Item 3. Risk Factors

Any investment in the Notes offered hereby involves a significant degree of risk and is suitable only for investors who have no need for liquidity in their investments. You should carefully consider the risks described below and the other information in this Offering Statement before investing in our Notes.

General Risks

Forward-Looking Statements

Any statements made in this Offering Statement that are not based on historical fact are forward-looking statements. Any forward-looking statements made in this Offering Statement represent management's best judgment as to what may occur in the future. However, the Company's actual outcome and results are not guaranteed and are subject to certain risks, uncertainties, and assumptions, including those listed below.

No Public Market for the Notes

Prior to this Offering, there has been no trading market for the Notes, and it is not expected that a trading market will develop in the foreseeable future. Therefore, any investment in the Notes will be highly illiquid, and investors in the Notes may not be able to sell or otherwise dispose of their Notes in the open market.

Absence of Insurance and Regulation

The Notes are not insured by any governmental or private agency, and they are not guaranteed by any public or private entity. Likewise, the company is not regulated or subject to the periodic examination to which commercial banks, savings banks and other thrift institutions are subject.

Factors Affecting the Company's Ability To Repay Notes

The Company's revenues from operations, the Company's working capital, and cash generated from additional debt or equity financings represent the Company's sources of funds for the repayment of principal at maturity and the ongoing payment of interest on the Notes. There can be no assurance that the Company will be able to pay the ongoing interest on the Notes and to repay the face amount of the Notes at their maturity. The Company's ability to do so will depend on the availability of sufficient funds. If the Company does not have the funds to repay the holder of a Note, then such holder could lose all or a substantial portion of such holder's investment in the Notes.

Investment Delays

As of the date of this Offering Statement, our Officers have not identified definitively the first real estate property we will invest in with the proceeds of this Offering. There may be a delay between the time Notes are sold and the time the proceeds of this Offering are invested. Nonetheless; regardless of the delay, each Investor's Note will begin to accrue interest no later than 15 days from the date of their Note.

Diversification Limited to Proceeds from Offering

Our diversification will be limited by the number of Notes sold and by future income from operations. Thus, most or even all of our available funds may be invested in a limited number of specific income producing real estate properties, mortgage loans or business loans.

No Operating History

Since we have no operating history, no significant assets and no current sources of financing, you may not have sufficient information to determine whether we will be able to implement our plan of operation. We were organized a Georgia corporation on July 19, 2011. As such, as of the date of this Offering Statement, no operating history and no current sources of financing.

No Security or Indenture

The Notes are unsecured obligations of the Company, and no sinking fund. In addition, the Notes are not subject to an indenture agreement and subsequently, the interests of potential investors will not be protected by an independent trustee.

Risks of Investing in Small Capitalization and Early Stage Companies

We are an early stage company with nominal capitalization. As such, we will be dependent proceeds raised from this Offering to carry out our business plan and fund our operations. If we are not successful in raising proceeds from this Offering, we will not be able to carry out our business plan and our business will likely fail.

Limited Financial Statements

Because the Company is newly formed, the Company is able to provide only limited financial statements. Accordingly, prospective Investors will be required to make their investment decision based on this limited financial information regarding the Company.

No Reliance on Prior Performance of Officers

The past performance of our Officers cannot be relied upon as an indicator of future performance.

Substantial Leverage

The substantial indebtedness of the Company could adversely affect its financial position and prevent it from fulfilling its obligations under the Notes. After this Offering, the Company will have a significant amount of indebtedness. The Company's substantial indebtedness could have important consequences to any investor in the Notes. For example, it could:

- limit the Company's ability to borrow additional funds or obtain additional financing in the future;
- limit the Company's ability to pursue acquisition opportunities;
- limit the Company's flexibility to plan for and react to changes in its business and industry; and
- impair the Company's ability to withstand a general downturn in its business and place it at a disadvantage compared to its competitors that are less leveraged.

In addition, the Company's high level of debt requires it to dedicate a substantial portion of its cash flow to pay principal and interest on its debt, which will reduce the funds available for working capital, capital expenditures, acquisitions and other general corporate purposes.

Financial Failure Hinders Payment on Notes

An investment in the Notes, as in any type of security, involves insolvency and bankruptcy considerations that investors should carefully consider. If the Company becomes a debtor subject to insolvency proceedings under the bankruptcy code, it is likely to result in delays in the payment of the Notes and may delay enforcement remedies under the Notes. Provisions under the bankruptcy code or general principal of equity that could result in the impairment of an investor's rights include the automatic stay, avoidance of preferential transfers by a trustee or debtor-in-possession, substantive consolidation, limitations of the ability to collect unmatured interest or attorneys' fees and forced restructuring of the Notes.

Recharacterization of Notes; Insolvency of the Company

Under any applicable law, the Notes have the risk of being recharacterized as equity interests in the Company, and the Investors thus being treated as owners of equity interests in the Company. In which case, in the case of insolvency or liquidation, the Investors, as owners of equity interests in the Company, may be treated as general creditors with last priority for purposes of liquidating distributions made in connection with insolvency.

Conflicts of Interest

The Company's sole officers and directors, Eric S. Tait and Matthew Scott, are the sole principals (the "Principals") of the Company and, as such, they may have a conflict of interest between their responsibility to manage the investments of the Company for the benefit of the Investors and providing themselves with a return on their investment in the Company.

The Principals will be free to manage and advise accounts other than the Company's account, and may establish, operate, or provide services to, investment vehicles similar to the Company. While the Principals will provide the Company with such time, care and attention as they reasonably believe is necessary for the successful operation of the Company, the Principals will be under no obligation to spend any particular amount of time, care or attention on the business or operations of the Company.

The Principals are active in other business endeavors. Accordingly, they will not devote their full attention to the operations of the Company, but will give such time as is reasonably necessary for the management of the affairs of the Company. The Principals and any officers, managers, members, and employees of such persons may engage in transactions or investments, or cause or advise other customers to engage in transactions which may differ from, or be identical to, the transactions engaged in by the Company.

The Principals shall not have any obligation to engage in any transaction for the account of the Company or to recommend any transaction to the Company which the Principals, their affiliates or any of the officers, managers, members or employees of such persons may engage in for their own accounts or the account of any other customer, except as otherwise required by applicable law. Furthermore, the Principals may determine that certain investments made for their other customers or accounts are inappropriate for the Company.

Capitalization

The Principals will make a nominal equity investment in the Company. Should the Company default on any of the payments due under the Notes; the Company will possess minimal equity capital and minimal assets in excess of the Investors' investments. Furthermore, if the Notes are recharacterized as equity interests in the Company by judicial determination or other governmental determination, in the case of insolvency or liquidation, the Investors,

as owners of equity interests in the Company, may be treated as general creditors with last priority for purposes of liquidating distributions made in connection with insolvency. With nominal capitalization, any liquidating distribution will be inadequate to return the Investors' principal of their investments.

Dependence on Officers

The Company is substantially dependent on the services of our Officers. In the event of the death, disability, departure or insolvency of one of our Officers, the business of the Company and some of its investments may be adversely affected. The Officers devote such time and effort, as they deem necessary for the management and administration of the Company's business. However, they will continue to engage in various other business activities in addition to managing the Company and some of its investments and, consequently, will not devote their complete time to the Company's business. Since the Officers will make all investment and management decisions, you should only purchase our Notes if you are comfortable entrusting them to make all decisions regarding the investments that will be acquired with the proceeds of this Offering. Except as otherwise set forth in our Operating Agreement, our Officers will have the sole right to make all decisions with respect to our business operations. Investors will not have an opportunity to evaluate the specific investments that will be acquired with the proceeds of this Offering or with future operating income. You should not purchase Notes unless you are willing to entrust all aspects of our management to our Officers.

Investment Company Act of 1940 and Applicable State Investment Advisers Acts

The Company intends to avoid becoming subject to the Federal Investment Company Act of 1940, as amended and similar state laws governing investment advisers. However, it cannot assure Investors that under certain conditions, changing circumstances or changes in the law, it may not become subject to the Investment Company Act of 1940 or applicable state laws in the future. Becoming subject to that Act and such state laws could have a material adverse effect on the Company. It is also probable that the Company would be terminated and liquidated due to the cost of registration and operation under the Act or applicable state laws.

Officers Indemnified

Our Officers will be indemnified by the Company for their good faith actions. Under the Company's bylaws, our Officers are not liable to the Company for any act or omission that they determine, in good faith, is in the best interest of the Company, except for acts of negligence or misconduct. Under certain circumstances our Officers will be entitled to indemnification from the Company for certain losses.

No Attorney or Accountant Representation

We are not providing Investors with representation by attorneys and accountants. The Company, its Investors and the Officers are not represented by separate counsel. The legal counsel and accountants for the Company have not been retained, and will not be available, to provide legal counsel or tax advice to Investors. Therefore, prospective Investors should retain their own legal and tax advisors.

Tax Consequences

There are risks associated with the tax aspects of an investment in the Company that are complex and will not be the same for all prospective investors. Each prospective investor is advised to consult its own tax advisors before investing in the Company.

The Officers believe that the Company's debt should be classified as a bond purchase, and to that end the

Officers fully expect that the interest payments will be considered ordinary income and subject to the progressive tax system and tax rate that applies to the Investor.

Potential investors should also be aware that the Company is not a so-called “tax shelter” investment intended to generate net losses that could be used to offset income from other sources. It is, therefore, expected that the cash distributions to investors generated from the Company’s activities will not be classified by the IRS as “passive” income, notwithstanding the general rule that income derived by an Investor is passive in nature. As a result, it is expected that an Investor will not be able to use passive losses from other sources to offset Company interest payments.

Federal and state tax laws are changing continuously as a result of new legislation, new regulations, and new administrative and judicial pronouncements. These changes may affect the Company and its Investors. All tax matters affecting the Company and, through it, its Investors, are and will be subject to such change. Potential Investors should discuss the particular tax implications for them of any investment in the Company with their tax advisors. See “Federal Income Taxation.”

Early Prepayment of Notes

The Company reserves the right to make early repayment to any and all Investors before the maturity date set forth in the Notes without any additional payment or fee to the Investor. This means the Company has the right to hold the Investor’s money until the end of the maturity date set forth on the Notes or to make early repayment at its discretion without any penalty.

Arbitrary Value of Debt Securities

The interest rates associated with each promissory note is arbitrarily assigned by the Company. It is not influenced by appraisals, licensed broker advice, legal counsel, and/or any other form of qualified evaluation.

Risks Related to Real Estate Investments

General Risks

The Company's real estate investment activities are subject to the risks generally incident to the owning of real property, including risks related to cost overruns, changes in interest rates, changes in the investment climate for real estate, changes in local market conditions, availability of mortgage funds for financing, changes in real estate tax rates, other operating expenses, governmental rules and other factors beyond the control of the Officers. The properties are subject to the risk of the inability to lease and/or sell properties, which could result from adverse changes in local real estate markets or other factors.

Downturns

Real estate investments are subject to the risks of general downturns in the industry as well as downturns in specific geographic areas. We cannot predict that a particular tenant will remain solvent or that what the occupancy level will be in particular commercial units. We also cannot predict the future value of our properties. Accordingly, we cannot guarantee that you will receive cash distributions or appreciation of your investment.

Decreased Income and Increased Expenses

The Company may be unable to attract and retain tenants for its rental properties, which means that rental

income would decline. If tenants don't pay rent or if the Company is forced to terminate a lease for nonpayment, this could affect our cash flow. Furthermore, any disputes with tenants could also involve costly litigation. Our profitability could also be affected if operating costs, such as property taxes, utilities, maintenance and insurance costs go up in relation to gross rental income, or the property needs unanticipated repairs and renovations. Reduced cash flow could affect our ability to pay interest on the Notes.

Uninsured Losses

The Officers will arrange for title, fire and casualty insurance on properties the Company acquires. The Officers may also, but are not required to, arrange for earthquake insurance. However, there are certain types of losses (generally of a catastrophic nature), which are either uninsurable or not economically insurable, such as losses due to war, floods, mudslides or other acts of God. Should any such disaster occur, or if casualty insurance is allowed to lapse through oversight, the Company could suffer a loss of principal and interest on the loan secured by the uninsured property. Furthermore, other losses could occur which may result in the denial of insurance coverage or inadequate inaccurate coverage or other unforeseen circumstances and may also lead to loss of principal and interest or damages on a loan investment.

Liability Risks of Ownership of Real Property

The Company may be exposed to the risks of liability incident to real property ownership. Owners of real property may be subject to liability for injury to persons and property occurring on the real property or in connection with the activity conducted thereon, and liability for non-compliance with governmental regulations.

Environmental Hazards

If the properties that we invest in contain, or become contaminated with, toxic or hazardous substances, the value and the marketability of these properties will decrease, our investment will decrease, or in the case of a mortgage loan, the ability of our borrowers to repay our loans will likely decrease and our profitability may decrease.

The properties in which we invest may contain, or may become contaminated with, toxic or hazardous substances. While our Officers will make reasonable investigations into whether the properties contain toxic or hazardous substances, these investigations will not guarantee that a property is free of toxic or hazardous substances, nor can they ensure that a property will not become contaminated with toxic or hazardous substances subsequent to our investment. In the event that a property in which we is found to be contaminated, it could adversely impair the value of the property and our investment.

If we fail to remove or clean up contaminated property, it is possible that federal, state or local environmental agencies could perform the removal or cleanup, then impose liens upon, and subsequently foreclose on, the property to pay for the costs of such removal or cleanup. These factors can significantly decrease the value of the property. Furthermore, the mere existence of hazardous substances on such real property may depress the market value of such real property.

Government Regulation

Government regulation, including zoning laws, property taxes, fiscal, environmental, capital gains or 1031 exchange treatments, or other government policies, could adversely affect the Company and our cash flow. For example, regulations could raise the cost of owning and maintaining the Company, which could affect our cash flow and our ability to pay interest on the Notes.

THE FOREGOING LIST OF RISK FACTORS AND POTENTIAL CONFLICTS OF INTEREST DO NOT PURPORT TO BE A COMPLETE EXPLANATION OF THE RISKS AND OTHER FACTORS INVOLVED IN THIS OFFERING. POTENTIAL INVESTORS SHOULD READ THIS OFFERING STATEMENT IN ITS ENTIRETY BEFORE DECIDING TO INVEST IN THE COMPANY.

Item 4. Plan of Distribution

The Notes will only be offered in the state of Georgia. The Company will sell the Notes directly through its Officers and Directors, Eric S. Tait and Matthew Scott, without an underwriter or selling agent, and the securities will be sold by the Company's employees who, under Rule 3a4-1(a) of the Exchange Act, are deemed not to be brokers. In accordance with the provisions of Rule 3a4-1(a), employees who sell securities will not be compensated by commission, will not be associated with any broker or dealer and will limit their activities so that, among other things, they comply with certain specified limitations when responding to inquiries from, potential purchasers. The Notes will be offered on an ongoing and continuous basis by the Company, with no minimum amount to be sold and, therefore, there is no arrangement for the return of funds to subscribers if all of the Notes to be offered are not sold.

Item 5. Use of Proceeds

If the maximum dollar amount of Notes is sold, the proceeds from this Offering will be used in order of priority and proportionally, as follows:

	Amount	Percentage
Total Proceeds	\$5,000,000	100.00%
Less: Offering Expenses		
Commissions & Finders Fees	0	0.00%
Legal & Accounting	0	0.00%
Printing & Advertising	0	0.00%
Net Proceeds from Offering	\$5,000,000	100%
Use of Net Proceeds		
Real Estate Investments	\$5,000,000	100%
Other Business Uses	0	0%
Total Use of Net Proceeds	\$5,000,000	100.00%

The Company is paying directly for the costs of the Offering; no portion of the proceeds from the Offering will be used for this purpose. The Company does not intend to use the proceeds to discharge any indebtedness incurred by the Company prior to this Offering. However, proceeds may be used for future repayment of Notes. The Company may temporarily invest proceeds in income producing securities, Treasury Bills of short maturities, before it acquires real estate for investment.

Capitalization

The following table sets forth the capitalization of the Company as of the date of this Offering Statement and the capitalization of the Company upon completion of the Offering, assuming that the full dollar amount of Notes offered hereby are sold:

	Amount Outstanding as of 06/30/11	Amount Outstanding if All Notes Are Sold

Item 6. Description of Business

The Company was formed to engage in the business of investing in income-producing single-family residential real estate in the state of Georgia. The Company seeks to maintain a diversified real estate portfolio. The Company aims to acquire substantially undervalued properties for rehabilitation and long-term hold. Our Officers have significant experience identifying and acquiring distressed properties for acquisition, renovation and long-term hold. The Company intends to tap the Officers' in-depth experience in order to find such properties.

The Company may do everything necessary and suitable for the accomplishment of the primary purpose or any other purpose, which we may accomplish, which shall, at any time, appear conducive to, or expedient for, the protection or benefit of the Company.

Investment Criteria

In this current market we will seek to acquire single-family residences with at least 30% equity on an after repair value basis. We strive for 13-18% "Cash on Cash" returns on each property, with superior property management along with possible back end appreciations as the current real estate market begins to repair itself. Cash on Cash returns mean a property's annual net cash flow divided by the net investment in the property (i.e., after repairs), expressed as a percentage.

Strategy

The Company may incorporate a variety of strategies for identifying ideal homes for investment, including, but not limited to, finding properties through short sales, trustee foreclosure auctions, the multiple listing service and proprietary search methods used by our Officers. In addition, the Company may also partner with third-party real estate investment companies to leverage the expertise of such companies for the purpose of identifying and acquiring properties ideal for investment. The Company may partner with these third-party companies through a joint venture agreement or other contractual arrangement.

The Company will incorporate a proprietary business acquisition model developed by our Officers to identify undervalued properties and properties in need of renovation in order to capitalize on ideal investment opportunities. The Company will consider acquiring homes at every price level, including, but not limited to entry level single-family homes and mobile homes. In addition, as discussed in the above paragraph, the Company may also leverage the expertise of third-party companies experienced in finding similar ideal properties.

In addition to our own search methods for identifying under-valued properties, we may partner with third party companies through strategic joint ventures to tap the expertise of those companies in identifying and acquiring under-valued properties with significant potential for appreciation. Specifically, the Company may consider acquiring single-family houses currently owned by and under management of Key Property Solutions (“Key Property”). Although there will be no formal agreement between the Company and Key Property requiring the Company to acquire a minimum number or type of properties, the Company has agreed to evaluate Key Property’s inventory and identify those properties fitting its investment criteria for possible acquisition. The Company may consider acquiring properties from other similar third party companies. The homes the Company plans to acquire will be held for long term (5-7 years) income purposes. The Company is also in negotiations for Key Property to also manage the properties acquired with its assistance.

The Company will subject prospective portfolio properties to rigorous research and financial model comparisons in order to facilitate smart investment decisions. We will gather city zoning/development plan, building permit, mortgage status and other critical information needed to capitalize on desirable portfolio properties. We intend to target homes in the \$20,000 to \$250,000 price range with an allowance of up to 15% of the purchase price for essential renovations including structural repairs, new paint and new carpet.

In the next 12 months, the Company plans to immediately acquire homes from the proceeds of this Offering and if the maximum offering of \$5,000,000 is achieved, the Company plans on acquiring up to 110 homes at an average price of approximately \$45,000 per property. Because of the low overhead required in connection with our business plan, none of the proceeds from this Offering will be needed for operational expenses. 100% of the proceeds will be used for acquiring properties for investment. Accordingly, beyond the funds required for acquiring investment properties, the Company will not have additional cash requirements for the ongoing viability of its business and therefore will not need to raise additional funds.

Current Market Conditions

On the surface, today’s housing market appears to be a volatile market for investment. Prices have declined significantly nationwide, banks have restricted lending and foreclosures continue to plague the housing sector. It is precisely these circumstances that present the opportunity upon which the Company plans to capitalize. Despite the volatility, there are opportunities to make money in real estate investing, given the right know-how to capitalize on the acquisition of certain properties in certain market segments. The experience of the Managers will allow us to track these market segments and pinpoint the distressed properties, that when purchased and renovated, will yield strong demand and optimal returns. The Company is in a position to benefit from the present turmoil in the real estate market. With proceeds raised from this Offering, the Company will be in a position to acquire properties that many potential buyers may be shut out from because of the current restrictive lending climate. With many people having lost their homes to foreclosure or being forced to sell because of reduced income, the rental market for homes has highly active lately because former homeowners are now looking to rent.

The Company is not a party to any license agreement, nor does the nature of its business require expenditure of funds for research and development.

On or before the redemption date, the Company shall set aside money sufficient to pay the redemption price of all Notes to be redeemed on that date. If the Company has mailed a notice of redemption to the registered holder and this Promissory Note is not presented for redemption within 60 days of the redemption date or such longer period set forth in the notice of redemption, then the Company may transfer the money distributable upon redemption to a separate bank account, for the benefit of the registered Holder whose Notes are redeemed, and thereupon this Note shall be deemed as of the date of redemption to have been redeemed and no longer outstanding.

5. Defaults and Remedies. If an Event of Default (as defined below) occurs under this Note, the principal of and accrued interest on the Note may be declared by the Holder due and payable by providing Company with written notice.

All amounts due under this Note shall be payable within 30 days of the date of receipt of notice by the Company. An "Event of Default" occurs if: (i) the Company fails to pay the principal of any Note when the same is presented for payment, upon redemption or otherwise, and the failure to pay continues for a period of thirty (30) days after receipt of written notice from the Holder of the Note or (ii) the Company becomes subject to certain events of bankruptcy or insolvency.

6. No Recourse. A director, officer, employee or stockholder, as such, of the Company shall not have any liability for any obligations of the Company under this Note or for any claim based on, or in respect of such obligations or their creation. The Holder by accepting this Note waives and releases all such liability. The waiver and release are part of the consideration for the issue of this Note.

7. Entire Agreement. The undersigned understands and expressly agrees that (i) the PPM, the Subscription Agreement and this Promissory Note constitute the entire agreement between the parties relative to the Noteholder's investment in the Notes, and (ii) there are no representations, warranties or agreements, whether express or implied or oral or written, except as set forth herein. This Agreement may be modified only in a writing executed by the parties.

THIS NOTE IS NOT A BANK DEPOSIT OR A BANK OBLIGATION AND IS NOT INSURED BY THE FDIC.

IN WITNESS WHEREOF, the Company has caused this Note to be signed, on the date first written above.
