

HYATT HOTELS CORPORATION
2010 ANNUAL REPORT

HYATT.
YOU'RE MORE THAN WELCOME

authentic experiences

We are a global hospitality company with widely recognized leading brands and a tradition of innovation developed over our more than fifty-year history.

Our mission is to provide *authentic hospitality* by making a *difference* in the lives of the people we touch every day. We focus on this mission in pursuit of our goal of becoming the most *preferred brand in each segment* that we serve for our associates, guests, and owners. We pursue our mission and goal in an environment characterized by a set of core values that defines our culture.

Thomas J. Pritzker

Executive Chairman's Letter to Shareholders

Dear Fellow Shareholders:

I want to take this opportunity to share my views on our industry and discuss how those views inform our goals and strategy at Hyatt. Let me start with the conclusion. We have defined our goals and aligned our strategy for Hyatt around being the most preferred brand in each segment that we serve. We want to be preferred by our associates, our guests and our hotel owners. We believe that if we are successful at meeting these goals we will strengthen the value of our brands. We believe that our path to creating long-term shareholder value is to consistently and effectively execute against this strategy.

The hotel business is cyclical. Being able to respond to cycles is an appropriate and necessary skill set in this industry. Since the ultimate measurement of our success is long-term shareholder value, we continually strive to act, but not to overreact, to opportunities and challenges in our environment. Our actions will be taken while keeping an eye on the horizon and in a manner consistent with our goals, strategies and long-term orientation. I believe that the Hyatt business model, which includes owning, managing and franchising hotels, provides us with the tools for sustainable and diverse earnings streams in the context of a cyclical industry.

Our strong capital base positions us to support our strategy and take informed risk in pursuit of creating long-term value through industry cycles.

Our strategic focus on enhancing preference for our brands begins with driving preference among our associates because our people are the key to our success. We believe that we can be the most preferred brand in each segment that we serve because of the excellence of our people and because of the responsibility that we place on the general managers and their teams to reflect their local markets while striving to deliver on the brand promise to each and every guest. We do this with confidence because we have superb general managers and senior leadership in our hotels. We do this with confidence because the culture of Hyatt continues to bind us together into what we call the Hyatt family. In order to maintain our culture, we focus on managing so that we are able to staff new properties with leaders and associates who carry the Hyatt DNA. We must maintain and enhance our culture if we are to be successful over the long-term and that will remain an area of focus.

We believe that our people are the key to our success. We believe that our growth needs to be consistent with our ability to develop associates who can serve our guests with the Hyatt touch. We believe that our growth needs to be balanced and driven by our goals, strategies and values. We have come to call this harmonious growth. This is one way we at Hyatt intend to create sustainable long-term shareholder value.

In today's world, attention has shifted to India, China and other markets where there is a small base of existing hotel properties relative to the size of the economies and population base. This concept is not new to us. We have had hotels in these countries for close to 30 years. Having established a narrow foothold, we then focused on developing teams of people. Many of these same people have now represented Hyatt for decades in these countries and have developed deep relationships with local owners and customers in order to better understand their needs and aspirations. From this base, we have gained knowledge of local conditions and developed associates who are able to create a consistent Hyatt experience for other associates, guests and owners in new hotels as they are opened.

In the years to come, I believe we will look back at these markets and see the strength of what we mean by the term harmonious growth.

On behalf of the Hyatt Hotels Corporation Board of Directors I thank you, our shareholders, for your trust in us. We are committed to earning your support every day as we continue to delight our guests, nurture great brands and reward our investors with the creation of long-term value.

Sincerely,

A handwritten signature in black ink, appearing to read 'T J Pritzker', written in a cursive style.

Thomas J. Pritzker
Executive Chairman of the Board

Mark S. Hoplamazian

President and Chief Executive Officer's Letter to Shareholders

Dear Fellow Shareholders:

Our passionate quest for enhancing preference for each of our brands, coupled with a commitment to building long-term value, informs all of our decisions. Throughout 2010 we saw the benefits of that focus.

Adjusted EBITDA for Hyatt for 2010 increased by 17 percent – an increase realized as we enhanced our foundation for the future. We are pleased that earnings increased substantially, but we are also mindful that room rates, revenue and earnings levels remain well below the levels achieved a few years ago, and in a number of markets we continue to rebuild occupancy back to prior levels as demand returns and as we expand market share.

We have two primary avenues of earnings growth – improvements in operating results from existing hotels that we own, manage and franchise; and the addition of new properties under each of our brands. Progress on both fronts depends on the talent, effort and focus of the teams who spend every day serving our guests and our hotel owners, responding to their needs, and imagining ways – large and small – that we can serve them better. During the year we made significant progress.

Performance in Existing Properties

For the year ended December 31, 2010, we improved margins at our comparable owned hotels by 1.8 percentage points, an achievement that was particularly meaningful given that much of the top-line improvement during the year stemmed from increases in occupancy. We increased productivity in most areas of the world and across our brands. We also saw significant market share increases at many hotels, including a very large portion of our Select Service properties. Even as we delivered higher profit margins, we achieved higher satisfaction scores among guests and meeting planners across our hotels, and an increase of almost 15 percent in new member enrollment in our Gold Passport program.

We realized improvements in guest preference in large part by providing what we call *authentic hospitality*. And that starts with our people. From our more than 53 years in business as a hospitality company, we know that great people who give of themselves in service to others ensure great service and high levels of customer satisfaction.

Providing that level of hospitality consistently leads to sustained revenue progression and strong market share performance, which in turn leads to superior financial results. That supports growth, as we build on the support of our hotel owners to invest in our brands.

We believe in the ability of our associates to make a material difference in the performance of our properties. The leadership of our talented general managers, who operate with entrepreneurial confidence and engagement, truly sets us apart from other hospitality companies.

Strategic, Customer-Driven Expansion

Our creative, responsive development team has established real momentum for expansion of our presence around the world. In 2010 we made significant progress on increasing our presence, recycling assets, and applying capital to extend our brands where they are under-represented in key markets around the world.

In New York, one of the world's most exciting destinations and a market critically important to our guests, we grew from one hotel to three, and expect to open three additional properties in Manhattan over the next several years.

From a brand perspective, we continued growing the Andaz brand with the opening of properties in New York and San Diego. Developer interest in this unique, vibrant brand has been strong, as evidenced by the 12* hotels and resorts open or under development, including the Andaz Shanghai that we expect to open in 2011. In addition, we opened the Park Hyatt Aviara in Carlsbad, California, and plan to expand the Park Hyatt brand to more than 40 properties in the coming years.

We opened 31 hotels last year, nine in markets in which we did not have a presence. As of December 31, 2010, we had executed contracts for approximately 140 new hotels representing more than 32,000 rooms. Of these potential new properties, approximately 70 percent are located outside of North America, representing planned entry into eight countries where Hyatt does not currently have a presence. This more than 15 percent increase in executed contracts over 2009 levels underscores the preference we are generating among owners and developers as well as their confidence in our understanding of and service to our guests and the customer segments we serve throughout the world.

*As of 12.31.10.

A Shared Commitment

Our more than 85,000* associates are focused on our goals with a shared set of values, an extraordinary clarity of purpose and a common commitment to provide the kind of authentic hospitality only Hyatt can deliver. We are proud of the dedication of our people and we are motivated by the promise of our future.

One way that we are enhancing and reinforcing our culture is to celebrate, support and communicate the efforts of thousands of Hyatt associates who are working hard to make the communities in which we operate thrive – thriving places to work, to live and to visit. Thousands of our associates are highly focused on reducing the environmental impact of operating hotels in the markets where we are located and the communities where they live. In addition to these efforts, there is a decades-long history and tradition of volunteering at Hyatt. Associates volunteer thousands of hours every year to support charitable-enterprises and other community service initiatives. We are also supporting our communities through charitable giving from the Hyatt Community program. In these ways we are fortifying the efforts of the Hyatt family to give back and to ensure that the communities in which we operate are better because Hyatt is there.

We are delighted to have you as part of our corporate family. We appreciate your support and we are committed to continue to earn it. I am honored to lead Hyatt at this very exciting time and I feel a great responsibility to ensure that we continue to build long-term value for all of our shareholders.

Sincerely,

Mark S. Hoplamazian
President and Chief Executive Officer

serving our guests

Brand Portfolio

Hyatt Hotels Corporation, headquartered in Chicago, is a leading global hospitality company with a proud heritage of making guests feel more than welcome. Thousands of members of the Hyatt family strive to make a difference in the lives of the guests they encounter every day by providing authentic hospitality. The company's subsidiaries manage, franchise, own and develop hotels and resorts under the Hyatt®, Park Hyatt®, Andaz®, Grand Hyatt®, Hyatt Regency®, Hyatt Place® and Hyatt Summerfield Suites® brand names and have locations on six continents. Hyatt Residential Group, Inc., a Hyatt Hotels Corporation subsidiary, develops, operates, markets or licenses Hyatt Residences™ and Hyatt Vacation Club®, which is changing its name to Hyatt Residence Club™. As of December 31, 2010, the company's worldwide portfolio consisted of 453 properties in 45 countries.

PARK HYATT®

Located in many of the world's premier destinations, Park Hyatt hotels provide discerning, affluent individual business and leisure guests with elegant and luxurious accommodations.

ANDAZ®

Andaz hotels, designed to reflect the unique cultural scene and spirit of the surrounding neighborhood, provide a vibrant yet relaxed atmosphere geared toward today's individual business and leisure travelers.

GRAND HYATT®

Grand Hyatt's large-scale, distinctive hotels provide sophisticated global business and leisure travelers with upscale accommodations in major gateway cities and resort destinations.

HYATT REGENCY®

Hyatt Regency properties, offering a full range of services and facilities tailored to serve the needs of meeting planners, business travelers and leisure guests, are conveniently located in urban, suburban, airport, convention and resort destinations around the world.

HYATT®

Conveniently located in proximity to diverse business and leisure areas, Hyatt hotels are smaller-sized properties serving individual business and leisure travelers.

HYATT PLACE®

Hyatt Place hotels, designed for families and the multi-tasking business traveler, are located in urban, airport and suburban areas.

HYATT SUMMERFIELD SUITES®

Hyatt Summerfield Suites is an extended-stay, residential-style hotel that aims to provide individual and family travelers with the feel of a modern condominium.

HYATT RESIDENCE CLUB™

Hyatt Residence Club provides members with vacation ownership opportunities in regionally inspired and designed residential-style properties with the quality of the Hyatt brand.

Disclosure Regarding Forward-Looking Statements

This annual report contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include statements about the Company's plans, strategies, financial performance, prospects or future events and involve known and unknown risks that are difficult to predict. As a result, our actual results, performance or achievements may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as "may," "could," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "predict," "potential," "continue," "likely," "will," "would" and variations of these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to:

- the factors discussed in this annual report set forth under the sections titled "Risk Factors" in Part I, Item 1A, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7;
- the rate and the pace of economic recovery following the economic downturn;
- levels of spending in business and leisure segments as well as consumer confidence;
- declines in occupancy and average daily rate;
- hostilities, including future terrorist attacks, or fear of hostilities that affect travel;
- travel-related accidents;
- natural or man-made disasters such as earthquakes, tsunamis, tornados, hurricanes, floods and oil spills;
- the seasonal and cyclical nature of the real estate and hospitality businesses;
- changes in distribution arrangements, such as through internet travel intermediaries;
- changes in the tastes and preferences of our customers;
- relationships with associates and labor unions and changes in labor law;
- financial condition of, and our relationships with, third-party property owners, franchisees and hospitality venture partners;
- risk associated with potential acquisitions and dispositions and the introduction of new brand concepts;
- changes in federal, state, local or foreign tax law;
- increases in interest rates and operating costs;
- fluctuations in currency exchange rates;
- lack of acceptance of new brands or innovation;
- general volatility of the capital markets and our ability to access the capital markets;
- changes in the competitive environment in our industry and the markets where we operate;
- outcomes of legal proceedings; and
- violations of regulations or laws related to our franchising business.

These factors are not necessarily all of the important factors that could cause our actual results, performance or achievements to differ materially from those expressed in or implied by any of our forward-looking statements. Other unknown or unpredictable factors also could harm our results. All forward-looking statements

attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made, and we do not undertake or assume any obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Terms Used in this Annual Report

Unless otherwise specified or the context otherwise requires, references in this annual report to “we,” “our,” “us,” “Hyatt,” “HHC,” and the “Company” refer to Hyatt Hotels Corporation and its consolidated subsidiaries.

As used in this annual report, the term “Pritzker family business interests” means (1) various lineal descendants of Nicholas J. Pritzker (deceased) and spouses and adopted children of such descendants; (2) various trusts for the benefit of the individuals described in clause (1) and trustees thereof; and (3) various entities owned and/or controlled, directly and/or indirectly, by the individuals and trusts described in (1) and (2).

As used in this annual report, the term “properties” refers to hotels that we manage, franchise, own or lease and our residential and vacation ownership units that we develop, sell and manage. “Hyatt-branded” refers to properties operated under our brands, including Park Hyatt, Andaz (our newest full service brand), Grand Hyatt, Hyatt Regency, Hyatt, Hyatt Place and Hyatt Summerfield Suites. Residential ownership units refers to residential units that we manage, provide services to or license our trademarks with respect to (such as serviced apartments and Hyatt-branded residential units), some of which we own, that are part of mixed-use projects and are often adjacent to a Hyatt-branded full service hotel. Vacation ownership units refers to the fractional and timeshare units that we develop, sell or manage that are part of the Hyatt Vacation Club, which is in the process of changing its name to Hyatt Residence Club. Hospitality ventures refer to entities in which we own less than a 100% equity interest.

As used in this annual report, the term “associates” refers to the more than 85,000 individuals working at our corporate and regional offices and our managed, franchised and owned properties. Of these 85,000 associates, we directly employ approximately 45,000. The remaining associates are employed by certain third-party owners and franchisees of our hotels.

Hyatt®, Park Hyatt®, Andaz®, Grand Hyatt®, Hyatt Regency®, Hyatt Place®, Hyatt Summerfield Suites®, Hyatt Vacation Club®, Hyatt Residence Club™, Hyatt Gold Passport®, Hyatt Resorts™ and related trademarks, logos, trade names and service marks appearing in this annual report are the property of Hyatt Corporation, a wholly owned subsidiary of Hyatt Hotels Corporation. All other trademarks, trade names or service marks appearing in this annual report are the property of their respective owners.

Reverse Stock Split and Reclassification of Common Stock

Except as otherwise indicated, information in this annual report:

- reflects the one-for-two reverse stock split of our common stock effected on October 14, 2009; and
- reflects the reclassification of (i) 34,407 shares of common stock into 34,407 shares of Class A common stock and (ii) 168,005,588 shares of common stock into 168,005,588 shares of Class B common stock (and subsequent conversion of 38,000,000 of such shares into 38,000,000 shares of Class A common stock at the time such shares were sold by the selling stockholders in our initial public offering), effected on November 4, 2009 in connection with the filing of our amended and restated certificate of incorporation.

Part I

Item 1. *Business.*

Our History

Hyatt was founded by Jay Pritzker in 1957 when he purchased the Hyatt House motel adjacent to the Los Angeles International Airport. Over the following decade, Jay Pritzker and his brother Donald Pritzker, working together with other Pritzker family business interests, grew the company into a North American management and hotel ownership company, which became a public company in 1962. In 1968, Hyatt International was formed by Pritzker family business interests and subsequently became a separate public company. Hyatt Corporation and Hyatt International Corporation were taken private by the Pritzker family business interests in 1979 and 1982, respectively.

Prior to June 30, 2004, Hyatt Corporation, which primarily consisted of the North American hotel management and franchise companies, was owned by HG, Inc. (HG). H Group Holding, Inc. (H Group), which is owned by Pritzker family business interests, owns HG. In addition to owning Hyatt Corporation, HG owned various other North American hospitality related businesses (primarily consisting of hotel properties and the vacation ownership business) and on June 30, 2004 contributed these hospitality related businesses to Hyatt Corporation. Following such contribution, the stock of Hyatt Corporation was distributed to the Pritzker family business interests that owned H Group. We refer to this transaction as the "June 2004 Transaction."

Following the June 2004 Transaction, substantially all of the hospitality assets owned by Pritzker family business interests, including Hyatt Corporation and Hyatt International Corporation, were consolidated under a single entity. On August 4, 2004, Global Hyatt, Inc. was incorporated in Delaware and subsequently changed its name to Global Hyatt Corporation. On December 31, 2004, pursuant to a Master Contribution Agreement, the stock of Hyatt Corporation and the stock of AIC Holding Co. (AIC), the owner of Hyatt International Corporation and other international hospitality related assets and operations, as well as hospitality related assets and operations held by certain other entities owned by Pritzker family business interests, were contributed to Global Hyatt Corporation by their respective owners in exchange for shares of Global Hyatt Corporation common stock. As a result of this transaction, Hyatt Corporation, AIC and Hyatt International Corporation became wholly-owned subsidiaries of Global Hyatt Corporation. The contribution was reflected as a transaction between entities under common control as of January 1, 2004. On June 30, 2009, Global Hyatt Corporation changed its name to Hyatt Hotels Corporation.

On November 10, 2009, we completed an initial public offering of 43,700,000 shares of our Class A common stock, of which selling stockholders sold 38,000,000 shares and we sold 5,700,000 in connection with the underwriters' exercise of their option to purchase additional shares. In connection with the offering, our Class A common stock began trading publicly on the New York Stock Exchange under the symbol "H" on November 5, 2009.

Overview

Hyatt Hotels Corporation is a global hospitality company with widely recognized, industry leading brands and a tradition of innovation developed over our more than fifty-year history. Our mission is to provide authentic hospitality by making a difference in the lives of the people we touch every day. We focus on this mission in pursuit of our goal of becoming the most preferred brand in each customer segment that we serve for our associates, guests and owners. We support our mission and goal by adhering to a set of core values that characterize our culture. We believe that our mission, goal and values, together with the strength of our brands, strong capital and asset base and opportunities for expansion, provide us with a platform for long-term value creation.

We manage, franchise, own and develop Hyatt-branded hotels, resorts and residential and vacation ownership properties around the world. As of December 31, 2010, our worldwide portfolio consisted of 453 Hyatt-branded properties (127,507 rooms and units), including:

- 177 managed properties (68,239 rooms), all of which we operate under management agreements with third-party property owners;
- 132 franchised properties (20,249 rooms), all of which are owned by third parties that have franchise agreements with us and are operated by third parties;
- 90 owned properties (including 3 consolidated hospitality ventures) (23,637 rooms) and 6 leased properties (2,851 rooms), all of which we manage;
- 24 managed properties owned or leased by unconsolidated hospitality ventures (10,330 rooms);
- 15 vacation ownership properties (962 units), all of which we manage; and
- 9 residential properties (1,239 units), all of which we manage and some of which we own.

Our full service hotels and resorts operate under five world-recognized brands, Park Hyatt, Andaz, Grand Hyatt, Hyatt Regency and Hyatt. Our two select service brands are Hyatt Place and Hyatt Summerfield Suites (an extended stay brand). We develop, sell or manage vacation ownership properties in select locations as part of the Hyatt Vacation Club, which is in the process of changing its name to Hyatt Residence Club. We also manage, provide services to or license our trademarks with respect to residential ownership units that are often adjacent to a Hyatt-branded full service hotel. We consult with third parties in the design and development of such mixed-use projects based on our expertise as a manager and owner of vacation ownership properties, residential properties and hotels.

Our associates, whom we also refer to as members of the Hyatt family, are more than 85,000 individuals working at our corporate and regional offices and our managed, franchised and owned properties in 45 countries around the world. Substantially all of our hotel general managers are trained professionals in the hospitality industry with extensive hospitality experience in their local markets and host countries. The general managers of our managed properties are empowered to manage their properties on an independent basis based on their market knowledge, management experience and understanding of our brands. Our associates and hotel general managers are supported by our divisional management teams located in cities around the world and our executive management team, headquartered in Chicago.

We primarily derive our revenues from hotel operations, management and franchise fees, other revenues from managed properties and sales of vacation ownership properties. For the years ended December 31, 2010 and 2009, revenues totaled \$3.5 billion and \$3.3 billion, respectively, net income (loss) attributable to Hyatt Hotels Corporation totaled \$66 million and \$(43) million, respectively, and Adjusted EBITDA totaled \$476 million and \$406 million, respectively. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – Key Business Metrics Evaluated by Management – Adjusted EBITDA" for our definition of Adjusted EBITDA, why we present it and for a reconciliation of our consolidated Adjusted EBITDA to net income (loss) attributable to Hyatt Hotels Corporation for the periods presented. For the years ended December 31, 2010 and 2009, 79.4% and 80.4% of our revenues were derived from operations in the United States, respectively. As of December 31, 2010, 74.3% of our long-lived assets were located in the United States. As of December 31, 2010, we had total debt of \$771 million, cash and cash equivalents of \$1.1 billion and short-term investments of \$524 million. As of December 31, 2010, we had available borrowing capacity of \$1.1 billion under our revolving credit facility. These sources provide us with significant liquidity and resources for future growth.

Our Mission, Goal and Values

Our Mission

Our mission is to provide authentic hospitality by making a difference in the lives of the people we touch every day, including our associates, guests and owners.

Our Goal

Our goal is to be the most preferred brand in each customer segment that we serve for our associates, guests and owners.

Our Values

We aim to foster a common purpose and culture within the Hyatt family through shared core values of mutual respect, intellectual honesty and integrity, humility, fun, creativity and innovation.

Our mission, goal and values are interdependent, and we refer to this interdependence as the “Hyatt value chain.” The Hyatt value chain begins with our associates. We believe that our efforts to engage our associates in planning for how we can better serve our fellow associates, guests and owners contributes to their commitment to genuine service, which is the first step to achieving high levels of guest satisfaction. In our view, motivating our associates to become personally involved in serving and demonstrating loyalty to our guests is central to fulfilling our mission. We rely upon the management teams at each of our managed properties to lead by example and we provide them with the appropriate autonomy to make operational decisions in the best interest of the hotel and brand. We believe the managers of our franchised properties are experienced operators with high standards and have demonstrated commitment to our values and our approach to guest service that is designed to enhance guest satisfaction. High levels of guest satisfaction lead to increased guest preference for our brands, which we believe results in a strengthened revenue base over the long term. We also believe that engaged associates will enhance efficient operation of our properties, resulting in improved financial results for our property owners. Sustained adherence to these principles is a basis for our brand reputation and is one of the principal factors behind the decisions by our diverse group of hotel owners and developers to invest in Hyatt-branded properties around the world. We work with existing and prospective hotel owners and developers to increase our presence around the world, which we expect will lead to new channels for professional growth for our associates, guest satisfaction and brand preference and completing the Hyatt value chain.

Our Competitive Strengths

We have significant competitive strengths that support our goal of being the most preferred brand for our associates, guests and owners.

- ***World Class Brands.*** We believe that our widely recognized, industry leading brands provide us with a competitive advantage in attracting and driving preference for our associates, guests and owners. We have consistently received top rankings, awards and accolades for service and guest experience from independent publications and surveys, including Condé Nast Traveler, Travel and Leisure, Mobil and AAA. As an example, 59 properties across our Park Hyatt, Grand Hyatt, Hyatt Regency and Hyatt Vacation Club brands received the AAA four diamond lodging award in 2010. Our brand recognition and strength is key to our ability to drive preference for our brands among our associates, guests and owners.
- ***Global Platform with Compelling Growth Potential.*** Our existing global presence is widely distributed and we operate in 21 of the 25 most populous urban centers around the globe based on demographic research. We believe that our existing hotels around the world provide us with a strong platform from which to selectively pursue new growth opportunities in markets where we are under-represented. We have a long history of executing on growth opportunities. Our dedicated global development executives in offices around the world apply their experience, judgment and knowledge to ensure that new Hyatt branded hotels enhance preference for our brands. An important aspect of our

compelling growth potential is our strong brand presence in higher growth markets around the world such as India, China, Russia, the Middle East and Brazil. The combination of our existing presence and brands, experienced development team, established third-party relationships and significant access to capital provides us with a strong foundation for future growth and long-term value creation.

- ***Deep Culture and Experienced Management Teams.*** Hyatt has a strong culture rooted in values that have supported our past and form the foundation for our future. The members of the Hyatt family are united by shared values, a common mission and a common goal. The associates at our properties are led by an experienced group of general managers. For example, the general managers at our full service owned and managed hotels have an average tenure of more than 22 years at Hyatt. Regional and divisional management teams located around the world support our hotel general managers by providing corporate resources, mentorship and coaching, owner support and other assistance necessary to help them achieve their goals. Senior operating management has an average of 29 years of experience in the industry. Our experienced executive management team sets overall policies for our company, supports our regional and divisional teams and our associates around the world, provides strategic direction and leads our growth initiatives worldwide.
- ***Strong Capital Base and Disciplined Financial Approach.*** Our approach is to maintain appropriate levels of financial leverage and liquidity through industry cycles and economic downturns. As of December 31, 2010, we had cash and cash equivalents of \$1.1 billion, short-term investments of \$524 million and available borrowing capacity of \$1.1 billion. We have no significant debt maturities through 2013. We believe that as a result of our balance sheet strength, we are uniquely positioned to take advantage of strategic opportunities to develop or acquire properties and brands. We adhere to a formal investment process in evaluating such opportunities with input from various groups within our global organization.
- ***Diverse Exposure to Hotel Management, Franchising and Ownership.*** We believe that our experience as a multi-brand manager, franchisor and owner of hotels makes us one of the best positioned lodging companies in the world. Our mix of managed, franchised and owned hotels provides a broad and diverse base of revenues, profits and cash flows and gives us flexibility to evaluate growth opportunities across these three lines of business.
- ***High Quality Owned Hotels Located in Desirable Markets.*** As of December 31, 2010, we own and operate a high quality portfolio of 90 owned properties and 24 managed properties owned or leased by unconsolidated hospitality ventures, consisting of luxury and upper-upscale full service and select service hotels in key markets. Our owned full service hotels are located primarily in key markets, including major business centers and leisure destinations, with strong growth potential, such as Chicago, London, New York, Paris, San Francisco, Seoul and Zurich. Our hospitality ventures include 50% ownership interests in properties in Mumbai and São Paulo. A number of these hotels are unique assets with high recognition and a strong position in their local markets. All of our owned select service hotels were renovated in 2007 and 2006 and are typically located near business districts, airports or attractions. As a significant owner of hotel assets, we believe we are well-positioned for a recovery of demand as we expect earnings growth from owned properties to outpace growth in revenues due to the fixed cost structure of these assets. This benefit can be achieved either through increased earnings from our owned assets or through value realized from selected asset sales.
- ***A Track Record of Innovation.*** Successful innovation has been a hallmark of Hyatt since its founding. More than forty years ago, we opened the Hyatt Regency Atlanta, which was the first ever large-scale atrium lobby hotel. This was both an architectural icon as well as a highly functional hotel property that provided us an entry into the large-scale convention market. We also have a long track record of creative approaches to food and beverage outlets at our hotels throughout the world, which have led to highly profitable venues that create demand for our hotel properties, particularly in Asian markets. In addition, we successfully introduced new service models to the industry. We launched our Hyatt Place brand in 2006 and our Andaz brand in 2007, each of which features a unique internally developed service model that eliminates a number of de-personalized aspects of the hotel experience.

Our Business Strategy

Our goal is to be the most preferred brand in each customer segment that we serve for our associates, guests and owners. In order to achieve this goal, we enhance brand preference by understanding who our customers are and by focusing on what they need and want and how we can deliver value to them. This understanding and focus informs our strategy for improving the performance of our existing hotels and expanding the presence of the Hyatt brand in markets worldwide.

- ***Focus on Improvement in the Performance of Existing Hotels***

A key component of our strategy is to maximize revenues and manage costs at existing hotel properties. We strive to enhance revenues by focusing on increasing our share of hotel stays by our existing guests and increasing the number of new guests we serve on a regular basis, with the ultimate goal of establishing and increasing guest loyalty to our brands. We manage costs by setting performance goals for our hotel management teams, basing a portion of hotel management team compensation on whether performance goals are met, and granting our general managers operational autonomy. Managing costs is one way to improve hotel performance, and we believe that providing incentives to general managers to improve hotel performance leads to improved efficiency in ways appropriate for their respective properties. We support these efforts by assisting them with tools and analytics provided by our regional and corporate offices and by compensating our hotel management teams based on property performance.

- ***Increase Share of Hotel Stays.*** We intend to expand Hyatt's share of hotel stays by continuously striving to provide genuine guest service and delivering value to our guests. Our existing customer base is diverse with different needs and preferences. We aim to provide differentiated service and product offerings targeted at each customer segment within each of our brands, such as meeting planners and convention guests, leisure guests and business travelers, in order to satisfy our customers' specific needs. To provide our customers with the level of service and authentic hospitality that our customers have come to expect, we are committed to maintaining and renovating our properties over time, and have recently begun broad-scope renovation projects at five of our owned properties. Our Hyatt Gold Passport guest loyalty program is designed to attract new guests and to demonstrate our loyalty to our best guests. In the year ended December 31, 2010, new membership enrollment in our Hyatt Gold Passport program has increased by 13.6% compared to new members enrolled during the same period last year. Gold Passport members represented 25.1% of total room nights for 2010. Hyatt Gold Passport was recently honored with the Colloquy Award for Loyalty Innovation in Travel/Hospitality and with three awards from the Frequent Traveler Awards. In September 2010, we and Chase Card Services launched the Hyatt Card, a co-branded Visa® credit card. The Hyatt Card offers additional benefits to our guests by rewarding them with, among other benefits, two free nights at any Hyatt hotel when they first use their card and Hyatt Gold Passport points for hotel stays and other card purchases, and is another way to deepen our relationships with our guests and welcome new travelers to Hyatt hotels.
- ***Emphasize Associate Engagement.*** Our brands are defined, in large part, by the authentic hospitality that is delivered to our guests by our associates. We believe that while a great product is necessary for success, a service model that promotes genuine service for our guests and that is focused on our customers' particular needs is the key to a sustainable long-term advantage. Therefore, we strive to involve our associates in deciding how we serve our guests and what we can do to improve guest satisfaction. We align our associates' interests with our goal of becoming the most preferred brand in each segment that we serve. We rely on our hotel general managers to lead by example and foster associate engagement. We believe that associate engagement results in higher levels of customer satisfaction and improves the performance of our properties. To assist in this process, we aim to ensure that talented management teams are in place worldwide and also reward those teams that achieve higher levels of employee engagement, guest satisfaction and hotel financial performance.

- *Enhance Operational Efficiency.* We strive to align our staffing levels and expenses with demand without compromising our commitment to authentic hospitality and high levels of guest satisfaction. During periods of declining demand for hospitality products and services we make significant changes in operations, including staff reductions at many of our hotels, outsourcing of certain services, renegotiation of contracts to improve pricing and modification of certain product standards to reduce costs without significantly impacting quality. As demand improves, we remain focused on actively managing expenses. We continue to incentivize and assist our hotel general managers as they proactively manage both the customer experience and the operating costs at each of their properties.

- ***Expanding Our Presence in Attractive Markets***

We intend to drive brand preference by expanding the presence of all of our brands in attractive markets worldwide. We believe that the scale of our presence around the world is small relative to the recognition of our brands and our excellent reputation for service and, therefore, we have a unique opportunity to expand. We believe that our mission, goal and values, together with the strength of our brands, people, strong capital and asset base and opportunities for expansion provide us with a platform for long-term value creation.

- *Increase Market Presence.* We will focus our expansion efforts on under-penetrated markets where we already have an established presence and locations where our guests are traveling but where we do not have a presence. We will expand our presence by increasing the number of hotels under Hyatt brand affiliation, primarily by entering into new management and franchising agreements. We believe our extensive focus on the different customer groups that we serve and our understanding of how we can serve them in new locations will facilitate our growth. We have made significant progress in expanding our presence in 2010 through development of new hotels and conversion of existing hotels. In New York City, the opening of our two Andaz properties in 2010 and contract signings for new properties will expand our presence to six hotels. In 2010, we announced five conversions of existing hotels in North America to four different Hyatt brands. We continue to grow our presence in India and in 2010 announced development plans to expand into 15 new Indian markets over the next five years. In China, we recently announced that we have entered into long-term management agreements for 11 new Hyatt-branded hotels in emerging cities and resort destinations, giving us a total of 22 properties under development in China across all of our full service brands.
- *Expand our Select Service Presence.* We intend to establish and expand Hyatt Place and Hyatt Summerfield Suites worldwide, which we believe will support our overall growth and enhance the performance of all of our brands. We intend to grow our select service presence through construction of new franchised properties by third-party developers, conversion and renovation of existing non-Hyatt properties, and, in certain cases participation in the development of properties that would be managed by us. To pursue this strategy, we have a dedicated select service development team. We believe that the opportunity for properties that provide a select offering of services at a lower price point than full service hotel alternatives is particularly compelling in certain emerging markets, such as Brazil, India, China and the Middle East where there is a large and growing middle class along with a meaningful number of local business travelers. During the year ended December 31, 2010, we opened 16 new Hyatt Place hotels and 4 new Hyatt Summerfield Suites hotels in North America, most of which were franchised properties. We also announced 15 Hyatt Place hotels under development in India and Panama.
- *Increase Focus on Franchising.* We intend to increase our franchised hotel presence, primarily in North America, for our select service brands and our Hyatt and Hyatt Regency brands. By increasing our focus on franchising, we believe that we will gain access to capital from developers and property owners that specifically target franchising business opportunities. To pursue this strategy, we have established an internal team dedicated to supporting our franchise owners and to

driving the expansion of our franchised hotel presence. We plan to expand existing relationships and develop new relationships with franchisees who demonstrate an ability to provide excellent customer service while maintaining our brand standards. In 2010, the number of our franchised hotels has increased from 109 to 132. Four of these hotels were previously managed by us.

- o *Utilize our Capital and Asset Base for Targeted Growth.* The combination of our significant liquidity and strong capital position coupled with our large, high quality asset base provides a unique platform to support our growth strategy. We intend to use our liquidity and strong capital base along with selected asset dispositions to redeploy capital to opportunities that will allow us to strengthen our management presence in key markets worldwide. In order to maximize long-term shareholder value we intend to selectively dispose of hotel properties and use the proceeds to expand our presence in markets as described above under “—Increase Market Presence” and “—Expand our Select Service Presence.” The form of our capital deployment will vary depending on the opportunity. We will assess and balance liquidity, value and strategic importance as we seek to expand our presence through investment. We also will continue to commit capital to fund the renovation of certain assets in our existing owned portfolio. While we may selectively dispose of hotel properties, given our focus and expertise as an owner, we expect to maintain significant ownership of hotel properties over time. During 2010, we invested capital to facilitate the redevelopment of the Hyatt Regency New Orleans and to purchase two parcels of land for hotel developments in Latin America. We committed to invest capital for the acquisition and redevelopment of a resort in Hawaii and the development of a Park Hyatt in New York. We also sold six properties during 2010 as we continue to execute our strategy of asset recycling. We sold these properties, but continue to manage or franchise each one for owners who have committed to invest in the property to improve the assets.
- o *Pursue Strategic Acquisitions and Alliances.* We expect to evaluate potential acquisitions of other brands or hospitality management or franchising companies as a part of our efforts to expand our presence. These acquisitions may include hotel real estate. We expect to focus on acquisitions that complement our ability to serve our existing customer base and enhance customer preference by providing a greater selection of locations, properties and services. Furthermore, we may pursue these opportunities in alliance with existing or prospective owners of managed or franchised properties to strengthen our brand presence.

Description of Our Brands

Brand	Segment	Customer Base	December 31, 2010 % of our Total Rooms/Units	December 31, 2010 Rooms/Units		Selected Competitors	Key Locations

Park Hyatt

Park Hyatt provides discerning, affluent individual business and leisure guests with elegant and luxurious accommodations. Guests of Park Hyatt receive highly attentive personal service in an intimate environment. Located in many of the world's premier destinations, each Park Hyatt is custom designed to combine sophistication with distinctive regional character. Park Hyatt features well-appointed guestrooms, meeting and special event spaces for smaller groups, critically acclaimed art programs and signature restaurants featuring award-winning chefs.

Andaz

Andaz is a hotel where our guests experience a vibrant yet relaxed atmosphere geared towards today's individual business and leisure travelers. Each hotel is designed to reflect the unique cultural scene and spirit of the surrounding neighborhood. The hotels also feature a unique service model that removes a number of de-personalized aspects of a typical hotel experience. For example, each hotel allows guests to check-in to the hotel more efficiently through innovative techniques that include the use by our associates of a hand-held device for check-in. In addition, a laptop is available in the lobby area, known as the Andaz Lounge, upon arrival that allows the guest to check themselves into the hotel. During this check-in process and throughout a guest's stay, complimentary beverages remain available in the Lounge. We have also simplified pricing for our guests as the room rate includes internet access, local phone calls and non-alcoholic beverages and snacks in the room.

Grand Hyatt

Grand Hyatt features large-scale, distinctive hotels in major gateway cities and resort destinations. With presence around the world and critical mass in Asia, Grand Hyatt hotels provide sophisticated global business and leisure travelers with upscale accommodations. Signature elements of the Grand Hyatt include dramatic architecture, innovative dining options, state of the art technology, spa and fitness centers and comprehensive business and meeting facilities appropriate for corporate meetings and social gatherings of all sizes.

Hyatt Regency

Hyatt Regency offers a full range of services and facilities tailored to serve the needs of meeting planners, business travelers and leisure guests. Properties generally range in size from 200 to over 2,000 rooms and are conveniently located in urban, suburban, airport, convention and resort destinations around the world. Hyatt Regency convention hotels feature spacious meeting and conference facilities designed to provide a productive environment. Hyatt Regency hotels in resort locations cater to couples seeking a getaway, families enjoying a vacation together and corporate groups seeking a relaxed atmosphere in which to conduct business and meetings.

Hyatt

Hyatt hotels are smaller-sized properties conveniently located in proximity to diverse business and leisure areas. With hotels typically ranging from 150 to 350 rooms, Hyatt hotels offer guests the opportunity to experience our signature service and hospitality in a vibrant environment. Customers include individual business and leisure travelers, and Hyatt hotels can accommodate smaller scale business meetings and social gatherings.

Hyatt Place

Hyatt Place is designed for the busy lifestyle of today's multi-tasking business traveler and features a selected range of services aimed at providing casual hospitality in a well-designed, high-tech and contemporary environment. Property sizes typically range from 125 to 200 rooms and are located in urban, airport and suburban areas. Signature features of Hyatt Place include The Gallery, which offers a coffee and wine bar, a 24 hours per day, seven days per week guest kitchen with freshly prepared snacks and entrees, and daily complimentary continental breakfast. Hyatt Place guests are business travelers as well as families. Hyatt Place properties are also well suited to serve small corporate meetings.

Hyatt Summerfield Suites

Hyatt Summerfield Suites is an extended-stay, residential-style hotel that aims to provide individual and family travelers with the feel of a modern condominium. The all-suite properties, typically 125 to 200 rooms, offer comforts of home such as fully equipped kitchens, flat panel HDTVs and free high-speed internet access. The public space features facilities such as a pool, a fitness center and a business center. A full breakfast every morning and an evening social on weekday evenings are complimentary to guests. Hyatt Summerfield Suites are located in urban, airport and suburban locations and can accommodate small corporate meetings and corporate clients seeking to place their employees on extended assignment.

Hyatt Residence Club

Hyatt Residence Club, which is changing its name from Hyatt Vacation Club, provides members with vacation ownership opportunities in regionally inspired and designed residential-style properties with the quality of the Hyatt brand. Members pre-purchase time at a Hyatt Residence Club property and have the flexibility of usage, exchange and rental. Hyatt Residence Club members can choose to occupy their vacation home, to exchange time among 15 Hyatt Residence Clubs, to trade their time for Gold Passport points or to travel within the Hyatt system. Alternatively, members can exchange their time for time at properties participating within Interval International's program, a third-party company with over 2,500 resorts in its exchange network worldwide.

Residential Ownership Units

Residential ownership units consist of serviced apartments and Hyatt-branded residential units in, adjacent to, or near, certain of our Hyatt-branded full service hotels. These units are designed consistent with the brand standards of the Hyatt hotel with which they are associated or near which they are operated. Units typically feature a kitchenette and sitting area, and residents are provided with or can request various Hyatt hotel services.

Our Community Commitment

At Hyatt, we are committed to making a positive and lasting impact in every community in which we operate. We do this by demonstrating a strong commitment to preserving our natural environment through Hyatt Earth, by giving back to the local communities in which we operate through Hyatt Community, and with the volunteer services of our associates through Hyatt's Family of Responsible and Caring Employees (F.O.R.C.E.).

- Hyatt Earth—Our global sustainability program with measurable results that promotes a culture of environmental awareness and rewards initiatives with positive environmental impact.
- Hyatt Community—A philanthropic program that awards grants to nonprofit groups that support youth development and education or improve the environment in which the Hyatt family lives and works.
- F.O.R.C.E.—A volunteer program that allows Hyatt associates worldwide to participate in local community outreach and volunteer efforts on paid company time.

Management Agreements

Pursuant to management agreements, we manage hotels and residential properties worldwide.

Fees

Our management agreements typically provide for a two-tiered fee structure that compensates us both for the volume of business we generate for the property as well as for the profitability of hotel operations. In these two-tier fee structures, our base compensation is a base fee that is usually an agreed upon percentage of gross revenues from hotel operations. In addition, we are incentivized to improve hotel profitability through an incentive fee that is typically calculated as a percentage of a hotel profitability measure, such as gross operating profit, adjusted profit or the amount by which gross operating profit or adjusted profit exceeds a fixed threshold. Outside of the United States our fees are often more dependent on hotel profitability measures either through a single management fee structure where the entire fee is based on a profitability measure, or because our two-tier fee structure is more heavily weighted toward the incentive fee than the base fee.

Terms and Renewals

The average remaining term of our management agreements with third party owners and unconsolidated hospitality ventures for full service hotels (other than those in development) is approximately 13 years, assuming no renewal options are exercised by either party. The average remaining term of our management agreements with third-party owners and unconsolidated hospitality ventures for select service hotels (other than those in development) is approximately 20 years, assuming no renewal options are exercised by either party.

Certain of our management agreements allow for extensions of the contract term by mutual agreement, or at the discretion of one of the parties. Including exercise of extension options that are in Hyatt's sole discretion and assuming in certain cases that specific performance tests have been met, the average remaining term of our management agreements is approximately 20 years for our full service hotels located in the United States, Canada and the Caribbean, approximately 17 years for our full service hotels located throughout the rest of the world and approximately 46 years for our select service hotels. Twenty-two select service hotels are governed under the same management agreement, which has a remaining base term of approximately 20 years. Hyatt may elect to extend the term of this agreement for two additional fifteen-year terms.

Some of our management agreements grant early termination rights to owners of the hotels we manage upon the occurrence of a stated event, such as the sale of the hotel or our failure to meet a specified performance test. Generally, termination rights under performance tests are based upon the property's individual performance or its performance when compared to a specified set of competitive hotels branded by other hotel operators, or both. These termination rights are usually triggered if we do not meet the performance tests over multiple years. We generally have the option to cure performance failures by paying an amount equal to the short fall but in some cases our cure rights may be limited and the result of our failure to meet a performance test may be the termination of our management agreement.

Many of our management agreements are subordinated to mortgages or other secured indebtedness of the owners. In North America, in the event lenders take possession of the hotel property through foreclosure or similar means, most lenders have agreed to recognize our right to continue to manage the hotels under the terms set forth in the management agreements.

Franchise Agreements

Pursuant to franchise agreements, we grant our franchisees the limited right to use our name, marks and system in the operation of franchised Hyatt, Hyatt Regency, Hyatt Place and Hyatt Summerfield Suites hotels. We do not directly participate in the management of our franchised hotels. However, franchisees are required to operate franchised hotels consistent with our brand standards. We approve the plans for, and the location of, franchised hotels and review the operation of these hotels to ensure that our standards are maintained. We

provide support to and advice with respect to certain aspects of hotel operations for the benefit of our franchise owners and operators through our Franchise and Owner Relations Group.

Fees

In general, our franchisees pay us an initial application fee and ongoing royalty fees, the amount of which depends on whether the franchised property is a select or full service hotel. We franchise full service hotels under the Hyatt and Hyatt Regency brands. We franchise select service hotels under our Hyatt Place and Hyatt Summerfield Suites brands. Application fees are typically \$60,000 for our Hyatt Place hotels, \$50,000 for our Hyatt Summerfield Suites hotels and the greater of \$100,000 or \$300 per guest room for our full service hotels. Select service franchisees pay continuing royalty fees calculated as a percentage of gross room revenues which typically are 3% in the first year of operations, 4% in the second year and 5% through the remainder of the term. Our full service franchisees typically pay us royalty fees calculated as 6% of gross room revenues and 3% of gross food and beverage revenues, although in some circumstances we have negotiated other fee arrangements.

In addition to our franchise fees, we charge full service franchisees for certain services arranged and provided by us. These activities include centralized reservation functions, certain sales functions, information technology, national advertising, marketing and promotional services, as well as various accounting and insurance procurement services. We also charge select service franchisees for marketing, central reservations and technology services.

Terms and Renewals

The standard term of our franchise agreements is 20 years, with one 10 year renewal option exercisable by the franchisee, assuming the franchisee has complied with franchise agreement requirements and standards. We have the right to terminate franchise agreements upon specified events of default, including non-payment of fees and non-compliance with brand standards. In the event of early termination for any reason, our franchise agreements set forth liquidated damages that our franchisees must pay to us upon termination. The bankruptcy of a franchisee or lender foreclosure could result in the termination of the franchise agreement. The average remaining base term of our franchise agreements for our select service and full service hotels (other than those in development) is approximately 17 years.

Business Segment, Revenues and Geographical Information

For information regarding our three reportable business segments, revenues and geographical information, see Note 20 to our consolidated financial statements included in this annual report.

Sales, Marketing and Reservations

Sales

Our global sales organization is focused on growing market share with key accounts, identifying new business opportunities and maximizing our local customer base.

Our worldwide customers consist of: major corporations; national, state and regional associations; specialty market accounts (social, government, military, educational, religious and fraternal); travel organizations; and a broad and diverse group of individual consumers. Our worldwide sales force targets multiple brands to key customer accounts within these groups. No one customer is material to our business. Our global team consists of over 100 associates focused on group business, business and leisure traveler accounts and travel agencies. We also deploy approximately 25 associates to target the acquisition of new business with the goal of establishing new worldwide accounts.

We also have regional sales offices throughout the world, including in New York, Chicago, Los Angeles, Washington D.C., London, Hong Kong, Mainz, Mumbai, Shanghai, Beijing, Tokyo, Mexico City, Cairo, Singapore, Saudi Arabia and Melbourne.

Our associates in our worldwide sales force and in our North American full service hotels use Envision, our proprietary sales tool, to manage the group rooms forecast, maintain an inventory of definite and tentative group rooms booked each day, streamline the process of checking guest room availability and rate quotes and determine meeting room availability.

In conjunction with our worldwide sales force, each hotel has an in-house team of sales associates. The in-house sales associates are focused on local and regional business opportunities, as well as securing the business generated from our worldwide accounts.

Hyatt seeks to maximize revenues in each hotel through a team of revenue management professionals. The goal of revenue management is to secure the right customers, on the right date, at the right price. Business opportunities are reviewed and agreed upon by the hotel's revenue management team.

Marketing

Our marketing strategy is designed to maintain and build brand value and awareness while meeting the specific business needs of hotel operations. Building and differentiating each of our brands is critical to increasing Hyatt's brand preference. We are focused on targeting the distinct guest segments that each of our brands serves and supporting the needs of the hotels by thorough analysis and application of data and analytics. Hyatt Gold Passport and Hyatt.com are the key components of our marketing strategy. Hyatt Gold Passport is a service and loyalty program with focus on driving guest satisfaction, recognition and differential services for our most loyal guests. Hyatt.com is our primary online distribution channel providing customers with an efficient source of information about our hotels and an effective booking experience.

Reservations

We have a central reservation system that provides a comprehensive view of inventory, while allowing for local management of rates based on demand. Through this system, we are able to allow bookings by hotels directly, via telephone through our call centers, by travel agents and online through Hyatt.com.

We have eight call centers that service our global guest base 24 hours per day, seven days per week and provide reservation services in over 25 languages. While we continue to provide full reservations services via telephone through our call centers, we have also invested significant amounts in internet booking capabilities on Hyatt.com and through online booking partners.

In addition, some of our hotel rooms at hotels and resorts we manage or franchise are booked through internet travel intermediaries and partners and online travel service providers. We also engage third-party intermediaries who collect fees by charging our hotels and resorts a commission on room revenues, including travel agencies and meeting and event management companies.

Hyatt Gold Passport

We operate a guest loyalty program, Hyatt Gold Passport. This program generates substantial repeat guest business by rewarding frequent stays with points toward free hotel nights and other rewards.

Hyatt Gold Passport members earn points based on their spending at our hotels or in connection with spending on the Hyatt Card. Hyatt Gold Passport points can be redeemed at all hotels across our brands and can also be converted into airline miles with more than 30 participating airlines.

The Hyatt Gold Passport program is funded through a contribution from eligible revenues generated from Hyatt Gold Passport members. These funds are applied to reimburse hotels for room nights where guests redeem Hyatt Gold Passport points and to pay for administrative expenses and marketing initiatives to support the program.

As of December 31, 2010, the Hyatt Gold Passport program had over 10 million members, and during 2010, Hyatt Gold Passport members represented 25.1% of total room nights. We expect our Hyatt Gold Passport program to continue to have a positive impact on our brands.

Competition

There is intense competition in all areas of the hospitality industry in which we operate. Competition exists for hotel guests, management agreements and franchise agreements and sales of vacation ownership properties and branded residential properties. Our principal competitors are other operators of full service, select service and extended stay properties, including other major hospitality chains with well established and recognized brands. We also compete against small chains and independent and local owners and operators.

We compete for guests based primarily on brand name recognition and reputation, location, customer satisfaction, room rates, quality of service, amenities, quality of accommodations, security and the ability to earn and redeem loyalty program points.

We compete for management agreements based primarily on the value and quality of our management services, our brand name recognition and reputation, our ability and willingness to invest our capital in third-party owned or hospitality venture projects, the level of our management fees and the economic advantages to the property owner of retaining our management services and using our brand name. We compete for franchise agreements based primarily on brand name recognition and reputation, the room rate that can be realized and total revenues we can deliver to the properties. Other competitive factors for management and franchise agreements include relationships with property owners and investors, including institutional owners of multiple properties, marketing support, reservation and e-commerce system capacity and efficiency and the ability to make investments that may be necessary to obtain management and franchise agreements.

We compete for sales of our vacation ownership properties based principally on location, quality of accommodations, price, financing terms, quality of service, flexibility of usage, opportunity to exchange into other vacation properties and brand name recognition and reputation. In addition to competing with other hotel and resort properties, our vacation ownership properties compete with national and independent vacation ownership club operators as well as with owners reselling their interests in these properties. Our ability to attract and retain purchasers of our vacation ownership properties depends on our success in distinguishing the quality and value of our vacation ownership products and services from those offered by others.

The universe of branded lodging operators with a global reach and depth of product and offerings similar to us is limited. We believe that our strong customer base, prominent brand recognition, strategic property locations and global development team will enable us to compete effectively. For additional information, see Part I, Item 1A, "Risk Factors—Risks Related to Our Business—Because we operate in a highly competitive industry, our revenues, profits or market share could be harmed if we are unable to compete effectively."

Seasonality

The hospitality industry is seasonal in nature. The periods during which our lodging properties experience higher revenues vary from property to property, depending principally upon location and the customer base served. Based upon historical results, our North American properties typically generate the highest revenues in the second quarter and our international properties generally experience the highest revenues during the fourth quarter of each year. We generally expect our revenues to be lower in the first quarter of each year than in each of the three subsequent quarters.

Cyclicality

The hospitality industry is cyclical and generally follows, on a lagged basis, the general economy. There is a history of increases and decreases in demand for hotel rooms, in occupancy levels and in rates realized by owners of hotels through economic cycles. Variability of results through some of the cycles in the past has been more severe due to changes in the supply of hotel rooms in given markets or in given categories of hotels. The combination of changes in economic conditions and in the supply of hotel rooms can result in significant volatility in results for owners and managers of hotel properties. The costs of running a hotel tend to be more fixed than variable. Because of this, in an environment of declining revenues the rate of decline in earnings will be higher than the rate of decline in revenues. Conversely, in an environment of increasing demand and room rates, the rate of increase in earnings is typically higher than the rate of increase in revenues. The vacation ownership business is also cyclical. The demand for vacation ownership units is affected by the availability and cost of financing for purchases of vacation ownership units as well as general economic conditions and the relative health of the housing market.

Intellectual Property

In the highly competitive hospitality industry in which we operate, trademarks, service marks, trade names and logos are very important in the sales and marketing of our hotels, residential and vacation ownership properties and services. We have a significant number of trademarks, service marks, trade names, logos and pending registrations, and significant resources are expended each year on surveillance, registration and protection of our trademarks, service marks, trade names and logos, which we believe have become synonymous in the hospitality industry with a reputation for excellence in service and authentic hospitality.

Government Regulation

We are subject to numerous federal, foreign, state and local government laws and regulations, including those relating to the preparation and sale of food and beverages, building and zoning requirements, data privacy and general business license and permit requirements, in the various jurisdictions in which we manage, franchise and own hotels. Our ability to develop new hotel properties and to remodel, refurbish or add to existing properties is also dependent on obtaining permits from local authorities. We are also subject to laws governing our relationships with employees, including minimum wage requirements, overtime, working conditions, hiring and firing, non-discrimination for disabilities and other individual characteristics, work permits and benefit offerings. Federal, state and provincial laws and regulations also require certain registration, disclosure statements, compliance with specific standards of conduct and other practices with respect to the franchising of hotels. Additionally, the vacation ownership properties we operate are subject to local, state and federal requirements regarding the licensing of sales agents, compliance of marketing materials and numerous other requirements regarding the sale and management of vacation ownership properties. Compliance with these various laws and regulations can affect the revenues and profits of properties managed, franchised or owned and of our vacation ownership business and could adversely affect our operations. We believe that our businesses are conducted in substantial compliance with applicable laws and regulations.

We manage and own hotels with casino gaming operations as part of or adjacent to the hotels. However, with the exception of the Hyatt Regency Aruba, third parties manage and operate the casinos. We do hold and maintain the casino gaming license and manage the casino located at the Hyatt Regency Aruba. As a result, our business operations at the Hyatt Regency Aruba are subject to the licensing and regulatory control of the *Departamento pa Asuntonan di Casino* (D.A.C.), the regulatory agency responsible for gaming licenses and operations in Aruba. The gaming operations at the Hyatt Regency Aruba are also regulated by the Nevada Gaming Commission and the Nevada State Gaming Control Board because a provider of services at the Hyatt Regency Aruba also operates casinos in Nevada.

Employees

As of December 31, 2010, we had approximately 45,000 employees at our corporate offices, divisional offices, owned and managed hotels and residential and vacation ownership properties. Approximately 25% of those employees were either represented by a labor union or had terms of employment that were determined under a labor agreement. Some of our more than 85,000 associates are employed by certain third-party owners and franchisees of our hotels and are not included in the 45,000 figure above because we do not directly employ them. We believe relations with our employees and associates are good.

Environmental Matters

In connection with our ownership and management of hotels and development of other real properties, we are subject to various foreign, federal, state and local laws, ordinances and regulations relating to environmental protection. Under some of these laws, a current or former owner or operator of real property may be held liable for the costs of investigating or remediating hazardous or toxic substances or wastes on, under or in such real property, as well as third-party sites where the owner or operator sent wastes for disposal. Such laws may impose liability without regard to whether the owner or operator knew, or was at fault in connection with, the presence or release of such hazardous substances or wastes. Furthermore, a person who arranges for the disposal or treatment of a hazardous or toxic substance at a property owned by another, or who transports such substance to or from such property, may be liable for the costs of removal or remediation of such substance released into the environment at the disposal or treatment facility. Although we are not aware of any current material obligations for investigating or remediating hazardous substances or wastes at our owned properties, the future discovery of substances or wastes at any of our owned properties, or the failure to remediate such contaminated property properly, could adversely affect our ability to develop or sell such real estate, or to borrow using such real estate as collateral. In addition, the costs of investigating or remediating contamination, at our properties or at properties where we sent substances or wastes for disposal, may be substantial.

We are also subject to various requirements, including those contained in environmental permits required for our operations, governing air emissions, effluent discharges, the use, management and disposal of hazardous substances and wastes and health and safety. From time to time, we may be required to manage, abate or remove mold, lead or asbestos-containing materials at our properties. We believe that our properties and operations are in compliance, in all material respects, with all foreign, federal, state and local environmental laws and ordinances. However, additional operating costs and capital expenditures could be incurred if additional or more stringent requirements are enacted in the future.

Insurance

We maintain insurance coverage for general liability, property, workers' compensation and other risks with respect to our business. Our general liability insurance provides coverage for any claim, including terrorism, resulting from our operations, goods and services and automobiles. All owned hotels are covered by Hyatt's insurance program. Hotels managed by Hyatt are permitted to participate in Hyatt's insurance programs by mutual agreement with our hotel owners. Our management agreements require managed hotels that do not participate in our property insurance program, and our franchise agreements require that all franchised hotels, be insured at coverage levels generally consistent with the coverage levels under our insurance programs, including liability, property coverage, business interruption coverage and workers' compensation insurance. We are typically covered under these insurance policies to the extent necessary and reasonable. We believe our insurance policies are adequate for foreseeable losses and on terms and conditions that are reasonable and customary with solvent insurance carriers.

Stockholder Agreements

The following is a summary of the provisions of the Amended and Restated Global Hyatt Agreement, Amended and Restated Foreign Global Hyatt Agreement, Amended and Restated Agreement Relating to Stock and 2007 Stockholders' Agreement. The following descriptions of these agreements do not purport to be

complete and are subject to, and qualified in their entirety by, the Amended and Restated Global Hyatt Agreement, Amended and Restated Foreign Global Hyatt Agreement, Amended and Restated Agreement Relating to Stock and 2007 Stockholders' Agreement, copies of which have been filed with the SEC and are incorporated by reference herein. For additional information regarding these agreements, please also refer to Part I, Item 1A, "Risk Factors – Risks Related to Share Ownership and Stockholder Matters."

Amended and Restated Global Hyatt Agreement

Mr. Thomas J. Pritzker, Mr. Marshall E. Eisenberg and Mr. Karl J. Breyer, solely in their capacity as co-trustees of the U.S. situs trusts for the benefit of certain lineal descendants of Nicholas J. Pritzker, deceased, that own, directly or indirectly, shares of our common stock, and the adult beneficiaries of such trusts, including Mr. Thomas J. Pritzker, our executive chairman, and Ms. Penny Pritzker, one of our directors, have entered into the Amended and Restated Global Hyatt Agreement pursuant to which they have agreed to, among other things, certain voting agreements and limitations on the sale of shares of our common stock. Pritzker family business interests own, directly or indirectly, 104,365,554 shares, or 60%, of our total outstanding common stock and control approximately 77.9% of our total voting power. Specifically, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of Pritzker family members and spouses), all Pritzkers (and their successors in interest, if applicable), but not the transferees by sale (other than Pritzkers who purchase directly from other Pritzkers), will vote all of their voting securities consistent with the recommendations of our board of directors with respect to all matters assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). All Pritzkers have agreed to cast and submit by proxy to us their votes in a manner consistent with the foregoing voting agreement at least five business days prior to the scheduled date of any annual or special meeting of stockholders.

In addition, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), all Pritzker family members and spouses (including U.S. and non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses or affiliates of any thereof) in a "beneficiary group" (including trusts only to the extent of the then current benefit of members of such beneficiary group) may sell up to 25% of their aggregate holdings of our common stock, measured as of November 4, 2009, the date of effectiveness of the registration statement on Form S-1 (File No. 333-161068) relating to our initial public offering of our Class A common stock, in each 12-month period following the date of effectiveness of such registration statement (without carry-overs), and shall not sell more than such amount during any such period. Upon the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker), such 25% limitation may, with respect to each such 12 month period, be increased to a higher percentage or waived entirely. Sales of our common stock, including Class A common stock and Class B common stock, between and among Pritzkers is permitted without regard to the sale restrictions described above and such sales are not counted against the 25% sale limitation.

All shares of our common stock owned by each beneficiary group (including trusts only to the extent of the then current benefit of members of such beneficiary group) are freely pledgeable to an institutional lender and such institutional lender will not be subject to the sale restrictions described above upon default and foreclosure. Pursuant to the terms of the Amended and Restated Global Hyatt Agreement, the co-trustees of the Pritzker family U.S. situs trusts agreed that it is in the best interests of the adult beneficiaries of such trusts to distribute Hyatt stock from such trusts in consultation with the adult beneficiaries as soon as practicable following November 4, 2009, the date of effectiveness of the registration statement relating to our initial public offering of

our Class A common stock. The distribution of Hyatt stock from the Pritzker family U.S. situs trusts occurred on August 17, 2010. In connection with such distribution, the trustees of the recipient personal trusts became party to the Amended and Restated Global Hyatt Agreement.

The Amended and Restated Global Hyatt Agreement may be amended, modified, supplemented or restated by the written agreement of the co-trustees of the Pritzker family U.S. situs trusts, 75% of the adult beneficiaries named below and a majority of the other adult beneficiaries party to the agreement. Each of Thomas J. Pritzker, Nicholas J. Pritzker, James N. Pritzker, John A. Pritzker, Linda Pritzker, Karen L. Pritzker, Penny Pritzker, Daniel F. Pritzker, Anthony N. Pritzker, Gigi Pritzker Pucker and Jay Robert Pritzker, and their respective lineal descendants and current spouse, if relevant, make up a "beneficiary group."

Disputes that relate to the subject matter of the Amended and Restated Global Hyatt Agreement are subject to arbitration pursuant to the terms of the agreement. The exclusive requirement to arbitrate under the Amended and Restated Global Hyatt Agreement shall not apply with respect to the manner in which Hyatt's operations are conducted to the extent the parties (in their capacities as stockholders) and non-Pritzker public stockholders are affected comparably; provided, however, that a party may participate in and benefit from any shareholder litigation initiated by a non-party to the agreement. A party to the agreement may not solicit others to initiate or be a named plaintiff in such litigation (i) unless two thirds of the independent directors (excluding for such purposes any Pritzker) on our board of directors (consisting of at least three independent directors) do not vote in favor of the matter that is the subject of the litigation or (ii) in the case of affiliated transactions reviewed by our board of directors, unless at least one independent director (excluding for such purposes any Pritzker) did not approve the transaction.

Amended and Restated Foreign Global Hyatt Agreement

The adult beneficiaries of the non-U.S. situs trusts for the benefit of certain lineal descendants of Nicholas J. Pritzker, deceased, including Mr. Thomas J. Pritzker and Ms. Penny Pritzker, have entered into the Amended and Restated Foreign Global Hyatt Agreement pursuant to which they have agreed to, among other things, certain voting agreements and limitations on the sale of shares of our common stock. The adult beneficiaries have informed CIBC Trust Company (Bahamas) Limited, in its capacity as trustee of such non-U.S. situs trusts, of their agreement and expressed their desire that the trustee act in accordance with the provisions of the Amended and Restated Foreign Global Hyatt Agreement. CIBC, as trustee, has joined the Amended and Restated Foreign Global Hyatt Agreement. Pritzker family business interests own, directly or indirectly, 104,365,554 shares, or 60%, of our total outstanding common stock and control approximately 77.9% of our total voting power. Specifically, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), all Pritzkers (and their successors in interest, if applicable), but not the transferees by sale (other than Pritzkers who purchase directly from other Pritzkers), will vote (or cause to be voted) all of the voting securities held directly or indirectly by them consistent with the recommendations of our board of directors with respect to all matters assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). All Pritzkers have agreed to cast and submit by proxy to us their votes in a manner consistent with the foregoing voting agreement at least five business days prior to the scheduled date of any annual or special meeting of stockholders.

In addition, such parties have agreed that until the later to occur of (i) January 1, 2015 and (ii) the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), all Pritzker family members and spouses (including U.S. and non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses and/or affiliates of any thereof) in a

“beneficiary group” (including trusts only to the extent of the then current benefit of members of such beneficiary group) may sell up to 25% of their aggregate holdings of our common stock, measured as of November 4, 2009, the date of effectiveness of the registration statement on Form S-1 (File No. 333-161068) relating to our initial public offering of our Class A common stock, in each 12-month period following the date of effectiveness of such registration statement (without carry-overs), and shall not sell more than such amount during any such period. Upon the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker), such 25% limitation may, with respect to each such 12 month period, be increased to a higher percentage or waived entirely. Sales of our common stock, including Class A common stock and Class B common stock, between and among Pritzkers is permitted without regard to the sale restrictions described above and such sales are not counted against the 25% sale limitation.

All shares of our common stock owned directly or indirectly by each beneficiary group (including trusts only to the extent of the then current benefit of members of such beneficiary group) are freely pledgeable to an institutional lender and such institutional lender will not be subject to the sale restrictions described above upon default and foreclosure. Pursuant to the terms of the Foreign Amended and Restated Global Hyatt Agreement, the adult beneficiaries agreed that it is in their best interests for, and informed CIBC Trust Company (Bahamas) Limited, as trustee of the Pritzker family non-U.S. situs trusts, and the directors if IHE, INC. and its subsidiaries that it is the adult beneficiaries’ desire that CIBC and the directors of IHE, INC. and its subsidiaries distribute Hyatt stock from IHE, INC. and such non-U.S. situs trusts in consultation with the adult beneficiaries as soon as practicable following November 4, 2009, the date of effectiveness of the registration statement relating to our initial public offering of our Class A common stock, subject to the 180-day lock-up period agreed to with the underwriters. The distribution of Hyatt stock from the Pritzker family non-U.S. situs trusts and IHE, INC. occurred on August 17, 2010. In connection with such distribution, the trustees of the recipient personal trusts became party to the Amended and Restated Foreign Global Hyatt Agreement.

The Amended and Restated Foreign Global Hyatt Agreement may be amended, modified, supplemented or restated by the written agreement of 75% of the adult beneficiaries named below and a majority of the other adult beneficiaries party to the agreement. Each of Thomas J. Pritzker, Nicholas J. Pritzker, James N. Pritzker, John A. Pritzker, Linda Pritzker, Karen L. Pritzker, Penny Pritzker, Daniel F. Pritzker, Anthony N. Pritzker, Gigi Pritzker Pucker and Jay Robert Pritzker, and their respective lineal descendants and current spouse, if relevant, make up a “beneficiary group.”

Disputes that relate to the subject matter of the Amended and Restated Foreign Global Hyatt Agreement are subject to arbitration pursuant to the terms of the agreement. The exclusive requirement to arbitrate under the Amended and Restated Foreign Global Hyatt Agreement shall not apply with respect to the manner in which Hyatt’s operations are conducted to the extent the parties (in their capacities as stockholders) and non-Pritzker public stockholders are affected comparably; provided, however, that a party may participate in and benefit from any shareholder litigation initiated by a non-party to the agreement. A party to the agreement may not solicit others to initiate or be a named plaintiff in such litigation (i) unless two thirds of the independent directors (excluding for such purposes any Pritzker) on our board of directors (consisting of at least three independent directors) do not vote in favor of the matter that is the subject of the litigation or (ii) in the case of affiliated transactions reviewed by our board of directors, unless at least one independent director (excluding for such purposes any Pritzker) did not approve the transaction.

Amended and Restated Agreement Relating to Stock

In addition to the Amended and Restated Global Hyatt Agreement, Mr. Thomas J. Pritzker, Mr. Marshall E. Eisenberg and Mr. Karl J. Breyer, solely in their capacity as co-trustees of U.S. situs trusts for the benefit of Mr. Thomas J. Pritzker, Ms. Penny Pritzker and Ms. Gigi Pritzker Pucker and their lineal descendants, that own, directly or indirectly, shares of our common stock and Mr. Thomas J. Pritzker, Ms. Penny Pritzker and Ms. Gigi Pritzker Pucker and their respective adult lineal descendants have entered into an Amended and Restated Agreement Relating to Stock whereby such parties have agreed to further restrict their ability to transfer an aggregate of 32,882,585 shares of our common stock. Subject to limited permitted transfers described in the

agreement, and subject to the terms of the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement described above, the parties have agreed that each stockholder party to the Amended and Restated Agreement Relating to Stock may transfer up to one-third of its common stock held as of August 28, 2007 (or deemed to be held as of such date) to unaffiliated third parties during each 365-day period beginning on the dates that are three and one-half, four and one-half and five and one-half years following November 10, 2009, the closing date of our initial public offering; provided that such transfers are accomplished by way of a broad distribution sale. In addition, subject to the terms of the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, each of such stockholders may transfer up to one-third of its common stock held as of August 28, 2007 (or deemed to be held as of such date) to unaffiliated third parties (1) at any time following the end of the first calendar year during which the "existing stockholders" (as described below) owned less than 25% of our common stock at any time during such year or (2) at any time following both (a) August 28, 2007 and (b) December 23, 2010, the first date on which the applicable market value of our Class A common stock exceeded 165% of the gross price per share at which the Class A common stock was first traded in connection with our initial public offering; provided that such transfers are accomplished by way of an underwritten public offering or in an otherwise broad distribution sale. The term "existing stockholders" is defined in the agreement to mean (i) members of the Pritzker family who are lineal descendants of Nicholas J. Pritzker, deceased, and their spouses, (ii) trusts for the benefit of such persons, or (iii) affiliates of any such persons listed in clauses (i) and (ii). In addition, no stockholder party to the Amended and Restated Agreement Relating to Stock may transfer (1) the legal or beneficial ownership of any common stock held by such stockholder unless such acquiring person's ownership of common stock is not reasonably likely to jeopardize any licensing from a governmental authority, (2) any common stock to a competitor of ours engaged in one or more of the hospitality, lodging or gaming industries, (3) any common stock to an aggregator (i.e., a person who is required to file a Schedule 13D (or successor form) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), disclosing an intent other than for investment) or (4) any common stock that would cause a stockholder to violate any provision of the Amended and Restated Agreement Relating to Stock. Such restrictions are qualified by the "actual knowledge" of the transferring stockholder in the case of transfers pursuant to an underwritten public offering or a broad distribution sale.

The transfer restrictions set forth in the Amended and Restated Agreement Relating to Stock expire at 11:59 p.m. (Central time) on the earlier of the day after the date that is five and one-half years following November 10, 2009 (the closing date of our initial public offering) or the date on which the stockholders party to the 2007 Stockholders' Agreement are released from the transfer restrictions set forth therein. The Amended and Restated Agreement Relating to Stock may be amended by the holders of a majority of the restricted stock held by the stockholders party to the agreement and each of Thomas J. Pritzker, Penny Pritzker and Gigi Pritzker Pucker, and may be terminated by the written agreement of each of the parties thereto. Disputes that relate to the subject matter of the Agreement Relating to Stock are subject to arbitration.

2007 Stockholders' Agreement

In connection with the issuance and sale of 100,000 shares of our Series A Convertible Preferred Stock to GS Sunray Holdings, L.L.C. ("GSSH") and GS Sunray Holdings Parallel, L.L.C. ("GSSHP" and collectively, the "Goldman Sachs Funds"), affiliates of Goldman Sachs & Co., and the execution of a Subscription Agreement in August 2007, we entered into the 2007 Stockholders' Agreement with Madrone, the Goldman Sachs Funds and an additional investor that provides for certain rights and obligations of these stockholders, including the following:

Transfer Restrictions

Other than with respect to the 6,118,275 shares of common stock received by such stockholders in the May 2009 private placement transaction (which, upon the filing of our Amended and Restated Certificate of Incorporation on November 4, 2009, were reclassified into an equal number of shares of Class B common stock), these stockholders are restricted from transferring any shares of our common stock held by them, except to us,

their affiliates (with the prior written consent of our board of directors), in limited amounts over specified time periods as described below and as otherwise permitted pursuant to the terms of the agreement. Subject to the rights of first refusal and “drag along” rights described below and provided that such transfers are accomplished by way of a broad distribution sale, following the consummation of our initial public offering on November 10, 2009, each stockholder party to the 2007 Stockholders’ Agreement may transfer up to one-third of its common stock acquired under the Subscription Agreement or upon conversion of Series A Convertible Preferred Stock to unaffiliated third parties during each 365-day period beginning on the three and one-half, four and one-half and five and one-half year anniversaries of November 10, 2009, the closing date of our initial public offering. In addition, subject to the rights of first refusal and “drag along” rights described below, each of such stockholders may transfer up to one-third of its common stock acquired under the Subscription Agreement or upon conversion of Series A Convertible Preferred Stock to unaffiliated third parties (1) at any time following the end of the first calendar year during which the “existing stockholders” (as described below) owned less than 25% of our common stock at any time during such year or (2) at any time following both (a) May 13, 2011, the second anniversary of the issuance of common stock to the relevant stockholders under the Subscription Agreement or the issuance of common stock upon conversion of the Series A Convertible Preferred Stock and (b) December 23, 2010, the first date on which the applicable market value exceeds 165% of the gross price per share at which the Class A common stock was first traded in connection with our initial public offering; provided that such transfers are accomplished by way of an underwritten public offering or in an otherwise broad distribution sale. The term “existing stockholders” is defined in the agreement to mean (i) members of the Pritzker family who are lineal descendants of Nicholas J. Pritzker, deceased, and their spouses, (ii) trusts for the benefit of such persons and/or (iii) affiliates of any such persons listed in clauses (i) and (ii). Subject to the rights of first refusal and “drag along” rights described below, the transfer restrictions set forth in the 2007 Stockholders’ Agreement expire at 11:59 p.m. (Central time) on the day after the date that is five and one-half years following November 10, 2009, the closing date of our initial public offering.

Notwithstanding the foregoing, and subject to the rights of first refusal and “drag along” rights described below, in the event that any “initial holder” (as described below) transfers all or any portion of the shares of common stock held by such initial holder as of August 28, 2007 (other than pursuant to certain permitted transfers), each stockholder party to the 2007 Stockholders’ Agreement may transfer up to a pro rata portion of such stockholder’s common stock; provided, however, that in any 365-day period or calendar year in which such stockholder is permitted to transfer shares of common stock pursuant to the terms described in the preceding paragraph, such stockholder’s right to transfer a pro rata portion of its common stock shall apply only to the extent that the aggregate number of shares of common stock held by initial holders as of August 28, 2007 held at the commencement of such 365-day period or calendar year by initial holders and transferred by initial holders in such 365-day period or calendar year, as a percentage of the aggregate number of shares of common stock held by the initial holders as of August 28, 2007 at the commencement of such 365-day period or calendar year, exceeds the maximum percentage of such stockholder’s shares of common stock that such stockholder is permitted to sell in such 365-day period or calendar year (as described in the preceding paragraph), with the result that only such excess number of shares of common stock held by the initial holders as of August 28, 2007 and transferred by the initial holders will be taken into account in determining such stockholder’s pro rata portion eligible for transfer. The rights described in this paragraph expire at 11:59 p.m. (Central time) on the day after the date that is five and one-half years following November 10, 2009, the closing date of our initial public offering. The term “initial holder” is defined in the agreement to mean (i) any of Mr. Thomas J. Pritzker, Ms. Penny Pritzker and/or Ms. Gigi Pritzker Pucker or (ii) trusts for the benefit of these individuals and/or for the benefit of their respective spouses and/or lineal descendants.

In addition, no stockholder party to the 2007 Stockholders’ Agreement may transfer (1) the legal or beneficial ownership of any common stock held by such stockholder unless such acquiring person’s ownership of common stock is not reasonably likely to jeopardize any licensing from a governmental authority, as determined by our board of directors in its reasonable discretion, (2) any common stock to an aggregator (meaning a person who is required to file a Schedule 13D under the Exchange Act disclosing an interest other than for investment), (3) any common stock to a competitor of ours engaged in one or more of the hospitality, lodging and/or gaming

industries or (4) any common stock that would cause a stockholder to violate any provision of the agreement. Such restrictions are qualified by the "actual knowledge" of the transferring stockholder in the case of transfers pursuant to an underwritten public offering or a broad distribution sale.

Right of First Refusal

In the event that the number of shares of common stock proposed to be transferred by a stockholder party to the 2007 Stockholders' Agreement and its affiliates together with any shares of common stock then proposed to be transferred by the other stockholders party to the 2007 Stockholders' Agreement and their affiliates exceeds 2% of the then outstanding shares of common stock, then prior to consummating the sale of common stock to a third-party purchaser, such stockholder or stockholders shall offer to transfer the common stock to us at the applicable market value (as defined in the 2007 Stockholders' Agreement). If we do not accept the offer within a specified period of time, such stockholder or stockholders may transfer the shares of common stock to the third-party purchaser as long as such transfer occurs within the time periods specified in the 2007 Stockholders' Agreement and on terms and conditions no more favorable in the aggregate than offered to us.

"Drag-Along" Right

In connection with a "change of control" (as defined in the 2007 Stockholders' Agreement) transaction, we have the right to require each stockholder party to the 2007 Stockholders' Agreement to participate in such change of control transaction on the same terms, conditions and price per share of common stock as those applicable to the other holders of our common stock. In addition, upon our request, the stockholders party to the 2007 Stockholders' Agreement have agreed to vote in favor of such change of control transaction or similar transaction, and we have the right to require each stockholder party to the 2007 Stockholders' Agreement to vote for, consent to and raise no objection to any such transaction.

"Tag-Along" Right

Subject to the fiduciary duties of our board of directors, we have agreed that we will not agree to consummate a change of control transaction with respect to which the stockholders party to the 2007 Stockholders' Agreement are not given the right to participate on the same terms, conditions and price per share of common stock as those applicable to the other holders of our common stock.

Preemptive Rights

Each stockholder party to the 2007 Stockholders' Agreement has the right to purchase such stockholder's pro rata share of any new shares of common stock, or any other equity securities, that we may propose to sell and issue on comparable terms by making an election within the time periods specified in the 2007 Stockholders' Agreement, subject to certain excluded securities issuances described in the 2007 Stockholders' Agreement, including shares issued pursuant to equity compensation plans adopted by our board of directors and the issuance of shares of our common stock in a public offering. If not all stockholders elect to purchase their full preemptive allocation of new securities, then we will notify the fully-participating stockholder of such an offer them the right to purchase the unsubscribed new securities.

Voting Agreement

Until the later of (1) December 31, 2013 and (2) the date that Mr. Thomas J. Pritzker is no longer our chairman, each stockholder party to the 2007 Stockholders' Agreement has agreed to vote all of their shares of common stock consistent with the recommendations of a majority of our board of directors with respect to all matters. The stockholders party to the 2007 Stockholders' Agreement own in the aggregate 25,112,086 shares of Class B common stock, or approximately 14.4% of the outstanding shares of our common stock and approximately 18.8% of the total voting power of our outstanding common stock.

Access to Information

For so long as GS Sunray Holdings Parallel, L.L.C. owns any shares of common stock, we have agreed that GS Capital Partners VI Parallel, L.P. or its representatives may examine our books and records and visit and inspect our facilities and may reasonably request information at reasonable time and intervals concerning the general status of our financial condition and operations. Additionally, on reasonable prior notice, GS Capital Partners VI Parallel, L.P. or its representatives may discuss our business operations, properties and financial and other conditions with our management, independent accountants and investment bankers. In no event shall we be required to provide access to any information that we reasonably believe would constitute attorney/client privileged communications or would violate any securities laws.

Standstill

Under the 2007 Stockholders' Agreement, each stockholder party to the 2007 Stockholders' Agreement agreed that, subject to certain limited exceptions, so long as such stockholder owns shares of common stock, neither such stockholder nor any of its related persons will in any manner, directly or indirectly:

- effect or seek, offer or propose (whether publicly or otherwise) to effect, or announce any intention to effect or cause or participate in or in any way assist, facilitate or encourage any other person to effect or seek, offer or propose (whether publicly or otherwise) to effect or participate in, (a) any acquisition of any of our or our subsidiaries' securities (or beneficial ownership thereof) (except through the proper exercise of preemptive rights granted under the 2007 Stockholders' Agreement), or rights or options to acquire any of our or our subsidiaries' securities (or beneficial ownership thereof), or any of our or our subsidiaries' or affiliates' assets, indebtedness or businesses, (b) any tender or exchange offer, merger or other business combination involving us or any of our subsidiaries or affiliates or any assets constituting a significant portion of our consolidated assets, (c) any recapitalization, restructuring, liquidation, dissolution or other extraordinary transaction with respect to us or any of our subsidiaries or affiliates, or (d) any "solicitation" of "proxies" (as such terms are used in the proxy rules under the Exchange Act) or written consents with respect to any of our or our affiliates' voting securities. For this purpose, the term "affiliates" means our affiliates primarily engaged in the hospitality, lodging and/or gaming industries;
- form, join or in any way participate in a "group" (within the meaning of Section 13(d) of the Exchange Act) with respect to us where such group seeks to acquire any of our equity securities;
- otherwise act, alone or in concert with others, to seek representation on or to control or influence our or our subsidiaries' management, board of directors or policies;
- take any action which would or would reasonably be expected to force us to make a public announcement regarding any of the types of matters set forth in the first bullet point above;
- own more than 12% of the issued and outstanding common stock, unless such ownership arises as a result of any action not taken by or on behalf of such stockholder or a related person of such stockholder; or
- request that we or any of our representatives, directly or indirectly, amend or waive any of the foregoing provisions.

Each stockholder party to the 2007 Stockholders' Agreement has also agreed that, if at any time during the period such stockholder is subject to the foregoing provisions, such stockholder is approached by any third party concerning its participation in any transaction or proposed transaction involving the acquisition of all or any portion of the assets, indebtedness or securities of, or any business of, ours or any of our subsidiaries, such stockholder will promptly inform us of the nature of such transaction and the parties involved.

Termination

The 2007 Stockholders' Agreement terminates (1) with respect to any individual stockholder, on the first date when such stockholder no longer holds any shares of common stock and (2) in its entirety, upon the first to occur of all of our equity securities being owned by a single person or the agreement in writing by us and each stockholder party to the 2007 Stockholders' Agreement.

Our Website and Availability of SEC Reports and Other Information

The Company maintains a website at the following address: *www.hyatt.com*. The information on the Company's website is not incorporated by reference in this annual report.

We make available on or through our website certain reports and amendments to those reports that we file with or furnish to the Securities and Exchange Commission ("SEC") pursuant to Section 13(a) or 15(d) of the Exchange Act. These include our annual reports on Form 10-K, our quarterly reports on Form 10-Q and our current reports on Form 8-K. We make this information available on our website free of charge as soon as reasonably practicable after we electronically file the information with, or furnish it to, the SEC.

Item 1A. Risk Factors.

In addition to the other information set forth in this annual report, you should consider carefully the risks and uncertainties described below, which could materially adversely affect our business, financial condition, results of operations and cash flows.

Risks Related to the Hospitality Industry

The hospitality industry is cyclical, and macroeconomic and other factors beyond our control can adversely affect and reduce demand for our hospitality products and services.

The hospitality industry is cyclical. For example, the last two completed business cycles in the hospitality industry, which we define as the period starting with the first calendar year of negative revenue per available room (RevPAR) growth and ending with the last calendar year of positive RevPAR growth, took place from 1991 to 2000 and 2001 to 2007. During the declining stages of these two business cycles, RevPAR growth was negative for one calendar year (1991) and two calendar years (2001 and 2002), respectively.

Macroeconomic and other factors beyond our control can reduce demand for hospitality products and services, including demand for rooms at properties that we manage, franchise, own and develop and for sales of vacation ownership properties. These factors include:

- changes and volatility in general economic conditions, including the severity and duration of any downturn in the U.S. or global economy and financial markets;
- war, terrorist activities (such as the terrorist attacks in Jakarta, Indonesia and Mumbai, India) or threats and heightened travel security measures instituted in response to these events;
- outbreaks of pandemic or contagious diseases, such as avian flu, severe acute respiratory syndrome (SARS) and H1N1 (swine) flu;
- natural or man-made disasters, such as earthquakes, tsunamis, tornados, hurricanes, floods and oil spills;
- changes in the desirability of particular locations or travel patterns of customers;
- decreased corporate budgets and spending and cancellations, deferrals or renegotiations of group business (e.g., industry conventions);
- low consumer confidence and high levels of unemployment;
- depressed housing prices;

- the financial condition of the airline, automotive and other transportation-related industries and its impact on travel;
- decreased airline capacities and routes;
- travel-related accidents;
- oil prices and travel costs;
- statements, actions or interventions by governmental officials related to travel and corporate travel-related activities and the resulting negative public perception of such travel and activities;
- domestic and international political and geo-political conditions;
- cyclical over-building in the hotel and vacation ownership industries; and
- organized labor activities, which could cause a diversion of business from hotels involved in labor negotiations and loss of group business.

These factors can adversely affect, and from time to time have adversely affected, individual properties, particular regions or our business as a whole. In particular, lower consumer demand resulting from the economic downturn resulted in a decline in RevPAR for the fourth quarter of 2008 and some of the most significant RevPAR declines we have experienced in recent history during 2009. Our RevPAR declines in the current business cycle have been more severe compared to those of the last two business cycles, and have had a greater negative impact on our profitability. See “—A worsening of global economic conditions could cause our revenues and profitability to decline” and Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Principal Factors Affecting Our Results of Operations—Revenues.” How we manage any one or more of these factors, or any crisis, could limit or reduce the demand, or the rates our properties are able to charge for rooms or services or the prices at which we are able to sell our vacation ownership properties, which could adversely affect our business, results of operations and financial condition.

A worsening of global economic conditions could cause our revenues and profitability to decline.

Consumer demand for our products and services is closely linked to the performance of the general economy and is sensitive to business and personal discretionary spending levels. Declines in consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence and high unemployment or adverse political conditions can lower the revenues and profitability of our owned properties and the amount of management and franchising fee revenues we are able to generate from our managed and franchised properties. Declines in hotel profitability during an economic downturn directly impact the incentive portion of our management fees, which is based on hotel profit measures. Outside of the United States, our fees are often more dependent on hotel profitability measures, either through a single management fee that is based on a profitability measure, or because our two-tier fee structure is more heavily weighted toward the incentive fee than the base fee. Because RevPAR is a measure of achieved average daily rate (ADR) and occupancy, declines in ADR and occupancy relating to declines in consumer demand will lower RevPAR. For additional information regarding RevPAR and ADR, see Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Business Metrics Evaluated by Management.” Our vacation ownership business is also linked to cycles in the general economy and consumer discretionary spending. As a result, changes in consumer demand and general business cycles can subject and have subjected our revenues to significant volatility.

The recent global economic downturn led to a significant decline in demand for hospitality products and services, lower occupancy levels and significantly reduced room rates, all of which has lowered our revenues and negatively affected our profitability. For example, our revenues decreased by \$505 million driven by an 18.7% decline in RevPAR at comparable systemwide properties in the year ended December 31, 2009, compared to the year ended December 31, 2008. See Part II, Item 7, “Management’s Discussion and Analysis of Results of Operations—Principal Factors Affecting Our Results of Operations—Revenues.”

Generally, the recovery of demand for hospitality products and services lags an improvement in economic conditions. While our 2010 results reflect an increase in RevPAR levels at comparable systemwide properties, they have not increased at the same rate at which they declined. We cannot predict the rate and pace of any such recovery and any such recovery may impact different regions of the world on varying bases. Additionally, if an extended period of economic weakness were to continue, it would likely have an adverse impact on our revenues and negatively affect our profitability.

We are subject to the business, financial and operating risks inherent to the hospitality industry, any of which could reduce our profits and limit our opportunities for growth.

Our business is subject to a number of business, financial and operating risks inherent to the hospitality industry, including:

- changes in taxes and governmental regulations that influence or set wages, prices, interest rates or construction and maintenance procedures and costs;
- the costs and administrative burdens associated with complying with applicable laws and regulations;
- the costs or desirability of complying with local practices and customs;
- the availability and cost of capital necessary for us and potential hotel owners to fund investments, capital expenditures and service debt obligations;
- delays in or cancellations of planned or future development projects;
- foreign exchange rate fluctuations;
- changes in operating costs, including, but not limited to, energy, food, workers' compensation, benefits, insurance and unanticipated costs resulting from force majeure events;
- significant increases in cost for healthcare coverage for employees and potential government regulation in respect of health coverage;
- shortages of labor or labor disruptions;
- shortages of desirable locations for development;
- the financial condition of third-party property owners, franchisees, developers and hospitality venture partners, which may impact our ability to recover payments owed to us or their ability to fund operational costs, perform under management, franchise, development and hospitality venture agreements or satisfy other contractual commitments and obligations that may impact us;
- relationships with our third-party property owners, franchisees and hospitality venture partners; and
- the ability of third-party internet travel intermediaries to attract and retain customers.

Any of these factors could limit or reduce the prices we charge for our hospitality products or services, including the rates our properties charge for rooms or the prices for which we are able to sell our vacation ownership properties. These factors can also increase our costs or affect our ability to develop new properties or maintain and operate our existing properties. As a result, any of these factors can reduce our profits and limit our opportunities for growth.

Risks Related to Our Business

Because we operate in a highly competitive industry, our revenues, profits or market share could be harmed if we are unable to compete effectively.

The segments of the hospitality industry in which we operate are subject to intense competition. Our principal competitors are other operators of full service and select service properties, including other major

hospitality chains with well established and recognized brands. We also compete against smaller hotel chains and independent and local hotel owners and operators. If we are unable to compete successfully, our revenues or profits may decline or our ability to maintain or increase our market share may be diminished.

Competition for Guests

We compete for guests based primarily on brand name recognition and reputation, location, customer satisfaction, room rates, quality of service, amenities, quality of accommodations, security and the ability to earn and redeem loyalty program points. Some of our competitors are larger than we are based on the number of properties they manage, franchise or own or based on the number of rooms or geographic locations where they operate. Some of our competitors also have significantly more members participating in their guest loyalty programs which may enable them to attract more customers and more effectively retain such guests. Our competitors may also have greater financial and marketing resources than we do, which could allow them to improve their properties and expand and improve their marketing efforts in ways that could affect our ability to compete for guests effectively. In addition, industry consolidation may exacerbate these risks.

Competition for Management and Franchise Agreements

We compete for management agreements based primarily on the value and quality of our management services, our brand name recognition and reputation, our ability and willingness to invest our capital in third-party owned or hospitality venture projects, the level of our management fees, the terms of our management agreements and the economic advantages to the property owner of retaining our management services and using our brand name. We compete for franchise agreements based primarily on brand name recognition and reputation, the room rate that can be realized and royalty fees charged. Other competitive factors for management and franchise agreements include relationships with property owners and investors, including institutional owners of multiple properties, marketing support, reservation and e-commerce system capacity and efficiency and the ability to make investments that may be necessary to obtain management and franchise agreements.

We believe that our ability to compete for management and franchise agreements primarily depends on the success of the properties that we currently manage or franchise. The terms of any new management or franchise agreements that we obtain also depend on the terms that our competitors offer for those agreements. In addition, if the availability of suitable locations for new properties decreases, planning or other local regulations change or the availability or affordability of financing is limited, the supply of suitable properties for our management or franchising could be diminished. We may also be required to agree to limitations on the expansion of one or more of our brands in certain geographic areas in order to obtain a management agreement for a property under development. We may be prohibited from managing, franchising or owning properties in areas where opportunities exist due to these restrictions. If the properties that we manage or franchise perform less successfully than those of our competitors, if we are unable to offer terms as favorable as those offered by our competitors or if the availability of suitable properties is limited, our ability to compete effectively for new management or franchise agreements could be reduced.

Competition for Sales of Vacation Ownership Properties

We compete for sales of our vacation ownership properties based principally on location, quality of accommodations, price, financing terms, quality of service, terms of property use, opportunity to exchange into time at other vacation properties and brand name recognition and reputation. In addition to competing with other hotel and resort properties, our vacation ownership properties compete with national and independent vacation ownership club operators as well as with owners reselling their interests in these properties. Our ability to attract and retain purchasers of our vacation ownership properties depends on our success in distinguishing the quality and value of our vacation ownership products and services from those offered by others. If we are unable to do so, our ability to compete effectively for sales of vacation ownership properties could be adversely affected.

If third-party property owners or franchisees of the properties we manage or franchise fail to make investments necessary to maintain or improve their properties, preference for our brands and our reputation could suffer or our management or franchise agreements with those parties could terminate.

We manage and franchise properties owned by third parties under the terms of management and franchise agreements. Substantially all of these agreements require third-party property owners to comply with standards that are essential to maintaining our brand integrity and reputation. We depend on third-party property owners to comply with these requirements by maintaining and improving properties through investments, including investments in furniture, fixtures, amenities and personnel.

Third-party property owners or franchisees may be unable to access capital or unwilling to spend available capital when necessary, even if required by the terms of our management or franchise agreements. If our third-party property owners or franchisees fail to make investments necessary to maintain or improve the properties we manage or franchise, our brand preference and reputation could suffer. In addition, if third-party property owners or franchisees breach the terms of our agreements with them, we may elect to exercise our termination rights, which would eliminate our revenues from these properties and cause us to incur expenses related to terminating these relationships. These risks become more pronounced during economic downturns.

If our management or franchise agreements terminate prematurely or we elect to make cure payments due to failures to meet performance tests, at the request of third parties or upon the occurrence of other stated events, our revenues could decrease and our costs could increase.

Our management and franchise agreements may terminate prematurely in certain cases. Some of our management agreements provide early termination rights to owners of the hotels we manage upon the occurrence of a stated event, such as the sale of the hotel or our failure to meet a specified performance test.

Generally, termination rights under performance tests are based upon the property's individual performance, its performance when compared to a specified set of competitive hotels branded by other hotel operators, or both. Some agreements require a failure of one test, and other agreements require a failure of more than one test, before termination rights are triggered. These termination rights are usually triggered if we do not meet the performance tests over multiple years. Generally, we have the option to cure performance failures by making an agreed upon cure payment. However, our cure rights may be limited in some cases and the failure to meet the performance tests may result in the termination of our management agreement. In the past we have (1) failed performance tests, received notices of termination and elected to make cure payments and (2) failed performance tests and negotiated an alternative resolution. When any termination notice is received, we evaluate all relevant facts and circumstances at the time in deciding whether to cure or allow termination.

In addition, some of our management agreements give third-party property owners the right to terminate upon payment of a termination fee to us after a certain period of time or upon sale of the property or another stated event. Our franchise agreements typically require franchisees to pay a fee to us before terminating. In addition, if an owner files for bankruptcy, our management and franchise agreements may be terminable under applicable law. If a management or franchise agreement terminates, we could lose the revenues we derive from that agreement or incur costs related to ending our relationship with the third party and exiting the property.

If we are unable to maintain good relationships with third-party property owners and franchisees, our revenues could decrease and we may be unable to expand our presence.

We earn fees for managing and franchising hotels and other properties. The viability of our management and franchising business depends on our ability to establish and maintain good relationships with third-party property owners and franchisees. Third-party developers, property owners and franchisees are focused on maximizing the value of their investment and working with a management company or franchisor that can help them be successful. The effectiveness of our management, the value of our brands and the rapport that we maintain with our third-party property owners and franchisees impact renewals and are all important factors for new third-party

property owners or franchisees considering doing business with us. Our relationships with these third parties generate additional property development opportunities that support our growth. If we are unable to maintain good relationships with our third-party property owners and franchisees, we may be unable to renew existing agreements or expand our relationships with these owners. Additionally, our opportunities for developing new relationships with additional third parties may be adversely impacted.

Contractual and other disagreements with third-party property owners or franchisees could make us liable to them or result in litigation costs or other expenses, which could lower our profits.

Our management and franchise agreements require us and third-party property owners or franchisees to comply with operational and performance conditions that are subject to interpretation and could result in disagreements. Additionally, some courts have applied principles of agency law and related fiduciary standards to managers of third-party hotel properties such as us, which means, among other things, that property owners may assert the right to terminate management agreements even where the agreements do not expressly provide for termination. In the event of any such termination, we may need to negotiate or enforce our right to a termination payment that may not equal expected profitability over the term of the agreement.

We generally seek to resolve any disagreements with our third-party property owners or franchisees amicably. Formal dispute resolution occurs through arbitration, if provided under the applicable management or franchise agreement, or through litigation. We cannot predict the outcome of any such arbitration or litigation, the effect of any adverse judgment of a court or arbitrator against us or the amount of any settlement that we may enter into with any third party.

We are exposed to the risks resulting from significant investments in owned and leased real estate, which could increase our costs, reduce our profits, limit our ability to respond to market conditions or restrict our growth strategy.

Our proportion of owned properties, as compared to the number of properties that we manage or franchise for third-party owners, is larger than that of some of our competitors. Real estate ownership and leasing is subject to risks not applicable to managed or franchised properties, including:

- governmental regulations relating to real estate ownership;
- real estate, insurance, zoning, tax, environmental and eminent domain laws;
- the ongoing need for owner funded capital improvements and expenditures to maintain or upgrade properties;
- risks associated with mortgage debt, including the possibility of default, fluctuating interest rate levels and the availability of replacement financing;
- fluctuations in real estate values or potential impairments in the value of our assets; and
- the relative illiquidity of real estate compared to other assets.

The negative impact on profitability and cash flow generation from a decline in revenues is more pronounced in owned properties because we, as the owner, bear the risk of their high fixed-cost structure. The need to maintain and renovate owned properties can present challenges, especially when cash generated from operations has declined. The effectiveness of any cost-cutting efforts is limited by the fixed-cost nature of our business. As a result, we may not be able to offset revenue reductions through cost cutting, which could further reduce our margins. During times of economic distress, declining demand and declining earnings often result in declining asset values.

In an unfavorable market, we may not be able to sell properties in the short term. Accordingly, we may not be able to adjust our portfolio promptly in response to economic or other conditions. In addition, because our strategy to use proceeds from sales of real property to support our growth depends in part on our ability to sell selected properties, any inability to do so could impair our growth strategy.

Economic and other conditions may adversely impact the valuation of our assets resulting in impairment charges that could have a material adverse impact on our results of operations and earnings.

We hold significant amounts of goodwill, intangible assets, long-lived assets and equity method investments. On a regular basis, we evaluate our assets for impairment based on various triggers, including actual operating losses and trends of expected demand and profitability, as described in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates." These evaluations have, in the past, resulted in impairment charges for certain of these assets based on the specific facts and circumstances surrounding those assets. Our operating results for the year ended December 31, 2010 included \$69 million of impairment charges related primarily to our interests in unconsolidated hospitality ventures, vacation ownership properties and certain owned hotels. We may incur additional impairment charges, which could be material and negatively affect our results of operations and earnings.

We have a limited ability to manage third-party risks associated with our hospitality venture investments, which could reduce our revenues, increase our costs and lower our profits.

We participate in hospitality ventures with third parties. In the future, we may also buy and develop properties in hospitality ventures with the sellers of the properties, affiliates of the sellers, developers or other third parties. Our hospitality venture partners may have shared or majority control over the operations of our hospitality ventures. As a result, our investments in hospitality ventures involve risks that are different from the risks involved in investing in real estate independently. These risks include the possibility that our hospitality ventures or our partners:

- go bankrupt or otherwise are unable to meet their capital contribution obligations;
- have economic or business interests or goals that are or become inconsistent with our business interests or goals;
- are in a position to take action contrary to our instructions, requests, policies or objectives;
- subject the property to liabilities exceeding those contemplated;
- take actions that reduce our return on investment; or
- take actions that harm our reputation or restrict our ability to run our business.

For these and other reasons, it could be more difficult for us to sell our interest in any hospitality venture or to pursue the venture's activities, which could reduce our ability to address any problems we may have with those properties or respond to market conditions in the future and could lead to impairments of such ventures. As a result, our investments in hospitality ventures could lead to impasses with our partners or situations that could harm the hospitality venture, which could reduce our revenues, increase our costs and lower our profits.

If our hospitality ventures fail to provide information that is required to be included in our financial statements, we may be unable to accurately report our financial results.

Preparing our financial statements requires us to have access to information regarding the results of operations, financial position and cash flows of our hospitality ventures. Any deficiencies in our hospitality ventures' internal controls over financial reporting may affect our ability to report our financial results accurately or prevent fraud. Such deficiencies could also result in restatements of, or other adjustments to, our previously reported or announced operating results, which could diminish investor confidence and reduce the market price for our shares. Additionally, if our hospitality ventures are unable to provide this information for any meaningful period or fail to meet expected deadlines, we may be unable to satisfy our financial reporting obligations or timely file our periodic reports.

Cash distributions from our hospitality ventures could be limited by factors outside our control that could reduce our return on investment and our ability to generate liquidity from these hospitality ventures.

Although our hospitality ventures may generate positive cash flow, in some cases these hospitality ventures may be unable to distribute that cash to the hospitality venture partners. Additionally, in some cases our hospitality venture partners control distributions, and may choose to leave capital in the hospitality venture rather than distribute it. Because our ability to generate liquidity from our hospitality ventures depends on the hospitality ventures' ability to distribute capital to us, tax restrictions or decisions of our hospitality venture partners could reduce our return on these investments. We include our pro rata share of Adjusted EBITDA attributable to our unconsolidated hospitality ventures in our owned and leased hotels segment Adjusted EBITDA and our consolidated Adjusted EBITDA regardless of whether the cash flow of those ventures is, or can be, distributed to us.

We may seek to expand through acquisitions of and investments in other businesses and properties, or through alliances; and we may also seek to divest some of our properties and other assets, any of which may be unsuccessful or divert our management's attention.

We intend to consider strategic and complementary acquisitions of and investments in other businesses, properties, brands or other assets. Furthermore, we may pursue these opportunities in alliance with existing or prospective owners of managed or franchised properties. In many cases, we will be competing for these opportunities with third parties that may have substantially greater financial resources than we do. Acquisitions or investments in businesses, properties, brands or assets as well as these alliances are subject to risks that could affect our business, including risks related to:

- issuing shares of stock that could dilute the interests of our existing stockholders;
- spending cash and incurring debt;
- assuming contingent liabilities;
- contributing properties or related assets to hospitality ventures that could result in recognition of losses; or
- creating additional expenses.

We cannot assure you that we will be able to identify opportunities or complete transactions on commercially reasonable terms or at all, or that we will actually realize any anticipated benefits from such acquisitions, investments or alliances. There may be high barriers to entry in many key markets and scarcity of available development and investment opportunities. Similarly, we cannot assure you that we will be able to obtain financing for acquisitions or investments on attractive terms or at all, or that the ability to obtain financing will not be restricted by the terms of our revolving credit facility or other indebtedness we may incur.

The success of any such acquisitions or investments will also depend, in part, on our ability to integrate the acquisition or investment with our existing operations. We may experience difficulty with integrating acquired businesses, properties or other assets, including difficulties relating to:

- coordinating sales, distribution and marketing functions;
- integrating technology information systems; and
- preserving the important licensing, distribution, marketing, customer, labor and other relationships of the acquired assets.

Divestment of some of our properties or assets may yield returns below our investment criteria. In some circumstances, sales of properties or other assets may result in losses.

In addition, any such acquisitions, investments, dispositions or alliances could demand significant attention from our management that would otherwise be available for our regular business operations, which could harm our business.

We may not be successful in executing our strategy of disposing of selected assets, which could hinder our ability to expand our presence in markets that will enhance and expand our brand preference.

We regularly review our business to identify properties or other assets that we believe are in markets or of a property type that may not benefit us as much as other markets or property types. One of our strategies is to selectively dispose of hotel properties and use sale proceeds to fund our growth in markets that will enhance and expand our brand presence. We cannot assure you that we will be able to consummate any such sales on commercially reasonable terms or at all, or that we will actually realize any anticipated benefits from such sales. Dispositions of real estate assets are particularly difficult in the current economic environment, as financing alternatives are limited for potential buyers. The current economic environment and recent credit crisis have adversely affected the real estate market and caused a reduction in sales of hotel properties. Our inability to sell assets, or to sell such assets at attractive prices, could have an adverse impact on our ability to realize proceeds for reinvestment and hinder our ability to expand our business. In addition, even if we are successful in consummating sales of selected properties, such dispositions may yield returns below our investment criteria and result in losses, which could negatively affect operating results for the period in which such sales occur. Moreover, from time to time, we may market and evaluate the potential sale of non-strategic assets without committing to the consummation of such sale for various reasons, including a lack of acceptable purchasers, undesirable market conditions or other factors. Our affirmative decision not to proceed with any such sale transaction may be perceived as an inability to execute our strategy.

Timing, budgeting and other risks could delay our efforts to develop, redevelop or renovate the properties that we own, or vacation ownership developments that we undertake, or make these activities more expensive, which could reduce our profits or impair our ability to compete effectively.

We must maintain and renovate the properties that we own in order to remain competitive, maintain the value and brand standards of our properties and comply with applicable laws and regulations. We also undertake vacation ownership developments which may span multiple phases and often take years to complete. These efforts are subject to a number of risks, including:

- construction delays or cost overruns (including labor and materials) that may increase project costs;
- obtaining zoning, occupancy and other required permits or authorizations;
- changes in economic conditions that may result in weakened or lack of demand or negative project returns;
- governmental restrictions on the size or kind of development;
- force majeure events, including earthquakes, tornados, hurricanes, floods or tsunamis; and
- design defects that could increase costs.

Developing new properties typically involves lengthy development periods during which significant amounts of capital must be funded before the properties can begin to operate. If the cost of funding these developments or renovations exceeds budgeted amounts, profits could be reduced. Further, due to the lengthy development cycle, adverse economic conditions may alter or impede our development plans, thereby resulting in incremental costs to us or potential impairment charges. Moreover, during the early stages of operations, charges related to interest expense and depreciation may substantially detract from, or even outweigh, the profitability of certain new property investments.

Similarly, the timing of capital improvements can affect property performance, including occupancy and average daily rate, particularly if we need to close a significant number of rooms or other facilities, such as ballrooms, meeting spaces or restaurants. For example, we recently began broad-scope renovation projects at five owned properties. The displacement caused by these renovations negatively impacted owned and leased segment results for the fourth quarter of 2010 and we expect that the displacement caused by these renovations will continue to negatively impact owned and leased segment results through the third quarter of 2011. The impact

will vary from quarter to quarter, depending on the particular phase underway at each of the five projects. Moreover, the investments that we make may fail to improve the performance of the properties in the manner that we expect.

If we are not able to begin operating properties under development or renovation as scheduled, or if renovation investments adversely affect or fail to improve performance, our ability to compete effectively could be diminished and our revenues could be reduced.

If we or our third-party property owners, including our hospitality venture partners, are unable to repay or refinance loans secured by the mortgaged properties, our revenues, profits and capital resources could be reduced and our business could be harmed.

Many of the properties that our third-party property owners and our hospitality venture partners own, and a limited number of the properties that we own, are pledged as collateral for mortgage loans entered into when such properties were purchased or refinanced. If we, our third-party property owners or our hospitality venture partners are unable to repay or refinance maturing indebtedness on favorable terms or at all, the lenders could declare a default, accelerate the related debt and repossess the property. In the current economic environment, a number of property owners are experiencing financial difficulties and the properties they own are vulnerable to financial stress. Debt defaults could lead third-party property owners or our hospitality venture partners to sell the property on unfavorable terms or, in the case of secured debt, to convey the mortgaged property to the lender. For example, during the second quarter of 2010, the consolidated venture that owned the Hyatt Regency Princeton did not have sufficient cash flow to meet debt service requirements under its mortgage loan. The assets and operations of the Hyatt Regency Princeton secured this mortgage. In September 2010, the ownership interest in the Hyatt Regency Princeton was transferred to its lender through a deed in lieu of foreclosure transaction. While we continue to manage the property, the lender has the option to terminate the management agreement within one year of such transfer. Any similar sales or repossessions could, in certain cases, result in the termination of our management agreements or eliminate any anticipated income and cash flows from, and, if applicable, our invested capital in, such property, which could harm our business.

If we or our third-party owners, franchisees or development partners are unable to access the capital necessary to fund current operations or implement our plans for growth, our profits could be reduced and our ability to compete effectively could be diminished.

The hospitality industry is a capital intensive business that requires significant capital expenditures to develop, operate, maintain and renovate properties. Access to the capital that we or our third-party owners, franchisees or development partners need to finance the construction of new properties or to maintain and renovate existing properties is critical to the continued growth of our business and our revenues.

The availability of capital or the conditions under which we or our third-party owners, franchisees or development partners can obtain capital can have a significant impact on the overall level, cost and pace of future development and therefore the ability to grow our revenues. The credit markets have experienced significant disruption severely reducing liquidity and credit availability. Such disruptions may diminish the ability and desire of existing and potential development partners to access capital necessary to develop properties. Our ability to access additional capital could also be limited by the terms of our revolving credit facility, which restricts our ability to incur debt under certain circumstances. Additionally, if one or more of the financial institutions that support our revolving credit facility fails, we may not be able to find a replacement, which would reduce the availability of funds that we can borrow under the facility.

If we are forced to spend larger amounts of cash from operating activities than anticipated to operate, maintain or renovate existing properties, then our ability to use cash for other purposes, including acquisition or development of properties, could be limited and our profits could be reduced. Similarly, if we cannot access the capital we need to fund our operations or implement our growth strategy, we may need to postpone or cancel planned renovations or developments, which could impair our ability to compete effectively and harm our business.

If we fail to meet performance standards under a contractual performance obligation, our profits could be reduced.

In connection with the acquisition of the AmeriSuites brand in 2005, we assumed obligations under a management agreement with a third-party owner of multiple properties to make payments based on specified thresholds for those properties. As a result of the removal of rooms from inventory during renovation of the subject properties upon conversion to the Hyatt Place brand and due to the decline in demand for lodging products and services as a result of the economic downturn, we are obligated to make payments in certain circumstances under this agreement up to a maximum of \$50 million (of which \$24 million has been paid over the life of the agreement through December 31, 2010). These payments could lower our profits and reduce our cash flows.

If we become liable for losses related to loans we have provided or guaranteed to third parties, our profits could be reduced.

When we enter into management or franchise agreements with third parties, including hospitality ventures, from time to time we make loans for hotel development expenditures. In certain circumstances we may also provide senior secured financing or subordinated forms of financing (also referred to as mezzanine financing) to third-party owners. For example, in 2008, we made a \$278 million loan to an unconsolidated hospitality venture in order to finance its purchase of the Hyatt Regency Waikiki Beach Resort and Spa.

We could suffer losses if third-party property owners or franchisees default on loans that we provide. In 2008 we wrote off a \$61 million mezzanine loan that was fully reserved for in 2007.

To secure financing for four of our unconsolidated hospitality ventures, we have provided to third-party lenders financial guarantees related to the timely repayment of all or a portion of the associated debt. The guarantees are limited to our share of the underlying obligation. As of December 31, 2010 our maximum contingent liability was \$22 million.

If we are liable for losses related to loans we have provided or guaranteed to third parties, our costs could increase and our profits could fall.

In any particular period, our expenses may not decrease at the same rate that our revenues may decrease, which could have an adverse effect on our net cash flows, margins and profits.

Many of the expenses associated with managing, franchising or owning hotels and residential and vacation ownership properties are relatively fixed. These expenses include:

- personnel costs;
- interest;
- rent;
- property taxes;
- insurance; and
- utilities.

If we are unable to decrease these costs significantly or rapidly when demand for our hotels and other properties decreases, the decline in our revenues can have a particularly adverse impact on our net cash flows and profits. This effect can be especially pronounced during periods of economic contraction or slow economic growth, such as the recent economic recession. Economic downturns generally affect the results derived from owned property more significantly than those derived by managers and franchisors given the greater exposure that the owners have to the properties' performance. During the recent economic downturn, our revenues declined at a greater rate than our costs. For example, during the year ended December 31, 2009, our

consolidated revenues declined by 13.2% while our direct and selling, general and administrative expenses declined by 5.4%, compared to the same period in 2008. During the year ended December 31, 2009, the revenues of our owned and leased hotels declined by 16.7%, while corresponding owned and leased hotel expenses declined by 7.7%, compared to the same period in 2008. Where cost-cutting efforts are insufficient to offset declines in revenues, we could experience a material decline in margins and potentially negative cash flows.

If we are unable to establish and maintain key distribution arrangements for our properties, the demand for our rooms and our revenues could fall.

Some of the rooms at hotels and resorts that we manage, franchise or own are booked through third-party internet travel intermediaries and online travel service providers. We also engage third-party intermediaries who collect fees by charging our hotels and resorts a commission on room revenues, including travel agencies and meeting and event management companies. A failure by our distributors to attract or retain their customer bases would lower demand for hotel rooms and, in turn, reduce our revenues.

If bookings by these third-party intermediaries increase, these intermediaries may be able to obtain higher commissions or other significant contract concessions from us, increasing the overall cost of these third-party distribution channels. Some of our distribution agreements are not exclusive, have a short term, are terminable at will, or are subject to early termination provisions. The loss of distributors, increased distribution costs, or the renewal of distribution agreements on significantly less favorable terms could adversely impact our business.

If the volume of sales made through third-party internet travel intermediaries increases significantly, consumer loyalty to our brand could decrease and our revenues could fall.

We expect to derive most of our business from traditional channels of distribution and our website. However, consumers now use internet travel intermediaries regularly. Some of these intermediaries are attempting to increase the importance of price and general indicators of quality (such as “four-star downtown hotel”) at the expense of brand identification. These agencies hope that consumers will eventually develop brand loyalties to their reservation system rather than to our brands. If the volume of sales made through internet travel intermediaries increases significantly and consumers develop stronger loyalties to these intermediaries rather than to our brands, our business and revenues could be harmed.

If we are not able to develop new initiatives, including new brands, successfully, our business and profitability could be harmed.

We often develop and launch new initiatives, including new brands or marketing programs, which can be a time-consuming and expensive process. For example, we launched our Andaz brand in 2007. Since then, we have invested capital and resources in owned real estate, property development, brand development and brand promotion. If such initiatives are not well received by our associates, guests and owners, they may not have the intended effect. We may not be able to recover the costs incurred in developing Andaz or other initiatives or to realize their intended or projected benefits, which could lower our profits.

Labor shortages could restrict our ability to operate our properties or grow our business or result in increased labor costs that could reduce our profits.

Our success depends in large part on our ability to attract, retain, train, manage and engage our associates. Our properties are staffed 24 hours a day, seven days a week by thousands of associates around the world. If we and our franchisees are unable to attract, retain, train and engage skilled associates, our ability to manage and staff our properties adequately could be impaired, which could reduce customer satisfaction. Staffing shortages could also hinder our ability to grow and expand our business. Because payroll costs are a major component of the operating expenses at our properties, a shortage of skilled labor could also require higher wages that would increase our labor costs, which could reduce our profits and the profits of our third-party owners.

Negotiations of collective bargaining agreements, or changes in labor legislation, could disrupt our operations, increase our labor costs or interfere with the ability of our management to focus on executing our business strategies.

Certain of our properties are subject to collective bargaining agreements, similar agreements or regulations enforced by governmental authorities. If relationships with our associates, other field personnel or the unions that represent them become adverse, the properties we manage, franchise or own could experience labor disruptions such as strikes, lockouts and public demonstrations. Labor disruptions, which are generally more likely when collective bargaining agreements are being renegotiated, could harm our relationship with our associates or cause us to lose guests. Additionally, labor regulation could lead to higher wage and benefit costs, changes in work rules that raise operating expenses, legal costs and limitations on our ability or the ability of our third-party property owners and franchisees to take cost saving measures during economic downturns. We do not have the ability to control the negotiations of collective bargaining agreements covering unionized labor employed by third-party property owners and franchisees.

We and our third-party property owners and franchisees may also become subject to additional collective bargaining agreements in the future. Proposed legislation in Congress known as the Employee Free Choice Act could increase the likelihood of a union obtaining recognition by increasing the use of card check authorization and avoiding a secret ballot election. This legislation could also give third-party arbitrators the ability to impose collective bargaining agreement terms on us or our third-party property owners and franchisees, and our associates, if we, our third-party property owners or franchisees and a labor union are unable to agree upon a collective bargaining agreement. If this legislation or similar laws are passed, more of our associates or other field personnel could be subject to increased organizational efforts, which could potentially lead to disruptions or require more of our management's time to address unionization issues. These or similar agreements, legislation or changes in regulations could disrupt our operations, hinder our ability to cross-train and cross-promote our associates due to prescribed work rules and job classifications, reduce our profitability, or interfere with the ability of our management to focus on executing our business strategies.

The loss of our senior executives or key field personnel, such as our general managers, could significantly harm our business.

Our ability to maintain our competitive position is dependent to a large degree on the efforts and skills of our senior executives. We have entered into employment letter agreements with certain of our senior executives. However, we cannot guarantee that these individuals will remain with us. Finding suitable replacements for our senior executives could be difficult. We currently do not have a life insurance policy or key person insurance policy with respect to any of our senior executives. Losing the services of one or more of these senior executives could adversely affect our strategic relationships, including relationships with our third-party property owners, franchisees, hospitality venture partners and vendors, and limit our ability to execute our business strategies.

We also rely on the general managers at each of our owned and managed properties to run daily operations and oversee our associates. These general managers are trained professionals in the hospitality industry and have extensive experience in many markets worldwide. The failure to retain, train or successfully manage our general managers for our properties could negatively affect our operations.

Because we derive a portion of our revenues from operations outside the United States, the risks of doing business internationally could lower our revenues, increase our costs, reduce our profits or disrupt our business.

We currently manage, franchise or own hotels and resorts in 45 countries located on six continents around the world. Our operations outside the United States represented approximately 20% of our revenues for the year ended December 31, 2010. We expect that revenues from our international operations will continue to account for an increasing portion of our total revenues.

As a result, we are subject to the risks of doing business outside the United States, including:

- the laws, regulations and policies of foreign governments relating to investments and operations, as well as U.S. laws affecting the activities of U.S. companies abroad;
- limitations/penalties on the repatriation of non-U.S. earnings;
- changes in regulatory requirements, including imposition of tariffs or embargoes, export controls and other trade restrictions;
- political and economic instability;
- the difficulty of managing an organization doing business in many jurisdictions;
- import and export licensing requirements and regulations, as well as unforeseen changes in export regulations;
- potential negative consequences from changes in taxation policies and currency exchange rate fluctuations;
- uncertainties as to local laws and enforcement of contract and intellectual property rights and occasional requirements for onerous contract clauses; and
- rapid changes in government, economic and political policies, political or civil unrest, acts of terrorism or the threat of international boycotts or U.S. anti-boycott legislation.

While these factors and the impact of these factors are difficult to predict, any one or more of them could lower our revenues, increase our costs, reduce our profits or disrupt our business.

Exchange rate fluctuations could result in significant foreign currency gains and losses or lead to costs and risks related to exchange rate hedging activities.

Conducting business in currencies other than U.S. dollars subjects us to fluctuations in currency exchange rates that could have a negative impact on our financial results. We translate the value of foreign currency-denominated amounts into U.S. dollars and we report our consolidated financial results of operations in U.S. dollars. Because the value of the U.S. dollar fluctuates relative to other currencies, revenues that we generate or expenses that we incur in other currencies could significantly increase or decrease our revenues or expenses as reported in U.S. dollars. Our exposure to foreign currency exchange rate fluctuations will continue to grow if the relative contribution of our operations outside the United States increases.

We enter into foreign exchange agreements with financial institutions to reduce our exposure to fluctuations in currency exchange rates referred to as hedging activities. However, these hedging activities may not eliminate foreign currency risk entirely and involve costs and risks of their own, such as ongoing management time and expertise and external costs related to executing hedging activities.

If purchasers default on the loans we provide to finance their purchases of our vacation ownership properties, the revenues and profits we derive from our vacation ownership business could be reduced.

We provide secured financing to some of the purchasers of our vacation ownership properties in respect of which we are subject to the risk of purchaser default. If a purchaser defaults under the financing we provide, we could be forced to write off the loan and reclaim ownership of the property. If the property has declined in value, we may incur impairment charges or losses as a result. In addition, we may be unable to resell the property in a timely manner or at the same price. As of December 31, 2010, we had \$45 million of mortgage receivables, net of allowances associated with these activities. In addition, if a purchaser of a vacation ownership property defaults on the related loan during the early part of the amortization period, we may not have recovered the marketing, selling and general and administrative costs associated with the sale of such vacation ownership

property. If we are unable to recover any of the principal amount of the loan from a defaulting purchaser, or if our allowances for losses from such defaults are inadequate, the profits we derive from our vacation ownership business could be reduced.

Private resales of our vacation ownership interests could lower the demand or prices for our vacation ownership properties, which could reduce our revenues and our profits.

We develop, sell or manage vacation ownership properties in select locations as part of the Hyatt Vacation Club, which is in the process of changing its name to Hyatt Residence Club. Private resales by owners of these vacation ownership interests in the secondary market could reduce demand or prices for new vacation ownership interests, particularly if the owners sell their interests at a significant discount. Lower demand or prices for our vacation ownership interests could reduce our revenues and our profits.

Our failure to comply with applicable laws and regulations may increase our costs, reduce our profits or limit our growth.

Our business, properties and associates are subject to a variety of laws and regulations. Generally, these laws and regulations address our sales and marketing efforts, our handling of privacy issues and customer data, our ability to obtain licenses for business operations such as sales of food and liquor, immigration matters, environmental, health and safety, gaming, competition and trade laws, among other things.

Our franchising and vacation ownership businesses and our operations outside the United States are also subject to laws and regulations affecting those businesses.

Franchising

Our franchising business is subject to various state laws as well as to regulations enacted by the Federal Trade Commission (FTC). A number of states require franchisors to register with the state or to make extensive disclosures to potential franchisees in connection with offers and sales in those states. The FTC also regulates the manner and substance of our disclosures to prospective franchisees. In addition, several states have “franchise relationship laws” or “business opportunity laws” that limit the ability of franchisors to terminate franchise agreements or to withhold consent to the renewal or transfer of those agreements.

Vacation Ownership

Our vacation ownership properties are subject to extensive state regulation in both the state in which the property is located and the states in which the property is marketed and sold. Our marketing for these properties is also subject to federal regulation of certain marketing practices, including federal telemarketing regulations. In addition, the laws of most states in which we sell vacation ownership interests give the purchaser the right to rescind the purchase contract within a specified time period.

International Operations

Our business operations in countries outside the United States are subject to a number of U.S. federal laws and regulations, including restrictions imposed by the Foreign Corrupt Practices Act (FCPA) as well as trade sanctions administered by the Office of Foreign Assets Control (OFAC) and the Commerce Department. The FCPA is intended to prohibit bribery of foreign officials or parties and requires public companies in the United States to keep books and records that accurately and fairly reflect those companies’ transactions. OFAC and the Commerce Department administer and enforce economic and trade sanctions based on U.S. foreign policy and national security goals against targeted foreign states, organizations and individuals.

If we, or our hospitality ventures, fail to comply with these laws and regulations, we could be exposed to claims for damages, financial penalties, reputational harm, incarceration of our employees or restrictions on our

operation or ownership of hotels and other properties, including the termination of our management, franchise and ownership rights. These restrictions could increase our costs of operations, reduce our profits or cause us to forgo development opportunities that would otherwise support our growth.

The extensive environmental requirements to which we are subject could increase our environmental costs and liabilities, reduce our profits or limit our ability to run our business.

Our operations and the properties we manage, own and develop are subject to extensive environmental laws and regulations of various federal, state, local and foreign governments, including requirements addressing:

- health and safety;
- the use, management and disposal of hazardous substances and wastes;
- discharges of waste materials into the environment, such as refuse or sewage; and
- air emissions.

We could be subject to liability under some of these laws for the costs of investigating or remediating hazardous substances or wastes on, under, or in real property we currently or formerly manage, own or develop, or third-party sites where we sent hazardous substances or wastes for disposal. We could be held liable under these laws regardless of whether we knew of, or were at fault in connection with, the presence or release of any such hazardous or toxic substances or wastes. Some of these laws make each covered person responsible for all of the costs involved, even if more than one person may have been responsible for the contamination. Furthermore, a person who arranges for hazardous substances or wastes to be transported, disposed of or treated offsite, such as at disposal or treatment facilities, may be liable for the costs of removal or remediation if those substances are released into the environment by third parties at such disposal or treatment facilities. The presence or release of hazardous or toxic substances or wastes, or the failure to properly clean up such materials, could cause us to incur significant costs, or jeopardize our ability to develop, use, sell or rent real property we own or operate or to borrow using such property as collateral.

Other laws and regulations require us to manage, abate or remove materials containing hazardous substances such as mold, lead or asbestos during demolitions, renovations or remodeling at properties that we manage, own or develop or to obtain permits for certain of our equipment or operations. The costs of such management, abatement, removal or permitting could be substantial. Complying with these laws and regulations, or addressing violations arising under them, could increase our environmental costs and liabilities, reduce our profits or limit our ability to run our business. Existing environmental laws and regulations may be revised or new laws and regulations related to global climate change, air quality, or other environmental and health concerns may be adopted or become applicable to us. The identification of new areas of contamination, a change in the extent or known scope of contamination or changes in cleanup requirements, or the adoption of new requirements governing our operations could have a material adverse effect on our results or operations, financial condition and business.

If the insurance that we carry does not sufficiently cover damage or other potential losses involving properties that we manage or own, our profits could be reduced.

We carry insurance from solvent insurance carriers that we believe is adequate for foreseeable losses and with terms and conditions that are reasonable and customary. Nevertheless, market forces beyond our control could limit the scope of the insurance coverage that we can obtain or restrict our ability to buy insurance coverage at reasonable rates. In the event of a substantial loss, the insurance coverage that we carry may not be sufficient to pay the full value of our financial obligations or the replacement cost of any lost investment. Because certain types of losses are significantly uncertain, they can be uninsurable or too expensive to insure. In some cases, these factors could result in certain losses being completely uninsured. As a result, we could lose some or all of the capital we have invested in a property, as well as the anticipated future revenues from the property, we could remain obligated for performance guarantees in favor of third-party property owners or for

their debt or other financial obligations and we may not have sufficient insurance to cover awards of damages resulting from our liabilities. If the insurance that we carry does not sufficiently cover damages or other losses, our profits could be adversely affected.

Any failure to protect our trademarks and intellectual property could reduce the value of our brand names and harm our business.

The reputation and perception of our brands is critical to our success in the hospitality industry. If our trademarks or intellectual property are copied or used without authorization, the value of our brands, their reputation, our competitive advantages and our goodwill could be harmed. We regularly apply to register our trademarks in the United States and other countries. However, we cannot assure you that those trademark registrations will be granted or that the steps we take to protect our trademarks or intellectual property in the United States and other countries will be adequate to prevent others, including third parties or former employees, from copying or using our trademarks or intellectual property without authorization. Our intellectual property is also vulnerable to unauthorized use in some countries outside the United States, where we may not be adequately protected by local law.

Monitoring the unauthorized use of our intellectual property is difficult. As we have in the past, we may need to resort to litigation to enforce our intellectual property rights. Litigation of this type could be costly, force us to divert our resources, lead to counterclaims or other claims against us or otherwise harm our business. Any failure to maintain and protect our trademarks and other intellectual property could reduce the value of our brands and harm our business.

Third-party claims that we infringe their intellectual property rights could subject us to damages and other costs and expenses.

Third parties may make claims against us for infringing their intellectual property rights. Any such claims, even those without merit, could:

- be expensive and time consuming to defend;
- force us to stop providing products or services that use the intellectual property that is being challenged;
- force us to redesign or rebrand our products or services;
- divert our management's attention and resources;
- force us to enter into royalty or licensing agreements to obtain the right to use a third party's intellectual property; or
- force us to pay significant damages.

In addition, we may be required to indemnify third-party owners of the hotels we manage or franchisees for any losses they incur as a result of any such infringement claims. Any necessary royalty or licensing agreements may not be available to us on acceptable terms. Any costs, lost revenues, changes to our business or management attention related to intellectual property claims against us, whether successful or not, could impact our business.

Adverse judgments or settlements resulting from legal proceedings in which we may be involved in the normal course of our business could reduce our profits or limit our ability to operate our business.

In the normal course of our business, we are often involved in various legal proceedings. The outcome of these proceedings cannot be predicted. If any of these proceedings were to be determined adversely to us or a settlement involving a payment of a material sum of money were to occur, there could be a material adverse effect on our financial condition and results of operations. Additionally, we could become the subject of future

claims by third parties, including current or former third-party property owners, guests who use our properties, our employees, our investors or regulators. Any significant adverse judgments or settlements would reduce our profits and could limit our ability to operate our business.

Information technology system failures, delays in the operation of our information technology systems or system enhancement failures could reduce our revenues and profits and harm the reputation of our brands and our business.

Our success depends on the efficient and uninterrupted operation of our information technology systems. For example, we depend on our central reservation system, which allows bookings by hotels directly, via telephone through our call centers, by travel agents, online through our website *www.hyatt.com*, and through our online reservations partners. In addition, we depend on information technology to run our day-to-day operations, including, among others, hotel services and amenities such as guest check-in and check-out, housekeeping and room service and systems for tracking and reporting our financial results and the financial results of our hotels.

Our information technology systems are vulnerable to damage or interruption from fire, floods, hurricanes, power loss, telecommunications failures, computer viruses, break-ins and similar events. The occurrence of any of these natural disasters or unanticipated problems at any of our information technology facilities or any of our call centers could cause interruptions or delays in our business or loss of data, or render us unable to process reservations.

In addition, if our information technology systems are unable to provide the information communications capacity that we need, or if our information technology systems suffer problems caused by installing system enhancements, we could experience similar failures or interruptions. If our information technology systems fail and our redundant systems or disaster recovery plans are not adequate to address such failures, or if our property and business interruption insurance does not sufficiently compensate us for any losses that we may incur, our revenues and profits could be reduced and the reputation of our brands and our business could be harmed.

Failure to maintain the integrity of internal or customer data could result in faulty business decisions, harm to our reputation or subject us to costs, fines or lawsuits.

We are required to collect and retain large volumes of internal and customer data, including credit card numbers and other personally identifiable information as our various information technology systems enter, process, summarize and report such data. We also maintain personally identifiable information about our employees. The integrity and protection of our customer, employee and company data is critical to our business. Our customers expect that we will adequately protect their personal information, and the regulations applicable to security and privacy are increasingly demanding, both in the United States and in other jurisdictions where we operate. A theft, loss, fraudulent or unlawful use of customer, employee or company data could harm our reputation or result in remedial and other costs, fines or lawsuits.

If we fail to stay current with developments in technology necessary for our business, our operations could be harmed and our ability to compete effectively could be diminished.

Sophisticated information technology and other systems are instrumental for the hospitality industry, including systems used for our central reservations, revenue management, property management and our Hyatt Gold Passport program, as well as technology systems that we make available to our guests. These information technology and other systems must be refined, updated, or replaced with more advanced systems on a regular basis. Developing and maintaining these systems may require significant capital. If we are unable to replace or introduce information technology and other systems as quickly as our competitors or within budgeted costs or schedules when these systems become outdated or need replacing, or if we are unable to achieve the intended benefits of any new information technology or other systems, our operations could be harmed and our ability to compete effectively could be diminished.

We may be liable for proposed tax liabilities and the final amount of taxes paid may exceed the amount of applicable reserves, which could reduce our profits.

The Internal Revenue Service (IRS) has completed its examinations of the originally filed consolidated federal income tax returns of Hyatt Hotels Corporation, Hyatt Corporation, AIC and H Group for the taxable years ended December 31, 2003, 2004 and 2005. Based on these examinations (and on examination adjustments for the taxable year ended January 31, 2001), we could be liable for up to \$42 million of additional taxes and penalties (plus accrued interest). We and our affiliates have filed protests with the IRS Appeals Office contesting these proposed tax liabilities. Our consolidated federal income tax returns for the taxable years ended December 31, 2006, 2007 and 2008 (and the amended return for the taxable year ended December 31, 2005) are currently under examination, and we are also subject to ongoing tax audits and disputes in various state, local and foreign jurisdictions. We believe we have established adequate reserves for potential tax liabilities, but the final amount of taxes assessed and paid could exceed the amount of such reserves, which could reduce our profits.

Changes in federal, state, local or foreign tax law, interpretations of existing tax law or agreements with tax authorities could affect our profitability and financial condition by increasing our tax costs.

We are subject to taxation at the federal, state or provincial and local levels in the United States and various other countries and jurisdictions. Our future tax rates could be affected by changes in the composition of earnings in jurisdictions with differing tax rates, changes in the valuation of our deferred tax assets and liabilities, or changes in determinations regarding the jurisdictions in which we are subject to tax. From time to time the U.S. federal, state, local and foreign governments make substantive changes to tax rules and the application thereof, which could result in materially higher corporate taxes than would be incurred under existing tax law or interpretation and could adversely impact profitability. The current U.S. administration has put forth several revenue raising proposals, some of which target tax provisions that benefit us, including proposals to limit the ability of U.S. companies to continue to defer U.S. taxes on foreign income. State and local tax authorities have also increased their efforts to increase revenues through changes in tax law and audits. The State of Illinois, for example, recently increased its corporate income tax rate. Such changes and proposals, if enacted, could increase our future effective income tax rates.

We are a party to certain agreements with foreign tax authorities that reduce or defer the amount of tax we pay. The expiration of such agreements, or changes in circumstances or in interpretation of such agreements, could increase our tax costs.

The terms of our revolving credit facility and the indenture governing our senior notes place restrictions on us and certain of our subsidiaries, reducing operational flexibility and creating default risks.

The terms of our revolving credit facility and the indenture governing our senior notes contain covenants that place restrictions on us and certain of our subsidiaries. The covenants under our revolving credit facility restrict, among other things, our ability to:

- incur additional debt, due to a requirement that we satisfy a maximum leverage ratio test, a minimum interest coverage ratio test and a maximum secured debt ratio test;
- engage in other business activities or engage in certain transactions with affiliates; and
- change our fiscal year or change our organizational documents.

Similarly, the covenants under our revolving credit facility and the indenture governing our senior notes restrict, among other things, our ability to:

- create any liens on certain assets to secure debt;
- enter into certain sale and leaseback transactions; or
- enter into mergers or consolidations or transfer all or substantially all of our assets.

Failure to comply with these restrictive covenants could result in an event of default that, if not waived or cured, if applicable, could result in the acceleration of all or a substantial portion of our outstanding debt under our revolving credit facility and our senior notes.

An increase in interest rates would increase interest costs on our revolving credit facility and any variable rate debt we incur, which could adversely impact our ability to refinance existing debt or acquire assets.

Borrowings under our revolving credit facility bear interest at the London Interbank Offered Rate (LIBOR) or an alternative base rate (defined as the greatest of (a) the federal funds rate plus 0.5%, (b) the prime rate and (c) one-month LIBOR plus 1.0%) plus an additional margin that is based on our credit ratings. To the extent we borrow under the revolving credit facility, any increase in the interest rate applicable to such borrowings will reduce our cash flows available for other corporate purposes including investments in our portfolio. Further, rising interest rates could limit our ability to refinance existing debt when it matures and increase interest costs on any debt that is refinanced. We may from time to time enter into agreements such as interest rate swaps or other interest rate hedging contracts. While these agreements may lessen the impact of rising interest rates, they also expose us to the risk that other parties to the agreements will not perform or that the agreements will be unenforceable. In addition, an increase in interest rates could decrease the amount third parties are willing to pay for our assets, thereby limiting our ability to dispose of assets as part of our business strategy. Our revolving credit facility also imposes an additional fee paid to revolving lenders whose loans mature on June 29, 2012 if the calculation of LIBOR falls below 1.00% in the case of LIBOR-based borrowings (including alternative base rate borrowings based on the one-month LIBOR).

Rating agency downgrades may increase our cost of capital.

The interest rate of borrowings and the facility fee under our revolving credit facility are determined by a pricing grid which is dependent on our credit ratings by Standard & Poor's Rating Group and Moody's Investors Service, Inc. Lower ratings result in a higher cost of funds. Therefore, if these independent rating agencies were to downgrade our credit ratings or if we no longer have a credit rating from either agency, the cost of our borrowing and the amount of the facility fee under our revolving credit facility will increase as specified in the pricing grid. Additionally, any future downgrade of our credit ratings by the rating agencies could reduce or limit our access to capital and increase our cost of capital. We and a number of our competitors have had either a rating or outlook downgrade by the rating agencies as a result of the recent economic downturn and decreased demand for hospitality products and services. Given the cyclical nature of the hospitality industry and its dependence on the underlying health of the economy, we could be subject to frequent changes in our credit rating. As the economic recovery is expected to be slow in the near term there is a continuing risk of our credit ratings being revised downward.

We have a large amount of cash and cash equivalents and short-term investments and are exposed to counterparty risk with respect to these deposits.

All of our cash that is not required to fund our daily operating activities is invested in interest bearing investments with a greater focus placed on capital preservation than on investment return. The majority of our cash balances are held on deposit with high quality financial institutions that hold long-term ratings of at least A or A2 from Standard & Poor's Rating Group or Moody's Investor Service, Inc., respectively, and in AAA-rated money market funds. As such, we are exposed to counterparty risk on our \$1.1 billion of cash and cash equivalents as of December 31, 2010. During 2010 we established an investment account for purposes of investing a portion of our cash resources. In 2010, we began transferring cash and cash equivalent balances to the account for investment in corporate notes and bonds and U.S. treasuries and agencies. As such, we are exposed to counterparty risk on our \$524 million of short-term investments as of December 31, 2010.

As a result of becoming a public company, we have incurred and will continue to incur increased costs and become subject to additional regulations and requirements, which could lower our profits or make it more difficult to run our business.

As a newly public company, we have incurred and will continue to incur significant legal, accounting and other expenses that we did not incur as a private company, including costs associated with public company reporting requirements. We also have incurred and will incur costs associated with the Sarbanes-Oxley Act of 2002 and related rules implemented by the SEC and the New York Stock Exchange, and expect to incur costs associated with the Dodd-Frank Wall Street Reform and Consumer Protection Act that was enacted on July 21, 2010. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time-consuming and costly, although we are currently unable to estimate these costs with any degree of certainty. These laws and regulations could also make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as our executive officers. Furthermore, if we are unable to satisfy our obligations as a public company, we could be subject to delisting of our Class A common stock, fines, sanctions and other regulatory action and potentially civil litigation.

Risks Related to Share Ownership and Stockholder Matters

Our stock price is likely to be volatile, and you may not be able to resell shares of your Class A common stock at or above the price you paid.

The stock market in general, and hospitality companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of the underlying businesses. Given that we are a newly public company, these fluctuations may be even more pronounced in the trading market for our stock. In addition, the financial services industry recently experienced a period of significant disruption characterized by the bankruptcy, failure, collapse or sale of various financial institutions, which led to increased volatility in securities prices and a significant level of intervention from the U.S. and other governments in securities markets. These broad market and industry factors may seriously harm the market price of our Class A common stock, regardless of our actual operating performance.

In addition to the risks described in this section, several factors that could cause the price of our Class A common stock in the public market to fluctuate significantly include, among others, the following:

- quarterly variations in our operating results compared to market expectations;
- announcements of acquisitions of or investments in other businesses and properties or dispositions;
- announcements of new services or products or significant price reductions by us or our competitors;
- size of the public float;
- future conversions to and sales of our Class A common stock by current holders of Class B common stock in the public market, or the perception in the market that the holders of a large number of shares of Class B common stock intend to sell shares;
- stock price performance of our competitors;
- fluctuations in stock market prices and volumes;
- default on our indebtedness or foreclosure of our properties;
- changes in senior management or key personnel;
- changes in financial estimates by securities analysts;

- negative earnings or other announcements by us or other hospitality companies;
- downgrades in our credit ratings or the credit ratings of our competitors;
- issuances or repurchases of equity or debt securities; and
- global economic, legal and regulatory factors unrelated to our performance.

Volatility in the market price of our Class A common stock may prevent investors from being able to sell their Class A common stock at or above the price at which you purchased the stock. As a result, you may suffer a loss on your investment.

Securities class action litigation has often been instituted against companies following periods of volatility in the overall market and in the market price of a company's securities. This litigation, if instituted against us, could result in substantial costs, reduce our profits, divert our management's attention and resources and harm our business.

Pritzker family business interests have substantial control over us and have the ability to control the election of directors and other matters submitted to stockholders for approval, which will limit your ability to influence corporate matters or result in actions that you do not believe to be in our interests or your interests.

Our Class B common stock is entitled to ten votes per share and our Class A common stock is entitled to one vote per share. Pritzker family business interests beneficially own, in the aggregate, 104,365,554 shares, or approximately 80.6%, of our Class B common stock, representing approximately 60.0% of the outstanding shares of our common stock and approximately 77.9% of the total voting power of our outstanding common stock. As a result, consistent with the voting agreements contained in the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement, Pritzker family business interests will be able to exert a significant degree of influence or actual control over our management and affairs and over matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets and any other significant transaction. While the voting agreements are in effect, they may provide our board of directors with the effective control over matters requiring stockholder approval. Because of our dual class ownership structure, Pritzker family business interests will continue to exert a significant degree of influence or actual control over matters requiring stockholder approval, even if they own less than 50% of the outstanding shares of our common stock. This concentrated control will limit your ability to influence corporate matters, and the interests of Pritzker family business interests may not coincide with our interests or your interests. As a result, we may take actions that you do not believe to be in our interests or your interests and that could depress our stock price. See also "—Voting agreements entered into with or among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendation of our board of directors, and may limit your ability to influence the election of directors and other matters submitted to stockholders for approval."

In addition, the difference in the voting rights between our Class A common stock and Class B common stock could diminish the value of the Class A common stock to the extent that investors or any potential future purchasers of our common stock ascribe value to the superior voting rights of the Class B common stock.

Disputes among Pritzker family members and among Pritzker family members and the trustees of the Pritzker family trusts may result in significant distractions to our management, disrupt our business, have a negative effect on the trading price of our Class A common stock and/or generate negative publicity about Hyatt and the Pritzker family.

In the past, disputes have arisen between and among certain Pritzker family members, and between and among beneficiaries of the Pritzker family trusts and the trustees of such trusts, with respect to, among other things, the ownership, operation, governance, and management of certain Pritzker family business interests. In connection with certain of these disputes, claims were alleged, and in certain cases, proceedings were initiated, against certain Pritzker family members, including Thomas J. Pritzker, our executive chairman, and other

Pritzker family members, some of whom have been or are our directors, and against the trustees, including Thomas J. Pritzker in his capacity as a co-trustee of the Pritzker family U.S. situs trusts. Such past allegations related to, among others, trust management and administration, and violations of certain trustee duties, including fiduciary duties. Some of these disputes led to significant negative publicity for the Pritzker family. These disputes have been resolved with no admissions or finding of any misconduct.

With respect to Hyatt, disputes arose between and among certain Pritzker family members and the trustees of trusts with respect to, among other things, our dual class structure, which became effective prior to the completion of our initial public offering. In particular, certain beneficiaries of Pritzker family trusts expressed concern that there could be a value differential between our Class A and Class B common stock based on the difference in voting rights between those two classes of stock. Additionally, certain beneficiaries of Pritzker family trusts noted that the dual class structure had the effect of extending the duration of the voting and lock-up restrictions under the Global Hyatt Agreement and Foreign Global Hyatt Agreement due to the fact that the duration of those restrictions, as originally drafted, was based, in part, on voting power of the outstanding shares of our stock owned by Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses) rather than on the percentage of the outstanding shares of our stock owned by them.

In connection with these disputes, the Global Hyatt Agreement and the Foreign Global Hyatt Agreement were amended and restated in three important respects, as described under Part I, Item 1, "Business—Stockholder Agreements." First, the agreements were amended and restated to measure the duration of the voting and lock-up restrictions under the Global Hyatt Agreement and Foreign Global Hyatt Agreement on the percentage of outstanding shares, not voting power of shares, of our stock owned by Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses). Second, the agreements were amended and restated to permit Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses) to sell up to 25% of their aggregate holdings of our common stock, measured as of November 4, 2009 (the date of effectiveness of our registration statement on Form S-1 (File No. 333-161068) relating to our initial public offering of our Class A common stock), during each 12-month period following the date of effectiveness of such registration statement (without carry-overs), rather than 20% measured on a similar basis (though shares sold in the initial public offering counted toward the first 12-month period's limit). Additionally, the prohibition on selling shares to any aggregator (i.e., a person who is required to file a Schedule 13D under the Exchange Act, disclosing an intent other than for investment) was removed. Third, the amended and restated agreements provided for the distribution of Hyatt stock from U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses in consultation with the adult beneficiaries of such trusts as soon as practicable following November 4, 2009, the date of effectiveness of the registration statement relating to our initial public offering of our Class A common stock, subject to the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement. The distribution of Hyatt stock from the Pritzker family U.S. and non-U.S. situs trusts occurred on August 17, 2010. In connection with such distribution, the trustees of the recipient personal trusts became party to the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, as applicable.

As a result of such changes to the agreements, Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of any Pritzker family members and spouses), other than those who are party to the Agreement Relating to Stock, may now sell up to 100% of their common stock over a shorter period of time. See Part I, Item 1, "Business—Stockholder Agreements" and "—A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well." As part of these discussions, we agreed to provide, in the 2009 Registration Rights Agreement, for a shelf registration in order to facilitate sales of common stock by domestic and foreign Pritzker stockholders.

Disputes among Pritzker family members, and between and among beneficiaries of the Pritzker family trusts and the trustees of such trusts, including with respect to Hyatt, may arise or continue in the future. If such disputes occur, they may result in significant distractions to our management, disrupt our business, have a negative effect on the trading price of our Class A common stock and/or generate negative publicity about Hyatt and Pritzker family members, including Pritzker family members involved with Hyatt.

Voting agreements entered into with or among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendation of our board of directors, and may limit your ability to influence the election of directors and other matters submitted to stockholders for approval.

Pritzker family business interests have entered into a voting agreement with respect to all shares of common stock beneficially owned by Pritzker family business interests. During the term of the voting agreement, which expires on the later to occur of January 1, 2015, and the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by non-Pritzker family business interests, Pritzker family business interests have agreed to vote their shares of our common stock consistent with the recommendation of our board of directors with respect to all matters (assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker)) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). In addition, other existing stockholders, including entities affiliated with Goldman Sachs & Co. and Madrone GHC, beneficially own, in the aggregate, approximately 19.4% of our outstanding Class B common stock, representing approximately 14.4% of the outstanding shares of our common stock and approximately 18.8% of the total voting power of our outstanding common stock. These entities have entered into a voting agreement with us, with respect to the shares of Class B common stock that they beneficially own, and have agreed to vote their shares of Class B common stock consistent with the recommendation of our board of directors, without any separate requirement that our independent directors agree with the recommendation. These voting agreements expire on the later to occur of December 31, 2013 and the date that Thomas J. Pritzker is no longer chairman of our board of directors. See Part I, Item 1, "Business—Stockholder Agreements."

While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets and any other significant transaction. This is because the number of our shares that are required by the voting agreements to be voted consistent with the recommendation of our board of directors will be sufficient to determine the outcome of the election of directors and other matters submitted to stockholders for approval. This will limit your ability to influence the election of directors and other matters submitted to stockholders for approval, even if you do not believe those actions to be in our interests or your interests. For instance, the voting agreements may have the effect of delaying or preventing a transaction that would result in a change of control, if our board of directors does not recommend that our stockholders vote in favor of the transaction, even if you or some or all of our major stockholders believe that the transaction is in our interests or your interests. On the other hand, the voting agreements may result in our stockholders approving a transaction that would result in a change of control, if our board of directors recommends that our stockholders vote in favor of the transaction, even if you or some or all of our major stockholders believe that the transaction is not in our interests or your interests.

A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well.

Future sales of Class A common stock issuable upon conversion of Class B common stock in the public market, or the perception in the market that the holders of a large number of shares of Class B common stock intend to sell shares, could reduce the market price of our Class A common stock. As of January 31, 2011 we had 44,502,196 shares of Class A common stock outstanding and 129,466,000 shares of Class B common stock outstanding.

Of the outstanding shares, 44,437,511 shares of Class A common stock are freely tradable in the public market without restriction or further registration under the Securities Act of 1933, as amended (the "Securities Act") unless these shares are held by any of our "affiliates," as that term is defined in Rule 144 under the Securities Act. The remaining 25,081 outstanding shares of Class A common stock and 129,466,000 outstanding shares of Class B common stock are deemed "restricted securities," as that term is defined in Rule 144 under the Securities Act. Restricted securities may be sold in the public market only if they are registered under the Securities Act or they qualify for an exemption from registration under Rule 144 or Rule 701 under the Securities Act.

Substantially all of these restricted securities are subject to contractual lock-up and certain other restrictions contained in the Amended and Restated Global Hyatt Agreement, Amended and Restated Foreign Global Hyatt Agreement, Amended and Restated Agreement Relating to Stock or the 2007 Stockholders' Agreement as described in Part I, Item 1, "Business—Stockholder Agreements." These additional restrictions may be amended, waived or terminated by the parties to those lock-up agreements in accordance with the terms of those agreements without our consent and without notice or, with respect to the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement, the 25% limitation on sales of our common stock may, with respect to each 12 month period, be increased to a higher percentage or waived entirely by the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker). All shares of Class A common stock, including shares of Class A common stock issuable upon conversion of shares of Class B common stock, will be eligible for resale in compliance with Rule 144 or Rule 701 to the extent the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement, Amended and Restated Foreign Global Hyatt Agreement, Amended and Restated Agreement Relating to Stock or 2007 Stockholders' Agreement, as applicable, are waived or terminated with respect to such shares.

Assuming the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement, Amended and Restated Foreign Global Hyatt Agreement, Amended and Restated Agreement Relating to Stock and the 2007 Stockholders' Agreement are not amended, waived or terminated and assuming the parties to these agreements sell the maximum amount permitted to be sold during the first time period that such shares are eligible to be sold, and subject to any applicable restrictions contained in such agreements (such as requirements that any such sales be made by way of an underwritten public offering or in an otherwise broad distribution sale and rights of first refusal) and the provisions of Rule 144 and/or Rule 701 under the Securities Act, these restricted securities will be available for sale in the public market as follows:

<u>Number of Shares</u>	<u>Time Period</u>
7,204,303	At any time.
27,636,937	After 12 months and up to 24 months from November 4, 2009.
2,851,522	After December 23, 2010 and up to 24 months from November 4, 2009*.
6,331,270	After May 13, 2011**.
26,744,926	After 24 months and up to 36 months from November 4, 2009.
22,232,509	After 36 months and up to 42 months (3 ½ years) from November 4, 2009.
9,661,522	After 42 months (3 ½ years) and up to 48 months from November 4, 2009.
8,058,515	After 48 months and up to 54 months (4 ½ years) from November 4, 2009.
7,938,307	After 54 months (4 ½ years) and up to 60 months from November 4, 2009.
6,419,886	After 60 months and up to 66 months (5 ½ years) from November 4, 2009.
4,961,921	After 72 months from November 4, 2009.

* On December 23, 2010, the "applicable market value" (as defined in the Amended and Restated Agreement Relating to Stock) of our Class A common stock exceeded 165% of the gross price per share at which the Class A common stock was first traded in connection with our initial public offering. Under the terms of the Amended and Restated Agreement Relating to Stock, following such date, each stockholder party to the agreement may transfer up to one-third of its common stock held as of August 28, 2007 (or deemed to be held as of such date) to unaffiliated third parties; provided that such transfers are accomplished by way of an

underwritten public offering or in an otherwise broad distribution sale. Such stockholders' shares continue to remain, however, subject to the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement. See Part I, Item 1, "Business – Stockholder Agreements – Amended and Restated Global Hyatt Agreement," "—Amended and Restated Foreign Global Hyatt Agreement" and "—Amended and Restated Agreement Relating to Stock."

** Under the terms of the 2007 Stockholders' Agreement, subject to the rights of first refusal and "drag along" rights and other restrictions contained in such agreement, each stockholder party to the agreement may transfer up to one-third of its common stock acquired under the Subscription Agreement or upon conversion of Series A Convertible Preferred Stock to unaffiliated third parties at any time following both (a) December 23, 2010, the first date on which the "applicable market value" exceeded 165% of the gross price per share at which the Class A common stock was first traded in connection with our initial public offering and (b) May 13, 2011; provided that such transfers are accomplished by way of an underwritten public offering or in an otherwise broad distribution sale. See Part I, Item 1, "Business – Stockholder Agreements – 2007 Stockholders' Agreement."

In addition, as of December 31, 2010, 9,246,977 shares of our Class A common stock are reserved for issuance under the Amended and Restated Hyatt Hotels Corporation Long-Term Incentive Plan (the "LTIP"). These shares of Class A common stock will become eligible for sale in the public market once those shares are issued or awarded under our LTIP, subject to provisions of various award agreements and Rule 144, as applicable. In addition, 968,865 shares of our Class A common stock are reserved for issuance under the Hyatt Hotels Corporation Employee Stock Purchase Plan (the "ESPP"); 1,169,195 shares of our Class A common stock remain available for issuance pursuant to the Amended and Restated Hyatt Corporation Deferred Compensation Plan (the "DCP") and 300,000 shares of Class A common stock remain available for issuance pursuant to the Hyatt International Hotels Retirement Plan (commonly known as the Field Retirement Plan) (the "FRP").

If any of these holders causes a large number of securities to be sold in the public market, the sales could reduce the trading price of our Class A common stock. These sales also could impede our ability to raise future capital. See also "—If holders of shares of our Class B common stock convert their shares of Class B common stock into shares of Class A common stock and exercise their registration rights, a significant number of shares of our Class A common stock could be sold into the market, which could reduce the trading price of our Class A common stock and impede our ability to raise future capital."

We also may issue shares of our Class A common stock from time to time as consideration for future acquisitions and investments. If any such acquisition or investment is significant, the number of shares that we may issue may in turn be significant.

If holders of shares of our Class B common stock convert their shares of Class B common stock into shares of Class A common stock and exercise their registration rights, a significant number of shares of our Class A common stock could be sold into the market, which could reduce the trading price of our Class A common stock and impede our ability to raise future capital.

Holders of 129,466,000 shares of our Class B common stock (or 74.4% of our total outstanding shares of common stock), including Pritzker family business interests and entities affiliated with Goldman Sachs and Madrone GHC, have rights, subject to certain conditions, to require us to file registration statements registering sales of shares of Class A common stock acquired upon conversion of such Class B common stock or to include sales of such shares of Class A common stock in registration statements that we may file for ourselves or other stockholders. In order to exercise such registration rights, the holder must be permitted to sell shares of its common stock under applicable lock-up restrictions. See Part I, Item 1, "Business—Stockholder Agreements" for additional information with respect to these lock-up provisions. Subject to compliance with applicable lock-up agreements, shares of Class A common stock sold under these registration statements can be freely sold in the public market. In the event such registration rights are exercised and a large number of shares of Class A common stock issuable upon conversion of shares of Class B common stock are sold in the public market, such sales could reduce the trading price of our Class A common stock. These sales also could impede our ability to raise future capital. Additionally, we will bear all expenses in connection with any such registrations (other than underwriting discounts).

Certain Pritzker family stockholders have exercised their rights to require the Company to register an aggregate of 12,833,046 shares of Class A common stock issuable upon conversion of such stockholders' shares of Class B common stock on a shelf registration statement on Form S-3 pursuant to Rule 415 of the Securities Act. The 12,833,046 shares requested to be registered are eligible to be sold under the applicable lock-up provisions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement. Under the registration rights agreement and applicable lock-up restrictions, the other stockholders party to the agreements are entitled to "piggyback" registration rights and may elect to include up to an aggregate of 24,294,275 shares of their Class A common stock acquired upon conversion of shares of Class B common stock on such registration statement. To date, holders of 16,702,887 of these shares, including trustees of trusts for the benefit of Thomas J. Pritzker and Penny Pritzker and their respective lineal descendants, entities affiliated with Goldman, Sachs & Co. and entities affiliated with Madrone Capital, LLC, have elected not to exercise their piggyback registration rights. We cannot assure you whether stockholders holding the remaining 7,591,388 eligible shares will elect to exercise their piggyback registration rights and register all or a portion of their shares of Class A common stock eligible to be registered and sold under applicable lock-up agreements on such shelf registration statement. In accordance with the terms of the Registration Rights Agreement, dated as of October 12, 2009, the Company intends to file a shelf registration statement with the SEC as soon as practicable to register the 12,833,046 shares of Class A common stock plus any additional shares required to be registered pursuant to exercised piggyback registration rights. The filing of such shelf registration statement, the sale of shares registered under the registration statement in the public market, or the perception that such sales may occur could reduce the trading price of our Class A common stock or impede our ability to raise future capital.

Reports published by securities or industry analysts, including projections in those reports that exceed our actual results, could adversely affect our stock price and trading volume.

Securities research analysts have established and publish their own quarterly projections for our business. These projections may vary widely from one another and may not accurately predict the results we actually achieve. Our stock price may decline if our actual results do not match securities research analysts' projections. Similarly, if one or more of the analysts who writes reports on us downgrades our stock or publishes inaccurate or unfavorable research about our business, our stock price could decline. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, our stock price or trading volume could decline.

Anti-takeover provisions in our organizational documents and Delaware law, as well as agreements with our major stockholders, may discourage or prevent a change of control, even if a sale of Hyatt would be beneficial to our stockholders, which could cause our stock price to decline and prevent attempts by our stockholders to replace or remove our current board of directors or management.

Our amended and restated certificate of incorporation and bylaws, as well as agreements with our major stockholders, contain provisions that may make it difficult to remove our board of directors and management and may discourage or delay "change of control" transactions that certain stockholders may view as beneficial or could involve the payment of a premium over prevailing market prices for our Class A common stock. These provisions include, among others:

- Our amended and restated certificate of incorporation provides for a dual class ownership structure, in which our Class B common stock is entitled to ten votes per share and our Class A common stock is entitled to one vote per share. As a result of this structure, our major stockholders have significant influence or actual control over matters requiring stockholder approval.
- Voting agreements entered into with or among our major stockholders require these stockholders to vote their shares consistent with the recommendation of our board of directors, assuming in certain instances that a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, all of such minimum of three independent directors (excluding for such purposes any Pritzker) agree with the recommendation. While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval.

- Lock-up agreements entered into with stockholders party to our 2007 Stockholders' Agreement limit the ability of these stockholders to sell their shares to any person who would be required to file a Schedule 13D with the SEC disclosing an intent to acquire the shares other than for investment purposes and, in certain instances, to competitors of ours in the hospitality, lodging or gaming industries.
- Stockholders party to our 2007 Stockholders' Agreement have agreed, subject to certain limited exceptions, to "standstill" provisions that prevent the stockholders from acquiring additional shares of our common stock, making or participating in acquisition proposals for us or soliciting proxies in connection with meetings of our stockholders, unless the stockholders are invited to do so by our board of directors.
- Our board of directors is divided into three classes, with each class serving for a staggered three-year term, which prevents stockholders from electing an entirely new board of directors at an annual meeting.
- Our directors may be removed only for cause, which prevents stockholders from being able to remove directors without cause other than those directors who are being elected at an annual meeting.
- Our amended and restated certificate of incorporation does not provide for cumulative voting in the election of directors. As a result, holders of our Class B common stock will control the election of directors and the ability of holders of our Class A common stock to elect director candidates will be limited.
- Vacancies on our board of directors, and any newly created director positions created by the expansion of the board of directors, may be filled only by a majority of remaining directors then in office.
- Actions to be taken by our stockholders may only be effected at an annual or special meeting of our stockholders and not by written consent.
- Special meetings of our stockholders can be called only by the Chairman of the Board or by our corporate secretary at the direction of our board of directors.
- Advance notice procedures that stockholders must comply with in order to nominate candidates to our board of directors and propose matters to be brought before an annual meeting of our stockholders may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.
- Our board of directors may, without stockholder approval, issue series of preferred stock, or rights to acquire preferred stock, that could dilute the interest of, or impair the voting power of, holders of our common stock or could also be used as a method of discouraging, delaying or preventing a change of control.
- An affirmative vote of the holders of at least 80% of the voting power of our outstanding capital stock entitled to vote is required to amend any provision of our certificate of incorporation or bylaws.

We do not currently pay dividends on our Class A common stock and, consequently, your only opportunity to achieve a return on your investment is if the price of our Class A common stock appreciates.

We have never declared or paid cash dividends on our common stock. In addition, we must comply with the covenants in our revolving credit facility if we want to pay cash dividends. We currently intend to retain our future earnings, if any, to finance the further development and expansion of our business. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our financial condition, results of operations, capital requirements, restrictions contained in current or future financing instruments and such other factors as our board of directors deems relevant.

Non-U.S. holders who own more than 5% of our Class A common stock or substantial amounts of our Class B common stock may be subject to U.S. federal income tax on gain realized on the disposition of such stock.

Because we have significant U.S. real estate holdings, we may be a “United States real property holding corporation” (USRPHC) for U.S. federal income tax purposes, but we have made no determination to that effect. There can be no assurance that we do not currently constitute or will not become a USRPHC. As a result, a “non-U.S. holder” may be subject to U.S. federal income tax on gain realized on a disposition of our Class A common stock if such non-U.S. holder has owned, actually or constructively, more than 5% of our Class A common stock at any time during the shorter of (a) the five-year period ending on the date of disposition and (b) the non-U.S. holder’s holding period in such stock.

If we were or were to become a USRPHC, a non-U.S. holder may be subject to U.S. federal income tax on gain realized on the disposition of our Class B common stock if on the date such non-U.S. holder actually or constructively acquired Class B common stock, and on any date on which such non-U.S. holder makes subsequent acquisitions of Class B common stock, the aggregate fair market of its Class B common stock is greater than 5% of the fair market value of our Class A common stock on such date. Certain dispositions of substantial amounts of Class B common stock by non-U.S. holders may also be subject to withholding under section 1445(a) of the Code.

Item 1B. *Unresolved Staff Comments.*

None.

Item 2. Properties.

Corporate Headquarters and Divisional Offices

Our corporate headquarters are located at 71 South Wacker Drive, 12th Floor, Chicago, Illinois. These offices consist of approximately 196,131 square feet (net of subleased space). The lease for this property initially expires on February 29, 2020, with an option to renew and increase the rentable square feet. We also lease 74,067 square feet of office space at 200 West Monroe Street, Chicago, Illinois. The lease for this property initially expires on March 31, 2016 with an option to renew and increase the rentable square feet.

In addition to our corporate headquarters, we lease space for our divisional offices, service centers and sales offices in multiple locations, including Beijing and Hong Kong, People's Republic of China; Dubai, United Arab Emirates; Gurgaon (NCR) and Mumbai, India; London, United Kingdom; Mainz, Germany; Marion, Illinois; Melbourne, Australia; Mexico City, Mexico; Moore, Oklahoma; Omaha, Nebraska; St. Petersburg, Florida; Tokyo, Japan; and Zurich, Switzerland.

We believe that our existing office properties are in good condition and are sufficient and suitable for the conduct of our business. In the event we need to expand our operations, we believe that suitable space will be available on commercially reasonable terms.

Item 3. *Legal Proceedings.*

We are involved in various claims and lawsuits arising in the normal course of business, including proceedings involving tort and other general liability claims, workers' compensation and other employee claims, intellectual property claims and claims related to our management of certain hotel properties. Most occurrences involving liability, claims of negligence and employees are covered by insurance with solvent insurance carriers. For those matters not covered by insurance, which includes commercial matters, we recognize a liability when we believe the loss is probable and reasonably estimable. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position, results of operations or liquidity.

Item 4. *(Removed and Reserved).*

Executive Officers of the Registrant.

The following chart names each of the Company's executive officers and their ages and positions as of February 16, 2011. Also included below is biographical information relating to each of the Company's executive officers. Each of the executive officers is elected by and serves at the pleasure of the board of directors.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Thomas J. Pritzker	60	Executive Chairman of the Board
Mark S. Hoplamazian	47	President, Chief Executive Officer and Director
Harmit J. Singh	47	Executive Vice President, Chief Financial Officer
Stephen G. Haggerty	43	Executive Vice President, Global Head of Real Estate and Development
Rakesh Sarna	53	Executive Vice President, Chief Operating Officer—International
H. Charles Floyd	51	Executive Vice President, Chief Operating Officer—North America
Rena Hozore Reiss	51	Executive Vice President, General Counsel and Secretary
Robert W. K. Webb	54	Senior Vice President, Chief Human Resources Officer
John Wallis	58	Senior Vice President, Global Head of Marketing and Brand Strategy

Thomas J. Pritzker has been a member of our board of directors since August 2004 and our Executive Chairman since August 2004. Mr. Pritzker served as our Chief Executive Officer from August 2004 to December 2006. Mr. Pritzker was appointed President of Hyatt Corporation in 1980 and served as Chairman and Chief Executive Officer of Hyatt Corporation from 1999 to December 2006. Mr. Pritzker is Chairman and Chief Executive Officer of The Pritzker Organization, LLC, the principal financial and investment advisor to various Pritzker family business interests. Mr. Pritzker is Chairman of Marmon Holdings, Inc. and also serves as a Director of Royal Caribbean Cruises Ltd. Mr. Pritzker is a Director and Vice President of The Pritzker Foundation, a charitable foundation; Director and President of the Pritzker Family Philanthropic Fund, a charitable organization; and Chairman and President of The Hyatt Foundation, a charitable foundation which established The Pritzker Architecture Prize. Mr. Pritzker is a first cousin of Ms. Penny Pritzker, who is also a member of our board of directors.

Mark S. Hoplamazian has been a member of our board of directors since November 2006. He has served as our President and Chief Executive Officer since December 2006, as interim President from July 2006 to December 2006 and Vice President from August 2004 to December 2004. From August 2009 to December 2010, Mr. Hoplamazian was a Vice President of The Pritzker Organization, LLC (TPO), the principal financial and investment advisor to various Pritzker family business interests. From April 2004 to August 2009, Mr. Hoplamazian served as President and Director of TPO and has served in various capacities with TPO and its predecessors since its formation in 1997, including managing its merchant banking and investment activities. Mr. Hoplamazian currently serves on the Board of Trustees of The Latin School of Chicago. He is a member of the Discovery Class of the Henry Crown Fellowship at the Aspen Institute.

Harmit J. Singh has served as our Chief Financial Officer since August 2008. Mr. Singh leads our finance, accounting, treasury, strategic financial planning and analysis, tax, risk, investor relations and information technology functions worldwide. Mr. Singh has over 26 years of financial experience in the travel, financial services, restaurant and hospitality industries. He joined Hyatt after spending 14 years at Yum! Brands, Inc., a restaurant company. Mr. Singh most recently served as Senior Vice President and Chief Financial Officer for Yum!, International from December 2005 to July 2008. Prior to this position, Mr. Singh served in several senior financial roles, including Senior Vice President and Chief Financial Officer for Pizza Hut—United States, Vice President Finance—Yum!, International, Chief Financial Officer—India and Chief Financial Officer—Asia. Prior to joining Yum! in 1994, Mr. Singh worked in various financial capacities for American Express India, a worldwide travel, financial and network services company. Mr. Singh serves on the board of directors and is also the Audit Committee Chair of Avendra, LLC.

Stephen G. Haggerty has served as our Global Head of Real Estate and Development since August 2007 and our Executive Vice President—Real Estate and Development from June 2007 to August 2007. Mr. Haggerty has responsibility for our global development team, our global feasibility and development finance team, our corporate transactions group, and our global asset management team that oversees all of our owned hotel properties and development of hotels and vacation ownership properties in which we have ownership. Prior to joining us, Mr. Haggerty spent 13 years serving in several positions of increasing responsibility with Marriott International, Inc., a lodging company, most recently in London as Senior Vice President, International Project Finance and Asset Management for Europe, Africa and the Middle East from 2005 to 2007. Prior to this position, from 2003 to 2005, Mr. Haggerty served as Marriott's Senior Vice President of Global Asset Management and Development Finance and previously lived in Asia for nine years holding a variety of roles relating to development at Marriott.

Rakesh Sarna has served as our Chief Operating Officer—International since August 2007. Mr. Sarna has been with us since 1979. Mr. Sarna is responsible for management of our full service hotels and resorts outside of the United States, Canada and the Caribbean. He also oversees the operations of our Divisional offices in Zurich, Switzerland, Hong Kong, Dubai, UAE and Mexico City and oversees various corporate functions in Chicago, IL. Since June 2007, Mr. Sarna has served as the Chief Operating Officer for Hyatt International Corporation. From September 2006 to June 2007, he served as Senior Vice President for Hyatt International Corporation. Prior to that, from April 2001 to September 2006, Mr. Sarna served as our Vice President of Operations for Europe, Africa and the Middle East, and from September 1999 to April 2001 as Director of Operations for Europe, Africa and the Middle East. Prior to that, from January 1997 to September 1999, he served as regional director for South Asia. Mr. Sarna joined Hyatt in 1979 and has held a variety of senior management food and beverage positions and served as General Manager for Hyatt Regency Belgrade, Park Hyatt UN Plaza, New York and Hyatt Regency Macau.

H. Charles Floyd has served as our Chief Operating Officer—North America since January 2006. Mr. Floyd has been with us since 1981. Mr. Floyd is responsible for management of our full service hotels and resorts as well as Hyatt Place and Summerfield Suites brands in the United States, Canada and the Caribbean. In addition, he oversees Hyatt Residential Group, Inc. (formerly known as Hyatt Vacation Ownership, Inc. (HVOI)) and the Franchise Owner Relations Group, which supports both full service and select service and extended stay franchisees. He also oversees various corporate functions for North America, including sales, human resources, product and design, rooms, food and beverage and engineering. Prior to assuming his current position, Mr. Floyd served in a number of senior positions at Hyatt, including Executive Vice President—North America Operations and Senior Vice President of Sales, as well as various managing director and general manager roles at Hyatt.

Rena Hozore Reiss has served as our Executive Vice President, General Counsel and Secretary since August 2010. Ms. Reiss joined Hyatt after spending 10 years at Marriott International, Inc. where she most recently served as Senior Vice President and Associate General Counsel, overseeing a legal team responsible for supporting the company's development activities in the Americas. From 2000 to 2007, Ms. Reiss held a series of increasingly responsible positions at Marriott, including serving as Senior Counsel and Vice President and Assistant General Counsel. Prior to entering the hospitality industry, Ms. Reiss practiced law at Thomson Muraro Razook & Hart in Miami, Florida, served as an Associate General Counsel for the Miami Herald Publishing Company, and was a Partner with Counts & Kanne, Chartered in Washington, DC.

Robert W. K. Webb has served as our Chief Human Resources Officer since August 2007. Prior to joining Hyatt, Mr. Webb served as Head of Global Service Delivery for Citi Employee Services at Citigroup Inc., a global financial services company. During his 19-year tenure at Citigroup and two predecessor companies, Mr. Webb served as Chief Administrative Officer for a global business unit and held several senior human resources roles in North America and international operations. Mr. Webb serves as a Director of Chicago Children's Museum and is a member of the Advisory Board of the School of Hospitality at Boston University and the Hospitality Program at DePaul University.

John Wallis has served as our Global Head of Marketing and Brand Strategy since November 2008. Mr. Wallis' career with Hyatt began in 1981. Prior to his current role, Mr. Wallis served as Senior Vice President, Product and Brand Development since August 2007. From 2004 through 2007, Mr. Wallis served as our Senior Vice President, Global Asset Management, where he was responsible for the management of more than 40 Hyatt-owned properties across North America, Latin America, Europe and Asia. He has also served in a variety of other management positions, including Senior Vice President—Global Asset Management, Senior Vice President—Product and Brand Development, Senior Vice President of Marketing and Sales, and Vice President of Marketing for Hyatt International Corporation, General Manager and Regional Vice President-Gulf States for Hyatt Regency Dubai, Executive Assistant Manager Food and Beverage for Hyatt Regency Kuwait, Hyatt Regency Fiji and Hyatt Kingsgate Sydney and various other food and beverage management positions.

Pursuant to our employment letter with Mr. Thomas J. Pritzker, we have agreed that so long as he is a member of our board of directors we will use our commercially reasonable efforts to appoint him as our executive chairman as long as he is willing and able to serve in that office. If he is not re-appointed as executive chairman, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Pursuant to our employment letter with Mr. Mark S. Hoplamazian, we have agreed that so long as he is the president and chief executive officer of Hyatt, we will use our commercially reasonable efforts to nominate him for re-election as a director prior to the end of his term. If he is not re-elected to the board of directors, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Part II

Item 5. *Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.*

Market Information

Our Class A common stock began trading publicly on the New York Stock Exchange under the symbol "H" on November 5, 2009. Prior to that time, there was no public market for our Class A common stock. As of January 31, 2011, our Class A common stock was held by approximately 26 stockholders of record and there were 44,502,196 shares of Class A common stock outstanding. This stockholder figure does not include a substantially greater number of "street name" holders or beneficial holders of our Class A common stock whose shares are held of record by banks, brokers and other financial institutions. The following table sets forth, for the period indicated, the high and low sale prices of our Class A common stock as reported by the New York Stock Exchange since our initial public offering.

<u>Fiscal Year end December 31, 2009</u>	<u>High</u>	<u>Low</u>
Fourth Quarter (beginning November 5, 2009)	\$30.70	\$27.75
 <u>Fiscal Year end December 31, 2010</u>		
First Quarter	\$40.00	\$28.16
Second Quarter	\$43.88	\$36.00
Third Quarter	\$40.55	\$34.19
Fourth Quarter	\$46.25	\$36.84

On February 15, 2011, the closing stock price of our Class A common stock was \$49.20.

There is no established public trading market for our Class B common stock. As of January 31, 2011, our Class B common stock was held by 478 shareholders and there were 129,466,000 shares of Class B common stock outstanding.

Dividends

We have never declared or paid cash dividends on our common stock. In addition, we must comply with the covenants in our revolving credit facility if we want to pay cash dividends. We currently intend to retain our future earnings, if any, to finance the further development and expansion of our business. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our financial condition, capital requirements, restrictions contained in current or future financing instruments and such other factors as our board of directors deems relevant.

Performance Graph

The following performance graph and related information shall not be deemed "soliciting material" or to be "filed" with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act or Exchange Act, except to the extent that we specifically incorporate it by reference into such filing.

The following graph compares the cumulative total stockholder return since November 5, 2009, the date our Class A common stock began trading on the New York Stock Exchange, with the S&P 500 Index ("S&P 500") and the Russell 1000 Hotel/Motel Index (the "Russell 1000 Hotel"). The graph assumes that the value of the investment in our Class A common stock and each index was \$100 on November 5, 2009 and that all dividends and other distributions were reinvested.

	<u>11/5/2009</u>	<u>12/31/2009</u>	<u>12/31/2010</u>
Hyatt Hotels Corporation	100.0	106.5	159.2
S&P 500	100.0	104.9	117.3
Russell 1000 Hotel	100.0	109.3	171.2

Recent Sales of Unregistered Securities

None.

Use of Proceeds from Registered Securities

On November 4, 2009, a registration statement on Form S-1 (File No. 333-161068) relating to our initial public offering of our Class A common stock was declared effective by the SEC. An aggregate of 43,700,000 shares of our Class A common stock (including 5,700,000 shares of Class A common stock subject to the underwriters' option to purchase additional shares) were registered under the registration statement, of which selling stockholders identified in the registration statement sold 38,000,000 shares and we sold 5,700,000 in connection with the underwriters' exercise of their option to purchase additional shares, at an initial public offering price of \$25.00 per share. The aggregate offering price for the shares registered and sold by the selling stockholders was \$950 million and the aggregate offering price for the shares registered and sold by us was \$142 million. The initial public offering closed on November 10, 2009 and, as a result, we received net proceeds of

approximately \$127 million, after deducting the underwriting discount of approximately \$7 million and total offering expenses of approximately \$8 million, and the selling stockholders received net proceeds of approximately \$901 million, after deducting the underwriting discount of approximately \$49 million. The Company did not receive any proceeds from the sale of shares by the selling stockholders. The offering did not terminate until after the sale of all of the shares of Class A common stock registered on the registration statement. The sole bookrunning manager and lead managing representative of the offering was Goldman, Sachs & Co, with Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. acting as joint lead managers.

No offering expenses were paid directly or indirectly to any of our directors or officers (or their associates) or persons owning ten percent or more of any class of our equity securities or to any other affiliates.

During the fourth quarter of 2010 we used approximately \$32 million of the proceeds to pay off a 10.07% fixed rate mortgage loan with a maturity of September 30, 2011. We intend to use the remaining portion of the net proceeds for the acquisition of, or investment in, new properties or businesses that complement our business. Pending the full application of the net proceeds as described above, we have invested unused proceeds in short-term, investment grade, interest-bearing securities. There has been no material change in the planned use of proceeds from our initial public offering from that described in the final prospectus dated November 4, 2009 filed by us with the SEC pursuant to Rule 424(b).

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.

Item 6. Selected Financial Data.

We derived the selected consolidated statements of income (loss) data for the years ended December 31, 2010, 2009 and 2008 and the selected consolidated balance sheet data as of December 31, 2010 and 2009 from our audited consolidated financial statements included in this annual report. We derived the selected consolidated statements of income (loss) data for the years ended December 31, 2007 and 2006 and the selected consolidated balance sheet data as of December 31, 2008, 2007 and 2006 from our audited consolidated financial statements which are not included in this annual report. Our historical results are not necessarily indicative of the results expected for any future period.

You should read the selected historical financial data together with the consolidated financial statements and related notes appearing in this annual report, as well as Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the other financial information included elsewhere in this annual report.

- (1) Represents revenues that we receive from third-party property owners who reimburse us for costs that we incur on their behalf, with no added margin. These costs relate primarily to payroll at managed properties where we are the employer. As a result, these revenues have no effect on our profit, although they do increase our total revenues and the corresponding costs increase our total expenses. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Principal Factors Affecting Our Results of Operations—Revenues."
- (2) All per share amounts reflect a one-for-two reverse split of our common stock effected on October 14, 2009.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with Part II, Item 6, "Selected Financial Data" and our consolidated financial statements included in this annual report. In addition to historical data, this discussion contains forward-looking statements about our business, operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Our actual results may differ materially from those discussed in the forward-looking statements as a result of various factors, including but not limited to those discussed in "Disclosure Regarding Forward-Looking Statements" and Item I, Part 1A, "Risk Factors" included elsewhere in this annual report.

Overview

We are a global hospitality company engaged in the management, franchising, ownership and development of Hyatt-branded hotels, resorts and residential and vacation ownership properties around the world. As of December 31, 2010, our worldwide portfolio consisted of 453 Hyatt-branded properties (127,507 rooms and units), including:

- 177 managed properties (68,239 rooms), all of which we operate under management agreements with third-party property owners;
- 132 franchised properties (20,249 rooms), all of which are owned by third parties that have franchise agreements with us and are operated by third parties;
- 90 owned properties (including 3 consolidated hospitality ventures) (23,637 rooms) and 6 leased properties (2,851 rooms), all of which we manage;
- 24 managed properties owned or leased by unconsolidated hospitality ventures (10,330 rooms);
- 15 vacation ownership properties (962 units), all of which we manage; and
- 9 residential properties (1,239 units), all of which we manage and some of which we own.

Our full service hotels and resorts operate under five world-recognized brands, Park Hyatt, Andaz (our newest full service brand) Grand Hyatt, Hyatt Regency and Hyatt. In addition, we own, operate and franchise hotels under two select service brands, Hyatt Place and Hyatt Summerfield Suites. Our select service hotels provide guests with many of the amenities available at full service hotels but on a smaller scale. Compared to our full service hotels, our select service hotels have limited food and beverage outlets and do not offer comprehensive business or banquet facilities but rather are suited to serve smaller business meetings. We develop, sell or manage vacation ownership properties in select locations as part of the Hyatt Vacation Club, which is in the process of changing its name to Hyatt Residence Club. We also manage, provide services to or license our trademarks with respect to residential ownership units that are often adjacent to a Hyatt-branded full service hotel. We consult with third parties in the design and development of such mixed-use projects based on our expertise as a manager and owner of vacation ownership properties, residential properties and hotels.

We have adopted a business model that entails both ownership of properties and management and franchising of third-party owned properties in order to pursue more diversified revenue and income streams that balance both the advantages and risks associated with these lines of business. Our expertise and experience in each of these areas gives us the flexibility to evaluate growth opportunities across these lines of business. Growth in the number of management and franchise agreements and earnings there from typically results in higher overall returns on invested capital because the capital investment under a typical management or franchise agreement is not significant. The capital required to build and maintain hotels that we manage for third-party owners, or franchise, is typically provided by the owner of the respective property with minimal capital required by us as the manager or franchisor. During periods of increasing demand we do not share fully in the incremental profits of hotel operations for hotels that we manage for third-party owners as our fee arrangements generally include a base amount calculated using the revenue from the subject hotel and an incentive fee that is, typically, a percentage of hotel profits that is usually less than 20%, with the actual level depending on the structure and terms of the management agreement. We do not share in the benefits of increases in profits from franchised properties because franchisees pay us an initial application fee and ongoing royalty fees that are calculated as a percentage of gross room revenues with no fees based on profits. Disputes or disruptions may arise with third-party owners of hotels we manage or franchise and these disputes can result in termination of the relevant agreement. With respect to property ownership, we believe that ownership of selected hotels in key markets enhances our ability to control our brand presence in these markets. Ownership of hotels allows us to capture the full benefit of increases in operating profits during periods of increasing demand and room rates. The cost structure of a typical hotel is more fixed than variable, so as demand and room rates increase over time, the pace of increase in operating profits typically is higher than the pace of increase of revenues. Hotel ownership is, however, more capital intensive than managing hotels for third-party owners, as we are responsible for the costs and all capital expenditures for our owned hotels. The profits realized in our owned and leased hotel segment are generally more significantly affected by economic downturns and declines in revenues than the results of our management and franchising segments. This is because we absorb the full impact of declining profits in our owned and leased hotels whereas our management and franchise fees do not have the same level of downside exposure to declining hotel profitability. See also “—Principal Factors Affecting Our Results of Operations— Factors Affecting Our Costs and Expenses—Fixed nature of expenses” and Part I, Item 1A, “Risk Factors— Risks Related to Our Business—We are exposed to the risks resulting from significant investments in owned and leased real estate, which could increase our costs, reduce our profits, limit our ability to respond to market conditions or restrict our growth strategy.”

For the years ended December 31, 2010, 2009 and 2008, 79.4%, 80.4%, and 79.9% of our revenues were derived from operations in the United States, respectively. As of December 31, 2010 and 2009, 74.3% and 76.6% of our long-lived assets were located in the United States, respectively.

We report our consolidated operations in U.S. dollars and manage our business within three reportable segments as described below:

- Owned and leased hotels, which consists of our owned and leased full service and select service hotels and, for purposes of segment Adjusted EBITDA, our pro rata share of the Adjusted EBITDA of our unconsolidated hospitality ventures, based on our ownership percentage of each venture.
- North American management and franchising, which consists of our management and franchising of properties located in the United States, Canada and the Caribbean.
- International management and franchising, which consists of our management and franchising of properties located outside of the United States, Canada and the Caribbean.

In addition to our three reportable segments, Corporate and other includes the results of our vacation ownership business and unallocated corporate expenses.

Key Business Metrics Evaluated by Management

Revenues

We primarily derive our revenues from hotel operations, management and franchise fees, other revenues from managed properties and vacation ownership properties. Management uses revenues to assess the overall performance of our business and analyze trends such as consumer demand, brand preference and competition. For a detailed discussion of the factors that affect our revenues, see “—Principal Factors Affecting Our Results of Operations.”

Net Income Attributable to Hyatt Hotels Corporation

Net income attributable to Hyatt Hotels Corporation represents the total earnings or profits generated by our business. Management uses net income to analyze the performance of our business on a consolidated basis.

Adjusted EBITDA

We use the term Adjusted EBITDA throughout this annual report. Adjusted EBITDA, as we define it, is a non-GAAP measure. We define consolidated Adjusted EBITDA as net income (loss) attributable to Hyatt Hotels Corporation plus our pro-rata share of unconsolidated hospitality ventures Adjusted EBITDA based on our ownership percentage of each venture, adjusted to exclude the following items:

- equity earnings (losses) from unconsolidated hospitality ventures;
- gains on sales of real estate;
- asset impairments;
- a 2008 charge resulting from the termination of our supplemental executive defined benefit plans;
- other income (loss), net;
- discontinued operations and changes in accounting principles, net of tax;
- net loss (income) attributable to noncontrolling interests;
- depreciation and amortization;
- interest expense; and
- (provision) benefit for income taxes.

We calculate consolidated Adjusted EBITDA by adding the Adjusted EBITDA of each of our reportable segments to corporate and other Adjusted EBITDA. See “—Results of Operations.”

Our board of directors and executive management team focus on Adjusted EBITDA as a key performance and compensation measure both on a segment and on a consolidated basis. Adjusted EBITDA assists us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operating performance both on a segment and on a consolidated basis. Our President and Chief Executive Officer, who is our chief operating decision maker, also evaluates the performance of each of our reportable segments and determines how to allocate resources to those segments, in significant part, by assessing the Adjusted EBITDA of each segment. In addition, the compensation committee of our board of directors determines the annual variable compensation for certain members of our management based in part on consolidated Adjusted EBITDA, segment Adjusted EBITDA or some combination of both.

We believe Adjusted EBITDA is useful to investors because it provides investors the same information that we use internally for purposes of assessing our operating performance and making compensation decisions.

Adjusted EBITDA is not a substitute for net income (loss) attributable to Hyatt Hotels Corporation, income (loss) from continuing operations, cash flows from operating activities or any other measure prescribed by GAAP. There are limitations to using non-GAAP measures such as Adjusted EBITDA. Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent because it removes items that do not reflect our core operations, other companies in our industry may define Adjusted EBITDA differently than we do. As a result, it may be difficult to use Adjusted EBITDA or similarly named non-GAAP measures that other companies may use to compare the performance of those companies to our performance. Because of these limitations, Adjusted EBITDA should not be considered as a measure of the income generated by our business or discretionary cash available to us to invest in the growth of our business. Our management compensates for these limitations by reference to our GAAP results and using Adjusted EBITDA supplementally. See our consolidated statements of income (loss) and consolidated statements of cash flows in our consolidated financial statements included in this annual report.

For a reconciliation of consolidated Adjusted EBITDA to EBITDA and a reconciliation of EBITDA to its most directly comparable GAAP measure, net income (loss) attributable to Hyatt Hotels Corporation, see “—Results of Operations.”

Revenue per Available Room (RevPAR)

RevPAR is the product of the average daily rate and the average daily occupancy percentage. RevPAR does not include non-room revenues, which consist of ancillary revenues generated by a hotel property, such as food and beverage, parking, telephone and other guest service revenues. Our management uses RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a regional and segment basis. RevPAR is a commonly used performance measure in the industry.

RevPAR changes that are driven predominately by changes in occupancy have different implications for overall revenue levels and incremental profitability than do changes that are driven predominately by changes in average room rates. For example, increases in occupancy at a hotel would lead to increases in room revenues and additional variable operating costs (including housekeeping services, utilities and room amenity costs), and could also result in increased ancillary revenues (including food and beverage). In contrast, changes in average room rates typically have a greater impact on margins and profitability as there is no substantial effect on variable costs.

Average Daily Rate (ADR)

ADR represents hotel room revenues, divided by total number of rooms sold in a given period. ADR measures average room price attained by a hotel and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used

performance measure in the industry, and we use ADR to assess the pricing levels that we are able to generate by customer group, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described above.

Occupancy

Occupancy represents the total number of rooms sold divided by the total number of rooms available at a hotel or group of hotels. Occupancy measures the utilization of our hotels' available capacity. Management uses occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help us determine achievable ADR levels as demand for hotel rooms increases or decreases.

Comparable Hotels

"Comparable systemwide hotels" represents all properties we manage or franchise (including owned and leased properties) and that are operated for the entirety of the periods being compared and that have not sustained substantial damage, business interruption or undergone large scale renovations during the periods being compared or for which comparable results are not available. We may use variations of comparable systemwide hotels to specifically refer to comparable systemwide North American full service or select service hotels or comparable systemwide international full service hotels for those properties that we manage or franchise within the North American and international management and franchising segments, respectively. "Comparable operated hotels" is defined the same as "Comparable systemwide hotels" with the exception that it is limited to only those hotels we manage or operate and excludes hotels we franchise. "Comparable owned and leased hotels" represents all properties we own or lease and that are operated and consolidated for the entirety of the periods being compared and have not sustained substantial damage, business interruption or undergone large scale renovations during the periods being compared or for which comparable results are not available. Comparable systemwide hotels and comparable owned and leased hotels are commonly used as a basis of measurement in the industry. "Non-comparable systemwide hotels" or "Non-comparable owned and leased hotels" represent all hotels that do not meet the respective definition of "comparable" as defined above.

Principal Factors Affecting Our Results of Operations

Revenues

Principal Components

We primarily derive our revenues from the following sources:

Revenues from hotel operations. Represents revenues derived from hotel operations, including room rentals and food and beverage sales and other ancillary revenues at our owned and leased properties. Revenues from the majority of our hotel operations depend heavily on demand from group and transient travelers, as discussed below. Revenues from our owned and leased hotels segment are primarily derived from hotel operations.

Revenues from room rentals and ancillary revenues are primarily derived from three categories of customers: transient, group and contract. Transient guests are individual travelers who are traveling for business or leisure. Our group guests are traveling for group events that reserve a minimum of 10 rooms for meetings or social functions sponsored by associations, corporate, social, military, educational, religious or other organizations. Group business usually includes a block of room accommodations as well as other ancillary services, such as catering and banquet services. Our contract guests are traveling under a contract negotiated for a block of rooms for more than 30 days in duration at agreed-upon rates. Airline crews are typical generators of contract demand for our hotels.

Management and franchise fees. Represents revenues derived from fees earned from hotels and residential properties managed worldwide (usually under long-term management agreements), franchise fees received in connection with the franchising of our brands (usually under long-term franchise agreements), termination fees and the amortization of deferred gains related to sold properties for which we have significant continuing involvement.

- Our management agreements typically provide for a two-tiered fee structure that compensates us both for the volume of business we generate for the property as well as for the profitability of hotel operations. In these two-tier fee structures, our base compensation is a base fee that is usually an agreed upon percentage of gross revenues from hotel operations. In addition, we are paid an incentive fee that is typically calculated as a percentage of a hotel profitability measure, as defined in the applicable agreement. Outside of the United States, our fees are often more dependent on hotel profitability measures, either through a single management fee structure where the entire fee is based on a profitability measure, or because our two-tier fee structure is more heavily weighted toward the incentive fee than the base fee.
- Franchise fees generally consist of an initial application fee and continuing royalty fees calculated as a percentage of gross room revenues. Royalty fees for our full service brands also include a percentage of gross food and beverage revenues and gross spa revenues, where applicable.

Other revenues from managed properties. Represents revenues related primarily to payroll costs at managed properties where we are the employer and are fully reimbursed by the third-party property owner based on the costs incurred, with no added margin. As a result, these revenues have no effect on our profit, although they do increase our total revenues and the corresponding costs increase our total expenses. We record these revenues in “Other revenues from managed properties” and the corresponding costs in “Other costs from managed properties” in our consolidated statements of income (loss).

Intersegment eliminations. We evaluate our reportable segments with intersegment revenues and expenses included in their results. These intersegment revenues and expenses represent management fees earned by our North American and international management and franchising segments for managing our owned and leased hotels. As presented throughout this annual report, the individual segment results for the management and franchising businesses include the intersegment fee revenues and our owned and leased hotels include the intersegment fee expenses. Both the intersegment fee revenues and expenses are eliminated in consolidation.

Factors Affecting Our Revenues

The following factors affect the revenues we derive from our operations. For other factors affecting our revenues, see Part I, Item 1A, “Risk Factors—Risks Related to Our Business.”

Consumer demand and global economic conditions. Consumer demand for our products and services is closely linked to the performance of the general economy and is sensitive to business and personal discretionary spending levels. Declines in consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence and adverse political conditions can lower the revenues and profitability of our owned hotel operations and the amount of management and franchising fee revenues we are able to generate from our managed and franchised properties. Also, declines in hotel profitability during an economic downturn directly impact the incentive portion of our management fees, since it is based on hotel profit measures. Our vacation ownership business is also linked to cycles in the general economy and consumer discretionary spending. As a result, changes in consumer demand and general business cycles can subject and have subjected our revenues to significant volatility. See Part I, Item 1A, “Risk Factors—Risks Related to the Hospitality Industry.”

During the second half of 2008 and all of 2009, the global economic recession and its negative effect on demand by transient business and leisure travelers and associations and other group customers depressed demand

throughout the hospitality industry. These conditions resulted in a decline in RevPAR for the fourth quarter of 2008 and some of the most significant RevPAR declines we have experienced in recent history throughout 2009. This reduced demand resulted in decreases in occupancy levels and ADR.

In 2010, we started experiencing signs of recovery. Each of our three operating segments experienced increased RevPAR levels and contributed to improved performance in our consolidated revenues and Adjusted EBITDA. In North America, the recovery of group business helped drive our revenue growth in 2010 as compared to 2009. Our international management and franchising business experienced significant RevPAR improvement in all regions, with Asia Pacific showing the most significant growth. Additionally, in the second half of 2010, our North America properties experienced overall improvement in ADR. In 2011, we expect group business and ADR to continue the recovery that began in 2010. While our results reflect signs of improvement, they are based on RevPAR that is still well below our pre-recession levels.

Competition. The global lodging industry is highly competitive. During periods of decreased demand for hospitality products and services, as experienced in the recent economic recession, competition in the industry becomes increasingly fierce. While we generally try to maintain rates under such circumstances whenever possible, the overall reduction in business travel during the recent recession placed significant pressure on occupancy levels at our properties as well as those of our competitors. Accordingly, in 2009 and to a lesser extent in 2010 we increased the number of promotional offers and expanded individual hotels' use of internet distribution channels, which offer different customer price points, in an effort to expose more customers to our products and services and to attract guests. Internet distribution channels are online sites that sell hospitality related products and services of multiple brands. While occupancy levels have increased to pre-recession levels, room rates are still less than pre-recession highs. We believe that our brand strength and ability to manage our operations in an efficient manner will help us to compete successfully within the global hospitality industry.

Agreements with third-party owners and franchisees and relationships with developers. We depend on our long-term management and franchise agreements with third-party owners and franchisees for a significant portion of our management and franchising fee revenues. The success and sustainability of our management and franchising business depends on our ability to perform under our management and franchising agreements and maintain good relationships with third-party owners and franchisees. Our relationships with these third-parties also generate new relationships with developers and opportunities for property development that can support our growth. We believe that we have good relationships with our third-party owners, franchisees and developers and are committed to the continued growth and development of these relationships. These relationships exist with a diverse group of owners, franchisees and developers and are not heavily concentrated with any particular third-party.

Access to capital. The hospitality industry is a capital intensive business that requires significant amounts of capital expenditures to develop, maintain and renovate properties. Third-party owners are required to fund these capital expenditures for the properties they own in accordance with the terms of the applicable management or franchise agreement. Access to the capital that we or our third-party owners, franchisees or development partners need to finance the construction of new properties or to maintain and renovate existing properties is critical to the continued growth of our business and our revenues. The availability of capital or the conditions under which we or our third-party owners, franchisees or development partners can obtain capital can have a significant impact on the overall level and pace of future development and therefore the ability to grow our revenues. We believe that a continued normalization of credit markets as well as improvements in the global economy and overall business environment will be necessary before we see a material increase in development activity with third-parties.

Expenses

Principal Components

We primarily incur the following expenses:

Owned and leased hotel expenses. Owned and leased hotel expenses comprise the largest portion of our total direct and selling, general and administrative expenses and reflect the expenses of our consolidated owned and leased hotels. Expenses to operate our hotels include room expense, food and beverage costs, other support costs and property expenses. Room expense includes compensation costs for housekeeping, laundry and front desk staff and supply costs for guest room amenities and laundry. Food and beverage costs include costs for wait and kitchen staff and food and beverage products. Other support expenses consist of costs associated with property-level management (including deferred compensation plans for certain employees that are funded through contributions to rabbi trusts), utilities, sales and marketing, operating hotel spas, telephones, parking and other guest recreation, entertainment and services. Property expenses include property taxes, repairs and maintenance, rent and insurance.

Depreciation and amortization expense. These are non-cash expenses that primarily consist of depreciation of fixed assets such as buildings, furniture, fixtures and equipment at our consolidated owned and leased hotels. Amortization expense primarily consists of amortization of management agreement acquisition costs and franchise and brand intangibles, which are amortized over their estimated useful lives.

Selling, general and administrative expenses. Selling, general and administrative expenses consist primarily of compensation expense, including deferred compensation plans for certain employees that are funded through contributions to rabbi trusts, for our corporate staff and personnel supporting our business segments (including divisional offices that support our management and franchising segments), professional fees (including consulting, audit and legal fees), travel and entertainment expenses, bad debt expenses, contractual performance obligations and office administrative and related expenses.

Other costs from managed properties. Represents costs related primarily to payroll expenses at managed properties where we are the employer. These costs are reimbursed to us with no added margin. As a result, these costs have no effect on our profit, although they do increase our total expenses and the corresponding reimbursements increase our total revenues. We record these costs in "Other costs from managed properties" and the corresponding revenues in "Other revenues from managed properties" in our consolidated statements of income (loss).

Factors Affecting Our Costs and Expenses

The following are several principal factors that affect the costs and expenses we incur in the course of our operations. For other factors affecting our costs and expenses, see Part I, Item 1A, "Risk Factors—Risks Related to Our Business."

Fixed nature of expenses. Many of the expenses associated with managing, franchising, owning and developing hotels and residential and vacation ownership properties are relatively fixed. These expenses include personnel costs, rent, property taxes, insurance and utilities. If we are unable to decrease these costs significantly or rapidly when demand for our hotels and other properties decreases, the resulting decline in our revenues can have a particularly adverse effect on our net cash flow, margins and profits. This effect can be especially pronounced during periods of economic contraction or slow economic growth. Economic downturns generally affect the results of our owned and leased hotel segment more significantly than the results of our management and franchising segments due to the high fixed costs associated with operating an owned or leased property. The effectiveness of any cost-cutting efforts is limited by the fixed-cost nature of our business. As a result, we may not always be able to offset reductions in revenue through cost cutting. Employees at some of our owned hotels are parties to collective bargaining agreements that may also limit our ability to make timely staffing or labor changes in response to declining revenues. In addition, efforts to reduce costs, or to defer or cancel capital

improvements, could adversely affect the economic value of our properties and brands. We intend to manage our cost structure at levels appropriate for the degree of demand and revenue generated at our hotels.

Changes in depreciation expenses. Changes in depreciation expenses may be driven by renovations of existing properties, acquisition or development of new properties or the disposition of existing properties through sale or closure. We intend to consider strategic and complementary acquisitions of and investments in businesses, properties or other assets. If we consummate any asset acquisitions, we would likely add depreciable assets, which would result in an increase in depreciation expense.

Demand for vacation ownership properties. The recent economic downturn severely reduced consumer demand for vacation ownership properties. A significant portion of our costs to support our vacation ownership business relates to direct sales and marketing of these properties. Accordingly, we have significantly reduced these costs as a response to lower demand. During 2010, we received an \$8 million favorable settlement with respect to a construction dispute at one of our vacation ownership properties, which was recorded as a reduction to our direct costs. Our vacation ownership business recorded a total of \$45 million in impairment charges in 2010, which included a \$30 million charge in asset impairments due to a change in management's plans for future development of two multi-phase vacation ownership properties, which had multi-phase development. In one of these vacation ownership properties, our ownership interest is less than 100%. As a result, \$9 million of this impairment charge is attributable to our partner and is reflected in net loss (income) attributable to noncontrolling interests. As a result, the net total impairment charge attributable to Hyatt Hotels Corporation is \$21 million. Additionally, we recorded impairment charges for our interests in vacation ownership properties of \$15 million in equity losses from unconsolidated hospitality ventures.

Other Items

Asset impairments

We hold significant amounts of goodwill, intangible assets, long-lived assets and equity method investments. We evaluate these assets on a quarterly basis for impairment as further discussed in "—Critical Accounting Policies and Estimates." These evaluations have, in the past, resulted in impairment charges for certain of these assets based on the specific facts and circumstances surrounding those assets. We may be required to take additional impairment charges to reflect further declines in our asset and/or investment values.

Acquisitions, investments, divestitures and significant renovations

We periodically acquire, divest of or undertake significant renovations in hotel properties. The results of operations derived from these properties do not, therefore, meet the definition of "comparable hotels" as defined in "—Key Business Metrics Evaluated by Management." The results of operations from these properties, however, may have a material effect on changes in our results from period to period and are, therefore, discussed separately in our discussion on results of operations when material.

In 2010, we entered into the following transactions:

- formed a hospitality venture to purchase a hotel within a to-be constructed building in New York City for a total purchase price of \$375 million. The hospitality venture will be funded upon the purchase of the hotel and our share of the purchase price commitment is 66.67%;
- committed to invest in a joint venture in order to develop, own and operate a hotel property in the State of Hawaii. Contingent upon the amount of debt financing placed on the project, the maximum commitment under the agreement at December 31, 2010 is \$123 million;
- acquired two parcels of land in Latin America for a net purchase price of \$85 million with the purpose of developing these properties into new hotels;

- entered into an agreement with a third party to acquire an interest in a hospitality venture that owns the Hyatt Regency New Orleans. We contributed cash of \$60 million for a preferred equity interest in this venture, which plans to complete the renovation and reopening of the Hyatt Regency New Orleans in late 2011, which has been closed since September 2005 due to damage from Hurricane Katrina; and
- sold six Hyatt-branded hotels, consisting of: (1) Grand Hyatt Tampa Bay, for \$56 million, net of closing costs, (2) Hyatt Lisle, Hyatt Deerfield and Hyatt Rosemont, for a combined net sale price of \$49 million, (3) Hyatt Regency Greenville, for a sale price of \$15 million, net of closing costs, and (4) Hyatt Regency Boston, for net proceeds of \$113 million. Additionally, the ownership interest in the Hyatt Regency Princeton was transferred to the lender through a deed in lieu of foreclosure transaction. A pre-tax gain of \$35 million was realized on extinguishment of the \$45 million secured mortgage debt on this property.

In the year ended December 31, 2009, we acquired the Hyatt Regency Boston property for a purchase price of \$110 million.

Effect of foreign currency exchange rate fluctuations

A significant portion of our operations are conducted in functional currencies other than our reporting currency which is the U.S. dollar. As a result, we are required to translate those results from the functional currency into U.S. dollars at market based average exchange rates during the period reported. When comparing our results of operations between periods, there may be material portions of the changes in our revenues or expense that are derived from fluctuations in exchange rates experienced between those periods.

Results of Operations

Year Ended December 31, 2010 Compared with Year Ended December 31, 2009

Consolidated Results

Revenues. Consolidated revenues in the year ended December 31, 2010 increased \$197 million, or 6%, compared to the year ended December 31, 2009, including \$14 million in net favorable currency effects and a \$90 million increase in other revenues from managed properties. The increase in other revenues from managed properties was due to higher costs reimbursed by managed properties, driven by higher occupancy levels and revenues. Included in other revenues from managed properties is a decrease of \$7 million in benefits costs resulting from decreased performance of the underlying assets for benefit programs funded through rabbi trusts. These expenses are offset in other costs from managed properties, thus having no net impact to our earnings. Excluding this amount, other revenues from managed properties increased \$97 million, or 8%, in the year ended December 31, 2010 compared to the year ended December 31, 2009. Comparable owned and leased hotel revenue increased \$107 million over the same period, which includes net favorable currency effects of \$10 million. Non-comparable owned and leased hotel revenue decreased \$28 million for the year ended December 31, 2010 compared to the year ended December 31, 2009. This decrease reflected the sales of six hotels in 2010, with the largest impact attributable to the Hyatt Regency Boston in the first quarter of 2010 partially offset by increases in revenues for a hotel opened in 2010. The remaining increase in revenues related

primarily to increased management and franchise fees of \$32 million in our management and franchising segments. Included in consolidated management fees for the year ended December 31, 2010 were base management fees of \$132 million, a 12% increase from 2009, and incentive management fees of \$93 million, an 18% increase from 2009. These increases in hotel revenue and management fees were primarily driven by an increase in demand which was reflected in higher occupancy levels particularly from group business in North America and higher transient demand in international markets. Incentive management fees increased due to higher hotel operating profits at comparable hotels, fees generated at hotels opened in 2010 and improved performance at hotels opened in 2009. Corporate and other revenues represent the revenues of our vacation ownership business, which decreased \$5 million or 7.5% as a result of a decrease in revenue recognized for sales contracts written in prior periods. The table below provides a breakdown of revenues by segment for the years ended December 31, 2010 and 2009. For further discussion of segment revenues for the periods presented, please refer to “—Segment Results.”

(in millions, except percentages)	Year Ended December 31,			
	2010	2009	Better / (Worse)	
Owned and leased hotels	\$1,859	\$1,780	\$ 79	4.4%
North American management and franchising	1,476	1,387	89	6.4%
International management and franchising	210	176	34	19.3%
Corporate and other	62	67	(5)	(7.5)%
Eliminations	(80)	(80)	—	— %
Consolidated revenues	<u>\$3,527</u>	<u>\$3,330</u>	<u>\$197</u>	<u>5.9%</u>

Owned and leased hotels expense. Expenses for owned and leased hotels increased by \$33 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. Expenses recognized with respect to our employee benefit programs funded through rabbi trusts decreased \$5 million driven by the performance of the underlying invested assets during the year ended December 31, 2010 as compared to the year ended December 31, 2009. These expenses are fully offset by corresponding net gains and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings. Excluding this impact, owned and leased hotel expenses increased \$38 million in the year ended December 31, 2010 as compared to December 31, 2009. The increase was driven primarily by our comparable owned and leased hotels, which had additional expense of \$55 million for the period, primarily attributable to higher compensation and related costs, food costs and other variable operating expenses. The increased costs were largely as a result of increased hotel occupancy in 2010 as compared to 2009 as a result of improved economic and industry conditions. Partially offsetting these increases were non-comparable owned and leased hotels which represented \$17 million of decreased expenses, due primarily to the sale of the Hyatt Regency Boston property in the first quarter of 2010 and five other properties later in the year, partially offset by increased expenses for a hotel that opened in 2010.

Depreciation and amortization expense. Depreciation and amortization expense increased by \$10 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. Comparable owned and leased hotels depreciation expense increased \$7 million compared to the prior period reflecting depreciation associated with renovated assets. We also recorded \$3 million in increased accelerated depreciation at properties undergoing renovations in the year ended December 31, 2010 when compared to the year ended December 31, 2009. Additionally, we experienced a \$1 million increase from non-comparable owned and leased hotels, as the expense from the six hotels sold in 2010 largely offset the increased depreciation for the hotel we opened in 2010.

Other direct costs. Other direct costs represent costs associated with our vacation ownership operations. These costs decreased by \$10 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. During the first quarter of 2010, we received a favorable settlement of approximately \$8 million related to a construction dispute at one of our vacation ownership properties.

Selling, general and administrative expenses. Selling, general and administrative costs increased by \$15 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. Included in selling, general and administrative expenses is a decrease of \$4 million in benefits costs resulting from reduced performance gains for the underlying assets for benefit programs funded through rabbi trusts. These expenses are offset in net gains and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings. Excluding this amount, selling, general and administrative costs increased \$19 million, or 8%, in the year ended December 31, 2010 compared to the year ended December 31, 2009. This increase was due to higher compensation and related costs of \$15 million, primarily driven by incentive compensation, and increased travel and entertainment costs of \$5 million as a result of increased business development activities.

Net gains and interest income from marketable securities held to fund operating programs. Marketable securities held to fund our benefit programs funded through rabbi trusts resulted in a net gain of \$16 million in the year ended December 31, 2010, compared to the net gain of \$25 million in the year ended December 31, 2009 due to reduced performance gains in the underlying securities. The gains and losses on securities held in the rabbi trusts are offset by expenses in our owned and leased hotels expense and in selling, general and administrative expenses for our managed and franchised hotels, having no net impact on our earnings. Of the \$9 million reduction in returns in the underlying securities, \$4 million was offset in selling, general and administrative expenses and \$5 million was offset in owned and leased hotel expenses. Marketable securities held to fund our Gold Passport program generated a net gain of \$5 million in the year ended December 31, 2010, compared to a net gain of \$4 million for the year ended December 31, 2009. The gains and losses on securities held to fund our Gold Passport program are offset by corresponding changes to our owned and leased hotel revenues, thus having no net impact on our earnings.

Equity losses from unconsolidated hospitality ventures. Equity losses from unconsolidated hospitality ventures were \$40 million in the year ended December 31, 2010, compared to \$13 million for the year ended December 31, 2009. In 2010, we recorded impairment charges of \$31 million, which included impairment of interests in hospitality venture properties of \$16 million and vacation ownership properties of \$15 million. In 2009, we also recorded impairment charges of \$14 million, which included impairment of interests in hospitality venture properties of \$11 million and a vacation ownership property of \$3 million. There was a \$5 million decline attributable to lower earnings generated by the underlying hotels, of which the majority was related to newly opened hotels. Additionally, we had a \$4 million reduction in foreign currency gains on one of our unconsolidated hospitality ventures.

Interest expense. Interest expense decreased by \$2 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. There was a \$13 million reduction in interest expense relating to the repayment of \$600 million of senior subordinated notes in May 2009. There was also a \$12 million reduction in interest expense due to the repayment of two hotel loans during 2009. This reduction was partially offset by an \$18 million increase in interest expense in 2010 related to the issuance of the senior notes in August 2009, as well as a \$4 million increase in 2010 for facility fees related to our amended revolving credit facility. For further information on these transactions refer to Note 10 of the consolidated financial statements included in this annual report.

Gains on sales of real estate. During 2010, we sold the Hyatt Regency Greenville, Hyatt Lisle, Hyatt Deerfield, and Hyatt Rosemont for a combined \$64 million, net of closing costs, to an unrelated third party, resulting in a pre-tax gain of \$26 million. We entered into long-term franchise agreements for each of these properties, and therefore recognized the full gain on sale of real estate in our consolidated statements of income (loss).

Asset impairments. Asset impairments, which are recorded, as necessary, based on our regular evaluation of assets for impairment, were \$44 million and \$12 million for the years ended December 31, 2010 and 2009, respectively. The \$44 million in impairment charges in 2010 included:

- an impairment charge of \$30 million due to a change in management’s plans for future development of two multi-phase vacation ownership properties. In one of these vacation ownership properties, our ownership interest is less than 100%. As a result, \$9 million of this impairment charge is attributable to our partner and is reflected in net loss (income) attributable to noncontrolling interests. As a result the net total impairment charge attributable to Hyatt Hotels Corporation is \$21 million;
- a \$10 million impairment charge based on an estimate of net realizable value in connection with a planned sale of a Company owned airplane; and
- a \$3 million impairment of property and equipment in our owned and leased hotel segment.

The \$12 million impairment charge in 2009 included a \$7 million charge related to goodwill impairment on a hotel. Additionally, we had a \$5 million charge for the full impairment of an intangible asset relating to a management agreement covering certain select service hotels in our North American management and franchising segment.

Other income (loss), net. Other income (loss), net, improved by \$119 million in the year ended December 31, 2010 compared to the year ended December 31, 2009, primarily due to \$93 million of debt settlement costs in 2009, combined with a \$35 million gain recognized on extinguishment of debt in 2010. Further information on these transactions is discussed in “—Liquidity and Capital Resources.” Additionally, we experienced an increase of \$9 million in gains on other marketable securities and an increase of \$8 million related to reduced provisions on hotel loans. These improvements were partially offset by the decrease in cash distributions from cost method investments of \$22 million and decreased foreign currency gains (losses) of \$8 million. The table below provides a breakdown of other income (loss), net for the years ended December 31, 2010 and 2009:

(in millions except percentages)	Year Ended December 31,			
	2010	2009	Better / (Worse)	
Interest income	\$ 21	\$ 21	\$ —	— %
Gains on other marketable securities	19	10	9	90.0%
Income from cost method investments (1)	—	22	(22)	(100.0)%
Foreign currency gains (losses)	(3)	5	(8)	(160.0)%
Debt settlement costs (2)	—	(93)	93	100.0%
Provisions on hotel loans (3)	(1)	(9)	8	88.9%
Gain on extinguishment of debt (4)	35	—	35	100.0%
Other (5)	—	(4)	4	100.0%
Other income (loss), net	\$ 71	\$ (48)	\$ 119	247.9%

- (1) Income from cost method investments for the year ended December 31, 2009 included \$22 million in cash distributions from certain non—hospitality real estate partnerships.
- (2) Amount relates to costs associated with the repurchase of senior subordinated notes and early settlement of a subscription agreement. The costs include \$88 million of make-whole interest payments and early settlement premiums and a \$5 million write-off of deferred financing costs.
- (3) In 2010 we recorded \$2 million in provisions related to certain hotel developer loans based on our assessment of their collectability. Additionally, during 2010, we received \$1 million of a recovery on an amount previously reserved.
- (4) During 2010, we extinguished \$45 million of mortgage debt for a majority owned property, as a result of executing a deed in lieu of foreclosure transaction with the lender. The deed was transferred to the lender on September 30, 2010 and at that time a gain on extinguishment of debt of \$35 million was recorded. See Note 8 to our consolidated financial statements included in this annual report for further detail.
- (5) Includes gains (losses) on asset retirements for each period presented.

(Provision) benefit for income taxes. Income taxes for the years ended December 31, 2010 and 2009 was a provision of \$37 million and a benefit of \$8 million, respectively, which resulted in effective income tax rates of 42.0% for 2010 and 16.6 % for 2009.

The effective tax rate for 2010 of 42.0% differed from the U.S statutory federal income tax rate of 35% due to the mix of U.S. operating losses with earnings from our foreign-based operations. The tax benefit from U.S. losses and losses in certain foreign jurisdictions were offset by taxes against income earned by our foreign-based operations, an increase in unrecognized tax benefits totaling \$11 million and an increase in nondeductible deferred compensation of \$6 million.

The effective tax rate for 2009 of 16.6% differed from the U.S. statutory federal income tax rate of 35% primarily due to the mix of U.S. operating losses with earnings from our foreign-based operations. The tax benefit from U.S. losses and losses in certain foreign jurisdictions were partially offset by taxes against income earned by our foreign-based operations, an increase in unrecognized tax benefits totaling \$11 million and valuation allowances primarily related to foreign losses of \$31 million.

Discontinued operations. During 2010, we sold a residential property for a gain of \$6 million, net of taxes. We also sold a non-Hyatt branded hotel for a gain of \$1 million, net of taxes. We have recognized \$3 million of a net loss from discontinued operations for both the years ended December 31, 2010 and 2009, respectively, which was primarily driven by impairment charges in both periods related to the non-Hyatt branded hotel. We have no continuing involvement with either property.

Net loss attributable to noncontrolling interests. Net loss attributable to noncontrolling interests increased by \$8 million compared to 2009, primarily due to the portion of an impairment charge attributable to the noncontrolling interest in one of our consolidated vacation ownership properties, which is included in Corporate and other.

Segment Results

We evaluate segment operating performance using segment revenue and segment Adjusted EBITDA, as described in Note 20 to our consolidated financial statements included in this annual report. See “—Key Business Metrics Evaluated by Management” for a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness. The segment results presented below are presented before intersegment eliminations.

Owned and Leased Hotels. Revenues increased by \$79 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. Included in this increase was \$10 million of net favorable currency effects. Comparable owned and leased hotel revenues increased \$107 million, and were driven by a RevPAR increase of 7.8%. The improvements in RevPAR were driven primarily by increased transient and group occupancy for the full year 2010 as compared to 2009. Group occupancy continued to trend higher over the course of 2010, which resulted in increased room revenue and food and beverage revenues as compared to last year. Transient rates at our full service hotels trended higher over the course of 2010 and finished the year slightly up versus last year. Significant renovations across our owned portfolio reduced our RevPAR by approximately 400 basis points and increased group occupancy reduced available transient room supply over the course of the year. We continue to see improvements across our portfolio, despite having five owned hotels undergoing large renovations, which have impacted their occupancy and average daily rates. Non-comparable owned and leased hotel revenues decreased \$28 million primarily due to the sale of the Hyatt Regency Boston and five other properties during 2010, partially offset by a new hotel that opened in 2010.

	Year Ended December 31,								
	RevPAR			Occupancy			ADR		
	2010	2009	Better / (Worse)	2010	2009	Change in Occ % pts	2010	2009	Better / (Worse)
(Comparable Owned and Leased Hotels)									
Full Service	\$128	\$118	7.8%	69.2%	65.2%	4.0%	\$184	\$181	1.6%
Select Service	67	62	7.6%	75.3%	67.1%	8.2%	89	93	(4.1)%
Total Owned and Leased Hotels	\$111	\$103	7.8%	70.9%	65.7%	5.2%	\$157	\$157	0.0%

	Year Ended December 31,			
	2010	2009	Better / (Worse)	
(in millions except percentages)				
Segment Revenues	\$1,859	\$1,780	\$79	4.4%
Segment Adjusted EBITDA	\$ 356	\$ 302	\$54	17.9%

Adjusted EBITDA increased by \$54 million in the year ended December 31, 2010 compared to the year ended December 31, 2009, including \$3 million in favorable currency effects. Comparable owned and leased hotel performance increased by \$53 million primarily due to revenue growth partially offset by increased operating costs from incentive compensation and other variable costs related to higher occupancy. Additionally, Adjusted EBITDA increased \$9 million due to improved operating performance at our unconsolidated hospitality ventures. These improvements are partially offset by decreases at our non-comparable owned and leased hotels of \$8 million, which is largely due to the sale of the Hyatt Regency Boston.

North American management and franchising. North American management and franchising revenues increased by \$89 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. Other revenues from managed properties increased \$77 million for the year ended December 31, 2010 compared to the year ended December 31, 2009 due to increased cost reimbursements from our managed properties, which grew as higher occupancy increased variable costs. Management and franchise fees increased \$12 million for the year ended December 31, 2010 compared to the year ended December 31, 2009. Improvements in base fees were primarily driven by the effects of a 4.1% increase in comparable systemwide North American full service RevPAR. The increase in base fees was partially offset by declines in incentive fees largely due to significant renovations at full service properties, which reduced the profitability at these hotels. Franchise and other fees increased due to improved profitability across our select service portfolio combined with an increase in the number of franchised hotels in 2010 as compared to 2009. RevPAR at our select service hotels in the year ended December 31, 2010 increased by 7.3% compared to the year ended December 31, 2009.

	Year Ended December 31,			
	2010	2009	Better / (Worse)	
(in millions except percentages)				
Segment Revenues				
Management, Franchise and Other Fees	\$ 193	\$ 181	\$ 12	6.6%
Other Revenues from Managed Properties	1,283	1,206	77	6.4%
Total Segment Revenues	\$1,476	\$1,387	\$ 89	6.4%
Segment Adjusted EBITDA	\$ 145	\$ 121	\$ 24	19.8%

Adjusted EBITDA improved by \$24 million in the year ended December 31, 2010 compared to the year ended December 31, 2009 primarily due to a \$12 million increase in management and franchise fees. The remaining improvement is due to a decline in professional fees of \$5 million, reduced marketing support for the select service brands of \$4 million and a decrease in bad debt expenses of \$2 million.

International management and franchising. International management and franchising revenues increased by \$34 million in the year ended December 31, 2010 compared to the year ended December 31, 2009 and included \$4 million in net favorable currency impact. The \$20 million increase in fees was driven by comparable systemwide international full service hotels due to a 16.9% increase (or 12.6% increase, excluding the favorable currency impact) in RevPAR during the year ended December 31, 2010 compared to the year ended December 31, 2009. The increase resulted from occupancy and rate growth with particularly strong RevPAR results from our hotels in Asia, especially China.

	Year Ended December 31,								
	RevPAR			Occupancy			ADR		
	2010	2009	Better / (Worse)	2010	2009	Change in Occ % pts	2010	2009	Better / (Worse)

Segment Revenues									
Management, Franchise and Other Fees							\$142	\$122	\$20 16.4%
Other Revenues from Managed Properties							68	54	14 25.9%
Total Segment Revenues							\$210	\$176	\$34 19.3%
Segment Adjusted EBITDA							\$ 76	\$ 62	\$14 22.6%

Adjusted EBITDA increased by \$14 million in the year ended December 31, 2010 compared to the year ended December 31, 2009 largely due to increased management and franchise fees of \$20 million, including \$2 million in favorable currency impact. These fee increases were partially offset by a \$3 million increase in compensation and related costs and a \$3 million increase in bad debt expenses.

Corporate and other. Corporate and other includes unallocated corporate expenses and the results of our vacation ownership business. Revenues declined by \$5 million in the year ended December 31, 2010 compared to the year ended December 31, 2009 due to decreases in demand for vacation ownership units as a result of weakened economic conditions.

	Year Ended December 31,			
	2010	2009	Better / (Worse)	
(in millions except percentages)				
Corporate and other Revenues	\$ 62	\$ 67	\$ (5)	(7.5)%
Corporate and other Adjusted EBITDA	\$(101)	\$(79)	\$(22)	(27.8)%

Adjusted EBITDA declined \$22 million in the year ended December 31, 2010 compared to the year ended December 31, 2009. The increase in corporate expenses was due to higher compensation and related expenses of \$11 million and increased professional fees and travel and entertainment costs of \$7 million and \$3 million, respectively, associated with increased business development activity and transaction costs. Lower vacation ownership revenues were entirely offset by reduced vacation ownership expenses, which included a favorable \$8 million settlement for a construction dispute at one of our vacation ownership properties that was recorded as a reduction to our direct costs.

Eliminations. Eliminations of \$80 million and \$80 million for the year ended December 31, 2010 and 2009, respectively, primarily represent fees charged by our management and franchising segments to our owned and leased hotels for managing their operations.

Non-GAAP Measure Reconciliation

The following table sets forth Adjusted EBITDA by segment for the years ended December 31, 2010 and 2009. For a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness, see “—Key Business Metrics Evaluated by Management.”

Revenues. Consolidated revenues in the year ended December 31, 2009 decreased \$505 million, or 13%, compared to the year ended December 31, 2008, including \$45 million in net unfavorable currency effects and a \$47 million decrease in other revenues from managed properties. The decrease in other revenues from managed properties was due to lower costs reimbursed by managed properties reflecting cost reductions implemented during 2009. Included in other revenues from managed properties was an increase of \$49 million in benefits costs resulting from improved performance of the underlying assets for benefit programs funded through rabbi trusts. These expenses were offset in other costs from managed properties, thus having no net impact to our earnings. Excluding this amount, other revenues from managed properties decreased \$96 million, or 7%, in the year ended December 31, 2009 compared to the year ended December 31, 2008. Comparable owned and leased hotel revenue decreased \$390 million over the same period, which includes net unfavorable currency effects of \$35 million. The remaining decrease in revenues related primarily to reduced management fees in our management and franchising segments. Revenues for our owned and leased hotels and our management and franchising segments were negatively affected by widespread weakness in hotel results driven by sharply reduced demand. Included in consolidated management fees for the year ended December 31, 2009 were base management fees of \$118 million, a 16% decrease from 2008, and incentive management fees of \$79 million, a 37% decrease from 2008. This decrease in hotel revenue and management fees was primarily driven by a decline in demand which was reflected in lower ADR resulting from greater promotional pricing, and lower occupancy levels particularly from group business. While the decline in base management fees generally followed the decline in hotel

revenues, the incentive fees were more negatively affected due to the greater declines in hotel profitability. Hotel profitability levels declined due to the impact of significantly reduced revenue levels and certain fixed costs associated with hotel operations. Corporate and other revenues represent the revenues of our vacation ownership business, which decreased \$38 million or 36% as a result of the significant impact of the economic recession on sales of vacation ownership intervals. The table below provides a breakdown of revenues by segment for the years ended December 31, 2009 and 2008. For further discussion of segment revenues for the periods presented, please refer to “—Segment Results.”

(in millions, except percentages)	Year Ended December 31,		
	2009	2008	Better / (Worse)
Owned and leased hotels	\$1,780	\$2,137	\$(357) (16.7)%
North American management and franchising	1,387	1,481	(94) (6.3)%
International management and franchising	176	219	(43) (19.6)%
Corporate and other	67	105	(38) (36.2)%
Eliminations	(80)	(107)	27 25.2%
Consolidated revenues	<u>\$3,330</u>	<u>\$3,835</u>	<u>\$(505)</u> <u>(13.2)%</u>

Owned and leased hotels expense. Expenses for owned and leased hotels decreased by \$121 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. The decrease was driven primarily by \$168 million of cost reductions at comparable owned and leased hotels primarily attributable to reductions in compensation-related costs and other variable operating expenses, as we reduced our costs in response to declining hotel revenues. The reduced compensation-related costs largely arose from the reductions in hotel staffing levels. Non-comparable owned and leased hotels drove \$24 million of increased expenses, due primarily to our 2009 acquisition of the Hyatt Regency Boston property and the opening of a re-branded hotel. Additionally, expenses recognized with respect to our employee benefit programs funded through rabbi trusts increased \$23 million as a result of improved performance of the underlying invested assets. These expenses were fully offset by corresponding net gains (losses) and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings.

Depreciation and amortization expense. Depreciation and amortization expense increased by \$21 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. This increase was driven by \$12 million of accelerated depreciation on assets at properties undergoing renovations and by increased depreciation of \$7 million related to our acquisition of the Hyatt Regency Boston property in 2009 and the opening of a re-branded hotel.

Other direct costs. Other direct costs represent costs associated with our vacation ownership operations. These costs decreased by \$13 million in the year ended December 31, 2009 compared to the year ended December 31, 2008, due to reduced sales of vacation ownership interests, which slowed significantly due to reductions in demand.

Selling, general and administrative expenses. Selling, general and administrative costs decreased by \$29 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. Included in selling, general and administrative expenses was an increase of \$40 million in benefits costs resulting from improved performance of the underlying assets for benefit programs funded through rabbi trusts. These expenses were offset by net gains (losses) and interest income from marketable securities held to fund operating programs, thus having no net impact to our earnings. Excluding this amount, selling, general and administrative costs decreased \$69 million, or 22%, in the year ended December 31, 2009 compared to the year ended December 31, 2008. The 2008 expenses included a \$20 million charge resulting from the termination of our supplemental executive defined plans. Through our 2009 cost reduction initiatives, we decreased marketing costs, primarily for our vacation ownership business by \$19 million, reduced compensation and related expenses by \$11 million and travel and entertainment expenses by \$6 million. Additionally, we achieved cost reductions of \$7 million in 2009

as a result of the termination of our supplemental executive defined benefit plan in the fourth quarter of 2008. Bad debt expense also decreased \$12 million in 2009. During 2009, we had \$10 million of increased expenses under contractual performance obligations, primarily at our select service hotels.

Net gains (losses) and interest income from marketable securities held to fund operating programs. Marketable securities held to fund our benefit programs funded through rabbi trusts resulted in a net gain of \$25 million in the year ended December 31, 2009, compared to the net loss of \$38 million in the year ended December 31, 2008 due to improved performance of the underlying securities. The gains and losses on securities held in the rabbi trusts were offset by expenses in our owned and leased hotels expense and in selling, general and administrative expenses for our managed and franchised hotels, having no net impact on our earnings. Of the \$63 million change in the underlying securities, \$40 million was offset in selling, general and administrative expenses and \$23 million was offset in owned and leased hotel expenses. Marketable securities held to fund our Gold Passport program generated a net gain of \$4 million in the year ended December 31, 2009, compared to a net gain of \$2 million for the year ended December 31, 2008. The gains and losses on securities held to fund our Gold Passport program were offset by corresponding changes to our owned and leased hotel revenues, thus having no net impact on our earnings.

Equity earnings (losses) from unconsolidated hospitality ventures. Equity losses from unconsolidated hospitality ventures were \$13 million in the year ended December 31, 2009, compared to income of \$14 million for the year ended December 31, 2008. There was an \$18 million decline attributable to lower earnings generated by the underlying hotels, of which \$5 million related to newly opened hotels. Earnings in 2008 included the reversal of a previously recorded reserve for a non-refundable deposit of \$9 million and \$3 million in transaction costs related to the purchase of an equity interest in a hotel property in Hawaii, which had been reserved in full in 2007 due to uncertainty surrounding the transaction. In 2009, we also recorded impairment charges of \$14 million, which included impairment of interests in hospitality venture properties of \$11 million and a vacation ownership property of \$3 million. In 2008, we recorded \$19 million in impairment charges for three vacation ownership investments.

Interest expense. Interest expense decreased by \$19 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. There was a \$23 million reduction in interest expense relating to the repayment of \$600 million of senior subordinated notes in May of 2009. There was also a \$13 million reduction in interest expense due to the repayment of two hotel loans during 2009. This reduction was partially offset by a \$12 million increase in interest expense related to the issuance of the senior notes in August 2009, as well as a \$4 million increase primarily related to amendment fees on our revolving credit facility. For further information on these transactions refer to Note 10 of our consolidated financial statements included in this annual report.

Asset impairments. Asset impairments, which are recorded, as necessary, based on our regular evaluation of assets for impairment, were \$12 million and \$86 for the years ended December 31, 2009 and 2008, respectively. The \$12 million in impairment charges in 2009 included a \$7 million charge related to goodwill impairment on a hotel. Additionally, we had a \$5 million charge for the full impairment of an intangible asset relating to a management agreement covering certain select service hotels in our North American management and franchising segment. The 2008 asset impairments of \$86 million related to goodwill impairments for two hotels, one being a \$79 million impairment charge for our Andaz Liverpool Street property.

Other income (loss), net. Other income (loss), net decreased by \$71 million in the year ended December 31, 2009 compared to the year ended December 31, 2008, primarily due to \$93 million of debt settlement costs. Further information on this transaction is discussed in “—Liquidity and Capital Resources.” Additionally, cash distributions from cost method investments decreased \$42 million for the comparable periods. These declines were partially offset by improvements in gains (losses) on other marketable securities and foreign currency of \$47 million and \$28 million, respectively. The table below provides a breakdown of other income (loss), net for the years ended December 31, 2009 and 2008:

(in millions except percentages)	Year Ended December 31,			
	2009	2008	Better /(Worse)	
Interest income	\$ 21	\$ 23	\$ (2)	(8.7)%
Gains (losses) on other marketable securities	10	(37)	47	127.0%
Income from cost method investments (1)	22	64	(42)	(65.6)%
Foreign currency gains (losses)	5	(23)	28	121.7%
Debt settlement costs (2)	(93)	—	(93)	(100.0)%
Provisions on hotel loans (3)	(9)	—	(9)	(100.0)%
Other (4)	(4)	(4)	—	—%
Other income (loss), net	\$(48)	\$ 23	\$(71)	(308.7)%

- (1) Income from cost method investments for the year ended December 31, 2009 included \$22 million in cash distributions related to non-hospitality real estate investment companies. The year ended December 31, 2008 included \$62 million in cash distributions from indirect investments in certain life sciences technology companies. We do not expect material distributions from these investments in the future. See Note 3 to our consolidated financial statements included in this annual report.
- (2) Amount relates to costs associated with the repurchase of senior subordinated notes and early settlement of a subscription agreement as described in “—Liquidity and Capital Resources.” The costs include \$88 million of make whole interest payments and early settlement premiums and a \$5 million write-off of deferred financing costs.
- (3) During 2009 we recorded \$9 million in loan loss provisions related to certain hotel loans provided to owners or developers of hotels that we manage or franchise based on our assessment of their collectability.
- (4) Includes gains (losses) on asset retirements for each period presented.

(Provision) benefit for income taxes. Income taxes for the years ended December 31, 2009 and 2008 were a benefit of \$8 million and a provision of \$90 million, respectively, which resulted in effective income tax rates of 16.6% for 2009 and 44.0% for 2008.

The effective tax rate for 2009 of 16.6% differed from the U.S statutory federal income tax rate of 35% primarily due to the mix of U.S. operating losses with earnings from our foreign-based operations. The tax benefit from U.S. losses and losses in certain foreign jurisdictions were partially offset by taxes against income earned by our foreign-based operations, an increase in unrecognized tax benefits totaling \$11 million and valuation allowances primarily related to foreign losses of \$31 million.

The effective tax rate for 2008 of 44.0% differed from the U.S statutory federal income tax rate of 35% due to nondeductibility of goodwill impairments of \$28 million, an increase in unrecognized tax benefits of \$17 million and valuation allowances primarily related to foreign losses of \$13 million. These impacts were partially offset by tax benefits related to IRS settlements and valuation allowance reversals totaling \$29 million and foreign tax rate benefits of \$9 million.

Discontinued operations. During 2009, we incurred a \$3 million charge related to the impairment of property and equipment in one of our owned hotels that was subsequently sold in 2010. During 2008, we sold US Franchise Systems, Inc., which franchised Microtel Inns & Suites and Hawthorn Suites, and recorded a pretax

gain on sale of \$78 million in discontinued operations and \$1 million in earnings from discontinued operations. Additionally, we sold a hotel property and recorded a pretax gain of \$4 million during 2008. Income tax expense related to these transactions was \$28 million, resulting in a net gain of \$55 million.

Net loss (income) attributable to noncontrolling interests. Net loss (income) attributable to noncontrolling interests increased by \$5 million compared to 2008, primarily due to operating losses generated at hotels, which are partially owned by noncontrolling partners.

Segment Results

We evaluate segment operating performance using segment revenue and segment Adjusted EBITDA, as described in Note 20 to our consolidated financial statements included in this annual report. See “—Key Business Metrics Evaluated by Management” for a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness. The segment results presented below are presented before intersegment eliminations.

Owned and Leased Hotels. Revenues decreased by \$357 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. Included in this decrease was \$35 million of net unfavorable currency effects. Comparable owned and leased hotel revenues decreased \$390 million, and were driven by a RevPAR decline of 18% largely due to reductions in occupancy and ADR across both group and transient business, as well as significant declines in food and beverage revenues. The decline in transient revenues was driven by lower rates as hotels have increased promotions to attract guests. The group revenue decline was primarily a result of significant decreases in occupancy from earlier cancellations and, more recently, the replacement of traditional larger corporate groups with smaller groups. Food and beverage revenues were down significantly as a result of both lower occupancy and reduced spending by guests compared to 2008. Traditional corporate travel, which drives higher room rates and banquet spend, was largely replaced by transient leisure travelers and smaller groups who spent less on food and other hotel services. Non-comparable owned and leased hotel revenues increased \$33 million primarily due to our acquisition of the Hyatt Regency Boston property during the first quarter of 2009.

	Year Ended December 31,								
	RevPAR			Occupancy			ADR		
	2009	2008	Better/ (Worse)	2009	2008	Change in Occ % pts	2009	2008	Better/ (Worse)
(Comparable Owned and Leased Hotels)									
Full Service	\$114	\$140	(18.8)%	65.0%	69.6%	(4.7)%	\$176	\$202	(12.9)%
Select Service	62	75	(16.5)%	67.1%	69.6%	(2.6)%	93	107	(13.3)%
Total Owned and Leased Hotels	\$101	\$124	(18.4)%	65.5%	69.6%	(4.1)%	\$154	\$178	(13.3)%

	Year Ended December 31,		
	2009	2008	Better / (Worse)
(in millions except percentages)			
Segment Revenues	\$1,780	\$2,137	\$(357) (16.7)%
Segment Adjusted EBITDA	\$ 302	\$ 522	\$(220) (42.1)%

Adjusted EBITDA declined by \$220 million in the year ended December 31, 2009 compared to the year ended December 31, 2008, including \$10 million in unfavorable currency effects. Comparable owned and leased hotel performance decreased by \$197 million primarily due to revenue deterioration partially offset by cost-saving initiatives resulting in reductions in staffing and other hotel costs. Additionally, Adjusted EBITDA decreased \$31 million due to declining operating performance at our unconsolidated hospitality ventures. These declines are partially offset by increases at our non-comparable owned and leased hotels of \$8 million, which is largely due to our acquisition of the Hyatt Regency Boston property.

North American management and franchising. North American management and franchising revenues decreased by \$94 million in the year ended December 31, 2009 compared to the year ended December 31, 2008. Other revenues from managed properties declined \$40 million due to reduced property level staffing and other

program costs reimbursed by managed properties. Management and franchise fees declined \$54 million with declines in both base and incentive fees driven primarily by the effects of an 18% decrease in comparable systemwide North American full service RevPAR. Our full service hotels experienced significant rate pressure during 2009 due largely to competition for transient business. Promotions and limited time offers were effective in bringing late 2009 transient occupancy back to 2008 levels. However, as a result of these promotions, our ADR significantly declined. We also experienced a significant decline in group business, largely reflected in lower occupancy. Although the pace of cancellations declined in the second half of 2009, and the rate of decline in near term bookings slowed, the impact of the previously high level of cancellations significantly impacted our 2009 results. Starting in late 2008 and into 2009, we implemented cost reduction initiatives throughout our system with property and corporate level programs to mitigate the impact of the economic downturn and revenue decline at both our full and select service hotels. As a result, hotel-level operating costs declined by 11.4% in the year ended December 31, 2009 compared to the year ended December 31, 2008. RevPAR at our select service hotels in the year ended December 31, 2009 declined by 13% compared to 2008.

Segment Revenues			
Management, Franchise and Other Fees	\$ 181	\$ 235	\$(54) (23.0)%
Other Revenues from Managed Properties	1,206	1,246	(40) (3.2)%
Total Segment Revenues	\$1,387	\$1,481	\$(94) (6.3)%
Segment Adjusted EBITDA	\$ 121	\$ 168	\$(47) (28.0)%

Adjusted EBITDA declined by \$47 million in the year ended December 31, 2009 compared to the year ended December 31, 2008, primarily due to a \$54 million reduction in management and franchise fees. For the year ended December 31, 2009, expenses under contractual performance obligations increased by \$8 million as a result of the weakness in hotel performance. Additionally, sales and marketing spend increased \$3 million and professional fees increased \$2 million. These increases were largely offset by a \$16 million decrease in bad debt expense. In addition, our cost saving initiatives resulted in reduced compensation and related expenses of \$7 million and travel and entertainment costs of \$2 million.

International management and franchising. International management and franchising revenues decreased by \$43 million in the year ended December 31, 2009 compared to the year ended December 31, 2008, and included \$10 million in net unfavorable currency impact. The \$39 million decrease in fees was driven by comparable systemwide international full service hotels due to a 22% decrease in RevPAR during the year ended December 31, 2009 compared to the year ended December 31, 2008, resulting from both ADR and occupancy declines. As a result of the economic downturn and related reduction in revenues, we took steps to effectively manage costs, including reducing hotel staffing levels.

Management, Franchise and Other Fees	\$122	\$161	\$(39)	(24.2)%
Other Revenues from Managed Properties	54	58	(4)	(6.9)%
Total Segment Revenues	\$176	\$219	\$(43)	(19.6)%
Segment Adjusted EBITDA	\$ 62	\$ 96	\$(34)	(35.4)%

Adjusted EBITDA declined by \$34 million in the year ended December 31, 2009 compared to the year ended December 31, 2008, primarily due to reduced management and franchise fees of \$39 million, including \$10 million in unfavorable currency impact. Additionally, increases in severance costs in 2009 combined with a reduction in bad debt recoveries in 2009 as compared to 2008 led to increased expenses of \$4 million. These fee declines and cost increases were partially offset by a \$7 million decrease in compensation expense as a result of the termination of our supplemental executive defined benefit plan in the fourth quarter of 2008. Our cost savings initiatives reduced travel and entertainment by \$2 million and compensation and related expenses by \$1 million.

Corporate and other. Corporate and other includes unallocated corporate expenses and the results of our vacation ownership business. Revenues declined by \$38 million in the year ended December 31, 2009 compared to the year ended December 31, 2008 due to significant decreases in demand for vacation ownership units as a result of continued weak economic conditions.

(in millions except percentages)	Year Ended December 31,			
	2009	2008	Better / (Worse)	
Corporate and other Revenues	\$ 67	\$105	\$(38)	(36.2)%
Corporate and other Adjusted EBITDA	\$(79)	\$(99)	\$ 20	20.2%

Adjusted EBITDA improved \$20 million in the year ended December 31, 2009 compared to the year ended December 31, 2008 from reductions in corporate expenses due to various cost reduction initiatives which included reduced compensation and related expenses of \$11 million, lower professional fees of \$3 million and reduced travel and entertainment costs of \$2 million during this period over the same period in 2008. Lower vacation ownership revenues were offset by reduced vacation ownership expenses.

Eliminations. Eliminations of \$80 million and \$107 million for the year ended December 31, 2009 and 2008, respectively, primarily represent fees charged by our management and franchising segments to our owned and leased hotels for managing their operations.

Non-GAAP Measure Reconciliation

The following table sets forth Adjusted EBITDA by segment for the years ended December 31, 2009 and 2008. For a discussion of our definition of Adjusted EBITDA, how we use it, why we present it and material limitations on its usefulness, see “—Key Business Metrics Evaluated by Management.”

(in millions, except percentages)	Year Ended December 31,			
	2009	2008	Better / (Worse)	
Owned and leased hotels	\$302	\$522	\$(220)	(42.1)%
North American management and franchising	121	168	(47)	(28.0)%
International management and franchising	62	96	(34)	(35.4)%
Corporate and other	(79)	(99)	20	20.2%
Consolidated Adjusted EBITDA	\$406	\$687	\$(281)	(40.9)%

The table below provides a reconciliation of our consolidated Adjusted EBITDA to EBITDA and a reconciliation of EBITDA to net income (loss) attributable to Hyatt Hotels Corporation in the years ended December 31, 2009 and 2008:

	<u>Year Ended December 31,</u>	
	<u>2009</u>	<u>2008</u>
<i>(in millions)</i>		
Adjusted EBITDA	\$ 406	\$ 687
Equity earnings (losses) from unconsolidated hospitality ventures	(13)	14
Asset impairments	(12)	(86)
Other income (loss), net	(48)	23
Charge resulting from the termination of our supplemental executive defined benefit plans ..	—	(20)
Discontinued operations, net of tax	(3)	55
Net (loss) income attributable to noncontrolling interests	3	(2)
Pro rata share of unconsolidated hospitality ventures Adjusted EBITDA	<u>(59)</u>	<u>(90)</u>
EBITDA	274	581
Depreciation and amortization	(269)	(248)
Interest expense	(56)	(75)
(Provision) benefit for income taxes	<u>8</u>	<u>(90)</u>
Net income (loss) attributable to Hyatt Hotels Corporation	<u>\$ (43)</u>	<u>\$ 168</u>

Inflation

We do not believe that inflation had a material effect on our business in 2010, 2009 or 2008.

Liquidity and Capital Resources

Overview

We finance our business primarily with existing cash and cash generated from our operations. As part of our business strategy we also recycle capital by using net proceeds from dispositions to support our acquisitions and new investment opportunities. When appropriate, we also borrow cash under our revolving credit facility or from other third party sources, and may also raise funds by issuing debt or equity securities as necessary. We maintain a cash investment policy that emphasizes preservation of capital. We believe that our cash position and cash from operations, together with borrowing capacity under our revolving credit facility and our access to the capital markets, will be adequate to meet all of our funding requirements and capital deployment objectives in the foreseeable future.

We may from time to time seek to retire or purchase our outstanding equity and/or debt securities through cash purchases and/or exchanges for other securities, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Recent Transactions Affecting Our Liquidity and Capital Resources

In 2010, we established an investment program for the purpose of investing our excess available cash. This program includes investment in highly liquid and transparent commercial paper, corporate notes and bonds, U.S. treasuries and U.S. agencies, which allows for the investments to be readily liquidated without any significant costs. In November 2009, the Company completed an initial public offering in which the selling stockholders sold 38 million shares of Class A common stock and the Company sold 5.7 million shares of Class A common stock pursuant to the underwriters' full exercise of their overallotment option. All shares were sold at an initial

public offering price of \$25.00 per share. The net proceeds to the Company were approximately \$127 million, after deducting the underwriters' discount of \$7 million and other offering expenses of \$8 million. The Company did not receive any proceeds from the sales of shares by the selling stockholders.

In August 2009, we issued \$500 million aggregate principal amount of senior unsecured notes. See "—Senior Notes." We used a portion of the net proceeds from the sale of the senior notes to repay \$249 million of certain outstanding secured debt and settle \$13 million of certain related swap agreements.

In July 2009, we amended our revolving credit facility to extend its maturity and to increase borrowing capacity to \$1.5 billion. Under the terms of the amended facility, \$370 million of credit availability matured on June 29, 2010, with the remaining availability maturing on June 29, 2012. For a detailed discussion of the revolving credit facility, see "—Revolving Credit Facility."

In May 2009, we repurchased and cancelled \$600 million aggregate principal amount of senior subordinated notes from three third-party investors for an aggregate purchase price of \$688 million, consisting of a \$600 million repayment of principal and \$88 million in make-whole interest and early settlement premiums. We also settled obligations of those third-party investors to subscribe for shares of our common stock and received \$11 million for the balance due under a subscription agreement. In the settlement, we sold 10.9 million shares of our common stock to the investors for a purchase price of \$600 million.

In May 2009, we issued and sold 29.2 million shares of our common stock for an aggregate purchase price of \$759 million to our existing investors (including certain third-party investors) and their affiliates, including affiliates of the holders of our senior subordinated notes referred to above and certain of our non-employee directors.

Sources and Uses of Cash

At December 31, 2010, we had cash and cash equivalents of \$1.1 billion, compared to cash and cash equivalents of \$1.3 billion at December 31, 2009 and \$428 million at December 31, 2008.

(in millions)	Year Ended December 31,		
	2010	2009	2008
Cash provided by (used in):			
Operating activities	\$ 450	\$ 276	\$ 287
Investing activities	(663)	(427)	(423)
Financing activities	(39)	1,056	(20)
Cash provided by discontinued operations	27	—	143
Effects of changes in exchange rate on cash and cash equivalents	8	(6)	25
Net change in cash and cash equivalents	<u>\$(217)</u>	<u>\$ 899</u>	<u>\$ 12</u>

Cash Flows from Operating Activities

Cash flows provided by operating activities totaled \$450 million in the year ended December 31, 2010, compared to \$276 million in the year ended December 31, 2009. Cash flow increased significantly in 2010 compared to 2009, as 2010 was positively impacted by increased cash generated by operating performance across all segments, while 2009 was negatively impacted by the early settlement of the subscription agreement described above under "Recent Transactions Affecting Our Liquidity and Capital Resources." (of which \$77 million was a use of cash) and the economic recession. These increases were partially offset by the Company's funding of its deferred compensation plans in the second quarter of 2010.

In 2009, cash flows provided by operating activities totaled \$276 million, compared to \$287 million in 2008. Cash flow generation decreased slightly due to the loss from continuing operations, which included the costs related to the repurchase of senior subordinated notes and early settlement of the subscription agreement

described above, of which \$77 million was a use of cash, as noted above. Offsetting these decreases was a significant reduction in cash paid for taxes due to a substantial payment made in 2008 related to a distribution from indirect investments in certain life science technology companies, as well as the effect on income tax expense due to the shift from an income position in 2008 to a loss position in 2009. Additionally, cash used for compensation related expenses reduced significantly in 2009 compared to 2008 primarily due to cost containment measures and a large deferred compensation payment made in 2008.

Cash Flows from Investing Activities

Cash flows used in investing activities totaled \$663 million in the year ended December 31, 2010, compared to \$427 million in the year ended December 31, 2009. During 2010, we invested \$398 million, net of proceeds, related to the purchases of marketable securities and short-term investments, compared to \$81 million in 2009. For the years ended December 31, 2010 and 2009, capital expenditures were \$310 million and \$216 million, respectively, (see "Capital Expenditures" below). During 2010, we contributed \$84 million to unconsolidated hospitality ventures, which included \$60 million related to our interest in Hyatt Regency New Orleans. Partially offsetting this use of cash in 2010, we received \$136 million in proceeds from the sale of real estate, which is net of \$97 million in restricted cash as we determine if a like-kind exchange transaction will be executed. Included in the \$136 net proceeds from the sale of real estate is \$113 million related to the sale of the Hyatt Regency Boston property, which was acquired in 2009 for \$109 million, net of cash received.

Cash flows used in investing activities totaled \$427 million in the year ended December 31, 2009, compared to \$423 million in the year ended December 31, 2008. During 2009, we invested \$109 million, net of cash received, related to our acquisition of the Hyatt Regency Boston property, while our investing activities in 2008 included \$31 million to acquire the remaining interest in our Andaz Liverpool Street property. In the year ended December 31, 2009, we contributed \$132 million to marketable securities, short-term investments and unconsolidated hospitality ventures, compared to \$87 million in the same period last year. The increase was due to the investment in an unconsolidated hospitality venture in Texas that owns a convention hotel. Also, our investing activities in 2009 included a reduction of \$185 million of distributions of capital from unconsolidated entities. The majority of the decrease relates to the fact that 2008 benefited from the distributions from indirect investments in certain life science technology companies of \$184 million. During 2008, we executed a \$278 million senior loan to a joint venture that acquired the Hyatt Regency Waikiki property.

Cash Flows from Financing Activities

Cash flows used in financing activities totaled \$39 million in the year ended December 31, 2010, compared to \$1.1 billion of cash provided by financing activities during the year ended December 31, 2009. The 2010 activity was driven by the repayment of long-term debt of \$39 million, which primarily related to \$31 million used to pay off a 10.07% fixed rate mortgage. In 2009, we repurchased \$600 million in outstanding senior subordinated notes from investors and paid down the net balance of \$30 million outstanding on our revolving credit facility as well as \$23 million in capital lease obligations. In connection with the settlement of the subscription agreement in May 2009 described above, we sold 10.9 million shares of common stock to existing investors for a purchase price of \$600 million. In addition, we issued additional shares of common stock to investors in exchange for cash of \$755 million, net of transaction costs of \$4 million. On August 10, 2009, we issued \$250 million of senior unsecured notes with a coupon rate of 5.750% due August 15, 2015, at a discount price of 99.460% (the "2015 Notes"), and \$250 million of senior notes with a coupon rate of 6.875% due August 15, 2019, at a discount price of 99.864% (the "2019 Notes" and together with the 2015 Notes, the "Senior Notes"). The proceeds were used to repay \$249 million of secured debt and settle \$13 million of swap agreements. Additionally, we raised \$127 million from our issuance of Class A common stock in our initial public offering in November 2009. The

combination of these 2010 and 2009 transactions caused our total debt to total capital ratio to decrease by 1.4%, and net debt to total capital ratio to decrease by 4.8%, as set forth in the following table:

The following is a summary of our debt to capital ratios as of December 31, 2010 and December 31, 2009:

(in millions, except percentages)	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Consolidated debt (1)	\$ 771	\$ 852
Stockholders' equity	<u>5,118</u>	<u>5,016</u>
Total capital	5,889	5,868
Total debt to total capital	13.1%	14.5%
Consolidated debt (1)	771	852
Less: Cash and cash equivalents and short-term investments	<u>1,634</u>	<u>1,431</u>
Net consolidated debt (cash and short-term investments)	(863)	(579)
Net debt to total capital	-14.7%	-9.9%

(1) Excludes approximately \$512 million and \$517 million of our share of unconsolidated hospitality venture indebtedness as of December 31, 2010 and 2009, respectively, substantially all of which is non-recourse to us.

In 2008, cash flows used in financing activities totaled \$20 million. This activity was primarily related to repayments of long-term debt of \$13 million and other debt payments of \$11 million.

Cash Flows from Discontinued Operations

Cash flows provided by discontinued operations totaled \$27 million in the year ended December 31, 2010, compared to \$0 during the year ended December 31, 2009 and \$143 million for the year ended December 31, 2008. In 2010, we sold an apartment building located adjacent to the Park Hyatt Washington D.C. for \$22 million in net proceeds, as well as the Amerisuites Orlando for \$5 million in net proceeds. In 2008, we completed the sale of US Franchise Systems, Inc., which owned the Microtel and Hawthorne Suites brands resulting in \$131 million of gross proceeds. We have no continuing involvement in any of these properties.

Capital Expenditures

We routinely make capital expenditures to enhance our business. We divide our capital expenditures into maintenance, enhancements to existing properties and investment in new facilities.

During the year ended December 31, 2010, we made total capital expenditures of \$310 million, which included \$61 million for two parcels of land in Latin America that we intend to use for future hotel development and \$46 million related to a recently opened property in New York. During 2009, our total capital expenditures were \$216 million, which included \$69 million related to the same property in New York. Our total capital expenditures during 2008 were \$258 million, which included \$28 million related to the aforementioned property in New York.

Senior Notes

On August 10, 2009, we issued \$500 million aggregate principal amount of Senior Notes. The table below sets forth the principal, maturity and interest rate of the Senior Notes. Interest on the Senior Notes is payable semi-annually.

<u>Description</u>	<u>Principal Amount</u>
5.750% Senior Notes due 2015	\$250,000,000
6.875% Senior Notes due 2019	\$250,000,000

In the indenture that governs the Senior Notes, we agreed not to:

- create any liens on our principal properties, or on the capital stock or debt of our subsidiaries that own or lease principal properties, to secure debt without also effectively providing that the senior notes are secured equally and ratably with such debt for so long as such debt is so secured; or
- enter into any sale and leaseback transactions with respect to our principal properties.

These limitations are subject to significant exceptions.

The indenture also limits our ability to enter into mergers or consolidations or transfer all or substantially all of our assets unless certain conditions are satisfied.

If a change of control triggering event occurs, as defined in the indenture, we will be required to offer to purchase the senior notes at a price equal to 101% of their principal amount, together with accrued and unpaid interest, if any, to the date of purchase. We may also redeem some or all of the Senior Notes at any time prior to their maturity at a redemption price equal to 100% of the principal amount of the Senior Notes redeemed plus accrued and unpaid interest, if any, to the date of redemption plus a make-whole amount.

We are in compliance with all applicable covenants as of December 31, 2010.

Revolving Credit Facility

In July 2009, we amended our five-year \$1.0 billion unsecured revolving credit facility which was originally established in June 2005. The amended facility was completed with Wells Fargo Bank, National Association, as administrative agent and a lender, and various other lenders. The amendment increased our borrowing capacity under the revolving credit facility to \$1.5 billion for all lenders. Under the terms of the amended facility, \$370 million of credit availability matured on June 29, 2010, with the remaining availability maturing on June 29, 2012. The revolving credit facility is intended to provide financing for working capital and general corporate purposes, including commercial paper back-up and permitted investments and acquisitions. The revolving credit facility also contains (1) a \$50 million sublimit for swingline loans, (2) a \$300 million sublimit for letters of credit and (3) a \$250 million sublimit for multi-currency loans that allows us to borrow (in addition to U.S. dollars) in Euros, JPY and GBP.

The average daily borrowings under the revolving credit facility were \$0, \$41 million and \$20 million for the years ended December 31, 2010, 2009 and 2008, respectively. As of December 31, 2010 and 2009, we had no borrowings outstanding under our revolving credit facility. We do, however, have \$71 million and \$79 million in outstanding undrawn letters of credit that are issued under our revolving credit facility (and reduce the availability thereunder) as of December 31, 2010 and 2009, respectively. As of December 31, 2010, we had available borrowing capacity of \$1.1 billion under our revolving credit facility, net of outstanding undrawn letters of credit.

All of our borrowings under our revolving credit facility are guaranteed by substantially all of our material domestic subsidiaries, as defined in the revolving credit facility. All guarantees are guarantees of payment and performance and not of collection.

Borrowings under our revolving credit facility that mature on June 29, 2012 bear interest, at our option, at either one-, two-, three- or six-month LIBOR plus a margin ranging from 1.70% to 3.50% per annum or the alternative base rate referenced above plus a margin ranging from 0.70% to 2.50% per annum, in each case depending on our credit rating by Standard & Poor's Ratings Group, a division of McGraw Hill, Inc. (S&P), and Moody's Investors Service, Inc. (Moody's). Borrowings under our swingline subfacility will bear interest at a rate equal to the alternative base rate referenced above plus the applicable margin for alternative base rate loans. We are also required to pay letter of credit fees with respect to each letter of credit equal to the applicable margin

for LIBOR on the face amount of each letter of credit. In addition, we must pay a fronting fee to the issuer of the letter of credit of 0.10% per annum on the face amount of the letter of credit.

The revolving credit facility also provides for a facility fee ranging from 0.30% to 1.00% of total availability (depending on our credit rating by S&P and Moody's) for revolving loans maturing on June 29, 2012. The facility fee is charged regardless of the level of borrowings. In addition, if the calculation of LIBOR falls below 1.00% in the case of LIBOR-based borrowings (including alternative base rate borrowings based on the one-month LIBOR), we must pay a utilization fee to lenders whose loans mature on June 29, 2012 on applicable loans at a rate equal to 1.0% minus LIBOR in the case of LIBOR-based borrowings and 1.0% minus one-month LIBOR in the case of alternative base rate borrowings (where the alternative base rate is based on the one-month LIBOR).

In the event we no longer have a credit rating from either S&P or Moody's or our rating falls below BBB-/Baa3, (i) with respect to borrowings under our revolving credit facility that mature on June 29, 2012, (a) such borrowings will bear interest at either LIBOR plus 3.50% per annum or the alternative base rate referenced above plus 2.50% per annum and (b) the related facility fee will be 1.00%.

Our revolving credit facility contains a number of affirmative and restrictive covenants including limitations on the ability to place liens on our or our direct or indirect subsidiaries' assets; to merge, consolidate and dissolve; to sell assets; to engage in transactions with affiliates; to change our or our direct or indirect subsidiaries' fiscal year or organizational documents; and to make restricted payments.

Our revolving credit facility also requires us to meet the following financial covenants, each measured quarterly:

- a maximum leverage ratio based upon the ratio of (1) Consolidated Adjusted Funded Debt (as defined in the revolving credit facility) to (2) Consolidated EBITDA (as defined in the revolving credit facility) not to exceed 4.5 to 1.0;
- an interest coverage ratio based upon the ratio of (1) Consolidated EBITDA (as defined in the revolving credit facility) to (2) Consolidated Interest Expense (as defined in the revolving credit facility) of at least 3.0 to 1.0; and
- a secured funded debt ratio based upon the ratio of (1) the aggregate principal amount of any funded debt secured by a lien that is owed by us or our subsidiaries, excluding certain debt assumed in connection with an acquisition (a) not to exceed \$250,000,000 and (b) to the extent in excess of \$250,000,000, for a period of one year following such acquisition, to (2) the book value of all of our and our subsidiaries' property and equipment (net of depreciation and amortization) of less than or equal to 0.3 to 1.0.

We are in compliance with all applicable covenants as of December 31, 2010.

Letters of Credit

We issue letters of credit either under the revolving credit facility or directly with financial institutions. We had \$79 million in letters of credit outstanding at December 31, 2010 and \$91 million in letters of credit outstanding at December 31, 2009. We had \$71 million in letters of credit issued under the revolving credit facility as of December 31, 2010 and \$79 million in letters of credit issued under the revolving credit facility as of December 31, 2009. We had letters of credit issued directly with financial institutions of \$8 million and \$12 million at December 31, 2010 and 2009, respectively.

We had letters of credit outstanding in the amount of \$110 million at December 31, 2008. Letters of credit issued under the revolving credit facility totaled \$89 million as of December 31, 2008. The letters of credit issued directly with banks totaled \$21 million at December 31, 2008.

Other Indebtedness and Future Debt Maturities

We entered into a thirty-year capital lease for the Hyatt Regency Grand Cypress in 2007. The lease agreement included a commitment to spend \$30 million on improvements to the property within the first five years, which has been satisfied. The aggregate amount outstanding under this lease was \$197 million as of December 31, 2010. The aggregate amount of annual payments under the lease totals \$14 million, and we have options to buy out the property in the eighth year of the lease for \$200 million, in the tenth year of the lease for \$220 million and in the fifteenth year of the lease for \$255 million. Separately, the lease agreement includes an option, at our discretion, to purchase the land adjacent to the hotel for \$10 million at any time through the fifteenth lease year, which would reduce the option price of the hotel and land accordingly. On August 28, 2007, we exercised this option and purchased the adjacent land thereby reducing each of our option prices noted above by \$10 million.

After excluding the \$197 million lease obligation described above and \$503 million of senior unsecured notes, all other third-party indebtedness as of December 31, 2010 totaled \$71 million, consisting primarily of a property-specific secured indebtedness on Hyatt Regency San Antonio (\$53 million), which allows for early payment in 2011. The interest rate on this mortgage is fixed at 9.26%.

At December 31, 2010, \$57 million of our outstanding debt will mature in the following twelve months. We believe that we will have adequate liquidity to meet requirements for scheduled maturities.

Contractual Obligations

The following table summarizes our contractual obligations as of December 31, 2010:

(dollars in millions)	Total	Payments Due by Period					
		2011	2012	2013	2014	2015	Thereafter
Debt (1)	\$ 783	\$ 86	\$ 30	\$ 31	\$ 32	\$284	\$320
Capital lease obligations (1)	263	16	16	16	196	1	18
Operating lease obligations	502	31	30	31	31	25	354
Purchase obligations	86	86	—	—	—	—	—
Other long-term liabilities (2)	738	156	301	11	8	3	259
Total contractual obligations	<u>\$2,372</u>	<u>\$375</u>	<u>\$377</u>	<u>\$ 89</u>	<u>\$267</u>	<u>\$313</u>	<u>\$951</u>

- (1) Includes principal as well as interest payments. Assumes forward estimates of LIBOR rates and constant foreign exchange rates as of December 31, 2010 for floating rate debt and international debt.
- (2) Primarily consists of deferred compensation plan liabilities and obligations to fund contract acquisition costs, loans to hotel owners or other investments. Excludes \$141 million in long-term tax positions due to the uncertainty related to the timing of the reversal of those positions.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements at December 31, 2010 included purchase obligations of \$86 million, letters of credit of \$79 million and surety bonds of \$21 million. These amounts are more fully discussed in “—Sources and Uses of Cash—Revolving Credit Facility and —Letters of Credit”, “—Contractual Obligations” and Note 16 to our consolidated financial statements included in this annual report.

Critical Accounting Policies and Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements, the reported amounts of revenues and expenses during the reporting periods and the related disclosures in our consolidated financial statements and accompanying notes.

We believe that of our significant accounting policies, which are described in Note 2 to our consolidated financial statements included in this annual report, the following accounting policies are critical due to the fact that they involve a higher degree of judgment and estimates about the effect of matters that are inherently uncertain. As a result, these accounting policies could materially affect our financial position and results of operations. While we have used our best estimates based on the facts and circumstances available to us at the time, different estimates reasonably could have been used in the current period. In addition, changes in the accounting estimates that we use are reasonably likely to occur from period to period, which may have a material impact on the presentation of our financial condition and results of operations. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions. Management has discussed the development and selection of these critical accounting policies and estimates with the audit committee of the board of directors.

Goodwill

We review the carrying value of all our goodwill by comparing the carrying value of our reporting units to their fair values in a two-step process. We define a reporting unit at the individual property or business level. We are required to perform this comparison at least annually or at an interim date if indicators of impairment exist. When determining fair value in step one, we utilize internally developed discounted future cash flow models, third-party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we utilize various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs and appropriate discount rates based on the weighted-average cost of capital. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future operating cash flows, the weighted-average cost of capital and the terminal value growth rate assumptions. The weighted-average cost of capital takes into account the relative weights of each component of our consolidated capital structure (equity and long-term debt). Our estimates of long-term growth and costs are based on historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-term planning process. We then compare the estimated fair value to our carrying value. If the carrying value is in excess of the fair value, we must perform step two in order to determine our implied fair value of goodwill to measure if any impairment charge is necessary. The determination of our implied fair value of goodwill requires the allocation of the reporting unit's estimated fair value to the individual assets and liabilities of the reporting unit as if we had completed a business combination. We perform the allocation based on our knowledge of the reporting unit, the market in which they operate, and our overall knowledge of the hospitality industry. Changes in our allocation approach could result in different measures of implied fair value and impact the final impairment charge, if any.

Changes in economic and operating conditions impacting these assumptions could result in goodwill impairments in future periods. We had \$102 million and \$113 million of goodwill as of December 31, 2010, and 2009, respectively. An adverse change to our fair value estimates could result in an impairment charge, which could be material to our earnings. The Company has six reporting units on which we have a goodwill balance as of December 31, 2010. A 10% change in our estimates of projected future operating cash flows, discount rates, or terminal value growth rates used in our calculations of the fair values of the reporting units would result in up to a \$2 million impairment charge against the \$14 million goodwill balance of one of our reporting units as of December 31, 2010. The Company will continue to monitor the impact of the current economic environment on the goodwill of our reporting units to ensure no further declines in value would result in impairment charges.

Goodwill is also reviewed for impairment upon the occurrence of a triggering event. If a triggering event is determined to occur, we then apply the two-step method described above. Determining whether or not a triggering event has occurred requires us to apply judgment. The final determination of the occurrence of a triggering event is based on our knowledge of the hospitality industry, historical experience, location of the property, market conditions and property-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis.

Long-Lived Assets and Definite-Lived Intangibles

We evaluate the carrying value of our long-lived assets and definite-lived intangibles for impairment by comparing the expected undiscounted future cash flows of the assets to the net book value of the assets when certain triggering events occur. If the expected undiscounted future cash flows are less than the net book value of the assets, the excess of the net book value over the estimated fair value is charged to earnings. When determining fair value, we use internally developed discounted future cash flow models, third-party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we utilize various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs, terminal value growth rate and appropriate discount rates based on the weighted-average cost of capital.

As part of the process detailed above we use judgment to:

- determine whether or not a triggering event has occurred. The final determination of the occurrence of a triggering event is based on our knowledge of the hospitality industry, historical experience, location of the property, market conditions and property-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis;
- determine the projected undiscounted future operating cash flows when necessary. The principal factor used in the undiscounted cash flow analysis requiring judgment is our estimates regarding long-term growth and costs which are based on historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-term planning process; and
- determine the estimated fair value of the respective long-lived asset when necessary. In determining the fair value of a long lived asset, we typically use internally developed discounted cash flow models. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future operating cash flows, the weighted-average cost of capital and the terminal value growth rate assumptions. The weighted-average cost of capital takes into account the relative weights of each component of our capital structure (equity and long-term debt). Our estimates of long-term growth and costs are based on historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-range planning process.

Changes in economic and operating conditions impacting these judgments could result in impairments to our long-lived assets in future periods, which could be material to our earnings. We had \$3.7 billion and \$3.9 billion of long-lived assets and definite-lived intangibles as of December 31, 2010 and 2009, respectively.

Unconsolidated Hospitality Ventures

We record a loss in the value of an unconsolidated hospitality venture that is determined to be an “other than temporary” decline in our consolidated statements of income as an impairment loss. We evaluate the carrying value of our unconsolidated hospitality ventures for impairment by comparing the estimated fair value of the venture to the book value when certain triggering events occur. If the fair value is less than the book value of the unconsolidated hospitality venture, we use our judgment to determine if the decline in value is temporary or other than temporary. The factors we consider when making this determination include, but are not limited to:

- length of time and extent of the decline;
- loss of value as a percentage of the cost of the unconsolidated hospitality venture;
- financial condition and near-term financial projections of the unconsolidated hospitality venture;
- our intent and ability to retain the unconsolidated hospitality venture to allow for the recoverability of the lost value; and
- current economic conditions.

When determining fair value, we use internally developed discounted cash flow models, third-party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we use various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs and appropriate discount rates based on the weighted-average cost of capital.

As part of the process detailed above we use judgment to determine:

- whether or not a triggering event has occurred. The final determination of the occurrence of a triggering event is based on our knowledge of the hospitality industry, historical experience, location of the underlying venture property, market conditions and venture-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis;
- the estimated fair value of the unconsolidated hospitality venture when necessary. In determining the fair value of an unconsolidated hospitality venture we typically utilize internally developed discounted cash flow models. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future cash flows of the venture, the weighted-average cost of capital and the terminal value growth rate assumptions. The weighted-average cost of capital takes into account the relative weights of each component of the unconsolidated hospitality venture's capital structure (equity and long-term debt). Our estimates of long-term growth and costs are based on the unconsolidated hospitality venture's historical data, various internal estimates and a variety of external sources and are developed as part of our routine, long-range planning process; and
- whether a decline in value is deemed to be other than temporary. The final determination is based on our review of the consideration factors mentioned above, as well as our knowledge of the hospitality industry, historical experience, location of the underlying venture property, market conditions and venture-specific information available at the time of the assessment. We realize, however, that the results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis.

Changes in economic and operating conditions impacting these judgments could result in impairments to our unconsolidated hospitality ventures in future periods. We had investments of \$175 million and \$213 million of unconsolidated hospitality ventures accounted for under the equity method as of December 31, 2010 and 2009, respectively.

Income Taxes

The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. Judgment is required in addressing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns (e.g., realization of deferred tax assets, changes in tax laws or interpretations thereof). In addition, we are subject to examination of our income tax returns by the Internal Revenue Service and other tax authorities. A change in the assessment of the outcomes of such matters could materially impact our consolidated financial statements. See "Risk Factors—Risks Related to Our Business—We may be liable for proposed tax liabilities and the final amount of taxes paid may exceed the amount of applicable reserves, which could reduce our profits."

We adopted the FASB's guidance on uncertain tax positions on January 1, 2007. The guidance prescribes a financial statement recognition threshold and measurement attribute for tax positions taken or expected to be taken in a tax return. Specifically, it clarifies that an entity's tax benefits must be "more likely than not" of being sustained assuming that its tax reporting positions will be examined by taxing authorities with full knowledge of all relevant information prior to recording the related tax benefit in the financial statements. If the position drops below the "more likely than not" standard, the benefit can no longer be recognized. Assumptions, judgment and

the use of estimates are required in determining if the “more likely than not” standard has been met when developing the provision for income taxes. A change in the assessment of the “more likely than not” standard could materially impact our consolidated financial statements.

Stock Compensation

Overview

In February 2006, we adopted the LTIP as a means of attracting, retaining and incentivizing qualified executives, key employees and nonemployee directors to increase our value and continue our efforts to build and sustain growth. As of December 31, 2010, we have authorized 9,375,000 shares of Class A common stock to be issued under the LTIP.

We are required to determine the fair value of the underlying common stock in order to determine the fair value of stock appreciation rights (SARs) and restricted stock units (RSUs) granted under the LTIP. Prior to November 5, 2009, the date our Class A common stock commenced trading on the New York Stock Exchange, the stock value was determined by the compensation committee of our board of directors according to the LTIP based on either an independent valuation or using the price paid for a share of common stock between a willing buyer and willing seller, excluding transactions between us and Pritzker family business interests. The compensation committee determined our per share price to be as follows for each of our award grants between January 1, 2008 and November 5, 2009:

<u>Grant Date</u>	<u>Common Stock Fair Value</u>
May 2, 2008	\$58.18(1)
September 11, 2008	58.18(2)
May 11, 2009	26.00(3)
October 1, 2009	29.10(4)

- (1) In accordance with the LTIP, we determined the fair value of our common stock as of December 31, 2007 based on an independent valuation performed contemporaneously with the grant date. The valuation was reviewed and approved by the compensation committee.
- (2) In September 2008, approximately four months following the May grant, we made a single grant in connection with the hiring of a new executive. We continued to use the \$58.18 per share value for our September 2008 grant of RSUs, as the total shares granted were immaterial and we did not have an updated valuation or an external transaction on which to base an updated share value, as stipulated by our LTIP.
- (3) In May 2009, we sold additional shares of our common stock to existing stockholders, including third-party stockholders, at \$26.00 per share. The price paid per share was between a willing buyer and seller. As a result, and in accordance with the LTIP, the compensation committee used the \$26.00 per share value as the basis for our May 11, 2009 grant. The difference between the \$26.00 per share value at May 11, 2009 and the \$58.18 per share value at September 11, 2008 was caused by a combination of factors, but was primarily driven by the decline in our operating performance resulting from the ongoing economic recession and the other financial and economic disruptions that occurred over this period, which adversely affected demand and equity valuations in the hospitality industry.
- (4) In accordance with the LTIP, we determined the fair value of our common stock based on an independent valuation performed contemporaneously with the grant date. The valuation was prepared in July 2009 as of June 30, 2009 and was reviewed and approved by the compensation committee.

The following table summarizes by grant date the awards granted since January 1, 2008 under our LTIP, as well as the fair value at the date of grant.

<u>Grant Date</u>	<u>Award Type</u>	<u>Number Granted</u>	<u>Fair Value</u>
May 2008	SARs	284,637	\$26.00
May 2008	RSUs	206,007	58.18
September 2008	RSUs	20,335	58.18
May 2009	SARs	492,210	14.40
May 2009	RSUs	276,722	26.00
October 2009	SARs	61,121	13.60
October 2009	RSUs	28,565	29.10
December 2009	RSUs	7,500	30.09
March 2010	RSUs	102,252	33.12
March 2010	SARs	386,834	15.93
May 2010	RSUs	466,223	40.96
May 2010	SARs	338,326	19.84
September 2010	RSUs	20,707	39.84

The awards are determined to be classified as equity awards with the fair value being determined on the grant date. We recognize stock-based compensation expense over the requisite service period of the individual grantee, which generally equals the vesting period. We currently have only issued service condition awards, and have therefore elected to use the straight-line method of expense attribution. We recognize, however, that if we begin to issue performance-based awards, the graded vesting method will be required. This will result in an increase to stock-based compensation expense in the earlier years of the requisite service period and a decrease in the later years.

The process of estimating the fair value of stock-based compensation awards and recognizing the associated expense over the requisite service period involves significant management estimates and assumptions.

For SARs grants, we use an estimated forfeiture rate of 0% because only a small group of executives has historically received these awards and we have limited historical data on which to base these estimates. Beginning in 2010, as the group of employees receiving RSUs expanded, we applied a 5% forfeiture rate to awards received by this larger group of employees. We monitor the forfeiture activity to ensure that the current estimate continues to be appropriate. Any changes to this estimate will impact the amount of compensation expense we recognize with respect to any future grants.

We determine the fair value of our stock-settled SARs using the Black-Scholes-Merton (BSM) option-pricing model. Under the BSM option-pricing model, management is required to make certain assumptions, including assumptions relating to the following:

Expected volatility. Because there is limited trading history for our common stock, we do not have sufficient information available on which to base a reasonable and supportable estimate of the expected volatility of our share price. Consequently, prior to November 5, 2009 (the date our Class A common stock commenced trading on the New York Stock Exchange) the expected price volatility for our Class A common stock was estimated using the average implied volatility of exchange-traded options of our major publicly traded competitors. We evaluated the five-day trailing average implied volatility of exchange-traded options with a minimum term of two years. Using the five-day average, we applied linear interpolation to determine the implied volatility for an option with a strike price equal to the underlying stock's current trading level. As of the fourth quarter of 2009, the Company changed its methodology for calculating expected volatility. For the October 2009 grant and forward, we are using an average historical volatility of our peer group over a time period consistent with our expected term assumption. Our peer group was determined based upon companies in our industry with similar business models and is consistent with those used to benchmark our executive compensation.

Expected term. The expected term assumption is estimated using the midpoint between the vesting period and the contractual life of each SAR, in accordance with the SEC's Staff Accounting Bulletin Topic 14, *Share-Based Payment*.

Risk-free interest rate. The risk free interest rate is based on the yields of U.S. Treasury instruments with similar expected lives.

Dividend yield. We have never declared or paid any cash dividends. Consequently, we use an expected dividend yield of zero.

Generally, the expected volatility and expected term assumptions are the main drivers of value under the BSM option-pricing model. Consequently, changes in these assumptions can have a significant impact on the resulting fair value. A 10% change in the expected volatility or the expected term assumption would result in an immaterial change to our overall compensation expense.

The fair value of our SARs granted since January 2008 was estimated using the BSM option pricing model with the following assumptions:

	<u>May 11, 2010 Grant</u>	<u>March 2, 2010 Grant</u>	<u>October 1, 2009 Grant</u>	<u>May 11, 2009 Grant</u>	<u>May 2, 2008 Grant</u>
Expected Volatility	46.27%	45.67%	44.75%	56.50%	40.00%
Expected Life in Years	6.251	6.251	6.167	6.196	6.208
Risk-free Interest Rate	2.689%	2.752%	2.562%	2.417%	3.36%
Annual Dividend Yield	0%	0%	0%	0%	0%

If, in the future, we determine that another method is more reasonable, or, if another method for calculating these input assumptions is prescribed by authoritative guidance, and, therefore, should be used to estimate expected volatility or expected term, the fair value calculated for our stock-based compensation could change significantly. Higher volatility and longer expected term assumptions result in an increase to stock-based compensation expense determined at the date of grant. Stock-based compensation expense affects our selling, general and administrative expense.

We intend to expand the future pool of recipients of stock-based compensation in future periods. Accordingly, we will incur non-cash compensation expense related to the vesting of these future awards.

Our total unearned compensation under our LTIP program was \$18 million and \$16 million as of December 31, 2010 and 2009, respectively, for SARs and \$25 million and \$14 million as of December 31, 2010 and 2009, respectively, for RSUs. We will record these amounts to compensation expense over the next ten years.

Recent Accounting Pronouncements

In December 2010, the FASB released Accounting Standards Update 2010-28 ("ASU 2010-28"), *Intangibles-Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts*. The update requires a company to perform Step 2 of the goodwill impairment test if the carrying value of the reporting unit is zero or negative and adverse qualitative factors indicate that it is more likely than not that a goodwill impairment exists. The qualitative factors to consider are consistent with the existing guidance and examples in Topic 350, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. The requirements in ASU 2010-28 are effective for public companies in the first annual period beginning after December 15, 2010. ASU 2010-28 is not expected to materially impact our consolidated financial statements.

In December 2010, the FASB released Accounting Standards Update 2010-29 ("ASU 2010-29"), *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations*. ASU 2010-29 specifies that when a public company completes a business combination(s), the company should disclose revenue and earnings of the combined entity as though the business combination(s) occurred as of the beginning of the comparable prior annual reporting period. The update also expands the supplemental pro forma disclosures under Topic 805 to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the pro forma revenue and earnings. The requirements in ASU 2010-29 are effective for business combinations that occur on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. We will apply the provisions of ASU 2010-29 on a prospective basis.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk.*

We are exposed to market risk primarily from changes in interest rates and foreign currency exchange rates. In certain situations, we seek to reduce earnings and cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements to provide a hedge against a portion of the risks associated with such volatility. We continue to have exposure to such risks to the extent they are not hedged. We enter into derivative financial arrangements to the extent they meet the objectives described above, and we do not use derivatives for trading or speculative purposes. At December 31, 2010, we were a party to hedging transactions including the use of derivative financial instruments, as discussed below.

Interest Rate Risk

In the normal course of business, we are exposed to the impact of interest rate changes due to our borrowing activities. Our objective is to manage the risk of interest rate changes on the results of operations, cash flows, and the market value of our debt by creating an appropriate balance between our fixed and floating-rate debt. Interest rate derivative transactions, including interest rate swaps, are entered into to maintain a level of exposure to interest rates which the Company deems acceptable.

The majority of our debt has a fixed rate requirement. On August 10, 2009, we issued the 2015 Notes in the amount of \$250 million. Interest on these notes is payable semi-annually on February 15 and August 15, and such interest payments commenced on February 15, 2010. We may redeem all or a portion of the 2015 Notes at any time at our option at 100% of the principal amount of the 2015 Notes redeemed together with accrued and unpaid interest, plus a make-whole amount, if any. The amount of any make-whole payment depends, in part, on the yield of U.S. Treasury securities with a comparable maturity to the 2015 Notes at the date of redemption. In December 2009, we entered into three \$25 million interest rate swap contracts, each of which expires on August 15, 2015 and effectively converts a total of \$75 million of the 2015 Notes to floating rate debt based on three-month LIBOR plus a fixed rate component. In February 2010, we entered into another interest rate swap contract, which also expires on August 15, 2015 and effectively converts an additional \$25 million of the 2015 Notes, for a total of \$100 million, to floating rate debt based on three-month LIBOR plus a fixed rate component. The fixed rate component of each swap varies by contract, with a range from 2.68% to 2.9675%. The fixed to floating interest rate swaps were designated as a fair value hedge as their objective is to protect the senior unsecured notes against changes in fair value due to changes in the three-month LIBOR interest rate. The swaps were designated as fair value hedges at inception and at December 31, 2010 were highly effective in offsetting fluctuations in the fair value of the 2015 Notes. At December 31, 2010, the fixed to floating interest rate swaps were recorded within other assets for \$4 million, offset by a fair value adjustment to long-term debt of \$4 million.

With the addition of the \$100 million of interest rate swaps, our fixed percentage of total debt is roughly 87%. This percentage relates purely to our gross debt balance and does not include the effect of our floating rate cash investments. We will continue to evaluate our fixed debt as a percentage of total debt and it is possible that this percentage will decrease in the future. The fair value of the \$100 million of interest rate swap contracts was \$4 million at December 31, 2010. These hedges were deemed to be highly effective in offsetting fluctuations in

the fair value of the 2015 Notes and as such, the impact to our consolidated statements of income (loss) was insignificant. A hypothetical 10 percent increase or decrease in average market interest rates would decrease or increase the fair value of our interest rate swap contracts by \$1 million and \$1 million, respectively.

Foreign Currency Exposures and Exchange Rate Instruments

We conduct business in various foreign currencies and use foreign currency forward contracts to offset our exposure associated with the fluctuations of certain foreign currencies. These foreign currency exposures typically arise from intercompany loans and other intercompany transactions. The U.S. dollar equivalent of the notional amount of the forward contracts as of December 31, 2010 and 2009 was \$176 million and \$476 million, respectively, all of which expire within the next twelve months. We intend to offset the gains and losses related to our intercompany loans and transactions with gains or losses on our foreign currency forward contracts such that there is a negligible effect to net income (loss) attributable to Hyatt Hotels Corporation. We expect to continue this practice relating to our intercompany loans and transactions, and may also begin to manage the risks associated with other transactional and translational foreign currency volatility within our business.

Item 8. *Financial Statements and Supplementary Data.*

The consolidated financial statements and supplementary data required by Item 8 are contained in Item 15 of this annual report and are incorporated herein by reference.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.*

None.

Item 9A. *Controls and Procedures.*

Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this annual report, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this annual report, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

Management's Report on Internal Control Over Financial Reporting.

Management's Report on Internal Control Over Financial Reporting is included in Part IV, Item 15 of this annual report.

Attestation Report of the Registered Public Accounting Firm.

The Attestation Report of the Registered Public Accounting Firm is included in Part IV, Item 15 of this annual report.

Changes in Internal Control

There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. *Other Information.*

None.

Part III

Item 10. *Directors, Executive Officers and Corporate Governance.*

The information required by this Item 10 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2010 pursuant to Regulation 14A under the Exchange Act in connection with our 2011 annual meeting of stockholders. Information required by this Item 10 appears under the captions: "CORPORATE GOVERNANCE – ELECTION OF DIRECTORS," "CORPORATE GOVERNANCE – OUR BOARD OF DIRECTORS," "CORPORATE GOVERNANCE," "CORPORATE GOVERNANCE – COMMITTEES OF THE BOARD OF DIRECTORS – Nominating and Corporate Governance Committee," "STOCK – SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE" and "CORPORATE GOVERNANCE – COMMITTEES OF THE BOARD OF DIRECTORS – Audit Committee" in the definitive proxy statement. See Part I, "Executive Officers of the Registrant" of this annual report for information regarding executive officers of the Company.

Code of Business Conduct and Ethics

The Company has adopted the Hyatt Hotels Corporation Code of Business Conduct and Ethics (the "Code of Ethics"), which is applicable to all of the Hyatt directors, officers and associates, including the Company's President and Chief Executive Officer, Chief Financial Officer, Principal Accounting Officer or Controller and other senior financial officers performing similar functions. The Code of Ethics is posted on the Company's website at <http://www.hyatt.com>. The Company will furnish a copy of the Code of Ethics to any person, without charge, upon written request directed to: Senior Vice President – Investor Relations, Hyatt Hotels Corporation, 71 South Wacker Drive, Chicago, Illinois 60606. In the event that the Company amends or waives any of the provisions of the Code of Ethics that applies to the Company's Chief Executive Officer, Chief Financial Officer, Principal Accounting Officer or Controller and other senior financial officers performing similar functions, the Company intends to disclose the subsequent information on its website.

Item 11. *Executive Compensation.*

The information required by this Item 11 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2010 pursuant to Regulation 14A under the Exchange Act in connection with our 2011 annual meeting of stockholders.

Information related to this Item 11 appears under the captions: "EXECUTIVE COMPENSATION," "CORPORATE GOVERNANCE – COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION," "CORPORATE GOVERNANCE – COMPENSATION OF DIRECTORS," and "CORPORATE GOVERNANCE – COMPENSATION COMMITTEE REPORT" in the definitive proxy statement.

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.*

The information required by this Item 12 is incorporated by reference to the information set forth in the Company's definitive proxy statement, to be filed with the SEC within 120 days after the end of the Company's fiscal year ended December 31, 2010 pursuant to Regulation 14A under the Exchange Act in connection with our 2011 Annual Meeting of Stockholders.

Information related to this Item 12 appears under the caption: "STOCK – SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT" in the definitive proxy statement.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table provides certain information as of December 31, 2010 about Class A common stock that may be issued under our existing equity compensation plans:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in the First Column)
Equity Compensation Plans			
Approved by Security Holders . . .	3,876,422(1)	\$45.75(2)	6,354,419(3)
Equity Compensation Plans Not			
Approved by Security Holders . . .	<u>0</u>	<u>\$ 0</u>	<u>1,469,195(4)</u>
Total	3,876,422	\$45.75	7,823,614

- (1) Includes (a) SARs to purchase 2,779,506 shares of Class A common stock issued under the LTIP with a weighted average exercise price of \$45.75 (calculated on a one-for-one basis), (b) 1,081,917 shares of Class A common stock to be issued upon the vesting of RSUs issued under the LTIP for which no exercise price will be paid and (c) 14,999 shares of Class A common stock issued pursuant to the ESPP in connection with the October 2010 to December 2010 purchase period (which shares were issued in 2011).
- (2) The calculation of weighted average exercise price includes only outstanding SARs.
- (3) Includes (a) 5,385,554 shares of Class A common stock that remain available for issuance under the LTIP and (b) 968,865 shares of Class A common stock that remain available for issuance pursuant to the ESPP.
- (4) Includes (a) 1,169,195 shares of Class A common stock that remain available for issuance pursuant to the DCP and (b) 300,000 shares of Class A common stock that remain available for issuance pursuant to the FRP.

The DCP and the FRP are non-qualified defined contribution plans. The DCP provides eligible participants employed in the United States with the opportunity to defer any or all compensation, to receive employer matching contributions and to receive discretionary employer contributions. Compensation deferred under the DCP as well as matching and discretionary credits, if any, are credited to a participant's account under the DCP and are held in a rabbi trust, on behalf of the participants. A participant may direct the investment of funds in such participant's account in certain investment funds. In 2010, certain participants were offered a one-time election to have up to 15% of certain fully vested and nonforfeitable accounts invested in Class A common stock (with the account balances being calculated as of June 1, 2010). In connection with such elections, 30,805 shares of Class A common stock were issued to the trustee of the DCP. The number of shares of Class A common stock to be allocated to each electing participant's account was determined by dividing the dollar amount of such participant's elected percentage of their account balances by the closing price of Class A common stock on June 2, 2010. The shares of Class A common stock held in such accounts are held in the trust on behalf of the participant until distributed upon termination of employment. Participants' accounts under the DCP generally are distributed in cash. However, the portion of the participant's account invested in Class A common stock will be distributed in shares of Class A common stock. The material terms of the FRP are the same as the material terms of the DCP; however, the FRP includes an employer contribution schedule based on age and years of service. Participants in the FRP are employees located outside of the United States. Participants in the FRP have not been given an election to invest their accounts in Class A common stock due to international securities law considerations. However, the board of directors has reserved 300,000 shares of Class A common stock for issuance under the FRP in the event that participants in FRP are given such an election in the future.

Item 13. *Certain Relationships and Related Transactions, and Director Independence.*

**MANAGEMENT'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING**

The management of Hyatt Hotels Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Hyatt Hotels Corporation's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Hyatt Hotels Corporation; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of Hyatt Hotels Corporation are being made only in accordance with authorizations of Hyatt Hotels Corporation's management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets of Hyatt Hotels Corporation that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of Hyatt Hotels Corporation's internal control over financial reporting as of December 31, 2010. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework*. Based on this assessment, management determined that Hyatt Hotels Corporation maintained effective internal control over financial reporting as of December 31, 2010.

Deloitte & Touche LLP, the independent registered public accounting firm that has audited the consolidated financial statements included in this Annual Report on Form 10-K, has issued an attestation report on Hyatt Hotels Corporation's internal control over financial reporting as of December 31, 2010. That report is included in Item 15 of this Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Hyatt Hotels Corporation
Chicago, Illinois

We have audited the accompanying consolidated balance sheets of Hyatt Hotels Corporation and subsidiaries (the "Company") as of December 31, 2010 and 2009, and the related consolidated statements of income (loss), changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Hyatt Hotels Corporation and subsidiaries as of December 31, 2010 and 2009, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 17, 2011 expressed an unqualified opinion on the Company's internal control over financial reporting.

/s/ DELOITTE & TOUCHE LLP
Chicago, Illinois
February 17, 2011

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Hyatt Hotels Corporation
Chicago, Illinois

We have audited the internal control over financial reporting of Hyatt Hotels Corporation and subsidiaries (the "Company") as of December 31, 2010, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2010 of the Company and our report dated February 17, 2011 expressed an unqualified opinion on those financial statements and financial statement schedule.

HYATT HOTELS CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in millions, unless otherwise indicated)

1. ORGANIZATION

Hyatt Hotels Corporation, a Delaware corporation, and its consolidated subsidiaries (“Hyatt Hotels Corporation”), provide hospitality services on a worldwide basis through the management, franchising and ownership of hospitality related businesses. We operate or franchise 234 full-service, Hyatt-branded hotels, consisting of 100,290 rooms, in 45 countries throughout the world. We hold ownership interests in certain of these hotels. We operate or franchise 195 select-service, Hyatt-branded hotels with 25,016 rooms in the United States and Canada. We hold ownership interests in certain of these hotels. We develop, operate, manage, license or provide services to Hyatt-branded timeshare, fractional and other forms of residential or vacation properties.

Our North American management and hotel ownership company, Hyatt Corporation, was founded in 1957. Our international management and hotel ownership company, Hyatt International Corporation, was founded in 1968. On August 4, 2004, our predecessor, Global Hyatt, Inc., was incorporated in Delaware as a holding company to combine our North American and international hospitality operations and increase the scale and scope of our company. Effective October 13, 2004, the name Global Hyatt, Inc. was changed to Global Hyatt Corporation. Effective June 30, 2009, Global Hyatt Corporation changed its name to Hyatt Hotels Corporation. On November 10, 2009, we completed our initial public offering (“IPO”) of Class A common stock in which a total of 43.7 million shares were sold at an initial public offering price of \$25.00 per share. This included the sale of 38 million shares by selling stockholders and 5.7 million shares sold by us pursuant to the underwriters’ full exercise of their over-allotment option. See Note 17.

As used in these Notes, the terms “Company,” “HHC,” “we,” “us,” or “our” mean Hyatt Hotels Corporation and its consolidated subsidiaries.

As used in these Notes, the term “Pritzker family business interests” means (1) various lineal descendants of Nicholas J. Pritzker (deceased) and spouses and adopted children of such descendants; (2) various trusts for the benefit of the individuals described in clause (1) and trustees thereof; and (3) various entities owned and/or controlled, directly and/or indirectly, by the individuals and trusts described in (1) and (2).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation—The consolidated financial statements present the results of operations, financial position, and cash flows of Hyatt Hotels Corporation and its majority owned and controlled subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates—We are required to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ materially from such estimated amounts.

Revenue Recognition—Our revenues are primarily derived from the following sources and are generally recognized when services have been rendered:

- Owned and leased hotel revenues are derived from room rentals and services provided at our owned, leased, and consolidated hospitality venture properties and are recorded when rooms are occupied and services have been rendered. Sales and occupancy taxes are recorded on a net basis in the consolidated statements of income (loss).
- Management and franchise fees earned from hotels managed and franchised worldwide:
 - Management fees primarily consist of a base fee, which is generally computed as a percentage of gross revenues, and an incentive fee, which is generally computed based on a hotel profitability

measure. Base fee revenues are recognized when earned in accordance with the terms of the contract. We recognize incentive fees that would be due as if the contract were to terminate at that date, exclusive of any termination fees payable or receivable by us.

- Realized gains from the sale of hotel real estate assets where we maintain substantial continuing involvement in the form of a long-term management contract are deferred and recognized as management fee revenue over the term of the underlying management contract.
- Franchise fees are generally based on a percentage of hotel rooms' revenues and are recognized as the fees are earned and become due from the franchisee when all material services or conditions relating to the sale have been substantially performed or satisfied by the franchisor.
- Other revenues
 - Other revenues primarily include revenues from our vacation ownership business. We recognize vacation ownership revenue when a minimum of 10% of the purchase price for the interval has been received, the period of cancellation with refund has expired, and receivables are deemed collectible. For sales that do not qualify for full revenue recognition as the project has progressed beyond the preliminary stages but has not yet reached completion, all revenue and associated direct expenses are initially deferred and recognized in earnings through the percentage-of-completion method.
 - Other revenues from managed properties represent the reimbursement of costs incurred on behalf of the owners of hotel properties we manage. These costs relate primarily to payroll costs at managed properties where we are the employer. Since the reimbursements are made based upon the costs incurred with no added margin, these revenues and corresponding expenses have no effect on our net income.

Cash Equivalents—We consider all highly liquid investments purchased with an original maturity of three months or less at the date of purchase to be cash equivalents.

Restricted Cash—We had restricted cash of \$106 million and \$11 million at December 31, 2010 and 2009, respectively. Of these amounts, \$97 million and \$0 related to like-kind exchange agreements under which proceeds from sales were placed into an escrow account administered by an intermediary (see Note 8). The remaining \$9 million and \$11 million in 2010 and 2009, respectively, relates to secured real estate taxes, property insurance, escrow deposits on purchases of our vacation ownership intervals, security deposits, property and equipment reserves, and long-term loans. These amounts are invested in interest-bearing accounts.

Investments—We consolidate entities under our control, including entities where we are deemed to be the primary beneficiary as a result of qualitative and/or quantitative characteristics. The primary beneficiary is the party who has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and who has an obligation to absorb losses of the entity or a right to receive benefits from the entity that could potentially be significant to the entity. Investments in unconsolidated affiliates over which we exercise significant influence, but do not control, including joint ventures, are accounted for by the equity method. In addition, our limited partnership investments in which we hold more than a minimal investment are accounted for under the equity method of accounting. Investments in unconsolidated affiliates over which we are not able to exercise significant influence are accounted for under the cost method.

Marketable Securities—Our investments in marketable securities are principally included within short-term investments and other assets in the consolidated balance sheets and are classified as either trading or available-for-sale (see Note 4). Marketable securities are recorded at fair value based on listed market prices or dealer price quotations where available.

Our marketable securities consist of various types of U.S. Treasury securities and agencies, mutual funds, common stock and fixed income securities, including government and corporate bonds. Realized and unrealized

gains and losses on trading securities are reflected in the consolidated statements of income (loss) in other income (loss), net. Available-for-sale securities with unrealized gains and losses are reported as part of accumulated other comprehensive loss on the consolidated balance sheets. Realized gains and losses on available-for-sale securities are recognized in other income (loss), net based on the cost of the securities using specific identification. Available-for-sale securities are assessed for impairment quarterly. To determine if an impairment is other-than-temporary, we consider the duration and severity of the loss position, the strength of the underlying collateral, the term to maturity, credit rating and our intent to sell. For debt securities that are deemed other-than-temporarily impaired and there is no intent to sell, impairments are separated into the amount related to the credit loss, which is recorded in our consolidated statements of income (loss) and the amount related to all other factors, which is recorded in accumulated other comprehensive loss. For debt securities that are deemed other-than-temporarily impaired and there is intent to sell, impairments in their entirety are recorded in our consolidated statements of income (loss).

Other Income (Loss), Net—Other income (loss), net includes interest income, gains (losses) on other marketable securities (see Note 4), income from cost method investments (see Note 3), foreign currency gains (losses) including gains (losses) on foreign currency exchange rate instruments (see Note 12), costs related to the repurchase of \$600 million of 5.84% senior subordinated notes due 2013 and early settlement of a stock subscription agreement (the “Subscription Agreement”) (see Notes 10 and 17), provisions on hotel loans (see Note 7), and gain on extinguishment of debt (see Notes 8 and 10)) The table below provides a reconciliation of the components in other income (loss), net for the years ended December 31, 2010, 2009 and 2008, respectively:

	For the years ended December 31,		
	2010	2009	2008
Interest income	\$ 21	\$ 21	\$ 23
Gains (losses) on other marketable securities	19	10	(37)
Income from cost method investments	—	22	64
Foreign currency gains (losses)	(3)	5	(23)
Debt settlement costs	—	(93)	—
Provisions on hotel loans	(1)	(9)	—
Gain on extinguishment of debt	35	—	—
Other	—	(4)	(4)
Other income (loss), net	<u>\$ 71</u>	<u>\$(48)</u>	<u>\$ 23</u>

Foreign Currency—The functional currency of our consolidated and nonconsolidated entities located outside the United States of America is generally the local currency. The assets and liabilities of these entities are translated into U.S. dollars at year-end exchange rates, and the related gains and losses, net of applicable deferred income taxes, are reflected in stockholders’ equity. Gains and losses from foreign currency transactions are included in earnings. Income and expense accounts are translated at the average exchange rate for the period. Gains and losses from foreign exchange rate changes related to intercompany receivables and payables of a long-term nature are generally included in other comprehensive income. Gains and losses from foreign exchange rate movement related to intercompany receivables and payables that are not of a long-term nature are reported currently in income.

Financing Receivables—We define financing receivables as financing arrangements that represent a contractual right to receive money either on demand or on fixed or determinable dates and that are recognized as an asset on our consolidated balance sheets. We record all financing receivables at amortized cost in current and long-term receivables. We recognize interest income as earned and provide an allowance for cancellations and defaults. We have divided our financing receivables into three portfolio segments based on the level at which we develop and document a systematic methodology to determine the allowance for credit losses. Based on their initial measurement, risk characteristics and our method for monitoring and assessing credit risk, we have

determined the class of financing receivables to correspond to our identified portfolio segments as follows:

- Secured Financing to Hotel Owners
 - These financing receivables are senior, secured mortgage loans and are collateralized by underlying hotel properties currently in operation. We individually assess all loans in this portfolio for impairment. We determine a loan to be impaired if it is probable that we will be unable to collect all amounts due in accordance with the contractual terms of the individual loan agreement. This assessment is based on an analysis of several factors including current economic conditions and industry trends, as well as the specific risk characteristics of the portfolio including loan performance, individual market factors, hotel performance, and the collateral of the underlying hotel. We measure loan impairment based on either the present value of expected future cash flows discounted at the loan's effective interest rate or estimated the fair value of the collateral. The measurement method used is based on which would be most appropriate given the nature of the loan, the underlying collateral, and the facts and circumstances of the individual loan. For impaired loans, we establish a specific loan loss reserve for the difference between the recorded investment in the loan and the present value of the expected future cash flows or the estimated fair value of the collateral. The loan loss reserve is maintained at a level deemed adequate by management based on a periodic analysis of the individual loans.
 - We determine our secured financing to hotel owners to be past due based on the contractual terms of the individual mortgage loans. We do not recognize interest income on secured financing to hotel owners if the loan has been determined to be non-performing. We only resume interest recognition on these loans when the loan becomes current. We write off secured financing to hotel owners when we determine that the loans are uncollectible and when all commercially reasonable means of recovering the loan balances have been exhausted.
- Vacation Ownership Mortgage Receivables
 - These financing receivables are comprised of various mortgage loans related to our financing of vacation ownership interval sales. We record an estimate of uncollectibility as a reduction of sales revenue at the time revenue is recognized on a vacation ownership interval sale. We evaluate this portfolio collectively as we hold a large group of smaller-balance homogenous vacation ownership mortgage receivables and use a technique referred to as static pool analysis, which tracks uncollectibles over the entire life of those mortgage receivables. We use the static pool analysis as the basis for determining our general reserve requirements on our vacation ownership mortgage receivables. The adequacy of the related allowance is determined by management through analysis of several factors, such as current economic conditions and industry trends, as well as the specific risk characteristics of the portfolio including defaults, aging and historical write-offs of these receivables. The allowance is maintained at a level deemed adequate by management based on a periodic analysis of the mortgage portfolio.
 - We determine our vacation ownership mortgage receivables to be past due based on the contractual terms of the individual mortgage loans. We do not recognize interest income and write-off vacation ownership mortgage receivables that are over 120 days past due, the date on which we determine the mortgage receivables to be uncollectible.
- Unsecured Financing to Hotel Owners
 - These financing receivables are primarily made up of individual loans and other types of unsecured financing arrangements provided to hotel owners. We individually assess all financing receivables in this portfolio for collectability and impairment. We determine a loan to be impaired if it is probable that we will be unable to collect all amounts due according to the contractual terms of the individual loan agreement based on an analysis of several factors including current economic conditions and industry trends, as well as the specific risk characteristics of the portfolio including capital structure, individual hotel performance, and individual financing arrangement. We measure loan impairment based on the present value of expected future cash flows discounted at the loan's

effective interest rate. For impaired loans, we establish a specific impairment reserve for the difference between the recorded investment in the loan and the present value of the expected future cash flows. The impairment reserve is maintained at a level deemed adequate by management based on a periodic analysis of the individual loans.

- We determine our unsecured financing to hotel owners to be past due based on the contractual terms of the individual financing agreements. We do not recognize interest income on unsecured financing to hotel owners for notes that are greater than 90 days past due and only resume interest recognition if the financing receivable becomes current. We write off unsecured financing to hotel owners when we determine that the receivables are uncollectible and when all commercially reasonable means of recovering the receivable balances have been exhausted.

Inventories—Inventories are comprised principally of unsold vacation ownership intervals of \$85 million and \$118 million at December 31, 2010 and 2009, respectively, and food and beverage inventories at our owned and leased hotels. Vacation ownership inventory is carried at the lower of cost or market, based on relative sales value or net realizable value. Food and beverage inventories are generally valued at the lower of cost (first-in, first-out) or market. Vacation ownership interval products inventory, which has an operating cycle that exceeds 12 months, is classified as a current asset consistent with recognized industry practice. During the fourth quarter of 2010, management changed its plans for future development at two multi-phase vacation ownership properties, resulting in an impairment charge of \$30 million recorded to asset impairments. In one of these vacation ownership properties, our ownership interest is less than 100%. As a result, \$9 million of this impairment charge is attributable to our partner and is reflected in net loss (income) attributable to noncontrolling interests. As a result the net total impairment charge attributable to Hyatt Hotels Corporation of \$21 million. During the year ending December 31, 2009, we reclassified \$47 million in vacation ownership inventory to property and equipment as we have changed our intended use with respect to certain of our vacation ownership units.

Property and Equipment—Property and equipment are stated at cost, including interest incurred during development and construction periods. Depreciation and amortization are provided over the estimated useful lives of the assets, primarily on the straight-line method. All repair and maintenance costs are expensed as incurred.

Useful lives assigned to property and equipment are as follows:

Buildings and improvements	15–50 years
Leasehold improvements	The shorter of the lease term or useful life of asset
Furniture and equipment	2–21 years
Computers	3–6 years

Long-Lived Assets and Definite-Lived Intangibles—We evaluate the carrying value of our long-lived assets and definite-lived intangibles for impairment by comparing the expected undiscounted future cash flows of the assets to the net book value of the assets when events or circumstances indicate that the carrying amount of a long-lived asset may not be recoverable. If the expected undiscounted future cash flows are less than the net book value of the assets, the excess of the net book value over the estimated fair value is charged to earnings. Fair value is based upon discounted cash flows of the assets at a rate deemed reasonable for the type of asset and prevailing market conditions, appraisals, and, if appropriate, current estimated net sales proceeds from pending offers. We evaluate the carrying value of our long-lived assets and definite-lived intangibles based on our plans, at the time, for such assets and such qualitative factors as future development in the surrounding area and status of expected local competition. Changes to our plans, including a decision to dispose of or change the intended use of an asset, can have a material impact on the carrying value of the asset.

Goodwill—We evaluate goodwill for impairment on an annual basis during the fourth quarter of each year using balances as of the end of September and at an interim date if indications of impairment exist. Goodwill

impairment is determined by comparing the fair value of a reporting unit to its carrying amount with an impairment being recognized only where the fair value is less than carrying value. See Note 9 for additional information about goodwill.

Income Taxes—We account for income taxes to recognize the amount of taxes payable or refundable for the current year and the amount of deferred tax assets and liabilities resulting from the future tax consequences of differences between the financial statements and tax basis of the respective assets and liabilities. We recognize the financial statement effect of a tax position when, based on the technical merits of the uncertain tax position, it is more likely than not to be sustained on a review by taxing authorities. These estimates are based on judgments made with currently available information. We review these estimates and make changes to recorded amounts of uncertain tax positions as facts and circumstances warrant. For additional information about income taxes, see Note 15.

Fair Value—We disclose the fair value of our financial assets and liabilities based on observable market information where available, or on market participant assumptions. These assumptions are subjective in nature, involve matters of judgment, and, therefore, fair values cannot always be determined with precision.

The carrying values of cash equivalents, accounts receivable, notes receivable – current, accounts payable and current maturities of long-term debt approximate fair value due to the short-term nature of these items and their close proximity to maturity.

For additional information about fair value, see Note 5. The fair value of marketable securities is discussed in Note 4; the fair value of notes receivable is discussed in Note 7; and the fair value of long-term debt is discussed in Note 10.

Hyatt Gold Passport Fund—The Hyatt Gold Passport Program (the “Program”) is our loyalty program. We operate the Program for the benefit of Hyatt branded properties, whether owned, operated, managed, or franchised by us. The Program is operated through the Hyatt Gold Passport Fund, which is an entity that is owned collectively by the owners of Hyatt branded properties, whether owned, operated, managed or franchised by us. The Hyatt Gold Passport Fund (the “Fund”) has been established to provide for the payment of operating expenses and redemptions of member awards associated with the Program. The Fund is maintained and managed by us on behalf of and for the benefit of Hyatt branded properties. We have evaluated our investment in the Fund and have determined that the Fund qualifies as a variable interest entity (“VIE”) and, as a result of the Company being the primary beneficiary, we have consolidated the Fund.

The Program allows members to earn points based on their spending at Hyatt branded properties. Points earned by members can be redeemed for goods and services at Hyatt branded properties, and to a lesser degree, through other redemption opportunities with third parties, such as the conversion to airline miles. Points cannot be redeemed for cash. We charge the cost of operating the Program, including the estimated cost of award redemption, to the hotel properties based on members’ qualified expenditures. Due to the requirements under the Program that the hotel properties reimburse us for the Program’s operating costs as incurred, we recognize this revenue from properties at the time such costs are incurred and expensed. We defer revenue received from the hotel properties equal to the fair value of our future redemption obligation. Upon the redemption of points, we recognize as revenue the amounts previously deferred and recognize the corresponding expense relating to the costs of the awards redeemed. Revenue is recognized by the hotel properties when the points are redeemed, and expenses are recognized when the points are earned by the members.

We actuarially determine the expected fair value of the future redemption obligation based on statistical formulas that project the timing of future point redemption based on historical experience, including an estimate of the “breakage” for points that will never be redeemed, and an estimate of the points that will eventually be redeemed. Actual expenditures for the Program may differ from the actuarially determined liability.

The Fund is financed by payments from the properties and returns on marketable securities. The Fund invests amounts received from the properties in marketable securities (see Note 4). As of December 31, 2010 and

2009, total assets of the Fund were \$279 million and \$293 million, respectively, including \$53 million and \$50 million of current assets, respectively. Marketable securities held by the Fund and included in other noncurrent assets were \$226 million and \$243 million as of December 31, 2010 and 2009, respectively (see Note 4). As of December 31, 2010 and 2009, total liabilities of the Fund were \$279 million and \$293 million, respectively, including \$53 million and \$50 million of current liabilities, respectively. The non-current liabilities of the Fund are included in other long-term liabilities (see Note 14).

Recently Issued Accounting Pronouncements

Adopted Accounting Standards

In July 2010, the Financial Accounting Standards Board (“FASB”) released Accounting Standards Update No. 2010-20 (“ASU 2010-20”), *Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses*. The update requires companies to enhance disclosure about the credit quality of financing receivables and the allowance for credit losses, including credit quality indicators, non-accrual and past due information, impaired loans, and modifications of financing receivables. ASU 2010-20 became effective for financial statements issued for interim or annual reporting periods ending on or after December 15, 2010. The adoption of ASU 2010-20 as of December 31, 2010 did not have a material impact on our consolidated financial statements. See Note 7 for the required financing receivable disclosures.

In January 2011, the FASB released Accounting Standards Update No. 2011-01 (“ASU No. 2011-01”), *Receivables (Topic 310): Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20*, which deferred the disclosure requirements surrounding troubled debt restructurings. Currently, this additional guidance is anticipated to be effective for reporting periods ending June 15, 2011 and is not expected to have a material impact on our current financing receivable disclosures.

In January 2010, the FASB issued Accounting Standards Update No. 2010-02 (“ASU 2010-02”), *Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary—a Scope Clarification*. The update provides clarification that the guidance is applicable to (a) a subsidiary or group of assets that is a business or nonprofit activity, (b) a subsidiary that is a business or nonprofit activity that is transferred to an equity method investee or joint venture, and (c) an exchange of a group of assets that constitute a business or nonprofit activity for a non-controlling interest in an entity (including an equity method investee or joint venture). The deconsolidation provisions and gain/loss guidance do not apply to transactions that are in substance the sale or partial sale of real estate. The update also requires additional disclosures when a subsidiary is deconsolidated. ASU 2010-02 became effective for financial statements issued for interim or annual reporting periods ending on or after December 15, 2009. The adoption of ASU 2010-02 did not have a material impact on our consolidated financial statements.

In January 2010, the FASB released Accounting Standards Update No. 2010-06 (“ASU 2010-06”), *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurement*. The update requires the Company to (a) disclose significant transfers in and out of Levels One and Two, in addition to transfers in and out of Level Three and (b) separately disclose purchases, sales, issuances, and settlements of our Level Three securities. Additionally, ASU 2010-06 clarifies the information we currently disclose regarding our valuation techniques, inputs used in those valuation models, and the level of detail at which fair value disclosures should be provided. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disaggregation of the Level Three activity, which is effective for interim and annual periods beginning after December 15, 2010. We have adopted ASU 2010-06 as of January 1, 2010 (with the exception of disaggregation of Level Three activity) with no material impact on our consolidated financial statements. See Note 5 for discussion of fair value.

In June 2009, the FASB amended Accounting Standards Update 2009-17 (“ASU 2009-17”). The amendment changes the consolidation rules related to a variable interest entity (“VIE”). ASU 2009-17 expands the primary beneficiary analysis to incorporate a qualitative review of which entity controls and directs the activities of the VIE. The amendments also modify the rules regarding the frequency of ongoing reassessments of

whether a company is the primary beneficiary. Under the revised guidance, companies are required to perform ongoing reassessments as opposed to only when certain triggering events occur, as was previously required. The amendments were effective for the first annual reporting period beginning after November 15, 2009 and for interim periods therein. We adopted ASU 2009-17 as of January 1, 2010 with no material impact on our consolidated financial statements.

Future Adoption of Accounting Standards

In December 2010, the FASB released Accounting Standards Update 2010-28 (“ASU 2010-28”), *Intangibles-Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts*. The update requires a company to perform Step 2 of the goodwill impairment test if the carrying value of the reporting unit is zero or negative and adverse qualitative factors indicate that it is more likely than not that a goodwill impairment exists. The qualitative factors to consider are consistent with the existing guidance and examples in Topic 350, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. The requirements in ASU 2010-28 are effective for public companies in the first annual period beginning after December 15, 2010. ASU 2010-28 is not expected to materially impact to our consolidated financial statements.

In December 2010, the FASB released Accounting Standards Update 2010-29 (“ASU 2010-29”), *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations*. ASU 2010-29 specifies that when a public company completes a business combination(s), the company should disclose revenue and earnings of the combined entity as though the business combination(s) occurred as of the beginning of the comparable prior annual reporting period. The update also expands the supplemental pro forma disclosures under Topic 805 to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the pro forma revenue and earnings. The requirements in ASU 2010-29 are effective for business combinations that occur on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. We will apply the provisions of ASU 2010-29 on a prospective basis.

3. EQUITY AND COST METHOD INVESTMENTS

We have investments that are recorded under both the equity and cost methods. Those investments categorized as hospitality ventures are primarily recorded under the equity method. These investments are considered to be an integral part of our business and are strategically and operationally important to our overall results. Our equity and cost method investment balances recorded at December 31, 2010 and 2009 are as follows:

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Equity method investments	\$175	\$213
Cost method investments	<u>70</u>	<u>10</u>
Total investments	<u>\$245</u>	<u>\$223</u>

Our income (loss) from equity method investments included in the consolidated statements of income (loss) for the years ended December 31, 2010, 2009, and 2008, were \$(40) million, \$(13) million, and \$14 million, respectively. Income from cost method investments included in our consolidated statements of income (loss) for the years ended December 31, 2010, 2009, and 2008 were \$0, \$22 million, and \$64 million, respectively, and are included in other income (loss), net.

The carrying value and ownership percentages of our unconsolidated investments in hotel and vacation properties accounted for under the equity method as of December 31, 2010 and 2009 are as follows:

	Ownership Interests	Our Investment	
		December 31, 2010	December 31, 2009
Juniper Hotels Private Ltd	50.0%	\$ 44	\$ 40
Hotel Investments, LP	30.0%	25	28
Nuevo Plaza Hotel Mendoza Limited	50.0%	17	17
Hedreen Hotel, LLC	50.0%	17	17
Sao Paulo Investment Company Inc.	50.0%	12	9
Hedreen Hotel Two, LLC	50.0%	9	22
Grand Aspen Holdings, LLC & Top of Mill Investors, LLC	25.8%	7	7
PCH Beach Resort, LLC	40.0%	6	7
SHCP Hotel, LLC/SHCP Operating Entity, LLC	50.0%	6	6
Sugar Land/HP, LLC	50.0%	5	4
Other		27	56
Total		<u>\$175</u>	<u>\$213</u>

The following tables present summarized financial information for all unconsolidated ventures in which we hold an investment that is accounted for under the equity method.

	For the Year Ended December 31,		
	2010	2009	2008
Total revenues	\$846	\$707	\$572
Gross operating profit	264	234	212
Income (loss) from continuing operations	(10)	(49)	47
Net income (loss)	<u>\$ (10)</u>	<u>\$ (49)</u>	<u>\$ 47</u>

	As of December 31,	
	2010	2009
Current Assets	\$ 370	\$ 281
Noncurrent Assets	1,974	1,891
Total Assets	\$2,344	\$2,172
Current Liabilities	\$ 212	\$ 208
Noncurrent Liabilities	1,688	1,651
Total Liabilities	\$1,900	\$1,859

In July 2010, we entered into an agreement with an independent third party to acquire an interest in a hospitality venture that owns the Hyatt Regency New Orleans. We contributed cash of \$60 million for a preferred equity interest in this venture, which plans to complete the renovation and reopening of the hotel in late 2011. The hotel was closed in September 2005 due to damage from Hurricane Katrina. This investment is being accounted for under the cost method.

In 2007, we entered into contract negotiations for the purchase of an equity interest in a hospitality venture, which would ultimately acquire a hotel property in Waikiki, Hawaii. In connection with these negotiations, in July 2008, we paid \$7 million for a 9.99% equity interest in the acquired hotel property in Waikiki, Hawaii. The hotel acquisition was financed from the equity interests in the venture, a third party mezzanine loan, as well as a senior loan from us for \$278 million, which has been recorded as a note receivable (see Note 7) on our consolidated balance sheets. The senior loan matured in July 2010, at which time the joint venture exercised a

one-year option to extend the maturity to July 2011. Pursuant to an option in the loan, the joint venture has two remaining one-year options to extend through 2013. The senior loan earns interest at a 30-day London InterBank Offered Rate ("LIBOR") plus 3.8%.

During 2010, 2009 and 2008 we recorded \$31 million, \$14 million and \$19 million in total impairment charges in equity earnings (losses) from unconsolidated hospitality ventures. In connection with the economic downturn and certain other factors, we identified certain indicators in 2010 and 2009 relative to our hospitality venture investments and as a result, reassessed the expected future cash flows of these ventures. In connection with these assessments, we determined that we had an other than temporary impairment of two of our hospitality ventures during 2010 and two of our hospitality ventures during 2009. We recorded \$16 million and \$11 million of impairment charges in 2010 and 2009, respectively, relating to these hospitality venture properties due to the carrying amount of the assets exceeding the fair value as calculated using discounted operating cash flows and a determination that the decline was other than temporary. In 2010, 2009 and 2008, we reviewed our vacation ownership projects held through equity method investments for potential impairment. These reviews were prompted by the economic downturn, the related tightening of mortgage financing availability, and the resulting decrease in the pace of sales contracts written for our vacation ownership projects. We estimated the current fair value of these investments based on discounted future cash flow projections, which reflected decreases in annual sales pace and/or price. Based on the resulting fair value estimates, we recorded \$15 million in impairment charges for two vacation ownership equity method investments in 2010, \$3 million in impairment charges for one vacation ownership equity method investment in 2009 and \$19 million in impairment charges for three vacation ownership equity method investments in 2008. These impairment charges are included in equity earnings (losses) from unconsolidated hospitality ventures.

We have interests in certain non-hospitality related real estate investment companies from which we received \$0, \$21 million and \$0 during 2010, 2009 and 2008, respectively, which are included in other income (loss), net in our consolidated statements of income (loss).

During the years ended December 31, 2010, 2009 and 2008, we recorded \$0, \$1 million and \$62 million, respectively, of preferred returns and other returns of capital, which are included in other income (loss), net in our consolidated statements of income (loss), related to distributions from three privately held investment entities, which invest in life science technology companies and are managed by an affiliate. On January 24, 2008, we received distributions of \$184 million from these investments, representing all of the preferred returns and return of capital of \$122 million. We do not expect material distributions from these investments in the future.

4. MARKETABLE SECURITIES

We hold marketable securities to fund certain operating programs and for investment purposes. Marketable securities held to fund operating programs are recorded in other assets and prepaids and other assets. Marketable securities held for investment purposes are recorded in short-term investments.

Marketable Securities Held to Fund Operating Programs—At December 31, 2010 and 2009, total marketable securities held for the Gold Passport Fund (See Note 2) and certain deferred compensation plans (see Note 13), carried at fair value and included in the consolidated balance sheets were as follows:

	December 31, 2010	December 31, 2009
Marketable securities held by the Gold Passport Fund	\$247	\$270
Marketable securities held to fund deferred compensation plans	244	192
Other marketable securities held for operating programs	—	2
Total marketable securities	<u>\$491</u>	<u>\$464</u>
Less current portion of marketable securities held for operating programs included in prepaids and other assets	<u>(22)</u>	<u>(28)</u>
Marketable securities included in other assets	<u>\$469</u>	<u>\$436</u>

Included in net gains (losses) and interest income from marketable securities held to fund operating programs in the consolidated statements of income (loss) are \$5 million, \$4 million and \$2 million of realized and unrealized (losses) gains and interest income, net related to marketable securities held by the Gold Passport Fund for the years ended December 31, 2010, 2009, and 2008, respectively. Also included are \$16 million, \$25 million, and \$(38) million of net realized and unrealized gains (losses) related to marketable securities held to fund deferred compensation plans for the years ended December 31, 2010, 2009, and 2008, respectively.

Marketable Securities Held for Investment Purposes—In 2010 we began transferring cash and cash equivalent balances to investments in highly liquid and transparent commercial paper, corporate notes and bonds and U.S. treasuries and agencies. At December 31, 2010 and 2009, total marketable securities held for investment purposes, carried at fair value and included in the consolidated balance sheets were as follows:

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Available for sale investments	\$403	\$—
Time deposits	80	81
Other marketable securities	<u>41</u>	<u>23</u>
Total short-term investments	<u>\$524</u>	<u>\$104</u>

Gains (losses) on other marketable securities of \$19 million, \$10 million and \$(37) million for the years ended December 31, 2010, 2009 and 2008, respectively are included in other income (loss), net (see Note 2).

Included in our portfolio of marketable securities are investments in debt and equity securities classified as available for sale. At December 31, 2010 these were as follows:

	<u>December 31, 2010</u>			
	<u>Cost or Amortized Cost</u>	<u>Gross Unrealized Gain</u>	<u>Gross Unrealized Loss</u>	<u>Fair Value</u>
Corporate debt securities	\$366	\$ 2	\$ (2)	\$366
U.S. government agencies	28	—	—	28
Equity securities	<u>9</u>	<u>—</u>	<u>—</u>	<u>9</u>
Total	<u>\$403</u>	<u>\$ 2</u>	<u>\$ (2)</u>	<u>\$403</u>

Gross realized gains and losses on available for sale securities were insignificant for the years ended December 31, 2010, 2009 and 2008. At December 31, 2009, we had no investments in debt or equity securities that were classified as available for sale.

The table below summarizes available for sale fixed maturity securities by contractual maturity at December 31, 2010. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid with or without call or prepayment penalties. Securities not due at a single date are allocated based on weighted average life. Although a portion of our available for sale fixed maturity securities mature after one year, we have chosen to classify the entire portfolio as current. The portfolio's primary objective is to maximize return, but it also is intended to provide liquidity to satisfy operating requirements, working capital purposes and strategic initiatives. Therefore, since these securities represent funds available for current operations, the entire investment portfolio is classified as current assets.

	<u>December 31, 2010</u>	
<u>Contractual Maturity</u>	<u>Cost or Amortized Cost</u>	<u>Fair Value</u>
Due in one year or less	\$222	\$222
Due in one to two years	<u>172</u>	<u>172</u>
Total	<u>\$394</u>	<u>\$394</u>

5. FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accounting Principles Generally Accepted in the United States of America ("GAAP") establishes a valuation hierarchy for prioritizing the inputs and the hierarchy places greater emphasis on the use of observable market inputs and less emphasis on unobservable inputs. When determining fair value, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the hierarchy are as follows:

Level One—Fair values based on unadjusted quoted prices in active markets for identical assets and liabilities;

Level Two—Fair values based on quoted market prices for similar assets and liabilities in active markets, quoted prices in inactive markets for identical assets and liabilities, and inputs other than quoted market prices that are observable for the asset or liability;

Level Three— Fair values based on inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. Valuation techniques could include the use of discounted cash flow models and similar techniques.

We have various financial instruments that are measured at fair value including certain marketable securities and derivatives instruments. We currently do not have non-financial assets or non-financial liabilities that are required to be measured at fair value on a recurring basis.

We utilize the market approach and income approach for valuing our financial instruments. The market approach utilizes prices and information generated by market transactions involving identical or similar assets and liabilities and the income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). For instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy.

As of December 31, 2010 and 2009, we had the following financial assets and liabilities measured at fair value on a recurring basis:

	<u>December 31, 2010</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level One)</u>	<u>Significant Other Observable Inputs (Level Two)</u>	<u>Significant Unobservable Inputs (Level Three)</u>
Marketable securities included in short-term investments, prepaids and other assets and other assets

	1,140	1,140	—	—
Derivative instruments				
Interest rate swaps	(1)	—	(1)	—
Foreign currency forward contracts	6	—	6	—

Our portfolio of marketable securities consists of various types of U.S. Treasury securities, mutual funds, common stock, and fixed income securities, including government and corporate bonds. The fair value of our mutual funds and certain equity securities were classified as level one as they trade with sufficient frequency and

volume to enable us to obtain pricing information on an ongoing basis. The remaining securities, except for certain mortgage backed securities, were classified as Level Two due to the use and weighting of multiple market inputs being considered in the final price of the security. Market inputs include quoted market prices from active markets for identical securities, quoted market prices for identical securities in inactive markets, and quoted market prices in active and inactive markets for similar securities. See Note 4 for further details on our marketable securities.

We invest a portion of our cash balance into short-term interest bearing money market funds that have a maturity of less than ninety days. Consequently, the balances are recorded in cash and cash equivalents. The funds are held with open-ended registered investment companies and the fair value of the funds are classified as Level One as we are able to obtain market available pricing information on an ongoing basis.

Our derivative instruments are foreign currency exchange rate instruments and interest rate swaps. The instruments are valued using an income approach with factors such as interest rates and yield curves, which represent market observable inputs and are generally classified as Level Two. Credit valuation adjustments may be made to ensure that derivatives are recorded at fair value. These adjustments include amounts to reflect counterparty credit quality and our nonperformance risk. As of December 31, 2010, the credit valuation adjustments were insignificant. See Note 12 for further details on our derivative instruments.

Due to limited observability of market data and limited activity during the years ended December 31, 2010 and 2009, we classified the fair value of certain of our mortgage-backed securities as Level Three. However, these securities are held within an investment-grade portfolio with many of these securities having a credit rating of AAA/Aaa.

During the year ended December 31, 2010, there were no transfers between levels of the fair value hierarchy. Our policy is to recognize transfers in and transfers out as of the end of each quarterly reporting period. The following table provides a reconciliation of the beginning and ending balances for the assets measured at fair value using significant unobservable inputs (Level 3):

	Fair Value Measurements at Reporting Date Using Significant Unobservable Inputs (Level Three) - Mortgage Backed Securities	
	<u>2010</u>	<u>2009</u>
Balance at January 1,	\$ 2	\$—
Transfers into (out of) Level Three	—	2
Purchases, issuances and settlements	—	(1)
Total gains (losses) (realized or unrealized) ...	—	1
Balance at December 31,	<u>\$ 2</u>	<u>\$ 2</u>

The amount of total gains (losses) included in net gains (losses) and interest income from marketable securities held to fund operating programs due to the change in unrealized gains or losses relating to assets still held at the reporting date for years ended December 31, 2010 and 2009 were insignificant and \$1 million, respectively.

6. PROPERTY AND EQUIPMENT

Property and equipment at cost as of December 31, 2010 and 2009, consist of the following:

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Land	\$ 621	\$ 557
Buildings	3,365	3,310
Leasehold improvements	261	263
Furniture, equipment and computers	1,106	1,123
Construction in progress	84	246
	<u>5,437</u>	<u>5,499</u>
Less accumulated depreciation	(1,984)	(1,914)
Total	<u>\$ 3,453</u>	<u>\$ 3,585</u>

Depreciation expense from continuing operations was \$265 million, \$254 million, and \$233 million for the years ended December 31, 2010, 2009, and 2008, respectively. The net book value of capital leased assets at December 31, 2010 and 2009, is \$193 million and \$201 million, respectively, which is net of accumulated depreciation of \$25 million and \$31 million, respectively. During the fourth quarter of 2010, we acquired two parcels of land for a net purchase price of \$85 million in Latin America for future hotel developments. During 2009, we transferred \$30 million in capital lease assets to buildings and furniture, equipment and computers after satisfying our commitment to spend \$30 million on improvements to the Hyatt Regency Grand Cypress and placing those assets into service (see Note 11). Interest capitalized as a cost of property and equipment totaled \$10 million, \$13 million and \$16 million for the years ended December 31, 2010, 2009, and 2008, respectively, and is recorded net in interest expense. The year ended December 31, 2010 includes a \$14 million charge to asset impairments in the consolidated statements of income (loss), related to an impairment of a Company owned airplane for \$10 million recorded in Corporate and other and two impairments of property and equipment recorded in our owned and leased hotel segment and Corporate and other for \$3 million and \$1 million, respectively.

7. FINANCING RECEIVABLES

The three portfolio segments of financing receivables and their balances at December 31, 2010 and 2009 are recorded in notes receivable and are as follows:

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Secured financing to hotel owners	\$326	\$324
Vacation ownership mortgage receivables at various interest rates with varying payments through 2018 (see below)	55	65
Unsecured financing to hotel owners	87	80
	<u>468</u>	<u>469</u>
Less allowance for losses	(82)	(74)
Less current portion included in receivables	(11)	(10)
Total long-term financing receivables	<u>\$375</u>	<u>\$385</u>

Secured Financing to Hotel Owners—These financing receivables are senior, secured mortgage loans and are collateralized by underlying hotel properties currently in operation. These loans consist primarily of a \$278 million mortgage loan receivable to an unconsolidated hospitality venture, which is accounted for under the equity method (see Note 3), and was formed to acquire ownership of a hotel property in Waikiki, Hawaii. This mortgage receivable has interest set at 30-day LIBOR+3.75% due monthly and a stated maturity date of July

2011 with two, one-year options to extend through 2013. We currently expect that the loan will be extended beyond 2011 and have classified it as long-term. Secured financing to hotel owners also includes financing provided to certain franchisees for the renovations and conversion of certain franchised hotels. These franchisee loans accrue interest at fixed rates ranging between 5.5% and 7.5%. Secured financing to hotel owners held by us as of December 31, 2010, are scheduled to mature as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2011	\$ 1
2012	17
2013	278
2014	—
2015	30
Thereafter	—
Total secured financing to hotel owners	<u>326</u>
Less allowance	<u>(4)</u>
Net secured financing to hotel owners	<u>\$322</u>

Vacation Ownership Mortgages Receivables—These financing receivables are comprised of various mortgage loans related to our financing of vacation ownership interval sales. As of December 31, 2010, the weighted-average interest rate on vacation ownership mortgages receivable was 14.1%. Vacation ownership mortgage receivables held by us as of December 31, 2010, are scheduled to mature as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2011	\$ 7
2012	7
2013	8
2014	8
2015	8
Thereafter	17
Total vacation ownership mortgage receivables	<u>55</u>
Less allowance	<u>(10)</u>
Net vacation ownership mortgages receivable	<u>\$ 45</u>

Unsecured Financing to Hotel Owners—These financing receivables are primarily made up of individual unsecured loans and other types of financing arrangements provided to hotel owners. These financing receivables have stated maturities and interest rates. The repayment terms vary and may be dependent on the future cash flows of the hotel.

Analysis of Financing Receivables—The following table includes our aged analysis of past due financing receivables by portfolio segment, the gross balance of financing receivables on non-accrual status and the allowance for credit losses and the related investment balance as of December 31, 2010, based on impairment method:

	<u>Analysis of Financing Receivables</u>		<u>Total Financing Receivable</u>	<u>Receivables on Non-Accrual Status</u>	<u>Related Allowance for Credit Losses</u>
	<u>Total Past Due</u>	<u>Current</u>			
Secured financing to hotel owners	\$—	\$326	\$326	\$ 41	\$ (4)
Vacation ownership mortgage receivables	3	52	55	—	(10)
Unsecured financing to hotel owners	13	74	87	69	(68)
Total	<u>\$ 16</u>	<u>\$452</u>	<u>\$468</u>	<u>\$110</u>	<u>\$(82)</u>

Credit Monitoring—On an ongoing basis, we monitor the credit quality of our financing receivables based on payment activity. We determine financing receivables to be past-due based on the contractual terms of each individual financing receivable agreement. Of our total past due amounts, \$1 million and \$13 million of our vacation ownership mortgage receivables and our unsecured financing to hotel owners, respectively, are greater than 90 days past due. We are accruing interest on \$1 million and \$0 of investments in vacation ownership mortgage receivables and unsecured financing to hotel owners, respectively, that are greater than 90 days past due.

We assess credit quality indicators based on whether financing receivables are performing or non-performing. We consider receivables non-performing if interest or principal is greater than 90 days past due for secured financing to hotel owners and unsecured financing to hotel owners or 120 days past due for vacation ownership mortgage receivables. Receivables not meeting these criteria are considered to be performing. If we consider a financing receivable to be non-performing or impaired, we will place the financing receivable on non-accrual status. We will recognize interest income when received for non-accruing finance receivables. Accrual of interest income is resumed when the receivable becomes contractually current and collection doubts are removed.

Allowance for Credit Losses—We individually assess all loans and other financing arrangements in the secured financing to hotel owners portfolio and in the unsecured financing to hotel owners portfolio for impairment. We assess the vacation ownership mortgage receivables portfolio for impairment on a collective basis.

For the year ended December 31, 2010, we recorded provisions of \$2 million, \$2 million, and \$7 million for our secured financing hotel owners, vacation ownership mortgage receivables and unsecured financing to hotel owners, respectively. For the year ended December 31, 2009, we recorded provisions of \$2 million, \$5 million and \$16 million for our secured financing to hotel owners, vacation ownership mortgage receivables and unsecured financing to hotel owners, respectively. For the year ended December 31, 2008, we recorded provisions of \$0, \$9 million and \$11 million for our secured financing to hotel owners, vacation ownership mortgage receivables and unsecured financing to hotel owners, respectively.

Our unsecured financing to hotel owners consists primarily of receivables due on future contractual maturity dates. The payments under these contractual agreements are contingent upon future cash flows of the underlying hospitality properties. Although the majority of these payments are not past due, these receivables have been placed on non-accrual status and we have provided allowances for these owner receivables based on estimates of the future cash flows available for payment of these receivables. We consider the provisions on all of our portfolio segments to be adequate based on the economic environment and our assessment of the future collectability of the outstanding loans.

Impaired Loans—To determine whether an impairment has occurred, we evaluate the collectability of both interest and principal. A financing receivable is considered to be impaired when the Company determines that it is probable that it will not be able to collect all amounts due under the contractual terms. We do not record interest income for impaired receivables unless cash is received, in which case the payment is recorded to other income (loss), net in the accompanying consolidated statement of income (loss).

An analysis of impaired loans at December 31, 2010, all of which had a related allowance recorded against them, was as follows:

Impaired Loans					
For the Year Ended December 31, 2010					
	<u>Recorded Investment</u>	<u>Unpaid Principal Balance</u>	<u>Related Allowance</u>	<u>Average Recorded Investment</u>	<u>Interest Income Recognized</u>
Secured financing to hotel owners	\$41	\$40	\$ (4)	\$40	\$ 2
Unsecured financing to hotel owners	47	43	(42)	45	—

Fair Value—We estimated the fair value of financing receivables to approximate \$392 million and \$402 million as of December 31, 2010 and December 31, 2009, respectively. We estimated the fair value of financing receivables using discounted cash flow analyses based on current market assumptions for similar types of arrangements. The primary sensitivity in these calculations is based on the selection of appropriate interest and discount rates. Fluctuations in these assumptions will result in different estimates of fair value.

8. ACQUISITIONS, DISPOSITIONS, AND DISCONTINUED OPERATIONS

We continually assess strategic acquisitions and dispositions to complement our business strategy. Assets acquired and liabilities assumed in business combinations are recorded on our consolidated balance sheets as of the respective acquisition dates based upon their estimated fair values at such dates. The results of operations of businesses acquired by us have been included in the consolidated statements of income (loss) since their respective dates of acquisition. In certain circumstances, the purchase price allocations are based upon preliminary estimates and assumptions. Accordingly, the allocations are subject to revision when we receive final information, including appraisals and other analyses. There were no contingent payments, options, or commitments specified in any of the following acquisition agreements except as otherwise disclosed below.

Acquisitions and Dispositions

Hyatt Lisle, Hyatt Deerfield, and Hyatt Rosemont—During the fourth quarter of 2010, we sold the Hyatt Lisle, Hyatt Deerfield, and Hyatt Rosemont for a combined \$49 million, net of closing costs, to an unrelated third party, resulting in a pre-tax gain of \$20 million which has been recognized in gain on sales of real estate on our consolidated statements of income (loss). The Company entered into long-term franchise agreements for each of the hotels with the purchaser. The operating results and financial positions of these hotels prior to the sale remain within our owned and leased hotels segment. The proceeds from the sales of Hyatt Lisle and Hyatt Rosemont were classified into cash and cash equivalents as we did not enter into a like-kind exchange agreement related to these two hotels. In conjunction with the sale of Hyatt Deerfield, we entered into a like-kind exchange agreement. See “Like-Kind Exchange Agreements,” below, for further detail.

Grand Hyatt Tampa Bay—In November 2010, we sold the Grand Hyatt Tampa Bay for \$56 million, net of closing costs, to an unrelated third party, resulting in a pre-tax gain of \$14 million. The Company entered into a long-term management agreement with the purchaser of the hotel. The gain on sale has been deferred and is being recognized in management and franchise fees over the term of the management contract, within our North American management and franchising segment. The operations of the hotel prior to the sale remain within our owned and leased hotels segment.

Hyatt Regency Princeton—During 2010 a consolidated venture did not have sufficient cash flow to meet interest payment requirements under its mortgage loan. The assets and operations of the Hyatt Regency Princeton secured this mortgage loan and the debt service requirements were not guaranteed by HHC. When hotel cash flow became insufficient to service the loan, we notified the lender that it would not provide assistance as the estimated value of the hotel was less than the outstanding mortgage loan. In 2010, the ownership interest in the Hyatt Regency Princeton transferred to the lender through a deed in lieu of foreclosure transaction. A pre-tax gain of \$35 million was realized on extinguishment of the \$45 million secured mortgage debt. The hotel continues to be operated as a Hyatt-branded hotel; however, the lender has the option to terminate Hyatt as the manager within one year after the ownership transfer. If the lender does not exercise the termination option within one year, our management agreement will terminate in 2021. The pre-tax gain on extinguishment of debt for \$35 million has been recognized in other income (loss), net on our consolidated statements of income (loss). The operations of the hotel prior to the transfer remain within our owned and leased segment. See Note 10 for additional information.

Hyatt Regency Greenville—In September 2010, we sold the Hyatt Regency Greenville for \$15 million, net of closing costs, to an unrelated third party, resulting in a pre-tax gain of \$6 million, which has been recognized

in gain on sales of real estate on our consolidated statements of income (loss). The Company entered into a long-term franchise agreement with the purchaser of the hotel. The operating results and financial position of this hotel prior to the sale remain within our owned and leased hotels segment.

Hyatt Regency Boston—In February 2009, one of our subsidiaries acquired the assets of the Hyatt Regency Boston for a total purchase price of \$110 million. The assets acquired included cash of \$1 million, resulting in a net purchase price of \$109 million. Revenues included in our owned and leased hotel revenues for the period from the date of acquisition to December 31, 2009 were \$30 million.

In March 2010, we sold the Hyatt Regency Boston for net proceeds of \$113 million to Chesapeake Lodging Trust, an entity in which we own a 4.9% interest, resulting in a pre-tax gain of \$6 million. The hotel continues to be operated as a Hyatt-branded hotel and we will continue to manage the hotel under a long-term management contract. The gain on sale has been deferred and is being recognized in management and franchise fees over the term of the management contract, within our North American management and franchising segment. The operations of the hotel prior to the sale remain within our owned and leased hotels segment.

The Great Eastern Hotel Holding Company—We previously held a 50% interest in the Great Eastern Hotel Holding Company (“GEHHC”). GEHHC, through its wholly owned subsidiary, owned the Great Eastern Hotel in London, which was converted to the Andaz Liverpool Street hotel. On November 30, 2007, the Company purchased the remaining 50% interest in this hotel. The total purchase price of our interest at November 30, 2007 was \$135 million, which included our prior 50% ownership interest. As a result of the acquisition of GEHHC, the Company also assumed a 50% ownership interest in the Great Eastern Hotel Properties Limited (“GEHP”). On February 6, 2008, the Great Eastern Hotel Company purchased the remaining 50% interest in the GEHP for GBP 16 million (\$31 million), which included the settlement of shareholder loans and noncontrolling interest. Both companies’ results are recorded in the owned and leased hotels segment. Goodwill assumed through the acquisition of GEHHC was fully impaired as of December 31, 2008.

Like-Kind Exchange Agreements

In conjunction with the sales of Hyatt Deerfield, Grand Hyatt Tampa Bay and Hyatt Regency Greenville, we entered into like-kind exchange agreements with an intermediary. Pursuant to the like-kind exchange agreement, the proceeds from the initial sale of each hotel were placed into an escrow account administered by an intermediary. Therefore, we have classified the net proceeds from the sales of Hyatt Deerfield, Grand Hyatt Tampa Bay and Hyatt Regency Greenville of \$26 million, \$56 million and \$15 million, respectively, as restricted cash on our consolidated balance sheet. Pursuant to the like-kind exchange agreement, the cash remains restricted for a maximum of 180 days from the date of execution pending consummation of the exchange transaction.

Assets Held For Sale

During 2010, we committed to a plan to sell a Company owned airplane. We believe the sale of the asset is probable and the transfer of the asset is expected to occur within one year. Based on the valuation of the equipment, the Company determined the fair value was below the book value of the asset. As such, the Company recorded a pre-tax impairment loss of \$10 million as part of asset impairments on the consolidated statements of income (loss) during 2010. This charge was recorded within Corporate and other. The Company classified the value of the airplane as assets held for sale in the amount of \$18 million at December 31, 2010.

Discontinued Operations—The operating results, assets, and liabilities of the following businesses have been reported separately as discontinued operations in the consolidated balance sheets and consolidated statements of income (loss). We do not have any significant continuing involvement in these operations.

2010 Transactions:

Amerisuites Orlando—During 2010, we committed to a plan to sell the Amerisuites Orlando property. As a result, we classified the assets and liabilities of this property as held for sale in 2010. Based on a valuation of the

property, the Company determined the fair value of the property was below the book value of the assets. As such, a pre-tax impairment loss of approximately \$4 million was recorded as part of the loss from discontinued operations during 2010. In 2009, we incurred a pre-tax impairment loss of approximately \$3 million that was recorded as part of the loss from discontinued operations.

During 2010, we closed on the sale of the Amerisuites Orlando to an unrelated third party for net proceeds of \$5 million. The transaction resulted in a pre-tax gain of \$2 million upon sale as we will have no continuing involvement with the property.

Residences—During 2010, we committed to a plan to sell an apartment building located adjacent to the Park Hyatt Washington D.C. (the “Residences”). As a result, we classified the assets and liabilities of this property as held for sale in 2010. During 2010, we closed on the sale of the Residences to an unrelated third party for net proceeds of \$22 million. The transaction resulted in a pre-tax gain of \$9 million upon sale as we will have no continuing involvement with the property.

2008 Transactions:

Hawthorne Suites—On August 18, 2008, we sold the property known as Hawthorne Suites Orlando for \$8 million to an unrelated third party, resulting in a pre-tax gain of \$4 million.

US Franchise Systems—On July 18, 2008, we sold U.S. Franchise Systems, Inc. (“USFS”), our wholly owned subsidiary, to an unaffiliated third party for \$131 million. We recorded a pre-tax gain of \$78 million from the sale.

Revenues for all discontinued operations for the years ended December 31, 2010, 2009 and 2008 were \$1 million, \$2 million and \$16 million, respectively.

As a result of certain of the above-mentioned dispositions, we have agreed to provide indemnifications to third-party purchasers for certain liabilities incurred prior to sale and for breach of certain representations and warranties made during the sales process, such as representations of valid title, authority, and environmental issues that may not be limited by a contractual monetary amount. These indemnification agreements survive until the applicable statutes of limitation expire, or until the agreed upon contract terms expire. The assets related to discontinued operations at December 31, 2010 and 2009 were \$0 and \$20 million, respectively. The liabilities related to discontinued operations were insignificant at December 31, 2010 and 2009.

9. GOODWILL AND INTANGIBLE ASSETS

We review the carrying value of all our goodwill by comparing the carrying value of our reporting units to their fair values in a two-step process. We define a reporting unit at the individual property or business level. We are required to perform this comparison at least annually or at an interim date if indications of impairment exist. When determining fair value in step one, we utilize internally developed discounted future cash flow models, third party appraisals and, if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach we utilize various assumptions, including projections of revenues based on assumed long-term growth rates, estimated costs and appropriate discount rates based on the weighted-average cost of capital. The principal factors used in the discounted cash flow analysis requiring judgment are the projected future operating cash flow, the weighted-average cost of capital and the terminal value growth rate assumptions. The weighted-average cost of capital takes into account the relative weights of each component of our capital structure (equity and long-term debt) and is determined at the reporting unit level. Our estimates of long-term growth and costs are based on historical data, various internal estimates and a variety of external sources, and are developed as part of our routine, long-term planning process. We then compare the estimated fair value to our carrying value. If the carrying value is in excess of the fair value, we must determine our implied fair value of goodwill to measure if any impairment charge is necessary. The determination of our implied fair

value of goodwill requires the allocation of the reporting unit's estimated fair value to the individual assets and liabilities of the reporting unit as if we had completed a business combination. We perform the allocation based on our knowledge of the reporting unit, the market in which they operate, and our overall knowledge of the hospitality industry.

The following is a summary of changes in the carrying amount of goodwill for the years ended December 31, 2010 and 2009:

	<u>Owned and Leased Hotels</u>	<u>Management and Franchising - North America</u>	<u>Management and Franchising - International</u>	<u>Other</u>	<u>Total</u>
<i>Balance as of January 1, 2009</i>					
Goodwill	\$169	\$ 33	\$—	\$ 4	\$206

Goodwill, net	83	33	—	4	120
<i>Activity during the year</i>					
Impairment losses	(7)	—	—	—	(7)
<i>Balance as of December 31, 2009</i>					
Goodwill	169	33	—	4	206
Accumulated impairment losses	<u>(93)</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>(93)</u>
Goodwill, net	\$ 76	\$ 33	\$—	\$ 4	\$113
<i>Activity during the year</i>					
Goodwill disposed	(11)	—	—	—	(11)
<i>Balance as of December 31, 2010</i>					
Goodwill	158	33	—	4	195
Accumulated impairment losses	<u>(93)</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>(93)</u>
Goodwill, net	<u>\$ 65</u>	<u>\$ 33</u>	<u>\$—</u>	<u>\$ 4</u>	<u>\$102</u>

Definite lived intangible assets primarily include acquired management and franchise contracts, contract acquisition costs, and acquired lease rights. Franchise contracts are amortized on a straight-line basis over their contract terms, which are typically 20 years. Contract acquisition costs are generally amortized on a straight-line basis over the life of the management contracts, which range from approximately 10 to 40 years. Acquired lease rights are amortized on a straight-line basis over the lease term.

The following is a summary of intangible assets at December 31, 2010 and 2009:

	<u>December 31, 2010</u>	<u>Weighted Average Useful Lives</u>	<u>December 31, 2009</u>
Contract acquisition costs	\$150	23	\$146
Acquired lease rights	130	114	147
Franchise intangibles	50	20	51
Brand intangibles	11	7	11
Other	8	14	4
	<u>349</u>		<u>359</u>
Accumulated amortization	<u>(69)</u>		<u>(75)</u>
Intangibles, net	<u>\$280</u>		<u>\$284</u>

Amortization expense relating to intangible assets for the years ended December 31, 2010, 2009, and 2008 was as follows:

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Amortization Expense	\$14	\$15	\$15

We estimate amortization expense for definite lived intangibles for the years 2011 through 2015 to be:

<u>Years Ending December 31,</u>	
2011	\$12
2012	12
2013	11
2014	11
2015	10

During the fourth quarters of 2010, 2009 and 2008, we performed our annual impairment review of goodwill. Definite lived intangibles are tested for impairment whenever events or circumstances indicate that the carrying amount of a long-lived asset may not be recoverable. During the years ended December 31, 2010, 2009 and 2008, we recorded the following impairment charges, which are included in asset impairments on the consolidated statements of income (loss).

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Goodwill impairment charges	\$—	\$7	\$ 86
Definite lived intangible asset impairment charges	—	5	—

The goodwill impairment charge recognized in 2009 related to one hotel. The 2008 goodwill impairment charges related to the Great Eastern Hotel Holding Company's British Pounds 53 million (\$79 million) of goodwill and one other hotel. It was determined that the forecasted future earnings and cash flows of these hotels no longer supported the carrying value of goodwill because of forecasted deterioration in revenues from these hotels. The goodwill impairment charges recorded in 2009 and 2008 related to certain hotels in our owned and leased hotels segment. The \$5 million definite lived intangible asset impairment charge recorded in 2009 related to the full amount of an intangible asset relating to a management agreement covering certain select service hotels in our North American management and franchising segment. During the year ended December 31, 2009, we determined events or circumstances indicated that the carrying amount of the respective definite lived intangible asset described above may not be recoverable. After comparing the projected undiscounted cash flows derived from the respective management agreement to the carrying value of the intangible asset we determined that an impairment existed. The impairment charge represents the difference between the fair value and the carrying value of the intangible asset. The fair value was estimated by utilizing discounted projected cash flows.

10. DEBT

Debt as of December 31, 2010 and 2009 consists of the following:

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
\$250 million senior unsecured notes maturing in 2015—5.75%	\$253	\$248
\$250 million senior unsecured notes maturing in 2019—6.875%	250	249
9.26% twenty-five year mortgage	53	57
Fixed rate mortgage—6.0%, collateralized by related land, buildings and improvements, and other related assets, payable in interest only installments, maturing through 2011	—	45
Fixed rate mortgage—10.07%, collateralized by related land, buildings and improvements, and other related assets, payable in monthly, principal and interest installments, maturing through 2011	—	33
Revolving credit facility	—	—
Other (various, maturing through 2015)	<u>2</u>	<u>5</u>
Long-term debt before capital lease obligations	558	637
Capital lease obligations	<u>213</u>	<u>215</u>
Total long-term debt	771	852
Less current maturities	<u>(57)</u>	<u>(12)</u>
Total long-term debt, net of current maturities	<u>\$714</u>	<u>\$840</u>

Under existing agreements, maturities of debt for the next five years and thereafter are as follows:

2011	57
2012	3
2013	3
2014	191
2015	255
Thereafter	<u>262</u>
Total	<u>\$771</u>

Senior Unsecured Notes—On August 10, 2009, we issued \$250 million of senior unsecured notes with a coupon rate of 5.75% due August 15, 2015, at a discount price of 99.46% (the “2015 Notes”), and \$250 million of senior notes with a coupon rate of 6.875% due August 15, 2019, at a discount price of 99.864% (the “2019 Notes” and together with the 2015 Notes, the “Senior Notes”). We received proceeds of approximately \$498 million on the settlement date of August 14, 2009. The proceeds were used to reduce outstanding hotel loans and for general purposes. Interest on the Senior Notes is payable semi-annually on February 15 and August 15, and commenced February 15, 2010. We may redeem all or a portion of the Senior Notes at any time at 100% of the principal amount of the Senior Notes redeemed together with the accrued and unpaid interest, plus a make-whole amount, if any. The amount of any make-whole payment depends, in part, on the yield of U.S. Treasury securities with a comparable maturity to the Senior Notes at the date of redemption. In December 2009, the Company entered into three \$25 million interest rate swap contracts, each of which expires on August 15, 2015 and effectively converts a total of \$75 million of the 2015 Notes to floating rate debt based on three-month LIBOR plus a fixed rate component. In February 2010, we entered into another interest rate swap contract, which also expires on August 15, 2015 and effectively converts an additional \$25 million of the 2015 Notes, for a total of \$100 million to floating rate debt based on three-month LIBOR plus a fixed rate component. At December 31, 2010, the fixed to floating interest rate swaps were recorded within other assets for \$4 million, with an offset by a

fair value adjustment to the 2015 Notes of \$4 million. At December 31, 2009, the fixed to floating interest rate swaps were recorded within other long-term liabilities for \$1 million, with an offset by a fair value adjustment to the 2015 Notes of \$1 million. See Note 12 for additional information related to the interest rate swaps.

9.26% Twenty Five Year Mortgage—As of December 31, 2010, we intend to exercise the prepayment option on our 9.26% Twenty Five Year Mortgage with an original maturity date of 2021. As a result, we expect to pay the debt balance within less than one year and therefore, \$53 million in long-term debt is recorded to current maturities.

Fixed Rate Mortgage 6.0%—During 2010, a consolidated venture did not have sufficient cash flow to meet interest payment requirements under its mortgage loan. The assets and operations of the Hyatt Regency Princeton secured this mortgage loan and the debt service requirements were not guaranteed by HHC. When hotel cash flow became insufficient to service the loan, HHC notified the lender that it would not provide assistance as the estimated value of the hotel was less than the outstanding mortgage loan. The ownership interest in the Hyatt Regency Princeton transferred to the lender in a deed in lieu of foreclosure transaction in 2010. This resulted in extinguishment of \$45 million of secured mortgage debt and a \$35 million pre-tax gain on the settlement. See Note 8 for more information on the Hyatt Regency Princeton transaction.

Fixed Rate Mortgage 10.07%—In November 2010, we exercised the prepayment option on a 10.07% fixed rate mortgage with an outstanding balance of \$31 million. The loan had a maturity date of September 30, 2011. As part of the payoff, we incurred a prepayment penalty of \$1 million, resulting in a total cash payment of \$32 million.

Revolving Credit Facility—On June 29, 2005, we entered into a five-year, \$1 billion revolving credit facility with a group of banks, which was set to expire on June 29, 2010. In July 2009, we extended the maturity and increased the borrowing availability under this revolving credit facility to \$1.5 billion. Under the terms of the extension, \$370 million of credit availability matured on June 29, 2010, with the remaining availability maturing on June 29, 2012. Interest rates on outstanding borrowings are either LIBOR-based or based on an alternate base rate, with margins in each case based on our credit rating, and includes a facility fee. As of December 31, 2010, the applicable rate for a 30-day borrowing would have been LIBOR (subject to a floor of 1%) plus 2.5%, or 3.5%, inclusive of the facility fee. There was an outstanding balance of \$0 on this credit facility at December 31, 2010 and 2009. At December 31, 2010 and 2009, we had entered into various letter of credit agreements for \$71 million and \$79 million, respectively, which reduced our available capacity under this revolving credit facility. The available line of credit on our revolving credit facility at December 31, 2010 was \$1.1 billion.

The Company also has a total of \$8 million and \$12 million of letters of credit issued through additional banks as of December 31, 2010 and 2009, respectively.

5.84% Senior Subordinated Notes—On August 28, 2007, we issued \$500 million of 5.84% senior subordinated notes due 2013 (the “2013 Notes”) to an independent third party, combined with the Subscription Agreement that required the purchaser to acquire a variable number of shares of our common stock at a future date, as specified in the Subscription Agreement, for \$500 million in cash. On October 25, 2007, we issued \$100 million of additional 2013 Notes to an independent third party, and that independent third party joined the Subscription Agreement, agreeing to acquire a variable number of shares of our common stock at a future date, as specified in the Subscription Agreement, for \$100 million in cash. The purchasers’ obligations under the Subscription Agreements were secured by a pledge of the 2013 Notes to us.

On May 13 and May 18, 2009, we repurchased and cancelled the outstanding 2013 Notes for \$600 million plus \$88 million in make whole interest and early settlement premiums. Other income (loss), net includes these costs plus the write off of \$5 million in deferred financing costs associated with these 2013 Notes. In addition, we received \$11 million due to us under the Subscription Agreement. See Note 17 for more information related to this transaction.

Hotel Loans in British Pounds (GBP)—On November 30, 2007, we purchased the remaining interest in the Great Eastern Hotel Holding Company, which included the assumption of debt. The total balance of debt at December 31, 2008 was GBP 110 million (\$159 million) and included a primary loan and a subordinated loan, both with original maturity of March 13, 2011. The loans were secured by the pledged shares of its wholly owned subsidiary and shareholder loans. The interest rate applicable to the primary loan was calculated at GBP LIBOR, plus 0.9%. The interest rate applicable to the subordinated loan was calculated at GBP LIBOR, plus 4%. As part of the acquisition, we also assumed an interest rate swap that converted this variable rate exposure to a fixed rate. The swap contained a floating rate option, which exchanged the variable GBP LIBOR rates on the primary and subordinated notes described in Note 12 to a fixed rate of 4.91%. In September 2009, we paid off both loans in the total amount of GBP 109 million (\$177 million), plus accrued interest. In connection with the payoff of the underlying debt in September 2009, we settled the swap for GBP 6 million (\$11 million).

Hotel Loans in Euro (EUR)—On February 28, 2006, we purchased the remaining interest in the Park Hyatt Paris Vendome, which included the assumption of debt. The balance of debt at December 31, 2008, was EUR 51 million (\$72 million) and included a primary loan and a subordinated loan. The primary loan had an original maturity of April 14, 2017, and the interest rate applicable to this loan was calculated at EURIBOR, plus 1.25%. The subordinated loan had original maturity of November 30, 2011, and the interest rate applicable to this loan was calculated at EURIBOR, plus 0.7%. As part of the acquisition, we also assumed an interest rate swap that converted a portion of this variable rate exposure to a fixed rate under most EURIBOR scenarios. In August 2009, we paid off both loans in the total amount of EUR 51 million (\$72 million), plus accrued interest. In connection with the payoff of the underlying debt in August 2009, we settled the swap for EUR 2 million (\$2 million).

Certain of the long-term debt agreements and the revolving credit facility contain financial covenants requiring that certain financial measures be met such as not exceeding a maximum ratio of debt to earnings before interest, tax, depreciation and amortization (EBITDA), not to fall below a minimum ratio of EBITDA to interest expense, or adherence to a maximum secured debt to net property equipment ratio.

We are in compliance with all covenants at December 31, 2010.

Fair Value—We estimated the fair value of long-term debt excluding capital lease obligations at approximately \$596 million and \$624 million as of December 31, 2010 and 2009, respectively. We estimated the fair value of our senior unsecured notes based on observable market data. We estimated the fair value of our mortgages, notes payable and other long-term debt instruments using discounted cash flow analysis based on current market inputs for similar types of arrangements. The primary sensitivity in these calculations is based on the selection of appropriate discount rates. Fluctuations in these assumptions will result in different estimates of fair value.

11. LEASES

We lease hotels and equipment under a combination of capital and operating leases, which generally require us to pay taxes, maintenance, and insurance. Most of the leases contain renewal options, which enable us to retain use of the facilities in desirable operating areas.

The operating leases for the majority of our leased hotels call for the calculation of rental payments to be based on a percentage of the operating profit of the hotel, as defined by contract. As a result, future lease payments related to these leases are contingent upon operating results and are not included in the table below.

The future minimum lease payments due in each of the next five years and thereafter are as follows:

<u>Years Ending December 31,</u>	<u>Operating Leases</u>	<u>Capital Leases</u>
2011	\$ 31	\$ 16
2012	30	16
2013	31	16
2014	31	196
2015	25	1
Thereafter	354	18
Total minimum lease payments	<u>\$502</u>	<u>\$263</u>
Less amount representing interest		(50)
Present value of minimum lease payments		<u>\$213</u>

Hyatt Regency Grand Cypress—On April 9, 2007, we signed a 30-year lease agreement with the owners of the Hyatt Regency Grand Cypress to lease the hotel, including the land, as well as a parcel of land adjacent to the hotel. This lease agreement includes an option, at our discretion, to purchase the hotel, including the land, and the adjacent parcel of land for \$200 million in the eighth lease year or in the tenth lease year for \$220 million or in the fifteenth lease year for \$255 million. Separately, the lease agreement includes an option, at our discretion, to purchase the land adjacent to the hotel for \$10 million at any time through the fifteenth lease year, which would reduce the option price of the hotel and land accordingly. On August 28, 2007, we exercised this option and purchased the adjacent land thereby reducing each of our option prices noted above by \$10 million. This lease qualifies as a capital lease, and accordingly, we have consolidated the operating results of the hotel as of April 9, 2007. The leased assets are included in property and equipment, net, in the amount of \$179 million. The lease agreement included a commitment to spend \$30 million on improvements to the property within the first five years, which has been satisfied. Total minimum lease payments were calculated over the seven years of the lease term assuming that we will exercise the option to purchase the hotel and land in the eighth year. We are responsible for all operating costs related to the property, including insurance, maintenance, and taxes.

Hyatt Center—We leased our corporate office space at the Hyatt Center in Chicago, Illinois, from a related party until December 20, 2010, when the building was sold to a third party. Under our master lease for Hyatt Center, we have entered into sublease agreements with certain related parties. The total minimum rentals to be received in the future under these non-cancelable operating subleases as of December 31, 2010, are \$19 million through 2020.

A summary of rent expense from continuing operations for all operating leases is as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Minimum rentals	\$25	\$29	\$23
Contingent rentals	33	29	56
Total	<u>\$58</u>	<u>\$58</u>	<u>\$79</u>

The Company leases retail space at its owned hotel locations under operating leases. The future minimum lease receipts scheduled to be received in each of the next five years and thereafter are as follows:

<u>Years Ending December 31,</u>	<u>Amount</u>
2011	\$ 23
2012	20
2013	19
2014	11
2015	7
Thereafter	22
Total minimum lease receipts	<u>\$102</u>

12. DERIVATIVE INSTRUMENTS

It is our policy that derivative transactions are executed only to manage exposures arising in the normal course of business and not for the purpose of creating speculative positions or trading. As a result of the use of derivative instruments, we are exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations. To mitigate the counterparty credit risk, we have a policy of only entering into contracts with carefully selected major financial institutions based upon their credit rating and other factors. Our derivative instruments do not contain credit-risk related contingent features.

All derivatives are recognized on the balance sheet at fair value. On the date the derivative contract is entered, we designate the derivative as one of the following: a hedge of a forecasted transaction or the variability of cash flows to be paid (cash flow hedge), a hedge of the fair value of a recognized asset or liability (fair value hedge), or an undesignated hedge instrument. Changes in the fair value of a derivative that is qualified, designated and highly effective as a cash flow hedge are recorded in other comprehensive income on the consolidated balance sheets until they are reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Changes in the fair value of a derivative that is qualified, designated and highly effective as a fair value hedge, along with the gain or loss on the hedged asset or liability that is attributable to the hedged risk are recorded in current earnings. Changes in the fair value of undesignated derivative instruments and the ineffective portion of designated derivative instruments are reported in current period earnings. Cash flows from designated derivative financial instruments are classified within the same category as the item being hedged on the statement of cash flows. Cash flows from undesignated derivative financial instruments are included in the investing category on the statements of cash flows.

At the designation date, we formally document all relationships between hedging activities, including the risk management objective and strategy for undertaking various hedge transactions. This process includes matching all derivatives that are designated as cash flow hedges to specific forecasted transactions and linking all derivatives designated as fair value hedges to specific assets and liabilities on the consolidated balance sheets.

We also formally assess both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair value or cash flow of hedged items. We discontinue hedge accounting prospectively, when the derivative is not highly effective as a hedge, the underlying hedged transaction is no longer probable, or the hedging instrument expires, is sold, terminated, or exercised.

Interest Rate Swap Agreements—In the normal course of business, we are exposed to the impact of interest rate changes due to our borrowing activities. Our objective is to manage the risk of interest rate changes on the results of operations, cash flows, and the market value of our debt by creating an appropriate balance between our fixed and floating-rate debt. Interest rate derivative transactions, including interest rate swaps, are entered into to maintain a level of exposure to interest rates which the Company deems acceptable.

In December 2009, we entered into three \$25 million interest rate swap contracts, each of which expires on August 15, 2015 and effectively converted a total of \$75 million of the \$250 million of senior unsecured notes issued on August 10, 2009 with a maturity date of August 15, 2015 to floating rate debt based on three-month LIBOR plus a fixed rate component. In February 2010, we entered into another interest rate swap contract, which also expires on August 15, 2015 and effectively converts an additional \$25 million of the 2015 Notes, for a total of \$100 million, to floating rate debt based on three-month LIBOR plus a fixed rate component. The fixed rate component of each swap varies by contract, ranging from 2.68% to 2.9675%. The fixed to floating interest rate swaps were designated as a fair value hedge as their objective is to protect the 2015 Notes against changes in fair value due to changes in the three-month LIBOR interest rate. The swaps were designated as fair value hedges at inception and at December 31, 2010 and 2009 were highly effective in offsetting fluctuations in the fair value of the 2015 Notes. At December 31, 2010, the fixed to floating interest rate swaps were recorded within other assets at a value of \$4 million, offset by a fair value adjustment to long-term debt of \$4 million. At December 31, 2009, the fixed to floating interest rate swaps were recorded within other long-term liabilities at a value of \$1 million, offset by a fair value adjustment to long-term debt of \$1 million.

On November 30, 2007, we assumed debt as part of our purchase of the remaining interest in the Great Eastern Hotel Holding Company. The debt included a primary loan and a subordinated loan, totaling GBP 109 million (\$177 million), both maturing on March 13, 2011. As part of the acquisition, the Company also assumed an interest rate swap that converted this variable rate exposure to a fixed rate. The swap was designated as a cash flow hedge in November 2008 and was highly effective in offsetting fluctuations in GBP LIBOR rates until the related debt was paid off in full in September 2009. Changes in the fair value relating to the effective portion of the swap were recorded in accumulated other comprehensive loss and the corresponding fair value payables were included in other long-term liabilities in our consolidated balance sheets. In connection with the payoff of the related debt, the Company settled the interest rate swap. As a result of this settlement, we immediately reclassified a loss of \$3 million (\$2 million, net of tax) from accumulated other comprehensive loss to interest expense on the consolidated statements of income (loss) as the original forecasted transaction will not occur. Prior to the hedge designation date, the swap was marked to market through earnings.

We had two other interest rate swaps that were not designated as hedges, and therefore were marked-to-market each period through earnings. These derivatives were held as economic hedges to convert variable interest rate exposures to fixed rates. The balance sheet classification for the fair value of these interest rate swaps was to other assets for unrealized gains and to other long-term liabilities for unrealized losses. In connection with the payoff of our Euro denominated loans in August 2009, we settled one of these swaps for \$2 million. As a result of the settlement, we recognized an insignificant loss in other income (loss), net. The other outstanding interest rate swap agreement was for a notional amount less than \$1 million and matured during the year ended December 31, 2010.

Foreign Currency Exchange Rate Instruments—We transact business in various foreign currencies and utilize foreign currency forward contracts to offset the risks associated with the effects of certain foreign currency exposures. Our strategy is to have increases or decreases in our foreign currency exposures offset by gains or losses on the foreign currency forward contracts to mitigate the risks and volatility associated with foreign currency transaction gains or losses. These foreign currency exposures typically arise from intercompany loans and other intercompany transactions. Our foreign currency forward contracts generally settle within 12 months. We do not use these forward contracts for trading purposes. We do not designate these forward contracts as hedging instruments. Accordingly, we record the fair value of these contracts as of the end of our reporting period to our consolidated balance sheets with changes in fair value recorded in our consolidated statements of income (loss) within other income (loss), net for both realized and unrealized gains and losses. The balance sheet classification for the fair values of these forward contracts is to prepaids and other assets for unrealized gains and to accrued expenses for unrealized losses.

The U.S. dollar equivalent of the notional amount of the outstanding forward contracts, the majority of which relate to intercompany loans, with terms of less than one year, is as follows (in US dollars):

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Pound Sterling	\$ 66	\$170
Swiss Franc	47	164
Korean Won	43	49
Euro	19	90
Australian Dollar	1	—
Japanese Yen	—	3
Total Notional Amount of Forward Contracts	<u>\$176</u>	<u>\$476</u>

Certain energy contracts at our hotel facilities include derivatives. However, we qualify for and have elected the normal purchases or sales exemption for these derivatives.

The effects of derivative instruments on our consolidated financial statements were as follows as of December 31, 2010 and 2009 and for the years ended December 31, 2010 and 2009:

Fair Values of Derivative Instruments

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	December 31, 2010	December 31, 2009	Balance Sheet Location	December 31, 2010	December 31, 2009
Derivatives designated as hedging instruments						
Interest rate swaps	Other assets	\$ 4	\$—	Other long-term liabilities	\$—	\$1
Derivatives not designated as hedging instruments						
Foreign currency forward contracts	Prepays and other assets	—	8	Accrued expenses	4	2
Total derivatives		<u>\$ 4</u>	<u>\$ 8</u>		<u>\$ 4</u>	<u>\$ 3</u>

Effect of Derivative Instruments on Income and Other Comprehensive Income (Loss)

	Location of Gain (Loss)	Years Ended December 31,	
		2010	2009
Fair value hedges:			
Interest rate swaps			
Gains (losses) on derivatives	Other income (loss), net*	\$ 5	\$—
Gains (losses) on borrowings	Other income (loss), net*	(5)	—
Cash flow hedges:			
Interest rate swaps			
Amount of gain (loss) recognized in accumulated other comprehensive loss on derivative (effective portion)	Accumulated other comprehensive loss	\$—	\$—
Amount of gain (loss) reclassified from accumulated other comprehensive loss into income (effective portion)	Interest expense	—	3
Amount of gain (loss) recognized in income on derivative (ineffective portion and amount excluded from effectiveness testing)	Other income (loss), net**	—	—
Derivatives not designated as hedges:			
Foreign currency forward contracts	Other income (loss), net	<u>\$ 5</u>	<u>\$ 4</u>

* For the year ended December 31, 2010 there was an insignificant loss recognized in income related to the ineffective portion of these hedges. No amounts were excluded from the assessment of hedge effectiveness for the year ended December 31, 2010.

** For the year ended December 31, 2009 there was an insignificant gain recognized in income related to the ineffective portion of these hedges. No amounts were excluded from the assessment of hedge effectiveness for the year ended December 31, 2009.

13. EMPLOYEE BENEFIT PLANS

Defined Benefit Plans—We sponsor supplemental executive retirement plans consisting of funded and unfunded defined benefit plans for certain executives. Retirement benefits are based primarily on the employees' salary, as defined, and are payable upon achievement of certain service requirements as defined by the plans.

On October 31, 2008, we merged our foreign funded and domestic unfunded defined benefit plans for active participants into our deferred compensation plans, either the Amended and Restated Hyatt Corporation Deferred Compensation Plan ("DCP") or the Hyatt International Hotels Retirement Plan (commonly known as the Field Retirement Plan) ("FRP"). The merger was effected by contributing an amount based on the value of each active participant's benefits based on services rendered to-date. As a result, for the year ended December 31, 2008, we recorded a net settlement charge of \$21 million to selling, general and administrative expenses.

The following tables show the change in benefit obligation and the change in fair value of plan assets and the impact of the plan merger as of December 31, 2010 and 2009 (the measurement dates), for the unfunded U.S. plan:

	<u>2010</u>	<u>2009</u>
Change in benefit obligation:		
Benefit obligation—beginning of year	\$ 18	\$ 17
Interest cost	1	1
Actuarial (gains) loss	1	1
Benefits paid	<u>(1)</u>	<u>(1)</u>
Benefit obligation—end of year	<u>\$ 19</u>	<u>\$ 18</u>
Change in plan assets:		
Fair value of plan assets—beginning of year	\$—	\$—
Actual return on plan assets	—	—
Benefits paid	—	—
Employer contributions	—	—
Fair value of plan assets—end of year	<u>\$—</u>	<u>\$—</u>
Funded status at end of year	<u>\$ (19)</u>	<u>\$ (18)</u>
Accumulated benefit obligation	<u>\$ 19</u>	<u>\$ 18</u>

Amounts recognized in the consolidated balance sheets as of December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Accrued current benefit liability	\$ (1)	\$ (1)
Accrued long-term benefit liability	<u>(18)</u>	<u>(17)</u>
Funded status	<u>\$ (19)</u>	<u>\$ (18)</u>

Amounts recognized in accumulated other comprehensive loss of the domestic unfunded defined benefit plan at December 31, 2010 and 2009, consist entirely of unrecognized net losses of \$7 million and \$6 million, respectively.

There are estimated to be immaterial amounts of unrecognized net losses that will be amortized into net periodic benefit cost over the next fiscal year.

The net periodic pension cost for the unfunded U.S. plan and the funded foreign plan for the three years ended December 31, 2010, 2009, and 2008, is as follows:

	<u>Unfunded US Plan</u>			<u>Funded Foreign Plan</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>	<u>2010</u>	<u>2009</u>	<u>2008</u>
Service cost	\$—	\$—	\$ 1	\$—	\$—	\$—
Interest cost	—	1	2	—	—	2
Expected return on plan assets	—	—	—	—	—	—
Amortization of transition obligation	—	—	—	—	—	—
Amortization of prior service cost	—	—	—	—	—	—
Amortization of net loss	—	—	—	—	—	1
Reduction in benefit obligation	—	—	—	—	—	—
Special termination benefits	—	—	—	—	—	—
Net periodic pension cost	<u>\$—</u>	<u>\$ 1</u>	<u>\$ 3</u>	<u>\$—</u>	<u>\$—</u>	<u>\$ 3</u>
Settlement losses	\$—	\$—	\$—	\$—	\$—	\$ 5
Curtailment (gain)	—	—	(4)	—	—	(19)
Settlement loss related to plan merger	—	—	5	—	—	39
Net pension cost	<u>\$—</u>	<u>\$ 1</u>	<u>\$ 4</u>	<u>\$—</u>	<u>\$—</u>	<u>\$ 28</u>
Other comprehensive loss (gain)—net of income tax	<u>\$—</u>	<u>\$ 1</u>	<u>\$ 2</u>	<u>\$—</u>	<u>\$—</u>	<u>\$(16)</u>

The weighted average assumptions used in the measurement of our benefit obligation as of December 31, 2010 and 2009 (the measurement dates), for the unfunded U.S. plan are as follows:

	<u>2010</u>	<u>2009</u>
Discount rate	5.10%	5.60%

The weighted average assumptions used in the measurement of our net cost as of December 31, 2010 and 2009 (the measurement dates), for the unfunded U.S. plan are as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Discount rate	5.60%	6.25%	6.35%
Rate of compensation increase	—	—	6.25%

As of December 31, 2010, the benefits expected to be paid in each of the next five years, and in the aggregate for the five years thereafter, are disclosed below. The expected benefits are estimated based on the same assumptions used to measure our benefit obligation at the end of the year and include benefits attributable to estimated future employee service as follows:

<u>Year Ending December 31,</u>	
2011	\$ 2
2012	2
2013	1
2014	1
2015	1
2016—2020	6
Total	<u>\$13</u>

Defined Contribution Plans—We provide retirement benefits to certain qualified employees under the Retirement Savings Plan (a qualified plan under Internal Revenue Code Section 401(k)), the Field Retirement Plan (a nonqualified plan), and other similar plans. We record expenses related to the Retirement Savings Plan based on a percentage of qualified employee contributions on stipulated amounts; a substantial portion of these contributions are included in the “Other revenues from managed properties” and “Other costs from managed properties” lines in the consolidated statements of income (loss) as the costs of these programs are largely related to employees located at lodging properties managed by us and are therefore paid for by the property owners. Refer to the table below for costs related to these plans.

Deferred Compensation Plans—Historically, we have provided nonqualified deferred compensation for certain employees through several different plans. These plans were funded through contributions to rabbi trusts. In 2010 these plans were consolidated into the one DCP. Contributions and investment elections are determined by the employees. The Company also provides contributions according to a preapproved formula. A portion of these contributions relate to hotel property level employees, which are reimbursable to us and are included in the “Other revenues from managed properties” and “Other costs from managed properties” lines in the consolidated statements of income (loss). As of December 31, 2010 and 2009, the plans are fully funded in rabbi trusts. The assets of the plans are primarily invested in mutual funds, which are recorded in other assets in the consolidated balance sheets (see Note 4). The related deferred compensation liability is recorded in other long-term liabilities (see Note 14). Refer to the table below for costs related to these plans.

Deferred Incentive Compensation Plans—The deferred incentive compensation plans consist of funded and unfunded defined contribution plans for certain executives. Awards were frozen starting in 2010 and vest over time. During the second quarter of 2010 the liabilities of the plans related to active employees were transferred to the Company’s non-qualified deferred compensation plan. Refer to the table below for costs related to these plans.

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Defined benefit plan	\$ —	\$ 1	\$32
Defined contribution plans	32	28	30
Deferred compensation plans	4	4	4
Deferred incentive compensation plans	1	2	4

Employee Stock Purchase Program—On June 9, 2010 the Company’s stockholders approved the Hyatt Hotels Corporation Employee Stock Purchase Program (“ESPP”), which is designed to qualify under Section 423 of the Internal Revenue Code. The ESPP provides eligible employees with the opportunity to purchase shares of the Company’s common stock on a quarterly basis through payroll deductions at a price equal to 95% of the fair market value on the last trading day of each quarter. Enrollment occurs prior to the commencement of the quarter with elections being deducted from payroll during the quarter and the actual purchase of stock is completed subsequent to the quarter close. There are 1,000,000 shares reserved for issuance under the ESPP which has been deemed to be non-compensatory. Approximately 16,000 shares were issued under the ESPP during 2010.

14. OTHER LONG-TERM LIABILITIES

Other long-term liabilities at December 31, 2010 and 2009, consist of the following:

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
Deferred compensation plans (see Note 13)	\$244	\$192
Hyatt Gold Passport Fund (see Note 2 and 4)	226	243
Other accrued income taxes (see Note 15)	141	128
Deferred gains on sale of hotel properties	45	30
Deferred income taxes (see Note 15)	20	30
Defined benefit plans (see Note 13)	18	17
Deferred incentive compensation plans (see Note 13)	9	34
Other	99	106
Total	<u>\$802</u>	<u>\$780</u>

15. INCOME TAXES

Our tax provision includes federal, state, local, and foreign income taxes payable. The domestic and foreign components of income (loss) before income taxes for the three years ended December 31, 2010, 2009 and 2008 are as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
U.S. income (loss) before tax	\$(38)	\$(148)	\$200
Foreign income before tax	126	97	5
Income (loss) before income taxes	<u>\$ 88</u>	<u>\$ (51)</u>	<u>\$205</u>

The provision (benefit) for income taxes from continuing operations for the three years ended December 31, 2010, 2009 and 2008 is comprised of the following:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Current:			
Federal	\$ 2	\$(120)	\$46
State	(1)	2	6
Foreign	44	37	32
Total Current	<u>\$ 45</u>	<u>\$ (81)</u>	<u>\$84</u>
Deferred:			
Federal	\$ 3	\$ 82	\$11
State	6	(3)	1
Foreign	(17)	(6)	(6)
Total Deferred	<u>\$ (8)</u>	<u>\$ 73</u>	<u>\$ 6</u>
Total	<u>\$ 37</u>	<u>\$ (8)</u>	<u>\$90</u>

The following is a reconciliation of the statutory federal income tax rate to the effective tax rate from continuing operations reported in the financial statements:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Statutory U.S. federal income tax rate	35.0%	35.0%	35.0%
State income taxes—net of federal tax benefit	2.0	3.8	0.6
Foreign and U.S. tax effects attributable to foreign operations	(6.6)	65.0	(4.2)
Tax contingencies	12.2	(20.7)	0.8
Change in valuation allowances	(4.0)	(59.2)	(0.4)
Nondeductible asset impairments	—	—	13.4
General business credits	(2.7)	3.9	(1.3)
Equity based compensation	7.0	—	—
Other	(0.9)	(11.2)	0.1
Effective income tax rate	<u>42.0%</u>	<u>16.6%</u>	<u>44.0%</u>

For years 2010 and 2009, the mix of U.S. operating losses with earnings from our foreign-based operations impacted the effective tax rate. The other significant items affecting the tax rate in 2010 relate to an increase in tax contingencies of \$11 million and charges for nondeductible equity based compensation of \$6 million. This was partially offset by a reduction in our valuation allowances totaling \$4 million.

For 2009, the benefits from net operating losses in foreign jurisdictions were offset by increases in valuation allowances. In addition, tax contingencies increased by \$11 million during the year. The Other amount includes approximately \$4 million related to changes in deferred taxes. The effective income tax rate was also restated from 18.2 percent to 16.6 percent to reflect the impact of discontinued operations.

For 2008, the change in valuation allowance primarily consists of a decrease in valuation allowance related to the settlement of an issue with the Internal Revenue Service (“IRS”) for \$14 million partially offset by an increase in valuation allowance for foreign net operating losses of \$9 million incurred in 2008. The other significant items affecting the tax rate in 2008 relate to the impairment of goodwill that is not deductible for tax purposes and a tax benefit resulting from a change in estimate from previously filed state returns.

The components of net deferred tax asset from continuing operations at December 31, 2010 and 2009 is comprised of the following:

	<u>2010</u>	<u>2009</u>
Employee benefits	\$ 129	\$ 127
Foreign and state net operating losses	108	107
Nonconsolidated investments	64	42
Allowance for uncollectible assets	28	31
Intangibles	21	25
Future deductions pursuant to IRS settlement	18	22
Interest and state benefits	21	20
Unrealized investment losses	2	4
Other	60	52
Valuation allowance	<u>(96)</u>	<u>(100)</u>
Total deferred tax asset	<u>\$ 355</u>	<u>\$ 330</u>
Deferred tax liabilities related to:		
Installment sales	\$ (17)	\$ (23)
Property and equipment	(195)	(182)
Nonconsolidated investments	(25)	(24)
Unrealized investment gains	(5)	—
Prepaid expenses	(11)	(9)
Other	<u>(31)</u>	<u>(25)</u>
Total deferred tax liability	<u>\$(284)</u>	<u>\$(263)</u>
Net deferred tax asset	<u>\$ 71</u>	<u>\$ 67</u>
Recognized in the balance sheet as:		
Deferred tax assets—current	\$ 29	\$ 23
Deferred tax assets—noncurrent	62	74
Deferred tax liabilities—noncurrent	<u>(20)</u>	<u>(30)</u>
Total	<u>\$ 71</u>	<u>\$ 67</u>

Deferred tax assets related to nonconsolidated joint venture investments increased primarily due to impairments of \$23 million that were recorded against certain holdings. This was offset by an increase of \$8 million in deferred tax liabilities related to property and equipment from hotel asset sales during the year.

As of December 31, 2010, we have determined that undistributed net earnings of \$203 million of certain foreign subsidiaries would be indefinitely reinvested in operations outside the United States. These earnings could become subject to additional taxes if remitted as dividends, loaned to a U.S. affiliate, or if we sold our interest in the affiliates; the resulting U.S. income tax liabilities could be offset, in whole or in part, by credits allowable for taxes paid to foreign jurisdictions. The actual tax costs would depend on the income tax laws and circumstances at the time of the realization events; determination of the potential net liability is not practicable due to the complexities of the hypothetical calculation. We continue to provide deferred taxes, as required, on the undistributed earnings of foreign subsidiaries and unconsolidated affiliates that are not indefinitely reinvested in operations outside the United States.

As of December 31, 2010, we have \$108 million of future tax benefits related to state and foreign net operating losses. Some of these operating losses will begin to expire in 2011 and continue through 2030; however, a number of these operating losses have no expiration date and may be carried forward indefinitely.

A valuation allowance of \$89 million has been established for the net operating loss benefits, as we believe it is more likely than not that we will be unable to utilize these operating loss carry forwards. A valuation allowance has also been established against other foreign assets that are not expected to be realized. We

evaluated all available evidence about future taxable income and other possible sources of realization of deferred tax assets to determine whether a valuation allowance is necessary to reduce our deferred tax assets to an amount that represents our best estimate of the amount of deferred tax assets that will be realized.

Total unrecognized tax benefits as of December 31, 2010, 2009 and 2008 were \$89 million, \$83 million, and \$87 million respectively, of which \$50 million, \$49 million, and \$62 million respectively, would impact the effective tax rate if recognized. It is reasonably possible that a reduction of up to \$16 million of unrecognized tax benefits could occur within twelve months resulting from the resolution of audit examinations and the expiration of certain tax statutes of limitations.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Unrecognized tax benefits—beginning balance	\$ 83	\$ 87	\$ 86
Total increases—current period tax positions	5	5	3
Total increases—prior period tax positions	4	5	13
Settlements	(3)	(14)	(15)
Lapse of statute of limitations	—	—	—
Unrecognized tax benefits—ending balance	<u>\$ 89</u>	<u>\$ 83</u>	<u>\$ 87</u>

During 2010, we paid \$3 million to settle certain state and foreign tax issues and related interest and penalties related to tax years 2003 through 2009.

During 2009, we paid \$9 million to the IRS to settle certain tax issues and related interest regarding the 2003 and 2004 examinations of AIC Holding Co., one of our subsidiaries. We also paid \$11 million to H Group Holding, Inc. (the “Former Parent”) in accordance with a tax separation agreement to settle tax issues and related interest due from IRS and State examinations that covered years 1980 through 2003.

During 2008, the IRS entered into a settlement agreement with the Former Parent that provided full concession for certain protested benefits related to the taxable years ended January 31, 2002 and 2003. The agreement also included the same benefits reported by Hyatt Corporation, a subsidiary of ours, and by us for taxable years after December 31, 2003. In connection with the resolution of these examinations, we reduced the liability for unrecognized tax benefits by \$15 million and gross interest expense by \$5 million.

In accordance with our accounting policy, we recognize accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. Total gross accrued interest and penalties were \$75 million, \$65 million and \$58 million as of December 31, 2010, 2009 and 2008, respectively, of which \$10 million, \$16 million and \$8 million was recognized as a component of income tax expense during the year ended December 31, 2010, 2009 and 2008, respectively.

Our 2008, 2007, 2006 and 2005 federal income tax returns are currently under IRS examination. The statute of limitations for the following federal income tax returns are still open: the Former Parent for the taxable years ended January 31, 2001 and 2003, and December 31, 2003 and 2004; Hyatt Corporation for the short-period ended December 31, 2004; AIC Holding Co. for the taxable years ended December 31, 2003 and 2004 and us for the taxable year ended December 31, 2004. We have protested certain adjustments proposed by the IRS related to those taxable years, and the issues are currently under review by the Appeals Office.

We are under audit by various state and foreign tax authorities. State income tax returns are generally subject to examination for a period of three to five years after filing of the return. However, the state impact of any federal changes remains subject to examination by various states for a period generally of up to one year after formal notification to the states. The statute of limitations for the foreign jurisdictions ranges from three to ten years after filing the applicable tax return.

During 2010, we made deposits totaling \$3 million for tax to the State of Illinois under its Tax Amnesty program for tax related issues that are currently in Appeals regarding the 2003, 2004 and 2005 years. This amount includes \$2 million paid by the Former Parent for the Company's share of tax that would be due under a tax separation agreement for years 2003 and 2004. We also recorded tax receivables totaling \$20 million for tax and accrued interest due from the IRS for claims that accelerate certain costs that were previously capitalized in the 2008 tax year.

During 2009, we made deposits totaling \$14 million for tax and interest to the IRS that relate to examinations that cover taxable years ended December 31, 2003, 2004, and 2005. The deposits include \$7 million paid on behalf of the Former Parent for the Company's share of tax and interest due under the Tax Separation Agreement for years 2003 and 2004.

16. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, we enter into various commitments, guarantees, surety bonds, and letter of credit agreements, which are discussed below:

Guarantees and Commitments—As of December 31, 2010, we are committed, under certain conditions, to loan or invest up to \$466 million, net of any related letters of credit, in various business ventures.

Included in the \$466 million in commitments is our share of a recently formed hospitality venture's commitment to purchase a hotel within a to-be constructed building in New York City for a total purchase price of \$375 million. The hospitality venture will be funded upon the purchase of the hotel and our share of the purchase price commitment is 66.67%. In accordance with the purchase agreement, we have agreed to fund a letter of credit as security towards this future purchase obligation. As of December 31, 2010, the letter of credit is valued at \$5 million. The agreement stipulates that subsequent increases in the value of the letter of credit to \$10 million and \$50 million as well as the purchase of the completed property are each contingent upon the completion of certain contractual milestones. The \$5 million funded letter of credit is included as part of our total letters of credit outstanding at December 31, 2010 and therefore netted against our future commitments amount disclosed above. For further discussion see the "Letters of Credit" section of this footnote listed below.

Also included in the \$466 million listed above is our commitment to invest in a joint venture in order to develop, own and operate a hotel property in the State of Hawaii. Contingent upon the amount of debt financing placed within the joint venture, the maximum remaining commitment under the agreement at December 31, 2010 is \$123 million.

Certain of our hotel lease or management agreements contain performance tests that stipulate certain minimum levels of operating performance. These performance test clauses provide us the option to fund a shortfall in profit performance. If we choose not to fund the shortfall the hotel owner has the option to terminate the management contract. As of December 31, 2010, an insignificant amount was recorded in accrued expenses related to these performance test clauses.

Additionally, from time to time we may guarantee certain of our hotel owners certain levels of hotel profitability based on various metrics. We have management agreements where we are required to make payments based on specified thresholds. During 2010, we recorded a \$6 million charge under one of these agreements. Under a separate agreement, we had \$6 million accrued as of December 31, 2010. The remaining maximum potential payments related to these agreements are \$38 million.

We have entered into various loan, lease, completion, and repayment guarantees related to investments held in hotel operations. The maximum exposure under these agreements as of December 31, 2010 is \$22 million. For certain repayment guarantees related to our joint venture properties, the Company has agreements with its partners that require each partner to pay a pro-rata portion of the guarantee based on each partner's ownership

percentage. Assuming the successful enforcement of these agreements, our maximum exposure under the various agreements described above as of December 31, 2010 would be \$18 million.

Surety Bonds—Surety bonds issued on our behalf totaled \$21 million at December 31, 2010, and primarily relate to workers' compensation, taxes, licenses, and utilities related to our lodging operations.

Letters of Credit—Letters of credit outstanding on our behalf as of December 31, 2010, totaled \$79 million, the majority of which relate to our ongoing operations. Of the \$79 million letters of credit outstanding, \$71 million reduces the available capacity under the revolving credit facility (see Note 10).

Capital Expenditures—As part of our ongoing business operations, significant expenditures are required to complete renovation projects that have been approved.

Other—We act as general partner in various partnerships owning hotel facilities that are subject to mortgage indebtedness. These mortgage agreements generally limit the lender's recourse to security interests in assets financed and/or other assets of the partnership and/or the general partner(s) thereof.

We are subject from time to time to various claims and contingencies related to lawsuits, taxes, and environmental matters, as well as commitments under contractual obligations. Many of these claims are covered under the current insurance programs, subject to deductibles. For those matters not covered by insurance we reasonably recognize a liability associated with such commitments and contingencies when a loss is probable and reasonably estimable. Although the ultimate liability for these matters cannot be determined at this point, based on information currently available we do not expect that the ultimate resolution of such claims and litigation will have a material adverse effect on our consolidated financial statements.

17. STOCKHOLDERS' EQUITY AND COMPREHENSIVE LOSS

Comprehensive Loss—Comprehensive loss primarily relates to reported earnings (losses), foreign currency translation, changes in unrecognized pension cost and changes in the value of the effective portion of cash flow hedges.

The following table summarizes components of accumulated other comprehensive loss at December 31, 2010, 2009, and 2008:

	<u>December 31,</u> <u>2010</u>	<u>December 31,</u> <u>2009</u>	<u>December 31,</u> <u>2008</u>
Foreign currency translation adjustments, net of income taxes of \$(10) million, \$(9) million, and \$8 million in 2010, 2009 and 2008, respectively	\$ (33)	\$ (48)	\$ (54)

Initial Public Offering—On November 10, 2009, we completed an IPO in which the selling stockholders sold 38,000,000 shares of Class A common stock and we sold 5,700,000 shares of Class A common stock pursuant to the underwriters' full exercise of their overallotment option. All shares were sold at an initial public offering price of \$25.00 per share. The net proceeds of the IPO to us were approximately \$127 million, after deducting the underwriters' discount of approximately \$7 million and other offering expenses of approximately \$8 million. On November 4, 2009, in connection with the effectiveness of our amended and restated certificate of incorporation, 34,407 shares of outstanding common stock were reclassified into 34,407 shares of Class A common stock, and 168,005,588 shares of outstanding common stock were reclassified into 168,005,588 shares

of Class B common stock (of which, 38,000,000 shares were converted into 38,000,000 shares of Class A common stock at the time such shares were sold by the selling stockholders in the IPO).

Common Stock—In connection with the IPO, on November 4, 2009 the Company filed an amended and restated certificate of incorporation which, among other things, implemented a dual class common stock structure consisting of two classes of common stock: Class A common stock, which has one vote per share, and Class B common stock, which has ten votes per share. Our Class A common stock is the only class of stock which is publicly traded. Holders of Class A common stock and Class B common stock vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders, unless otherwise required by law. Any holder of Class B common stock may convert his or her shares at any time into shares of Class A common stock on a share-for-share basis. Each share of Class B common stock will convert automatically into one share of Class A common stock upon any transfer, whether or not for value, except for certain permitted transfers described in the Company's amended and restated certificate of incorporation. All shares of Class B common stock will convert automatically into shares of Class A common stock if, on any record date for determining the stockholders entitled to vote at an annual or special meeting of stockholders, the aggregate number of shares of our Class A common stock and Class B common stock owned, directly or indirectly, by the holders of our Class B common stock is less than 15% of the aggregate number of shares of our Class A common stock and Class B common stock then outstanding. Once converted into Class A common stock, the Class B common stock cannot be reissued. The holders of our Class A common stock and Class B common stock are entitled to share equally in any dividends that our board of directors may declare from time to time from legally available funds, subject to limitations under Delaware law and the preferential rights of holders of any outstanding shares of preferred stock. Upon any voluntary or involuntary liquidation, dissolution, distribution of assets or winding up of the Company, the holders of our Class A common stock and Class B common stock are entitled to share equally, on a per share basis, in all our assets available for distribution, after payment to creditors and subject to any prior distribution rights granted to holders of any outstanding shares of preferred stock.

At December 31, 2010, Pritzker family business interests beneficially owned, in the aggregate, approximately 80.6% of our Class B common stock, representing approximately 60% of the outstanding shares of our common stock and approximately 77.9% of the total voting power of our outstanding common stock. As a result, consistent with the voting agreements contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, Pritzker family business interests are able to exert a significant degree of influence or actual control over our management and affairs and over matters requiring stockholder approval, including the election of directors and other significant corporate transactions. While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval. Because of our dual class ownership structure, Pritzker family business interests will continue to exert a significant degree of influence or actual control over matters requiring stockholder approval, even if they own less than 50% of the outstanding shares of our common stock. Pursuant to the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, the Pritzker family business interests have agreed to certain voting agreements and to certain limitations with respect to the sale of shares of our common stock. Pursuant to the Amended and Restated Agreement Relating to Stock, certain Pritzker family business interests have agreed to further restrict their ability to transfer shares of our common stock. In addition, other stockholders, including entities affiliated with Goldman, Sachs & Co. and Madrone GHC, LLC, beneficially own, in the aggregate, approximately 19.4% of our outstanding Class B common stock, representing approximately 14.4% of the outstanding shares of our common stock and approximately 18.8% of the total voting power of our outstanding common stock. Pursuant to the 2007 Stockholders' Agreement, these entities have also agreed to certain voting agreements and to certain limitations with respect to the sale of shares of our common stock.

On May 14, 2009, the Company sold 29,195,199 shares of HHC common stock at \$26 per share in exchange for \$755 million in cash, net of \$4 million in transaction costs through a private placement to certain of our existing investors and their affiliates.

Treasury Stock—During 2010, certain participants in the Deferred Compensation Plan had a one-time option to use their designated assets to purchase shares of our Class A common stock. As a result, 30,805 shares of Class A common stock issued out of treasury stock shares for an aggregate purchase price of \$1 million.

During December 2009, we withheld 67,078 shares of common stock for a total of \$2 million from employees to satisfy statutory minimum tax-withholding requirements in connection with the vesting of restricted stock and the issuance of stock to employees. See Note 18.

On August 22, 2007, one of our subsidiaries acquired 12,135,904 shares of our common stock, from certain subsidiaries of Marmon Holdings, Inc., one of our affiliates, for \$745 million in cash. These shares of common stock were substantially purchased with the proceeds from the issuance of a promissory note to a related party (see below). On September 14, 2007 and October 17, 2007, an additional 4,145,437 and 1,628,134 shares, respectively, of common stock were acquired from other stockholders for \$255 million and \$100 million in cash, respectively. The aggregate 17,909,476 shares of common stock purchased had been recorded as treasury stock under the cost method and are included as a separate component of stockholders' equity. Our board of directors approved the retirement of the treasury stock and during 2008 we retired the shares. The book value was allocated to common stock and additional paid-in-capital at the time of retirement.

Senior Subordinated Notes and Stock Subscription Agreement—On August 28, 2007, we issued \$500 million of 5.84% senior subordinated notes due 2013 ("2013 Notes") to an independent third party. At the same time, we entered into a stock subscription agreement (the "Subscription Agreement") with that independent third party, which required such third party to acquire a variable number of shares of the Company's common stock at a future date, as specified in the Subscription Agreement, for a total of \$500 million in cash. This independent third party also received a seat on our board of directors. On October 25, 2007, we issued \$100 million of additional 2013 Notes to, and executed an amendment to the Subscription Agreement with, a second independent third party that required such independent third party to acquire a variable number of shares of our common stock at a future date, as specified in the Subscription Agreement, for a total of \$100 million in cash. On May 13 and May 18, 2009, HHC repurchased and cancelled the outstanding 2013 Notes for \$600 million plus \$88 million in make whole interest and early settlement premiums. Other income (loss), net includes these costs plus the write off of \$5 million in deferred financing costs associated with these 2013 Notes.

Under the Subscription Agreement, the purchasers were required to pay us a subscription fee of 0.84% per year of the purchase price through the settlement date, as defined below. The fair value of the subscription receivable of \$18 million was recorded as additional paid-in capital at the date the Subscription Agreement was executed. The purchase of shares of our common stock under the Subscription Agreement was mandatory on September 1, 2011, or earlier in the event of a change of control of the Company or an initial public offering of the Company's common stock (the "Settlement Date"). The purchase of the shares of our common stock was to have been settled in cash in exchange for a variable number of our common stock based upon the fair value per share of our common stock on the Settlement Date. If the fair value per share of our common stock on the Settlement Date was less than or equal to \$55.28, the purchasers would be obligated to purchase shares of common stock from the Company at a price of \$55.28 per share. The purchasers' obligations under the Subscription Agreements were secured by a pledge of the 2013 Notes to us. In connection with the repurchase of the 2013 Notes, on May 13 and May 18, 2009, the purchasers and we agreed to early settle their rights and obligations under the Subscription Agreement. Such settlement included a purchase of our common stock by the purchasers on the terms of the Subscription Agreement. Accordingly, the purchasers purchased 10,853,142 shares of common stock for \$600 million, for a purchase price per share of \$55.28. As part of this transaction the Company recognized \$13 million of transaction costs as a reduction of additional paid in capital. These costs have been deferred from the date of the original Subscription Agreement. In addition, we received the remaining \$11 million due to us under the Subscription Agreement.

Preferred Stock—On August 28, 2007, we issued 100,000 shares of newly designated stock ("Convertible Preferred Stock") for \$500 million to an independent third party investor. The Convertible Preferred Stock was convertible into approximately 8,140,671 shares of our common stock. The holder of the stock also received a

seat on our board of directors. Conversion was at the option of the holder. The Convertible Preferred Stock participated in dividends and distributions equivalent to our common stock on an if-converted basis. In addition, the Convertible Preferred Stock also participated in any liquidation, dissolution, or winding up on an equivalent basis as the common stock. The Convertible Preferred Stock was non-voting. The Convertible Preferred Stock could have been sold or transferred only in accordance with the terms of the Stockholders' Agreement. Pursuant to the Stockholders' Agreement, the Company had the right but not the obligation to acquire the stock from any selling stockholder. In addition, the holder of the Convertible Preferred Stock could have requested that we register for issuance any of its common stock, subject to certain limitations. On May 14, 2009, the investor elected to convert its 100,000 shares of Series A Convertible Preferred Stock to 8,140,671 shares of our HHC common stock.

18. STOCK-BASED COMPENSATION

As part of our Long-Term Incentive Plan, we award Stock Appreciation Rights ("SARs") and Restricted Stock Units ("RSUs") to certain employees. Compensation expense and unearned compensation figures within this note exclude amounts related to employees of our managed hotels as this expense has been and will continue to be reimbursed by our third party hotel owners. Compensation expense related to these plans for the years ended December 31, 2010, 2009, and 2008 was as follows:

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Stock appreciation rights	\$11	\$9	\$8
Restricted stock units	8	7	4

The income tax benefit related to these plans for the years ended December 31, 2010, 2009, and 2008 was as follows:

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Stock appreciation rights	\$4	\$4	\$3
Restricted stock units	3	3	1

Stock Appreciation Rights—Each vested SAR gives the holder the right to the difference between the value of one share of our Class A common stock at the exercise date and the value of one share of our Class A common stock at the grant date. Vested SARs can be exercised over their life as determined by the plan. All SARs have a 10-year contractual term. The SARs are settled in shares of our Class A common stock and are accounted for as equity instruments.

The following table sets forth a summary of the SAR activity in 2010, 2009 and 2008:

<u>Grant Date</u>	<u>SARs Granted</u>	<u>Per SAR Value</u>	<u>Vesting Period</u>	<u>Vesting Start Month</u>
May 2010	338,326	\$19.84	25% annually	May 2011
March 2010	386,834	15.93	25% annually	March 2011
October 2009	61,121	13.60	25% annually	August 2010
May 2009	492,210	14.40	25% annually	April 2010
May 2008	284,637	26.00	25% annually	April 2009

The weighted average grant date fair value for the awards granted in 2010, 2009, and 2008 was \$17.75, \$14.31, and \$26.00, respectively.

The fair value of each SAR was estimated based on the date of grant using the Black-Scholes-Merton option-valuation model with the following weighted-average assumptions:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Exercise Price	\$36.78	\$26.34	\$58.18
Expected Life in Years	6.251	6.193	6.208
Risk-free Interest Rate	2.72%	2.44%	3.36%
Expected Volatility	45.95%	55.20%	40.00%
Annual Dividend Yield	0%	0%	0%

We used an estimated forfeiture rate of 0% because only a small group of executives received these grants and we have limited historical data on which to base these estimates. We record the compensation expense earned for SARs on a straight-line basis from the date of grant. The exercise price of these SARs was the fair value of our common stock at the grant date, based on a valuation of the Company, or the closing share price on the date of grant for all 2010 grants. Due to a lack of historical exercise information the expected life was estimated based on the midpoint between the vesting period and the contractual life of each SAR, per guidance from the SEC's Staff Accounting Bulletin No. 107 and No. 110. The risk-free interest rate was based on U.S. Treasury instruments with similar expected life. The expected volatility was estimated using the average implied volatility of exchange-traded options of our major publicly traded competitors. As of the fourth quarter of 2009, the Company changed its methodology for calculating expected volatility from using the average implied volatility to using the average historical volatility of our peer group over a time period consistent with our expected term assumption.

A summary of employee SAR activity as of December 31, 2010, and changes during 2010 are presented below:

	<u>SAR Units</u>	<u>Weighted Average Exercise Price (in whole dollars)</u>	<u>Weighted Average Contractual Term</u>
Outstanding at December 31, 2009:	1,863,887	\$48.83	8.06
Granted	725,160	36.78	9.26
Exercised	15,547	26.00	8.37
Forfeited or cancelled	19,350	33.32	8.59
Outstanding at December 31, 2010:	2,554,150	\$45.25	7.67
Exercisable as of December 31, 2010:	1,237,500	\$54.90	6.56

The total intrinsic value of SARs outstanding at December 31, 2010 was \$17 million and the total intrinsic value for exercisable SARs was \$2 million as of December 31, 2010.

Restricted Stock Units—Vested RSUs will be settled with a single share of our Class A common stock with the exception of an insignificant portion of the May 2010 award which will be settled in cash. The value of the RSUs was based on the closing stock price of our Class A common as of the grant date.

The following table sets forth a summary of the employee RSU activity in 2010, 2009 and 2008:

<u>Grant Date</u>	<u>RSUs</u>	<u>Value</u>	<u>Total Value (in millions)</u>	<u>Vesting Period</u>
September 2010	20,707	\$39.84	\$ 1	4 years
May 2010	466,223	\$40.96	\$ 19	4 years
March 2010	102,252	\$33.12	\$ 3	4 years
December 2009	7,500	\$30.09	\$ —	4 years
October 2009	28,565	\$29.10	\$ 1	4 years
May 2009	160,378	\$26.00	\$ 4	Immediately to 11 years
May 2009	116,344	\$26.00	\$ 3	4 years
September 2008	20,335	\$58.18	\$ 1	4 years & 10 years
May 2008	206,007	\$58.18	\$ 12	4 years

During the years ended December 31, 2010 and 2008, 5,003 RSUs from the May 2009 grant and 14,147 RSUs from the May 2008 grant, respectively were forfeited. The Company reversed compensation expense associated with the unvested, forfeited awards.

We record compensation expense earned for RSUs on a straight-line basis from the date of grant using an expected forfeiture rate of 5%. In certain situations we also grant cash-settled RSUs which are recorded as a liability instrument. The liability and related expense for granted cash-settled RSU's are insignificant as of and for the period ended December 31, 2010.

A summary of the status of the non-vested employee restricted stock unit awards outstanding under the plan as of December 31, 2010 is presented below:

	<u>Restricted Stock Units</u>	<u>Weighted Average Grant Date Fair Value (in whole dollars)</u>
Nonvested at December 31, 2009:	482,293	\$38.69
Granted	589,182	39.56
Vested	96,937	43.50
Forfeited or cancelled	5,003	40.96
Nonvested at December 31, 2010:	969,535	\$38.71

As of December 31, 2010 the total intrinsic value of RSUs that vested in 2010 is \$4 million. The total intrinsic value of nonvested RSUs as of December 31, 2010 was \$44 million.

Our total unearned compensation for our stock-based compensation programs as of December 31, 2010 was \$18 million for SARs and \$25 million for RSUs, which will be recorded to compensation expense over the next ten years as follows:

	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015+</u>	<u>Total</u>
SARs	\$ 7	\$ 6	\$ 4	\$ 1	\$ —	\$18
RSUs	9	7	6	2	1	25
Total	\$16	\$13	\$10	\$3	\$ 1	\$43

Other—In December 2009, we issued 65,494 shares of Series A common stock to certain employees. The shares are fully vested and no future service is required. As a result of the issuance, we recorded \$2 million of compensation expense. The shares issued are net of 28,006 shares withheld to meet minimum statutory tax withholding requirements. Additionally, in December 2009 we issued 65,928 shares of series A common stock related to the vesting of RSUs. The shares issued are net of 39,072 shares withheld to meet the statutory tax withholding requirements. See Note 17.

19. RELATED-PARTY TRANSACTIONS

In addition to those included elsewhere in the notes to the consolidated financial statements, related-party transactions entered into by us are summarized as follows:

Investments —We are an investor in certain real estate partnerships that are managed by an affiliate. Generally, we are entitled to a preferred return on these investments, and we retain a small residual ownership interest after our preferred capital balance is repaid. While the carrying value of these cost method investments at December 31, 2010 and 2009 is zero, we received distributions from the sale of underlying investments during the years ended December 31, 2010, 2009, and 2008 of \$0, \$21 million and \$0, respectively. The distributions are included in other income (loss), net in our consolidated statements of income (loss).

In addition, we own a 5% limited partnership interest and limited liability company interests in three privately held investment entities, which invest in life science technology companies and are managed by an affiliate. While the carrying value of these cost method investments at December 31, 2010 and 2009 is zero, we received distributions during the years ended December 31, 2010, 2009, and 2008 of \$0, \$1 million, and \$184 million, respectively, of which \$122 million represented a return of capital in 2008. The distribution in 2008 was a result of the sale of one of the underlying investments. These distributions are included in other income (loss), net in our consolidated statements of income (loss).

Leases —Our corporate headquarters have been located at the Hyatt Center in Chicago, Illinois since 2005. The Hyatt Center was owned by a related party until December 20, 2010, when it was sold to a third party. A subsidiary of Hyatt Hotels Corporation holds a master lease for a portion of this building and has entered into sublease agreements with certain related parties. The gross future operating lease payments for the entire term of this lease, ending February 29, 2020, is \$101 million. Future sublease income for this space from related parties is \$19 million. We recorded, in selling, general and administrative expenses, \$9 million, \$9 million and \$11 million in 2010, 2009, and 2008, respectively, for rent, taxes and our share of operating expenses and shared facility costs under the lease. As of December 31, 2010 and 2009, the Company had recorded prepaid rent of \$1 million and \$1 million, respectively.

Property and Equipment—Through June 2009, a related party provided services for the operation and maintenance of our aircraft. We are charged for the cost of operating the aircraft. Subsequent to June 2009, we entered into an agreement with an unrelated third party to provide the operation and maintenance of our aircraft. However, the flight crew continues to be employed by a related party. Additionally, we have a timesharing agreement with certain affiliates whereby the participating entities have use of a shared aircraft pool. Under the timeshare agreements, we are charged for its use of other aircrafts subject to the timeshare agreement and charges out the use of its aircraft by the participating entities. We recorded expenses of \$0, \$2 million, and \$4 million for the years ended December 31, 2010, 2009, and 2008, respectively, associated with these aircraft operating and maintenance services, which are included in selling, general and administrative expenses. As of December 31, 2010 and December 31, 2009, we had insignificant payables due to the related party service provider.

Legal Services—A partner in a law firm that provided services to us throughout years 2010, 2009, and 2008 is the brother-in-law of our Executive Chairman. We incurred legal fees with this firm of \$4 million, \$9 million, and \$6 million, for the years ended December 31, 2010, 2009, and 2008, respectively. Legal fees when expensed are included in selling, general and administrative expenses. As of December 31, 2010 and 2009, we had insignificant amounts, respectively, due to the law firm.

Gaming—We have a Gaming Space Lease Agreement with HCC Corporation (“HCC”), a related party, in relation to the Hyatt Regency Lake Tahoe Resort, Spa and Casino. In 2010, 2009, and 2008, we received \$1 million, \$1 million, and \$4 million, respectively, under this lease.

Also related to the Hyatt Regency Lake Tahoe Resort, Spa and Casino, we have a Casino Facilities Agreement to provide certain sales, marketing, and other general and administrative services. In exchange for

such services, HCC pays us fees based on the type of services being provided and for complimentary goods and services provided to casino customers. We received \$3 million, \$3 million, and \$3 million for the years ended December 31, 2010, 2009, and 2008, respectively, under this agreement.

Other Services—A member of our board of directors who was appointed in 2007 is a partner in a firm from which the Company receives financial advisory services. During the years ended December 31, 2010, 2009, and 2008, the Company paid \$0, \$0 and \$2 million, respectively in advisory fees to this firm. We also engaged this firm as lead underwriter associated with our initial public offering. Under this arrangement, the firm earned fees in 2009, along with other underwriters, of \$49 million and \$7 million from the selling stockholders and us, respectively. At December 31, 2010 and December 31, 2009, no amounts were owed to the firm. Additionally, affiliates of the financial advisory firm own hotels from which we received management and franchise fees of \$6 million, \$4 million, and \$2 million during the years ended December 31, 2010, 2009, and 2008, respectively. As of December 31, 2010 and 2009, we had insignificant receivables due from these properties.

Equity Method Investments—We have equity method investments in entities that own properties for which we provide management and/or franchise services and receive fees. We recorded fees of \$33 million, \$29 million, and \$36 million for the years ended December 31, 2010, 2009, and 2008, respectively, related to these properties. As of December 31, 2010 and 2009, we had receivables due from these properties of \$8 million and \$4 million, respectively. In addition, in some cases we provide loans (see Note 7) or guarantees (see Note 16) to these entities. Our ownership interest in these equity method investments generally varies from 8 to 50 percent. See Note 3 for further details regarding our investments.

We have various cost sharing and advisory service agreements in place with businesses associated with Pritzker family business interests. We paid and received \$0 and \$1 million for the year ended December 31, 2010, respectively, and \$1 million and \$1 million, for the year ended December 31, 2009, respectively, related to these services.

20. SEGMENT AND GEOGRAPHIC INFORMATION

Our operating segments are components of the business which are managed discretely and for which discrete financial information is reviewed regularly by the chief operating decision maker to assess performance and make decisions regarding the allocation of resources. Our chief operating decision maker is our Chief Executive Officer. We define our reportable segments as follows:

Owned and Leased Hotels—This segment derives its earnings from owned and leased hotel properties located predominantly in North America but also from certain international locations and for purposes of segment Adjusted EBITDA, includes our pro rata share of the Adjusted EBITDA of our unconsolidated hospitality ventures, based on our ownership percentage of each venture.

North American Management and Franchising—This segment derives its earnings from services provided including hotel management and licensing of our family of brands to franchisees located in the U.S., Canada and the Caribbean. This segment's revenues also include the reimbursement of costs incurred on behalf of managed hotel property owners and franchisees with no added margin and includes in costs and expenses these reimbursed costs. These costs relate primarily to payroll costs at managed properties where the Company is the employer. These revenues and costs are recorded on the lines "Other revenues from managed properties" and "Other costs from managed properties", respectively. The intersegment revenues relate to management fees that are collected from the Company's owned hotels, which are eliminated in consolidation.

International Management and Franchising—This segment derives its earnings from services provided including hotel management and licensing of our family of brands to franchisees located in countries outside of the U.S., Canada and the Caribbean. This segment's revenues also include the reimbursement of costs incurred on behalf of managed hotel property owners and franchisees with no added margin and includes in costs and

expenses these reimbursed costs. These costs relate primarily to reservations, marketing and IT costs. These revenues and costs are recorded on the lines "Other revenues from managed properties" and "Other costs from managed properties", respectively. The intersegment revenues relate to management fees that are collected from the Company's owned hotels, which are eliminated in consolidation.

Prior to January 1, 2010, all of our Park Hyatt and Andaz branded hotels were managed by and reported within our international management and franchising segment, regardless of the property's location. Effective January 1, 2010, our Park Hyatt and Andaz branded hotels are now managed and reported geographically by the respective North American or international management and franchising segment consistent with our other brands. As a result of this change we are reporting the operating results for the Park Hyatt and Andaz branded hotels located in North America in the North American management and franchising segment for the year ended December 31, 2010 and have reclassified the results for the years ended December 31, 2009 and 2008 to be comparable to the current year presentation.

Our chief operating decision maker evaluates performance based on each segment's adjusted EBITDA. We define Adjusted EBITDA as net income (loss) attributable to Hyatt Hotels Corporation plus our pro-rata share of unconsolidated hospitality ventures Adjusted EBITDA before equity earnings (losses) from unconsolidated hospitality ventures; gains on sale of real estate; asset impairments; charge resulting from the termination of our supplemental executive defined benefit plans; other income (loss), net; discontinued operations, net of tax; net loss (income) attributable to noncontrolling interests; depreciation and amortization; interest expense; and (provision) benefit for income taxes.

The table below shows summarized consolidated financial information by segment. Included within Corporate and other are unallocated corporate expenses and revenues and expenses related to our vacation ownership properties.

(in millions)	<u>2010</u>	<u>2009</u>	<u>2008</u>
North American Management and Franchising			
Revenues	\$1,476	\$1,387	\$1,481
Intersegment Revenues (a)	64	63	87

(a) Intersegment revenues are included in the segment revenue totals and eliminated in Eliminations.

(b) The year ended December 31, 2010 includes a favorable settlement in the first quarter of 2010 of approximately \$8 million for a construction dispute at one of our vacation ownership properties.

The table below shows summarized consolidated balance sheet information by segment:

Total Assets

	<u>December 31, 2010</u>	<u>December 31, 2009</u>
North American Management and Franchising	\$ 307	\$ 312
International Management and Franchising	167	168
Owned and Leased Hotels	4,219	4,260
Corporate and other	<u>2,550</u>	<u>2,415</u>
TOTAL	<u><u>\$7,243</u></u>	<u><u>\$7,155</u></u>

The following table presents revenues and long-lived assets by geographical region:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Revenues:			
United States	\$2,802	\$2,676	\$3,063
All Foreign	<u>725</u>	<u>654</u>	<u>772</u>
Total	<u><u>\$3,527</u></u>	<u><u>\$3,330</u></u>	<u><u>\$3,835</u></u>
	<u>December 31, 2010</u>	<u>December 31, 2009</u>	
Long-Lived Assets			
United States	\$2,848	\$3,049	
All Foreign	<u>987</u>	<u>933</u>	
Total	<u><u>\$3,835</u></u>	<u><u>\$3,982</u></u>	

The table below provides a reconciliation of our consolidated Adjusted EBITDA to EBITDA and a reconciliation of EBITDA to net income (loss) attributable to Hyatt Hotels Corporation for the years ended December 31, 2010, 2009 and 2008.

	<u>Years Ended December 31,</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Adjusted EBITDA	\$ 476	\$ 406	687
Equity earnings (losses) from unconsolidated hospitality ventures	(40)	(13)	14
Gains on sales of real estate	26	—	—
Asset impairments	(44)	(12)	(86)
Charge resulting from the termination of our supplemental executive defined benefit plans	—	—	(20)
Other income (loss), net	71	(48)	23
Discontinued operations, net of tax	4	(3)	55
Net loss (income) attributable to noncontrolling interests	11	3	(2)
Pro rata share of unconsolidated hospitality ventures Adjusted EBITDA	<u>(68)</u>	<u>(59)</u>	<u>(90)</u>
EBITDA	436	274	581
Depreciation and amortization	(279)	(269)	(248)
Interest expense	(54)	(56)	(75)
(Provision) benefit for income taxes	<u>(37)</u>	<u>8</u>	<u>(90)</u>
Net income (loss) attributable to Hyatt Hotels Corporation	<u><u>\$ 66</u></u>	<u><u>\$ (43)</u></u>	<u><u>\$ 168</u></u>

21. EARNINGS PER SHARE

The calculation of basic and diluted earnings per share including a reconciliation of the numerator and denominator are as follows:

	Years Ended December 31,		
	2010	2009	2008
Numerator:			
Income (loss) from continuing operations	\$ 51	\$ (43)	\$ 115
Loss from discontinued operations	(3)	(3)	—
Gain on sale of discontinued operations	7	—	55
Net income (loss)	\$ 55	\$ (46)	\$ 170
Net loss (income) attributable to noncontrolling interests ..	\$ 11	\$ 3	\$ (2)
Net income (loss) attributable to Hyatt Hotels Corporation	\$ 66	\$ (43)	\$ 168
Denominator:			
Basic weighted average shares outstanding:	174,115,200	151,486,490	128,037,015
Share-based compensation	239,002	—	24,132
Diluted weighted average shares outstanding	174,354,202	151,486,490	128,061,147
Basic Earnings Per Share:			
Income from continuing operations	\$ 0.29	\$ (0.28)	\$ 0.90
Loss from discontinued operations	(0.01)	(0.02)	—
Gain on sale of discontinued operations	0.04	—	0.43
Net income (loss)	\$ 0.32	\$ (0.30)	\$ 1.33
Net loss (income) attributable to noncontrolling interests ..	0.06	0.02	(0.02)
Net income (loss) attributable to Hyatt Hotels Corporation	\$ 0.38	\$ (0.28)	\$ 1.31
Diluted Earnings Per Share:			
Income (loss) from continuing operations	\$ 0.29	\$ (0.28)	\$ 0.90
Income (loss) from discontinued operations	(0.01)	(0.02)	—
Gain on sale of discontinued operations	0.04	—	0.43
Net income (loss)	\$ 0.32	\$ (0.30)	\$ 1.33
Net loss (income) attributable to noncontrolling interests ..	0.06	0.02	(0.02)
Net income (loss) attributable to Hyatt Hotels Corporation	\$ 0.38	\$ (0.28)	\$ 1.31

The computations of diluted net income (loss) per share for the years ended December 31, 2010, 2009, and 2008 do not include approximately 59,055, 138,000, and 27,500 of shares of Class A common stock assumed to be issued upon settlement of stock-settled SARs and approximately 676,548, 482,500, and 246,000 RSUs, respectively, because the SARs and RSUs are anti-dilutive. In 2008, the shares pursuant to the Subscription Agreement were anti-dilutive. The effect of their inclusion would have been anti-dilutive to earnings per share.

22. QUARTERLY FINANCIAL INFORMATION (UNAUDITED)

The following table sets forth the historical unaudited quarterly financial data for the periods indicated. The information for each of these periods has been prepared on the same basis as the audited consolidated financial statements and, in our opinion, reflects all adjustments necessary to present fairly our financial results. Operating results for previous periods do not necessarily indicate results that may be achieved in any future period. Amounts are in millions, except earnings per share information.

	For the three months ended							
	December 31, 2010	September 30, 2010	June 30, 2010	March 31, 2010	December 31, 2009	September 30, 2009	June 30, 2009	March 31, 2009
Consolidated statements of income data:								
Owned and leased hotel revenues	\$ 470	\$ 455	\$ 483	\$ 451	\$ 468	\$ 438	\$ 459	\$ 416
Management and franchise fee revenues	73	61	64	57	65	49	55	54
Other revenues	11	11	12	11	10	10	13	16
Other revenues from managed properties (1) ..	364	352	330	322	346	309	320	303
Total revenues	<u>918</u>	<u>879</u>	<u>889</u>	<u>841</u>	<u>889</u>	<u>806</u>	<u>847</u>	<u>789</u>
Direct and selling, general, and administrative expenses	902	867	830	820	879	811	823	768
Income (loss) from continuing operations ...	(4)	29	19	7	(14)	6	(48)	13
Net income (loss) attributable to Hyatt Hotels Corporation (2) ...	<u>6</u>	<u>30</u>	<u>25</u>	<u>5</u>	<u>(12)</u>	<u>5</u>	<u>(50)</u>	<u>14</u>
Income (loss) from continuing operations per common share, basic (3)	\$(0.02)	\$0.17	\$0.11	\$0.04	\$(0.08)	\$0.04	\$(0.33)	\$0.10
Income (loss) from continuing operations per common share, diluted (3)	\$(0.02)	\$0.17	\$0.11	\$0.04	\$(0.08)	\$0.04	\$(0.33)	\$0.10

- (1) Represents revenues that we receive from third-party property owners who reimburse us for costs that we incur on their behalf, with no added margin. These costs relate primarily to payroll at managed properties where we are the employer. As a result, these revenues have no effect on our profit, although they do increase our total revenues and the corresponding costs increase our total expenses. See Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations—Principal Factors Affecting Our Results of Operations—Revenues."
- (2) Net income (loss) attributable to Hyatt Hotels Corporation in the fourth quarter of 2010 includes \$21 million in asset impairments, net of the amount attributable to a noncontrolling partner at one property and \$16 million of impairments recorded in equity earnings (losses) from unconsolidated hospitality ventures. These amounts were partially offset by \$20 million in gains on sales of real estate.
- (3) All per share amounts reflect a one-for-two reverse split of our common stock affected on October 14, 2009.

HYATT HOTELS CORPORATION AND SUBSIDIARIES
SCHEDULE II—VALUATION AND QUALIFYING ACCOUNTS
FOR THE YEARS ENDED DECEMBER 31, 2010, 2009 AND 2008
(In millions)

Description	Column A Balance at Beginning of Period	Column B Additions Charged to Revenues, Costs and Expenses	Column C Additions Charged to Other Accounts	Column D Deductions	Column E Balance at End of Period
Year Ended December 31, 2010:					
Trade receivables—allowance for doubtful accounts	\$ 12	\$ 6	\$—	\$ (3)	\$ 15
Notes receivable—allowance for losses	74	11	3A	(6)	82
Deferred tax asset—valuation allowance . . .	100	—	—	(4)	96
Year Ended December 31, 2009:					
Trade receivables—allowance for doubtful accounts	24	4	—	(16)	12
Notes receivable—allowance for losses	54	23	4A	(7)	74
Deferred tax asset—valuation allowance . . .	69	31	—	—	100
Year Ended December 31, 2008:					
Trade receivables—allowance for doubtful accounts	21	18	—	(15)	24
Notes receivable—allowance for losses	109	20	—	(75)B	54
Deferred tax asset—valuation allowance . . .	70	13	—	(14)C	69

A—This amount represents currency translation on foreign currency denominated notes receivable.

B—The year ended December 31, 2008 included a \$61 million write-off of a development loan, the related expense was recorded in the year ended December 31, 2007.

C—Amount includes a release of \$14 million related to an IRS settlement.

EXHIBIT INDEX

<u>Exhibit Number</u>	<u>Exhibit Description</u>
3.1	Amended and Restated Certificate of Incorporation of Hyatt Hotels Corporation (incorporated by reference to Exhibit 3.1 to the Company's Registration Statement on Form S-1 (File No. 333-161068) filed with the Securities and Exchange Commission on November 2, 2009)
3.2	Certificate of Retirement of 38,000,000 Shares of Class B Common Stock (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K (File No. 001-34521) filed with the Securities and Exchange Commission on December 17, 2009)
3.3	Certificate of Retirement of 539,588 Shares of Class B Common Stock (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K (File No. 001-34521) filed with the Securities and Exchange Commission on September 16, 2010)
3.4	Amended and Restated Bylaws of Hyatt Hotels (incorporated by reference to Exhibit 3.2 to the Company's Registration Statement on Form S-1 (File No. 333-161068) filed with the Securities and Exchange Commission on October 1, 2009)
