Report of Independent Registered Public Accounting Firm

Board of Directors
Delta Trust Investments, Inc.
Little Rock, Arkansas

We have audited the accompanying statements of financial condition of Delta Trust Investments, Inc. (a wholly-owned subsidiary of Delta Trust & Bank) as of December 31, 2010 and 2009, and the related statements of income, changes in stockholder's equity, and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Delta Trust Investments, Inc. as of December 31, 2010 and 2009, and the results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information contained on pages 12 through 14 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DELTA TRUST INVESTMENTS, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Nature of operations -

Delta Trust Investments, Inc. (the Company) is a wholly-owned subsidiary of Delta Trust & Bank, which is a wholly-owned subsidiary of Delta Trust & Banking Corporation. The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company earns its revenue primarily from the sale of equities, mutual funds and bonds.

The Company conducts its business primarily in the state of Arkansas and is subject to competition from other securities dealers. The Company is also subject to the regulation of certain federal and state agencies and undergoes periodic examinations by those regulatory authorities.

Commission revenue and related expenses are recorded on a trade date basis. The Company clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer and promptly transmits all customer funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

Basis of financial statement presentation -

The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective during the Company's fiscal year ending December 31, 2009. At that time, the ASC became FASB's officially recognized source of authoritative GAAP applicable to all nongovernmental entities, superseding previously existing accounting and reporting standards.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Off-balance-sheet risk -

The Company's customer securities transactions are introduced on a fully disclosed basis with its clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers of the Company and is responsible for the execution, collection, and payment of funds and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that the customers may be unable to fulfill their contractual commitments, wherein the clearing broker-dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the creditworthiness of its customers and procedures to ensure that customer transactions are executed properly by the clearing broker-dealer.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Statement of changes in subordinated liabilities -

The accompanying financial statements do not include a statement of changes in liabilities subordinated to the claims of general creditors as required under Rule 17a-5 of the Act, since no such liabilities existed at December 31, 2010 and 2009 or during the years then ended.

Cash and cash equivalents -

For purposes of the statement of cash flows, cash and cash equivalents include cash on hand and demand deposits in commercial banks and brokerage firms. Cash segregated under federal and other regulations are not considered as cash equivalents for purposes of the statement of cash flows because such assets would be segregated for the benefit of customers only. At December 31, 2010 and 2009, no amounts were required to be segregated pursuant to federal and other regulations.

Deposits with clearing organization -

The Company maintains deposits with its clearing broker-dealer that principally consist of money market mutual funds and are carried at cost. Although these funds invest mainly in U.S. government obligations and other high quality fixed income securities, such funds are not federally insured.

Premises and equipment -

Depreciable assets are stated at cost less accumulated depreciation. Depreciation is charged to expense using the straight-line method over the estimated useful lives of the assets.

Income taxes -

The Company participates in the filing of consolidated federal and Arkansas income tax returns with its parent companies and other affiliated entities. Each member's tax is computed based on separately determined taxable income. The consolidated returns are no longer subject to federal or Arkansas income tax audits by tax authorities for years prior to 2007.

Deferred tax assets and liabilities are recognized for the tax effects of differences between the financial statement and tax bases of assets and liabilities. A valuation allowance is established to reduce deferred tax assets if it is more likely than not that a deferred tax asset will not be realized.

Stock-based compensation -

The Company has a stock-based employee compensation plan which is more fully described in Note 5. The Company applies the fair value method of recording stock-based compensation for all stock options granted after December 31, 2005 as prescribed by ASC Topic 715. The cost of stock-based awards is recognized over the period during which the employee is required to provide service in exchange for the award. No stock-based compensation cost is reflected in the net income for stock options granted prior to January 1, 2006.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Reclassifications -

Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 basis of presentation.

Subsequent events -

The Company has evaluated subsequent events through February 15, 2011, the date these financial statements were available to be issued.

(2) INCOME TAXES:

The provision for income taxes consists of the following:

	<u>2010</u>	<u>2009</u>
Taxes currently payable	\$ 248,526	\$ 80,070
Deferred income taxes	<u>(5,720)</u>	<u>(5,528)</u>
Income tax provision	<u>\$ 242,806</u>	<u>\$ 74,542</u>

The effective tax rate differs from the statutory federal income tax rate primarily due to state income taxes and non-deductible expenses.

The tax effect of temporary differences between the tax basis of assets and liabilities and their financial reporting amounts that give rise to deferred tax assets and liabilities at December 31, 2010 and 2009 are as follows:

	<u>2010</u>	<u>2009</u>
Deferred tax assets:		
Stock-based compensation	<u>\$ 32,380</u>	<u>\$ 24,652</u>
Deferred tax liabilities:		
Accumulated depreciation	4,493	1,979
Prepaid expenses	<u>13,223</u>	<u>13,729</u>
	<u>17,716</u>	<u>15,708</u>
Net deferred tax asset	<u>\$ 14,664</u>	<u>\$ 8,944</u>

(3) NET CAPITAL REQUIREMENTS:

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. The Company is also subject to a \$250,000 minimum net capital requirement. The Company's excess net capital and ratio of aggregate indebtedness to net capital at December 31, 2010 and 2009 is summarized as follows:

(3) NET CAPITAL REQUIREMENTS (continued):

	<u>2010</u>	<u>2009</u>
Net capital, as defined	\$ 1,563,813	\$ 1,197,112
Minimum net capital requirement	<u>250,000</u>	<u>250,000</u>
Excess net capital	<u>\$ 1,313,813</u>	<u>\$ 947,112</u>
Ratio of aggregate indebtedness to net capital	0.25 to 1	0.16 to 1

(4) RELATED PARTY TRANSACTIONS:

The Company has entered into agreements with Delta Trust & Bank (the Bank) whereby the Bank has agreed to provide various services for the Company and the Company has agreed to reimburse the Bank for its costs of those services and for its portion of rent expense for office space. Reimbursements for services for the years ended December 31, 2010 and 2009 totaled approximately \$170,000 and \$151,000, respectively. Reimbursements for rent for the years ended December 31, 2010 and 2009 totaled approximately \$117,000 and \$111,000, respectively. The Company also received commission income from the Bank during the years ending December 31, 2010 and 2009 totaling approximately \$49,000 and \$25,000, respectively. Cash at December 31, 2010 and 2009 includes \$17,268 and \$23,677, respectively, on deposit at the Bank.

The Company has entered into an agreement with Delta Trust Insurance Agency, Inc. (DTIA) whereby the Company has agreed to provide various services to DTIA at cost. Other receivables at December 31, 2010 and 2009 include \$7,843 and \$3,071, respectively, due from DTIA. Accounts payable and accrued expenses at December 31, 2010 also include \$1,601 due to DTIA.

(5) EMPLOYEE BENEFIT PLANS:

The Company participates with the Bank and its affiliates in a 401(k) plan covering substantially all employees. The Company's contributions to the plan are discretionary and are determined annually by the Board of Directors. The Company's matching contributions to the plan totaled \$24,576 during 2010. The Company did not make any matching contributions during 2009.

The Company participates in a non-qualified stock option plan under which shares of Delta Trust & Banking Corporation stock are reserved for grant to selected employees of the Company and its affiliates. Plan participants, upon approval by the Board of Directors, become vested and eligible to purchase Delta Trust & Banking Corporation stock based on the terms of each individual option or warrant agreement. The agreements expire after 10 years and provide for vesting periods ranging from immediate vesting to five-year graded vesting. The purchase price of the stock is equivalent to 100% of the market price (determined by the Board of Directors) at the time of grant. All shares issued in connection with options exercised are in the form of newly issued shares.

(5) EMPLOYEE BENEFIT PLANS (continued):

The fair value of options granted is estimated on the date of the grant using the Black-Scholes option-pricing model with the assumptions noted in the following table. Expected stock volatility is based on historical volatility of the Company's stock price for the same period as the expected term of the options. The expected term of the options is based on historical employee exercise and termination behavior.

	<u>2010</u>	<u>2009</u>
Expected dividend yield	0.60%	0.80%
Expected stock volatility	3.29%	3.34%
Risk-free rate	3.68%	2.72%
Expected term (in years)	9.00	9.00

A summary of the status of shares under option to Company employees at December 31, 2010 and 2009, and changes during the years then ended is presented below:

Report of Independent Registered Public Accounting Firm
on Internal Control Required by SEC Rule 17a-5(g)(1)

Board of Directors
Delta Trust Investments, Inc.
Little Rock, Arkansas

In planning and performing our audit of the financial statements and additional information of Delta Trust Investments, Inc. (the Company) as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e)
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously. However, we identified certain deficiencies in internal control that we consider to be significant deficiencies, and communicated them in writing to management and those charged with governance on February 15, 2011.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for the use of the stockholders and management of Delta Trust Investments, Inc., the SEC, the Financial Industry Regulatory Authority, the Arkansas Securities Department, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Report of Independent Registered Public Accounting Firm
on Applying Agreed-Upon Procedures to an Entity's
SIPC Assessment Reconciliation

Board of Directors
Delta Trust Investments, Inc.
Little Rock, Arkansas

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments [General Assessment Reconciliation (Form SIPC-7)] to the Securities Investor Protection Corporation (SIPC) for the year ended December 31, 2010, which were agreed to by Delta Trust Investments, Inc. (the Company) and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and SIPC, solely to assist you and the other specified parties in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries noting no differences;
2. Compared the amounts reported on the audited Form X-17A-5 for the year ended December 31, 2010, as applicable, with the amounts reported in Form SIPC-7 for the year ended December 31, 2010 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers noting no differences;
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers noting no differences; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7T on which it was originally computed noting no differences.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
