INDEPENDENT AUDITORS' REPORT

Board of Directors
Regional Brokers, Inc.
Philadelphia, Pennsylvania

We have audited the accompanying statements of financial condition of Regional Brokers, Inc. as of December 31, 2010 and 2009, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Regional Brokers, Inc. as of December 31, 2010 and 2009, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information accompanying the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements, but Schedule I is required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

 NOTES TO FINANCIAL STATEMENTS

NOTE A - Summary of Significant Accounting Policies

Business Activity - Regional Brokers, Inc. (the "Company"), incorporated under the laws of the Commonwealth of Pennsylvania on May 18, 1992, is registered with the Securities and Exchange Commission as a Municipal Securities Broker/Dealer as defined in Rule 15c3-1(k)(2)(ii) under the Securities Exchange Act of 1934. A municipal securities broker/dealer acts as an undisclosed agent in the purchase or sale of municipal securities for a registered broker or dealer or registered municipal securities dealer, has no "customers" as defined in SEC Reg. §240.15c3-1 and may effect transactions on its own behalf. The Company's customers are located mostly in the Northeast Region of the United States.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash - Cash consists of funds held in checking and money market accounts at two banks.

Accounts Receivable - The Company charges income for doubtful accounts when they are considered uncollectible. Management considers the receivables to be fully collectible at the balance sheet dates, and no provision for uncollectible accounts has been made.

Furniture and Equipment - Furniture and equipment are stated at cost. Maintenance, repairs and minor renewals are charged to operations as incurred. Depreciation is provided over the estimated useful lives of the assets on an accelerated method. The estimated useful lives of the various classes of assets are:

	<u>Range in Years</u>
Office equipment	5
Furniture and fixtures	5 - 7
Computer equipment	3 - 5

Commissions - Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Advertising Costs - The Company expenses advertising costs as incurred. Advertising costs for the years ended December 31, 2010 and 2009 were \$3,720 and \$1,750, respectively.

Income Taxes - The stockholders have elected for the Company to be an S corporation for federal and state income tax purposes. Profits or losses pass through to the stockholders to be included in their individual income tax returns. Therefore, no provision or liability for federal and state income taxes is required.

The federal income tax returns of the Company for 2007, 2008 and 2009 are subject to examination by the federal, state and local taxing jurisdictions, generally for three years after they were filed.

NOTE B - Fair Value Measurements

The Fair Value Measurements Topic of the FASB *Accounting Standards Codification* defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by the Fair Value Measurements Topic, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis using quoted prices in active markets as of December 31, 2010 and 2009:

	Level 1

CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITORS' REPORT ON
INTERNAL ACCOUNTING CONTROLS**

Board of Directors
Regional Brokers, Inc.
Philadelphia, Pennsylvania

In planning and performing our audit of the financial statements of Regional Brokers, Inc. as of and for the year ended December 31, 2010 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Regional Brokers, Inc.'s management is responsible for Regional Brokers Inc.'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. 4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related supporting schedules and working papers from Regional Brokers' general ledger supporting the adjustments noting no differences.
