Independent Auditor's Report

December 23, 2010

Board of Directors
GWM Group, Inc.
410 Park Avenue Suite 410
New York, NY 10022

I have audited the accompanying balance sheet of GWM Group, Inc., as of October 31, 2010, and the related statements of income, retained earnings, changes in stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material aspects, the financial position of GWM Group, Inc. as of October 31, 2010, and the results of its operations, retained earnings, changes in stockholders equity, and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My examination was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplemental schedules of computation of net capital, computation of basic net capital requirement, computation of aggregate indebtedness, exemptive provisions under rule 15c3-3, statement of changes in liabilities subordinated to the claims of general creditors, and the reconciliation of the computation of net capital under rule 15c3-1, are presented for additional analysis and are not a required part of the basic financial statements, but are supplementary information required by rule 17a-5 of the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects to the basic financial statements taken as a whole.

Further, there were no material differences in the audited Computation of Net Capital and the broker-dealer's corresponding Unaudited Part II or IIA of the focus report as required under Rule 15c3-1.

REPORT ON INTERNAL CONTROL

For the year Ended October 31, 2010

Edward Richardson, Jr., CPA
15565 Northland Suite 508 West
Southfield, MI. 48075

December 23, 2010

Board of Directors
GWM Group, Inc.
410 Park Avenue Suite 410
New York, NY 10022

In planning and performing my audit of the financial statements and supplemental schedules of GWM Group, Inc. for the year ended October 31, 2010, I considered its internal control, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements, and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the company, including tests of such practices and procedures that I considered relevant to the objective stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control, and the practices and procedures referred to the preceding paragraphs. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraphs and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute assurance, that assets for which the Company has responsibility are safeguarded against loss from authorized use of disposition, and that transactions are executed in accordance with management's authorization and recorded property to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraphs.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection or any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted the following condition that I consider to be a material weakness as defined above.

Only one person is responsible for all accounting and reporting functions. Accordingly, there is no segregation of duties. Due to the size of the Company, management does not feel it is cost-effective to change this condition.

I understand that practices and procedures that accomplish the objectives referred to in the preceding paragraphs of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and my study, I believe that the Company's practices and procedures were adequate at October 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC and the regulatory agencies that rely on rule 17a-5(g) under the Securities and Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be, and should not be, used by anyone other than these specified parties.
