**For the year 2010,** TOTAL RETURN TO OUR SHAREHOLDERS WAS NEGATIVE 14%, WHICH COMPARED TO POSITIVE 28% AND 15% FOR THE NAREIT EQUITY REIT INDEX AND THE S&P 500, RESPECTIVELY. PARKWAY'S RETURN FOR THE YEAR IS CLEARLY UNACCEPTABLE, AND IN THE PAGES THAT FOLLOW WE ADDRESS SOME OF THE REASONS FOR THIS AND ACTIONS WE ARE TAKING TO IMPROVE OUR PERFORMANCE.

Before I provide a macro view of our industry, I would first like to offer a report card on our performance in 2010. As I look back on 2010, it is a "tale of two halves." The first half of the year was marked with headwinds of a weak economy, poor office fundamentals in suburban markets, a dividend reduction, and a management change at the executive level. Together these items created uncertainty among our investors and contributed in part to our poor stock price performance. The second half of the year and beginning of 2011 was much improved as we made progress on each of these items. In addition to the national economy gaining positive momentum, Parkway chipped away at our near-term expirations through the renewal and extension of many large leases, reduced our debt levels primarily through a preferred stock offering, closed a new unsecured revolving credit facility at favorable terms, and completed the first two investments by Fund II. Additionally, we spent a significant amount of time with our investors communicating the rationale for our dividend cut and how we expect the future to look as office fundamentals begin to improve. Finally, our leadership team was bolstered during the

year by the addition of Richard Hickson as our Chief Financial Officer in May.

#### 2010 RESULTS: REPORT CARD

We met substantially all of our operational and financial goals set for the year. Our 2010 reported funds from operations (FFO) was \$2.67 per diluted share, as compared to \$2.91 per diluted share for 2009. After adjusting for other unusual items, Parkway's recurring FFO in 2010 was \$2.54 per diluted share compared to \$3.27 in 2009. Parkway's share of recurring same-store net operating income (NOI) during 2010 decreased 5.6% on a GAAP basis and decreased 5.3% on a cash basis. Our average same-store occupancy was 85.8% during 2010, which compared to 89.0% during 2009, and we finished the year with a customer retention rate of 68%. Our decision to reduce the dividend in 2010 was partially defensive as lower occupancy in our portfolio caused cash revenue to decline and capital costs to increase, but was also offensive as we viewed the resulting cash savings as a cheap source of capital to help fund anticipated investment opportunities, which ultimately materialized later in the year.

In addition to meeting most of our operational and financial goals, we had several other accomplishments during the year and to-date in 2011 that I would like to highlight:

- **Reduced Parkway's share of total debt by \$64 million.** Parkway's net debt to EBITDA multiple was reduced from 6.3 times at December 31, 2009, to 5.9 times at December 31, 2010. Parkway's net debt to gross asset value (GAV) was reduced from 52.8% at December 31, 2009, to 49.8% at December 31, 2010. Parkway has set a goal of maintaining a net debt to EBITDA multiple of 6.5 times or less, and a net debt to GAV ratio of 50% or less.

- **Completed \$45 million Series D Preferred stock offering.** Parkway received approximately \$45 million in net proceeds by issuing approximately 2.0 million shares of its 8.0% Series D Cumulative Redeemable Preferred Stock in August 2010. Proceeds were used to reduce amounts outstanding on the credit facility.

- **Invested \$200 million in office properties.** Parkway sold Carmel Crossing, Falls Pointe, and Lakewood II to Fund II for \$33 million during the fourth quarter of 2010,

and acquired 3344 Peachtree for \$167.3 million in January 2011. Parkway's assets under management (AUM) now total \$2.1 billion, with 41% of these assets in third party, fund, or fund-like joint ventures.

- **Signed over 2.9 million square feet of leases in 2010.** Parkway had a significant amount of leasing activity during the year and reduced its 2011 expirations from 17.9% as of December 31, 2008 to 11.7% as of the fourth quarter of 2010. We view the increase in leasing activity as a positive sign that companies have more confidence that the economy is improving and are willing to sign leases.

- **Closed on new \$200 million unsecured revolving credit facilities.** Parkway closed on the new credit facilities in January 2011. The new credit facilities have an initial term

early in the year, and stability, execution, and growth in the second half of the year. We hope to keep this momentum throughout 2011 as the headwinds we faced before continue to turn to the tailwinds of an improving economy, and as we execute the important company initiatives I will discuss later in this letter.

#### ECONOMIC OVERVIEW:

##### "JOBS FILL UP OFFICE BUILDINGS"

National employment continues to move in the right direction, with over 1.1 million private employment jobs created in 2010, 750,000 of which were created in the second half of the year. Compared to almost 9 million jobs lost in 2008 and 2009, these figures indicate an economy that is improving but not yet strong. The chart shown on the

two years. In February 2011, an estimated 192,000 jobs were added, which is closer to the normal growth scenario coming out of a recession as reflected by the middle dotted line in the chart.

Dissecting the employment figures even further, one will find that there was significant improvement during 2010 in Parkway's core Sunbelt markets, which have a history of creating jobs at a rapid pace during a market recovery. A case in point is Phoenix, which has experienced job losses and negative absorption for over two years. Phoenix produced 33,000 jobs in 2010, resulting in the fourth fastest growing metro in the United States. Houston ranked ninth on the list, and several other Parkway markets, including Orlando, Fort Lauderdale, Virginia Beach,

## WE VIEW THE INCREASE IN LEASING ACTIVITY AS A POSITIVE SIGN THAT COMPANIES HAVE MORE CONFIDENCE THAT THE ECONOMY IS IMPROVING AND ARE WILLING TO SIGN LEASES.

of three years and replaced the prior revolving credit facility, term loan, and working capital facility that were scheduled to mature in April 2011. The new credit facilities are more efficient for Parkway given the reduced size that better fits our needs, and complement our continued strategic transition to an operator/owner.

- **Selected for national best place to work list for third consecutive year.** Parkway ranked 20<sup>th</sup> on the medium-sized company list of Entrepreneur's Great Place to Work® Rankings: 2010 Best Small & Medium Workplaces.

- **Received LEED® Gold certification for development property.** The Pinnacle at Jackson Place in Jackson, Mississippi was awarded LEED Gold certification for Core & Shell™ from the U.S. Green Building Council in December 2010. Additionally, 233 North Michigan in Chicago, Illinois was awarded LEED Silver certification for Existing Buildings: Operations & Maintenance™ in February 2011.

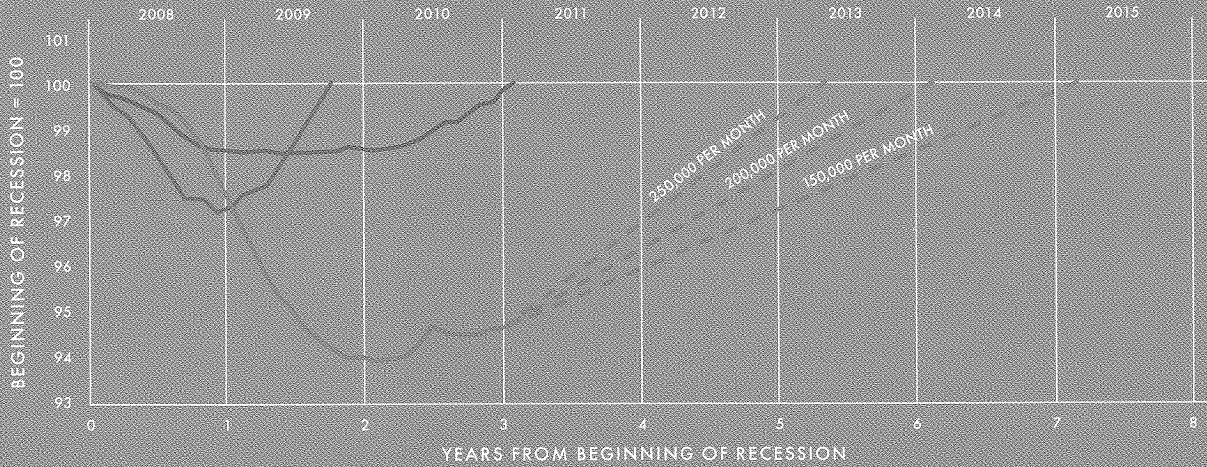

All in all, 2010 was marked by uncertainty

following page shows that the rate of total nonfarm job growth for our current recovery is similar to prior U-shaped recoveries; however, given the amount of jobs lost during this recession, it could still take another two to four years to fully recover. The good news is that it does not take a return to the prior peak employment level for office market fundamentals to begin to see improvement. At the end of 2010, there was over 700 million square feet of vacant office space in the United States, or approximately 18% of the total available space.<sup>1</sup> Historically, total office-using employment has averaged 31% to 32% of total employment. Additionally, each office-using employee typically requires 150 to 200 square feet of office space. Using these general rules of thumb, it would only take approximately 2 million more jobs added to reach a more stabilized vacancy rate for the nation of around 15%. Even assuming a continued slow-growth rate of only 150,000 jobs added each month, we should start to see the return of jobs to have a noticeable effect on the office industry within the next

and Charlotte made the top 25. Other labor-market indicators are also showing positive changes, including the number of temporary jobs, average workweeks, and number of job openings. In February 2011, the national unemployment rate was down to its lowest level since April 2009. All of these factors should lead to an increase in demand for office space and improvement in market fundamentals as these trends continue. New supply of office space has come to a screeching halt (thank goodness), which is also contributing to improved supply and demand balance for the office industry.

While the jobs picture is improving, we are expecting the overall office building sector to have negative NOI growth again in 2011, and Parkway is showing a similar trend. However, the winds are starting to shift from headwinds to mild tailwinds, which bodes well for Parkway and the office industry. Yes, we still need more job growth, and yes, most of our markets have too much vacancy, but if prior recoveries are any indication of the future, we should be looking for a brighter 2011.

## EMPLOYMENT SLOWLY IMPROVING

CURRENT RECOVERY    V-SHAPED RECOVERIES    U-SHAPED RECOVERIES    PROJECTED PATHS

Notes: The line labeled "V-shaped recoveries" represents the average level of nonfarm payrolls following the U.S. recessions that began in the years 1948, 1953, 1957, 1960, 1970, 1974, and 1981. The line labeled "U-shaped recoveries" represents the average level of nonfarm payrolls following the U.S. recessions that began in 1990 and 2001.

## TURNING LEMONS INTO LEMONADE...

In late 2009, Parkway received the news that one of its joint venture partners was on the verge of filing bankruptcy. The assets that were held in this joint venture were Falls Pointe, a 107,000 square foot office property in Atlanta, Georgia, Lakewood II, a 128,000 square foot office property also in Atlanta, and Carmel Crossing, a 326,000 square foot office complex located in Charlotte, North Carolina. During the downfall of the economy, the assets' rent rolls deteriorated as certain customers in the buildings consolidated, moved out, or closed their businesses. As the occupancy declined, the cost to lease the vacant space in the buildings increased, and it was not likely that Parkway's partner would be able to fund their share of the leasing costs. Based on the loss in the net realizable value of the properties at that time, Parkway recorded a \$5.6 million non-cash impairment loss in connection with the joint venture in the fourth quarter of 2009. In January 2010, Parkway's partner filed for Chapter 11 bankruptcy protection, and the combined occupancy of the properties was down to 76%.

Not willing to accept a sour set of circumstances, Parkway saw an opportunity to make the best of a bad situation. Parkway had a long history with these properties and knew they had potential to recover, but it would take a tremendous amount of restructuring. From January to July of 2010, Parkway, along with its partner, negotiated with the special servicer to purchase the first mortgage note secured by these three properties. Ultimately, Parkway's partner was not able to fund their share of the investment, so Parkway purchased 100% of the first mortgage note at a 35% discount to the outstanding principal balance. Parkway then foreclosed on the properties and took back full ownership at a \$33 million value, or \$59 per square foot. In the fourth quarter of 2010, Parkway sold the properties to Fund II. The sale of the assets to Fund II not only provided an opportunity to achieve high levels of return for Parkway and the fund, but it also created significant cash proceeds for Parkway. When faced with a basket of lemons, Parkway made lemonade. This was simply a lot of hard work, and the result was a good one. The new investment in the fund structure is expected to yield approximately an 18% leveraged internal rate of return (IRR) at the property level, and over a 23% leveraged IRR to Parkway including the projected fee income.

## THE FUTURE: SPECIFIC PLANS AND STRATEGIC DIRECTION

### Backfill New Vacancies

We still have some company specific challenges to overcome at a few buildings and markets, but the overall improvement in demand should make filling these vacancies somewhat easier. In February 2011, we lost a 193,000 square foot customer at Peachtree Dunwoody Pavilion in Atlanta, Georgia. We knew well in advance of their expiration that they would be leaving the property, and as a result of a proactive leasing effort from our Atlanta Team, we had a signed lease in place by December 2010, which will backfill 46,000 square feet in May 2011. We are also very close to signing an additional 44,000 square feet at that property to further mitigate our loss in occupancy. In Jackson, Mississippi, we lost several General Services Administration (GSA) leases in the first quarter of 2011 totaling over 80,000 square feet to a new federal building that was recently constructed in downtown Jackson. There were a number of other smaller leases at various locations which added up to a large amount of pending vacancies at our properties in early 2011. While our occupancy and revenue will be negatively impacted by these move-outs, our leasing volume has been strong during recent quarters, and our exposure to major expirations and move-outs is minimal for the remainder of 2011. Additionally, we have a favorable forward expiration schedule, with no more than 13% of our total square feet expiring each year through 2016. If new construction remains at low levels and market fundamentals continue to improve, we feel confident in our ability to recover much of the loss in occupancy we expect to occur during the first quarter of 2011 by the end of the year.

### Continue Fund II Investments

We are looking for 2011 to be a year in which we purchase more office assets for Fund II. As I mentioned before, in 2010 we completed our first investments on behalf of Fund II with the purchase of Carmel Crossing, Falls Pointe, and Lakewood II. These three assets have had a long history with Parkway,

transitioning through several different ownership structures, but the end result is a great investment for the fund and a chance to earn high return levels for our fund partner and Parkway shareholders. We have provided an outline of the many moving parts associated with these properties on the previous page. I am proud of the hard work and determination demonstrated by our Team resulting in the completion of this entrepreneurial effort.

Additionally, in January 2011, Parkway and Fund II purchased 3344 Peachtree located in the Buckhead submarket of Atlanta, Georgia. This Class A+ asset is featured on the cover of our Annual Report this year and in images throughout the President's letter. While Atlanta and the Buckhead submarket are currently facing high vacancy levels, Atlanta has historically had strong population growth and high levels of job growth when exiting a

recession. Buckhead attracts the highest rental rates in all of Atlanta and is expected to recover faster than the overall Atlanta market in terms of rental rate growth and occupancy gains. Perhaps most importantly, there are no future office developments planned in Buckhead for the near term. 3344 Peachtree is positioned to outperform the market based on its quality and location which is evidenced by the fact that the building achieved high leasing levels shortly after construction during the bottom of a recession. The property is currently over 97% leased. We plan to continue to upgrade our portfolio over the next couple of years with higher quality and newer properties through future investments on behalf of Fund II.

It is important to note that investments on behalf of Fund II will not only improve the quality of our portfolio, but will also greatly increase the fee income Parkway will receive

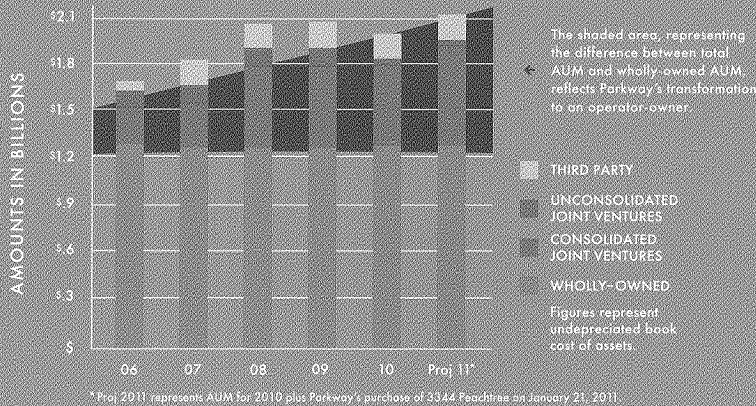

as new investments are made. Fee income is an integral part of Parkway's strategy, and we place a high value on the recurring nature of the fees associated with our fund investments. It is the additional fee income received by Parkway that allows us to maximize the return on equity for our shareholders and to achieve leveraged returns on investments in the high-teens. We currently receive over \$1.4 million per year in asset management fees for Fund I and approximately \$895,000 per year in asset management fees for Fund II, based on current investments. If Fund II invests the full \$750 million of committed capital, the asset management fee income to Parkway would be approximately \$3.3 million per year. In addition to asset management fees, Parkway also receives property management fees, construction management fees, leasing commissions, and an incentive fee upon the sale of assets if

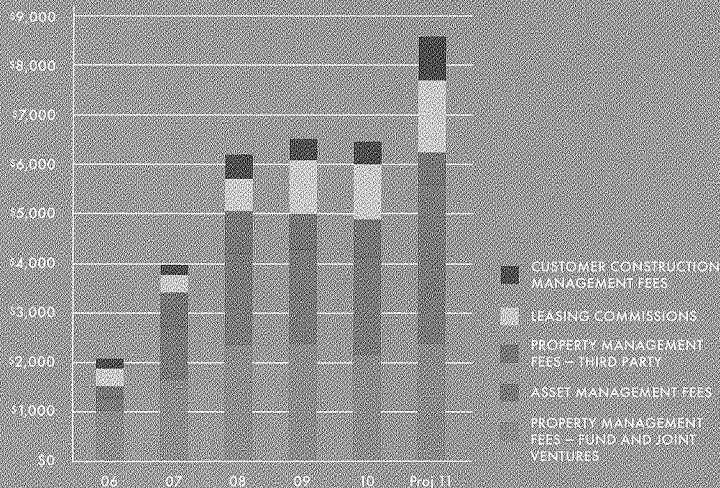

Parkway plans to complete its transition to an operator/owner during the FOCUS Plan, with the goal of having over 50% of its AUM in third party, fund, or fund-like joint ventures. This transition has resulted in a recurring fee income stream that has more than quadrupled over the last five years and should continue to grow as the Company makes additional investments on behalf of Fund II.

### ASSETS UNDER MANAGEMENT (\*AUM\*)

### RECURRING FEE INCOME (IN 000s)

certain hurdle requirements are achieved. The chart shown on this page shows the growth of our fee income over the past several years, and as we continue our transition to a majority operator/owner, we expect this fee income stream to continue to increase.

### Generate Cash Proceeds Through Asset Sales

In 2011, we plan to accelerate some non-strategic asset sales, or as I am fond of saying, "finish the unfinished business" of the prior strategic plan. We have stated before that we plan to exit several of our non-core markets and some of our older, non-strategic assets. Currently we have several unencumbered assets on the market for sale in Atlanta, Columbia, and Richmond. The proceeds received from these sales will be used to fund future investments and/or to reduce the Company's outstanding debt. Another notable asset that we currently have on the market for sale is 233 North Michigan in Chicago, Illinois. Our decision to market this asset for sale is primarily based on the belief that we have too much exposure in one zip code. We purchased 111 East Wacker in 2006 with the goal of combining it with its sister building next door, 233 North Michigan, and pursuing a large joint venture that would be fund-like in nature. We went to the capital markets with that idea in late 2007, and as one might imagine in hindsight, we received little to no interest in the large joint venture investment in early 2008, as the capital markets were beginning to unravel quickly. We decided to change course and focus on improving the rent roll at 233 North Michigan, and we did so through the long-term renewals of GSA, Young & Rubicam, Clear Channel Broadcasting, Motorola, and World Book and large new leases signed with Katz Media and AOL, resulting in a current occupancy rate of over 85%. We now believe it is the right time to place 233 North Michigan back in the market for sale. Whether the final course of action for this property is a sale, joint venture, or a refinancing of the in-place mortgage, Parkway expects the ability to receive a significant amount of cash proceeds that can be used to fund future investments.

### Continue to Reduce Leverage

Simultaneous with our plans to pursue more investments, Parkway intends to maintain a disciplined capital allocation approach and continue our efforts to reduce leverage. Parkway's remaining equity share to fully invest Fund II is approximately \$82 million. Our hope is that our disposition strategy will produce sufficient proceeds to fund our remaining share of equity for Fund II, as well as provide additional funds to reduce leverage or fund other general corporate needs. In addition to asset sales, Parkway announced in February 2011 the plan to utilize the Company's "At the Market" Equity Program (ATM Program) to raise approximately \$15 million, which can also be applied towards future investments or leverage reduction.

Each of these specific action plans support the overall strategic goals that are part of the FOCUS Plan, which we announced in last year's Annual Report and implemented on July 1, 2010. As a reminder, the FOCUS Plan is the Company's three-year strategic plan that is centered on a goal of achieving a 12% compound annual total return to our shareholders. Since we are currently only six months into the Plan, I will not spend a lot of time opining on our results to-date, but I would like to re-emphasize some of the goals associated with the Plan.

### FOCUS

#### Fund and Fund-Like Discretionary Investments

We believe that the best way for our Company to achieve growth is through discretionary fund and fund-like investments. We have completed \$193 million of investments on behalf of Fund II, and we are ready to take advantage of investment opportunities we expect to see over the next couple of years to fill the remaining \$552 million of total investment capacity in Fund II.

#### Operator/Owner

We plan to complete our transition from an owner/operator to an operator/owner. This has been a goal of ours for several years now and will continue to be a core strategy as we seek to increase our fee income and

maximize our return on equity and accretion per share. We will continue the expansion of our management company, Parkway Realty Services (PRS), in addition to our fund and fund-like investments in order to increase the amount of fee income we receive, which should increase our return on equity. Parkway's AUM including the recent purchase of 3344 Peachtree now totals \$2.1 billion, with 41% of these assets in third party, fund, or fund-like joint ventures. Our goal is to have over 50% of our AUM in these three formats by the end of the FOCUS Plan.

#### Capital Allocation Discipline

Our overall capital structure goal is to maintain a net debt to GAV ratio of approximately 50% and a net debt to EBITDA multiple of 6.5 times or less. Beyond the balance sheet, capital allocation refers to our goal to exit non-strategic markets and assets through the continuation of our Asset Recycling program. By the end of the plan, our goal is to be invested in higher quality properties located in higher growth markets. We also plan to be in fewer markets allowing us to focus more on our core markets. Our commitment is to maintain discipline, both as it relates to the balance sheet and the acquisition and disposition of assets.

#### Uncompromising FOCUS on Operations

We believe that our Uncompromising FOCUS on Operations is what sets Parkway apart from other office property owners and operators. An important goal of the FOCUS Plan is to move decision-making authority to the regional office level. The Company's market leaders already have the responsibility of setting rents, increasing NOI margins, and maintaining a consistent standard of operations, and they will be given more profit and loss responsibility and investment authority going forward.

#### Shareholder Returns

We believe that proper execution of the previously mentioned objectives will help us achieve the ultimate goal of the FOCUS Plan, which is to maximize total return to our shareholders. We have set a goal of achieving a 12% compound annual total return to

### FUND INVESTMENTS

Fund II is a \$750 million discretionary fund formed in May 2008 for the purpose of acquiring high-quality, multi-tenant office properties. Parkway is a 30% investor in the fund, which will be capitalized with approximately \$375 million of equity capital and \$375 million of non-recourse, fixed-rate first mortgage debt. This represents a target debt to total capitalization of approximately 50% for the fund. Fund II targets office building investments in Houston, Austin, San Antonio, Chicago, Atlanta, Phoenix, Charlotte, Memphis, Nashville, Jacksonville, Orlando, Tampa, and Ft. Lauderdale, as well as other growth markets to be determined at Parkway's discretion. As of March 15, 2011, the total amount invested by Fund II was \$193 million, and is comprised of four assets with a total of 1.0 million square feet.

*Pictured from left to right are Parkway officers Warren Speed, Senior Vice President of People Department, Mandy Pope, Executive Vice President and Chief Accounting Officer, Jim Ingram, Executive Vice President and Chief Investment Officer, Steve Rogers, President and Chief Executive Officer, Will Flatt, Executive Vice President and Chief Operating Officer, and Richard Hickson, Executive Vice President and Chief Financial Officer.*

our shareholders for the three-year period beginning July 1, 2010. We believe Parkway is currently trading at a discount to NAV and a deep discount to replacement cost. While the 12% return goal over a three-year period is a high standard, we feel it is attainable based on our current valuation levels. Our long-standing evaluation of the relationship between NAV and share price shows a very high correlation between the two, and while disconnects have occurred over the years, alignment usually comes with time and performance.

In May 2010, we announced the promotion of Richard Hickson to Executive Vice President and Chief Financial Officer. Richard has been with the Company since 2004, and most recently served as Senior Vice President, Senior Asset Manager and

Fund Manager, based out of the Company's regional office in Atlanta, Georgia. Richard has a strong financial background and brings tremendous experience and knowledge of our operations and investment strategies to the executive management team. We are confident that his leadership will help us achieve the important items we have described above.

I would also like to take a moment to thank my longtime friend and colleague, Lennie Sullivan, for her years of dedicated service on Parkway's board. Lennie will not stand for re-election to the board this year but has promised continued access to her enormous talents after her "retirement." We wish her well. Additionally, I would like to welcome Laurie Dotter and Charles Cannada to our board. Both were elected at last year's annual shareholders meeting

and bring a wealth of audit, investments, and merger and acquisition knowledge and experience to the team.

#### CLOSING

In summary, we started 2010 facing headwinds both on a macro and micro level. Halfway through the year, the winds started to change in our favor. The economy is recovering, jobs are being created, and some companies are starting to ask for more office space. While we still face some leasing challenges here in early 2011, the change in the macro environment should help us manage through these challenges more easily than we have over the past couple of years. In addition to our expectations of internal growth after the first quarter of 2011, Parkway is also ready to grow externally through more Fund II investments, and we believe now is the right time in the cycle. Through asset sales and the use of the Company's ATM Program, we plan to fund this growth responsibly by maintaining leverage levels at the goals we have set. Our FOCUS, as always, will remain on total return to our shareholders, and we are optimistic that the specific goals and changes supporting the FOCUS Plan will help us deliver a better Parkway.

We are grateful for the support we have received over the years from our shareholders, customers, partners, employees and communities, without whom we could not have accomplished what we have. Thank you for the faith and confidence you have placed in us; we pledge to work hard every day to earn it.

STEVEN G. ROGERS  
President and CEO  
March 15, 2011

## **BUSINESS**

### **Overview**

Parkway Properties, Inc. is a real estate investment trust ("REIT") specializing in the operation, leasing, acquisition and ownership of office properties. The Company performs these services for its own account and for other institutional investors through co-ownership structures such as discretionary funds and/or partnerships. The terms "we," "us," "our," "Parkway," or the "Company" refer to Parkway Properties, Inc. individually or together with its subsidiaries. The Company is geographically focused on the Southeastern and Southwestern United States and Chicago. Parkway and its predecessors have been public companies engaged in the real estate business since 1971, and the management team has had experience managing a public real estate company through all phases of the real estate business cycle. As part of its strategy, the Company places an emphasis on property operations and customer satisfaction with an ultimate goal of achieving a high level of customer retention. The Company is self-administered, in that it provides its own investment and administrative services internally through its own employees. The Company is also self-managed, as it internally provides the management, maintenance and other real estate services that its properties require through its own employees, such as property managers and engineers and in some cases, leasing professionals. In addition Parkway is self-leased for renewal leases for the majority of its office property portfolio.

At March 1, 2011, Parkway owned or had an interest in 65 office properties located in 11 states with an aggregate of approximately 13.7 million square feet of leasable space. Included in the portfolio are two discretionary funds and several partnership arrangements which encompass 20 properties totaling 4.1 million square feet, representing 30.3% of the portfolio. With the discretionary funds and/or partnerships, the Company receives fees for asset management, property management, leasing and construction management services and potentially receives incentive fees upon sale if certain investment targets are achieved. Increasing the number of co-investments, and consequently the related fee income, is part of the Company's strategy to transform itself to an operator-owner versus an owner-operator. The strategy highlights the Company's strength in providing excellent service in the operation and acquisition of office properties for investment clients in addition to its direct ownership of real estate assets. Fee-based real estate services are offered through the Company's wholly-owned subsidiary, Parkway Realty Services LLC ("PRS"), which also manages and/or leases approximately 1.6 million square feet for third-party owners at March 1, 2011.

### **Strategic Planning**

Parkway is a focused office REIT with a hands-on, service-oriented approach, a disciplined capital allocation program and a willingness to recycle assets. We continue to focus on the Company's strategy of transforming itself to an operator-owner from an owner-operator, as well as maximizing total return to shareholders. To show our commitment to this goal, our newest strategic plan is centered on a goal of achieving a 12% compounded annual total return to our shareholders over a three-year period. This plan is known as the FOCUS Plan (the "Plan"), which began July 1, 2010 and will extend three full years through June 30, 2013. The goals of the Plan are as follows:

- **Fund and Fund-Like Investments.** The Company believes that fund and fund-like investments have the highest priority of the Company's capital allocation, because it gives Parkway's stockholders the highest risk adjusted return as measured by internal rate of return, capitalization rate and accretion per share.
- **Operator-Owner.** The Company plans to make a full transformation to an operator-owner, with the goal of being a majority operator/owner by the end of the Plan. This has been a goal for several years and will continue to be a core strategy as Parkway seeks to increase fee income and maximize its return on equity and accretion per share. Additionally, the Company will continue to expand PRS, which offers expert real estate management guidance, professional property management services and strategic marketing and leasing services aimed at increasing net operating income and maximizing profit upon exit.
- **Capital Allocation Discipline.** The Company's overall capital structure goal is to achieve a net debt to gross asset value ratio of 50% or less, as determined by using a capitalization rate of 8.5% on recurring cash income, and a net debt to earnings before interest, taxes, depreciation and amortization ("EBITDA") multiple of 6.5 times or less. Beyond the balance sheet, capital allocation refers to the Company's goal to exit non-strategic markets through the continuation of its Asset Recycling program. Most of the properties identified for sale are smaller assets or assets located in smaller markets where Parkway does not have a significant presence. By the end of the FOCUS Plan, the Company's goal is to be invested in larger, higher-quality properties located in higher-rent growth markets through fund and fund-like investments. The Company will continue to maintain discipline as it relates to managing the balance sheet and the acquisition and disposition of assets.

- **Uncompromising Focus on Operations.** Parkway believes that its uncompromising focus on operations is what sets it apart from other office property owners. An important goal of the FOCUS Plan is to move decision-making authority to the regional office level. The Company's market leaders already have the responsibility of setting rents, increasing net operating income margins and maintaining a consistent standard of operations and will be given more profit and loss responsibility and investment authority going forward. It is important that *we know* our markets, which is best achieved when Parkway's people live and work within the market. An integral part of the FOCUS Plan is a program referred to as "We Know... City." These three words imply that Parkway employees know more than just how to manage real estate, but that they have a deep understanding of a city's history, economics, infrastructure, politics and much more. By truly knowing the cities where the Company is invested, we are better positioned for leasing, active asset management, recruitment and investments.
- **Shareholder Returns.** All of the previously mentioned goals funnel to the ultimate goal of the FOCUS Plan, which is to maximize total return to Parkway's shareholders. The Company has set a goal of achieving a 12% compounded annual total return to its shareholders for the three-year period starting July 1, 2010.

### Discretionary Funds and Partnerships

Parkway intends to continue raising discretionary funds and forming partnerships with select institutional investors. Under the terms of these funds and partnerships, where applicable, Parkway will manage all phases of the investment cycle including acquisition, financing, operations, leasing and dispositions. The Company will receive fees for providing these services. At March 1, 2011, Parkway had two discretionary funds and two partnership agreements of this nature.

On July 6, 2005, Parkway, through affiliated entities, entered into a limited partnership agreement forming a \$500.0 million discretionary fund known as Parkway Properties Office Fund, L.P. ("Fund I") with Ohio Public Employees Retirement System ("Ohio PERS") for the purpose of acquiring high-quality multi-tenant office properties. Ohio PERS is a 75% investor and Parkway is a 25% investor in the fund, which is capitalized with approximately \$200.0 million of equity capital and \$300.0 million of non-recourse, fixed-rate first mortgage debt. At February 15, 2008, Fund I was fully invested.

Fund I targeted properties with a leveraged internal rate of return of greater than 11%. Parkway serves as the general partner of the fund and provides asset management, property management, leasing and construction management services to the fund, for which it is paid market-based fees. After each partner has received a 10% annual cumulative preferred return and a return of invested capital, 60% will be distributed to Ohio PERS and 40% to Parkway. The term of Fund I will be seven years from the date the fund was fully invested until February 2015, with provisions to extend the term for two additional one-year periods.

On May 14, 2008, Parkway, through affiliated entities, entered into a limited partnership agreement forming a \$750.0 million discretionary fund known as Parkway Properties Office Fund II, L.P. ("Fund II") with Teacher Retirement System of Texas ("TRST") for the purpose of acquiring high-quality multi-tenant office properties. TRST is a 70% investor and Parkway is a 30% investor in the fund, which will be capitalized with approximately \$375.0 million of equity capital and \$375.0 million of non-recourse, fixed-rate first mortgage debt. Parkway's share of the equity contribution for the fund will be \$112.5 million. The Company intends to fund its share of equity contributions with proceeds from asset sales, issuance of equity securities and/or advances on the credit facility as needed on a temporary basis. Fund II targets acquisitions in the core markets of Houston, Austin, San Antonio, Chicago, Atlanta, Phoenix, Charlotte, Memphis, Nashville, Jacksonville, Orlando, Tampa/St. Petersburg, and Ft. Lauderdale, as well as other growth markets to be determined at Parkway's discretion.

Fund II targets properties with an anticipated leveraged internal rate of return of greater than 10%. Parkway serves as the general partner of the fund and provides asset management, property management, leasing and construction management services to the fund, for which it is paid market-based fees. Cash will be distributed prorata to each partner until a 9% annual cumulative preferred return is received and invested capital is returned. Thereafter, 56% will be distributed to TRST and 44% to Parkway. Parkway has four years from the inception date, or through May 2012, to identify and acquire properties (the "Investment Period"), with funds contributed as needed to close acquisitions. Parkway will exclusively represent the fund in making acquisitions within the target markets and acquisitions with certain predefined criteria. Parkway will not be prohibited from making fee-simple or joint venture acquisitions in markets outside of the target markets, acquiring properties within the target markets that do not meet Fund II's specific criteria or selling a full or partial interest in currently owned properties. The term of Fund II will be seven years from the expiration of the Investment Period, with provisions to extend the term for two additional one-year periods at the discretion of Parkway. At March 1, 2011, Fund II had remaining investment capacity of \$552.1 million of which \$81.8 million represents Parkway's remaining equity contribution that would be due in connection with additional investments in office properties.

## Third-Party Management

The Company benefits from a fully integrated management infrastructure, provided by its wholly-owned management subsidiary, PRS. In addition to the Company's owned properties, PRS currently manages and/or leases approximately 5.7 million net rentable square feet for third-party owners, joint venture interests and fund properties. The Company intends to expand its third-party fee business through funds or similar ventures as well as through third party management and leasing contracts.

## Financing Strategy

The Company expects to continue seeking primarily fixed rate, non-recourse mortgage financing with maturities from five to ten years typically amortizing over 25 to 30 years on select office building investments as additional capital is needed. The Company monitors a number of leverage and other financial metrics defined in the loan agreements for the Company's unsecured credit facility and working capital unsecured credit facility, which includes the Company's total debt to total asset value. In addition, the Company monitors interest, fixed charge and modified fixed charge coverage ratios as well as the net debt to gross asset value and the net debt to EBITDA multiple. Management believes all of the leverage and other financial metrics it monitors, including those discussed above, provide useful information on total debt levels as well as the Company's ability to cover interest, principal and/or preferred dividend payments with current income. The Company targets a net debt to gross asset value of 50% or less and a net debt to EBITDA multiple of 6.5 times or less.

Parkway may, in appropriate circumstances, acquire one or more properties in exchange for Parkway's equity securities. Parkway has no set policy as to the amount or percentage of its assets which may be invested in any specific property. Rather than a specific policy, Parkway evaluates each property in terms of whether and to what extent the property meets Parkway's investment criteria and strategic objectives. The strategies and policies set forth above were determined, and are subject to review by, Parkway's Board of Directors which may change such strategies or policies based upon their evaluation of the state of the real estate market, the performance of Parkway's assets, capital and credit market conditions, and other relevant factors.

## Capital Allocation

Capital allocation receives constant review by management and the Board of Directors considering many factors including the capital markets, our weighted average cost of capital, buying criteria (written and published), the real estate market and management of the risk associated with the rate of return. We examine all aspects of each type of investment whether it is a fund asset, Parkway common stock, a mortgage loan receivable or a fee simple purchase. Each carries a relationship to replacement cost which is still an important underwriting discipline for us. Each has a current yield and a leveraged and unleveraged internal rate of return that can be measured on a relative and absolute basis. Currently, management views investing in funds and similar ventures as the highest priority of our capital allocation because it produces the highest risk adjusted return as measured by internal rate of return and current cash return. Other investment alternatives are available to us but with lesser return or slightly higher risk so we are principally focused on funds or similar ventures at the present time. During 2010, the REIT industry began to see an increase in investments in real estate as a result of more equity being deployed by investors, as well as a more favorable credit environment. As a result, the Company continues to monitor its buying criteria and to exercise discipline when making capital allocation decisions but expects to begin making more investments in Fund II during 2011.

## Industry Segments

Parkway's primary business is the operation and ownership of office properties. The Company accounts for each office property or groups of related office properties as an individual operating segment. Parkway has aggregated its individual operating segments into a single reporting segment due to the fact that the individual operating segments have similar operating and economic characteristics.

The individual operating segments exhibit similar economic characteristics such as being leased by the square foot, sharing the same primary operating expenses and ancillary revenue opportunities and being cyclical in the economic performance based on current supply and demand conditions. The individual operating segments are also similar in that revenues are derived from the leasing of office space to customers and each office property is managed and operated consistently in accordance with Parkway's standard operating procedures. The range and type of customer uses of our properties is similar throughout our portfolio regardless of location or class of building and the needs and priorities of our customers do not vary from building to building. Therefore, Parkway's management responsibilities do not vary from location to location based on the size of the building, geographic location or class.

## Management Team

Parkway's management team consists of experienced office property specialists with proven capabilities in office property (i) operations; (ii) leasing; (iii) management; (iv) acquisition/disposition; (v) financing; (vi) capital allocation; and (vii) accounting and financial reporting. Parkway's 14 senior officers have an average of 22 years of real estate industry experience, and have worked together at Parkway for an average of 17 years. Management has developed a highly service-oriented operating culture and believes that its focus on operations, proactive leasing, property management and asset management activities will result in higher customer retention and occupancy and will translate into enhanced stockholder value.

## Administration

The Company is self-administered and self-managed and maintains its principal executive offices in Jackson, Mississippi. At December 31, 2010, the Company had 256 employees. The operations of the Company are conducted from approximately 17,000 square feet of office space located at 188 East Capitol Street, One Jackson Place, Suite 1000, Jackson, Mississippi. The building is owned by Parkway and is leased by Parkway at market rental rates.

## Available Information

Parkway makes available free of charge on the "Corporate" page of its web site, [www.pky.com](http://www.pky.com), its filed and furnished reports on Form 10-K, 10-Q and 8-K and all amendments thereto, as soon as reasonably practicable after Parkway electronically files such material with, or furnishes it to, the Securities and Exchange Commission.

The Company's Corporate Governance Guidelines, Code of Business Conduct and Ethics and the Charters of the Audit Committee, Nominating and Corporate Governance Committee and Compensation Committee of the Board of Directors are available on the "Corporate" page of Parkway's web site. Copies of these documents are also available free of charge in print upon written request addressed to Investor Relations, Parkway Properties, Inc., One Jackson Place, Suite 1000, 188 East Capitol Street, Jackson, Mississippi 39201.

## *PROPERTIES*

### General

The Company operates and invests principally in office properties in the Southeastern and Southwestern United States and Chicago, but is not limited to any specific geographical region or property type. At March 1, 2011, the Company owned or had an interest in 65 office properties comprising approximately 13.7 million square feet of office space located in 11 states.

Property acquisitions in 2010 and 2008 were funded through a variety of sources, including:

- Cash reserves and cash generated from operating activities;
- Sales of equity securities;
- Sales of office properties;
- Mortgage financing;
- Contributions from partners; and/or
- Advances on the Company's credit facility.

### Office Buildings

Other than as discussed under "Item 1. Business", the Company intends to hold and operate its portfolio of office buildings for investment purposes. The Company does not propose any program for the renovation or improvement of any of the office buildings other than those discussed in "Item 2 – Properties – Significant Properties", except as called for under the renewal of existing leases or the signing of new leases or improvements necessary to upgrade recent acquisitions to the Company's operating standards. All such improvements are expected to be financed by cash flow from the portfolio of office properties, advances on the Company's credit facility or contributions from partners.

We believe that our insurance coverage contains policy specifications and insured limits that are customary for similar properties, business activities and markets, and we believe our properties are adequately insured. However, an uninsured loss could result in loss of capital investment and anticipated profits.

All office building investments compete for customers with similar properties located within the same market primarily on the basis of location, rent charged, services provided and the design and condition of the improvements. The Company also competes with other REITs, financial institutions, pension funds, partnerships, individual investors and others when attempting to acquire office properties.

The following table sets forth certain information about office properties the Company owned or had an interest in at January 1, 2011:

Location	Number of Office Properties (1)	Total Net Rentable Square Feet (in thousands)	% of Total Net Rentable Feet	Average Rent Per Square Foot (2)	Estimated Average Market Rent Per Square Foot (3)	% of Leases Expiring In 2011 (4)	& Leased at 1/1/2011
Chicago, IL	4	2,897	22.0%	\$29.67	\$27.63	7.4%	88.6%
Houston, TX	12	2,031	15.4%	20.36	21.33	15.8%	93.6%
Atlanta, GA	9	1,778	13.5%	22.52	19.74	21.1%	82.5%

Orlando, FL	5	922	7.0%	22.40	20.87	7.4%	84.9%
Phoenix, AZ	3	689	5.2%	25.95	20.70	16.8%	87.5%
Richmond, VA	6	495	3.8%	17.58	16.16	13.0%	79.7%
Jacksonville, FL	4	482	3.6%	19.42	17.81	4.1%	93.7%
Nashville, TN	1	436	3.3%	18.35	16.50	2.9%	83.1%
Columbia, SC	2	407	3.1%	14.86	16.10	4.2%	75.7%
Charlotte, NC	1	327	2.5%	17.69	17.00	12.6%	78.1%
Ft. Lauderdale, FL	2	216	1.6%	22.50	21.26	12.9%	67.6%
Hampton Roads, VA	1	172	1.3%	19.26	18.00	10.3%	84.1%
Other Markets	1	32	0.2%	14.00	8.00	7.6%	7.6%
	64	13,196	100.0%	\$22.73	\$21.15	11.7%	85.3%

- (1) Includes 44 office properties owned directly and 20 office properties owned through joint ventures.
- (2) Average rent per square foot is defined as the weighted average current gross rental rate including escalations for operating expenses related to leased office space in the building at January 1, 2011.
- (3) Estimated average gross market rent per square foot is based upon information obtained from (i) the Company's own experience in leasing space at the properties; (ii) leasing agents in the relevant markets with respect to quoted rental rates and completed leasing transactions for comparable properties in the relevant markets; and (iii) publicly available data with respect thereto. Estimated average market rent is weighted by the net rentable square feet expiring in each property.
- (4) The percentage of leases expiring in 2011 represents the ratio of square feet under leases expiring in 2011 divided by total net rentable square feet.

The following table sets forth scheduled lease expirations for properties owned at January 1, 2011 on leases executed at January 1, 2011, assuming no customer exercises renewal options:

Year of Lease Expiration	Number of Leases	Net Rentable Square Feet Expiring (in thousands)	Percent of Total Net Rentable Square Feet	Annualized Rental Amount Expiring (1) (in thousands)	Weighted Avg Expiring Gross Rental Rate Per Net Rentable Square Foot (2)	Weighted Est Avg Market Rent Per Net Rentable Square Foot (3)
2011	314	1,549	11.7%	\$ 35,774	\$ 23.10	\$ 20.62
2012	242	1,629	12.3%	38,099	23.39	21.95
2013	207	1,177	8.9%	26,259	22.31	19.85
2014	154	1,376	10.4%	30,186	21.93	20.25
2015	168	1,694	12.9%	35,420	20.91	16.76
2016	84	1,282	9.7%	27,166	21.19	19.65
Thereafter	109	2,553	19.4%	63,064	24.71	23.18
	1,278	11,260	85.3%	\$ 255,968	\$ 22.73	\$ 21.15

- (1) Annualized rental amount expiring is defined as net rentable square feet expiring multiplied by the weighted average expiring annual rental rate per net rentable square foot.
- (2) Weighted average expiring gross rental rate is the weighted current rental rate including escalations for operating expenses.
- (3) Estimated weighted average market rent is based upon information obtained from (i) the Company's own experience in leasing space at the properties; (ii) leasing agents in the relevant markets with respect to quoted rental rates and completed leasing transactions for comparable properties in the relevant markets; and (iii) publicly available data with respect thereto. Estimated weighted average market rent is weighted by the net rentable square feet expiring in each property.

## Customers

The office properties are leased to 1,278 customers, which are in a wide variety of industries including banking, insurance, professional services (including legal, accounting, and consulting), energy, financial services and telecommunications. Our largest customer and 25 largest customers accounted for 4.9% and 39.5%, respectively of our annualized rental revenue. The following table sets forth information concerning the 25 largest customers of the properties owned directly or through joint ventures as of January 1, 2011 (in thousands, except footnotes):

Customer	No. of Props.	Square Footage Expiring							Leased Square Feet (1)	Annualized Rental Revenue (1)	
		2011	2012	2013	2014	2015	2016	Thereafter

		<b>348</b>	<b>546</b>	<b>158</b>	<b>344</b>	<b>552</b>	<b>607</b>	<b>1,063</b>	<b>3,618</b>	<b>\$ 80,990</b>	
		Total Rentable Square Footage (1)							<b>13,196</b>		
		Total Annualized Rental Revenue (1)							<b>\$ 205,186</b>		

- (1) Annualized Rental Revenue represents the gross rental rate (including escalations) per square foot, multiplied by the number of square feet leased by the customer. Annualized rent for customers in consolidated and unconsolidated joint ventures is calculated based on our ownership interest. However, leased square feet represents 100% of square feet leased through direct ownership or through joint ventures.
- (2) GSA's lease at the Meridian Building in Atlanta, Georgia, provides an option to cancel 16,778 square feet effective February 2015 with 90 days written notice. The GSA's lease at the Falls Building in Memphis, Tennessee provides two options to cancel. The first is an option to cancel 2,922 square feet effective January 2013. The second option is to cancel 22,973 square feet effective January 2013 with 120 days written notice. The GSA's lease at Carmel Crossing-Davie in Charlotte, North Carolina, provides an option to cancel 21,384 square feet effective November 2011 with 30 days written notice. GSA has 80,503 square feet of leases in the Jackson, Mississippi Central Business District that are relocating to the newly developed federal courthouse in 2011.
- (3) Cox Enterprises, which is located at Peachtree Dunwoody Pavilion in Atlanta, Georgia, has an option to cancel 106,758 square feet between June and December 2012 with a notice date of June 2011. In the event the customer exercises this option at the earliest termination date, the Company expects to receive a fee at the notice date of approximately \$950,000 associated with this lease termination which will be recorded into income through the early termination date. Additionally, the customer will continue to pay rent through the early termination date. AutoTrader.com will vacate 193,043 square feet upon expiration in February 2011. Parkway has signed a 46,000 square foot lease to backfill the AutoTrader space and is in letter of intent or lease documentation stages with approximately 37,000 square feet of additional prospects for the space.
- (4) BCBS, which is located at Ill East Wacker in Chicago, Illinois, has exercised its option to cancel 168,405 square feet in March 2012. The customer will pay a total termination fee of \$7.3 million which will be recorded into income over the remaining term of the lease through March 2012. Additionally, the customer will continue to pay rent through the March 2012 expiration date.
- (5) Blue Cross Blue Shield of Georgia, Inc., which is located at Capital City Plaza in Atlanta, Georgia, has the option to cancel 59,222 square feet in either January 2016 or January 2018 with nine months written notice. Additionally, the lease provides the option to cancel an additional 29,610 square feet in January 2018 with nine months written notice.
- (6) Regions Financial Corporation, which is located at the Morgan Keegan Tower in Memphis, Tennessee, has the option to cancel 3,197 square feet with four months written notice.
- (7) Bank of America, NA at Bank of America Plaza in Nashville, Tennessee, has an option to cancel 123,710 square feet in October 2014 with 12 months notice. Also, Bank of America, successor to Countrywide Home Loans, which is located at Maitland 100 in Orlando, Florida, has the option to cancel 11,779 square feet in June of 2012 with six months written notice.

- (8) Combined Insurance Company of America's lease at III East Wacker in Chicago, Illinois, provides a cancellation option in July 2018 with 12 months written notice.
- (9) Young & Rubicam, which is located at 233 North Michigan in Chicago, Illinois, has the option to cancel approximately 34,000 square feet in October of 2015 with 12 months written notice.
- (10) In February 2011, Schlumberger Technology, which is located at the Schlumberger building in Houston, Texas, signed a 64-month lease extension for 155,324 square feet. The new expiration of Schlumberger's lease is June 2017 with an option to cancel in June 2015 with a 12-month written notice.
- (11) U.S. Cellular Corporation at US Cellular Plaza in Chicago, Illinois, has the option to cancel up to 39,648 square feet in December 2013 and in September 2014 with a notice date of September 2013.
- (12) Honeywell, which is located at the Honeywell Building in Houston, Texas, has a lease cancellation option in December 2014, which requires a 12-month notice.
- (13) BDO USA, LLP, which is located at Bank of America Plaza in Nashville, Tennessee, has the option to cancel 6,549 square feet in February 2012 with 120 days written notice. Additionally, the customer's lease at 233 North Michigan in Chicago, Illinois, provides the option to cancel 43,477 square feet in December 2012 with 12 months written notice.
- (14) Forman, Perry, Watkins, Krutz & Tardy, which is located at City Centre in Jackson, Mississippi, has certain cancellation rights pending changes in partnership structure.
- (15) URS Corporation, which is located at Squaw Peak Corporate Center in Phoenix, Arizona, has the option to cancel 10,000 square feet between December 2011 and December 2013 with 90 days written notice.

## Significant Properties

The Company has one property, III East Wacker, whose book value at December 31, 2010, exceeds ten percent of total assets.

The III East Wacker building ("III East Wacker") is a 32-story Class A office property with an attached four-level, below grade parking garage. The Company, through its wholly-owned direct and indirect subsidiaries, acquired fee simple title to III East Wacker in July 2006. The building was constructed in 1970 and includes 980,000 rentable square feet ("RSF") of Class A office and storage space and 33,000 RSF of retail space. The building was 96.4% occupied at January 1, 2011, with an average effective annual rental rate per square foot of \$28.64. The average occupancy and rental rate per square foot over the past five years are as follows:

Year	Average Occupancy	Average Rental Rate per Square Foot
2006	89.9%	\$ 24.25
2007	85.0%	\$ 23.90
2008	94.1%	\$ 26.05
2009	95.7%	\$ 27.31
2010	91.2%	\$ 26.72

III East Wacker's major customers include governmental agencies, an insurance company and businesses that provide legal, accounting, insurance, advertising and other financial services. Retail customers include financial service companies, restaurants and other numerous service-oriented amenity customers.

Lease expirations for III East Wacker at January 1, 2011 are as follows (in thousands, except number of leases):

Year	Square Feet of Leases Expiring	Percentage of Total Square Feet	Annualized Rental Revenue (1)	Percentage of Total Annualized Rental Revenue	Number of Leases
2011	67	6.6%	\$ 1,946	7.0%	16
2012	359	35.4%	10,292	36.8%	10
2013	102	10.1%	3,140	11.2%	14
2014	11	1.1%	301	1.1%	3
2015	104	10.3%	2,845	10.2%	7
2016	70	6.9%	2,073	7.4%	6
2017	54	5.3%	1,606	5.7%	5
2018	14	1.4%	452	1.6%	2
2019	44	4.3%	1,322	4.7%	2
2020	19	1.9%	514	1.9%	1
Thereafter	132	13.1%	3,472	12.4%	2
	<b>976</b>	<b>96.4%</b>	<b>\$ 27,963</b>	<b>100.0%</b>	<b>68</b>

- (1) Annualized rental revenue represents the gross rental rate (including escalations) per square feet, multiplied by the number of square feet leased by the customer.

III East Wacker has one customer that occupies 10% or more of the rentable square footage. Information regarding this customer is as follows:

Nature of Business	Lease Expiration	Effective Rental Rate Per Square Foot	Lease Options
Insurance	(1)	\$25.85	(2)

- (1) This customer has 230,000 square feet expiring in 2012. This includes 62,000 square feet originally scheduled to expire in 2012 and 168,000 square feet resulting from the exercise of an early termination option.
- (2) In September 2010 this customer provided notice they would exercise their option to cancel 168,000 square feet, originally set to expire in 2017. The customer will pay a total termination fee of \$7.3 million, of which \$3.7 million was paid upon receipt of the termination notice in September 2010. The total termination fee of \$7.3 million will be recorded into income from the notice date of September 2010 through the March 2012 expiration. Additionally, the customer will continue to pay rent through the March 2012 expiration date.

For tax purposes, depreciation is calculated over 39 years for building and garage, 7 to 39 years for building and tenant improvements and 5 to 7 years for equipment, furniture and fixtures. The federal tax basis net of accumulated tax depreciation of III East Wacker is as follows at December 31, 2010 (in thousands):

	III East Wacker
Land	\$ 23,285
Building and Garage	150,326
Building Improvements	18,655
Tenant Improvements	10,142

Real estate tax expense for 2010, 2009 and 2008 for III East Wacker was \$5.9 million, \$7.1 million and \$6.1 million, respectively.

III East Wacker is subject to a non-recourse first mortgage (the "III Mortgage"). The III Mortgage totaled \$148.5 million at December 31, 2010 and has a fixed interest rate of 6.3% with payments based on a 30 year amortization and interest only payments for five years or through July 2011. The III Mortgage matures on July 11, 2016 at which time a balloon payment of \$139.5 million is due.

We compete with a considerable number of other real estate companies seeking to acquire and lease office space in Chicago. Principal factors of competition in our business are the quality of properties (including the design and condition of improvements), leasing terms (including rent and other charges and allowances for tenant improvements), attractiveness and convenience of location, the quality and breadth of tenant services provided and reputation as an owner and operator of quality office properties in the relevant market. Our ability to compete also depends on, among other factors, trends in the national and local economies, financial condition and operating results of current and prospective tenants, availability and cost of capital, taxes and governmental regulations and legislation.

The Company did not have any material liens or encumbrances that exceeded 10% of total assets at December 31, 2010.

#### Non-Strategic Assets

Since January 1, 1996, Parkway has pursued a strategy of liquidating its non-strategic assets and using the proceeds from such sales to acquire office properties and pay down short-term debt. The Company defines non-strategic assets as all office and parking properties in markets where the Company has not achieved critical mass of greater than one million square feet as well as markets that management believes do not have compelling rent growth potential. Additionally, the Company has 12 acres of undeveloped land in New Orleans, Louisiana, that is considered a non-strategic asset.

**MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The Company's common stock (\$.001 par value) is listed and trades on the New York Stock Exchange under the symbol "PKY". The number of record holders of the Company's common stock at January 1, 2011, was 2,203.

At March 1, 2011, the last reported sales price per common share on the New York Stock Exchange was \$16.20. The following table sets forth, for the periods indicated, the high and low last reported sales prices per share of the Company's common stock and the per share cash distributions paid by Parkway during each quarter.

Quarter Ended	Year Ended December 31, 2010			Year Ended December 31, 2009		
	High	Low	Distribution	High	Low	Distribution
March 31	\$ 22.93	\$ 16.35	\$ 0.075	\$ 18.94	\$ 8.60	\$ 0.325
June 30	\$ 20.73	\$ 14.38	0.075	\$ 16.22	\$ 10.17	0.325
September 30	\$ 16.83	\$ 13.46	0.075	\$ 20.86	\$ 10.88	0.325
December 31	\$ 18.54	\$ 14.71	0.075	\$ 21.50	\$ 17.29	0.325
			<u>\$ 0.300</u>			<u>\$ 1.300</u>

Common stock distributions during 2010 and 2009 (\$0.30 and \$1.30 per share, respectively) were taxable as follows for federal income tax purposes:

	Year Ended December 31	
	2010	2009
Ordinary income	\$ 0.23	\$ 0.71
Unrecaptured Section 1250 gain	0.06	-
Return of capital	0.01	0.59
	<u>\$ 0.30</u>	<u>\$ 1.30</u>

The following table shows the high and low Series D preferred share prices and per share distributions paid for each quarter of 2010 and 2009 reported by the New York Stock Exchange.

Quarter Ended	Year Ended December 31, 2010			Year Ended December 31, 2009		
	High	Low	Distributions	High	Low	Distributions
March 31	\$ 25.04	\$ 21.77	\$ 0.50	\$ 17.54	\$ 10.13	\$ 0.50
June 30	\$ 25.00	\$ 23.38	0.50	\$ 20.50	\$ 12.68	0.50
September 30	\$ 25.75	\$ 23.50	0.50	\$ 23.07	\$ 17.90	0.50
December 31	\$ 25.81	\$ 24.80	0.50	\$ 24.25	\$ 20.53	0.50
			<u>\$ 2.00</u>			<u>\$ 2.00</u>

At January 1, 2011, there were five holders of record of the Company's 4.4 million outstanding shares of Series D preferred stock. Series D preferred stock distributions during 2010 and 2009 were taxable as follows for federal income tax purposes:

	Year Ended December 31	
	2010	2009
Ordinary income	\$ 1.57	\$ 2.00
Unrecaptured Section 1250 gain	0.43	-
	<u>\$ 2.00</u>	<u>\$ 2.00</u>

## Purchases of Equity Securities by the Issuer

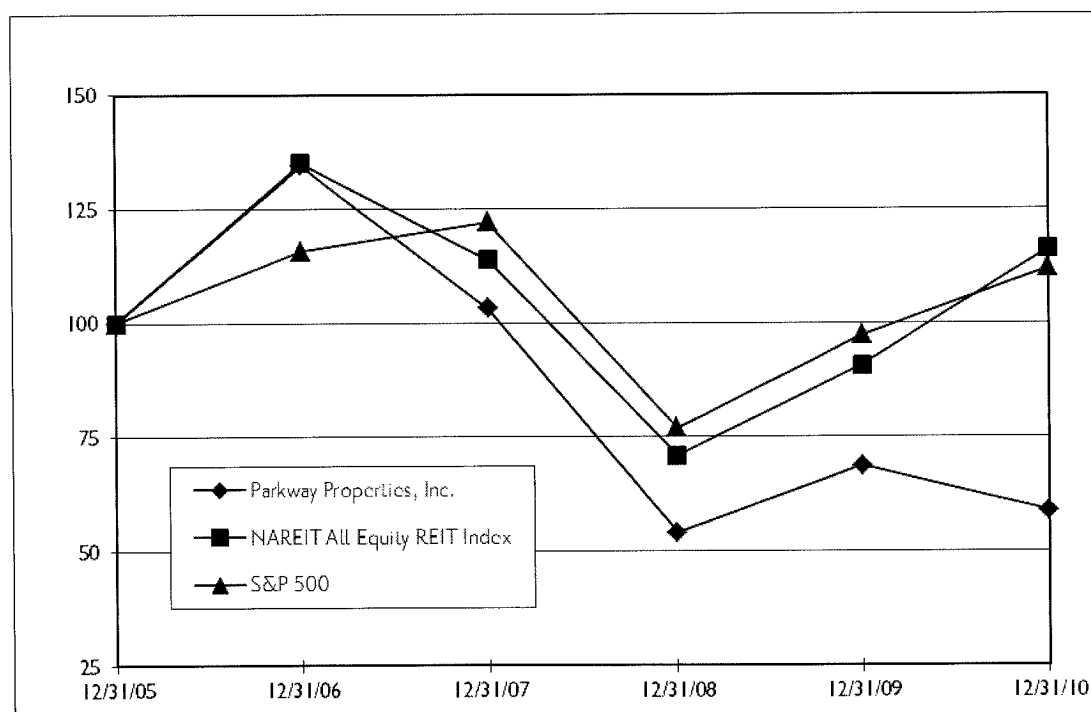

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
10/01/10 to 10/31/10	1,465 <sup>(1)</sup>	\$15.48	-	-
11/01/10 to 11/30/10	-	-	-	-
12/01/10 to 12/31/10	-	-	-	-
<b>Total</b>	<b>1,465</b>	<b>\$15.48</b>	<b>-</b>	<b>-</b>

- (1) As permitted under the Company's equity compensation plan, these shares were withheld by the Company to satisfy tax withholding obligations for employees in connection with the vesting of stock. Shares withheld for tax withholding obligations do not affect the total number of shares available for repurchase under any approved common stock repurchase plan. At December 31, 2010, the Company did not have an authorized stock repurchase plan in place.

## Performance Graph

The following graph provides a comparison of cumulative stockholder return for the period from December 31, 2005 through December 31, 2010 among Parkway, the Standard & Poor's 500 Index ("S&P 500") and the National Association of Real Estate Investment Trusts ("NAREIT") Equity REIT Total Return Index ("NAREIT Equity"). The stock performance graph assumes an investment of \$100 in the shares of Parkway common stock and each index and the reinvestment of any dividends. The historical information set forth below is not necessarily indicative of future performance.

The performance graph and related information shall not be deemed "soliciting material" or deemed to be "filed" with the SEC, nor shall such information be incorporated by reference into any future filing, except to the extent that the Company specifically incorporates it by reference into such filing.

Index	Period Ending					
	12/31/05	12/31/06	12/31/07	12/31/08	12/31/09	12/31/10

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

Parkway is a self-administered and self-managed REIT specializing in the acquisition, operations, leasing and ownership of office properties. The Company is geographically focused on the Southeastern and Southwestern United States and Chicago. At March 1, 2011, Parkway owned or had an interest in 65 office properties located in 11 states with an aggregate of approximately 13.7 million square feet of leasable space. Included in the portfolio are 20 properties totaling 4.1 million square feet that are owned jointly with other investors, representing 30.3% of the portfolio. With the office properties owned jointly with other investors, the Company receives fees for asset management, property management, leasing and construction management services and potentially receives incentive fees upon sale if certain investment targets are achieved. Increasing the number of co-investments, and consequently the related fee income, is part of the Company's strategy to transform itself to an operator-owner versus an owner-operator. The strategy capitalizes on the Company's strength in providing excellent service in the operation and acquisition of office properties for investment clients in addition to its direct ownership of real estate assets. Fee-based real estate services are offered through the Company's wholly-owned subsidiary, Parkway Realty Services LLC, which also currently manages and/or leases approximately 1.6 million square feet for third-party owners. The Company generates revenue primarily by leasing office space to its customers and providing management and leasing services to third party office property owners (including joint venture interests). The primary drivers behind Parkway's revenues are occupancy, rental rates and customer retention.

*Occupancy.* Parkway's revenues are dependent on the occupancy of its office buildings. At January 1, 2011, occupancy of Parkway's office portfolio was 85.3% compared to 85.7% at October 1, 2010 and 87.0% at January 1, 2010. Not included in the January 1, 2011 occupancy rate, are the acquisition of the 3344 Peachtree office property on January 21, 2011, as well as 34 signed leases totaling 183,000 square feet, which commence during the period from the first quarter of 2011 through the second quarter of 2012. Including these leases and the acquisition of 3344 Peachtree, the Company's portfolio was 86.9% leased at January 21, 2011. The Company currently anticipates customers occupying approximately 431,000 square feet to either vacate or contract upon expiration during the first quarter of 2011, but also expects its 2011 leasing volume to be in line with historical levels. Parkway currently projects an average annual occupancy range of 83.5% to 85.0% during 2011 for its office properties. To combat rising vacancy, Parkway utilizes innovative approaches to produce new leases. These include the Broker Bill of Rights, a short-form service agreement and customer advocacy programs which are models in the industry and have historically helped the Company maintain occupancy above the national occupancy rate of approximately 82.6%.

*Rental Rates.* An increase in vacancy rates has the effect of reducing market rental rates and vice versa. Parkway's leases typically have three to seven year terms. As leases expire, the Company replaces the existing leases with new leases at the current market rental rate. At January 1, 2011, Parkway had \$1.58 per square foot in rental rate embedded loss in its office property leases. Embedded loss is defined as the difference between the weighted average in-place cash rents and the weighted average market rental rate.

*Customer Retention.* Keeping existing customers is important as high customer retention leads to increased occupancy, less downtime between leases, and reduced leasing costs. Parkway estimates that it costs five to six times more to replace an existing customer with a new one than to retain the customer. In making this estimate, Parkway takes into account the sum of revenue lost during downtime on the space plus leasing costs, which rise as market vacancies increase. Therefore, Parkway focuses a great amount of energy on customer retention. Parkway's operating philosophy is based on the premise that it is in the customer retention business. Parkway seeks to retain its customers by continually focusing on operations at its office properties. The Company believes in providing superior customer service; hiring, training, retaining and empowering each employee; and creating an environment of open communication both internally and externally with customers and stockholders. Over the past ten years, Parkway maintained an average 69.4% customer retention rate. Parkway's customer retention rate was 68.3% for the quarter ended December 31, 2010, as compared to 75.0% for the quarter ended September 30, 2010, and 63.6% for the quarter ended December 31, 2009. Customer retention for the year ended December 31, 2010 and 2009 was 67.8% and 61.9%, respectively.

*Strategic Planning.* Parkway is a focused office REIT with a hands-on, service-oriented approach, a disciplined capital allocation program and willingness to recycle assets. Parkway continues to focus on the Company's strategy of transforming itself to an operator-owner from an owner-operator, as well as maximizing total return to our stockholders. To show our commitment to this goal, our newest strategic plan is centered on a goal of achieving a 12% compounded annual total return to our shareholders over a three-year period. This plan is known as the FOCUS Plan (the "Plan"), which began July 1, 2010 and will extend three full years through June 30, 2013. The goals of the Plan are as follows:

- **Fund and Fund-Like Investments.** The Company believes that fund and fund-like investments have the highest priority of the Company's capital allocation, because it gives Parkway's stockholders the highest risk adjusted return as measured by internal rate of return, capitalization rate and accretion per share.
- **Operator-Owner.** The Company plans to make a full transformation to an operator-owner, with the goal of being a majority operator/owner by the end of the Plan. This has been a goal for several years and will continue to be a core strategy as Parkway seeks to increase fee income and maximize its return on equity and accretion per share. Additionally, the Company will continue to expand PRS, which offers expert real estate management guidance, professional property management services and strategic marketing and leasing services aimed at increasing net operating income and maximizing profit upon exit.
- **Capital Allocation Discipline.** The Company's overall capital structure goal is to achieve a net debt to gross asset value ratio of 50% or less, as determined by using a capitalization rate of 8.5% on recurring cash income, and a net debt to EBITDA multiple of 6.5 times or less. Beyond the balance sheet, capital allocation refers to the Company's goal to exit non-strategic markets through the continuation of its Asset Recycling program. Most of the properties identified for sale are smaller assets or assets located in smaller markets where Parkway does not have a significant presence. By the end of the FOCUS Plan, the Company's goal is to be invested in larger, higher-quality properties located in higher-rent growth markets through fund and fund-like investments. The Company will continue to maintain discipline as it relates to managing the balance sheet and the acquisition and disposition of assets.
- **Uncompromising Focus on Operations.** Parkway believes that its uncompromising focus on operations is what sets it apart from other office property owners. An important goal of the FOCUS Plan is to move decision-making authority to the regional office level. The Company's market leaders already have the responsibility of setting rents, increasing net operating income margins and maintaining a consistent standard of operations and will be given more profit and loss responsibility and investment authority going forward. It is important that *we know* our markets, which is best achieved when Parkway's people live and work within the market. An integral part of the FOCUS Plan is a program referred to as "We Know...City." These three words imply that Parkway employees know more than just how to manage real estate, but that they have a deep understanding of a city's history, economics, infrastructure, politics and much more. By truly knowing the cities where the Company is invested, we are better positioned for leasing, active asset management, recruitment and investments.
- **Shareholder Returns.** All of the previously mentioned goals funnel to the ultimate goal of the FOCUS Plan, which is to maximize total return to Parkway's shareholders. The Company has set a goal of achieving a 12% compounded annual total return to its shareholders for the three-year period starting July 1, 2010.

During 2010 and to date in 2011, the Company achieved the following major accomplishments:

- **Reduced Parkway's share of total debt by \$64.6 million.** Parkway's net debt to EBITDA multiple was reduced from 6.3 times at December 31, 2009 to 5.9 times at December 31, 2010. Parkway's net debt to gross asset value was reduced from 52.8% at December 31, 2009 to 49.8% at December 31, 2010.
- **Completed \$45.0 million Series D Preferred stock offering.** Parkway received approximately \$45.0 million in net proceeds by issuing 1.97 million shares of its 8.0% Series D Cumulative Redeemable Preferred Stock in August 2010.
- **Parkway and Fund II invested \$200.0 million in office properties.** Parkway sold Carmel Crossing, Falls Pointe, and Lakewood II to Fund II for \$33.0 million during the fourth quarter of 2010, and acquired 3344 Peachtree for \$167.3 million (Fund II's investment in the property was \$160 million) in January 2011. The Company's total assets under management including the purchase of 3344 Peachtree now totals \$2.1 billion, with 33% of these assets in fund or fund-like joint ventures.
- **Signed over 2.9 million square feet of leases.** Parkway had a significant amount of leasing activity during 2010 with over 2.9 million square feet of leases signed and reduced its 2011 expirations from 17.9% as of the fourth quarter of 2008 to 11.7% as of the fourth quarter of 2010.
- **Closed on new \$200.0 million unsecured revolving credit facilities.** Parkway closed on the new credit facilities in January 2011. The new credit facilities have an initial term of three years and replace the prior unsecured revolving credit facility, term loan and working capital facility that were scheduled to mature on April 27, 2011.
- **Selected for national best place to work list for third consecutive year.** Parkway ranked 20th on the medium list of Entrepreneur's Great Place to Work® Rankings: 2010 Best Small & Medium Workplaces.
- **Parkway's development property received LEED Gold certification.** The Pinnacle at Jackson Place in Jackson, Mississippi received LEED Gold certification for Core & Shell from the U.S. Green Building Council in December 2010.

*Discretionary Funds.* On July 6, 2005, Parkway, through affiliated entities, entered into a limited partnership agreement forming Fund I for the purpose of acquiring high-quality multi-tenant office properties. Ohio PERS is a 75% investor and Parkway is a 25% investor in the Fund, which is capitalized with approximately \$200.0 million of equity capital and \$300.0 million of non-recourse, fixed-rate first mortgage debt. At February 15, 2008, Fund I was fully invested.

Fund I targeted properties with an anticipated leveraged internal rate of return of greater than 11%. Parkway serves as the general partner of the fund and provides asset management, property management, leasing and construction management services to the fund, for which it is paid market-based fees. After each partner has received a 10% annual cumulative preferred return and a return of invested capital, 60% will be distributed to Ohio PERS and 40% to Parkway. The term of Fund I will be seven years from the date the fund was fully invested until February 2015, with provisions to extend the term for two additional one-year periods.

On May 14, 2008, Parkway, through affiliated entities, entered into a limited partnership agreement forming a \$750.0 million discretionary fund, known as Fund II with TRST for the purpose of acquiring high-quality multi-tenant office properties. TRST is a 70% investor and Parkway is a 30% investor in the fund, which will be capitalized with approximately \$375.0 million of equity capital and \$375.0 million of non-recourse, fixed-rate first mortgage debt. Parkway's share of the equity contribution for the fund will be \$112.5 million and will be funded with operating cash flows, proceeds from asset sales, issuance of equity securities and/or advances on the credit facility as needed on a temporary basis. Fund II targets acquisitions in the core markets of Houston, Austin, San Antonio, Chicago, Atlanta, Phoenix, Charlotte, Memphis, Nashville, Jacksonville, Orlando, Tampa/St. Petersburg, and Ft. Lauderdale, as well as other growth markets to be determined at Parkway's discretion.

Fund II targets properties with an anticipated leveraged internal rate of return of greater than 10%. Parkway serves as the general partner of the fund and provides asset management, property management, leasing and construction management services to the fund, for which it is paid market-based fees. Cash will be distributed pro rata to each partner until a 9% annual cumulative preferred return is received and invested capital is returned. Thereafter, 56% will be distributed to TRST and 44% to Parkway. Parkway has four years, or through May 2012, to identify and acquire properties (the "Investment Period"), with funds contributed as needed to close acquisitions. Parkway will exclusively represent the fund in making acquisitions within the target markets and acquisitions with certain predefined criteria. Parkway will not be prohibited from making fee-simple or joint venture acquisitions in markets outside of the target markets, acquiring properties within the target markets that do not meet Fund II's specific criteria or selling a full or partial interest in currently owned properties. The term of Fund II will be seven years from the expiration of the Investment Period, with provisions to extend the term for two additional one-year periods at the discretion of Parkway. At March 1, 2011, Fund II had remaining investment capacity of \$552.1 million of which \$81.8 million represents Parkway's remaining equity contribution that would be due in connection with additional investments in office properties.

## Financial Condition

*Comments are for the balance sheet dated December 31, 2010 as compared to the balance sheet dated December 31, 2009.*

*Office and Parking Properties.* In 2010, Parkway continued the execution of its strategy of operating and acquiring office properties as well as liquidating non-strategic assets that no longer meet the Company's investment criteria or the Company has determined value will be maximized by selling. The Company delayed new investments in office properties in 2009 until there was further clarity in values. During 2010, the Company began to see investment opportunities come available as evidenced by Fund II making its first investment during the fourth quarter of 2010 and second investment in January 2011. During the year ended December 31, 2010, total assets decreased \$8.5 million or 0.5%.

## Acquisitions and Improvements

Parkway's investment in office and parking properties decreased \$12.1 million net of depreciation to a carrying amount of \$1.4 billion at December 31, 2010 and consisted of 61 office and parking properties. The primary reason for the decrease in office and parking properties relates to the net effect of building improvements and the purchase of three office properties, offset by the sale of one office property, depreciation recorded during the year and a non-cash impairment loss recorded during the fourth quarter of 2010.

During the third quarter of 2010, the Company acquired its partner's 25% interest in Parkway Moore, LLC and Moore Building Associates, LP for \$2,500. These entities were established for the purpose of owning the Toyota Center, a 175,000 square foot office building in Memphis, Tennessee. Therefore, at September 30, 2010, the Company owned 100% of the entities and the Toyota Center.

During the year ending December 31, 2010, Fund II purchased three office properties as follows (in thousands):

Office Property	Location	Parkway Ownership	Square Feet	Date Purchased	Purchase Price
Fund II Purchases:					
Falls Pointe (I)	Atlanta, Georgia	30%	107	10/29/10	\$ 5,000
Lakewood II (I)	Atlanta, Georgia	30%	128	10/29/10	3,000
Carmel Crossing (I)	Charlotte, North Carolina	30%	326	12/14/10	25,000
			<u>561</u>		<u>\$ 33,000</u>

- (I) During the third quarter of 2010, the Company purchased the first mortgage loan associated with RubiconPark I, LLC (“Rubicon IV”), which owned Falls Pointe, Lakewood II, and Carmel Crossing, for a net purchase price of \$33.0 million. During the fourth quarter of 2010, the Company, as holder of the mortgage, foreclosed on the three properties that served as collateral for the associated loan. Also, during the fourth quarter of 2010, the Company sold the three assets to Fund II. Parkway recorded approximately \$740,000 in management company expense on the consolidated statement of operations related to acquisition costs on these investments. As a result of the sale to Fund II, Parkway’s ownership interest in these assets increased from 20% to 30%.

On January 21, 2011, the Company and Fund II acquired the office and retail portion of 3344 Peachtree located in the Buckhead submarket of Atlanta for \$167.3 million. 3344 Peachtree contains approximately 484,000 square feet of office and retail space and includes an adjacent eleven-story parking structure. Fund II’s investment in the property totaled \$160.0 million, with Parkway funding the remaining \$7.3 million. Due to Parkway’s additional investment, the Company’s effective ownership in the property is 33.0%. An additional \$2.6 million is expected to be spent for closing costs, building improvements, leasing costs and tenant improvements during the first two years of ownership. Simultaneous with closing, Fund II assumed the \$89.6 million existing non-recourse first mortgage loan, which matures on October 1, 2017, and carries a fixed interest rate of 4.8%. In accordance with Generally Accepted Accounting Principles (“GAAP”), the mortgage loan was recorded at \$87.2 million to reflect the value of the instrument based on a market interest rate of 5.25% on the date of purchase. Parkway’s equity contribution in the investment is \$25.5 million and was initially funded through availability under the Company’s credit facility.

On February 4, 2011, the Company purchased its partner’s 50% interest in the Wink-Parkway Partnership (“Wink IV”) for \$250,000. The Wink IV was established for the purpose of owning the Wink Building, a 32,000 square foot office property in New Orleans, Louisiana. Upon completing the purchase of its partner’s interest, Parkway now owns 100% of the Wink Building.

During the year ending December 31, 2010, the Company capitalized building improvements of \$36.3 million and recorded depreciation expense of \$67.4 million related to its office and parking properties.

#### Dispositions

During the year ended December 31, 2010, Parkway sold one office property as follows (in thousands):

Office Property	Location	Square Feet	Date Sold	Gross Sales Price	Gain
One Park Ten (I)	Houston, Texas	<u>163</u>	04/15/10	<u>\$ 15,700</u>	<u>\$ 8,518</u>

- (I) In accordance with GAAP, the gain on sale of real estate and all current and prior period income from this property has been classified as discontinued operations.

During the fourth quarter of 2010, the Company recorded non-cash impairment losses of \$4.1 million related to non-strategic office properties targeted for sale in Columbia, South Carolina, and Richmond, Virginia. The Company began actively marketing these assets around year end. As part of the marketing process, the Company estimated that the fair value of these assets was less than their carrying value at December 31, 2010. Therefore, in accordance with GAAP, an impairment loss for the assets was recorded during the fourth quarter of 2010.

*Mortgage Loans.* Parkway’s investment in mortgage loans increased \$2.2 million or 27.2% for the year ended December 31, 2010, and is primarily due to the \$1.5 million note receivable placed in connection with the sale of One Park Ten discussed above.

*Rents Receivable and Other Assets.* For the year ended December 31, 2010, rents receivable and other assets increased \$13.2 million or 11.3%. The net increase is primarily due to the increase in escrow bank account balances, which was caused by the contribution of funds in connection with office property capital expenditures, a non-refundable earnest money deposit related to the purchase of 3344 Peachtree, which Fund II purchased during the first quarter of 2011 and payment of capitalized lease commissions, offset by amortization of existing capitalized lease commissions.

*Intangible Assets, Net.* For the year ended December 31, 2010, intangible assets net of related amortization decreased \$11.1 million or 18.0% and was primarily due to annual amortization of existing intangible assets.

*Accounts Payable and Other Liabilities.* For the year ended December 31, 2010, accounts payable and other liabilities increased \$10.2 million or 11.5% primarily due to the timing of payment of expenses as well as the recognition of a liability for deferred revenue in the amount of \$5.2 million in connection with lease termination fees received for two customers' leases with termination dates of March 2012 and August 2016.

*Notes Payable to Banks.* Notes payable to banks increased \$10.8 million or 10.8% for the year ended December 31, 2010. At December 31, 2010, notes payable to banks totaled \$110.8 million and the increase is primarily attributable to advances on the credit facility to repay mortgage debt maturities during the year, make investments in and improvements to office properties, offset by proceeds received from the Company's Series D Preferred Stock offering, the sale of one office property and mortgages obtained during the year.

On January 31, 2011, the Company closed a new \$190.0 million unsecured revolving credit facility and a new \$10.0 million unsecured working capital revolving credit facility. The new credit facilities have an initial term of three years and replaced the existing unsecured revolving credit facility, term loan and working capital facility that were scheduled to mature on April 27, 2011. The Company also has a \$100.0 million interest rate swap associated with the credit facilities that expires March 31, 2011, locking LIBOR at 3.635%. The Company does not anticipate an extinguishment of this interest rate swap prior to its stated expiration as the hedged item relates to interest rate payments on \$100.0 million of LIBOR-based debt and the forecasted transaction remains probable at December 31, 2010. Wells Fargo Securities and JP Morgan Securities LLC acted as Joint Lead Arrangers and Joint Book Runners on the unsecured revolving credit facility. In addition, Wells Fargo Bank, N.A. acted as Administration Agent and JPMorgan Chase Bank, N.A. acted as Syndication Agent. Other participating lenders include PNC Bank, N.A., Bank of America, N.A., US Bank, N.A., Trustmark National Bank, and BancorpSouth Bank. The working capital revolving credit facility was provided solely by PNC Bank, N.A.

*Mortgage Notes Payable.* During the year ended December 31, 2010, mortgage notes payable decreased \$79.2 million or 9.3% as a result of the following (in thousands):

	<u>Increase (Decrease)</u>
Placement of mortgage debt on wholly-owned properties	\$ 70,000
Principal paid on early extinguishment of debt	(126,277)
Transfer of mortgage to purchaser of One Park Ten	(8,666)
Scheduled principal payments	(14,222)
	<u>\$ (79,165)</u>

On February 8, 2010, the Company obtained a \$35.0 million non-recourse, first mortgage loan related to the refinance of a \$60.0 million recourse mortgage that was scheduled to mature in May 2010. The mortgage loan bears interest at a fixed rate of 7.25% and is secured by the Company's Capital City Plaza building in Atlanta, Georgia. The mortgage loan matures in March 2017 and includes the option to be prepaid at the end of five years at a cost of 1% of the outstanding loan balance. The Company used available proceeds under its credit facility to pay the \$25.0 million difference on the maturing mortgage loan.

On April 15, 2010, in connection with the sale of One Park Ten in Houston, Texas, the buyer assumed the \$8.7 million first mortgage loan secured by the property. The mortgage loan carried an interest rate of 7.1% and was scheduled to mature in June 2012. During the second quarter of 2010, the Company recorded a \$136,000 loss on the extinguishment of debt associated with the buyer's assumption of the mortgage loan.

On April 30, 2010, the Company repaid a \$17.2 million mortgage loan secured by two office properties in Houston, Texas and one office property in Atlanta, Georgia, utilizing available proceeds under its credit facility. The mortgage had an interest rate of 5.3% and was scheduled to mature on May 1, 2010.

On May 28, 2010, the Company obtained a \$23.0 million non-recourse, first mortgage loan secured by Citrus Center, a 261,000 square foot office property in Orlando, Florida. The mortgage loan had a fixed interest rate of 6.3% and a term of ten years. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

Upon maturity, on June 1, 2010, the Company paid off its share and its partner's share of a \$10.6 million mortgage note payable secured by the Toyota Center, a 175,000 square foot office property in Memphis, Tennessee, utilizing available proceeds under the Company's credit facility. The mortgage had an interest rate of 7.9%. The Toyota Center office property was previously owned by a consolidated joint venture, Moore Building Associates, LP, in which the Company served as the general partner. However, during the third quarter of 2010, Parkway purchased the partner's interest, thereby placing Parkway's ownership of the property at 100%.

On July 8, 2010, the Company obtained a \$12.0 million non-recourse first mortgage loan secured by the Stein-Mart building, a 196,000 square foot office property in Jacksonville, Florida. The mortgage loan had a fixed interest rate of 6.5% and a term of ten years. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

On October 8, 2010, the Company repaid a \$7.6 million mortgage loan secured by One Jackson Place, a 220,000 square foot office property in Jackson, Mississippi. The mortgage loan had a fixed interest rate of 7.9%. The Company repaid the mortgage loan using available proceeds under the Company's credit facility.

On December 15, 2010, the Company repaid a \$31.0 million mortgage loan secured by Squaw Peak Corporate Center, a 290,000 square foot office complex in Phoenix, Arizona. The mortgage loan had a fixed interest rate of 4.9%. The Company repaid the mortgage loan using available proceeds under the Company's credit facility.

On January 21, 2011, in connection with its purchase of 3344 Peachtree in Atlanta, Georgia, Fund II assumed the \$89.6 million existing non-recourse first mortgage loan, which matures on October 1, 2017, and carries a fixed interest rate of 4.8%. In accordance with GAAP, the mortgage loan was recorded at \$87.2 million to reflect the value of the instrument based on a market interest rate of 5.25% on the date of purchase.

On February 18, 2011, Fund II obtained a \$10.0 million mortgage loan secured by Carmel Crossing, a 326,000 square foot office complex in Charlotte, North Carolina. The mortgage loan has a fixed rate of 5.5% and a term of nine years. Parkway received \$2.4 million in net proceeds from the loan, which represents its 30% equity investment in the property. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

The Company expects to continue seeking primarily fixed rate, non-recourse mortgage financing with maturities from five to ten years typically amortizing over 25 to 30 years on select office building investments as additional capital is needed. The Company monitors a number of leverage and other financial metrics defined in the loan agreements for the Company's unsecured credit facility and working capital unsecured credit facility, which includes the Company's total debt to total asset value. In addition, the Company monitors interest, fixed charge and modified fixed charge coverage ratios as well as the net debt to gross asset value ratio and the net debt to EBITDA multiple. The interest coverage ratio is computed by comparing the cash interest accrued to EBITDA. The fixed charge coverage ratio is computed by comparing the cash interest accrued, principal payments made on mortgage loans and preferred dividends paid to EBITDA. The modified fixed charge coverage ratio is computed by comparing cash interest accrued and preferred dividends paid to EBITDA. The net debt to EBITDA multiple is computed by comparing Parkway's share of net debt to EBITDA computed for a trailing 12-month period. Management believes all of the leverage and other financial metrics it monitors, including those discussed above, provide useful information on total debt levels as well as the Company's ability to cover interest, principal and/or preferred dividend payments. The Company targets a net debt to gross asset value ratio of 50% or less and a net debt to EBITDA multiple of 6.5 times or less.

The reconciliation of net loss for Parkway Properties, Inc. to EBITDA and the computation of the Company's proportionate share of the interest, fixed charge, modified fixed charge coverage ratios, as well as the net debt to EBITDA multiple is as follows for the year ended December 31, 2010 and 2009 (in thousands):

	Year Ended December 31	
	2010	2009
<b>Net loss for Parkway Properties, Inc.</b>	\$ (2,618)	\$ (11,603)
<b>Adjustments to loss for Parkway Properties, Inc.:</b>

Parkway's share of net debt	<u>\$ 665,360</u>	<u>\$ 729,372</u>
<b>Net Debt to EBITDA multiple</b>	<u>5.9</u>	<u>6.3</u>

- (I) Parkway defines EBITDA, a non-GAAP financial measure, as net income before interest, income taxes, depreciation, amortization, losses on early extinguishment of debt and other gains and losses. EBITDA, as calculated by us, is not comparable to EBITDA reported by other REITs that do not define EBITDA exactly as we do.

The Company believes that EBITDA helps investors and Parkway's management analyze the Company's ability to service debt and pay cash distributions. However, the material limitations associated with using EBITDA as a non-GAAP financial measure compared to cash flows provided by operating, investing and financing activities are that EBITDA does not reflect the Company's historical cash expenditures or future cash requirements for working capital, capital expenditures or the cash required to make interest and principal payments on the Company's outstanding debt. Although EBITDA has limitations as an analytical tool, the Company compensates for the limitations by only using EBITDA to supplement GAAP financial measures. Additionally, the Company believes that investors should consider EBITDA in conjunction with net income and the other required GAAP measures of its performance and liquidity to improve their understanding of Parkway's operating results and liquidity.

Parkway views EBITDA primarily as a liquidity measure and, as such, the GAAP financial measure most directly comparable to it is cash flows provided by operating activities. Because EBITDA is not a measure of financial performance calculated in accordance with GAAP, it should not be considered in isolation or as a substitute for operating income, net income, or cash flows provided by operating, investing and financing activities prepared in accordance with GAAP. The following table reconciles cash flows provided by operating activities to EBITDA for the year ended December 31, 2010 and 2009 (in thousands):

	Year Ended December 31	
	2010	2009
Cash flows provided by operating activities	\$ 68,059	\$ 69,934
Amortization of (above) below market leases	566	(51)
Amortization of mortgage loan discount	710	607
Operating distributions from unconsolidated joint ventures	-	(392)
Interest expense	53,062	53,374
Loss on early extinguishment of debt	189	-
Tax expense	2	2
Change in deferred leasing costs	13,425	16,348
Change in receivables and other assets	4,194	(3,678)
Change in accounts payable and other liabilities	(9,782)	(228)
Adjustments for noncontrolling interests	(19,150)	(22,136)
Adjustments for unconsolidated joint ventures	814	1,803
<b>EBITDA</b>	<b>\$ 112,089</b>	<b>\$ 115,583</b>

*Equity.* Total equity increased \$49.7 million or 8.7% during the year ended December 31, 2010 as a result of the following (in thousands):

	Increase (Decrease)
Net loss attributable to Parkway Properties, Inc.	\$ (2,618)
Net loss attributable to noncontrolling interest	(10,789)
Net loss	(13,407)
Change in market value of interest rate swaps	1,889
Comprehensive loss	(11,518)
Common stock dividends declared	(6,494)
Preferred stock dividends declared	(6,325)
Share-based compensation	1,319
Issuance of preferred stock	44,811
Shares issued in lieu of Director's Fees	285
Issuance costs for shelf registration	(14)
Shares purchased to satisfy tax withholding obligation on vesting of restricted stock and deferred incentive share units	(821)
Net shares distributed from deferred compensation plan	503
Contribution of capital by noncontrolling interest	27,912
	<b>\$ 49,658</b>

On August 9, 2010, the Company issued 1.97 million additional shares of its 8.0% Series D Cumulative Redeemable Preferred Stock at a price of \$23.757 per share equating to a yield of 8.500% (excluding accrued dividends). The Series D Preferred Stock has a \$25 liquidation value per share and was redeemable at the option of the Company as of June 27, 2008. Wells Fargo Securities, LLC and Banc of America Securities LLC acted as joint book-running managers on the transaction. The Company used the net proceeds of approximately \$45.0 million to reduce amounts outstanding under the Company's credit facility and for general corporate purposes.

## Results of Operations

*Comments are for the year ended December 31, 2010 compared to the year ended December 31, 2009.*

Net loss attributable to common stockholders for the years ended December 31, 2010 and 2009 was \$8.9 million (\$0.42 per basic common share) and \$16.4 million (\$0.85 per basic common share), respectively. The primary reasons for the decrease in net loss attributable to common stockholders for the year ended December 31, 2010 as compared to the same period for 2009 is primarily due to the gain on sale of real estate from discontinued operations of \$8.5 million, which is attributable to one asset sold in 2010. Gains on the sale of real estate and involuntary conversion of \$8.6 million, offset by impairment losses totaling \$4.1 million, were included in net loss attributable to common stockholders for the year ended December 31, 2010. Net gains on the sale of real estate and involuntary conversion of \$1.3 million, offset by impairment losses totaling \$8.8 million, were included in net loss attributable to common stockholders for the year ended December 31, 2009. The change in gain (loss) on real estate investments, and involuntary conversion as well as the discussion of other variances for income and expense items that comprise net loss attributable to common stockholders is discussed in detail below.

*Office and Parking Properties.* The analysis below includes changes attributable to same-store properties and dispositions of office properties. Same-store properties are consolidated properties that the Company owned for the current and prior year reporting periods, excluding properties classified as discontinued operations. At December 31, 2010, same-store properties consisted of 61 properties comprising 12.8 million square feet.

The following table represents revenue from office and parking properties for the years ended December 31, 2010 and 2009 (in thousands):

	Year Ended December 31			
	2010	2009	Increase (Decrease)	% Change
Revenue from office and parking properties:				
Same-store properties	\$ 254,609	\$ 261,886	\$ (7,277)	-2.8%
Properties disposed	2	1,065	(1,063)	-99.8%
Total revenue from office and parking properties	\$ 254,611	\$ 262,951	\$ (8,340)	-3.2%

Revenue from office and parking properties for same-store properties decreased \$7.3 million or 2.8% for the year ended December 31, 2010, compared to the same period for 2009. The primary reason for the decrease is due to a decrease in expense reimbursement income as a result of lower property operating expenses and a decrease in average same-store occupancy offset by an increase in lease termination fee income for year ended December 31, 2010 compared to the same period in 2009. Average same-store occupancy decreased 320 basis points for the year ended December 31, 2010, compared to the same period of 2009.

The following table represents property operating expenses for the years ended December 31, 2010 and 2009 (in thousands):

	Year Ended December 31			
	2010	2009	Increase (Decrease)	% Change
Expense from office and parking properties:				
Same-store properties	\$ 117,981	\$ 125,779	\$ (7,798)	-6.2%
Properties disposed	(46)	564	(610)	-108.2%
Total expense from office and parking properties	\$ 117,935	\$ 126,343	\$ (8,408)	-6.7%

Property operating expenses for same-store properties decreased \$7.8 million or 6.2% for the year ended December 31, 2010, compared to the same period of 2009. The primary reason for the decrease is due to decreased ad valorem taxes and bad debt expense.

*Share-Based and Long-Term Compensation Expense.* Compensation expense related to restricted shares and deferred incentive share units of \$1.3 million and \$2.6 million was recognized for the years ended December 31, 2010 and 2009, respectively. Total compensation expense related to nonvested awards not yet recognized was \$2.9 million at December 31, 2010. The weighted average period over which the expense is expected to be recognized is approximately 2.6 years.

On January 4, 2010, 91,000 restricted shares vested and were issued to officers of the Company. These shares were granted to the officers of the Company in January 2003 and vested seven years from the grant date.

On February 10, 2010, 29,941 restricted shares vested and were issued to officers of the Company due to the achievement of performance goals established in 2009 by the Board of Directors.

On July 1, 2010, 26,500 restricted shares vested and were issued to officers of the Company. These shares were granted in July 2006 and vested four years from the grant date.

On July 12, 2010, the Board of Directors approved 345,120 FOCUS Plan long-term equity incentive awards to officers of the Company. The long-term equity incentive awards are valued at \$2.5 million which equates to an average price per share of \$7.30 and consists of 25,380 time-based awards, 179,314 market condition awards subject to an absolute total return goal, and 140,426 market condition awards subject to a relative total return goal. These shares are accounted for as equity-classified awards on the Company's 2010 consolidated balance sheet.

The time-based awards granted as part of the FOCUS Plan will vest ratably over four years from the date the shares were granted. The market condition awards granted as part of the FOCUS Plan are contingent on the Company meeting goals for compounded annual total return to stockholders ("TRS") over the three year period beginning July 1, 2010. The market condition goals are based upon (i) the Company's absolute compounded annual TRS; and (ii) the Company's absolute compounded annual TRS relative to the compounded annual return of the MSCI US REIT ("RMS") Index calculated on a gross basis, as follows:

	Threshold	Target	Maximum
Absolute Return Goal	10%	12%	14%
Relative Return Goal	RMS + 100 bps	RMS + 200 bps	RMS + 300 bps

With respect to the absolute return goal, 15% of the award is earned if the Company achieves threshold performance and a cumulative 60% is earned for target performance. With respect to the relative return goal, 20% of the award is earned if the Company achieves threshold performance and a cumulative 55% is earned for target performance. In each case, 100% of the award is earned if the Company achieves maximum performance or better. To the extent actually earned, the market condition awards will vest 50% on each of July 15, 2013 and 2014.

The total compensation expense for the long-term equity incentive awards granted under the FOCUS Plan is based upon the fair value of the shares on the grant date, adjusted for estimated forfeitures. The grant date fair value for awards that are subject to a market condition are determined using a simulation pricing model developed to specifically accommodate the unique features of the awards.

The FOCUS Plan also includes a long-term cash incentive that was designed to reward significant outperformance over the three year period beginning July 1, 2010. The performance goals for actual payment under the long-term cash incentive will require the Company to (i) achieve an absolute compounded annual TRS that exceeds 14% AND (ii) achieve an absolute compounded annual TRS that exceeds the compounded annual return of the RMS by at least 500 basis points. Notwithstanding the above goals, in the event the Company achieves an absolute compounded annual TRS that exceeds 19%, then the Company must achieve an absolute compounded annual TRS that exceeds the compounded annual return of the RMS by at least 600 basis points. The aggregate amount of the cash incentive earned would increase with corresponding increases in the absolute compounded annual TRS achieved by the Company. There will be a cap on the aggregate cash incentive earned in the amount of \$7.1 million. Achievement of the maximum cash incentive would equate to an absolute compounded annual TRS that approximates 23%, provided that the absolute compounded annual TRS exceeds the compounded annual return of the RMS by at least 600 basis points. The total compensation expense for the long-term cash incentive awards granted under the FOCUS Plan is based upon the estimated fair value of the award on the grant date and adjusted as necessary each reporting period. The long-term cash incentive awards are accounted for as a liability-classified award on the Company's 2010 consolidated balance sheet. The grant date and quarterly fair value estimates for awards that are subject to a market condition are determined using a simulation pricing model developed to specifically accommodate the unique features of the awards.

On August 23, 2010, 5,500 restricted shares vested and were issued to officers of the Company. These shares were granted in September 2003 and vested seven years from the grant date.

On January 9, 2011, 25,935 restricted shares vested and were issued to officers of the Company due to the achievement of performance goals established in 2009 by the Board of Directors.

On January 12, 2011, 27,125 restricted shares vested and were issued to officers of the Company. These shares were granted in January 2007 and vested four years from the grant date.

On January 14, 2011, the Board of Directors approved 55,623 FOCUS Plan long-term equity incentive awards to officers of the Company. The long-term equity incentive awards are valued at \$736,000 which equates to an average price per share of \$13.23 and consist of 25,620 time-based awards, 16,883 market condition awards subject to an absolute total return goal, and 13,120 market condition awards subject to a relative total return goal. These shares will be accounted for as equity-classified awards on the Company's consolidated balance sheet.

*General and Administrative Expense.* General and administrative expense increased \$1.3 million for the year ended December 31, 2010, compared to the same period of 2009. The increase is primarily due to expenses in connection with the Company's former Chief Financial Officer, J. Mitchell Collins' personal injury lawsuit and shareholder demand letter. For the year ended December 31, 2010, the Company expensed \$1.3 million with respect to the pending litigation and the demand letter. During the fourth quarter of 2010, the Company removed its reserve for potential future exposure with the respect to the pending litigation and demand letter. Management has evaluated the risks involved with the pending litigation and demand letter and determined that no reserve was necessary at December 31, 2010.

On April 23, 2010, the Company received notice of a complaint to the Occupational Safety and Health Administration ("OSHA") initiated by Mr. Collins, whose employment with the Company terminated on February 5, 2010. The complaint alleged discriminatory employment practices in violation of Section 806 of the Corporate and Criminal Fraud Accountability Act of 2002, Title VIII of Sarbanes-Oxley Act of 2002. The complaint alleged that Mr. Collins was terminated from his position as Chief Financial Officer of the Company as a result of his purportedly engaging in "protected activity" as defined under Section 806 of the Sarbanes-Oxley Act, and sought reinstatement of Mr. Collins' position and unspecified damages from the Company. Specifically, Mr. Collins alleged that his termination was a result of bringing what he believed to be certain concerns regarding the Company's financial projections to the attention of senior management. Mr. Collins also alleged that the Company engaged in conduct that violates U.S. federal law, including U.S. federal securities laws by inaccurately describing to the public the events surrounding his February 5, 2010 separation. Effective July 16, 2010, the Company received a formal notice from the Area Director of OSHA, that Mr. Collins withdrew the Sarbanes-Oxley complaint he filed with OSHA.

On May 4, 2010, Mr. Collins filed a personal injury lawsuit against the Company in the Circuit Court of Hinds County, Mississippi, alleging defamation, wrongful discharge, conversion, and fraud based on substantially the same factual predicate set forth in the OSHA complaint. Mr. Collins is seeking compensatory and punitive damages in excess of \$10.0 million in the lawsuit. The Company has carefully reviewed Mr. Collins' personal injury complaint and believes that the allegations made are without basis in fact or law and will vigorously defend the Company's prior actions and reputation. Management believes the final outcome of this matter will not have a material adverse effect on the Company's financial statements.

In addition to the personal injury lawsuit, Mr. Collins also issued a shareholder demand letter to the Company threatening to commence a derivative lawsuit on behalf of the Company against the Company, its directors and officers based on substantially the same allegations as set forth in the personal injury suit. On July 27, 2010, the Company's Board of Directors appointed the Audit Committee (the "Committee") of the board to review and evaluate the claims made in Mr. Collins' demand letter. The Committee engaged independent legal counsel to assist with the review and evaluation of these claims. After thoroughly investigating the allegations in good faith and fully informing itself of all material facts relevant thereto, the Committee believes that the Company did not operate in a fraudulent or misleading manner regarding either the termination of Mr. Collins or the disclosure of the Company's 2010 earnings guidance. Further, the Committee determined that it would not serve the interests of Parkway or its shareholders for the Company to take any of the further actions requested in the demand letter.

*Gain on Sale of Real Estate Investment and Involuntary Conversions.* For the year ended December 31, 2010, the Company recorded a gain on involuntary conversion of \$40,000 related to assets damaged by Hurricane Ike and a gain on the sale of real estate of \$8.5 million related to the sale of one office property. This gain has been classified as a gain on the sale of real estate from discontinued operations. For the year ended December 31, 2009, the Company recorded a net gain on the sale of real estate of \$470,000 related to the sale of two office properties and a gain on involuntary conversion of \$823,000 related to assets damaged by Hurricane Ike.

*Impairment Loss on Real Estate and Investments in Unconsolidated Joint Ventures.* During the fourth quarter of 2010, the Company recorded non-cash impairment losses of \$4.1 million related to non-strategic office properties targeted for sale in Columbia, South Carolina, and Richmond, Virginia. The Company began actively marketing these assets around year end. As part of the marketing process, the Company estimated that the fair value of these assets was less than their carrying value at December 31, 2010. During the fourth quarter of 2009, the Company recognized a non-cash other-than-temporary impairment loss of \$8.8 million in connection with the valuation of the Company's investments in RubiconPark I, LLC and RubiconPark II, LLC. The impairment was principally due to two customers totaling over 120,000 square feet in the office properties that were unable to meet their rent obligations due to financial difficulty. Additionally, in January 2010, the Company's joint venture partner, Rubicon U.S. REIT, filed for Chapter 11 bankruptcy protection, rendering our partner unable to support their continuing share of the joint venture obligations.

*Interest Expense.* Interest expense, including amortization of deferred financing costs, decreased \$397,000 or 0.7% for the year ended December 31, 2010, compared to the same period of 2009 and is comprised of the following (in thousands):

	Year Ended December 31			
	2010	2009	Increase (Decrease)	% Change
Interest expense:				
Mortgage interest expense	\$ 47,685	\$ 47,200	\$ 485	1.0 %
Bank line interest expense	5,200	5,543	(343)	-6.2 %
Debt prepayment expense	53	-	53	0.0 %
Mortgage loan cost amortization	894	1,274	(380)	-29.8 %
Bank loan cost amortization	815	1,027	(212)	-20.6 %
Total interest expense	<u>\$ 54,647</u>	<u>\$ 55,044</u>	<u>\$ (397)</u>	<u>-0.7 %</u>

Mortgage interest expense increased \$485,000 or 1.0% for the year ended December 31, 2010 compared to the same period for 2009, and is primarily due to the increase in average interest rates on mortgage notes payable from 5.6% at December 31, 2009, to 5.9% at December 31, 2010.

Bank line interest expense decreased \$343,000 or 6.2% for the year ended December 31, 2010 compared to the same period for 2009. The decrease in bank line interest expense is primarily due to a decrease in average borrowings of \$13.8 million for the year ended December 31, 2010 compared to the same period for 2009. The decrease in average borrowing is due to proceeds received from the Company's August 2010 \$45.0 million preferred stock offering, offset by advances on the credit facility to retire existing mortgage debt and to make improvements and investments in office properties.

*Discontinued Operations.* Discontinued operations is comprised of the following for year ended December 31, 2010 and 2009 (in thousands):

	Year Ended December 31			
	2010	2009	Increase (Decrease)	% Change
Discontinued operations:				
Income from discontinued operations	\$ 194	\$ 404	\$ (210)	-52.0%
Gain on sale of real estate from discontinued operations	8,518	-	8,518	100.0%
Total discontinued operations	<u>\$ 8,712</u>	<u>\$ 404</u>	<u>\$ 8,308</u>	<u>2056.4%</u>

All current and prior period income from the following office property disposition is included in discontinued operations for the years ended December 31, 2010 and 2009 (in thousands).

Office Property	Location	Square Feet	Date of Sale	Net Sales Price	Net Book Value of Real Estate	Gain on Sale
One Park Ten	Houston, Texas	163	04/15/10	\$ 14,924	\$ 6,406	\$ 8,518

During the third quarter of 2010, the management agreement for One Park Ten was terminated. This termination took place within six months of the date the property was sold and therefore, the Company reclassified its current and prior period income to discontinued operations.

*Comments are for the year ended December 31, 2009 compared to the year ended December 31, 2008.*

Net loss attributable to common stockholders for the year ended December 31, 2009, was \$16.4 million (\$0.85 per basic common share) as compared to net income attributable to common stockholders of \$4.5 million (\$0.30 per basic common share) for the year ended December 31, 2008. The primary reason for the decrease in net income attributable to common stockholders for the year ended December 31, 2009 compared to the year ended December 31, 2008 is due to the decrease in gain on sale of real estate from discontinued operations in the amount of \$22.6 million, which is attributable to three assets sold in 2008. Net gains on the sale of real estate and involuntary conversion of \$1.3 million, offset by impairment losses totaling \$8.8 million, were included in net loss attributable to common stockholders for the year ended December 31, 2009. Net gains on the sale of real estate of \$22.6 million, offset by impairment losses totaling \$2.5 million, were included in net income attributable to common stockholders for the year ended December 31, 2008. The change in gain (loss) on sale of real estate investments, involuntary conversion and other assets as well as the discussion of other variances for income and expense items that comprise net loss attributable to common stockholders is discussed in detail below.

*Office and Parking Properties.* The analysis below includes changes attributable to same-store properties, acquisitions and dispositions of office properties. Same-store properties are those that the Company owned during both the current and prior year reporting periods, excluding properties classified as discontinued operations. At December 31, 2009, same-store properties consisted of 56 properties comprising 12.1 million square feet. One property with 189,000 square feet was developed in 2008 and does not meet the definition of a same-store property for the year ended December 31, 2009.

The following table represents revenue from office and parking properties for the years ended December 31, 2009 and 2008 (in thousands):

	Year Ended December 31			
	2009	2008	Increase (Decrease)	% Change
Revenue from office and parking properties:				
Same-store properties	\$ 251,381	\$ 253,469	\$ (2,088)	-0.8%
Properties acquired in 2008	7,315	3,763	3,552	94.4%
Office property development	3,673	166	3,507	2112.7%
Properties disposed	582	2,831	(2,249)	-79.4%
Total revenue from office and parking properties	<u>\$ 262,951</u>	<u>\$ 260,229</u>	<u>\$ 2,722</u>	<u>1.0%</u>

Revenue from office and parking properties for same-store properties decreased \$2.1 million or 0.8% for the year ended December 31, 2009 compared to the same period for 2008. The primary reason for the decrease is due to a decrease in lease termination fee income of \$2.7 million, offset by a 2.6% increase in same-store average rental rates for same-store properties for the year ended December 31, 2009 compared to December 31, 2008.

The following table represents property operating expenses for the years ended December 31, 2009 and 2008 (in thousands):

	Year Ended December 31			
	2009	2008	Increase (Decrease)	% Change
Property operating expenses:				
Same-store properties	\$ 120,691	\$ 120,911	\$ (220)	-0.2%
Properties acquired in 2008	3,686	1,768	1,918	108.5%
Office property development	1,667	183	1,484	810.9%
Properties disposed	299	1,547	(1,248)	-80.7%
Total property operating expenses	<u>\$ 126,343</u>	<u>\$ 124,409</u>	<u>\$ 1,934</u>	<u>1.6%</u>

Property operating expenses for same-store properties decreased \$220,000 or 0.2% for the year ended December 31, 2009 compared to the same period for 2008. The primary reason for the decrease is decreased personnel expenses and utilities offset by increased bad debt expense and ad valorem taxes.

Depreciation and amortization expense attributable to office and parking properties increased \$902,000 or 1.0% for the year ended December 31, 2009 compared to the same period for 2008 and is due to the additional depreciation associated with the development of an office property in 2008, the acquisition of office properties in 2008, and improvements to properties.

*Hurricane Ike Impact.* The Company had 13 wholly-owned properties and one jointly-owned property totaling 2.3 million square feet in Houston, Texas, which sustained some property damage from Hurricane Ike on September 13, 2008. Damages for the 14 properties were approximately \$6.3 million. The Company's insurance deductible related to these claims was approximately \$2.2 million. Approximately \$365,000 represents repair and cleanup costs with the remainder representing capitalized costs. In 2009, the Company recorded a net gain of approximately \$823,000 related to an involuntary conversion of the damaged assets.

*Share-Based Compensation Expense.* Share-based compensation expense of \$2.6 million and \$2.3 million was recognized for the years ended December 31, 2009 and 2008, respectively. Total compensation expense related to nonvested awards not yet recognized was \$2.2 million at December 31, 2009. The weighted average period over which this expense is expected to be recognized is approximately 1.8 years.

During the year ended December 31, 2009, a total of 30,416 restricted shares vested and were issued to officers of the Company. These shares vested upon the achievement of the goals of the GEAR UP Plan. The compensation expense relating to the vesting of the GEAR UP performance-based restricted shares of \$1.4 million was recognized in 2008.

During the year ended December 31, 2009, the Board of Directors approved a grant of 120,500 restricted shares to officers of the Company. Excluding forfeitures, there were 119,750 restricted shares outstanding that are valued at \$1.9 million at December 31, 2009. The shares vest at a rate of 29,938 shares per year over the four years following the grant date and were subject to certain performance-based goals that were established and achieved for 2009. Due to the achievement of the 2009 performance goals, 29,941 restricted shares vested and were issued to officers of the Company on February 10, 2010.

*General and Administrative Expense.* General and administrative expense decreased \$3.6 million from \$9.7 million in 2008 to \$6.1 million in 2009 and is primarily attributable to decreased personnel costs and professional fees. Additionally, 2008 included \$1.4 million in expense associated with the vesting of the GEAR UP performance-based restricted stock.

*Gain on Sale of Real Estate Investment and Involuntary Conversions.* For the year ended December 31, 2009, the Company recorded a net gain on the sale of real estate of \$470,000 related to the sale of two office properties and a gain on involuntary conversion of \$823,000 related to assets damaged by Hurricane Ike. For the year ended December 31, 2008, the Company recorded a \$22.6 million gain on the sale of three office properties. This gain has been classified as a gain on sale of real estate from discontinued operations.

*Impairment Loss on Real Estate and Investments in Unconsolidated Joint Ventures.* During the fourth quarter of 2009, the Company recognized a non-cash other-than-temporary impairment loss of \$8.8 million in connection with the valuation of the Company's investments in RubiconPark I, LLC and RubiconPark II, LLC. The impairment is principally due to two customers totaling over 120,000 square feet in the office properties that were unable to meet their rent obligations due to financial difficulty. Additionally, in January 2010, the Company's joint venture partner, Rubicon U.S. REIT, filed for Chapter 11 bankruptcy protection, rendering our partner unable to support their continuing share of the joint venture obligations. During the year ended December 31, 2008, the Company recognized an impairment loss of \$2.5 million on two office properties and 12 acres of land in New Orleans, Louisiana.

*Interest Expense.* Interest expense, including amortization, decreased \$3.7 million or 6.3% for the year ended December 31, 2009 compared to the same period for 2008 and is comprised of the following (in thousands):

	Year Ended December 31			
	2009	2008	Increase (Decrease)	% Change
Interest expense:				
Mortgage interest expense	\$ 47,200	\$ 46,763	\$ 437	0.9 %
Bank line interest expense	5,543	10,196	(4,653)	-45.6 %
Debt prepayment expense	-	13	(13)	-100.0 %
Mortgage loan cost amortization	1,274	1,098	176	16.0 %
Bank loan cost amortization	1,027	696	331	47.6 %
Total interest expense	\$ 55,044	\$ 58,766	\$ (3,722)	-6.3 %

Mortgage interest expense increased \$437,000 or 0.9% for the year ended December 31, 2009 compared to the same period for 2008 and is due to the net effect of new loans placed in 2008 and 2009, the refinancing of one loan in 2008, and the early extinguishment of three mortgages in 2008 and one mortgage in 2009. Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations – Financial Condition – Mortgage Notes Payable," includes a discussion of mortgages placed and extinguished in 2009. The average interest rate on mortgage notes payable at December 31, 2009 and 2008 was 5.6% and 5.5%, respectively.

Bank line interest expense decreased \$4.7 million or 45.6% for the year ended December 31, 2009 compared to the same period for 2008. The change is primarily due to a decrease in average borrowings of \$87.0 million for the year ended December 31, 2009 compared to the year ended December 31, 2008, and a decrease in average interest rate from 4.8% for the year ended December 31, 2008 to 4.3% for the year ended December 31, 2009. The decrease in average borrowings is primarily attributable to proceeds received from the Company's April 2009 \$84.5 million common stock offering.

*Discontinued Operations.* Discontinued operations is comprised of the following for the years ended December 31, 2009 and 2008 (in thousands):

	Year Ended December 31			
	2009	2008	Increase (Decrease)	% Change
Discontinued operations:				
Income (loss) from discontinued operations	\$ 404	\$ (461)	\$ 865	187.6%
Gain on sale of real estate from discontinued operations	-	22,588	(22,588)	-100.0%
Total discontinued operations	\$ 404	\$ 22,127	\$ (21,723)	-98.2%

The gains and all current and prior period income from the following office property dispositions are included in discontinued operations for the years ended December 31, 2009 and 2008 (in thousands):

Office Property	Location	Square Feet	Date of Sale	Net Sales Price	Net Book Value of Real Estate	Gain on Sale
Town Point Center	Norfolk, Virginia	131	07/15/08	\$ 12,180	\$ 10,621	\$ 1,559
Wachovia Plaza	St. Petersburg, Florida	186	08/18/08	25,492	16,154	9,338
Capitol Center	Columbia, South Carolina	460	09/05/08	46,792	35,101	11,691
2008 Dispositions		<u>777</u>		<u>\$ 84,464</u>	<u>\$ 61,876</u>	<u>\$ 22,588</u>
One Park Ten	Houston, Texas	163	04/15/10	\$ 14,924	\$ 6,406	\$ 8,518
2010 Dispositions		<u>163</u>		<u>\$ 14,924</u>	<u>\$ 6,406</u>	<u>\$ 8,518</u>

## Liquidity and Capital Resources

*Statement of Cash Flows.* Cash and cash equivalents were \$19.7 million and \$20.7 million at December 31, 2010 and 2009, respectively. Cash flows provided by operating activities for the years ended December 31, 2010 and 2009, were \$68.1 million and \$69.9 million, respectively. The decrease in cash flows from operating activities of \$1.8 million is primarily attributable to the effect of the timing of receipt of revenues and payment of expenses.

Cash used in investing activities was \$68.1 million and \$15.2 million for the years ended December 31, 2010 and 2009, respectively. The increase in cash used by investing activities of \$52.9 million is primarily due to the effect of investments in and improvements to office properties as well as a decline in net proceeds received from the sale of office properties in 2010.

Cash used in financing activities was \$1.0 million and \$49.4 million for the years ended December 31, 2010 and 2009, respectively. The decrease in cash used in financing activities of \$48.4 million is primarily attributable to a reduction in dividends paid on common stock, decreased payments on bank borrowings, and increased contributions from noncontrolling interest partners, offset by a decrease in proceeds from stock offerings.

*Liquidity.* The Company plans to continue pursuing the acquisition of additional investments that meet the Company's investment criteria and intends to use operating cash flow, proceeds from the refinancing of mortgages, proceeds from the sale of non-strategic assets, proceeds from the sale of portions of owned assets through joint ventures, possible sales of securities, cash balances and the Company's credit facility to fund those acquisitions.

The Company's cash flows are exposed to interest rate changes primarily as a result of its credit facility used to maintain liquidity and fund capital expenditures and expansion of the Company's real estate investment portfolio and operations. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, the Company borrows at fixed rates, but also utilizes an unsecured credit facility.

At December 31, 2010, the Company had a total of \$110.8 million outstanding under the following credit facilities (in thousands):

Credit Facilities	Lender	Interest Rate	Maturity	Outstanding Balance
\$15.0 Million Unsecured Working Capital Revolving Credit Facility (I)	PNC Bank	2.3%	04/27/11	\$ 1,839
\$236.0 Million Unsecured Revolving Credit Facility (I)	Wells Fargo	4.2%	04/27/11	49,000
\$60.0 Million Unsecured Term Loan (I)	Wells Fargo	4.8%	04/27/11	60,000
		<u>4.6%</u>		<u>\$ 110,839</u>

- (I) On January 31, 2011, the Company closed a new \$190.0 million unsecured revolving credit facility and a new \$10.0 million unsecured working capital revolving credit facility that replaced the existing unsecured revolving credit facility, term loan and working capital facility noted above. Excluding the impact of the interest rate swap, the interest rate on the new credit facilities is based on LIBOR plus 275 to 350 basis points, depending upon overall Company leverage, with the current rate set at 325 basis points. Additionally, the Company pays fees on the unused portion of the credit facilities ranging between 40 and 50 basis points based upon usage of the aggregate commitment, with the current rate set at 40 basis points.

The Company's unsecured credit facilities require compliance with a number of restrictive financial covenants, including tangible net worth, fixed charge coverage ratio, unencumbered interest coverage ratio, total debt to total asset ratio, secured debt to total asset value ratio, secured recourse debt to total asset value ratio and unencumbered pool restrictions. At December 31, 2010 the Company was in compliance with these financial covenants.

On January 31, 2011, the Company closed a new \$190.0 million unsecured revolving credit facility and a new \$10.0 million unsecured working capital revolving credit facility. The new credit facilities have an initial term of three years and replaced the existing unsecured revolving credit facility, term loan and working capital facility that were scheduled to mature on April 27, 2011. The Company also has a \$100.0 million interest rate swap associated with the credit facilities that expires March 31, 2011, locking LIBOR at 3.635%. The Company does not anticipate an extinguishment of this interest rate swap prior to its stated expiration as the hedged item relates to interest rate payments on \$100.0 million of LIBOR-based debt and the forecasted transaction remains probable at December 31, 2010. Wells Fargo Securities and JP Morgan Securities LLC acted as Joint Lead Arrangers and Joint Book Runners on the unsecured revolving credit facility. In addition, Wells Fargo Bank, N.A. acted as Administration Agent and JPMorgan Chase Bank, N.A. acted as Syndication Agent. Other participating lenders include PNC Bank, N.A., Bank of America, N.A., US Bank, N.A., Trustmark National Bank, and BancorpSouth Bank. The working capital revolving credit facility was provided solely by PNC Bank, N.A.

During 2008, the Company entered into two interest rate swap agreements. The Company designated the swaps as cash flow hedges of the variable interest rates on the Company's borrowings under the Wells Fargo unsecured revolving credit facility and a portion of the debt secured by the Pinnacle at Jackson Place. These swaps are considered to be fully effective and changes in the fair value of the swaps are recognized in accumulated other comprehensive income (loss). The Company's interest rate hedge contracts at December 31, 2010 and 2009 are summarized as follows (in thousands):

Type of Hedge	Balance Sheet Location	Notional Amount	Maturity Date	Reference Rate	Fixed Rate	Fair Value Liability December 31	
						2010	2009
Swap	Accounts Payable and Other Liabilities	\$ 100,000	03/31/11	1 - Month LIBOR	4.785%	\$ (836)	\$ (3,585)
Swap	Accounts Payable and Other Liabilities	\$ 23,500	12/01/14	1 - Month LIBOR	5.800%	(2,167)	(1,307)
						<u>\$ (3,003)</u>	<u>\$ (4,892)</u>

At December 31, 2010, the Company had \$773.5 million in mortgage notes payable with an average interest rate of 5.9% secured by office properties and \$110.8 million drawn under the Company's unsecured credit facilities. Parkway's pro rata share of unconsolidated joint venture debt was \$2.5 million with an average interest rate of 5.8% at December 31, 2010.

The Company monitors a number of leverage and other financial metrics, including the net debt to total asset value ratio, as defined in the loan agreements for the Company's credit facilities. In addition, the Company also monitors interest, fixed charge and modified fixed charge coverage ratios, as well as the net debt to EBITDA multiple. The interest coverage ratio is computed by comparing the cash interest accrued to EBITDA. The interest coverage ratio for the years ended December 31, 2010 and 2009, was 2.72 and 2.78 times, respectively. The fixed charge coverage ratio is computed by comparing the cash interest accrued, principal payments made on mortgage loans and preferred dividends paid to EBITDA. The fixed charge coverage ratio for the years ended December 31, 2010 and 2009 was 1.85 and 1.95 times, respectively. The modified fixed charge coverage ratio is computed by comparing the cash interest accrued and preferred dividends paid to EBITDA. The modified fixed charge coverage ratio for the years ended December 31, 2010 and 2009, was 2.36 and 2.49 times, respectively. The net debt to EBITDA multiple is computed by comparing Parkway's share of net debt to EBITDA for a trailing 12-month period. The net debt to EBITDA multiple for the years ended December 31, 2010 and 2009, was 5.9 and 6.3 times, respectively. Management believes various leverage and other financial metrics it monitors provide useful information on total debt levels as well as the Company's ability to cover interest, principal and/or preferred dividend payments.

The table below presents the principal payments due for the mortgage notes payable at December 31, 2010 (in thousands).

	Total Mortgage Maturities	Balloon Payments	Recurring Principal Amortization
Schedule of Mortgage Maturities by Years:			
2011	\$ 113,914	\$ 102,694	\$ 11,220
2012	58,034	48,408	9,626
2013	9,943	-	9,943
2014	10,595	-	10,595
2015	37,971	26,891	11,080
2016	398,695	393,875	4,820
Thereafter	144,383	136,029	8,354
Total	<u>\$ 773,535</u>	<u>\$ 707,897</u>	<u>\$ 65,638</u>
Fair value at 12/31/10	<u>\$ 734,637</u>		

On February 8, 2010, the Company obtained a \$35.0 million non-recourse, first mortgage loan related to the refinance of a \$60.0 million recourse mortgage that was scheduled to mature in May 2010. The mortgage loan bears interest at a fixed rate of 7.25% and is secured by the Company's Capital City Plaza building in Atlanta, Georgia. The loan mortgage matures in March 2017 and includes the option to be prepaid at the end of five years at a cost of 1% of the outstanding loan balance. The Company used available proceeds under the credit facility to pay the \$25.0 million difference on the maturing mortgage loan.

On April 15, 2010, the Company sold One Park Ten, a 163,000 square foot office property in Houston, Texas, for a gross sales price of \$15.7 million. Parkway received net cash proceeds from the sale of \$4.8 million which were used to reduce amounts outstanding under the Company's credit facility. The buyer assumed the \$8.7 million first mortgage loan secured by the property. The mortgage loan carried an interest rate of 7.1% and was scheduled to mature in June 2012. During the second quarter of 2010, the Company recorded a \$136,000 loss on extinguishment of debt associated with the buyer's assumption of the mortgage loan.

On April 30, 2010, the Company repaid a \$17.2 million mortgage loan secured by two office properties in Houston, Texas, and one office property in Atlanta, Georgia, utilizing available proceeds under its credit facility. The mortgage loan had an interest rate of 5.3% and was scheduled to mature on May 1, 2010.

On May 28, 2010, the Company obtained a \$23.0 million non-recourse, first mortgage loan secured by Citrus Center, a 261,000 square foot office property in Orlando, Florida. The mortgage loan had a fixed interest rate of 6.3% and a term of ten years. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

Upon maturity on June 1, 2010, the Company paid off its share and its partner's share of a \$10.6 million mortgage note payable secured by the Toyota Center, a 175,000 square foot office property in Memphis, Tennessee, utilizing available proceeds under the Company's credit facility. The mortgage had an interest rate of 7.9%. The Toyota Center office property was previously owned by a consolidated joint venture, Moore Building Associates, LP, in which the Company served as the general partner. However, during the third quarter of 2010, Parkway purchased the partner's interest, thereby placing Parkway's ownership of the property at 100%.

On July 8, 2010, the Company obtained a \$12.0 million non-recourse first mortgage loan secured by the Stein-Mart building, a 196,000 square foot office property in Jacksonville, Florida. The mortgage loan had a fixed interest rate of 6.5% and a term of ten years. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

On August 9, 2010, the Company issued 1.97 million additional shares of its 8.0% Series D Cumulative Redeemable Preferred Stock at a price of \$23.757 per share equating to a yield of 8.500% (excluding accrued dividends). Wells Fargo Securities, LLC and Banc of America Securities LLC acted as joint book-running managers on the transaction. The Company used the net proceeds of approximately \$45.0 million to reduce amounts outstanding under the Company's credit facility and for general corporate purposes.

On October 8, 2010, the Company repaid a \$7.6 million mortgage loan secured by One Jackson Place, a 220,000 square foot office property in Jackson, Mississippi. The mortgage had an interest rate of 7.9% and was scheduled to mature on October 10, 2010. The Company repaid the mortgage loan using available proceeds under the Company's credit facility.

On December 15, 2010, the Company repaid a \$31.0 million mortgage loan secured by Squaw Peak Corporate Center, a 290,000 square foot office complex in Phoenix, Arizona. The mortgage loan had a fixed interest rate of 4.9%. The Company repaid the mortgage loan using available proceeds under the Company's credit facility.

On January 21, 2011, in connection with its purchase of 3344 Peachtree in Atlanta, Georgia, Fund II assumed the \$89.6 million existing non-recourse first mortgage loan, which matures on October 1, 2017, and carries a fixed interest rate of 4.8%. In accordance with GAAP, the mortgage loan was recorded at \$87.2 million to reflect the value of the instrument based on a market interest rate of 5.25% on the date of purchase.

On February 18, 2011, Fund II obtained a \$10.0 million mortgage loan secured by Carmel Crossing, a 326,000 square foot office complex in Charlotte, North Carolina. The mortgage loan has a fixed rate of 5.5% and a term of nine years. Parkway received \$2.4 million in net proceeds from the loan, which represents its 30% equity investment in the property. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

In 2011, the Company has \$102.7 million in remaining secured debt maturities. The Company intends to evaluate each maturity throughout the year and may pursue either dispositions, refinancing with non-recourse, fixed rate mortgage loans, or paying down the existing mortgage loans with available proceeds under the Company's credit facility.

The Company presently has plans to make recurring capital expenditures to its office properties in 2011 of approximately \$46.0 to \$49.0 million on a consolidated basis, with approximately \$34.0 to \$37.0 million representing Parkway's proportionate share of recurring capital improvements. These costs include tenant improvements, leasing costs and recurring building improvements. Additionally, the Company plans to make improvements related to upgrades on properties acquired in recent years that were anticipated at the time of purchase and major renovations that are nonrecurring in nature to office properties in 2011 of approximately \$6.0 to \$7.0 million with approximately \$3.0 to \$4.0 million representing Parkway's proportionate share. All such improvements are expected to be financed by cash flow from the properties, capital expenditure escrow accounts, advances from the Company's credit facility and contributions from partners.

The Company anticipates that its current cash balance, operating cash flows, contributions from partners and borrowings (including borrowings under the working capital revolving credit facility) will be adequate to pay the Company's (i) operating and administrative expenses, (ii) debt service obligations, (iii) distributions to stockholders, (iv) capital improvements, and (v) normal repair and maintenance expenses at its properties, both in the short and long term. In addition, the Company may use proceeds from sales of assets, sales of equity securities and borrowings to fund property acquisitions and pay debts as they mature.

#### Off-Balance Sheet Arrangements

At December 31, 2010, the Company was invested in three unconsolidated joint ventures with unrelated investors. These joint ventures are accounted for using the equity method of accounting, as Parkway does not control, but has the ability to significantly influence the operations of the joint ventures and is not the primary beneficiary. As a result, the assets and liabilities of the joint ventures are not included in Parkway's consolidated balance sheet. Information relating to the unconsolidated joint ventures at December 31, 2010 is detailed below.

Joint Ventures	Property Name	Location	Parkway's Ownership Interest
Wink-Parkway Partnership ("Wink JV")(1)	Wink Building	New Orleans, LA	50.0 %
Parkway Joint Venture, LLC	UBS Building/River Oaks	Jackson, MS	20.0 %
RubiconPark II, LLC (2)	Maitland 200	Orlando, FL	20.0 %

- (1) On February 4, 2011, the Company purchased its partner's 50% interest in the Wink JV for \$250,000. The Wink JV was established for the purpose of owning the Wink Building, a 32,000 square foot office property in New Orleans, Louisiana. Upon completing the purchase of its partner's interest, Parkway now owns 100% of the Wink Building.

- (2) As a result of the Company's partner, Rubicon US REIT, filing for Chapter 11 bankruptcy, new partners were admitted into the partnership. They are JP Morgan Chase, Kaufman Jacobs, LLC and Starwood Capital Group Global, LP.

Cash distributions from unconsolidated joint ventures are made to each partner based on their percentage of ownership in each entity. Cash distributions made to partners in joint ventures where the percentage of debt assumed is disproportionate to the ownership percentage in the venture is distributed based on each partner's share of cash available for distribution before debt service, based on their ownership percentage, less the partner's share of debt service based on the percentage of debt assumed by each partner.

Parkway provides management, construction and leasing services for all of the unconsolidated joint ventures except for the Wink-Parkway Partnership, and receives market-based fees for these services. The portion of fees earned on unconsolidated joint ventures attributable to Parkway's ownership interest is eliminated in consolidation.

At December 31, 2010, the Company's investment in unconsolidated joint ventures was \$2.9 million, or .2% of total assets.

### Contractual Obligations

We have contractual obligations including mortgage notes payable and lease obligations. The table below presents total payments due under specified contractual obligations by year through maturity at December 31, 2010 (in thousands):

Contractual Obligations	Payments Due By Period						
	Total	2011	2012	2013	2014	2015	Thereafter
Long-Term Debt	\$ 1,101,870	\$ 269,802	\$ 96,854	\$ 46,517	\$ 46,517	\$ 72,555	\$ 569,625
Capital Lease Obligations	6,659	198	191	171	138	113	5,848
Operating Leases	1,138	646	371	121	-	-	-
Purchase Obligations	17,938	15,829	609	43	1,380	42	35
Ground Lease Payments	15,519	184	184	184	184	184	14,599
Total	\$ 1,143,124	\$ 286,659	\$ 98,209	\$ 47,036	\$ 48,219	\$ 72,894	\$ 590,107

The amounts presented above for long-term debt and capital lease obligations include principal and interest payments. Long-term debt also includes principal and interest payments due under the Company's previous unsecured revolving credit facility which was replaced with a new \$200.0 million unsecured revolving credit facility on January 31, 2011. The amounts presented for purchase obligations represent the remaining tenant improvement allowances and lease inducement costs for leases in place and commitments for building improvements at December 31, 2010.

Parkway has a 30% ownership interest in Fund II and acts as the general partner. Fund II will be capitalized with approximately \$375.0 million of equity capital and \$375.0 million of non-recourse, fixed-rate first mortgage debt. Parkway's share of the equity capital for the fund will be \$112.5 million. Parkway has four years from the inception date of Fund II, or through May 2012, to identify and acquire properties, with funds contributed as needed to purchase office investments. At March 1, 2011, Fund II had remaining investment capacity of \$552.1 million of which \$81.8 million represents Parkway's remaining equity contribution that would be due in connection with additional investments in office properties.

### Critical Accounting Estimates

*General.* Parkway's investments are generally made in office properties. Therefore, the Company is generally subject to risks incidental to the ownership of real estate. Some of these risks include changes in supply or demand for office properties or customers for such properties in an area in which we have buildings; changes in real estate tax rates; and changes in federal income tax, real estate and zoning laws. The Company's discussion and analysis of financial condition and results of operations is based upon its Consolidated Financial Statements. The Company's Consolidated Financial Statements include the accounts of Parkway Properties, Inc., its majority owned subsidiaries and joint ventures in which the Company has a controlling interest. Parkway also consolidates subsidiaries where the entity is a variable interest entity and Parkway is the primary beneficiary. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from our estimates.

The accounting policies and estimates used in the preparation of our Consolidated Financial Statements are more fully described in the notes to our Consolidated Financial Statements. However, certain of the Company's significant accounting policies are considered critical accounting policies due to the increased level of assumptions used or estimates made in determining their impact on our Consolidated Financial Statements.

Parkway considers critical accounting policies and estimates to be those used in the determination of the reported amounts and disclosure related to the following:

- (1) Revenue recognition;
- (2) Impairment or disposal of long-lived assets;
- (3) Depreciable lives applied to real estate and improvements to real estate;
- (4) Initial recognition, measurement and allocation of the cost of real estate acquired; and
- (5) Allowance for doubtful accounts.

*Revenue Recognition.* Revenue from real estate rentals is recognized on a straight-line basis over the terms of the respective leases. The cumulative difference between lease revenue recognized under this method and contractual lease payment terms is recorded as straight line rent receivable on the accompanying balance sheets.

When the Company is the owner of the tenant improvements, the leased space is ready for its intended use when the tenant improvements are substantially completed. In limited instances, when the customer is the owner of the tenant improvements, straight-line rent is recognized when the tenant takes possession of the unimproved space.

The leases also typically provide for tenant reimbursement of a portion of common area maintenance and other operating expenses. Property operating cost recoveries from customers (“expense reimbursements”) are recognized as revenue in the period in which the expenses are incurred. The computation of expense reimbursements is dependent on the provisions of individual customer leases. Most customers make monthly fixed payments of estimated expense reimbursements. The Company makes adjustments, positive or negative, to expense reimbursement income quarterly to adjust the recorded amounts to the Company’s best estimate of the final property operating costs based on the most recent quarterly budget. After the end of the calendar year, the Company computes each customer’s final expense reimbursements and issues a bill or credit for the difference between the actual amount and the amounts billed monthly during the year.

Management company income represents market-based fees earned from providing management, construction, leasing, brokerage and acquisition services to third parties. Management fee income is computed and recorded monthly in accordance with the terms set forth in the stand alone management service agreements. Leasing and brokerage commissions are recognized pursuant to the terms of the stand alone agreements at the time underlying leases are signed, which is the point at which the earnings process is complete and collection of the fees is reasonably assured. Fees relating to the purchase or sale of property are recognized when the earnings process is complete and collection of the fees is reasonably assured, which usually occurs at closing. All fees on Company-owned properties and consolidated joint ventures are eliminated in consolidation. The portion of fees earned on unconsolidated joint ventures attributable to Parkway’s ownership interest is eliminated in consolidation.

*Impairment or Disposal of Long-Lived Assets.* Changes in the supply or demand of tenants for our properties could impact our ability to fill available space. Should a significant amount of available space exist for an extended period, our investment in a particular office building may be impaired. We evaluate our real estate assets upon the occurrence of significant adverse changes to assess whether any impairment indicators are present that affect the recovery of the carrying amount.

We classify certain assets as held for sale based on management having the authority and intent of entering into commitments for sale transactions to close in the next twelve months. We consider an office property as held for sale once we have executed a contract for sale, allowed the buyer to complete its due diligence review and received a substantial non-refundable deposit. Until a buyer has completed its due diligence review of the asset, necessary approvals have been received and substantive conditions to the buyer’s obligation to perform have been satisfied, we do not consider a sale to be probable. When the Company identifies an asset as held for sale, we estimate the net realizable value of such asset and discontinue recording depreciation on the asset. The Company records assets held for sale at the lower of carrying amount or fair value less cost to sell. With respect to assets classified as held and used, we periodically review these assets to determine whether our carrying amount will be recovered. A long-lived asset is considered impaired if its carrying value is not recoverable and exceeds the sum of undiscounted cash flows expected to result from the use and eventual disposal of the asset. The cash flow and fair value estimates are based on assumptions about employing the asset for its remaining useful life. Factors considered in projecting future cash flows include but are not limited to: existing leases, future leasing and terminations, market rental rates, capital improvements, tenant improvements, leasing commissions, inflation and other known variables. Upon impairment, the Company would recognize an impairment loss to reduce the carrying value of the long-lived asset to our estimate of its fair value. The estimate of fair value and cash flows to be generated from properties requires us to make assumptions. If one or more assumptions prove incorrect or if the assumptions change, the recognition of an impairment loss on one or more properties may be necessary in the future, which would result in a decrease to net income.

During the fourth quarter of 2010, the Company recorded non-cash impairment losses of \$4.1 million related to non-strategic office properties targeted for sale in Columbia, South Carolina and Richmond, Virginia. The Company began actively marketing these assets around year end. As part of the marketing process, the Company estimated that the fair value of these assets was less than their carrying value at December 31, 2010. Therefore, an impairment loss for the assets was recorded during the fourth quarter of 2010.

*Depreciable Lives Applied to Real Estate and Improvements to Real Estate.* Depreciation of buildings and parking garages is computed using the straight-line method over an estimated useful life of 40 years. Depreciation of building improvements is computed using the straight-line method over the estimated useful life of the improvement. If our estimate of useful lives proves to be incorrect, the depreciation expense recognized would also be incorrect. Therefore, a change in the estimated useful lives assigned to buildings and improvements would result in either an increase or decrease in depreciation expense, which would result in an increase or decrease in earnings.

*Initial Recognition, Measurement and Allocation of the Cost of Real Estate Acquired.* Parkway accounts for its acquisitions of real estate by allocating the fair value of real estate to acquired tangible assets, consisting of land, building, garage, building improvements and tenant improvements, identified intangible assets and liabilities, consisting of the value of above and below market debt assumed with the acquisition.

Parkway allocates the purchase price of properties to tangible and intangible assets based on fair values. The Company determines the fair value of the tangible and intangible components using a variety of methods and assumptions all of which result in an approximation of fair value. Differing assumptions and methods could result in different estimates of fair value and thus, a different purchase price allocation and corresponding increase or decrease in depreciation and amortization expense.

*Allowance for Doubtful Accounts.* Accounts receivable are reduced by an allowance for amounts that may become uncollectible in the future. Our receivable balance is comprised primarily of rents and operating expense recoveries due from customers. Change in the supply of or demand for office properties could impact our customers' ability to honor their lease obligations, which could in turn affect our recorded revenues and estimates of the collectability of our receivables. Revenue from real estate rentals is recognized and accrued as earned on a pro rata basis over the term of the lease. We regularly evaluate the adequacy of our allowance for doubtful accounts considering such factors as credit quality of our customers, delinquency of payment, historical trends and current economic conditions. We provide an allowance for doubtful accounts for customer balances that are over 90 days past due and for specific customer receivables for which collection is considered doubtful. Actual results may differ from these estimates under different assumptions or conditions, which could result in an increase or decrease in bad debt expense.

## Recent Accounting Pronouncements

Effective January 1, 2010, the Company adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2009-16, "Topic 860 – Transfers and Servicing" ("ASU 2009-16"), which amends and codifies SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities," by: eliminating the concept of a qualifying special-purpose entity ("QSPE"); clarifying and amending the derecognition criteria for a transfer to be accounted for as a sale; amending and clarifying the unit of account eligible for sale accounting; and requiring that a transferor initially measure at fair value and recognize all assets obtained (for example, beneficial interests) and liabilities incurred as a result of a transfer of an entire financial asset or group of financial assets accounted for as a sale. Additionally, on and after the effective date, existing QSPEs (as defined under previous accounting standards) must be evaluated for consolidation by reporting entities in accordance with the applicable consolidation guidance. This standard requires enhanced disclosures about, among other things, a transferor's continuing involvement with transfers of financial assets accounted for as sales, the risks inherent in the transferred financial assets that have been retained, and the nature and financial effect of restrictions on the transferor's assets that continue to be reported in the consolidated balance sheets. The application of ASU 2009-16 did not have a material impact on the Company's overall financial position and results of operations upon adoption.

Effective January 1, 2010, the Company adopted FASB ASU 2009-17, "Topic 810 – Consolidations" ("ASU 2009-17"), which amends and codifies FIN 46(R), "Consolidation of Variable Interest Entities," and changes the consolidation guidance applicable to a VIE. It also amends the guidance governing the determination of whether an enterprise is the primary beneficiary of a VIE, and is, therefore, required to consolidate an entity, by requiring a qualitative analysis rather than a quantitative analysis. The qualitative analysis will include, among other things, consideration of who has the power to direct the activities of the entity that most significantly impact the entity's economic performance and who has the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. This standard also requires continuous reassessments of whether an enterprise is the primary beneficiary of a VIE. Previously, FIN 46(R) required reconsideration of whether an enterprise was the primary beneficiary of a VIE only when specific events had occurred. QSPEs, which were previously exempt from the application of this standard, are now subject to its provisions. This standard also requires enhanced disclosures about an enterprise's involvement with a VIE. The application of ASU 2009-17 did not have a material impact on the Company's overall financial position and results of operations upon adoption as the Company will continue to account for its unconsolidated joint ventures under the equity method of accounting.

In 2009, the FASB issued ASU 2010-06, “Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures About Fair Value Measurements,” which amends certain disclosure requirements of ASC 820. This ASU provides additional disclosures for transfers in and out of Levels 1 and 2 and for activity in Level 3. This ASU also clarifies certain other existing disclosure requirements including level of desegregation and disclosure around inputs and valuation techniques. ASU 2010-06 became effective for interim and annual reporting periods beginning after December 15, 2009, and the Company has adopted the provisions and provided the necessary disclosures for the year ended December 31, 2010.

During the first quarter of 2010, the Company adopted FASB ASU 2010-09, “Topic 855 – Subsequent Events: Amendments to Certain Recognition and Disclosure Requirements” (“ASU 2010-09”), which amends Topic 855 so that SEC filers are no longer required to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements. The application of FASB ASU 2010-09 did not have a material impact on the Company’s overall financial position and results of operations upon adoption.

In July 2010, the FASB issued ASU 2010-20, “Topic 310 – Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses”, which significantly expands existing disclosures about the credit quality of financing receivables and their allowance for credit losses. ASU 2010-20 will require disclosures as of the end of a reporting period such as accounting policies for each portfolio segment, ending balances of allowance for credit losses and credit-quality indicators in addition to added disclosures about activity related to financing receivables or credit losses. The period end disclosure requirements of ASU 2010-20 will be effective as of the beginning of interim and annual reporting periods that begin after December 15, 2010. The activity disclosure requirements of ASU 2010-20 will be effective as of the beginning of annual reporting periods that begin after December 15, 2010. The Company is currently evaluating the impact of ASU 2010-20 on the Company’s consolidated financial statements.

### Funds From Operations

Management believes that funds from operations attributable to common shareholders (“FFO”) is an appropriate measure of performance for equity REITs and computes this measure in accordance with the NAREIT definition of FFO. Funds from operations is defined by NAREIT as net income (computed in accordance with GAAP), excluding gains or losses from sales of property and extraordinary items under GAAP, plus depreciation and amortization, and after adjustments to derive the Company’s pro rata share of FFO of consolidated and unconsolidated joint ventures. Further, the Company does not adjust FFO to eliminate the effects of non-recurring charges. The Company believes that FFO is a meaningful supplemental measure of its operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, as reflected through depreciation and amortization expenses. However, since real estate values have historically risen or fallen with market and other conditions, many industry investors and analysts have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient. Thus, NAREIT created FFO as a supplemental measure of operating performance for real estate investment trusts that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP. The Company believes that the use of FFO, combined with the required GAAP presentations, has been beneficial in improving the understanding of operating results of real estate investment trusts among the investing public and making comparisons of operating results among such companies more meaningful. FFO as reported by Parkway may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition. Funds from operations do not represent cash generated from operating activities in accordance with accounting principles generally accepted in the United States and is not an indication of cash available to fund cash needs. Funds from operations should not be considered an alternative to net income as an indicator of the Company’s operating performance or as an alternative to cash flow as a measure of liquidity.

The following table presents a reconciliation of the Company’s net income to FFO for the years ended December 31, 2010 and 2009 (in thousands):

	Year Ended	
	December 31	
	2010	2009
Net loss for Parkway Properties, Inc.	\$ (2,618)	\$ (11,603)
Adjustments to derive funds from operations:		
Depreciation and amortization	92,190	92,126
Depreciation and amortization – discontinued operations	121	600
Noncontrolling interest depreciation and amortization	(17,668)	(20,138)
Adjustments for unconsolidated joint ventures	342	848
Preferred dividends	(6,325)	(4,800)
Gain on sale of real estate	(8,518)	(470)
Funds from operations attributable to common shareholders (1)	\$ 57,524	\$ 56,563

- (l) Funds from operations attributable to common shareholders for the years ended December 31, 2010 and 2009 include the following items (in thousands):

	Year Ended December 31	
	2010	2009
Gain on involuntary conversion	\$ 40	\$ 823
Non-cash impairment losses	(4,120)	(8,817)
Loss on extinguishment of debt	(189)	-
Acquisition costs	(266)	-
Expenses related to litigation	(1,251)	-
Lease termination fee income	8,706	1,167

### Inflation

Inflation has not had a significant impact on the Company because of the relatively low inflation rate in the Company's geographic areas of operation. Additionally, most of the leases require the customers to pay their pro rata share of operating expenses, including common area maintenance, real estate taxes, utilities and insurance, thereby reducing the Company's exposure to increases in operating expenses resulting from inflation. The Company's leases typically have three to seven year terms, which may enable the Company to replace existing leases with new leases at market base rent, which may be higher or lower than the existing lease rate.

### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See information appearing under the caption "Liquidity" appearing in "Management's Discussion and Analysis of Financial Condition and Results of Operations".

At December 31, 2010, total outstanding debt was \$884.4 million of which \$134.3 million or 15.2% was variable rate debt. If market rates of interest on the variable rate debt fluctuate by 10% (or approximately 49 basis points), the change in interest expense on the variable rate debt would increase or decrease future earnings and cash flows by approximately \$662,000 annually.

### CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of Parkway's disclosure controls and procedures at December 31, 2010. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that Parkway's disclosure controls and procedures were effective at December 31, 2010. There were no changes in the Company's internal control over financial reporting during the fourth quarter of 2010 that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting.

The Company's internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to the financial statement preparation and presentation.

### Management's Report on Internal Control Over Financial Reporting

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's management has assessed the effectiveness of the Company's internal control over financial reporting at December 31, 2010. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control – Integrated Framework*. Based on our assessment we have concluded that, at December 31, 2010, the Company's internal control over financial reporting is effective based on those criteria. Our independent registered public accounting firm, KPMG LLP, has provided an audit report on the Company's internal control over financial reporting at December 31, 2010.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders  
Parkway Properties, Inc.:

We have audited the accompanying consolidated balance sheets of Parkway Properties, Inc. and subsidiaries as of December 31, 2010 and 2009, and the related consolidated statements of operations, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2010. In connection with our audits of the consolidated financial statements, we also have audited financial statement schedules II, III and IV. These consolidated financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Parkway Properties, Inc. and subsidiaries as of December 31, 2010 and 2009, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Parkway Properties, Inc.'s internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 4, 2011, expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
December 31, 2010

**NOTE A - Summary of Significant Accounting Policies**

**Basis of Presentation and Principles of Consolidation**

The accompanying financial statements are prepared following U.S. generally accepted accounting principles ("GAAP") and the requirements of the Securities and Exchange Commission ("SEC").

The consolidated financial statements include the accounts of Parkway Properties, Inc. ("Parkway" or "the Company"), its wholly-owned subsidiaries and joint ventures in which the Company has a controlling interest. The other partners' equity interests in the consolidated joint ventures are reflected as noncontrolling interests in the consolidated financial statements. Parkway also consolidates subsidiaries where the entity is a variable interest entity ("VIE") and Parkway is the primary beneficiary and has the power to direct the activities of the VIE and the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. At December 31, 2010 and 2009, Parkway did not have any VIEs that required consolidation. All significant intercompany transactions and accounts have been eliminated in the accompanying financial statements.

The Company also consolidates certain joint ventures where the Company is the sole general partner and the limited partners do not possess kick-out rights or other substantive participating rights. The equity method of accounting is used for those joint ventures that do not meet the criteria for consolidation and where Parkway exercises significant influence but does not control these joint ventures.

**Business**

The Company's operations are exclusively in the real estate industry, principally the operation, leasing, acquisition and ownership of office buildings.

**Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although the Company believes the assumptions and estimates made are reasonable and appropriate, as discussed in the applicable sections throughout these consolidated financial statements, different assumptions and estimates could materially impact reported results. The current economic environment has increased the degree of uncertainty inherent in these estimates and assumptions, therefore, changes in market conditions could impact the Company's future operating results. The Company's most significant estimates relate to impairments on real estate, purchase price allocations and allowance for doubtful accounts.

**Real Estate Properties**

Real estate properties are carried at cost less accumulated depreciation. Cost includes the carrying amount of the Company's investment plus any additional consideration paid, liabilities assumed, and improvements made subsequent to acquisition. Depreciation of buildings and building improvements is computed using the straight-line method over the estimated useful lives of the assets. Depreciation of tenant improvements, including personal property, is computed using the straight-line method over the lesser of useful life or the term of the lease involved. Maintenance and repair expenses are charged to expense as incurred.

Balances of major classes of depreciable assets (in thousands) and their respective estimated useful lives are:

Asset Category	Estimated Useful Life	December 31 2010	December 31 2009
Land	Non-depreciable	\$ 176,614	\$ 170,106
Buildings and garages	40 years	1,278,275	1,280,779
Building improvements	7 to 40 years	121,540	116,471
Tenant improvements	Lesser of useful life or term of lease	178,881	170,684
		\$ 1,755,310	\$ 1,738,040

Depreciation expense related to these assets of \$67.4 million, \$67.6 million, and \$67.3 million was recognized in 2010, 2009 and 2008, respectively.

The Company evaluates its real estate assets upon occurrence of significant adverse changes in its operations to assess whether any impairment indicators are present that affect the recovery of the carrying amount. The carrying amount includes the net book value of tangible and intangible assets. Real estate assets are classified as held for sale or held and used. Parkway records assets held for sale at the lower of carrying amount or fair value less cost to sell. With respect to assets classified as held and used, Parkway recognizes an impairment loss to the extent the carrying amount is not recoverable and exceeds the sum of undiscounted future cash flows expected to result from the use and eventual disposition of the asset. The cash flow and fair value estimates are based on assumptions about employing the asset for its remaining useful life. Factors considered in projecting future cash flows include but are not limited to: existing leases, future leasing and terminations, market rental rates, capital improvements, tenant improvements, leasing commissions, inflation and other known variables. This market information is considered a Level 3 input as defined by ASC 820, "Fair Value Measurements and Disclosures," ("ASC 820"). Upon impairment, Parkway recognizes an impairment loss to reduce the carrying value of the real estate asset to the estimate of its fair value.

The Company recognizes gains from sales of real estate upon the realization at closing of the transfer of rights of ownership to the purchaser, receipt from the purchaser of an adequate cash down payment and adequate continuing investment by the purchaser.

The company classifies certain assets as held for sale based on management having the authority and intent of entering into commitments for sale transactions to close in the next twelve months. The Company considers an office property as held for sale once it has executed a contract for sale, allowed the buyer to complete its due diligence review and received a substantial non-refundable deposit. Until a buyer has completed its due diligence review of the asset, necessary approvals have been received and substantive conditions to the buyer's obligation to perform have been satisfied, the Company does not consider a sale to be probable. When the Company identifies an asset as held for sale, it estimates the net realizable value of such asset and discontinues recording depreciation on the asset. The Company records assets held for sale at the lower of carrying amount or fair value less cost to sell.

Land available for sale (see Note E) is carried at cost and is subject to evaluation for impairment.

#### Purchase Price Allocation

Parkway allocates the purchase price of real estate to tangible and intangible assets and liabilities based on fair values. Tangible assets consist of land, building, garage, building improvements and tenant improvements. Intangible assets and liabilities consist of the value of above and below market leases, lease costs, the value of in-place leases, customer relationships and any value attributable to above or below market debt assumed with the acquisition.

The Company may engage independent third-party appraisers to perform the valuations used to determine the fair value of these identifiable tangible and intangible assets. These valuations and appraisals use commonly employed valuation techniques, such as discounted cash flow analyses. Factors considered in these analyses include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. Parkway also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. In estimating carrying costs, the Company includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods depending on specific local market conditions and depending on the type of property acquired. Additionally, Parkway estimates costs to execute similar leases including leasing commissions, legal and other related expenses to the extent that such costs are not already incurred in connection with a new lease origination as part of the transaction.

The fair value of above or below market in-place lease values is the present value of the difference between the contractual amount to be paid pursuant to the in-place lease and the estimated current market lease rate expected over the remaining non-cancelable life of the lease. The capitalized above market lease values are amortized as a reduction of rental income over the remaining term of the respective leases. The capitalized below market lease values are amortized as an increase to rental income over the remaining term of the respective leases. Total amortization for above and below market leases was a net increase of rental income of \$566,000 for the year ended December 31, 2010, and a net reduction of rental income of \$51,000 and \$45,000 for the years ended December 31, 2009 and 2008, respectively.

Amortization of above and below market leases is projected as a net increase (decrease) to rental income as follows for the next five years (in thousands):

	<u>Amount</u>
2011	\$ 1,058
2012	67
2013	(274)
2014	(139)
2015	54

The fair value of customer relationships represents the quantifiable benefits related to developing a relationship with the current customer. Examples of these benefits would be growth prospects for developing new business with the existing customer, the ability to attract similar customers to the building, the tenant's credit quality and expectations of lease renewals (including those existing under the terms of the lease agreement), among other factors. Management believes that there would typically be little value associated with customer relationships that is in excess of the value of the in-place lease and their typical renewal rates. Any value assigned to customer relationships is amortized over the remaining terms of the respective leases plus any expected renewal periods as a lease cost amortization expense. Currently, the Company has no value assigned to customer relationships.

The fair value of at market in-place leases is the present value associated with re-leasing the in-place lease as if the property was vacant. Factors to be considered include estimates of carrying costs during hypothetical expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, the Company includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods. The value of at market in-place leases is amortized as a lease cost amortization expense over the expected life of the lease. Total amortization expense for the value of in-place leases was \$14.2 million, \$14.0 million and \$15.0 million for the years ended December 31, 2010, 2009 and 2008, respectively.

Amortization expense for the value of in-place leases is projected as follows for the next five years (in thousands):

	<u>Amount</u>
2011	\$ 10,131
2012	6,564
2013	5,134
2014	3,987
2015	3,120

A separate component of the fair value of in-place leases is identified for the lease costs. The fair value of lease costs represents the estimated commissions and legal fees paid in connection with the current leases in place. Lease costs are amortized over the non-cancelable terms of the respective leases as lease cost amortization expense.

In no event does the amortization period for intangible assets exceed the remaining depreciable life of the building. Should a customer terminate its lease, the unamortized portion of the tenant improvement, in-place lease value, lease cost and customer relationship intangibles would be charged to expense. Additionally, the unamortized portion of above market in-place leases would be recorded as a reduction to rental income and the below market in-place lease value would be recorded as an increase to rental income.

## **Mortgage Loans Receivable**

Parkway records its mortgage loans receivable at the stated principal amount net any premium or discount. At December 31, 2010 and 2009, the carrying amount of mortgage loans receivable was \$10.3 million and \$8.1 million, respectively. The Company recognizes the premium or discount over the life of the mortgage loan using the effective interest method. Parkway evaluates the collectability of principal and interest on its mortgage loans, if circumstances warrant, to determine whether it is impaired. A loan is impaired when based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the existing contractual terms. When a loan is impaired, the amount of the loss provision is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flow at the loan's effective interest rate. No impairment loss has been recognized in 2010 and 2009 in connection with the mortgage loans receivable.

## **Investment in Unconsolidated Joint Ventures**

At December 31, 2010 and 2009, Parkway had a non-controlling interest in three and four unconsolidated joint ventures, respectively, which are accounted for using the equity method of accounting. Therefore, Parkway reports its share of income and losses based on its economic interest in these entities, as measured by its ownership interest or expected cash distributions if materially different than distributions based on ownership interest. Parkway classifies its interests as investments in unconsolidated joint ventures when it holds less than a majority voting interest in the entity and does not have control, based on the terms of the joint venture agreements, to make decisions about the entities' significant activities such as major leases, encumbering the entities with debt, major capital expenditures and whether to dispose of the entities.

When circumstances indicate there may have been a loss in value of an equity investment, the Company evaluates the investment for impairment by estimating its ability to recover its investment from future cash flows. If Parkway determines the loss in value is other than temporary, the Company recognizes an impairment charge to reflect the investment at fair value. The use of projected future cash flows and other estimates of fair value, the determination of when a loss is other than temporary, and the calculation of the amount of the loss are complex and subjective. Use of other estimates and assumptions may result in different conclusions. Changes in economic and operating conditions that occur subsequent to the Company's review could impact these assumptions and result in future impairment charges of our equity investments.

During the fourth quarter of 2009, Parkway recorded non-cash other-than-temporary impairment losses totaling \$8.8 million in connection with the valuation of two investments in unconsolidated joint ventures, RubiconPark I, LLC and RubiconPark II, LLC. The impairment is principally due to two customers totaling over 120,000 square feet in the office properties that were unable to meet their rent obligations due to financial difficulty. Additionally, in January 2010, the Company's joint venture partner, Rubicon U.S. REIT, filed for Chapter 11 bankruptcy protection, rendering our partner unable to support their continuing share of the joint venture obligations. During the third quarter of 2010, the Company purchased the first mortgage loan associated with this joint venture for a net purchase price of \$33.0 million. During the fourth quarter of 2010, the Company, as holder of the mortgage, foreclosed on the three properties, which served as collateral for the associated loan and sold the properties to Parkway Properties Office Fund II, LP ("Fund II"). As a result of the sale to Fund II, Parkway's ownership in these assets increased from 20% to 30%.

## **Allowance for Doubtful Accounts**

Accounts receivable are reduced by an allowance for amounts that the Company estimates to be uncollectible. The receivable balance is comprised primarily of rent and expense reimbursement income due from the customers. Management evaluates the adequacy of the allowance for doubtful accounts considering such factors as the credit quality of our customers, delinquency of payment, historical trends and current economic conditions. The Company provides an allowance for doubtful accounts for customer balances that are over 90 days past due and for specific customer receivables for which collection is considered doubtful.

## **Cash Equivalents**

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

## Noncontrolling Interest

### *Noncontrolling Interest – Real Estate Partnerships*

At December 31, 2010 and 2009, the Company has an interest in two joint ventures whose operations are included in its consolidated financial statements. The Company owns a 25% and 30% interest in Parkway Properties Office Fund, LP (“Fund I”) and Fund II, respectively.

Parkway serves as the general partner of Fund I and provides asset management, property management, leasing and construction management services to the fund, for which it is paid market-based fees. Cash distributions from the fund are made to each joint venture partner based on their percentage of ownership in the fund. Since Parkway is the sole general partner and has the authority to make major decisions on behalf of the fund, Parkway is considered to have a controlling interest. Accordingly, Parkway is required to consolidate the fund in its consolidated financial statements. At February 15, 2008, Fund I was fully invested.

On May 14, 2008, Parkway formed Fund II, a \$750.0 million discretionary fund with the Teacher Retirement System of Texas (“TRST”), for the purpose of acquiring high-quality multi-tenant office properties. TRST is a 70% investor, and Parkway is a 30% investor in the fund, which will be capitalized with approximately \$375.0 million of equity capital and \$375.0 million of non-recourse, fixed-rate first mortgage debt. Parkway’s share of the equity contribution for the fund is \$112.5 million. The Company intends to fund its share of equity contributions with proceeds from asset sales, line of credit advances and/or sales of equity securities. The fund targets investments in office buildings in Houston, Austin, San Antonio, Chicago, Atlanta, Phoenix, Charlotte, Memphis, Nashville, Jacksonville, Orlando, Tampa/St. Petersburg, Ft. Lauderdale, as well as other growth markets to be determined at Parkway’s discretion.

Parkway serves as the general partner of Fund II and provides asset management, property management, leasing and construction management services for the fund, for which it will be paid market-based fees. Cash distributions from the fund will be made to each joint venture partner based on the percentage of ownership in the fund. Since Parkway is the sole general partner and has the authority to make major decisions on behalf of the fund, Parkway is considered to have a controlling interest. Accordingly, Parkway is required to consolidate the fund in its consolidated financial statements. At December 31, 2010, Fund II includes investments in three office properties totaling \$33.0 million. In January 2011, Fund II purchased an investment in an office property totaling \$160.0 million, which places total Fund II investments to date at \$193.0 million. There is approximately \$552.1 million in remaining capacity for Fund II investments.

Parkway Moore, LLC and Moore Building Associates, LP (“MBALP”) were established for the purpose of owning a commercial office building (the Toyota Center in Memphis, Tennessee), with Parkway serving as general partner. The entities were previously classified as consolidated joint ventures. However, during the third quarter of 2010, Parkway purchased the partner’s 25% interest, thereby placing Parkway’s ownership at 100% and removing the classification as a consolidated joint venture.

Non-controlling interest in real estate partnerships represents the other partners’ proportionate share of equity in the partnerships discussed above at December 31, 2010. Income is allocated to non-controlling interest based on the weighted average percentage ownership during the year.

## Revenue Recognition

Revenue from real estate rentals is recognized on a straight-line basis over the terms of the respective leases. The cumulative difference between lease revenue recognized under this method and contractual lease payment terms is recorded as straight-line rent receivable on the accompanying balance sheets. The straight-line rent adjustment increased revenue by \$4.2 million, \$6.6 million and \$3.9 million in 2010, 2009 and 2008, respectively.

When the Company is the owner of the tenant improvements, the leased space is ready for its intended use when the tenant improvements are substantially completed. In limited instances, when the tenant is the owner of the tenant improvements, straight-line rent is recognized when the tenant takes possession of the unimproved space.

The leases also typically provide for tenant reimbursement of a portion of common area maintenance and other operating expenses. Property operating cost recoveries from customers (“expense reimbursements”) are recognized as revenue in the period in which the expenses are incurred. The computation of expense reimbursements is dependent on the provisions of individual customer leases. Most customers make monthly fixed payments of estimated expense reimbursements. The Company makes adjustments, positive or negative, to expense reimbursement income quarterly to adjust the recorded amounts to the Company’s best estimate of the final property operating costs based on the most recent quarterly budget. After the end of the calendar year, the Company computes each customer’s final expense reimbursements and issues a bill or credit for the difference between the actual amount and the amounts billed monthly during the year.

Management company income represents market-based fees earned from providing management, construction, leasing, brokerage and acquisition services to third parties. Management fee income is computed and recorded monthly in accordance with the terms set forth in the stand alone management service agreements. Leasing and brokerage commissions are recognized pursuant to the terms of the stand alone agreements at the time underlying leases are signed, which is the point at which the earnings process is complete and collection of the fees is reasonably assured. Fees relating to the purchase or sale of property are recognized when the earnings process is complete and collection of the fees is reasonably assured, which usually occurs at closing. All fees on Company-owned properties and consolidated joint ventures are eliminated in consolidation. The Company recognizes its share of fees earned from unconsolidated joint ventures in management company income.

#### **Amortization**

Debt origination costs are deferred and amortized using a method that approximates the effective interest method over the term of the loan. Leasing costs are deferred and amortized using the straight-line method over the term of the respective lease.

#### **Early Extinguishment of Debt**

When outstanding debt is extinguished, the Company records any prepayment premium and unamortized loan costs to interest expense.

#### **Derivative Financial Instruments**

The Company recognizes all derivative instruments on the balance sheet at their fair value. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income (loss), depending on whether a derivative is designated as part of a hedge transaction and, if it is, the type of hedge transaction. The ineffective portion of the hedge, if any, is immediately recognized in earnings.

#### **Share-Based and Long-Term Compensation**

Effective May 1, 2010, the stockholders of the Company approved Parkway's 2010 Omnibus Equity Incentive Plan (the "2010 Equity Plan") that authorized the grant of up to 600,000 equity based awards to employees and directors of the Company. The 2010 Equity Plan replaces the Company's 2003 Equity Incentive Plan and the 2001 Non-Employee Directors Equity Compensation Plan. At present, it is Parkway's intention to grant restricted shares and/or deferred incentive share units instead of stock options although the 2010 Equity Plan authorizes various forms of incentive awards, including options. The 2010 Equity Plan has a ten-year term.

Compensation expense, including estimated forfeitures, for service-based awards is recognized over the expected vesting period. The total compensation expense for the long-term equity incentive awards granted under the FOCUS Plan is based upon the fair value of the shares on the grant date, adjusted for estimated forfeitures. Time-based restricted shares and deferred incentive share units are valued based on the New York Stock Exchange closing market price of Parkway common shares (NYSE ticker symbol, PKY) as of the date of grant. The grant date fair value for awards that are subject to market conditions is determined using a simulation pricing model developed to specifically accommodate the unique features of the awards.

Restricted shares and deferred incentive share units are forfeited if an employee leaves the Company before the vesting date except in the case of the employee's death or permanent disability or upon termination following a change of control. Shares and/or units that are forfeited become available for future grant under the 2010 Equity Plan.

The FOCUS Plan also includes a long-term cash incentive that was designed to reward significant outperformance over the three year period which began July 1, 2010. The total compensation expense for the long-term cash incentive awards granted under the FOCUS Plan is based upon the estimated fair value of the award on the grant date and adjusted as necessary each reporting period. The long-term cash incentive awards are accounted for as a liability-classified award on the Company's 2010 consolidated balance sheet. The grant date and quarterly fair value estimates for awards that are subject to a market condition are determined using a simulation pricing model developed to specifically accommodate the unique features of the awards.

#### **Income Taxes**

Effective January 1, 1997, the Company elected to be taxed as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended. The Company completed its reorganization into the Umbrella Partnership REIT ("UPREIT") structure effective January 1, 1998. The Company believes that the UPREIT structure will enable it to pursue additional investment opportunities by having the ability to offer tax-advantaged operating partnership units to property owners in exchange for properties.

A corporate REIT is a legal entity that holds real estate assets, and through distributions to stockholders, is exempt from the payment of Federal income taxes at the corporate level. To maintain qualification as a REIT, the Company is subject to a number of organizational and operational requirements, including a requirement that it currently distribute to stockholders at least 90% of its annual taxable income.

### Net Income (Loss) Per Common Share

Basic earnings per share (“EPS”) is computed by dividing income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the year. In arriving at net income (loss) attributable to common stockholders, preferred stock dividends are deducted. Diluted EPS reflects the potential dilution that could occur if share equivalents such as employee stock options, restricted shares and deferred incentive share units were exercised or converted into common stock that then shared in the earnings of Parkway.

The computation of diluted EPS is as follows:

	Year Ended December 31		
	2010	2009	2008
	(in thousands, except per share data)		
Numerator:			
Basic and diluted net income (loss) attributable to common stockholders	\$ (8,943)	\$ (16,403)	\$ 4,474
Denominator:			
Basic and diluted weighted average shares	21,421	19,304	15,023
Diluted net income (loss) per share attributable to Parkway Properties, Inc.	\$ (0.42)	\$ (0.85)	\$ 0.30

The computation of diluted EPS for 2010, 2009 and 2008 did not include the effect of employee stock options, deferred incentive share units and restricted shares because their inclusion would have been anti-dilutive.

### Reclassifications

Certain reclassifications have been made in the 2009 and 2008 consolidated financial statements to conform to the 2010 classifications with no impact on previously reported net income or equity.

### Subsequent Events

The Company has evaluated all subsequent events through the issuance date of the consolidated financial statements.

### Recent Accounting Pronouncements

Effective January 1, 2010, the Company adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2009-16, “Topic 860 – Transfers and Servicing” (“ASU 2009-16”), which amends and codifies SFAS No. 140, “Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities,” by: eliminating the concept of a qualifying special-purpose entity (“QSPE”); clarifying and amending the derecognition criteria for a transfer to be accounted for as a sale; amending and clarifying the unit of account eligible for sale accounting; and requiring that a transferor initially measure at fair value and recognize all assets obtained (for example, beneficial interests) and liabilities incurred as a result of a transfer of an entire financial asset or group of financial assets accounted for as a sale. Additionally, on and after the effective date, existing QSPEs (as defined under previous accounting standards) must be evaluated for consolidation by reporting entities in accordance with the applicable consolidation guidance. This standard requires enhanced disclosures about, among other things, a transferor’s continuing involvement with transfers of financial assets accounted for as sales, the risks inherent in the transferred financial assets that have been retained, and the nature and financial effect of restrictions on the transferor’s assets that continue to be reported in the consolidated balance sheets. The application of ASU 2009-16 did not have a material impact on the Company’s overall financial position and results of operations upon adoption.

Effective January 1, 2010, the Company adopted FASB ASU 2009-17, “Topic 810 – Consolidations” (“ASU 2009-17”), which amends and codifies FIN 46(R), “Consolidation of Variable Interest Entities,” and changes the consolidation guidance applicable to a VIE. It also amends the guidance governing the determination of whether an enterprise is the primary beneficiary of a VIE, and is, therefore, required to consolidate an entity, by requiring a qualitative analysis rather than a quantitative analysis. The qualitative analysis will include, among other things, consideration of who has the power to direct the activities of the entity that most significantly impact the entity’s economic performance and who has the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. This standard also requires continuous reassessments of whether an enterprise is the primary beneficiary of a VIE. Previously, FIN 46(R) required reconsideration of whether an enterprise was the primary beneficiary of a VIE only when specific events had occurred. QSPEs, which were previously exempt from the application of this standard, are now subject to its provisions. This standard also requires enhanced disclosures about an enterprise’s involvement with a VIE. The application of ASU 2009-17 did not have a material impact on the Company’s overall financial position and results of operations upon adoption as the Company will continue to account for its unconsolidated joint ventures under the equity method of accounting.

In 2009, the FASB issued ASU 2010-06, “Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures About Fair Value Measurements,” which amends certain disclosure requirements of ASC 820. This ASU provides additional disclosures for transfers in and out of Levels 1 and 2 and for activity in Level 3. This ASU also clarifies certain other existing disclosure requirements including level of desegregation and disclosure around inputs and valuation techniques. ASU 2010-06 became effective for interim and annual reporting periods beginning after December 15, 2009, and the Company has adopted the provisions and provided the necessary disclosures for the year ended December 31, 2010.

During the first quarter of 2010, the Company adopted FASB ASU 2010-09, “Topic 855 – Subsequent Events: Amendments to Certain Recognition and Disclosure Requirements” (“ASU 2010-09”), which amends Topic 855 so that SEC filers are no longer required to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements. The application of FASB ASU 2010-09 did not have a material impact on the Company’s overall financial position and results of operations upon adoption.

In July 2010, the FASB issued ASU 2010-20, “Topic 310 – Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses”, which significantly expands existing disclosures about the credit quality of financing receivables and their allowance for credit losses. ASU 2010-20 will require disclosures as of the end of a reporting period such as accounting policies for each portfolio segment, ending balances of allowance for credit losses and credit-quality indicators in addition to added disclosures about activity related to financing receivables or credit losses. The period end disclosure requirements of ASU 2010-20 will be effective as of the beginning of interim and annual reporting periods that begin after December 15, 2010. The activity disclosure requirements of ASU 2010-20 will be effective as of the beginning of annual reporting periods that begin after December 15, 2010. The Company is currently evaluating the impact of ASU 2010-20 on the Company’s consolidated financial statements.

#### Unaudited Statistical Information

The square feet and percentage leased statistics presented in Notes B, D, G and H are unaudited.

#### Note B - Investment in Office and Parking Properties

Included in investment in office and parking properties at December 31, 2010 are 61 office and parking properties located in ten states with an aggregate of 12.8 million square feet of leasable space. This excludes office properties in unconsolidated joint ventures, which are outlined in Note D – Investment in Unconsolidated Joint Ventures.

The contract purchase price, excluding closing costs and other adjustments, of office properties acquired during the year ended December 31, 2010 is as follows:

Market Location	Cost (in thousands)
Memphis, Tennessee	\$ 3
Atlanta, Georgia	8,000
Charlotte, North Carolina	25,000
	\$ 33,003

The Company’s acquisitions are accounted for using the acquisition method. The results of each acquired property are included in the Company’s results of operations from their respective purchase dates.

### Summary of Acquisitions

On July 1, 2010, the Company acquired the limited partner's 25% interest in Parkway Moore, LLC and Moore Building Associates, LP for \$2,500. The entities were established for the purpose of owning the Toyota Center, a 175,000 square foot office building in Memphis, Tennessee. Therefore, the Company's total investment in this property increased to 100%.

During the third quarter of 2010, the Company purchased the first mortgage loan associated with the RubiconPark I joint venture, which owned Falls Pointe, Lakewood II and Carmel Crossing, for a net purchase price of \$33.0 million. During the fourth quarter of 2010, the Company, as holder of the mortgage, foreclosed on the three properties that served as collateral for the associated loan. Also, during the fourth quarter of 2010, the Company sold the three assets to Fund II for \$33.0 million. Parkway received approximately \$23.1 million in cash at closing representing its partner's 70% prorated share of the investment. Parkway recorded approximately \$740,000 in management company expense on the 2010 consolidated statement of operations related to acquisition costs on these investments. Proceeds from the sale were used to reduce amounts outstanding on the credit facility. On February 18, 2011, Fund II obtained a \$10.0 million mortgage loan secured by Carmel Crossing. The mortgage loan has a fixed rate of 5.5% and a term of nine years. Parkway received \$2.4 million in net proceeds from the loan, which represents its 30% equity investment in the property. The proceeds were used to reduce amounts outstanding under the Company's credit facility. As a result of the sale to Fund II, Parkway's ownership interest in these assets increased from 20% to 30%.

The total amount of purchase price allocated to more significant assets, intangible assets and (liabilities) and weighted average amortization period for each class of asset or liability is as follows for 2010 office property acquisitions (in thousands):

	Amount	Weighted Average Life
Land	\$ 7,248	N/A
Building	17,027	40
Tenant improvements	4,201	5
Lease commissions	1,253	5
Lease in place value	4,431	4
Above market leases	1,188	4
Below market leases	(861)	6
Liabilities assumed	(4,396)	N/A

On January 21, 2011, the Company and Fund II acquired the office and retail portion of 3344 Peachtree located in the Buckhead submarket of Atlanta for \$167.3 million. 3344 Peachtree contains approximately 484,000 square feet of office and retail space and includes an adjacent eleven-story parking structure. Fund II's investment in the property totaled \$160.0 million, with Parkway funding the remaining \$7.3 million. Due to Parkway's additional investment, the Company's effective ownership in the property is 33.0%. An additional \$2.6 million is expected to be spent for closing costs, building improvements, leasing costs and tenant improvements during the first two years of ownership. Simultaneous with closing, Fund II assumed the \$89.6 million existing non-recourse first mortgage loan, which matures on October 1, 2017, and carries a fixed interest rate of 4.8%. In accordance with GAAP, the mortgage loan was recorded at \$87.2 million to reflect the value of the instrument based on a market interest rate of 5.25% on the date of purchase. Parkway's equity contribution in the investment is \$25.5 million and was initially funded through availability under the Company's credit facility. The Company is still in the process of completing the purchase price allocation related to this investment.

On February 4, 2011, the Company purchased its partner's 50% interest in the Wink-Parkway Partnership ("Wink JV") for \$250,000. The Wink JV was established for the purpose of owning the Wink Building, a 32,000 square foot office property in New Orleans, Louisiana. Upon completing the acquisition of its partner's interest, Parkway now owns 100% of the Wink Building.

### Summary of Dispositions

On April 15, 2010, the Company sold One Park Ten, a 163,000 square foot office building in Houston, Texas, for a gross sales price of \$15.7 million. Parkway received net cash proceeds from the sale of \$4.8 million, which were used to reduce amounts outstanding under the Company's credit facility. Parkway recorded a gain on the sale of \$8.5 million in 2010. In connection with the sale of One Park Ten, the \$8.7 million first mortgage was assumed by the buyer and the company seller-financed a \$1.5 million note receivable that bears interest at 7.25% per annum on an interest-only basis through maturity in June 2012. Parkway Realty Services, LLC, a subsidiary of the Company, was retained to provide management services for the property. During the third quarter of 2010, the management agreement for this property was terminated. Therefore, all income for current and prior periods was reclassified to discontinued operations.

### Summary of Impairments

During the fourth quarter of 2010, the Company recorded non-cash impairment losses of \$4.1 million related to non-strategic office properties targeted for sale in Columbia, South Carolina, and Richmond, Virginia. The Company began actively marketing these assets around year end. As part of the marketing process, the Company estimated that the fair value of these assets was less than their carrying value at December 31, 2010. Therefore, an impairment loss for the assets was recorded during the fourth quarter 2010.

### Contractual Obligations and Minimum Rental Receipts

Obligations for tenant improvement allowances and lease inducement costs for leases in place and commitments for building improvements and development costs at December 31, 2010 are as follows (in thousands):

2011	\$	15,829
2012		609
2013		43
2014		1,380
2015		42
Thereafter		35
Total	\$	<u>17,938</u>

Minimum future operating lease payments for various equipment leased at the office properties is as follows for operating leases in place at December 31, 2010 (in thousands):

2011	\$	646
2012		371
2013		121
Total	\$	<u>1,138</u>

The following is a schedule by year of future approximate minimum rental receipts under noncancelable leases for office buildings owned at December 31, 2010 (in thousands):

2011	\$	185,244
2012		167,569
2013		152,050
2014		127,281
2015		99,294
Thereafter		264,337
	\$	<u>995,775</u>

The following is a schedule by year of future approximate minimum ground lease payments at December 31, 2010 (in thousands):

2011	\$	184
2012		184
2013		184
2014		184
2015		184
Thereafter		14,599
	\$	<u>15,519</u>

At December 31, 2010, Fund I owned Desert Ridge Corporate Center in Phoenix, Arizona that is subject to a ground lease. The lease has a remaining term of approximately 81 years with an expiration date of July 2092. Payments through July 13, 2013 are based on a rental constant applied to a per acre value. The rental constant is established for the duration of the ground lease and adjusts each five years. Starting July 2013, the rental payment is the higher of the amount previously described, or 0.35% of the valuation of the improvements of the previous year.

### **Note C – Mortgage Loans**

The Company owns the B participation piece (the “B piece”) of a first mortgage secured by an 844,000 square foot office building in Dallas, Texas, known as 2100 Ross originally purchased for \$6.9 million. The B piece was originated by Wachovia Bank, N.A., a Wells Fargo Company, and has a face value of \$10.0 million and a stated coupon rate of 6.065%. Upon maturity in May 2012, the Company will receive a principal payment of \$10.0 million, which produces a yield to maturity of 15.6%. The balance of the mortgage loan was \$8.8 million at December 31, 2010.

In connection with the sale of One Park Ten, the Company seller-financed a \$1.5 million note receivable that bears interest at 7.25% per annum on an interest-only basis through maturity in June 2012. The carrying amount of the mortgage loan was \$1.5 million at December 31, 2010.

#### Note D – Investment in Unconsolidated Joint Ventures

In addition to the 61 office and parking properties included in the consolidated financial statements, the Company was also invested in three unconsolidated joint ventures with unrelated investors at December 31, 2010. These investments are accounted for using the equity method of accounting, as Parkway does not control any of these joint ventures. Accordingly, the assets and liabilities of the joint ventures are not included on Parkway's consolidated balance sheets at December 31, 2010 and 2009. Information relating to these unconsolidated joint ventures is detailed below (in thousands):

Joint Venture Entity	Property Name	Location	Parkway's Ownership%	Square Feet	Percentage Occupied
Wink-Parkway Partnership ("Wink JV")	Wink Building	New Orleans, LA	50.0%	32	7.6%
Parkway Joint Venture, LLC ("Jackson JV")	UBS/River Oaks	Jackson, MS	20.0%	167	84.4%
RubiconPark II, LLC ("Maitland JV") (1)	Maitland 200	Orlando, FL	20.0%	205	92.4%
				<u>404</u>	<u>82.3%</u>

(1) As a result of the Company's partner, Rubicon US REIT, filing for Chapter 11 bankruptcy, new partners were admitted into the partnership. They are JP Morgan Chase, Kaufman Jacobs, LLC and Starwood Capital Group Global, LP.

Cash distributions from unconsolidated joint ventures are made to each partner based on their percentage of ownership in each entity. Cash distributions made to partners in joint ventures where the percentage of debt assumed is disproportionate to the ownership percentage in the venture is distributed based on each partner's share of cash available for distribution before debt service, based on their ownership percentage, less the partner's share of debt service based on the percentage of debt assumed by each partner.

Parkway provides management, construction and leasing service for all of the unconsolidated joint ventures except for the Wink-Parkway Partnership, and receives market-based fees for these services. The Company recognizes its proportionate share of fees earned from unconsolidated joint ventures in management company income.

At December 31, 2010 and 2009, the Company's investment in unconsolidated joint ventures was \$2.9 million, or 0.2% of total assets and \$2.5 million, or 0.2% of total assets, respectively.

On February 4, 2011, the Company purchased its partner's 50% interest in the Wink JV for \$250,000. Upon completing the purchase of its partner's interest, Parkway now owns 100% of the Wink Building.

In most cases the Company's share of debt related to its unconsolidated joint ventures is the same as its ownership percentage in the venture. However, in the case of the Maitland JV, the Company's share of debt is disproportionate to its ownership percentage. The disproportionate debt structure was created to meet the Company's partner's financing criteria. In the Maitland JV, the Company owns a 20% interest in the venture and assumed none of the debt. The terms related to Parkway's share of unconsolidated joint venture mortgage debt are summarized below for December 31, 2010 and 2009 (in thousands):

Parkway's Share of Unconsolidated Joint Ventures' Debt							
Description	Type of Debt Service	Interest Rate	Maturity	Parkway's Share of Debt	Monthly Debt Service	Loan Balance 12/31/10	Loan Balance 12/31/09
Maitland JV	Amortizing	4.390%	06/01/11	0.00%	\$ -	\$ -	\$ -
Jackson JV	Amortizing	5.840%	07/01/15	20.00%	12	2,474	2,507
					<u>\$ 12</u>	<u>\$ 2,474</u>	<u>\$ 2,507</u>
Weighted Average Interest Rate at End of Year						<u>5.840%</u>	<u>5.130%</u>

Parkway's share of the scheduled principal payments on mortgage debt for the unconsolidated joint ventures for each of the next five years and thereafter through maturity at December 31, 2010 are as follows (in thousands):

Schedule of Mortgage Maturities by Year:	Jackson JV		Total
	Maitland JV	Jackson JV	
2011	\$ -	\$ 34	\$ 34
2012	-	37	37
2013	-	39	39
2014	-	41	41
2015	-	2,323	2,323
	<u>\$ -</u>	<u>\$ 2,474</u>	<u>\$ 2,474</u>

## Note E – Land Available for Sale

At December 31, 2010 and 2009, Parkway’s investment in land available for sale consisted of 12 acres of land in New Orleans, Louisiana with a book value of \$750,000.

## Note F - Notes Payable

### Notes Payable to Banks

At December 31, 2010, the Company had a total of \$110.8 million outstanding under the following credit facilities (collectively, the “Company’s credit facility”) (in thousands):

Credit Facilities	Lender	Interest Rate	Maturity	Outstanding Balance	
				12/31/10	12/31/09
\$15.0 Million Unsecured Working Capital Revolving Credit Facility (1)	PNC Bank	2.3%	04/27/11	\$ 1,839	\$ -
\$236.0 Million Unsecured Revolving Credit Facility (2)	Wells Fargo	4.2%	04/27/11	49,000	40,000
\$60.0 Million Unsecured Term Loan (3)	Wells Fargo	4.8%	04/27/11	60,000	60,000
		<u>4.6%</u>		<u>\$ 110,839</u>	<u>\$ 100,000</u>

- (1) The interest rate on the \$15.0 million unsecured working capital revolving credit with PNC Bank was LIBOR plus 200 basis points at December 31, 2010. The Company paid fees on the unused portion of the line of 25 basis points.
- (2) The \$236.0 million unsecured revolving credit facility was led by Wells Fargo and syndicated to eight other banks. The interest rate on the line of credit interest rate was LIBOR plus 115 basis points or the Prime interest rate plus 25 basis points. At December 31, 2010, all amounts outstanding under this credit facility not fixed by an interest rate swap agreement were borrowed at LIBOR plus 115 basis points. The Company paid an annual administration fee of \$35,000 and fees on the unused portion of the revolver ranging between 12.5 and 20 basis points based upon overall Company leverage, with the rate set at 20 basis points at December 31, 2010.
- (3) The \$60.0 million unsecured term loan was led by Wells Fargo and syndicated to eight other banks. The interest rate on the term loan was fixed by an interest rate swap agreement. Excluding the interest rate swaps, the interest rate on the term loan was LIBOR plus 115 basis points.

The Company’s credit facility requires compliance with a number of restrictive financial covenants, including tangible net worth, fixed charge coverage ratio, unencumbered interest coverage ratio, total debt to total asset ratio, secured debt to total asset value ratio, secured recourse debt to total asset value ratio and unencumbered pool restrictions. At December 31, 2010, the Company was in compliance with these financial covenants.

On January 31, 2011, the Company closed a new \$190.0 million unsecured revolving credit facility and a new \$10.0 million unsecured working capital revolving credit facility. The new credit facilities have an initial term of three years and replaced the existing unsecured revolving credit facility, term loan and working capital facility that were scheduled to mature on April 27, 2011. The Company also has a \$100.0 million interest rate swap associated with the credit facilities that expires March 31, 2011, locking LIBOR at 3.635%. The Company does not anticipate an extinguishment of this interest rate swap prior to its stated expiration as the hedged item relates to interest rate payments on \$100.0 million of LIBOR-based debt and the forecasted transaction remains probable at December 31, 2010. Excluding the impact of the interest rate swap, the interest rate on the new credit facilities is based on LIBOR plus 275 to 350 basis points, depending upon overall Company leverage, with the current rate set at 325 basis points. Additionally, the Company pays fees on the unused portion of the credit facilities ranging between 40 and 50 basis points based upon usage of the aggregate commitment, with the current rate set at 40 basis points. Wells Fargo Securities and JP Morgan Securities LLC acted as Joint Lead Arrangers and Joint Book Runners on the unsecured revolving credit facility. In addition, Wells Fargo Bank, N.A. acted as Administration Agent and JPMorgan Chase Bank, N.A. acted as Syndication Agent. Other participating lenders include PNC Bank, N.A., Bank of America, N.A., US Bank, N.A., Trustmark National Bank, and BancorpSouth Bank. The working capital revolving credit facility was provided solely by PNC Bank, N.A.

During 2008, the Company entered into two interest rate swap agreements. The Company designated the swaps as cash flow hedges of the variable interest rates on the Company’s borrowings under the credit facility and a portion of the debt secured by the Pinnacle at Jackson Place. These swaps are considered to be fully effective and changes in the fair value of the swaps are recognized in accumulated other comprehensive income (loss).

The Company's interest rate hedge contracts at December 31, 2010 and 2009 are summarized as follows (in thousands):

Type of Hedge	Balance Sheet Location	Notional Amount	Maturity Date	Reference Rate	Fixed Rate	Fair Value Liability	
						December 31	
						2010	2009
Swap	Accounts Payable and Other Liabilities	\$100,000	03/31/11	1 - Month LIBOR	4.785%	\$ (836)	\$ (3,585)
Swap	Accounts Payable and Other Liabilities	\$23,500	12/01/14	1 - Month LIBOR	5.800%	(2,167)	(1,307)
						<u>\$ (3,003)</u>	<u>\$ (4,892)</u>

### Mortgage Notes Payable

A summary of mortgage notes payable at December 31, 2010 and 2009 is as follows (in thousands):

<b>Total Secured Debt</b>			<u>\$ 4,855</u>		<u>\$ 773,535</u>	<u>\$ 852,700</u>

- (1) On April 30, 2010, the Company repaid a \$17.2 million mortgage loan secured by two office properties in Houston, Texas, and one office property in Atlanta, Georgia, utilizing available proceeds under its credit facility. The mortgage loan had an interest rate of 5.3% and was scheduled to mature on May 1, 2010.
- (2) On February 8, 2010, the Company completed a \$35.0 million non-recourse, fixed-rate first mortgage loan related to the refinance of a \$60.0 million recourse mortgage that was scheduled to mature in May 2010. The loan bears interest at 7.25% and is secured by the Company's Capital City Plaza building in Atlanta, Georgia. The loan will mature in March 2017 and includes the option to be prepaid at the end of five years at a cost of 1% of the outstanding loan balance. The Company used available proceeds under its credit facility to pay the \$25.0 million difference on the maturing mortgage loan.

- (3) On October 8, 2010, the Company repaid a \$7.6 million mortgage loan secured by One Jackson Place, a 220,000 square foot office property in Jackson, Mississippi. The mortgage had an interest rate of 7.9% and was scheduled to mature on October 10, 2010. The Company repaid the mortgage loan using available proceeds under the credit facility.
- (4) On December 15, 2010, the Company repaid a \$31.0 million mortgage loan secured by Squaw Peak Corporate Center, a 290,000 square foot office complex in Phoenix, Arizona. The mortgage loan had a fixed interest rate of 4.9%. The Company repaid the mortgage loan using available proceeds under the credit facility.
- (5) On April 15, 2010, the Company sold One Park Ten, a 163,000 square foot office property in Houston, Texas, for a gross sales price of \$15.7 million. Parkway received net cash proceeds from the sale of \$4.8 million which were used to reduce amounts outstanding under the Company's credit facility. The \$8.7 million first mortgage loan was assumed by the buyer, and Parkway is also providing a \$1.5 million seller-financing loan, which bears interest at 7.25% with interest-only payments through maturity in June 2012.
- (6) On May 28, 2010, the Company obtained a \$23.0 million non-recourse, first mortgage loan secured by Citrus Center, a 261,000 square foot office property in Orlando, Florida. The mortgage loan had a fixed interest rate of 6.3% and a term of ten years. The proceeds were used to reduce amounts outstanding under the Company's credit facility.
- (7) On July 8, 2010, the Company obtained a \$12.0 million non-recourse first mortgage loan secured by the Stein-Mart building, a 196,000 square foot office property in Jacksonville, Florida. The mortgage loan had a fixed interest rate of 6.5% and a term of ten years. The proceeds were used to reduce amounts outstanding under the Company's credit facility.
- (8) The New Markets Tax Credit loans have a stated maturity of December 27, 2047, but contain an early repayment option whereby the lender may call the loans in December 2014. In the event the lender exercises this option, the outstanding principal balance of the loans will be reduced by \$3.0 million. Additionally, the Company has entered into an interest rate swap agreement with US Bank for a \$23.5 million notional amount that fixes the 30-day LIBOR interest rate at 4.05%, which equates to a total current interest rate of 5.8%, for the period January 1, 2009, through December 1, 2014. The swap agreement serves as a hedge of the variable interest rates on the borrowings under the Pinnacle at Jackson Place Senior New Market Tax Credits mortgage loan. The weighted average interest rate for the total New Markets Tax Credits loans is 5.2%.
- (9) Upon maturity on June 1, 2010, the Company paid off its share and its partner's share of a \$10.6 million mortgage note payable secured by the Toyota Center, a 175,000 square foot office property in Memphis, Tennessee, utilizing available proceeds under the Company's line of credit. The mortgage had an interest rate of 7.9%. The Toyota Center office property was previously owned by a consolidated joint venture, Moore Building Associates, LP, in which the Company served as the general partner. However, during the third quarter of 2010, Parkway purchased the partner's interest, thereby placing Parkway's ownership of the property at 100%.

At December 31, 2010 and 2009, the net book value of the office properties collateralizing the mortgage loans was \$1.1 billion.

The aggregate annual maturities of mortgage notes payable at December 31, 2010 are as follows (in thousands):

	Total Mortgage Maturities		Balloon Payments	Recurring Principal Amortization
2011	\$	113,914	\$ 102,694	\$ 11,220
2012		58,034	48,408	9,626
2013		9,943	-	9,943
2014		10,595	-	10,595
2015		37,971	26,891	11,080
2016		398,695	393,875	4,820
Thereafter		144,383	136,029	8,354
	<b>\$</b>	<b>773,535</b>	<b>\$ 707,897</b>	<b>\$ 65,638</b>

On January 21, 2011, in connection with its purchase of 3344 Peachtree in Atlanta, Georgia, Fund II assumed the \$89.6 million existing non-recourse first mortgage, which matures on October 1, 2017, and carries a fixed interest rate of 4.8%. In accordance with GAAP, the mortgage was recorded at \$87.2 million to reflect the value of the instrument based on a market interest rate of 5.25% on the date of purchase.

On February 18, 2011, Fund II obtained a \$10.0 million mortgage loan secured by Carmel Crossing, a 326,000 square foot office complex in Charlotte, North Carolina. The mortgage loan has a fixed interest rate of 5.5% and a term of nine years. Parkway received \$2.4 million in net proceeds from the loan, which represents its 30% equity investment in the property. The proceeds were used to reduce amounts outstanding under the Company's credit facility.

## Note G – Noncontrolling Interest – Real Estate Partnerships

The Company has an interest in two joint ventures that are included in its consolidated financial statements at December 31, 2010. Information relating to these consolidated joint ventures is detailed below:

<u>Joint Venture Entity and Property Name</u>	<u>Location</u>	<u>Parkway's Ownership %</u>	<u>Square Feet (In thousands)</u>
Parkway Properties Office Fund, LP			
Desert Ridge Corporate Center	Phoenix, Arizona	26.5%	293
Maitland 100	Orlando, Florida	25.0%	128
555 Winderley	Orlando, Florida	25.0%	101
Gateway Center	Orlando, Florida	25.0%	228
BellSouth Building	Jacksonville, Florida	25.0%	92
Centurion Centre	Jacksonville, Florida	25.0%	88
100 Ashford Center	Atlanta, Georgia	25.0%	160
Peachtree Ridge	Atlanta, Georgia	25.0%	161
Overlook II	Atlanta, Georgia	25.0%	260
U.S. Cellular Plaza	Chicago, Illinois	40.0%	607
Chatham Centre	Schaumburg, Illinois	25.0%	206
Renaissance Center	Memphis, Tennessee	25.0%	190
1401 Enclave Parkway	Houston, Texas	25.0%	209
Total Parkway Properties Office Fund, LP			<u>2,723</u>
Parkway Properties Office Fund II, LP (1)			
Falls Pointe	Atlanta, Georgia	30.0%	107
Lakewood II	Atlanta, Georgia	30.0%	128
Carmel Crossing	Charlotte, North Carolina	30.0%	327
Total Parkway Properties Office Fund II, LP			<u>562</u>
Total Consolidated Joint Ventures			<u>3,285</u>

- (1) On January 21, 2011, the Company and Fund II purchased 3344 Peachtree located in the Buckhead submarket of Atlanta, Georgia. 3344 Peachtree contains approximately 484,000 square feet of office and retail space. Upon the completion of the purchase of 3344 Peachtree, the Company had a total of approximately 3.8 million square feet of joint ventures included in its consolidated financial statements of which, Fund II had approximately 1.0 million square feet.

Parkway serves as the general partner of Fund I and provides asset management, property management, leasing and construction management services to the fund, for which it is paid market-based fees. Cash distributions from the fund are made to each joint venture partner based on their percentage of ownership in the fund. Since Parkway is the sole general partner and has the authority to make major decisions on behalf of the fund, Parkway is considered to have a controlling interest. Accordingly, Parkway is required to consolidate the fund in its consolidated financial statements. At February 15, 2008, Fund I was fully invested.

In 2008, Parkway formed Fund II, a \$750.0 million discretionary fund with TRST, for the purpose of acquiring high-quality multi-tenant office properties. TRST is a 70% investor, and Parkway is a 30% investor in the fund, which is capitalized with approximately \$375.0 million of equity capital and \$375.0 million of non-recourse, fixed-rate first mortgage debt. Parkway's share of the equity contribution for the fund will be \$112.5 million and will be funded with operating cash flow, proceeds from asset sales, issuance of equity securities and/or advances on the credit facility as needed on a temporary basis. The fund will target investments in office buildings in Houston, Austin, San Antonio, Chicago, Atlanta, Phoenix, Charlotte, Memphis, Nashville, Jacksonville, Orlando, Tampa/St. Petersburg, and Ft. Lauderdale, as well as other growth markets to be determined at Parkway's discretion.

Parkway serves as the general partner of Fund II and provides asset management, property management, and leasing and construction management services to the fund, for which it will be paid market-based fees. Parkway has four years, or through May 2012, to identify and acquire properties, with funds contributed as needed to complete acquisitions. Parkway will exclusively represent the fund in making acquisitions within the target markets and within certain predefined criteria. Parkway may continue to make fee-simple acquisitions in markets outside of the target markets, acquire properties within the target markets that do not meet the fund's specific criteria or sell a full or partial interest in currently owned properties. At December 31, 2010, Fund II includes investments in three office properties totaling \$33.0 million. In January 2011, Fund II purchased an investment in an office property totaling \$160.0 million, which places total Fund II investments to date at \$193.0 million. There is approximately \$552.1 million in remaining capacity for Fund II investments.

Noncontrolling interest - real estate partnerships represents the other partners' proportionate share of equity in the partnerships discussed above at December 31, 2010. Income is allocated to noncontrolling interest based on the weighted average percentage ownership during the year.

Parkway Moore, LLC and Moore Building Associates, LP ("MBALP") were established for the purpose of owning a commercial office building (the Toyota Center in Memphis, Tennessee), with Parkway serving as general partner. The entities were previously classified as consolidated joint ventures. However, during the third quarter of 2010, Parkway purchased the partner's 25% interest, thereby placing Parkway's ownership at 100% and removing the classification as a consolidated joint venture.

#### Note H - Discontinued Operations

All current and prior period income from the following office property dispositions are included in discontinued operations for the years ended December 31, 2010, 2009 and 2008 (in thousands).

Office Property	Location	Square Feet	Date of Sale	Net Sales Price	Net Book Value of Real Estate	Gain on Sale
Town Point Center	Norfolk, Virginia	131	07/15/08	\$ 12,180	\$ 10,621	\$ 1,559
Wachovia Plaza	St. Petersburg, Florida	186	08/18/08	25,492	16,154	9,338
Capitol Center	Columbia, South Carolina	460	09/05/08	46,792	35,101	11,691
2008 Dispositions		<u>777</u>		<u>\$ 84,464</u>	<u>\$ 61,876</u>	<u>\$ 22,588</u>
One Park Ten	Houston, Texas	163	04/15/10	\$ 14,924	\$ 6,406	\$ 8,518
2010 Dispositions		<u>163</u>		<u>\$ 14,924</u>	<u>\$ 6,406</u>	<u>\$ 8,518</u>

The amount of revenue and expense for these office properties reported in discontinued operations for the years ended December 31, 2010, 2009 and 2008 is as follows (in thousands):

	Year Ended December 31		
	2010	2009	2008
Revenues			
Revenue from office and parking properties	\$ 994	\$ 3,394	\$ 12,294
	<u>994</u>	<u>3,394</u>	<u>12,294</u>
Expenses			
Office and parking properties:

Interest expense	317	649	3,828
Depreciation and amortization	121	600	2,364
	<u>800</u>	<u>2,990</u>	<u>12,755</u>
Income (loss) from discontinued operations	194	404	(461)
Gain on sale of real estate from discontinued operations	8,518	-	22,588
Total discontinued operations	<u>\$ 8,712</u>	<u>\$ 404</u>	<u>\$ 22,127</u>

#### Note I - Income Taxes

The Company elected to be taxed as a REIT under the Internal Revenue Code, commencing with its taxable year ended December 31, 1997. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its adjusted taxable income to its stockholders. It is management's current intention to adhere to these requirements and maintain the Company's REIT status, and the Company was in compliance with all REIT requirements at December 31, 2010. As a REIT, the Company generally will not be subject to corporate level federal income tax on taxable income it distributes currently to its stockholders. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed taxable income. In addition, taxable income from non-REIT activities managed through taxable REIT subsidiaries is subject to federal, state and local income taxes.

In January 1998, the Company completed its reorganization into an UPREIT structure under which substantially all of the Company's real estate assets are owned by an operating partnership, Parkway Properties LP. Presently, substantially all interests in the Operating Partnership are owned by the Company and a wholly-owned subsidiary.

At December 31, 2010, the Company had net operating loss ("NOL") carryforwards for federal income tax purposes of \$584,000 which expire at various dates beginning in 2011 through 2018. The utilization of these NOLs can cause the Company to incur a small alternative minimum tax liability.

The Company's income differs for income tax and financial reporting purposes principally because real estate owned has a different basis for tax and financial reporting purposes, producing different gains upon disposition and different amounts of annual depreciation.

The following reconciles GAAP net income to taxable income for the years ending December 31, 2010, 2009 and 2008 (in thousands):

	2010 Estimate	2009 Actual	2008 Actual
GAAP net income (loss) from REIT operations (1)	\$ (2,618)	\$ (11,603)	\$ 9,274
GAAP to tax adjustments:			
Depreciation and amortization	12,226	19,113	19,485
Gains and losses from capital transactions	(138)	5,487	342
Share-based compensation expense	1,319	2,581	2,276
Stock options exercised	-	-	(88)
Deferred compensation distributions	(687)	(446)	(1,107)
Amortization of mortgage loan discount	(772)	(607)	(519)
Allowance for doubtful accounts	283	1,491	235
Vesting of restricted shares and dividends	(4,523)	(704)	(278)
Deferred revenue	3,241	-	-

#### Note | – Share-Based and Long-Term Compensation Plans

Effective May 1, 2010, the stockholders of the Company approved Parkway's 2010 Omnibus Equity Incentive Plan (the "2010 Equity Plan") that authorized the grant of up to 600,000 equity based awards to employees and directors of the Company. The 2010 Equity Plan replaces the Company's 2003 Equity Incentive Plan and the 2001 Non-Employee Directors Equity Compensation Plan. At present, it is Parkway's intention to grant restricted shares and/or deferred incentive share units instead of stock options although the 2010 Equity Plan authorizes various forms of incentive awards, including options. The 2010 Equity Plan has a ten-year term.

Compensation expense, including estimated forfeitures, for service-based awards is recognized over the expected vesting period. The total compensation expense for the long-term equity incentive awards granted under the FOCUS Plan is based upon the fair value of the shares on the grant date, adjusted for estimated forfeitures. Time-based restricted shares and deferred incentive share units are valued based on the New York Stock Exchange closing market price of Parkway common shares (NYSE ticker symbol, PKY) as of the date of grant. The grant date fair value for awards that are subject to market conditions is determined using a simulation pricing model developed to specifically accommodate the unique features of the awards.

Restricted shares and deferred incentive share units are forfeited if an employee leaves the Company before the vesting date except in the case of the employee's death or permanent disability or upon termination following a change of control. Shares and/or units that are forfeited become available for future grant under the 2010 Equity Plan.

On January 4, 2010, 91,000 restricted shares vested and were issued to officers of the Company. These shares were granted to the officers of the Company in January 2003 and vested seven years from the grant date.

On February 10, 2010, 29,941 restricted shares vested and were issued to officers of the Company due to the achievement of performance goals established in 2009 by the Board of Directors.

On July 1, 2010, 26,500 restricted shares vested and were issued to officers of the Company. These shares were granted in July 2006 and vested four years from the grant date.

On July 12, 2010, the Board of Directors approved 345,120 FOCUS Plan long-term equity incentive awards to officers of the Company. The long-term equity incentive awards are valued at \$2.5 million which equates to an average price per share of \$7.30 and consist of 25,380 time-based awards, 179,314 market condition awards subject to an absolute total return goal, and 140,426 market condition awards subject to a relative total return goal. These shares are accounted for as equity-classified awards on the Company's 2010 consolidated balance sheet.

The time-based awards granted as part of the FOCUS Plan will vest ratably over four years from the date the shares are granted. The market condition awards granted as part of the FOCUS Plan are contingent on the Company meeting goals for compounded annual total return to stockholders ("TRS") over the three year period beginning July 1, 2010. The market condition goals are based upon (i) the Company's absolute compounded annual TRS; and (ii) the Company's absolute compounded annual TRS relative to the compounded annual return of the MSCI US REIT ("RMS") Index calculated on a gross basis, as follows:

	Threshold	Target	Maximum
Absolute Return Goal	10%	12%	14%
Relative Return Goal	RMS + 100 bps	RMS + 200 bps	RMS + 300 bps

With respect to the absolute return goal, 15% of the award is earned if the Company achieves threshold performance and a cumulative 60% is earned for target performance. With respect to the relative return goal, 20% of the award is earned if the Company achieves threshold performance and a cumulative 55% is earned for target performance. In each case, 100% of the award is earned if the Company achieves maximum performance or better. To the extent actually earned, the market condition awards will vest 50% on each of July 15, 2013 and 2014.

The FOCUS Plan also includes a long-term cash incentive that was designed to reward significant outperformance over the three year period beginning July 1, 2010. The performance goals for actual payment under the long-term cash incentive will require the Company to (i) achieve an absolute compounded annual TRS that exceeds 14% AND (ii) achieve an absolute compounded annual TRS that exceeds the compounded annual return of the RMS by at least 500 basis points. Notwithstanding the above goals, in the event the Company achieves an absolute compounded annual TRS that exceeds 19%, then the Company must achieve an absolute compounded annual TRS that exceeds the compounded annual return of the RMS by at least 600 basis points. The aggregate amount of the cash incentive earned would increase with corresponding increases in the absolute compounded annual TRS achieved by the Company. There will be a cap on the aggregate cash incentive earned in the amount of \$7.1 million. Achievement of the maximum cash incentive would equate to an absolute compounded annual TRS that approximates 23%, provided that the absolute compounded annual TRS exceeds the compounded annual return of the RMS by at least 600 basis points. The total compensation expense for the long-term cash incentive awards granted under the FOCUS Plan is based upon the estimated fair value of the award on the grant date and adjustment as necessary each reporting period. The long-term cash incentive awards are accounted for as a liability-classified award on the Company's 2010 consolidated balance sheet. The grant date and quarterly fair value estimates for awards that are subject to a market condition are determined using a simulation pricing model developed to specifically accommodate the unique features of the awards.

On August 23, 2010, 5,500 restricted shares vested and were issued to officers of the Company. These shares were granted in September 2003 and vested seven years from the grant date.

On January 9, 2011, 25,935 restricted shares vested and were issued to officers of the Company due to the achievement of performance goals established in 2009 by the Board of Directors.

On January 12, 2011, 27,125 restricted shares vested and were issued to officers of the Company. These shares were granted in January 2007 and vested four years from the grant date.

On January 14, 2011, the Board of Directors approved 55,623 FOCUS Plan long-term equity incentive awards to officers of the Company. The long-term equity incentive awards are valued at \$736,000 which equates to an average price per share of \$13.23 and consist of 25,620 time-based awards, 16,883 market condition awards subject to an absolute total return goal, and 13,120 market condition awards subject to a relative total return goal. These shares will be accounted for as equity-classified awards on the Company's consolidated balance sheet.

At December 31, 2010, a total of 479,930 shares of restricted stock have been granted to officers of the Company. The shares are valued at \$6.1 million, which equates to an average price per share of \$12.81. The value, including estimated forfeitures, of restricted shares that vest based on service conditions will be amortized to compensation expense ratably over the vesting period for each grant of stock. At December 31, 2010, a total of 15,640 deferred incentive share units have been granted to employees of the Company. The deferred incentive share units are valued at \$402,000, which equates to an average price per share of \$25.71, and the units vest four years from grant date. Total compensation expense related to the restricted stock and deferred incentive units of \$1.3 million, \$2.6 million and \$2.3 million was recognized in 2010, 2009 and 2008, respectively. Total compensation expense related to nonvested awards not yet recognized was \$2.9 million at December 31, 2010. The weighted average period over which this expense is expected to be recognized is approximately 2.6 years.

A summary of the Company's restricted stock and deferred incentive share unit activity is as follows:

	Restricted Shares	Weighted Average Price	Deferred Incentive Share Units	Weighted Average Price
<b>Outstanding at December 31, 2007</b>	220,999	\$ 40.72	21,835	\$ 45.96
Granted	38,017	32.39	6,385	15.69
Vested	-	-	(1,815)	46.72
Forfeited	(38,375)	39.54	(3,600)	44.73
<b>Outstanding at December 31, 2008</b>	220,641	39.49	22,805	37.62
Granted	120,500	15.77	1,500	12.69
Vested	(30,416)	43.08	(2,615)	44.61
Forfeited	(1,750)	30.85	(3,635)	39.93
<b>Outstanding at December 31, 2009</b>	308,975	29.94	18,055	34.08
Granted	345,120	7.30	3,805	14.83
Vested	(152,941)	33.06	(4,355)	47.78

	9,500	2.7 years	\$ 42.47	\$ -

#### Defined Contribution Plan

Parkway maintains a 401(k) plan for its employees. The Company makes matching contributions of 50% of the employee's contribution (limited to 10% of compensation as defined by the plan) and may also make annual discretionary contributions. The Company's total expense for this plan was \$404,000, \$443,000 and \$952,000 for the years ending December 31, 2010, 2009 and 2008, respectively.

#### Note K – Commitments and Contingencies

##### Legal Matters

On April 23, 2010, the Company received notice of a complaint to the Occupational Safety and Health Administration ("OSHA") initiated by the Company's former Chief Financial Officer, J. Mitchell Collins, whose employment with the Company terminated on February 5, 2010. The complaint alleged discriminatory employment practices in violation of Section 806 of the Corporate and Criminal Fraud Accountability Act of 2002, Title VIII of Sarbanes-Oxley Act of 2002. The complaint alleged that Mr. Collins was terminated from his position as Chief Financial Officer of the Company as a result of his purportedly engaging in "protected activity" as defined under Section 806 of the Sarbanes-Oxley Act, and sought reinstatement of Mr. Collins' position and unspecified damages from the Company. Specifically, Mr. Collins alleged that his termination was a result of bringing what he believed to be certain concerns regarding the Company's financial projections to the attention of senior management. Mr. Collins also alleged that the Company engaged in conduct that violates U.S. federal law, including U.S. federal securities laws by inaccurately describing to the public the events surrounding his February 5, 2010 separation. Effective July 16, 2010, the Company received a formal notice from the Area Director of OSHA, that Mr. Collins withdrew the Sarbanes-Oxley complaint he filed with OSHA.

On May 4, 2010, Mr. Collins filed a personal injury lawsuit against the Company in the Circuit Court of Hinds County, Mississippi, alleging defamation, wrongful discharge, conversion, and fraud based on substantially the same factual predicate set forth in the OSHA complaint. Mr. Collins is seeking compensatory and punitive damages in excess of \$10.0 million in the lawsuit. The Company has carefully reviewed Mr. Collins' personal injury complaint and believes that the allegations made are without basis in fact or law and will vigorously defend the Company's prior actions and reputation. Management believes the final outcome of this matter will not have a material adverse effect on the Company's financial statements.

In addition to the personal injury lawsuit, Mr. Collins issued a shareholder demand letter to the Company threatening to commence a derivative lawsuit on behalf of the Company against the Company, its directors and officers based on substantially the same allegations as set forth in the personal injury suit. On July 27, 2010, the Company's Board of Directors appointed the audit committee (the "Committee") of the board to review and evaluate the claims made in Mr. Collins' demand letter. The Committee engaged independent legal counsel to assist with the review and evaluation of these claims. After thoroughly investigating the allegations in good faith and fully informing itself of all material facts relevant thereto, the Committee believes that the Company did not operate in a fraudulent or misleading manner regarding either the termination of Mr. Collins or the disclosure of the Company's 2010 earnings guidance. Further, the Committee has determined that it would not serve the interests of Parkway or its shareholders for the Company to take any of the further actions requested in the demand letter.

For the year ended December 31, 2010, the Company had expensed \$1.3 million with respect to the pending litigation and the demand letter. During the fourth quarter of 2010, the Company removed its reserve for potential future exposure with respect to the pending litigation and demand letter. Management has evaluated the risks involved with the pending litigation and demand letter and determined that no reserve was necessary at December 31, 2010.

#### Note L – Other Matters

##### Supplemental Profit and Loss Information

Included in operating expenses are taxes, principally property taxes, of \$34.2 million, \$40.2 million and \$39.2 million for the years ended December 31, 2010, 2009 and 2008, respectively.

##### Supplemental Cash Flow Information and Schedule of Non-Cash Investing and Financing Activity

Interest payable	3,067	3,117
	<u>\$ 98,818</u>	<u>\$ 88,614</u>

## Preferred Stock

In June 2003, the Company sold 2.4 million shares of 8.0% Series D Cumulative Redeemable Preferred Stock with net proceeds to the Company of approximately \$58.0 million. On August 9, 2010, the Company issued an additional 1.97 million shares of its Series D Preferred stock at a price of \$23.757 per share, equating to a yield of 8.5% (excluding accrued dividends). The Series D Preferred Stock has a \$25 liquidation value per share and will be redeemable at the option of the Company on or after June 27, 2008. The preferred stock has no stated maturity, sinking fund or mandatory redemption and is not convertible into any other securities of the Company.

The Company declared dividends of \$2.00 per share for the Series D Preferred stock for each of the three years 2010, 2009 and 2008.

The Company's shares of Series D preferred stock are listed on the New York Stock Exchange and trade under the symbol "PKY PrD".

## Note M - Fair Values of Financial Instruments

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also provides guidance for using fair value to measure financial assets and liabilities. The Codification requires disclosure of the level within the fair value hierarchy in which the fair value measurements fall, including measurements using quoted prices in active markets for identical assets or liabilities (Level 1), quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active (Level 2), and significant valuation assumptions that are not readily observable in the market (Level 3).

## Cash and cash equivalents

The carrying amounts for cash and cash equivalents approximated fair value at December 31, 2010 and 2009.

## Mortgage loan receivable

The Company owns the B participation piece (the "B piece") of a first mortgage secured by an 844,000 square foot office building in Dallas, Texas known as 2100 Ross, and the carrying amount of the mortgage loan was approximately \$8.8 million and \$8.1 million at December 31, 2010 and 2009. In connection with the sale of One Park Ten, the Company seller-financed a \$1.5 million note receivable, and carrying amount of the note was \$1.5 million at December 31, 2010. The carrying amount for each mortgage loan approximated fair value at December 31, 2010.

## Mortgage notes payable

The fair value of the mortgage notes payable are estimated using a discounted cash flow analysis, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements. The aggregate fair value of the mortgage notes payable at December 31, 2010 was \$734.6 million as compared to its carrying amount of \$773.5 million. The aggregate fair value of the mortgage notes payable at December 31, 2009 was \$795.9 million as compared to its carrying amount of \$852.7 million.

## Notes payable to banks

The fair value of the Company's notes payable to banks is estimated by discounting expected cash flows at current market rates. The aggregate fair value of the notes payable to banks at December 31, 2010 was \$109.6 million as compared to its carrying amount of \$110.8 million. The aggregate fair value of the notes payable to banks at December 31, 2009 was \$95.8 million as compared to its carrying amount of \$100.0 million.

## Interest rate swap agreements

The fair value of the interest rate swaps is determined by estimating the expected cash flows over the life of the swap using the mid-market rate and price environment as of the last trading day of the reporting period. This information is considered a Level 2 input as defined by ASC 820. The aggregate fair value liability of the interest rate swaps at December 31, 2010 and 2009 was \$3.0 million and \$4.9 million, respectively.

## Note N – Segment Information

Parkway's primary business is the ownership and operation of office properties. The Company accounts for each office property or groups of related office properties as an individual operating segment. Parkway has aggregated its individual operating segments into a single reporting segment due to the fact that the individual operating segments have similar operating and economic characteristics.

The Company believes that the individual operating segments exhibit similar economic characteristics such as being leased by the square foot, sharing the same primary operating expenses and ancillary revenue opportunities and being cyclical in the economic performance based on current supply and demand conditions. The individual operating segments are also similar in that revenues are derived from the leasing of office space to customers and each office property is managed and operated consistently in accordance with Parkway's standard operating procedures. The range and type of customer uses of our properties is similar throughout our portfolio regardless of location or class of building and the needs and priorities of our customers do not vary from building to building. Therefore, Parkway's management responsibilities do not vary from location to location based on the size of the building, geographic location or class.

The management of the Company evaluates the performance of the reportable office segment based on funds from operations attributable to common shareholders ("FFO"). Management believes that FFO is an appropriate measure of performance for equity REITs and computes this measure in accordance with the National Association of Real Estate Investment Trusts ("NAREIT") definition of FFO. Funds from operations is defined by NAREIT as net income (computed in accordance with GAAP), excluding gains or losses from sales of property and extraordinary items under GAAP, plus depreciation and amortization, and after adjustments to derive the Company's pro rata share of FFO of consolidated and unconsolidated joint ventures. Further, the Company does not adjust FFO to eliminate the effects of non-recurring charges. The Company believes that FFO is a meaningful supplemental measure of its operating performance because historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, as reflected through depreciation and amortization expenses. However, since real estate values have historically risen or fallen with market and other conditions, many industry investors and analysts have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient. Thus, NAREIT created FFO as a supplemental measure of operating performance for real estate investment trusts that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP.

The Company believes that the use of FFO, combined with the required GAAP presentations, has been beneficial in improving the understanding of operating results of real estate investment trusts among the investing public and making comparisons of operating results among such companies more meaningful. FFO as reported by Parkway may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition. Funds from operations do not represent cash generated from operating activities in accordance with accounting principles generally accepted in the United States and is not an indication of cash available to fund cash needs. Funds from operations should not be considered an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flow as a measure of liquidity.

The following is a reconciliation of FFO and net income (loss) attributable to common stockholders for office properties and total consolidated entities for the years ending December 31, 2010, 2009 and 2008. Amounts presented as "Unallocated and Other" represent primarily income and expense associated with providing management services, corporate general and administration expense, interest expense on unsecured lines of credit and preferred dividends.

	At or for the year ended December 31, 2010

## FORWARD-LOOKING STATEMENTS

In addition to historical information, certain sections of this Annual Report may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, such as those that are not in the present or past tense, that discuss the Company's beliefs, expectations or intentions or those pertaining to the Company's capital resources, profitability and portfolio performance and estimates of market rental rates. Forward-looking statements involve numerous risks and uncertainties. The following factors, among others discussed herein and in the Company's filings under the Securities Exchange Act of 1934, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: defaults or non-renewal of leases, increased interest rates and operating costs, failure to obtain necessary outside financing, difficulties in identifying properties to acquire and in effecting acquisitions, failure to qualify as a real estate investment trust under the Internal Revenue Code of 1986, as amended, environmental uncertainties, risks related to natural disasters, financial market fluctuations, changes in real estate and zoning laws and increases in real property tax rates. The success of the Company also depends upon the trends of the economy, including interest rates, income tax laws, governmental regulation, legislation, population changes and those risk factors discussed in the Company's filings under the Securities Exchange Act of 1934. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only as the date hereof. The Company assumes no obligation to update forward-looking statements.
