods, including the cumulative error in 2009 as described below, the consolidated statements of operations and the consolidated balance sheet would have been affected as follows:

	For the Year Ended

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

	For the Quarters Ended			
	March 31, 2008	June 30, 2008	September 30, 2008	December 31, 2008
Operating (loss) income				
As reported	\$14,081	\$16,466	\$11,581	\$ (9,311)
As if corrected	\$14,428	\$16,652	\$11,887	\$ (9,136)
Net (loss) income				
As reported	\$ 4,811	\$ 6,801	\$ 3,840	\$(13,115)
As if corrected	\$ 5,008	\$ 6,907	\$ 4,014	\$(13,016)
Diluted (loss) earnings per share				
As reported	\$ 0.18	\$ 0.26	\$ 0.14	\$ (0.51)
As if corrected	\$ 0.19	\$ 0.26	\$ 0.16	\$ (0.50)

In addition to the overstatement of payroll and related expense in 2009 for costs related to prior periods of \$1,183, the Company recorded additional payroll and related expense of \$751 in the fourth quarter of 2009 to recognize the remaining portion of the deferred membership consultant salaries. This resulted in the recognition of an out-of-period expense in 2009 of \$1,934. The Company determined that the impact of this error on all prior periods, as well as the correction of the error in the current period, was immaterial to all periods and accordingly, the Company did not restate its prior period results. While the Company is no longer deferring a portion of membership consultants' salaries and related taxes and benefits, it will continue to defer membership consultants' commissions and bonuses and portions of taxes and benefits related to those commissions and bonuses.

3. Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of TSI Holdings and all wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Revenue Recognition

The Company generally receives one-time non-refundable joining fees and monthly dues from its members. The Company's members have the option to join on a month-to-month basis or to commit to a one- or two-year membership. Month-to-month members can cancel their membership at any time with 30 days notice. Membership dues for members who pay annual dues upfront are amortized on a straight-line basis over a 12-month period commencing with the first month of the new member contract. Membership dues for members who pay monthly are recognized in the period in which access to the club is provided.

Joining fees and related direct and incremental expenses of membership acquisition, which include sales commissions, bonuses and related taxes and benefits, which are direct and incremental costs related to the sale of new memberships, are deferred and recognized, on a straight-line basis, in operations over an estimated membership life of 27 months. In the second half of 2008 the Company began to see unfavorable trends in membership retention rates and therefore considerable increases in membership attrition rates due primarily to pressures and declines in consumer confidence and economic growth. These challenges continued into 2009 and 2010 and resulted in changes in our estimated membership life. In April 2009, the estimated member life decreased from 30 months to 28 months and in April 2010 it further decreased to 24 months. In the second half of 2010, the economy began to recover and consumer confidence stabilized. The Company began to see improvement in membership retention, and in July 2010 the Company increased its estimated member life to 27 months where it remained for the duration of the year.

Prior to October 1, 2009, the Company was also deferring a percentage of salaries and related benefits payable to membership consultants over the estimated membership life (See Note 2 — Correction of Accounting Errors). Deferred membership costs were \$5,934 and \$6,079 at December 31, 2010 and 2009, respectively. The amount of

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

costs deferred does not exceed the related deferred revenue for the periods presented and therefore the decrease in deferred joining fee revenue resulted in a decrease in related deferred membership costs.

Dues that are received in advance are recognized on a pro-rata basis over the periods in which services are to be provided. Revenues from ancillary services, such as personal training sessions, are recognized as services are performed. Unused personal training sessions expire after a set, disclosed period of time after purchase and are not refundable or redeemable by the member for cash. The State of New York has informed the Company that it is considering whether we are required to remit the amount received by us for unused, expired personal training sessions to the State of New York as unclaimed property. As of December 31, 2010 the Company had approximately \$11,737 of unused and expired personal training sessions. We have not recognized any revenue from these sessions and have recorded the amounts as deferred revenue. The Company does not believe that these amounts are subject to the escheatment or abandoned property laws of any jurisdiction, including the State of New York. However, it is possible that one of these jurisdictions may not agree with the Company's position and may claim that the Company must remit all or a portion of these amounts to such jurisdiction. For three of our jurisdictions, the Company concluded, based on opinions from outside counsel, that monies held by a company for unused and expired personal training sessions are not escheatable. As a result, the Company has removed approximately \$2,697 from deferred revenue, of which approximately \$570 related to expired sessions that would have been recognized the year ended December 31, 2010, and recorded such amount as personal training revenue in the fourth quarter of 2010.

Management fees earned for services rendered are recognized at the time the related services are performed.

When a revenue agreement involves multiple elements, such as sales of both memberships and services in one arrangement or potentially multiple arrangements, the entire fee from the arrangement is allocated to each respective element based on its relative fair value and recognized when the revenue recognition criteria for each element is met.

The Company recognizes revenue from merchandise sales upon delivery to the member.

In connection with advance receipts of fees or dues, the Company is required to maintain bonds totaling \$3,540 and \$3,840 as of December 31, 2010 and 2009, respectively, pursuant to various state consumer protection laws.

Advertising and Club Pre-opening Costs

Advertising costs and club pre-opening costs are charged to operations during the period in which they are incurred, except for production costs related to television and radio advertisements, which are expensed when the related commercials are first aired. Total advertising costs incurred by the Company for the years ended December 31, 2010, 2009 and 2008 totaled \$6,690, \$7,664 and \$7,868, respectively and are included in club operations.

Cash and Cash Equivalents

The Company considers all highly liquid instruments which have original maturities of three months or less when acquired to be cash equivalents. The carrying amounts reported in the balance sheets for cash and cash equivalents approximate fair value. The Company owns and operates a captive insurance company in the State of New York. Under the insurance laws of the State of New York, this captive insurance company is required to maintain a cash balance of at least \$250. At December 31, 2010 and 2009, \$272 of cash related to this wholly-owned subsidiary was included in cash and cash equivalents.

Deferred Lease Liabilities, Non-cash Rental Expense and Additional Rent

The Company recognizes rental expense for leases with scheduled rent increases and inclusive of rental concessions, on the straight-line basis over the life of the lease beginning upon the commencement date of the lease. Rent concessions, primarily received in the form of free rental periods, are also deferred and amortized on a straight-line basis over the life of the lease.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Company leases office, warehouse and multi-recreational facilities and certain equipment under non-cancelable operating leases. In addition to base rent, the facility leases generally provide for additional rent to cover common area maintenance charges incurred and to pass along increases in real estate taxes. The Company accrues for any unpaid common area maintenance charges and real estate taxes on a club-by-club basis.

Upon entering into certain leases, the Company receives construction allowances from the landlord. These construction allowances are recorded as deferred lease liability credits on the consolidated balance sheet when the requirements for these allowances are met as stated in the respective lease and are amortized as a reduction of rent expense over the term of the lease. Amortization of deferred construction allowances were \$2,838 and \$2,927 at December 31, 2010 and December 31, 2009, respectively.

Certain leases provide for contingent rent based upon defined formulas of revenue, cash flows or operating results for the respective facilities. These contingent rent payments typically call for additional rent payments calculated as a percentage of the respective club's revenue or a percentage of revenue in excess of defined break-points during a specified year. The Company records contingent rent expense over the related contingent rental period at the time the respective contingent targets are probable of being met.

Lease termination penalties are recognized using the undiscounted cash flow method. In the year ended December 31, 2009, the Company recorded approximately \$1,305 in lease termination penalties. The Company did not incur any lease termination penalties recorded in the year ended December 31, 2010.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable consists of amounts due from the Company's membership base and was \$7,823 and \$6,705 at December 31, 2010 and 2009, respectively, before allowance for doubtful accounts. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of the Company's members to make required payments. The Company considers factors such as: historical collection experience, the age of the receivable balance and general economic conditions that may affect our members' ability to pay.

Following are the changes in the allowance for doubtful accounts for the years December 31, 2010, 2009 and 2008:

	<u>Balance Beginning of the Year</u>	<u>Additions</u>	<u>Write-offs Net of Recoveries</u>	<u>Balance at End of Year</u>
December 31, 2010	\$2,410	\$5,923	\$(5,768)	\$2,565
December 31, 2009	\$3,001	\$6,273	\$(6,864)	\$2,410
December 31, 2008	\$2,797	\$8,430	\$(8,226)	\$3,001

Inventory

Inventory consists of supplies, headsets for the club entertainment system and clothing for sale to members. Inventories are valued at the lower of cost or market by the first-in, first-out method.

Fixed Assets

Fixed assets are recorded at cost and depreciated on a straight-line basis over the estimated useful lives of the assets, which are 30 years for building and improvements, five years for club equipment, furniture, fixtures and computer equipment and three to five years for computer software. Leasehold improvements are amortized over the shorter of their estimated useful lives or the remaining period of the related lease. Payroll costs directly related to the construction or expansion of the Company's club base are capitalized with leasehold improvements. Expenditures for maintenance and repairs are charged to operations as incurred. The cost and related accumulated depreciation of assets retired or sold is removed from the respective accounts and any gain or loss is recognized in operations. The costs related to developing web applications, developing web pages and installing developed applications on the web servers are capitalized and classified as computer software. Web site hosting fees and maintenance costs are expensed as incurred.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Intangible Assets and Debt Issuance Costs

Intangible assets consist of membership lists, a beneficial lease and covenants-not-to-compete. These assets are stated at cost and are being amortized by the straight-line method over their estimated lives. Membership lists are amortized over the estimated membership life, or 24 to 30 months historically, and covenants-not-to-compete are amortized over the contractual life, generally one to five years. The beneficial lease is being amortized over the remaining life of the underlying club lease. All membership lists and the beneficial lease were fully amortized as of December 31, 2010.

Debt issuance costs are classified within other assets and are being amortized as additional interest expense over the life of the underlying debt, five to ten years, using the interest method. Amortization of debt issue costs was \$1,011, \$896 and \$781, for the years ended December 31, 2010, 2009 and 2008, respectively.

Accounting for the Impairment of Long-Lived Assets and Goodwill

Long-lived assets, such as fixed assets and intangible assets are reviewed for impairment when events or circumstances indicate that their carrying value may not be recoverable. Estimated undiscounted expected future cash flows are used to determine if an asset is impaired in which case the asset's carrying value would be reduced to fair value calculated using discounted cash flows, which is based on internal budgets and forecasts through the end of each respective lease. The most significant assumptions in those budgets and forecasts relate to estimated membership and ancillary revenue, attrition rates, and maintenance capital expenditures, which are estimated at approximately 3% of total revenues.

Goodwill represents the excess of consideration paid over the fair value of the net identifiable business assets acquired in the acquisition of a club or group of clubs. ASC 350-20 requires goodwill to be tested for impairment on an annual basis and between annual tests in certain circumstances, and written down when impaired. Our impairment review process compares the fair value of the reporting unit in which the goodwill resides to its carrying value.

Goodwill impairment testing is a two-step process. Step 1 involves comparing the fair value of the Company's reporting units to their carrying amounts. If the fair value of the reporting unit is greater than its carrying amount, there is no impairment. If the reporting unit's carrying amount is greater than the fair value, the second step must be completed to measure the amount of impairment, if any. Step 2 calculates the implied fair value of goodwill by deducting the fair value of all tangible and intangible assets, excluding goodwill, of the reporting unit from the fair value of the reporting unit as determined in Step 1. The implied fair value of goodwill determined in this step is compared to the carrying value of goodwill. If the implied fair value of goodwill is less than the carrying value of goodwill, an impairment loss is recognized equal to the difference. The Company performs this analysis annually as of March 31.

Insurance

The Company obtains insurance coverage for significant exposures as well as those risks required to be insured by law or contract. The Company retains a portion of risk internally related to general liability losses. Where the Company retains risk, provisions are recorded based upon the Company's estimates of its ultimate exposure for claims. The provisions are estimated using actuarial analysis based on claims experience, an estimate of claims incurred but not yet reported and other relevant factors. In this connection, under the provision of the Deductible Agreement related to the payment and administration of the Company's insurance claims, we are required to maintain irrevocable letters of credit, totaling \$5,000 as of December 31, 2010.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The most significant assumptions and estimates relate to the allocation and fair value ascribed to assets acquired in connection with the acquisition of clubs under the purchase method of accounting, the useful lives of long-term assets, recoverability and impairment of fixed and intangible assets, deferred income tax valuation, valuation of and expense incurred in connection with stock options, insurance reserves, legal contingencies and the estimated membership life.

Income Taxes

Deferred tax liabilities and assets are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined on the basis of the difference between the financial statement and tax basis of assets and liabilities (“temporary differences”) at enacted tax rates in effect for the years in which the temporary differences are expected to reverse. A valuation allowance is recorded to reduce deferred tax assets to the amount that is more likely than not to be realized. In December 2009, the Company decided that the cumulative earnings of the Swiss clubs could be invested in the United States. Accordingly, in accordance with ASC 740-30, the Company has recognized a deferred tax liability of \$776 for the U.S. taxes on the total cumulative earnings of the Swiss clubs.

Statements of Cash Flows

Supplemental disclosure of cash flow information:

	Year Ended December 31,		
	2010	2009	2008
Cash paid			
Interest (net of amounts capitalized)	\$20,157	\$12,797	\$10,032
Income taxes	\$ 3,311	\$ 6,007	\$15,932
Noncash investing and financing activities			
Acquisition of fixed assets included in accounts payable and accrued expenses	\$ 4,392	\$ 2,047	\$11,132
See Note 8 for additional noncash financing activities			

Foreign Currency

At December 31, 2010, the Company owned three Swiss clubs, which use the Swiss Franc, their local currency, as their functional currency. Assets and liabilities are translated into U.S. dollars at year-end exchange rates, while income and expense items are translated into U.S. dollars at the average exchange rate for the period. For all periods presented foreign exchange transaction gains and losses were not material. Adjustments resulting from the translation of foreign functional currency financial statements into U.S. dollars are included in the currency translation adjustment in stockholders’ (deficit) equity. The difference between the Company’s net (loss) income and comprehensive (loss) income is the effect of foreign exchange translation adjustments, which was \$794, \$257 and \$256 for the years ended December 31, 2010, 2009 and 2008, respectively.

Comprehensive Income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources, including foreign currency translation adjustments. The Company presents comprehensive income in its consolidated statements of stockholders’ (deficit) equity.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Concentrations of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk are cash and cash equivalents. Such amounts are held, primarily, in a small number of commercial banks. The Company holds no collateral for these financial instruments. Cash and cash equivalents held in a small number of commercial banks as of December 31, 2010 totaled \$22,120. During 2010, in any one month, this amount has been as high as \$30,000.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income applicable to common stockholders by the weighted average numbers of shares of common stock outstanding during the period. Diluted earnings per share is computed similarly to basic earnings per share, except that the denominator is increased for the assumed exercise of dilutive stock options and unvested restricted stock using the treasury stock method.

The following table summarizes the weighted average common shares for basic and diluted earnings per share (“EPS”) computations.

	<u>For The Year Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Weighted average number of common share outstanding — basic	22,634,233	22,720,935	26,247,398
Effect of diluted stock options	—	—	67,552
Weighted average number of common shares outstanding — diluted . .	<u>22,634,233</u>	<u>22,720,935</u>	<u>26,314,950</u>
 (Loss) earnings per share:			
Basic	\$ (0.01)	\$ (0.25)	0.09
Diluted	\$ (0.01)	\$ (0.25)	0.09

For the years ended December 31, 2010, 2009 and 2008, we did not include options and restricted stock awards totaling 2,164,485, 1,880,798 and 957,928 shares of the Company’s common stock, respectively, in the calculations of diluted EPS because the exercise prices of those options were greater than the average market price and their inclusion would be anti-dilutive.

For the years ended December 31, 2010 and 2009, there was no effect of diluted stock options and restricted common stock on the calculation of diluted earnings per share as the Company had a net loss for this period.

Stock-Based Compensation

In December 2007, the SEC issued guidance regarding the use of a “simplified” method, as discussed in previous guidance in developing an estimate of expected term of “plain vanilla” share options. In particular, the staff indicated in the previous guidance that it will accept a company’s election to use the simplified method, regardless of whether the company has sufficient information to make more refined estimates of expected term. At the time this was issued, the staff believed that more detailed external information about employee exercise behavior (e.g., employee exercise patterns by industry and/or other categories of companies) would, over time, become readily available to companies. Therefore, the staff stated that it would not expect a company to use the simplified method for share option grants after December 31, 2007. The staff understood that such detailed information about employee exercise behavior may not be widely available by December 31, 2007. Accordingly, the staff would continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007. The Company currently uses the simplified method for share options and warrants as all options issued since the Company’s Initial Public Offering (“IPO”) in June of 2006 can be considered “plain vanilla” options. In addition the Company does not have sufficient historical detailed exercise behavior available. The Company will further assess the use of this policy for fiscal year 2011.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The fair value of the awards was determined using a modified Black-Scholes methodology using the following weighted average assumptions:

Common	Risk-Free Interest Rate	Expected Life	Expected Volatility	Expected Dividend Yield	Fair Value at Date of Grant
2008 Grants	2.3%	6 years	60%	—	\$2.64
2009 Grants	2.5%	6 years	84%	—	\$1.58
2010 Grants	2.0%	6 years	81%	—	\$2.03

The weighted average expected option term reflects the application of the simplified method set out in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification 718-10-S99, topic 14 issued by the Securities and Exchange Commission (“SEC”), which defines the term as the average of the contractual term of the options and the weighted average vesting period for all option tranches. Expected volatility percentages for grant years 2008, 2009 and 2010 were based on the daily historical volatility of the Company’s stock price over the period from the Company’s IPO in June of 2006 through the grant date. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury implied yield at the time of grant.

4. Recent Accounting Pronouncements

In September 2009, the FASB issued new accounting guidance related to the revenue recognition of multiple element arrangements. The new guidance states that if vendor specific objective evidence or third party evidence for deliverables in an arrangement cannot be determined, companies will be required to develop a best estimate of the selling price to separate deliverables and allocate arrangement consideration using the relative selling price method. The accounting guidance will be applied prospectively and will become effective during the first quarter of 2011. We do not expect this accounting guidance to have a material impact on our financial position or results of operations.

Effective January 1, 2010, the Company adopted the FASB-issued guidance which changes the way that companies account for Variable Interest Entities (“VIEs”). The adoption of this guidance did not have an impact on the Company’s consolidated financial statements. The Company has investments in two partly-owned clubs, Capitol Hill Squash Club Associates (“CHSCA”) and Kalorama Sports Management Associates (“KSMA”) (collectively, the “Affiliates”). The Company accounts for these Affiliates in accordance with the equity method of accounting. The Company has a limited partnership interest in CHSCA, which provides the Company with approximately 20% of the CHSCA profits. The Company has a co-general partnership and limited partnership interests in KSMA, which entitles it to receive approximately 45% of the KSMA profits. The Affiliates have operations, which are similar, and related to, those of the Company. The Company has determined that the Affiliates are VIEs, however, the Company is not the primary beneficiary. The Company’s maximum exposure to loss as a result of its involvement with the Affiliates is limited to its investment balance plus any outstanding intercompany receivable. The assets, liabilities, equity and operating results of the Affiliates and the Company’s pro rata share of the Affiliates’ net assets and operating results were not material for all periods presented.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

5. Fixed Assets

Fixed assets as of December 31, 2010 and 2009 are shown at cost, less accumulated depreciation and amortization and are summarized below:

	December 31,	
	2010	2009
Leasehold improvements	\$ 488,180	\$ 485,261
Club equipment	95,950	96,225
Furniture, fixtures and computer equipment	48,510	70,754
Computer software	13,550	18,906
Building and improvements	4,995	4,995
Land	986	986
Construction in progress	7,744	2,888
	659,915	680,015
Less: Accumulated depreciation and amortization	(350,544)	(339,738)
	\$ 309,371	\$ 340,277

Depreciation and leasehold amortization expense for the years ended December 31, 2010, 2009 and 2008, was \$52,097, \$56,271 and \$51,743, respectively.

In February, 2008, the FASB released a statement defining fair value, establishing a framework in generally accepted accounting principles for measuring fair value and expanding disclosures about fair value measurements. The standard establishes a hierarchy of inputs employed to determine fair value measurements, with three levels. Level 1 inputs, are quoted prices in active markets for identical assets and liabilities, are considered to be the most reliable evidence of fair value and should be used whenever available. Level 2 inputs are observable prices that are not quoted on active exchanges. Level 3 inputs are unobservable inputs employed for measuring the fair value of assets or liabilities.

Fixed assets are evaluated for impairment periodically whenever events or changes in circumstances indicate that related carrying amounts may not be recoverable from undiscounted cash flows in accordance with FASB released guidance. The Company's long-lived assets and liabilities are grouped at the individual club level which is the lowest level for which there is identifiable cash flow. To the extent that estimated future undiscounted net cash flows attributable to the assets are less than the carrying amount, an impairment charge equal to the difference between the carrying value of such asset and its fair value, calculated using discounted cash flows, is recognized. In the year ended December 31, 2010, the Company tested 13 underperforming clubs and recorded impairment losses of \$1,570 on fixed assets at three of these clubs that experienced decreased profitability and sales levels below expectations. The leasehold improvements at these clubs were written down to their fair values of zero due to negative projected cash flows. The 10 clubs tested that did not have impairment charges had an aggregate of \$10,999 of net leasehold improvements and furniture and fixtures remaining as of December 31, 2010. Two of these clubs, with total net leasehold improvements and furniture and fixtures of \$2,991 as of December 31, 2010, had estimated future undiscounted net cash flows attributable to the assets approximately 10% greater than the carrying amounts; accordingly, a small change in the Company's expectations for these clubs could cause the assets to be impaired. The Company will monitor the results and changes in expectations of these clubs closely in the year ending December 31, 2011 to determine if fixed asset impairment is necessary.

In addition, in the year ended December 31, 2010, the Company recorded impairment charges of \$1,684 related to the planned closure of a club prior to its lease expiration date.

In 2008, the Company entered into an agreement with a vendor to develop a new enterprise management software system, GIMS which was planned to be implemented in 2010. The Company had capitalized \$10,194 for costs incurred related to this project in accordance with ASC 350-40, Internal-Use Software. In September 2009, the

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Company commenced litigation against this vendor, alleging, among other things, breach of contract. In connection with this litigation, development of this software project ceased during the third quarter of 2009. It was determined that it was not probable that the Company would continue with the development of this software and the Company is currently exploring other alternatives. As a result, in accordance with ASC 350-40, the Company impaired the balance of the project as of December 31, 2009 of \$10,194 to its implied fair value of zero.

The fair values of fixed assets evaluated for impairment were calculated using Level 3 inputs using discounted cash flows, which are based on internal budgets and forecasts through the end of each respective lease. The most significant assumptions in those budgets and forecasts relate to estimated membership and ancillary revenue, attrition rates, and maintenance capital expenditures, which are estimated at approximately 3% of total revenues.

6. Goodwill and Intangible Assets

Goodwill has been allocated to reporting units that closely reflect the regions served by our four trade names: New York Sports Clubs (“NYSC”), Boston Sports Clubs (“BSC”), Washington Sports Clubs (“WSC”) and Philadelphia Sports Clubs (“PSC”), with certain more remote clubs that do not benefit from a regional cluster being considered single reporting units (“Outlier Clubs”) and our three clubs located in Switzerland (“SSC”). The Company has three Outlier Clubs with goodwill. As of December 31, 2010, the BSC, WSC and PSC regions do not have goodwill balances. The carrying value of goodwill was allocated to the Company’s reporting units pursuant to FASB guidance.

In each of the quarters ended March 31, 2010 and 2009, the Company performed its annual impairment test. The March 31, 2010 and 2009 impairment tests supported the recorded goodwill balances and as such no impairment of goodwill was required. The valuation of reporting units requires assumptions and estimates of many critical factors, including revenue and market growth, operating cash flows and discount rates.

In accordance with FASB guidance, the Company completed an interim evaluation of the goodwill by reporting unit due to the existence of a triggering event as of December 31, 2008. The determination as to whether a triggering event exists that would warrant an interim review of goodwill and whether a write-down of goodwill is necessary involves significant judgment based on short-term and long-term projections of the Company. Due to the significant decrease in market capitalization and a decline in the Company’s business outlook primarily due to the macroeconomic environment, the Company performed an interim impairment test as of December 31, 2008. The result of the Company’s analysis indicated that there would be no remaining implied value attributable to the BSC reporting unit. Accordingly, in December 2008, the Company wrote off all \$15,766 of goodwill associated with this reporting unit and \$1,843 at two of the three Outlier Clubs that did not benefit from being part of regional clusters. The Company did not have a goodwill impairment charge in the NYSC region as a result of the interim test given the profitability of this unit. The remaining goodwill at SSC is \$1,096 and there is one remaining Outlier Club with goodwill of \$137.

Fair value was determined by using a weighted combination of two market-based approaches (weighted 25% each) and an income approach (weighted 50%), as this combination was deemed to be the most indicative of the Company’s fair value in an orderly transaction between market participants. Under the market-based approaches, the Company utilized information regarding the Company, the Company’s industry as well as publicly available industry information to determine earnings multiples and sales multiples that are used to value the Company’s reporting units. Under the income approach, the Company determined fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital, which reflects the overall level of inherent risk of a reporting unit and the rate of return an outside investor would expect to earn. Determining the fair value of a reporting unit is judgmental in nature and requires the use of significant estimates and assumptions, including revenue growth rates and operating margins, discount rates and future market conditions, among others.

Solely for purposes of establishing inputs for the fair value calculations described above related to goodwill impairment testing, the Company made the following assumptions. The Company developed long-range financial forecasts (five years or longer) for all reporting units. The Company used discount rates ranging between 12.1% and

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

18.2%, compounded annual revenue growth ranging from (0.7%) to 5.4% and terminal growth rates ranging between 1% and 3%. These assumptions are calculated separately for each reporting unit.

Given the recent economic and consumer environment and the uncertainties regarding the impact on the Company's business, there can be no assurance that the Company's estimates and assumptions regarding the duration of the ongoing economic downturn, or the period or strength of recovery of the economic downturn, made for purposes of the Company's goodwill impairment testing as of March 31, 2010, will prove to be accurate predictions of the future. If the Company's assumptions regarding forecasted revenue or margin growth rates of certain reporting units are not achieved, the Company may be required to record additional goodwill impairment charges in future periods, whether in connection with the Company's next annual impairment testing in the quarter ended March 31, 2011 or subsequent to that, if any such change constitutes a triggering event outside the quarter when the annual goodwill impairment test is performed. It is not possible at this time to determine if any such future impairment charge would result. There were no events triggering a review of goodwill as of December 31, 2010. The March 31, 2010 impairment tests supported the recorded goodwill balances and as such no impairment of goodwill was required. As of March 31, 2010, the implied fair value of NYSC was 30% greater than book value and the estimated fair value of SSC was 73% greater than book value.

The changes in the carrying amount of goodwill from January 1, 2009 through December 31, 2010 are detailed in the charts below.

	<u>NYSC</u>	<u>BSC</u>	<u>SSC</u>	<u>Outlier Clubs</u>	<u>Total</u>
Balance as of January 1, 2009					
Goodwill	\$31,403	\$ 15,766	\$1,070	\$ 3,982	\$ 52,221
Accumulated impairment of goodwill	—	(15,766)	—	(3,845)	(19,611)
	31,403	—	1,070	137	32,610
Changes due to foreign currency exchange rate fluctuations	—	—	26	—	26
Balance as of December 31, 2009					
Goodwill	31,403	15,766	1,096	3,982	52,247
Accumulated impairment of goodwill	—	(15,766)	—	(3,845)	(19,611)
	31,403	—	1,096	137	32,636
Changes due to foreign currency exchange rate fluctuations	—	—	158	—	158
Balance as of December 31, 2010					
Goodwill	31,403	15,766	1,254	3,982	52,405
Accumulated impairment of goodwill	—	(15,766)	—	(3,845)	(19,611)
	<u>\$31,403</u>	<u>\$ —</u>	<u>\$1,254</u>	<u>\$ 137</u>	<u>\$ 32,794</u>

Intangible assets as of December 31, 2010 and 2009 are as follows:

	<u>As of December 31, 2010</u>		
	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>	<u>Net Intangibles</u>
Covenants-not-to-compete	<u>\$1,508</u>	<u>\$(1,464)</u>	<u>\$44</u>

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

	As of December 31, 2009		
	Gross Carrying Amount	Accumulated Amortization	Net Intangibles
Covenants-not-to-compete	\$1,508	\$(1,359)	\$149

The amortization expense of the above acquired intangible assets for the year ending December 31, 2011 will be \$44.

Amortization expense of intangible assets for the years ended December 31, 2010, 2009 and 2008 was \$105, \$262 and \$732, respectively.

7. Accrued Expenses

Accrued expenses as of December 31, 2010 and 2009 consisted of the following:

	December 31,	
	2010	2009
Accrued payroll	\$ 8,952	\$ 6,001
Accrued construction in progress and equipment	4,188	1,909
Accrued occupancy costs	4,766	5,621
Accrued insurance claims	3,371	3,697
Accrued other	6,200	6,428
	<u>\$27,477</u>	<u>\$23,656</u>

8. Long-Term Debt

Long-term debt as of December 31, 2010 and 2009 consisted of the following:

	December 31,	
	2010	2009
Term Loan Facility	\$178,063	\$179,913
11% Senior Discount Notes	138,450	138,450

Less: Current portion due within one year	14,550	1,850
Long-term portion	<u>\$301,963</u>	<u>\$316,513</u>

The aggregate long-term debt obligations maturing during the next five years and thereafter are as follows:

	Amount Due
Year Ending December 31,	
2011	\$ 14,550
2012	1,850
2013	161,663
2014	138,450
2015	—
Thereafter	—
	<u>\$316,513</u>

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Senior Discount Notes

On February 4, 2004, TSI Holdings completed an offering of the 11% senior discount notes due in 2014 (the “Senior Discount Notes”). TSI Holdings received a total of \$124,807 in connection with this issuance. Fees and expenses related to this transaction totaled approximately \$4,378. No cash interest was required to be paid prior to February 1, 2009. The accreted value of each Senior Discount Note increased from the date of issuance until February 1, 2009, at a rate of 11.0% per annum compounded semi-annually. As of February 1, 2009, the accreted value of the Senior Discount Notes equaled its principal maturity value of \$138,450. Subsequent to February 1, 2009, cash interest on the Senior Discount Notes has and will accrue and be payable semi-annually in arrears February 1 and August 1 of each year, commencing August 1, 2009. The Senior Discount Notes are structurally subordinated and effectively rank junior to all indebtedness of TSI, LLC. The debt of TSI Holdings is not guaranteed by TSI, LLC and TSI Holdings relies on the cash flows of TSI, LLC, subject to restrictions contained in the indenture governing the Senior Discount Notes, to service its debt.

The Senior Discount Notes contain a consolidated fixed charge coverage covenant ratio of 2.00:1.00, which covenant is subject to compliance, on a consolidated basis. As of December 31, 2010, the Company’s fixed charge coverage ratio was 3.46:1.00, thus the Company was in compliance with this covenant.

2007 Senior Credit Facility

On February 27, 2007, the Company entered into a \$260,000 senior secured credit facility (the “2007 Senior Credit Facility”). The 2007 Senior Credit Facility consisted of a \$185,000 term loan facility (the “Term Loan Facility”) and a \$75,000 revolving credit facility (the “Revolving Loan Facility”) and an incremental term loan commitment facility in the maximum amount of \$100,000, which borrowing thereunder is subject to compliance with certain conditions precedent and by TSI and agreement upon certain terms and conditions thereof between the participating lenders and TSI.

On July 15, 2009, the Company and TSI, LLC entered into the First Amendment to the 2007 Senior Credit Facility (the “Amendment”), which amends the definition of “Consolidated EBITDA”, as defined in the 2007 Senior Credit Facility to permit TSI, LLC (as Borrower), solely for purposes of determining compliance with the maximum total leverage ratio covenant, to add back the amount of non-cash charges relating to the impairment or write-down of fixed assets, intangible assets and goodwill. The Amendment also reduced the total Revolving Loan Facility by 15%, from \$75,000 to \$63,750. Additionally, the Company incurred an aggregate of approximately \$615 in fees and expenses related to the Amendment.

Borrowings under the Term Loan Facility will, at TSI, LLC’s option, bear interest at either the administrative agent’s base rate plus 0.75% or its Eurodollar rate plus 1.75%, each as defined in the 2007 Senior Credit Facility. The Term Loan Facility matures on the earlier of February 27, 2014, or August 1, 2013, if the Senior Discount Notes are still outstanding. TSI, LLC is required to repay 0.25% of principal, or \$463 per quarter beginning on June 30, 2007. As of December 31, 2010, the Company has paid \$6,938 of outstanding principal.

The Revolving Loan Facility expires on February 27, 2012 and borrowings under the facility currently, at TSI, LLC’s option, bear interest at the administrative agent’s base rate plus 1.25% or the Eurodollar rate plus 2.25%, as defined in the 2007 Senior Credit Facility. The Revolving Loan Facility contains a maximum total leverage covenant ratio of 4.25:1.00, which covenant is subject to compliance, on a consolidated basis, only during the period in which borrowings and letters of credit are outstanding thereunder. As of December 31, 2010, the Company’s total leverage ratio, as defined, was 2.63:1.00, thus the Company was in compliance with this covenant. As of December 31, 2010, there were no outstanding Revolving Loan Facility borrowings and outstanding letters of

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

credit issued totaled \$10,650. The unutilized portion of the Revolving Loan Facility as of December 31, 2010 was \$53,100.

TSI, LLC's applicable base rate and Eurodollar rate margins and commitment commission percentage vary with the Company's consolidated secured leverage ratio. The following table summarizes the interest rate margins and commitment commission percentages applicable at three separate secured leverage ratio levels as follows:

Level	Secured Leverage Ratio	Revolving Loans		Applicable Commitment Commission Percentage
		Base Rate Margin	Eurodollar Margin	
3	Greater than 1.50 to 1.00	1.25%	2.25%	0.50%
2	Greater than 1.00 to 1.00 but equal to or less than 1.50 to 1.00 . . .	1.00%	2.00%	0.50%
1	Equal to or less than 1.00 to 1.00	0.75%	1.75%	0.375%

The Company's secured leverage ratio as of December 31, 2010 was within the Level 3 range at 2.63:1.00. The Company has been within the Level 3 range since entering into the Revolving Loan Facility in 2007 and expects to be in this range throughout 2011.

The 2007 Senior Credit Facility contains provisions that require Excess Cash Flow payments, as defined, to be applied against outstanding Term Loan Facility balances. The Applicable Excess Cash Flow Repayment Percentage is applied to the Excess Cash Flow when determining the Excess Cash Flow payment. The Applicable Excess Cash Flow Repayment Percentage is 50% when the Senior Secured Leverage Ratio, as defined, exceeds 2.00 to 1.00. Our earnings, changes in working capital and capital expenditure levels all impact the determination of any excess cash flows. The calculation was performed as of December 31, 2010 and as a result a principal payment of \$12,700 will be made with cash on hand on March 31, 2011. We had not been required to pay any amount as we did not have Excess Cash Flow in the past.

Fair Market Value

Based on quoted market prices, the Senior Discount Notes and the Term Loan Facility had a fair value of approximately \$137,066 and \$168,270, respectively at December 31, 2010 and \$83,762 and \$165,519, respectively, at December 31, 2009. As of December 31, 2010 and 2009, there were no outstanding Revolving Loan Facility borrowings.

Interest Expense

The Company's interest expense and capitalized interest related to funds borrowed to finance club facilities under construction for the years ended December 31, 2010, 2009 and 2008 were as follows:

	Year Ended December 31,		
	2010	2009	2008
Interest costs expensed	\$21,158	\$20,972	\$23,902
Interest costs capitalized	16	73	632
Total interest expense and amounts capitalized	<u>\$21,174</u>	<u>\$21,045</u>	<u>\$24,534</u>

Related Party Transactions

The Company entered into a professional service agreement with Bruckmann, Rosser, Sherrill & Co., Inc. ("BRS"), a stockholder of the Company, for strategic and financial advisory services on December 10, 1996. Fees for such services, which are included in general and administrative expenses, were \$250 per annum. On September 16, 2008, an affiliate fund of BRS liquidated its ownership in the Company. As a result, immediately following the distribution, this affiliate fund held no shares of the Company's common stock and thus the professional service agreement was terminated. However, as a result of the distribution, affiliates of BRS continue to own shares of the Company's Common Stock. No amounts were due BRS at December 31, 2010 and 2009.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

9. Leases

The Company leases office, warehouse and multi-recreational facilities and certain equipment under non-cancelable operating leases. In addition to base rent, the facility leases generally provide for additional rent based on operating results, increases in real estate taxes and other costs. Certain leases provide for additional rent based upon defined formulas of revenue, cash flow or operating results of the respective facilities. Under the provisions of certain of these leases, the Company is required to maintain irrevocable letters of credit, which amounted to \$2,250 as of December 31, 2010.

The leases expire at various times through November 30, 2029 and certain leases may be extended at the Company's option.

In the year ended December 31, 2009, the Company recorded early lease termination costs of \$1,305 related to five club closures prior to their lease expiration dates. There were no early lease termination costs in the year ended December 31, 2010.

Future minimum rental payments under non-cancelable operating leases are as follows:

	<u>Minimum Annual Rental</u>
Year Ending December 31,	
2011	\$ 81,564
2012	79,411
2013	76,379
2014	73,225
2015	69,969
Aggregate thereafter	393,582

Rent expense, including the effect of deferred lease liabilities, for the years ended December 31, 2010, 2009 and 2008 was \$111,150, \$109,209 and \$98,763, respectively. Such amounts include additional rent of \$20,869, \$20,459 and \$18,102, respectively.

The Company, as landlord, leases space to third party tenants under non-cancelable operating leases and licenses. In addition to base rent, certain leases provide for additional rent based on increases in real estate taxes, indexation, utilities and defined amounts based on the operating results of the lessee. The leases expire at various times through March 31, 2028. Future minimum rentals receivable under noncancelable leases are as follows:

	<u>Minimum Annual Rental</u>
Year Ending December 31,	
2011	\$ 3,612
2012	3,111
2013	2,402
2014	2,153
2015	2,099
Aggregate thereafter	28,011

Rental income, including non-cash rental income, for the years ended December 31, 2010, 2009 and 2008 was \$4,718, \$4,740 and \$4,452, respectively. Such amounts include additional rental charges above the base rent of \$544, \$474 and \$735, respectively. We own the building at one of our club locations which houses a rental tenant that generated \$1,968, \$1,970 and \$1,739 of rental income for the years ended December 31, 2010, 2009 and 2008, respectively.

10. Stockholders' (Deficit) Equity

a. Capitalization

The Company's certificate of incorporation adopted in connection with the IPO provides for 105,000,000 shares of capital stock, consisting of 5,000,000 shares of Preferred Stock, par value \$0.001 per share (the "Preferred Stock") and 100,000,000 shares of Common Stock, par value \$0.001 per share (the "Common Stock").

b. Common Stock Options

Grants vest in full at various dates between June 1, 2010 and November 1, 2014. The vesting of certain grants will be accelerated in the event that certain defined events occur including the achievement of annual equity values or the sale of the Company. The term of each grant is generally ten years.

As of December 31, 2010, 2009 and 2008, a total of 908,857, 719,923 and 426,384 Common Stock options were exercisable, respectively.

At December 31, 2010, the Company had 148,120 and 2,092,137 stock options outstanding under its 2004 Stock Option Plan and 2006 Stock Incentive Plan, respectively. The total compensation expense related to options, classified within payroll and related on the consolidated statements of income, related to these plans was \$1,220, \$1,562 and \$1,155 for the years ended December 31, 2010, 2009 and 2008, respectively, and the related tax benefit was \$531, \$670 and \$492 for the years ended December 31, 2010, 2009 and 2008, respectively.

On May 30, 2006, the Board of Directors of the Company approved the 2006 Stock Option Plan. The 2006 Stock Option Plan authorizes the Company to issue up to 1,300,000 shares of Common Stock to employees upon the exercise of Options Rights, Stock Appreciation Rights, Restricted Stock, in payment of Performance Shares or other stock-based awards. Under the 2006 Stock Option Plan, stock options may be granted at a price based on the fair market value of the stock on the date the option is granted, generally are not subject to re-pricing and no stock option will be exercisable more than ten years after the date of grant. In March 2008, the Board of Directors adopted the Amended and Restated 2006 Stock Incentive Plan, which, among other things, increased the aggregate number of shares of Common Stock issuable under the plan by 1,200,000 shares to a total of 2,500,000 shares. The 2006 Option Plan, as amended, was approved by stockholders at the 2008 Annual Meeting of Stockholders on May 15, 2008. As of December 31, 2010, there were 257,348 shares available to be issued under the Plan.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Options granted during the year ended December 31, 2010 to employees of the Company and members of the Company's Board of Directors were as follows:

<u>Date</u>	<u>Number of Options</u>	<u>Exercise Price</u>	<u>Black-Scholes Valuation</u>	<u>Grant Date Aggregate Fair Value</u>	<u>Amount Expensed</u>	<u>Volatility</u>	<u>Dividend Yield</u>	<u>Risk Free Interest Rate</u>	<u>Expected Term (Years)</u>
January 4, 2010	7,000	\$2.47	\$1.73	\$ 12	\$12.0	84.0%	—%	2.83%	5.50
January 4, 2010	7,500	\$2.47	\$1.81	\$ 14	\$ 3.0	84.0%	—%	3.18%	6.25
August 2, 2010	260,000	\$2.77	\$1.96	\$510	\$52.0	80.5%	—%	2.17%	6.25
November 1, 2010	<u>155,000</u>	\$3.09	\$2.18	\$338	\$14.0	81.2%	—%	1.72%	6.25
Total	<u>429,500</u>								

Options granted under the 2004 Stock Option Plan generally qualify as "incentive stock options" under the U.S. Internal Revenue Code. Options granted under the 2006 Stock Option Plans generally qualify as "non-qualified stock options" under the U.S. Internal Revenue Code. The exercise price of a stock option is generally equal to the fair market value of the Company's Common Stock on the option grant date.

The fair value of share-based payment awards was estimated using the Black-Scholes option pricing model with the following assumptions and weighted average fair values as follows as of December 31, 2010:

	<u>Number of Shares</u>	<u>Weighted-Average Exercise Price</u>	<u>Weighted-Average Remaining Contractual Term (years)</u>	<u>Aggregate Intrinsic Value (thousands)</u>
Outstanding at December 31, 2010	2,240,257	\$5.20	7.8	\$2,474
Vested at December 31, 2010	908,857	\$7.59	6.6	\$ 683
Exercisable at December 31, 2010	908,857	\$7.59	6.6	\$ 683

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the estimated fair value of the Company's common stock and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on December 31, 2010. The intrinsic value is based on the fair market value of the Company's stock and therefore changes as the fair market value of the stock price changes. The total intrinsic value of options exercised was \$85 for the year ended December 31, 2010.

As of December 31, 2010, a total of \$1,641 unrecognized compensation cost related to stock options is expected to be recognized, depending upon the likelihood that accelerated vesting targets are met in future periods, over a weighted-average period of 3.1 years.

c. Common Stock Grants

Restricted Stock Grants

There were no restricted stock grants issued in the years ended December 31, 2010 or 2009. In the year ended December 31, 2008, there were 31,000 shares of restricted stock issued to employees of the Company. The total compensation expense, classified within payroll and related on the consolidated statements of income, related to these grants was \$31 and \$72 for the years ended December 31, 2010 and 2009, respectively, and the related tax benefit was \$13 and \$31 for the years ended December 31, 2010 and 2009, respectively. The shares contain vesting restrictions and vest 25% per year over four years on the anniversary date of the grants. There were no restricted stock grants prior to 2008.

The total unrecognized compensation expense of \$20 is expected to be recognized through December 4, 2012.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Non-Restricted Stock Grants

For each of the quarters ended March 31, 2010, June 30, 2010, September 30, 2010 and December 31, 2010, the Company issued non-restricted common stock grants to the Company's Board of Directors. The total fair value of the shares issued was expensed upon the grant dates. Total shares issued were:

<u>Date</u>	<u>Number of Shares</u>	<u>Exercise Price</u>	<u>Grant Date Fair Value</u>
March 25, 2010	3,049	\$4.10	\$13
June 24, 2010	5,252	\$2.38	12
September 24, 2010	10,870	\$2.76	30
December 23, 2010	<u>7,537</u>	\$3.98	<u>30</u>
Total	<u>26,708</u>		<u>\$85</u>

d. Common Stock Repurchases

On April 29, 2008, the Board of Directors approved a plan to repurchase up to an aggregate of \$25,000 of Common Stock. The repurchase program continued through December 31, 2009.

During the years ended December 31, 2009 and 2008, the Company repurchased 2,095,613 and 1,838,960 shares of common stock, respectively, at a cost of \$5,355 and \$4,645, respectively.

11. Revenue from Club Operations

Revenues from club operations for the years ended December 31, 2010, 2009 and 2008 are summarized below:

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Membership dues	\$363,429	\$387,123	\$400,874
Joining fees	6,967	12,048	13,723
Personal training revenue	60,875	56,971	61,752
Other club ancillary revenue	<u>26,355</u>	<u>24,589</u>	<u>24,329</u>
Total club revenue	457,626	480,731	500,678
Fees and Other revenue	<u>4,761</u>	<u>4,661</u>	<u>6,031</u>
Total revenue	<u>\$462,387</u>	<u>\$485,392</u>	<u>\$506,709</u>

12. Corporate Income Taxes

The (benefit) provision for income taxes for the years ended December 31, 2010, 2009 and 2008 consisted of the following:

	<u>Year Ended December 31, 2010</u>			
	<u>Federal</u>	<u>Foreign</u>	<u>State and Local</u>	<u>Total</u>
Current	\$(7,819)	\$179	\$ (479)	\$(8,119)
Deferred	<u>8,536</u>	<u>1</u>	<u>(562)</u>	<u>7,975</u>
	<u>\$ 717</u>	<u>\$180</u>	<u>\$(1,041)</u>	<u>\$ (144)</u>

	<u>\$7,947</u>	<u>\$269</u>	<u>\$ 988</u>	<u>\$9,204</u>

The components of deferred tax assets consist of the following items:

	December 31,	
	2010	2009
Deferred tax assets		
Deferred lease liabilities	\$14,569	\$15,665
Deferred revenue	8,365	8,253
Deferred compensation expense incurred in connection with stock options	1,765	2,046
Federal and State net operating loss carry-forwards	4,879	877
Interest accretion	27,226	27,419
Accruals, reserves and other	6,004	6,287
Valuation allowance	<u>(445)</u>	—
	\$62,363	\$60,547
Deferred tax liabilities		
Fixed assets and intangible assets	\$16,627	\$ 7,336
Deferred costs	2,563	2,630
Undistributed foreign earnings and other	<u>1,290</u>	<u>637</u>
	<u>20,480</u>	<u>10,603</u>
Net deferred tax assets	<u>\$41,883</u>	<u>\$50,581</u>

As of December 31, 2010, the Company has net deferred tax assets of \$41,883. Quarterly, the Company assesses the weight of all positive and negative evidence to determine whether the net deferred tax asset is realizable. In 2010 and 2009, the Company incurred losses and expects to be profitable in 2011. The Company has historically been a taxpayer and projects that it will be in a three year cumulative income position, excluding non-recurring items, as of December 31, 2011. In addition, the Company, based on recent trends, projects improved performance and future income sufficient to realize the deferred tax assets during the periods when the temporary tax deductible differences reverse. The Company has state net operating loss carry-forwards which the Company believes will be realized within the available carry-forward period, except for a small state operating loss carryforward in Rhode Island due to the short carryforward period in that state. Accordingly, the Company concluded that it is more likely than not that the deferred tax assets will be realized. If actual results do not meet the Company's forecasts and the Company incurs losses in 2011, a valuation allowance against the deferred tax assets may be required in the future. In addition, with exception of the deductions related to the Company's captive

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

insurance for state taxes, taxable income has been and is projected to be the same as Federal. Because the captive insurance company will be discontinued, the assessment of realizability of the state deferred tax assets is consistent with the Federal tax analysis above.

As of December 31, 2010, the Company has a Federal net operating loss carryforward of \$2,568, Federal wage credit carryforwards of \$606, pre-apportioned state net operating loss carryforwards of \$149,050 and post-apportioned state net operating loss carryforwards of \$23,077. Such amounts expire between December 31, 2014 and December 31, 2030. The Company has concluded that it is more likely than not that the net deferred tax asset balance as of December 31, 2010 will be realized with the exception of the aforementioned Rhode Island loss.

The Company's foreign pre-tax earnings related to the Swiss entity were \$767, \$829 and \$1,044 for the years ended December 31, 2010, 2009 and 2008, respectively and the related current tax provisions were \$179, \$193 and \$269, respectively. The Company expects to repatriate the Swiss earnings in the future. Accordingly, in accordance with ASC 740-30, the Company has recognized a deferred tax liability of \$776 for the United States taxes on the total cumulative earnings of the Swiss clubs.

The results for the year ended December 31, 2010 include the correction of an accounting error that resulted in a decrease in benefit for corporate income taxes and a related decrease in deferred tax assets in the Company's consolidated statement of operations and consolidated balance sheet, respectively. In the fourth quarter of 2010, the Company identified un-reconciled temporary deductible differences, mainly related to fixed assets, which gave rise to deferred tax assets of \$357. These un-reconciled temporary differences principally relate to periods prior to 2008. As the Company was unable to identify a specific transaction that created this un-reconciled difference, such as the disposal of a certain asset, a current deduction could not be taken on the Company's 2010 tax return. Accordingly, the Company wrote-off the deferred tax asset. This write-off resulted in the recognition of an out-of-period income tax expense in 2010 of \$352. The Company does not believe that this error correction is material to the current or prior reporting periods.

The differences between the United States Federal statutory income tax rate and the Company's effective tax rate were as follows for the years ended December 31, 2010, 2009 and 2008:

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Federal statutory tax rate	(35)%	(35)%	35%
State and local income taxes, net of federal tax benefit	(9)	(9)	8
Goodwill impairment	—	—	50
Change in state effective income tax rate	118	(2)	(1)
State tax benefit related to insurance premiums	(310)	(11)	(12)
State tax valuation allowance	100	—	—
Correction of an error	80	—	—
Foreign rate differential	—	(1)	(1)
Provision for undistributed earnings of non-U.S. subsidiaries	—	6	—
Other permanent differences	<u>23</u>	<u>1</u>	<u>1</u>
	<u>(33)%</u>	<u>(51)%</u>	<u>80%</u>

The 2010 effective tax rate benefit of 33% on our pre-tax loss was higher than the United States Federal statutory income tax rate primarily due to the State tax benefit related to insurance premiums and interest paid to the captive insurance company.

The 2009 effective tax rate benefit of 51% on our pre-tax loss was higher than the United States Federal statutory income tax rate primarily due State tax benefit related to insurance premiums and interest paid to the captive insurance company.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The 2008 effective tax rate of 80% was higher than the United States statutory income tax rate primarily due to the goodwill impairment of clubs that were acquired in stock-based transactions in our Boston Sports club region.

Unrecognized tax benefits were \$1,155 for the year ended December 31, 2010.

As of December 31, 2010, \$751 represented the amount of unrecognized tax benefits that, if recognized, would affect the Company's effective tax rate in any future periods. For each of the years ended December 31, 2010, 2009 and 2008, interest expense on unrecognized tax benefits was \$53. The Company recognizes both interest accrued related to unrecognized tax benefits and penalties in income tax expenses. The Company had accruals for interest or penalties as of December 31, 2010 and 2009 of \$197 and \$145, respectively. In 2011, \$751 of unrecognized tax benefits could be realized by the Company since the income tax returns may no longer be subject to audit during 2011.

The Company files Federal income tax returns, a foreign jurisdiction return and multiple state and local jurisdiction tax returns. The Company is no longer subject to examinations of its Federal income tax returns by the Internal Revenue Service for years 2007 and prior. The Federal government is currently examining 2008.

The State of New York is currently examining years 2006 and 2007. The Company is no longer subject to examinations of its income tax returns by the State of New York for years 2005 and prior.

13. Contingencies

On or about March 1, 2005, in an action styled *Sarah Cruz, et al v. Town Sports International, d/b/a New York Sports Club*, plaintiffs commenced a purported class action against the Company in the Supreme Court, New York County, seeking unpaid wages and alleging that TSI, LLC violated various overtime provisions of the New York State Labor Law with respect to the payment of wages to certain trainers and assistant fitness managers. On or about June 18, 2007, the same plaintiffs commenced a second purported class action against the Company in the Supreme Court of the State of New York, New York County, seeking unpaid wages and alleging that TSI, LLC violated various wage payment and overtime provisions of the New York State Labor Law with respect to the payment of wages to all New York purported hourly employees. On September 17, 2010, the Company made motions to dismiss the class action allegations of both lawsuits for plaintiffs' failure to timely file motions to certify the class actions. Oral argument on the motions occurred on November 10, 2010. While we are unable at this time to estimate the likelihood of an unfavorable outcome or the potential loss to the Company in the event of such an outcome, we intend to contest these cases vigorously. Depending upon the ultimate outcome, these matters may have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

On September 14, 2009, the Staff of the SEC advised the Company that a formal order of private investigation had been issued with respect to the Company. Since May 2008, the Company had been providing documents and testimony on a voluntary basis in response to an informal inquiry by the Staff of the SEC, which primarily related to the deferral of certain payroll costs incurred in connection with the sale of memberships in the Company's health and fitness clubs and the time period utilized by the Company for the amortization of (i) such deferred costs into expense and (ii) initiation fees into revenue. On November 29, 2010, the Company received a letter from the Staff of the SEC stating that it has completed the investigation of the above-referenced accounting matters and that the Staff does not intend to recommend any enforcement action by the SEC against the Company.

On September 22, 2009, in an action styled *Town Sports International, LLC v. Ajilon Solutions*, a division of Ajilon Professional Staffing LLC (Supreme Court of the State of New York, New York County, 602911-09), TSI, LLC brought an action in the Supreme Court of the State of New York, New York County, against Ajilon for breach of contract, conversion and replevin, seeking, among other things, money damages against Ajilon for breaching its agreement to design and deliver to TSI, LLC a new sports club enterprise management system known as GIMS, including failing to provide copies of the computer source code written for GIMS, related documentation, properly identified requirements documents and other property owned and licensed by TSI, LLC. Subsequently, on October 14, 2009, Ajilon brought a counterclaim against TSI, LLC alleging breach of contract, alleging, among other things, failure to pay outstanding invoices in the amount of \$2,900. The litigation is currently in the discovery

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

phase. We believe at this time the likelihood of an unfavorable outcome is not probable. The Company intends to prosecute vigorously its claims against Ajilon and defend against Ajilon's counterclaim.

On February 7, 2007, in an action styled *White Plains Plaza Realty, LLC v. TSI, LLC et al.*, the landlord of one of TSI, LLC's former health and fitness clubs filed a lawsuit in state court against it and two of its health club subsidiaries alleging, among other things, breach of lease in connection with the decision to close the club located in a building owned by the plaintiff and leased to a subsidiary of TSI, LLC, and take additional space in the nearby facility leased by another subsidiary of TSI, LLC. The trial court granted the landlord damages against its tenant in the amount of approximately \$700, including interest and costs ("Initial Award"). The landlord subsequently appealed the trial court's award of damages, and on December 21, 2010, the appellate court reversed, in part, the trial court's decision and ordered the case remanded to the trial court for an assessment of additional damages, of approximately \$750 plus interest and costs (the "Additional Award"). On February 7, 2011, the landlord moved for re-argument of the appellate court's decision, seeking additional damages plus attorneys' fees. The Additional Award has not yet been entered as a judgment. The Company does not believe it is probable that TSI, LLC or any of its subsidiaries will be held liable to pay for any amount of the Additional Award.

Separately, TSI, LLC is party to an agreement with a third-party developer, which by its terms provides indemnification for the full amount of any liability of any nature arising out of the lease, including attorneys' fees incurred to enforce the indemnity. In connection with the Initial Award (and in furtherance of the indemnification agreement), TSI, LLC and the developer have entered into an agreement pursuant to which the developer has agreed to pay the amount of the Initial Award in installments over time. The indemnification agreement will cover the Additional Award as and if entered by the court. If the third-party developer fails to honor its indemnity obligation with respect to the Additional Award (or any amount awarded on further appeal), TSI, LLC's liability to the landlord may have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

In addition to the litigation discussed above, we are involved in various other lawsuits, claims and proceedings incidental to the ordinary course of business, including personal injury and employee relations claims. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. The results of these other lawsuits, claims and proceedings cannot be predicted with certainty.

14. Employee Benefit Plan

The Company maintains a 401(k) defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides for the Company to make discretionary contributions. The Plan was amended, effective January 1, 2001, to provide for an employer matching contribution in an amount equal to 25% of the participant's contribution with a limit of five hundred dollars per individual, per annum. Employer matching contributions totaling \$221 and \$225 were made in March 2010 and March 2009, respectively, for the Plan years ended December 31, 2008 and 2007, respectively. The Company expects to make an employer matching contribution of approximately \$225 in March 2011 for the Plan year ended December 31, 2010.

TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

15. Selected Quarterly Financial Data (Unaudited)

	2010			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
	(b)	(c)	(d)	(e)
Net revenue	\$117,759	\$117,436	\$113,127	\$114,065
Operating income	2,798	2,463	4,067	9,112
Net (loss) income	(732)	(815)	(18)	1,275
(Loss) earnings per share(a)				
Basic	\$ (0.03)	\$ (0.04)	\$ (0.00)	\$ 0.06
Diluted	\$ (0.03)	\$ (0.04)	\$ (0.00)	\$ 0.06
	2009			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
	(f)	(g)	(h)	(i)
Net revenue	\$126,709	\$123,912	\$120,449	\$114,322
Operating income	5,578	8,778	1,444	(7,929)
Net income (loss)	639	2,524	(1,485)	(7,346)
Earnings (loss) per share(a)				
Basic	\$ 0.03	\$ 0.11	\$ (0.07)	\$ (0.33)
Diluted	\$ 0.03	\$ 0.11	\$ (0.07)	\$ (0.33)

- (a) Basic and diluted earnings per share are computed independently for each quarter presented. Accordingly, the sum of the quarterly earnings per share may not agree with the calculated full year earnings per share.
- (b) Net income and earnings per share for the first quarter of 2010 include \$220 and (\$0.01), respectively, for the effect of impairment of fixed assets, net of tax.
- (c) Net loss and loss per share for the second quarter of 2010 include \$1,619 and (\$0.07), respectively for the effect of impairment of fixed assets, net of tax.
- (d) Net revenue, net income and earnings per share for the fourth quarter of 2010 include \$2,697, \$1,167 and \$0.07, respectively for the effect of the recognition of unused and expired personal training sessions in three of our jurisdictions.
- (e) Net income and earnings per share for the first quarter of 2009 include \$639 and (\$0.03), respectively, for the effect of impairment of fixed assets, net of tax.
- (f) Net loss and loss per share for the third quarter of 2009 include \$1,962 and (\$0.09), respectively for the effect of impairment of fixed assets, net of tax.
- (g) Net loss and loss per share for the fourth quarter of 2009 include \$6,948 and (\$0.31), respectively for the effect of impairments of fixed assets and internal-use software, net of tax, \$424 and (\$0.02), respectively, related to a previous accounting error in deferring the salaries of membership consultants and \$302 and \$0.01, respectively, related to the correction of a rent settlement recorded in the second quarter of 2009, net of tax.

Exhibit Index

The following is a list of all exhibits filed or incorporated by reference as part of this Report:

<u>Exhibit No.</u>	<u>Description of Exhibit</u>
3.1	Amended and Restated Certificate of Incorporation of Town Sports International Holdings, Inc. (the "Registrant") (incorporated by reference to Exhibit 3.1 of the Registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 2006).
3.2	Second Amended and Restated By-laws of the Registrant (incorporated by reference to Exhibit 3.1 of the Registrant's Current Report on Form 8-K, filed on May 19, 2008).
4.1	Indenture dated as of February 4, 2004 by and among Town Sports International Holdings, Inc. and The Bank of New York (incorporated by reference to Exhibit 4.1 of the Company's Registration Statement on Form S-4, File No. 333-114210 (the "S-4 Registration Statement")).
4.2	Form of Common Stock Certificate (incorporated by reference to Exhibit 4.5 of the Registrant's Registration Statement on Form S-1, File No. 333-126428 (the "S-1 Registration Statement")).
10.1	Credit Agreement dated as of February 27, 2007, by and among Town Sports International Holdings, Inc. and Town Sports International, LLC, and Deutsche Bank Trust Company Americas, as administrative agent, Deutsche Bank Securities, Inc., as sole lead arranger and book manager, and a syndicate of lenders named therein (incorporated by reference to Exhibit 10.1 of the Registrant's Current Report on Form 8-K filed March 5, 2007).
10.2	First Amendment to Credit Agreement, dated as of July 15, 2009, among Town Sports International Holdings, Inc., Town Sports International, LLC, as the borrower, the lenders from time to time party to the Credit Agreement, dated as of February 27, 2007, and Deutsche Bank Trust Company Americas, as administrative agent for the lenders. (incorporated by reference to Exhibit 10.1 of the Registrant's Current Report on Form 8-K filed July 17, 2009).
10.3	Subsidiaries Guaranty dated as of February 27, 2007, made by each of the guarantors named therein (incorporated by reference to Exhibit 10.2 of the Registrant's Current Report on Form 8-K filed March 5, 2007).
10.4	Borrower/Sub Pledge Agreement, dated as of February 27, 2007, among each of the pledgors named therein and Deutsche Bank Trust Company Americas, as collateral agent (incorporated by reference to Exhibit 10.3 of the Registrant's Current Report on Form 8-K filed March 5, 2007).
10.5	Security Agreement, dated as of February 27, 2007, made by each of the assignors named therein in favor of Deutsche Bank Trust Company Americas, as collateral agent (incorporated by reference to Exhibit 10.4 of the Registrant's Current Report on Form 8-K filed March 5, 2007).
10.6	Restructuring Agreement, dated as of February 4, 2004, by and among Town Sports International, Inc., Town Sports International Holdings, Inc. Bruckmann, Rosser, Sherril & Co., L.P. the individuals and entities listed on the BRS Co-Investor Signature Pages thereto, Farallon Capital Partners, L.P., Farallon Capital Institutional Partners, L.P., RR Capital Partners, L.P., and Farallon Capital Institutional Partners II, L.P., Canterbury Detroit Partners, L.P., Canterbury Mezzanine Capital, L.P., Rosewood Capital, L.P., Rosewood Capital IV, L.P., Rosewood Capital IV Associates, L.P., CapitalSource Holdings LLC, Keith Alessi, Paul Arnold, and certain stockholders of the Company listed on the Executive Signature Pages thereto (incorporated by reference to Exhibit 10.3 of the S-4 Registration Statement).
10.7	Registration Rights Agreement, dated as of February 4, 2004, by and among Town Sports International Holdings, Inc., Town Sports International, Inc., Bruckmann, Rosser, Sherrill & Co., L.P. the individuals and entities listed on the BRS Co-Investor Signature Pages thereto, Farallon Capital Partners, L.P., Farallon Capital Institutional Partners, L.P., RR Capital Partners, L.P., and Farallon Capital Institutional Partners II, L.P., Canterbury Detroit Partners, L.P., Canterbury Mezzanine Capital, L.P., Rosewood Capital, L.P., Rosewood Capital IV, L.P., Rosewood Capital IV Associates, L.P., CapitalSource Holdings LLC, Keith Alessi, Paul Arnold, and certain stockholders of the Company listed on the Executive Signature Pages thereto (incorporated by reference to Exhibit 10.5 of the S-4 Registration Statement).
10.8	Amendment No. 1 to the Registration Rights Agreement dated as of March 23, 2006 (incorporated by reference to Exhibit 10.21 of the Registrant's Annual Report on Form 10-K for the year ended December 31, 2005 (the "2005 Form 10-K")).
10.9	Amendment No. 2 to the Registration Rights Agreement dated as of May 30, 2006 (incorporated by reference to Exhibit 10.9.1 of the S-1 Registration Statement).

<u>Exhibit No.</u>	<u>Description of Exhibit</u>
10.10	Tax Sharing Agreement, dated as of February 4, 2004, by and among Town Sports International Holdings, Inc., Town Sports International, Inc., and the other signatories thereto (incorporated by reference to Exhibit 10.6 of the S-4 Registration Statement).
10.11	Pledge Agreement, dated as of February 4, 2004, between Town Sports International Holdings, Inc. and Deutsche Bank Trust Company Americas, as collateral agent, for the benefit of the Secured Creditors (as defined therein) (incorporated by reference to Exhibit 10.8 of the S-4 Registration Statement).

* Management contract or compensatory plan or arrangement.

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We hereby consent to the incorporation by reference in the Registration Statements on Form S-8 (No. 333-135048 and 333-151965) of Town Sports International Holdings, Inc. of our report dated February 25, 2011 relating to the financial statements and the effectiveness of internal control over financial reporting, which appears in this Form 10-K.

/s/ PRICEWATERHOUSECOOPERS LLP

New York, NY
February 25, 2011

CERTIFICATIONS

I, Robert Giardina, certify that:

1. I have reviewed this Annual Report on Form 10-K for the year ended December 31, 2010 of Town Sports International Holdings, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
