About Lawson

Lawson offers enterprise resource planning software, services and support to help run operations more smoothly and effectively. Lawson's system is feature-rich and provides specialized solutions based on their deep industry knowledge of the Food and Beverage segment. Lawson has provided enterprise resource planning software for over 4,500 customers across 40 countries.

Lawson References

During the selection phase, Lawson provided food and beverage customer references such as, Jelly Belly, Watkins Inc., and Kemin Foods. These companies are currently using the Lawson system and shared their experience of the implementation process and satisfaction with the ERP system. Several Golden Flake steering committee members were able to speak with current Lawson customers to ask questions and to learn the advantages of the Lawson solution.

Introducing Lawson M3 Food & Beverage System

Golden Flake is excited to begin a journey to integrate all of its current computer systems with what is called an Enterprise Resource Planning ("ERP") system.

With the introduction of the Velocitor handheld scanner system, the increasing number and types of products, the expansion of our network of distributors, and many other significant changes in the business, timeliness, efficiency and accuracy are key to future success.

A decision was made in the Fall of 2010 to begin a diligent evaluation to find the best software system for Golden Flake. CFO Patty Townsend, working with Steve Adams from a local consulting firm, organized a steering committee of knowledgeable people across all aspects of the company to conduct this evaluation. Steering committee members outlined a very detailed list of system requirements for each of the departmental areas. After many meetings and discussions, this list was finalized and became the basis for a "Request for Proposal (RFP)" document that was sent to 18 software companies asking if they were interested in presenting a proposal for us to consider using their software.

Three rounds of evaluation were conducted with half of the companies eliminated due to either an inability to fulfill our software requirements or the company not being a good fit for Golden Flake. After further review of the systems, the vendors' knowledge of our business, and their experience implementing very large projects like this, a decision was made to select Lawson M3 Food & Beverage system for Golden Flake.

The official ERP project kickoff started in April 2011. The Lawson team (including consultants from CIBER, a Lawson partner that will be responsible for the HR and Payroll systems) will be working with us to review and analyze all of the business processes to make sure no details are missed as we plan for the eventual crossover to the new system. Our ERP implementation will follow a strict project management methodology called Step-Wise to ensure all activities occur as planned. Project planning will continue, followed by preparation of the technical environment, training, testing, validation of system readiness and preparation to go-live with the new Lawson M3 Food & Beverage application in production.

Given the challenges our team has faced this year, these results demonstrate the positive results of ongoing initiatives and commitment to excellence of our teammates.

Letter to Our Stockholders

I am pleased that our year end results remain positive with net income for the 53-week year ended June 3, 2011 of \$3.0 million (\$0.26 per share) compared to net income of \$4.2 million (\$0.36 per share) for the 52-week year ended May 28, 2010. Last year's income included gains from the sale of the Company's airplane and certain properties that contributed \$0.04 per share.

The past year at Golden Enterprises can be summed up in one word, challenging. Be it fuel costs, commodity costs, or the malaise and uncertainty of the economy in general, we have experienced a tough and demanding year. But despite these external constraints, our Company had a profitable year.

Net sales increased by 2% in fiscal year 2011 while cost of sales as a percentage of sales and gross margin were relatively level compared to last year. Without the extra week, net sales, cost of sales, and gross margin were all comparatively even with last year. Given the challenges our team has faced this year, these results demonstrate the positive results of ongoing initiatives and commitment to excellence of our teammates.

Challenging circumstances present opportunities for improvement in our operations. After an extensive and diligent selection process, the Company chose and has begun implementation of an enterprise resource planning (ERP) system. This system will provide management with real time information to improve forecasting, enhance order and revenue tracking, as well as fully integrate our manufacturing, sales and marketing, human resources and financial applications.

With pride in our past achievements and an excitement toward our future, we remain dedicated to achieving positive results for our stockholders by producing and selling quality snack foods.

We invite you to our annual meeting of stockholders to be held at our Birmingham headquarters on September 22, 2011 at 11:00 A.M. Central Daylight Time.

Essential Ingredients

At Golden Flake, innovation and dedication to quality are essential ingredients to our success. It is our goal to provide exciting new products that taste great and offer great value, a tradition that has made Golden Flake a brand Southern consumers know and trust.

A Foundation

At Golden Flake, quality begins with our people and is primary to each ingredient of our delicious snacks! With this basic foundation, our employees in manufacturing, transportation and sales are proud to offer our consumers only the most delicious grade "A" snacks.

Good Taste

When you taste a Golden Flake product, you will experience only the best flavors found in each of our Southern made snacks! Choice ingredients are combined with new and exciting flavors in an assortment of potato chips, cheese curls, cheese puffs, pork skins, tortilla chips, and puff corn. With traditional favorites like Sour Cream & Onion to delectable Dill Pickle,

to our bold Sweet Heat Barbecue, it's no wonder that Golden Flake is the South's regional favorite!

Consumer Value

In today's environment, the emphasis on value is more important than ever before! We strive to ensure that each product delivers true value in every aspect of cost, taste and enjoyment. Our dedicated

consumers, both veterans and newly engaged, are confident that Golden Flake will consistently provide the satisfaction and comfort they have come to know and trust!

Continued Traditions

From the humble beginning in the basement of a Hill's Grocery Store in 1923 until today, traditions are the building blocks and foundation that strengthen our company. As Golden Flake moves forward, we continue our mission, "Consistently satisfying the expectations of our customers, consumers, employees and stockholders by producing and selling quality snacks!" Continuing established traditions, along with creating new ones strengthen Golden Flake as a company, and as a family.

From the humble beginning

in the basement of a Hill's Grocery Store in 1923 until today, traditions are the building blocks and foundation that strengthen our company.

A Classic American Success Story

Golden Flake is a tribute to the American free enterprise system. Starting out as Magic City Foods in 1923, the only products made were almonds, peanuts, peanut butter crackers, horseradish and potato chips.

Today, Golden Flake manufactures a full line of potato chips, pork skins, tortilla chips, corn chips, cheese puffs, cheese curls, onion rings and puff corn which are distributed throughout the Southeastern United States and available for purchase online. Even though Golden Flake is a much larger company today, the same quality and traditions that built its foundation still remain.

TO INSURE YOUR REPRESENTATION AT THE MEETING, YOU ARE REQUESTED TO SIGN THE ENCLOSED PROXY AND RETURN IT IN THE ACCOMPANYING ENVELOPE. IF YOU ARE ABLE TO ATTEND THE MEETING, YOU MAY REVOKE THE PROXY AND VOTE YOUR SHARES PERSONALLY AT ANY TIME BEFORE THE PROXY IS EXERCISED.

PROXY STATEMENT

GENERAL

The annual meeting of the stockholders of Golden Enterprises, Inc. (the "Company") will be held at the general offices of the Company, at One Golden Flake Drive, Birmingham, Alabama 35205 on September 22, 2011, at 11:00 A.M. All holders of record of common stock as of July 29, 2011, will be entitled to vote at the meeting and any adjournment thereof.

The purpose of this proxy solicitation is to enable those stockholders who will be unable to personally attend the meeting to vote their stock.

Important Notice Regarding Availability of Proxy Materials for Shareholder Meeting to be Held on September 22, 2011: This Proxy Statement, Proxy Card, the Annual Report to Stockholders and Form 10-K are available on line at www.goldenflake.com/financial.html.

PERSONS MAKING THE SOLICITATION

This proxy is solicited on behalf of the Board of Directors of Golden Enterprises, Inc. The cost of solicitation will be paid by the Company and will include reimbursement paid to brokerage firms and others for their expenses in forwarding solicitation material regarding the meeting to beneficial owners in accordance with the regulations of the Securities and Exchange Commission. In addition to solicitation by mail, officers and regular employees of the Company may solicit proxies by telephone, email, or personal interview at no additional compensation.

SECURITY HOLDERS ENTITLED TO VOTE

Shareholders of record of common stock of the Company at the close of business on July 29, 2011, will be entitled to vote at the Annual Meeting and at any and all adjournments thereof. If on July 29, 2011 your shares were registered directly in your name with our transfer agent, The Bank of New York, then you are a shareholder of record. Each share of common stock entitles its owner to one vote. The number of shares of common stock of the Company (exclusive of treasury shares) outstanding at the close of business on July 29, 2011 was 11,734,632 shares.

If your shares are held in street name (which means they are held of record by a broker), you must instruct your broker how to vote the shares, or your shares will not be voted on any proposal for which the broker does not have discretionary authority to vote. Due to a recent change in the rules governing brokers, they no longer have discretionary authority to vote for the election of Directors without instructions from the beneficial owner. Accordingly, if your shares are held in street name, it is particularly important that you instruct your broker how you wish to vote your shares for the election of Directors at the Annual Meeting.

Stockholders who execute proxies retain the right to revoke them at any time before they are voted. If the enclosed proxy is properly signed and returned to the Company and not so revoked, the shares represented thereby will be voted in accordance with its terms. If a shareholder returns a signed proxy card but does not mark the boxes, the shares represented by that proxy card will be voted as recommended by the Board of Directors. If a shareholder does not return a signed proxy card or does not attend the Annual Meeting and vote in person, his or her shares will not be voted. Abstentions and "broker non-votes" are not counted in determining outcomes of matters being acted upon. They are

counted only for determining a meeting quorum. If a shareholder attends the Annual Meeting, he or she may vote by ballot.

In accordance with Delaware law, a list of stockholders entitled to vote at the Annual Meeting will be available at the Annual Meeting at the principal executive offices of Golden Enterprises, Inc., One Golden Flake Drive, Birmingham, Alabama, 35205, on September 22, 2011, and for ten days prior to the Annual Meeting, between the hours of 9:00 a.m. and 4:00 p.m. Central Time, at the principal executive offices of the Company.

The stock of the Company owned by Bashinsky Foundation, Inc. is voted by its board of directors and is not subject to the Voting Committee, as described below.

Joann F. Bashinsky and John P. McKleroy, Jr., Directors of the Company, each serves as a director and officer of SYB, Inc. The voting stock of SYB, Inc. is vested in the SYB, Inc. Common Stock Trust and John P. McKleroy, Jr. serves as a Co-Trustee of this Trust.

John P. McKleroy, Jr. is designated under Mr. Bashinsky's Will as a Co-Trustee of his Marital Testamentary Trust ("Marital Testamentary Trust").(1)

(1) John S. Stein, Jr., previous Chairman of the Board, who resigned/retired from the Board on July 22, 2010, is also a Co-Trustee of the Marital Testamentary Trust.

Mr. Bashinsky's Will and the SYB, Inc. Common Stock Trust provide that shares of the Company held by SYB, Inc. and his Marital Testamentary Trust shall be voted by a committee made up of members of the Board of Directors of the Company and one member designated by his Estate Personal Representatives/Trustees ("Voting Committee"). Consequently, as of the date of this Proxy Statement, the 5,283,128 shares of the Company stock held by SYB, Inc. and the 600,279 shares of the Company stock held by Mr. Bashinsky's Marital Testamentary Trust, all of which constitute a majority of the stock of the Company, are voted by the Voting Committee. The Voting Committee presently consists of J. Wallace Nall Jr., F. Wayne Pate, John P. McKleroy, Jr., Joann F. Bashinsky, Mark W. McCutcheon, Paul R. Bates and David A. Jones, all directors of the Company, along with Patty Townsend, an officer of the Company. The decision of a majority of the members of the Voting Committee governs how the stock is voted.

The Voting Committee will continue to vote the Company stock owned by SYB, Inc. (5,283,128 shares) and by the Marital Testamentary Trust (600,279 shares), respectively, until the SYB, Inc. Common Stock Trust and the Marital Testamentary Trust terminate. The Marital Testamentary Trust will terminate upon the death of Joann F. Bashinsky and the SYB, Inc. Common Stock Trust will terminate upon the earliest to occur of the following dates: (i) in the event the Company should be sold, five (5) years from the date of the sale of the Company, or (ii) December 31, 2020.

Upon termination of the SYB, Inc. Common Stock Trust, the assets of the Trust will be distributed generally to Sloan Y. Bashinsky, Sr.'s descendants and control of the Company stock held by SYB, Inc. (5,283,128 shares) will transfer to these trust beneficiaries and the Voting Committee will cease to vote these shares. Upon termination of the Marital Testamentary Trust and distribution of its assets, the Company stock held by the Marital Testamentary Trust will transfer to various charitable organizations and the Voting Committee will cease to vote these shares.

Due to the transfer of shares of the Company stock held by the Estate of Sloan Y. Bashinsky, Sr. to the Marital Testamentary Trust created by the Last Will and Testament of Sloan Y. Bashinsky, Sr. and Joann F. Bashinsky on August 9, 2010, SYB, Inc., the SYB, Inc. Common Stock Trust, the Voting Committee and Mrs. Bashinsky have filed an amended Schedule 13D and the Company remains classified as a "controlled company." SYB, Inc., the Marital Testamentary Trust and Joann F. Bashinsky as a group own 53.8% of the common stock of the Company.

ELECTION OF DIRECTORS

At the Annual Meeting, eleven Directors are to be elected, comprising the entire membership of the Board, each to hold office until the next Annual Meeting of Stockholders, or until a successor has been elected and qualified or any earlier resignation or removal. All nominees are presently members of the Board of Directors. All nominees standing for reelection are currently serving as members of the Board and have consented to continue to serve if elected. If any nominee for any reason is unable to serve or will not serve, the proxies may be voted for such substitute nominee as the Board may nominate. The Company is not aware of any nominee who will be unable or unwilling to serve as a Director.

Shares represented by your proxy will be voted in accordance with your direction as to the election as directors of the persons hereinafter listed as nominees. In the absence of clear direction, otherwise the shares represented by your proxy will be voted FOR such election. Should any of the persons listed as nominees become unavailable as a nominee for election, it is intended that the shares represented by your proxy will be voted for the balance of those named and for a substitute nominee or nominees proposed by the Board of Directors unless the Board reduces the number of directors, but the

Board knows of no reason to anticipate that this will occur. Proxies cannot be voted for a greater number of persons than the number of nominees named.

The Board has established certain attributes that it seeks in identifying candidates/nominees for Director. In particular, the Board desires individuals who have very high integrity, business and financial experience and deep, genuine interests in the Company. In considering candidates for Director, the Board considers the entirety of each candidate's credentials in the context of these attributes. In the judgment of the Company's Board as a whole, each of the following nominees possesses such attributes.

The following table shows the names of the nominees for election as directors, their respective ages as of July 29, 2011, the nominees' principal occupation, business experience, other directorships held by such nominees, qualifications and skills considered by the Board and the period during which such nominees have served as directors of the Company.

Mr. Samford's qualifications and skills include his knowledge and experience with investments, his knowledge and ability to review financial information

of public companies, his long service to the Company as a Director and his service on the Audit Committee since 1989.

John S. Stein III, 46

Mr. Stein is currently Chairman and CEO of National Alabama Corporation, a railcar manufacturer located in northwest Alabama. From 2001 to 2009, Mr. Stein served as CEO of IntraMicron, Inc., a technology research, development and deployment company. He is a founder and principal (since 2001) of Fidelis Capital, an SEC registered investment advisor based in Birmingham, Alabama. From 1996 to 1998, Mr. Stein co-founded and was Co-Managing Partner of Petra Capital LLC, a private subordinated debt fund based in Nashville providing growth capital to small businesses. Mr. Stein also serves as a member of the Board of Directors of Wise Metal Group, LLC, the world's third leading producer of aluminum can containers for the beverage and food industries.

2010

Mr. Stein was nominated to serve as a Director due to his business and financial background, experience in the investment banking industry, expertise and insight as a CEO of other companies, current directorship experience and his knowledge of the Company.

Our Board unanimously recommends that shareholders vote FOR the election of each nominee for Director named above.

CORPORATE GOVERNANCE

Controlled Company

The Company is deemed a "controlled company" because 53.9% of the Company's stock is owned (directly or indirectly) and/or voted by the control group (as previously described in "Voting Control" on page 5) within the meaning of Listing Rule 5615 of the Corporate Governance Standards of the NASDAQ Stock Market, Inc. ("NASDAQ") on which the Company's shares are traded. Controlled companies are exempt from a number of NASDAQ corporate governance standards, including the requirement to have a majority of independent directors and the requirement to have director nominees selected by a nominating committee comprised of independent directors. Controlled companies are also exempt from the requirement to have the compensation of the company's officers determined by a compensation committee comprised of a majority of independent directors.

Director Independence

The Board has determined that Edward R. Pascoe, John S.P. Samford, John S. Stein, III and William B. Morton, Jr. are qualified as "Independent Directors" within the meaning of the director independence standards of the NASDAQ and the Securities and Exchange Commission ("SEC") under the Exchange Act of 1934. James I. Rotenstreich, who resigned/retired as a Director of the Company on July 22, 2010, was classified as an independent director for the time he served on the Board during the fiscal year ended June 3, 2011. All other directors serve on the Voting Committee described in "Security Ownership of Management" and do not qualify as Independent Directors.

Meetings of Independent Directors

The Independent Directors meet in executive sessions (with no management directors or officers present) at least twice each year. The Independent Directors met two times in the fiscal year ending June 3, 2011. All Independent Directors attended both meetings.

Committees of the Board of Directors

The Board of Directors has a Compensation Committee, a Stock Option Committee and an Audit Committee. The Board of Directors, as a controlled company, is not required to and has no standing Nominating Committee.

The Compensation Committee reviews the performance of the Executive Officers of the Company and the top executive officer of Golden Flake Snack Foods, Inc., a wholly-owned subsidiary, and recommends to the Board of Directors of the Company the appropriate compensation level and compensation and benefit programs of such officers. The Board as a whole sets officer compensation. The Compensation Committee consists of John S.P. Samford, J. Wallace Nall, Jr., Joann F. Bashinsky and F. Wayne Pate. The Compensation Committee met once during fiscal year 2011. Since the Company qualifies under NASDAQ Listing/Corporate Governance Rules as a Controlled Company, the Compensation Committee is not required to meet the independence requirements of the listing standards of NASDAQ and the non-employee director definition of Rule 16b-3 promulgated under Section 16 of the Exchange Act.

The Stock Option Committee has from time to time determined the key employees of the Company and its subsidiary to whom stock options and stock appreciation rights were granted under the Company's Long Term Incentive Plan. The Stock Option Committee consists of John S.P. Samford, J.

Wallace Nall, Jr., Joann F. Bashinsky and F. Wayne Pate. The Stock Option Committee met once during fiscal year 2011.

The Audit Committee reviews the results of the annual audit and quarterly financial statements, selects and engages the independent accountants, assesses the adequacy of the Company's procedures in connection with financial controls and receives and considers the independent accountants' comments as to internal controls. The Audit Committee met separately as a committee four times during fiscal year 2011. The Audit Committee meets with management to review each of the Company's quarterly and annual financial statements filed on Form 10-Q and Form 10-K, prior to the filing of those reports with the SEC. The Audit Committee's functions include the engagement of the Company's independent registered public accounting firm, review of the results of the audit engagement and the Company's financial results, review of the Company's financial statements by the independent registered public accounting firm and their opinion thereon, review of auditors' independence, review of the effectiveness of the Company's internal controls and similar functions and approval of all auditing and non-auditing service performed by the independent registered public accounting firm for the Company. The Audit Committee acts pursuant to a written charter, which is reviewed annually by the Board of Directors and is available at www.goldenflake.com. John S.P. Samford, Chairman, Edward R. Pascoe, William B. Morton, Jr. and John S. Stein, III constitute the Audit Committee of the Board of Directors. James I. Rotenstreich, who resigned/retired as a Director of the Company on July 22, 2010, served as Chairman of the Audit Committee until his resignation. The Board of Directors has determined that all of the members of this committee qualify as independent directors under the current requirements of NASDAQ and the SEC. The Board of Directors has further determined that all of the members of this committee qualify as an "audit committee financial expert" under the rules and regulations of the SEC. The Audit Committee met four times during fiscal year 2011. See "REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS".

Meetings of the Board of Directors and Committees

During the fiscal year ended June 3, 2011, there were four regular meetings of the Board of Directors. The Compensation Committee and the Stock Option Committee met once and the Audit Committee met four times during the fiscal year 2011. All directors attended all of the meetings of the Board and the Committees on which they served except for one Board member who missed one meeting. All Directors attended at least 75% of the meetings of the Board of Directors and the Committees.

Compensation of Directors

During the fiscal year ended June 3, 2011, the Company paid each of its non-employee Directors a retainer of \$300 per month and a fee of \$2,000 for each regular Board meeting attended. The members of the Compensation Committee were each paid \$2,000 for attending the Compensation Committee meeting and the members of the Audit Committee were paid \$1,000 for each meeting attended.

Board Member Attendance at Annual Meetings

It is the policy of Golden Enterprises that each member of the Board shall make a reasonable effort to attend all meetings of the Board, applicable committee meetings and the Company's annual meeting of shareholders. All Directors attended the Annual Stockholders Meeting held last year.

Nomination of Directors

During the fiscal year ended June 3, 2011, the Company did not have a standing nominating committee. The NASDAQ rules do not require the Company to have a nominating committee since the Company was a "controlled company" pursuant to NASDAQ Listing Rule 5615, in that more than 50% of the voting common stock of the Company was held by SYB, Inc. and the Marital Testamentary Trust, which were affiliated, and such shares are voted by a Voting Committee created under the Will/Testamentary Trust of Sloan Y. Bashinsky, Sr. and under the SYB, Inc. Common Stock Trust. The Voting Committee is comprised of J. Wallace Nall, Jr., F. Wayne Pate, John P. McKleroy, Jr., Joann F. Bashinsky, David A. Jones, Paul R. Bates and Mark W. McCutcheon, all directors of the Company and Patty Townsend, an officer of the Company.

The Board believes that it is not necessary to have a separate nominating committee in view of the size of the Company, and the fact that the Company is a "controlled company". Nominees for election as a director are determined by the entire Board. The Company believes that the Board is able to fully consider and select appropriate nominees for election to the Board without delegating that responsibility to a committee or adopting formal procedures. Candidates have traditionally been recommended to the Board by one or more of the other Directors, and there is no formal process for identifying or evaluating new Director nominees. Candidates recommended by shareholders will be evaluated in the same manner as candidates recommended by Directors. In nominating Directors, the Board will consider all relevant qualifications, as well as the needs of the Company and compliance with NASDAQ listing standards and SEC rules.

A shareholder who would like to recommend a candidate for Director should send a letter to Golden Enterprises, Inc., attention of the Secretary, at One Golden Flake Drive, Birmingham, Alabama 35205. The mailing envelope must contain a clear notation indicating that the enclosed letter is a "Director Nominee Recommendation." The letter must identify the author as a shareholder and provide a brief summary of the candidate's qualifications, as well as contact information for both the candidate and the shareholder. Candidates should have relevant business and financial experience, and they must be able to read and understand fundamental financial statements. All nominated candidates, if asked to do so, must evidence their willingness to serve as a Director.

Communications with the Board

Shareholders interested in communicating directly with the Board of Directors may do so by writing the Secretary of the Company, at the following address:

Board of Directors of Golden Enterprises, Inc.
C/O Corporate Secretary
One Golden Flake Drive
Birmingham, Alabama 35205

All such letters must identify the author as a shareholder. The Secretary of Golden Enterprises, Inc. will review all such communications and forward all appropriate communications to the Board.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that Directors, certain Executive Officers and beneficial owners of more than ten percent of the stock of the Company file reports of stock ownership and changes in ownership with the Securities and Exchange Commission. These reports consist of Forms 3, Initial Statement of Ownership, 4, Statement of Changes in Beneficial Ownership, and

5, Annual Statement of Changes in Beneficial Ownership. Based upon a review of copies of such reports, or written representations that no reports were due to be filed by Directors, Executive Officers or beneficial owners of more than ten percent of the stock of the Company, the Company believes that Section 16(a) filing requirements applicable to its Directors, Executive Officers and beneficial owners of more than ten percent of the stock of the Company were complied with during the fiscal year 2011.

Board of Directors, Duties and Committees

Directors are expected to devote sufficient time to carrying out their duties and responsibilities effectively. The Board of Directors meets regularly four times each fiscal year to review matters affecting the Company and to act on matters requiring the Board's approval. It also holds special meetings whenever circumstances require and may act by unanimous written consent without a meeting.

The Company's Board of Directors currently consists of eleven directors. Mark W. McCutcheon serves as the Chairman of the Board. The Board of Directors met four times during the fiscal year ended June 3, 2011, all of which were regularly scheduled meetings. In the last fiscal year, the Independent Directors met twice in executive sessions. All directors, with the exception of one director, attended 100% of the meetings of the Board and the meetings of the committees on which they served during the fiscal year ended June 3, 2011. One director missed one of the four scheduled meetings. The Board has a policy expecting director attendance at all Board and committee meetings and the Company's annual meeting of stockholders.

The Company's Board has established an Audit Committee, Compensation Committee and Stock Option Committee. The Charter for the Audit Committee is available from the Company. The Compensation Committee has no Charter, but its duties and responsibilities are set forth in corporate minutes adopted by the Board. In addition, the Board may from time to time establish special purpose committees. There were no special purpose committees existing in the last fiscal year.

Board Leadership Structure and Risk Oversight

The business and affairs of the Company are managed under the direction of the Board of Directors. The Board of Directors is led by the Chairman of the Board. This role is currently occupied by Mark W. McCutcheon, who also serves as Chief Executive Officer. The Board of Directors has determined that having Mr. McCutcheon serve as both the Chief Executive Officer and the Chairman of the Board is in the best interest of the Company and its stockholders. The Board believes that this combination is appropriate because, in its opinion, the overseeing of Board functions is integrally related to the Chief Executive Officer's responsibility of day-to-day management of a Company this size and, that due to Mr. McCutcheon's abilities, he is also the best person to handle both duties. The Board of Directors does not however have a formal policy regarding the separation of the roles of Chief Executive Officer and Chairman of the Board as the Board of Directors believes it is in the best interests of the Company to make the determination regarding how to fulfill these functions based on the position and direction of the Company and the qualifications of the CEO and Board members. A lead independent director has not been designated because the Board does not believe it is warranted for a company of our size and complexity.

The Board of Directors as a whole establishes the Company's overall policies and standards, reviews the performance of management and considers overall risk regarding operations and goals and how those risks are being managed. The Board believes that effective risk management and control processes are critical to the Company's ability to manage the challenges that the Company faces. Management is responsible for implementing the Company's risk assessment and management functions and for reporting to the Board on its processes and assessments with respect to the management of risk.

The Board, in turn, is responsible for overseeing management's risk functions. The Audit Committee monitors the processes by which management assesses and manages risk. Management meets with, or provides reports to, the Company's Audit Committee at least once per quarter to review the Company's risk profile and other risk topics. In addition, the Chief Financial Officer meets at least quarterly with the Audit Committee and the full Board to discuss the Company's financial risk, results and financial forecasts. The Compensation Committee and the Board as a whole assess the risks that the Company's overall compensation goals and objectives, as well as any compensation or other programs that are reasonably likely to create a material risk to the Company.

Corporate Governance Documents

Certain documents relating to corporate governance matters are available on the Company website at www.goldenflake.com. These corporate governance documents include, among others, the following:

- Charter for the Audit Committee of the Board;
- Code of Business Conduct and Ethics;
- Complaint Procedures for Accounting and Accounting Matters; and
- Disclosure Controls and Procedures.

Stockholders may also obtain a copy of these documents free of charge by contacting Patty Townsend, Chief Financial Officer, by email at ptownsend@goldenflake.com or by telephone at (205) 323-6161.

Director Independence

Of the eleven directors currently serving on the Board of Directors, the Board has determined that Messrs Pascoe, Samford, Morton and Stein are "Independent Directors" as defined in the rules of the NASDAQ Stock Market, Inc. (NASDAQ) Listing Rules and the SEC. As a Controlled Company, as previously discussed, the Company is exempt from certain independence requirements of the NASDAQ rules, including the requirement to maintain a majority of Independent Directors on the Board of Directors, an Independent Compensation Committee or a Standing Nominating/Corporate Governance Committee or committees performing similar function.

All members of the Audit Committee must be Independent Directors as defined by NASDAQ Policies and Practices and U.S. Securities and Exchange Commission. The Company's four Independent Directors serve on the Audit Committee, with Mr. Samford serving as Chairman.

Policies and Practices

The Company's policies and practices reflect corporate governance initiatives that comply with the listing requirements of NASDAQ and the corporate governance requirements of the Sarbanes-Oxley Act of 2002, including the following:

- All members of the Audit Committee are independent;
- The Charter of the Audit Committee establishes the Committee's duties and responsibilities;

- The independent members of the Company's Board of Directors meet regularly ("executive sessions") without the presence of management;
- The Company has a policy for attendance of Board members at both regular Board and committee meetings and shareholder meetings;
- The Company has adopted a Code of Conduct and Ethics;
- The Company has adopted Disclosure Controls and Procedures which establishes a committee for regular evaluation of internal company disclosure control and procedures;
- The Company has procedures in place for the anonymous submission to the Audit Committee of employee and third party complaints on accounting, internal accounting controls or auditing matters;
- The Company has policies and procedures for stockholders to communicate directly with the Board of Directors; and
- The Audit Committee must review, approve and/or ratify all related party transactions.

EXECUTIVE COMPENSATION

The Objectives of the Executive Compensation Program

The Compensation Committee is responsible for establishing and administering the Company's policies governing the compensation for the Executive Officers. All actions of the Compensation Committee must be approved by the Board of Directors. Because the Company qualifies as a Controlled Company pursuant to the exception of NASDAQ Listing Rule 5615, the Compensation Committee is composed of both independent and non-independent directors. See "Committees of the Board of Directors" above.

The purpose of the Company's executive compensation program is to attract, retain and motivate qualified executives to manage the business so as to maximize profits and stockholder value. No outside consultants have been used to evaluate or determine compensation. Executive compensation in the aggregate is made up principally of the executive's annual base salary, a bonus based upon operating earnings and Company perquisites or benefits. The Compensation Committee annually considers and makes recommendations to the Board as to executive compensation including changes in base salary and cash incentive bonuses. Stock options and awards of stock under the Long Term Incentive Plan have been granted from time to time by the Stock Option Committee, which is composed of the same members as the Compensation Committee, however, no new stock options may be granted under the Long Term Incentive Plan. No stock options were granted in the last fiscal year and all outstanding stock options will expire on October 15, 2011 if not exercised sooner.

Consistent with the above-noted purpose of the executive compensation program, in recommending the aggregate annual compensation of Executive Officers, the Compensation Committee considers the individual contribution and performance of the executive, the Company's overall performance and the total return to stockholders. The Company's executive compensation program focuses on strategic plans, corporate performance measures, and specific corporate goals. The corporate performance measures which the Compensation Committee considers include sales, earnings, return on equity and comparisons of sales and earnings with prior years.

The Compensation Committee does not rely on any fixed formulae or specific numerical criteria in determining an executive's aggregate compensation. It considers corporate and personal performance criteria and the economic environment, changes in the cost of living, competitive compensation levels and the recommendations of management. The Compensation Committee exercises business judgment based on all of these criteria and the purposes of the executive compensation program.

Base Salary

The Board of Directors, upon recommendation of the Compensation Committee sets base salaries for the Company's executive officers at levels which the Company believes are fair and reasonable based on the scope of the executive officer's individual responsibilities, taking into account competitive market compensation paid by other companies for similar positions. With our named executive officers, we set base salaries based on level of responsibility, span of control and experience. Base salaries are reviewed annually, as well as at the time of hire, promotion or changes in responsibility. Base salaries may also be adjusted from time to time to realign salaries with market levels. Base salary changes also impact bonus amounts and actual bonus payouts.

Discretionary Performance-Based Bonus

The Board of Directors, upon recommendation of the Compensation Committee, has the authority to award performance-based bonuses to our executive officers payable in cash. The Board of Directors, upon recommendation of the Compensation Committee, has utilized a formula adopted at the beginning of the year for determining bonuses, which is based on performance of the Company during the fiscal year. There is no requirement that the Board continue using this formula for the payment of bonuses.

Performance Measurement

Annual, performance-based awards are intended to compensate executive officers for achieving Company-wide financial goals and objectives. These objectives relate to general profitability factors.

Generally, performance bonuses are accrued on a quarterly basis with seventy-five percent (75%) of the accrued amount paid after the end of the each of the first three quarters with the remainder of the final accrued amount paid after the end of the fiscal year when audited annual financial statements are received. All bonuses are subject to "claw-back" provisions in the event of certain actions of the officers.

The formula used for bonuses focuses on net operating profits of the Company to determine the amount of bonuses. The bonuses provide for a percentage bonus on net profits up to a set net profit amount (excluding extraordinary items) and a different, smaller percentage bonus on net profits in excess of the set net profit amount (excluding extraordinary items).

Perquisites and Benefits

Other than the use of a Company car, the Company generally does not have programs to provide personal perquisites or executive benefits solely to executive officers. The exception is that Mr. McCutcheon, as CEO of the Company, is provided a nonqualified salary continuation plan which is generally payable beginning at retirement, disability or death, Company-provided life insurance and healthcare reimbursement and use of a Company vehicle. Our executive officers are eligible to participate in the same benefit programs as all other employees. These benefits include the following:

- Medical and dental care plans
- Life accidental death and dismemberment and disability insurance
- Paid time off
- Flexible Spending Accounts for healthcare and dependent care spending
- 401(k) plan
- Non Qualified Plan

Consistent with the Company's compensation philosophy, the Company intends to maintain its current benefits for its executive officers. However, the Board of Directors in its discretion may revise, amend or add to the executive officers' benefits if it deems it advisable.

Employment Agreements, Severance Benefits and Change in Control Provisions

The Company has a non-qualified Salary Continuation Plan established for the benefit of the Company's Chief Executive Officer, Mark W. McCutcheon. The Company entered into this Salary Continuation Plan, on May 15, 2002, to ensure the performance of his role in the Company for an extended period of time. In addition, the Company also considered the critical nature of the position and the Company's need to retain him when it committed to establish this plan. The Salary Continuation Plan provides for payments of up to \$120,000 per year, as adjusted for inflation, for 15 years following death or retirement at age 65. Payments under the Salary Continuation Plan, subject to certain exceptions, are contingent upon Mr. McCutcheon remaining employed with the Company until death, disability or retirement from the Company at or after age 65. In the event of disability prior to retirement, the yearly benefit of \$120,000 is reduced by any payments of social security disability benefits and long term disability benefits which were funded or provided by the Company. The Salary Continuation Plan may be amended or terminated by the Company's Board of Directors, except that in the event of a change of control in the Company, the Salary Continuation Plan becomes irrevocable. The Plan is funded in part with life insurance on the life of Mr. McCutcheon.

Indemnification Arrangements

The Company's Certificate of Incorporation provides that the Company indemnify and hold harmless each of its directors and officers to the fullest extent authorized by the Delaware General Corporation Law, against all expense, liability and loss (including attorney's fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered by such person in connection with services rendered by such directors or officers to or on behalf of the Company.

The Certificate of Incorporation also provides that a director will not be personally liable to the Company or its stockholders for monetary damages for breach of the fiduciary duty of care as a director. This provision does not eliminate or limit the liability of a director:

- for breach of his or her duty of loyalty to the Company or to the stockholders;
- for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- under Section 174 of the Delaware General Corporation Law (relating to unlawful payments of dividends or unlawful stock repurchases or redemptions); or
- for any improper benefit.

The Company has executed with each Director a written Indemnification Agreement which includes the items set forth above.

The Company maintains Officer and Director's Insurance to protect and benefit the Company and Directors.

Notwithstanding the Indemnification arrangements stated above, indemnification for certain liabilities under the Federal Securities Acts may be deemed by the SEC as against public policy and unenforceable.

CERTAIN RELATED PARTY TRANSACTIONS

During the fiscal year ended June 3, 2011, the law firm of Spain & Gillon, L.L.C., of which John P. McKleroy, Jr. is a member, served as General Counsel and performed various legal services for the Company and its subsidiary for which it was paid legal fees of \$281,672. The firm will continue to perform legal services for the current fiscal year.

The Company believes that the related party transaction was on terms equal to or better than those available from unaffiliated third parties.

The Audit Committee Charter requires that the Audit Committee review and approve or ratify all related party transactions. Accordingly, the Audit Committee reviewed, approved and ratified the above-described related party transactions.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee reviews with the independent auditors, the Company's Chief Financial Officer and the Company's general counsel the results of the independent auditor's annual report on the Company's financial statements. The Audit Committee selects and engages the Company's independent auditors and performs such additional functions as are necessary or prudent to fulfill the Committee's duties and responsibilities and reports its recommendations and findings to the full Board of Directors.

The Board of Directors has adopted a written charter for the Audit Committee, which is reviewed and reassessed for adequacy on an annual basis.

The Audit Committee has reviewed and discussed the audited financial statements for the year ended June 3, 2011 with management and the independent auditors. The Audit Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 ("SAS 61"). The Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 and has discussed with the independent auditors their independence. The Audit Committee has also discussed with the management of the Company and the independent auditors, such other matters and received such assurances from them as deemed appropriate by the Audit Committee.

The Audit Committee has considered whether the provision of the non-audit services performed by Dudley, Hopton-Jones, Sims and Freeman PLLP, as described on Page 23 hereof is compatible with maintaining Dudley, Hopton-Jones, Sims and Freeman PLLP's independence.

The Audit Committee recognizes the importance of maintaining the independence of the Company's independent registered public accountants. Consistent with its Charter, the Audit Committee has evaluated Dudley, Hopton-Jones, Sims & Freeman PLLP's qualifications, performance, and independence, including that of the lead audit partner. In addition, Dudley, Hopton-Jones, Sims & Freeman PLLP has provided the Audit Committee with a letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public

accountant's communications with the Audit Committee concerning independence and the Audit Committee has engaged in dialogue with Dudley, Hopton-Jones, Sims & Freeman PLLP about their independence.

The Audit Committee reviewed, approved and ratified the related party transactions set forth and described in "Certain Related Party Transactions" on Page 23 hereof.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements referred to above be included in the Company's Annual Report on form 10-K for filing with the Securities and Exchange Commission.

Submitted by the Audit Committee of the Board of Directors of Golden Enterprises, Inc.

Members of the Audit Committee: John S. P. Samford, Edward R. Pascoe, William B. Morton, Jr. and John S. Stein, III.

INDEPENDENT ACCOUNTANTS

Dudley, Hopton-Jones, Sims & Freeman PLLP, Certified Public Accountants ("Dudley, Hopton-Jones") were selected by the Audit Committee and ratified by the Board of Directors as the independent accountants to audit the Company's financial statements for the fiscal year ended June 3, 2011. Dudley, Hopton-Jones has served as independent auditors to the Company since 1977. Representatives of Dudley, Hopton-Jones will be present at the annual meeting and will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions from stockholders.

During the fiscal years ended 2011 and 2010, Dudley, Hopton-Jones provided various audit and non-audit services to the Company and its subsidiary. As part of their services as the Company's auditors, they audited the consolidated financial statements of the Company and its subsidiary, the individual financial statements of the Company and Golden Flake Snack Foods, Inc. and its subsidiary and also reviewed the Company's Annual Report (Form 10-K) for filing with the Securities and Exchange Commission.

Fees billed by Dudley, Hopton-Jones:

The following table shows information about fees billed to the Company by Dudley, Hopton-Jones.

	<u>FYE 2011</u>	<u>FYE 2010</u>

All Other Fees (4)	-0-	-0-
Total Fees	<u>\$140,700</u>	<u>\$160,150</u>

(1) Current FYE 2011 audit fees consist of the aggregate fees billed for professional services rendered for the audit of the Company's annual financial statements and for the timely reviews of quarterly financial statements and assistance with the review of documents filed with the SEC.

- (2) Audit related fees consist of the aggregate fees billed for audit of the Company's and the Company's subsidiary.
- (3) Tax fees consist of the aggregate fees billed for professional services rendered for tax compliance including tax planning, tax advice, the preparation of tax returns, audit of tax returns, and claims for refunds.
- (4) All other fees: Dudley, Hopton-Jones did not provide any other services to the Company than those described above nor were there any other fees billed to the Company than those described above.

The Audit Committee is required by its policy to pre-approve all services to be rendered by the Company's Independent Auditors prior to performance of such services. Pre-approval of services may be done in one of two ways, specific pre-approval or general pre-approval. With the use of specific pre-approval, the Audit Committee must specifically pre-approve the services that are to be rendered by the Independent Auditors prior to their engagement to render such services. The Audit Committee has elected to implement the specific pre-approved policy and procedure. As a result, all services provided by the Independent Auditors must be specifically pre-approved by the Audit Committee.

The services of the Independent Auditors described above were specifically pre-approved by the Audit Committee prior to the engagement of the Independent Auditors to render such services.

The Company has not selected the principal accountants to audit its financial statements for the current fiscal year. It is the Company's policy to select its principal accountants after the preceding year's audit has been completed and the Company has had time to consider the selection.

Carr, Riggs & Ingram, LLC, Certified Public Accountants were selected by the Audit Committee and ratified by the Board of Directors as the independent accountants to audit the employee benefit plans of the Company and the Company's subsidiary ("Employee Benefit Plans"). In addition, Carr, Riggs & Ingram was also used to handle certain consulting matters for the Company. The Audit Committee specifically pre-approved the use of Carr, Riggs and Ingram to perform audit services for the Employee Benefit Plans for the fiscal year ended June 3, 2011 along with the 2012 fiscal year.

Fees billed by Carr, Riggs & Ingram:

The following table shows information about fees billed to the Company by Carr, Riggs & Ingram.

(2) All other fees: Carr, Riggs & Ingram provided consulting services to the Company other than those described above.

FINANCIAL STATEMENTS

Consolidated Financial Statements of the Company and its subsidiary for the fiscal year ended June 3, 2011 are contained in the 2011 Annual Report to Stockholders which accompanies this Proxy Statement. However, such Report and Financial Statements contained therein are not to be considered a part of this solicitation material since they are not deemed material to the matters to be acted upon at the meeting.

STOCKHOLDER PROPOSALS FOR 2012 ANNUAL MEETING

Any stockholder desiring to submit a proposal to be considered by the Board of Directors for inclusion in the proxy statement and form of proxy relating to next year's Annual Meeting of Stockholders must do so in writing received by the Company on or before June 4, 2012. Any other stockholder proposals for the Company's 2012 Annual Meeting of Stockholders must be received no later than July 23, 2012. The proposals must comply with all applicable statutes and regulations. Any such proposals should be submitted to Golden Enterprises, Inc., Attention: Patty Townsend, CFO, Vice President & Secretary, One Golden Flake Drive, Birmingham, Alabama 35205.

CODE OF CONDUCT AND ETHICS

Golden Enterprises has adopted a Code of Conduct and Ethics that applies to its directors, officers and employees and to all employees, directors and officers of Golden Flake Snack Foods, Inc. The Code of Conduct and Ethics and any amendments thereto, are available on Golden Flake's website at www.goldenflake.com. Any waiver from the Code of Conduct and Ethics for Directors and Officers also will be made available on Golden Flake's website at www.goldenflake.com.

HOUSEHOLDING

The SEC's rules permit companies and intermediaries such as brokers to satisfy delivery requirements for Proxy Statements with respect to two or more stockholders sharing the same address by delivering a single Proxy Statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for stockholders and cost savings for companies. Some brokers household Proxy Statements, delivering a single Proxy Statement to multiple stockholders sharing an address. Once you have received notice from your broker that it will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If at any time you no longer wish to participate in householding and would prefer to receive a separate Proxy Statement, please notify your broker. If you would like to receive a separate copy of this Proxy Statement from us directly, please contact us by writing or telephone as follows:

Golden Enterprises, Inc.

PART I

ITEM 1. – DESCRIPTION OF BUSINESS

Golden Enterprises, Inc. (the “Company”) is a holding company which owns all of the issued and outstanding capital stock of Golden Flake Snack Foods, Inc., a wholly-owned operating subsidiary company (“Golden Flake”).

The Company was originally organized under the laws of the State of Alabama as Magic City Food Products, Inc. on June 11, 1946. On March 11, 1958, it adopted the name Golden Flake, Inc. The Company was reorganized December 31, 1967 as a Delaware corporation without changing any of its assets, liabilities, or business. On January 1, 1977, the Company, which had been engaged in the business of manufacturing and distributing potato chips, fried pork skins, cheese curls, and other snack foods, spun off its operating division into a separate Delaware corporation known as Golden Flake Snack Foods, Inc. and adopted its present name of Golden Enterprises, Inc.

The Company owns all of the issued and outstanding capital stock of Golden Flake Snack Foods, Inc.

Golden Flake Snack Foods, Inc.

General

Golden Flake Snack Foods, Inc. (“Golden Flake”) is a Delaware corporation with its principal place of business and home office located at One Golden Flake Drive, Birmingham, Alabama. Golden Flake has been a premiere producer, marketer, and distributor of snack products in the Southeastern United States since 1923. The Company manufactures and distributes a full line of high quality salted snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings, and puff corn. Golden Flake also sells canned dips, pretzels, peanut butter crackers, cheese crackers, dried meat products, and nuts packaged by other manufacturers using the Golden Flake label.

Raw Materials

Golden Flake purchases raw materials used in manufacturing and processing its snack food products from various sources. A large part of the raw materials used by Golden Flake consists of farm commodities, most notably corn, potatoes and pork skin pellets, which are subject to precipitous change in supply and price. Weather varies from season to season and directly affects both the quality and quantity of supply available. Golden Flake has no control over the agricultural aspects and its profits are affected accordingly. The Company also purchases flexible bags or other suitable wrapping material for the storage, shipment, and presentation of the finished product to our customers.

Distribution

Golden Flake sells its products through its own sales organization and independent distributors to commercial establishments which sell food products in Alabama, Tennessee, Georgia, Mississippi, Louisiana, Kentucky, and South Carolina as well as parts of Florida, North Carolina, Arkansas, Missouri, Oklahoma, Virginia, Indiana, and Texas. The Golden Flake brand is well-known throughout the Southeast. The products are distributed to its customers by either company transportation or commercial carrier out of the Birmingham and Ocala plants.

Golden Flake’s products are distributed to a wide variety of grocery store chains, discount stores, convenience stores, restaurants, and other outlets located in our marketing area. No single customer accounts for more than 10% of its total sales.

Competition

The snack foods business is highly competitive. In the area in which Golden Flake operates, many companies engage in the production and distribution of food products similar to those produced and sold by Golden Flake. Most, if not all, of Golden Flake's products are in direct competition with similar products of several local and regional companies and at least one national company, the Frito Lay Division of Pepsi Co., Inc., many of which are larger in terms of capital and sales volume than is Golden Flake. Golden Flake's marketing thrust is aimed at selling the highest quality product possible and giving good service to its customers, while being competitive with its prices. Golden Flake constantly tests the quality of its products for comparison with other similar products of competitors and maintains tight quality controls over its products. The Company believes that one of its major advantages is the Golden Flake brand, which has been developed and enhanced throughout the history of the company and is now well known within the geographic area served by the Company. The Company continues to promote the Golden Flake brand through sponsorship agreements, billboard campaigns, advertising, and other efforts.

Employees

As of July 1, 2011, Golden Flake employed approximately 793 employees. Of these employees, 767 were full-time, while 26 were part-time. Approximately 451 employees are involved in route sales and sales supervision, approximately 205 are in production, and approximately 137 are management and administrative personnel.

Golden Flake believes that the performance and loyalty of its employees are two of the most important factors in the growth and profitability of its business. Since labor costs represent a significant portion of Golden Flake's expenses, employee productivity is important to profitability. The Company's employees are not represented by any collective bargaining organization and the Company has never experienced a work stoppage. Golden Flake considers all of its employees to be a part of the "Golden Flake Family".

Environmental Matters

In November 2009, Golden Flake completed the construction on a water treatment plant as an environmentally-friendly way to dispose of process water at the Birmingham plant. The project has allowed the Company to release this water into a neighboring creek which has improved the flow of water in the creek and has positively impacted the environment in the area surrounding the plant. This project has also helped to reduce expenses associated with sewer charges by the elimination of the disposal of process water through the public sewer system.

Significant Events

The Company has recently achieved SQF (Safe Quality Food) Certification. This certification by the Safe Quality Food Institute provides third party assurance that the Company is meeting the highest industry standards for the delivery of safe quality food to the consumer throughout the food production, storage, and delivery processes. SQF certification is a high level of assurance that has been developed in response to the Global Food Safety Initiative and the Food Safety Modernization Act.

ITEM 1A. – RISK FACTORS

Important factors that could cause the Company's actual business results, performance, or achievements to differ materially from any forward looking statements or other projections contained in this Annual Form 10-K Report include, but are not limited to the principal risk factors set forth below. Additional risks and uncertainties, including risks not presently known to the Company, or that it currently deems immaterial, may also impair the Company's business and or operations. If the events discussed in these risk factors occur, the Company's business, financial condition, results of operations or cash flow could be adversely affected in a material way and the market value of the Company's common stock could decline.

Competition

Price competition and consolidation within the Snack Food industry could adversely impact the Company's performance. The Company's business requires significant marketing and sales effort to compete with larger companies. These larger competitors sell a significant portion of their products through discounting and other price cutting techniques. This intense competition increases the possibility that the Company could lose one or more customers, lose market share and/or be forced to increase discounts, and reduce pricing, any of which could have an adverse impact on the Company's business, financial condition, results of operation, and/or cash flow.

Commodity and Energy Cost Fluctuations

Significant commodity price fluctuations for certain commodities purchased by the Company, particularly potatoes, could have a material impact on results of operations. In an attempt to manage commodity price risk, the Company, in the normal course of business, enters into contracts to purchase pre-established quantities of various types of raw materials, at contracted prices based on expected short term needs. The Company can also be adversely impacted by changes in the cost of natural gas and other fuel costs. Long term increases in the cost of natural gas and fuel costs could adversely impact the Company's cost of sales and selling, marketing, and delivery expenses.

There are other risks and factors not described above that could also cause actual results to differ materially from those in any forward looking statement made by the Company.

ITEM 1B. – UNRESOLVED STAFF COMMENTS

Not Applicable.

ITEM 2. – PROPERTIES

The headquarters of the Company are located at One Golden Flake Drive, Birmingham, Alabama 35205. The properties of Golden Flake are described below.

Manufacturing Plants and Office Headquarters

The main plant and office headquarters of Golden Flake are located at One Golden Flake Drive, Birmingham, Alabama, and are situated on approximately 40 acres of land. This facility consists of three buildings which have a total of approximately 300,000 square feet of floor area. The plant manufactures a full line of Golden Flake products. Golden Flake also has a garage and vehicle maintenance service center from which it services, maintains, repairs, and rebuilds its fleet and delivery trucks in Birmingham.

Golden Flake also has a manufacturing plant in Ocala, Florida. This plant was placed in service in November 1984. The plant consists of approximately 100,000 square feet of floor area and is located on a 28-acre site on Silver Springs Boulevard. The Company manufactures tortilla chips and potato chips from this facility.

Management believes that our Company's facilities for the production of our products are suitable and adequate, that they are being appropriately utilized in line with past experience, and that they have sufficient production capacity for their present intended purposes. The extent of utilization of such facilities varies based upon seasonal demand for our products. It is not possible to measure with any degree of certainty or uniformity the productive capacity and extent of utilization of these facilities. However, management believes that additional production can be obtained at the existing facilities by adding personnel and capital equipment and, at some facilities, by adding shifts of personnel or expanding the facilities. We continuously review our anticipated requirements for facilities and, on the basis of that review, may from time to time acquire additional facilities and/or dispose of existing facilities.

The manufacturing plant and office headquarters are owned by Golden Flake.

Distribution Warehouses

Golden Flake owns central branch warehouses in Birmingham, Montgomery, Midfield, Demopolis, Fort Payne, Muscle Shoals, Huntsville, Phoenix City, Tuscaloosa, Mobile, Dothan, and Oxford, Alabama; Gulfport and Jackson, Mississippi; Knoxville and Memphis, Tennessee; Decatur and Macon, Georgia; Panama City, Tallahassee, and Pensacola, Florida; and New Orleans, Louisiana. The warehouses vary in size from 2,400 to 8,000 square feet. All central branch warehouses are owned free and clear of any debts. The Company also rents satellite warehouse branches throughout its distribution area.

ITEM 3. – LEGAL PROCEEDINGS

There are no material pending legal proceedings against the Company or its subsidiary other than ordinary routine litigation incidental to the business of the Company and its subsidiary.

ITEM 7. – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY

Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion provides an assessment of the Company’s financial condition, results of operations, liquidity, and capital resources and should be read in conjunction with the accompanying consolidated financial statements and notes.

Overview

The Company manufactures and distributes a full line of snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings, and puff corn. The products are all packaged in flexible bags or other suitable wrapping material. The Company also sells canned dips, pretzels, peanut butter crackers, cheese crackers, dried meat products, and nuts packaged by other manufacturers using the Golden Flake label.

No single product or product line accounts for more than 50% of the Company’s sales, which affords some protection against loss of volume due to a crop failure of major agricultural raw materials or failure to procure an adequate supply of pork skin pellets. Raw materials used in manufacturing and processing the Company’s snack food products are purchased on the open market and under contract through brokers and directly from growers. A large part of the raw materials used by the Company consists of farm commodities which are subject to precipitous changes in supply and price. Weather varies from season to season and directly affects both the quality and supply of farm commodities available. The Company has no control of the agricultural aspects and its profits are affected accordingly.

The Company sells its products through its own sales organization to commercial establishments that sell food products primarily in the Southeastern United States and independent distributors. The products are distributed through the independent distributors and route representatives who are supplied with selling inventory by the Company’s trucking fleet. All of the route representatives are employees of the Company and use the Company’s direct-store delivery system.

Critical Accounting Policies and Estimates

The Company’s discussion and analysis of its financial condition and results of operations are based upon the Company’s consolidated financial statements, the preparation of which in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that in certain circumstances affect amounts reported in the consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due considerations to materiality. The Company does not believe there is a great likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. Other accounting policies and estimates are detailed in Note 1 of the Notes To Consolidated Financial Statements in this 10-K.

Revenue Recognition

The Company recognizes sales and related costs upon delivery or shipment of products to its customers, including independent distributors. Sales are reduced by returns from and allowances to customers.

Accounts Receivable

The Company records accounts receivable at the time revenue is recognized. Amounts for bad debt expense are recorded in selling, general and administrative expenses on the Consolidated Statements of Operations. The amount of the allowance for doubtful accounts is based on management's estimate of the accounts receivable amount that is uncollectible. The Company records a general reserve based on analysis of historical data. In addition, the Company records specific reserves for receivable balances that are considered high-risk due to known facts regarding the customer. The allowance for bad debts is reviewed quarterly, and determined whether the amount should be changed. Failure of a major customer to pay the Company amounts owed could have a material impact on the financial statements of the Company. At June 3, 2011 and May 28, 2010, the Company had accounts receivables in the amount of \$10,220,220 and \$9,534,542, net of an allowance for doubtful accounts of \$70,000 and \$76,790, respectively. The Company did not have any major customer write-offs this year that were not covered by credit insurance.

Inventories

Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first out method.

Accrued Expenses

Management estimates certain expenses in an effort to record those expenses in the period incurred. The Company's significant estimates relate to insurance expenses. The Company is self-insured for certain casualty losses relating to automobile liability, general liability, workers' compensation, property losses, and medical claims. The Company also has stop loss coverage to limit the exposure arising from these claims. Automobile liability, general liability, workers' compensation, and property losses costs are covered by letters of credit with the company's claim administrators.

The Company uses a third-party actuary to estimate the casualty insurance obligations on an annual basis.

In determining the ultimate loss and reserve requirements, the third-party uses various actuarial assumptions including compensation trends, health care cost trends, and discount rates. The third-party actuary also uses historical information for claims frequency and severity in order to establish loss development factors.

The actuarial calculation includes a factor to account for changes in inflation, health care costs, compensation and litigation cost trends, as well as estimated future incurred claims. This year, the Company utilized a 50% confidence level for estimating the ultimate outstanding casualty liability based on the actuarial report. Approximately 50% of each claim should be equal to or less than the ultimate liability recorded based on the historical trends experienced by the Company. If the Company chose a 75% factor, the liability would have been increased by approximately \$0.3 million. If the Company chose a 90% factor, the liability would have increased by approximately \$0.5 million.

This year the Company used a 4% investment rate to discount the estimated claims based on the historical payout pattern during 2011 and 2010. A one percentage point change in the discount rate would have impacted the liability by approximately \$39,000.

Actual ultimate losses could vary from those estimated by the third-party actuary. The Company believes the reserves established are reasonable estimates of the ultimate liability based on historical trends.

As of June 3, 2011, the Company's casualty reserve was \$1,538,600 and at May 28, 2010 the casualty reserve was \$1,615,492.

Employee medical insurance accruals are recorded based on medical claims processed as well as historical medical claims experienced for claims incurred but not yet reported. Differences in estimates and assumptions could result in an accrual requirement materially different from the calculated accrual.

Other Commitments

The Company has a letter of credit in the amount of \$2,000,000 outstanding at June 3, 2011 compared to \$2,057,014 outstanding at May 28, 2010. The letter of credit supports the Company's commercial self-insurance program.

The Company has a line-of-credit agreement with a local bank that permits borrowing up to \$3 million. The line-of-credit is subject to the Company's continued credit worthiness and compliance with the terms and conditions of the loan agreement with the bank. In October 2010, the line-of-credit was renewed with no changes from the previous year. The Company's line-of-credit debt at June 3, 2011 was \$1,777,567 with an interest rate of 4.00%, leaving the Company with \$1,222,433 of credit availability. The Company's line-of-credit debt as of May 28, 2010 was \$1,781,996 with an interest rate of 4.00%, which left the Company with \$1,218,004 of credit availability.

The Company's current ratio (current assets divided by current liabilities) was 1.49 to 1.00 and 1.27 to 1.00 at June 3, 2011 and May 28, 2010, respectively.

Available cash, cash from operations, and available credit under the line of credit are expected to be sufficient to meet anticipated cash expenditures and normal operating requirements for the foreseeable future.

Operating Results

Net sales increased by 2.0% in fiscal year 2011 and 5.1% in fiscal year 2010.

Cost of sales as a percentage of net sales amounted to 51.5% and 51.3% in 2011 and 2010, respectively.

Selling, general and administrative expenses were 44.6% of net sales in 2011 and 44.0% of net sales in 2010.

Operating income for the fiscal year decreased 12.9% compared to last fiscal year.

The Company's effective tax rates for 2011 and 2010 were 41.0% and 38.3%, respectively. Note 6 to the Consolidated Financial Statements provides additional information about the provision for income taxes.

The following tables compare manufactured products to resale products for the fiscal years ended June 3, 2011 and May 28, 2010:

Total	<u>\$ 63,618,184</u>	<u>48.5%</u>	<u>\$ 62,487,676</u>	<u>48.7%</u>

Liquidity and Capital Resources

Working capital was \$7,023,694 and \$3,820,371 at June 3, 2011 and May 28, 2010, respectively. Net cash provided by operations amounted to \$5,754,535 and \$8,807,907 in fiscal years June 3, 2011 and May 28, 2010, respectively. During 2011, the principal source of liquidity for the Company's operating needs was provided from operating activities, credit facilities, and cash on hand.

Additions to property, plant and equipment are expected to be about \$3,600,000 in 2012.

Cash dividends of \$1,467,507 and \$1,469,582 were paid in 2011 and 2010, respectively.

Cash of \$36,960 was used to purchase 12,000 shares of treasury stock in fiscal 2011 while the Company did not purchase any shares of treasury stock in fiscal 2010.

During fiscal 2011, the Company's debt proceeds net of re-paid debt was \$2,575,162 versus \$1,414,583 during fiscal 2010.

Market Risk

The principal market risks (i.e. the risk of loss arising from adverse changes in market rates and prices) to which the Company is exposed are interest rates on its cash equivalents and bank loans, fuel costs, and commodity prices affecting the cost of its raw materials.

The Company is subject to market risk with respect to commodities because its ability to recover increased costs through higher pricing may be limited by the competitive environment in which it operates. The Company purchases its raw materials on the open market, under contract through brokers and directly from growers. Futures contracts have been used occasionally to hedge immaterial amounts of commodity purchases, but none are presently being used.

Inflation

Certain costs and expenses of the Company are affected by inflation. The Company's prices for its products over the past several fiscal years have remained relatively flat. The Company plans to contend

with the effect of further inflation through efficient purchasing, improved manufacturing methods, pricing, and by monitoring and controlling expenses.

Higher fuel and commodity costs continue to be a challenge.

Environmental Matters

Golden Flake's waste water treatment plant is an environmentally-friendly way to dispose of process water at the Birmingham plant. The treatment plant has allowed Golden Flake to release the processing water into a neighboring creek which has improved the flow of water in the creek and has positively impacted the environment in the area surrounding the plant. The treatment plant has also helped to reduce expenses associated with sewer charges since this has replaced the previous system which disposed of the process water through the public sewer system.

Forward-Looking Statements

This report contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those forward-looking statements. Factors that may cause actual results to differ materially include price competition, industry consolidation, raw material costs, fuel costs, and effectiveness of sales and marketing activities, as described in this 10-K. You are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date which they are made.

Recent Developments

The Company, in compliance with Section 404 of the Sarbanes-Oxley Act of 2002 has completed the management assessment of its internal controls. See Item 9A for further details.

Recently Issued Accounting Pronouncements

See Note 1 to the consolidated financial statements included in Item 8 for a summary of recently issued accounting pronouncements.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Stockholders and
Board of Directors of
Golden Enterprises, Inc.

We have audited the accompanying consolidated balance sheets of Golden Enterprises, Inc. and subsidiary as of June 3, 2011 and May 28, 2010, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended. Our audits also included the financial statement schedule listed at Item 15(a) Schedule II. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Golden Enterprises, Inc. and subsidiary as of June 3, 2011 and May 28, 2010, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We were not engaged to examine management's assertion about the effectiveness of Golden Enterprises, Inc. and subsidiary's internal control over financial reporting as of June 3, 2011 included in the Company's Item 9A "Controls and Procedures" in the Annual Report on Form 10-K and, accordingly, we do not express an opinion thereon.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Fiscal Years Ended June 3, 2011 and May 28, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Golden Enterprises, Inc. and subsidiary ("Company") conform to accounting principles generally accepted in the United States of America and to general practices within the snack foods industry. The following is a description of the more significant accounting policies:

Nature of the Business

The Company manufactures and distributes a full line of snack items that are sold through its own sales organization and independent distributors to commercial establishments that sell food products primarily in the Southeastern United States.

Consolidation

The consolidated financial statements include the accounts of Golden Enterprises, Inc. and its wholly-owned subsidiary, Golden Flake Snack Foods, Inc.. All significant inter-company transactions and balances have been eliminated.

Revenue Recognition

The Company recognizes sales and related costs upon delivery or shipment of products to its customers. Sales are reduced by returns and allowances to customers.

Accounts Receivable

The Company records accounts receivable at the time revenue is recognized. Amounts for bad debt expense are recorded in selling, general and administrative expenses. The determination of the allowance for doubtful accounts is based on management's estimate of uncollectible accounts receivables. The Company records a general reserve based on analysis of historical data. In addition, management records specific reserves for receivable balances that are considered at higher risk due to known facts regarding the customer.

Fiscal Year

The Company ends its fiscal year on the Friday closest to the last day in May. The year ended June 3, 2011 included 53 weeks while the year ended May 28, 2010 included 52 weeks.

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, receivables, accounts payable, and short-term debt approximate fair value.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Inventories

Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first-out method.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. For financial reporting purposes, depreciation and amortization have been provided principally on the straight-line method over the estimated useful lives of the respective assets. Accelerated methods are used for tax purposes.

For the Fiscal Years Ended June 3, 2011 and May 28, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Expenditures for maintenance and repairs are charged to operations as incurred; expenditures for renewals and betterments are capitalized and written off by depreciation and amortization charges. Property retired or sold is removed from the asset and related accumulated depreciation accounts and any profit or loss resulting there from is reflected in the statements of operations.

Self-Insurance

The Company is self-insured for certain casualty losses relating to automobile liability, general liability, workers' compensation, property losses, and medical claims. The Company also has stop loss coverage to limit the exposure arising from these claims. Automobile liability, general liability, workers' compensation, and property losses costs are covered by letters of credit with the company's claim administrators.

Due to the complexity of estimating the timing and amounts of insurance claims, the Company uses a third-party actuary to estimate the casualty insurance obligations on an annual basis. In determining the ultimate loss and reserve requirements, the third-party uses various actuarial assumptions including compensation trends, health care cost trends, and discount rates. The third-party actuary also uses historical information for claims frequency and severity in order to establish loss development factors. The actuarial calculation includes a factor to account for changes in inflation, health care costs, compensation, and litigation cost trends, as well as estimated future incurred claims. Large fluctuations in claims can have a significant impact on selling, general and administrative expenses.

Advertising

The Company expenses advertising costs as incurred. These costs are included in selling, general and administrative expenses. Advertising expense amounted to \$7,027,456 and \$6,587,476 for the fiscal years 2011 and 2010, respectively.

Income Taxes

Deferred income taxes are provided using the liability method to measure tax consequences resulting from differences between financial accounting standards and applicable income tax laws. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Segment Information

The Company does not identify separate operating segments for management reporting purposes. The results of operations are the basis on which management evaluates operations and makes business decisions. The Company's sales are generated primarily within the Southeastern United States.

Stock Options

The Company has granted stock options to management in previous years, though none were granted during fiscal years ended June 3, 2011 or May 28, 2010. See Note 8 for further discussion of our stock option awards.

Shipping and Handling Costs

Shipping and handling costs, which include salaries and vehicle operations expenses relating to the delivery of products to customers by the Company, are classified as selling, general and administrative expenses. Shipping and handling costs amounted to \$4,020,946 and \$3,588,124 for the fiscal years 2011 and 2010, respectively.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements.” SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 157 did not have a material impact on our financial condition, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities: Including an amendment of FASB Statement No. 115.” SFAS No. 159 permits entities to measure many financial instruments and certain other items at fair value with changes in fair value reported in earnings. The FASB issued SFAS No. 159 to mitigate earnings volatility that arises when financial assets and liabilities are measured differently, and to expand the use of fair value measurement for financial instruments. SFAS No. 159 is effective for our fiscal year beginning May 31, 2008. The adoption of SFAS No. 159 did not have a material impact on our financial condition, results of operations or cash flows.

In May 2009, the FASB issued SFAS No. 165, “Subsequent Events.” SFAS No. 165 establishes general standards of accounting for and disclosure of events occurring subsequent to the date of the balance sheet, but before financial statements are issued.

NOTE 5 – LONG-TERM LIABILITIES

Long-term debt at June 3, 2011 and May 28, 2010 consists of the following:

In March 2009, the Company established a construction line of credit with interest-only payments due through the end of the construction period at a fixed rate of 4.25%. In September 2009, the loan converted to a 10-year, 4.25% fixed rate equipment note, payable in equal monthly installments based on the final amount drawn during the construction period which was \$4,000,000. In March 2011, the loan was modified by taking the remaining balance of \$3,532,700 and adding another \$2,900,000 to finance the implementation of a new Enterprise Resource Planning system. At that time, the interest rate on the loan was adjusted to 3.52% and the terms were re-established at 15 years for the new amount of the loan.

NOTE 7 – EMPLOYEE BENEFIT PLANS

The Company has a trustee “Qualified Profit-Sharing Plan” that was amended and restated effective September 1, 2010, known as the Golden Flake Snack Foods, Inc. 401(k) Retirement Savings Plan (the “Plan”). Prior to September 1, 2010, the Plan was named the Golden Flake Snack Foods, Inc. 401(k) Salary Reduction Plan. The Plan’s trustee was changed from New York Life Trust Company to State Street Bank and Trust Company effective September 1, 2010. Also, the Company appointed Diversified Investment Advisors to provide recordkeeping and general administrative services for the Plan effective September 1, 2010.

The Company’s contributions to the Plan are reviewed and approved by the Board of Directors. For the year ended June 3, 2011, the Board approved an increase in the Company match from 20% of an employee’s eligible contributions to 25% of an employee’s eligible contributions. Total plan contributions for the years ended June 3, 2011 and May 28, 2010 were \$166,305 and \$133,851, respectively.

The Company previously maintained a “Qualified Profit Sharing Plan” named the Golden Flake Snack Foods, Inc. Amended and Restated Employee Stock Ownership Plan and Trust (“ESOP”). The ESOP merged into the Plan on August 31, 2010 and is no longer in existence. All account balances in the ESOP were fully vested. Immediately after the merger, each participant in the ESOP has their account balances in the ESOP prior to the merger added to their account balances in the Plan. Years of service accrued through August 31, 2010 under the ESOP were recognized under the Plan.

The Company has a salary continuation plan with certain of its key officers whereby monthly benefits will be paid for a period of fifteen years following retirement. The Company is accruing the present value of all retirement benefits until the key officers reach normal retirement age at which time the principal portion of the retirement benefits paid are applied to the liability previously accrued. The change in the liability for the Salary Continuation Plan is as follows:

	<u>2011</u>	<u>2010</u>
Accrued salary continuation plan - beginning of year	\$ 1,472,063	\$ 1,557,251

Accrued salary continuation plan - end of year	<u>\$ 1,379,557</u>	<u>\$ 1,472,063</u>

NOTE 8 – LONG-TERM INCENTIVE PLANS

The Company has a long-term incentive plan currently in effect under which future stock option grants were previously issued. This Plan is administered by the Stock Option Committee of the Board of Directors, which had sole discretion, subject to the terms of the Plan, to determine those employees, including executive officers, eligible to receive awards and the amount and type of such awards. The Stock Option Committee also has the authority to interpret the Plan and make all other determinations required in the administration thereof. All options outstanding on June 3, 2011 are exercisable.

The Plan provided for the granting of Incentive Stock Options as defined under the Internal Revenue Code. Under the Plan, grants of incentive stock options were made to selected officers and employees, with a term not exceeding ten years from the issue date and at a price not less than the fair market value of the Company's stock at the date of grant. No awards or options may now be granted under the Plan.

Five hundred thousand shares of the Company's stock were initially reserved for issuance under this Plan. The following is a summary of transactions:

The Company adopted SFAS 123R as of June 3, 2006. SFAS 123R establishes standards for accounting of transactions in which an entity exchanges its equity instruments for goods or services, such as when an entity obtains employee services in share-based payment transactions. The revised statement requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The cost is to be recognized over the period during which the employee is required to provide service in exchange for the award. Changes in fair value during the required service period are to be recognized as compensation cost over the period. In addition, SFAS 123R amends SFAS No. 95, "Statement of Cash Flows," to require that excess tax benefits be reported as a financing cash flow rather than as a reduction of taxes paid. When the Company adopted SFAS 123R, they elected the modified prospective application method and prior period amounts have not been restated. As of June 3, 2011, all outstanding options were fully vested. Additionally, no options were granted during the fiscal years ended June 3, 2011 or May 28, 2010.

Prior to the effective date of SFAS 123R, the Company followed Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretation for stock options granted to employees and directors. The Company adopted the disclosure-only provisions of SFAS No. 123, "Accounting for Stock-Based Compensation," as amended by SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure." The proforma disclosures previously permitted under SFAS 123 are no longer an alternative to financial statement recognition. The Company continues to account for any portion of previously granted awards using the accounting principle originally applied to those awards, APB Opinion No. 25, Accounting for Stock Issued to Employees.

NOTE 9 – NET INCOME PER SHARE

Basic earnings per common share are computed by dividing earnings available to stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects per share amounts that would have resulted if dilutive potential common stock equivalents had been converted to common stock, as prescribed by Statement of Financial Accounting Standards No. 128, “Earnings per Share”. At June 3, 2011, options on the 329,000 shares were not included in the computation of diluted earnings per share because the options’ exercise price was greater than the average market price of the common shares and, therefore, the effect would be antidilutive. At May 28, 2010 options on the 329,000 shares were also antidilutive. Thus, they were also not included in the computation of diluted earnings per share. The following reconciles the information used to compute basic and diluted earnings per share:

	<u>Average Common Stock Shares</u>	
	<u>2011</u>	<u>2010</u>
Basic weighted average shares outstanding	11,735,893	11,746,632
Effect of options	-	-
	<u>11,735,893</u>	<u>11,746,632</u>

NOTE 10 – DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

The Statement of Financial Accounting Standards No. 107, “Disclosures About Fair Value of Financial Instruments” requires disclosure of fair value information about financial instruments, whether or not recognized on the face of the balance sheet, for which it is practical to estimate that value. SFAS 107 defines fair value as the quoted market prices for those instruments that are actively traded in financial markets. In cases where quoted market prices are not available, fair values are estimated using present value or other valuation techniques. The fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instruments, such as estimates of timing and amount of expected future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company’s entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized gains or losses. In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instrument.

The carrying amounts for cash and cash equivalents approximate fair value because of the short maturity, generally less than three months, of these instruments.

The carrying value of the Company’s salary continuation plan and accrued liability approximates fair value because present value is used in accruing this liability.

The Company does not hold or issue financial instruments for trading purposes and has no involvement with forward currency exchange contracts.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

Rental expense was \$1,230,657 in 2011 and \$1,077,074 in 2010.

The Company has entered into various operating lease agreements to replace aging route vans and transport trucks. The current annual obligation under this agreement is \$976,950. Future minimum lease commitments for operating leases at June 3, 2011 were as follows:

2012	\$	976,950
2013		976,950
2014		627,081
2015		137,264
2016		68,632

The Company has a letter of credit in the amount of \$2,000,000 outstanding at June 3, 2011 compared to \$2,057,014 outstanding at May 28, 2010. The letter of credit supports the Company's commercial self-insurance program. The Company pays a commitment fee of 0.76% to maintain the letters of credit.

The Company has entered into various other short term purchase commitments with suppliers for raw materials in the normal course of business.

The Company is subject to routine litigation and claims incidental to its business. In the opinion of management, such routine litigation and claims should not have a material adverse effect upon the Company's consolidated financial statements taken as a whole.

NOTE 12 - CONCENTRATIONS OF CREDIT RISK

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents and trade receivables.

The Company maintains deposit relationships with high credit quality financial institutions. The Company's trade receivables result primarily from its snack food operations and reflect a broad customer base, primarily large grocery store chains located in the Southeastern United States. The Company routinely assesses the financial strength of its customers. As a consequence, concentrations of credit risk are limited.

The Company did not have any major customer write-offs this year that were not covered by credit insurance.

NOTE 13 – SUPPLEMENTARY STATEMENT OF INCOME INFORMATION

The following tabulation gives certain supplementary statement of income information for the years ended June 3, 2011 and May 28, 2010:

	<u>2011</u>	<u>2010</u>
Maintenance and repairs	\$ 6,374,611	\$ 6,431,681
Depreciation	3,174,956	2,485,679
Payroll taxes	2,331,658	2,352,597

Amounts for other taxes, rents, and research and development costs are not presented because each of such amounts is less than 1% of total revenues.

NOTE 14 – SUBSEQUENT EVENT

A Purchase and Sales Agreement was executed by and between Golden Flake Snack Foods, Inc. as Seller, and Verizon Wireless Personal Communications LP as Purchaser, on April 4, 2011, for the sale of approximately 1 acre of land located adjacent to the Company’s central warehouse in Pensacola, Florida. The purchase price was \$100,000.00. The sale was closed on June 17, 2011.

ITEM 9A(T). – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our company’s management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of June 3, 2011. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of

achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 3, 2011, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Management's Assessment on Internal Control over Financial Reporting

The management of the company is responsible for establishing and maintaining adequate internal control over financial reporting for the company. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, the company's principal executive and principal financial officers and effected by the company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The company's management assessed the effectiveness of the company's internal control over financial reporting as of June 3, 2011. In making this assessment, the company's management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its Internal Control-Integrated Framework.

Based on our assessment, management concluded that, as of June 3, 2011, the company's internal control over financial reporting is effective based on those criteria set forth.

The annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

No change in our internal controls over financial reporting occurred during the fiscal quarter ended June 3, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
