Report of Independent Registered Public Accounting Firm

Administrative Committee
TWC Savings Plan

We have audited the accompanying statements of net assets available for benefits of the TWC Savings Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended, in conformity with US generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year), delinquent participant contributions, and loans or fixed income obligations in default or classified as uncollectible, as of December 31, 2010, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

TWC Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following is an abbreviated description of the TWC Savings Plan (the "Plan"). More complete descriptions are provided in the Plan documents, as amended, and the summary plan description/prospectus.

The Plan is a defined contribution plan with a 401(k) feature generally covering eligible employees of Time Warner Cable Inc. ("TWC" or the "Sponsor") and certain of its subsidiaries and affiliates (each, an "Employing Company" and, collectively, the "Employing Companies"). Erie Telecommunications, Inc., a related (54.19% owned), but non-controlled group member of TWC, is a participating employer in the Plan. Generally, employees eligible to participate in the Plan are non-union and certain union employees with a minimum of three continuous months of employment. Participants in the Plan begin to receive Employing Company matching contributions ("Matching Contributions") upon working not less than 1,000 hours during the 12-consecutive month period following the participant's employment commencement date; otherwise, after the first calendar year in which a participant works not less than 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is a participating plan ("Participating Plan") in the Time Warner Cable Defined Contribution Plans Master Trust (the "Master Trust"). The Plan is the only Participating Plan in the Master Trust. For reporting purposes, the Master Trust's assets are reported as the Plan's assets. The Plan provides for multiple investment funds (the "Investment Funds") made available through the trustee, Fidelity Management Trust Company ("Fidelity"), pursuant to the Master Trust.

On March 12, 2009, pursuant to a Separation Agreement dated as of May 20, 2008 among TWC and certain of its subsidiaries and Time Warner Inc. ("Time Warner") and certain of its subsidiaries, Time Warner disposed of all of its shares of TWC common stock for the purpose of separating TWC from Time Warner (the "Time Warner Separation"). As a result, TWC is no longer a subsidiary of Time Warner. The Time Warner Separation was effected as a pro rata dividend of all shares of TWC common stock held by Time Warner in a spin-off (the "Distribution") to Time Warner stockholders. Time Warner stockholders received 0.08367 share of TWC common stock for each share of Time Warner common stock held at March 12, 2009, the record date for the Distribution. As a result of the Distribution and in connection with the shares of Time Warner common stock held in the Time Warner Inc. Stock Fund, which at that time was an Investment Fund available under the Plan, the Plan received 0.8 million shares of TWC common stock. These shares were credited to eligible Plan participants' accounts in the TWC Common Stock Fund, a new Investment Fund created for such purpose in connection with

TWC Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

the Time Warner Separation. Prior to October 1, 2009, new investments under the Plan in the TWC Common Stock Fund (other than the reinvestment of dividends) were not permitted.

Effective October 1, 2009, Plan participants are allowed to allocate up to 10% of their future contributions and transfer up to 10% of their total account balance into the TWC Common Stock Fund, limited to the extent that either (1) the amount invested in the TWC Common Stock Fund equals or exceeds 10% of the participant's total account balance immediately prior to the time of the desired allocation or (2) such transfer would cause the participant's account balance in the TWC Common Stock Fund to exceed 10% of the total account balance.

In connection with the Time Warner Separation, as of March 13, 2009, the Time Warner Inc. Stock Fund, previously an Investment Fund available under the Plan, was frozen for new investments therein other than the reinvestment of dividends. Effective March 27, 2009, Time Warner implemented a 1-for-3 reverse stock split of Time Warner common stock. The reverse stock split is reflected in the financial statements and notes thereto.

On December 9, 2009, Time Warner disposed of all of its shares of common stock of AOL Inc. ("AOL") for the purpose of separating AOL from Time Warner (the "Time Warner AOL Separation"). The Time Warner AOL Separation was effected as a pro rata dividend of all shares of AOL common stock held by Time Warner in a spin-off (the "AOL Distribution") to Time Warner stockholders. Time Warner stockholders received one share of AOL common stock for every 11 shares of Time Warner common stock held at November 27, 2009, the record date for the AOL Distribution. As a result of the AOL Distribution and in connection with the shares of Time Warner common stock held in the Time Warner Inc. Stock Fund, which at that time was an Investment Fund available under the Plan, the Plan received 0.3 million shares of AOL common stock. These shares were credited to eligible Plan participants' accounts in the AOL Stock Fund, a new Investment Fund created for such purpose. New investments under the Plan in the AOL Stock Fund (other than the reinvestment of dividends) were not permitted.

On November 30, 2010, the Time Warner Inc. Stock Fund and the AOL Stock Fund were liquidated and the proceeds in each participant's account were transferred to the Growth Asset Allocation Fund, an Investment Fund available under the Plan. As of such date, the Time Warner Inc. Stock Fund and the AOL Stock Fund are no longer available Investment Funds under the Plan.

As of December 31, 2010, the Investment Funds available under the Plan consisted of four asset allocation funds, eight core actively managed funds, four core index funds, the TWC Common Stock Fund and a mutual fund window (a self-directed brokerage account). Participant

TWC Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

contributions, Matching Contributions and Rollovers (as defined below) may generally be invested in specific increments in the Investment Funds.

Generally, the Plan provides for voluntary participant contributions on a pre-tax basis at an elected percentage of at least 2% to a maximum of 30% of a participant's eligible compensation (e.g., including base pay, overtime, shift differentials and commissions, but excluding bonuses, incentive compensation and severance), up to an annual limit prescribed by the Internal Revenue Code of 1986, as amended (the "Code"). Participants who are "highly compensated employees", as defined in the Code ("HCE's"), are limited to a maximum contribution percentage of 7% of eligible compensation.

Matching Contributions equal 66.67% on up to the first 10% (7% in the case of HCE's) of a participant's eligible compensation contributed to the Plan. Matching Contributions and any other amounts contributed by an Employing Company, including those transferred into the Plan, are deemed Employing Company Contributions ("Employing Company Contributions").

Participants are also allowed to transfer amounts from certain other tax qualified plans to the Plan ("Rollovers"). Rollovers are included as participant contributions in the Statements of Changes in Net Assets Available for Benefits.

Each participant's account is credited with his/her participant contributions, Rollovers, any Employing Company Contributions and any earnings or losses, as appropriate.

Participant contributions, Rollovers and earnings thereon are fully vested. Employing Company Contributions and earnings thereon generally vest based upon a number of full years of service within a period of service, as defined in the Plan, as follows:

<u>Number of Full Years within Period of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2 but less than 3	25%
3 but less than 4	50%
4 but less than 5	75%
5 or more.....	100%

TWC Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Employing Company Contributions and earnings thereon also become fully vested upon a participant's termination of service due to death or disability, attainment of age 65, in the event of Plan termination, upon the complete discontinuance of contributions under the Plan or with respect to participants who have completed at least a three year period of service as of the separation date, upon the occurrence of a change in control. Forfeited contributions and earnings thereon may be used to reduce future Employing Company Contributions to the Plan and/or to pay Plan expenses. Forfeitures for 2010 and 2009 were \$1.3 million and \$0.9 million, respectively. The balances of forfeited nonvested accounts as of December 31, 2010 and 2009 were \$2.7 million and \$1.9 million, respectively, and are reflected in the Statements of Net Assets Available for Benefits.

Under the Plan, participants may periodically transfer account balances among Investment Funds offered under the Plan and, subject to certain restrictions and penalties, withdraw amounts and/or take loans from their accounts. Loans are valued at their unpaid principal balances plus any accrued but unpaid interest and are treated as transfers between the individual Investment Funds and the participant loan fund.

Loans may be for a period of up to five years or, if for the purchase of a primary residence, a longer period of time up to 10 years as fixed by the benefits officer for repayment of the loan. Interest rates for loans originating under the Plan are fixed at the time of the loan at the prime rate plus 1%, as reported in the Wall Street Journal on the first day of the quarter in which the loan is requested. Participants who have transferred accounts to the Plan with existing loans may be subject to different interest rates on those loans, as set under the provisions of the plan from which the original loan was requested.

Interest rates on outstanding participant loans as of both December 31, 2010 and 2009 ranged from 4.25% to 10.50%.

In-service withdrawals are available in certain limited circumstances, as provided under the Plan. Hardship withdrawals are allowed for participants incurring an "immediate and heavy financial need," as defined by the Plan. Hardship withdrawals are strictly regulated under the Code and the regulations thereunder, and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Generally, on termination of service, participants will receive the vested portion of their account in a lump sum. However, subject to certain restrictions, the Plan permits other payment options. In addition, at the option of the participant, the commencement of payments may be deferred,

TWC Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

subject to certain limitations. Benefits distributed from all Investment Funds will be paid in cash, except for benefits distributed from the TWC Common Stock Fund which, at the option of the participant, may be distributed in shares of common stock of TWC valued pursuant to the terms of the Plan. Fractional shares are paid in cash.

TWC reserves the right to discontinue Employing Company Contributions or to terminate or modify the Plan at any time. In the event of termination, all account balances will become 100% vested and the net assets of the Plan may be distributed to participants in accordance with the Plan's provisions and applicable law.

The Plan administrator is a committee (the "Administrative Committee") appointed by the board of directors of TWC. Certain administrative functions of the Plan have been delegated to others in accordance with the terms of the Plan.

On September 27, 2006, the court granted final approval of a \$100 million settlement to resolve the class action lawsuits involving certain ERISA matters brought on behalf of participants in the Plan as well as two other savings plans sponsored directly or indirectly by Time Warner. On October 26, 2007, the court issued an order approving certain attorneys' fees and expenses requested by plaintiffs' counsel, as well as approving certain incentive awards to the lead plaintiffs. The appeal by two of the lead plaintiffs challenging the amount of their incentive awards was resolved by order of the district court dated April 9, 2008. In November 2008 and December 2010, the Plan received \$16.6 million and \$1.3 million, respectively, from the settlement and individual allocations to eligible participant accounts were made, as applicable. The amount allocated to each eligible participant's account was calculated by the third-party settlement administrator according to the court-approved plan of allocation.

The amount reported as total liabilities in the Statements of Net Assets Available for Benefits is primarily composed of payables for security purchases for which the related assets are included in total investments.

TWC Savings Plan

Notes to Financial Statements (continued)

2. Basis of Presentation and Recent Accounting Pronouncements

Basis of Presentation

The accounting records of the Plan are maintained on an accrual basis.

Certain administrative costs are charged to the Plan as permitted under ERISA, including, for example, fees for auditing, custodial, investment advice, recordkeeping and trustee services. Other administrative costs, for example, compensation of employees responsible for the administration of the Plan, are paid by TWC.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could differ from those estimates.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. Investments in the Statements of Net Assets Available for Benefits include fully benefit-responsive investment contracts recognized at fair value with a corresponding adjustment to reflect these investments at contract value (see Note 3).

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Certain reclassifications have been made to the prior year's financial information to conform to the current year presentation.

TWC Savings Plan

Notes to Financial Statements (continued)

2. Basis of Presentation and Recent Accounting Pronouncements (continued)

Recent Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (“FASB”) issued authoritative guidance that provides additional direction on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability. This guidance also covers circumstances that may indicate that a transaction is not orderly and defines major categories of debt and equity securities in meeting disclosure requirements. This guidance became effective for the Plan on January 1, 2010 and did not have an impact on the Plan’s financial statements.

In January 2010, the FASB issued authoritative guidance that expands the required disclosures about fair value measurements. This guidance provides for new disclosures requiring the Plan to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately information about purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements. This guidance also provides clarification of existing disclosures requiring the Plan to (i) determine each class of assets and liabilities based on the nature and risks of the investments rather than by major security type and (ii) for each class of assets and liabilities, disclose the valuation techniques and inputs used to measure fair value for both Level 2 and Level 3 fair value measurements. This guidance became effective for the Plan on January 1, 2010, except for the presentation of purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements, which is effective for the Plan on January 1, 2011, and did not have a material impact on the Plan’s financial statements. The guidance pertaining to the presentation of purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements is not expected to have a material impact on the Plan’s financial statements.

In September 2010, the FASB issued authoritative guidance that clarifies how loans to participants should be classified and measured. This guidance requires that participant loans be classified as notes receivable from participants and that these loans be segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This guidance became effective for the Plan on January 1, 2010 and did not have a material impact on the Plan’s financial statements.

Total net realized and unrealized appreciation in the fair value of investments.....	137,573	199,858
Total net investment gain	\$ 149,121	\$ 211,875

TWC Savings Plan

Notes to Financial Statements (continued)

3. Investments (continued)

Investments that each represented 5% or more of the Plan's net assets are as follows (in thousands):

	December 31,	
	2010	2009
Commingled trust funds:		
Black Rock Equity Index – Fund H, 2,890,094 and 2,421,436 units, respectively	\$ 123,378	\$ 89,738
Wellington Trust Collective Investment Fund II Growth (Series 2), 5,262,317 and 3,993,805 units, respectively	79,734	51,001
Alliance Bernstein International Style Blend Collective Trust, 7,368,201 and 5,676,591 units, respectively	75,377	55,687
Common stock:		
Time Warner, 3,474,166 shares	—	101,237
Mutual funds:		
Dodge & Cox Stock Fund, 1,772,925 and 1,503,905 shares, respectively	191,050	144,585

Plan investments are made in a variety of investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is possible that changes in values could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Capital Preservation Fund includes fully benefit-responsive synthetic investment contracts that are valued at fair value and adjusted to contract value in the Statements of Net Assets Available for Benefits. A synthetic investment contract is an agreement under which debt obligations (such as fixed-income asset-backed and mortgage-backed securities) are purchased and then a contract is entered into with a financial institution to provide for liquidity and an adjustable rate of return thereon (a "Wrapper"), which, when taken together with the underlying securities, generally results in a guaranteed return of principal and accrued interest (see Note 4).

TWC Savings Plan

Notes to Financial Statements (continued)

3. Investments (continued)

The Capital Preservation Fund and the Wrapper contracts purchased by that fund are designed to pay all participant-initiated transactions at contract value. However, the Wrapper contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include, but are not limited to:

- Complete or partial termination of the Plan;
- Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the fund's cash flow;
- Merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor; and
- Any early retirement program, group termination, group layoff, facility closing or similar program.

At this time, the occurrence of these events or any event that limits the ability of the Capital Preservation Fund to transact at contract value is not probable.

A Wrapper issuer may terminate a Wrapper contract at any time assuming the appropriate notification is provided. In the event that the market value of the Capital Preservation Fund's covered assets is below the contract value at the time of such termination, Fidelity may elect to keep the Wrapper contract in place through another Wrapper provider until such time as the market value of the Capital Preservation Fund's covered assets is equal to the contract value. Plan participants will continue to receive the Capital Preservation Fund's Crediting Rate (as defined below).

TWC Savings Plan

Notes to Financial Statements (continued)

3. Investments (continued)

The synthetic investment contracts in the Plan as of December 31, 2010 and 2009 are summarized below (in thousands):

December 31, 2010				
	Major Credit Rating	Investments at Fair Value	Wrapper Contracts at Fair Value	Adjustment to Contract
AIG Financial Products Corp.	A-	\$ 33,331	\$ 204	\$ (930)
JP Morgan Chase	AA-	84,497	350	(2,358)
Natixis Financial Products Inc....	A+	51,588	—	(1,439)
State Street Bank	AA-	51,591	—	(1,440)
		\$ 221,007	\$ 554	\$ (6,167)

December 31, 2009				
	Major Credit Rating	Investments at Fair Value	Wrapper Contracts at Fair Value	Adjustment to Contract
AIG Financial Products Corp.	A-	\$ 31,988	\$ 81	\$ (423)
JP Morgan Chase	AA-	17,523	—	(187)
Natixis Financial Products Inc....	A+	49,509	—	(530)
Rabobank International.....	AAA	49,476	126	(655)
State Street Bank	AA-	49,511	128	(658)
		\$ 198,007	\$ 335	\$ (2,453)

TWC Savings Plan

Notes to Financial Statements (continued)

3. Investments (continued)

Interest income in the Capital Preservation Fund is accrued at the weighted-average return of the individual fund investments, net of investment management and certain administrative fees (the "Crediting Rate"). The Crediting Rate is calculated daily. The contract value spot yield is based on the annualized one-day earnings in the Capital Preservation Fund credited to participants on the last business day of the Plan year, divided by the fair value of the Capital Preservation Fund's assets on the same date. The market value spot yield is based on the annualized income earned by the underlying securities in the Capital Preservation Fund on the last business day of the Plan year, divided by the fair value of the Capital Preservation Fund's assets on the same date. The rates as of December 31, 2010 and 2009 and for the years then ended are as follows:

	December 31,	
	2010	2009
Crediting Rate	2.1 %	2.2 %
Contract value spot yield	2.0 %	2.2 %
Market value spot yield.....	2.3 %	2.7 %
	Year Ended December 31,	
	2010	2009
Average annualized yield.....	2.2 %	2.8 %

Certain investment managers of Investment Funds offered under the Plan are authorized to use derivative financial instruments, either directly or within a commingled fund structure, within established guidelines. Financial instruments may be used for the purpose of managing interest rate and foreign exchange risk, and for yield enhancement. The derivative transactions are marked-to-market; therefore, no gains or losses are deferred. All net investment activity for the years ended December 31, 2010 and 2009 is reported in the Plan's Statements of Changes in Net Assets Available for Benefits.

The types of derivative financial instruments held by the Plan and the Master Trust include foreign currency swaps, futures and options. As of December 31, 2010 and 2009, the Plan held less than 1% of the total market value of its investments in derivatives.

TWC Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

The fair value of an asset or liability is based on the assumptions that market participants would use in pricing the asset or liability. Valuation techniques consistent with the market approach, income approach and/or cost approach are used to measure fair value. The Plan's management follows a three-tiered fair value hierarchy when determining the inputs to valuation techniques. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels in order to maximize the use of observable inputs and minimize the use of unobservable inputs. The levels of the fair value hierarchy are as follows:

- Level 1: consists of financial instruments whose values are based on quoted market prices for identical financial instruments in an active market.
- Level 2: consists of financial instruments whose values are determined using models or other valuation methodologies that utilize inputs that are observable either directly or indirectly, including (i) quoted prices for similar assets or liabilities in active markets, (ii) quoted prices for identical or similar assets or liabilities in markets that are not active, (iii) pricing models whose inputs are observable for substantially the full term of the financial instrument and (iv) pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the financial instrument.
- Level 3: consists of financial instruments whose values are determined using pricing models that utilize significant inputs that are primarily unobservable, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Total investments.....	<u>\$ 1,179,740</u>	<u>\$ 609,506</u>	<u>\$ 570,234</u>

The following is a description of the valuation methodologies used for investment assets measured at fair value.

Investments are recorded by the Plan on a trade date basis at fair value. Investments in commingled trust funds are valued at unit values as reported to Fidelity by each fund company managing such trusts. Investments in securities, including common and preferred stocks and mutual funds that are traded on a national securities exchange are valued at the last reported sale price on the last business day of the reporting period. The fair value of the fully benefit-responsive synthetic investment contracts is based on the fair value of the underlying investments. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals under the contract. The fair value of the securities underlying the synthetic investment contracts in the Plan was \$222 million and \$198 million as of December 31, 2010 and 2009, respectively. As of December 31, 2010 and 2009, there were no reserves against contract values for credit risk of contract issuers or otherwise.

TWC Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Investments in U.S. Treasury debt securities are valued using quoted prices reported in the active market in which the individual securities trade. Investments in other fixed income securities including U.S. government asset-backed debt securities, corporate asset-backed debt securities and corporate debt securities, are valued based on valuations obtained from third parties engaged by Fidelity to provide such valuations based generally on available trade information, dealer quotes, market color, spreads, bids and offers..

5. Transactions with Parties-in-Interest

Under the terms of the Plan, during the periods covered by these financial statements, TWC was required to contribute only cash for the Employing Company Contributions to the Plan, and purchases of TWC common stock were made on the open market.

6. Tax Status of Plan

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated December 13, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation under Section 501(a) of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Subsequent to this determination by the IRS, the Plan has been amended and restated. The Administrative Committee believes the Plan is being operated in compliance with the applicable requirements of the Code, and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt. On January 28, 2011, the Plan filed with the IRS for an updated determination letter with respect to its continued qualified status under Section 401(a) of the Code (see Note 7).

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

TWC Savings Plan

Notes to Financial Statements (continued)

7. Subsequent Events

In March 2010, TWC began paying a quarterly cash dividend on shares of TWC common stock. In 2010, the dividend paid was \$0.40 per share per quarter. In 2011, TWC increased the cash dividend to \$0.48 per share per quarter.

The TWC Savings Plan was amended and restated effective as of January 1, 2002 (the "Amended and Restated Plan") to incorporate various amendments previously made to the Plan to comply with, among other things, the Economic Growth and Reconciliation Act of 2001, Section 401(a)(9) of the Code and Treasury regulations promulgated thereunder, the final regulations under Sections 401(k) and 401(m) of the Code, the final regulations under Section 415 of the Code, the Pension Protection Act of 2006 and the Heroes Earnings Assistance and Tax Relief Act of 2008. The Amended and Restated Plan was executed on January 26, 2011 and submitted to the IRS on January 28, 2011 for an updated determination letter with respect to its continued qualified status under Section 401(a) of the Code. Amendment No. 1 to the Amended and Restated Plan was duly executed on April 28, 2011 with a May 2, 2011 effective date and reflects that certain transferred employees joining TWC as part of an asset transaction with CoBridge Broadband, LLC ("CoBridge") will be credited with eligibility and vesting service under the Plan for employment service with Seller, the Previous Owners and their predecessors (as such terms are defined under the asset purchase agreement relating to CoBridge).

Effective April 1, 2011, the TWC Investment Committee restructured the Investment Funds offered under the Plan and the investment portfolio contained within the Master Trust by discontinuing the asset allocation and certain index, bond and international Investment Funds and introducing new investment options, including a series of target retirement date funds. The target retirement date investment funds provide investment diversification within a single fund that becomes more conservative as the participant's selected target date approaches. Target retirement date funds are designed to meet varying levels of investment risk tolerance based on the applicable participant's age or selected target date. The Plan provided proper advance notice of and experienced a short blackout period prior to April 1, 2011 which allowed the affected portion of Plan participants' accounts to be transferred to the corresponding new Investment Fund or the target retirement date fund that closely corresponded to each affected participant's year of birth.

On April 21, 2011, TWC acquired NaviSite, Inc. ("NaviSite"). It is anticipated that the U.S.-based employees of NaviSite will become eligible to participate in the Plan. The effective date of such eligibility has not yet been determined.

TWC Savings Plan

Notes to Financial Statements (continued)

8. Reconciliation to Form 5500

The net assets of the Plan that are attributed to fully benefit-responsive investment contracts will be recorded at fair value on the 2010 IRS Form 5500 and related schedules. The following is a reconciliation of the Plan's net assets available for benefits and changes in net assets available for benefits between the financial statements and the Form 5500 (in thousands):

	December 31,	
	2010	2009
Net assets available for benefits per the financial statements	\$ 1,448,612	\$ 1,225,450
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	6,167	2,453
Net assets per the Form 5500	\$ 1,454,779	\$ 1,227,903

	Year Ended December 31, 2010	
Net change in net assets available for benefits	\$ 223,162	
Reversal of prior year adjustment from contract value to fair value for fully benefit-responsive investment contracts		(2,453)
Current year adjustment from contract value to fair value for fully benefit-responsive investment contracts		6,167
Net investment gain per the Form 5500		\$ 226,876
