KONA GRILL®

**Notice of 2011 Annual Meeting
and Proxy Statement**

2010 Annual Report

March 14, 2011

Dear Fellow Shareholders:

Kona Grill ended 2010 on a strong note, delivering solid top-line results fueled by a 6.4% increase in same-store sales during the fourth quarter. We also experienced positive traffic trends for each quarter of 2010. These results were driven by menu improvement and marketing initiatives aimed at building awareness and guest frequency. While we still faced challenging macroeconomic headwinds in 2010 due to the slow pace of the recovery in employment, housing and consumer confidence, we believe a positive direction is clear, and this should bode well for Kona Grill.

Over the past eight months, we have been working on a comprehensive menu evolution project to increase the “wow” factor and enhance the flavor profile of many food items. We completed three of the four phases of this rollout during 2010, which included the addition of several new entrees and flatbreads, and improvements to existing appetizers, salads, sandwiches, pizzas and desserts. Guest reaction to these menu enhancements continues to be very positive and their success is reflected in our sales growth. We will rollout the final phase later this month with the addition of new sushi items.

To gather a better understanding of our guests’ preferences and behavior, and to encourage them to visit their local Kona Grill location with greater frequency, we introduced the “Konavore” loyalty program at the beginning of the year. Membership has since grown to more than 130,000. We will be adding a bar-code tracking system to all member messages, which will enhance our ability to gather better usage data and target guests who have not visited us in a while.

To complement our re-engineered menu and marketing initiatives, I’m continually impressed by our dedicated group of restaurant operators who led their individual businesses with passion, enthusiasm and energy throughout the year. After all, our people are our greatest asset. We’ve strengthened our team with the addition of a senior director of culinary and purchasing to help mitigate rising commodity costs and source the highest quality ingredients possible. Our team has also been working on ways to streamline and consolidate our supply chain and leverage purchasing power.

As we begin 2011, we are confident the Kona Grill brand is very well positioned to be competitive in today's times, with its primary concept attributes differentiated within the casual dining segment’s “sea of sameness.” We possess a very flexible scratch kitchen. Our full-service sushi bar represents 22% of our business while our bar business is 31% of sales, which enables us to drive business during four different day parts. This combination is not found in any other national dining concept.

For 2011, our mission to deliver an outstanding guest experience to every guest, every day and in every restaurant, hasn’t changed. We believe the past year’s investments in marketing, menu development, and people are beginning to pay off with increased guest loyalty and top-line sales growth. While we are encouraged by the positive same-store sales results, we know that we have more work ahead to leverage these incremental sales dollars into an improving bottom line and higher shareholder returns.

In the coming year, we will continue to reinvest in our current portfolio of restaurants to protect and ensure our competitive advantage in the market place, while approaching new growth at a measured and opportunistic pace. We appreciate the passion you share with us for this great brand, and we hope to see you in one of our restaurants very soon.

Sincerely,

Marc A. Buehler
President & CEO
Kona Grill, Inc.

KONA GRILL, INC.
NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
APRIL 28, 2011

The Annual Meeting of Stockholders of Kona Grill, Inc., a Delaware corporation, will be held at 9:00 a.m., on Thursday, April 28, 2011, at the Kona Grill City North restaurant located at 5310 E. High Street, Phoenix, Arizona, for the following purposes:

1. To elect two Class III directors nominated by the Board of Directors to serve for a three-year term expiring in 2014;
2. To ratify the selection of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2011;
3. To consider one stockholder proposal described in the accompanying proxy statement, if properly presented at the meeting; and
4. To transact such other business as may properly come before the meeting or any adjournment or postponement thereof.

These items of business are more fully described in the proxy statement accompanying this notice.

The Board of Directors has fixed the close of business on March 4, 2011 as the record date for the determination of stockholders entitled to notice of and to vote at the annual meeting.

Sincerely,

Mark S. Robinow
*Executive Vice President,
Chief Financial Officer, and Secretary*

Scottsdale, Arizona 85251

PROXY STATEMENT

VOTING AND OTHER MATTERS

General

This proxy statement is being furnished to the stockholders of Kona Grill, Inc. in connection with the solicitation of proxies by our Board of Directors for use at our Annual Meeting of Stockholders to be held at the Kona Grill City North restaurant located at 5310 E. High Street, Phoenix, Arizona, on Thursday, April 28, 2011, at 9:00 a.m., local time, and at any adjournment or postponement thereof. These proxy solicitation materials were first made available on or about March 18, 2011 to all stockholders entitled to vote at the meeting.

Internet Availability of Proxy Materials

We have elected to provide access to our proxy materials electronically over the Internet as permitted by rules of the Securities and Exchange Commission. Accordingly, we have sent a Notice of Internet Availability of Proxy Materials to certain of our stockholders. On or about March 18, 2011, stockholders will have the ability to access the proxy materials on the website referred to in the Notice of Internet Availability of Proxy Materials and to request a printed set of the proxy materials.

Who is Entitled to Vote at the Annual Meeting

Only holders of record of our common stock as of the close of business on March 4, 2011, are entitled to notice of, and to vote at, the meeting. On the record date, there were 9,206,795 shares of our common stock outstanding. Each outstanding share of common stock is entitled to one vote upon all matters to be acted upon at the meeting.

Voting

The presence, in person or by proxy, of the holders of a majority of the total number of shares of common stock entitled to vote constitutes a quorum for the transaction of business at the meeting. Assuming that a quorum is present, a plurality of the votes properly cast in person or by proxy will be required to elect the two director candidates; and the affirmative vote of a majority of the shares present in person or by proxy will be required to ratify the appointment of Ernst & Young LLP as our independent auditor for the fiscal year ending December 31, 2011 and to approve the stockholder proposal.

Votes cast by proxy or in person at the meeting will be tabulated by the election inspectors appointed for the meeting who will determine whether a quorum is present. The election inspectors will treat abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum but as unvoted for purposes of determining the approval of any matter submitted to the stockholders for a vote. If a broker indicates on the proxy that it does not have discretionary authority as to certain shares to vote on a particular matter, those shares will not be considered as present and entitled to vote with respect to that matter.

Voting of Proxies

When a proxy is properly executed and returned, the shares it represents will be voted at the meeting as directed. If no specification is indicated, the shares will be voted (1) "for" the election of the nominees set forth in this proxy statement, (2) "for" the ratification of the appointment of Ernst & Young LLP as our independent auditor for the fiscal year ending December 31, 2011, and (3) "against" the stockholder proposal set forth in this proxy statement.

Revocability of Proxies

Any person giving a proxy may revoke the proxy at any time before its use by delivering to us either a written notice of revocation or a duly executed proxy bearing a later date or by attending the meeting and voting in person.

Solicitation

We will bear the cost of this solicitation. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for reasonable expenses incurred in forwarding solicitation materials to such beneficial owners. Proxies also may be solicited by certain of our directors and officers, personally or by telephone or e-mail, without additional compensation.

ANNUAL REPORT

Our 2010 Annual Report to Stockholders, which includes our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, was made available to stockholders with or preceding this proxy statement. Such 2010 Annual Report to Stockholders contains financial and other information about our company, but is not incorporated into this proxy statement and is not to be considered a part of these proxy soliciting materials or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Exchange Act. The information contained in the "Compensation Committee Report on Executive Compensation" and the "Report of the Audit Committee" shall not be deemed "filed" with the SEC or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Exchange Act.

We will provide, without charge to each person being solicited by this proxy statement, upon request, a printed copy of our 2010 Annual Report to Stockholders, which includes our Annual Report on Form 10-K for the year ended December 31, 2010 as filed with the SEC. Upon payment of a reasonable fee, stockholders may also obtain a copy of the exhibits to our Annual Report on Form 10-K for the year ended December 31, 2010. All such requests should be directed to Kona Grill, Inc., 7150 East Camelback Road, Suite 220, Scottsdale, Arizona 85251, Attention: Mark S. Robinow, Secretary.

PROPOSAL 1
ELECTION OF DIRECTORS

Nominees

Our certificate of incorporation provides for three classes of directors, each of which serves for a term of three years. At the meeting, our Class III directors will be elected to hold office for a term of three years or until their respective successors are elected and qualified. Unless otherwise instructed, the shares represented by validly submitted proxy cards will be voted for the election of each of the below-listed Board approved and recommended nominees to serve as Class III directors. The Board approved and recommended nominees have consented to be named in the proxy statement and to serve as directors, if elected. The Board has no reason to believe that the below-listed Board approved and recommended nominees will not be candidates or will be unable or will decline to serve as directors if they are elected at the meeting. However, in the event that any of the below-listed Board approved and recommended nominees should become unable or unwilling to serve as a director, the form of proxy will be voted "for" the election of such substitute nominees as shall be designated by the remaining incumbent directors of our current Board of Directors to fill the vacancy. In such event, we intend to supplement this proxy statement to identify the substitute nominees and provide other relevant information regarding such nominees as required by applicable securities laws.

Pursuant to its charter, the Nominating Committee of the Board of Directors has recommended the Board's director-nominees for election to our Board based on the following: (a) the Board's director-nominees possess the experience, qualifications, attributes, and skills necessary to serve as members of the Board, and (b) the Board's director-nominees possess the diversity of specific skills and characteristics necessary for the optimal functioning of the Board in its oversight of our company, including the knowledge and experience of the Board's director-nominees in serving on our Board of Directors.

The Board of Directors unanimously recommends a vote FOR the election of Messrs. Bakay and Hauser as Class III directors.

Class III: Term to Expire in 2014

<u>Name</u>	<u>Age</u>	<u>Year First Became a Director</u>
Berke Bakay	32	2009
Richard J. Hauser	49	2004

DIRECTORS WHO ARE CONTINUING IN OFFICE:

(1) Member of the Audit Committee

(2) Member of the Compensation Committee

(3) Member of the Nominating Committee

Biographical Information Regarding Directors

James R. Jundt was appointed to serve as a director of our company on November 16, 2010. Mr. Jundt began his investment career in 1964 with Merrill Lynch in New York as a securities analyst covering the restaurant and retail industries. In 1969, Mr. Jundt joined Investors Diversified Services, Inc. (now known as Ameriprise Financial, Inc.) in Minneapolis, Minnesota where he served in analytical and portfolio management positions until 1979. From 1979 to 1982, Mr. Jundt was a portfolio manager for St. Paul Advisers, Inc. in Minneapolis. In 1982, Mr. Jundt founded Jundt Associates, Inc., an investment advisory firm which managed pension assets, mutual funds, and hedge funds. After 2001, Mr. Jundt was no longer a shareholder or partner in Jundt Associates, although he remained an employee, portfolio manager and executive officer until his resignation in October 2007. Jundt Associates was placed into receivership by the Hennepin County District Court, State of Minnesota, in December 2007. Since his resignation from Jundt Associates, Mr. Jundt has been a principal and portfolio manager for JRJ Management, LLC, an investment advisory firm based in Scottsdale, Arizona. Mr. Jundt has served on the boards of directors of numerous private companies, universities, and other institutions. Mr. Jundt holds a Bachelor degree from Gonzaga University and is a Chartered Financial Analyst. Mr. Jundt has a strong background in business and finance with extensive experience in investment advisory and portfolio management.

Marc A. Buehler has served as our Chief Executive Officer and President since November 2009 and is also a member of our Board of Directors. Prior to joining our company, Mr. Buehler was the Chief Executive Officer of LS Management, Inc., the owner and operator of the Lone Star Steakhouse & Saloon/Texas Land and Cattle Steak House restaurant concepts, as well as Lone Star Business solutions, where he served from July 2007 to May 2009. From July 2002 to July 2007, Mr. Buehler worked at Romacorp, Inc. which operates and franchises more than 200 Tony Roma's casual dining locations, as the Vice President of Marketing and was promoted to Chief Executive Officer, President, and Director of Romacorp during July 2006. Prior to that, Mr. Buehler served as Vice President of Marketing at Eateries, Inc. from March 1999 to July 2002 and Marketing Manager at Applebee's International, Inc. from February 1996 to March 1999. Mr. Buehler also serves as a Board Member of Share Our Strength and is a co-chairperson of the National Restaurant Association's Marketing Executives Group. In addition he is a member of the Young Presidents' Organization.

Berke Bakay has served as a director of our company since October 2009. Mr. Bakay is the founder and managing member of BBS Capital Management, LP, a Texas limited partnership that serves as the investment manager to the BBS Capital Fund, LP. BBS Capital Fund, LP currently focuses its investments mainly in the United States and the People's Republic of China in the consumer discretionary, education, and media industries. BBS Capital Fund, LP is currently the largest stockholder of Kona Grill, Inc. Prior to forming BBS Capital Management, LP, Mr. Bakay was the co-founder and co-portfolio manager of Patara Capital Management, LP (an investment management firm based in Dallas, Texas) from 2006 to 2007. Prior to co-founding Patara Capital Management, LP,

Mr. Bakay worked as an equity analyst at Southwest Securities, a division of SWS Group (NYSE: SWS), where he covered the specialty retail industry. Mr. Bakay has a strong background in business and finance with experience as a buy-side portfolio manager covering publicly traded restaurant companies.

Richard J. Hauser has served as a director of our company since December 2004. Mr. Hauser serves as the President and owner of Capital Real Estate, Inc., a commercial real estate development company based in Minneapolis, Minnesota, which he founded in 2001. In addition, Mr. Hauser is the Manager and owner of Net Lease Development, LLC, which is a controlled operating company under Capital Real Estate, Inc., as well as a member and managing partner of several other partnerships formed for real estate and related ventures. Mr. Hauser currently serves as the CEO of Gaia Leasing, LLC, a commercial leasing company which services the restaurant and other industries. Prior to founding Capital Real Estate, Inc. and Net Lease Development, LLC, Mr. Hauser served as a partner with Reliance Development Company, LLC from 1992 to 2001, where he was responsible for the management, development, and sale of retail properties. Mr. Hauser has a strong executive background in commercial real estate and finance, with extensive experience in development, business operations and strategic planning.

Douglas G. Hipskind has served as a director of our company since November 2003. Mr. Hipskind has served as President of Gaia Leasing, LLC, a commercial leasing company which services the restaurant and other industries, since September 2007. Mr. Hipskind also serves as a director of Vail Investors, LLC, of which Mr. Hauser's spouse also serves as a director. Prior to this role, Mr. Hipskind was a Partner of Black Diamond Resorts, a hotel development company engaged in designing and developing the Four Seasons Resort in Vail, Colorado. Mr. Hipskind also served as a Managing Director of Jundt Associates, Inc. from January 2001 to November 2006. From August 1999 to January 2001 he served as Controller of Jundt Associates, Inc. From December 1993 to August 1999, Mr. Hipskind served in the Financial Services practice of KPMG LLP, where he was responsible for tax and consulting matters for his mutual fund and investment partnership clients. Mr. Hipskind is a Certified Public Accountant (inactive license holder). Mr. Hipskind has extensive experience in corporate finance and accounting and commercial leasing with a principal focus in the restaurant industry.

Michael A. Nahkunst was appointed to serve as a director of our company on November 16, 2010. Since January 2009, Mr. Nahkunst has served as the principal of Bailiwick Capital Partners, a strategic corporate development and financial advisory firm specializing in the restaurant industry. Prior to that time, from September 2007 until October 2008, Mr. Nahkunst served as the Chief Operating Officer for Max & Erma's Restaurants, Inc. and was a key member of the turn-around team that closed a going private transaction. From March 2002 until March 2005, Mr. Nahkunst served as Chief Operating Officer of BJ's Restaurants, a micro-brewery and sports bar concept, spearheading key strategic operational and corporate development plans for its national growth. His other restaurant experiences include executive-level positions at BJ's Restaurants Inc., Big Rock Restaurant Group, The Cheesecake Factory, Inc., as well as senior-level positions at Brinker International Inc. Mr. Nahkunst attended the University of Texas at Austin, School of Business. Mr. Nahkunst has extensive experience in the restaurant industry, including serving in executive level positions at many restaurant concepts.

Anthony L. Winczewski has served as a director of our company since April 2005. Mr. Winczewski has served as President and Chief Executive Officer of Commercial Partners Title, LLC, a midwestern title insurance agency engaged in providing commercial, residential, and tax deferred exchange solutions since January 1995. Prior to forming Commercial Partners in 1995, Mr. Winczewski served as a manager and sales officer for Chicago Title Insurance Company from May 1984 until January 1995. Mr. Winczewski served as a Vice President and Principal of Winona County Abstract and Title, Inc. from July 1975 until May 1984, and as a paralegal for Title Insurance Company of Minnesota from June 1974 until July 1975. Mr. Winczewski has a strong executive background in real estate finance and has over 35 years of experience in management and ownership positions.

Certain Family Relationships

Mr. James Jundt is the father of Marcus E. Jundt, our former Chairman of the Board, Chief Executive Officer, and President. On August 6, 2009, we entered into a Separation Agreement with Marcus E. Jundt relating to his resignation from our company during May 2009. Pursuant to the terms of the Separation Agreement, Mr. Marcus E. Jundt received severance compensation equal to his base salary in effect at the time of termination for a period of twelve months, paid in the manner and at such times as the base salary otherwise would have been payable, and continuation of medical and dental benefits in effect under COBRA for a period of twelve months. In addition,

pursuant to the Separation Agreement, all unvested portions of Mr. Marcus Jundt's stock options that were scheduled to vest over a period of 12 months following the date of termination became vested and immediately exercisable for a period of three months following the separation date. The Separation Agreement contained customary confidentiality provisions and a full release of any claims, known or unknown that Mr. Marcus Jundt may have had against us.

Other than the foregoing, there are no family relationships among any of our directors or executive officers.

Classification of Our Board of Directors

Our certificate of incorporation provides for a Board of Directors consisting of three classes serving three-year staggered terms. Marc A. Buehler and James R. Jundt serve as our Class I directors, with the term of office of the Class I directors expiring at the annual meeting of stockholders in 2012. The Class II directors consist of Douglas G. Hipskind, Michael A. Nahkunst, and Anthony L. Winczewski, with the term of office of the Class II directors expiring at the annual meeting of stockholders in 2013. Class III directors consist of Berke Bakay and Richard J. Hauser, with the term of office of Class III directors expiring at the annual meeting of stockholders in 2011. Officers serve at the pleasure of the Board of Directors.

Information Relating to Corporate Governance and the Board of Directors

The Board of Directors has determined that having a non-employee serve as Chairman of the Board is in the best interests of stockholders. The structure ensures a greater role for the independent directors in the oversight of our company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the Board's work. Mr. Jundt currently serves as the Chairman of the Board.

The Board is actively involved in oversight of risks that could affect our company. This oversight is conducted primarily through committees of the Board, as disclosed in the descriptions of each of the committees below and in the charters of each of the committees, but the full Board has retained responsibility for general oversight of risks. The Board satisfies this responsibility through full reports by each committee chair regarding the committee's considerations and actions, as well as through regular reports directly from officers responsible for oversight of particular risks within our company.

Our Board of Directors has determined, after considering all the relevant facts and circumstances, that each of our directors, with the exception of Mr. Buehler who currently serves as our Chief Executive Officer, are independent directors, as "independence" is defined by NASDAQ and the SEC, because they have no relationship with us that would interfere with their exercise of independent judgment in carrying out their responsibilities as a director. Mark A. Zesbaugh served as an independent director of our company and as a member of the Audit Committee prior to his resignation in November 2010. We regularly schedule executive sessions at which independent directors meet without the presence or participation of management.

Our bylaws authorize our Board of Directors to appoint among its members one or more committees, each consisting of one or more directors. Our Board of Directors has established an Audit Committee, Compensation Committee, and Nominating Committee, each consisting entirely of independent directors.

Our Board of Directors has adopted charters for the Audit, Compensation, and Nominating Committees describing the authority and responsibilities delegated to each committee by our Board of Directors. Our Board of Directors has also adopted a Code of Business Conduct and Ethics and a Code of Ethics for the CEO and Senior Financial Officers. We post on our website at www.konagrill.com, the charters of our Audit, Compensation, and Nominating Committees; our Code of Business Conduct and Ethics, and Code of Ethics for the CEO and Senior Financial Officers; and any other corporate governance materials contemplated by SEC or NASDAQ regulations. These documents are also available in print to any stockholder requesting a copy in writing from our corporate secretary at our executive offices set forth in this proxy statement.

Interested parties may communicate with our Board of Directors or specific members of our Board of Directors, including our independent directors and the members of our various board committees, by submitting a letter

addressed to the Board of Directors of Kona Grill, Inc. c/o any specified individual director or directors to our corporate office. Any such letters are sent to the indicated directors.

Audit Committee

The purpose of the Audit Committee is to oversee the financial and reporting processes and the audits of the financial statements of our company and to provide assistance to our Board of Directors with respect to the oversight of the integrity of the financial statements, our company's compliance with legal and regulatory matters, the independent auditor's qualifications and independence, and the performance of our company's independent auditor. The primary responsibilities of the Audit Committee are set forth in its charter. The Audit Committee also selects the independent auditor to conduct the annual audit of the financial statements of our company; reviews the proposed scope of such audit; reviews accounting and financial controls of our company with the independent auditor and our financial accounting staff; and reviews and approves transactions between us and our directors, officers, and their affiliates.

The Audit Committee currently consists of Messrs. Hipskind, Nahkunst, and Winczewski, each of whom is an independent director of our company under the NASDAQ rules as well as under rules adopted by the SEC pursuant to the Sarbanes-Oxley Act of 2002. The Board of Directors has determined that Mr. Hipskind (whose background is detailed above) qualifies as an "audit committee financial expert" in accordance with applicable rules and regulations of the SEC. Mr. Hipskind serves as the Chairman of the Audit Committee.

Nominating Committee

The Nominating Committee identifies and evaluates nominees for our Board of Directors, including nominees recommended by stockholders, based on numerous factors it considers appropriate. The Nominating Committee is responsible for making recommendations to the Board of Directors of nominees to stand for election as directors at each election of directors, the oversight of the selection and composition of committees of the Board of Directors, the oversight of the evaluations of the Board of Directors and management, and the development and recommendation to the Board of Directors of a set of corporate governance principles applicable to our company. The Nominating Committee currently consists of Messrs. Bakay, Nahkunst and Winczewski, with Mr. Winczewski serving as Chairman.

The Board of Directors periodically reviews the diversity of specific skills and characteristics necessary for the optimal functioning of the Board in its oversight of the company. The Nominating Committee has adopted a policy regarding the director selection process that requires the committee to assess the skill areas currently represented on the Board against the target skill areas, as well as recommendations of directors regarding skills that could improve the overall quality and ability of the Board to carry out its function. The Nominating Committee then establishes the specific target skill areas or experiences that are to be the focus of a director search, if necessary.

The Nominating Committee will consider persons recommended by stockholders for inclusion as nominees for election to our Board of Directors if the names, biographical data, and qualifications of such persons are submitted in writing in a timely manner addressed and delivered to our company's secretary at the address listed herein. The Nominating Committee identifies and evaluates nominees for our Board of Directors, including nominees recommended by stockholders, based on numerous factors it considers appropriate. Specific qualities or experiences could include matters such as experience in the restaurant industry, financial or technical expertise, strength of character, mature judgment, and the extent to which the nominee would fill a present need on our Board of Directors. As discussed above, the members of the Nominating Committee are independent, as that term is defined by NASDAQ.

Compensation Committee

The purpose of the Compensation Committee includes determining, or recommending to our Board of Directors for determination, the compensation of the Chief Executive Officer and other executive officers of our company and discharging the responsibilities of our Board of Directors relating to compensation programs of our company. The Compensation Committee charter also grants the committee the authority to: review and approve the goals and objectives relevant to executive officer compensation, including annual performance objectives; review and make

recommendations to the Board with respect to the establishment of any new incentive compensation and equity-based plans; review and recommend new executive compensation programs; review disclosures to be filed with the SEC and distributed to our stockholders regarding executive compensation and recommend to the Board the filing of such disclosures; assist the Board with its functions relating to our compensation and benefits programs generally; and other administrative matters with regard to our compensation programs and policies. The committee may delegate any of its responsibilities to a subcommittee, except where such delegation is not allowed by legal or regulatory requirements. The Compensation Committee currently consists of Messrs. Bakay, Hauser, and Winczewski, with Mr. Winczewski serving as Chairman.

Compensation Committee Interlocks and Insider Participation

There are no relationships between the members of our Compensation Committee and our executive officers of the type contemplated in the SEC's rules requiring disclosure of "compensation committee interlocks." None of the members of the committee are employees of our company and none have ever been an officer of our company.

Board and Committee Meetings

Our Board of Directors held a total of eight meetings during the year ended December 31, 2010. During the year ended December 31, 2010, the Audit Committee held five meetings, the Compensation Committee held two meetings, and the Nominating Committee held six meetings. No director attended fewer than 75% of the aggregate of (i) the total number of meetings of our Board of Directors, and (ii) the total number of meetings held by all committees of our Board of Directors on which he was a member. We encourage each of our directors to attend our annual meeting of stockholders. Accordingly, and to the extent reasonably practicable, we regularly schedule a meeting of the Board of Directors on the same day as the annual meeting of stockholders. All of our directors then serving at the time attended our 2010 annual meeting of stockholders.

Director Compensation

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board of Directors. In setting director compensation, we consider the amount of time that directors spend fulfilling their duties as a director, including committee assignments.

Cash Compensation Paid to Board Members

We paid each non-employee director of our company an annual cash retainer of \$17,500 and the Chairman of the Audit Committee was paid an additional cash retainer of \$5,000. Members of the Audit and Compensation Committees each receive an annual cash retainer of \$3,000 for each committee on which they serve during the year. We also reimburse each non-employee director for travel and related expenses incurred in connection with attendance at board and committee meetings. Employees who also serve as directors receive no additional compensation for their services as a director. Non-employee directors also received additional fees for services rendered in addition to normal duties. In consideration of their services associated with the contested proxy solicitation for our 2010 Annual Meeting of Stockholders, Messrs. Hauser and Zesbaugh each received a \$5,000 cash payment and Mr. Bakay received a \$6,000 cash payment. Also, in consideration of their services and time involved in interviewing and recommending candidates to fulfill the chief executive officer role during the fall of 2009, Messrs. Hipskind and Winczewski each received a \$5,000 cash payment.

Stock-Based Compensation

Non-employee directors also are eligible to receive grants of stock options or awards pursuant to the discretion of the Compensation Committee or the entire Board of Directors. Upon joining the Board of Directors, each new non-employee director is granted an option to purchase 10,000 shares of common stock at an exercise price equal to the fair market value of our common stock on the date of such member's appointment to the Board of Directors. Such option awards vest immediately. Each subsequent year, non-employee directors receive an annual stock option grant to purchase 5,000 shares of our common stock that vests 25% each quarter over a period of one year, while

new non-employee directors receive a pro-rata portion of the annual stock option grant in their first full year of service.

During 2011, the Board of Directors reviewed the cash and stock-based compensation components paid to each non-employee director based upon benchmark cash and stock-based compensation for similar size public companies in our industry. Based upon this review, beginning in fiscal 2011 the Board of Directors increased the annual stock option grant from 5,000 shares to 7,500 shares.

The following table summarizes information regarding compensation for non-employee directors during 2010.

DIRECTOR COMPENSATION

<u>Name (1)</u>	<u>Fees Earned or Paid in Cash (\$)</u>	<u>Option Awards (\$ (2)</u>	<u>Total (\$)</u>
Berke Bakay	23,500	1,838	25,338
Richard J. Hauser.....	25,500	7,350	32,850
Douglas G. Hipskind	25,500	7,350	32,850
James R. Jundt (3)	—	15,100	15,100
Michael A. Nahkunst (3)	—	15,100	15,100
Anthony L. Winczewski	28,500	7,350	35,850
Mark A. Zesbaugh (4)	24,688	5,512	30,200

- (1) Directors who are also our employees receive no additional compensation for serving on the Board of Directors. The compensation of Marc A. Buehler, our President and Chief Executive Officer, is reflected in the Summary Compensation Table.
- (2) The amounts reflect the grant date fair value of awards issued pursuant to the 2005 Stock Award Plan during 2010 computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718. As of December 31, 2010, each director had the following number of options outstanding: Berke Bakay (1,250); Richard J. Hauser (31,800); Douglas G. Hipskind (35,000); James R. Jundt (10,000); Michael A. Nahkunst (10,000); Anthony L. Winczewski (36,800); and Mark A. Zesbaugh (29,750).
- (3) Messrs. Jundt and Nahkunst were appointed to the Board of Directors on November 16, 2010 and each received an initial option grant to purchase 10,000 shares of common stock.
- (4) Mr. Zesbaugh resigned from the Board on November 17, 2010.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding the beneficial ownership of our common stock on February 28, 2011, except as indicated, by (1) each director and each named executive officer of our company, (2) all directors and executive officers of our company as a group, and (3) each person known by us to own more than 5% of our common stock.

<u>Name of Beneficial Owner</u>	<u>Shares Beneficially Owned (1)</u>	<u>Percentage of Class (2)</u>
Directors and Executive Officers:		
Marc A. Buehler (3).....	161,340	1.7%

Mill Road Capital, L.P. (13).....	638,736	6.9%
Royce & Associates, LLC (14).....	585,626	6.4%

* Less than 1%

- (1) Except as otherwise indicated, each person named in the table has sole voting and dispositive power with respect to all common stock beneficially owned, subject to applicable community property laws. Except as otherwise indicated, each person may be reached as follows: c/o Kona Grill, Inc., 7150 East Camelback Road, Suite 220, Scottsdale, Arizona 85251.
- (2) The percentages shown are calculated based upon 9,206,795 shares of common stock outstanding on February 28, 2011. In accordance with SEC rules, percent of class as of February 28, 2011 is calculated for each person and group by dividing the number of shares beneficially owned by the sum of the total shares outstanding plus the number of shares subject to securities exercisable by that person or group within 60 days.
- (3) Includes 125,000 shares of common stock issuable upon exercise of vested stock options.
- (4) Includes 126,089 shares of common stock issuable upon exercise of vested stock options.
- (5) Represents 12,500 shares of common stock issuable upon exercise of vested stock options.
- (6) The number of shares of common stock beneficially owned by Mr. Bakay includes common stock beneficially owned by the following (i) BBS Capital Fund, LP, (ii) BBS Capital Management, LP, (iii) BBS Capital, LLC, and (iv) Berke Bakay, which together are referred to as the "BBS Management Group." The BBS Management Group has sole voting and dispositive power over all such shares of common stock. The address of BBS Management Group is 4975 Preston Park Boulevard, Suite 775W, Plano, TX 75093. Also included in Mr. Bakay's beneficial ownership amount is a) 10,000 shares of common stock held by Mr. Bakay and (b) 1,250 shares of common stock issuable upon exercise of vested stock options held by Mr. Bakay.
- (7) The number of shares of common stock beneficially owned by Mr. Hauser includes (a) 383,407 shares of common stock held by his spouse; (b) 200,000 shares of common stock beneficially owned by Kona MN,

LLC, of which Mr. Hauser and his spouse are control persons; (c) 11,500 shares held by a trust for the benefit of Mr. Hauser's children; (d) 10,000 shares issuable upon the exercise of a stock warrant held by Mr. Hauser's spouse; and (e) 31,800 shares of common stock issuable upon exercise of vested stock options. Of such shares, 200,000 shares have been pledged by Kona MN, LLC as security for a loan.

- (8) Represents 35,000 shares of common stock issuable upon exercise of vested stock options.
- (9) The number of shares of common stock beneficially owned by Mr. James Jundt includes (a) 62,000 shares issuable upon exercise of warrants to purchase common stock; and (b) 10,000 shares of common stock issuable upon exercise of vested stock options. The shares reported exclude 190,689 shares, beneficially owned by a trust for the benefit of Mr. Jundt's adult children, which Mr. Jundt's spouse is the trustee, and 8,820 shares owned directly by Mr. Jundt's spouse.
- (10) Represents 10,000 shares of common stock issuable upon exercise of vested stock options.
- (11) Represents 26,800 shares of common stock issuable upon exercise of vested stock options.
- (12) Based on the statement on Schedule 13G (Amendment No. 4) filed with the SEC on February 8, 2011, William Blair & Company, L.L.C. has sole voting and dispositive power over all such shares of common stock. The address of William Blair & Company, L.L.C. is 222 W. Adams, Chicago, IL 60606.
- (13) Based on the joint statement on Schedule 13D (Amendment No. 17) filed with the SEC on February 4, 2011, by the following (i) Thomas E. Lynch, (ii) Scott P. Scharfman, (iii) Mill Road Capital GP LLC, and (iv) Mill Road Capital, L.P., Messrs. Lynch, Scharfman, Charles M. B. Goldman and Justin C. Jacobs are the management committee directors of the sole general partner of Mill Road Capital, L.P. Each of Messrs. Lynch and Scharfman has shared power to vote and dispose of all such shares of common stock. The address of Mill Road Capital, L.P. is 382 Greenwich Avenue, Suite One, Greenwich, CT 06830.
- (14) Based on the statement on Schedule 13G filed with the SEC on January 14, 2011, Royce & Associates, LLC has sole voting and dispositive power over all such shares of common stock. The address of Royce & Associates, LLC is 745 Fifth Avenue, New York, NY 10151.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Philosophy and Objectives

The objective of our executive compensation program is to attract, retain, and reward executive officers who are critical to our long-term success. The executive compensation program of our company seeks to provide a level of compensation that is competitive with companies of similar size in the restaurant industry. We align executive officer compensation with both company performance and individual performance and provide incentives to motivate executive officers to achieve our financial, operating, and strategic objectives and reward them for achieving these objectives. We compensate our executive officers through a mix of compensation designed to be competitive within our industry and to align management's incentives with the long-term interests of our stockholders.

The Compensation Committee believes that executive compensation should be closely aligned with the performance of our company on both a short-term and a long-term basis. Our executive compensation is comprised of three principal elements:

- Annual base salary;
- Performance-based annual cash incentive bonuses, which depend upon our annual financial performance and individual performance; and
- Long-term incentive compensation in the form of stock options or other equity-based awards which are designed to align executive officers' interests with the long-term interests of our stockholders.

Determining Executive Compensation

Our compensation setting process consists of establishing targeted overall compensation for each executive officer and then allocating that compensation among base salary and annual and long-term incentive compensation. We design annual cash incentive compensation to reward company-wide performance through tying awards primarily to specific operational metrics and financial performance. The Compensation Committee evaluates both performance and compensation to ensure that we maintain the ability to attract and retain employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies.

We compete with many restaurant companies for top executive-level talent. The committee reviews comparative data to assess competitiveness from a variety of resources. For fiscal 2010, the committee utilized publicly available data from the SEC to compare benchmark salary data. For fiscal 2009, the committee utilized the 2009 Chain Restaurant Executive Compensation Study presented by HVS Executive Search and Nation's Restaurant News to review salary information for similar sized companies in terms of revenue and market capitalization. For fiscal 2008, the committee reviewed proxy data obtained from Equilar, Inc., a market leader in benchmarking executive compensation, to review each element of total compensation for executive officers for similar sized restaurant companies in terms of market capitalization and revenue. The peer group companies included in benchmarking compensation data consisted of McCormick and Schmick's, Caribou Coffee, Granite City Food and Brewery, J. Alexander's, Morton's, and Nathan's Famous. The committee does not set a specific compensation percentile for our executive officers; instead the committee uses this information and the executive's level of responsibility and experience as well as the executive's success in achieving business results and leadership in determining the executive's compensation. The committee believes that this approach allows it to take into consideration the executive's overall contribution to our company in determining executive compensation rather than relying solely on specific peer group targets.

A significant portion of total compensation is allocated to incentives as a result of the philosophy discussed above. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term

and long-term incentive compensation. The committee reviews data from HVS Executive Search as well as industry compensation surveys, SEC filings, and other publicly available sources to determine the appropriate level and mix of incentive compensation.

The responsibilities of the Compensation Committee include determining, or recommending to our Board of Directors for determination, the compensation of our executive officers and discharging the responsibilities of our Board of Directors relating to compensation programs of our company. The Chief Executive Officer provides recommendations on compensation to the committee based on each executive officer's annual review. The committee reviews base salary levels for executive officers of our company at the beginning of each year and recommends actual bonuses at the end of each year based upon company and individual performance.

Elements of Executive Compensation

Base Salary

Base salaries for executive officers are generally reviewed on an annual basis and at the time of promotion or other change in responsibilities. We provide executive officers with a level of base salary that recognizes appropriately each individual officer's scope of responsibility, role in the organization, experience, and contributions to the success of our company. The Board of Directors reviews and approves salaries recommended by the Compensation Committee. In formulating these recommendations, the committee considers the overall performance of our company, industry compensation benchmark data, and conducts an evaluation of individual officer performance. The committee makes, or recommends that the Board of Directors make, final determinations on any adjustments to the base salary for executive officers. For 2011, the Compensation Committee elected to maintain base salaries at the same amount as was paid during 2010 for our chief executive officer and chief financial officer and to increase the senior operations officer salary from \$210,000 to \$225,000.

Annual Incentive Bonus

Annual bonuses are intended to provide incentive compensation to executive officers who contribute substantially to the success of our company. During January 2005, the committee approved a management bonus program pursuant to which our chief executive officer, chief financial officer, and senior operations officer are eligible to receive 50%, 40%, and 40% of his respective base salary upon successfully achieving certain specified goals as discussed below. The granting of such awards is based upon the achievement of our company's performance objectives and pre-defined individual performance objectives. Company performance objectives are based upon achieving key financial metrics that the committee establishes early in each year. For 2010, the principal performance measures used to determine company performance objectives was based upon the degree of achievement of restaurant sales and EBITDA targets. Individual performance objectives are developed based upon personal, operational, and financial performance targets specific to the responsibilities of each executive officer and include elements designed to achieve our growth strategy such as comparable base sales, restaurant operating margins, and cost containment. Upon the close of each year, the committee conducts an assessment of individual performance achieved versus each individual's performance objectives. Simultaneously, the Board conducts an assessment of our company's overall performance, which includes the achievement of the performance objectives discussed above and other performance criteria. Performance targets are generally set at aggressive levels, which include the funding of any payout. No payout is made if our company's minimum performance targets are not achieved. The combination of these factors determines any incentive bonuses to be paid. Based upon meeting certain sales and EBITDA targets during 2010, a bonus payout equal to 62.5% of the targeted bonus amount was paid to each executive officer.

Long-Term Equity Compensation

Long-term performance-based compensation of executive officers has traditionally taken the form of stock option awards. We believe that equity ownership for all executive officers and for certain of our key employees is important for retention and to provide additional incentive to work to maximize long-term total return to stockholders. Stock option award levels are determined based on market data and vary among participants based on their positions within our company. Under our 2005 Stock Award Plan, the Board of Directors or a committee appointed by the Board is specified to act as the plan administrator. The Board has authorized the Compensation

Committee to make recommendations to the Board regarding grants of options to executive officers and these recommendations are subject to ratification by the Board of Directors. In general, stock options are granted to our executive officers at the onset of employment. In establishing award levels, the committee bases the number of stock option awards to be granted on the target percentage of ownership of the recipient, assuming full dilution of outstanding stock option awards. The committee considers the target percentage of ownership of executive officers in our peer group in setting award levels for executive officers. If, in the opinion of the committee, the outstanding service of an existing employee merits an increase in the number of options held, the committee may elect to issue additional stock options to that employee. We do not have any program or plan to time option grants to our executives in coordination with the release of material non-public information. Our general practice is to grant stock option awards to executive officers upon new employment or for annual awards, during the first Board of Directors meeting held during the year.

Stock options are granted at the closing market price of our common stock on the date of grant. Accordingly, a stock option becomes valuable only if the market price of our common stock increases above the option exercise price and the holder remains employed during the period of time that the option vests. In certain limited circumstances, the committee may grant options to an executive at an exercise price in excess of the closing price of our common stock on the grant date. In connection with the hiring of Marc Buehler as Chief Executive Officer during November 2009, the Board granted Mr. Buehler an option to purchase 200,000 shares of common stock of which 25,000 shares vest each quarter over a two-year period. In addition, upon the hiring of Larry Ryback as Senior Vice President of Operations during February 2010, the Board granted Mr. Ryback an option to purchase 50,000 shares of common stock which vests at a rate of 25% per year over a four-year period. Both of these option awards were granted at an exercise price equal to the closing market price of our common stock as of the employee's first day of employment. During January 2010, the Board of Directors granted an option to Mark Robinow to purchase 25,000 shares of common stock related to his 2009 performance. This grant was based upon past granting practices and the executive's individual performance and responsibilities.

Benefits

We offer various employee benefit programs to our executive officers, including medical, dental, life, and long-term disability insurance benefits. These benefits are generally available to all full-time salaried employees of our company. We also sponsor a tax-qualified 401(k) retirement savings plan pursuant to which eligible employees are able to contribute the lesser of up to 50% of their annual salary or the limit prescribed by the Internal Revenue Service. We match 100% of the first 3% of salary contributed and 50% of the next 2% of salary contributed. All contributions to the 401(k) plan as well as any matching contributions are fully vested upon contribution. In addition, we sponsor an employee stock purchase plan pursuant to which eligible employees are able to purchase common stock at a 5% discount of the fair market value of common stock on the last day of the applicable offering period. Eligible employees may purchase up to 15% of eligible earnings during each of the offering periods, subject to a maximum of \$25,000 annually.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to each of any publicly held corporation's chief executive officer and four other most highly compensated executive officers. Qualifying performance-based compensation is not subject to the deduction limit if certain requirements are met. We currently intend to continue to structure the performance-based portion of the compensation of our executive officers in a manner that complies with Section 162(m).

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

Respectfully submitted,

Anthony L. Winczewski, Chair
Berke Bakay
Richard J. Hauser

KONA GRILL®

Attention: Filing Desk

**Re: Kona Grill, Inc. (the "Company")
Annual Report to Stockholders**

Ladies and Gentlemen:

Please find enclosed for your information five copies of the Company's 2009 Annual Report to Stockholders, pursuant to Rule 14a-3(c). The Notice of Annual Meeting, the Proxy Statement, the Form of Proxy, and the Annual Report to Stockholders were sent to stockholders on or about March 18, 2011.

Please acknowledge receipt of this filing by stamping the enclosed copy of this letter as received by your office and return to my attention in the pre-addressed, stamped envelope enclosed for your convenience. Thank you for your cooperation.

Sincerely,

Christi Hing
Director of Financial Reporting and Administration

Enclosures

Summary of Cash and Other Compensation

The table below summarizes the total compensation earned by each of our executive officers for the years ended December 31, 2010, 2009, and 2008.

SUMMARY COMPENSATION TABLE

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Option Awards (\$) (1)	All Other Compensation (\$ (2)	Total (\$)
Marc A. Buehler..... President and Chief Executive Officer (3)	2010	350,000	109,375	—	4,240	463,615
	2009	53,846	—	301,864	—	355,710
Mark S. Robinow Executive Vice President, Chief Financial Officer, and Secretary	2010	270,000	67,500	41,000	14,040	392,540
	2009	261,000	—	23,250	13,914	298,164
	2008	261,000	—	55,500	12,864	329,364
Larry J. Ryback..... Senior Vice President of Operations (4)	2010	185,769	48,125	84,500	3,129	321,523

- (1) The amounts reflect the grant date fair value of awards issued for the respective year pursuant to the 2005 Stock Award Plan computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718 (See Note 11 of Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K filed with the SEC). Details regarding 2010 stock option awards can be found in the table “Grants of Plan-Based Awards.” Details regarding 2010, 2009, and 2008 stock option awards that are still outstanding can be found in the table “Outstanding Equity Awards at December 31, 2010.”
- (2) Executive officers also receive employee benefits that are provided to all salaried employees of our company and primarily consisted of 401(k) matching contributions, health insurance premiums, and contributions to a health care savings account.
- (3) Mr. Buehler was appointed as our President and Chief Executive Officer effective November 2, 2009. The amount shown for 2009 under “Salary” reflects a pro-rated portion of his \$350,000 annual salary.
- (4) Mr. Ryback was appointed as our Senior Vice President of Operations effective February 1, 2010. The amount shown for 2010 under “Salary” reflects a pro-rated portion of his \$210,000 annual salary. There is no employment agreement between our company and Mr. Ryback.

GRANTS OF PLAN-BASED AWARDS

The following table sets forth certain information with respect to stock options granted during the year ended December 31, 2010 to any of the individuals listed on the Summary Compensation Table above.

Name	Grant Date	All Other Option Awards: Number of Securities Underlying Options (#)	Exercise or Base Price of Option Awards (\$/sh)	Grant Date Fair Value of Option Awards (\$ (1)
Mark S. Robinow	01/28/2010	25,000	3.39	41,000
Larry J. Ryback	02/01/2010	50,000	3.49	84,500

- (1) Represents the aggregate compensation cost for all option awards granted during 2010 to the executive officers named above.

OUTSTANDING EQUITY AWARDS AT DECEMBER 31, 2010

The following table includes certain information with respect to all options previously awarded to the executive officers named above that were outstanding as of December 31, 2010.

Name	Option Awards			
	Number of Securities Underlying Unexercised Options (#)		Option Exercise Price (\$)	Option Expiration Date
	Exercisable	Unexercisable		
Marc A. Buehler (1)	100,000	100,000	3.21	11/02/2014
Mark S. Robinow (2)	25,000	—	19.14	12/20/2011
	7,500	7,500(a)	11.72	02/07/2013
	6,250	18,750(b)	2.10	04/30/2014
	71,089	—	5.00	10/18/2014
	—	25,000(c)	3.39	01/28/2015
Larry J. Ryback (3)	—	50,000	3.49	02/01/2015

- (1) Mr. Buehler's unexercisable options as of December 31, 2010 vest ratably over a two-year period with 25,000 shares vesting on February 2, 2011 and each subsequent three-month period thereafter until November 2, 2011, at which time all options will be fully vested.
- (2) Mr. Robinow's unexercisable options as of December 31, 2010 include: (a) 3,750 options vested on February 7, 2011 and 3,750 options vesting on February 7, 2012; (b) 6,250 options vesting on each of April 30, 2011, April 30, 2012, and April 30, 2013; and (c) 6,250 options vested on January 28, 2011 and 6,250 options vesting on each of January 28, 2012, January 28, 2013, and January 28, 2014.
- (3) Mr. Ryback's unexercisable options as of December 31, 2010 include 12,500 options vested on February 1, 2011 and 12,500 options vesting on each of February 1, 2012, February 1, 2013 and February 1, 2014.

Option Exercises and Stock Vested

There were no options exercised by the executive officers named above during 2010. No stock awards have been granted to any of our named executive officers and therefore, no stock vested during 2010.

Employment Agreements

We have entered into employment agreements with our chief executive officer and chief financial officer. The agreements are substantially identical. Each of the employment agreements provides for severance payments upon termination, death, disability, and after a change of control of the company. The Compensation Committee believes that terms of these agreements are in line with market standards and are an important means to allow management to continue to focus on running the business of the company in the event of a pending or actual change of control event or otherwise. More detailed information concerning these severance payments appears herein under the caption "Potential Payments Upon Termination or Change in Control."

Marc A. Buehler

Effective November 2, 2009, we entered into an employment agreement with Marc A. Buehler, pursuant to which we agreed to employ Mr. Buehler as our President and Chief Executive Officer. Under the agreement, Mr. Buehler will receive an annual base salary of \$350,000. The agreement also provides for the payment to Mr. Buehler of annual incentive compensation, subject to the attainment of certain objectives established by Mr. Buehler and our Board of Directors, as well as other bonus payments that the Board of Directors determines are appropriate, if any, in its discretion. Mr. Buehler is also entitled to receive standard employee benefits made available to our executive officers, including vacation time. We also agreed to include Mr. Buehler in any policies of directors' and officers' insurance that we maintain. Subject to certain conditions and exceptions, the agreement also

imposes a non-competition and non-solicitation obligation on Mr. Buehler for a period of 12 months following termination of his employment with us.

In the event of termination of Mr. Buehler's employment due to his disability (as defined in the agreement), we may terminate Mr. Buehler's employment, but must pay to Mr. Buehler (a) any base salary earned as of the date of termination and for 180 days after termination; (b) a pro rata amount of the incentive bonus earned for the year of termination; and (c) any other payments or benefits due under our benefit plans. In the event of termination of Mr. Buehler's employment without cause or by Mr. Buehler for good reason, which in both cases requires 90 days' prior notice, we must pay or provide to Mr. Buehler (a) any base salary earned as of the date of termination; (b) any other payments or benefits due under our benefit plans; (c) an amount equal to his base salary for the 12-month period following termination; (d) continuation of medical and dental benefits in effect under COBRA for the 12-month period following termination; and (e) a pro rata amount of the incentive bonus earned for the year of termination, and all unvested stock options scheduled to vest over the 12-month period following termination will immediately vest and be immediately exercisable. In the event of termination of Mr. Buehler's employment for cause or his resignation without good reason, we must pay Mr. Buehler any earned base salary unpaid as of that date and any accrued and vested payments or benefits due under our benefit plans.

The agreement provides that if Mr. Buehler terminates his employment on a date that is more than one year following a change in control (as defined in the agreement), or if we terminate Mr. Buehler's employment at any time following a change in control, he will be entitled to receive (a) any base salary earned as of the date of termination; (b) any other payments or benefits due under our benefit plans; (c) an amount equal to his base salary for the 15-month period following termination; (d) continuation of medical and dental benefits in effect under COBRA for the 15-month period following termination; and (e) the incentive bonus earned for the year of termination, and all unvested stock options will immediately vest and be immediately exercisable during the three-month period following termination. The agreement further provides that if Mr. Buehler terminates his employment during the one-year period following a change in control, other than for good reason, then he will not be entitled to certain compensation and benefits payable upon a change in control.

Mark S. Robinow

Effective May 11, 2009, we agreed to terminate an existing employment agreement and execute a new executive employment agreement with Mark S. Robinow, our Chief Financial Officer. The employment agreement provides for an initial base salary of \$261,000 per year and provides for incentive compensation based on the performance of our company and the executive as determined by objectives established by our Board of Directors. In connection with his employment, Mr. Robinow may also receive options to purchase common stock. The employment agreement further provides that Mr. Robinow will be eligible to participate in our employee benefit plans and will be entitled to standard employee benefits made available to our executive officers, including vacation time, as well as be covered by our directors' and officers' policies of insurance. The employment agreement contains a covenant not to compete with our company, which prohibits Mr. Robinow from engaging in certain transactions with any restaurant or chain of restaurants in the casual or upscale dining segment within a ten mile radius of any existing or planned company restaurant for a period of one year following termination of employment.

The employment agreement provides that we may terminate his employment at any time, and Mr. Robinow may terminate his employment with our company at any time. In the event of termination of Mr. Robinow's employment without cause or by Mr. Robinow for good reason, which in both cases requires 90 days' prior notice, we must pay or provide to Mr. Robinow (a) his base salary then in effect for a period of 12 months following termination (the "continuation period"), (b) continuation of medical and dental benefits in effect under COBRA for the continuation period, and (c) immediate vesting of all of Mr. Robinow's unvested stock options scheduled to vest during the continuation period. We will also pay a pro rata portion of Mr. Robinow's incentive compensation through the end of the quarter in which he is terminated. If Mr. Robinow's employment is terminated for cause, or he resigns without good reason, Mr. Robinow will be entitled only to any base salary earned and unpaid through the date of termination and any accrued but unpaid benefits. The employment agreement further provides that upon death, Mr. Robinow's estate will be entitled to receive any base salary earned but not paid, together with a pro rata portion of any incentive compensation payable for Mr. Robinow as of the date of death. Upon termination for disability, we must pay to Mr. Robinow any base salary earned but not paid plus continued payments of base salary for 180 days following the date

of termination, together with a pro rata portion of any incentive compensation payable for Mr. Robinow as of the date of termination.

Subject to certain limitations and conditions, the employment agreement provides that if Mr. Robinow's employment is terminated following a change in control, as defined in the employment agreement, he will be entitled to (a) a severance payment equal to 15 months of his base salary in effect at termination, (b) continuation of medical and dental benefits in effect under COBRA for the continuation period, (c) a payment equal to the target incentive bonus for such year, and (d) all unvested stock options will immediately vest and be immediately exercisable during the three-month period following termination.

Potential Payments Upon Termination or Change of Control

As noted above, we have entered into employment agreements with our chief executive officer and chief financial officer that require us to provide them compensation in the event of a termination of employment or a change in control of the company. The employment agreements with Mr. Buehler and Mr. Robinow discussed elsewhere in this proxy statement contain severance arrangements providing for the payment of certain benefits if employment is terminated, including termination following a change in control. In addition, the employment agreements generally provide for all unvested stock options scheduled to vest over a period of 12 months following the date of termination shall immediately vest and be immediately exercisable upon termination by the company without cause or by the executive for good reason, while all unvested stock options immediately vest for termination upon a change in control. The following table describes the potential payments upon termination without cause or, after a change in control of the company, for each of our current named executive officers:

Name	Termination Without Cause			Termination Upon a Change in Control		
	Cash Payment (\$)(1)	Acceleration of Vesting of Equity Awards (\$)(2)	Benefits (\$)(3)	Cash Payment (\$)(1)	Acceleration of Vesting of Equity Awards (\$)(2)	Benefits (\$)(3)
Marc A. Buehler	525,000	89,000	3,600	546,875	89,000	4,500
Mark S. Robinow	445,000	55,250(4)	4,500(4)	445,000	55,250	4,500

- (1) Assumes a termination on December 31, 2010 and fiscal 2010 annual incentive for each executive.
- (2) Calculated based on a termination date of December 31, 2010 and the closing market price of our common stock on that date.
- (3) Reflects the continuation of health benefits following the termination of employment for the period specified above.
- (4) Reflects amounts Mr. Robinow would receive resulting from the trigger of the change in control clause during November 2010.

Post-Employment Compensation

Pension Benefits and Nonqualified Deferred Compensation

We do not offer a pension plan for any of our employees nor do we offer a nonqualified deferred compensation plan for any of our employees. Employees meeting certain plan eligibility requirements may participate in the Kona Grill Employee Retirement Savings Plan.

EQUITY COMPENSATION PLAN INFORMATION

The following table sets forth information with respect to our common stock that may be issued upon the exercise of stock options under our stock option plans, shares purchased under our Employee Stock Purchase Plan, and exercise of outstanding warrants as of December 31, 2010.

Plan Category	(a) Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights	(b) Weighted Average Exercise Price of Outstanding Options, Warrants, and Rights	(c) Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
Equity Compensation Plans			
Approved by Stockholders.....	884,806	\$ 6.28	654,659
Equity Compensation Plans Not			
Approved by Stockholders (1).....	<u>110,000</u>	<u>\$ 2.29</u>	<u>—</u>
Total.....	<u>994,806</u>	<u>\$ 5.84</u>	<u>654,659</u>

- (1) Amount represents warrants to purchase common stock issued in conjunction with the Note and Warrant Purchase Agreement entered into with certain holders of our common stock whereby we sold \$1.2 million aggregate principal amount of 10% unsecured subordinated notes. The warrants were issued at an exercise price equal to 120% of the five-day average of the closing price of our common stock during the five trading days prior to the date of issuance. These warrants are exercisable through March 6, 2012.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, officers, and persons that own more than 10% of a registered class of our company's equity securities to file reports of ownership and changes in ownership with the SEC. Officers, directors, and greater than 10% stockholders are required by SEC regulations to furnish our company with copies of all Section 16(a) forms they file.

Based solely upon our review of the copies of such forms received by us during the year ended December 31, 2010, and written representations that no other reports were required, we believe that each person who, at any time during such year, was a director, officer, or beneficial owner of more than 10% of our common stock complied with all Section 16(a) filing requirements during such year, except for the late filing of Form 4 for the January 28, 2010 stock option grants made to Messrs. Bakay, Hauser, Hipskind, Robinow, Winczewski and Zesbaugh.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We recognize that transactions between us and any of our directors or executives can present potential or actual conflicts of interest and create the appearance that our decisions are based on considerations other than the best interests of our company and stockholders. Therefore, as a general matter and in accordance with our Code of Business Conduct and Ethics, it is our preference to avoid such transactions. Nevertheless, we recognize that there are situations where such transactions may be in, or may not be inconsistent with, the best interests of our company. Therefore, our Board of Directors reviews and, if appropriate, approves or ratifies any such transactions. Pursuant to the policy, the Board of Directors, or a designated committee, will review any transaction in which we are or will be a participant and the amount involved exceeds \$120,000, and in which any of our directors or executives had, has, or will have a direct or indirect material interest. After its review, the Board of Directors or designated committee will only approve or ratify those transactions that are in, or are not inconsistent with, the best interests of our company and our stockholders, as determined in good faith.

During 2010, we did not enter into any transaction or series of similar transactions to which we were, or are to be, a party in which the amount involved exceeds \$120,000, and in which any director, executive officer, or holder of more than 5% of any class of voting securities of our company and members of such person's family had, or will have, a direct or indirect material interest.

REPORT OF THE AUDIT COMMITTEE

The following Audit Committee report does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate this Audit Committee report by reference herein.

As more fully described in its charter, the purpose of the Audit Committee is to assist the oversight of our Board of Directors in the integrity of the financial statements of our company, our company's compliance with legal and regulatory matters, the independent auditor's qualifications and independence, and the performance of our company's independent auditor. The primary responsibilities of the committee include overseeing our company's accounting and financial reporting process and audits of the financial statements of our company on behalf of the Board of Directors.

As part of its oversight of our financial statements, the committee reviews and discusses with both management and our independent registered public accountants all annual and quarterly financial statements prior to their issuance. During 2010, management advised the committee that each set of financial statements reviewed had been prepared in accordance with generally accepted accounting principles, and reviewed significant accounting and disclosure issues with the committee. These reviews included discussion with the independent registered public accountants of matters required to be discussed pursuant to U.S. Auditing Standards No. 380 (Communication with Audit Committees), including the quality of our accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The committee also discussed with Ernst & Young LLP matters relating to its independence, including a review of audit and non-audit fees and the written disclosures and letter from Ernst & Young LLP to the committee pursuant to applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountants' communications with the committee concerning independence. In addition, the committee discussed with the independent auditor the overall scope and plans for its audit. The committee met with the independent auditor, with and without management present, to discuss the results of the audit, its evaluations of our company and the overall quality of the financial reporting.

Based on the reviews and discussions referred to above, the committee recommended to the Board of Directors, and the Board approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2010 for filing with the SEC.

The report has been furnished by the Audit Committee of the Board of Directors.

Douglas G. Hipskind, Chairman
Michael A. Nahkunst
Anthony L. Winczewski

Audit Committee Pre-Approval Policies

The charter of our Audit Committee provides that the duties and responsibilities of our Audit Committee include the approval in advance of any significant audit or non-audit engagement or relationship with the independent auditor, and other services permitted by law or applicable SEC regulations (including fee and cost ranges) to be performed by our independent auditor. All of the services provided by Ernst & Young LLP described above were approved by our Audit Committee pursuant to our Audit Committee's pre-approval policies.

PROPOSAL 2
RATIFICATION OF SELECTION OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The firm of Ernst & Young LLP, an independent registered public accounting firm, has audited the financial statements of our company for the years ended December 31, 2009 and 2010. Our Audit Committee has appointed Ernst & Young LLP to audit our consolidated financial statements for the fiscal year ending December 31, 2011 and recommend that stockholders vote in favor of the ratification of such appointment. In the event of a negative vote on such ratification, the Audit Committee will reconsider its selection. The Board of Directors anticipates that representatives of Ernst & Young LLP will be present at the meeting, will have the opportunity to make a statement if they desire, and will be available to respond to appropriate questions.

AUDITOR FEES AND SERVICES

The following table sets forth the aggregate fees billed to us by Ernst & Young LLP for the years ended December 31, 2009 and 2010.

	2009	2010
	\$ 290,273	\$ 249,000
Audit Fees (1).....	—	—
Audit-Related Fees.....	—	—
Tax Fees.....	—	—
All Other Fees.....	—	—
Total.....	\$ 290,273	\$ 249,000

(1) Represents fees associated with the annual audit, reviews of our quarterly reports on Form 10-Q, assistance with the review of documents filed with the SEC, and accounting consultations. 2009 fees also include review of certain procedures related to management's assessment of internal control over financial reporting.

The Board of Directors unanimously recommends a vote FOR the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2011.

PROPOSAL 3

STOCKHOLDER PROPOSAL REQUESTING DECLASSIFICATION OF THE BOARD

We have been notified that Mill Road Capital LP, Attn: Thomas E. Lynch, 382 Greenwich Ave., Suite 1, Greenwich, CT, 06830, intends to present the following proposal for consideration at the 2011 Annual Meeting. Mill Road has submitted documentation that it is the beneficial owner of 638,736 shares of common stock.

PROPOSAL OF MILL ROAD

“RESOLVED: That the stockholders of KONA GRILL, INC. (the “Company”) request that the Board of Directors take all necessary action in accordance with the Delaware General Corporation Law to approve an amendment to the Company’s amended and restated certificate of incorporation providing that the Directors of the Company shall be of a single class and to recommend to the stockholders that such amendment be adopted at a special meeting of stockholders to be held prior to the next annual meeting of stockholders.”

Supporting Statement of Mill Road

“Mill Road believes that a classified board of directors is an impediment to annual accountability of directors to the stockholders. The directors of the Company have on several occasions in the recent past appointed new directors to a class whose terms expire after the next meeting of stockholders thereby denying stockholders from determining whether the appointment was merited. Mill Road believes that the Company’s performance would improve if all directors were required to stand for election each year.”

Board of Directors Statement in Opposition

The Board of Directors has carefully considered this proposal and believes that it is not in the best interest of our stockholders. Consequently, the Board unanimously recommends that our stockholders vote “**AGAINST**” the proposal to take steps to eliminate classification of terms of the Board.

Initially, the Board rejects the conclusory belief in Mill Road’s statement that the performance of Kona Grill would improve if all directors were elected annually. Mill Road provides no support or basis for this statement and the Board believes that it is intentionally misleading in order to distract from the substance of the issue.

Under our current Board structure, each director serves a three-year term with one class of directors standing for election each year on a rotating basis. This is commonly known as a “classified” or “staggered” board, and is a practice that has been adopted by many public companies. The Board of Directors, prior to our company becoming a public company, implemented the classified Board structure, and has concluded that the current classified board structure continues to provide significant benefits to our company and its stockholders for various reasons, including the following:

- *Continuity and Stability.* The current classified board structure promotes greater continuity, stability, and knowledge of our business affairs and financial strategies by ensuring that a majority of the directors at any given time will have prior experience as directors of Kona Grill. Directors who have experience and familiarity with our business affairs and operations and a solid understanding of our future plans and opportunities are better suited to make long-term strategic decisions and guide management in implementing such decisions. Election of directors by classes safeguards this long-term advantage. Staggered terms also give new directors an opportunity to gain knowledge about our business from continuing directors and the Board values the insight that comes with this continuity.
- *Accountability and Governance.* Directors elected to three-year terms are required to uphold the same fiduciary duties to our company and its stockholders and are equally accountable to stockholders, as directors elected annually. All directors have the same responsibility to act in the best interests of our company and stockholders regardless of the length of their terms of office. The Board is firmly committed

to good governance practices. Approximately one-third of the directors must stand for election each year and the stockholders may express any dissatisfaction by refusing to re-elect a board member. Stockholders entitled to vote may nominate a person for election to the Board of Directors in accordance with our certificate of incorporation or bylaws.

- *Independence and Attracting Highly Qualified Directors.* Electing directors to three-year terms provides non-management directors with a longer term of office that enhances their independence from management, as well as from special interest groups who may have an agenda contrary to a majority of the stockholders' long-term goals and objectives. As a result, independent directors with three-year terms are better suited to making decisions that are in the best interest of all of our stockholders. A classified board benefits our company and our stockholders because it helps attract and retain director candidates who are willing to make long-term commitments of their time and energy. This commitment is critical to achieve our goals and strategies.
- *Protection Against Abusive Takeover Tactics.* The Board believes that one of the primary benefits of a classified board is to reduce our vulnerability to unsolicited takeover efforts. A classified board structure enhances the Board's ability to negotiate the best results for stockholders in a potential takeover situation by safeguarding against the replacement of a majority of the directors with hostile nominees at a single annual meeting, which would allow an acquirer to gain control of Kona Grill and its assets without paying fair market value to our stockholders. A classified board does not preclude a takeover, but rather provides the Board with the time and flexibility necessary to evaluate the adequacy and fairness of any takeover proposal, negotiate on behalf of all stockholders, and weigh alternative methods of maximizing stockholder value for all stockholders, without the threat of imminent removal of a majority of the Board members.

Effect of Approval of the Proposal

This proposal, which is advisory in nature, would not automatically result in the elimination of our classified board structure. Rather, if approved, this proposal is simply a request that the Board of Directors take the action stated in the proposal. Under Delaware law, amendments to our certificate of incorporation require that the Board declare the amendment to be advisable prior to submission to our stockholders. Regardless of the vote on this proposal, the Board, in exercising its fiduciary duties, must still independently consider whether it would be in the best interests of our company and its stockholders to propose, or to recommend approval of, the requested amendment. If our stockholders approve the proposal by a substantial margin, the Board will review the advisability of our classified board structure and determine whether it is in the best interests of our company and stockholders to present an amendment to our certificate of incorporation at the next annual meeting that, if approved by the requisite vote, would eliminate the classified board.

Additionally, the Board notes that Mill Road has demonstrated a pattern of threatened actions and activist tactics against Kona Grill in the past. During May 2009, Mill Road offered to purchase all outstanding shares of our common stock in a cash merger transaction at \$3.67 per share. After an evaluation and consideration of the offer, the Board concluded that Mill Road's price per share materially underpriced the value and prospects of our company in any potential sale of control transaction, and that it was in the best interests of all stockholders to reject Mill Road's offer. Based on its activist tactics in the past, the Board believes that through this stockholder proposal, Mill Road aims to further a self-interested stockholder activist agenda that is intended to distract management time and attention and cause us to incur additional expenses. The proposal is motivated by objectives not in the best interests of our company and all of our stockholders.

For these reasons, the Board of Directors unanimously recommends a vote AGAINST Proposal 3.

OTHER MATTERS

Deadline for Receipt of Stockholder Proposals

Any stockholder that wishes to present any proposal for stockholder action at our annual meeting of stockholders to be held in 2012 must notify us at our principal offices no later than November 20, 2011 in order for the proposal to be included in our proxy statement and form of proxy relating to that meeting. Under our bylaws, stockholders must follow certain procedures to nominate persons for election as a director or to introduce an item of business at an annual meeting of stockholders.

Pursuant to Rule 14a-4 under the Exchange Act, we intend to retain discretionary authority to vote proxies with respect to stockholder proposals for which the proponent does not seek inclusion of the proposed matter in our proxy statement for the annual meeting to be held during calendar 2012, except in circumstances where (i) we receive notice of the proposed matter no later than February 4, 2012 and (ii) the proponent complies with the other requirements set forth in Rule 14a-4.

Householding of Annual Meeting Materials

Certain brokers and other nominee record holders may be participating in the practice of “householding” this proxy statement and other proxy materials. This means that only one copy of this proxy statement and other proxy materials may have been sent to multiple stockholders in a stockholder’s household. The company will promptly deliver additional copies of the proxy statement and other proxy materials to any stockholder who contacts the company’s principal corporate office at 7150 East Camelback Road, Suite 220, Scottsdale, Arizona 85251 or by calling (480) 922-8100, requesting such additional copies. If a stockholder is receiving multiple copies of the proxy statement and other proxy materials at the stockholder’s household and would like to receive in the future only a single copy of the proxy statement and other proxy materials for a stockholder’s household, such stockholders should contact their broker, other nominee record holder, or the company’s investor relations department to request the future mailing of only a single copy of the company’s proxy statement and other proxy materials.

Other

Except as discussed in this proxy statement, the Board of Directors does not know of any matters that are to be properly presented at the meeting other than those stated in the Notice of 2011 Annual Meeting of Stockholders and referred to in this proxy statement. If other matters properly come before the meeting, it is the intention of the persons named in the enclosed proxy card to vote thereon in accordance with their best judgment. Moreover, the Board of Directors reserves the right to adjourn or postpone the meeting for failure to obtain a quorum, for legitimate scheduling purposes, or based on other circumstances that, in the Board of Directors’ belief, would cause such adjournments or postponements to be in the best interests of all of the company’s stockholders.

Statements Regarding Forward-Looking Statements

The statements contained in this report on Form 10-K that are not purely historical are forward-looking statements within the meaning of applicable securities laws. Forward-looking statements include statements regarding our “expectations,” “anticipation,” “intentions,” “beliefs,” or “strategies” regarding the future. Forward-looking statements relating to our future economic performance, plans and objectives for future operations, and projections of sales and other financial items are based on our beliefs as well as assumptions made by and information currently available to us. Actual results could differ materially from those currently anticipated as a result of a number of factors, including those discussed in Item 1A, “Risk Factors.”

PART I

Item 1. *Business*

Overview

Kona Grill, Inc. (referred to herein as the “Company” or “we,” “us,” and “our”) owns and operates 25 upscale casual restaurants in 16 states. Our restaurants offer freshly prepared food, attentive service, and an upscale contemporary ambiance that create an exceptional, yet affordable dining experience that we believe exceeds many traditional casual dining restaurants with whom we compete. Our high-volume polished casual restaurants feature a diverse selection of flavorful American food, internationally influenced appetizers and entrees and an extensive selection of award-winning sushi. Our menu items are prepared from scratch and incorporate over 40 signature sauces and dressings, creating memorable flavor profiles that appeal to a diverse group of guests. Our menu offerings are complemented by a full service bar offering a broad assortment of wines, specialty drinks, and beers. We believe that our innovative high-quality recipes, generous portions, and flexible price points provide guests exceptional value and allows us to attract a diverse customer base.

Our restaurants seat an average of 290 guests and are comprised of multiple dining areas that incorporate modern design elements to create an upscale ambiance that reinforces our high standards of food and service. Our main dining area, full-service bar, outdoor patio, and sushi bar provide a choice of atmospheres and a variety of environments designed to attract new guests and encourage repeat visits from regular guests. We locate our restaurants in high-activity areas such as retail centers, shopping malls, urban entertainment districts, and lifestyle centers that are situated near commercial office space and residential housing to attract guests throughout the day.

We believe that the portability of our concept has been successfully demonstrated in a variety of markets across the United States. Our primary growth objective is to gradually expand the Kona Grill concept in selected markets over the next several years. We intend to continue developing Kona Grill restaurants in high quality, densely populated areas in both new and existing markets. In 2010, we opened a new restaurant in Baltimore, Maryland and in 2009 we opened new restaurants in Richmond, Virginia; Woodbridge, New Jersey; Eden Prairie, Minnesota; and Tampa, Florida. While we do not plan to open any new restaurants in 2011, we expect to be well-positioned to resume growth in 2012. We believe our concept has the potential for over 100 restaurants nationwide.

Our executive offices are located at 7150 East Camelback Road, Suite 220, Scottsdale, Arizona 85251, and our telephone number is (480) 922-8100. Our website is located at www.konagrill.com. Through our website, we make available free of charge our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements, and any amendments to those reports filed or furnished to the Securities and Exchange Commission. These reports are available as soon as reasonably practicable after we electronically file these reports with the SEC. We also post on our website the charters of our Audit, Compensation, and Nominating Committees; Code of Business Conduct and Ethics and Code of Ethics for the CEO and Senior Financial Officers; and any other corporate governance materials required by SEC or NASDAQ regulations. These documents are also available in print to any stockholder requesting a copy from our corporate secretary at our executive offices.

Our History

Our predecessor concept was a sushi restaurant that commenced operations during 1994. As our guests frequently requested additional selection and diversity in menu offerings, we developed a successor restaurant concept offering sushi plus innovative menu selections with mainstream appeal that became Kona Grill. We opened the first Kona Grill restaurant in Scottsdale, Arizona in 1998. We sold the predecessor restaurant in 2002 to focus on growing the Kona Grill concept.

Competitive Strengths

The restaurant business is intensely competitive with respect to food quality, price-value relationships, ambiance, service and location. We believe that the key strengths of our business include the following:

- *Innovative Menu Selections with Mainstream Appeal.* We offer a menu of freshly prepared, high quality food that includes a diverse selection of mainstream American selections, a variety of appetizers and entrees with an international influence, and award-winning sushi to appeal to a wide range of tastes, preferences, and price points. We prepare our dishes from scratch using original recipes with generous portions and creative and appealing presentations that adhere to standards that we believe are much closer to fine dining than typical casual dining. Our more than 40 signature sauces and dressings create memorable flavor profiles and further differentiate our menu items. With an average check during 2010 of approximately \$23 per guest, we believe we provide an exceptional price-value proposition that helps create a lasting relationship between Kona Grill and our guests.
- *Distinctive Upscale Casual Dining Experience.* Our upscale casual dining concept captures some of the best elements of fine dining including a variety of exceptional food, attentive service, and an extensive wine and drink list, and combines them with more casual qualities, like a broad menu with attractive price points and a choice of environments to fit any dining occasion. Our creative menu, personalized service, and contemporary restaurant design blend together to create a great polished casual dining experience. We design our restaurants with a unique layout and utilize modern, eye-catching design elements such as our signature saltwater aquarium stocked with bright and colorful exotic fish, plants, and coral. Our multiple dining areas provide guests with a number of distinct dining environments and atmospheres to suit a range of dining occasions. Our open exhibition-style kitchen and sushi bar further emphasize the quality and freshness of our food that are the cornerstones of our unique upscale casual dining concept.
- *Significant Bar and Happy Hour Business.* Our high-energy bar and patio offer a distinctive atmosphere where guests can enjoy one of our many alcoholic beverage offerings, while providing a place to be seen and see others. Our patio is a popular place for younger clientele and industry professionals to enjoy our high-value happy hour and reverse happy hour offerings. Our patio, including our enclosed patio in colder climate locations, provides a year-round sales opportunity and is a key driver in generating business during non-traditional periods. Sales during these non-peak periods accounted for 23% of our total sales during 2010, which we believe provides us with a competitive advantage.
- *Personalized Guest Service.* Our commitment to provide prompt, friendly, and efficient service enhances our food, reinforces our upscale ambiance, and helps distinguish us from other traditional casual dining restaurants. We train our service personnel to be cordial, friendly, and knowledgeable about all aspects of the restaurant, especially the menu, which helps us provide personalized guest service that is designed to ensure an enjoyable dining experience and exceed our guests' expectations. Our kitchen staff completes extensive training to ensure that menu items are precisely prepared to provide a consistent quality of taste. We believe our focus on high service standards underscores our guest-centric philosophy.
- *Multiple Daypart Model.* Our appetizers, flatbreads, entrees, and sushi offerings provide a flexible selection of items that can be ordered individually or shared allowing guests to dine with us during traditional lunch and dinner meal periods as well as in between customary dining periods such as in the late afternoon and late night. The lively ambiance of our patio and bar areas provides an energetic social forum that attracts a young professional clientele during non-peak periods, as well as provides a unique atmosphere for all of our guests to enjoy before or after they dine with us. Our sushi bar provides another dining venue for guests while offering a wide selection of creative and flavorful menu items for our health conscious guests. We believe that our ability to attract guests throughout the day distinguishes us from many other casual dining chains and helps us maximize sales and leverage our fixed operating costs.
- *Attractive Unit Economics.* During 2010, the average unit volume of our comparable base restaurants was \$3.8 million, or \$535 per square foot. We believe our high average unit volume helps us attract high-quality employees, leverage fixed costs, and makes us a desirable tenant for landlords. We expect the average cash

investment for our new restaurants to be approximately \$2.5 million, net of landlord tenant improvement allowances and excluding preopening expenses. Restaurants that are subject to ground leases and do not receive landlord tenant improvement allowances may require a significantly higher cash investment, but typically have lower average rental costs over the duration of the lease.

Growth Strategy

We believe that there are significant opportunities to grow our sales and increase our brand awareness throughout the United States. The following sets forth the key elements of our growth strategy.

Pursue Disciplined Restaurant Growth

We adhere to a disciplined site selection process. We review potential sites in both new and existing markets that meet our demographic, real estate, and investment criteria. We also utilize an empirical site selection model to ensure that potential sites meet our strict site selection criteria. We have no lease commitments signed for new restaurant development; however, we are in ongoing discussions with landlords regarding the availability of quality sites. Beyond 2011, we expect the rate of new unit expansion to moderately increase as the cost of capital becomes more affordable and quality new restaurant sites become available.

Our growth strategy also includes developing restaurants in new and existing markets that have the appropriate demographics to support multiple restaurants. Operating multiple restaurants in existing markets enables us to leverage our brand equity as well as gain operating efficiencies associated with regional supervision, marketing, purchasing, and hiring. In addition, our ability to hire qualified employees is enhanced in markets where we are well-known and we are able to utilize existing employees in new restaurants. Our expansion plans do not involve any franchised restaurant operations.

Grow Existing Restaurant Sales

Our goal for existing restaurants is to increase unit volumes through ongoing local and social marketing efforts and local market advertising designed to generate awareness and trial of our concept and increase the frequency of guest visits. During 2010, restaurant sales for our comparable base restaurants, which include those units open for more than 18 months, increased 0.9% compared to 2009 reflecting higher overall guest traffic, partially offset by a reduction in the average guest check as guests continue to manage their spending in this challenging macroeconomic environment. We expect same-store sales to continue to improve as the U.S. economy strengthens.

We continue to implement initiatives designed to increase sales at our restaurants. During 2010, we implemented phases I, II, and III of a four phase menu evolution process designed to introduce creative new items to our menu, improve the flavor profile of certain menu items, and bring back the “wow” factor to the presentation of our dishes. We also periodically introduce food and drink promotions to keep our menu fresh and exciting while also providing a vehicle to test the popularity of new menu items. During 2010, we introduced several marketing and branding initiatives, including our Konavore™ loyalty program, which has grown to over 130,000 guests in 12 months. We have also increased our presence in social marketing and interactive advertising. Furthermore, we utilize a guest satisfaction survey across the entire brand to provide valuable feedback that our management team can respond to immediately. We believe we can generate additional sales through these programs at a reasonable expense per restaurant.

Leverage Depth of Existing Corporate Infrastructure

We believe that successful execution of our growth strategies will enable Kona Grill to be a leading upscale casual dining restaurant operator in the United States. During 2010, we made strategic investments in our corporate infrastructure including the hiring of senior personnel with significant restaurant experience. We continue to implement information systems and tools to enhance our business while ensuring that strong financial controls are in place to minimize risks associated with our current growth strategy. We believe that we will be able to leverage our investments in corporate personnel and information systems and realize profits from the increasing sales volume that our company generates.

Unit Economics

We target a 35% net cash-on-cash return for our restaurants once they reach their mature level of operations. Maturation periods vary from restaurant to restaurant, but generally range from two to four years. We target our restaurants to achieve average annual unit volume of \$4.5 million following 24 months of operations. During 2010, the average unit volume of our comparable base restaurants was \$3.8 million, or \$535 per square foot. Recent trends are lower than our targeted volume due to the current economic environment. The cash-based performance target for our restaurant operations do not include field supervision, corporate support expenses or non-cash items such as depreciation and amortization; and do not represent a targeted return on investment in our common stock.

Our investment cost for new restaurants vary significantly depending upon the length and type of lease entered into, the amount of tenant improvement allowance we receive from landlords, and whether we assume responsibility for the construction of the building. We expect the cash investment cost of our prototype restaurant to be approximately \$2.5 million, net of landlord tenant improvement allowances of between \$0.7 million and \$1.2 million, and excluding cash preopening expenses of approximately \$0.4 million.

Our ability to generate sales throughout the day is a key strength of our concept. The following table depicts the amount and percentage of contribution for each daypart of overall restaurant sales during 2010.

2010 Sales by Daypart

	<u>Sales</u>	<u>Percent</u>
	<u>(Dollars in thousands)</u>	
Lunch (Open to 3 p.m.)	\$ 19,708	22%
Dinner (5 p.m. to 9 p.m.)	47,813	55%
Non-Peak (3 p.m. to 5 p.m. and 9 p.m. to Close)	<u>20,068</u>	<u>23%</u>
Total All Day	<u>\$ 87,589</u>	<u>100%</u>

Menu

Our menu offers guests a diverse selection of mainstream American dishes as well as a variety of appetizers and entrees with an international influence, including a broad selection of award-winning sushi. This broad menu is an important factor in differentiating ourselves from other upscale casual dining competitors. We are widely recognized for our selection of over 40 signature sauces and dressings. Our sauces and dressings distinguish and compliment our dishes, creating delicious flavor profiles and artistic presentations for guests. All of our menu items are prepared from scratch using fresh high quality ingredients and adhere to food standards that we believe are much closer to fine dining than typical casual dining.

Our menu features a selection of appetizers, salads, soups, pizzas, flatbreads, sandwiches, noodles, seafood, signature entrees, and desserts. We round out our menu with over 60 hand-made award-winning sushi choices. Our appetizers include socially interactive items that can be eaten individually or easily shared amongst guests such as our Ahi Wonton Crisps, Chicken Satay, and Sweet and Spicy Shrimp. Our signature entrees feature various sauces and offer guests generous portions that are impressive in presentation and in taste. For example, our most popular entrée is the Macadamia Nut Chicken served with shoyu-cream sauce and accompanied by parmesan garlic mashed potatoes and haircots verts. Other favorites include Miso-Sake Marinated Sea Bass served with shrimp and pork fried rice and grilled broccolini and Pan-Seared Ahi Tuna served over steamed white rice with a sweet-chili sauce.

We are also known for our broad assortment of sushi that includes traditional favorites as well as distinct specialty items such as Tuna Carpaccio made with thinly sliced tuna sashimi topped with wasabi mayo and yuzu ponzu sauce and served with fresh arugula, or the Bama Roll made with crab mix, cream cheese and jalapeno in soy paper topped with tuna, avocado, fish roe and spicy mayo. Our menu, coupled with an expansive selection of sushi, offers ample choices for health conscious guests, which the National Restaurant Association expects will continue to be a point of focus for consumers in the future.

Each of our restaurants has a dedicated kitchen staff member, whom we refer to as our saucier, to oversee the preparation of more than 40 signature sauces and dressings that are made from scratch using only high-quality ingredients and fresh products. Each sauce is designed according to a proprietary recipe for specific menu items and includes unique flavors and combinations such as our honey cilantro, shoyu-cream, and spicy aioli dipping sauces, and our sesame-soy and honey dijon dressings. We believe that these distinctive sauces and dressings provide a unique flavor profile, which further distinguishes Kona Grill from its competitors. Our flavorful sauces and dressings also enhance guests' overall dining experience by allowing them to not only experience new tastes but to also share their favorite sauces with others, helping to create customer loyalty and a socially interactive dining experience.

The versatility of our menu enables us to provide guests with dishes that can be enjoyed outside of the traditional lunch and dinner meal periods as well as to serve guests' requirements for a variety of dining occasions, including everyday dining, business lunches, social gatherings and special occasions. We also offer group dining menus and sushi platters to provide additional opportunities to service our guests. In general our menu is consistent from location to location. We review our menu regularly and make enhancements to existing items or introduce new items based on guest feedback, which helps ensure that we are meeting the needs of our guests.

Our restaurants also offer an extensive selection of domestic and imported bottled and draft beers, over 25 selections of wines by the glass or bottle, and a broad selection of liquors and specialty cocktail drinks. During our weekday happy hour (3 p.m. to 7 p.m.) and reverse happy hour (9 p.m. to 11 p.m.), we offer discounts on selected food and alcoholic beverage items. Happy hour times may vary by location due to local liquor laws. Alcoholic beverage sales represented approximately 31% of our total restaurant sales during 2010.

Decor and Atmosphere

We have created a consistent restaurant look and feel that is adaptable to varying real estate opportunities. The layout of our restaurants focuses on joined spaces that create multiple dining areas for our guests while also maintaining an open atmosphere that allows guests to have a panoramic view of the entire restaurant and kitchen without negatively impacting the specific ambiance or dining occasion they desire.

Our main dining room area offers a combination of booth seating and central tables of varying sizes. Our full service bar area and covered outdoor patio offer not only a high-energy, socially interactive area for guests to enjoy appetizers or sushi while they wait to dine with us, but also serves as a destination for many of our frequent guests who visit us during the late afternoon and late night periods. Our dining room is strategically placed to ensure that families and other groups that may prefer a quieter, more intimate dining experience are not disturbed. Our sushi bar provides yet another dining alternative for singles, couples, and parties with more sophisticated, health conscious, or adventuresome tastes.

We showcase our signature saltwater aquarium stocked with bright and colorful exotic fish, plants, and coral in each of our restaurants. Our bar surfaces are made of granite and compliment our mahogany finishes to enhance our contemporary design. We use a variety of directional lighting to deliver a warm glow throughout our restaurants and we adjust our dining atmosphere throughout the day by adjusting the lighting, music, and the choice of television programming in our bar and patio areas. Our exhibition-style kitchens are brightly lit to display our kitchen staff at work. Our covered outdoor patio areas seat an average of 60 guests. We utilize heaters suspended from our roof structure to allow us to maximize the use of our patios throughout most of the year while avoiding obtrusive heating mechanisms that could detract from our upscale ambiance. We have enclosed the patio areas in certain of our colder climate locations allowing guests to utilize the patio area throughout the year.

The exterior of our restaurants typically employ cultured stone and slate to create a highly visible and attractive restaurant. We landscape our restaurants where appropriate and vary the exterior design to coordinate with the surrounding area. We use accent lighting on trees and directional lighting on our buildings to further increase the visual appeal of our restaurants.

Food Preparation, Quality Control, and Purchasing

We believe that we have some of the highest food quality standards in the industry. Our standards are designed to protect food products throughout the preparation process. We provide detailed specifications to suppliers for food ingredients, products, and supplies. We strive to maintain quality and consistency in our restaurants through careful hiring, training and supervision of personnel. Our restaurant general managers and executive chefs generally receive nine weeks of training while our other restaurant managers and sous chef receive seven weeks of training. We have an annual recertification training for all employees and each employee receives an operations manual relating to food and beverage preparation and restaurant operations. We also instruct kitchen managers and staff on safety, sanitation, housekeeping, repair and maintenance, product and service specifications, ordering and receiving products, and quality assurance. All of our restaurant managers are compliant with Hazard Analysis and Critical Control Point, or HACCP. We monitor minimum cook temperature requirements and conduct twice-a-day kitchen and food quality inspections to further assure the safety and quality of all of the items we use in our restaurants.

We are committed to purchasing high-quality ingredients for our restaurants while managing costs. We use only the freshest ingredients and, as a result, we maintain only modest inventories. We have arrangements with local produce distributors and specialty food suppliers who provide high-quality ingredients and perishable food products. We believe that competitively priced alternative distribution sources are available should those channels be necessary. We source all of our products and supplies with reputable and high-quality providers that are capable of providing consistent, reliable distribution to all of our restaurants.

Our goal is to maximize purchasing efficiencies and obtain the lowest possible prices for ingredients, products, and supplies, while maintaining the highest quality. Our Scottsdale Support Center coordinates national supply contracts, negotiates prices for food supply throughout all of our restaurants, monitors quality control and consistency of the food supplied to restaurants, and oversees delivery of food on a nationwide basis. In order to provide the freshest ingredients and products, and to maximize operating efficiencies between purchase and usage, we utilize an automated food cost and inventory system to assist each restaurant's kitchen manager in determining daily order requirements for food ingredients, products, and supplies. The kitchen manager orders accordingly from approved suppliers and all deliveries are inspected to assure that the items received meet our quality specifications and negotiated prices.

Expansion Strategy and Site Selection

We believe the location of our restaurants is critical to our long-term success and, accordingly, we devote significant time and resources to analyzing each prospective site. Our site selection criteria for new restaurants include locating our restaurants near high traffic areas such as upscale retail centers and shopping malls and lifestyle and entertainment centers. In addition, we focus on areas that have significant commercial and residential populations, have high customer traffic throughout the day from thriving businesses or retail markets, and are convenient for and appealing to business and leisure travelers. Our restaurant expansion strategy focuses primarily on penetrating markets where demographic information supports the building of additional restaurants in major metropolitan areas throughout the United States. In general, we prefer to open restaurants in high-profile sites within specific trade areas with the following considerations:

- suitable demographic characteristics, including residential and commercial population density and above-average household incomes;
- visibility;
- high traffic patterns;
- general accessibility;
- availability of suitable parking;
- proximity of shopping areas and office parks;

- degree of competition and the revenue level of those competitors within the trade area; and
- general availability of restaurant-level employees.

These sites generally include high-volume retail centers, shopping malls, and lifestyle and entertainment centers.

We thoroughly analyze each prospective site before presenting the site to our Real Estate Committee, comprised of members of the Board of Directors, for review. Prior to committing to a restaurant site and signing a lease, at least three members of our senior management team and a member of the Real Estate Committee visit the prospective site and evaluate the proposed economics of the restaurant based on scores from our site model, demographic data and other relevant criteria to assure that the site will meet our return on investment criteria. We completed a comprehensive custom study of guest profiles and existing restaurant results in December 2009 and used this data to create an empirical site model program to ensure even greater scrutiny when selecting new locations.

We lease all of our restaurant sites under lease terms that vary by restaurant; however, we generally lease space (freestanding or in-line) for 10 to 20 years and negotiate at least two five-year renewal options. Our rent structures vary from lease to lease, but generally provide for the payment of both minimum base rent and contingent rent based on restaurant sales. We are also generally responsible for a proportionate share of common area maintenance, property tax, insurance, and other occupancy-related expenses.

We believe the high sales volumes of our restaurants make us an attractive tenant and provide us with ample opportunities to obtain suitable leasing terms from landlords. As a result of the locations we select, which are often in new retail center or shopping mall developments, our restaurant development timeframes vary according to the landlord's construction schedule and other factors that are beyond our control. Once the site has been turned over to us, the typical lead-time from commencement of construction to opening is approximately six months.

Restaurant Operations

Executive and Restaurant Management

Our executive management team continually monitors restaurant operations to assure the quality of products and services and the maintenance of facilities. Restaurant management and our Scottsdale Support Center institute procedures to enhance efficiency, reduce costs and provide centralized and individual restaurant support systems. Our senior vice president of operations, senior director of training, and district managers have primary responsibility for oversight of our restaurants and participate in analyzing restaurant-level performance and strategic planning. We employ four district managers who report directly to our senior vice president of operations and who are each responsible for overseeing the restaurants in a specific region. The district managers' responsibilities include supporting the general managers and helping each general manager achieve the sales and cash flow targets for their restaurant as well as providing insight for decision making in such areas as food and beverage, people development, and systems to enhance the efficiency of operations. As we expand our operations, we expect to hire additional district managers who will each oversee six to eight restaurants. In addition, our support center team includes a senior director of culinary and purchasing, an executive chef and an executive sushi chef who educate, coach, and develop kitchen personnel, implement systems to improve the efficiency of kitchen operations, and develop new menu offerings.

Our typical restaurant management team consists of a general manager, assistant general manager, two front-of-the-house managers, executive chef, sous chef, and head sushi chef. Our restaurants employ on average approximately 75 non-management employees, many of whom work part-time. The general manager is responsible for the day-to-day operations of the restaurant, including the hiring, training, personnel development, execution of local marketing programs, and operating results. The chefs are responsible for overseeing the preparation of menu and sushi items, maintaining product quality, and closely monitoring food costs and department labor costs. We also employ a kitchen staff member who is dedicated to the preparation of our signature sauces and dressings.

Training

In order to maintain quality and consistency in each of our restaurants, we carefully train and supervise restaurant personnel and adhere to high standards related to personnel performance, food and beverage preparation, and maintenance of our restaurants. All of our restaurant personnel participate in both initial and ongoing training programs under the direction of our senior director of training. Each restaurant general manager, assistant general manager, front-of-the-house manager, and kitchen and sushi chef completes a formal training program that is comprised of a mix of classroom and on-the-job instruction. Typical programs for general managers and executive chefs provide nine weeks of training that may include a rotation to different restaurants throughout the country. Typical programs for other managers provide seven weeks of training and may involve work in our other restaurants and cross training of various duties. The training covers all aspects of management philosophy and overall restaurant operations, including supervisory skills, operating and performance standards, accounting procedures, and employee selection and training necessary for top-quality restaurant operations. The training programs also involve intensive understanding and testing of our menu, the ingredients of various menu items, and other key service protocols. In addition, our hourly staff go through a series of in-depth interactive training for their positions.

We implement these programs by hiring dedicated corporate personnel as well as designating high-performing existing restaurant personnel to assist in training. Our training personnel are involved in training for both new employees hired in anticipation of new restaurant openings as well as for ongoing training in existing restaurants. When we open a new restaurant, we provide training to restaurant personnel in every position for several weeks prior to opening to assure the smooth and efficient operation of the restaurant from the first day it opens to the public.

Recruitment and Retention

Our future growth and success is highly dependent upon our ability to attract, develop, and retain qualified individuals who are capable of successfully managing our high-volume, upscale casual restaurants. We believe that our unit volume, the image and atmosphere of the Kona Grill concept, and career advancement and employee benefit programs enable us to attract high quality management and restaurant personnel. We offer restaurant management personnel competitive wages and benefits, including medical insurance and participation in our 401(k) plan with a company match. We motivate and prepare our restaurant personnel by providing them with opportunities for increased responsibility and advancement. Furthermore, the management team of each restaurant share in a bonus tied to the sales and overall profitability of their restaurant. We believe that our compensation package for managers and restaurant employees is comparable to those provided by other upscale casual restaurants. We believe our compensation policies help us attract quality personnel.

Information Systems

We believe that our management information systems enable us to increase the speed and accuracy of order-taking and pricing, efficiently schedule labor to better serve guests, monitor labor costs, assist in product purchasing and menu mix management, promptly access financial and operating data, and improve the accuracy and efficiency of restaurant-level information and reporting.

We utilize an integrated information system to manage the flow of information within each of our restaurants and between each restaurant and our support center. This system includes an Aloha point-of-sales (POS) local area network that helps facilitate the operations of the restaurant by recording sales transactions and printing orders in the appropriate locations within the restaurant. Additionally, we utilize the POS system to authorize, batch, and transmit credit card transactions, record employee time clock information, and produce a variety of management reports. Our point of sale system is integrated with food cost and labor scheduling software as well as our financial reporting system and incorporates a redundancy and back-up emergency operating plan on a temporary basis if the system experiences downtime.

We transmit electronically to the support center on a daily basis select information that is captured from the POS system. This information flow enables senior management to monitor operating results with daily and weekly sales analysis, detailed labor and food cost information, and comparisons between actual and budgeted operating results. We anticipate continually updating both our restaurant information systems and support center information

systems to enhance operations. We believe our information systems are secure and scalable as we continue to build our brand.

Advertising and Marketing

Our ongoing advertising and marketing strategy consists of loyalty programs, social marketing, interactive advertising, traditional outdoor and print advertising, various public relations activities, direct mail, and word-of-mouth recommendations. We believe that these mediums are a key component in driving guest trial and usage. In 2010, our marketing and advertising expenditures were \$1.2 million, or 1.4% of restaurant sales. We expect to continue to invest in marketing, branding and advertising efforts, primarily to drive trial, increase comparable restaurant sales and build brand awareness.

We implement a coordinated public relations effort in conjunction with each new restaurant opening. Approximately 60 days before a scheduled restaurant opening, we collaborate with the local media to publicize our restaurant and generate awareness of our brand. This effort is usually supplemented by targeted direct mail campaigns, social marketing, and other marketing efforts, including hosting a high profile event for a local charity as part of our preopening practice activities that also serves to introduce our concept to the local market. In addition, we use our website, *www.konagrill.com*, to help increase our brand awareness as well as gift card sales.

Competition

The restaurant industry is highly competitive. Key competitive factors in the industry include the taste, quality, and price of food products offered, quality and speed of guest service, brand name identification, attractiveness of facilities, restaurant location, and overall dining experience.

We believe we compete favorably with respect to each of these factors, as follows:

- We offer a diverse selection of fresh high quality mainstream American dishes as well as a variety of appetizers and entrees with an international influence, including an extensive selection of sushi items;
- We appeal to multiple demographic and psychographic profiles;
- We strive to maintain quality and consistency in each of our restaurants through the careful training and supervision of restaurant personnel and adherence to high standards related to personnel performance, food and beverage preparation, and maintenance of our restaurants;
- Our innovative menu with attractive price points, attentive service, and contemporary restaurant design with multiple environments blend together to create our polished casual dining experience and enables us to attract a broad guest demographic.

Although we believe we compete favorably with respect to each of these factors, there are a substantial number of restaurant operations that compete directly and indirectly with us, many of which have significantly greater financial resources, higher revenue, and greater economies of scale. The restaurant business is often affected by changes in consumer tastes and discretionary spending patterns; national and regional economic and public safety conditions; demographic trends; weather conditions; the cost and availability of raw materials, labor, and energy; purchasing power; governmental regulations; and local competitive factors. Any change in these or other related factors could adversely affect our restaurant operations. Accordingly, we must constantly evolve and refine the critical elements of our restaurant concept over time to protect their longer-term competitiveness. Additionally, there is competition for highly qualified restaurant management employees and for attractive locations suitable for upscale, high volume restaurants.

Trademarks

We have registered the service marks “Kona Grill” and “Konavore” with the United States Patent and Trademark Office. We believe that our trademarks and other proprietary rights, such as our unique menu offerings and signature sauce recipes, have significant value and are important to the marketing of our concept. We have in the past and expect to continue to protect vigorously our proprietary rights. We cannot predict, however, whether steps taken by us to protect our proprietary rights will be adequate to prevent misappropriation of these rights or the use by others of restaurant features based upon, or otherwise similar to, our concept. It may be difficult for us to prevent others from copying elements of our concept and any litigation to enforce our rights will likely be costly. In addition, other local restaurant companies with names similar to ours may try to prevent us from using our marks in those locales.

Government Regulation

Each of our restaurants is subject to licensing and regulation by state and local departments and bureaus of alcohol control, health, sanitation, zoning, and fire and to periodic review by state and municipal authorities for areas in which the restaurants are located. In addition, we are subject to local land use, zoning, building, planning, and traffic ordinances and regulations in the selection and acquisition of suitable sites for developing new restaurants. Delays in obtaining, or denials of, or revocation or temporary suspension of, necessary licenses or approvals could have a material adverse impact on our development of restaurants.

Alcoholic beverage control regulations require each of our restaurants to apply to a state authority and, in certain locations, county and municipal authorities for a license and permit to sell alcoholic beverages on the premises. Typically, licenses must be renewed annually and may be subject to penalties, temporary suspension or revocation for cause at any time. Alcoholic beverage control regulations impact many aspects of the daily operations of our restaurants, including the minimum age of patrons and employees, hours of operation, inventory control and handling, and storage and dispensing of alcoholic beverages. We have not encountered any material problems relating to alcoholic beverage licenses or permits to date. The failure of a restaurant to obtain or retain its liquor license would adversely affect that restaurant’s operations and profitability.

We are subject to dram shop statutes in most of the states in which we operate. Those statutes generally provide a person who has been injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to such person. We carry liquor liability coverage as part of our existing comprehensive general liability insurance which we believe is consistent with coverage carried by other companies in the restaurant industry of similar size and scope of operations. Even though we carry liquor liability insurance, a judgment against us under a dram shop statute in excess of our liability coverage could have a material adverse effect on our operations.

Our operations are also subject to federal and state laws governing such matters as wages, working conditions, citizenship requirements, and overtime. Several states have set minimum wage requirements higher than the current federal level. A significant number of hourly personnel at our restaurants are paid at rates related to state and federal minimum wage laws and, accordingly, state minimum wage increases effective during 2010 and the federal minimum wage increase in July 2009 have increased our labor costs. Increases in the minimum wage rate or the cost of workers’ compensation insurance, changes in tip-credit provisions, employee benefit costs (including costs associated with mandated health insurance coverage), or other costs associated with employees could adversely affect our operating results. To our knowledge, we are in compliance in all material respects with all applicable federal, state, and local laws affecting our business.

Employees

As of February 7, 2011, we employed approximately 1,986 people of whom approximately 1,956 worked in our restaurants and 30 were corporate management and staff personnel. None of our employees are covered by a collective bargaining agreement. We have never experienced a major work stoppage, strike, or labor dispute. We consider our relations with our employees to be favorable.

Executive Officers

The following table sets forth certain information regarding our executive officers:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Marc A. Buehler	41	President, Chief Executive Officer and Director
Mark S. Robinow.....	54	Executive Vice President, Chief Financial Officer and Secretary
Larry J. Ryback	42	Senior Vice President of Operations

Marc A. Buehler has served as our Chief Executive Officer and President since November 2009 and is also a member of our Board of Directors. Prior to joining our company, Mr. Buehler was the Chief Executive Officer of LS Management, Inc., the owner and operator of the Lone Star Steakhouse & Saloon/Texas Land and Cattle Steak House restaurant concepts, as well as Lone Star Business solutions, where he served from July 2007 to May 2009. From July 2002 to July 2007, Mr. Buehler worked at Romacorp, Inc. which operates and franchises more than 200 Tony Roma's casual dining locations, as the Vice President of Marketing and was promoted to Chief Executive Officer, President, and Director of Romacorp during July 2006. Prior to that, Mr. Buehler served as Vice President of Marketing at Eateries, Inc. from March 1999 to July 2002 and Marketing Manager at Applebee's International, Inc. from February 1996 to March 1999. Mr. Buehler also serves as a Board Member of Share Our Strength and is a co-chairperson of the National Restaurant Association's Marketing Executives Group. In addition he is a member of the Young Presidents' Organization.

Mark S. Robinow has served as our Executive Vice President, Chief Financial Officer, and Secretary since October 2004. Prior to joining our company, Mr. Robinow served as the Chief Financial Officer of Integrated Decisions and Systems, Inc. (IDeaS) from July 2000 until October 2004. Mr. Robinow served as the Senior Vice President and Chief Financial Officer of Rainforest Cafe, Inc. from November 1995 until January 2000. Prior to that, Mr. Robinow served as the Chief Financial Officer of Edina Realty, Inc. from 1993 until 1995, and as Chief Financial Officer, Secretary, and Treasurer of Ringer Corporation from 1986 until 1993. Mr. Robinow also served as a senior auditor with Deloitte & Touche from 1980 until 1983. Mr. Robinow is a Certified Public Accountant (inactive license holder).

Larry J. Ryback has served as our Senior Vice President of Operations since February 2010. Mr. Ryback oversees the day-to-day restaurant operations for our brand, culinary operations, training and recruiting. Mr. Ryback brings more than 20 years of restaurant operations experience to our company. Prior to joining our company, Mr. Ryback served as the President and Chief Operating Officer of Redstone American Grill, Inc., a \$35 million privately held company with five high-volume, upscale restaurants in four states. Before joining Redstone during 2005, Mr. Ryback spent 10 years with Champps Entertainment in various operations roles including three years as a Regional Vice President of Operations overseeing 26 restaurants that together generated over \$130 million in revenue.

Item 1A. Risk Factors

Risks Related to Our Business

We have a history of losses and we may never achieve profitability.

We incurred net losses during each of the last six years. We may find that efforts to achieve profitability are more difficult than we currently anticipate or that our remodel or expansion efforts do not result in proportionate increases in our sales, which would further increase our losses. We cannot predict whether we will be able to achieve profitability in the future.

Our sales and ability to achieve profitability could be adversely affected if comparable restaurant sales increases are less than we expect, and we may not successfully increase comparable restaurant sales.

While future sales growth will depend substantially on opening new restaurants, changes in comparable restaurant sales will also affect our sales growth and will continue to be a critical factor in achieving profitability. This is because the profit margin on comparable restaurant sales is generally higher, as comparable restaurant sales increases enable fixed costs to be spread over a higher sales base. Conversely, declines in comparable restaurant sales can have a significant adverse effect on profitability due to the loss of the higher profit margins associated with comparable restaurant sales. Comparable restaurant sales increased 0.9% during 2010, but had declined 9.3% and 7.2% during 2009 and 2008, respectively. We expect comparable restaurant sales in 2011 to increase at a level greater than that achieved in 2010. However, the impact of ongoing weakness in consumer spending and other factors noted below, may lower our expectations for comparable restaurant sales.

Our ability to increase comparable restaurant sales depends on many factors, including the following:

- changes in consumer preferences and discretionary spending, including weaker consumer spending in difficult economic times, such as those that persisted during 2010;
- consumer understanding and acceptance of the Kona Grill experience;
- our ability to increase menu prices without adversely impacting guest traffic to such a degree that the impact of the decrease in guests equals or exceeds the benefit of the menu price increase;
- executing our strategies effectively, including our menu improvement initiatives and marketing and branding strategies, each of which may not drive an increase in guest traffic;
- weather, road construction and other factors limiting access to our restaurants; and
- changes in government regulation.

A number of these factors are beyond our control. As a result of these factors it is possible that we will not achieve our targeted comparable restaurant sales or that the change in comparable restaurant sales could be negative. If this were to happen, sales and profitability would be adversely affected and our stock price would be likely to decline.

We may require additional capital in the future as a result of changes in our restaurant operations or growth plans, and our inability to raise such capital could harm our operations and restrict our growth.

Changes in our restaurant operations, lower than anticipated restaurant sales, increased food or labor costs, increased property expenses, or other events, including those described in this report, may cause us to seek additional debt or equity financing on an accelerated basis. Financing may not be available to us on acceptable terms, and our failure to raise capital when needed could negatively impact our restaurant growth plans as well as our financial condition and results of operations. Additional equity financing, if available, may be dilutive to the holders of our common stock. Debt financing may involve significant cash payment obligations, covenants, and financial ratios that may restrict our ability to operate and grow our business, and would cause us to incur additional interest expense and financing costs.

Unexpected expenses and low market acceptance of our restaurant concept could adversely affect the profitability of restaurants that we open in new markets.

As part of our expansion strategy, we have opened and plan to open restaurants in markets in which we have no prior operating experience and in which our brand may not be well-known. These new markets may have different competitive conditions, consumer tastes, and discretionary spending patterns than restaurants in our existing markets. As a result, we may incur costs related to the opening, operation, and promotion of these new restaurants that are greater than those incurred in markets with longer operating history. As a result of these factors, sales at restaurants opening in new markets may take longer to achieve average unit volumes comparable with our existing restaurants, if at all, which would adversely affect the profitability of those new restaurants.

We depend upon high levels of consumer traffic at the sites where our restaurants are located and any adverse change in consumer activity could negatively affect our restaurant sales and may require us to record an impairment charge for restaurants performing below expectations.

Our restaurants are primarily located in high-activity areas such as retail centers, shopping malls, and lifestyle centers. We depend on high consumer traffic rates at these centers to attract guests to our restaurants. In general, such visit frequencies are significantly affected by many factors, including national, regional, or local economic conditions, anchor tenants closing in retail centers or shopping malls in which we operate, changes in consumer preferences or shopping patterns, higher frequency of online shopping, changes in discretionary consumer spending, increasing gasoline prices, or otherwise. If visitor rates to these centers decline, our unit volumes could decline and adversely affect our results of operations, including recording an impairment charge for restaurants that are performing below expectations. During 2009, we recorded \$16.9 million in asset impairment charges for six underperforming restaurants. We may be required to record impairment charges in the future if certain restaurants perform below expectations.

We have a limited operating history and a limited number of restaurants upon which to evaluate our company, and you should not rely on our history as an indication of our future results.

We currently operate 25 restaurants, more than half of which have operated for less than five years. Consequently, the results we have achieved to date with a relatively small number of restaurants may not be indicative of those restaurants' long-term performance or the potential performance of new restaurants. A number of factors historically have affected and are likely to continue to affect our average unit volumes and comparable restaurant sales, including the following:

- our ability to execute effectively our business strategy;
- our ability to successfully select and secure sites for our concept;
- the operating performance of new and existing restaurants;
- competition in our markets;
- consumer trends; and
- changes in political or economic conditions.

Our average unit volume has declined in recent years. Average unit volumes for three of our restaurants opened within the last two years were significantly below the average unit volume of our comparable restaurant base. In addition, we closed a restaurant in Naples, Florida in September 2008 due to low sales volume. Changes in our average unit volumes and comparable restaurant sales could cause the price of our common stock to fluctuate substantially.

Disruptions in the capital and credit markets may adversely affect our business, including the availability and cost of funding, which could adversely affect our results of operations, cash flows, and financial condition.

Our growth strategy depends upon the capital markets to expand our operations. Disruptions in the capital and credit markets could adversely affect our ability to borrow money from banks or other potential lenders. Our access to funds under any potential credit facility will depend on the ability of the banks or other lenders to commit to lend funds to us. In the event we enter into a credit facility with banks or other lenders, those parties may not be able to meet their funding commitments to us if they experience shortages of capital or if they experience excessive volumes of borrowing requests from us and other borrowers within a short period of time.

Longer term disruptions in the capital and credit markets as a result of uncertainty, changing or increased regulation, or failures of significant financial institutions could adversely affect our access to capital. Any long-term disruption could require us to take measures to conserve cash until the markets stabilize or until alternative credit arrangements or other funding for our business can be arranged. Such measures could result in deferring capital expenditures or altering our growth strategy to reduce the opening of new restaurants.

Our future expansion in existing markets may cause sales in some of our existing restaurants to decline.

Our future growth strategy includes opening new restaurants in our existing markets. We may be unable to attract enough guests to our new restaurants for them to operate profitably. In addition, guests to our new restaurants may be former guests of one of our existing restaurants in that market, which may reduce guest visits and sales at those existing restaurants, adversely affecting our results of operations.

Our ability to open new restaurants may be adversely affected by delays or problems associated with securing suitable restaurant locations and leases and by other factors, some of which are beyond our control and the timing of which is difficult to forecast accurately.

Due in part to the unique nature of each proposed restaurant location, we cannot predict the timing or ultimate success of our site selection process. Our ability to open new restaurants depends upon a number of factors, many of which are beyond our control, including the following:

- the availability and cost of suitable restaurant locations for development and our ability to compete successfully for those locations;
- the availability of adequate financing;
- cash flow generated by our existing restaurants;
- the timing of delivery of leased premises from our landlords so we can commence our build-out construction activities;
- construction and development costs;
- labor shortages or disputes experienced by our landlords or outside contractors;
- unforeseen engineering or environmental problems with the leased premises;
- our ability to secure governmental approvals and permits, including liquor licenses, construction permits, and occupancy permits;
- weather conditions or natural disasters; and
- general economic conditions.

Our restaurants are subject to natural disasters and other events which are beyond our control and for which we may not be able to obtain insurance at reasonable rates.

We endeavor to insure our restaurants against wind, flood, and other disasters, but we may not be able to obtain insurance for these types of events for all of our restaurants at reasonable rates. A devastating natural disaster or other event in the vicinity of one of our restaurants could result in substantial losses and have a material adverse effect on our results of operations.

If our distributors or suppliers do not provide food and beverages to us in a timely fashion, we may experience short-term supply shortages and increased food and beverage costs.

We currently use a national food distribution service company and other regional distributors to provide food and beverage products to all of our restaurants. If our suppliers cease doing business with us, we could experience short-term supply shortages in some or all of our restaurants and could be required to purchase food and beverage products at higher prices until we are able to secure an alternative supply source. In addition, any delay in replacing suppliers or distributors on acceptable terms could, in extreme cases, require us to remove temporarily items from the menus of one or more of our restaurants, which also could adversely affect our business.

Our failure to protect our trademarks, service marks, or trade secrets could negatively affect our competitive position and the value of the Kona Grill brand.

Our business prospects depend in part on our ability to develop favorable consumer recognition of the Kona Grill name. Although Kona Grill is a federally registered trademark, our trademarks and service marks could be imitated in ways that we cannot prevent. Alternatively, third parties may attempt to cause us to change our name or not operate in a certain geographic region if our name is confusingly similar to their name. In addition, we rely on trade secrets, proprietary know-how, concepts, and recipes. Our methods of protecting this information may not be adequate. Moreover, we may face claims of misappropriation or infringement of third parties' rights that could interfere with our use of this information. Defending these claims may be costly and, if unsuccessful, may prevent us from continuing to use this proprietary information in the future, and may result in a judgment or monetary damages. We do not maintain confidentiality and non-competition agreements with all of our executives, key personnel, or suppliers. If competitors independently develop or otherwise obtain access to our trade secrets, proprietary know-how, or recipes, the appeal of our restaurants could be reduced and our business could be harmed.

Risks Related to the Restaurant Industry

Changes in food and supply costs could adversely affect our results of operations.

Our profitability depends in part on our ability to anticipate and react to changes in food and supply costs. Like all restaurant companies, we are susceptible to increases in food costs as a result of factors beyond our control, such as adverse weather conditions, demand, food safety concerns, government regulations, product recalls and seasonality. We currently do not purchase seafood, poultry, beef, or produce pursuant to long-term contracts or use financial management strategies to reduce our exposure to price fluctuations. Approximately 30% of our sales are seafood and fish for which we are not able to contract for future supply or pricing. Changes in the price or availability of certain types of seafood, poultry, beef, grains, or produce could affect our ability to offer a broad menu and price offering to guests and could reduce our operating margins and adversely affect our results of operations. We may not be able to anticipate and react to changing food costs through our purchasing practices and menu price adjustments in the future, and failure to do so could negatively impact our sales and results of operations.

Regulations affecting the operation of our restaurants could increase operating costs, restrict our growth, or require us to suspend operations.

Each of our restaurants must obtain licenses from regulatory authorities allowing it to sell liquor, beer, and wine, and each restaurant must obtain a food service license from local health authorities. Each restaurant's liquor license must be renewed annually and may be revoked or suspended at any time for cause, including violation by us or our employees of any laws and regulations relating to the minimum drinking age, over serving, advertising, wholesale purchasing, and inventory control. Each restaurant is also subject to local health inspections. Failure to

pass one or multiple inspections may result in temporary or permanent suspension of operations and could significantly impact our reputation. In certain states, including states where we have existing restaurants or where we may open restaurants in the future, the number of liquor licenses available is limited and licenses are traded at market prices. Liquor, beer, and wine sales comprise a significant portion of our sales, representing 31% of our sales during 2010. Therefore, if we are unable to maintain our existing licenses, or if we choose to open a restaurant in those states, the cost of a new license could be significant. Obtaining and maintaining licenses is an important component of each of our restaurant's operations, and the failure to obtain or maintain food and liquor licenses and other required licenses, permits, and approvals would adversely impact our restaurants and our growth strategy.

Negative publicity surrounding our restaurants or the consumption of beef, seafood, poultry, or produce generally, or shifts in consumer tastes, could negatively impact the popularity of our restaurants, our sales, and our results of operations.

The popularity of our restaurants in general, and our menu offerings in particular, are key factors to the success of our operations. Negative publicity resulting from poor food quality, illness, injury, or other health concerns, whether related to one of our restaurants or to the beef, seafood, poultry, or produce industries in general (such as negative publicity concerning salmonella, e-coli, Hepatitis A, mercury poisoning and other food-borne illnesses), or operating problems related to one or more of our restaurants, could make our brand and menu offerings less appealing to consumers. In addition, other shifts in consumer preferences away from the kinds of food we offer, whether because of dietary or other health concerns or otherwise, would make our restaurants less appealing and adversely affect our sales and results of operations. If our restaurants are unable to compete successfully with other restaurants in new and existing markets, our results of operations will be harmed and we may not achieve profitability.

Litigation concerning our food quality, employment practices, liquor liability, and other issues could result in significant expenses to us and could divert resources from our operations.

Like other restaurants, we may receive complaints or litigation from, and potential liability to, our guests involving food-borne illness or injury or other operational issues. We may also be subject to complaints or allegations from, and potential liability to, our former, existing, or prospective employees involving our restaurant employment practices and procedures. In addition, we are subject to state "dram shop" laws and regulations, which generally provide that a person injured by an intoxicated person may seek to recover damages from an establishment that wrongfully served alcoholic beverages to such person. Recent litigation against restaurant chains has resulted in significant judgments, including punitive damages, under "dram shop" statutes. While we carry liquor liability coverage as part of our existing comprehensive general liability insurance, we may still be subject to a judgment in excess of our insurance coverage and we may not be able to obtain or continue to maintain such insurance coverage at reasonable costs, if at all. Regardless of whether any claims against us are valid or whether we are liable, our sales may be adversely affected by publicity resulting from such claims. Such claims may also be expensive to defend and may divert time and money away from our operations and adversely affect our business.

Labor shortages or increases in labor costs could slow our growth or adversely affect our business.

Our success depends in part on our ability to attract, motivate, and retain a sufficient number of qualified employees, including restaurant general managers and kitchen managers, necessary to continue our operations. This ability is especially critical to our company because of our relatively small number of existing restaurants. If we are unable to recruit and retain a sufficient number of qualified employees, our business and growth strategy could be adversely affected.

Competition for qualified restaurant employees in current or prospective markets could require us to pay higher wages and benefits, which could result in higher labor costs. In addition, we have a substantial number of hourly employees who are paid rates based upon the federal or state minimum wage and who rely on tips for a significant portion of their income. Government-mandated increases in minimum wages, overtime pay, health benefits, or increased tax reporting and tax payment requirements for employees who receive gratuities, or a reduction in the number of states that allow tips to be credited toward minimum wage requirements, could increase our labor costs. We may be unable to increase our prices proportionately in order to pass these increased costs on to our guests, in which case our operating margins would be adversely affected.

Risks Related to Ownership of Our Common Stock

The market price for our common stock may be volatile.

Many factors could cause the market price of our common stock to rise and fall, including the following:

- actual or anticipated variations in comparable restaurant sales or operating results; whether in our operations or those of our competitors;
- changes in the consumer spending environment or general economic conditions;
- changes in the market valuations of other companies in the restaurant industry;
- recruitment or departure of key restaurant operations or management personnel;
- changes in the estimates of our operating performance or changes in recommendations by any research analysts that follow our stock; and
- announcements of investigations or regulatory scrutiny of restaurant operations or lawsuits filed against us.

We are a party to a securities complaint alleging breach of fiduciary duty by our board of directors. We also may become the target of additional securities litigation. Securities litigation could result in substantial costs and divert our attention and resources from the business as well as depress the price of our common stock.

Our current principal stockholders own a large percentage of our voting stock, which allows them to control substantially all matters requiring stockholder approval.

Five entities or persons together own approximately 52% of our outstanding common stock, including three of our directors. As a result, these investors may have significant influence over a decision to enter into any corporate transaction and may have the ability to prevent any transaction that requires the approval of stockholders, regardless of whether or not our other stockholders believe that such transaction is in their own best interests. Such concentration of voting power could have the effect of delaying, deterring, or preventing a change of control or other business combination, which could in turn have an adverse effect on the market price of our common stock or prevent our stockholders from realizing a premium over the then-prevailing market price for their shares of common stock.

The large number of shares eligible for public sale and registered for resale could depress the market price of our common stock.

The market price for our common stock could decline as a result of sales of a large number of shares of our common stock in the market, and the perception that these sales could occur may depress the market price. As of December 31, 2010, we had outstanding 9,186,795 shares of common stock, all of which shares are either freely tradable or otherwise eligible for sale under Rule 144 under the Securities Act of 1933. In addition, we have approximately 1,540,000 shares available for issuance under our stock award and employee stock purchase plans. We have filed registration statements under the securities laws to register the common stock to be issued under these plans. As a result, shares issued under these plans will be freely tradable without restriction unless acquired by affiliates of our company, who will be subject to the volume and other limitations of Rule 144.

Provisions in our certificate of incorporation, our bylaws, and Delaware law could make it more difficult for a third party to acquire us, discourage a takeover, and adversely affect existing stockholders.

Our certificate of incorporation, our bylaws, and the Delaware General Corporation Law contain provisions that may have the effect of making more difficult, delaying, or deterring attempts by others to obtain control of our company, even when these attempts may be in the best interests of stockholders. These include provisions on our maintaining a classified Board of Directors and limiting the stockholders' powers to remove directors or take action by written consent instead of at a stockholders' meeting. Our certificate of incorporation also authorizes our Board of Directors, without stockholder approval, to issue one or more series of preferred stock, which could have voting and conversion rights that adversely affect or dilute the voting power of the holders of common stock. Delaware law also imposes conditions on the voting of "control shares" and on certain business combination transactions with "interested stockholders."

These provisions and others that could be adopted in the future could deter unsolicited takeovers or delay or prevent changes in our control or management, including transactions in which stockholders might otherwise receive a premium for their shares over then current market prices. These provisions may also limit the ability of stockholders to approve transactions that they may deem to be in their best interests.

Since we do not expect to pay any dividends for the foreseeable future, holders of our common stock may be forced to sell their stock in order to obtain a return on their investment.

We do not anticipate that we will pay any dividends to holders of our common stock in the foreseeable future. Instead, we plan to reinvest any earnings to finance our restaurant operations and growth plans. Accordingly, stockholders must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any return on their investment. As a result, investors seeking cash dividends should not purchase our common stock.

Item 1B. *Unresolved Staff Comments*

Not applicable.

Item 2. *Properties*

We currently operate 25 restaurants in 16 states. Each of our restaurants and our support center are located in a leased facility. As of December 31, 2010, our restaurant leases had expiration dates ranging from 2013 to 2029, typically with options to renew for at least a five-year period. We do not anticipate any difficulties renewing existing leases as they expire. The following table sets forth our current restaurant locations.

State	City	Location	Year Opened	Square Footage	Number of Seats (1)
Arizona	Scottsdale	Scottsdale Fashion Square	1998	5,964	274
Arizona	Chandler	Chandler Fashion Center	2001	7,389	326
Missouri	Kansas City	Country Club Plaza	2002	7,455	248
Nevada	Las Vegas	Boca Park Fashion Village	2003	7,380	295
Colorado	Denver	Cherry Creek Mall	2004	5,920	243
Nebraska	Omaha	Village Pointe	2004	7,415	304
Indiana	Carmel	Clay Terrace	2004	7,433	295
Texas	Sugar Land	First Colony Mall	2005	7,127	285
Texas	San Antonio	The Shops at La Cantera	2005	7,200	256
Texas	Dallas	North Park Mall	2006	6,872	299
Illinois	Lincolnshire	Lincolnshire Commons	2006	7,020	305
Texas	Houston	Houston Galleria	2006	7,459	315
Illinois	Oak Brook	Oak Brook Promenade	2006	6,999	298
Texas	Austin	The Domain	2007	6,890	298
Michigan	Troy	Big Beaver Road	2007	7,000	280
Connecticut	Stamford	Stamford Town Center	2007	7,654	305
Louisiana	Baton Rouge	Perkins Rowe	2007	6,900	260
Arizona	Gilbert	San Tan Village	2008	6,770	259
Florida	West Palm Beach	CityPlace	2008	6,750	243
Arizona	Phoenix	CityNorth	2008	7,510	368
Virginia	Richmond	West Broad Village	2009	7,000	282
New Jersey	Woodbridge	Woodbridge Conference Center	2009	7,000	280
Minnesota	Eden Prairie	Windsor Plaza	2009	7,000	310
Florida	Tampa	MetWest International	2009	7,500	338
Maryland	Baltimore	Downtown Baltimore	2010	6,972	280

(1) Number of seats includes dining room, patio seating, sushi bar, bar, and private dining room (where applicable).

Item 3. *Legal Proceedings*

We are involved in various legal proceedings arising out of our operations in the ordinary course of business. We do not believe that such proceedings, even if determined adversely, will have a material adverse effect on our business, financial condition, or results of operations.

Stockholder Derivative Action

On February 6, 2009, Samuel Beren (“Beren” or “plaintiff”), as trustee for the Samuel Beren Trust, served a demand on us pursuant to Section 220 of Delaware’s General Corporation Law (the “DGCL”), which requested that we make available for inspection certain books and records. During April 2009, Beren, as trustee for the Samuel Beren Trust, commenced a purported stockholder derivative action in the Court of Chancery of the State of Delaware. The derivative action purportedly was brought on behalf of us against our directors and the purchasers of our promissory notes issued during March 2009, for alleged breaches of fiduciary duties by our directors, and for aiding and abetting such breaches by the purchasers of our promissory notes. We also were named as a nominal defendant in the derivative action. The derivative action seeks unspecified damages, interest, reasonable attorneys’ fees, expert witness fees, and other costs.

During June 2009, the director defendants filed a motion to dismiss the derivative action. Separately, during October 2009, plaintiff served a demand on us pursuant to Section 220 of the DGCL, which requested that we make available for inspection certain books and records. During January 2010, we produced books and records in response to the October 26, 2009 demand. Two days later, plaintiff commenced a separate action against us, which sought the production of the books and records requested in plaintiff's February 6, 2009 and October 26, 2009 demand letters. During March 2010, the court granted a stay in the derivative action until the books and records action was resolved. During July 2010, we produced books and records in response to the February 6, 2009 demand, which production was covered by a confidentiality agreement executed between us and Beren.

We believe that because books and records were produced in response both to the February 6, 2009 demand and to the October 26, 2009 demand, the books and records action is moot and that the books and records action should be dismissed by the Court. During February 2011, the plaintiff filed an amended complaint including a claim for corporate waste. The plaintiff subsequently withdrew the complaint and informed us of his intent to file a motion to file the amended complaint under seal. We are evaluating the amended complaint and will determine the proper response to such amended complaint. We continue to believe that the purported derivative action, as amended, is without merit, and we intend to defend vigorously this lawsuit.

PART II

Item 5. *Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities*

Market Information

Our common stock has traded on the NASDAQ Global Market under the symbol KONA since our initial public offering on August 16, 2005. The following table sets forth high and low sale prices of our common stock for each calendar quarter indicated as reported on the NASDAQ Global Market.

	<u>High</u>	<u>Low</u>
2010		
First quarter	\$ 3.88	\$ 2.85
Second quarter	\$ 5.62	\$ 3.41
Third quarter	\$ 4.16	\$ 3.00
Fourth quarter	\$ 4.80	\$ 3.25
2009		
First quarter	\$ 3.25	\$ 1.42
Second quarter	\$ 4.34	\$ 1.17
Third quarter	\$ 4.15	\$ 3.16
Fourth quarter	\$ 3.59	\$ 2.32

On February 28, 2011, the closing sale price of our common stock was \$5.23 per share. On February 28, 2011, there were 26 holders of record of our common stock.

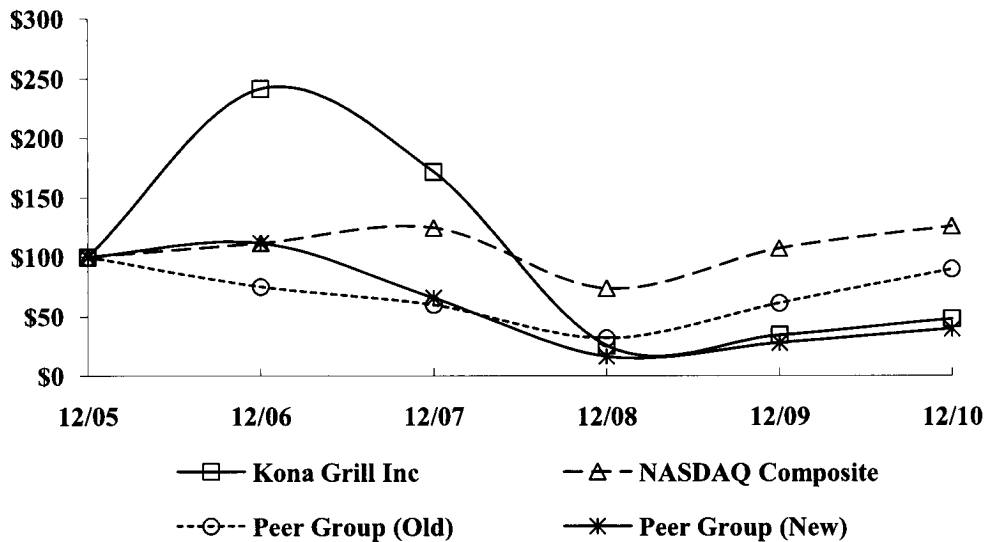

Dividend Policy

We have not paid any dividends to holders of our common stock since our initial public offering and do not anticipate that we will pay any dividends to holders of our common stock in the foreseeable future, but instead we currently plan to retain any earnings to finance our restaurant operations and the growth of our business. Payments of any cash dividends in the future, however, is within the discretion of our Board of Directors and will depend on our financial condition, results of operations, and capital and legal requirements as well as other factors deemed relevant by our Board of Directors.

PERFORMANCE GRAPH

In 2010, we changed our peer group to include the following companies: McCormick & Schmick's Seafood Restaurants, Inc.; Benihana, Inc.; Granite City Food & Brewery Ltd.; and J. Alexander's Corporation. We believe that the companies included in the New Peer Group are more reflective of similar sized companies in terms of market capitalization and sales and therefore will provide a more meaningful comparison of stock performance. Previously our peer group consisted of the following companies: P.F. Chang's China Bistro, Inc.; The Cheesecake Factory Incorporated; McCormick & Schmick's Seafood Restaurants, Inc.; Benihana, Inc.; BJ's Restaurants, Inc.; Granite City Food & Brewery Ltd.; and J. Alexander's Corporation (Old Peer Group).

The graph assumes an investment of \$100 on December 31, 2005. The calculations of cumulative stockholder return for the NASDAQ Composite (U.S.) Index, the New Peer Group and the Old Peer Group include reinvestment of dividends, if any, is assumed. The performance shown is not necessarily indicative of future performance. This graph is not "soliciting material," is not deemed filed with the Securities and Exchange Commission and is not to be incorporated by reference in any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing. The following line graph compares cumulative total stockholder returns for the period from December 31, 2005 through December 31, 2010 for (1) our common stock; (2) the NASDAQ Composite (U.S.) Index; (3) the New Peer Group; and (4) the Old Peer Group.

Item 6. Selected Financial Data

The following selected consolidated financial data has been derived from audited financial statements and should be read in conjunction with the consolidated financial statements and notes thereto and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

	Year Ended December 31,				
	2010	2009	2008	2007	2006

(1) As a result of our decision to close our Naples, Florida restaurant during September 2008, the results of operations from this restaurant (including related asset impairment, lease obligation, and restaurant-level closing costs) are classified as discontinued operations for all periods presented as discussed further in Note 2 to our consolidated financial statements.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our consolidated financial statements and related notes contained elsewhere in this report. This discussion contains forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of a variety of factors, including those set forth under Item 1A, "Risk Factors" and elsewhere in this report.

Overview

We currently own and operate 25 restaurants located in 16 states. We offer freshly prepared food, attentive service, and a contemporary ambiance that create a satisfying yet affordable dining experience that we believe exceeds many traditional casual dining restaurants with which we compete. Our high-volume upscale casual restaurants feature a diverse selection of mainstream American favorites as well as a variety of appetizers and entrees with an international influence, including an extensive selection of sushi items. Our menu items are freshly prepared and incorporate over 40 signature sauces and dressings that we make from scratch, creating broad-based appeal for the lifestyle and taste trends of a diverse group of guests. We believe that our diverse menu and generous portions, combined with an average check of approximately \$23 per guest, offers our guests an attractive price-value proposition.

Over the last five years, we have funded development of new restaurants primarily from the proceeds of our initial public offering, a private offering of common stock completed during November 2007, a rights offering completed during June 2009, and cash flows from operations. We opened our newest restaurant in Baltimore, Maryland on October 5, 2010 and opened four restaurants during 2009 in Richmond, Virginia; Woodbridge, New Jersey; Eden Prairie, Minnesota; and Tampa, Florida. We intend to pursue additional leases based on significant economic opportunity, subject to the availability of capital on terms acceptable to us.

Despite the continued weakness in the U.S. economy, we were able to achieve a modest increase in our comparable restaurant sales of 0.9% in 2010. We believe improvement in the job market, coupled with improvement in consumer confidence and spending in general, will be important and necessary catalysts to drive guest traffic and higher guest check averages in casual dining restaurants in general and our restaurants in particular. Customer traffic and sales patterns have shown improvement throughout 2010 as evidenced by the sequential improvement in comparable restaurant sales from (2.5)% during the first quarter of 2010 to (0.3)% during the second quarter of 2010 to flat for the third quarter of 2010 and up 6.4% during the fourth quarter of 2010.

We target our restaurants to achieve an average annual unit volume of \$4.5 million following 24 months of operations. Certain of our recent openings are trending lower than our targeted volume during the current economic environment. We believe our typical new restaurants experience gradually increasing unit volumes as guests discover our concept and we generate market awareness. Our restaurants are also subject to seasonal fluctuations. Sales in most of our restaurants typically are higher during the spring and summer months and winter holiday season.

During the fourth quarter of 2009, we recorded non-cash asset impairment charges of \$16.9 million for six underperforming restaurants. The asset impairment charges resulted from an evaluation of the long-term prospects of each of these restaurants that have not been meeting sales, profitability, and cash flow targets. We will continue to focus on each of these restaurants to determine whether operating performance can be improved.

We experience various patterns in our operating cost structure. Cost of sales, labor, and other operating expenses for our restaurants open at least 12 months generally trend consistent with restaurant sales, and we analyze those costs as a percentage of restaurant sales. We anticipate that our new restaurants will take approximately six months to achieve operating efficiencies as a result of challenges typically associated with opening new restaurants, including lack of market recognition and the need to hire and sufficiently train employees, as well as other factors. We expect cost of sales and labor expenses as a percentage of restaurant sales to be higher when we open a new restaurant, but decrease as a percentage of restaurant sales as the restaurant matures and as the restaurant management and employees become more efficient operating that unit. Occupancy and a portion of restaurant operating expenses are fixed. As a result, the volume and timing of newly opened restaurants has had, and is

expected to continue to have, an impact on costs of sales, labor, occupancy, and restaurant operating expenses measured as a percentage of restaurant sales. The majority of our general and administrative costs are fixed costs. We expect our general and administrative spending to decrease as a percentage of restaurant sales as we leverage these investments and realize the benefits of higher sales volumes.

Key Measures We Use to Evaluate Our Company

Key measures we use to evaluate and assess our business include the following:

Number of Restaurant Openings. Number of restaurant openings reflects the number of restaurants opened during a particular reporting period.

Same-Store Sales Percentage Change. Same-store sales percentage change reflects the periodic change in restaurant sales for the comparable restaurant base. In calculating the percentage change in same-store sales, we include a restaurant in the comparable restaurant base after it has been in operation for more than 18 months. Same-store sales growth can be generated by an increase in guest traffic counts or by increases in the per person average check amount. Menu price changes and the mix of menu items sold can affect the per person average check amount.

Average Weekly Sales. Average weekly sales represents the average of restaurant sales measured over consecutive Monday through Sunday time periods.

Average Unit Volume. Average unit volume represents the average restaurant sales for the comparable restaurant base.

Sales Per Square Foot. Sales per square foot represents the restaurant sales for our comparable restaurant base, divided by the total leasable square feet for such restaurants.

Restaurant Operating Profit. Restaurant operating profit is defined as restaurant sales minus cost of sales, labor, occupancy, and restaurant operating expenses. Restaurant operating profit does not include general and administrative expenses, depreciation and amortization, or preopening expenses. We believe restaurant operating profit is an important component of financial results because it is a widely used metric within the restaurant industry to evaluate restaurant-level productivity, efficiency, and performance prior to application of corporate overhead. We use restaurant operating profit as a percentage of restaurant sales as a key metric to evaluate our restaurants' financial performance compared with our competitors. This measure provides useful information regarding our financial condition and results of operations and allows investors to more easily determine future financial results driven by growth and allows investors to more easily compare restaurant level profitability.

Key Financial Definitions

Restaurant Sales. Restaurant sales include gross food and beverage sales, net of promotions and discounts.

Cost of Sales. Cost of sales consists of food and beverage costs.

Labor. Labor includes all direct and indirect labor costs incurred in operations.

Occupancy. Occupancy includes all rent payments associated with the leasing of real estate, including base, percentage and straight-line rent, property taxes, and common area maintenance expense. We record tenant improvement allowances as a reduction of occupancy expense over the initial term of the lease.

Restaurant Operating Expenses. Restaurant operating expenses consist of all other restaurant-level operating costs, the major components of which are utilities, credit card fees, advertising, supplies, marketing, repair and maintenance, and other expenses. Other operating expenses contain both variable and fixed components.

General and Administrative. General and administrative includes all corporate and administrative functions that support operations and provide infrastructure to facilitate our future growth. Components of this category include

management and staff salaries, bonuses, stock-based compensation and related employee benefits, travel, information systems, human resources, training, corporate rent, professional and consulting fees, and corporate insurance costs.

Preopening Expense. Preopening expense consists of costs incurred prior to opening a new restaurant and is comprised principally of manager salaries and relocation, payroll and related training costs for new employees, including food and beverage costs associated with practice and rehearsal of service activities, and rent expense incurred from the date we obtain possession of the property until opening. We expense restaurant preopening expenses as incurred, and we expect preopening expenses to be similar for each new restaurant opening, which typically commence six to eight months prior to a restaurant opening. Our preopening costs will fluctuate from period to period depending upon the number of restaurants opened, the timing of new restaurant openings, the location of the restaurants, and the complexity of the staff hiring and training process.

Depreciation and Amortization. Depreciation and amortization expense consists of the depreciation of property and equipment and gains and losses on disposal of assets.

Interest Income and Other, Net. Interest income and other, net consists of interest earned on our cash and investments and any gains or losses on our investments.

Interest Expense. Interest expense includes the cost of servicing our debt obligations, net of capitalized interest.

Financial Performance Overview

The following table sets forth certain information regarding our financial performance for 2010, 2009, and 2008.

	Year Ended December 31,		
	2010	2009	2008
Restaurant sales growth.....	8.0%	7.0%	9.1%
Same-store sales percentage change(1).....	0.9%	(9.3)%	(7.2)%
Average unit volume (in thousands)(2).....	\$ 3,771	\$ 3,815	\$ 4,279
Sales per square foot (2).....	\$ 535	\$ 541	\$ 608
Restaurant operating profit (in thousands) (3).....	\$ 11,809	\$ 11,907	\$ 13,218
Restaurant operating profit as a percentage of sales (3).....	13.5%	14.7%	17.4%

(1) Same-store sales percentage change reflects the periodic change in restaurant sales for the comparable restaurant base. In calculating the percentage change for same-store sales, we include a restaurant in the comparable restaurant base after it has been in operation for more than 18 months.

(2) Includes only those restaurants in the comparable restaurant base.

(3) Restaurant operating profit is not a financial measurement determined in accordance with U.S. generally accepted accounting principles and should not be considered in isolation or as an alternative to loss from operations. Restaurant operating profit may not be comparable to the same or similarly titled measures computed by other companies. We believe restaurant operating profit is an important component of financial results because it is a widely used metric within the restaurant industry to evaluate restaurant-level productivity, efficiency, and performance. We use restaurant operating profit as a percentage of restaurant sales as a key metric to evaluate our restaurants' financial performance compared with our competitors.

The following tables set forth our calculation of restaurant operating profit and reconciliation to loss from operations, the most comparable GAAP measure.

	Year Ended December 31,

Year Ended December 31, 2010 Compared with Year Ended December 31, 2009

Restaurant Sales. Restaurant sales increased by \$6.5 million, or 8.0% to \$87.6 million in 2010 from \$81.1 million during the prior year, primarily attributable to restaurant sales from the opening of four new restaurants since April 2009 and a 0.9% increase in comparable restaurant sales. The increase in comparable restaurant sales is attributable to a 6% increase in guest traffic during 2010, partially offset by lower average guest check, which we believe was a result of the current macroeconomic environment and weak consumer confidence.

Cost of Sales. Cost of sales increased \$2.8 million, or 13.3% to \$23.9 million during 2010 from \$21.1 million during 2009. Cost of sales as a percentage of restaurant sales increased 1.2% to 27.2% during 2010 from 26.0% during the prior year period. The increase in cost of sales as a percentage of restaurant sales during 2010 reflects an increase in year-over-year costs for certain seafood, meat and produce items. The increase in cost of sales is also attributable to increased levels of food and beverage based marketing programs launched during 2010.

Labor. Labor costs for our restaurants increased \$2.1 million, or 7.5% to \$30.6 million during 2010 from \$28.5 million during the prior year period. The increase was primarily the result of the opening of four new restaurants since April 2009. As a percentage of restaurant sales, labor costs decreased 0.2% to 35.0% during 2010 from 35.2% during 2009. The slight decrease in labor costs as a percentage of restaurant sales was primarily the result of leverage of fixed management wages, hourly labor expense, and benefit costs resulting from the increase in comparable restaurant sales.

Occupancy. Occupancy expense increased by \$0.6 million, or 9.9% to \$7.1 million in 2010 compared to \$6.5 million during the prior year period. Occupancy expenses as a percentage of restaurant sales increased 0.1% to 8.1% during 2010 from 8.0% during 2009.

Restaurant Operating Expenses. Restaurant operating expenses increased by \$1.0 million, or 7.8% to \$14.2 million during 2010 compared to \$13.2 million during the prior year period. Restaurant operating expenses as a percentage of restaurant sales were flat at 16.2% in both 2010 and 2009. During 2010, we incurred higher marketing, training and relocation costs and personal property taxes as a percentage of restaurant sales; however, these costs were offset by lower repair and maintenance and restaurant services fees as a percentage of sales.

General and Administrative. General and administrative expenses decreased \$1.1 million, or 13.8% to \$7.1 million during 2010 compared to \$8.2 million during 2009. The decrease in general and administrative expenses during 2010 is primarily attributable to a reduction in severance and other special charges. During 2010, we incurred \$0.5 million for legal and professional fees associated with the contested proxy solicitation and ongoing derivative suit compared to 2009 when we recorded approximately \$1.6 million in special charges. These charges included \$0.8 million in severance and related benefits for two executive officers, \$0.6 million in legal and professional fees associated with stockholder activities, including financial advisory fees to evaluate an unsolicited offer to purchase our company, and \$0.2 million write-off for architectural drawings and permit costs associated with amending the lease for our Baltimore restaurant. General and administrative expenses as a percentage of restaurant sales decreased 2.0% to 8.1% of restaurant sales during 2010 compared to 10.1% of restaurant sales during the prior year period.

Preopening Expense. Preopening expense decreased \$1.1 million to \$0.6 million during 2010 compared to \$1.7 million during 2009. The decrease in preopening expense is attributable to four restaurant openings during 2009 compared to 2010 when preopening expenses were incurred for one restaurant opened in Baltimore, Maryland.

Depreciation and Amortization. Depreciation and amortization expense decreased \$1.6 million, or 22.5% to \$5.7 million during 2010 from \$7.3 million during the prior year period. The decrease is primarily the result of a \$2.3 million reduction in depreciation expense associated with the fourth quarter 2009 impairment of long-lived assets at six underperforming restaurants, partially offset by depreciation expense for four restaurants that opened since April 2009. Depreciation and amortization expense as a percentage of restaurant sales decreased 2.5% to 6.5% during 2010 from 9.0% during the prior year period.

Interest Income and Other, Net. Interest income and other, net decreased during 2010 due to lower average investment balances as compared to the prior year period resulting from the sale of auction rate securities during the second quarter of 2010.

Interest Expense. Interest expense decreased during 2010 as compared to 2009 due to interest costs incurred in the prior year period for the \$1.2 million bridge loan that was issued during March 2009 and subsequently repaid during June 2009.

Provision for Income Taxes. During 2010, we recorded a \$10,000 provision for income taxes compared to \$65,000 during the prior year period. The provision for 2010 reflects the benefit recorded by us for the anticipated refund of prior year taxes due to a change in tax legislation regarding net operating loss carrybacks, offset by taxes for certain states in which we operate that do not calculate tax based upon net income.

Year Ended December 31, 2009 Compared with Year Ended December 31, 2008

Restaurant Sales. Restaurant sales increased \$5.3 million, or 7.0% to \$81.1 million during 2009 from \$75.8 million during 2008. The increase in sales is primarily attributable to restaurant sales generated from the opening of seven new restaurants since June 2008, partially offset by overall traffic declines at our comparable restaurant sales base resulting from the weak U.S. economy, high unemployment rates, and reduced consumer spending. Higher menu pricing of approximately 2.0% was more than offset by reduced guest traffic and a decline in the average guest check as comparable restaurant sales declined 9.3% during 2009.

Cost of Sales. Cost of sales increased \$0.3 million, or 1.6% to \$21.0 million during 2009 from \$20.7 million during 2008. Cost of sales as a percentage of restaurant sales decreased 1.3% to 26.0% during 2009 from 27.3% during the prior year period. Cost of sales during 2009 was positively affected by favorable year-over-year pricing on certain proteins and produce products and operating efficiencies attributed to the rollout of an automated food cost and inventory management system that was completed during July 2008.

Labor. Labor costs for our restaurants increased \$3.1 million, or 12.3% to \$28.5 million during 2009 from \$25.4 million during the prior year period. The increase was primarily due to the opening of seven new restaurants since June 2008. As a percentage of restaurant sales, labor costs increased 1.7% to 35.2% during 2009 from 33.5% during 2008. The increase in labor costs as a percentage of restaurant sales was primarily due to reduced leverage of fixed labor costs and hourly labor expense resulting from lower average weekly sales. In addition, high labor costs from restaurants opened during the year also contributed to the increase in labor expense as labor expenses are typically higher than normal during the first several months of operations. Federal and state minimum wage increases, implemented during the second half of 2008 and during 2009, also contributed to increased labor costs as a percentage of sales.

Occupancy. Occupancy expense increased by \$1.3 million, or 25.2% to \$6.5 million during 2009 from \$5.2 million during the prior year period. Occupancy expenses as a percentage of restaurant sales increased 1.2% to 8.0% during 2009 from 6.8% during 2008. The increase reflects increased common area maintenance allocations at many locations, reduction in deferred rent credits at several locations with rent concessions, and decreased leverage of fixed rental costs from lower average sales volume, partially offset by reduced percentage rent.

Restaurant Operating Expenses. Restaurant operating expenses increased by \$1.8 million, or 16.3% to \$13.1 million during 2009 from \$11.3 million during the prior year period. Restaurant operating expenses as a percentage of restaurant sales increased 1.3% to 16.2% during 2009 from 14.9% during the prior year period. During 2009, higher repair and maintenance, utilities, and property taxes combined with reduced leverage of fixed operating costs resulting from lower average sales volume contributed to the increase in restaurant operating expenses as a percentage of sales.

General and Administrative. General and administrative expenses decreased \$0.2 million, or 2.6% to \$8.2 million during 2009 compared to \$8.4 million during 2008. The decrease is primarily attributable to lower salary and benefit costs resulting from the January 2009 downsizing and realignment of certain corporate office staff and lower expenditures attributable to cost containment efforts, partially offset by \$1.6 million in special charges including \$0.8 million in severance and related benefits associated with the resignation of two executive officers, \$0.6 million in legal and professional fees associated with stockholder activities, including financial advisory fees to evaluate an unsolicited offer to purchase our company, and \$0.2 million write-off for architectural drawings and permit costs associated with amending the lease for our Baltimore, Maryland restaurant expected to open in 2010. General and administrative expenses as a percentage of restaurant sales decreased 1.0% to 10.1% of restaurant sales during 2009 compared to 11.1% of restaurant sales during the prior year period.

Preopening Expense. Preopening expense decreased \$0.4 million, or 18.7% to \$1.7 million during 2009 compared to \$2.1 million during 2008. The decrease in preopening expense is attributable to the timing of new restaurant openings. During 2009, there were four restaurant openings compared to three new restaurants during 2008; however \$0.5 million of expenses were incurred during 2008 for the four restaurants opened during 2009.

Depreciation and Amortization. Depreciation and amortization expense increased \$0.8 million, or 11.7% to \$7.3 million during 2009 from \$6.5 million during the prior year period. The increase was primarily attributable to seven restaurants opened since June 2008, partially offset by a reduction of \$0.5 million due to the fourth quarter of 2008 impairment of long-lived assets at our Lincolnshire, Illinois restaurant. Depreciation and amortization expense as a percentage of restaurant sales increased 0.4% to 9.0% during 2009 from 8.6% during 2008 reflecting decreased leverage from lower average weekly sales.

Asset Impairment Charge. During 2009, we recorded non-cash asset impairment charges of \$16.9 million related to the write-down of the carrying value of long-lived assets associated with six underperforming restaurants that have not been meeting sales, profitability, and cash flow targets. The asset impairment charges were based upon an assessment of each restaurant's historical operating performance combined with expected cash flows for these restaurants over the respective remaining lease term. During 2008, we recorded non-cash asset impairment charges of \$3.2 million for one restaurant. We have no plans to close any of these restaurants; however, we will continue to evaluate each of these restaurants to determine whether operating performance can be improved.

Interest Income and Other, Net. Interest income and other, net decreased \$0.1 million during 2009 compared to the prior year period due to lower interest rates received and lower investment balances. Please refer to Note 3 to the consolidated financial statements for discussion of our investment in auction rate securities.

Interest Expense. Interest expense increased \$0.1 million due to interest costs associated with the \$1.2 million bridge loan issued during March 2009 and subsequently repaid during June 2009. Interest expense for 2009 includes \$70,000 for amortization of the debt discount associated with warrants issued to the noteholders that was charged to interest expense.

Provision for Income Taxes. During 2009, we recorded income taxes of \$65,000 primarily for states in which income taxes are not calculated based upon net income compared to \$205,000 during 2008.

Gain from Discontinued Operations. During the second quarter of 2009, we reached a settlement agreement regarding the lease for our closed Naples, Florida restaurant. We recorded a gain of approximately \$0.7 million as the settlement amount was less than the lease termination costs originally recorded during 2008 when the restaurant was closed. During 2008, we recorded a loss of \$3.5 million for asset impairment and lease obligations, along with the sales, costs and expenses attributable to this restaurant.

Potential Fluctuations in Quarterly Results and Seasonality

Our quarterly operating results may fluctuate significantly as a result of a variety of factors, including the following:

- timing of new restaurant openings and related expenses;
- fluctuations in commodity and food protein prices;
- restaurant operating costs and preopening costs for our newly-opened restaurants, which are often materially greater during the first several months of operation than thereafter;
- labor availability and costs for hourly and management personnel;
- profitability of our restaurants, especially in new markets;
- increases and decreases in comparable restaurant sales;
- impairment of long-lived assets and any loss on restaurant closures;
- changes in borrowings and interest rates;
- general economic conditions;
- weather conditions or natural disasters;
- timing of certain holidays;
- changes in government regulations;
- outside shareholder activities;
- settlements, damages and legal costs associated with litigation;
- new or revised regulatory requirements and accounting pronouncements; and
- changes in consumer preferences and competitive conditions.

Quarterly Results of Operations

The following table presents unaudited consolidated statement of operations data for each of the eight quarters in the period ended December 31, 2010. We believe that all necessary adjustments have been included to present fairly the quarterly information when read in conjunction with our annual financial statements and related notes. The operating results for any quarter are not necessarily indicative of the results for any subsequent quarter.

Liquidity and Capital Resources

Our primary capital requirements are for new restaurant development and remodeling of existing restaurants. Subject to availability of capital on terms acceptable to us, we will pursue additional restaurant leases based on significant economic opportunity. Similar to many restaurant chains, we utilize operating lease arrangements for all of our restaurant locations. We believe that our operating lease arrangements provide appropriate leverage for our capital structure in a financially efficient manner. We are typically required to expend cash to perform site-related work and to construct and equip each restaurant. The average investment cost for our restaurants depends upon the type of lease entered into, the amount of tenant improvement allowance we receive from landlords, and whether we assume responsibility for the construction of the building. We expect the cash investment cost of our typical restaurant to be approximately \$2.5 million, net of landlord tenant improvement allowances of between \$0.7 million and \$1.2 million, and excluding cash preopening expenses of approximately \$0.4 million. We expect these costs will vary from one market to another based on real estate values, zoning regulations, permitting requirements, labor markets and other variables. Restaurants that are subject to ground leases and do not receive landlord tenant improvement allowances typically require a significantly higher cash investment. We also require capital resources to maintain our existing base of restaurants and to further expand and strengthen the capabilities of our corporate and information technology infrastructures.

The following tables set forth, for the periods indicated, a summary of our key liquidity measurements (amounts in thousands):

	<u>December 31,</u> <u>2010</u>	<u>December 31,</u> <u>2009</u>
Cash and short-term investments(1)	\$ 2,729	\$ 2,890
Net working capital (deficit)(2)	(4,878)	(5,054)

(1) At December 31, 2009, cash and short-term investments exclude \$5.8 million in auction rate securities that were used as collateral for a line of credit. Proceeds from the sale of auction rate securities were used to reduce the outstanding balance on the line of credit. During 2010, the auction rate securities were sold at par value and the line of credit was repaid.

(2) The working capital deficit at December 31, 2010 and 2009, is primarily attributable to accruals for payroll and professional fees.

	<u>2010</u>	<u>2009</u>
Cash provided by operating activities	\$ 4,718	\$ 5,341
Capital expenditures	4,318	12,021

Future Capital Requirements

Our capital requirements, including development costs related to the opening of new restaurants, have historically been significant. Over the last several years, we funded development of new restaurants primarily from the proceeds of equity financing and cash flows from operations. Our future cash requirements and the adequacy of available funds will depend on many factors, including the operating performance of our restaurants, the pace of expansion, real estate markets, site locations, the nature of the arrangements negotiated with landlords and the credit market environment.

Our current operations generate sufficient cash flow to fund operations and general and administrative costs. We believe existing cash and short-term investments of \$2.7 million in addition to cash flow from operations is sufficient to fund planned remodels of existing restaurants. Any reduction of our cash flow from operations may cause a delay or cancellation of future restaurant development or remodels of existing restaurants. As of December 31, 2010, we had a working capital deficit of \$4.9 million. We plan to reduce this deficit through cost containment efforts and cash flow from operations. Financing to construct new restaurants may not be available on acceptable terms, or at all, and our failure to raise capital when needed could impact our growth plans, financial condition, and results of operations. Additional equity financing may result in dilution to current stockholders and debt financing, if available, may involve significant cash payment obligations or financial covenants and ratios that may restrict our ability to operate our business.

Bridge Loan

On March 6, 2009, and as amended on April 7, 2009, we entered into a Note and Warrant Purchase Agreement with certain accredited investors whereby we sold \$1.2 million aggregate principal amount of 10% unsecured subordinated notes and warrants to purchase shares of our common stock. The principal and accrued interest outstanding under the notes were due and payable upon the closing of any offering of equity securities by our company generating gross proceeds to us of at least \$2.5 million. For each \$100,000 issued in notes, we issued to the noteholder three-year warrants to purchase 10,000 shares of our common stock at an aggregate exercise price per share of \$2.29, which was equal to 120% of the five-day average of the closing price of our common stock during the five trading days prior to the date of issuance. The bridge loan, including accrued interest, was repaid during June 2009 upon completion of the rights offering described below. The holders of the notes exercised over-subscription rights granted in the agreement and purchased 482,178 shares or 18.5% of the total shares sold in the rights offering.

Rights Offering

As part of the Note and Warrant Purchase Agreement, we filed with the SEC a registration statement on Form S-3 to conduct a rights offering with targeted gross proceeds to us of \$3,520,000 pursuant to which each of our stockholders received one non-transferrable subscription right for every 2.5 shares of common stock owned on April 17, 2009. Each subscription right entitled the holder to purchase one share of common stock at a price of \$1.35 per share. The terms of the agreement provided that any shares of common stock that were not subscribed for in the rights offering by existing stockholders were offered to the holders of the notes on a pro rata basis based on the aggregate principal amount of notes outstanding and at the same subscription price as offered to the holders of subscription rights granted under the rights offering. We sold 2,608,045 shares of common stock pursuant to the rights offering and received net proceeds of \$3,245,000 after deducting \$275,000 in expenses. A portion of the net proceeds was used to repay amounts owed on the notes and the remaining proceeds were utilized to fund capital expenditure requirements.

Equipment Loans

As of December 31, 2010, we had four equipment term loans with a lender, each collateralized by restaurant equipment. The outstanding principal balance under these loans was \$636,000 at December 31, 2010. The loans bear interest at rates ranging from 7.9% to 8.5% and require monthly principal and interest payments aggregating approximately \$56,000. The loans mature between May 2011 and June 2012. The loans also require us to maintain certain financial covenants, including a Fixed Charge Coverage Ratio of 1.25:1.00 calculated at the end of each calendar year, and we were in compliance with all such financial covenants as of December 31, 2010.

Credit Facility

During October 2008, as part of the settlement agreement with UBS, our broker from which we purchased auction rate security instruments, we entered into a line of credit that was secured by the auction rate security instruments held with UBS. On June 30, 2010, we exercised a put option with UBS on our auction rate security instruments and used the proceeds of \$5.8 million from the sale of the auction rate securities to repay the outstanding balance under the line of credit of \$5.8 million, which was then cancelled by UBS.

Cash Flows

The following table summarizes our primary sources and uses of cash during the periods presented.

	Year Ended December 31,		
	2010	2009	2008
	(In thousands)		
Net cash provided by (used in):			
Operating activities.....	\$ 4,718	\$ 5,341	\$ 6,693
Investing activities.....	1,808	(11,316)	(10,118)
Financing activities.....	(6,375)	5,902	911
Net increase (decrease) in cash and cash equivalents	<u>\$ 151</u>	<u>\$ (73)</u>	<u>\$ (2,514)</u>

Operating Activities. Our cash flows from operating activities, as detailed in the Consolidated Statements of Cash Flows, provided \$4.7 million of net cash in 2010. The net decrease in cash from operating activities for 2010 in comparison to 2009, is primarily the result of the timing of vendor payments and the collection of tenant improvement allowances from our landlords. The net decrease in cash from operating activities for 2009 as compared to 2008 is attributable to the timing of deferred rent and vendor payments.

Investing activities. We fund the development and construction of new restaurants and remodels primarily with cash and investments. Our capital expenditures for 2010 were \$4.3 million primarily attributable to the funding of construction for our Baltimore, Maryland restaurant which opened on October 5, 2010 and contractor payments for two restaurants that were opened during the second half of 2009. Investing activities for 2010 also reflects the sale of \$5.8 million in auction rate securities and \$0.3 million in other investments. Net cash used in investing activities during 2009 was \$11.3 million primarily reflecting \$12.0 million to fund construction of four restaurants opened during 2009. Net cash used in investing activities was \$10.1 million during 2008 reflecting \$17.1 million to fund construction at three restaurants opened during 2008 and one restaurant opened during January 2009, as well as capital expenditures for existing restaurants and other restaurants opened during 2009. This increase was partially offset by \$7.3 million in proceeds from the sale of investments to fund this construction.

Financing Activities. Net cash used in financing activities was \$6.4 million during 2010 reflecting the repayment of \$5.8 million in borrowings under a line of credit with UBS and \$0.7 million in principal payments on equipment loans. Net cash provided by financing activities was \$5.9 million during 2009 reflecting \$3.3 million in net borrowings under a line of credit and \$3.2 million in net proceeds from the subscription rights offering completed during June 2009, partially offset by \$0.7 million in principal payments on equipment loans. Net cash provided by financing activities was \$0.9 million during 2008 principally consisting of \$2.5 million in net borrowings under a line of credit offset by the purchase of 116,200 shares of common stock under our stock repurchase program at a total cost of \$1.0 million, and \$0.7 million in principal payments on equipment notes.

Aggregate Contractual Obligations

The following table sets forth our contractual commitments as of December 31, 2010 (in thousands).

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term notes payable, including current portion.....	\$ 636	\$ 504	\$ 132	\$ —	\$ —
Interest on notes payable.....	34	31	3	—	—
Operating leases.....	55,722	6,777	14,331	12,361	22,253
Total	<u>\$ 56,392</u>	<u>\$ 7,312</u>	<u>\$ 14,466</u>	<u>\$ 12,361</u>	<u>\$ 22,253</u>

The table above does not include obligations related to lease renewal option periods even if it is reasonably assured that we will exercise the related option. In addition, the table above does not reflect unrecognized tax benefits of \$101,000, the timing of which is uncertain. Refer to Note 9 of the Consolidated Financial Statements for additional discussion on unrecognized tax benefits. We have evaluated and determined that we do not have any purchase obligations as defined in the SEC Final Rule No. 67, *Disclosure in Management's Discussion and Analysis about Off-Balance Sheet Arrangements and Aggregate Contractual Obligations*.

Off-Balance Sheet Arrangements

We had no off-balance sheet guarantees or off-balance sheet arrangements as of December 31, 2010.

Critical Accounting Policies

Critical accounting policies are those that we believe are most important to the portrayal of our financial condition and results of operations and also require our most difficult, subjective, or complex judgments. Judgments or uncertainties regarding the application of these policies may result in materially different amounts being reported under various conditions or using different assumptions. We consider the following policies to be the most critical in understanding the judgment that is involved in preparing our consolidated financial statements.

Property and Equipment

We record property and equipment at cost less accumulated depreciation and we select useful lives that reflect the actual economic lives of the underlying assets. We amortize leasehold improvements over the shorter of the useful life of the asset or the related lease term. We calculate depreciation using the straight-line method for financial statement purposes. We capitalize improvements and expense repairs and maintenance costs as incurred. We are often required to exercise judgment in our decision whether to capitalize an asset or expense an expenditure that is for maintenance and repairs. Our judgments may produce materially different amounts of repair and maintenance or depreciation expense if different assumptions were used.

We evaluate property and equipment for impairment whenever events or changes in restaurant operating results indicate that the carrying value of those assets may not be recoverable. Factors considered include, but are not limited to, significant underperformance relative to expected historical or projected future operating results; significant negative industry or economic trends; and significant changes in legal factors or in the business climate. The assessment of impairment is performed on a restaurant-by-restaurant basis. The recoverability is assessed by comparing the carrying value of the asset to the undiscounted cash flows expected to be generated by the asset. This assessment process requires the use of estimates and assumptions regarding future cash flows and estimated useful lives, which are subject to a significant degree of judgment. If indicators of impairment are present and if we determine that the carrying value of the asset exceeds the fair value of the restaurant assets, an impairment charge is recorded to reduce the carrying value of the asset to its fair value. Calculation of fair value requires significant estimates and judgments which could vary significantly based on our assumptions.

During 2009 and 2008, we recorded non-cash asset impairment charges for underperforming restaurants. We continue to monitor the operating performance of each individual restaurant. We may be required to record impairment charges in the future if certain restaurants perform below expectations.

Leasing Activities

We lease all of our restaurant properties. At the inception of the lease, we evaluate each property and classify the lease as an operating or capital lease in accordance with applicable accounting standards. We exercise significant judgment in determining the estimated fair value of the restaurant as well as the discount rate used to discount the future minimum lease payments. The term used for this evaluation includes renewal option periods only in instances in which the exercise of the renewal option can reasonably be assured and failure to exercise such option would result in an economic penalty. All of our restaurant leases are classified as operating leases.

Our lease term used for straight-line rent expense is calculated from the date we take possession of the leased premises through the lease termination date. There is potential for variability in our “rent holiday” period which typically begins on the possession date and ends on the store open date. Factors that may affect the length of the rent holiday period generally include construction related delays. Extension of the rent holiday period due to delays in restaurant opening will result in greater rent expensed during the rent holiday period.

We record contingent rent expense based on a percentage of restaurant sales, which exceeds minimum base rent, over the periods the liability is incurred. Contingent rent expense is recorded prior to achievement of specified sales levels if achievement of such amounts is considered probable and estimable.

Income Taxes

We provide for income taxes based on our estimate of federal and state tax liabilities. These estimates consider, among other items, effective rates for state and local income taxes, allowable tax credits for items such as taxes paid on reported tip income, estimates related to depreciation and amortization expense allowable for tax purposes, and the tax deductibility of certain other items. Our estimates are based on information available to us at the time we prepare the income tax provision. We generally file our annual income tax returns several months after our fiscal year end. Income tax returns are subject to audit by federal, state, and local governments, generally years after the returns are filed. These returns could be subject to material adjustments or differing interpretations of the tax laws.

Deferred income tax assets and liabilities are recognized for the expected future income tax consequences of carryforwards and temporary differences between the book and tax basis of assets and liabilities. Valuation allowances are established for deferred tax assets that are deemed more likely than not to be realized in the near term. We must assess the likelihood that we will be able to recover our deferred tax assets. If recovery is not likely, we establish valuation allowances to offset any deferred tax asset recorded. The valuation allowance is based on our estimates of future taxable income in each jurisdiction in which we operate, tax planning strategies, and the period over which our deferred tax assets will be recoverable. In the event that actual results differ from these estimates, we may be unable to implement certain tax planning strategies or adjust these estimates in future periods. As we update our estimates, we may need to establish an additional valuation allowance which could have a material negative impact on our results of operations or financial position, or we could reduce our valuation allowances which would have a favorable impact on our results of operations and financial position.

Stock-Based Compensation

We apply the Black-Scholes valuation model in determining the fair value of stock option awards, which requires the use of a number of highly complex and subjective variables. These variables include, but are not limited to the actual and projected employee and director stock option exercise behavior, expected volatility, risk-free interest rate, expected dividends, and expected term. Expected volatility is based on the historical volatility of our stock. We utilize historical data to estimate option exercise and employee termination behavior within the valuation model. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for the expected term of the option. We also estimate forfeitures at the time of grant and revise these estimates, if necessary, in subsequent periods if actual forfeitures differ from those estimates. We estimate forfeitures based on our expectation of future experience while considering our historical experience. Changes in the subjective assumptions can materially affect the estimate of fair value of stock-based compensation and consequently, the related amount recognized in the consolidated statement of operations. We are also required to establish deferred tax assets for expense relating to options that would be expected to generate a tax deduction under their original terms. The recoverability of such assets are dependent upon the actual deduction that may be available at exercise and can further be impaired by either the expiration of the option or an overall valuation reserve on deferred tax assets.

We believe the estimates and assumptions related to these critical accounting policies are appropriate under the circumstances; however, should future events result in unanticipated consequences, there could be a material impact on our future financial condition or results of operations.

Recent Accounting Pronouncements

See the Recent Accounting Pronouncements section of Note 1 to our consolidated financial statements for a summary of new accounting standards.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

The following discussion of market risks contains forward-looking statements. Actual results may differ materially from the following discussion based on general conditions in the commodity markets.

Primary Market Risk Exposures

Our primary market risk exposure is commodity costs. Many of the food products purchased by us can be subject to volatility due to changes in weather, production, availability, seasonality, international demand, and other factors outside our control. Substantially all of our food and supplies are available from several sources, which helps to diversify our overall commodity cost risk. We also believe that we have the ability to increase certain menu prices in response to food commodity price increases.

Item 8. *Financial Statements and Supplementary Data*

Reference is made to the consolidated financial statements, the notes thereto, and the report thereon, commencing on page F-1 of this report, which financial statements, notes, and report are incorporated herein by reference.

Item 9. *Changes in and Disagreements With Accountants on Accounting and Financial Disclosure*

Not applicable.

Item 9A. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

We have evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of December 31, 2010. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have each concluded that our disclosure controls and procedures are effective to ensure that we record, process, summarize, and report information required to be disclosed by us in our reports filed under the Exchange Act within the time periods specified by the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting

We are responsible for establishing and maintaining adequate internal control over financial reporting. As defined in the securities laws, internal control over financial reporting is a process designed by, or under the supervision of, our principal executive and principal financial officer and effected by our Board of Directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we carried out an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2010 based on the criteria in “Internal Control - Integrated Framework” issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based upon this evaluation, we concluded that our internal control over financial reporting was effective as of December 31, 2010.

Changes in Internal Control Over Financial Reporting

There has not been any change in our internal control over financial reporting during our fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. *Other Information*

Not applicable.

PART III

Item 10. *Directors, Executive Officers and Corporate Governance*

The information required by this Item relating to our directors is incorporated herein by reference to the definitive Proxy Statement to be filed pursuant to Regulation 14A of the Exchange Act for our 2011 Annual Meeting of Stockholders. The information required by this Item relating to our executive officers is included in Part I, Item 1 “Business – Executive Officers.”

Item 11. *Executive Compensation*

The information required by this Item is incorporated herein by reference to the information contained in the definitive Proxy Statement to be filed pursuant to Regulation 14A of the Exchange Act for our 2011 Annual Meeting of Stockholders.

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

The information required by this Item is incorporated herein by reference to the information contained in the definitive Proxy Statement to be filed pursuant to Regulation 14A of the Exchange Act for our 2011 Annual Meeting of Stockholders.

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

The information required by this Item is incorporated herein by reference to the information contained in the definitive Proxy Statement to be filed pursuant to Regulation 14A of the Exchange Act for our 2011 Annual Meeting of Stockholders.

Item 14. *Principal Accountant Fees and Services*

The information required by this Item is incorporated herein by reference to the information contained in the definitive Proxy Statement to be filed pursuant to Regulation 14A of the Exchange Act for our 2011 Annual Meeting of Stockholders.

PART IV

Item 15. *Exhibits and Financial Statement Schedules*

(a) The following documents are filed as a part of the report:

(1) Financial Statements

Financial Statements are listed in the Index to Consolidated Financial Statements on page F-1 of this report.

(2) Financial Statement Schedules

No financial statement schedules are included because such schedules are not applicable, are not required, or because required information is included in the consolidated financial statements or notes thereto.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of Kona Grill, Inc.

We have audited the accompanying consolidated balance sheets of Kona Grill, Inc. as of December 31, 2010 and 2009, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Kona Grill, Inc. at December 31, 2010 and 2009, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2010

1. The Company and Summary of Significant Accounting Policies

Description of Business

Kona Grill, Inc. (referred to herein as the “Company” or “we,” “us,” and “our”) owns and operates upscale casual dining restaurants under the name “Kona Grill.” Our restaurants feature a diverse selection of American favorites and award-winning sushi that are prepared fresh daily. We currently own and operate 25 restaurants in 16 states across the United States.

Basis of Presentation

The consolidated financial statements include the accounts and operations of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. Certain prior year amounts have been reclassified to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

We consider all highly liquid investments that are readily convertible into cash and have an original maturity of three months or less at the time of purchase to be cash equivalents. Amounts receivable from credit card processors are also considered cash equivalents because they are both short-term and highly liquid in nature and are typically converted to cash within one business day of the sales transaction.

Investments

Investments consist primarily of certificates of deposit and money market securities that are generally highly liquid in nature. We classify our investments based on the intended holding period. Available-for-sale securities are carried at estimated fair value, based on available market information, with unrealized gains and losses, if any, reported as a separate component of stockholders’ equity. Trading securities are carried at fair value with gains and losses reported in the consolidated statements of operations.

Inventory

Inventory consists of food and beverage products that are valued at the lower of cost or market using the first-in, first-out method. Inventory is included in other current assets in the accompanying consolidated balance sheets.

Fair Value of Financial Instruments

The carrying value of cash and cash equivalents, investments, accounts receivable and accounts payable approximate fair value because of their short-term nature. The fair value of long-term debt is determined using current applicable rates for similar instruments and approximates the carrying value of such obligations.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or a liability. As a basis for considering such assumptions, a three-tier value hierarchy was established, which prioritizes the inputs used in the valuation methodologies in measuring fair value.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

- Level 1: Fair values determined by quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access.
- Level 2: Fair values utilize inputs other than quoted prices that are observable for the asset or liability, and may include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability.
- Level 3: Fair values determined by unobservable inputs that are not corroborated by market data and may reflect the reporting entity's own assumptions market participants would use in pricing the asset or liability.

Concentration of Credit Risk

Financial instruments that potentially subject us to a concentration of credit risk principally consist of cash and cash equivalents, investments and accounts receivable. Concentration of credit risk is limited by diversifying cash deposits among a variety of high credit-quality issuers. At times, cash and cash equivalent balances may be in excess of the FDIC insurance limit. Concentration of credit risk for our investments is limited by diversifying investments among a variety of high credit-quality issuers. We consider our concentration of credit risk with respect to receivables to be limited as the balance is primarily with landlords for the reimbursement of tenant improvements.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. We capitalize all direct costs on the construction of leasehold improvements and capitalize interest during the construction and development period. Leasehold improvements are amortized over the shorter of the useful life of the asset or the related lease term that includes reasonably assured lease renewals as determined on the date of acquisition of the leasehold improvement. Improvements that materially extend the life of an asset are capitalized while repair and maintenance costs are expensed as incurred.

Depreciation and amortization are recorded on a straight-line basis over the following estimated useful lives:

Furniture and fixtures.....	5-7 years
Equipment.....	7 years
Computer software and electronic equipment.....	3 years
Leasehold improvements.....	Shorter of the useful life or the lease term

We evaluate property and equipment for impairment whenever events or changes in restaurant operating results indicate that the carrying value of those assets may not be recoverable. Factors considered include, but are not limited to, significant underperformance relative to expected historical or projected future operating results; significant negative industry or economic trends; and significant changes in legal factors or in the business climate. The assessment of impairment is performed on a restaurant-by-restaurant basis. Recoverability is assessed by comparing the carrying value of the asset to the undiscounted cash flows expected to be generated by the asset. This assessment process requires the use of estimates and assumptions regarding future cash flows and estimated useful lives, which are subject to a significant degree of judgment. If indicators of impairment are present and if we determine that the carrying value of the asset exceeds the fair value of the restaurant assets, an impairment charge is recorded to reduce the carrying value of the asset to its fair value. See Note 2 for discussion of asset impairment charges recorded during 2008 and 2009.

Leases

We lease our restaurant locations under operating lease agreements with initial terms of approximately 10 to 20 years. Most of these agreements require minimum annual rent payments plus contingent rent payments based on a percentage of restaurant sales which exceed the minimum base rent. Contingent rent payments, to the extent they exceed minimum payments, are accrued over the periods in which the liability is incurred. Rent expense associated with these contingent payments is recorded prior to the achievement of specified sales levels if exceeding such amount is considered probable and is estimable. The lease agreements typically also require scheduled increases to

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

minimum annual rent payments. For leases that contain rent escalations, we record the total rent payable over the initial lease term, starting on the date we gain possession of the property (including the construction period), on a straight-line basis. Any difference between minimum rent and straight-line rent is recorded as deferred rent. Deferred rent also includes tenant improvement allowances which are amortized as a reduction of rent expense on a straight-line basis over the initial term of the lease.

Revenue Recognition

Revenues from food, beverage, and alcohol sales are recognized when payment is tendered at the point of sale. Restaurant sales are recorded net of promotions and discounts. Revenues from gift card sales are recognized upon redemption. Prior to redemption, the outstanding balances of all gift cards are included in accrued expenses in the accompanying consolidated balance sheets.

Sales Taxes

Revenues are presented net of sales taxes. The obligation is included in accrued expenses until the taxes are remitted to the appropriate taxing authorities.

Advertising and Marketing Costs

Advertising and marketing costs are expensed as incurred. Advertising and marketing expense for 2010, 2009, and 2008 was \$1,246,000, \$1,063,000, and \$934,000, respectively, and is included in restaurant operating expenses in the accompanying consolidated statements of operations. Costs associated with the redemption of a promotion in the form of a coupon for a free or discounted product are recorded in cost of sales as the intent of the coupon is to generate additional restaurant sales through driving guest traffic. Costs associated with promotional giveaways of food and beverages to local businesses and sponsorship of events are viewed as advertising in nature and recorded in restaurant operating expenses in the accompanying consolidated statements of operations.

Preopening Expense

Costs directly related to the opening of new restaurants, including employee relocation, travel, employee payroll and related training costs, and rent expense subsequent to the date we take possession of the property through the restaurant opening, are expensed as incurred.

Stock-Based Compensation

We maintain stock award plans under which we may issue incentive stock options, non-qualified stock options, restricted stock, and other types of awards to employees, directors, and consultants. Stock options issued under these plans are granted with an exercise price at or above the fair market value of the underlying common stock on the date of grant and expire five years from the date of grant. Employee stock options generally vest 25% each year over a four-year period, while annual recurring awards for non-employee director options vest 25% each quarter over a one-year period. Certain stock option awards for executive officers may vest earlier in the event of a change of control or termination, as defined in the executive officer's employment agreement. We apply the Black-Scholes valuation model in determining the fair value of stock option grants. We recognize compensation cost for our stock awards using a graded vesting schedule on a straight line basis over the requisite service period.

Income Taxes

We utilize the liability method of accounting for income taxes. Under the liability method, deferred tax assets and liabilities are computed at each balance sheet date for temporary differences between the consolidated financial statements and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on tax rates in effect in the years in which the temporary differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts that will more likely than not be realized.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

We recognize the impact of a tax position in our financial statements if that position more likely than not will be sustained upon examination by a tax authority. We recognize accrued interest and penalties related to uncertain tax positions as income tax expense.

Net Loss Per Share

Basic net loss per share is computed by dividing net loss by the weighted average number of common shares outstanding during the year. Diluted net loss per share excludes the dilutive effect of potential stock option and warrant exercises, which are calculated using the treasury stock method, as these shares are anti-dilutive. For 2010, 2009, and 2008, there were 1,102,000, 965,000, and 1,033,000 stock options and warrants outstanding, respectively, that were not included in the dilutive earnings per share calculation because the effect would have been anti-dilutive.

The following table sets forth the computation of basic and diluted net loss per share:

	Year Ended December 31,		
	2010	2009	2008
	(In thousands, except per share data)		
Numerator:			
Loss from continuing operations	\$ (1,577)	\$ (22,242)	\$ (6,997)
Gain (loss) from discontinued operations.....	—	690	(3,504)
Net loss.....	<u>\$ (1,577)</u>	<u>\$ (21,552)</u>	<u>\$ (10,501)</u>
Denominator:			
Weighted average shares — basic	9,167	8,645	8,054
Effect of dilutive stock options and warrants.....	—	—	—
Weighted average shares — diluted	<u>9,167</u>	<u>8,645</u>	<u>8,054</u>
Net loss per share – Basic and Diluted:			
Continuing operations	\$ (0.17)	\$ (2.57)	\$ (0.87)
Discontinued operations.....	—	0.08	(0.43)
Net loss	<u>\$ (0.17)</u>	<u>\$ (2.49)</u>	<u>\$ (1.30)</u>

On June 9, 2009, we completed our rights offering for which each holder of common stock as of the April 17, 2009 record date received one non-transferrable subscription right for every 2.5 shares of common stock. Each subscription right entitled our stockholders to purchase one share of common stock at a purchase price of \$1.35 per share. The market price of our common stock was \$3.93 per share on June 5, 2009, which was the expiration date of the rights offering. Since the \$1.35 per share subscription price of common stock issued under the rights offering was lower than the \$3.93 per share market price on June 5, 2009, the rights offering contained a bonus element. As a result, we retroactively increased the weighted average common shares outstanding used to compute basic and diluted earnings (loss) per share by an adjustment factor of 1.2309 for all periods presented prior to the completion of the rights offering.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-06, *Fair Value Measurements and Disclosures*, which adds new disclosure requirements for transfers into and out of Levels 1 and 2 in the fair value hierarchy and additional disclosures about purchases, sales, issuances, and settlements relating to Level 3 fair value measurements. This ASU also clarifies existing fair value disclosures about the level of disaggregation about inputs and valuation techniques used to measure fair value. The ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity on a gross basis, which is effective for fiscal years beginning after December 15, 2010 and interim periods within those years. The adoption did not have a material effect on our financial condition or results of operations.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

2. Asset Impairment Charges and Discontinued Operations

Asset Impairment Charges

We review the carrying value of our long-lived assets on a restaurant-by-restaurant basis. During 2009, we recorded non-cash asset impairment charges of \$16,915,000 for six underperforming restaurants based upon an assessment of each restaurant's historical operating performance combined with expected cash flows for these restaurants over the respective remaining lease term. We reduced the carrying value of these assets to their estimated fair value which was determined using a discounted cash flow model or the market value of each restaurant's assets. The six restaurants that comprise the asset impairment charge are located in the following cities: 1) Phoenix, Arizona; 2) Stamford, Connecticut; 3) West Palm Beach, Florida; 4) Oak Brook, Illinois; 5) Baton Rouge, Louisiana and 6) Sugar Land, Texas.

Additionally during 2008, we recorded non-cash charges of \$3,219,000 for the impairment of long-lived assets at our Lincolnshire, Illinois restaurant based upon the restaurant's past and present operating performance combined with our assessment of expected cash flows from this location over the remainder of the original lease term.

We continue to evaluate the future prospects for each of these restaurants on a case-by-case basis to determine the return on investment of continued operations.

Discontinued Operations

On September 13, 2008, we closed our Naples, Florida restaurant to focus our attention on the profitable locations and position our concept to generate profit from operations. As a result of the closure, we recorded non-cash asset impairment charges of \$2,158,000 as well as ongoing contractual lease obligations, restaurant-level closing costs, and employee termination benefits, net of deferred costs, of approximately \$800,000 during 2008.

Gain (loss) from discontinued operations includes both the historical results of operations as well as exit costs attributed to the Naples, Florida restaurant. During the second quarter of 2009, we entered into a settlement agreement for the termination of the lease for \$700,000. As the settlement amount was less than the lease termination accrual previously recorded during 2008, we recorded a gain of \$690,000, after deducting fees and other expenses, for 2009. Gain (loss) from discontinued operations, net of tax is comprised of the following (in thousands):

	Year Ended December 31,		
	2010	2009	2008
Restaurant sales	\$ —	\$ —	\$ 1,531
Gain (loss) from discontinued operations before income tax benefit	\$ —	\$ 690	\$ (3,579)
Income tax benefit	—	—	75
Gain (loss) from discontinued operations, net of tax	<u>\$ —</u>	<u>\$ 690</u>	<u>\$ (3,504)</u>

Activity associated with the lease termination accrual is summarized below (in thousands):

Balance at December 31, 2008	\$ 1,417
Cash payments	(546)
Non-cash activity	(690)
Balance at December 31, 2009	181
Cash payments	(181)
Balance at December 31, 2010	<u>\$ —</u>

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Non-cash activity reflects the revised estimate of lease termination costs based upon the settlement agreement discussed above. The lease settlement required an initial payment of \$350,000 that was paid during July 2009 and the remaining amount, including interest at a 6% annual rate, was payable in 12 equal monthly installments beginning in August 2009. The final settlement fee was paid during June 2010.

3. Investments

The following is a summary of our investments (in thousands):

	Adjusted Cost	Gross Unrealized Losses	Estimated Fair Value
December 31, 2010			
Short-term investments:			
Certificates of deposit.....	\$ 174	\$ —	\$ 174
Total investments	\$ 174	\$ —	\$ 174
December 31, 2009			
Short-term investments:			
Certificates of deposit.....	\$ 172	\$ —	\$ 172
Money market securities.....	314	—	314
Auction rate securities	5,433	—	5,433
Put option on auction rate securities	363	—	363
Total investments	\$ 6,282	\$ —	\$ 6,282

As of June 30, 2010, we exercised our put option with UBS and sold our auction rate securities at par value. These securities were AAA rated long term debt obligations secured by student loans, substantially all of which were guaranteed by the federal government under the Federal Family Education Loan Program. Liquidity for these securities was historically provided by an auction process that reset the applicable interest rate at pre-determined calendar intervals. Since February 2008, events in the credit markets adversely affected the auction market for these types of securities and auctions for our securities failed to settle on their respective settlement dates.

Prior to the sale of the auction rate securities, we classified these investments as trading securities as they were subject to an agreement we entered into with UBS during October 2008 pursuant to which UBS issued to us Series C-2 Auction Rate Securities Rights. The agreement allowed us the right to sell our auction rate securities to UBS at full par value between June 30, 2010 and July 2, 2012. In conjunction with this agreement, we elected to apply the provisions of fair value accounting to this put option because the put option did not provide for net settlement, and the auction rate securities themselves were not readily convertible to cash. The put option did not meet the definition of a derivative, and thus, would not have been marked to fair value. We therefore elected to apply fair value accounting to the put option as the put option acted as an economic hedge against any further price movement in the auction rate securities and enabled us to recognize future changes in the fair value of the put option as those changes occurred to offset fair value movements in the auction rate securities. Prior to the sale, both the put option and auction rate securities were marked to market value through the consolidated statements of operations each period (see Note 4 for discussion of how fair value measurements were determined). Also as part of this agreement, UBS provided a line of credit through June 30, 2010 that was secured by the auction rate securities held with UBS (see Note 8). Interest earned on the auction rate securities was used to reduce the outstanding balance under the line of credit.

4. Fair Value Measurements

Our investment in auction rate securities were classified within Level 3 in the fair value hierarchy because they were valued using a discounted cash flow model. We estimated the fair value of auction rate securities using valuation models provided by third parties and internal analyses. The valuation models required numerous assumptions and assessments, including the following: (i) collateralization underlying each security; (ii) present value of future principal and interest payments discounted at rates considered to reflect current market conditions; (iii) creditworthiness of the counterparty; and (iv) current illiquidity of the investments.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Prior to the exercise of the put option, the fair value of the put option was determined through comparison of the fair value of each auction rate security to its par value and then discounted by a rate reflective of the risk of default by UBS between the valuation date and the expected exercise date of the put option. A discounted cash flow approach was used to value the difference between the par value and fair value of each security using a discount rate that considered the credit risk associated with UBS and the expected timing of when the put option would be exercised. The put option was adjusted on each balance sheet date based on its then fair value. The fair value of the put option was based on unobservable inputs and was therefore classified within Level 3 in the hierarchy.

Our short-term investments in certificates of deposit and money market securities represent available-for-sale securities that are valued primarily using quoted market prices or alternative pricing sources and models utilizing market observable inputs.

The following tables present information about our assets measured at fair value on a recurring basis at December 31, 2010 and 2009, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value (in thousands):

December 31, 2010	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Certificates of deposit	\$ 174	\$ —	\$ —	\$ 174
December 31, 2009

Included in earnings	367	(363)
Included in other comprehensive loss	—	—
Net settlements	(5,800)	—
Balance at December 31, 2010	<u>\$ —</u>	<u>\$ —</u>

As discussed in Note 2, we recorded asset impairment charges for long-lived assets associated with six of our restaurants for the year ended December 31, 2009. These long-lived assets had a carrying amount of \$17,444,000 and were written down to their estimated fair value of \$529,000. The fair value of each restaurant's long-lived assets was determined using either a discounted cash flow model or the market value of each restaurant's long-lived assets. The market value was determined based upon market prices for similar assets in active markets and are classified within Level 2. Valuations using discounted cash flows are classified within Level 3 as these valuations were determined by projecting future cash flows of each restaurant and discounting those cash flows at a rate reflective of current market conditions and factors specific to our company. The following table presents information about our assets measured at fair value on a non-recurring basis at December 31, 2009, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value (in thousands):

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total Losses</u>

8. Debt and Credit Agreements

Notes Payable

As of December 31, 2010, we had four equipment term loans with a lender, each collateralized by restaurant equipment. The outstanding principal balance under these loans was \$636,000 at December 31, 2010. The loans bear interest at rates ranging from 7.9% to 8.5% and require monthly principal and interest payments aggregating approximately \$56,000. The loans mature between May 2011 and June 2012. The equipment loans require us to maintain a corporate fixed charge coverage ratio of at least 1.25:1.00 determined on the last day of each fiscal year. We were in compliance with the required coverage ratio as of December 31, 2010.

Notes payable consisted of the following:

	<u>December 31,</u>	
	<u>2010</u>	<u>2009</u>
	(In thousands)	
\$993,544 equipment loan, collateralized by certain restaurant assets of the Company, payable in monthly installments of \$15,015 including interest at 7.04%, due June 2010	\$ —	\$ 88
\$1,000,000 equipment loan, collateralized by certain restaurant assets of the Company, payable in monthly installments of \$15,526 including interest at 7.88%, due May 2011	76	249

\$995,000 equipment loan, collateralized by certain restaurant assets of the Company, payable in monthly installments of \$15,687 including interest at 8.36%, due June 2012	259	418
Total notes payable	<u>636</u>	<u>1,320</u>
Less current portion.....	<u>(504)</u>	<u>(684)</u>
Total notes payable, net of current portion.....	<u>\$ 132</u>	<u>\$ 636</u>

Future maturities of notes payable at December 31, 2010 are as follows (in thousands):

2011	\$ 504
2012.....	<u>132</u>
Total notes payable.....	<u>\$ 636</u>

During 2010, 2009, and 2008, we incurred gross interest expense of \$154,000, \$312,000, and \$199,000, respectively. We capitalized \$31,000, \$138,000, and \$148,000 of interest costs during 2010, 2009, and 2008, respectively.

Credit Facility

In October 2008, as part of the settlement agreement with UBS, our broker from which we purchased auction rate security instruments, we entered into a line of credit that was secured by the auction rate security instruments held with UBS. On June 30, 2010, we exercised a put option with UBS on our auction rate security instruments and used the proceeds from the sale of the auction rate securities to repay the outstanding balance under the line of credit, which was then cancelled by UBS.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Bridge Loan

On March 6, 2009, and as amended on April 7, 2009, we entered into a Note and Warrant Purchase Agreement with certain accredited investors whereby we sold \$1,200,000 aggregate principal amount of 10% unsecured subordinated notes and warrants to purchase shares of our common stock. The principal and accrued interest outstanding under the notes were due and payable upon the closing of any offering of equity securities generating gross proceeds to us of at least \$2,500,000. As described in Note 10 below, we completed a rights offering during June 2009 and used a portion of the proceeds to repay amounts owed on the notes.

For each \$100,000 issued in notes, we issued to the noteholder three-year warrants to purchase 10,000 shares of our common stock at an aggregate exercise price per share of \$2.29, which was equal to 120% of the five-day average of the closing price of our common stock during the five trading days prior to the date of issuance. In connection with the issuance of the warrants, we recorded a discount to the bridge loan and a corresponding increase in stockholders' equity of \$70,000 due to the warrants. The value of the warrants was derived through application of the Black-Scholes option pricing model. We amortized the debt discount to interest expense in the amount of \$70,000 for 2009.

9. Income Taxes

Income tax expense from continuing operations consisted of the following (in thousands):

	Year Ended December 31,		
	2010	2009	2008
Current:			
Federal.....	\$ —	\$ —	\$ 15
State.....	10	65	190
	<u>10</u>	<u>65</u>	<u>205</u>
Deferred:			
Federal.....	—	—	—
State.....	—	—	—
	<u>—</u>	<u>—</u>	<u>—</u>
Total	<u>\$ 10</u>	<u>\$ 65</u>	<u>\$ 205</u>

Income tax expense differed from amounts computed by applying the federal statutory rate to loss from continuing operations before provision for income taxes as follows (in thousands):

	Year Ended December 31,		
	2010	2009	2008
Income tax benefit at federal statutory rate.....	\$ (533)	\$ (7,540)	\$ (2,309)
State income taxes, net of federal benefit.....	(89)	(839)	125
Nondeductible expenses.....	354	362	373
Business tax credit	(911)	(910)	(1,028)
Other	(209)	(3)	(63)
Discontinued operations.....	—	235	(1,353)
Change in valuation reserve	1,398	8,760	4,460
Total	<u>\$ 10</u>	<u>\$ 65</u>	<u>\$ 205</u>

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The temporary differences that give rise to significant portions of deferred tax assets and liabilities were as follows (in thousands):

	<u>December 31,</u>	
	<u>2010</u>	<u>2009</u>
Deferred tax assets (liabilities):		
Net operating loss carryforward	\$ 2,847	\$ 2,533
Deferred rent	5,957	5,971
Business tax credits	4,690	3,779
Organizational and preopening costs.....	145	162
Impairment of assets.....	5,381	5,909
Stock-based compensation	1,088	905
Accrued expenses.....	—	125
Property and equipment	(2,922)	(3,206)
Accelerated tax depreciation	1,180	792
Other.....	130	128
Net deferred tax assets	<u>18,496</u>	<u>17,098</u>
Valuation allowance	<u>(18,496)</u>	<u>(17,098)</u>
Total	<u>\$ —</u>	<u>\$ —</u>

The valuation allowance increased by approximately \$1,398,000 and \$8,760,000 at December 31, 2010 and 2009, respectively. In assessing the realization of deferred tax assets, we consider whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. We consider the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on historical operating losses, we have elected to maintain a full valuation allowance until realization of deferred tax assets is more likely than not.

At December 31, 2010, we have approximately \$6,550,000 and \$14,485,000 in federal and state net operating loss carryforwards, respectively, which begin expiring in 2028 for federal income tax purposes and 2011 for state income tax purposes. We also have federal business tax credit carryforwards of approximately \$4,690,000 which begin expiring in 2021. These credits are also potentially subject to annual limitations due to ownership change rules under the Internal Revenue Code.

As of December 31, 2010, we had \$101,000 of unrecognized tax benefits. Future changes in the unrecognized tax benefits are not expected to have a material impact on the effective tax rate, nor do we expect that the amount of unrecognized tax benefits will significantly change in the next 12 months. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

	<u>Year Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Beginning balance.....	\$ 140	\$ 158	\$ 167
Additions related to current year tax positions.....	—	—	—
Additions related to tax positions taken during the prior period ...	—	—	1
Reductions related to settlements with taxing authorities	—	—	—
Reductions due to lapse of statute of limitations.....	(39)	(18)	(10)
Ending balance.....	<u>\$ 101</u>	<u>\$ 140</u>	<u>\$ 158</u>

We recognize interest and penalties related to uncertain tax positions in income tax expense. For the years ended December 31, 2010, 2009, and 2008 provision for income taxes includes \$10,000, \$12,000, and \$12,000, respectively, in interest and penalties on unrecognized tax benefits. We had \$33,000 and \$36,000 accrued for the payment of interest and penalties at December 31, 2010 and 2009, respectively.

We are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The earliest tax year still subject to examination by a significant taxing jurisdiction is 2006.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

10. Stockholders' Equity

Preferred Stock

We are authorized to issue 2,000,000 shares of preferred stock with a par value of \$0.01. There were no shares of preferred stock that were issued or outstanding at December 31, 2010 or 2009.

Common Stock

Rights Offering

As part of the Note and Warrant Purchase Agreement discussed in Note 8, we filed with the SEC a registration statement on Form S-3 to conduct a subscription rights offering with targeted gross proceeds to us of \$3,520,000 pursuant to which each of our stockholders received one non-transferrable subscription right for every 2.5 shares of common stock owned on April 17, 2009. Each subscription right entitled the holder to purchase one share of common stock at a price of \$1.35 per share. The terms of the agreement provided that any shares of common stock that were not subscribed for in the rights offering by existing stockholders were offered to the holders of the notes on a pro rata basis based on the aggregate principal amount of notes outstanding and at the same subscription price as offered to the holders of subscription rights granted under the rights offering. We sold 2,608,045 shares of common stock pursuant to the rights offering, including the exercise of over-subscription rights by the holders of the notes for the purchase of 482,178 shares or 18.5% of the total shares sold. We received net proceeds of \$3,245,000 after deducting \$275,000 in expenses. A portion of the net proceeds was used to repay amounts owed on the notes, and the remaining proceeds are being utilized to fund capital expenditure requirements.

Stock Repurchase Program

During April 2008, our Board of Directors approved a stock repurchase program under which we are authorized to repurchase up to 600,000 shares of our common stock. We purchased 116,200 shares at a total cost of \$1,000,000 during 2008 under a section 10b5-1 purchase program. The shares purchased are being held in treasury until such time as they are reissued or retired, at the discretion of the Board of Directors. The authorization does not have an expiration date and it does not require us to purchase a specific number of shares. This authorization may be modified, suspended or terminated at any time. The timing and number of shares repurchased pursuant to the share repurchase authorization are subject to a number of factors, including current market conditions, legal constraints and available cash or other sources of funding.

11. Stock-Based Compensation

Stock Options

We maintain stock award plans under which we may issue incentive stock options, non-qualified stock options, restricted stock, and other types of awards to employees, directors, and consultants. Upon effectiveness of the 2005 Stock Award Plan, the 2002 Stock Award Plan was closed for purposes of new grants and the remaining available shares for grant, including those shares related to option awards forfeited or terminated without exercise, accrue to the 2005 Stock Award Plan. We typically grant non-qualified stock options with an exercise price at or above the fair market value of the underlying common stock on the date of grant and expire five years from the date of grant. Employee stock options generally vest 25% each year over a four-year period, while annual recurring awards for non-employee director options vest 25% each year over a one-year period. A total of 1,450,000 shares of common stock have been reserved for issuance under our plans of which 304,221 shares were available for grant as of December 31, 2010.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

We account for stock-based compensation using the fair value recognition provisions. Compensation expense is recognized ratably over the vesting term of the option. The following table presents information related to stock-based compensation (in thousands):

	Year Ended December 31,		
	2010	2009	2008
Stock-based compensation	\$474,000	\$560,000	\$582,000

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model and is affected by assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the actual and projected employee stock option exercise behavior, expected volatility, risk-free interest rate, expected dividends, and expected term. Expected volatility is based on the historical volatility of our stock. Prior to 2010, expected volatility was based upon the volatility of a peer group of companies as we did not have enough history trading as a public company to calculate our own stock price volatility. The expected term of the options represents the estimated period of time until exercise and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for the expected term of the option. We have not paid dividends in the past and do not plan to pay any dividends in the near future. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated based on our historical experience and future expectations. The fair value of stock options granted was estimated at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

	2010	2009	2008
Expected volatility	64.0%	57.6%	36.0%
Risk-free interest rate	1.6%	1.8%	2.5%
Dividend yield	0.0%	0.0%	0.0%
Expected life (in years)	3.6	3.9	3.7
Weighted average fair value per option granted	\$1.63	\$1.19	\$3.42

Activity during 2010, 2009, and 2008 under our stock award plans was as follows:

	Shares Under Option	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding options at December 31, 2007 ...	655,439	12.59		
Granted	185,417	11.24		
Forfeited	(14,800)	10.29		
Exercised	(2,000)	6.00		
Outstanding options at December 31, 2008 ...	824,056	12.34		
Granted	407,100	2.64		
Forfeited	(376,300)	12.42		
Exercised	—	—		
Outstanding options at December 31, 2009	854,856	7.67		
Granted	243,750	3.44		
Forfeited	(185,150)	9.53		
Exercised	(28,650)	2.38		
Outstanding options at December 31, 2010 ...	884,806	\$ 6.28	3.04 years	\$ 561,000
Exercisable at December 31, 2010	483,260	\$ 7.85	2.57 years	\$ 217,000

The intrinsic value of options exercised during 2010 and 2008 was \$30,000 and \$6,000, respectively. The total fair value of shares vested during 2010, 2009, and 2008 was \$398,000, \$390,000, and \$489,000, respectively. As of December 31, 2010, there was approximately \$474,000 of unrecognized stock-based compensation expense related to unvested share-based compensation arrangements, which is expected to be recognized over a weighted average period of 2.0 years.

KONA GRILL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Information regarding options outstanding and exercisable at December 31, 2010 is as follows:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Shares	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
\$ 1.92 – \$ 2.10	111,800	2.80	\$ 2.02	53,075	\$ 2.06
\$ 3.21 – \$ 3.70	427,800	3.97	\$ 3.33	135,938	\$ 3.30

\$11.72 – \$12.64	107,417	1.74	\$ 11.93	70,208	\$ 12.01
\$18.08 – \$19.49	89,000	1.00	\$ 19.07	77,750	\$ 19.06
	884,806	3.04	\$ 6.28	483,260	\$ 7.85

Warrants

As discussed in Note 8, we issued to the noteholders of the bridge loan three-year warrants to purchase 120,000 shares of our common stock at an aggregate exercise price per share of \$2.29, which was equal to 120% of the five-day average of the closing price of our common stock during the five trading days prior to the date of issuance. These warrants are exercisable through March 6, 2012 and 10,000 warrants were exercised during 2009 resulting in 110,000 warrants outstanding at December 31, 2010. We recorded the value of the warrant at \$70,000 and amortized this amount to interest expense during 2009.

12. Employee Benefit Plans

Defined Contribution Plan

We maintain a voluntary defined contribution plan covering eligible employees as defined in the plan documents. Participating employees may elect to defer the receipt of a portion of their compensation, subject to applicable laws, and contribute such amount to one or more investment options. We currently match in cash a certain percentage of the employee contributions to the plan and also pay for related administrative expenses. Matching contributions made during 2010, 2009, and 2008 were \$142,000, \$142,000, and \$126,000, respectively.

Employee Stock Purchase Plan

During 2005, our Board of Directors and stockholders approved the 2005 Employee Stock Purchase Plan, or ESPP and reserved 425,000 shares of common stock for issuance thereunder. The ESPP permits eligible employees to purchase common stock at a discount through payroll deductions up to 15% of employees' eligible earnings during the offering period. The purchase price per share at which shares of common stock are sold in an offering under the ESPP is equal to 95% of the fair market value of common stock on the last day of the applicable offering period. During 2010, 2009, and 2008, 11,450 shares, 16,659 shares and 18,113 shares, respectively, were purchased under the ESPP.

13. Commitments and Contingencies

Leases

We lease our restaurant locations under operating leases having terms expiring from 2013 to 2029. The leases typically include renewal clauses of five years exercisable at the option of our company and rent escalation clauses stipulating specific rent increases. We record deferred rent to recognize rent evenly over the initial lease term. Certain of these leases require the payment of contingent rentals based on a percentage of gross revenues above specified minimum amounts as defined in the respective lease agreement. The leases typically require us to pay our proportionate share of common area maintenance, property tax, insurance, and other occupancy-related costs. We also lease office facilities and certain equipment under operating lease agreements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Rent expense on all operating leases was as follows (in thousands):

	Year Ended December 31,		
	2010	2009	2008
Straight-line minimum base rent.....	\$ 6,638	\$ 6,018	\$ 4,900
Contingent rent	39	24	123
Total rent.....	\$ 6,677	\$ 6,042	\$ 5,023

As of December 31, 2010, future minimum lease payments under operating leases, excluding unexercised renewal options periods, were as follows (in thousands):

2011	\$	6,777
2012		7,094
2013		7,237
2014		6,616
2015		5,745
Thereafter.....		22,253
Total minimum lease payments	\$	55,722

Litigation

We are engaged in various legal actions, which arise in the ordinary course of our business. Although there can be no assurance as to the ultimate disposition of these matters, it is the opinion of our management, based upon the information available at this time, that the expected outcome of these matters, individually or in the aggregate, will not have a material adverse effect on the results of operations or financial condition of our company.

Stockholder Derivative Action

On February 6, 2009, Samuel Beren (“Beren” or “plaintiff”), as trustee for the Samuel Beren Trust, served a demand on us pursuant to Section 220 of Delaware’s General Corporation Law (the “DGCL”), which requested that we make available for inspection certain books and records. During April 2009, Beren, as trustee for the Samuel Beren Trust, commenced a purported stockholder derivative action in the Court of Chancery of the State of Delaware. The derivative action purportedly was brought on behalf of us against our directors and the purchasers of our promissory notes issued during March 2009, for alleged breaches of fiduciary duties by our directors, and for aiding and abetting such breaches by the purchasers of our promissory notes. We also were named as a nominal defendant in the derivative action. The derivative action seeks unspecified damages, interest, reasonable attorneys’ fees, expert witness fees, and other costs.

During June 2009, the director defendants filed a motion to dismiss the derivative action. Separately, during October 2009, plaintiff served a demand on us pursuant to Section 220 of the DGCL, which requested that we make available for inspection certain books and records. During January 2010, we produced books and records in response to the October 26, 2009 demand. Two days later, plaintiff commenced a separate action against us, which sought the production of the books and records requested in plaintiff’s February 6, 2009 and October 26, 2009 demand letters. During March 2010, the court granted a stay in the derivative action until the books and records action was resolved. During July 2010, we produced books and records in response to the February 6, 2009 demand, which production was covered by a confidentiality agreement executed between us and Beren.

We believe that because books and records were produced in response both to the February 6, 2009 demand and to the October 26, 2009 demand, the books and records action is moot and that the books and records action should be dismissed by the Court. During February 2011, the plaintiff filed an amended complaint including a claim for corporate waste. The plaintiff subsequently withdrew the complaint and informed us of his intent to file a motion to file the amended complaint under seal. We are evaluating the amended complaint and will determine the proper response to such amended complaint. We continue to believe that the purported derivative action, as amended, is without merit, and we intend to defend vigorously this lawsuit.
