Report of Independent Registered Public Accounting Firm

Administrator of the
Chemed/Roto-Rooter Savings & Retirement Plan:

We have audited the accompanying statements of net assets available for benefits of the Chemed/Roto-Rooter Savings & Retirement Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Chemed/Roto-Rooter Savings & Retirement Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in Note 2, the Plan adopted new accounting guidance as of December 31, 2010 related to the accounting for loans to participants.

Savings & Retirement Plan

Notes to Financial Statements

1. General Description of the Plan

Overview and Eligibility

Chemed Corporation, as the Plan Administrator, adopted the Chemed/Roto-Rooter Savings & Retirement Plan (the "Plan"). The Plan is a defined contribution plan available to all full-time employees of participating units of Chemed Corporation (the "Company"), except those covered by collective bargaining agreements, who have completed at least 500 hours of service in any six months of continuous service. The following summary provides an overview of major Plan provisions and is provided for general informational purposes. Participants should refer to the Plan document for more complete information and a full description of the Plan provisions and qualifications. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Employee contributions may be made from before-tax earnings, which has the effect of reducing current taxable earnings for federal income tax purposes, and/or after tax earnings. In any Plan year, an employee may contribute up to a maximum of 85% of his or her included compensation, as defined, or the maximum allowed by the Internal Revenue Code, as amended ("IRC"), whichever is less ("Basic Contribution"). For the Plan year 2010, the IRC limit on before-tax contributions was \$16,500. Employee contributions are made through payroll deductions. The Company, on a participating unit basis, may elect to make contributions ("Matching Contribution") to the Plan on the first 6% of employees' basic contribution.

To comply with certain provisions of the Tax Reform Act of 1986, as amended (the "Act"), the Plan limited covered compensation for purposes of determining Basic and Matching Contributions to \$245,000 for the Plan year ended December 31, 2010. All contributions are subject to limitations imposed by the IRC and ERISA.

Vesting and Forfeitures

Participants are immediately vested in their Basic Contributions and any earnings or losses thereon. Vesting in the employer's Matching Contributions occurs in annual 20% increments after two years of service and participants are fully vested after six years of service. Additionally, all participants of the Plan are fully vested in employer contributions upon normal retirement, death or total permanent disability incurred while employed. Non-vested employer contributions which are forfeited by withdrawals from the Plan are used to reduce future employer contributions to the Plan. At December 31, 2010 and 2009, the forfeited account totaled \$454,590 and \$416,789, respectively, which was used to reduce the year end employer contributions receivable. Participants who forfeit amounts under the Plan are permitted to restore the amount of such forfeiture by paying the Plan, subject to certain limitations, the entire withdrawn amount which gave rise to the forfeiture. Forfeitures are not permitted to be restored to the participants' accounts after the occurrence of five consecutive one year breaks-in-service.

Chemed/Roto-Rooter

Savings & Retirement Plan

Notes to Financial Statements

Investment Options

Investment of employee contributions is made in accordance with employee elections and stipulated Plan provisions. Beginning January 1, 1999, the Plan appointed Merrill Lynch as Trustee and currently offers the following investment options for contributions: BlackRock FFI Institutional Fund, Wells Fargo Advantage Short Duration Government Bond Fund, JP Morgan Core Bond Fund, MFS Total Return Fund, Oakmark Equity & Income Fund, BlackRock Capital Appreciation Fund, Merrill Lynch Equity Index Trust, Alger Mid Cap Growth Fund, ING International Value Fund, BlackRock Equity Dividend Fund, Goldman Sachs Mid Cap Value Fund, Columbia Small Cap Value Fund, Columbia Seligman Communications and Information Fund, Lord Abbett Developing Growth Fund, Oppenheimer International Small Company Fund and BlackRock Pacific Fund. Chemed Corporation stock is also an investment option for employee contributions. Purchases of Chemed Corporation stock are made by the Plan's trustee on the open market. Employer contributions are invested at the discretion of the Plan administrator. These same investment options are available for the employer contributions. The Plan allows participants to transfer funds among the various investment options.

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of \$500 up to a maximum of 50% of the vested account balance. Loan terms range from 1 to 5 years or up to 10 years if the proceeds of the loan are used for the purchase of the participant's primary residence. Loans are secured by the balance in the Participant's account and bear interest at the prime rate plus 1%. Participants may not have more than two loans outstanding at any one time. Principal and interest payments are payable ratably through direct payroll deductions. Loans are in default when any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed a scheduled payment. Also, a loan is in default if the participant or a representative makes a false statement to the Plan.

Payment of Benefits

Upon termination of service with the Company, participants are entitled to a lump sum distribution of the vested portion of their account balance. Upon retirement or if a participant becomes totally and permanently disabled or dies, the participant or their beneficiary is entitled to their entire account balance. Retired and terminated Participants who have an account balance in excess of \$5,000 may elect various forms of deferred distribution.

Withdrawals

The Plan allows withdrawals of after-tax, rollover and vested employer matching contributions while an active employee. The Plan also allows for a "financial hardship" withdrawal of before-tax contributions for participants under age 59½ years in cases of demonstrated "financial hardship", as defined by the Plan document.

Chemed/Roto-Rooter

Savings & Retirement Plan

Notes to Financial Statements

Plan Termination

The Company anticipates that the Plan will continue without interruption but reserves the right to discontinue the Plan subject to the provisions of ERISA and the IRC. In the event that the Plan is terminated, the participants shall be fully vested in the current market value of amounts credited to their accounts at the date of termination.

2. Summary of Significant Accounting Policies

Investment valuation

Investments of the Plan are valued at fair value for shares of mutual funds, collective trust and common stock. Fair value is determined principally from quoted market values for all investments, except for the collective trust, which is based on net asset value as reported by the investment advisor. Cost is determined using the weighted average cost of securities owned.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment income

Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis.

Payment of benefits

Benefits are recorded when paid.

Expenses of the Plan

Unless paid by the Company, all expenses incurred in the administration of the Plan are paid by the Plan.

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U. S. GAAP").

Investment appreciation (depreciation)

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of realized and unrealized appreciation (depreciation) for the specified period. Net unrealized appreciation (depreciation) is determined based on the difference between the average cost of the investments and the market value as of each valuation date of such investment. Average cost is determined based on the weighted average cost of all investments purchased less any dispositions. Purchases and sales of securities are recorded on the trade date.

Chemed/Roto-Rooter

Savings & Retirement Plan

Notes to Financial Statements

Use of estimates

The preparation of financial statements in conformity with U. S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Concentrations, risks and uncertainties

The Plan has a significant concentration of investment in Chemed Corporation stock. A change in the value of this stock could cause the value of the Plan's net assets to change significantly due to this concentration.

The Plan provides for various investment options in a number of funds which invest in stocks, bonds, fixed income securities, mutual funds and other investment securities. Certain investments are exposed to risks such as changes in interest rates, fluctuations in market conditions and credit risk. The level of risk associated with certain investment securities and uncertainty related to changes in value of these securities could materially affect Participant account balances and amounts reported in the financial statements and accompanying notes.

Recent accounting pronouncements

As of December 31, 2009, the Plan adopted new accounting guidance related to the use of net asset value as a practical expedient to fair value. FASB Accounting Standards Update ("ASU") 2009-12, Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), permits, but does not require, a reporting entity to measure the fair value of certain investments based on net asset value per share as a practical expedient. The Plan adopted ASU 2009-12 as of December 31, 2009, as it relates to the valuation of the collective trust. The adoption of ASU 2009-12 had no material effect on the fair value of the collective trust.

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU 2010-06 amends the disclosure requirements of ASC 820 to include greater detail of level 3 activity, disclosure of transfers in and out of level 3, as well as disaggregation of assets and liabilities into major categories. See Note 6 for the additional disclosures required by ASU 2010-06.

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010, financial statements. In addition, participant loans of \$5,332,680 have been reclassified from investments to notes receivable from participants in the December 31, 2009, financial statements. Net assets of the Plan are not affected by the adoption of the new guidance.

Chemed/Roto-Rooter

Savings & Retirement Plan

Notes to Financial Statements

3. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 5, 2008, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the date of this letter, the Plan Administrator believes the amendments do not alter the tax status of the Plan and the Plan continues to be operated in compliance with section 401(a) of the IRC. The related Trust is exempt from federal income tax under section 501(a) of the IRC.

4. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500.

	<u>December 31,</u>	
	<u>2010</u>	<u>2009</u>
Net assets available for benefits per the financial statements	\$ 141,813,263	\$ 123,051,924
Amounts allocated to withdrawing participants	(18,227)	(26,640)
Net assets available for benefits per the Form 5500	<u>\$ 141,795,036</u>	<u>\$ 123,025,284</u>

The following is a reconciliation of benefits paid per the financial statements for the year ended December 31, 2010 to Form 5500.

Benefits paid to participants per the financial statements	\$ 12,378,541
Add: Amounts allocated to withdrawing participants at December 31, 2010	18,227
Less: Amounts allocated to withdrawing participants at December 31, 2009	(26,640)
Benefits paid to participants per Form 5500	<u>\$ 12,370,128</u>

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been requested prior to December 31, but not yet paid as of year end.

Notes to Financial Statements

5. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31,	
	2010	2009
Chemed Corporation common stock, 500,222 and 601,901 shares, respectively	\$ 31,769,081	\$ 28,873,189
JP Morgan Core Bond Fund, 1,381,803 and 1,204,682 shares, respectively	15,835,462	13,371,965
BlackRock FFI Institutional Fund, 13,819,008 and 12,769,210 shares, respectively	13,819,008	12,769,210
BlackRock Capital Appreciation Fund, 504,915 and 525,264 shares, respectively	12,006,878	10,442,241
ING International Value Fund, 828,543 and 781,995 shares, respectively	9,602,811	8,946,028
BlackRock Equity Dividend Fund, 518,348 and 352,508 shares, respectively	9,097,002	5,583,732 **
Merrill Lynch Equity Index Trust, 65,663 and 80,537 shares, respectively	6,757,413 * **	7,224,987 *

* Denotes collective trust

** Investment represents less than 5% of the Plan's net assets at the specified date

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$17,238,736 as follows:

Mutual funds	\$ 7,586,522
Collective trust	890,550
Common stock	8,761,664
	<u>\$ 17,238,736</u>

Chemed/Roto-Rooter

Savings & Retirement Plan

Notes to Financial Statements

6. Fair Value Measurements

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued at the net asset value (“NAV”) of shares held by the Plan at year-end, using prices quoted on active markets at the measurement date.

Common stock – Valued at the closing price reported on the active market on which the security is traded.

Collective trust – Valued at NAV based on the fair value of the collective trust's underlying investments using information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Chemed/Roto-Rooter

Savings & Retirement Plan

Notes to Financial Statements

In 2009, the Plan adopted the amended guidance in Accounting Standards Codification 820, Fair Value Measurement and Disclosures, as it relates to investments in entities calculating NAV or an equivalent measure of fair value. As a practical expedient, the amendments permit, but do not require, the Plan to measure the fair value of certain investments based on the investee's NAV or its equivalent. As a result of applying the practical expedient, the fair value of the collective trust was determined as of December 31, 2010 and 2009, based on NAV. The adoption of the amendments did not have a material impact on the fair value of the collective trust. Investments in the collective trust have no holding period and redemptions can be made daily. There are no unfunded commitments for investment in the collective trust. The collective trust invests primarily in publicly-traded common stock. Therefore, NAV is based on the quoted market prices for the common stock held in the trust.

7. Party-In-Interest Transactions

Certain Plan investments held during the years ended December 31, 2010 and 2009 include shares of the Company's common stock and shares of mutual funds managed by the Trustee and therefore, these transactions qualify as party-in-interest transactions. No fees were paid by the Plan in 2010 for investment management services.

8. Subsequent Events

The Plan evaluated subsequent events through the date the financial statements were issued, and noted no material subsequent events had occurred through this date requiring revision to the financial statements.
